

Appointment in the Division of Biostatistics of the Department of Health Research and Policy in the Stanford University School of Medicine

The Department of Health Research and Policy of the Stanford University School of Medicine seeks applicants for a tenure-track Assistant, alternatively tenured Associate or full Professor position in Biostatistics. The predominant criterion for appointment in the University Tenure Line is a major commitment to research and teaching. We seek applicants from any area of biostatistics. Applicants should have demonstrated strong ability and interest in conducting both methodological and collaborative research, and in teaching. A PhD or equivalent degree in Biostatistics, Statistics or a related area is required. Faculty rank will be determined by the qualifications and experiences of the successful candidate.

Applicants should submit a letter of application, curriculum vita, a statement of research and teaching interests, preprints or reprints (optional but no more than three) and arrange for three letters of recommendation to be submitted. Applications and letters should be submitted to:

Lu Tian/co Kevin Horner
Department of Health Research and Policy
259 Campus Drive
HRP Redwood Building T152
Stanford, California 94305-5405

Applications will continue to be accepted and considered until the opening is filled. Further information on the Department of Health Research and Policy can be found at <http://hrp.stanford.edu/>.

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of, and applications from, women and members of minority groups, protected veterans and individuals with disabilities, as well as others who would bring additional dimensions to the University's research and teaching missions.
