

**NATIONAL EMISSIONS STANDARDS FOR HAZARDOUS AIR POLLUTANTS:
 PAPER AND OTHER WEB COATINGS INDUSTRIES
 40 CFR PART 63 SUBPART JJJJ
 EXAMPLE INITIAL NOTIFICATION REPORT**

This form is being submitted in accordance with 40 CFR § 63.9 (b) and as required by 40 CFR § 63.3400 (b)(1).

If YOU OWN OR OPERATE AN EXISTING AFFECTED SOURCE, SUBMIT THIS FORM BY **DECEMBER 5, 2004.**

1) 40 CFR 63.9(b)(2)(i) and (ii) – Owner of Facility and Physical Location

Print or type the name of facility: _____

Name of Operator/Owner: _____

Mailing Address: _____

City: _____ State: _____ Zip Code: _____

Physical Location (If different than Mailing Address)

Street Address: _____

City: _____ State: _____ Zip Code: _____

Contact Person: _____ Phone Number: _____

2) 40 CFR 63.9(b)(2)(v) – Facility Major Source Status:

This facility is a Major Source (emissions of 10 tons per year of any single HAP or 25 tons per year of any combination of HAP's) as defined in 40 CFR 63.2

YES

NO

If answer to 2) is “NO”, facility is not subject to this rule. Records of applicability determination shall be maintained on site for 5 years. See 40 CFR 63.10 (b)(3). If answer to 2) is “YES”, complete the remaining questions.

Credits: This document was made possible through the efforts of the POWC Implementation Tool Development Partnership effort, an effort to bring together the regulated and regulatory community. It was through a group effort that this document was developed. The logo of the partner who was the lead for this tool is listed first below. To see a description of our partners or to get more information about the partnership effort, see <http://www.epa.gov/ttn/atw/powc/powcpg.html>

Check the box(es) below which apply to your facility (40 CFR 63.3300(a)-(g)):

Are any of the coating lines covered by 40 CFR 63, Subpart KK (Printing and Publishing MACT)? (40 CFR 63.3300(a & b))

YES NO

Are any of the coating lines utilizing lithography, screenprinting, letterpress and narrow web flexographic printing processes? (40 CFR 63.3300(c))

YES NO

Are any of the coating lines subject to 40 CFR 63, Subpart EE (Magnetic Tape MACT)? (40 CFR 63.3300(d))

YES NO

Are any of the coating lines engaged in the surface coating of metal coils other than metal webs used in flexible packaging? (40 CFR 63.3300(e))

YES NO

Are any of the coating lines at this source engaged in the printing, coating, dyeing of fabric and other textiles - excluding web coating of fabric substrates for use in pressure sensitive tapes or flexible packaging? (40 CFR 63.3300(f))

YES NO

Are any of the coating operations only used as research and laboratory equipment as defined in 40 CFR 63.3310? (40 CFR 63.3300(g))

YES NO

If **“YES”** to any of the above, those coating lines are **EXCLUDED** as part of the affected source subject to this rule. If all coating operations at your facility are excluded, proceed to 4) **Certification** below.

3) **A. Source Description:**

Provide a brief description of the nature, size, design and method of operation of the source. Reference to an existing Title V Permit or Permit application submitted to the regulating authority can be substituted. If facility has no Title V Permit or submitted Title V Permit application, an identification of each point of emission for each hazardous air pollutant should be included. (Use additional pages as needed) 40 CFR 63.9(b)(2)(iv) -

----- **B. Coating Operation Description:**

----- **C. Example Hazardous Air Pollutants Emitted:**

D. Affected Source:

a. Number of coating lines at your facility subject to this rule: _____

b. Intended Control Methods to Achieve Compliance:

- Add on Controls
- Use of Low HAP Containing Material for Organic HAP used.
- Combination of Add On Controls and Use of Low HAP Materials.

4) Certification:

Signature Date
