IRiSS

Institute for Research in the Social Sciences

Application Form

Certificate in Computational Social Science

Eligible students must be enrolled graduate students at Stanford University. To apply, this form must be completed and sent to the program coordinator (Kylie Swall, kswall@stanford.edu). Students must complete the required courses for credit. Students may forgo taking 106A and 106B if they can demonstrate an equivalent skills proficiency. To be exempted from the 106A/B requirement, the graduate student must provide a transcript showing the completed sequence of computer science programming courses, or demonstrate that he or she has completed more advanced courses in Stanford's computer science department that require skills beyond 106A and 106B, e.g., data mining or machine learning classes.

Name: _____

Email: _____ Department: _____

Courses:
Please indicate which courses you plan on taking to fulfill the certificate requirements

_____ _____

_____ _____

Faculty mentoring:
Please list two faculty who have agreed to advise you in conjunction with this certificate program. These faculty members should be from different departments.

_____ _____

By signing below, the graduate student indicates that they will participate in the Certificate Program in Computational Social Science

Signature: _____ Date: _____
