Interested in medical materials published in the last 5-7 years.

*"I have been involved with a number of NGO's that are interested in **international medical support** - there is a great need in the international medical community for **texts/periodicals** as very little up-to-date info is available in their home countries. I was wondering if there may be an opportunity to redirect soon to be discarded periodicals / texts that may be current enough (in some cases even in the **last 5-7 years**) to areas of the world in need (thinking particularly of the Balkans as well as Afghanistan)."*
