

Sacramento State Head Coach Brian Katz:

Overview:

“I loved the way our guys fought through the whole game. We stayed right with them the whole way, but their offensive rebounding (19) was probably the difference. They were tough all night under the boards, especially in the second half. They made some adjustments that worked well for them after halftime. Humphrey and Pickens know how to shoot the ball.”

“We got into some foul trouble and that also was a factor, but I think we come away with the knowledge that we played very tough again one of the better teams we'll see this year.”

“I told our guys that I was proud of their work and effort and that we'll take the lessons learned tonight ahead with us.”
