THIS PAGE NOT USED

BUDGET SUPPLEMENT NO: 1

June 2, 2011

SUBJECT: Establish a Budget for Implementation of the First Phase of the Guided Neighborhood Bike Routes Project

BUDGET SUPPLEMENT REQUEST SUMMARY

A budget issue has been brought forward to consider \$40,000 in funding for a guided neighborhood bike routes project in the 2011/12 budget.

BACKGROUND

The City Council in October, 2010 approved a guided bike route concept map and an unfunded, revenue dependent project to provide a network of signed, guided bike routes throughout the City. Council also approved a second phase project to construct associated physical improvements at select locations on the bike route network. This budget supplement request is for the first phase of the project only.

EXISTING POLICY

Land Use and Transportation Element C3.5, Maximize the provision of bicycle and pedestrian facilities.

DISCUSSION

Council considered a 2010 study issue to identify a network of streets more lightly traveled by vehicular traffic that can serve as bicycle routes for riders less comfortable riding on streets with heavy traffic. These routes can be identified using signs consistent with Federal and State design standards for local bike route networks.

The BPAC and staff identified and field checked a network of 16 potential routes. The network is a rough grid of streets traversing the entire City. The route concept was to provide alternative ways of traveling on major streets. The guided route network is intended to supplement, not replace, the bike facilities on major streets. Creation of a guided bike route network provides encouragement and opportunity for potential riders who otherwise might be intimidated by traveling on heavily traveled streets. It can also encourage recreational or destination riding. Guide signs with route numbering augmented by destination placard signs, would be placed at key points on each route. Signage would be done consistent with Federal and State standards.

SERVICE LEVEL IMPACT

Completion of this project would increase maintenance activities of the associated signs.

FISCAL IMPACT

The project cost is estimated at \$40,000. No funding source has been identified, so funds for this project would need to come by reducing resources or projects in other areas of the budget.

ALTERNATIVES

Determine a source of City funds for a guided bicycle route signing project and identify resources or projects to be de-funded in order to provide project funding.

Maintain the guided bike routes project as a revenue dependent project and pursue outside funding for the project.

STAFF RECOMMENDATION

Staff recommends that the guided bike routes project be maintained as a revenue dependent project. This is consistent with other planned bicycle improvement projects, and there is no mandate for construction of this project. Discretionary resources are not available at this time to fund this project.

City Manager's Recommendation

Approve Budget Supplement for funding

Do Not Approve Budget Supplement for funding

Gary Luebbers, City Manager

May 6, 2011

SUBJECT: Expand Care Management Program at the Senior Center

BUDGET SUPPLEMENT REQUEST SUMMARY

At their meeting on January 28, 2011, City Council approved a Budget Issue to consider allocation of additional resources to support a full-time care management program for Sunnyvale seniors. Approval of this Budget Supplement would expand the existing quarter-time care management program in the Recreation Division budget to a full time level of service.

Care management, also known as case management, assists seniors requiring specialized care and their families in identifying care and service needs to enable them to remain in their homes. For those seniors who do not have family close by to assist them, the Care Manager becomes their advocate by connecting the client to services and resources that are available from non-profits and privately funded organizations.

A full time Care Manager can directly assist an average of 60 individuals as well as respond to requests for information from the public, conduct community outreach and provide educational programs to assist seniors who require specialized care and services.

Along with managing case loads, the Care Manager serves as a resource contact for the community. In any given year, the Sunnyvale Care Manager has had the following types of contact with the community:

- Community Contact: Requests to meet with the Care Manager by either phone or in person;
- Phone Calls: Inquiries/Information and Referral calls returned and received;
- Office Visits: Onsite and drop in visits by public;
- Emails: responses to requests for information, development of resources and referrals, communication regarding individual clients.

Staff does not recommend approval of this Budget Supplement at this time. While there is a demonstrated need for the Care Management Program, an increased service level would require additional funding of \$59,090 for the full-time Care Manager and an additional \$21,240 for clerical support; or a total of \$80,350 for the full package. There is also a one-time expenditure of \$5,000 if clerical support is approved for the acquisition of an office set-up, computer and phone. This estimate reflects the amount of "new" dollars required and does not assume receipt of Council on Aging Silicon Valley (COA) grant funding. However, the COA Executive Director recently stated that the funding stream for support of Care Management programs is stable at this time and under current guidelines, a full-time care management program would qualify for a \$20,000 grant from the COA.

It should be noted that the FY10/11 budget reflects funding resources at the level of a half-time Care Manager, although City Council has only authorized spending at the quarter-time level. The surplus funds have not been expended, so fewer “new” dollars are thus required to pay for a full-time Care Manager.

Regardless, an increase in the service level will result in increased costs that will not be offset by revenue. A corresponding reduction in General Fund or Community Recreation Fund programs and services, or resources from some other source as determined by City Council would be required to offset the increased service level.

BACKGROUND

In January 2006, a Budget Issue Summary was considered to provide funding for a full-time care management program in Sunnyvale after the program operated by the non-profit organization Sunnyvale Community Services (SCS) was eliminated. At that time, Council approved a budget supplement to fund a pilot half-time program in FY 2006/2007. The budget was partially offset by a one-time grant of \$20,000 from the Council of Aging Silicon Valley (COA).

In FY 2007/2008, City Council considered a Budget Supplement to fund the half-time program on an on-going basis. Instead, City Council decided to reduce the program by 50%, reducing the service level to that of a one quarter-time Care Manager. By contracting with the COA, staff has been able to leverage the allocated City funds to cover the cost of 13 hours per week of care management services rather than 10 hours per week. The COA again made an exception to their funding criteria and agreed to pay for an additional seven hours per week so a half-time (20 hours per week) care management program could be maintained at the Sunnyvale Senior Center. This arrangement continues to date. If at some point the COA or City decides to discontinue the agreement, the care management program would revert back to ten hours per week.

From FY 2006/2007 to FY 2009/2010, the Care Management Program served 208 Sunnyvale seniors and their families. In addition, the Care Manager responded to numerous requests for information from the public and conducted community outreach and educational programs to assist seniors requiring specialized care and services to enable them to remain in their homes.

EXISTING POLICY

Socio Economic Sub-Element

Policy 5.1H.3 - Encourage the provision of services for older adults in Sunnyvale.

Policy 5.1.H.10 and 11 – Encourage the adequate provision of health care/social services to Sunnyvale residents

Open Space and Recreation Sub-Element Policies:

Programming B.5 – Develop and implement programs in order to meet the developmental needs and social needs of specific targeted populations (e.g. youth, teens, seniors, disabled).

Programming B.6 – Leverage available resources by pursuing co-funded and/or cooperative agreements for provision and maintenance of programs, facilities and services, in order to maximize benefits to the community.

Access E.4 – Utilize the Senior Center for senior programming and services exclusively between 8 a.m. and 6 p.m. Mondays through Fridays unless special permission is granted by the Director of Parks and Recreation.

Fiscal Sub-Element

Policy 1.2a.2 – Any increase in service levels by City Council not covered by an increase in revenues will result in a corresponding increase to the General Fund subsidy.

DISCUSSION

This Budget Supplement contemplates a service level increase to provide a full-time care management program at the Sunnyvale Senior Center. This would require the creation of a full-time Care Manager, and ideally, provide administrative support for the care management program. Staff has included clerical/administrative information in this report as an “add alternate” to the full-time Care Manager. The “add alternate” would provide funds for clerical and administrative support that would allow the Care Manager to function more effectively and efficiently.

Care Manager / Care Management Service Level

According to Council on Aging Silicon Valley (COA), a full-time Care Manager can successfully manage 60 case loads per year. A “case” is defined as a completed “case file” (the required support and assistance for one individual). Managing a case load involves handling extremely confidential data in a sensitive environment involving very personal matters. The severity of the situation will determine if the Care Manager will assign a “case file” and develop strategies and solutions to the matters presented (not all community contact develop into a “case file”). Elements of a case file generally include: navigating the health care and financial system, reviewing home environments, coordinating a multi disciplinary approach towards assisting the senior in maintaining as much of their independence as possible. For some individuals this means coordinating home health care services, dealing with family neglect

and abuse, dealing with creditors to help seniors who have been defrauded, assisting seniors with managing their medications and health care costs, assisting seniors with managing their finances (living in Silicon Valley on a Social Security Monthly Average of \$845) and helping families by connecting them with resources to help their aging parent. The Care Manager will often visit with the clients in their homes because they are unable to transport themselves to the Sunnyvale Senior Center. Time to handle these case loads vary according to the severity of the situation the seniors face. Due to the nature of these challenges, COA recommends an annual case load level of 60 clients. This figure is based on efficiency, avoiding burnout amongst care managers, and to allow adequate time to effectively manage the case load. An experienced Care Manager with deep connections in a community and strong skills to navigate the bureaucracy involved with care management may be able to manage more cases.

Along with managing case loads, the Care Manager serves as a resource contact for the community and responds to hundreds of requests for information, referral and/or support via meetings, by phone or by mail (postal service or email).

The following chart provides details about the Care Manager’s activities from July 1, 2010 to September 30, 2010:

Specific Activities	Data as of 9/10
<p>Seniors Served Provide case management services for 45 Sunnyvale seniors, not previously served by the Council on Aging – includes preparation of individualized care plans, coordination of services, authorization of payment for services and purchase of services for clients, as well as, periodic client contact to determine the quality and effectiveness of the services provided.</p>	<p>18 new clients (Approx. 38 clients in existing case load)</p>
<p>Client Contacts Contacts with clients by phone, meeting or email</p> <ul style="list-style-type: none"> • Phone calls (Clients and non-clients) • Office visits (Clients and non-clients) • Home visits (Clients) • Email/fax communications (Clients and non-clients) 	<ul style="list-style-type: none"> • 670 phone calls received or placed by Care Manager • 54 office visits to Care Manager • 39 home visits made by Care Manager • 185 email or fax communications made by Care Manager

Administrative and Clerical Support (Add Alternate)

Beginning in FY 2009/2010, a vacant regular part-time Office Assistant position was eliminated from the Recreation Division budget as a cost savings strategy. The position had been assigned to the Senior Center front counter. The remaining Senior Center front counter staff cannot absorb the increased community contact and phone calls that are anticipated should the care management service level increase to full-time. Currently, the front desk staff at the Senior Center field some of the basic information and referral (I & R) calls allowing the Care Manager to focus on clients. If City Council is interested in improving the efficiency and capacity of the Care Manager position, allocating resources for additional clerical/front counter staff would accomplish this goal. If not, then the Care Manager would be responsible for providing general information, responding to referral calls and completing routine administrative tasks.

A casual clerical support position of 900 hours could provide the following to the Care Manager:

1. Coordinate and maintain I & R data (resources change constantly and the Care Manager's time would be used more efficiently if her information is current);
2. Administrative Tasks – Prioritize calls and messages left for Care Manager; assist Care Manager with follow up calls to case load clients (assisting clients with calling community resources, i.e. calls to the doctor);
3. Handle client's files with confidential information including assisting with connecting personal client info to lawyers or insurance representatives (volunteers cannot handle these files)

SERVICE LEVEL IMPACT

If funded, this budget supplement will provide an on-going service level increase in the Community Recreation Fund to provide a full-time Care Manager to serve a minimum of 60 individuals each year. The program would be conducted in partnership with the Council on Aging Silicon Valley, a non-profit that receives funding from the Federal and State governments, Medi-cal, the United Way and a number of private foundations. The Care Management Program would continue to be housed at the Sunnyvale Senior Center and a care manager would be hired or the COA would provide a qualified staff person to conduct comprehensive assessments, care planning, service authorization and arrangements, and case monitoring of approximately 60 clients annually. Additionally, hundreds of seniors and their friends and family members would also receive limited assistance through information and referrals.

FISCAL IMPACT

Approval of Budget Supplement No. 2 will expand the care management position to full-time at a cost of approximately \$118,458. The Care Manager position is budgeted at the Administrative Analyst level, which is comparable to the market wages for a professional Care Manager. An additional \$3,000 is required to cover IT computer replacement rates on the existing computer, and to cover the cost of the phone, office supplies and mileage reimbursement expenses, bringing the total cost of a full-time Care Manager to \$121,458. Based on the current allocated budget for Care Management, the service level expansion will result in a net increase to the General Fund of approximately \$59,090. The approximate cost is \$1,700 per care management case although several hundred individuals also receive assistance through information and referral contacts.

The COA's standard practice is to fund \$10,000 of a part-time, 20-hour per week Care Manager and \$20,000 of a full-time, 40-hour per week Care Manager. The City could expect a grant of \$20,000 to fund the full-time Care Management Program as it is proposed in this report; although annual funding from the COA is not guaranteed. If Council on Aging Silicon Valley continues to provide \$20,000 annually in grant funds for agencies providing full-time care management services the net increase to the City would be reduced to \$39,090.

Administrative and Clerical Support (Add Alternate)

\$25,126 will cover the cost of a casual clerical position (\$22,626 in staffing and \$2,500 to cover IT computer replacement rates on a new computer, and the cost of a phone, office supplies and mileage as necessary). This position would provide increased clerical / front counter support for the Care Manager by handling phone contacts and scheduling appointments.

An additional one time only cost of \$5,000 would be required for a new computer work station at the Senior Center.

ALTERNATIVES

1. Approve funding to support a full-time Care Management Program at the Sunnyvale Senior Center consisting of increased annual General Fund contribution to the Community Recreation Fund of \$59,090. This does not assume successful receipt of a grant of \$20,000 from the COA, since funding is not guaranteed.
2. Approve funding to support a full-time Care Management Program at the Sunnyvale Senior Center consisting of increased annual General Fund contribution to the Community Recreation Fund of \$59,090 contingent upon receipt of a \$20,000 grant from the COA to bring the City's new costs down to \$39,090.

3. Approve funding to support 900 hours of casual clerical support to the Care Management Program consisting of increased annual General Fund contribution to the Community Recreation Fund of \$25,126 and a one-time allocation of no more than \$5,000 for a new work station.
4. Do not approve Budget Supplement No. 2, and continue the Care Management Program at its current one quarter-time level funding.
5. Other direction as provided by Council .

STAFF RECOMMENDATION

Staff Recommends Alternative 4.

According to a report from COA, from July 2009 to March 2010, the Sunnyvale Care Management program handled 73 Case Loads (28 more than the recommended 45 case loads for PT Care Manager) with the following age breakdown:

- 12% (9) of total served are 60-69 years of age;
 - o 29% (21) of total served are 70-79 years of age;
 - o 40% (29) of total served are 80-89 years of age;
 - o 19% (14) of total served are 90 or above.

Based on these age breakdowns, 15.4% of Sunnyvale's total population of 136,352 (US Census – American Community Survey 2006-2008) fall into the age categories served by the Sunnyvale Care Management Program (60 years and older). Of that 15.4%, 3% are ages 80 and up – that age range currently represents 59% (43) of the total care management cases in Sunnyvale.

The amount of traffic the Care Manager experiences (the number of community contacts) and the fact that the half time Care Manager position is managing more than the recommended 60 case loads per year (for a full-time Care Manager) would suggest that there is ample need for this service in this community.

While expanding the current services of the Care Management program to a full-time program would be of benefit to the Sunnyvale Community, it also requires additional funding. This could come from a corresponding reduction in General Fund or Community Recreation Fund programs and services, or some other source determined by City Council. Staff recommends deferring expansion of the Care Management Program until the City's current fiscal condition improves.

BUDGET SUPPLEMENT NO: 3

June 2, 2011

SUBJECT: Junior Achievement K-12 Education Program

BUDGET SUPPLEMENT REQUEST SUMMARY

Junior Achievement of Northern California (JA), a nonprofit community based organization, is seeking \$5,000 in funding to support Project \$AVE (Success, Achieve, Value, Educate). The overall goal of Project \$AVE is to impact K-12th grade students with JA programs that will prepare the next generation of workers with entrepreneurship, financial literacy, and 21st century skills.

Volunteer role models teach the programs during the school day, sharing experiences and exposing students to a cross-section of careers. JA's classroom programs are offered at each grade level enhancing the regular school curriculum with business, economic education and workforce readiness programming including problem solving, teamwork and critical thinking. Staff does not support this budget supplement request.

BACKGROUND

Junior Achievement's Project \$AVE will utilize research-based curriculum which revolves around the theme that excellence in school leads to success in the real world. All programs emphasize these school-to-career ideas while teaching real-life concepts, such as money management, career preparation and global competition.

JA's request to the City of Sunnyvale for \$5,000 will be directly used to fund 217 Sunnyvale students while supporting JA's goal to serve 1,650 disadvantaged students in Sunnyvale during the 2011-2012 school year.

Since JA does not qualify to apply for Community Development Block Grant funding, which is defined as those organizations that provide supportive services to a specific group of people, at least 51% of who have low to moderate incomes, their request is being submitted as a budget supplement for consideration.

EXISTING POLICY

Socio-Economic Sub-Element Policy 5.1F.1c - Develop program alternatives to address the unique needs of special populations, such as youth, seniors, the disabled, welfare recipients and others.

Socio-Economic Sub-Element Policy 5.1H.8 – Encourage programs that assist at-risk youth in obtaining an education and learning job skills.

DISCUSSION

JA's Project \$AVE fits with Activity 527100 (Coordinate Education Programs) in Program 527 (Youth & Family Resources). Both JA's program and this activity aim to provide direct education to youth on topics and issues not discussed within the education curriculum delivered through the schools. Activity 527100 also encompasses education programs for parents and/or adults in the community.

Examples of education programs offered in Activity 527100:

- Bilingual Story Time – a weekly program for parents and young children to encourage early literacy and foster the love of reading.
- Career Day at Sunnyvale & Columbia Middle Schools – offered in partnership with schools and community partners whereby students interact and learn directly from colleges & universities, NOVA, and local businesses about the importance of education and a successful future.
- Project Cares – classroom presentations from Bill Wilson Center to middle school students to inform them of community resources students can directly access if they are ever unsafe, homeless, or in need of services and have nowhere else to turn.
- Winter Camp – a 4-day camp offered in partnership with Columbia Middle School during school's winter break whereby 60 students receive additional academic support in the morning from teachers and are transported off-site each afternoon to participate in one of three enrichment activities that connects higher education and future careers.
- Peer Support Presentations – in partnership with Fremont High School whereby high school students, usually graduates of Columbia Middle School, return to Columbia Middle School to talk with 8th graders about attending high school; what a peer support model is; the importance of having positive peers who support and encourage you in a high school environment of thousands of students on campus; and get 8th graders excited about attending Fremont High School next year.
- English as a Second Language (ESL) – in partnership with Adult Education, ESL classes are offered to adults 2 evenings per week on the Columbia MS campus.
- Financial Literacy – workshops on basic money management skills have been offered to youth and adults with various partners.
- Parent Education Workshops – in partnership with various partners, offer parenting skills workshops to parents/guardians to strengthen their ability to support their children.

JA's program leverages resources and aims to serve a total of 1,650 students in Sunnyvale. Their service model leverages resources by training and using volunteers to deliver their education program in multiple schools in Sunnyvale.

For FY 2011/12, Activity 527100 does not have monies budgeted to absorb JA's request of \$5,000. There are 240 staff hours and \$5,406 for professional services budgeted to coordinate an estimated six education programs for both youth and adults. Staff plans to partner with community organizations and other partners so education programs will be offered as an in-kind service to the City or at a reduced rate, paid for through the \$5,406 budgeted.

SERVICE LEVEL IMPACT

JA proposes to serve 1,650 students in various classes in elementary, middle and high schools in Sunnyvale.

FISCAL IMPACT

If JA is funded as a one-time cost to provide the program for FY 2011/12, the budget impact will be \$5,000 for the year.

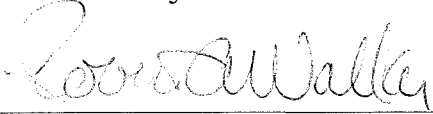

ALTERNATIVES

1. Fund JA Program as a one-time cost of \$5,000 to provide the program in FY 2011/12.
2. Fund JA Program at a level reduced from what was proposed by JA.
3. Do not fund JA Program.

STAFF RECOMMENDATION

Staff recommends against funding. JA provides a positive service to students in Sunnyvale and has been able to leverage City funding in the past to secure additional funding. However, staff would not recommend a reduction in existing City services to fund JA's services, and if staff were provided \$5,000 with which to increase its services to youth and families, staff would recommend placing those resources elsewhere (counseling services or mentoring services for at-risk youth).

City Manager's Recommendation

Approve Budget Supplement for funding

Do Not Approve Budget Supplement for funding

Gary Luebbers, City Manager

BUDGET SUPPLEMENT NO: 4

June 2, 2011

SUBJECT: Outside Group Funding Request from Silicon Valley Leadership for Leadership Sunnyvale Program

BUDGET SUPPLEMENT REQUEST SUMMARY

Silicon Valley Leadership (SVL), an independent, nonprofit community-based organization that provides leadership and public affairs training to Sunnyvale community members, has submitted an outside group funding request to continue providing its Leadership Sunnyvale program. Approval of this request would provide \$6,000 to SVL, which has received supplemental funding from the City's General Fund through the Outside Group Funding Program since FY 2003/04.

BACKGROUND

The City's financial support for SVL and the number of Sunnyvale's stakeholders who have been served by the program are included in the following table:

Fiscal Year	City Funding	Total Number of SVL Participants
2010/11	\$6,000	18
2009/10	\$6,000	18
2008/09	\$8,000	22
2007/08	\$8,000	23
2006/07	\$8,323	19
2005/06	\$10,000	15
2004/05	\$7,000	22
2003/04	\$5,000	21

Historically, the City has also entered into a separate agreement supporting SVL for Leadership Sunnyvale. The separate agreement has provided in-kind services totaling \$2,850, which include the use of City facilities and City staff presentations during leadership classes, and a commitment to enroll City staff members in Leadership Sunnyvale (in FY 2010/11 two staff were enrolled at a combined tuition rate of \$1,600). The FY 2010/11 agreement became effective on July 1, 2010, and will expire June 30, 2011 and was approved by Council via RTC 10-253, *Agreements Between the City of Sunnyvale and Silicon Valley Leadership to Provide Leadership Sunnyvale Training Program*.

EXISTING POLICY

Community Engagement Sub-Element:

Goal 7.2B – Achieve a community in which all community members can be actively involved in shaping the quality of life and participate in local community and government activities.

Policy 7.2B.1 – Encourage community involvement in the development and implementation of City and community activities, programs and services.

Council Policy 7.2.4 – Relationships with Outside Groups

The Relationships with Outside Groups (RWOOG) Council Policy provides a consistent approach, via a special agreement, for non-CDBG-eligible groups to seek City funding support. Groups eligible for supplemental support via the RWOOG policy are those that:

“... provide a community service, or promote an informed interest in the City’s objectives, services, facilities and programs for the benefit of its residents and businesses, and/or have [as their] purpose the raising of funds and provision of financial support for the City’s programs, and comply with the First Amendment, pertinent federal and state laws, as well as City ordinances.”

The RWOOG policy does not specify funding criteria or cite a funding source.

DISCUSSION

SVL requests \$6,000 in Outside Group Funding support for FY 2011/12 to support Leadership Sunnyvale, a “ nine-month intensive public affairs and leadership training program that allows participants to expand their perspective of issues affecting the community and to enhance the skills needed to become more effectively involved in civic and community-based affairs.” Leadership Sunnyvale anticipates providing service to at least 18 Sunnyvale stakeholders in FY 2011/12.

In previous years, SVL has met their contract obligations with one problematic exception – their funding reimbursement requests were submitted at the end of the fiscal year, instead of quarterly, as stated in the contract. This was a concern for staff, as quarterly reimbursements provide a method for tracking contract progress and accountability. However, a new executive director joined SVL in October 2010 and staff has already received an SVL reimbursement request for the first two quarters of FY 2010/11. Staff is optimistic that SVL will continue with the quarterly reimbursement requests.

Financially, SVL funding reached a significant low point in FY 2009/10. With total revenues of \$94,439 and total expenses of \$112,948, the organization drew the \$18,509 difference from its reserve fund, leaving the fund at \$10,793

by year's end. The financial information provided by SVL goes back five years, and shows FY 2009/10 as a year of significantly lower income across all revenue types. While this financial snapshot does not foretell the future of the organization, it certainly reflects the impact of the current economy.

In addition to this request, consistent with past years, an in-kind services and enrollment commitment agreement may be presented to Council in late summer 2011 (for in-kind services estimated at \$2,850 and tuition fees estimated at \$1,600).

SERVICE LEVEL IMPACT

Since FY2003/04, the City has provided General Fund support for Leadership Sunnyvale in accordance with the City's Outside Group Funding program. SVL's leadership training activities are consistent with the City of Sunnyvale's Community Engagement Sub-element, but are neither offered by the City nor incorporated into currently budgeted service levels. As a result, there would be no impact to currently budgeted service levels. General fund support for SVL leverages City resources for leadership training in the Sunnyvale community.

FISCAL IMPACT

This Budget Supplement would earmark \$6,000 for SVL to continue Leadership Sunnyvale in FY 2011/12. This budget supplement would be identified in the General Fund for reimbursement to SVL for services provided.

ALTERNATIVES

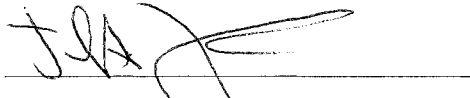

1. Approve the SVL funding request for \$6,000 of Outside Group Funding for FY 2011/12.
2. Do not approve the SVL funding request for \$6,000 of Outside Group Funding for FY 2011/12.
3. Approve a reduced funding amount of Outside Group Funding for SVL for FY 2011/12.
4. Other direction as provided by Council.

STAFF RECOMMENDATION

Staff recommends Alternative 1: Approve the SVL funding request for \$6,000 of Outside Group Funding for FY 2011/12.

SVL leverages the City's Outside Group Funding support to provide leadership training that the City does not provide. Additionally, the Leadership Sunnyvale program benefits the community and City government by preparing Sunnyvale stakeholders to engage in the local democratic process. Approving this funding request will continue that support for another year.

BUDGET SUPPLEMENT NO: 5

June 2, 2011

SUBJECT: Community Event Grant Funding

BUDGET SUPPLEMENT REQUEST SUMMARY

This supplement would provide one-time FY 2011/12 funding to support community-initiated special events through one-time grants. Should such funding be approved, general guidelines for acting on specific requests for financial support of community events would be implemented in accordance with Council policy established on July 28, 2009, with RTC 09-194 and on February 15, 2011, during the Council Discussion with the Community Event Grant Distribution Subcommittee (Agenda Item#6).

BACKGROUND

Special events such as parades, fairs, festivals, public dances, shows and concerts are an important part of a healthy and vibrant community. Special events provide opportunities to celebrate the City's diversity, heritage and uniqueness, allowing community members the occasion to interact and strengthen a sense of community, and foster a channel for economic prosperity.

The Community Event Grant Program was launched in FY 2001/02, with Council approval of \$25,000 for community event grant support. The funding supported events taking place within Sunnyvale, which were free and open to the public and had attendance of 500 people or more. The Community Event Grant Program was discontinued during the 2003 budget reductions.

The program was re-introduced in FY 2008/09. On June 3, 2008, RTC 08-176, Council approved Budget Supplement #3, *Community Event Grant Funding Support*, to provide funding in the amount of \$30,000 to support Citywide community-initiated special events. Since re-instatement, the following funds have been approved:

- FY 2008/09 \$25,635;
- FY 2009/10 \$20,000
- FY 2010/11 \$12,250

The FY 2010/11 awards were for eight events from four organizations, as follows:

Applicant	Event(s)	Grant Award
India Community Center	<i>Sevathon</i>	\$500
Lakewood Village Neighborhood Association (LVNA)	<i>LVNA Holiday Parade</i>	\$500
Pakistani American Culture Center (PACC)	<i>Pakistan Independence Day & Basant Kite Festival</i>	\$1,000
Sunnyvale Downtown Association (SDA)	<i>Summer Series Music & Market, Jazz & Beyond, Howl'oween Pet Parade & Faire, Christmas Tree Lighting</i>	\$10,250
		\$12,250 Total

Note: All events listed in the table have occurred and corresponding grant funds have been distributed, with the exception of the Basant Kite Festival, which is scheduled for May 15, 2011.

EXISTING POLICY

Many policies, goals and action strategies in the Arts, Heritage Preservation, Recreation and Open Space, Community Design and Community Engagement Sub-elements lend policy support to the City in fostering community events.

Council Policy 7.2.18 Special Events

Community Engagement Sub-element

Policy C.2 – Encourage celebrations which help to create a strong, positive community identity and recognize cultural diversity.

Socio-economic Sub-element

Policy 5.1B3 – Monitor the effect of City policies on business development and consider the effects of the overall health of business within the City.

DISCUSSION

Sunnyvale has a long tradition of supporting special events; with both Council and staff working to support community-building initiatives. Should funds be approved, community event funding applications will be considered via a competitive application process facilitated by Council's new Community Events Grant Distribution Subcommittee. The subcommittee will bring its funding recommendation back to the full Council for approval. Administrative tasks, including: marketing the program, receiving applications, notifying grant awardees and processing reimbursements will be performed by Community Resources Division staff in the Office of the City Manager.

SERVICE LEVEL IMPACT

Council approval of this supplement funds this program for FY 2011/12 only. Renewal is considered by Council annually. The Community Event Grant Program leverages resources to facilitate a service level the City could not provide on its own. Approval of this budget supplement will result in an increased level of service to the community by providing opportunities for financial support to conduct citywide special events. To support this program, staff activities include: creating promotional materials for applications, preparing application packets for subcommittee review, notifying applicants of grant awards and processing reimbursement requests.

FISCAL IMPACT

This supplement proposes \$10,000 in total grant funding for FY 2011/12 only. Associated administration costs are absorbed in the Office of the City Manager. The community event grant program is brought to Council annually. This annual process enables Council to allocate funding for the upcoming year's budget based on the current economic and financial environment. This year's proposal is a reflection of the current economy and consistent with the necessity to reduce expenditures City-wide.

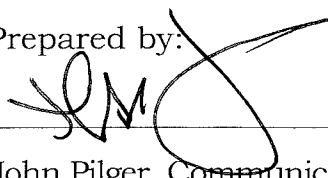

ALTERNATIVES

1. Approve the budget supplement request for \$10,000 to fund City-wide community events, to be reviewed on an annual basis.
2. Approve a budget supplement for a different amount to fund City-wide community events.
3. Do not approve a budget supplement to fund City-wide community events.

STAFF RECOMMENDATION

Staff recommends #1, in light of current economy and City's financial environment.

BUDGET SUPPLEMENT NO: 6

June 2, 2011

SUBJECT: Funding for Neighborhood Grant Program

BUDGET SUPPLEMENT REQUEST SUMMARY

This supplement proposes \$6,125 in available grant funds with individual grants not to exceed \$1,000. The Neighborhood Grant Program (NGP) was launched in fall 2006 and has been administered by the Community Resources division in the Office of the City Manager. The purpose of the program is to provide money for neighborhood projects and events, thereby strengthening a sense of community.

BACKGROUND

In August 2005, Council approved a City-sponsored neighborhood grant program which provides City grants to groups of residents or neighborhood associations. The program goals are to: 1) build community, 2) develop residents' sense of pride and ownership in their neighborhoods, and 3) develop collaborative partnerships between Sunnyvale's neighborhoods and City Hall, with an overall aim of strengthening Sunnyvale's neighborhood associations.

To date, the program has funded more than 50 neighborhood events and projects, each focusing on one of four areas: improving communication and participation within a neighborhood; building bridges between different cultural groups; improving the physical condition of the neighborhood, or enhancing neighborhood pride and identity.

From 2006 until 2009, the NGP was budgeted for and awarded \$10,000 annually to Sunnyvale neighborhood associations for community building activities. In FY 2010/11, the NGP budget was reduced by Council to \$6,125. Through a competitive review process, city staff evaluated applications totaling \$8,890, and awarded the budgeted amount of \$6,125. The maximum grant award limit has been set at \$1,000 since the program began.

Neighborhood associations play an important role in building community in Sunnyvale. Sunnyvale's neighborhood associations are a cost-effective means of linking City Hall to its residents, fostering community pride and neighborhood attractiveness, and building bridges between cultures. Neighborhood grant programs have been cited by many cities as an effective way of building community partnerships and civic engagement. Grant programs leverage resources within the community, empowering residents to work toward improving the quality of life within their neighborhoods, and at the same time building a stronger sense of community. Grant programs can also be effective means of cultivating self-sustaining neighborhood associations.

Examples of the types of neighborhood activities that may be funded include:

- Services to develop (not maintain) an association website;
- Flyers to advertise a meeting or event;
- Refreshments/materials for a block party, potluck activity celebrating the diversity of the neighborhood, National Night Out event, etc.;
- Neighborhood cleanup projects (pay for extra dumpsters, trash bags, etc.);
- Neighborhood Watch materials (extra signs, decals, publications, etc.);
- Prizes for neighborhood event/contest;
- Emergency preparedness materials for the neighborhood;
- Registration fees for annual United Neighborhoods of Santa Clara County conference or other neighborhood leadership conferences;
- Startup costs for neighborhood association fundraising events/activities;
- Welcoming signage at entrance to neighborhood denoting neighborhood's name;
- Neighborhood beautification project (i.e. landscaping, planting of trees, etc.).

Below is a snapshot of funding allocation for FY 2010/11:

Group/Neigh Assoc (NA)	Project(s)	Requested	Awarded
Charles Street 100 NA	Anniversary Block Party	\$ 60	\$ 60
Cherryhill NA	Clean & Green Project	1000	825
Cumberland South NA	4th of July Parade/Party	420	420
Lakewood Village NA	Newsletter production	1000	795
Northumberland Dr	Block Party	520	250
Old Orchard	Block Party/Disaster Prep	1000	250
Plaza del Rey	National Night Out	1000	825
San Miguel NA	Annual Holiday Potluck	1000	850
SNAIL NA	Newsletter Production	1000	850
Stevens Creek NA	Neighborhood Outreach	890	700
Sunnyarts NA	Community-building	1000	300
Total Applications = 11		\$ 8,890	\$ 6,125

EXISTING POLICY

Community Engagement Sub-element:

Policy B.3 - Promote the importance and benefits of community involvement.

Action Strategy B.3c – Identify and build on opportunities for partnerships between the City and community members which can leverage resources to meet community needs.

Policy C.2 – Encourage celebrations which help to create a strong, positive community identity and recognize cultural diversity.

DISCUSSION

The grant program receives an average of 12 applications per year, and allocates funds during a competitive application review process. Over the years, projects have included: neighborhood beautification projects, parades, block parties, newsletter production, “National Night Out” against crime activities and a crafts fair. Interest in this program continues to grow as neighborhood association officers discuss potential projects during quarterly neighborhood association meetings and with residents in their neighborhoods. Following the Council approved framework, all aspects of this program including marketing the program, receiving and evaluating applications, awarding funds, and processing reimbursements are performed by Community Resources Division staff in the Office of the City Manager.

SERVICE LEVEL IMPACT

Council approval of this supplement funds this program for FY 2011/12 only. Renewal is considered by Council annually. This is a reimbursable grant program, and all projects must be completed by the end of the fiscal year. All neighborhood groups are eligible to apply.

FISCAL IMPACT

This supplement proposes \$6,125 in total grant funding with a maximum individual grant of \$1,000. Associated administration costs are absorbed in the Community Resources division, in the Office of the City Manager. The neighborhood grant program is brought to Council annually as a budget supplement. This process enables Council to allocate funding for the upcoming year’s budget based on the current economic and financial environment.

ALTERNATIVES

1. Approve the budget supplement request for \$6,125 to continue funding for the Neighborhood Grant Program, with individual grant awards not to exceed \$1,000.
2. Do not approve the budget supplement request for \$6,125 and discontinue funding the Neighborhood Grant Program.
3. Other action as directed by Council.

STAFF RECOMMENDATION

Staff recommends Alternative No. 1: Approve the budget supplement request for \$6,125 to continue funding for the Neighborhood Grant Program, with

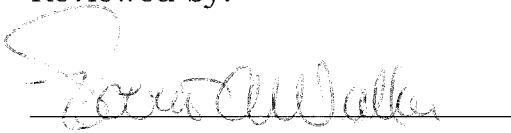

individual grant awards not to exceed \$1,000. Each project and event funded by this program has the potential to positively impact hundreds of residents. For a relatively small financial investment, the City promotes community-building at the neighborhood level.

BUDGET SUPPLEMENT NO: 7

June 2, 2011

SUBJECT: Consideration of Funding for 2011 Priority Study Issues

BUDGET SUPPLEMENT REQUEST SUMMARY

When Council adopted the 2011 Tentative Council Meeting Agenda Calendar, Council deferred taking action on four priority study issues that require additional funding. Because of the City's current fiscal situation, these issues were to be considered with the City Manager's FY 2011/2012 recommended budget. Therefore, these four issues are being presented for consideration as a budget supplement. The four issues are: Preparation of Peery Park Specific Plan, Toolkit for Commercial/Residential Mixed Use Development, Reliable Electrical Power Options, and Ban the Use of Expanded Polystyrene (EPS) Food Containers. Due to the financial challenges described in the recommended budget, staff does not recommend funding these study issues at this time.

BACKGROUND

On February 15, 2011, Council adopted the 2011 Tentative Council Meeting Agenda Calendar and deferred taking action on four priority study issues that require additional funding. The four study issues are described in the Report to Council (RTC 11-039). This report is included with this supplement (Attachment A). Also included are the study issue papers for each issue (Attachments B-E).

EXISTING POLICY

7.1A.1 Development of the Budget and Resource Allocation Plan

- A.1.14 Final actions on study items with significant financial impacts should be withheld until they can be made in the full context of the annual budget process.

DISCUSSION

As the City Manager's Message in the FY 2011/2012 Recommended Budget describes, the budget is continuing to recover from the recent recession. However, significant pressure remains on local government agencies, as there are many competing priorities for City resources. Many projects and initiatives that were deferred during the recession are now competing for funding, and this budget still includes service reductions and a continued drawdown of the budget stabilization fund. In this environment, funding for additional items, such as these four study issues, can only come at the cost of reducing another service or project.

SERVICE LEVEL IMPACT

Funding any or all of these issues will impact service level because another service or project would need to be reduced in order to fund these studies. Specific impact would depend on what is reduced.

FISCAL IMPACT

The cost of each study issue is as follows:

- Preparation of Peery Park Specific Plan: \$300,000
- Toolkit for Commercial/Residential Mixed Use Development: \$350,000
- Reliable Electrical Power Options: \$165,000
- Ban the Use of Expanded Polystyrene (EPS) Food Containers: \$40,000

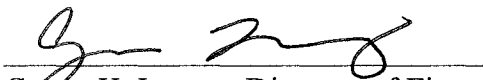

ALTERNATIVES

1. Approve Study Issue CDD 08-11C: Preparation of Peery Park Specific Plan. This alternative required identification of a funding source.
2. Approve Study Issue CDD 10-06: Toolkit for Commercial/Residential Mixed Use Development. This alternative requires identification of a funding source.
3. Approve Study Issue DPW 10-09: Reliable Electrical Power Options. This alternative requires identification of a funding source.
4. Approve Study Issue DPW 11-01: Ban the Use of Expanded Polystyrene (EPS) Food Containers. This alternative requires identification of a funding source.
5. Do not approve Budget Supplement No. 7.
6. Other direction as provided by Council.

STAFF RECOMMENDATION

Staff recommends alternative number five, do not approve Budget Supplement No. 7 due to the current fiscal environment.

THIS PAGE NOT USED

REPORT TO MAYOR AND COUNCIL

NO: 11-039**Council Meeting: February 15, 2011****SUBJECT: Adoption of 2011 Tentative Council Meeting Agenda Calendar****BACKGROUND**

On January 28, 2011, the Council held its annual Study/Budget Issues Workshop. Council reviewed proposed study issues by department, and assigned a priority ranking to each of the issues not dropped or deferred.

EXISTING POLICY

Council Policy 7.3A.1: Utilize the Calendar as the City's principal short range planning tool

DISCUSSION

Since the January 28 workshop, staff has assessed its ability to undertake the priority issues, taking into consideration departmental workloads and available resources. The *Study Issues Priorities List by Department*, Attachment A, shows the Council ranking for each new issue, and indicates the department's intended start date and Council presentation date for "above-the-line" study issues.

This year, all ranked study issues are scheduled for completion and there are no "below the line" issues. The proposed Council presentation dates, and dates for proposed study sessions, are noted on the *2011 Tentative Council Meeting Agenda Council (TCMAC)*, Attachment B. If there are study issues not scheduled for study sessions that Council believes should be, or scheduled study sessions that are unnecessary, Council should so indicate at this time.

The *2011 TCMAC* notes routine and mandatory items, study sessions, state and national conferences, holidays, and special events or meetings. Dates when Council meetings are not scheduled are also noted. Similar to previous years, placeholders have been inserted for Planning items such as permits, development applications, and appeals. Additional items, including study sessions and other special meetings may be added to the calendar as more information becomes known about the complexity of certain issues, or as new items arise.

Every effort will be made to keep study issues on track to meet the approved Calendar; however, scheduled dates are tentative. To assist Councilmembers in responding to inquiries or concerns from constituents, staff will continue to advise Council of revisions to the Calendar. The Calendar is maintained and updated weekly on the City's website and is included in Council agenda meeting packets.

Issued by the City Manager

Studies Revised at the Workshop

The following study issues were reviewed by Council at the Study/Budget Issues Workshop and, after Council discussion, resulted in staff action to amend, clarify or expand the scope of the studies. Changes are noted below.

CDD 10-06 Toolkit for Commercial/Residential Mixed Use

Staff confirmed for Council that the cost of the study will be between \$25,000 and \$50,000 – not \$350,000 as noted in the study issue paper. (Completion of this issue is contingent upon securing grant funds.)

CDD 11-04 Location and Operation of Stand-alone Firearm Sales Businesses

Based on Council action, staff expanded the scope of this study to include a review of large sporting goods stores in the City that sell a wide variety of products, including firearms, as well as home-based sales of firearms.

CDD 11-07 Amend Sign Code to Address Business Identification

Based on Council discussion, staff revised the title of this study issue to “Comprehensive Sign Code Revisions”.

DCS 11-01 Revisit City Policy Governing the Community Recreation Fund

One Councilmember requested that this study include an option that would provide for the full cost-recovery of recreational services (i.e., no support from the General Fund). While the level of General Fund support to the Community Recreation Fund will not be the focus of this study, options that would improve the Council's ability to make decisions in this regard will be. In other words, this study will provide Council better tools with which to make budgetary decisions, including the ability to approve a full-cost recovery recreation program should it desire to do so. The level of General Fund support to the Community Recreation Fund, however, will be determined by Council when it approves the annual budget.

DPW 10-09 Reliable Electrical Power Options.

Based on Council action, staff amended the study to include City-initiated discussions between senior staff and the Moffett Park Business and Transportation Association to seek funding for this study. This action makes this study issue “revenue dependant”. Therefore, other than seeking outside funding, the study will not commence until funding is secured.

Study Issues without Designated Council Presentation Dates

The *Study Issues Priorities List by Department* (Attachment A) also notes final Council presentation dates for continuing study issues. Note that some have been noted as “to be determined” due to external factors or the need for additional City funding (CDD 08-11C). The reason for the “TBD” designation is provided below.

CDD 08-11C Preparation of Peery Park Specific Plan is currently on hold because the funding anticipated to complete the study (estimated at \$300,000) has been

allocated to fund the environmental impact report for the Land Use and Transportation element update.

CDD 09-12C BMR In-lieu Fee Requirements Modification is currently postponed pending resolution of changing case law related to Below Market Rate (BMR) programs and in-lieu fees.

DPW 09-14C Joint Powers Authority Approach to Countywide Recycling & Waste Reduction Programs and Services is in progress and dependent on the development and adoption of a Memorandum of Understanding among the 16 Santa Clara County jurisdictions. The MOU will better identify and define the role and responsibilities of stakeholders in the service delivery system and create a clearer, more effective, and more agreeable governance structure for countywide solid waste programs and planning.

DPW 09-20C Consider any code revisions that would be necessary to allow for the filtering of "gray water" and the reuse of the filtered gray water for household purposes is delayed due to the recent inactivity of the County workgroup. It appears that the workgroup will return to its efforts to develop a model ordinance within the next six months.

FISCAL IMPACT

The four study issues noted below require additional funding, and consistent with last year's practice, will be considered within the context of the City's overall fiscal situation.

- *CDD 08-11C Preparation of Peery Park Specific Plan*
- *CDD 10-06 Toolkit for Commercial/ Residential Mixed Use Development*
- *DPW 10-09 Reliable Electrical Power Options.*
- *DPW 11-01 Ban the Use of Expanded Polystyrene (EPS) Food Containers*

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall, at the Sunnyvale Senior Center, Community Center and Department of Public Safety; and by making the agenda and report available at the Sunnyvale Public Library, the Office of the City Clerk and on the City's Web site.

ALTERNATIVES

- 1) Council approves the 2011 *Tentative Council Meeting Agenda Calendar* as submitted (Attachment B).
- 2) Council modifies the 2011 *Tentative Council Meeting Agenda Calendar*, and adopts as modified.
- 3) Other direction as approved by Council.

RECOMMENDATION

Staff recommends Alternative No. 1):

Council approves the 2011 *Tentative Council Meeting Agenda Calendar* as submitted (Attachment B).

Attachment B

2008 Council Study Issue

CDD-11 Preparation of Peery Park Specific Plan

Lead Department Community Development

History **1 year ago** Below the line **2 years ago** None

1. What are the key elements of the issue? What precipitated it?

Peery Park is one of Sunnyvale's older industrial neighborhoods and is located in a prime location that is served by two major freeways as well as Central Expressway. In addition, it is located near the proposed new NASA Ames Research Center (which hopes to focus on the convergence of bio-technology, information technology and nano-technology) and the cluster of research and development facilities in the adjacent area of Mountain View. As a result of the advantages mentioned above, it could be beneficial to the City to focus reinvestment in the area which could result in increased revenues through increased property tax as well as sales and use taxes.

For the City of Sunnyvale to be competitive in the Silicon Valley economy, we must continue to develop new Class A office buildings. The reinvestment to Class A type office buildings is dependent on allowing a higher FAR. Class A office buildings are most likely to be built when allowable Floor Area Ratios (FAR) are at least 50%

The Peery Park study would be in two phases. The first step would be to evaluate the infrastructure (transportation, water, sewer, etc.) and determine what types of improvements may be needed for various levels of development. This information would be presented to the Planning Commission and City Council. The Council could determine that further study is not needed, or direct staff to proceed with the second phase of preparation of appropriate environmental review and documentation and a Specific Plan. This study would look at the type of industrial development in Peery Park (primarily Class B and C) and examine the opportunity to recycle and upgrade the older buildings to Class A structures. Techniques such as higher FARs (such as in the Futures Industrial Sites) and a Development Reserve (as in the Moffett Park Specific Plan) would be evaluated. Other techniques that may encourage reinvestment in the Peery Park area will also be explored. Brokers and property owners who work in the Peery Park area have indicated that in-place zoning and streamlined project reviews are key items for facilitating reinvestment.

This item fell below the line and ranked 18 for 2007.

2. How does this relate to the General Plan or existing City Policy?

LAND USE AND TRANSPORTATION ELEMENT

GOAL N1: Preserve and enhance the quality character of Sunnyvale's industrial, commercial and residential neighborhoods by promoting land use patterns and related transportation opportunities that are supportive of neighborhood concept.

Policy N1.2.1: Integrate new development and redevelopment into existing

Attachment B

neighborhoods.

Policy N1.2.3: Develop specific area plans to guide change in neighborhoods that need special attention.

Policy N1.8: Cluster high intensity industrial uses in areas with easy access to transportation corridors.

Action Statement N1.8.1: Require high quality site, landscaping, and building design for higher intensity industrial development.

3. Origin of issue

Council Member(s) Spitaleri, Swegles

4. Staff effort required to conduct study

5. Multiple Year Project? Yes **Planned Completion Year**

6. Expected participation involved in the study issue process?

Does Council need to approve a work plan? No
Does this issue require review by a Board/Commission? Yes
If so, which? Planning Commission
Is a Council Study Session anticipated? Yes

7. Briefly explain cost of study, including consultant hours, impacted budget program, required budget modifications, etc. and amounts if known.

8. Briefly explain potential fiscal impact of implementing study results (consider capital and operating costs, as well as potential revenue).

The City has not imposed a fee for recovery of costs for EIR and Specific Plan preparation in prior Specific Plan efforts, however, these costs can be passed along to the property owners through project review fees during implementation of a Specific Plan.

Proposed 2010 Council Study Issue

CDD 10-06 Toolkit for Commercial/Residential Mixed Use Development

Lead Department	Community Development		
Element or Sub-element	Land Use and Transportation		
New or Previous	New		
Status	Pending	History	1 year ago None 2 years ago None

1. What are the key elements of the issue? What precipitated it?

In recent years, staff has reviewed development projects and received requests for more information on the potential for mixed-use developments at key transit locations around the city. In November 2008, the Council adopted the Mixed-use Combining District (MU) under Title 19 to address mixed-use projects located in medium and high-density residential zones. However, mixed-use development standards are yet to be developed for non-residential zoned sites.

The study would result in Mixed-Use Development criteria that would provide guidance to the decision-makers, staff and the development community on what would be considered appropriate for these types of developments. Examples of criteria would be site specific density analyses, massing and height studies, analysis of constraints to future development under current zoning standards, selection of parking standards in areas served by transit, market feasibility analyses, site and architectural design analyses for mixed-use, open space solutions, site planning coordination for vehicle, pedestrian and bicycle use, and access to transit. Possible locations to be considered are those with close proximity to transit, such as Downtown and the El Camino Real corridor.

The study would include an analysis of various Transit Oriented Development standards and principles, and review of Smart Growth and green building objectives. The study could be coordinated with the update of the Land Use and Transportation Element Update and Climate Action Plan. Included would be analysis of appropriate commercial development square footage for mixed use, especially along El Camino Real. It would also help the City meet future regional goals related to SB 375.

The analysis may also help with proposing development guidelines and standards to ease the concern over administrative review of multi-family projects, which is a proposed action in the Housing and Community Revitalization Sub-element.

2. How does this relate to the General Plan or existing City Policy?**LAND USE AND TRANSPORTATION ELEMENT**

Goal R1: Protect and sustain a high quality of life in Sunnyvale by participating in coordinated land use and transportation planning in the region.

Policy R1.3: Promote integrated and coordinated local land use and transportation planning.

Attachment C

Promote integrated and coordinated local land use and transportation planning.

Policy R1.10: Support land use planning that complements the regional transportation system.

Action Statement R1.10.2: Support alternative transportation services, such as light rail, buses and commuter rail through appropriate land use planning.

Action Statement R1.10.3: Encourage mixed uses near transit centers.

3. Origin of issue

- Council Member(s)**
- General Plan**
- City Staff** Staff
- Public**
- Board or Commission** none

4. Multiple Year Project? Yes **Planned Completion Year** 2010

5. Expected participation involved in the study issue process?

Does Council need to approve a work plan? No

Does this issue require review by a Board/Commission? Yes

If so, which?

Planning Commission

Is a Council Study Session anticipated? Yes

What is the public participation process?

Newspaper and web notices to the general public, direct notice to commercial property owners and neighborhood associations. Noticed public outreach meetings and hearings with the Planning Commission and City Council.

6. Cost of Study

Operating Budget Program covering costs

242- Land Use Planning

Project Budget covering costs

Budget modification \$ amount needed for study

Explain below what the additional funding will be used for

7. Potential fiscal impact to implement recommendations in the Study approved by Council

Capital expenditure range \$500 - \$50K

Operating expenditure range None

New revenues/savings range None

Explain impact briefly

Due to the extensive nature of the study it is desirable to supplement the operating budget with technical assistance for design services. Staff proposes that this supplemental support

Attachment C

could occur with grant funding, such as through ABAG's Technical Assistance Program (TAP) or other grant sources. Estimated cost would be between \$25,000-50,000.

8. Staff Recommendation

Staff Recommendation For Study

If 'For Study' or 'Against Study', explain

There is greater interest in commercial/residential mixed use, and recent State law changes related to transit-oriented development (SB 375 Greenhouse Gas Emissions Reduction) will only increase the interest. The recent City mixed-use regulations allow commercial uses as part of residential projects, but do not address mixed use projects in commercial zones. A good example of when these types of guidelines will be useful is in considering possible mixed use projects along El Camino Real, especially at nodes and auto dealer properties. This study issue would provide policy and design guidance for future developments located in Priority Development Areas.

9. Estimated consultant hours for completion of the study issue

Proposed 2010 Council Study Issue

DPW 10-09 Reliable Electrical Power Options

Lead Department Public Works
Element or Sub-element Community Vision Element
New or Previous New
Status Pending **History** 1 year ago None 2 years ago None

1. What are the key elements of the issue? What precipitated it?

This study issue was proposed by Vice Mayor Moylan and supported by Councilmember Hamilton at the December 8, 2009 study session on the City's Economic Development Program. A major factor in locating businesses within Sunnyvale or relocating out of Sunnyvale is the availability of reliable electrical power, or lack thereof. Businesses have raised concerns about frequent power outages and general reliability of the PG&E utility, affecting thier operations. PG&E has indicated that the poor condition and or inadequacy of the local distribution system is a cause of power failures.

This study issue would consider options to provide a better, more reliable power system in the City of Sunnyvale. Some options to explore are: whether the City may provide its own power system; whether the City can purchase and wheel power through existing distribution systems, what role the City can play in getting the local power distribution system improved; and other options that will further or satisfy the goals of providing reliable, cost-effective power.

2. How does this relate to the General Plan or existing City Policy?

X. ROBUST ECONOMY: To retain, attract and support strong and innovative businesses, which provide quality jobs for the city's workforce, tax revenue to support public services, and a positive reputation for Sunnyvale as a center of creativity and productivity.

Sunnyvale sits in the very center of the Silicon Valley, world renowned for its innovative and entrepreneurial spirit. The businesses which have grown up in the community bring wealth to its residents and cutting edge products to the world market. But the competition for such businesses, among the cities of the region and among similar regions throughout the world, is intense. To maintain its position of predominance, Sunnyvale must continue to provide opportunities for strong and innovative businesses, both large and small, including start-up companies and headquarters of large successful companies, to locate in the city; and it must strengthen its reputation as a business friendly community.

3. Origin of issue

Council Member(s) Vice Mayor Moylan, Councilmember Hamilton
General Plan
City Staff
Public
Board or Commission none

4. Multiple Year Project? Yes **Planned Completion Year** 2012

5. Expected participation involved in the study issue process?

Does Council need to approve a work plan? No

Does this issue require review by a Board/Commission? No
If so, which?
 none

Is a Council Study Session anticipated? No

What is the public participation process?
 A roundtable discussion with businesses, meet with PG&E representatives, and a hearing with the California Public Utilities Commission may be necessary at the appropriate time, depending upon input from legal council.

6. Cost of Study

Operating Budget Program covering costs
Project Budget covering costs
 portion to 827090 Construction of New WPCP
Budget modification \$ amount needed for study
 \$100,000.00
Explain below what the additional funding will be used for
 Legal fees and power expert consultant fees.

7. Potential fiscal impact to implement recommendations in the Study approved by Council

Capital expenditure range \$101K - \$500K
Operating expenditure range \$101K - \$500K
New revenues/savings range None
Explain impact briefly

8. Staff Recommendation

Staff Recommendation None

If 'For Study' or 'Against Study', explain

As directed by Council in 2001, staff looked into this issue of a long term energy solution as part of research efforts on Energy Strategies for Sunnyvale. Staff found that a power plant, or "peaker plant" (smaller capacity plant) was not feasible in Sunnyvale. The August 7, 2001 Information Only RTC (#01-288) presented to the City Council with the outcome of the findings is attached for information purposes.

9. Estimated consultant hours for completion of the study issue

2011 Council Study Issue

DPW 11-01 Ban the Use of Expanded Polystyrene (EPS) Food Containers

Lead Department Public Works

History **1 year ago** None **2 years ago** None

1. What are the key elements of the issue? What precipitated it?

At the January 29, 2010 Study Issues and Budget Issues Workshop, Councilmember Chu sponsored a study issue to ban the use of Styrofoam (more correctly called "expanded polystyrene," or EPS) containers in the City. Councilmember Griffith co-sponsored the study issue.

EPS cups, plates and takeout containers are commonly used in local food service establishments. Due to its low density, EPS is easily carried into the environment by the wind as litter or at locations where refuse is stored and collected. Of special concern is EPS that makes its way directly, or by way of storm water systems, into creeks and channels that lead into San Francisco Bay and the Pacific Ocean.

A number of coastal cities, including most in Santa Cruz and San Mateo counties, have banned the use of EPS food containers. This study would identify in more detail:

- issues surrounding EPS use
- EPS-related actions taken by other jurisdictions
- Council's options with regard to banning EPS
- potential pros or cons of an EPS ban
- whether it is better to simply ban EPS and let market forces decide what material types replace EPS, or if an EPS ban should attempt to predict various potential future alternatives to landfill disposal and specify replacement materials (e.g. compostable paper, "compostable" plastics, "biodegradable" plastics, recyclable plastics) that are compatible with those potential future alternatives
- necessary CEQA processes and potential costs

2. How does this relate to the General Plan or existing City Policy?

Muni Code

Enacted in 1990, Section 8.18.010 states the City's intent to reduce the amount of chlorofluorocarbon (CFC)-processed EPS food packaging products purchased and used within and by the city and people of Sunnyvale, in order to reduce, to the greatest extent possible, the health hazards created by the release of CFCs into the atmosphere. Around the time this ordinance was passed, the blowing agents used to produce EPS were changed to eliminate use of ozone-damaging CFCs.

Zero Waste Policy

(see Section 8)

Solid Waste Sub-element Policy 3.2B.1. Reduce generation of solid waste by providing

source reduction programs and promoting source reduction behavior.

Surface Runoff Sub-element Policy A.3. Ensure that Best Management Practices are implemented to reduce the discharge of pollutants in storm water to the maximum extent practicable.

LAP 3.0 (1) Support incentives to limit all types of pollution at their source. (see Section 8) Reduce generation of solid waste by providing source reduction programs and promoting source reduction behavior. Ensure that Best Management Practices are implemented to reduce the discharge of pollutants in storm water to the maximum extent practicable. Support incentives to limit all types of pollution at their source.

3. Origin of issue

Council Member(s) Chu, Griffith

4. Staff effort required to conduct study Major

5. Multiple Year Project? Yes **Planned Completion Year** 2012

6. Expected participation involved in the study issue process?

Does Council need to approve a work plan?	No
Does this issue require review by a Board/Commission?	Yes
If so, which?	Sustainability Commission
Is a Council Study Session anticipated?	No

7. Briefly explain cost of study, including consultant hours, impacted budget program, required budget modifications, etc. and amounts if known.

Study will require a significant amount of work by the Solid Waste and Environmental Divisions (stormwater) to research actions taken by other jurisdictions, develop draft ordinance language and conduct community outreach. The CEQA Initial Study may require consultant assistance at a cost estimated at \$40,000 for preparation of a Negative Declaration.

8. Briefly explain potential fiscal impact of implementing study results (consider capital and operating costs, as well as potential revenue).

Depending on the content of the ordinance adopted, staff time may be required to enforce the ordinance, respond to public complaints about non-compliant stores, etc. A ban may result in small savings in the cost of litter cleanup performed by City staff.

9. Staff Recommendation

Staff Recommendation None

If 'For Study' or 'Against Study', explain

Existing City policies imply that a ban on use of expanded polystyrene food and beverage (EPS) containers would be an operational issue.

However, given the level of controversy and community interest on the topic of an EPS ban, staff recommends that this topic be addressed as a Study Issue.

BUDGET SUPPLEMENT NO: 8

June 2, 2011

SUBJECT: Consider Making the Pet Parade a City Event

BUDGET SUPPLEMENT REQUEST SUMMARY

A Pet Parade has been conducted annually by the Sunnyvale Downtown Association (SDA) since FY 2008/09, with the City participating as a co-sponsor. Each year, SDA has submitted to the City a special event application to conduct the event and each year it has submitted a separate grant application requesting financial support for the event from the City. This supplement considers making the *Howl'oween Pet Parade and Faire* (Pet Parade) an official City event, to be conducted by the City rather than SDA, at an estimated cost of \$30,500.

BACKGROUND

In 2008, then-Mayor Spitaleri spearheaded efforts to create the Pet Parade as a new community event in Sunnyvale. He worked closely with the Sunnyvale Downtown Association (SDA) to organize the event, which has been held annually since October 2008. Each year, the City of Sunnyvale has contributed financially in the form of fee waivers. In addition, SDA applied for and received a Community Event Grant from the City each time the event was held.

Table 1: City's financial contribution as a percentage of total event expenses

	City Contributions		Total Event Expenses ²	Percent received from City
	Grant	Fee Waiver ¹		
2008 Pet Parade	\$ 3,495	\$ 6,159	\$ 19,576	49%
2009 Pet Parade ³	\$ 2,000	\$ 6,159	\$ 16,045	51%
2010 Pet Parade ⁴	\$ 3,025	\$ 3,306	\$ 13,339	47%

¹As a co-sponsor of the event, the terms "in-kind services" and "fee waiver" are used synonymously to indicate the value of City services not charged to the event organizer.

²The data listed in the Event Expenses column was generated by SDA, not by City of Sunnyvale.

³In RTC 09-209, the fee waiver amount for the 2009 event was never actually determined, but given a "not-to-exceed" value of \$7,000 and estimated to be the same as the 2008 event.

⁴For the 2010 Pet Parade, the fee waiver amount was re-evaluated and reduced significantly, primarily due to the elimination of Public Safety staff overtime in the calculation. Public Safety staff time was handled by on-duty officers and not included in the fee waiver calculation.

The event expenses listed in Table 1 above do not include time required to plan and coordinate the event. As a community event, the Pet Parade was planned and coordinated by both SDA staff and event volunteers.

EXISTING POLICY

Council Policy 7.2.18 Special Events

Community Engagement Sub-element:

Policy C.2 – Encourage celebrations which help to create a strong, positive community identity and recognize cultural diversity.

DISCUSSION

The issue before Council is a proposal to turn the Pet Parade into a City event. The City currently organizes four events of community-wide interest: Health and Safety Fair, Hands on the Arts, State of The City and July 4 Celebration (the latter event combined with State of The City in some years). Although City staff have not previously organized a Pet Parade, financial data from previously-held Pet Parades provided by SDA in grant paperwork, as well as City staff time budgeted for other City events, were analyzed to develop a reasonable cost estimate for a City-owned Pet Parade.

Based on the information in Table 2 below, SDA has averaged approximately \$16,000 in direct or in-kind expenses for each of the three past events. This figure includes the value of in-kind services provided by the City (fee waivers), equipment rentals and advertising costs. SDA also received community event grant monies from the City to offset their expenses for all three Pet Parades. As the table below reflects, the City expects a \$14,500 direct expense budget to produce a Pet Parade of similar scope to that produced by SDA.

Table 2: Breakdown of Pet Parade event expenses

Event Expenses	SDA 2008	SDA 2009	SDA 2010	City Event
City Services	\$ 6,159	\$ 6,159	\$ 3,519	\$ 0
County Services	60	25	305	60
Entertainment	396	250	1,250	1,000
Equip. Rentals	1,892	0	800	6,000
Marketing/Ads	9,325	8,226	6,532	3,000
Day-of-Event Staff	1,200	Volunteers	250	3,500
Insurance	432	600	659	500
Supplies	112	785	24	440
Total	\$ 19,576	\$ 16,045	\$ 13,339	\$ 14,500

Note: Expenses listed under SDA columns are generated from actual SDA budget data. Expenses listed under the column "City Event" are estimates. Day-of-Event Staff for a City event would include any staff hired on an overtime basis to work the day of the event in a set-up, clean-up, security or traffic control role (e.g. facilities staff working at State of The City event or public safety officers controlling crowds or traffic).

SDA spent a significant portion of their budget advertising and promoting the event to generate attendance. Although the City would likely spend less on advertising, similar attendance levels would be expected through traditional City methods of event promotion, as well as the community interest already generated by the Pet Parade returning as an annual event.

Not included in SDA's event expenses are costs for staff time to plan and coordinate the event, as well as recruit and manage volunteers, all of which must be considered in the budget for a City event. Even though the City was not involved in the planning and coordinating of previous Pet Parades, the measure of staff time and related costs can be estimated using other City events as a benchmark. Staff estimates the number of work hours needed for this event at 250, which translates into a \$16,000 budget allocation.

If the Pet Parade were to become a City event, decisions regarding all aspects of the event, including, but not limited to: venue, date of the event, sponsorships and vendors, would be based on service objectives and operational needs.

The SDA's Executive Director has recently expressed a willingness to continue organizing and operating the Pet Parade, provided the organization receives financial support for the event from the City. Financial support could be in the form of a Community Event Grant.

SERVICE LEVEL IMPACT

Council approval of this supplement would fund this program for FY 2011/12 only. Renewal would be considered by Council annually.

FISCAL IMPACT

This supplement proposes \$30,500, which includes an estimate of both direct expenses (\$14,500) and staff time (\$16,000) to plan and coordinate the event. The City may offset some of the direct expenses through event sponsorships and vendor booth fees, but those potential revenues are not guaranteed and cannot be estimated at this time.

ALTERNATIVES

1. Support Sunnyvale Downtown Association's continued operation of the Pet Parade and consider funding it through the Community Event Grant Program.
2. Approve the budget supplement request for \$30,500 and make the Pet Parade a City event. Council to identify a corresponding reduction elsewhere in the budget for funding.

3. Approve a budget supplement request for \$14,500 to cover direct expenses and make the Pet Parade a City event. Council to identify a corresponding reduction elsewhere in the budget for funding. Direct the City Manager to allocate necessary staff support (estimated 250 hours) by reducing hours spent on other activities by the Community Resources Program Coordinator (see Attachment A for specific list).
4. Do not approve the budget supplement and do not make the Pet Parade a City event.
5. Other action as directed by Council.

STAFF RECOMMENDATION

Staff recommends Alternative 1: Support Sunnyvale Downtown Association's continued operation of the Pet Parade and consider funding it through the Community Event Grant Program. SDA's Executive Director has recently expressed a willingness to continue organizing and operating the Pet Parade, provided the organization receives financial support for the event from the City. Staff does not recommend the City take on the added responsibility of another special event, since funding of this nature is difficult during a time of economic hardship and significant reductions in City services. Rather, staff recommends Council consider this event in the context of all other special events conducted by outside agencies.

A. Community Resources Program Coordinator Activities List

Community Resources Program Coordinator Activities List

Alternative 3 of the budget supplement provides Council with an option to approve the Pet Parade as a City event by reducing the amount of hours spent on other activities for which the Community Resources Program Coordinator is the staff lead. Below is a list of options to recover the number of staff hours needed for the Pet Parade:

1. **Eliminate** neighborhood association program and support (but keep Neighborhood Grant Program, if *Budget Supplement No: 6* is approved by Council). This item will eliminate the Neighborhood Association Registry, support for Neighborhood Association quarterly meetings; and miscellaneous staff support for neighborhood associations. This will not impact Department of Public Safety Neighborhood Resource Officer support.
2. **Eliminate** Advisory Committee on Accessibility (ACA), Human Relations and Cultural Diversity Advisory Committee (HRCDAC) and Community Liaison Service;
3. **Reduce** the State of The City event;
4. **Reduce** the current centralized Special Event Permitting process; or
5. **Reduce** staff support for the expected 2012 City Centennial Celebration.
