Community Development

FY 2014/15 Operating Budget

Department Description

The Community Development Department oversees all land use policy planning and development review in the City, and administers and enforces the Sunnyvale Municipal Codes and other government regulations related to the physical development of the City. A core function of the Department is administering the One-Stop Permit Center, which offers coordinated customer services related to zoning information and approvals, development applications, and building permits. The Department also administers the distribution of federal and City assistance funds for human services, and for affordable housing production and preservation. In addition, the Department provides staff support to four City Boards and Commissions: Planning, Housing and Human Services, Heritage Preservation, and Building Code Appeals.

Programs and Services

The Community Development Department is organized into four programs: Building Safety, Planning, Housing/Community Development Block Grant (CDBG), and Department Management. In addition, the Department oversees the local Base Realignment and Closure (BRAC) process for the Onizuka Air Force Station. The Department serves a wide range of clients including residents, businesses, property owners, design professionals, and contractors.

The Department's mission statement is as follows: "The Department of Community Development is innovative in promoting sustainable development while enhancing the economy, community character and quality of life in Sunnyvale." Delivering excellent customer service is a core goal of the Department, and staff is committed to: 1) delivering high quality products and services; 2) creating efficient and effective processes; and 3) fostering a supportive and collaborative work environment. The Development Processing Improvement Committee (DPIC), consisting of City staff from multiple departments, will continue to identify and implement improvements to the development review process.

Building Safety Program

The Building Safety Program is responsible for managing construction permits and inspections for compliance with local and state building regulations. Building permits and plans are reviewed and approved through the One-Stop Permit Center, as well as through the City's web-based e-permitting system for minor permits. The Program is largely responsible for ensuring the efficient operation of the One-Stop Permit Center, which provides centralized customer service with staffing from multiple City departments.

Another key responsibility of the Building Safety Program is to provide timely construction inspections to ensure compliance with approved building plans. In addition, Building staff provides

Community Development

FY 2014/15 Operating Budget

technical support to homeowners, contractors, and design professionals on the latest building code regulations. The Program is taking the lead on implementing the City's green building ordinance and the California Green Building Code (CALGreen). The Program staff also provides support to the Board of Building Code Appeals.

The Building Safety Program has earned a reputation for expedited plan review and permit issuance, and for superior inspection services that support customer construction schedules. This reputation derives from the Program's emphasis on customer service at the One-Stop Permit Center, which includes a goal of 90% of all building plans (express reviews) being reviewed within one day, depending on the workload. Initial review of all other building plans (regular reviews) have a goal of being completed within 21 calendar days. In order to support construction schedules, the Program also prioritizes timely inspections. Most building inspections can be scheduled just one business day in advance.

Planning Program

The Planning Program encompasses all policy planning and zoning approvals for the conservation and physical development of the City. The goal of the Program is to improve the quality of life and physical appearance of the City, and to foster orderly development through comprehensive and effective policy planning. Program activities include administering the City's General Plan, as well as preparing and overseeing specific plans and other land use policy documents. Additionally, lead responsibility for reporting on many of the City Council adopted study issues rests with the Planning Program. Planning staff collects and monitors community indicators to measure the City's progress in achieving its goals and policies. Major functions of the Program are coordinating and processing development applications for planning permits, and administering and enforcing the City's Zoning Code.

Housing/CDBG Program

The primary objectives of the Housing/CDBG (Community Development Block Grant) Program are to: 1) increase the development of new and renovated affordable housing; 2) preserve and improve housing conditions for lower income residents; and 3) provide support to human service organizations that serve low income and special needs populations in the community.

The Housing Division administers various housing programs, including the Home Improvement, Below Market Rate Housing, First-time Home Buyer, and Tenant-Based Rental Assistance Programs. The Division also manages three special revenue funds and their associated loan

Community Development

FY 2014/15 Operating Budget

portfolios: the Housing Mitigation Fund, the CDBG Fund (which includes the CDBG Housing Rehabilitation Revolving Loan Fund), and the HOME Program Fund. Two of these funds, CDBG and HOME, were established to receive the City's federal entitlement grants, which have provided an average of nearly \$2 million annually for the past decade. These grants fund affordable housing projects and community development programs for the City's lower-income residents and neighborhoods. The Division ensures that the grants are used in a timely manner in accordance with the federal grant terms.

In addition to operating housing programs, the Division manages a number of large capital projects funded by the three special revenue funds. These projects primarily consist of multi-family housing development, acquisition, or rehabilitation. The Division also manages smaller public infrastructure and public facility projects, and annual grants for human services and other miscellaneous community development activities. The Housing Division provides staff support to the Housing and Human Services Commission, and coordinates with other divisions on housing policy development and on long-range planning to meet regional housing needs.

Onizuka Air Force Base

Department staff oversees the Base Realignment and Closure (BRAC) process for Onizuka Air Force Station. The BRAC planning process is overseen by the City Council acting as the Local Redevelopment Authority (LRA). In December 2011, the LRA completed the planning phase of the BRAC process by approving an Amended Redevelopment Plan and Amended Housing Assistance Submission, and Legally Binding Agreement (LBA) with two homeless housing providers. In early 2013, the various parcels were conveyed to Foothill De Anza Community College District, Department of Veterans Affairs and the City in accordance with the Amended Redevelopment Plan. Additionally, the two homeless housing claims were transferred to the City-owned Armory site. Upcoming activities for FY 2014/15 involve executing a land exchange with Jay Paul Company to build a new fire station/public safety facility on an approximately 2-acre parcel at the Moffett Place Office Campus in accordance to an approved development agreement. The City Council will also discuss the possible disposition or public use of the former homeless housing parcels.

Department Management

Department Management provides overall leadership and management of the Community Development Department. Activities include budgeting, work programming, personnel administration, and general support for the City Manager's Office, City Clerk, and the City Executive Leadership Team.

Community Development

FY 2014/15 Operating Budget

Budget Overview and Significant Changes

FY 2014/15 is the first year of a two-year operating budget cycle. No substantial changes to the Department's budget are proposed from the previous year's budget. The operating budget for the Community Development Department primarily funds personnel costs, which account for approximately 95% of its total budget. Revenue from planning and building fees support a large portion of the Department's operations. Additionally, operational costs for the Housing/CDBG Program are funded entirely with special purpose federal and City funds.

Development activity in FY 2014/15 is projected to continue at a high level similar to the past several years as office and residential development continues at a robust pace. This continuing activity reflects the strength of the Silicon Valley economy and the desirability of Sunnyvale as a place for business and residential growth. Based on historical records, it is rare to see this level of development activity sustained for multiple years. But development activity is expected to continue at nearly this pace into FY 2014/15 based on the projects that are currently undergoing Planning and Building Division review. This will translate to a substantially higher amount of collected development fees than the historic average. Development activity is diverse and covers all sectors including new for-sale and rental housing, new office buildings, commercial and industrial tenant improvements and single-family remodels. Construction is occurring at many sites in the City including Moffett Park, Peery Park, East Sunnyvale Industrial-To-Residential (ITR) area, and El Camino Real corridor. Major projects that are expected to be completed or under construction in FY 2014/15 include the LinkedIn campus in Peery Park, the Google and Moffett Place office projects in Moffett Park, and mixed used residential developments in the downtown area and along El Camino Real. Several hotels are also expected to be completed in FY 2014/15.

In 2013, the City Council approved establishing an enterprise fund to contain all revenues and expenditures associated with development review permitting. Beginning in FY 2014/15 all development review functions of the Community Development Department (the entire Building Division budget and approximately 60% of Planning Division budget) will be transferred into a newly created Development Enterprise Fund. Additionally, activities associated with development review in other departments (e.g. Public Works, Public Safety, and the City Attorney) will also be transferred into the Enterprise Fund. While this move does not represent an organizational change, all City budgeted revenues and expenditures pertaining to development review will be captured in this Enterprise Fund. This will allow the City to more closely monitor expenditures and revenues for this function with the goal of maintaining full cost recovery through the development fees collected to fund associated City services.

Building Safety Program

The Building Division is operating at a base level of staffing with 16 full-time employees supplemented with part-time contract inspectors to respond to the heavy workload. One additional

Community Development

FY 2014/15 Operating Budget

building inspector position was added in FY 2013/14 to respond to the increase in construction activity throughout the city. The Building Program continues to be fully funded (100% cost recovery) by plan check and construction inspection fees collected from building permit activity. Given its commitment to excellent service delivery, the Program’s staffing level will continue to be monitored to ensure it can be responsive to customer service needs, and to ensure that the Program’s high performance standards will continue to be met. With the sustained level of construction activity as reflected in the table below, additional resources for plan checking and inspections have been maintained to meet the service levels. Contract hours continue to be budgeted in the Building Safety Program for this purpose. FY 2014/15 includes the addition of 500 staff hours to improve the oversight and efficiency of construction inspections for installation and monitoring of on-site stormwater pollution and prevention measures to meet the requirements of the Regional Water Quality Control Board (RWQCB). These construction inspections will be closely coordinated with the Department of Environmental Services which serves as the lead department for the stormwater program.

Building Construction Valuation

Community Development

FY 2014/15 Operating Budget

Planning Program

Over time the annual number of planning permits has increased slightly. This increase is evident even though some regulations have changed to reduce the number of land uses that require permits (e.g. certain front yard fences). At the same time, new procedures and regulations have been adopted making planning reviews more complex (e.g. stormwater, land use near streams, larger noticing areas, more detailed environmental reviews, parking management plans, etc.). The following chart shows planning permit activity since FY 1999/00. Supplemental staffing was approved in July 2013 to respond to the increased workload that includes an unusually high number of complex projects, including several EIRs; in addition, several developers have agreed to fund contract staff to assist with development review of their projects. Development reviews include checking for compliance with the City’s zoning code and various design guidelines; environmental review; sensitivity to adjacent uses; and, compliance with federal, state, and regional standards. Staff time budgeted to review and process permit applications is based on historical activity, with adjustments for recent and anticipated streamlining efforts. Additionally, hours/expenses budgeted to address City and intergovernmental policies are essentially unchanged. The FY 2014/15 budget includes 500 hours for a part-time clerical position to support the data management associated with an upgraded permit management system. The Planning Division budget is for 14 full-time and two part-time staff members. The Planning Division performance indicators have also been adjusted to more accurately monitor the processing of development applications and service delivery.

Planning Permits

Community Development

FY 2014/15 Operating Budget

Policy planning activities for the budget cycle include completing the Land Use and Transportation Element, Lawrence Station Area Plan, Toolkit for Mixed Used Development and the Peery Park Specific Plan. Additionally, comprehensive re-organization and revision of the Zoning Code will be completed to simplify and streamline the zoning regulations. Additionally, General Plan funds will be reserved to initiate several long overdue updates to the Noise and Air Quality Elements of the General Plan. Continuing activities include closely coordinating with state and regional agencies and neighboring cities on new legislation, programs, and development activities that affect Sunnyvale residents and businesses. The Planning Division will also continue to provide staff support to the Planning Commission and Heritage Preservation Commission.

Housing Program

The Housing/CDBG Program is funded entirely with special purpose funds: CDBG and HOME federal grant funds, Below Market Rate Program In-Lieu Fees, and Housing Mitigation Fees, which are development impact fees paid for by developers of large, new employment-generating developments. All Program operating and capital project expenditures are funded by the special revenue funds. Use of each fund is regulated by federal laws and regulations and/or by adopted City policies. The largest expenditures in the Housing/CDBG Program are usually within the City's capital projects budget rather than its operating budget. The primary operating costs of the Housing/CDBG Program are personnel-related, for administration and program delivery. The Program is supported by seven staff.

Major tasks for the Division in FY 2014/15 include: issuing loan commitments and managing new housing projects conditionally awarded funding in June 2014; recruiting and screening prospective home buyers for a large number of below market rate homes to be completed next year in new housing developments; overseeing the development of two affordable housing developments at the Armory site; overseeing completion of the home buyer project on Jackson Street by Habitat for Humanity; and collaborating with the County and other jurisdictions and service providers to develop alternative programs to house homeless people after closure of the winter shelter at the Armory. Staff is also overseeing the completion of a nexus study on the Housing Mitigation Fee. Along with a previously completed nexus study regarding rental housing, staff will be developing a proposal for City Council consideration of a possible rental housing impact fee and possible revisions to the Housing Mitigation Fee. The Housing Division is also leading the effort to prepare the Housing Element Update, which must be adopted and submitted to the state by January 2015. Other ongoing work items include preparing the 2015-2020 HUD Consolidated Plan and the 2015 Action Plan and implementing fair housing, language access, and related housing outreach activities.

	General Plan Goal	FY 2010/11 Results	FY 2011/12 Results	FY 2012/13 Results
<p><i>*The decrease in number of plan checks is due to the revision of the way products are counted. Beginning in FY 2012/13, the number of products was recorded as actual projects rather than the previously recorded number of units per project. For example, a project with 100 residential units is now counted as one project (previously counted as 100 units) as the building permits for multiple units are typically reviewed concurrently. Similarly, a large office project is counted as one unit or project, whereas the review may be more complex. The revision more accurately measures the actual staff review requirement for building plans.</i></p>

Environmental Services Department

FY 2014/15 Operating Budget

Department Description

The Environmental Services Department is responsible for maintaining the City's potable and recycled water systems, the sanitary and storm sewer systems, the treatment of wastewater at the City's Water Pollution Control Plant (WPCP), the collection of garbage from City residents and business, and the diversion of recyclables through the operation of the Sunnyvale Materials Recovery and Transfer Station (SMaRT Station®). The Department constructs, maintains and improves this enterprise-funded City infrastructure through the application of timely, cost-effective, and quality services to the citizens and businesses in Sunnyvale while ensuring that the City complies with all applicable regulatory requirements and helping to advance the City's sustainability agenda.

General Information

Number of Miles of Sanitary Sewer Lines:	283
Number of Water Accounts Served:	29,239
Number of Tons of Garbage and Recyclable Materials Collected Annually:	111,672

Programs and Services

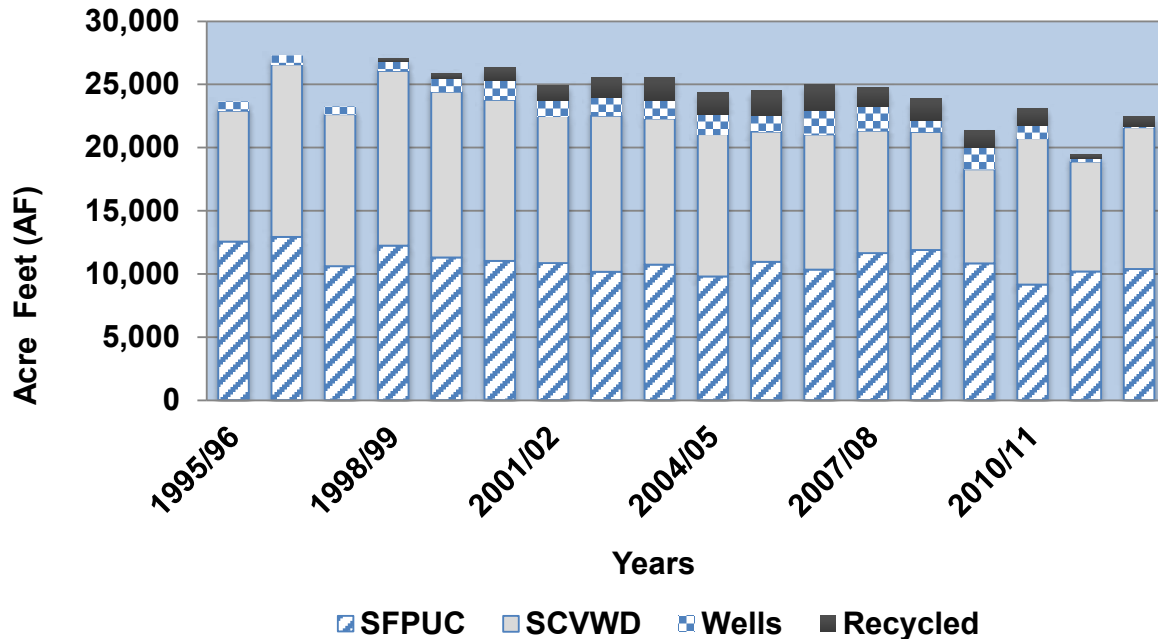

Water Resources

The Department's Water and Sewer Division is responsible for supplying water to City residents. The City purchases and distributes water from two main suppliers – the Santa Clara Valley Water District and the San Francisco Public Utility Commission. These sources are supplemented by water pumped from groundwater aquifers (wells) and by recycled water from the Sunnyvale Water Pollution Control Plant. The Department provides potable water to residents through a network of distribution pipes, service laterals, including individual meters, and pressure and flow regulating valves and controls. Recycled water is provided through a separate network of pipes, valves, hydrants, and controls, all distinguishable by their purple color coding. The Department is responsible for constructing, maintaining, and improving this infrastructure in order to optimize service to City residents. The Department is also responsible for ensuring that the City's water system is compliant with all applicable regulatory requirements.

Environmental Services Department

FY 2014/15 Operating Budget

The following graph illustrates a history of the consumption of water in the City by source:

Storm Water Collection System

The Department maintains and operates the City’s storm drainage collection system, which is comprised of approximately 300 miles of pipe, 4,200 drain inlets, two high volume pump stations, and associated appurtenances. The Water and Sewer Division is responsible for this system. Field crews provide emergency response to localized flooding, as well as general system maintenance. Overall collection and management of storm water for the City is regulated under the terms of a Bay Area-wide National Pollutant Discharge Elimination System (NPDES), Municipal Separate Storm Sewer System (MS4) Permit. The Department ensures the City is in compliance with NPDES regulations.

Sanitary Sewer Collection System

The Department’s Water and Sewer Division maintains and operates the City’s sanitary sewer collection system, which is comprised of 283 miles of pipe, 29,500 lateral connections, five lift stations, and associated appurtenances. Field crews provide emergency response to system overflows as well as general system maintenance. The sewer system and treatment plant operate under an NPDES Permit, and the collection system is regulated under State Water Resources Control Board Order 2006-0003-DWQ, Statewide General Waste Discharge Requirements. The Department is responsible for maintaining compliance with all applicable regulations.

Environmental Services Department

FY 2014/15 Operating Budget

Wastewater Management

The Water Pollution Control Plant Division provides for the treatment of wastewater in the City. This includes providing for treatment and discharge of wastewater from within the City and from the Rancho Rinconada residential development within the city limits of Cupertino. An additional service is the production of recycled water for use by residents, businesses, and institutions in the northern part of Sunnyvale, primarily for landscape irrigation. Also a key component is generation of electrical energy from biogenic gas (methane) produced in the closed landfill and in the treatment plant digesters. The Regulatory Programs Division is responsible for management of urban runoff (storm water), including implementation of the National Pollutant Discharge Elimination System (NPDES) permit for urban runoff (storm water), as well as the laboratory and the industrial waste inspectors.

Solid Waste Management

The Solid Waste Programs Division provides for collection of garbage from residents, businesses, and institutions, as well as recyclables from single- and multi-family residences, City facilities, schools and businesses, and yard trimmings from single-family residences. A key focus of the Division is waste reduction, which it affects by offering recycling and waste reduction information, outreach and services, and household hazardous waste collection events. The Division also is responsible for environmental quality monitoring, management, and regulatory compliance activities at the closed Sunnyvale Landfill.

SMaRT Station®

The Department operates the Sunnyvale Materials Recovery and Transfer Station (SMaRT Station) under a memorandum of understanding (MOU) among the cities of Mountain View, Palo Alto, and Sunnyvale. The SMaRT Station MOU is coordinated with each city's landfill disposal agreement with Waste Management, Inc. Key services provided by the SMaRT Station include receipt of garbage from the three cities, diversion of recyclable materials by the materials recovery facility (MRF), and transfer of the unrecycled portion to Kirby Canyon Landfill in San Jose. The Station processes and markets recyclables from Mountain View and Sunnyvale. (Palo Alto has its recyclables processed elsewhere.) The Station also receives, processes, and markets compostable yard trimmings. In addition, it operates a drop-off / buyback recycling center for the public, and accepts "universal waste" including household batteries, used automotive fluids and batteries, electronic waste, fluorescent bulbs and tubes, and medical "sharps". It also holds document shredding events.

Environmental Services Department

Environmental Services Department

FY 2014/15 Operating Budget

Budget Overview and Significant Changes

FY 2014/15 is the first year of the two-year operating budget cycle. Overall, the department made significant increases to its proposed budget. Increases to costs that are under the City's control primarily impacted the Wastewater Management Programs and include the addition of two new positions stemming from the renovation of the Water Pollution Control Plant and increases in materials, like chemicals. The primary driver of cost increases to the department that are not under the City's control is the cost of purchased water. Also, increased regulations regarding wastewater discharge are driving up operating costs at the WPCP. And, tightening regulations regarding litter have impacted both the wastewater and solid waste utilities, and implementing the Council's Zero Waste policy has begun to impact the budget for the department. Overall, the department budget is up 8% from the prior budget. Significant changes from the FY 2013/14 budget are outlined below.

Water Resources

The Water Resources Program budget is being driven up primarily by the cost of purchasing water, which is projected to be up \$3.4 million. The program is also faced with adapting to evolving state requirements for maintaining, monitoring, sampling, and reporting water quality. These changes reflect maintenance and operation guidelines from the American Water Works Association. The requirements will continue to increase fire hydrant flushing and maintenance, water valve exercising, and water blow-off flushing. Additional monitoring of all discharges, planned and unplanned, are also required by regulatory mandate.

The current drought conditions being experienced throughout California will have an impact on revenues and costs. Decreased water usage during the drought will result in lower than projected revenues. Operating costs, such as the price of water, energy, water quality regulations, and the implementation of conservation programs, will continue rising in the near term as well, and are incorporated into this two-year budget, as well as the Water Supply and Distribution Fund Twenty-Year Financial Plan.

Wastewater Collections

Beginning with this budget cycle, the Sewer and Storm Collections Programs are being reorganized into one Wastewater Collections Program. The programs have, for many years, utilized the same staff, but were budgeted separately. The combination of the programs will streamline the budget for the Water & Sewer Division and more clearly reflect the entire cost of operating the City's sewer and storm collections systems.

Environmental Services Department

FY 2014/15 Operating Budget

Solid Waste Management

Solid Waste Management costs are up for a variety of reasons. Landfill post-closure maintenance costs and the complexity of work continue to increase due to more stringent regulatory scrutiny of landfill gas and other regulatory issues. This scrutiny comes from multiple levels of government and manifests itself in the form of requirements for calculating and reporting landfill gas generation rates and emissions of greenhouse gases. The requirements come from USEPA, CalRecycle and the County Environmental Health Department (the state's "Local Enforcement Agency), the Bay Area Air Quality Management District and the AB 32 landfill monitoring/reporting requirements of the California Air Resources Board. Significant cost increases related to controls on discharges of stormwater associated with industrial activity at the landfill will likely occur upon implementation of the new industrial storm water permit, as currently proposed by the State Water Resources Control Board. Additionally, costs for collection of solid waste continue to rise, and the City's efforts to implement a Zero Waste program have begun to increase costs.

SMaRT Station

SMaRT Station expenses and revenues have been updated to reflect current tonnage and recycled materials value projections. Total tons received (all materials) are projected to be 245,370. The budget assumes that materials recovery facility (MRF) operations by the contract operator will achieve a municipal solid waste (MSW) diversion percentage of 22%. This is reflected in the operating budget on both the expenditure and revenue sides. The budget projects a consumer price index (CPI)-based increase of 2.3% in the annual payment to the contract operator, Bay Counties Waste Services, based on the provisions of the current operations contract. An RFP is underway to select the operator for the next contract term, 2015-2021. Any changes to costs or revenues arising from the RFP process will be reflected in future budgets.

The SMaRT Station budget includes landfill disposal charges paid to Waste Management, Inc., under the provisions of the three city disposal contracts. Because of the Second Amendment to the disposal contracts, which became effective in December 2013, the budget projects no future minimum disposal quantity "put or pay" payments owed to Waste Management, Inc. This is because the Second Amendment greatly reduced the minimum quantity requirements in exchange for an increase in the per-ton charge for disposal. At current and projected disposal levels, the net result will be an overall reduction in City disposal costs. The projected per-ton landfill disposal fee assumes a 2.3% increase in the CPI effective July 1, 2014. No increases are assumed for government taxes and fees charged at Kirby Canyon Landfill.

Environmental Services Department

FY 2014/15 Operating Budget

Compliance with the new storm water permit requirements proposed by the State Water Resources Control Board is likely to have significant cost implications. There are likely to be both new one-time costs for designing and constructing structural changes needed to allow compliance and, to a lesser extent, increases in ongoing costs for managing, monitoring, sampling and analysis of storm water runoff. These issues and associated costs are currently being studied and appropriate funding will be incorporated into the budget when more information is available.

Water Pollution Control Plant (WPCP)

The purpose of the WPCP is to treat wastewater suitable for discharge to the southernmost end of the Bay. The WPCP is a vital element of the utility infrastructure of the City. Large sections of the WPCP are older than 40 years and each year additional challenges present themselves as the WPCP continues to age, equipment breaks, and the facility degrades. The aging plant needs to be rebuilt over the next 10 to 15 years at a cost exceeding \$300 million. In addition, “gap” projects need to be completed to keep the Plant operating until it is rebuilt. The City is now well on its way to rebuilding the Plant with a Consultant who has been working over the last year developing the master plan for rebuilding the Plant as well as to design the new headworks and primary facilities, which are beyond their useful life and highly vulnerable to failure. At key milestones, staff will be bringing items to Council as the decisions related to the WPCP renovation and rebuild are addressed.

The southernmost end of the Bay where the treated wastewater is discharged is shallow and is considered a fragile habitat. Treatment plants in this area are subject to strict regulatory requirements. Staff are actively monitoring and participating in regulatory developments that may impact the WPCP’s operations. In addition to these stringent regulatory compliance challenges, Sunnyvale uses an unusual method for biological treatment of wastewater employing algae growth in ponds to supply oxygen to the secondary treatment microorganisms. Over the years, solids accumulate in the ponds and ultimately need to be removed. The City has secured the services of Synagro to dredge and dewater the pond solids and remove them for reuse. This project began operations in FY 2011/12. Concerns about the impacts of dredging on the treatment process are being addressed.

To address the ongoing operational challenges related to regulatory compliance and aging facilities, the WPCP budget includes increases in the categories of power and chemical budgets to operate the facility and maintenance budgets associated with unanticipated and unscheduled repairs. Further, to support the ongoing construction projects, two additional staffing positions are being created in the WPCP projects budget. These staff will be dedicated to design review, construction coordination, ensuring uninterrupted operations during construction, review, development and integration of the control systems and overall safety coordination of the construction program with the ongoing WPCP operations.

Environmental Services Department

FY 2014/15 Operating Budget

Regulatory Programs

Regulatory Program services include laboratory support for water and wastewater operations, outreach and inspection services for wastewater and stormwater quality protection, and oversight of the array of activities and reports for wastewater management. These include those for air quality, safety, and the National Pollutant Discharge Elimination System (NPDES) permits for the Water Pollution Control Plant and for Stormwater.

NPDES permits require public outreach and education to achieve pollution prevention and reduction goals. Requirements include reaching specific audiences (e.g. adults, school children, general businesses, and specific businesses such as dentists, mobile cleaners, etc.) as well as providing messages regarding specific pollutants (e.g. mercury, trash, copper). The Regulatory Programs Division oversees these efforts.

Water quality regulations are in flux and are expected to require enhanced program activities. Both NPDES permits are set to expire in 2014 and will undergo renegotiation and renewal in 2014/15. The Stormwater Permit is a regional permit, held by each of the Bay Area cities and special districts that discharge stormwater to San Francisco Bay. The next permit is expected to require expanded implementation of elements that were in planning or pilot stages in the current permit. These include stringent requirements for the reduction of litter to creeks, measures to reduce sediment mobility to prevent the discharge of mercury and polychlorinated biphenyls (PCBs), and treatment measures to address roadway pollution (called “Green Streets”). Limited additional funding is proposed to begin implementation of expanded trash reduction programs. Additionally, nutrients have emerged as a priority issue for San Francisco Bay due to concerns that the Bay may be losing its resiliency to high nutrient loads and may begin to experience significant impacts. Wastewater treatment plants are the primary source of elevated nutrient loads to the Bay; limited additional funding is proposed to address the requirements of the impending Nutrients Watershed Permit, which will require all Plants to conduct facility studies and contribute to scientific studies related to nutrients.

Department Description

The Department of Finance is responsible for the overall financial management of the City. The Department's core function is to maintain a strong, secure financial position for the City by providing a wide variety of financial and analytical services to staff, Council, and the public.

Programs and Services

The Department of Finance is organized into six programs: Accounting and Financial Services; Financial Management and Analysis; Budget Management; Purchasing; Treasury Services; and Utility Billing, Collection, and Revenue Management.

Accounting and Financial Services

The Accounting and Financial Services Program provides accounting and financial reporting services to City management and staff, City Council, Sunnyvale residents and businesses, and regulatory agencies to enable them to make informed decisions about the financial affairs of the City. The Program also provides payroll and accounts payable services to support City operations.

In order to accurately record the City's financial transactions, Program staff maintains the City's financial software, including daily account balancing and structural and security set-up. Other activities include providing financial system reports on a regular basis to City staff, along with query tools for use on an ad-hoc basis. Accounting for the City's fiscal transactions is done in accordance with generally accepted accounting principles for governmental entities. Staff manages the independent financial audit of the City as required by City Charter, and produces the Comprehensive Annual Financial Report (CAFR) and other required annual financial statements. In addition, staff in the Program prepares twelve other annual regulatory reports. Routine monthly activities include reconciling all bank and general ledger accounts, as well as monitoring and requesting reimbursement for approximately 300 grants and capital projects on a timely basis to ensure that the City maintains optimum cash flow.

The Accounting and Financial Services Program also includes activities associated with managing and preparing the payroll and payment for all goods and services required to support the City's operations. Staff processes payments to about 1,100 employees on a bi-weekly basis. This function includes issuing approximately 28,000 checks or direct deposits annually, completing all regulatory reports to state and federal agencies and the California Public Employees Retirement System, and managing and maintaining the City's computerized payroll system. The Accounts Payable function includes paying supplier invoices on time, accurately, and in compliance with contract terms and conditions and City policies. Staff also is responsible for all regulatory reports related to vendor payments.

Financial Management and Analysis

The Financial Management and Analysis Program provides financial expertise to City departments, helping them maintain a strong, secure financial position for the City through the fiscal stewardship of City resources. Activities include maintaining and enhancing Citywide internal control, and providing fiscal impact analysis of internal and external actions affecting the City. The Director of Finance serves as Chief Financial Officer of the City and Treasurer of the Sunnyvale Redevelopment Successor Agency. The Program also provides overall supervision to department staff and ensures administrative support needs are met.

Also included in the Program are the fiduciary audit function, as well as administration and monitoring of the financial aspects of the Sunnyvale Redevelopment Successor Agency. Fiduciary audits are performed, based on a risk matrix, on City financial transactions to ensure security, cost effectiveness, and compliance with policies, regulations, and laws. Program staff also oversees administration of the former Redevelopment Agency's dissolution in compliance with state legislation. Finance functions for the Successor Agency include preparing all required reports, monitoring and enforcing existing development agreements, paying off existing debt obligations, and disposing of the former Agency's properties and assets.

Budget Management

Budget Management Program staff develops, delivers, and continually monitors the operating and capital budgets, and 20-year long-term financial plans, for nearly 50 City funds and sub-funds. Budgetary analysis is also provided through the Program. Activities include development of revenue projections, preparation of the annual fee schedule, review and analysis of operating programs and projects, identifying the budgetary impacts of various City issues, and monitoring revenues and expenditures on a continual basis. The Program also is responsible for completing specific operational audits as directed by the City Manager and the Director of Finance.

Purchasing

The Purchasing Program provides centralized purchasing for all goods and services to support City operations, including public works construction contracting, in accordance with the City Charter and the Sunnyvale Municipal Code. Centralized procurement assures fair and open acquisition processes that seek to obtain maximum value for each dollar spent. Major activities include soliciting formal competitive bids and proposals, obtaining informal quotes, and participating in cooperative procurements with other governmental agencies where appropriate. In addition, staff provides assistance and training to City employees to ensure that they understand and comply with all legal and ethical requirements.

Purchasing Program staff also maintains a centralized warehouse so that employees may obtain commonly used supplies conveniently and at a reduced cost due to volume discounts. Central

Stores staff disposes of surplus and obsolete equipment, and provides centralized receiving for the City's Corporation Yard.

Treasury Services

Treasury Services staff provides cash management, investment, and treasury services so that the City's money is managed safely and prudently. Program staff invests the City's pooled cash portfolio of approximately \$280 million in accordance with the City's Investment Policy, which is reviewed and approved by Council annually. Activities include ensuring that debt service payments are made for all outstanding bond issues and continuing disclosure reports are filed as required by bond covenants.

Program staff also reviews and processes revenues for all departments and administers the local Business License Tax, Utility Users Tax, and Transient Occupancy Tax ordinances. Staff bills and receives payments centrally for all accounts receivable owed to the City. In addition, staff manages collections of delinquent accounts receivable. Treasury functions also include providing central cashiering services and maintaining the City's banking relationships.

The Treasury Program staff reviews and audits all disbursements made through accounts payable, payroll, and purchasing cards to ensure compliance with City policies. The Program is also responsible for properly accounting for approximately 12,400 revenue transactions handled by City staff.

Utility Billing, Collection, and Revenue Management

The Utility Billing, Collection, and Revenue Management Program provides utility billing and customer services to customers of the City's water, wastewater, and solid waste utilities. Program staff also provides financial management support to enable the provision of high-quality utility services at the lowest possible rates. All costs of the Program are reimbursed by the three utilities through a payment to the General Fund.

Activities in the Program include reading of water meters, operating the utility customer service center, issuing utility bills and collecting revenues, and maintaining the automated utility billing system. Residential meters are read every other month, and commercial meters are read once a month, with customers billed accordingly. The utility customer service center works with customers to start and stop utility services as needed, processes one-time orders for service, helps with emergencies such as sewer backups and water pipe breaks, and handles service complaints. Payments from customers are processed daily and delinquent bills are ultimately collected through the interruption of service.

Staff in the Program also provides financial management services to the utility operating programs. Activities in this area include developing and setting annual utility rates and taking them to Council

Finance

FY 2014/15 Operating Budget

for approval. Staff prepares and reviews operating and capital budgets and long-term financial plans for each utility, and provides financial and operational consulting services to utility program managers.

Department Budget Summary

Budget Overview and Significant Changes

FY 2014/15 is the first year of a two-year operating budget cycle. In virtually every program, demand for the Department of Finance's core services is increasing. In response, the Department is focusing on leveraging resources and using streamlined work processes to handle the increase in workload. This leveraging involves cross training as needed for maximum flexibility, identifying ways that technology can be used to make processes more efficient, and focusing on best practices. Through these efforts, the Department has been able to hold the budget largely flat for FY 2014/15 and FY 2015/16 after accounting for increases in compensation costs and a temporary position hold in the Budget Management Program for FY 2013/14.

Staff has also begun the scoping process for the implementation of a new Citywide financial system, which is the underlying system for all of the City's financial transactions. A project is underway to do a full needs assessment of the Department's operations, identify potential system solutions, and eventually procure a new financial system. This project will impact every division within the Department and take three to five years to implement.

The Department also maximizes all revenue resources to which the City is entitled. The maximization is accomplished through audits, improving processes, educating staff Citywide, and focusing on full cost recovery for user fees. Below are the highlights of the Department budget by program.

Accounting and Financial Services

The Accounting and Financial Services Program consists of three functions — payroll, accounts payable, and accounting and financial reporting. In the payroll and accounts payable areas the major emphasis is to improve processes through the thoughtful application of technology, enhanced analysis, and value-added services. A specific effort is being made to deploy additional modules of our automated payroll system, which will primarily involve the distributed input of time cards and streamlined workflow. The anticipated results will be greater efficiency, less double entry, and fewer errors. The Program also placed a Payroll Technician at the City's Corporation Yard to better serve the City's field based divisions. Staff also is working on process improvements in the accounts payable unit to drive greater efficiencies and improve current processes.

Financial Management and Analysis

In addition to providing Chief Financial Officer services and department management, the Financial Management and Analysis Program focuses on a number of revenue producing functions, including tracking development mitigation fees and sales tax audits. In the same vein, the fiduciary audits performed or managed by the Program have identified operational savings or eliminated future

liabilities. The Program also includes the financial and administrative functions associated with the dissolution of the Redevelopment Agency of the City of Sunnyvale.

Budget Management

The primary focus of the Budget Management Program is the development, delivery, and continual monitoring of the adopted budget and 20-year long-term financial plan. The Program also includes the performance auditing function. The emphasis of the program will be to continue to provide core services, most notably the development and delivery of the recommended and adopted budgets, while integrating the performance audit function with the budget development process to ensure audit priorities are aligned with the budget. The FY 2014/15 Budget is higher than the FY 2013/14 Budget because a vacancy in the performance auditing function was held and recognized for one year. The program is fully funded again in FY 2014/15.

Purchasing

Over the past several years, the Purchasing Program has stepped up its emphasis on competitive bidding and will continue this trend in the foreseeable future, especially as the City addresses its aging infrastructure. Several complex, large procurements have begun, including those associated with reconstruction of the Water Pollution Control Plant (WPCP). These projects will require significant resources inside and outside of the Program.

In order to meet the City's purchasing demands, the Purchasing Program will necessarily focus on implementing value-added activities such as electronic purchasing/payment automation and obtaining value pricing for commodities through increased use of consolidated master purchase agreements, as well as improving Central Stores inventory management. An additional area of focus is staff training due to the many new employees at all levels of the organization who are being hired to replace retiring City workers. Sunnyvale's centralized purchasing system is complex, requiring regular training to help ensure all procurement policies and processes are being followed.

Treasury Services

The main focus of the Treasury Services Program has been ensuring that all revenues owed to the City are collected, particularly in the accounts receivable and business licensing functions. Accounts receivable consists of one staff member who issues approximately 6,400 bills and generates approximately \$3 million in revenue annually. Treasury Services has improved its receivables collection efforts in several ways, including placing unpaid administrative citations for residential properties on the County of Santa Clara property tax roll. Administrative citations are issued by the City's Neighborhood Preservation Division and billed by Finance. The collection rate on this type of receivable has historically been low. Collecting this fine together with property taxes has caused many owners to pay, doubling the revenue collected on administrative citations.

Treasury Services also administers the City’s business license tax ordinance, which licenses approximately 11,400 businesses. Business licensing consists of two staff members; one person maintains the business license database and the other staff member specializes in audits. Staff continued a series of audits to ensure businesses operating in Sunnyvale have a current business license. Since the inception of the audit program in August 2009, almost \$1.2 million has been collected through February 2014.

New Revenue Generated by Business License Tax Audits

Utility Billing, Collection, and Revenue Management

Over the past several years, the Utility Billing Program has experienced an increase in call volume, primarily related to the implementation of the ChoiceCollect garbage and recyclables collection system. Following the implementation of ChoiceCollect, the Program again expanded its scope and now takes almost all utility-related customer service calls, including garbage complaints, water and sewer emergency calls, water quality calls, and other service-related calls. Most recently, the Program took over the administration of water backflow prevention device certifications from the Environmental Services Department. This, combined with a general increase in activity, has resulted in a permanent adjustment to the base call volume work load handled by the Program.

In order to address these and other pressures on the Program’s work load, staff has been focused on implementing technology and streamlining work processes. Customer use of web based bill presentment and payment continues to grow. Currently, approximately 47% of the City’s customers have enrolled in on-line billing or set up automatic ACH payments. Many of those customers opted not to receive paper statements, reducing our printing and postage costs. However, a downside is a significant increase in credit card fees. Another use of technology is processing paper checks

Finance

FY 2014/15 Operating Budget

electronically using specialized remittance processing equipment. Additionally, the Program continues to work with the Department of Environmental Services to deploy automated meter reading technology. To date, approximately 48% of all water meters are now retrofitted with radio read technology, including most of the City’s commercial meters. The Program has also initiated a pilot for cellular based smart meters, which will allow residents to monitor their water use in real time, as well as enable the City to read the meters for billing remotely. The result of these efforts has been additional capacity to do some basic meter maintenance tasks, such as vegetation removal and radio read equipment replacement, using existing staff.

Department Description

The Human Resources Department coordinates services and programs which assist City departments in developing and maintaining a qualified, effective, and diverse workforce of approximately 870 regular full- and part-time employees, and as many as 500 temporary employees. The Department also provides employment-related services to City employees, job applicants, and City volunteers.

Programs and Services

The Human Resources Department is organized into five service areas: Risk Management, Recruitment/Classification, Employee Relations/Employee Development, Employee Benefits, and Management and Administrative Support Services.

Risk Management

The Risk Management Division administers the City's liability, safety and workers' compensation activities. The Liability Program processes claims filed against the City and coordinates the City's participation in the California Joint Powers Risk Management Authority, which provides excess liability, property, and auto insurance coverage to member agencies. This service area is responsible for managing all workers' compensation claims and compliance with legal mandates. Its Safety/Loss Control activities include safety training, policy development, work site inspection, and accident prevention. Risk Management also manages the City's leaves programs, including the City's paid medical leave program and the disability reasonable accommodation process in accordance with City policy, applicable Memoranda of Understanding, and all relevant state and federal laws, including the Federal Family and Medical Leave Act (FMLA), the California Family Rights Act (CFRA), the Federal Americans with Disabilities Act (ADA), and the California Fair Employment and Housing Act (FEHA).

Recruitment/Classification

The Recruitment and Classification service area is responsible for managing and administering the City's recruitment, examination, selection, and pre-employment activities for both regular and temporary positions. This includes managing the City's temporary agency contracts. Staff also manages and administers the City's classification program, which involves preparing, reviewing, and updating job specifications, as well as conducting classification studies and organizational analyses.

Employee Relations/Employee Development

The Employee Relations service area manages employee and labor relations activities for the six recognized employee bargaining units and the two unrepresented employee groups in accordance

Human Resources

FY 2014/15 Operating Budget

with the Meyers-Milias Brown Act. Staff also manages the Memoranda of Understanding (MOU) with each of the recognized units. Staff in this service area administers and assists departments with employee relations issues, grievances, employee performance, and discipline issues. Responsibilities also include the Citywide Employee Performance Evaluation Program, the City's Employee Development Program, which includes the Employee Training Program and Career Development Program, and the City Volunteer Resources Program.

Employee Benefits

The Employee Benefits service area manages and administers all of the City's employee insurance and benefits programs including the retirement and supplemental retirement plans, IRS §125 plan, medical, dental, vision, life and long-term disability insurance plans, and employee assistance programs. Staff also manages the Human Resources Information System (HRIS), including the processing and inputting of all employee payroll and benefits information.

Management and Administrative Support Services

The Management and Administrative Support Services Division provides overall management and administrative support to the Department, including budget administration, answer point management, and purchasing and maintaining office supplies. Staff also coordinates several Citywide activities such as the Combined Giving Campaign, Annual Employee Appreciation Breakfast, and the Years of Service Recognition Event.

TOTAL EXPENDITURES	3,541,072	3,335,356	3,692,299	3,839,779	3,941,492

Budget Overview and Significant Changes

The Human Resources Department's two-year operating budget does not reflect significant changes for FY 2014/15.

In FY 2010/11, the Human Resources Department eliminated three positions primarily due to the overall reduction in City hiring. With the steady increase in City turnover rate since 2008 and added City budgeted positions in the last couple of fiscal years, City recruitment activities have increased. The following chart displays a steady increase in the turnover rate since 2008.

With the recent industry changes in legislation, such as the Affordable Care Act and the Public Employee Pension Reform Act, the demand on staff time and resources on implementing changes, ensuring compliance, and continuous administration monitoring have continued to increase.

Further, four of the six employee associations will have an expiring Memorandum of Understanding in FY 2014/15. This will require significant staff time and preparation in negotiation activities. As such, the legal and professional services budgets have been increased to accommodate the increase in labor negotiation activities.

Human Resources

FY 2014/15 Operating Budget

Risk Management

The following table shows the trends in workers' compensation claims since FY 2004/05. The number of claims has been increasing, with a significant increase anticipated in FY 2013/14, based on year-to-date numbers. Although the number of claims has been increasing, the overall cost of workers' compensation claims has been decreasing over the last several years. Medical management programs such as nurse case management, utilization review and bill review help control workers' compensation costs. Also, the City's return to work program gets employees back in the workplace as soon as possible, which results in savings. With 68 percent of claims occurring in the Department of Public Safety, the Risk Management Division will work closely with the DPS to try to reduce both the frequency and the severity of workplace injuries.

City of Sunnyvale Workers' Compensation Claims

	Number of Claims Submitted	Change in Number of Claims	Percent Change
FY 2004/05	186	--	--
FY 2005/06	162	-24	-12.9%
FY 2006/07	126	-36	-22.2%
FY 2007/08	116	-10	-7.9%
FY 2008/09	100	-16	-13.8%
FY 2009/10	95	-5	-5.0%
FY 2010/11	114	+19	+20.0%
FY 2011/12	85	-29	-25.4%
FY 2012/13	103	+18	+21.2%
FY 2013/14 (est)	143	+40	+38.8%

City of Sunnyvale Cost of Workers' Compensation Claims	
FY 2011/12	\$ 2,615,790
FY 2012/13	\$ 2,317,894
FY 2013/14 (est)	\$ 2,160,998

This cost of workers' compensation claims includes time off for workers' compensation injuries, medical care, and direct costs charged to the claim. It does not include premiums for excess workers' compensation insurance or the cost of claims administration.

Human Resources

FY 2014/15 Operating Budget

Recruitment/Classification

Recruitment activity has increased over the past few fiscal years due to the economic recovery, which had added positions back into the City budget, and employee retirements and employee separations. At the current rate of total recruitment, FY 2013/14 will reach approximately 100 new hires and promotions.

The Department of Public Safety began ongoing Public Safety Officer-in-Training and Public Safety Officer I Lateral recruitments in mid-2012. These recruitments are to fill vacancies from retirements, promotions, increased budgeted positions, and a few years of no hiring activity. From July 1, 2008 to June 30, 2012, twenty Public Safety employees retired. In the 21 months starting July 1, 2012, another fifteen Public Safety employees retired with three additional retirements scheduled before the end of the FY 2013/14.

Fiscal Year	New Hires	Promotions	Total
FY 2009/10	22	20	42
FY 2010/11	28	18	46
FY 2011/12	31	29	60
FY 2012/13	52	30	82
FY 2013/14*	49	27	76 **

*As of February 15, 2014

**At the current rate of recruitment, total number will reach approximately 100 at the end of FY 2013/14.

Fiscal Year	Retirements	Non-Retirement Separations	Total Separations
2008/09	18	26	44
2009/10	29	15	44
2010/11	36	19	55
2011/12	41	24	65
2012/13	34	25	59

The Division has completed a significant project of updating approximately 85% of the City's job descriptions. In FY 2014/15 the Division will work with the Employee Relations Division to review the Fair Labor Standards Act (FLSA) designations for the City's job descriptions. This project will be completed by the end of FY 2014/15.

Department Description

The Information Technology Department (ITD) provides and maintains an array of modern business systems, office automation, and communications technologies to support the City's business operations and the delivery of public services. Like any other City, the technology environment in Sunnyvale is challenging due to the complex and varied business needs of the diverse organizational units.

The City relies on well-managed, centralized IT services to control redundancy and balance organizational technology priorities. This key attribute is essential to managing the City's limited technology budget while maintaining the City's standard of delivering excellent public services and simultaneously controlling costs and improving public access to services and public records.

In support of these goals, ITD employs a continuous improvement strategy to contain and reduce, where possible, costs. ITD delivers technology services via well-trained and skilled professionals. And ITD seeks to implement and support technologies that meet the City's business requirements and standards.

Programs and Services

The IT Department is realigning its budget structure in FY 2014/15 to better represent the services delivered. Previously, the department was divided into programs that corresponded with the department's three divisions and their functions. However, ITD's various services are almost always collaborations of two, or all three, divisions. Under a new, single program for FY 2014/15, activities are grouped and delineated by type of service delivered, rather than by which division provided the service. This provides a more comprehensive view of the services and support ITD provides.

IT Services and Support

IT Services and Support is defined as the activities required for providing ongoing IT support. These activities consist of a wide variety of tasks, and account for approximately 80% of technical staff time. Work is broken down in two basic activities: Resolving Requests for Service, and System Maintenance Tasks. Resolving requests for service includes all work committed to address requests from the line departments for anything from troubleshooting to adding new minor services, such as new user accounts, to replacing or installing minor new equipment, such as new phones or personal computers. System Maintenance Tasks include all tasks required to maintain existing systems, such as installing software patches, installing minor releases, replacing aging hardware,

Information Technology

FY 2014/15 Operating Budget

performing data backups, etc. Requests for new services that are beyond minor or routine requests are considered IT Projects.

The table below shows the total number of service requests received by ITD since FY 2007/08.

IT Projects

IT Projects are defined as those tasks executed in support of the delivery of major IT systems or services. This category includes projects to install entirely new systems or to perform major upgrades to existing systems. One of the most significant upcoming projects is replacement of the City's financial applications with a new, well-integrated system. The current financial "system" consists of several applications, many requiring specific, stand-alone hardware. Scoping will begin in FY 2014/15, with implementation expected to take between three to five years. Some of the other major projects planned for FY 2014/15 are:

- Replacement of the primary data switches to support fiber optic connections between remote City facilities;
- Replacement of the largest data storage system currently in use;
- Replacement of the aging phone system;
- Complete the interconnection of remote facilities with fiber optic cables.

In addition, ITD will continue working with the respective user departments to complete several ongoing projects, such as upgrading Public Safety's Records Management System and implementing Community Development's permitting system.

Information Technology

FY 2014/15 Operating Budget

IT Services and Support Management

IT Services and Support Management will capture all management tasks completed in support of IT Operations and IT Projects, as well as all technical training and other technology related staff development activities. In addition to IT Operations and Projects, in FY 2014/15, IT Managers will focus on creating and implementing a comprehensive Business Continuity plan and addressing the broader use of mobile computing devices.

IT Department Administration

The IT Department is distinguishing between the services and support directly related to IT Operations and Projects and general department administration. Budget development and tracking, procurement management, asset management, personnel management, and strategic and tactical planning are all activities that fall under IT Department Administration. Non-technical staff development and training is also included. In addition, the IT Department is the City’s liaison for Telecommunications Franchises and Wireless Communications Facility Leases, and related work is captured here. This includes oversight of cable television franchises, including resolving customer complaints, and management of the rental of various City properties to wireless service providers for cellular phone towers or other communications facilities.

Department Budget Summary

Information Technology					
Fund/Program	2012/13 Budget	2012/13 Actual	2013/14 Budget	2014/15 Budget	2015/16 Budget
General Services					
Software Application Services and Support	2,476,848	2,270,105	2,723,570	6,949,480	7,108,009
IT Infrastructure Services and Support	2,191,795	2,420,197	2,395,144	0	0
IT Department Administration	1,399,610	1,138,011	1,438,527	0	0
TOTAL EXPENDITURES	6,068,253	5,828,313	6,557,241	6,949,480	7,108,009

Budget Overview and Significant Changes

ITD is proposing the addition of one regular, full-time employee in FY 2014/15, as well as budgeting for the upgrade of one existing position. These changes will better position the department to manage its workload and provide cross coverage of critical systems.

City staffing reductions during the recent budgetary downturn impacted the IT Infrastructure division, and staffing levels in the past few years have been well below industry standards. The most significant impact of that staffing challenge has been the inability of the division to replace equipment as planned; thereby increasing the risk of equipment failure through overlong retention of old equipment and depriving line staff of planned functionality improvements. Staff added in FY 2013/14 to address this challenge are already improving direct support by reducing the time required for ITD to implement fixes and perform other basic functions.

In the Business Systems division there remains a large, unmet need for the creation and ongoing maintenance of management reports. The addition of a new, junior-level Programmer Analyst is proposed in this budget to meet some of these needs. The additional programmer will also add labor capacity to assist with the replacement of old equipment by completing activities such as data conversion or migration, documentation, testing, reporting or other Business Systems tasks as appropriate.

Library and Community Services

FY 2014/15 Operating Budget

Department Description

The Department of Library and Community Services (LCS) merges library services with recreation, youth and family services, and community resources. LCS provides a wide range of programs, services, resources, and events to meet the personal interests, educational, health and wellness as well as recreational pursuits of Sunnyvale residents of all ages. LCS is the largest single user of volunteers City-wide. Volunteers contributed an estimated \$559,280 worth of service to LCS in FY 2012/13 (based on the Independent Sector's most recent estimated value of a volunteer hour in California of \$24.75). Library volunteers logged 4,638 hours while Community Services volunteers logged 17,981 hours. The Library Division offers equal access to a diversity of ideas, information, knowledge, and entertainment through its collection, programs, and services. The Library provides services from a central facility with expansive hours, a library lending machine at the Columbia Neighborhood Center, and online 24 hours a day, seven days a week. The Community Services Division offers an array of active, self-directed, and organized recreational programming. Programs are offered in arts, sports, fitness, and aquatics for all ages and skill levels. Community Services collaborates with local school districts and non-profit organizations to facilitate recreational, educational, child-care, social services, and health-care services based at the Columbia Neighborhood Center and the Sunnyvale Senior Center. Community Services also works with neighborhood associations, oversees the City-wide special events permitting process, produces the annual State of the City event and administers the community grant program.

General Information / Library Division

Number of books and other library materials checked out during FY 2012/13:	2,748,170
Number of Library patrons who visited during FY 2012/13:	743,311
Number of logins to the Internet from Library PCs during FY 2012/13:	135,772
Number of people attending Library programs during FY 2012/13:	47,479
Size of Library's facility:	60,800 sq. ft.

Programs and Services

The Library Program is organized into seven service delivery plans: Borrower Services/Circulation, Library Services for Adults, Library Services for Children and Teens, Acquire Library Materials for the Public, Technology Services, Prepare Library Materials for the Public, and Management, Supervisory, and Administrative Support Services.

Library and Community Services

FY 2014/15 Operating Budget

Borrower Services/Circulation

The Library enables customers to access and borrow library materials by checking items in/out, renewing items, shelving returned items to their proper location, and processing reserved items and materials requested from other libraries for customers. Staff encourages the timely return of materials by notifying borrowers of overdue items, sending replacement bills for items long overdue, and collecting fines/fees. Staff also keeps existing library customer accounts updated and issues library cards to new borrowers. In addition, staff delivers materials to a resident's home if that person is unable to come to the Library due to physical disability.

Library Services for Adults

The Library enhances the use of library materials and information resources for adults by providing one-on-one assistance locating and utilizing those resources as well as providing programming in support of community interests and educational pursuits. Staff attends community events and meetings to promote Library services for adults.

Library Services for Children and Teens

The Library enhances the use of library materials and information resources for children and teens by providing one-on-one assistance locating and utilizing those resources as well as providing programming in support of community interests and educational pursuits. Staff attends community events and meetings to promote Library services for children and teens. Resources are leveraged with those of the Community Services Division and local non-profit organizations to provide family literacy programs at the Columbia Neighborhood Center.

Acquire Library Materials for the Public

The Library provides quality collections for children, teens, and adults by selecting and acquiring new and relevant materials in a wide variety of formats in response to community interest and demand. Staff evaluates the collection areas in terms of age, relevancy, and condition. Staff also orders and receives materials, processes invoices, and monitors purchases.

Technology Services

The Library maintains technology to support service delivery. Inside the Library, computers, photocopiers and other equipment provide access to information and services. Outside the Library, services are delivered through the Library website/catalog. The catalog allows customers to search for library materials, magazine and newspaper articles, and e-Books, as well as manage their own account, renew materials, place items on hold, request materials from other libraries, pay fines, and register for a new library card. Maintaining all systems and equipment in working order ensures continuity of services.

Library and Community Services

FY 2014/15 Operating Budget

Prepare Library Materials for the Public

The Library prepares materials for easy access and use by cataloging new materials accurately using national standards, updating the catalog to keep it current, physically processing new books, media items, periodicals and newspapers, and extending the life of repairable materials through basic repair and rebinding.

Management, Supervisory, and Administrative Support Services

The Library delivers cohesive and cost-effective operations of the Library facility, maintaining a safe and welcoming environment for customers and staff. High-quality customer service is provided through programs and services designed to meet community needs. Staff provides leadership and manages employees to support the overall effectiveness and efficiency of service delivery. The financial condition and results of Library programs are monitored and analyzed to ensure optimal use of resources. Library policies and procedures are developed and implemented to ensure even application. Long-range plans are developed in order to meet the needs of the community. Staff explores options for grants in order to supplement services with non-City funding. The Library partners with civic groups, the local business community, City departments, the Board of Library Trustees, and others to effectively inform the community about the services and resources available to them.

General Information / Community Services Division

Number of participant hours in Recreation related programs in FY 2012/13	837,899
Number of occupancy hours in recreation facilities in FY 2012/13	74,404
Number of volunteer hours managed by Recreation staff in FY 2012/13	17,581
Number of Senior Center memberships in FY 2012/13	2,421
Number of recipients benefiting from the Recreation Fee Waiver program	182
Number of participant hours generated by CNC service providers in FY 2012/13	105,884
Number of dollars leveraged for each \$ contributed by the City towards CNC operations	\$4.36
Percent increase in number of child care slots in FY 2012/13	5.9%

Programs and Services

The Community Services Division is organized into two programs: Arts and Recreation and Youth and Family Services.

The Arts and Recreation Program includes the following nine service delivery plans: Preschool, Middle, and High School After School and Summer Recreation Programs; Senior Recreation

Library and Community Services

FY 2014/15 Operating Budget

Classes, Activities and Services/Therapeutic Recreation; Youth and Adult Visual and Performing Arts Programs; Aquatics Activities and Facilities; Sport Classes and Activities; Recreation Facility Rentals and Use; Registration, Reception Services, Community Outreach/Promotions and Special Events; Community Resources; and Management and Administrative Support. The Youth and Family Services Program includes the following two service delivery plans: Columbia Neighborhood Center and Youth, Family and Child Care Resources.

Arts and Recreation Program

The Arts and Recreation Program provides year-round arts, recreation, health and wellness, and enrichment activities for preschool-aged children through senior adults. Community Services staff schedules, operates, and rents out City-owned and leased recreation facilities, including four swimming pools, the recreation building, theater, creative arts center, indoor sports center, senior center, dance studio, 13 park buildings, 53 picnic areas, 44 athletic fields as well as the Ortega Park Gazebo and the Grove Amphitheater at Baylands. The Teen Advisory Committee and Senior Center Advisory Committee are staffed by the Division. The Program also manages the City's Art in Private Development and Art in Public Places programs. A fee waiver program for eligible Sunnyvale residents 17 years of age and younger is available to provide a safety net for low-income families enabling them to participate in classes and activities. The Arts and Recreation Program also develops, maintains, and grows community partnerships and resources. The partnerships allow the Division to achieve its goals of providing varied, unduplicated programs that are attractive to the community, maximize the resources partners can offer to benefit existing or new clients, and provide a high quality product for the customer.

Community building and civic engagement are the main areas of focus for the Community Resources portion of this program. Services include point of contact to address ADA concerns from the public, coordination of the City's neighborhood association program, administration of the special events permitting process, administration of two community grant programs (one for event organizers and one for neighborhood groups), and coordination of two staff advisory committees (Advisory Committee on Accessibility, and the Human Relations Cultural Diversity Advisory Committee). Additionally, City-wide special events, such as the Mayor's annual State of the City event, are included in this area. Finally, Community Services staffs and coordinates both the Parks and Recreation Commission and the Arts Commission.

Youth and Family Services Program

The Youth and Family Services Program is based out of the Columbia Neighborhood Center (CNC). The City of Sunnyvale operates CNC in collaboration with the Sunnyvale School District, non-profit organizations, and community businesses to provide a connected network of services and programs in the areas of community education, mental health services, health care, recreation, and youth and neighborhood safety. The philosophy behind this web of services is to provide the support that children in the service area need to develop the life skills necessary to be successful in

Library and Community Services

FY 2014/15 Operating Budget

school and beyond. CNC focuses on serving at-risk youth attending Bishop, Fairwood, Lakewood, San Miguel, and Columbia schools, as well as families with limited access to basic services residing in the Center’s service area. The MayView Community Health Clinic offers a satellite facility in the CNC. The Center and its partners also promote a strong community through events and activities for the neighborhood. The CNC Community Advisory Committee advises CNC staff on community needs of the service area.

In addition, programs and services that support the City’s child care providers, families with young children, Citywide youth and family issues, and the Child Care Staff Advisory Board, which acts in an advisory capacity to City staff on early care and education topics, are also based at CNC.

Library and Community Services

FY 2014/15 Operating Budget

Budget Overview and Significant Changes

The Department’s operating budget reflects an overall reduction in resources as compared to FY 2013/14 budget, with some resources reallocated between programs. After a prolonged period of time with multiple vacancies due to retirements and promotions, the Department’s staffing structure was modified to better align resources with needs, enabling the Library to restore full services on Thursday evenings and to have the capacity within the Library to assign analyst work relating to the branch library and other Library projects.

Library Program

Overall business continues to be strong at the Library. In FY 2012/13, the Library experienced the highest circulation to date. Library patrons borrowed 2,748,170 items, a 1.6% increase from the previous year. Children’s materials and eBooks were in high demand. Circulation of children’s materials accounted for 1,249,492 items or 45.5% of total circulation, up from 43% the previous year. eBook circulation increased 40.9% from the previous year to 41,663 items borrowed. A record-high 2,222,601 items were shelved in FY 2012/13. A total of 743,311 people visited the Library, an average of 5.1 times per resident. The Library offered 895 programs, the highest number offered to date. Library program attendance increased by 16% from the previous year to a record-high 47,479 participants. While usage of the Library continues to increase, staffing levels, however, have declined 26% in the past 10 years and are now at record low levels, as seen in the chart below. This presents a challenge to the Library to meet the needs of the community, providing efficient and effective services with fewer staff.

Library and Community Services

FY 2014/15 Operating Budget

Toward the end of FY 2009/10, the Library converted the entire Library collection from barcode to RFID technology and installed an automated materials handling system, six new self-check machines, four automated materials handling returns, and a new security gate. Since that time, checkout is faster as multiple items can be checked out at once. The option to pay fines by credit card at the self-check machines has helped to boost overall revenues collected by 20% since their introduction. At check-in, materials are instantly removed from a customer's account, and the customer has the option to print a receipt as proof of return. This provides for more consistency and accuracy in both patron accounts and the Library catalog.

In FY 2012/13, approximately 95% of materials were returned using the automated materials handling system, and approximately 95% of checkouts now occur at the self-check machines, compared with 55% in FY 2008/09. These efficiencies have allowed staff to keep up with rising circulation as well as continue to provide excellent customer service.

A cost-savings reduction of \$81,000 to funding for library collections in FY 2009/10 has contributed to the Library's most significant service delivery shortfall. The percentage of the Library budget in FY 2013/14 allocated to the acquisition of library materials was 7.9%. This rate is on the lower end in Santa Clara County, with San Jose Library at 9.4%, Mountain View Library at 10.8%, Palo Alto Library at 12%, and Santa Clara County Library at 15.7% (based upon the most current data available in FY 2011/12 from the California State Library). The reduction of collection development dollars combined with a lack of capacity to grow the collection has resulted in Sunnyvale providing only 2.12 materials per capita, below the statewide median of 2.13 and the lowest in Santa Clara County. San Jose Public Library provides 2.36 items per capita, Santa Clara 3.40 items per capita, Santa Clara County 4.37 items per capita, Mountain View 4.39 items per capita, Palo Alto 4.66 items per capita, and Los Gatos 5.61 items per capita. Neighboring libraries have between 45% and 154% more materials available per child than the 3.8 items available per child in Sunnyvale.

Beginning in FY 2012/13, the Library reallocated funding from an existing vacant position to allow for a \$60,000 increase in library materials acquisition. This temporary reallocation is anticipated to continue in FY 2014/15. Additionally, the FY 2014/15 budget will permanently restore \$20,000 to collections. The combined \$80,000 will result in 9% of the Library budget that will be allocated to the acquisition of library materials. This will not only be a step towards restoring items per capita, it will also help to acquire materials in the digital formats that residents of Sunnyvale increasingly expect from their city library.

Reallocation of funding from an existing vacant position had also provided the staffing necessary to reopen the Library with limited services on Thursday evenings from 6 p.m. to 9 p.m. beginning in FY 2012/13. Phone services, reference assistance, programs, and other services were limited on Thursday evenings. The FY 2014/15 budget permanently restores full services on Thursday evenings by utilizing savings from the elimination of a Part-Time Graphic Artist position to add a Library Specialist III position. Approximately 544 patrons on average visited the Library on

Library and Community Services

FY 2014/15 Operating Budget

Thursday evenings in FY 2013/14. This was similar to visitor counts before the Library closed on Thursday evenings in FY 2011/12.

Due to the high volume of visitors to the Library (more than 2,000 visitors per day on average), Library furniture and carpet requires increased cleaning in order to maintain a welcoming environment. Funds for chair cleaning will supplement funds budgeted in the Public Works budget so that cleaning will occur twice a year instead of only once a year. Funds for furniture replacement will allow staff to strategically address the 23% decline in reader seats over the past 9 years. Funds for computer hardware have been budgeted for keyboard/mice replacement in order to maintain a hygienic computing environment for PCs which receive heavy use.

Community Services Programs

The Arts and Recreation Program budget completed its second full year as a General Fund program in FY 2013/14. Previously, it had been a part of the Community Recreation Fund.

The new, two-year operating budget includes expansion of pre-school programming, where an additional site (Murphy Park) will begin operating by Fall 2014. The \$19,000 budget increase over the FY 2013/14 budget is offset by a projected \$34,000 in additional revenue. Youth Sports will increase a total of \$18,000 when compared to FY 2012/13. Associated revenue will increase by over \$30,000 as compared to FY 2012/13 actuals. Most of this increase is associated with sports classes offered by contractors. This activity reflects a guaranteed expenditure to revenue ratio since the contracts are set up on a fixed percentage. The City collects 100% of revenue and pays the contractor the agreed-upon percentage.

The new, two-year operating budget also includes ongoing funding of \$16,000 for the Community Events and Neighborhood Grants program. For the past few years, Council has allocated funding on an annual basis through the Budget Supplement process for these Council-approved grants, which are awarded on a competitive basis facilitated by the Council's Community Events and Neighborhood Grant Distribution Subcommittee. Administrative tasks associated with this program are handled by Community Services Division staff. The Neighborhood Grant program funds neighborhood events and projects, each focusing on one of four areas: improving communication and participation within a neighborhood; building bridges between different cultural groups; improving the physical condition of the neighborhood; or enhancing neighborhood pride and identity. The Community Event grant program supports events taking place within Sunnyvale which are free and open to the public and which have attendance of 500 people or more.

The Community Services Division programs continue to support a balanced array of facilities, services and recreation and arts opportunities for all ages. On an ongoing basis, programs and services are evaluated and retooled to best meet the needs of community, with staff taking the opportunity to achieve efficiencies and create partnerships wherever possible. When designing new programs and services, Community Services staff considers likely participants, trends in

Library and Community Services

FY 2014/15 Operating Budget

participation, competing services and the expected market share for that specific group, allocation of financial and time resources, as well as motivation for participation. Community Services Division staff has identified a number of programming opportunities to explore and implement with an emphasis on the environment, cultural awareness, health and wellness, technology, youth sports, and the aging population. Programmatic offerings, and associated costs and revenues, contract and expand based on market, interest, and needs.

City Council granted \$40,000 in funding to the Community Services Division to increase the Care Manager hours at the Senior Center through June 30, 2014. The funding has been used to recruit a temporary, casual employee to work part-time as a skilled social service professional at the Senior Center alongside the existing part-time Care Manager by providing support services such as assessment, care planning, service arrangements, and client monitoring. Staff will be coming back to City Council with options and alternatives for the long term, based on data over the past two years with the supplemental funding.

There has been a continued focus on identification and implementation of strategies to reduce dependence on the General Fund. Again the focus is on efficiencies, increased revenue generation, and service level adjustments, as necessary. Wherever possible, activities are structured to cover their costs, with programs for youth and seniors, in general, requiring the greatest amount of support from the General Fund. The budget also sets aside resources for the Recreation Fee Waiver Program, which assists qualifying low-income Sunnyvale youth with the payment of registration fees. The following graph shows trends in Community Services revenues and participation.

Library and Community Services

FY 2014/15 Operating Budget

The expansion at Columbia Neighborhood Center (CNC) was completed in Spring 2012, adding an additional 3,000 square feet to the existing facility, doubling the number of offices for social services and the community health clinic, and adding a fitness room to be used by both the Columbia Middle School students and the community. The FY 2012/13 CNC program's operating budget was not increased in anticipation of the expansion because it was the intent of the City to establish new and expanded partnerships. These new partnerships, in conjunction with the expansion of CNC, allow for increased programming and services for the youth and families that reside in the CNC service area. The FY 2014/15 budget does realize increased funding, however, for CNC to account for additional maintenance costs associated with the expansion.

Department Description

The NOVA Workforce Services Department (NOVA) provides workforce development services for the residents and businesses of northern Santa Clara County. NOVA is funded entirely through federal, state and local grants, with the primary resources coming from the Workforce Investment Act (WIA). The Department is also known as the NOVA (North Valley) Job Training Consortium. The City of Sunnyvale is the host and fiscal agent for this seven-city consortium covering the northern end of Santa Clara County.

Programs and Services

Services provided by NOVA are divided according to customer groups as follows:

Job Seeker Services

NOVA provides employment and training services to economically disadvantaged, unemployed, and laid-off individuals. Services to adults include the NOVA JobCenter, job search workshops, career advising, resume assistance, training support, and other employment-related services. NOVA applies for non-WIA grants in order to provide services to special populations, such as veterans and individuals with disabilities.

Employer Services

Services provided to employers include pre-layoff services, layoff-aversion and outplacement assistance, staffing and recruitment, employee training and retention, business development, and linkages to resources providing a wide range of business assistance.

Youth Services

The youth program provides individualized assistance in exploring and developing educational and career goals for young people ages 16-24. Additional in-depth career guidance services are available to youth from low-income families. NOVA provides these services through a contract with the Bill Wilson Center.

Enterprise Services

NOVA staff develops strategies and grant applications to address gaps in services to target populations. NOVA also conducts and contracts for labor market research to provide career guidance for staff and job seekers. Staff also supports the NOVA Workforce Board, which is appointed by the City Council to oversee the delivery of services with federal funds.

NOVA Workforce Services

FY 2014/15 Operating Budget

Department Budget Summary

NOVA Workforce Services					
Fund/Program	2012/13 Budget	2012/13 Actual	2013/14 Budget	2014/15 Budget	2015/16 Budget
Employment Development Fund					
Employment Development	7,634,501	7,210,861	7,060,657	8,103,883	7,150,166
TOTAL EXPENDITURES	7,634,501	7,210,861	7,060,657	8,103,883	7,150,166

Budget Overview and Significant Changes

NOVA’s budget is dependent on its grant funding – both allocated funding and funds awarded through a competitive process. For this reason, the budget will fluctuate over time. A base budget is approved each year and then modified as necessary to reflect additional funding received during the year. NOVA’s budget is primarily for staffing, with other major items including contractual services and training. The NOVA budget is organized into three funding sources: WIA Programs, Categorical Programs, and Non-Categorical Programs.

WIA Programs

NOVA’s WIA funding is allocated based on a federal funding formula administered by the State of California, and consists of funds for adult, youth, dislocated workers, and rapid response (funding to assist companies and individuals affected by layoffs). WIA funding is allocated to the state from the federal government. This funding is subject to the same uncertainty as other federal programs due to the current federal budget challenges including ever changing priorities and the overall deficit position.

Categorical Programs

NOVA seeks grant funding from a variety of federal, state and local sources to serve special populations, such as individuals with disabilities and veterans, and to implement strategies developed by the NOVA Workforce Board that fill specific service gaps and align with the NOVA Strategic Plan.

NOVA Workforce Services

FY 2014/15 Operating Budget

Non-Categorical Programs

NOVA pursues foundation funding for capacity building, strategic planning, and other purposes that do not address services to individual customers.

A portion of the Workforce Investment Act (WIA) funding received by the state is categorized as “Governor’s discretionary funds” or 25% Additional Assistance Funds, which are available to fund specific projects called Additional Assistance Grants (AAG’s). NOVA has received funding through this pool of funds since 1989 to provide services to dislocated workers. It is typical for NOVA’s Budgeted Position Allocation (BPA) to reflect more positions than the Department currently has funding to support. This allows NOVA to be flexible with its staffing and move quickly when additional grant funding is secured. Since NOVA is entirely grant funded, reflecting additional head count has no fiscal impact on the City, as NOVA only spends its allocated grant funding.

Department Description

The Office of the City Attorney (OCA) provides legal advice and services to the City Council, City officials, staff, departments, boards, commissions, and related City bodies; protects the interests of the City; and ensures that actions by or on behalf of the City and its related bodies are in accordance with applicable legal requirements. The OCA represents the City, its officers, and its employees in administrative and civil litigation matters involving official City business. It also prepares contracts, ordinances, resolutions, and other legal documents involving the City, and prosecutes violations of the Municipal Code. Office staff consists of the City Attorney, a Senior Assistant City Attorney, two Assistant City Attorneys, a paralegal and a legal secretary.

Programs and Services

The OCA has three main areas of responsibility – Provide Legal Advice, Provide Representation, and Management and Administration.

Provide Legal Advice

The OCA advises and counsels the City Council, the Redevelopment Successor Agency, Boards, Commissions, and City staff on legal issues in all City operations, including property development, zoning, redevelopment, housing, public utilities, administrative, environmental, liability, and general matters. The OCA prepares ordinances, resolutions, contracts, and franchises. The OCA also monitors changes and developments in laws concerning the City, communicates pertinent changes to the City Council and affected departments, and drafts amendments to City ordinances and documents to comply with changes to the law.

Provide Representation

The OCA is responsible for representing the City in all legal actions and administrative proceedings in which the City is concerned, or to which it is a party. The OCA represents City officials and employees in civil litigation arising out of or connected to City employment, and also prosecutes all charges of violation of municipal ordinances and regulations.

Management and Administrative Support Services

Management and administrative support staff for the OCA monitor overall office performance, prepare and administer the office budget, and update and maintain the Department's website. As necessary, the OCA directs and monitors the work and costs of outside counsel. Personnel attend programs and training consistent with State requirements for continuing legal education.

TOTAL EXPENDITURES	2,183,772	2,036,054	2,025,963	1,796,939	1,830,039

Budget Overview and Significant Changes

The FY 2014/15 budget for the Office of the City Attorney (OCA) was restructured to simplify and clarify current services by reducing the number of activities listed in the core areas of responsibility from twenty-two to seven. The essential program for the office remains the same – to deliver top-notch in-house legal services to the City by providing high quality, high value advice and representation to our constituent clients.

The largest change came in the form of reallocating legal costs. Costs formerly appearing in the OCA budget for legal expenses associated with the City's Successor Agency, Property and Liability Insurance Program, Wastewater, SMaRT Station, and Solid Waste Programs will be accounted for in the specific program budgets associated with those activities to increase transparency and awareness of actual program costs. This budget change represents a reduction from the previous year to the OCA budget. However the costs for legal expenses related to property and liability were increased to reflect historically higher than budgeted spending.

Department Description

The Office of the City Manager (OCM) provides management and administrative services for City departments and the City Council. The City Manager is the government equivalent of a Chief Executive Officer (CEO), guiding department directors who administer services to the community while adhering to the direction and policies set by the City Council.

Programs and Services

The Office of the City Manager is organized into six services: City Clerk's Office, Public Information, Economic Development/Business Attraction and Retention, City Council, Print/Mail Services, and Management and Administrative Support Services.

City Council

This service area provides the resources and support needed by the City Council to establish City policy and carry out legislative responsibilities. The Mayor and City Council are supported by one administrative staff member. Other budgeted funds are allocated to such costs as Council conference and travel expenses, and office equipment/supplies.

Management and Administrative Support Services

The Management and Administrative Support Services Program ensures the effective and efficient management of the Office of the City Manager by exercising the powers and fulfilling the Citywide duties of the City Manager, including general oversight of all City operations. Staff includes the City Manager, Assistant City Manager, a Senior Management Analyst, an Executive Assistant, and administrative support.

City Clerk's Office

Routine responsibilities of the Office of the City Clerk include supporting City Council meetings, overseeing the City's Boards and Commissions Program, coordinating responses to Public Records Act requests, and storage of legally mandated records. Supporting Council meetings includes creating Council informational packets, posting meeting agendas, recording Council votes, and creating Council minutes. Equally important, but not as routine, are administrative services related to municipal elections.

Public Information

The Public Information unit's primary focus is assuring timely, relevant, and accurate public information in print, on-line, and via television and radio. Related tasks include issuing news

Office of the City Manager

FY 2014/15 Operating Budget

releases, responding to media requests, managing content on the City’s website, developing the Quarterly Report, and serving as Public Information Officer (PIO).

Economic Development/Business Attraction and Retention

This work unit promotes and maintains a diverse local economy with businesses that provide jobs and services for our residents and tax revenue for the City to fund public services.

Print/Mail Services

Print Services is an internal resource serving City departments’ printing needs for large print/copy/bindery jobs, such as Reports to Council. Specialized printing jobs are outsourced as needed, when equipment or staff time do not permit in-house production. Daily mail service is a critical component of supporting day-to-day operations.

Budget Overview and Significant Changes

Two issues are worth noting: Election Costs and City Council Budget.

Election Costs

The final cost of the November 2013 election with the inclusion of three ballot measures was \$444,752. With voter approval of Measure A on November 5, 2013, the City Charter was amended to provide for even-year elections starting with the November 2016 election, which will allow the City to enjoy significant savings by consolidating with Statewide General and Presidential elections.

The charter amendment resulting from Measure A also provided for a one-time extension of current Council terms to transition from odd-year elections to even-year elections. Councilmembers whose terms would have expired in November 2015 (Seats 4, 5, 6 and 7) will serve until the first meeting in January following the November 2016 election. Likewise, Councilmembers whose terms would have expired in November 2017 (Seats 1, 2, and 3) will serve an additional year to the first meeting in January following the November 2018 election. As a result, the recommended two-year operating budget does not include the cost of an election. However, costs have been factored into the 20 year financial plan.

The Office of the Registrar of Voters has provided an early estimate of election costs for the November 2016 election for Council Seats 4, 5, 6 and 7 based on the current County Fee Schedule. The estimate of \$135,336 for the November 2016 election, plus a one-time charge of approximately \$20,000 for reprogramming the County election management system presents a potential net savings of \$376,197 by switching from an odd-year election held in November 2015 to a regular election held in November 2016. This estimate only includes the cost of the election of the four seats; any ballot measures added to the ballot would result in an increased cost.

City Council Budget

As noted earlier, this service area provides the resources and support needed by the City Council to establish City policy and carry out legislative responsibilities. While Sunnyvale has traditionally practiced program and activity-based budgeting as opposed to line item budgeting (i.e., concerned itself more with defining specific service levels and related costs rather than focusing on line item details such as the cost of gasoline or paper products), each operating department does perform a rigorous review of detailed budget proposals prior to creation of the City Manager's proposed budget. Since Councilmembers are directly impacted by line item costs associated with this service area, more detail regarding proposed Council-related expenses will be provided this year for Council's review.

Mission Statement

Providing our community with fully integrated public safety services: Police, Fire and EMS.

Vision Statement

To continually improve our standing as a leader of the fully integrated public safety model.

Values Statement

As members of the Sunnyvale Department of Public Safety, we value our role in contributing to a safe environment and enhancing the quality of life within our community. We embrace our commitment and responsibility to the public, and each other, by adhering to the following shared values:

- **Excellence:** We strive to exceed expectations by providing effective, innovative, and valuable services.
- **Professionalism:** We take pride in providing our community with outstanding service and in conducting ourselves responsibly by maintaining the highest ethical and moral standards. We embrace an environment that encourages teamwork, innovation, constant evaluation of ourselves, and treating those we serve and each other with dignity and respect.
- **Accountability:** We hold ourselves, and each other, accountable for our actions and decisions for the benefit of our community and profession.
- **Community Engagement:** We proactively engage our diverse and dynamic community through collaborative, supportive, and productive partnerships.

Department Overview

The Department of Public Safety (DPS), consisting of 198 sworn Public Safety Officers, 81 full-time professional staff, and several part-time and casual employees, is one of the few fully integrated police and fire departments in America. Public Safety Officers are cross-trained as both police officers and firefighters/emergency medical technicians (EMTs), allowing the department to provide police, fire, and emergency medical services to the community. Department members

take pride in maintaining a city that is safe by focusing on crime and fire prevention, by addressing quality of life issues with all available City resources, and by adhering to enforcement principles to maintain order.

Sunnyvale enjoys a reputation for being one of the safest cities in America and consistently has one of the lowest crime rates of any city in the region and state. Much of the success can be attributed to the community policing and problem-solving approach that is employed by the department. Equally as important, staff assigned to fire services and fire prevention and hazardous materials services are tasked with preventing fires through a strong fire inspection program and by providing fire prevention education in schools, neighborhoods, and in the business community. Emergency medical response is a top priority for the department. To increase the potential for patient survival, both police officers and firefighters are trained as EMTs and are dispatched to every life-threatening emergency medical call. Every emergency responder is equipped with an automatic external defibrillator (AED) and the devices are located in every City building.

The department has strong partnerships with the City's schools, neighborhoods, and business community. These partnerships provide a framework to address localized problems and issues, and allow Public Safety to leverage close relationships to address areas of mutual concern. The department recognizes the power of an engaged community in providing public safety services and keeping the community safe.

Programs and Services

The Department of Public Safety (DPS) is organized into nine programs: Police Services, Fire Services, Community Safety Services, Personnel and Training Services, Investigation Services, Communication Services, Public Safety Administration Services, Records Management and Property Services, and Fire Prevention and Hazardous Materials Services.

Police Services

Police Services focuses on protecting the lives, property, and rights of all people by providing a uniformed police response to both emergency and non-emergency calls for service. Officers are assigned by team over a 24-hour time period and are responsible for a specified geographical area of the City, their “beat.” Officers are charged with enforcing federal, state, and local laws including traffic laws, investigating possible criminal activity, and providing crime prevention education. Several special teams are assigned to Police Services, including Traffic Safety Education and Enforcement (officers typically ride motorcycles), the Gang Enforcement Team (GET), and a highly trained Special Weapons and Tactics Team (SWAT). The chart below reflects the total number of part 1 crimes (which include violent and property crimes) reported to the California DOJ and FBI as per UCR reporting standards.

Public Safety Officers assigned to Police Services also augment Fire Services as needed by assisting with firefighting activities during emergencies.

Fire Services

Fire Services focuses on protecting the lives and property of all people by providing primary response to both emergency and non-emergency fire events as well as emergency medical calls for service. Officers are assigned to one of six fire stations that provide coverage for a specific geographical area. Nine fire engines, two trucks, and one hazardous materials/urban search and rescue apparatus are staffed 24 hours daily. Officers assigned to Fire Services also are responsible for more than 4,000 fire prevention inspections annually, as well as fire prevention education for schools and businesses.

Community Safety Services

Community Safety Services collaborates with residents, businesses, government and civic organizations, schools and community-based organizations to reduce crime pro-actively, enhance the quality of life for residents, and make the community as safe as possible to live in.

Neighborhood Resource Officers (NROs) provide prevention education to the community. Supervised by one Lieutenant, NROs are assigned to specific geographical areas of the City, tasked with maintaining close partnerships with schools, neighborhood associations, and businesses. NROs often take the lead on problem-solving initiatives by coordinating with other City resources. Crime Prevention Assistants and Public Safety Specialists work closely with NROs to provide support for prevention programs in schools, neighborhoods, and the business community.

Neighborhood Preservation (NP), commonly referred to as code enforcement, resolves Sunnyvale Municipal Code violations at residential, commercial, and industrial properties. NP leverages a wide variety of DPS resources (Police, Fire Prevention, NROs, etc.) and partners with other City departments to address concerns throughout the City.

The Office of Emergency Services (OES) is responsible for disaster preparedness activities and ensures readiness and coordination of City staff through education and planning. OES also provides neighborhoods and businesses with training that will help them to be self-sufficient following a disaster.

Animal Control is also located within Community Safety Services. Animal Control Officers are responsible for services including licensing, responding to calls for service, and transportation to Sunnyvale's state-of-the-art sheltering services partner, the Humane Society Silicon Valley in Milpitas.

Personnel and Training Services

Personnel and Training Services, in collaboration with the City's Department of Human Resources, has primary responsibility for recruiting, testing, hiring, and training all Public Safety employees. Sworn candidates must meet a rigorous set of standards including written testing, oral interviews, psychological screenings, polygraph examinations, and an in-depth background check. Successful candidates attend a 26-week Police Academy, a 14-week Fire Academy, a 6-week Emergency Medical Technician - Basic Academy, and must successfully pass field-training programs in both operational bureaus - Police and Fire.

DPS training is coordinated within Personnel and Training Services to ensure all state-mandated training requirements are met for police, fire, and emergency medical services, as well as specialized skills training for specific assignments.

Investigation Services

Investigation Services focuses primarily on investigative follow-up of criminal cases originating in Police Services, and preparing those cases for prosecution. Investigation Services caseloads are managed by two Lieutenants supervising twelve detectives. There is close coordination between this work unit and other local law enforcement agencies because many cases cross jurisdictional boundaries. The unit also closely coordinates with the Office of the District Attorney and the Santa Clara County Crime Lab. In recent years, technology has played an ever-increasing role in case investigation and, consequently, detectives continue to develop expertise in computer forensics, cell phone technology, and analysis of criminal activity within social networking websites and financial networks.

In 2012, the Department enhanced its investigative capabilities by adding a detective to a regional task force operated by the Drug Enforcement Administration (DEA). This partnership provides federal funding for a portion of associated costs, but more importantly allows for a multi-jurisdictional approach to regional drug and gang-related activity. In FY 2013/14, the Public Safety budget included the addition of a Senior Crime Analyst. The position was successfully recruited for and the program has begun implementation. This new crime analysis model will provide for department wide awareness to many agency activities. The chart on the following page provides a 10-year history of Sunnyvale's clearance rate for violent crimes.

Sunnyvale Violent Crime Clearance Rate

Communication Services

Communication Services functions as the initial point of contact for most police and fire/medical events, both emergency and non-emergency. Dispatchers triage approximately 115,000 incoming calls each year originating from hard-wired phones, cell phones, and Voice over Internet Protocol (VoIP) contacts. Each year, dispatchers coordinate the assignment of more than 50,000 police events and 7,000 fire and emergency medical events, provide emergency medical directions to callers reporting medical emergencies, process all requests for information by officers, and question callers to provide the best information to emergency responders.

Public Safety Administration Services

Public Safety Administration Services provides management, coordination and support to all department services and functions.

The Professional Standards Unit, or Internal Affairs, conducts investigations of misconduct when warranted. Staffed by a Lieutenant and a professional staff member, the Professional Standards Unit also conducts quality assurance audits to ensure compliance with laws, and with City and department policies.

The Permits and Licensing Unit processes permits and licenses for residential and business alarm systems, taxis, massage establishments, adult entertainment, peddlers, and pawnshops. The administration of abandoned vehicle abatement and parking enforcement also is coordinated within Public Safety's Administration Services.

Administration Services is also responsible for the fiscal health of the department, ensuring fiscal accountability is maintained across the department, and that revenue sources are explored and leveraged. Professional staff are involved in all aspects of the City budget process, including but not limited to, grant applications and fiscal reporting, project submittals, and the coordination of department activities. Each year, the department is responsible for more than \$4.7 million in revenue based on fines, forfeitures, and licensing, as well as significant annual grant revenue.

Records Management and Property Services

Records Management and Property Services is the primary point of contact for non-emergency police and fire events, by both phone and in-person contacts. This Unit provides the repository for all police and fire event records and ensures all case files are prepared for prosecution. Records Management is staffed 24 hours daily to ensure timely processing of information and reports, and to ensure there is a primary point of contact for all City services after regular business hours. Property Services is a critical function within the Unit that ensures evidence collected by officers within Police and Investigation Services is properly secured, cataloged, and processed for case prosecution. A secure evidence storage facility is located in the department headquarters on All America Way, and a second long-term facility is located at the City's Corporation Yard.

Fire Prevention and Hazardous Materials Services

Fire Prevention and Hazardous Materials Services operates under the oversight of the Fire Marshal and is an integral part of ensuring a safe community. This Unit's primary purpose is to prevent fires and hazardous materials-related emergencies and to minimize injuries and property loss when a fire or hazardous materials emergency occurs. Its core objective is to integrate public education and outreach with fire and life safety inspections in new and existing occupancies.

Fire Prevention Specialists conduct compliance inspections in all occupancies except single-family residences and consult with residents and local business owners on how to maintain fire-safe environments and building systems. Inspections of schools, residential care facilities, daycares, nightclubs, and other occupancies with potentially vulnerable occupants are prioritized.

Fire Protection Engineers participate in pre-design meetings with developers and architects, review architectural plans and shop drawings, and conduct field inspections of passive and active fire protection systems including fire-resistive walls, exit components, automatic sprinkler systems,

and fire alarms. These reviews and inspections ensure that engineered systems are designed and installed in accordance with applicable codes and standards.

Technically trained Hazardous Materials Inspectors are responsible for implementing and enforcing a broad set of hazardous materials regulations contained in six statewide hazardous materials programs and the Fire Code. These regulations cover topics like underground storage tank systems, accidental release prevention, hazardous waste treatment systems, toxic gas, and general storage and use of hazardous materials. The Hazardous Materials Inspectors frequently join the Fire Protection Engineers in predesign meetings and consultations with business owners and developers.

Budget Overview and Significant Changes

Funding for DPS represents approximately 56% of the City's General Fund operating expenditures. Of that amount, nearly 90% can be attributed to salaries and benefits. Public Safety managers approach the task of developing the budget by critically examining each program and position to ensure that services provided to the community are aligned with the department's mission and are responsive to the needs of the community.

Overall Program Changes

The proposed FY 2014/15 budget for the Department of Public Safety contains several changes approved during FY 2013/14, the full implementation of the civilianization model, and adjustments for contract expenditures. Funding for the DPS Recruitment Projects is shifted forward to FY 2014/15 and FY 2015/16 to fill more than 20 new Public Safety Officer vacancies anticipated over the next two years.

In FY 2013/14 a Public Safety Dispatcher position was added to the Communications team to help balance the staffing levels. It is expected that the addition will help alleviate some overtime costs that have been historically incurred by the program. One additional Public Safety Officer was also added to the department after the adoption of the FY 2013/14 Budget, although funding is not included in the first two years of the budget due to the long lead time needed to recruit, hire and train a new officer. In total, three additional Public Safety Officers have been added since FY 2012/13.

While there are no major changes to the overall structure of the Department, several minor changes are being made to realign program budgets and hours to specific services. Additionally, the program had budgeted \$250,000 per year for booking fees to be paid to the County. However, as the State has been reimbursing the County for booking fee expenses, the County has not needed to bill the cities for this cost. Because the State funding for booking fees appears to be secure for the foreseeable future, the expense is removed from the budget. Some of the savings are offset by a one-time \$100,000 increase in the contract costs for fingerprinting. Fingerprinting costs are expected to drop back down in the second year of the budget, but are still up \$50,000 on an on-going basis in comparison to the FY 2013/14 Budget.

Department Description

The Department of Public Works constructs, maintains, and improves the City’s General and non-utility funded infrastructure through the application of timely, cost-effective, and quality services to the citizens and businesses in Sunnyvale. Key service initiatives include traffic and transportation planning, pavement and street light operations, street trees, concrete maintenance, administration, engineering and the Capital Improvement Program, fleet and facility services, neighborhood park and open space management, and golf course and tennis center operations.

General Information

Miles of City-owned Streets Maintained:	260
City Street Lights Maintained:	9,357
Miles of Sidewalk Maintained:	380
Miles of Curb and Gutter Maintained:	750
Number of City Trees Cared for:	(approximately) 37,000
Neighborhood, Community and Mini Parks Maintained (21 sites):	159 acres
School Play Fields Maintained (19 sites):	112 acres

Programs and Services

Transportation and Traffic Services

The Department’s Transportation and Traffic Services Division plans, operates, and maintains the City’s transportation system. It is responsible for performing traffic studies and design, as well as for long-range transportation planning. The Division operates and maintains the City’s traffic signals and administers roadway signs and markings, including public on-street parking. The Division writes and helps to administer grants for transportation capital improvements, and coordinates and manages the delivery of projects. The Division reviews land development proposals to assure that interfaces with the public street system comply with design standards and that traffic impacts are mitigated. The Division has responsibility for school, bicycle, and pedestrian safety programs, traffic calming, support to the City’s Bicycle and Pedestrian Advisory Commission, and provides intergovernmental relations support. The Division investigates and responds to customer inquiries regarding transportation and parking systems and also conducts City policy studies on a variety of transportation related issues.

Pavement, Traffic Signs and Markings, Sidewalk Curb and Gutter Maintenance, Street Sweeping, and Roadside Easements

The Department’s Operations Division manages pavement and concrete maintenance with the objective of prolonging the street and sidewalk economic life to maximize the City’s investment and reduce its liability. The Division also creates, installs, and maintains street striping, markings and signs. In addition, it performs street sweeping to maintain clean and safe roadways and street easements. Overlays and capital reconstruction of streets and sidewalks are managed as separate projects by the Public Works Engineering Division.

The following chart provides a historical perspective on both the types and quantities of pavement treatment applied annually within the City:

Street Lights

The Department’s Operations Division also manages the operation and maintenance of 9,357 existing street lights. It responds to resident and business complaints, and to emergency calls related to the City’s street lighting. The Division also provides administrative and support services so the City is lit in a safe, reliable, and cost effective manner.

Street Tree Services

Street tree services are provided by the Parks, Golf and Street Trees Division. The Division maintains approximately 37,000 City street trees, promoting environmental functionality and aesthetics through care of the City's urban forest. The Division prunes to maximize each tree's structural integrity and to avoid branch/trunk failure. It also ensures removal of hazardous trees, and preserves and sustains the street tree population with new and replacement tree planting.

Downtown Parking Lot Maintenance

The Department's Operations Division provides corrective and preventive maintenance for the City's five Downtown Parking District parking lots. The lots are funded by Parking District property owners for convenience of use, safety, and to attract customers to the Central Business District. The Division maintains the lots at established service levels. The downtown parking lots are located at Frances Street and Evelyn Avenue, Sunnyvale Avenue and Evelyn Avenue, Carroll Street and Evelyn Avenue, and two at Carroll Street and McKinley Avenue.

Public Works Administration

The Department's Administration Division provides oversight for 12 operating programs and the Department of Public Works operating budget. Primary services include Council and legislative support; monitoring of accounting and budgetary reports and results of operations; property management services; special projects; and general administrative support in the areas of purchasing, main answer point, records management, personnel, and outside reporting.

Capital Project Management

The Department's Engineering Division plans, manages, and implements the City's Capital Improvement Program. As part of this service, the Division prepares the City's capital projects budget, including scoping, cost estimating, and scheduling of projects. The Division undertakes all aspects of implementation, including contract administration for design, construction, and project management. It provides planning, design development, and bidding services, as well as construction administration and inspection. In addition, the Division is responsible for claims avoidance, environmental and regulatory compliance, and monitoring.

Land Development – Engineering Services

The Department's Engineering Division works with private developers and permit applicants to ensure compliance with land use and development standards. The Division provides information related to general engineering, utilities, property line, and design standards. It guides customers through the engineering review process, conducts timely construction inspections of private development affecting the public right-of-way, and establishes and reviews compliance with permit requirements. The Division also maintains and updates engineering records, as well as standard

details and specifications. In addition, the Division maintains flood plain records and is responsible for compliance with Federal requirements pertaining to development within flood zone areas.

Neighborhood Parks and Open Space Management

The Department's Parks and Open Space Management Program maintains over 641 acres of open space including parks, school playfields, regional open space, boulevard landscaping, and special use facilities. The Division ensures these areas are hazard-free, usable, and attractive for residents and the business community. Division staff cares for urban landscaping, which includes park trees, groundcovers, and ornamental water features. In addition, staff maintains recreational facilities including sport courts, athletic fields, playgrounds, picnic sites, multi-purpose buildings, and support facilities such as auxiliary restrooms, hardscapes, park lighting systems, and furnishings.

Golf Course and Tennis Center Operations

The Parks, Golf and Street Trees Division is also responsible for Golf Course and Tennis Center operations. The Golf and Tennis Enterprise Fund operates the City's two golf courses, Sunnyvale Golf Course and Sunken Gardens Golf Course, as well as the Sunnyvale Tennis Center. Sunnyvale is an 18-hole course and Sunken Gardens is a 9-hole course with a lighted practice range. Together, both courses comprise 175 acres of safe, usable, and attractive golf facilities for Sunnyvale residents, visitors, and the business community. Restaurants and golf pro-shops are located at both courses. Staff offers golf lessons and instruction at all levels of play. Approximately 136,000 rounds of golf are played annually at the two courses.

The Sunnyvale Tennis Center is administered through a license agreement with a private operator. The Tennis Center is a 16-court facility with a pro-shop, locker rooms, and food services. The Center offers various tennis programs at school and park tennis facilities, including instruction and league play.

Fleet Services

The Department's Operations Division provides fleet services to support City operations by providing a safe, functional, and dependable fleet of vehicles and equipment. The Fleet Services unit is responsible for the acquisition, ongoing maintenance, and eventual disposition of all City vehicles. This includes many specialized vehicles required by City departments such as Public Safety, Environmental Services, and Public Works.

Facility Services

The Department's Operations Division is responsible for maintaining City buildings in a safe, functional, and clean condition for all users. The Facilities Services unit maintains 87 City buildings (approximately 485,509 square feet of floor space), including the Public Safety headquarters, six fire stations, the library, some park buildings, the Civic Center, the Community Center, and the Senior Center.

Budget Overview and Significant Changes

Beginning FY 2014/15, all development related activities will be budgeted through the City's new Enterprise fund. This includes most of the work hours for the development review team within the Engineering Division as well as development supporting PW services within Transportation and Parks Divisions. The new Enterprise Fund should provide better fund and service information and capture true cost related to development activities.

Responsibilities within the Department are also shifted for optimum efficiency and service provision. The total budgeted positions in the department for FY 2014/15 are proposed to be reduced from 181 to 180. Several positions were restructured in the Golf Program as vacancies occurred to reduce operating expenses.

Transportation and Traffic Operations

The Division of Transportation has been experiencing a high level of activity due largely to the rebounding economy and peak development activity. The demand for traffic studies and development review are at peak levels, and the FY 2014/15 budget reflects a new project to help supplement staff to complete the backlog of studies needed, and to help assess long-term staffing needs. Additionally, more traffic due to the economy is resulting in more damage to traffic signals due to accidents, as well as increases in traffic complaints.

The Division will continue work on several major projects and plans, many of which are funded through grants from the Federal Government as well as the State. These include the design of a reconstructed Mathilda/237 interchange (in partnership with the VTA), evaluation of the VTA's El Camino Real Bus Rapid Transit project and north-south bus study, implementation of Safe Routes to School projects, and monitoring of regional projects such as Caltrain electrification, and High Occupancy Tool lane projects on routes 85, 237 and 101. The new Principal Transportation Planner/Engineer position, added in FY 2013/14, is an additional resource for accomplishing this work.

Street Operations

As part of the Pavement Rehabilitation capital improvement project, road restoration work began in FY 2011/12 and will continue through 2017. With a combination of overlays, patching, chip seal and slurry seal, the project will raise the average pavement condition index (PCI) of City streets from "good" (70-79) to "very good" (80-89) within the next three years. A pilot project of cold in-place recycling was used to resurface Evelyn Avenue from Mathilda to Bernardo. Additional locations will be considered in the future where the technology is cost effective. The City received a Certificate of Excellence from the International Pavement Management Association for the

recycling project. Concrete Maintenance has been moved into this program for FY 2014/15. The service of painting and maintaining red curbs was eliminated in 2003 as part of the budget service level reductions and is being restored beginning FY 2014/15.

Street Lighting

Funding sources are being evaluated to replace more of the City's street high pressure sodium lights with light emitting diodes (LED). 20% of the City's street lights have already been changed to LED fixtures with Federal grants and PG&E rebates. Repainting of metal light poles began in FY 2013/14, with about ¼ of the metal poles being painted. Additional projects over the next several years will eventually result in all metal street light poles being painted for the first time in over 40 years.

Downtown Parking Lot Maintenance

Installation of new concrete valley gutters, and spot repairs of damaged asphalt was accomplished in FY 2013/14 at the Frances Street and Evelyn Avenue parking lot. The other parking lots will also be spot repaired with drainage facilities installed, where needed, over the next few years. Work is scheduled and coordinated with the downtown businesses to minimize disruption to customers.

Street Tree Services

In FY 2012/13, an additional \$475,000 annually was added to this program's budget to return street pruning to a seven-year cycle using contract services. The contractor was able to provide preventive maintenance pruning to over 7,000 street trees so that, if continued, the average interval for pruning all street trees depending upon their species would be 5 years, an improvement over the Council approved interval of seven years. In FY 2012/13, City staff pruned over 2,000 trees with hazardous conditions so that no reported trees with hazardous conditions remained.

Concrete Maintenance

In FY 2014/15, concrete maintenance will be merged into the pavement maintenance program of the Street Operations Division. Mitigation of displaced or damaged sidewalk and curb sections is provided in this program. Annual funding for ongoing concrete repairs is provided in the Sidewalk, Curb and Gutter Replacement infrastructure project, with an additional \$1 million provided over the next two years to help reduce the backlog of work. However, locations requiring replacement continue to be reported at a higher rate than they can be repaired. In FY 2013/14, 311 locations were repaired, and approximately 750 were reported. The current backlog on the replacement list is approximately 1,600 locations.

Public Works Administration

Signs of an improved economy have prompted much interest in City-owned properties and their availability for sale. City-owned property that is no longer needed to provide City services will be

the primary focus in FY 2014/15 for Council to consider as surplus property. The Administration Division will continue to manage real estate and leases for the City.

Capital Project Management

Upcoming work for the Capital Improvement Program includes: two major bridge projects, Fair Oaks over Caltrain, and San Francisco-Alviso Road over Calabazas Creek; and the accelerated pavement resurfacing program. The master planning for the Water Pollution Control Plant has commenced and the design and environmental process will be completed over the next two years. During this period a number of “gap” projects will be implemented to ensure the existing plant continues to meet water quality regulations. Other utilities-related work includes the renovation of Storm Pump Station #2 as well as ongoing replacement of sewer and water mains. Parks and Facilities-related projects will focus on renovation of the Community Center buildings, renovation of Lakewood Park, the new Branch Library and completion of the Seven Seas Park on Morse Avenue. One Civil Engineer was added to this program’s budget in FY 2013/14 to help meet the demand for the Capital Project Management group’s services.

Land Development Engineering

Development activity continues at a high level throughout the City and is expected to remain high over the next year. The Land Development Engineering budget reflects this through an increase in Casual employee hours, as well as a shift of the Director of Public Works hours to this program. Additionally, some expenditures were increased to provide compliance with tightening regulations, specifically around flood protection.

While it is anticipated that this elevated level of resources will be needed in the short term, they will not be required over the long term, and that program costs will need to decrease along with fee revenue. This program has been moved in its entirety to the new Development Enterprise Fund.

Neighborhood Parks and Open Space Management

Work is nearly complete to convert industrial property along Morse Avenue into the new 5.3 acre Seven Seas Park. The new park is scheduled to be completed and opened to the public by July 2014. In anticipation of Seven Seas Park and the recently opened Swelges Park, a Park Worker I position was approved during FY 2013/14 and fully funded beginning FY 2014/15.

The Parks Program continues to explore options to reduce its carbon footprint and make the City’s open space more “green.” The California draught has challenged Parks to reduce its water consumption by 20%. Some of these efforts include optimizing water usage by installing different plantings, utilizing efficient water management, and reducing turfgrass areas. The Program’s increasing use of integrated pest management principles has limited the numbers and amounts of pesticides used while maintaining service levels. These efforts will continue to help improve the quality of Sunnyvale parks and open space.

Golf and Tennis Services

The Golf and Tennis Enterprise Fund was formed in FY 2012/13 with the elimination of the Community Recreation Fund. Since 1999, the Golf Services Program has operated both Sunken Gardens Golf Course and the Sunnyvale Golf Course. The past eight years have shown a gradual decline in golf participation and revenue; however, with a new restaurant operator in place, staff expects golf revenues to improve in FY 2013/14 and continue to grow modestly.

Staff is optimistic that slow growth over the next several years is achievable in Sunnyvale, but softness in the golf market could still pose challenges to course revenue. Vigorous efforts are being made to both reduce costs and increase revenue. Cost reductions are being achieved through operational efficiencies including water conservation and a restructure plan that will reduce labor costs through personnel attrition. Creative marketing continues with a focus on the business community and the next generation of golfers.

The Sunnyvale Tennis Center is operated by a contractor pursuant to a license agreement which has shown to have a significant, positive impact for both operating and capital programs in the enterprise fund. The agreement will generate license fees totaling more than two million dollars over its 15-year term, an increase of approximately \$550,000 over projections for that same time period in the FY 2011/12 Budget. In addition, the agreement calls for a total capital investment of \$230,000 toward the improvement of various buildings at the Tennis Center, as well as payment of up to \$75,000 for electricity costs over the life of the agreement. It is also expected that tennis programs, including instruction, leagues, camps, tournaments, and special events, will increase in number and quality.

Fleet Services

Fleet replaced 40 of the 482 City vehicles and equipment maintained in FY 2013/14. This included eight (8) service trucks, four (4) dumps trucks, four (4) sedans, four (4) motorcycles, several pieces of landscape equipment, an aerial tree truck, a large loader, several pieces of road repair equipment, and a combination hydro-excavator truck. The City also added a pavement cutting device for adjusting manholes and a skid steer unit with trailer. For FY 2014/15, Fleet will be charged with replacing two fire engines and procuring a new ladder truck for the new fire station. Additionally, two unmarked police cars will be acquired for the Burglary Suppression Unit.

Fleet passed its latest CHP Biennial Inspection of Terminal and received a Certificate of Achievement for our exceptional record. Fleet also oversaw a new Tier I qualified, self-certified Spill Prevention, Control, and Countermeasure (SPCC) Plan, and completed Hazardous Material Business Plans for all of Operations Division facilities, including uploading into the new State automated system.

Facility Services

In FY 2013/14, Facility Services completed a budgeted position restructure. The bulk of Facility staff were classified as Facility Technician II. As positions became vacant, more specialization was sought to allow technicians to focus on more complex matters such as heating and air conditioning system repairs and provide more professional services. Additionally, two vacant positions were reclassified to Facility Attendant with a focus on specific service areas. This new staffing plan provided for improved service to the Library, the Sunnyvale Office Center, City Council meetings, and the entire civic center. Some projects completed in FY 2013/14 include: repainted the Public Safety Building and the upstairs recarpeted; replaced a large chiller in the Senior Center air conditioning system and installed a new air conditioning unit at the Sunnyvale Golf Course clubhouse. The exhaust system at some of the fire stations developed problems requiring some new equipment and new training to allow fire engines to operate indoors during service and just prior to responding to a fire. In FY 2014/15, Facility Services will be monitoring major improvements to the Fremont Pool building, begin repairs and replacement of the roofs of fire stations, and repair work to some park buildings.

Performance Indicators				
Percentage of internal customers rating the quality of Capital Project Management design services as fair or better. [Deleted in FY 2012/13]	CC-4	80% (as 8 of 10 or higher)	N/A	N/A
Number of customer survey respondents and percent rating the design services provided by Capital Project Management as good or better.	CC-4	N/A	12 83%	8 61%

Department of Public Works Performance Indicators

2011 Consolidated General Plan Goals:

Chapter 3, Land Use and Transportation (LT)

- Goal LT-2: Attractive Community
- Goal LT-3: Appropriate Housing
- Goal LT-4: Quality Neighborhoods and Districts
- Goal LT-5: Effective and Safe Transportation
- Goal LT-8: Adequate and Balanced Recreation Facilities
- Goal LT-9: Regional Approach to Providing and Preserving Open Space

Chapter 4, Community Character (CC)

- Goal CC-2: Attractive Street Environment
- Goal CC-4: Accessible and Attractive Public Facilities
- Goal CC-10: High Quality Recreation Programming
- Goal CC-11: Prioritization for Recreation Programming

Please refer to the [General Plan Executive Summary](#) for further details on goals

	General Plan Goal	FY 2010/11 Result	FY 2011/12 Result	FY 2012/13 Result
Number of customer survey respondents and percentage of respondents rating the construction services provided by the construction management team as meeting expectations or better. [New in FY 2014/15]	CC-4	N/A	N/A	N/A
Number of City capital construction projects completed during the fiscal year and percent that have no deficiencies at final inspection. [Deleted in FY 2014/15]	CC-4, LT-5	23 100%	20 63%	16 44%
Number of City capital project designs completed compared to the number of planned projects per fiscal year. [Edited for FY 2014/15 for clarification]	CC-4, LT-5	20	18	23
Number and percentage of capital construction projects completed within the approved construction budget. [New in FY 2014/15]	CC-4, LT-5	N/A	N/A	N/A

Land Development Engineering

Workload Indicators

Number of permit applications. [Deleted in FY 2012/13]	LT-2, LT-3, LT-4	302	N/A	N/A
Number of resubmitted applications. [Deleted in FY 2012/13]	LT-2, LT-3, LT-4	74	N/A	N/A
Number of minor permit applications. [Deleted in FY 2012/13]	LT-2, LT-3, LT-4	206	N/A	N/A
Number of subdivision map reviews. [Deleted in FY 2014/15]	LT-2, LT-3, LT-4	11	N/A	11
Number of major development project reviews. [New in FY 2014/15]	LT-2, LT-3, LT-4	N/A	N/A	N/A
Number of encroachment permit application reviews and inspections. [New in FY 2012/13]	LT-2, LT-3, LT-4	N/A	N/A	380
Number of public contacts (CRM, counter, email, phone, etc.). [New in FY 2012/13]	LT-2, LT-3, LT-4	N/A	N/A	6,882
