

PROTOTYPING DYNAMICS:

Sharing Multiple Designs

Improves Exploration,

Group Rapport, and Results

Steven P Dow, Julie Fortuna,

Dan Schwartz, Beth Altringer,

Daniel L Schwartz, & Scott R Klemmer

Individual vs Collective?

Individual vs Collective?

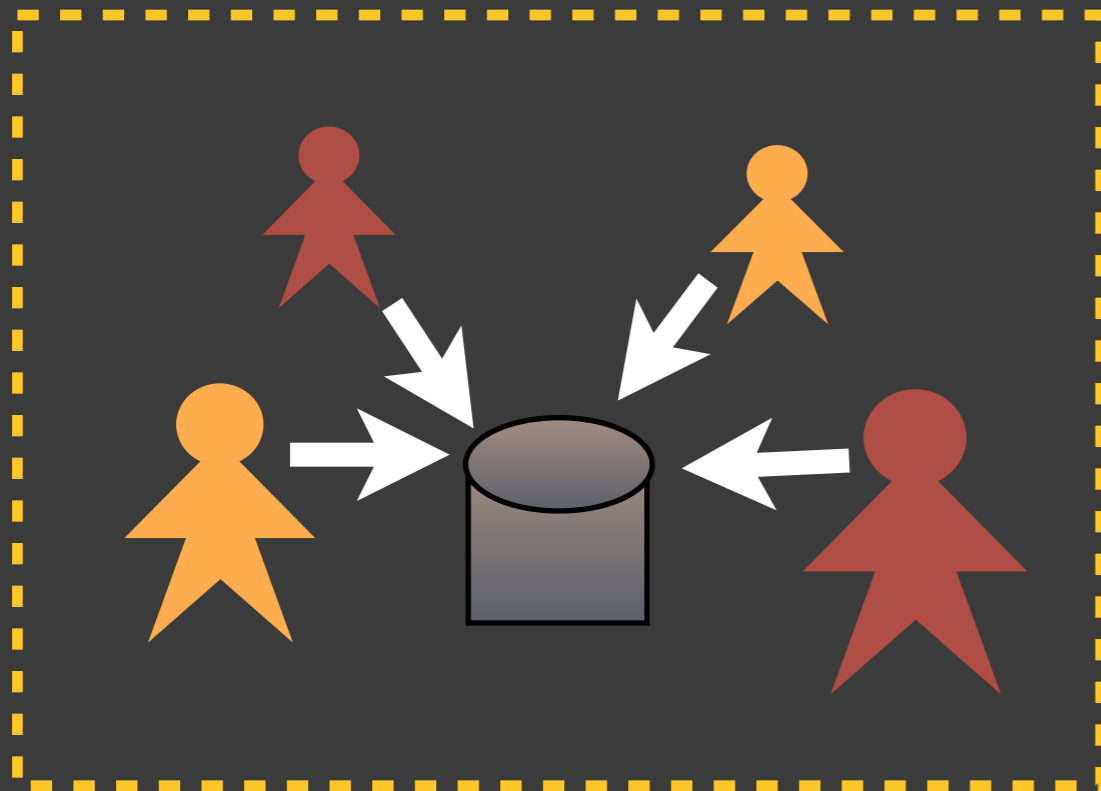

Stroebe and Diehl, 1994

Janis, 1982

Felps, Mitchell, Byington, 2006

Individual vs Collective?

Stroebe and Diehl, 1994
Janis, 1982
Felps, Mitchell, Byington, 2006

Organization memory
Skill recognition
Shared ownership
Sutton and Hargadon, 1996

A false choice?

“Prototypes can be more articulate than people.”
Fred Brooks

Research question

How does sharing **multiple** prototypes
– rather than just one –
affect design results?

Hypothesis “sharing multiple” outperforms

Design task selection

**Demonstrate
creativity**

No “right” or “wrong” solutions
Many paths to solution

**Contrast
designs**

Objective and subjective
outcome measures

Task: design an advertisement

REAL FACES.
REAL FEARS.
REAL HOPE.

 **FACE AIDS**[™]
A student campaign to fight AIDS in Africa

Together.
Together we can.
Together we can **FACE AIDS.**

In 2006, young people accounted for 40% of new HIV infections.

Help us change this. **FACE AIDS.**

 **FACE AIDS** | A student campaign to fight **AIDS** in Africa

Help change their lives.

Start a **FACE AIDS** chapter at your school and join the fight against HIV.

	Ad	Status	% Served	Clicks

Web users clicked more “Share Multiple” ads per appearance

$\chi^2=4.72, p<0.05$

Experts and clients rated “Share Multiple” ads better

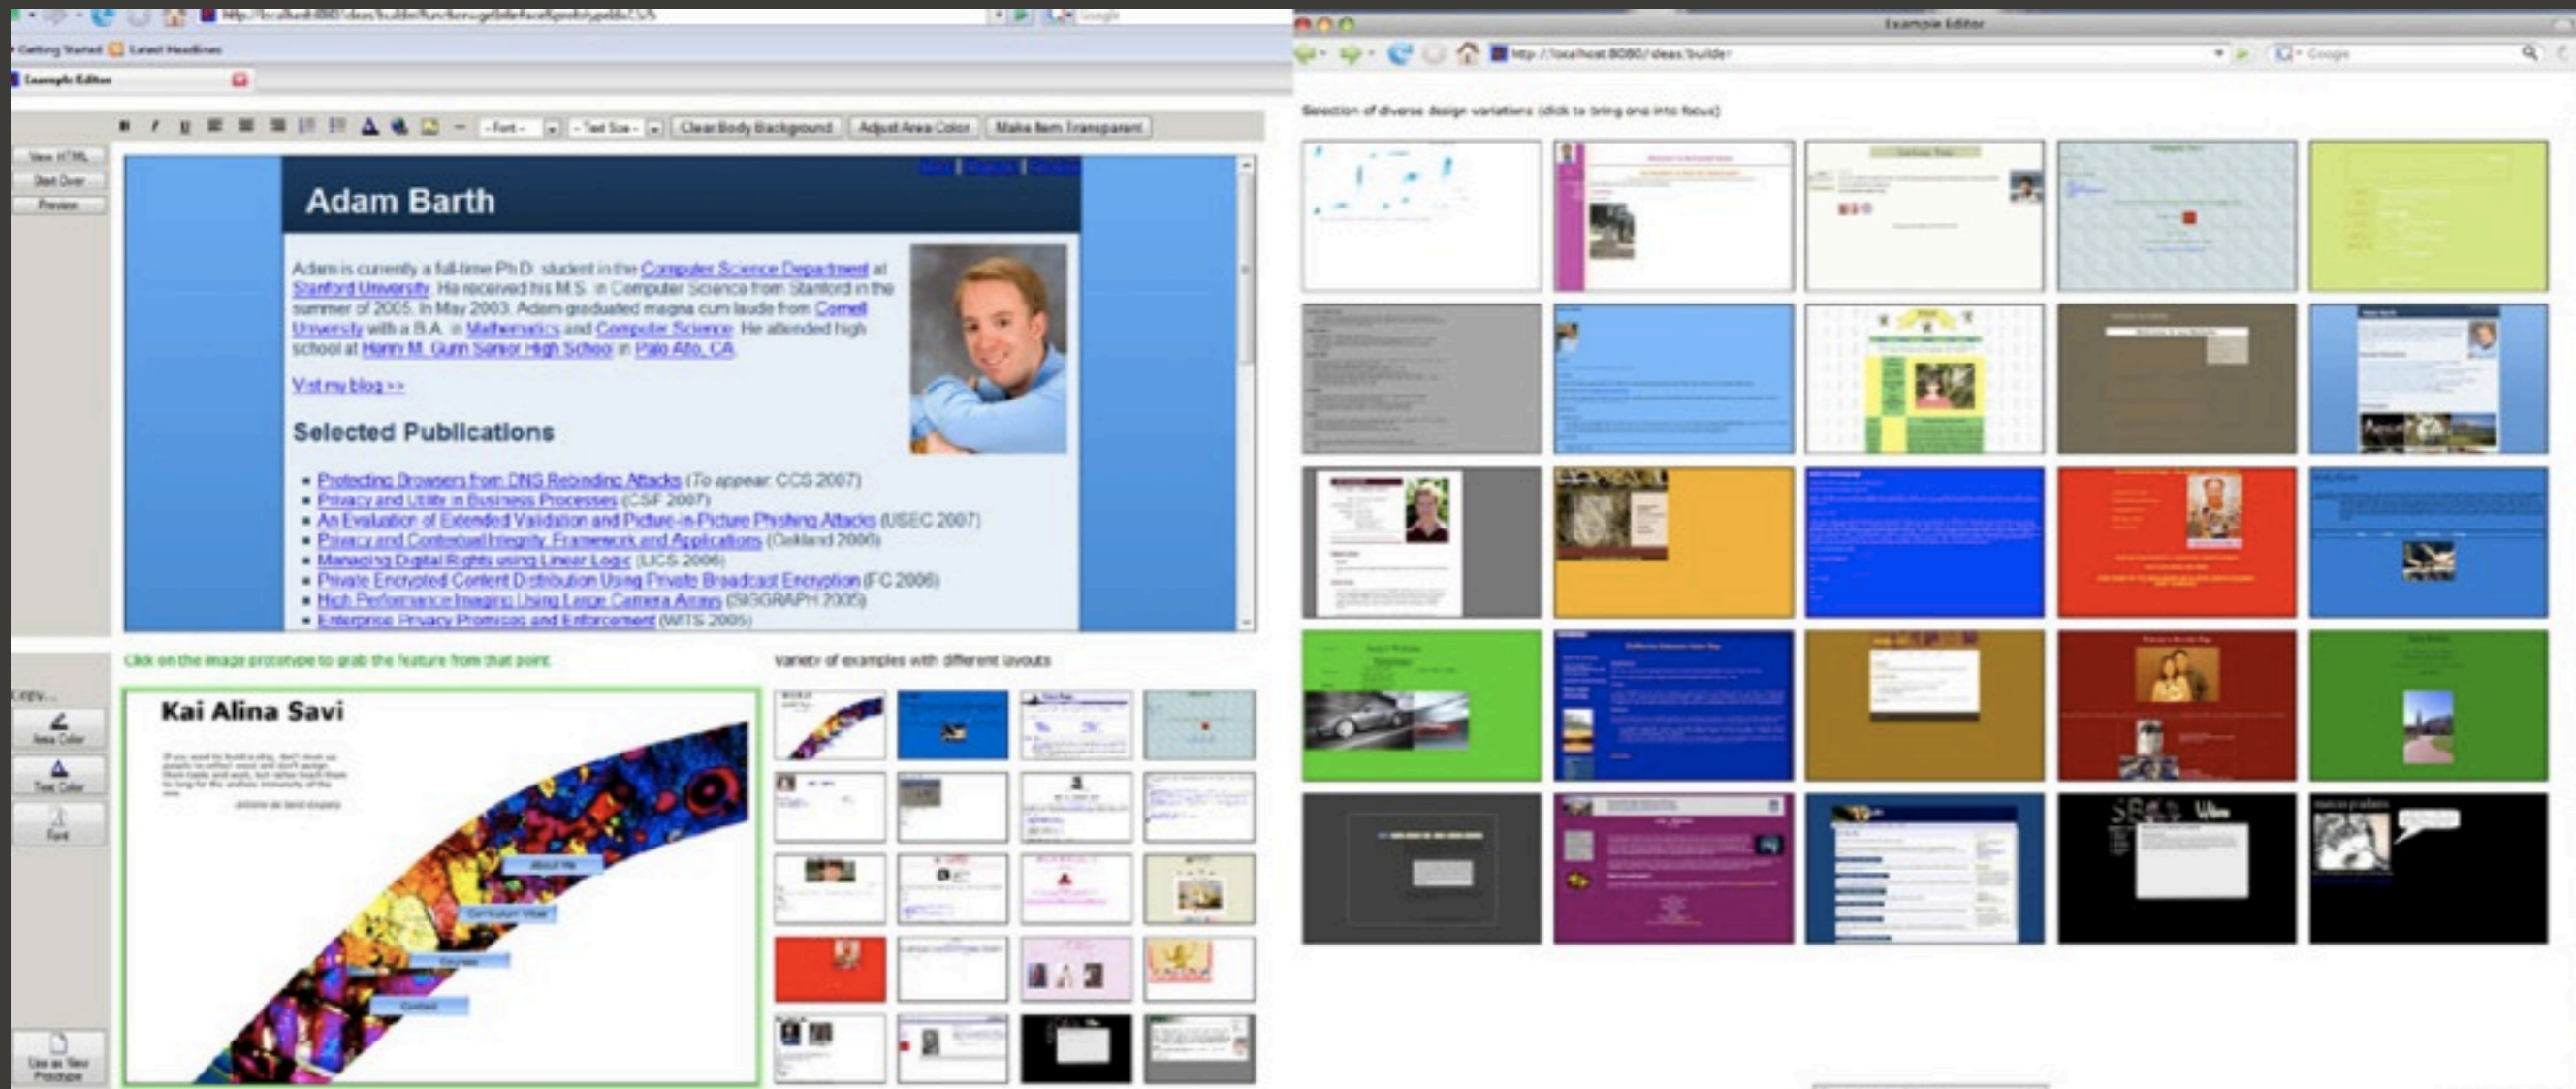

Clicks per million appearances

$F(2,2519)=5.075$,
 $p<0.05$).

Why does sharing
multiple designs lead
to better results?

Viewing examples improves designs

Lee, Srivastava, Kumar, Brafman, and Klemmer, CHI 2010

Measuring transformation by rating ad similarity

How similar are these advertisements?

 **Want to make a difference?**
We've raised over \$1.4 million dollars.
We have over 150 U.S. chapters.

Share Multiple designs transformed the most

share
multiple

$t(3358)=2.077, p<.05$

share
best

$t(1958)=11.66, p<.05$

share
one

Sticking with my first idea

SHARE BEST or
SHARE ONE groups

“My initial idea was ‘bullshit’ but it completely transformed and I’m doing it about
the way I did it. It’s a really good idea that we started with.”

Taking the best of both

SHARE MULTIPLE

“Multiple things, different things, and people are doing them in different places”...
“The difference is that it’s a lot of things that are different”

Measuring feature adoption

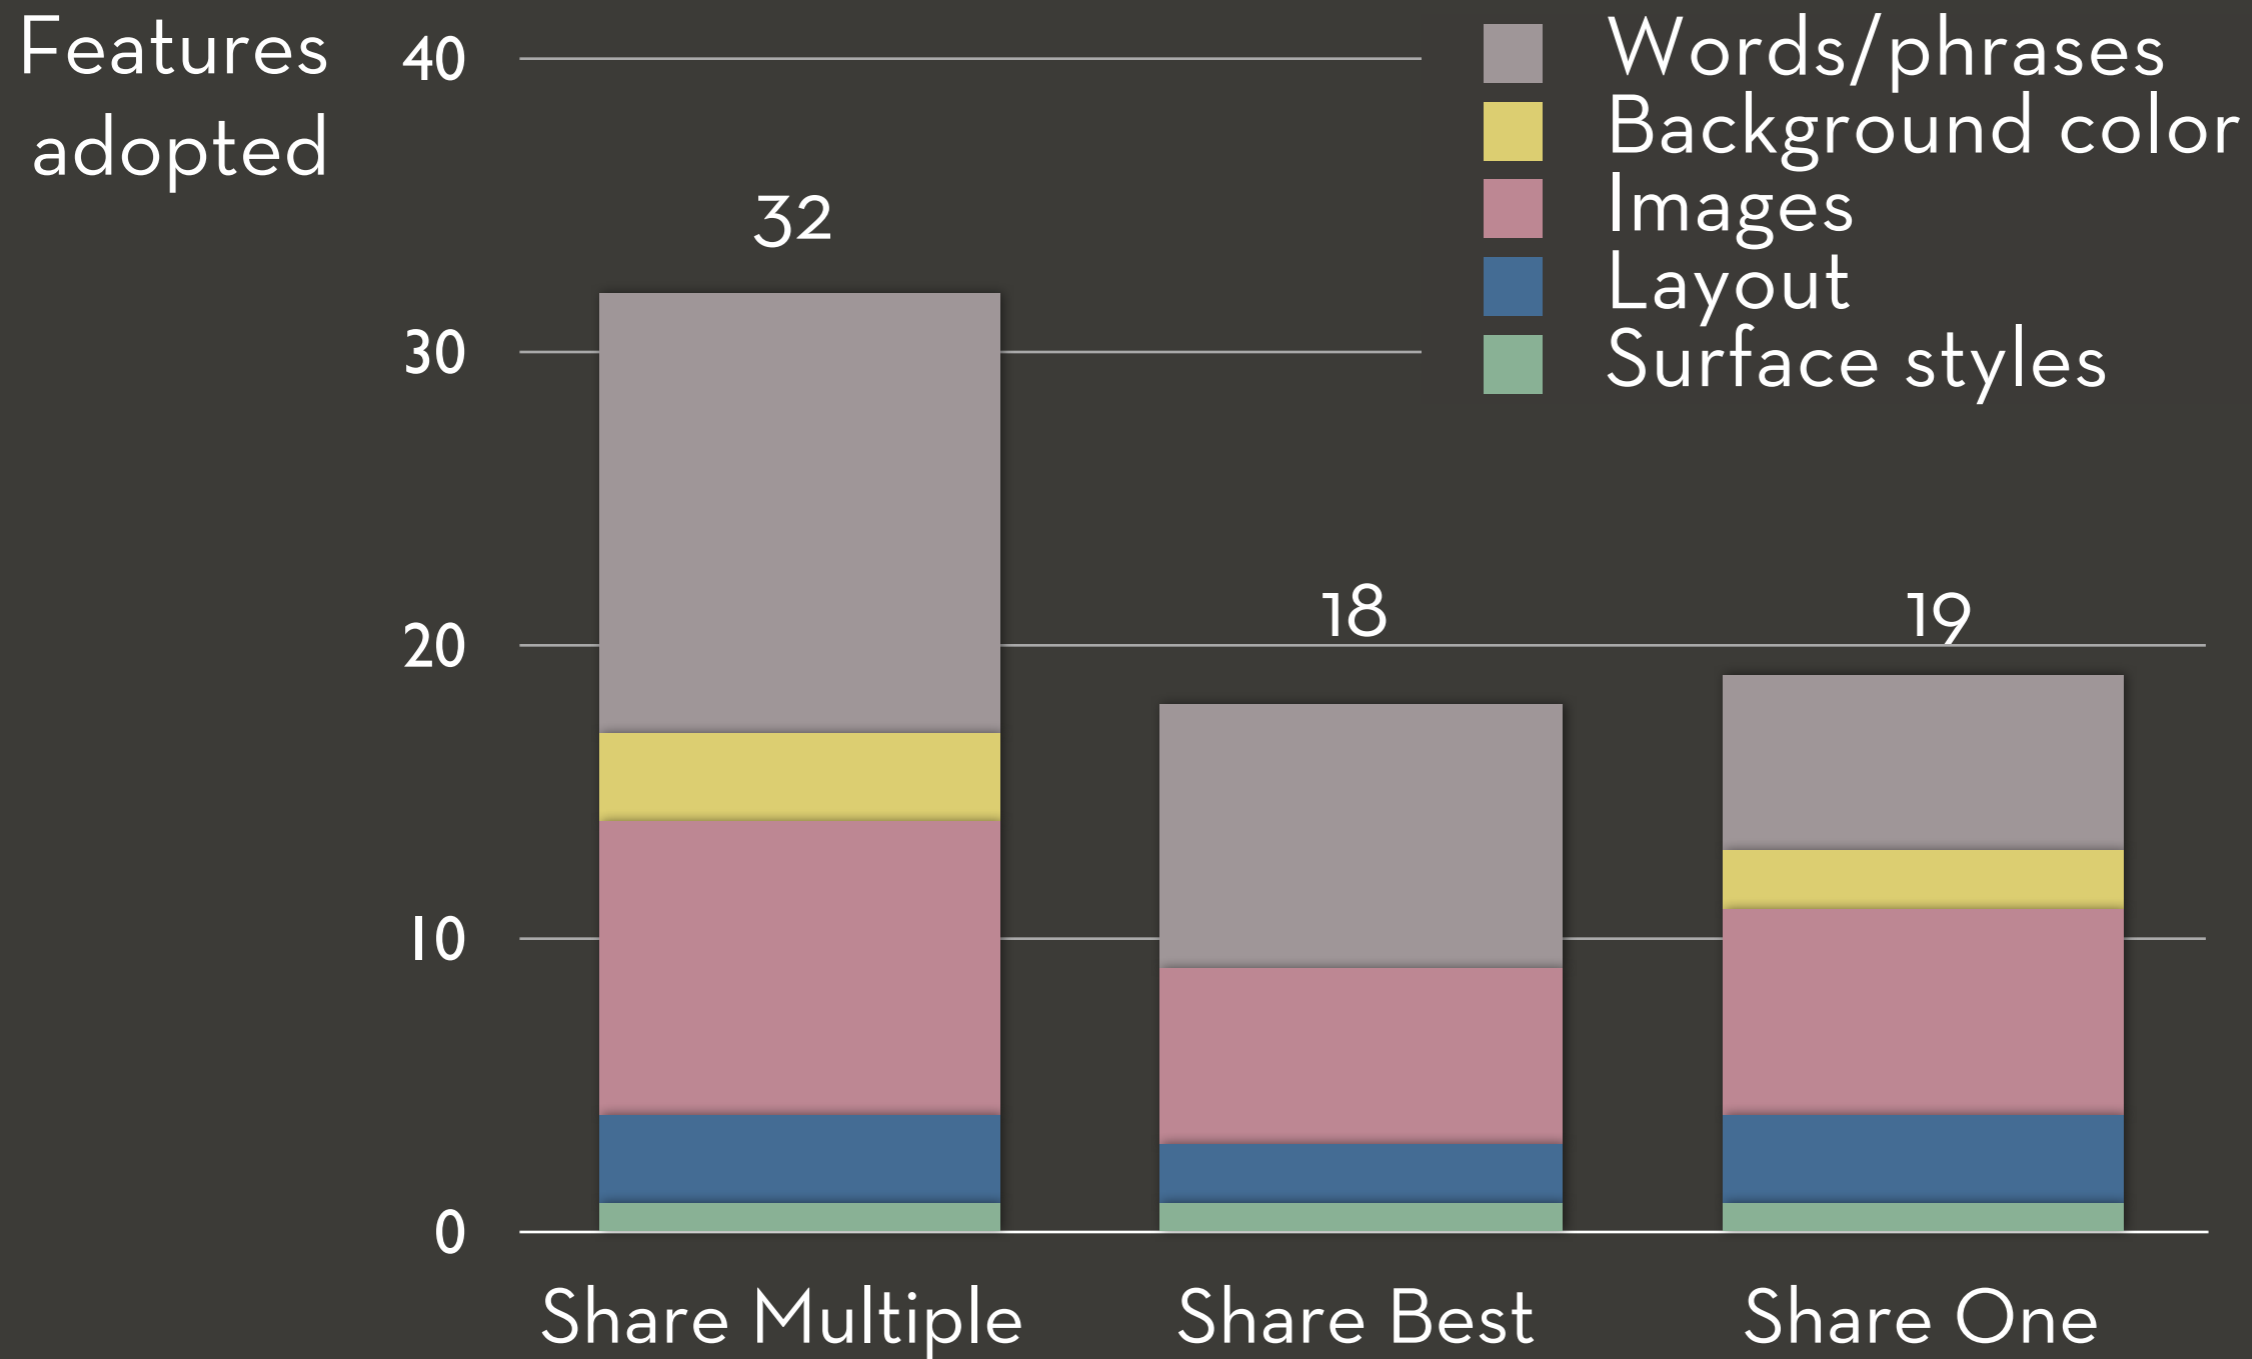

Partner A

Partner B

Share Multiple partners adopted more features

Critiquing multiple designs

SHARE MULTIPLE

“By actually showing the original design, the background color, it will be more powerful.”

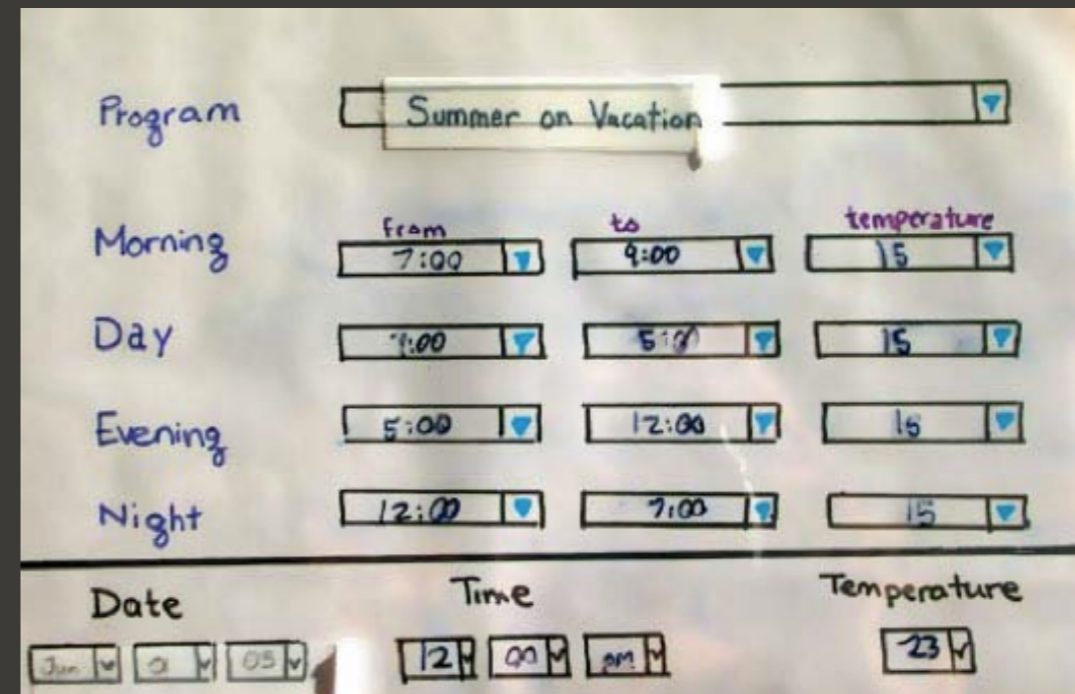

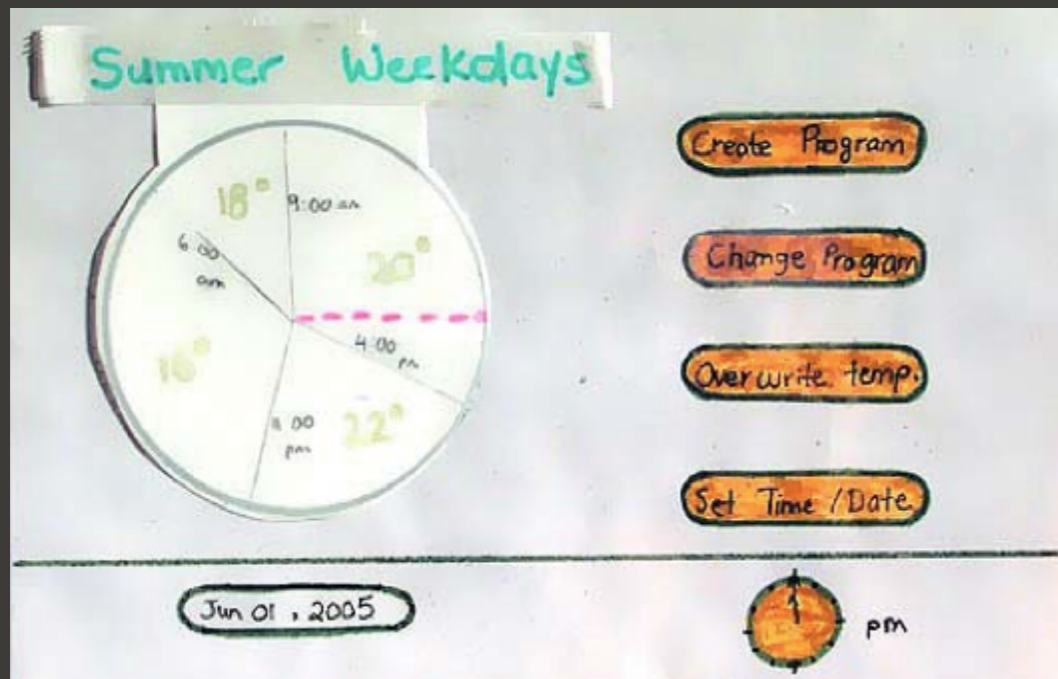

Critiquing one design

SHARE ONE

“When you put this picture over here, it might look better if we move this picture over here. I don't know what was doing. So I had some problems.”

Alternatives facilitate user feedback

Tohidi, Buxton, Baecker,
Sellen, CHI 2006

The danger of critiquing one idea...

SHARE BEST

“She didn’t make me feel terrible about what I had produced...”

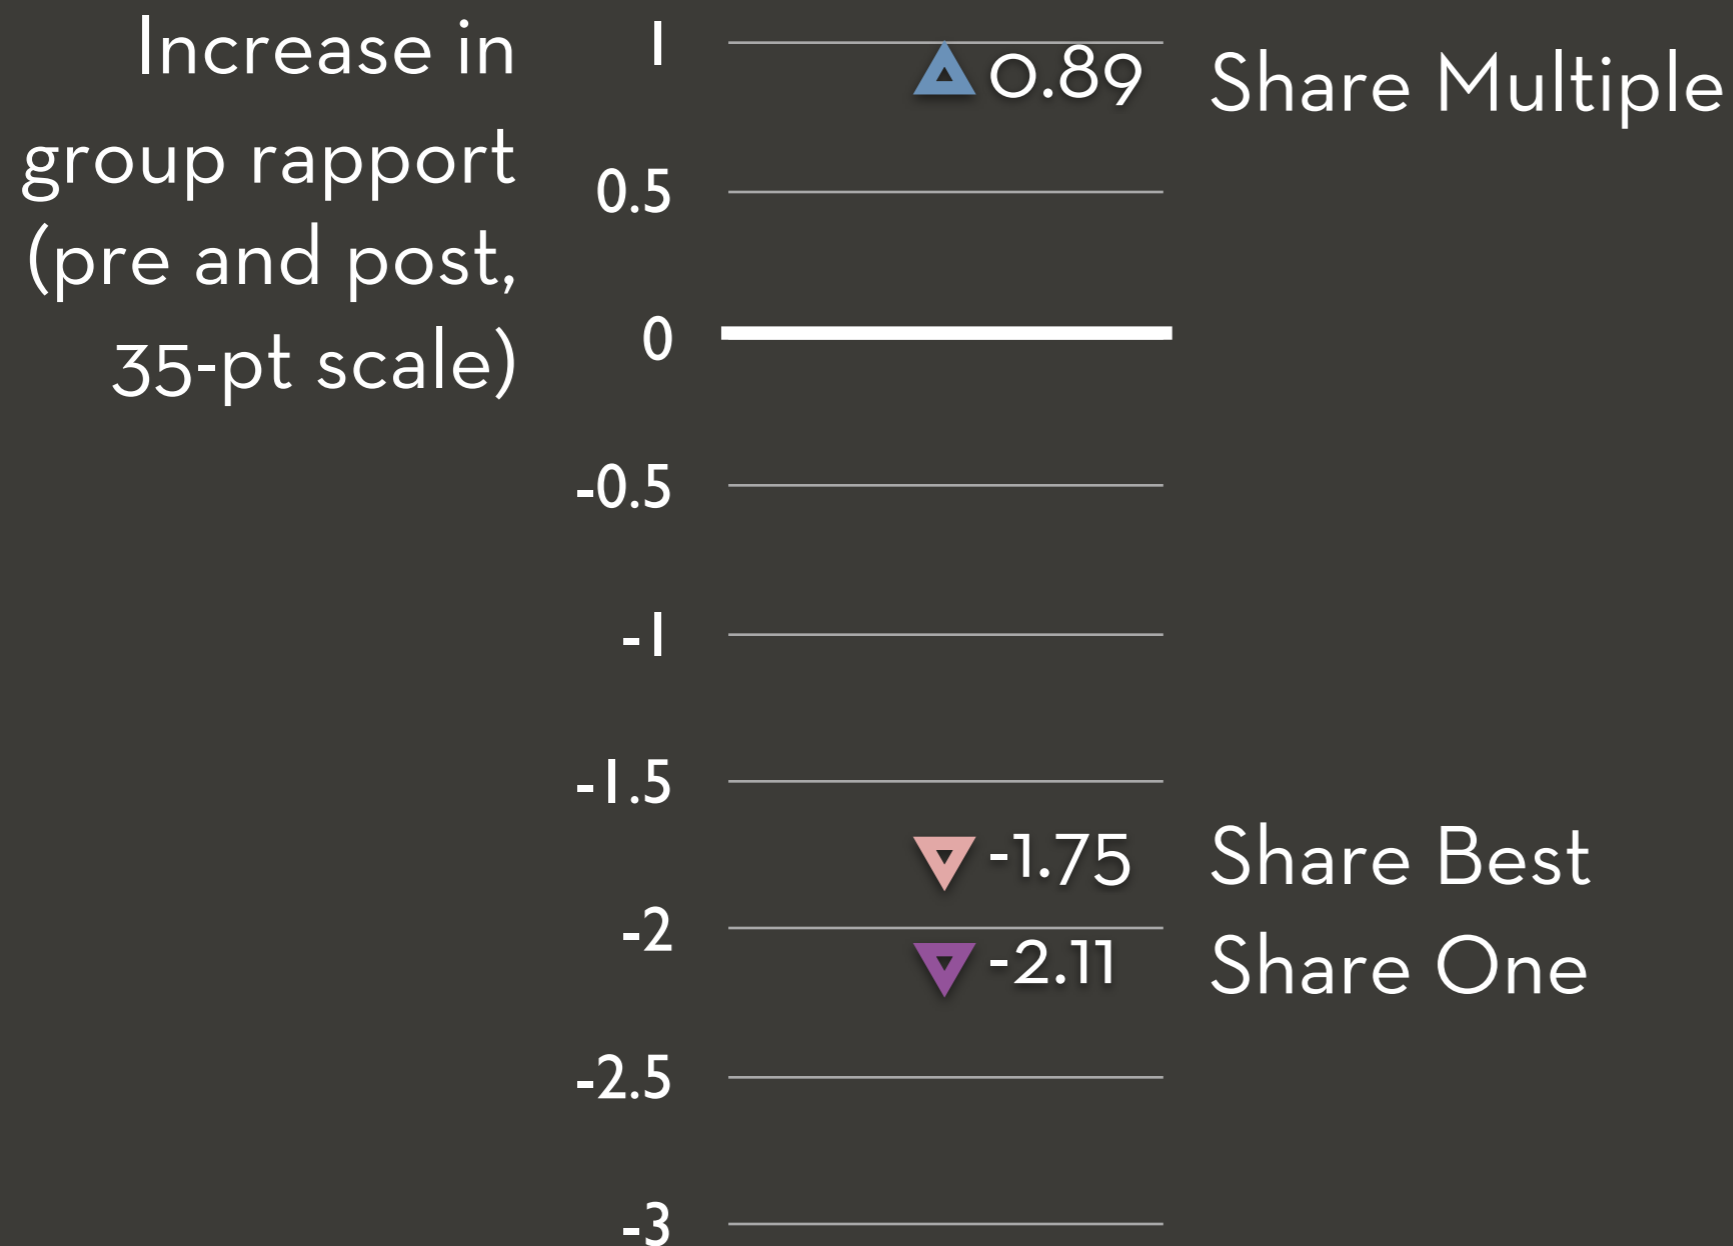

“She didn’t make me feel like a total failure.”

Group rapport measure

- What overall **impression** did your peer make?
- How **satisfied** are you with the peer interaction?
- How much do you **trust** your peer?
- Do you have a foundation for **future interactions** with your peer?
- Which picture best describes your **relationship** with your peer:

Group rapport rose for partners who shared multiple

$F(2,83)=4.147, p<0.05$

Benefits of sharing multiple

- Better comparison
- More individual exploration
- More feature sharing
- Increase in group rapport
- More conversational turns

Future work

- How can we encourage groups to meaningfully explore alternatives?

Future work

- How can we encourage groups to meaningfully explore alternatives?
- How can parallel prototyping help people develop expertise in design?

Future work

- How can we encourage groups to meaningfully explore alternatives?
- How can parallel prototyping help people develop expertise in design?
- How do prototyping dynamics affect online creative collaboration?
