

**Assistant, Associate, or Full Professor**  
**Division of Cardiovascular Medicine**  
**Department of Medicine**

*Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women, members of minority groups, protected veterans and individuals with disabilities, as well as from others who would bring additional dimensions to the university's research, teaching and clinical missions.*

The Division of Cardiovascular Medicine in the Department of Medicine at Stanford University seeks an Interventional Cardiologist to join the VA Palo Alto Health Care System as an Assistant Professor in the Medical Center Line to build our junior faculty base in the Department of Medicine/Division of Cardiovascular Medicine.

- The major criteria for appointment for faculty in the Medical Center Line shall be excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine, and institutional service appropriate to the programmatic need the individual is expected to fulfill.

The successful candidate is expected to have advanced skills in all areas of Interventional Cardiology, including diagnostic coronary angiography, cardiac hemodynamics, and percutaneous coronary intervention. Experience in cardiac support devices such as IABP, ECMO, and the various cardiac assist devices is expected. Previous experience in Structural Heart procedures, including TAVR implantation, ASD and PFO closure, and mitral valve procedures is highly desirable. The individual must have outstanding clinical and teaching skills and will be part of a rapidly growing Interventional Cardiology service at VAPAHCS. S/he will have a clinical/translational research focus in this area.

The ability of the candidate to compete for a research career development award is highly desirable.

In order for the candidate to establish him/herself as an independent investigator, we anticipate that the individual will devote 30% to clinical work, 10 % to clinical teaching, and 10% to administrative activities, with the remaining 50% devoted to research.

Submit CV, a brief letter and the names of three references to Dr. Tom Quertermous, MD, Chief of Research, Division of Cardiovascular medicine at:
