

FACT SHEET: *Bike & Pedestrian Projects*

Blossom Hill Pedestrian Overcrossing

Overview

This project will construct a bicycle/pedestrian bridge over Union Pacific Railroad (UPRR) tracks, Monterey Road and Endicott Blvd., just south of the intersection of Blossom Hill Road and Monterey Road in San Jose. The project will facilitate safe bicyclist/pedestrian access between residential neighborhoods and commercial developments on both sides of the UPRR tracks and Monterey Road.

Project Features

This project will provide a safe connection between the neighborhoods and developments separated by UPRR tracks and Monterey Road through the construction of the following project features:

- A 315-ft long prefabricated steel bridge structure with an inside width of 12 feet crossing over UPRR tracks, Monterey Road and Endicott Blvd. (just south of the intersection of Blossom Hill Road and Monterey Road)
- A 10-ft wide ramp that complies with Americans with Disabilities Act (ADA) requirements and stairs to allow users to access Cottle Road and Endicott Blvd. pedestrian paths on the west side of the UPRR corridor
- A 10-ft wide ramp that complies with ADA requirements and stairs to allow users to access Monterey Road pedestrian paths on the east side of Monterey Road
- New sidewalks and curb ramps connecting to existing paths
- Fencing to deter unsafe at-grade crossing of the UPRR tracks.

Capital Cost/Project Funding

\$0.98 million	2000 Measure A Transit Improvement Program funds
\$6.79 million	2006 State Proposition 1B Infrastructure Bond funds
\$2.48 million	Federal Highway Administration funds
\$0.25 million	City of San Jose
<hr/>	
\$10.5 million	Total Funding

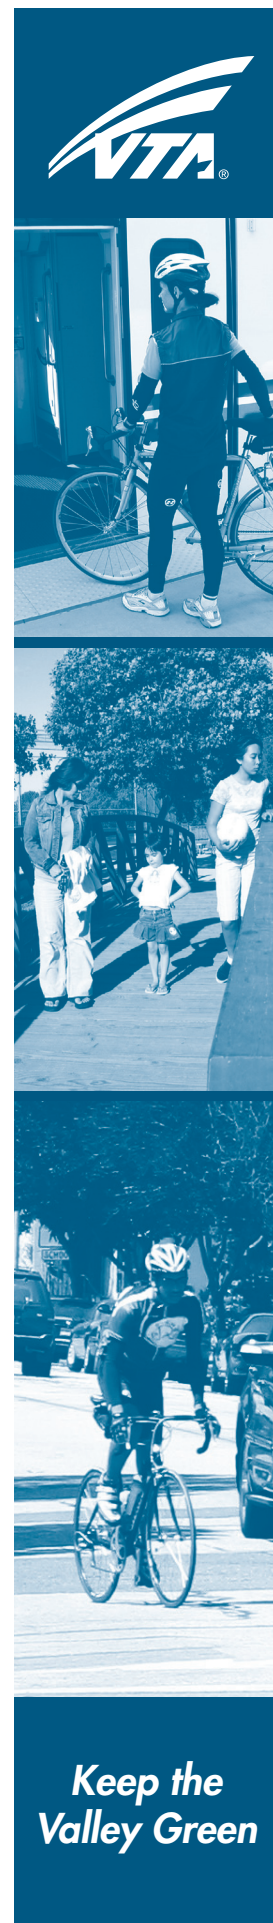

Project Schedule

Design Phase Began:	September 2008
Environmental Documents Approved:	February 2009
Project Study Report Approved:	May 2009
Advertisement/Bids Anticipated:	Fall 2010
Construction Begins:	Late 2010/Early 2011
Construction Ends:	Summer 2012

How to Reach Us
