

# Conformal symmetry: Template for QCD

- **Take conformal symmetry as initial approximation; then correct for non-zero beta function and quark masses**
- **Eigensolutions of ERBL evolution equation for distribution amplitudes**  
V. Braun et al;  
Frishman, Lepage, Sachrajda, sjb
- **Commensurate scale relations: relate observables at corresponding scales: Generalized Crewther Relation**
- **Fix Renormalization Scale (BLM)**
- **Use AdS/CFT**
