# San Mateo County Mosquito and Vector Control District

1351 Rollins Rd Burlingame CA 94010 (650) 344-8592 • Fax (650) 344-3843 www.smcmad.org

June 12, 2013

Dr. Samuel Lerner, President

Members of the Board of Trustees

Re: FY 13-14 District Budget

I am pleased to present the FY 13-14 Budget to the San Mateo County Mosquito and Vector Control District Trustees. This year's balanced budget is a zero-growth budget (i.e. no increased assessments). This year represents a budget that provides critical services and managing its resources without increased taxation to the residents we serve.

I would like to commend all District personnel for their skillful management of the current year's budget and for their conscientious efforts in preparing this upcoming year's budget to meet our desired goal of a zero-growth budget.

Sincerely,

Robert B. Gay District Manager

**06/12/2013 9** | Page

### **Mission Statement Goals**

The following District Goals were formulated by the Board of Trustees and District Management. These goals correspond to the District Mission Statement. The Board of Trustees through a committee structure produces a District Policy Manual, Employee Manual, Strategic Manual and the District Annual Budget to support, direct and govern the District's extensive vector surveillance and control programs. The Mission statement goals include:

Prevent the emergence of biting adult mosquitoes by applying control to the larval stage.

Maintain consistency in operational programs to prevent or reduce mosquitoes and vector populations.

Answer all requests for service from the public within 24 hours.

Research newly developed pesticides and methods of control for mosquitoes and other vectors.

Monitor the distribution of vector-borne diseases in nature and prevent the occurrence of human cases among District residents.

Enhance surveillance for adult mosquitoes in order to uncover new sites of larval development.

Increase public awareness of District services with an active educational program.

Promote employee professional development, enhance personal productivity, work satisfaction, and ensure safe working conditions.

Maintain up-to-date reference library of mosquito and vector control literature.

Cooperate and share resources with other agencies in order to maximize the public benefit for all vector control services.

### **Strategic Planning Committee**

Dr. James Ridgeway, City of San Mateo (Chair)

Richard Tagg, Town of Woodside

Betsey Schneider, City of San Carlos

Christine Fuller, City of Daly City

### **Strategic Planning Foundation**

Strategic thinking forms the foundation for strategic decision-making. Without this foundation, subsequent decisions and actions are likely to be fragmented and inconsistent with the long-range health of our District.

Our Trustee Strategic Planning Committee and the District Management are charting a journey to continued success. This journey is important for many reasons, a few include:

- Keeps the District focused on the future, as well as the present.
- Reinforces the principles espoused in our mission, vision, goals, and strategy.
- Encourages cross-functional planning and communications.
- Builds a bridge to our short-term tactical planning process.
- Encourages the Trustees and District Management to look at planning from a macro perspective.
- Saves time, reduces conflict, and increases the power of human creativity.

### **Financial Policies**

### Overview

The District's annual budget is developed in accordance with the District Policies, Strategic Planning Document, and the Capital Improvement Plan, the needs of the residents of San Mateo County and all federal and state laws. Programs, project priorities and service levels are established by the plans. The budget provides adequate funding for maintenance and replacement of capital plant and equipment.

### **Balanced Budget**

The District annually adopts a balanced budget where operating revenues are equal to, or exceed, operating expenditures. Any increase in expenses, decrease in revenues, or combination of the two that would result in budget imbalance will require budget revision, rather than spending unappropriated surpluses or designated reserves to support ongoing operations. Any year end operating surpluses will revert to unappropriated balances for use in maintaining reserve levels set by policy and the balance will be available for capital projects.

### **Fund Structure**

The fund structure includes the General Fund and Capital Fund. The General Fund is the primary operating fund of the District. It accounts for all activities of the general government, except those to be accounted for in another fund. The Capital Fund accounts for the ongoing capital projects outlined in the Capital Funding Strategy.

### **Fund Balance**

It is the San Mateo County Mosquito and Vector Control District's ("District") policy to maintain an adequate fund balance for public health emergency, contingencies, operating cash flow, future liabilities, and replacement of equipment and plant, and for future construction or replacement due to natural disasters (earthquakes). The Fund Balance Policy follows the guidelines set in the Governmental Accounting Standards Board (GASB) Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions.

06/12/2013 13 | Page

### **Investment Policy**

It is the policy of the San Mateo County Mosquito and Vector Control District ("District") to invest public funds in a manner which will provide maximum security while providing sufficient liquidity to meet the daily cash flow demands of the District and an investment return conforming to all state and local statues governing the investment of public funds.

### SAN MATEO COUNTY MOSQUITO AND VECTOR CONTROL DISTRICT

### Resolution M -008-13

### A RESOLUTON OF THE BOARD OF TRUSTEES OF THE SAN MATEO COUNTY MOSQUITO AND VECTOR CONTROL DISTRICT ADOPTING THE FISCAL YEAR 2013-2014 OPERATIONAL BUDGET

**WHEREAS,** the San Mateo County Mosquito and Vector Control District ("District") is a political subdivision and a "local agency" of the State of California, created and operating under the authority and provisions of California Health and Safety Code Section 2000 et. Seq. and

**WHEREAS**, the District's Board of Trustees ("Board") has been granted the statutory authority and responsibility to administer the financial affairs of the District; and

**WHEREAS**, California Health and Safety Code Section 2070(a) provides that on or before August 1 of each year, the Board shall adopt a final budget, which shall conform to the accounting and budgeting procedures for special districts contained in Subchapter 3 (commencing with Section 1031.1) and Article 1 (commencing with Section 1121) of Subchapter 4 of Division 2 of Title 2 of the California Code of Regulations; and

**WHEREAS**, the Board reviewed the Fiscal Year 2013-2014 Budget for the District and determined that said budget conforms to all applicable regulations.

NOW, THEREFORE, BE IT RESOLVED THE BOARD OF TRUSTEES OF THE SAN MATEO COUNTY MOSQUITO AND VECTOR CONTROL DISTRICT HEREBY RESOLVE AS FOLLOWS:

Section 1. Recitals.

The recitals set forth above are true and correct.

### Section 2. Adoption of Budget

The Board hereby adopts the Fiscal Year 2013-2014 Budget of \$6,829,867, a copy of which is attached hereto and incorporated herein by this reference and which shall be made available for public inspection in the office of the District Manager.

### **Section 3.** Transmit to County

Pursuant to California Health and Safety Code Section 2070(b), the District Manager shall cause a copy of the Fiscal Year 2013-2014 Operational Budget to be transmitted to the San Mateo County Auditor-Controller's Office.

### **Section 4. Effective Date**

This Resolution shall take effect immediately upon its adoption.

#### Section 5. Certification

The Board Secretary shall certify as to the adoption of this resolution and shall cause the same to be processed in the manner required by law.

Board President, Dr. Sam Lerner

Board Secretary, Leon Nickolas

Counsel, Aimee Armsby

District Manager, Robert Gay

PASSED, ADOPTED AND APPROVED, THIS 12<sup>TH</sup> day of June 2013.

### **REVENUES**

### BUDGET – FY 2013-2014 REVENUE SOURCES

The fiscal year runs from July 1, 2013, to June 30, 2014. The District receives revenues from property taxes, Special Mosquito Control Tax, a special benefit assessment that is collected by the County of San Mateo through homeowner property tax bills. These monies are assessed and collected each fiscal year. The District's three main sources of revenue are property taxes, benefit assessment, and the Special Mosquito Control Tax.

### **Revenue Description**

**Property Tax – Current Secured**: Secured property is generally non-movable property, such as houses and other buildings. Revenues are based on general valuation. The portion of revenues designated for taxing agencies, including special districts, is 1%. Property taxes levied are recorded as revenue when received, in the fiscal year of levy, because of the adoption of the "alternate method" of property tax distribution, known as the Teeter Plan, by the District and County. The Teeter Plan authorizes the auditor-controller to allocate 100% of the secured property tax billed but not yet paid. The auditor-controller remits tax monies to the District in three installments, as follows: 50% remitted on December 15; 40% remitted on April 15; 10% remitted on June 30.

**Property Tax – Current Unsecured**: Unsecured property is similar to secured property as noted above, and the revenue is based on the same formula. Unsecured property includes items such as motor homes, airplanes, boats, and other moveable personal property. The portion of the revenue designated for taxing agencies, including special districts, is 1%.

**Homeowners Tax Relief**: This is the portion of tax funds replaced by State resources for tax relief for homeowners. In other words, the amount of homeowners' exemption on property valuation is paid to the County by the State. The portion of revenue designated for taxing agencies, including special districts, is 1%.

**Special Mosquito Control Tax**: The District held a Special Tax Measure Election in November 2, 1982. The Measure A (Special Tax for Mosquito Control Services) passed with a yes vote of 74%. The Special Tax was designated for all parcels not exempted by law for 13 cities within County of San Mateo at a maximum taxing rate of \$3.75 per parcel. No cost of living adjustment was authorized in this ballot Measure A.

Benefit Assessment Revenue: In 2003, the District proposed to increase its service area by annexing the then un-served portions of northern and western San Mateo County. Previously, neither the District, nor any other public agency, provided mosquito control and vector –borne disease protection and prevention services in the northern and western areas of San Mateo County that was outside of the District's then-current (pre-2003) jurisdictional boundaries. Accordingly, the District executed a Proposition 218-compliant mailed balloting in the winter of 2003. A tabulation of the returned ballots, weighted by their proposed assessment showed 65% support. Hence, the assessment district was formed and the annexation completed. The annual engineers report defines the benefit assessment district that provides funding for the services in the North and West areas ("Annexation Area") of San Mateo County.

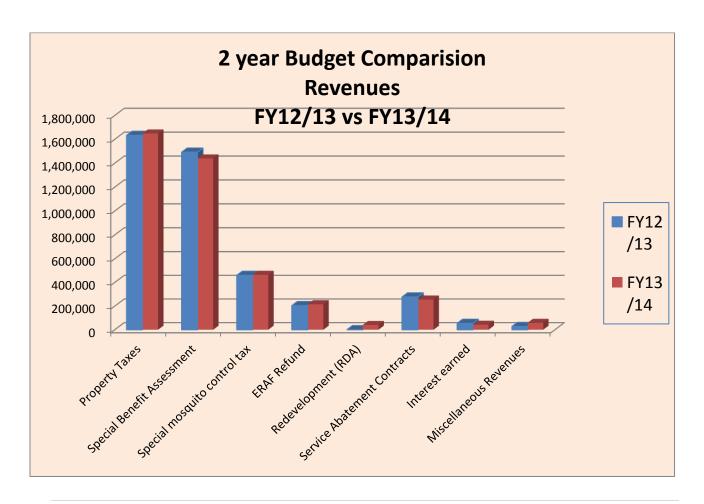

**Service Abatement Agreements**: Each year the District establishes service abatement agreements with state and local agencies, cities, commercial establishments, sewage treatment plants, for controlling mosquitoes.

Education Revenue Augmentation Funds (ERAF): In 2003, San Mateo County Controller announced the refund of \$37,496,366 in excess Educational Revenue Augmentation Funds (ERAF) to local taxing agencies including cities, special districts and the County. These refunds are the result of the local tax base increasing at a rate faster than the increase in the funding limits for schools and community colleges. The refunds were proportional to each agency's contribution as set forth by state statue. Each year the San Mateo County Controllers' office distributes the excess ERAF to the District.

# **District Reserves**

06/12/2013 **41 |** P a g e

## **District Reserves**

Beginning with FY 2011, the District implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- **Nonspendable fund balance** amounts that are not in nonspendable form (such as inventory) or are required to be maintained intact.
- **Restricted fund balances** amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- **Committed fund balance** amounts constrained to a specific purposes by the District itself, using its highest level of decision-making authority (i.e. Board of Trustees). To be reported as committee, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint.
- **Assigned fund balance** amounts the District intends to use for a specific purpose. Intent can be expressed by the Board of Trustees or by an official or body to which the Board of Trustees delegates the authority.

In the General Fund, the amount provided to the Vector Control Joint Powers Agency as deposited is assigned.

In the Capital Fund, the amount to be used in capital outlay is assigned.

06/12/2013 **42 |** Page

• Unassigned fund balances – amounts that are available for any purpose.

The Board of Trustees establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This process is completed with adoption and amendment of the General Operational Budget. A fund balance commitment is further indicated in the General Operational Budget as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Board of Trustees through adoption or amendment of the General Operational Budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

Cash and investments consisted of the following at June 30, 2012:

- Petty Cash of \$200
- Cash in County Treasury of \$4,670,254
- Total cash and investments = \$4,670,454

#### **Fund Structure**

The fund structure includes the General Fund and the Capital Fund.

#### General Fund

The General Fund is the primary operating fund of the District. It accounts for all activities of the District except those required to be accounted for in another fund.

## • Capital Fund

The Capital Fund maintains a fund balance for replacement of District vehicles, large operational or laboratory equipment, and facility preservations. Revenue for the Capital Fund is transferred from the General Fund.

## **General Fund**

• Committed Reserves (Fund Balance)

**43** | Page

#### Committed Reserve for Public Health Emergency (General Fund)

California Health and Safety Code Section 2070 provide that the Board of Trustees can divide the annual budget into categories including a restricted reserve for public health emergencies. The restricted reserve for public health emergencies may only be spent to respond to public health emergencies.

Public Health Emergencies are defined within the California Mosquito-borne Virus Surveillance and Response Plan, California Department of Public Health and the District Arbovirus Surveillance and Response Plan.

The Response Levels of Arbovirus Surveillance and Control activity triggered by environmental and epidemiological conditions include:

- Level 1 Normal Season
- Level 2 Emergency Planning
- Level 3 Epidemic Conditions

The recommended minimum funding amount for the Restricted Reserve for Public Health Emergency is up to 33% of the District's operating revenue. The funding is based on the minimum cost to implement requirements stated in the California Mosquito-borne Virus Surveillance and Response Plan, California Department of Public Health and the District Arbovirus Surveillance and Response Plan.

## Assigned Reserve for Other Post-Employment Benefits (General Fund)

Reserve for Other Post-Employment Benefits – Government Accounting Standards Board Statement 45 ("GASB 45") Other Post-Employment Benefits ("OPEB") states that government agencies which offer post-employment benefits, other than pensions, must have an actuarial valuation performed to determine that liability. The OPEB which the District provides are retiree medical health benefits to eligible retirees.

The District engaged Bickmore Risk Services to perform a June 30, 2010 Actuarial Report on GASB 45 Retiree Benefit Valuation. The District has not established an irrevocable OPEB trust and the actuarial study reflected a payas-you-go funding policy.

06/12/2013 **44** | Page

Bickmore Risk Services calculated the GASB 45 actuarial accrued liability (AAL) to be \$1,217,712.

The annual required contribution (ARC) for the fiscal year ending June 30, 2010 was \$141,198.

Contributions for the fiscal year ending June 30, 2010 were reported to be \$29,645, equal to the benefit payments made during the period.

BRS estimated the net OPEB obligation to be \$111,553 for the fiscal year ended June 30, 2010.

BRS assumed the District continues funding on a pay-as-you-go basis for the fiscal year ending June 30, 2011.

- The unfunded actuarial accrued liability will increase to \$1,340,186 and the ARC to be \$150,575.
- If the District's only OPEB contributions continue to be the amount paid on behalf of retirees (estimated to be \$35,974), then the net OPEB obligation is projected to increase to \$226,441 as of June 30, 2011.

The District allocated \$250,000 for meeting the Annual Required Contribution ("ARC") on June 30 2011 by resolution placing \$250,000 temporarily in the VCJPA Member Contingency Trust Fund until a suitable OPEB Trust Fund is established.

## Assigned for Operations (General Fund)

The District shall maintain a minimum Reserve for Operations equal to 60% (6 months) of discretionary General Fund revenues. These funds are set-aside because the District receives the majority of its funding from the property taxes and benefit assessment collected by the County of San Mateo. These funds are not transmitted to the District until January, six months into the fiscal year. This is a six month delay in receiving revenue from the beginning of the fiscal year. Therefore, it is imperative that the District has an operating fund to fulfill its general operating costs. Mosquito season in the San Mateo County lasts through the whole year. The delay in receiving funding and not having reserves could inhibit the District's ability in providing services for the benefit

06/12/2013 45 | Page

of public health. The recommended maximum level for Reserve for Operations:

- General Reserves 60%
- Contingency Reserves up to 25%

#### Assigned for Replacement and Emergency Reconstruction (General Fund)

The District shall maintain a reserve for Replacement and Emergency Reconstruction for replacing District buildings and furnishings, and will also serve as an assigned fund balance category for reconstruction of District buildings in the case of earthquakes or other natural disasters.

The recommended maximum funding for this reserve item is an amount equal to replacing the damaged buildings and/or the accumulated amount of depreciation for that particular capital item.

#### Assigned for Vehicle and Large Equipment Replacement (General Fund)

The District shall maintain a reserve for Vehicle and Large Equipment Replacement for replacing District vehicles and operational and laboratory equipment, and will also serve as an assigned fund balance category for replacement of those items in the case of earthquakes or other natural disasters.

The recommended maximum funding for this reserve item is an amount equal to replacing the vehicles and equipment and/or the accumulated amount of depreciation for that particular capital item.

## Assigned for IT Equipment Replacement (General Fund)

The District shall maintain a reserve for IT Equipment Replacement for replacing District IT equipment, and will also serve as an assigned fund balance category for replacement of those items in the case of earthquakes or other natural disasters.

The recommended maximum funding for this reserve item is an amount equal to replacing the IT equipment and/or the accumulated amount of depreciation for that particular capital item.

## **District Long Term Debt**

In April 2001, the District issued certificates of participation in the amount of \$2,275,000 with interest rates ranging from 4.55% to 5.5%. Proceeds from the certificates of participation were used for the construction of a new Headquarter and Laboratory Facility. The District was committed to make principal and interest payments at June 30<sup>th</sup> as well as interest payments at December 31<sup>st</sup>, pursuant to an agreement with BNY Western Trust Company. **As of June 30, 2011 this debt has been fully repaid**.

## **District Investment Policy**

The District is currently considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with the County Treasurer. The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's prorate share of the fair value provided by the County Treasurer for the entire portfolio. The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgages obligations.
