

Stanford Center For Sleep Sciences and Medicine Grand Rounds Schedule 2011-2012

<u>Date</u>	<u>Speaker</u>		<u>Title</u>	<u>Position</u>	<u>Institution</u>
8/12/2011	Andrew Wellman	MD	Relative Importance of the Physiologic Traits Causing Obstructive Sleep Apnea	Associate Physician	Brigham and Women's Hospital
8/24/2011	Sanjay Patel	MD, MS	Sleep and Adipose Tissue	Associate Physician	Brigham and Women's Hospital
9/16/2011	Thomas Kilduff	PhD	Activation of Cortical Interneurons During Slow Wave Sleep: An Anatomical Link to Sleep Homeostasis?	Senior Director	SRI International
9/23/2011	Amita Sehgal	PhD	Genetic Approaches to Study the Circadian and Homeostatic Control of Sleep	Professor	University of Pennsylvania School of Medicine
9/29/2011	David Dinges	PhD	TBD	Professor	University of Pennsylvania School of Medicine
9/30/2011	Alberto Kousuke De la Herrán Arita	PhD	Transplant Therapy in O/E3-null Mice, a Novel Narcolepsy Model		Instituto de Fisiología Celular, UNAM
10/7/2011	Peter Koltai	MD	Persistent Obstructive Sleep Apnea in Children after T&A	Professor	Stanford University
10/14/2011	Tom Scammell	MD	Regulation of Wakefulness and Sleep by Orexin/Hypocretin	Associate Professor	Harvard Medical School
10/21/2011	John Huguenard	PhD	Roles for Endogenous Benzodiazepine Ligands in Regulating Sleep and Epilepsy	Professor	Stanford University
10/27/2011	Atul Malhotra	MD	Controversies in Critical Care	Associate Professor	Harvard Medical School
10/28/2011	Katie Stone	PhD	Sleep Disordered Breathing and Incident Cardiovascular Disease in Older Men: New Results From the MrOS Sleep Study	Senior Scientist	California Pacific Medical Research Institute
11/2/2011	Charles Morin	PhD	Updates on Behavioral Treatments for Insomnia	Professor	Université Laval, Quebec City
11/4/2011	Phillip C. Yang	MD	Cardiac MRI and Sleep Apnea: Comprehensive Diagnosis of the Myocardium?	Assistant Professor	Stanford University
11/11/2011	Robson Capasso	MD	Evidence Based Sleep Surgery	Clinical Assistant Professor	Stanford University
11/18/2011	Ruth O'Hara	PhD	Sleep and Autism: What Do We Know?	Associate Professor	Stanford University
12/1/2011	David Rye	MD, PhD	On the Origins of the "Other" Primary Hypersomnias	Professor	Emory University
12/2/2011	Ian Campbell	PhD	Adolescent Changes in Sleep, Sleepiness, and Slow Wave EEG Activity	Associate Project Scientist	UC Davis
12/9/2011	Craig Heller	PhD	Separating the Effects of Sleep and Circadian Rhythms on Learning and Memory	Professor	Stanford University
12/16/2011	Robert Greene	MD, PhD	The Homeostatic Sleep Response Mediated by Adenosine Under Glial Control	Professor	UT Southwestern Medical Center
1/6/2012	Ronald Dahl	PhD	Sleep, Arousal, and Affect Regulation in Adolescence: Integrating Developmental Neuroscience, Clinical, & Policy Implications	Professor	UC Berkeley
1/13/2012	Jerry Siegel	PhD	The Behavioral Role of Hypocretin	Professor	UCLA

Stanford Center For Sleep Sciences and Medicine Grand Rounds Schedule 2011-2012

<u>Date</u>	<u>Speaker</u>		<u>Title</u>	<u>Position</u>	<u>Institution</u>
1/18/2012	Chiara Cirelli	MD, PhD	Sleep and Synaptic Homeostasis	Associate Professor	University of Wisconsin
1/19/2012	Andrew Wellman	MD	A Simplified Method for Phenotyping Obstructive Sleep Apnea	Associate Physician	Brigham and Women's Hospital
1/20/2012	Markku Partinen	MD, PhD	Narcolepsy Incidence and Flu Vaccinations in Scandinavia	Director	Sleep Clinic and Research Laboratory, Vitalmed Research Center
1/27/2012	Luis de Lecea	PhD	Optogenetic Control of Sleep	Associate Professor	Stanford University
2/10/2012	Jamie Zeitzer	PhD	Talking to the Pacemaker During Sleep: Circadian Phase Shifting without Disturbing Sleep	Assistant Professor	Stanford University
2/17/2012	Ed Weaver	MD, MPH	Roles of Sleep Surgery	Associate Professor	University of Washington
2/24/2012	Nelson Powell	MD, DDS	Pharyngeal Airway and Airflow Characteristics in SDB: Why Could it be Important?	Adjunct Clinical Professor	Stanford University
3/2/2012	John W. Winkelman	MD, PhD	Recent findings on the Neurobiology of Insomnia: Relationship to Major Depressive Disorder	Associate Professor	Harvard Medical School
3/9/2012	Mark Rosekind	PhD	Enhancing Transportation Safety with Sleep Science: Challenges and Opportunities	Member	National Transportation Safety Board
3/16/2012	Dan Brown	JD	Legal Aspects of Sleep Medicine Delivery		Brown, Dresevic, Gustafson, Iwrey, Kalmowitz, and Pendleton, The Health Law Partners, LLC
3/23/2012	Peter Soja	PhD	Pre-thalamic Sensory Inflow During REM Sleep Atonia	Professor	The University of British Columbia, Vancouver, Canada
3/30/2012	Thomas Neylan	PhD	Sleeping with One Eye Open: Understanding Hyperarousal in Sleep in PTSD	Professor In Residence	UCSF
4/13/2012	Asya Rolls	PhD	Sleep Wakes Up the Blood: Effects of Sleep on Hematopoietic Stem Cells and Beyond	Postdoctoral Research Fellow	Stanford University
4/20/2012	Shahrokh Javaheri	MD	Sleep Apnea in Heart Failure: A Mortal Co-morbidity	Professor Emeritus	University of Cincinnati College of Medicine
4/23/2012	Mark Buchfuhrer	MD	A Practical Approach to Treating RLS	Consulting Assistant Professor	Stanford University
4/27/2012	Ian Colrain	PhD	Alcohol, Sleep, and the Brain	Director	SRI International's Human Sleep Research Laboratory
5/11/2012	Ying-hui Fu	PhD	Molecular Characterization of Human Sleep Variants	Professor	UCSF
5/18/2012	Carole Marcus	MBBCh	New Insights into the Pathophysiology of Childhood OSAS	Director	The Children's Hospital of Philadelphia

Stanford Center For Sleep Sciences and Medicine Grand Rounds Schedule 2011-2012

<u>Date</u>	<u>Speaker</u>		<u>Title</u>	<u>Position</u>	<u>Institution</u>
5/24/2012	Safwan Badr	MD	Central apneas, gaps, and controversies	Professor	Wayne State University School of Medicine
6/1/2012	Ron Grunstein	MD, PhD	Personalized Medicine Approaches to Managing OSA	Professor	University of Sydney, Australia
7/27/2012	Mark Mahowald	MD	Parasomnias, State Dissociation, and,....Can Sleepwalkers Murder?	Professor	University of Minnesota Medical School
