

**THE GRASS ISN'T
AS THIRSTY AS YOU THINK.**

For a better world, don't over-water.

Chances are, you're over-watering your lawn when it doesn't need it. But it's easy to save water and still have a beautiful yard.

Just follow these easy steps:

- *Sign up for a free Water-Wise House Call and we'll come to your home to assess your water use and optimize your irrigation schedule. To schedule an appointment, call 1-800-548-1882.*
- *Water your lawn before 5 AM instead of midday and save 20 gallons every time.*
- *Landscape with water-wise plants and save 20 gallons a day.*
- *Install drip irrigation for trees, shrubs and plants to save 20 gallons a day.*

Small actions can add up to huge water savings. If everyone in your household saved 20 gallons a day, we'd save more than 13 billion gallons a year in Santa Clara County alone.

Find more tips and tools at save20gallons.org or call 408.265.2607, ext 2554.
