

RECOMMENDED BUDGET AND RESOURCE ALLOCATION PLAN

Fiscal Year 2009/2010 Twenty-Year Financial Plan

VOLUME III Operating Budget (cont'd)

Operating Budgets, Fiscal Policies and Glossary of Terms

6. Cultural Element

A City is not merely a residence and workplace. It must be a diverse place where citizens can enjoy a variety of recreational and artistic endeavors. Sunnyvale offers a wide range of services to promote library facilities, historic preservation and cultural activities. The Cultural Element of the Sunnyvale General Plan is a set of log term goals and policies geared towards providing a rich and diverse community. The subelements include:

- Recreation
- □ Library
- □ Heritage Preservation
- □ Arts

Recreation Sub-Element

* The Recreation Sub-Element (6.1) has been retired. During the 2005/2006 Fiscal Year the Recreation Sub-Element was combined with the Open Space Sub-Element. The newly formed Open Space & Recreation Sub-Element is located in the Community Development Element. Open Space and Recreation Policies and Community Condition Indicators are found in Section 2.2.

Library Sub-Element

Goals, Policies and Action Statements

Introduction

The Library Sub-Element establishes an integrated set of goals, policies and action statements that respond to the Community Conditions, library service issues and the planning process described in this document.

The library's goals, policies and action statements are based on the following principles:

- 1. The ultimate goal of the Sunnyvale Public Library is to provide a full service library, which will meet the needs of the community. Library services will be provided free of charge to library users.
- 2. The Library will strive to provide physical facilities and conditions of use necessary to give convenient and effective service to residents.
- 3. The City of Sunnyvale supports the Library Bill of Rights, the Freedom to View Statement and Libraries: An American Value all endorsed or adopted by the American Library Association. (See Appendices XI.A, XI.B, and XI.C)
- 4. The Sunnyvale Public Library will strive to provide a balanced collection of materials representing all points of view, and selected for their popularity and for their quality.
- 5. The Sunnyvale Public Library will work in cooperation with the California State Library and with neighboring libraries in the Silicon Valley and greater Bay Area.
- 6. The Sunnyvale Public Library will monitor and evaluate its services in order to respond to the changing needs of the community.
- 7. The Sunnyvale Public Library will use current technology to make its services efficient and effective.
- 8. The Sunnyvale Public Library will recruit, train and retain the most competent personnel available.

| 6.3A.5d | Provide a California and local history collection that meets the needs of historical research and is archival in scope for Sunnyvale and the Santa Clara Valley. (Same as Library Sub-Element 6.2C.3d.) |
| 6.3A.5e | Work with the Sunnyvale Historical Society in studying the feasibility of establishing a Sunnyvale Historical Archive Collection. (Same as Library Sub-Element 6.2C.3e.) |

Policy 6.3A.6 Keep all informational materials, whether written, visual or graphic, as current as possible.

Action Statements

| 6.3A.6a | Update the Cultural Resources list each time there has been a change in the properties listed on the Cultural Resources Inventory. |
|----------|--|
| 6.3A.6b | Revise and republish the Cultural Resources Inventory every five-years, or as needed. |
| 6.3A.6c | Revise and republish the Murphy Avenue Design Guidelines every ten-years, or as needed. |
| 6.3A.6d | Review the Heritage Preservation Sub-Element periodically to determine if it should be updated. |
| 6.3A.6e | Consider republication of the book Images. |
| 6.3A.6f. | Acknowledge and use all appropriate resources, including oral traditions, when developing informational materials. |

- Policy 6.3A.7 Ensure that appropriate and effective public notification and access are provided for all heritage preservation commission activities and all heritage preservation programs and projects.
- Goal 6.3B. To enhance, preserve and protect Sunnyvale's heritage, including natural features, the built environment and significant artifacts

Policy 6.3B.1 Preserve existing landmarks and cultural resources and their environmental settings.

| 6.3B.1a | Continue to monitor and review development on Murphy Avenue, to preserve its heritage resources and encourage the maintenance of an environment that attracts both visitors and local residents, thereby encouraging Murphy Avenue's ongoing commercial vitality. |
|---------|---|
| 6.3B.1b | Use the review process to encourage the development and maintenance of appropriate settings and environments for heritage structures, to the greatest degree feasible. |
| 6.3B.1c | Protect the architectural and spatial development characteristics of cultural resource streetscapes, to the greatest degree feasible. |
| 6.3B.1d | Encourage ongoing maintenance and appropriate use of heritage properties. |
| 6.3B.1e | Consider instituting a "Partners" program for older neighborhoods containing a number of cultural resource structures where there is evidence that structures in the neighborhood may be deteriorating due to poor maintenance and lack of repairs. |

Policy 6.3B.2 Provide owners of heritage resource properties with information on the various tax and other financial benefits that may be available to them and, when needed, assist them with applying for these benefits.

Action Statements

| 6.3B.2a | Identify all potential tax and other financial incentives to encourage the preservation and proper maintenance of heritage properties and keep this information current. |
|---------|--|
| 6.3B.2b | Prepare and distribute a mailer on financial incentives to owners of heritage resource properties. |
| 6.3B.2c | Provide financial incentives information to potential owners and those inquiring about renovating their properties. |
| 6.3B.2d | If needed, assist owners in preparing required historic documentation. |
| 6.3B.2e | At owner's request, consider Mills Act contracts with owners of residential landmark properties. |

Policy 6.3B.3 Enhance the visual character of the City by preserving diverse as well as harmonious architectural styles, reflecting various phases of the City's historical development and the cultural traditions of past and present residents.

Action Statements

- 6.3B.3a Identify architectural features and styles which are of historical, architectural or cultural interest and encourage the preservation of these features and styles whenever possible, even when a building or streetscape has not been specifically designated as a heritage resource. The Citywide Design Guidelines and the design review process can be used to support this approach.
- When new residents wish to make changes that will affect the architectural character of older homes, which have distinctive architectural features or style encourage them to retain the most significant architectural features.

Policy 6.3B.4 Identify and work to resolve conflicts between the preservation of heritage resources and alternative land uses.

Action Statements

- 6.3B.4a When proposals are received which could involve removal of heritage resources or significantly affect such resources or their environments, including cultural resources streetscapes, such proposals should be reviewed by a heritage resources committee, composed of staff from various divisions of the Community Development Department, to ensure that decisions that are made consider all significant factors. The committee should seek the advice of the Heritage Preservation Commission when appropriate.
- 6.3B.4b Consider providing more flexibility in the zoning code to provide for adaptive reuse of heritage structures when existing uses are not economically feasible and alternative uses would not be allowed under existing zoning regulations.

Policy 6.3B.5 Seek out, catalog and evaluate heritage resources which may be significant.

Action Statements

- 6.3B.5a Conduct surveys of older residential neighborhoods and those containing homes built by well known architects and/or containing homes of a distinctive design to determine if such homes and streetscapes should be considered for inclusion in the Cultural Resources Inventory.
- 6.3B.5b Identify structures or other resources which are now designated as "cultural resources" but which have qualities that may make them eligible for landmark status.
- 6.3B.5c Identify trees, sites and artifacts, which should be considered for cultural resource status.

Where it has been determined that a structure, streetscape or other heritage resource should be considered for designation as a cultural resource or as a landmark, institute the process to designate them accordingly.

Whenever a local landmark may have qualities that might make it eligible for a State or National Landmark status, encourage the owner of the landmark to apply for that status and actively assist with the application process.

Policy 6.3B.7 Encourage a commercially strategic mix of uses on Murphy Avenue.

Action Statements

- 6.3B.7a Consider the current use pattern to determine if the use mix is in balance or whether more diversity is needed.
- 6.3B.7b Solicit and encourage a commercially desirable mix of uses.
- Policy 6.3B.8 Maintain current information on all State and Federal programs, projects, policies and funding sources which could affect or enhance Sunnyvale's heritage programs.
- Policy 6.3B.9 Maintain the heritage preservation ordinance and its regulations and procedures as part of the Sunnyvale Municipal Code, making minor modifications as necessary but keeping its principle functions intact, including the maintenance of the Heritage Preservation Commission's roles and functions.
- Policy 6.3B.10 Archeological resources should be preserved whenever possible.

Action Statement

- 6.3B.10a Whenever construction is proposed in an area which may contain archeological resources, a condition of approval for the project should provide that construction should cease and a qualified archeologist be called in the event that evidence of archeological resources is found.
- Policy 6.3B.11 Provide a qualified Heritage Preservation Commission whose members have the skills and expertise needed to perform their roles properly.

Action Statements

- 6.3B.11.a Actively recruit individuals with the desired qualifications and expertise to serve on the Heritage Preservation Commission.

Program 610 - Borrower Services/Circulation of Library Materials

Program Performance Statement

Enable library customers to access and borrow library materials, by:

- -Providing a means by which library customers can easily borrow materials,
- -Providing customer service that is timely, helpful, and courteous,
- -Maintaining customer records with accuracy,
- -Encouraging the return of library materials on time,
- -Checking in library materials and returning them to the proper location in accurate order, and
- -Enabling library customers to obtain reserved items and materials from other libraries upon request.

Notes

1. Measure Q1 - Results for this measure, along with 5 others, are collected by means of a survey distributed to patrons when they visit the Library. More than 600 surveys are distributed at random times throughout the year. Survey questions measure satisfaction with customer service at the Check Out desk, satisfaction with the customer service provided at the Adult Information/Reference Desk, whether the patron is finding materials they are looking for in the adult collection, satisfaction with the Library's digital resources, satisfaction with the cleanliness and usability of Library materials, and whether the patron feels adequately informed about Library events and services.

Program 610 - Borrower Services/Circulation of Library Materials

Service Delivery Plan 61001 - Enable the Public to Borrow Library Materials

Enable the public to borrow library materials, by:

- -Checking out, checking in and renewing library materials, which include collecting fines and fees to encourage the return or replacement of library materials and issuing library cards to new borrowers,
 - -Returning library materials to the proper storage location in accurate order, and
 - -Helping customers obtain library materials from other libraries.

Notes

1. Activity 610100 - \$10,000 is being budgeted in FY 2008/2009 to purchase the components necessary to accept credit cards at the self-check machines within the Library. This enhancement is intended to encourage the use of the self-check machines.

Program 615 - Prepare Library Materials for the Public

Program Performance Statement

Prepare library materials for easy access and use by the public, by:

- -Cataloging new library materials accurately using national standards,
- -Updating the catalog to keep it current,
- -Physically processing new books, media items, periodicals and newspapers, and
- -Extending the life of repairable library materials through basic repair and rebinding.

Notes

1. Activity 615120 - In 2008/09, a new, ongoing process will be instituted to increase the accuracy of the Library catalog (and therefore provide better customer service) by ensuring that items not on the shelf are not displaying as available to the customer.

Program 617 - Library Department Management and Support Services

Program Performance Statement

Facilitate the cohesive and cost-effective operation of the Library, by:

- -Maintaining a safe and welcome environment for library customers and staff,
- -Providing high level customer service through customer-oriented programs and services,
- -Coordinating financial analyses of programs,
- -Developing long-range plans for the library,
- -Providing development opportunities and managing staff, and
- -Working with Library Board of Trustees.

- 1. P2 Actual FY 2006/07 results should be 57 completed evaluations; the results do not account for management evaluations which were not captured by HR in FY 2006/07 (but will be in the future). They also reflect a number of vacancies existing in the Library at the time of evaluation.
- 2. P3 The original percentage target was created based on tracking financial statements, Council reports and agenda packets. The measure was changed to reflect only agenda packets since the measure is meant to reflect activities relating to the Board of Trustees. Making this change reduces the number of items included in the calculation to 12, and therefore the percentage target is recommended to be 92%.

Program 645 - Golf Course Maintenance Operations and Golf Shop Services

Service Delivery Plan 64501 - Sunnyvale Golf Course: Landscapes and Components

Provide safe, usable and attractive well-maintained golf facilities for Sunnyvale residents, visitors and the business community, by:

- -Maintaining golf course turf (in actively growing season, mow greens six times weekly, fairways tees and collars twice a week and roughs weekly, fertilize, water, control pests and repair irrigation systems),
 - -Maintaining golf course trees (prune, remove and plant as needed),
 - -Maintaining golf course water features (fill, control algae and operate pumps year-around),
 - -Maintaining golf course restrooms (perform custodial services daily and repair fixtures as needed),
 - -Maintaining golf course parking lots (remove debris daily),
 - -Maintaining golf course to provide amenities (cut cups, move tee markers, service ball washers, empty trash daily), and
 - -Maintaining golf course clubhouses (provide inspections and repairs).

Notes

1. For activity 645160 - "Repair of Mechanical Equipment", the product changed from a static amount to a counted amount beginning FY 2006/2007.

Program 646 - Arts and Recreation Programs and Operation of Recreation Facilities

Program Performance Statement

Provide cost effective arts and recreation programs, facilities and services that result in high customer satisfaction and participation due to quality, cost and availability of options, by:

- -Providing recreation, sports and arts opportunities for pre-school, youth, teens and adults, including after-school and summer recreation programs, year-round activities and classes, and sports leagues that are offered through City programs, partnerships with non-profit agencies and four local school districts,
 - -Supporting the needs of seniors for recreation, socialization and support services through classes, special events, a lunch program, and health and support services,
- -Supporting the needs of physically and mentally challenged individuals through a philosophy of inclusion and accommodation, by providing specifically designed and supervised therapeutic recreation programs,
 - -Offering volunteer opportunities for teens and seniors to foster a greater sense of community and provide leadership opportunities for teens,
 - -Administering established policies that require art in eligible public and private developments as to enhance the visual landscape of the community,
- -Maintaining, scheduling and operating City owned or leased recreation facilities, including six swimming pools, a recreation building, a theatre, a creative arts center, an indoor sports center, a dance studio, two gymnastics studios and a senior center to ensure they are safe, attractive and usable, as well as making recreation facilities available for rental use when possible,
 - -Developing and monitoring agreements for tennis center operations, the Fremont Pool and four artist studios,
- -Administering the Fee Waiver Program to provide access to recreation programs for economically disadvantaged Sunnyvale residents, who meet the established eligibility criteria,
 - -Providing reception, registration, scheduling and marketing services to maximize participation in recreation programs and public use of recreation facilities, and
 - -Providing case management for Sunnyvale seniors including assessment of core and service needs, and arranging and maintaining delivery of appropriate services.

Notes

1. Please be advised that the costs in each activity in Program 646 reflect direct costs only. These include program staff time, materials, supplies, instructors, equipment, printing, and other direct costs. Indirect costs such as management and supervision are budgeted in SDP 15 - "Management and Support Services".

Program 646 - Arts and Recreation Programs and Operation of Recreation Facilities

Service Delivery Plan 64614 - Registration, Front Counter Services, Community Outreach Special Events and Publicity

Provide access to recreation programs and services for economically disadvantaged Sunnyvale residents by providing Recreation Fee Waivers to applicants who meet the established criteria for the program. Provide Citywide special events to strengthen the City's sense of community and provide opportunities for families to participate in activities together by holding the annual Hands on the Arts Festival and promoting celebration of the 4th of July. Provide customer service to phone-in and walk-in recreation customers at the Community Center Recreation Building during regular business hours, 9:00 a.m. - 6:00 p.m., Monday through Friday, and process registrations for Sunnyvale recreation programs and activities. Support Recreation Division staff by increasing community awareness of and participation in recreation and arts activities, and assist staff in maximizing revenue generation from classes, activities and facility rentals by providing a comprehensive marketing strategy that includes:

- -Production and distribution of four Recreation Activity Guides and four Senior Activity Guides,
- -Production and distribution of flyers and brochures for various programs and facilities,
- -Conduct market research to identify new trends and community needs and interests,
- -Develop individualized marketing campaigns that support the demand management concept and at the same time maximize revenue generation in specific program areas, and
- -Maintain and update Recreation Web pages.

7. Planning and Management Element

Sunnyvale's General Plan is unique. It is a reflection of the City's administrative organization and service delivery system. The long-term goals are planned together with the means to pursue and accomplish these goals and policies. The Planning and Management Element outlines how the City will plan and manage its resources. The following sub-elements are part of this element:

- □ Fiscal
- □ Community Engagement
- ☐ Legislative/Management

Fiscal Sub-Element

Goals, Policies and Action Statements

Long Range Goals

- I. To make financial decisions over a 20-year planning horizon to allow decision-makers to consider the long-range implications of short-range budgeting decisions.
- II. To operate a performance based budget system which provides Council and management with data on accurate measures of key successes of service, products and product costs, and motivation to continuously improve overall productivity, cost effectiveness, and quality of service.
- III. To design and maintain capital improvements to assure cost efficiency, accomplish City goals and policies, and focus on prevention so as to minimize or reduce future operating costs.
- IV. To maintain sufficient reserves so as to maintain service levels during periods of economic downturn.
- V. To fund only those programs and projects which are consistent with the General Plan and which are anticipated to most cost-effectively implement the Plan.
- VI. To undertake full cost accounting for all City services to facilitate accurate resource allocation decisions and fee recovery.
- VII. To ensure accuracy and policy consistency in City processes and reporting through regular financial and performance audits of programs.
- VIII. To facilitate the smooth and timely purchase of needed goods and services while maintaining sufficient competitive bidding processes to deliver the lowest prices.
- IX. To ensure proper and diverse investments of the City's idle funds based upon the principles, in priority order, of safety, liquidity and return on investment.
- X. To prudently utilize the issuance of debt to minimize costs, maximize cash flow, and ensure that future users are responsible for costs as appropriate.
- XI. To maintain a diversified and stable revenue base that generates the resources necessary to sustain essential City services over the Long Term Financial Plan.

Goal 7.1A Budget Policies

Policy 7.1A.1 Development of the Budget and Resource Allocation Plan

- 7.1A.1.1 The public will be encouraged to participate fully in the budget process.
- 7.1A.1.2 A Fiscal Issues Workshop will be held each year prior to preparation of the City Manager's Recommended Budget to consider budget issues for the upcoming Resource Allocation Plan.
- 7.1A.1.3 A balanced Twenty-Year Resource Allocation Plan shall be presented to the City Council annually.
- 7.1A.1.4 The Twenty-Year Resource Allocation Plan shall be prepared on a two-year Operating Budget cycle.
- 7.1A.1.5 The Operating Budget shall be approved annually with the second year approved in concept.
- 7.1A.1.6 A proposed budget shall be recommended to the City Council by the City Manager no less than thirty-five days before the beginning of the fiscal year, in accordance with the City Charter.
- 7.1A.1.7 At least one public hearing shall be held after the City Manager's Recommended Budget is presented to the Council in order to solicit public input before adoption.
- 7.1A.1.8 Boards and Commissions should review the annual budget as appropriate to their area of interest and make recommendations to the City Council.
- 7.1A.1.9 The City Council shall adopt the City Manager's Recommended Budget, with any changes desired, by resolution before June 30th of each year.
- 7.1A.1.10 Resources will be allocated in direct relation to General Plan goals.
- 7.1A.1.11 The Resource Allocation Plan shall be prepared by General Plan element to link city resources with the accomplishment of General Plan goals.
- 7.1A.1.12 New or expanded services should support the priorities reflected in the General Plan.
- 7.1A.1.13 All competing requests for City resources should be weighed within the formal annual budget process.

7.1A.1.14 Final actions on study items with significant financial impacts should be withheld until they can be made in the full context of the annual budget process.

Policy 7.1A.2 Long Term Financial Planning

Action Statements

- 7.1A.2.1 The City shall maintain a long term fiscal perspective by annually preparing a Twenty-Year Long Term Financial Plan for each fund. Those funds which account for intergovernmental grants will only include known entitlements.
- 7.1A.2.2 Major financial decisions should be made in the context of the Twenty-Year Long Term Financial Plan.
- 7.1A.2.3 Long term financial planning should enable the current service level provided to be sustained over time through the strategic use of reserves.
- 7.1A.2.4 The Long Term Financial Plans should be used to communicate the fiscal impact of City decisions to all stakeholders whenever possible.

Policy 7.1A.3 Performance-Based Budget System

- 7.1A.3.1 The operating budget will be prepared and managed on a program basis.
- 7.1A.3.2 All costs attributable to a budgeted program will be fully reflected in program budgets (with the exception of capital costs of general-use public buildings and facilities).
- 7.1A.3.3 An emphasis should be placed on achieving maximum work productivity to ensure an optimal allocation of human and fiscal resources for Council approved services and programs.
- 7.1A.3.4 All operating programs must identify the service provided, the service level, and the resources necessary to accomplish the specific service level.
- 7.1A.3.5 A performance measurement system will be maintained and used to evaluate quality of service and to report results.

Policy 7.1A.4 Budget Monitoring and Modification

Action Statements

- 7.1A.4.1 Expenditures for each department are legally limited to the amount authorized by the City Council in the Budget Resolution, plus subsequent changes individually approved by the City Council through Budget Modifications.
- 7.1A.4.2 The City's annual budget may be modified at any Council meeting by a majority vote of the City Council.
- 7.1A.4.3 The City's budget appropriation control shall be by program within the same fund for operating programs in the General Fund and Special Revenue Funds. For the Proprietary and Internal Service Funds, expenditures cannot exceed actual revenues plus the planned use of reserves.
- 7.1A.4.4 Appropriations for capital and special projects shall be limited to the amounts contained on the Budget Resolution for each project. All modifications to project budgets require Council approval.
- 7.1A.4.5 Budget reappropriations among programs within a Department and Fund may be authorized by the City Manager if service levels as approved by City Council are maintained.
- 7.1A.4.6 Any unexpended appropriations shall expire at fiscal year-end unless specifically reappropriated by the City Council for expenditure during the new fiscal year.

Goal 7.1B Revenue Policies

Policy 7.1B.1 Revenue Base

- 7.1B.1.1 The City will maintain a diversified and stable revenue base, not overly dependent on any land use or external funding source.
- 7.1B.1.2 Taxes levied by the City will be used for the purpose of financing services performed for the common benefit.
- 7.1B.1.3 Taxes should be held at their lowest possible level, while maintaining Council-approved service levels.

- 7.1B.1.4 When considering a new tax or revenue source or an increase in an existing tax or revenue source, the following criteria should be considered:
 - Community/voter acceptance.
 - Competitiveness with surrounding communities.
 - Efficiency of revenue collection and enforcement.
 - Effectiveness in generating sufficient revenues in the short and long-term to justify its establishment.
 - Enhancement of revenue diversity to promote stability and provide protection from downturns in business cycles.
 - Equity/Fairness in distribution of the revenue burden on various segments of the community.
- 7.1B.1.5 Reliance on any restricted and/or inelastic sources of revenue will be avoided.
- 7.1B.1.6 One-time revenues should not be used for ongoing expenditures.
- 7.1B.1.7 Revenue should not be targeted for a specific program, unless a revenue source has been established for the sole purpose of financing a particular expenditure.
- 7.1B.1.8 Potential new revenue sources will be investigated periodically to ensure that the City's revenue base is stable and diversified.
- 7.1B.1.9 Donations, contributions, and sponsorships may be accepted if they are in accordance with City policy and General Plan priorities.
- Policy 7.1B.2 Revenue Forecasting and Monitoring

- 7.1B.2.1 All revenue estimates must be conservative, objective and reasonable.
- 7.1B.2.2 Revenue forecasts should be based on detailed information regarding historical performance and economic conditions whenever possible.
- 7.1B.2.3 At least ten years data for all tax revenue sources will be maintained.
- 7.1B.2.4 Revenues will be estimated for the budget year and for each planning year in the Twenty-Year Resource Allocation Plan.
- 7.1B.2.5 Methods to maximize the accuracy of revenue forecasts will be established.
- 7.1B.2.6 Estimated revenues from grant sources will be projected only to the specific date on which the entitlement will end.

- 7.1B.2.7 New Estimated intergovernmental revenues for which the City is eligible (but which are not guaranteed) will be forecast to assure that local matching funds will be available if the revenues are realized.
- Policy 7.1B.3 Revenue Collection.

- 7.1B.3.1 The City will seek all possible Federal and State reimbursement for mandated projects and/or programs.
- 7.1B.3.2 An aggressive collection system for all accounts receivable, including utility receivables, will be utilized to assure that monies due to the City are received in a timely fashion.
- 7.1B.3.3 Monthly reviews and periodic audits of Transient Occupancy Tax returns will be conducted.
- 7.1B.3.4 Monthly reviews and periodic audits of all major locally administered revenue sources will be conducted.
- 7.1B.3.5 Periodic point-of-sale audits for Sales Tax will be conducted.
- Policy 7.1B.4 Grants and Intergovernmental Assistance

- 7.1B.4.1 The use of intergovernmental grant assistance for routine programs will be discouraged. Intergovernmental grants may be used for special projects which strengthen a program, have a definable starting and ending date, and do not expand a service in such a way as to require the substitution of local funds to continue part or all of the service once intergovernmental assistance ends.
- 7.1B.4.2 Intergovernmental assistance may only be used to establish or expand a program when the Twenty-Year Resource Allocation Plan meets the following conditions:
 - The program is eliminated at the end of the intergovernmental funding period, or
 - The program continues with the requisite local funding in the Twenty-Year Resource Allocation Plan upon completion of intergovernmental funding.

- 7.1B.4.3 A uniform grants application process must be utilized to assure that the City Council has the information necessary to make a decision regarding a potential intergovernmental grant. Staff should present to Council a Notice of Intent regarding a possible grant source, which shall include at least the following information:
 - The grant being pursued and the use to which it would be placed.
 - The objectives or goals of the City which will be achieved through use of the grant.
 - The local match required, if any, plus the source of the local match.
 - The increased cost to be locally funded upon termination of the grant.
 - The ability of the City to administer the grant.

Policy 7.1B.5 User Fees

Action Statements

- 7.1B.5.1 User fees should be used to recover the cost of services that benefit specific segments of the community.
- 7.1B.5.2 User fees should be reviewed and adjusted at least annually to avoid sharp changes.
- 7.1B.5.3 User fees and charges should not exceed the City's full cost of providing the service.
- 7.1B.5.4 User fees should be established at a level which reflects the full cost of providing those services.
- 7.1B.5.5 The City Council may determine for any service whether a subsidy from the General Fund is in the public interest.
- 7.1B.5.6 User fees shall only be used when the cost of providing the service can be readily calculated and administered.
- 7.1B.5.7 User fees should be adopted by Council resolution and included in the Annual Fee Schedule.

Goal 7.1C Capital Improvement Policies

Policy 7.1C.1 Capital Improvement Plan

Action Statements

7.1C.1.1 An updated Twenty-Year Capital Improvement Plan shall be prepared on a two-year budget cycle.

7.1C.1.2 The City shall fund only those Capital Improvement Projects that are consistent with the adopted Capital Improvement Plan, City priorities, and General Plan goals. 7.1C.1.3 High priority should be given to replacing capital improvements prior to the time that they have deteriorated to the point where they are hazardous, incur high maintenance costs, negatively affect property values, or no longer serve their intended purposes. 7.1C.1.4 New or expanded capital improvements should maximize value and avoid duplication whenever possible by partnering with other entities to pool resources or share facilities. 7.1.C.1.5 Priority will be given to the repair and replacement of existing infrastructure as compared to the provision of new or expanded facilities. 7.1.C.1.6 The decision on whether to repair or to replace an existing capital asset will be based on which alternative is most cost-effective or provides the best value to the City. 7.1.C.1.7 The operating impact of proposed capital projects, including ongoing operating expenditures, capital outlay, debt service, and infrastructure replacement will be identified in the Capital Budget and considered in the selection of projects for funding. 7.1.C.1.8 Staff will identify the estimated costs, potential funding sources, return on investment, project schedule and relationship to the General Plan for each capital project proposal before it is submitted to the Council for approval. 7.1.C.1.9 Capital improvements should be maintained to the level required to adequately protect the City's capital investment and to minimize future maintenance and replacement costs. 7.1.C.1.10 A Capital Projects Fund shall be used to account for major capital acquisition or construction projects associated with the General Fund and other governmental funds. The capital projects of the Utility Enterprise Funds shall be accounted for within the respective fund. The Infrastructure Renovation and Replacement Fund shall be used to account for projects related to the City's Long-Range Infrastructure 7.1.C.1.11 Plan for the renovation and replacement of existing general City assets. Infrastructure projects related to the City's utilities shall be accounted for in the respective utility fund.

Goal 7.1D Land Policies

Policy 7.1D.1 Acquisition, Disposition and Leasing of City-Owned Real Property

- 7.1D.1.1 A high priority will be given to acquiring undeveloped land needed to meet City goals before it is developed.
- 7.1D.1.2 Developed land should be acquired in reasonable proximity to the time the property is required for City purposes.
- 7.1D.1.3 Every effort shall be made to acquire property through negotiation, reserving the use of eminent domain for those circumstances when immediate possession is required and the property cannot be acquired through negotiation at a cost approximating market value.
- 7.1D.1.4 The purchase, sale or lease of real property where the purchase or sale price or lease cost is more than \$75,000, per the Sunnyvale Municipal Code, shall be approved by the City Council.
- 7.1D.1.5 The purchase, sale or lease of real property where the purchase or sales price or lease cost is less than \$75,000, per the Sunnyvale Municipal Code, shall be approved by the City Manager.
- 7.1D.1.6 The lease of city property which results in revenue to the City and the term is less than or equal to 55 years shall be approved by the City Manager.
- 7.1D.1.7 The lease of city property for a term longer than 55 years shall be authorized by the City Council by resolution following a public hearing.
- 7.1D.1.8 Property leased to outside entities should be based on market rents except when the Council finds that there is a public purpose for leasing at a lower rate.
- 7.1D.1.9 The net proceeds from the disposition of surplus City property owned by the General Fund shall be placed into the General Fund Reserve for Capital Improvements.
- 7.1D.1.10 Proceeds from the sale of land or facilities originally purchased with monies from a specific fund should be kept within that fund.

Goal 7.1E Reserve Policies

Policy 7.1E.1 General Fund Reserves

Action Statements

- 7.1E.1.1 The City shall maintain a General Fund Contingency Reserve of at least 20% of operating expenditures to cover emergencies or disasters.
- 7.1E.1.2 The sale of surplus property owned by the General Fund and any other one-time revenues shall be placed into a Reserve for Capital Improvement Projects to be used for capital improvement or expansion.
- 7.1E.1.3 The Twenty-Year Resource Allocation Plan (RAP) Reserve shall be used to levelize economic cycles and maintain stable service levels over the long term.
- 7.1E.1.4 The Twenty-Year RAP Reserve should be balanced to zero in the twentieth year of the Long Term Financial Plan. This means that the reserve increases during periods of economic growth and has planned draw-downs during low periods of the economic cycle.
- 7.1E.1.5 The Service Level Set-Aside will be used to provide ongoing funds to increase service levels or add new services. Once used, this Set-Aside may be replenished according to economic conditions.
- 7.1E.1.6 Any other reserves may be established to segregate funds which are legally restricted to specific purposes.

Policy 7.1E.2 Internal Service Fund Reserves

- 7.1E.2.1 The City will establish and maintain an Equipment Replacement Reserve to provide for timely replacement of the City's fleet, furniture and fixtures, technology and communication equipment.
- 7.1E.2.2 Reserve levels for each type of equipment will be established based on the lifecycle of existing assets accounted for in the appropriate Sub-Fund of the General Services Fund.
- 7.1E.2.3 Equipment replacement expenses should be amortized through the use of rental rate charges to be fully funded by users.
- 7.1E.2.4 The Workers' Compensation Reserve shall be maintained at a level deemed adequate to meet projected liabilities as determined by an actuarial evaluation.

- 7.1E.2.5 The Liability and Property Reserves will be maintained at a level which, together with purchased insurance policies, will adequately indemnify the City's property and liability risk. A qualified actuarial firm shall be retained in order to recommend appropriate funding levels.
- 7.1E.2.6 An Actuarial Retiree Medical Reserve will be maintained at a level that is deemed adequate to meet projected liabilities as determined by an actuarial evaluation. This Reserve should meet the GASB reporting requirements for these future costs.
- 7.1E.2.7 Rate Uncertainty Reserves will be funded for those employee benefits expenditures exhibiting high volatility or significant increases. The reserves will ensure adequate funding while minimizing the effect on the funding of other City operations.

Goal 7.1F Debt Management Policies

Policy 7.1F.1 Debt Limits and Debt Capacity

Action Statements

- 7.1F.1.1 Total bonded indebtedness supported by General Fund revenues should not exceed 5% of assessed valuation of property within the City. Bond issues supported by the General Fund should be restricted to annual debt service of 5% of General Fund revenue.
- 7.1F.1.2 Land based financings should maintain a minimum property value—to—debt ratio of 3:1, with exceptions made for special circumstances at Council's discretion.
- 7.1F.1.3 Debt service should not affect the City's ability to meet future operating, capital and reserve requirements.

Policy 7.1F.2 Debt Issuance

- 7.1F.2.1 Debt should be used only to finance improvements that cannot be paid for with current revenues, unless the purpose of the debt is to spread improvement costs over a longer period of time and ensure that future users become responsible for portions of the cost.
- 7.1F.2.2 There should be no short-term (debt) borrowing to support routine operations unless (a) the borrowing will be at a lower interest rate than the rate on invested funds, and (b) funds are available for routine operations.

- 7.1F.2.3 An internal feasibility analysis will be prepared for each long-term financing which analyzes the impact on current and future budgets.
- 7.1F.2.4 Bond issues should be scheduled to equalize annual debt service requirements to the degree that borrowing costs can also be minimized.
- 7.1F.2.5 Generally, the method of financing selected for debt issuance should be based on who will benefit and who should pay for the cost of improvements. The following are guidelines:
 - General Obligation Bonds For major improvements that are of community-wide benefit and use, such as general municipal facilities and parks. These are funded by ad valorem taxes and require 2/3 voter approval.
 - Assessments For new subdivision improvements and for City improvements where the Council has determined that a specific benefiting group should be responsible for payment.
 - Tax Increment Bonds For improvements in the Redevelopment Project Area where rehabilitation or redevelopment is required. These bonds are financed by tax increment from the project to be developed.
 - Certificates of Participation Where backing by the full faith and credit of the City is the most cost-effective method. If this method is proposed, a full cost analysis will be done.
 - Revenue Bonds (IDBs) All City utility-related improvements shall be funded only from revenues of the respective utilities.
 - Industrial Development Bonds Issued to finance the construction or purchase of industrial, commercial, or manufacturing facilities to be leased or purchased by a private user. All IDBs shall be backed only by the credit of the user.
- 7.1F.2.6 The maximum term of each bond issue should be no longer than the expected useful life of the asset financed.
- 7.1F.2.7 Refunding of outstanding bond issues shall be considered if the net present value savings is at least 3%, or if it is necessary to remove a burdensome or restrictive bond covenant.
- 7.1F.2.8 The City will consider requests for conduit financing on a case-by-case basis, taking into consideration the borrower's credit worthiness, the purpose of the borrowing and its relationship to City priorities, and any impact on the City's financial position.
- 7.1F.2.9 Debt financings will generally be conducted on a competitive basis. However, negotiated financings may be used due to market volatility or the existence of an unusual or complex financing or security structure.
- 7.1F.2.10 Fixed or variable rate financing may be used, depending on the cost benefit to the City of each option.

Policy 7.1F.3 Debt Management

Action Statements

7.1F.3.1 The City will diligently monitor its compliance with bond covenants and ensure adherence to federal arbitrage and disclosure regulations.

7.1F.3.2 Debt financing should not exceed the anticipated useful life of an improvement. 7.1F.3.3 The City will seek to maintain and, if possible, improve its current bond rating(s) in order to minimize borrowing costs and preserve access to credit. 7.1F3.4 A Debt Service Reserve shall be maintained for each debt issue as required by the respective bond covenants. **Accounting Policies** 7.1G.1 Accounting Principles **Action Statements** 7.1G.1.1 A Comprehensive Annual Financial Report (CAFR) will be prepared each year within six months of the close of the previous fiscal year. 7.1G.1.2 The CAFR shall be prepared in accordance with generally accepted accounting principles applicable to local governments, and shall receive an unqualified opinion by the City's independent auditor each year. 7.1G.1.3 The Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting should be pursued annually. 7.1G.1.4 The accounting system shall provide a mechanism to fund accrued benefits liabilities. 7.1G.1.5 Pension obligations will be fully funded annually and current pension contributions will not be deferred to balance current expenditures. 7.1G.1.6 An integrated accounting and budgeting system will be maintained so that production and cost for each activity can be calculated and evaluated. 7.1G.1.7 The City Council shall be provided with periodic summary financial reports, by fund, comparing actual revenues and expenditures to budgeted amounts. 7.1G.1.8 The City shall maintain a full cost accounting system. A city-wide Cost Allocation Plan shall be developed to identify the cost of administrative support for all City departments and special 7.1G.1.9

Goal

7.1G

Policy

| c | | | • | |
|----|---|---|---|---|
| tı | 1 | n | d | C |

- 7.1G.1.10 The "modified approach" to account for streets infrastructure capital assets, as defined by GASB No. 34, shall be utilized for the City's street network. The City Council will establish a range of acceptable condition levels for the street network on a biennial basis and the City Manager will set the actual target condition level(s) each year.
- 7.1G.1.11 The City shall establish such separate funds as required by law to account for grant funding and other revenues limited to specific use.
- 7.1G.1.12 Internal Service Funds shall be used to account for the financing of goods and services provided by one department or agency to other departments or agencies of the City.
- 7.1G.1.13 Internal Service Funds shall be used to equitably distribute facility, vehicle and equipment replacement and maintenance costs among City user departments and to assure that adequate funding is on hand to replace/maintain assets and pay liabilities.
- 7.1G.1.14 Internal Service Funds shall be maintained to account for employee benefits and to provide a mechanism to fully fund accrued benefit liabilities.

Policy 7.1G.2 Internal Controls

- 7.1G.2.1 A system of effective internal controls shall be maintained that assures only properly authorized expenditures, recordings of financial transactions, and accounting entries are executed and provides for the physical security of City funds and assets.
- 7.1G.2.2 The City's Internal Audit function should conduct its work in accordance with generally accepted government auditing standards to ensure the independence of its findings.
- 7.1G.2.3 Periodic financial reviews will be conducted to assure that adequate internal controls exist, at a reasonable cost, and that fiscal practices are in compliance with Federal, State and City rules and regulations.
- 7.1G.2.4 Operational audits will be conducted to evaluate the efficiency and effectiveness of City functions.
- 7.1G.2.5 Performance audits will be conducted regularly on a schedule set by Council to verify that the performance data reported by each Department is complete, valid and accurate.
- 7.1G.2.6 The City's cash handling practices shall be reviewed at least quarterly, as required by the City Charter, in order to safeguard the City's cash assets.

Goal 7.1H Purchasing Policies

Policy 7.1H.1 Centralized Purchasing System

- 7.1H.1.1 Whenever possible, purchases will be made through a competitive bid or proposal process.
- 7.1H.1.2 Purchasing policies and procedures will be as fair and open as possible so that everyone involved will understand the elements of the process, including procedures, timelines, expectations, requirements, and criteria for supplier selection.
- 7.1H.1.3 A preference of 1% shall be given to local businesses in the evaluation of bids and proposals in the procurement of goods. Contracts exempt from this preference are:
 - Emergency procurment.
 - Sole source contracts.
 - Contracts funded from grants, donations, or gifts with special conditions that specify otherwise.
- 7.1H.1.4 Purchases of goods and services will be made from locally owned businesses whenever possible, in accordance with purchasing regulations.
- 7.1H.1.5 The City will actively seek opportunities to participate with other public agencies in the development of competitive bids that combine purchasing power to achieve volume pricing.
- 7.1H.1.6 City staff shall not use their position for personal gain in any procurement.
- 7.1H.1.7 Environmentally responsible procurement policies will be used where possible, to encourage recycling, reduce waste, conserve energy and natural resources and protect environmental quality.
- 7.1H.1.8 Technological advances that present more efficient and effective ways to purchase goods and services will be encouraged.
- 7.1H.1.9 An efficient and effective system of inventory management for City-stocked items and for sale or disposal or surplus items will be maintained.

Goal 7.1I Enterprise Fund Policies

Policy 7.1I.1 Utility Fund Policies

Action Statements

- 7.1I.1a Accounting and Fund Management
 - 7.1I.1a.1 The financial activities of each utility should be accounted for in a separate fund.
 - 7.1I.1a.2 The City will assure that all direct and indirect costs of each utility are fully cost-accounted.
 - 7.1I.1a.3 Expenses which are incurred to support more than one utility should be allocated to each utility in a manner that reasonably reflects the benefit received.
 - 7.1I.1a.4 Each utility fund shall reimburse the General Fund, and/or other applicable funds, for the full cost of general government support services provided to that utility.
 - 7.1I.1a.5 The user fees established for each utility will be reviewed annually and set at a level that will support the total costs of the utility, including direct and indirect costs and contributions to reserves set by Council policy.
 - 7.1I.1a.6 In the event that any utility requires one-time resources from other City funds to support its operations, or that the utility provides resources to an unrelated program, the use of these funds should be accounted for as an inter-fund loan.
 - 7.1I.1a.7 Debt service coverage should be maintained for each bond issue as required by the bond covenants.
 - 7.1I.1a.8 No utility resources shall be used to fund unrelated General Fund services.

7.1I.1b Capital Program

- 7.1I.1b.1 Capital improvements associated with the existing infrastructure of a utility should be primarily funded from two sources: rate revenue and debt financing.
- 7.1I.1b.2 New improvements or expanded capacity in any utility should be funded by those benefiting through specific charges, such as connection fees, impact fees, or mitigation fees.
- 7.1I.1b.3 Local, state, and federal funding sources, such as grants and contributions, should be pursued for utility-related capital improvement

- projects consistent with City priorities.
- 7.1I.1b.4 Water and wastewater improvements should be designed and constructed to the size required to serve the City's capacity needs when fully developed plus any required redundancy to assure reliable operation and provision of service.
- 7.11.1b.5 Bonded debt financing should be used for capital improvements as appropriate to:
 - Make cost recovery of an asset more consistent with its useful life.
 - Equitably assign cost over multiple generations of customers who use the assets.
 - Smooth near-term rate impacts of the project.
- 7.1I.1b.6 Total bonded debt should equal no more than 30% of the utility's fixed assets.
- 7.1I.1b.7 Resources for the capital requirements of each utility such as bond proceeds or connection fees should be dedicated only for capital projects and not be used for ongoing maintenance and operations.
- 7.1I.1b.8 The annual depreciation expense of the assets of each utility should be set aside into a Rehabilitation and Replacement Reserve as a minimum funding level for system replacement.

7.1I.1c Reserves

- 7.1I.1c.1 A Contingency Reserve of 25% of operating expenses shall be maintained in the Water and Wastewater Funds to allow approximately 90 days of working capital in case of emergency.
- 7.1I.1c.2 A Contingency Reserve of 10% of operating expenses shall be maintained in the Solid Waste Fund. This lower reserve is appropriate because the asset value of the Solid Waste Fund is substantially smaller than the other city utilities, and because operations are performed by contract, with insurance and bonding requirements as part of the contract assuring the continued operation in the case of an emergency.
- 7.1I.1c.3 In the event that the Contingency Reserve of any utility fund is used it shall be replenished by the end of the following fiscal year or as soon as practical thereafter considering the circumstances that prompted the need to use the reserve.
- 7.1I.1c.4 A Capital Replacement Reserve shall be maintained in the SMaRT Station Replacement Fund to account for contributions from the three participating cities for the replacement of City-owned SMaRT Station equipment.
- 7.1I.1c.5 A Rate Stabilization Fund shall be maintained in each utility fund to levelize the rates and annual rate increases in light of fluctuations in financial requirements from year-to-year.

- 7.1I.1c.6 A Capital Rehabilitation and Replacement Reserve for each utility should be established to provide resources for the infrastructure replacement needs of the respective utility system. This reserve should act as a sinking fund for annual depreciation expense of the utility assets.
- 7.1I.1c.7 Debt service reserves should be maintained for each bond issue as required by the bond covenants.

Policy 7.1I.2 Community Recreation Fund Policies

Action Statements

7.1I.2a Fund Management

- 7.11.2a.1 The General Fund subsidy received by the Community Recreation Fund shall be fixed at the FY 2006/2007 level as the base year and increased annually by the inflation factor included in the recommended budget for the upcoming year.
- 7.11.2a.2 Any increase in service levels by City Council not covered by an increase in revenues will result in a corresponding increase to the General Fund subsidy.
- 7.11.2a.3 Any action by City Council to decrease revenues of the Community Recreation Fund not covered by a decrease in operating costs will result in a corresponding increase to the General Fund subsidy.
- 7.1I.2a.4 The infrastructure rehabilitation and replacement of all facilities on park land, including the golf courses and tennis center, will be funded first through the Park Dedication Fund if funds are available.
- 7.11.2a.5 A Fee Waiver system should be provided to allow persons who are economically disadvantaged to participate in and utilize programs, facilities, and services provided by the Community Recreation Fund. The criteria for eligibility in this system shall be established by Council policy.

7.1I.2b User Fees

7.11.2b.1 Golf fees shall be set annually utilizing market-based comparisons and included in the City's Annual Fee Schedule adopted by Council resolution.

- 7.1I.2b.2 User fees for recreation services shall be set administratively by the Director of Parks and Recreation in accordance with a documented methodology that depicts a relationship to cost recovery, market forces, and adjustments based on such factors as:
 - Perceived benefit to the community.
 - Pricing which favors Sunnyvale residents over non-residents.
 - Target populations.
 - Promotional and marketing considerations.
- 7.11.2b.3 The fees established administratively by the Director of Parks and Recreation shall be published at least twice a year.

7.1I.2c Reserves

- 7.1I.2c.1 The Community Recreation Fund shall maintain a Twenty-Year Resource Allocation Plan Reserve to stabilize economic cycles and maintain service levels over the long term.
- 7.11.2c.2 Any fund balance remaining in the Community Recreation Fund shall remain in the Fund for use in subsequent years.
- 7.11.2c.3 The Community Recreation Fund will maintain a Co-op Sports Reserve to administer the after school intra-mural sports league programs at Sunnyvale Middle School and Columbia Middle School as required by agreement with the Sunnyvale School District.

Community Engagement Sub-Element

Goals, Policies and Action Statements

- Goal 7.2A Achieve a community in which all community members are well informed about local issues, city programs and services.
- Policy 7.2A.1 Assure that all community members have reasonable access to City information, services and programs within budgeted resources.

- 7.2A.1a Provide reasonable and cost effective access to City facilities, programs and services.
- 7.2A.1b suitable customer feedback mechanisms for City programs to assess quality and customer service issues and opportunities for improvement.
- 7.2A.1c Monitor legislative and regulatory trends regarding public access and information issues.
- 7.2A.1d Utilize community and business organizations to assist in informing the community about City Services and programs.

Program 717 - Payroll Administration

Program Performance Statement

Provide Payroll Services on a bi-weekly basis to approximately 1,200 employees in support of City operations in accordance with Administrative Policies and Memoranda of Understanding with employee labor unions (MOU), by:

- -Providing accurate and timely payroll services for all city employees, including issuing approximately 31,000 checks,
- -Providing regulatory reports to all Federal and State agencies including but not limited to Federal Form 941, State Form DE6 and Public Employees Retirement System (PERS),
- -Provide employees with annual W-2,
- -Providing timely employee payroll history requests for appropriate outside agencies such as Unemployment Insurance and PERS service credit, employees and managers,
- -Reconciling all payroll mandated and voluntary deductions including but not limited to taxes, credit union, charitable contributions and deferred compensation accounts to General Ledger per pay period, accounting period, quarter or annually as appropriate, and
- -Maintaining the City's payroll system to ensure its integrity and reliability by providing daily maintenance and troubleshooting; security and structural set-ups and, most current upgrades.

- 1. Implementation of Phase One of the new payroll software is complete. Payroll, in conjunction with the Information Technology Department has proposed a new project for Phase Two of the new payroll software. This is the distributed time entry process.
- 2. Reduction in regular and overtime hours in FY 2009/2010 is based on the assumption that Phase Two of the payroll software will be fully implemented.

Program 719 - Accounting and Financial Reporting

Program Performance Statement

Provide accounting and financial reporting services to City management and staff, City Council and regulatory agencies to enable them to make informed decisions regarding the financial affairs of the City, by:

- -Maintaining the City's Financial System software by providing the required most current system upgrades and enhancements as they become available for continued peak performance,
- -Performing daily maintenance of the City's Financial System, including daily balancing of financial tables,
- -Managing the City's Financial System software by providing structural setups for new object codes, funds and subfunds, general ledger and subsidiary general ledger accounts, transaction codes, leave policies, pay components and premiums and security setups for new users,
 - -Providing financial system reports and query tools to City staff,
 - -Ensuring accounting period reports are made available within ten business days after the accounting period closes,
 - -Accounting for the City's financial transactions in accordance with generally accepted accounting principles (GAAP) for governments,
 - -Reconciling all bank and general ledger accounts,
 - -Monitoring grants and projects,
 - -Managing the independent financial audit and producing the City's annual financial report as specified by the City Charter,
- -Preparing and providing financial or budgetary reports to Federal, State and other governmental agencies in order to comply with California law and to satisfy annual grant reporting and funding requirements, and
 - -Reporting and accounting for the Redevelopment Agency's financial transactions.

<u>Notes</u>

- 1. The training budget reflects:
- -The need to keep up with new governmental accounting standards/pronouncements, and
- -The succession plan to cross train employees so that the Financial System control remains effective as employees leave the work force.

Program 720 - Utility Billing, Collection, and Revenue Management

Program Performance Statement

Provide utility billing service, customer service, and financial management to enable the provision of high quality water, wastewater, and solid waste services to the City's 30,000 utility customers, by:

- -Reading meters as required by the Sunnyvale Municipal Code (SMC Section 12.24.020) so that residential meters are read once every other month, and commercial meters are read once a month,
 - -Working with new and existing customers to start and stop utility services as requested,
- -Distributing accurate and timely bills as required by the Sunnyvale Municipal Code (SMC Section 12.24.020) so that residential customers receive a bill once every other month, and commercial customers receive a bill once a month,
 - -Reviewing and auditing utility accounts regularly to ensure the accuracy and completeness of the data retained in the utility billing system,
 - -Working with existing customers to receive and process one time orders for service (for example special garbage pickups) and responding to detailed billing inquiries,
 - -Receiving and processing utility payments daily in a timely and accurate manner,
 - -Processing penalties on delinquent accounts as required by the Sunnyvale Municipal Code (SMC Section 12.50.050) and distributing reminder notices for those accounts,
 - -Reviewing delinquent utility accounts and interrupting water service to ensure the collection of delinquent funds weekly,
 - -Monitoring utility billing system performance and taking timely corrective action to address system problems,
 - -Setting utility rates that maintain the health of the utility enterprises over a twenty year period,
 - -Assisting in the preparation of utility operating and capital budgets for the utility enterprises,
 - -Providing timely and relevant utility billing system training to keep staff skills current with latest system upgrades,
- -Auditing significant areas of risk each year as identified in the program's audit plan with the purpose of maintaining the accuracy and completeness of the data retained in the utility billing system, and
- -Preparing and processing utility billing journal vouchers for interface with the City's financial system.

Notes

1. The Utility Billing, Collection, and Revenue Management Program's vision is to maximize the use of technology and employ an analytic based management approach to maintain current resource levels as the City grows.

In order to maintain our top notch public services in an ever shrinking resource environment, staff is focused on the implementation of cost and operationally effective technology, and the use of data to make real time predictive business decisions. To that end staff has made or is evaluating improvements to all significant work areas including customer service, payment processing, meter reading, and delinquency processing.

Program 720 - Utility Billing, Collection, and Revenue Management

Service Delivery Plan 72004 - Collect Delinquent Utility Charges

Maintain a high collection rate of utility charges, by:

- -Reviewing and processing delinquent utility accounts,
- -Providing accurate and timely notification of delinquency to delinquent customers,
- -Working directly with customers to ensure the payment of late balances through the provision of payment arrangements,
- -Reviewing and processing delinquent accounts of property owners for placement on the County tax roll,
- -Interrupting water service to insure collection of delinquent funds,
- -Reviewing garbage only accounts and reducing service to ensure collection of delinquent funds,
- -Reviewing and processing bankruptcies and taking action, such as filing a claim, when appropriate, and
- -Maximizing collection of delinquent funds through other collection techniques in compliance with applicable laws.

Notes

1. Staff is focused on reducing labor intensive delinquency activities (e.g. water turn offs) by using new tools. For example, included in the budget is \$1,800 for a yearly subscription to a skip tracing product for our collections operation.

Program 725 - Community Building, Civic Engagement and Volunteering

Program Performance Statement

Develop, maintain and grow community partnerships and resources in Sunnyvale, by:

- -Providing information and support to neighborhood associations, community organizations, and the general public,
- -Enhancing cultural understanding, facilitating the civic involvement of Sunnyvale's multi-cultural population,
- -Supporting volunteerism in Sunnyvale and the larger community,
- -Encouraging community participation and leadership development, and
- -Enhancing access to city services.

The four service delivery areas are:

- -Promoting the formation and effectiveness of neighborhood associations by acting as their City liaison, providing timely and useful information, facilitating quarterly meetings of neighborhood leaders, and administering neighborhood grants.
 - -Creating and maintaining outreach tools, providing information to community members, and coordinating outreach strategies and leadership training.
- -Enhancing Sunnyvale's sense of community and access to City services by supporting an inclusive and culturally diverse community, helping community members to resolve issues with the City, supporting community organizations (cultural, educations & faith-based organizations, not for profit agencies service groups, etc.) and administering Americans with Disabilities (ADA) related activities.
- -Building community partnerships, augmenting the provision of City services and supporting civic engagement by providing volunteer opportunities in City departments, training City staff to be effective supervisors of volunteers and interns, and promoting a connected community through community service and employee volunteerism.

Program 726 - Intergovernmental Relations (IGR)

Program Performance Statement

Assist staff and City Council in representing the City's interests in intergovernmental activities, and making informed decisions when establishing policies and positions on legislative issues, by:

- -Keeping Council informed about intergovernmental relations activities,
- -Responding to bills/issues in a coordinated and timely manner, and
- -Providing support to City-wide staff that are responsible for department-specific IGR activities.

Service delivery areas include:

- -Advocate on significant issues of concern to Sunnyvale as appropriate.
- -Manage and support Council's intergovernmental assignments by maintaining accurate records of Council assignments; notifying intergovernmental agencies of Council assignments at start of calendar year; processing new assignments for Council ratification in a timely way; and training IGR staff City-wide on Council support policies, procedures and expectations.
- -Identify and advise Council on pending legislative and intergovernmental issues of significant concern to Sunnyvale by supporting and coordinating City-wide IGR activities to provide balanced analysis of issues, review current City policy, and outline and evaluate alternative courses of action.
 - -Provide management and support.

Program 726 - Intergovernmental Relations (IGR)

Service Delivery Plan 72601 - Manage Council Intergovernmental (IGR) Assignments

Manage and support Council's intergovernmental assignments, by:

- -Maintaining accurate records of Council assignments,
- -Notifying intergovernmental agencies of Council assignments at start of calendar year,
- -Processing new assignments for Council ratification in a timely way, and
- -Training IGR staff City-wide on Council support policies, procedures and expectations.

Notes

1. Activity 726110 - FY08-09 hours will include an upgrade of the internal IGR website. In future years, these hours will be used for annual maintenance of the upgraded website and more individualized support of IGR liaisons and staff on IGR matters. These efforts will result in a more useful tool for department IGR liaisons and City staff; an upgraded website will also result in more available time for the IGR division to dedicate towards assisting departments with their advocacy efforts.

Program 728 - Council - Appointed Advisory Boards and Commissions

Program Performance Statement

Provide effective advisory Boards and Commissions to City Council, by:

- -Managing recruitment activities including publicizing to the community the opportunity to participate on ten (10) advisory boards and commissions: Arts Commission, Bicycle and Pedestrian Advisory Commission, Board of Building Code Appeals, Board of Library Trustees, Childcare Advisory Board, Heritage Preservation Commission, Housing and Human Services Commission, Parks and Recreation Commission, Personnel Board, and Planning Commission,
 - -Supporting Boards and Commissions member development through orientation and training,
 - -Supporting staff liaisons to the Boards and Commissions through training and problem-solving,
 - -Providing recognition of Boards and Commissions member service to Council and the community,
 - -Providing overall management and support of the Boards and Commissions process, and
 - -Providing ongoing monitoring of Boards and Commissions activities including attendance records.

<u>Notes</u>

- 1. This program focuses on strengthening Boards and Commissions member development, ensuring consistency amongst various Boards and Commissions where appropriate, and supporting staff liaisons responsible for Boards and Commissions. Program emphasis in FY 2008/2009 will be on reviewing and recommending revisions to Boards and Commissions by-laws revising and admin policy.
- 2. Administration oversight of City's Boards and Commissions program has been delegated, by the City Manager, to the City Clerk.
- 3. New program measures highlight the City's efforts to create a boards and commissions program that reflects the cultural demographics of the City.

Program 736 - Public Records and City Elections

Program Performance Statement

Ensure official City documents comply with California State Law and City Policy and ensure City elections comply with the State of California Election Code and City policy by accurately and efficiently:

- -Preparing for and facilitating Council meetings in accordance with Brown Act and City Charter,
- -Providing ongoing management and support of the Public Records and City Elections Program by: attending Council meetings; providing administrative and clerical support services; and providing training and educational opportunities for staff development,
- -Maintaining Tentative Council Meeting Agenda Calendar (TCMAC) and tracking Information and Action Items-Council direction to staff,
- -Maintaining and managing official City legislative records, and
- -Administering municipal elections in conjunction with the Santa Clara County Registrar of Voters.

Notes

1. City elections are held in November of odd-numbered years only. Significant differences in funding for this program every other year reflect the costs associated with election years as opposed to non-election years.

Program 736 - Public Records and City Elections

Service Delivery Plan 73601 - Records Management

Ensure Council-related documents are accurately maintained and/or distributed (ordinances, resolutions, contracts, claims, etc.); coordinate records retention and destruction, respond to internal and external requests for information, retrieval of City documents stored off-site, process FPPC 700 forms, and coordinate preparation of mandated costs summaries.

Notes

1. Planned products and dollars do not reflect potential changes as a result of current records management study, adoption of City-Wide records retention schedules, resulting reduction in need for off-site storage or implementation of a City-Wide electronic records management system.

Program 740 - Purchasing and Payment of City Obligations

Program Performance Statement

In accordance with the City Charter and the Sunnyvale Municipal Code, centrally purchase and pay for all goods and services required to support City-wide operations, by:

- -Creating and maintaining a fair and open purchasing system that encourages qualified suppliers and contractors to compete for City business,
- -Obtaining maximum value for each dollar spent by soliciting formal competitive bids for purchases of goods and/or services and construction projects valued at more than \$50,000 and soliciting informal quotes, when possible, for purchases valued at \$50,000 or less,
- -Participating in cooperative procurements with other governmental agencies to achieve cost savings through volume purchases,
- -Enhancing competition for City contracts by increasing the vendor pool through effective advertising,
- -Establishing purchasing and payment procedures which promote cost effective, efficient and ethical business practices and are in compliance with all laws, rules, regulations and policies,
 - -Providing assistance and training to City employees to ensure that they understand and comply with the City's purchasing and payment laws, policies and procedures,
- -Maintaining a centralized warehouse where City employees are able to obtain commonly used supplies quickly and easily, and at a reduced cost due to volume discounts through consolidated purchases that are competitively bid,
- -Paying supplier invoices timely, accurately and in compliance with contract terms and conditions and City policies and procedures,
- -Issuing purchasing cards to those City employees whose work assignments are such that the cards enhance their productivity and cost effectiveness,
- -Disposing of surplus and obsolete equipment and supplies, using processes that are cost effective, promote recycling and maximize sales revenue to the City, and
- -Providing centralized receiving for all corporation yard programs.

Program 740 - Purchasing and Payment of City Obligations

Service Delivery Plan 74002 - Payment of Non-Payroll Obligations

Establishing cost effective, efficient and fiscally sound payment practices, by:

- -Paying all supplier invoices accurately, timely and in accordance with contract terms and conditions and City policies and procedures,
- -Issuing purchasing cards to those City employees whose work assignments are such that the cards enhance their productivity and cost effectiveness,
- -Facilitating appropriate business travel by issuing travel advances and processing travel expense reports upon conclusion of travel,
- -Maintaining petty cash accounts by which City employees can be quickly reimbursed for incidental out-of-pocket expenditures for City business, and
- -Generating all reports required by state and federal agencies in an accurate and timely manner.

Program 740 - Purchasing and Payment of City Obligations

Service Delivery Plan 74004 - Central Stores

Maintain and operate a centralized warehouse from which City employees can quickly and easily obtain supplies and dispose of surplus, by:

- -Ordering, stocking and distributing commonly-used items that are up-to-date and relevant to City operations,
- -Maintaining inventory levels that are fiscally responsible while keeping stock outages at a minimum,
- -Providing a centralized receiving station for Corporation Yard work units,
- -Removing surplus and obsolete equipment and supplies from work areas throughout the City and disposing of it, using processes that are cost effective, promote recycling and maximize sales revenue to the City, and
- -Maintaining a centralized warehouse where City employees are able to obtain commonly used supplies quickly and easily, and at a reduced cost due to volume discounts through consolidated purchases that are competitively bid.

Program 743 - Budget Management

Program Performance Statement

Assist the City Manager in annually developing and submitting a budget to City Council, 35 days prior to the beginning of the fiscal year as prescribed in the City Charter, that meets the current and future service demands of the community in an efficient and cost-effective manner, by:

- -Developing revenue projections and a fee schedule annually,
- -Reviewing and analyzing operating programs and projects in alternating years,
- -Developing and updating the long-range financial plans annually,
- -Preparing and publishing the recommended and adopted budgets on the City's website, CD-ROM, and hard copy,
- -Analyzing the budgetary and fiscal impacts for various City issues arising through Reports to Council, labor negotiations, development proposals, requests for budget modifications and supplements, and requests from the City Manager, Finance Director and Departments,
- -Conducting the Fiscal Issues Workshop which includes a mid-year update on the current budget's revenue projections and expenditures, analysis on economic indicators and trends, presentation of budgetary and fiscal challenges facing the City,
 - -Reviewing and analyzing the year end results and carryover requests for all City programs and projects and preparing the data for presentation to City Council,
 - -Tracking budgeted revenues and expenditures throughout the year and working with Departments to address any issues, and
 - -Training program managers and staff support on the budget structure, process and system throughout the year.

Notes

1. The Government Finance Officer's Association is the professional association of state/provincial and local finance officers in the United States and Canada, and has served the public finance profession since 1906. - -Managing effective collection practices for delinquent receivables, including referring accounts uncollectible by the City to an outside collection agency,
- -Reviewing and processing revenue and taxes for all City departments,
- -Administering the Transient Occupancy Tax ordinance including accepting, reviewing, and processing tax returns and providing due process (administrative hearings) for the collection of tax owed,
- -Administering the Business License Tax ordinance including billing, reviewing and processing new and renewing applications and issuing license tax certificates,
- -Investing City's pooled cash in high quality investments while maintaining the overall objectives of safety, liquidity, and yield,
- -Administering all City bank accounts and all banking related activities including credit card processing, securities custody and account analysis of the City's bank accounts,
- -Maintaining bond issues and ensuring that all debt service payments and continuing disclosure deadlines are met according to bond covenants, and
- -Auditing disbursements to ensure compliance with City policies.

- 1. The costs reflected in the Business Tax activity reflect only Finance's portion of the application process. The zoning approval of the application and any other Community Development costs are not included.
- 2. In FY 2008/2009 an additional 350 work hours were added to this program to perform enhanced business license tax audit efforts.

Program 755 - Recruitment, Classification, and Compensation

Program Performance Statement

Provide effective, efficient, and timely recruitment and classification services, and compensation plan management for a workforce of approximately 1,200 employees in direct support of City-wide operations, by:

- -Developing partnerships with customer departments to provide effective staffing through the administration of mutually agreed upon recruitment plans,
- -Conducting recruitments to fill vacancies at the executive, management, professional, paraprofessional, technical, service maintenance, administrative, and clerical levels; and for public safety and dispatch positions,
 - -Managing the placement of temporary employees and administering the City's temporary placement agency contract,
 - -Administering the City's classification plan to optimize classification structure and to best support City-wide staffing needs,
- -Preparing, reviewing, and updating job specifications to accurately reflect the classification definition; distinguishing characteristics; essential and other functions; required minimum qualifications, including education and experience, licenses, and other certifications, as may be appropriate; and required knowledge, skills, and abilities,
 - -Administering the City's compensation plan to support attracting and retaining qualified employees through regular market and other analysis,
 - -Assisting with the development/refinement of City departmental organization structure, and
 - -Providing clear, timely, and accurate information to customers regarding recruitment, classification, and compensation issues.

<u>Notes</u>

The budgets for fiscal years 2008/2009 and 2009/2010 have been established using a 10% turnover rate for full-time and regular part-time employees, based on historical and industry trends.

Program 757 - Employee/Labor Relations and Employee Development

Program Performance Statement

Provide effective, efficient, and timely employee/labor relations management and employee development/training for a workforce of approximately 1,200 City employees in direct support of City-wide operations, by:

- -Managing the City's employee/labor relations program for five (5) recognized bargaining units: Communication Officers Association (COA), Public Safety Officers Association (PSOA), Service Employees International Union-Local 715 (SEIU), Sunnyvale Employees Association (SEA), and Sunnyvale Managers Association; and two (2) unrepresented groups: Unrepresented Management and Confidential employees in accordance with the Meyers-Milias Brown Act (MMBA),
- -Partnering with customer departments to proactively resolve employee/labor relations issues,
- -Managing the City's employee development/training program, including supervisory training, skills, professional, and leadership development, succession planning, and out placement services,
 - -Developing and managing the City-wide employee performance and evaluation programs,
 - -Assisting managers with employee performance issues,
 - -Providing counseling and assistance to employees on performance and other employee relations issues, and
 - -Providing clear, timely, and accurate information regarding the City's Human Resources policies and procedures.

- 1. The "Provide Mandated Training" activity includes training for Anti-Harassment and Ethics.
- 2. The "Employee Training /Development Program" activity includes a management-focused component that has been developed to address organizational needs in the next two fiscal years (08/09 and 09/10). This component, as well as other training provided, will be reviewed every two years to ensure that training provided addresses the changing needs of the organization.

Program 786 - City Liability and Property, Safety Services, and Workers' Compensation Benefits Administration

Program Performance Statement

To protect the assets of the City and its constituents through a comprehensive liability and insurance program (self-insured and pooled risk) that assures appropriate insurance coverage in the event of loss, by:

- -Managing the self-funded property and liability program, including the investigation and processing of claims in compliance with State law and City policy,
- -Representing the City in Small Claims Court actions,
- -Proactively managing the purchase of appropriate insurance, including employee bonds and theft policies, property coverage, boiler and machinery coverage, to ensure that policies are cost-effective and meet the needs of the organization,
- -Ensuring appropriate loss recovery in the event of City property damage,
- -Proactively identifying and coordinating the reduction of potential liability exposures,
- -Providing City departments with advice on exposure reduction,
- -Coordinating review of citizen complaints relating to potential liability exposures with responsible departments,
- -Coordinating the mitigation of identified liability exposures with responsible departments,
- -Coordinating and managing all activities required to maintain membership in a joint powers insurance risk pool, including preparation of financial reports, maintaining claims logs, and attend required meetings, and
 - -Assisting City departments with contract reviews and insurance compliance.

And provide effective, efficient, and timely administration of safety services and workers' compensation benefits in accordance with current laws, legal mandates, memoranda of understanding, and City policies for a workforce of approximately 1,200 City employees, by:

- -Proactively managing the City's workers' compensation contracts to ensure legal compliance and that services provided are cost-effective,
- -Managing the City's workers' compensation program, including administration of claims, review of leave usage, management of third party administrator contract, and securing legal counsel when appropriate,
 - -Providing on-going evaluation of safety services to ensure that cost effective services and benefits are provided,
 - -Meeting reporting and regulatory requirements,
 - -Partnering with managers and customer departments to proactively resolve issues, and
 - -Providing clear, timely, and accurate information regarding program policies and procedures.

Program 786 - City Liability and Property, Safety Services, and Workers' Compensation Benefits Administration

<u>Notes</u>

- 1. Beginning in Fiscal Year 08/09, this program includes safety services and workers' compensation administration. Budgeted hours in FY 07/08 for safety services were 1,268, and for workers' compensation were 3,342, for a total of 4,610. The budget for FY 08/09 includes 1,489 hours for safety services and 2,170 hours for workers' compensation, for a total of 3,659 hours. The reduction in hours for workers' compensation is due to efficiencies that have been implemented during the past two years in workers' compensation administration, and a redistribution of leave management. Leaves, other than those related to workers' compensation, will be managed by staff in Program 758.
- 2. For Fiscal Year 2008/2009, one-time funding has been included so that program services can be reviewed, options evaluated, policies updated, and efficiencies implemented so that services are provided in the most cost-effective manner.

\$30,000 is budgeted for a medical standards study. This study would develop job profiles for selected city job classifications. A job profile is developed by a specialized medical consultant who conducts an analysis of working conditions and environmental exposures encountered on the job. The job profile will then provide the foundation for the establishment of pre-employment job-related, cost effective medical examinations.

\$20,000 is budgeted for a safety specialist to assist the City in updating outdated safety policy and procedures, ensuring the City's legal compliance with appropriate OSHA rules and regulations, updating training needs and making recommendations for an ongoing safety programs. This process began in January 2008 but will need additional funds and time to be completed in FY 2008/2009.

\$15,000 is budgeted for a specialist to review and update several city policies and practices related to insurance requirements, contractual risk transfer, claims management and processes, and other necessary risk management improvements.

General Services

There are certain operating programs that do not fit into one of the seven General Plan elements. These General Services programs are used to account for the financing of goods and services provided by one program to other programs that are a part of the seven elements. The General Services operating programs include internal operations like fleet and facilities management, employee leaves and benefits, workers' compensation, insurance and information technology.

Program 761 - Application and Integration Services and Support

Program Performance Statement

Support the City's business technological needs through major computer applications software, such as Computer Aided Dispatch (CAD), the City's Website, and the Library, Utility Billing, Financial and Human Resources/Payroll systems, by:

- -Ensuring that critical applications software, which are those that, if inoperable or unavailable, present a potential liability to the organization, result in a financial loss, impact life and/or property safety, cause failure to meet urgent deadlines or negatively impact direct service to the City's constituents, are available for use and operating efficiently for their users:
 - -Escalating corrective actions for critical applications software in order to minimize their impact on users;
 - -Installing, upgrading, maintaining and supporting applications used throughout the City to maximize their effectiveness;
 - -Responding to requests for modifications or corrective actions to the satisfaction of and within timeframes agreed upon by our customers; and
 - -Using Geographical Information Systems (GIS) to implement, maintain and analyze multi-dimensional geographical data to create cost-effective and accurate business solutions.

<u>Notes</u>

- 1. The operating budgets for the Information Technology Department do not include capital acquisitions costs.
- 2. There is an \$18,000 increase in the FY 2009/2010 Software Licensing and Support budget for the City's webcasting solution, provided by Granicus. Support for FY 2008/2009 is funded through the IT Investment Account.
- 3. There is a \$31,000 increase in the Software Licensing and Support budget for software and licenses that we purchased since the last operating budget cycle or will purchase in FY 2008/2009 or 2009/2010. These include: Bardon Data Internet Security, COBOL Compiler, Compulaw, Distributed Time Entry, InfoWater Suite, Loan Ledger, Transoft Traffic Solutions and Training Tracker, and additional Groupwise, Crystal Reports and Tiburon (CAD/RMS) Licenses.
- 4. There is a \$3,000 increase in the Software as a Service (SAaS) budget for software subscriptions that we purchased since the last operating budget cycle or will purchase in FY 2008/2009 or 2009/2010. These include: Survey Analytics, Secure Socket Layer (SSL) Certificate and Pay Flow Pro.

Program 761 - Application and Integration Services and Support

Service Delivery Plan 76101 - Applications Software Management

Ensure data accuracy and integrity during the implementation, maintenance and support of the City's applications software, by:

- -Developing structured applications as required to support City operations;
- -Maintaining and upgrading applications to ensure they are operational and useful;
- -Creating reports for users that improve their use of applications software data; and
- -Providing applications software technical support, including making modifications, corrective actions, troubleshooting and end user training.

Program 763 - Provision of Vehicles and Motorized Equipment

Program Performance Statement

Support City operations with a safe, functional and dependable fleet of vehicles at the lowest possible cost, by:

- -Performing preventative maintenance and corrective repairs to minimize operating cost and maximize reliability of City vehicles and motorized equipment,
- -Supplying City programs with necessary and appropriate vehicles and motorized equipment, and
- -Generating and maintaining long range replacement plans to anticipate future vehicle and equipment needs.

Notes

1. Operator Certification includes providing in-house training on a variety of specialized equipment to enhance operator performance and address specific safety concerns. Of the 12 types of training provided by Fleet, forklift operator, commercial driver's license refresher, and underground storage tank operator training are mandated or recommended by other state agencies. The other 9 refer to items such as aerial basket trucks, backhoes, rotary mowers, loaders, crane trucks etc.

Program 763 - Provision of Vehicles and Motorized Equipment

Service Delivery Plan 76302 - Vehicle and Motorized Equipment Acquisition and Disposal

Support city operating programs with necessary and appropriate vehicles and motorized equipment and dispose of surplus inventory, by:

- -Providing vehicles and motorized equipment to operating programs in a cost effective manner,
- -Acquiring appropriate vehicles and motorized equipment that meet the needs of operating programs,
- -Preparing and placing newly acquired vehicles into service,
- -Disposing of retired vehicles and motorized equipment in accordance with City standards, and
- -Generating and maintaining long range replacement plans to anticipate future vehicle and equipment needs based on the following criteria:
 - 1. Condition of existing vehicle or equipment.
 - 2. Current and historic 'up-time' of existing vehicle or equipment.
 - 3. Current and cumulative usage of existing vehicle or equipment in hours or miles.
 - 4. Age of existing vehicle or equipment.

Program 767 - Infrastructure Services and Support

Program Performance Statement

Ensure that City departments can effectively and efficiently use technology and share information to perform their daily business operations, by:

- -Providing, maintaining and monitoring secure access to and use of the Wide Area Network (WAN), Local Area Networks (LANs), electronic mail, Internet and Intranet;
- -Providing, maintaining and monitoring the voice, data and video communications systems and networks;
- -Providing and maintaining voice, data and video communications equipment;
- -Providing technical support and technical training for desktop computing hardware and software;
- -Performing system and database backups and other routine production functions with minimal disruption to ensure the smooth and timely completion of daily operations throughout the City;
 - -Developing and implementing policies and procedures to prevent systems failures, and to minimize the loss of data in the event of failure;
- -Ensuring that systems and equipment critical to the City's daily operations, which are those that, if inoperable or unavailable, present a potential liability to the organization, result in a financial loss, impact life and/or property safety, cause failure to meet urgent deadlines or negatively impact direct service to the City's constituents, are available for use and operating efficiently for their users; and
 - -Escalating corrective actions for critical systems and equipment in order to minimize the disruption to City operations.

- 1. The operating budgets for the Information Technology Department do not include capital acquisitions costs.
- 2. There is a \$35,000 increase in the Miscellaneous Services budget for the IT Department's planned acquisition of a redundant internet service, needed by the City's Emergency Management Organization (EMO). It is also needed to expand our already strained bandwidth and to support the City's webcasting of Council and Planning Commission meetings.
- 3. There is a \$12,000 increase in the Software Licensing and Support budget for software and licenses that we purchased since the last operating budget cycle or will purchase in FY 2008/2009 or 2009/2010. These include: Electronic Call Accounting System (eCAS), Enterprise Backup Software and Faronics Anti-Executable, and additional Norton Anti-Virus Licenses.
- 4. There is a \$10,500 increase in the FY 2009/2010 Hardware Maintenance budget for support costs on the Network Appliance File Server that is currently under warranty.
- 5. \$12,000 of the Professional Services costs are for network consulting and troubleshooting. It is necessary to budget these dollars to ensure the City has the resources available to prevent and minimize any downtime of the City's network.
- 6. \$24,000 of the Professional Services costs are for outside support of various Department of Public Safety technology initiatives that the IT Department has neither the resources nor the expertise to provide.
- 7. Basic cell phone charges are budgeted as regular rental rates. Any new costs or those above the normal monthly charges will be treated as unbudgeted expenses and charged directly to a department's operating budget.

Program 769 - Facility Services

Program Performance Statement

Maintain 87 City buildings, approximately 485,509 square feet, including Public Safety, Library, 6 Fire Stations, Civic Center, Community Center, and Senior Center, in a safe, functional, clean and cost effective manner for all users, by:

- -Providing building inspections to ensure the safety, functionality, and code requirements of all City buildings and building components are met,
- -Providing preventive maintenance including proactive service to HVAC, plumbing, electrical and other building systems to ensure City-maintained buildings meet applicable codes and components function in an efficient and effective manner,
- -Providing a secured access control and fire monitoring system for the safety of City buildings and building occupants, issuing electronic and mechanical access keys, and maintaining records and associated equipment,
 - -Responding to building related urgent calls for service requests such as flooding, electrical outages, HVAC failure and structural building issues,
- -Performing scheduled maintenance and responding to over 2,500 building related non-urgent repair requests each year including temperature malfunctions or concerns, leaking water pipes and faucets, lighting and other electrical repairs, furniture and appliance repair and malfunctioning doors and windows,
- -Providing scheduled and non-scheduled contractual janitorial services to 330,000 square feet of buildings,
- -Managing, preparing, and implementing internal charges for City building occupied space and facility related equipment and their associated maintenance and repair costs,
- -Making City buildings ADA (American Disabilities Act) compliant by developing plans and implementing Capital Improvement Projects that allow for mandated federal ADA related upgrades to buildings, and
- -Maintaining the City building infrastructure in a manner that provides necessary utilities (natural gas, electricity, and potable water) for building users, and implementing comprehensive methods and practices to help conserve energy and water resources.

Program 769 - Facility Services

- 1. The product cost variance between janitorial services to the Columbia Neighborhood Center (Activity 769110) and janitorial services to other City buildings (Activity 769100) is due to the fact that the Columbia Neighborhood Center receives janitorial services seven days each week, as opposed to most other buildings that receive services five days each week. Additionally, the janitorial company must be mobilized to service the Columbia Neighborhood Center since it is located away from the Civic Center.
- 2. Utilities expenditures for FY 2006/2007 were down 12.7% from the previous fiscal year. This was due to a variety of factors, including milder temperatures placing less demand on the heating and cooling systems, the replacement of the Library HVAC system's cooling tower, and more concentrated efforts on conservation and efficiency.
- 3. The budget overage in hours and expenditures for FY 2006/2007 was the result of increased Facilities services requests from other City departments. For a portion of the year, Facilities was absorbing these requests within its budget, as opposed to charging the departments for these service requests, which had previously been the methodology. These charges are for Facilities services that are above and beyond the current service level agreement.
- 4. Additional supplemental restroom cleanings at the Library, the Community Center and the Senior Center have been incorporated into the Facilities division budget. These cleanings will be provided by City staff as opposed to the contractor based on the ability of City staff to provide the service at a lower cost.
- 5. Beginning in FY 2008/2009, the budgeted and actual expenditures for utilities will be included in the Columbia Neighborhood Center and Sunnyvale Office Center activities. Previously, these expenditures were budgeted in a separate SDP consisting of only utilities expenditures. This change will provide greater visibility to total Facilities services costs for the Columbia Neighborhood Center and the Sunnyvale Office Center.
- 6. Activity 769530 (Utilities Usage Monitoring and Conservation) is carried out as a part of the daily duties of Facilities staff and includes monitoring usage and consumption, studying alternatives to current utilities sources and identifying ways to become more energy efficient.

Program 770 - Internal and External Business Support Services

Program Performance Statement

Maximize the effectiveness of technology to support City operations, by:

- -Monitoring and evaluating emerging technologies and technology-related legislation to assess their value to and impact on the City and its operations;
- -Defining and planning for the short and long term technology needs of the City;
- -Improving efficiency by evaluating current business processes and recommending appropriate technology solutions;
- -Managing the City's technology assets to ensure they are provided and supported in the least costly and most effective manner;
- -Ensuring that adequate funds are available to acquire, replace and maintain technology assets; and
- -Enforcing franchise and wireless lease agreements to ensure subscribers receive quality service area coverage, customer support and competitive choices.

<u>Notes</u>

- 1. The operating budgets for the IT Department do not include capital acquisitions costs.
- 2. The IT Department plans to develop the following policies in FY 2008/2009: Storage Management, Password Policies, Remote Network Access, Use of Portable Devices, Project Management and Project Initiation.
- 3. \$12,000 of the Professional Services costs are for outside assistance with the acquisition of custom and standard technology used specifically by the Department of Public Safety.
- 4. \$2,250 of the Professional Services costs are for outside assistance with the analysis of the annual cable television rate changes.

Program 770 - Internal and External Business Support Services

Service Delivery Plan 77004 - Telecommunications Franchise and Lease Agreement Management

Negotiate and administer franchise and lease agreements for telecommunications services, such as cable television, wireless Internet and cellular telephone, so that customers receive quality service area coverage, customer support and competitive choices, by:

- -Conducting periodic reviews to determine the quality of the telecommunications service provided;
- -Enforcing compliance with customer service standards;
- -Ensuring that the City is fairly compensated for use of its property;
- -Ensuring that vendors are in compliance with their agreement terms and conditions and with local, state and federal regulations;
- -Ensuring the proper processes and procedures for City approval of agreements and permits are followed; and
- -Receiving and responding to resident inquiries and complaints, and following up to ensure the appropriate resolution action was taken.

SUNNYVALE BUDGET AND FISCAL POLICIES

BUDGET POLICIES

Planning and Management System (PAMS)

The Planning and Management System (PAMS) was designed to integrate the policymaking, service delivery, fiscal control, and evaluation activities of the City into one strategic management blueprint. Comprised of three major components - General Plan, Service Delivery, and Personnel/Program Evaluation, PAMS provides the City a structured process of managing services, assigning responsibility, and ensuring accountability.

General Plan

The General Plan is a long-term planning document that provides the City with a framework for action, as well as the direction in which to focus that action. General Plan Elements are areas in which the City has elected to administer and manage the delivery of services to its citizens and customers. The seven General Plan Elements are Land Use & Transportation, Community Development, Environmental Management, Public Safety, Socio-Economic, Cultural, and Planning & Management. Each element of the City's General Plan has a sub-element, or series of sub-elements, which make up the goals or standards desired for the future of the community. These sub-elements provide the avenue through which long-range policy is developed and ultimately implemented.

Service Delivery

The service delivery component of PAMS is the area in which the role of the program manager becomes essential. Program managers are ultimately responsible for meeting the service levels set by the Council and reflected in the operating budget. Meeting performance measures in each program contributes to accomplishing the sub-element goal to which the operating program is linked. Every program is broken down into service delivery plans. Furthermore, every service delivery plan is composed of specific activities that are performed by staff to accomplish defined products. Activities and their associated products are the actual services delivered.

Twenty-Year Resource Allocation Plan & Financial Planning

The Twenty-year Resource Allocation Plan is the backbone of the City's financial planning process. For operating expenditures, twenty planning years are forecast using assumed inflation and salary rates, based on the last year in which a detailed operating budget is presented. For capital expenditures, projects are planned out over the entire 20-year horizon. For revenues, each major source has unique characteristics that affect projections.

A fundamental part of the allocation plan is that it is balanced to the twentieth year. By utilizing a twenty-year planning horizon, the City is able to plan and manage reserves so that funds are increased in good times and drawn down in difficult financial times. In short, a balanced twenty-year plan allows the City to be proactive in its financial management, while maintaining a strong, proactive financial position when faced with dynamic circumstances.

This long-range planning methodology also provides the City Council a tool with which it can address policy. The methodology incorporates both short- and long-term perspectives for planning project revenues, operating requirements, and capital spending. It allows the cost of any policy decision to be measured in terms of long-range expenditure requirements, thereby raising "red flags" in areas where financial conditions may be significantly different in the future. The Twenty-year Resource Allocation Plan has helped the City establish a "pay-as-you-go" philosophy, allowing money to be set aside in reserve funds for future service expansion or capital projects.

Two-Year Operating & Projects Budget

Although the City reviews its budget on an annual basis, it only prepares a detailed operating budget each biennium. This means that operating budgets are not modified during the second year of the two-year budget. During the "off year" of the operating budget, the projects budget is reviewed in detail. The two-year cycle for operating and projects do not coincide.

The Projects Budget is comprised of capital, infrastructure, outside group funding, and special projects, which are "non-operating efforts." Special projects are somewhat unique to Sunnyvale because this type of project often is considered as part of the operating budgets in other cities. However, special projects are included in projects budget precisely because they are one-time special efforts and not anticipated to affect the base operating budget after they are completed. Capital and infrastructure projects are probably the most crucial area in which the City must allocate and administer limited resources. Within these projects, the City's infrastructure maintenance and replacement is managed. Outside group funding projects provide supplemental support to the City's needy residents through funding of local human services agencies. The principal source of funding is the Community Development Block Grant (CDBG). In recent years, the City has supplemented federal funding with some General Fund support.

Types of Expenditures

There are four major types of expenditures in the City's spending plan: operating, equipment, capital improvements, and debt service. Operating expenditures are related to a program's base budget and include such items as general supplies, personnel costs, and equipment rental. Major equipment expenses like computer hardware or city-owned cars are provided for separately under a general services program. Capital improvements are expenditures which affect the economic vitality and quality of life in the community. A good example would be construction of a park or resurfacing a city street. Debt service allows an improvement to be made when it is needed rather than being delayed until funds are accumulated in the City's treasury. Debt service is used like a credit card — buying something today and paying for it over time. It may be used to finance, for example, a new community center building.

Cost Accounting

Cost accounting is a method of accounting that gathers together all the elements of cost incurred to accomplish a purpose, carry on an activity, or complete a unit of work. By using this financial technique, the City is able to assess the true cost of providing a service. The City's internal users of information management, fleet and equipment, and buildings are assessed rental rates through their programs for the use and eventual replacement of services and equipment. Employee benefits such as leave usage, retirement, and insurances also are recovered by charging the programs that use personnel services. The City also uses an allocation system to distribute administrative costs to those activities that provide a service.

Basis of Budgeting

"Basis of budgeting" refers to the method used to recognize revenues and expenditures in the budget. For the City of Sunnyvale, the basis of budgeting is the same basis used for accounting. The modified accrual basis is followed in the Governmental and Agency Funds including the General Fund and special revenue funds like the Park Dedication Fund. Under this basis, revenues are recognized when they become "susceptible to accrual," which means they are both measurable and available. Measurable means the amount of the transaction can be determined.

The City considers revenues to be available if they are collected within 60 days of the current fiscal year end for property tax and 90 days for other revenues with the exception of the County back-fill (for the loss of sales tax and Motor Vehicle License Fees (VLF) revenues) for which the City adopts a seven-month availability period so that total sales tax and VLF revenues would be most consistent with revenues reported in years before the State sales tax flip and VLF swap. Expenditures generally are recorded when a liability is incurred except for debt service expenditures, which are recorded when payment is due.

Intergovernmental revenues (primarily grants) that are received as reimbursement for specific purposes or projects are recognized based on when the related expenditures are recorded. Intergovernmental revenues which have virtually unrestricted purpose and are revocable only for failure to meet prescribed compliance requirements are reflected as revenues at the time of receipt or earlier if availability criteria are met.

The accrual basis is used in the proprietary funds which include enterprise funds and internal service funds. Revenues are recognized when earned and expenses are recognized when the related liabilities are incurred.

Comprehensive Annual Financial Report (CAFR)

The Comprehensive Annual Financial Report (CAFR) is prepared according to "generally accepted accounting principles" (GAAP). The City prepares its budget in accordance with GAAP with the following exceptions:

- Loans requiring the use of current resources need to be budgeted as expenditures; in the CAFR, the disbursement of loans are treated as balance sheet items.
- Appropriated budgets are not always needed for all of the City's funds. For example, a budget is not appropriated for the advance refunding of bonds because the resulting bond proceeds are deposited into escrow accounts and are considered restricted assets.
- Principal payments on long-term debt within the enterprise funds are applied to the outstanding liability in the CAFR while such items are treated as expenses in the budget.
- Capital outlay within enterprise funds and internal service funds are capitalized as fixed assets in the CAFR in contrast to being treated as expenses in the budget.
- The budget does not record depreciation expenses.
- GAAP requires the reporting of investments at fair value. Because the City's policy is to hold investments to maturity, the changes in fair value are not reflected in the budget.

The CAFR shows fund expenditures and revenues on both a GAAP and budget basis for comparison purposes.

Budgetary Policy & Control

The City follows procedures that enact its policy when the annual budget is adopted. These procedures involve the City management, employees, the public, boards and commissions, and the City Council throughout the year. These interactions between policy and planning culminate in the establishment of new or revised General Plan goals and objectives. The budget must implement the policies contained in the General Plan. Therefore, both must be synchronized completely. The City follows the following general procedures to establish the budgetary data reflected in its financial statements:

- During January of each year, a City Council workshop is held to discuss important fiscal issues, which may have short-term or long-term effects, on how the City provides and maintains services to its citizens and customers.
- During May of each year, the City Manager submits to the City Council a recommended budget for the fiscal year commencing July 1. The City Charter requires that the City Council receive the City Manager's recommended budget no later than thirty-five days prior to June 30.
- The City Manager's recommended budget include budgets for equipment, operating costs, debt service costs, as well as capital, infrastructure, and special projects for the ensuing year. The recommended budget also contains detailed long-term financial plans with projections for expenditures, revenues, and reserves for an additional nineteen years.
- During May of each year, the City Council holds a workshop on the budget. The workshop is open to the public.
- During June of each year, the City Council holds a public hearing in which the public may submit written or oral comments regarding the entire budget or portions thereof. This public hearing is legally required by the City Charter.
- Prior to June 30 of each year, the budget as modified by the City Council, is legally enacted by adoption of a budget resolution.
- For governmental and agency funds, the City Manager is authorized to reappropriate budgeted amounts between programs that
 are financed by the same fund and within the same department. Council approval is required if the reappropriation exceeds the
 thresholds outlined below:

| • Annual Program Budget | Reappropriation Threshold | Maximum Reappropriation Threshold (Annual) |
|-------------------------------|---|--|
| • ≥ \$500,000 | • \$100,000 or 5%, whichever is greater | • \$250,000 |
| • <\$500,000 | • \$50,000 or 50%, whichever is less | • \$50,000 |

- Council approval also is required for proprietary funds and internal services funds if the expenditures for the fiscal year exceed
 actual revenues plus the planned, annualized appropriation from either the Rate Stabilization Reserve Account or the Resource
 Allocation Plan Reserve Account, whichever is applicable.
- Budgets are legally adopted for all governmental funds except for the Special Assessment Debt Service Fund. The Special Assessment Debt Service Fund does not have an adopted budget because the City is only required to make debt service payments in the event of a property owner's default. Budgets are adopted legally for all proprietary funds. Formal budgets are employed as a management control device for all funds in which a budget has been adopted. However, it serves as the primary means of spending control for the General Fund, special revenue funds, debt service funds, and capital project funds.
- Budgets can be modified during the fiscal year if needed because of a legislative mandate, City Council or City Manager
 directive, or an unanticipated change in service level. Budget modifications cover one fiscal year only and must be approved
 by City Council. This allows management to focus on changes to the base budget during the next budget process.

Citizen Participation

Citizens have an opportunity to participate in the Twenty-year Resource Allocation Planning Process through avenues such as Council-appointed boards and commissions, study sessions, and public hearings. Each winter, citizens are provided the opportunity to speak on proposed study and budget issues at a formal public hearing. Citizens may attend study sessions dealing with upcoming Council issues, as well as Council meetings which are scheduled on Tuesdays throughout the year. At the Council meetings, citizens are given an opportunity to speak during the public hearing period. In addition, a formal public hearing on the recommended budget is held annually in June.

Budget Calendar

The City's annual budget development process begins in September each year with the initial planning of the development cycle and culminates with the adoption of the budget by the City Council in June. Below is a high-level calendar detailing some of the key milestones throughout the process. As noted previously, the City of Sunnyvale alternates years for developing operating budgets and projects budgets. The calendar below represents key milestones that take place regardless of whether the budget being developed is an operating budget or a projects budget.

September

- Department of Finance kicks off annual budget cycle with a process overview and training targeted at Department Directors and Program Managers.
- Department Directors meet with City Manager to discuss strategic overview of upcoming year's budget development. This includes any structural changes to performance-based operating budgets.

October

- Budget system opens to departments for entry of budget data. Program Managers develop baseline budgets and enter budget data into budget system.
- Budget Office initiates process developing internal service charges, revenue projections, and schedule of fees and charges.

November

- Budget system closes to departments; entry of initial data finished.
- Budget Office begins initial review of budget submittals by departments and works with Program Managers to prepare for budget pre-reviews.

December

- Department of Finance conducts pre-reviews of budget submittals with Department Directors and Program Managers.
- Based on the results of the pre-reviews, the Budget Office works with Program Managers to make necessary adjustments to budgets in preparation for the reviews with the City Manager.

January

• Budget reviews with City Manager begin.

• Expenditures are finalized for all internal services, and the Budget Office and the Internal Service Managers begin developing the allocations of internal service charges across programs.

February

- Budget reviews with City Manager completed. Budget Office makes final changes to programs/projects prior to finalizing budgets for the following fiscal year.
- Internal service charges and allocations to programs are established.
- Budget system is updated with salary/benefit information, inflation factors, cost allocation, and internal service charges.

March

- Reviews of revenue projections and service charges begin.
- City-wide overhead charges are established and allocated to the appropriate funds.
- Budget Office begins the process of developing 20-Year Long Term Financial Plans for all City funds based on final budgeted expenditure numbers.

April

- Revenue and service fee projections are finalized and reviewed with the City Manager.
- 20-Year Long Term Financial Plans are completed. Financial data for the upcoming year are utilized to develop all summary tables included in the Recommended Budget.
- Budget Transmittal Letter is prepared and finalized for inclusion into the Recommended Budget.

May

- City Manager's Recommended Budget is delivered to City Council.
- City Manager holds comprehensive Budget Workshop for Council to review major aspects of the Recommended Budget.

June

- Public Hearing is held and public comment is taken on items related to the City Manager's Recommended Budget.
- City Council adopts budget prior to the end of the Fiscal Year (June 30).

FISCAL POLICIES

The Fiscal Sub-element of the General Plan applies the following guiding fiscal policies to the City's Budget and Resource Allocation Plan:

7.1A Budget Policies

A.1: Development of the Budget and Resource Allocation Plan

- A.1.1 The public will be encouraged to participate fully in the budget process.
- A.1.2. A Fiscal Issues Workshop will be held each year prior to preparation of the City Manager's Recommended Budget to consider budget issues for the upcoming Resource Allocation Plan.
- A.1.3. A balanced Twenty-Year Resource Allocation Plan shall be presented to the City Council annually.
- A.1.4. The Twenty-Year Resource Allocation Plan shall be prepared on a two-year Operating Budget cycle.
- A.1.5. The Operating Budget shall be approved annually with the second year approved in concept.
- A.1.6. A proposed budget shall be recommended to the City Council by the City Manager no less than thirty-five days before the beginning of the fiscal year, in accordance with the City Charter.
- A.1.7. At least one public hearing shall be held after the City Manager's Recommended Budget is presented to the Council in order to solicit public input before adoption.
- A.1.8. Boards and Commissions should review the annual budget as appropriate to their area of interest and make recommendations to the City Council.
- A.1.9. The City Council shall adopt the City Manager's Recommended Budget, with any changes desired, by resolution before June 30th of each year.
- A.1.10. Resources will be allocated in direct relation to General Plan goals.

- A.1.11. The Resource Allocation Plan shall be prepared by General Plan element to link city resources with the accomplishment of General Plan goals.
- A.1.12. New or expanded services should support the priorities reflected in the General Plan.
- A.1.13. All competing requests for City resources should be weighed within the formal annual budget process.
- A.1.14. Final actions on study items with significant financial impacts should be withheld until they can be made in the full context of the annual budget process.

A.2: Long Term Financial Planning

- A.2.1. The City shall maintain a long-term fiscal perspective by annually preparing a Twenty-year Long Term Financial Plan for each fund. Those funds which account for intergovernmental grants will only include known entitlements.
- A.2.2. Major financial decisions should be made in the context of the Twenty-Year Long Term Financial Plan.
- A.2.3. Long term financial planning should enable the current service level provided to be sustained over time through the strategic use of reserves.
- A.2.4. The Long Term Financial Plans should be used to communicate the fiscal impact of City decisions to all stakeholders whenever possible.

A.3: Performance-Based Budget System

- A.3.1. The operating budget will be prepared and managed on a program basis.
- A.3.2. All costs attributable to a budgeted program will be fully reflected in program budgets (with the exception of capital costs of general-use public buildings and facilities).
- A.3.3. An emphasis should be placed on achieving maximum work productivity to ensure an optimal allocation of human and fiscal resources for Council approved services and programs.
- A.3.4. All operating programs must identify the service provided, the service level, and the resources necessary to accomplish the specific service level.

A.3.5. A performance measurement system will be maintained and used to evaluate quality of service and to report results.

A.4: Budget Monitoring and Modification

- A.4.1. Expenditures for each department are legally limited to the amount authorized by the City Council in the Budget Resolution, plus subsequent changes individually approved by the City Council through Budget Modifications.
- A.4.2. The City's annual budget may be modified at any Council meeting by a majority vote of the City Council.
- A.4.3. The City's budget appropriation control shall be by program within the same fund for operating programs in the General Fund and Special Revenue Funds. For the Proprietary and Internal Service Funds, expenditures cannot exceed actual revenues plus the planned use of reserves.
- A.4.4. Appropriations for capital and special projects shall be limited to the amounts contained on the Budget Resolution for each project. All modifications to project budgets require Council approval.
- A.4.5. Budget reappropriations among programs within a Department and Fund may be authorized by the City Manager if service levels as approved by City Council are maintained.
- A.4.6. Any unexpended appropriations shall expire at fiscal year-end unless specifically reappropriated by the City Council for expenditure during the new fiscal year.

7.1B Revenue Policies

B.1: Revenue Base

- B.1.1. The City will maintain a diversified and stable revenue base, not overly dependent on any land use or external funding source.
- B.1.2. Taxes levied by the City will be used for the purpose of financing services performed for the common benefit.
- B.1.3. Taxes should be held at their lowest possible level, while maintaining Council-approved service levels.
- B.1.4. When considering a new tax or revenue source or an increase in an existing tax or revenue source, the following criteria should be considered:
 - Community/voter acceptance

- Competitiveness with surrounding communities
- Efficiency of revenue collection and enforcement
- Effectiveness in generating sufficient revenues in the short and long-term to justify its establishment
- Enhancement of revenue diversity to promote stability and provide protection from downturns in business cycles
- Equity/Fairness in distribution of the revenue burden on various segments of the community
- B.1.5. Reliance on any restricted and/or inelastic sources of revenue will be avoided.
- B.1.6. One-time revenues should not be used for ongoing expenditures.
- B.1.7. Revenue should not be targeted for a specific program, unless a revenue source has been established for the sole purpose of financing a particular expenditure.
- B.1.8. Potential new revenue sources will be investigated periodically to ensure that the City's revenue base is stable and diversified.
- B.1.9. Donations, contributions, and sponsorships may be accepted if they are in accordance with City policy and General Plan priorities.

B.2: Revenue Forecasting and Monitoring

- B.2.1. All revenue estimates must be conservative, objective and reasonable.
- B.2.2. Revenue forecasts should be based on detailed information regarding historical performance and economic conditions whenever possible.
- B.2.3. At least ten years data for all tax revenue sources will be maintained.
- B.2.4. Revenues will be estimated for the budget year and for each planning year in the Twenty-year Resource Allocation Plan.
- B.2.5. Methods to maximize the accuracy of revenue forecasts will be established.
- B.2.6. Estimated revenues from grant sources will be projected only to the specific date on which the entitlement will end.

B.2.7. Estimated intergovernmental revenues for which the City is eligible (but which are not guaranteed) will be forecast to assure that local matching funds will be available if the revenues are realized.

B.3: Revenue Collection

- B.3.1. The City will seek all possible Federal and State reimbursement for mandated projects and/or programs.
- B.3.2. An aggressive collection system for all accounts receivable, including utility receivables, will be utilized to assure that monies due to the City are received in a timely fashion.
- B.3.3. Monthly reviews and periodic audits of Transient Occupancy Tax returns will be conducted.
- B.3.4. Monthly reviews and periodic audits of all major locally administered revenue sources will be conducted.
- B.3.5. Periodic point-of-sale audits for Sales Tax will be conducted.

B.4: Grants and Intergovernmental Assistance

- B.4.1. The use of intergovernmental grant assistance for routine programs will be discouraged. Intergovernmental grants may be used for special projects which strengthen a program, have a definable starting and ending date, and do not expand a service in such a way as to require the substitution of local funds to continue part or all of the service once intergovernmental assistance ends.
- B.4.2. Intergovernmental assistance may only be used to establish or expand a program when the Twenty-Year Resource Allocation Plan meets the following conditions:
 - The program is eliminated at the end of the intergovernmental funding period, or
 - The program continues with the requisite local funding in the Twenty-Year Resource Allocation Plan upon completion of intergovernmental funding
- B.4.3. A uniform grants application process must be utilized to assure that the City Council has the information necessary to make a decision regarding a potential intergovernmental grant. Staff should present to Council a Notice of Intent regarding a possible grant source which shall include at least the following information:
 - The grant being pursued and the use to which it would be placed
 - The objectives or goals of the City which will be achieved through use of the grant
 - The local match required, if any, plus the source of the local match

- The increased cost to be locally funded upon termination of the grant
- The ability of the City to administer the grant

B.5: User Fees

- B.5.1. User fees should be used to recover the cost of services that benefit specific segments of the community.
- B.5.2. User fees should be reviewed and adjusted at least annually to avoid sharp changes.
- B.5.3. User fees and charges should not exceed the City's full cost of providing the service.
- B.5.4. User fees should be established at a level which reflects the full cost of providing those services.
- B.5.5. The City Council may determine for any service whether a subsidy from the General Fund is in the public interest.
- B.5.6. User fees shall only be used when the cost of providing the service can be readily calculated and administered.
- B.5.7. User fees should be adopted by Council resolution and included in the Annual Fee Schedule.

^{*}Note: For additional user fee policies specific to the Utility Funds or the Community Recreation Fund, please see those sections under Enterprise Fund policies.

Activity Under the City's Performance Based Budget structure, an activity is the lowest level cost

center within an operating program. It incorporates everything that goes into providing a

specific service.

Allocated Costs A method for allocating overhead time and other expenses to activities that provide direct

services.

Appropriations Expenditure authority created by City Council.

Asset Forfeiture Fund This fund accounts for the proceeds from sale of assets seized primarily from illegal

narcotics activities. Asset Forfeiture funds are used for law enforcement purposes.

Basis of Budgeting Basis of budgeting refers to the method used for recognizing revenues and expenditures in

the budget. The City uses the modified accrual basis of accounting for budgetary purposes, which is in compliance with Generally Accepted Accounting Principles.

Base Budget Those resources necessary to meet an established and existing service level.

Budget A financial plan consisting of an estimate of proposed expenditures, the proposed means

of financing those expenditures and the corresponding purposes for a given time period.

Budget Issue A request to add a new service or increase/decrease an existing service level. Budget

Issues referred for consideration by City Council to the City Manager become Budget

Supplements.

Budget Modification A change in expenditure levels and corresponding resources needed to accomplish an

existing service level or unanticipated service. All budget modifications are reflected in

the current year budget and have been approved by City Council.

Budget Supplement A proposal for an increase or decrease in an existing service level (Over and above the

base budget) or to add a new service. All Budget Supplements are considered with the

City Manager's Recommended Budget.

Business License Tax This two-year tax is based on the number of employees or rental units (for rental

properties). This tax will be annually adjusted for inflation beginning in 2010.

Capital Project A capital improvement that usually requires a major initial investment, and results in a

new asset for the City.

Capital Projects Fund Funds that are used to account for financial resources to be used for the acquisition or

construction of major capital projects (other than those financed by enterprise funds).

Community Condition A statistical measure of existing conditions within the City. These provide tangible and

quantitative expressions of the General Plan's goals, while some indicators directly impact

City services.

Indicator

Community Development

This fund accounts for use of community development block grant funds received from the federal government. Other revenues in this fund include repayments of commercial

and residential loans and rental income from City property. Funds are used for programs or projects that increase affordable housing and benefit people with special needs such as

senior and handicapped citizens.

Construction Tax The City's construction tax is levied by City ordinance at a rate of \$0.0054 of the building

permit valuation.

Community Recreation

Fund

This fund is used to account for all of the revenues and expenses related to the two cityoperated golf courses, the tennis center, and the recreation classes and services offered by

the City.

Debt Service Principal and interest requirements on outstanding debt.

Element (General Plan) There are seven elements of the General Plan which assist the City in delivering high

quality services to its constituency as well as in meeting State requirements of a charter city. These seven elements are LAND USE & TRANSPORTATION, COMMUNITY DEVELOPMENT, ENVIRONMENTAL MANAGEMENT, LAW ENFORCEMENT,

SOCIO-ECONOMIC, CULTURAL, PLANNING & MANAGEMENT.

Employment Development

Fund

This fund accounts for various Federal funds and program revenues used for workforce development activities conducted by the North Valley Job Training Consortium.

Employee Benefits Fund This fund accounts for charges to City salary expenditures for leave time, employee

benefits, workers compensation benefits and retirement benefits on a cost reimbursement

basis.

Enterprise Fund These funds are used to account for operations that are financed and operated in a manner

similar to private business where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be finance or recovered primarily through user charges. Activities such as water, wastewater, solid

waste, and community recreation are established as enterprise funds.

Expenditure The actual outlay of funds from the City treasury.

Fiscal Year A 12-month period of time, from July 1 through June 30.

Full Cost Accounting

A branch of managerial accounting concerned with accumulating both direct and

indirect costs for financial reporting and decision making purposes. By using this accounting technique, the City is able to assess the true cost of providing a service and

its associated benefits.

Fund A fiscal and accounting entity that has a self-balancing set of accounts that comprise its

assets, liabilities, fund equity, revenues, and expenditures. City resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be

spent and the means by which spending activities are controlled.

Funding Sources Identifies resources that will support City expenditures.

Gas Tax Fund This fund is required by state law to account for gas tax revenues received from the state

and expended for construction and maintenance of City streets.

General Fund

A fund that accounts for all financial resources necessary to carry out basic governmental

activities of the City that are not accounted for in another fund. The General Fund supports essential City services such as police and fire protection, street maintenance, libraries, and parks and open space maintenance. Revenues to support the General Fund are derived

from sources such as property tax, sales tax, franchise fees and service fees.

General Plan The General Plan is a long range planning document that provides the City a framework

for action and the direction in which to focus that action. General Plan Elements are areas in which the City has elected to administer and manage the delivery of services to its

community.

General Plan Goal A long-term condition or end result that the City will work toward. Broad goals are set to

maintain or affect community conditions. Each goal expresses a general and

immeasurable value and is tracked by at least one indicator.

General Services Fund This fund accounts for charges to City Programs for use of fleet equipment, building

space, office equipment, print shop services and computer services on a cost

reimbursement basis.

Grant A contribution by a government or other organization to support a particular function.

Housing Fund This fund is used to account for housing mitigation revenue and Below Market Rate

(BMR) program funds for the City's affordable housing needs. Funds are expended on special and capital projects designed to achieve the City's goal of affordable housing and

community development.

Infrastructure Renovation and Replacement Fund

A fund used to account for resources used for the City's long-term infrastructure renovation and replacement program.

Infrastructure Project

A project that is designed for the renovation and/or replacement of infrastructure assets.

Interfund Transfer Internal Service Funds Amounts transferred from one fund to another.

These are funds used to account for the financing of goods or services provided by one department or program to other departments or programs of the City on a cost-

reimbursement basis.

Liability and Property Insurance Fund

This fund accounts for charges to City Funds for property and liability insurance on a cost reimbursement basis.

Legislative Issues

Major policy decisions made by the City Council on matters such as General Plan Sub-Elements, ordinances, and resolutions requiring study that need to be scheduled on Council's calendar.

Operating Budget

A financial plan for the provision of direct services and support functions.

Operating Program

The City manages under a performance budget concept organized by programs, service delivery plans and activities. The program is the highest operational level and falls under a sub-element of the City's General Plan. There are two fundamental types of programs - direct services, which produce results directly affecting constituents or the environment; and support, which serve the direct services programs.

Origination Year The origin

The origination year is the fiscal year a project and its related costs were put into the Resource Allocation Plan. This is not necessarily the year the project is started.

Outside Group Funding Project

A project that captures City contributions made to local community-based organizations. These projects are funded from Community Development Block Grant (CDBG) and General funds.

Park Dedication Fund

This fund is used to account for funds that developers contribute towards the acquisition, construction, or renovation of neighborhood and community parks and park facilities.

Parking District Fund

This fund accounts for special assessments levied on the real property located in the City's downtown parking district. The revenues in this fund are used to maintain parking lots located within the district.

Performance Based Budget

A budget wherein expenditures are based primarily upon measurable performance of activities.

Planning and Management System (PAMS) This management system was designed to integrate the policymaking, service delivery, fiscal control and evaluation activities of the City into one strategic management blueprint. Comprised of three major components - General Plan, Service Delivery and Personnel and Program Evaluation - PAMS provides the City a more structured process of managing services, assigning responsibility and ensuring accountability.

Police Services
Augmentation Fund

This fund accounts for monies received from the federal and state governments, which are expended to enhance law enforcement services.

Products In the City's Performance Based Budget structure, products are the end results of activities

that support program statements and measures.

Product Efficiency Represents the ratio between the number of products per activity and the amount of time

needed to complete that activity, commonly expressed as Hours/Product.

Product Cost Represents the production cost of any given activity, commonly expressed as

Cost/Product.

Program Measure

Priorities

Represents the City Council-set priority level for each Performance Measure. These priorities set the relative importance among the measures within a Program and consist of <u>Mandatory, Council Highest Priority, Important and Desirable</u>. Mandatory measures must be provided as a matter of law, while the other three types of priorities represent in varying degrees those services that the City has the option to provide.

Program Performance

Measures

Define the program's quantifiable and measurable results that are expected to be produced by completing the work or activities included in the program.

Program Statement

Under the Performance Based Budget structure, these statements describe the purpose and final result for which the program is undertaken (from the customer's view) as well as broad service areas and critical measures.

Program Manager

A supervisor or manager who plans and manages the execution of one or more of the

City's operating programs.

Project Category Projects are categorized into four areas: Capital, Special, Outside Group Funding, and

Infrastructure.

Project Coordinator A person who coordinates the project for the user department.

Project Costs All the costs associated with a project. These costs include prior year actual expenditures,

current year budgeted expenditures and future year planned expenditures over a 20 year

planning period.

Project Description/Scope/

Purpose

Provides a summary description of a project, including the results to be accomplished,

timeframe and basis for project costs.

Project Evaluation and

Analysis

Provides a discussion of the financial and operational justifications for the project.

Addresses any cost savings or efficiency gains by completing this project and any other

If applicable, estimated operating costs or savings associated with the completion of a

alternatives that were considered in the decision to fund the project.

Project Manager A supervisor or manager who plans and manages the execution of one or more of the

City's projects.

Project Number/Name Existing number and title in the City's financial system that identifies a particular project.

Project Operating

Costs /Savings project are budgeted into the resource allocation plan.

Property Tax California State Constitution Article XIII A provides that the combined maximum

property tax rate on any given property may not exceed 1% of its assessed value unless an additional amount has been approved by voters. Santa Clara County assesses properties, bills and collects these property taxes. The City's share including all penalties and interest

is remitted by the County.

Property Transfer Tax This tax is levied at a rate of \$0.55 per \$500 of equity value transferred. The County

collects the tax and the City receives one-half. Revenues are dependent on how frequently

the property is transferred and on the accrued value at the time of transfer.

Redevelopment Agency

Fund

This fund accounts for the activities of the Redevelopment Agency of the City, which was created by the City Council to prepare and carry out redevelopment plans for designated

areas of the City.

Reserve Reserve amounts in a fund represent fund balance amounts that are legally identified or set

aside for specific purposes.

Revenue Funds the City receives as income such as tax payments, fees for services, grants, fines,

forfeitures and interest income.

Sales Tax The City receives one percent of the County taxes on retail sales. The sales tax is one of

the City's largest General Fund revenue sources.

Service Delivery Plans Under the Performance Based Budget structure, these plans describe specific

programming of targeted services to meet the program goals and measures.

SMaRT® Station Fund

This fund was established to account for the revenues and expenses of the Sunnyvale Materials and Recovery and Transfer (SMaRT®) Station operations. The SMaRT® Station is a three wary partnership between the cities of Sunnyvale, Palo Alto and Mountain View.

Solid Waste Management Fund

This fund accounts for the revenues and expenses related to refuse collection and solid waste disposal services.

Special Assessment Fund

A fund used to account for the financing of public improvements or services deemed to benefit primarily the properties against which special assessments are levied.

Special Revenue Funds

These funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts or for major capital projects) that are legally restricted to expenditures for specified purposes.

Spending Limitation (GANN LIMIT)

Article XIIIB of the California Constitution establishes a spending limitation on government agencies within California. The spending limit is a mandated calculation of how much the City is allowed to expend in one fiscal year. Annually, local governments may increase the appropriation limit by a factor comprised of the change in population combined with the California inflation rate and determined by the State finance department.

Sub-Element

Each element of the City's General Plan has a sub-element or series of sub-elements which make up the goals or standards desired for the future of the community. These sub-elements provide the avenue for which long-range policy making of the General Plan is developed and ultimately implemented.

Sub-Element Goal Sub-element goals are established to further define policy areas. It is a statement

describing a general community condition the City wants to achieve or maintain through

its operating programs, projects or cooperation with other entities.

Sub-Fund Number A three-digit number attached to a fund number that identifies a sub-division of the fund,

thus capturing specific information as required.

Planned Completion Year This is the fiscal year a project is planned to be finished. For projects that are continuous,

"ongoing" is the designated planned completion year.

A 9.0 percent tax is levied on charges for occupancy of hotel and motel rooms for stays. Transient Occupancy Tax

The City's lodging industry is largely dedicated to serving its industrial base. This tax

increased one-half percent to 9.5 percent in 2009.

20-Year Resource The 20-Year Resource Allocation Plan is the backbone of the City's financial planning Allocation Plan

process. This long-range planning gives the Council a tool with which it can project revenues, operating requirements and capital spending and identify trends. It allows the

cost of any policy decision to be measured in terms of long-range expenditure

requirements, thereby raising "red flags" in areas where financial conditions may be unacceptable in the future. The 20-Year Resource Allocation Plan has helped the City

fund a pay-as-you-go philosophy, allowing money to be set aside in reserve funds for

future service expansion or major projects.

The department that initiated the project. User Department

User Fee The payment of a fee for direct receipt of a service by the party benefiting from the

service.

Utility Users Tax A two-percent tax is levied on utility billings for gas and electric and intra-state telephone

services.

Distribution Fund

This fund accounts for all revenues and expenses related to the City-operated water utility. Water Supply and

This fund accounts for all the revenues and expenses related to the city-operated sewer Wastewater Management **Fund**

collection and Water Pollution Control Plant systems.

This fund accounts for revenues and operating program expenditures of the Columbia Youth and Neighborhood Neighborhood Center, a partnership between the City of Sunnyvale, the Sunnyvale School Services Fund

District and a private corporation (Advanced Micro Devices).
