

# Stanford University EH&S

## Approved Laboratory Ergonomic Products List

This list contains laboratory equipment and furniture that have been evaluated and approved by Stanford University EH&S.

No one product will guarantee proper ergonomics or necessarily be an improvement for every individual or situation. Proper selection, adjustment, and use of equipment is essential for reducing the risk factors commonly associated with cumulative trauma disorders. Contact EH&S at 723-0448 to arrange for Laboratory Ergonomics Training.

| Product Type                          | Manufacturer    | Item   | Pricing and Product Information   |
