Local Area Contact:	Ph#:	E-MAIL:

II. BACKGROUND ON RENOVATION AND MAINTENANCE PROJECTS

- Products used in renovation or maintenance projects at Stanford University include: paints, roofing compounds, cleaning products, carpet glues, waterproofing materials for decks, etc.
- Odors, dust, noise and other nuisance stressors may be noticed during construction in or around buildings. In general, the products used in most renovation and maintenance projects, as well as the noise and dust generated by the project, **do not pose an occupational health hazard to building occupants.**
- Project Managers will coordinate with construction crews to take reasonable steps to reduce the project's potential impacts on building occupants.

III. INSTRUCTIONS TO BUILDING OCCUPANTS WITH QUESTIONS OR CONCERNS REGARDING PROJECT

To address any concern about the project (including excessive odors, dust, etc.), please:

- 1) Contact the **Project Manager** listed above.
- 2) If no response, contact either of the building contacts noted above.
- 3) For health and safety concerns, call EH&S at 723-0448.
