VHA 463 - Alaska VA Healthcare System an	<u>17-04501-F</u>	-	Mr. X contacted VISA 20 VISN 20 Deputy Chief Logistics Officer to asks for a FOIA request to be opened. The Chief forwarded the email to Alaska FOIA Office. Alaska FOIA Office called the patient this morning he is requesting a FOIA item to be opened. He had four questions concerning the Fairbanks Homeless Mission (FHM) and the services they are providing to the Veterans. 1. There is a van located at the FHM. VA has purchased this van but the FHM staff is not allowing the van to be used to transport the Veterans to and from their appointments, why not? 2. There are two or three computers in the facility the VA purchased and the FHM staff will not allow the Veterans to uses these computers. Instead the Veterans are told to go to the local library for computer access. According to Mr. X the FHM is worried the Veterans will be accessing porn on the computers. 3. Why is the VA paying to remodeling offices at the FHM and not spending money on helping the homeless Vets in Fairbanks get housing? 4. The Veteran homeless facility should have no affiliation with any religious based organization. Mr. X also stated the Choice Program along with all Unions should be abolished in the United States. Received another call at 11:00 letting me know how untrustworthy the Alaska VA is. Mr. X requesting reply under the FOIA office.	1/20/2017

VHA 691 - VA Greater Los Angeles	<u>17-04949-F</u>	Westside Services	DVA Representatives Gore and Brown, My first question to you is this, did former Secretary McDonald, in his last trip to West Los Angeles, sign long term contract with Brentwood School? My other concern is this, the oil agreements were received. Thank you. We are prepared to bring forth certain issues regarding the validity of those agreements. However, in order for us to present the "larger picture" about no use or misuse of the gift-land of disabled Veterans as a "HOME", not a healthcare center, we must make one more request. Mr. Gore, would you please inform Director Brown to prepare one more FOIA piece of information. That is to describe the history and current status of the Deed for the "beach-house" property that was deeded on the same day by the same parties for Disabled Veterans in 1888. That Deed, which I have sent a transcribed document of the hand-written "Indenture", called for the construction of a "pavilion" and a "beach-house" for the healing of disabled Veterans. To date, we have not been able to find evidence that it ever existed. What we have found is that the property that we feel is that land is described as "government" land on several online search programs. We feel that this discovery is very important because it is "added value" to our claim that the West Los Angeles gift-land, all 718 acres, was intended to be more of a "HOME" than the healthcare center that the settlement plan, now law, is attempting to make it to be. There must not be any non-veteran EUL's because that was not intended. All of that can be discussed after you, the DVA, produce the honest history of what happened to this patch of beach land in form of the FOIA information, like the oil drilling agreements that you have produced. Thank you for your anticipated cooperation,	1/27/2017

As you already know, the news is full of talk about the care, or lack thereof, of our veterans. One reason this is true, is due to the shortage of physicians and mid-level providers available in primary care. The second is the time that it takes to get a new provider approved to work in one of the VA facilities. This letter is to ask for your partnership. Please provide a list of locum tenens physicians, and mid-level providers (physician assistants & nurse practitioners), who have covered or are covering, your facility, for the past two years, that you would consider covering future locums needs. We have used this in other facilities to substantially shorten the time frame for approval for coverage. I believe that this list could be obtained fairly easily from your contracting staff or from the respective Contracting Officer's Technical Representative in each service. Please provide the name or the physician or mid-level, specialty and phone number, and email if available. This information gathered is in the public's best interest because it will contribute significantly in "serving those that have served us, our veterans". VHA 675 - Orlando VA Medical Center	<u>17-05972-FP</u>	-	This is a formal request for information regarding Lake Nona kidnapping investigation case # 675-IR-20161109-000718. I would like a copy of the actual investigation as my last two attempts (17-03571-FP, requested January 11, 2017 and 17-03571-FP, requested February 23, 2017) but was furnished only with screenshot of the report. I kindly ask for all information I am privileged to regarding the police report of kidnapping by a Lake Nona staff member. To be specific, I have a detail list of the information I am requesting (But not limited to the ones below, I want all access I am afforded): 1. Close out information, follow up information that was furnished in the first request but not the second request or decision /disposition of case 675 IR20161109-000718. 2. I would like a copy of all notes and information that was used to decide the outcome of my case that do not violate the Privacy Act law or invades the privacy of those accused or a witness to the incident. This should include notes or rationale by Detective (b) (6) as he has been named as the report recorder. 3. I would like a copy of the entire police report and not a screen shot. I would like it to show all that is typed in the narrative boxes. The screen shots I received cut off some of the text and I would like access to the entire thing. 4. Because I received a FOIA response for the same case with different attached information I am under the impression that there should be two police reports for the information may have been undated in between the times of the request so there must be documented record of what was changed/updated and I would like this information. 5. I would like a copy of my VA Form 0024 that recorded my hand written testimony. I would also like a copy of the transcribed report from my handwritten statement that was entered into the police computer system. I would also like a copy of all emails that I sent to Detective (b) (6) in support of case. (I sent them to him so I should have access to them and they should include dates and times). 6. Please check all VA affiliates or people contacted regarding my incident to include email correspondences for advice, order, direction or clarification.	3/28/2017

How many staff assigned to directly address these issues? How many counselors/therapists available to handle these cases? How many psychiatrists or neurologists available to handle these cases? On average, how many patients in these categories can be seen daily? On average, what is the length of waiting time for care? Since the budget changes and new staff have been hired how are things going? What is your current treatment for PTSD(Post Traumatic Stress Disorder)? What is the long term treatment? What is your long term treatment for TBI(Traumatic Brain Injury)after initial trauma? Do you have any stats on the correlation, if any , on numbers of patients actually in both categories? Levels of alcohol abuse in these patients in last decade? Levels of prescription drug abuse in these patients in last decade? Numbers of cases of domestic abuse or acts of violence in veterans under care for PTSD or TBI? What is the divorce rate among this group, if available? If we lobby for assistance in your battle, what do you need in facilities, personnel and research to actively pursue these programs. Is DOD still being funded for this research? Do you have a need for active volunteers in any aspect of these programs? Is care for these conditions available ongoing at civilian hospitals if VA is not available? What is being done to remove the stigma of reporting these injuries or problems in the command structure? Now that the new commander-in-chief has the troops "boots on the ground" again in Syria, Yemen and Iraq there will be many more casualties in these categories, especially with the high attrition rate in close urban combat...Are you ready?	4/7/2017

VHA 544 - Wm. Jennings Bryan Dorn VA Med	<u>17-07859-F</u>	-	I am inquiring about a position that I have recently interviewed for, and would like to request further information please. Pursuant to the federal Freedom of Information Act, 5 USC 552, I am requesting the reason for non-selection and a copy of the resume of the successful applicant(s) for the position of Administrative Officer – Anesthesiology, GS0341-09, for job announcement number OE-17-SJW-1831164. I am able to request these documents in accordance with the precedent set forth in Core v. United States Postal Service, No. 83-1153 (4th Cir. Jan. 6, 1984), which found there is “no substantial invasion of privacy in information identifying successful federal job applicants.” Exemption 6 does not shield the identities, education and relevant experience of successful applicants for federal jobs. Plaintiff Core, an unsuccessful applicant for a Postal Service position, had requested from the Postal Service records reflecting the education and relevant work experience of all other applicants. The Fourth Circuit approved the withholding of the identities and all other information concerning the unsuccessful applicants, finding that disclosure of their non-selection “may embarrass or harm” them. However, it ruled that the public’s interest in the competency of the people hired, and in the Postal Service’s adherence to proper hiring procedures, offset any “slight infringement” of the successful applicants’ privacy; the requested information concerning this latter group was therefore found disclosable. Citing FOIA Update, the Court of Appeals noted that its decision was fully consistent with the Department of Justice policy regarding the release of records reflecting federal employees’ prior government employment, private employment related to current duties, awards, honors and memberships in professional associations.	4/19/2017

VHA 742 - Health Eligibility Center	<u>17-09970-F</u>	-	1) the knowledge base article providing the Health Resource Center's Pharmacy Customer Care (PCC) business line policy concerning how contact representatives should handle calls when veterans disclose that they are out of medication. In these cases, contact representatives most often send an "emergency refill" referral, and, I believe, the words "emergency refill" are in the title of this particular KB. Further, if there's a PCC policy that covers out of critical medication situations for veterans unable to travel (e.g., disabled, no viable transportation, etc.) and whose VAMC pharmacies DO NOT recognize emergency refill referrals, I'd like to have a copy of that, as well. 2) the knowledge base article providing PCC policy concerning when contact representatives should transfer callers to the assist line for further transfer to one of PCC's client pharmacies. 3) any document that instructs PCC contact representatives to transfer callers to the assist line if they demand to speak to their pharmacies directly. By way of background on this particular part of my request, it is my understanding that PCC management assured the deputy director, (b) (6) that, if a veteran needed to speak directly to his pharmacy, whether an escalation of a previous call or not, all a contact representative had to do was transfer the caller to the assist line. I need the policy document that covers that.	6/28/2017
