

*The Vera Moulton Wall Center for Pulmonary Vascular Disease at Stanford  
presents...*

THE 8TH ANNUAL EVANS FAMILY LECTURE  
IN PULMONARY MEDICINE

Friday, February 15, 2008 • 1 PM • Munzer Auditorium • Stanford School of Medicine

## Scleroderma-related Pulmonary Arterial Hypertension: *Challenges and Hope*

**PAUL M. HASSOUN, MD**

*Professor of Pulmonary and Critical Care Medicine, Johns Hopkins University School of Medicine*

Paul M. Hassoun, MD is currently a Professor of Medicine at Johns Hopkins University School of Medicine and Director of the Pulmonary Hypertension Center at Johns Hopkins Hospital.

Dr. Hassoun earned his medical degree from the Faculte de Medecine Lariboisiere-Saint-Louis, University of Paris, France in 1981. He then completed his internship and residency at Brigham and Women's Hospital/Harvard Medical School followed by fellowship training in pulmonary and critical care medicine at Massachusetts General Hospital/Harvard Medical

School. From 1988–2002 Dr. Hassoun served as a faculty member at Tufts University School of Medicine.

Co-author of more than fifty peer-reviewed publications, Dr. Hassoun currently holds NIH grants studying the role of xanthine oxidase in lung injury and molecular approaches to ventilator-associated lung injury. He is also the Program Director/Principal Investigator for a Specialized Center of Clinically Oriented Research in Pulmonary Vascular Disease (SCCOR) award entitled "Molecular determinants of pulmonary arterial hypertension."
