

# 4<sup>th</sup> Annual CISL Symposium

## Monday, December 14, 2009

### Clark Auditorium

### 8:00am - 1:00pm

*Interested in Immersive & Simulation-based Learning?*

*Want to learn how it's used in Medicine?*

*Do you want to get some new ideas?*

Come and hear Stanford Faculty and Staff present their work in simulation and immersive learning. There will be brief 5-7 minute presentations showcasing **research**, **work in progress** and **project updates**. Presentation highlights include (but are not limited to):

- Cognitive Aids: Lessons on the Use and Development from Pilot Studies in Simulation Courses - Sara Goldhaber-Fiebert, MD
- Using Hand-held Video to Prepare Students for Clerkships - Lars Osterberg, MD
- Multidisciplinary Team Approach to Crisis Events: CVICU Simulation Program - Erica Barnum, MD & Andy Shin, MD
- A Simulation-Driven, Patient Safety Program to Improve Outcomes on Medical and Surgical Hospital Units (work in progress) - Nancy Szaflarski, PhD, RN
- Beginning a Virtual Sound Lab - Ian Tong, MD

There will be updates on the progress and proposed activities in the Li Ka Shing Center for Learning and Knowledge.

So don't miss this 4<sup>th</sup> Annual event! We welcome all faculty, staff, students and the outside community. For updates and directions, visit our website <http://cisl.stanford.edu>.

(Continental breakfast will be provided)
