

Appropriate to use bright yellow tiles as pans

Appropriate to use orange tiles as covers

Notes:

1. Blend consists of 50% Blended Red, 45% #8 Mix, and 5% Franciscan Blend tiles as manufactured by Gladding Mcbean.
2. Blending of shade is particularly important to avoid streaks, or concentration of color known as "hot spots".
3. Bright yellow tiles must be used as pans (not covers).
4. Lay clay roofing tiles by spacing pan rows 10 3/4" on centers. Cover tile and pan tile shall not exceed 14" exposure. This system uses a headlap of 4".
