

Curriculum Vitae
MARCUS WILLIAM FELDMAN

Education

- 1959: Matriculation, University of Western Australia
1964: B.Sc. (honors), University of Western Australia, Perth, Australia
Majors: Mathematics and Statistics
Degree completed 1963, awarded 1964.
1966: M.Sc., Department of Mathematics, Monash University, Victoria, Australia
Degree completed 1965, awarded 1966.
1969: Ph.D., Stanford University, Stanford, California
Graduate Division Special Program, Mathematical Biology
Committee: Professors S. Karlin, W. Bodmer, J. McGregor, D. Regnery.
Dissertation: Some Topics in Theoretical Population Genetics

Honors and Prizes

On the basis of Matriculation examination:

1. Government Exhibition (1959)
2. Commonwealth (of Australia) Scholarship (1959)
3. Colonial Sugar Refining Company Scholarship (1959)

On the basis of undergraduate degree:

4. Monash University Research Scholarship (1964)

Other

5. Research Development Fund Grant, Stanford University (1973)
6. Mellon Junior Faculty Leave (1973-74)
7. J.S. Guggenheim Fellowship (1976-77)
8. Fellow, Center for Advanced Study in the Behavioral Sciences, Stanford, 1983-84
9. Elected Fellow, American Association for the Advancement of Science, 1986
10. Elected Member, American Academy of Arts and Sciences, 1987
11. Elected Fellow, California Academy of Sciences, 1996–
12. Jacob Marschak Lecturer, UCLA, November 1998
13. China Population Study Award, 1998: Best paper previous four years
14. First Gifford Lecturer in Population Studies, Stanford 2000
15. Burrows Wellcome Lecturer, Princeton University, April 2002

16. Jacob Marschak Lecturer, UCLA, May 2002
17. Honorary Professor, Beijing Normal University, 2002–2007
18. “Paper of the Year 2002/2003,” *The Lancet* (bibliography number 294)

Positions Held

- 1960–1963 Assistant Chemical Analyst and Operations Researcher, Colonial Sugar Refining Company, Australia (vacation)
- 1963–1964 Programmer-Analyst, IBM Australia
- 1964–1965 Tutor in Mathematics and Statistics, Monash University, Australia
- 1965–1967 Teaching Assistant, courses in Mathematical Biology, Stanford University
- 1965–1969 Research Assistant for Professor S. Karlin, Department of Mathematics, Stanford University
- Fall 1968 Visiting Research Assistant, Mathematics Research Center, U.S. Army, University of Wisconsin
- 1969–1970 Acting Assistant Professor, Department of Biology, Stanford University
- 1970–1971 Lecturer, Department of Mathematics, La Trobe University, Bundoora, Victoria, Australia
- 1971 January, February. Visiting Research Scientist, Weizmann Institute of Science, Rehovot, Israel
- 1971–1974 Assistant Professor, Department of Biological Sciences, Stanford University
- 1973 April, May. Visiting Senior Fellow, Department of Biology, University of Chicago
- 1974–1977 Associate Professor, Department of Biological Sciences, Stanford University
- 1976–1977 J.S. Guggenheim Fellow
- 1977– Professor, Department of Biological Sciences, Stanford University
- 1978–1982 Associate Chairman, Department of Biological Sciences, Stanford University
- 1983 February–June. Visiting Professor of Statistics, Tel Aviv University
- 1983–1984 Fellow, Center for Advanced Studies in the Behavioral Sciences
- 1986–1993 Clifford G. Morrison Professor in Population and Resource Studies, Stanford
- 1986– Director, Morrison Institute for Population and Resource Studies, Stanford
- 1993– Burnet C. and Mildred Finley Wohlford Professor of Biological Sciences
- 1997–2003 Co-director, Center for Computational Genetics and Biological Modeling, Stanford
- 1998–1999 Sackler Scholar, Mortimer and Raymond Sackler Institute for Advanced Studies, Tel Aviv, Israel

Other Professional Activities

- 1971– Managing Editor, THEORETICAL POPULATION BIOLOGY (Academic Press)
- 1975–1976 Member NIH Genetics Study Section (ad hoc)
- 1976–1979 Member NIH Genetics Study Section
- 1980–1982 Chairman, NIH Genetics Study Section
- 1984–1990 Editor, AMERICAN NATURALIST
- 1984– Member, Board of Trustees, Santa Fe Institute
- 1985–1989 Member, Appointments and Promotions Committee, School of Humanities and Sciences, Stanford University
- 1987– Member, Science Board and Steering Committee, Santa Fe Institute
- 1988–1989 Member, External Review Committee for Biology Departments, University of Chicago
- 1989–1993 Member, Overseers' Committee, Department of Organismic and Evolutionary Biology, Harvard University
- 1989– Member, Advisory Committee on Evolutionary Biology, Canadian Institute for Advanced Research
- 1989–1993 Member, Executive Committee, Institute for International Studies, Stanford
- 1989–1995 Member, NSF Advisory Committees on Mathematical and Computational Biology
- 1990–1995 Committee on Mathematics in the Life Sciences (Amer. Math. Society)
- 1990–1997 Member, Editorial Board, Biomathematics Series (Springer-Verlag)
- 1992– Member, International Executive Committee, Human Genome Diversity Project
- 1993– Member, North American Committee, Human Genome Diversity Project
- 1993–2003 Member, Executive Committee, Board of Trustees, Santa Fe Institute
- 1994–1998 Member, Advisory Board, MIT Consortium on Global Environment and Sustainable Development
- 1995–1998 Elected Council Delegate, AAAS Section on Biological Sciences
- 1995– Associate Editor, COMPLEXITY
- 1996–1998 Co-Chair, Science Steering Committee, Santa Fe Institute
- 1996–2001 Member, Advisory Board, Mountain View Research Incorporated
- 1997– Member, International Board, Institute of Evolution at the University of Haifa, Israel
- 1998– Associate Editor, Wiley Series in Mathematical and Computational Biology (John Wiley, Publisher)
- 1998– Associate Editor, GENETICS

- 1998–2001 Section Editor, Genetics, Behavior and Society. International Encyclopedia of the Social and Behavioral Sciences
- 1998–2001 Section Co-editor, Evolutionary Sciences. International Encyclopedia of the Social and Behavioral Sciences
- 1998– Member, Scientific Board, Institute for Medical Biomathematics, Israel
- 2000–2004 Member, National Research Council Committee: Frontiers at the Interface of Computing and Biology
- 2001– Editorial Board, ANNALS OF HUMAN BIOLOGY
- 2002– Editorial Board, HUMAN GENOMICS
- 2002– Honorary Visiting Professor, Beijing Normal University
- 2003– Editorial Board, ANNALS OF HUMAN GENETICS

Research and Publications

1966

1. Feldman, M.W. On the offspring number distribution in a genetic population. *J. Appl. Prob.* **3**: 129–141.

1968

2. Karlin, S. and M.W. Feldman. Analysis of models with homozygote × heterozygote matings. *Genetics* **39**: 105–116.
3. Karlin, S. and M.W. Feldman. Further analysis of negative assortative mating. *Genetics* **39**: 117–136.

1969

4. Feldman, M.W., M. Nabholz, and W.F. Bodmer. Evolution of the Rh polymorphism: A model for the interaction of incompatibility, reproductive compensation, and heterozygote advantage. *American Journal of Human Genetics* **21**: 171–193.
5. Feldman, M.W. Some topics on theoretical population genetics. Ph.D. Thesis, Stanford University.

1970

6. Karlin, S. and M.W. Feldman. Linkage and Selection: New equilibrium properties of the two-locus symmetric viability model. *Proc. Natl. Acad. Sci. USA* **62**: 70–74.
7. Karlin, S. and M.W. Feldman. Linkage and selection: Two locus symmetric viability model. *Theor. Pop. Biol.* **1**: 39–71.
8. Karlin, S. and M.W. Feldman. Convergence to equilibrium of the two locus additive viability model. *J. Appl. Prob.* **7**: 262–271.
9. Feldman, M.W. and J.F. Crow. On quasilinkage equilibrium and the fundamental theorem of natural selection. *Theor. Pop. Biol.* **1**: 371–391.
10. Eshel, I. and M.W. Feldman. On the evolutionary effect of recombination. *Theor. Pop. Biol.* **1**: 88–100.

1971

11. Feldman, M.W. Equilibrium studies of two locus haploid populations with recombination. *Theor. Pop. Biol.* **2**: 299–317.
12. Feldman, M.W. and S. Karlin. The evolution of dominance: A direct approach through the theory of linkage and selection. *Theor. Pop. Biol.* **2**: 482–492.

1972

13. Karlin, S. and M.W. Feldman. Mathematical genetics: A hybrid seed for educators to sow. *Int. J. Math. Educ. Sci. Technol.* **3**: 169–189.
14. Feldman, M.W. Selection for linkage modification: I. Random mating populations. *Theor. Pop. Biol.* **3**: 324–346.
15. Nei, M. and M.W. Feldman. Identity of genes by descent within and between populations under mutation and migration pressures. *Theor. Pop. Biol.* **3**: 460–465.

16. Feldman, M.W. and B. Balkau. Some results in the theory of three gene loci. pp. 357–384. In T.N.E. Greville (ed.) *Population Dynamics*. Academic Press, New York.

1973

17. Hillel, J., M.W. Feldman, and G. Simchen. Mating systems and population structure in two closely related species of the wheat group. I. Variation between and within populations. *Heredity* **30**: 141–167.
18. Hillel, J., G. Simchen and M.W. Feldman. Mating systems and population structure in two closely related species of the wheat group. II. Environmental factors and population structure. *Heredity* **30**: 73–83.
19. Hillel, J., M.W. Feldman, and G. Simchen. Mating systems and population structure in two closely related species of the wheat group. III. Chiasma frequency and population structure. *Heredity* **31**: 1–9.
20. Cavalli-Sforza, L. and M.W. Feldman. Models for cultural inheritance. I. Group mean and within group variation. *Theor. Pop. Biol.* **4**: 42–55.
