

Sleep Sciences and Medicine Grand Rounds Schedule 2008-2009

<u>Date</u>	<u>Speaker</u>	<u>Title</u>	<u>Position</u>	<u>Institution</u>
9/5/2008	Jonathan Wisor, PhD	Clock Genes and Sleep	Staff Scientist	SRI
9/12/2008	Gerald Reaven, MD	The Insulin Resistance and the Metabolic Syndromes: Different Names, Different Goals, Different Concepts	Professor of Medicine, Emeritus; SU	Stanford University
9/19/2008	Shigeru Chiba, MD	Legacy and Enigma of the Sleep-Epilepsy Interaction	Professor and Chairman of Psychiatry & Neurology	Asahikawa Medical College
9/26/2008	Dmitry Gerashchenko, PhD	Identification of Neuronal Phenotypes Involved in Sleep/Wake Regulation	Staff Scientist	SRI
10/3/2008	Sean Mackey, MD PhD	The Strain in Pain Lies Mainly in the Brain: Lessons Learned Through Neuroimaging	Associate Professor of Anesthesia	Stanford University
10/10/2008	Craig Heller, PhD	Round Table Discussion - Functions of Sleep	Professor of Biology	Stanford University
10/24/2008	Michael Twery, PhD	Opportunities for Sleep and Circadian Research	Director	National Center for Sleep Disorders Research
10/31/2008	Jimmy Brown, MD DDS	Clinical evaluation of the OSA patient anterior to the sleep study	Associate Professor	Stanford University
11/7/2008	Matt Walker, PhD	Sleep, Memory, and Emotion	Assistant Professor in Psychology	UC Berkeley
11/14/2008	Sabine Girod, MD, PhD, DDS	Sleep Surgery - Possible Complications	Assistant Professor of Surgery	Stanford University
11/21/2008	Allison Harvey, PhD	Improving Treatments for Chronic Insomnia and Sleep in Bipolar Disorder	Associate Professor of Psychology	UC Berkeley
12/5/2008	Daniel Brown	Legal Aspects of Sleep Medicine	lawyer	Greenberg Traurig LLP
12/12/2008	Steve Woodward, PhD	Sleep and Fear	Staff Psychologist	VA
12/17/2008	Sean Youngstedt, PhD	Tolerance of Moderate Sleep Restriction in Middle- to Older-Age Long Sleepers	Assistant Professor of Exercise Physiology	University of South Carolina
12/19/2008	Mark Beenhakker, PhD	Mechanisms Underlying Sleep-Related Thalamocortical Oscillations	Post-doctoral Fellow of Neurology	Stanford University
1/15/2009	Hans-Peter Landolt, PhD	Stimulants, Vigilance, and Sleep: Genotype and Age-Related Differences	Associate Professor	University of Zürich
1/16/2009	Tom Neylan, MD	Neuroendocrine Mechanisms of Disturbed Sleep in PTSD	Associate Professor of Psychiatry	UCSF/VA
1/23/2009	Liat Tikotzky, PhD	Parental Sleep-Related Cognitions and Infant Sleep: A Longitudinal Study from Pregnancy through the First Year	Visiting Scholar	Stanford University
1/30/2009	Katie Stone, PhD	Consequences of Poor Sleep in Older Men and Women: Overview of Results from the SOF and MrOS Sleep Epidemiologic Cohort Studies	Scientist	California Pacific Medical Center Research Institute
2/6/2009	Eric Frenette, MD	REM Sleep Behavior Disorder, a window on neurodegenerative diseases	Visiting Instructor in Psychiatry and Behavioral Sciences	Stanford University

Sleep Sciences and Medicine Grand Rounds Schedule 2008-2009

<u>Date</u>	<u>Speaker</u>	<u>Title</u>	<u>Position</u>	<u>Institution</u>
2/13/2009	Laurence (Larry) Tecott, MD PhD	Quantitative Assessment of the Structure of "Mouse Lifestyles"	Professor of Psychiatry	UCSF
2/20/2009	Philip Low, PhD	Hidden Treasures Revealed: Using Single Channel Sleep EEG To Create High Resolution Computational Maps Of Brain Activity	Adjunct Assistant Professor, Stanford Univ; Founder, CEO and CSO, NeuroVigil	Stanford University / NeuroVigil
2/27/2009	Paul Shaw, PhD	From Vial to Bedside: What the Fly Can Tell Us about Human Sleep Research	Assistant Professor of Anatomy and Neurobiology	Washington University (STL)
3/6/2009	Daniel Kroeger, PhD	Brain Activity Patterns in Deep Anesthesia	Post-doctoral Fellow of Psychiatry and Behavioral Sciences	Stanford University
3/13/2009	Lior Appelbaum, PhD	Sleep and Hypocretin Neuronal Networks in Zebrafish	Post-doctoral Fellow of Psychiatry and Behavioral Sciences	Stanford University
3/20/2009	Radhika Basheer, PhD	Adenosinergic Mechanisms in Sleep-Wake Regulation	Assistant Professor	Harvard Medical School/VA Boston Health Care System
3/27/2009	Antonios Michalos, MD	Brain Oxygenation and Cerebrovascular Autoregulatory Reactivity During Sleep, Monitored With A Frequency Domain Near-Infrared Oximeter	Director of Medical Research	ISS, Inc.
4/3/2009	John Morton, MD MPH MHA	Bariatric Surgery for Obesity	Associate Professor of Surgery	Stanford University
4/10/2009	Emmanuel Mignot, MD PhD	Genome Wide Association in Narcolepsy and Sleep Disorders: a Primer and New Results	Professor of Psychiatry	Stanford University
4/24/2009	Erika Gaylor, PhD	A Nationally Representative Analysis of Naps in Child Care	Early Childhood Researcher	Center for Education and Human Services, Policy Division, SRI International
5/1/2009	Lewis T. Williams, MD PhD	New pathways from functional studies of the extracellular proteome: from academia to the corporate world	Executive Chairman, Founder	Fiveprime Therapeutics
5/8/2009	Gregory Tranah, PhD	Genetic correlates of human sleep and circadian rhythms in older men and women	Associate Scientist	California Pacific Medical Center Research Institute
5/15/2009	Simon Xie, MD PhD	Automated Touchscreen-Piezo Monitoring of Mouse Cognition, Activity and Sleep	Chief Science Officer	AFASci
5/22/2009	Benjamin Scott	Search-Like Neuronal Migration in the Postnatal Vertebrate Forebrain	Brain and Cognitive Sciences graduate student	Massachusetts Institute of Technology

Sleep Sciences and Medicine Grand Rounds Schedule 2008-2009

<u>Date</u>	<u>Speaker</u>	<u>Title</u>	<u>Position</u>	<u>Institution</u>
5/29/2009	Matt Carter	Optogenetic Investigation of the Hypocretin and Locus Coeruleus: Norepinephrine Systems in Sleep and Wakefulness	Neuroscience graduate student	Stanford University
6/19/2009	Norman Ruby, PhD	Circadian control of learning and memory: Independence from sleep	Senior Research Associate	Stanford University
6/26/2009	Seiji Nishino, PhD	Physical and Psychological Stress and Sleep: Mouse Models	Professor (Research) of Psychiatry	Stanford University
