Computer cluster FAQ for Y2E2 rooms 182 & 184

Availability The cluster is available from the start of classes through the end of finals. It is for use with courses taught that quarter in CEE. It is NOT for other university classes, research use, general engineering or personal use. The cluster is closed in between quarters. Your general computer needs may be better met with the SULAIR computer clusters. Scheduling for room 184 is with CEE Student Services Administrator, Jill Filice at *jmn@stanford.edu*.

Door Access Codes All the clusters are regulated by access codes. Codes are provided to instructors exclusively for their courses. Unauthorized use or sharing of codes is prohibited.

Computer Connectivity Personal computers must be registered in order to access the Stanford network. If you live on campus see *rescomp.stanford.edu* otherwise contact the local network administrator. Do not disconnect cluster computers from the network.

Room Resources Dell PCs with Windows 7 are configured to demonstrate course-specific computing software. To LOGIN to workstations, users will need to use their SUNet ID and Password. It will take a minute to setup the first time. Be patient. Note that work files are saved in your AFS space. (More info about AFS at: *itservices.stanford.edu/service/afs*) After logging in, please read the information in the command prompt window. There is a one-time process to configure your AFS folders. Be sure to LOGOUT or SHUTDOWN when done to keep your files secure and safe.

Assistance Software-specific questions should be directed to the course instructor or TA. Hardware/connectivity problems should be reported to Ed Jones, *ejones@stanford.edu*. Computing and networking questions not specific to a class can be directed to Stanford's online help (725-HELP or *helpsu.stanford.edu*).

Rules & Regulations **Do not change the computer configurations** as this may inhibit the usage by others. Do not share, swap or download copyrighted material in violation of the Digital Millennium Copyright Act. The Stanford Honor Code applies to all aspects of this cluster.

Printing
- Cluster printers are for CEE class related jobs only. Supplies are limited by budget constraints. Please provide your own paper. **Use printer or copier paper only** (no notebook, binder or padded paper).
- Cluster printers are not available for use by outside computers or personal laptops.
- Please monitor your job and collect it as soon as possible. Delete print jobs when not needed. Do not print excess copies of documents, files, data, or programs.
- **Clean up your mess.**
- Toner printer supplies can be requested by email to: Ed Jones at *ejones@stanford.edu*.

Please help maintain a usable working environment
- Please keep the rooms neat and tidy. **Clean up your mess**. Throw out your trash.
- No food or drinks in the rooms.
- **Do not prop the door open or leave the room open and unattended.**

Thanks.
