A.1 General Business Purpose

5. What is the general business purpose of this system? Provide a clear, concise description of the system, application or database, the reason for the system, and the benefits to the IRS to use the information, and how the information will be used.

Correspondence Examination Automation Support (CEAS) is a suite of web-based applications, which also includes Unattended Case Processing (UCP) and Automated Case Workload Manager (ACWM). Report Generating Software (RGS) is also categorized as a sub-system of CEAS (see PCLIA #3205). CEAS provides for the centralized storage and services of electronic exam data, allowing for inventory control and management of examination cases (i.e. case assignment, case transfer, case file view, case storage & retrieval, management inventory reports, user administration, system support utilities, etc.) ACWM is an invoicing tool for ordering Campus Examination cases/inventories. UCP retrieves Masterfile and Tax Return data used for automated support.

B. PII DETAIL

6. Does the system use, collect, receive, display, store, maintain, or disseminate IR Code 6103 taxpayer information; or any type of Sensitive but Unclassified (SBU) or Personally Identifiable Information (PII)? Yes

- 6a. If **yes**, does the system use, collect, receive, display, store, maintain, or disseminate Social Security Numbers (SSN s) or tax identification numbers (i.e. last 4 digits, etc.)? Yes

If **yes**, check who the SSN (or tax identification number) is collected on.

Yes On Primary Yes On Spouse Yes On Dependent

If **yes**, check all types SSN s (or tax identification numbers) that apply to this system:

Yes Social Security Number (SSN)
Yes Employer Identification Number (EIN)

Describe the planned mitigation strategy and forecasted implementation date to mitigate or eliminate the use of SSN s (or tax identification numbers).

The Office of Management and Budget memorandum M-17-16 requires that federal agencies develop a mitigation or elimination strategy for systems that use SSNs. An exception to that requirement is when the SSN is uniquely needed to identify a user's record. The CEAS system requires the use of SSN's because no other identifier can be used to uniquely identify a taxpayer. SSNs are permissible from Internal Revenue Code (IRC) 6109, which requires individual taxpayers to include their SSNs on their income tax returns.
