

Household Hazardous Waste Management	
Waste Category	Management Method
Adhesive	Fuel Blending
Antifreeze	Recycle
Asbestos	Landfill
Car Batteries	Recycle
Diesel	Fuel Blending
Fertilizers	Incinerator
Flammable Aerosol (empty cans)	Recycle
Flammable Liquid	Fuel Blending
Fluorescent Bulbs	Recycle
Gasoline	Fuel Blending
Garden Chemicals/Poisons (exc Aerosols)	Incinerator
Helium Tanks	Recycle
Household Batteries (alkaline, nicad, acid gel, rechargeable)	Recycle
Household Cleaners	Neutralization
Hypodermic Needles and Lancets	Incinerator
Kerosene	Fuel Blending
Liquid Latex Paint	Recycle
Mercury	Recycle
Motor Oil / Oil Products	Recycle
Oil Filters	Recycle
Oil Base Paints	Fuel Blending
PCB Ballast	Incinerator
Poison Aerosol (empty cans)	Recycle
Poison Liquid / Pesticides	Fuel Blending
Pool Chemicals	Neutralization
Propane Tanks	Recycle
Road Flares	Incinerator

**Definitions:**

**Fuel Blending:** Waste treatment process where waste is burned as a fuel to generate energy.

**Incinerator:** Destroys waste at a high temperature.

**Landfill:** Burying waste to contain and stabilize.

**Neutralization:** Adjusts Ph (Ph 7) to make acids and bases neutral.

**Recycle:** Recovering used materials for use in a manufacturing process.

**Waste Management Distribution**
