Section 1.02 - Water Within City Limits

Water sold to consumers within the corporate limits of the City of Sunnyvale shall be sold at the rates specified. All users shall pay a water charge for each one-hundred cubic feet (equal to 748 gallons), or part thereof, of water as follows. In residential developments where two (2) or more dwelling units are served by a common meter, the upper limit (in cubic feet) of each rate block shall be multiplied by the dwelling units served by the common meter in calculating the rates to be applied to water usage monitored by the common meter. In such case, the lower limit of each rate block shall be one (1) cubic foot over the upper limit of the next lower rate block.

In the event that the City's wholesale water providers increase their rates during the year, a pass-through surcharge will be assessed. The formula for the surcharge is as follows: Total expected cost increase for wholesale water purchases through the fiscal year end divided by the total budgeted expenditures for the purchase of wholesale water for the remainder of the fiscal year. The percentage determined by this calculation will be applied to each unit of water used for the balance of the fiscal year.

Section 1.03 - Water Outside the City Limits

The charges for all water, except reclaimed water, delivered through water meters to consumers outside the corporate limits of the City shall be equal to the charges set forth in Sections 1.01 and 1.02.
