TAPS 176S	Finding Meaning in Life's Struggles: Narrative Ways of Healing	5			

### Thematic Concentration in Theory

Students in the African and African American Studies major can choose a concentration in Theory. The Thematic Concentration in Theory concentration is a program designed to explore the meta-narratives and theoretical frameworks for analyzing enduring issues of cultural, religious, and political life both within African and/or African American societies and between political communities. Students will also explore the role of identities, values and prejudices that are the product of historical processes and the interaction of different peoples.

The concentration is not declared on Axess; it does not appear on the transcript or diploma. Students interested in this concentration should contact the AAAS undergraduate program office.

Students may find the following courses useful in fulfilling requirements in the Theory concentration.

AFRICAAM 31	RealTalk: Intimate Discussions about the African Diaspora	1
AFRICAAM 107C	The Black Mediterranean: Greece, Rome and Antiquity	4-5
AFRICAAM 125V	The Voting Rights Act	5
AFRICAAM 127A	Can't Stop Won't Stop: A History Of The Hip-Hop Arts	2-4
AFRICAAM 154	Black Feminist Theory	5
AFRICAAM 158	Black Queer Theory	5
AFRICAAM 195	Independent Study	3-5
AFRICAAM 199	Honors Project	1-5
AFRICAAM 200X	Honors Thesis and Senior Thesis Seminar	5
AFRICAAM 200Y	Honors Thesis and Senior Thesis Research	3-5
AFRICAAM 200Z	Honors Thesis and Senior Thesis Research	3-5
AFRICAAM 233A	Counseling Theories and Interventions from a Multicultural Perspective	3-5
AFRICAST 135	Designing Research-Based Interventions to Solve Global Health Problems	3-4
AFRICAST 142	Challenging the Status Quo: Social Entrepreneurs Advancing Democracy, Development and Justice	3-5
AFRICAST 195	Shifting Frames	1-2
HUMBIO 170	Facts, Science & Making Policy	5
LAWGEN 112N	Law and Inequality	3
LINGUIST 156	Language and Gender	3-5

### Minor in African and African American Studies

Students who minor in AAAS complete a minimum of 30 units of approved courses. 15 of the required units must include:

- One of two required courses:
  - AFRICAAM 43 Introduction to English III: Introduction to African American Literature (5 units) or
  - AFRICAAM 105 Introduction to African and African American Studies (5 units)
- One Social Science course from AAAS approved core course list. (<https://explorecourses.stanford.edu/search?page=0&catalog=&q=AAAS%3a%3ass&filter-coursestatus-Active=on&view=catalog&academicYear=&collapse=>) (5 units)
- One Humanities course from AAAS approved core course list. (<https://explorecourses.stanford.edu/search?view=catalog&filter-coursestatus-Active=on&page=0&catalog=&academicYear=&q=AAAS%3A%3Ah&collapse=>) (5 units)

**Units** Director: Dr. H. Samy Alim (Education)

Associate Director: Dr. Cheryl A. Brown

**Advisory Committee:** H. Samy Alim (Education), Ralph Richard Banks (Law), Jan Barker-Alexander (Director, Black Community Services Center), Jennifer Brody (Drama), Bryan Anthony Brown (Education), Cheryl Brown (Program in African and African American Studies), James Campbell (History), Clayborne Carson (History), Jennifer Eberhardt (Psychology), Harry Elam (Drama), Michele Elam (English), James Ferguson (Anthropology), Corey Fields (Sociology), Shelley Fisher Fishkin (English), Allyson Hobbs (History), Vaughn Rasberry (English), John R. Rickford (Linguistics), Joel Samoff (African Studies), Grant Parker (Classics), Adam Banks (Education), Jonathan Calm (Art & Art History)

**Affiliated Faculty:** David Abernethy (Political Science, emeritus), H. Samy Alim (Education), R. Lanier Anderson (Philosophy), Arnetha Ball (Education), Ralph Richard Banks (Law), Lucius Barker (Political Science, emeritus), Don Barr (Sociology), Shasad Bashir (Religious Studies), Carl Bielefeldt (Religious Studies), Jennifer Brody (Drama), Bryan Anthony Brown (Education), Cheryl Brown (Associate Director, Program in African and African American Studies), Albert Camarillo (History), James Campbell (History), Clayborne Carson (History), Gordon Chang (History), Wanda Corn (Art and Art History, emerita), David Degusta (Anthropology), Sandra Drake (English, emerita), Jennifer Eberhardt (Psychology), Paulla Ebron (Anthropology), Harry Elam (Vice Provost), Michele Elam (English), James Ferguson (Anthropology), Shelley Fisher Fishkin (English), Charlotte Fonrobert (Religious Studies), Aleta Hayes (Drama), Jeff Chang (Director, Identity Diversity, and Aesthetics), Allyson

Hobbs (History), Gavin Jones (English), Terry Karl (Political Science), Anthony Kramer (Drama), Teresa LaFromboise (Education), Brian Lowery (Graduate School of Business), Lisa Malkki (Anthropology), Hazel Markus (Psychology), Barbaro Martinez-Ruiz (Art and Art History), Daniel Murray (Director, Service Learning in Comparative Studies in Race and Ethnicity), Paula Moya (English), Elisabeth Mudimbe-Boyi (French and Comparative Literature), Susan Olzak (Sociology), David Palumbo-Liu (Comparative Literature), Arnold Rampersad (English), Vaughn Rasberry (English), John R. Rickford (Linguistics), Richard Roberts (History), Sonia Rocha (Sociology), Michael Rosenfeld (Sociology), José David Saldívar (English), Ramón Saldívar (English), Joel Samoff (African Studies), Gary Segura (Political Science), Paul Sniderman (Political Science), C. Matthew Snipp (Sociology), Ewart Thomas (Psychology), Jeane Tsai (Psychology), Jeremy Weinstein (Political Science), Bryan Wolf (American Art and Culture), Yvonne Yarbo-Bejarno (Spanish and Portuguese), Grant Parker (Classics), Alvan Ikoku (Comparative Literature and Medicine), Lauren Davenport (Political Science), Adam Banks (Education), Jonathan Calm (Art & Art History)

## Overseas Studies Courses in African and African American Studies

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		<b>Units</b>
OSPCPTWN 18	Xhosa Language and Culture	2
OSPCPTWN 24A	Targeted Research Project in Community Health and Development	3
OSPCPTWN 31	Political Economy of Foreign Aid	3
OSPCPTWN 36	The Archaeology of Southern African Hunter Gatherers	4
OSPCPTWN 38	Genocide: African Experiences in Comparative Perspective	3-5
OSPCPTWN 45	Transitional Justice and Transformation Debates in South Africa	3
OSPCPTWN 55	Arts of Change	2-4
OSPCPTWN 75	Giving Voice to the Now: Studies in the South African Present	3
OSPPARIS 186F	Contemporary African Literature in French	4

# AFRICAN STUDIES

Courses offered by the Center for African Studies (CAS) are listed under the subject code AFRICAST on the Stanford Bulletin's ExploreCourses web site.

The Center for African Studies coordinates an interdisciplinary program in African Studies for undergraduates and graduate students. The program seeks to enrich understanding of the interactions among the social, economic, cultural, historical, linguistic, genetic, geopolitical, ecological, and biomedical factors that shape and have shaped African societies.

Courses in African Studies are offered by departments and programs throughout the University. Each year CAS sponsors a range of seminars and workshops to demonstrate to advanced undergraduates and graduate students how topics of current interest in African Studies are approached from different disciplinary perspectives.

Course offerings in African languages are also coordinated by the Center for African Studies. Along with regular courses in several levels of Arabic and Swahili, the center arranges with the African and Middle Eastern Languages and Literatures Program in the Stanford Language Center to offer instruction in other African languages; in recent years, it has offered courses in Afrikaans, Amharic, Igbo, Kinyarwanda, Twi, and Yoruba.

The Center for African Studies offers a master of arts degree for graduate students. Undergraduates and graduate students not pursuing the master's degree can specialize in African Studies under the arrangements described under the Undergraduate (p. 362) and Master's (p. 363) tabs.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in African Studies and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

## Undergraduate Programs in African Studies

Undergraduates may choose an African Studies focus in the form of a minor or concentration:

1. A minor in Global Studies with African Studies Specialization offers students the ability to combine a focus on Africa with their major in any other discipline. This offers the students a strong regional specialization. For requirements see the "Minor" tab on this page.
2. A major in a traditionally defined academic department such as Anthropology (p. 371), History (p. 579), or Political Science (p. 690) affords ample opportunity to enroll in courses outside the major, leaving the student free to pursue the interdisciplinary study of Africa.
3. Interdepartmental majors, such as African and African American Studies (p. 346) or International Relations (p. 619), offer coordinated and comprehensive interdisciplinary course sequences, which permit a concentration in African Studies.

## Certificate in African Studies

Students may apply for a certificate in African Studies. Requirements for the certificate are the same as for the minor in Global Studies with African Studies Specialization; however, students may double-count courses applied to their major or graduate studies in fulfillment of the certificate requirements. The certificate in African Studies is issued by the Center for African Studies and does not appear on any University

record, including the student's transcript. For more information and an application, contact the center (<http://africanstudies.stanford.edu>).

## Minor in Global Studies with African Studies Specialization

The minor in Global Studies, African Studies specialization, offers students the opportunity to complement their major course of study with an in-depth, interdisciplinary exploration of the cultures, histories, politics, religions, and societies of Africa.

Students from any major interested in applying for admission to this minor program should consult the minor adviser at the Center for African Studies. Students declare the minor and the African Studies specialization in Axess (<http://axess.stanford.edu>) (see below for detailed instructions).

Students consult with their minor adviser to develop individual programs. The minor is especially well-suited for undergraduates who plan to make service, research, or study abroad in Africa as part of their Stanford experience.

## Declaring the Global Studies Minor with African Studies Specialization

To declare the Global Studies minor with African Studies specialization, students must:

1. Set up an appointment with Laura Hubbard, <lhubbard@stanford.edu>, Associate Director for the Center for African Studies.
2. Declare the Global Studies minor in Axess (<http://axess.stanford.edu>).
3. Complete the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program ([https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change\\_UG\\_program.pdf](https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change_UG_program.pdf)) form in order to declare the African Studies specialization. Submit the form to the minor adviser, Laura Hubbard, in the Center for African Studies office (Encina Hall West, Room 219, 417 Galvez Mall).

## Learning Outcomes

The SGS minor specialization in African Studies enables students to:

1. develop critical knowledge and skills in African Studies
2. organize their interest in Africa into a coherent course of study through directed mentorship and participation in intellectual community.
3. prepare for research, study, or service in Africa

Upon completion of requirements, final certification of the minor is made by the Center for African Studies. The minor and the specialization appear on the transcript but they do not appear on the diploma.

## Requirements

A total of 28 units which include the following:

1. GLOBAL 101 Critical Issues in Global Affairs (3 units)
2. A minimum of 25 units of Africa-related courses. Students may not double-count courses for completing major and minor requirements.
3. At least one quarter's exposure to a sub-Saharan African language. The Center for African Studies (p. 362) and the Special Languages Program of the Language Center (p. 632) can arrange instruction in any of several languages spoken in West, East, Central, and Southern Africa.
4. One entry level course that covers more than one region of Africa.
5. A designated focus of study, either disciplinary or regional, through a three course concentration developed with the minor adviser.

6. A minimum 25-page research paper, with a focus on Africa. This paper may be an extension of a previous paper written for an African Studies course. Other approaches to fulfilling the capstone requirement may be accepted with the approval of the Director of African Studies.

- Students present their work in an end-of-year capstone seminar with other SGS minors and led by SGS faculty.

## Course List

For a representative, rather than comprehensive, list of courses that count towards the minor, see the Related Courses tab in this section of the Bulletin. Other courses may also fulfill the requirements; students should consult their African Studies minor adviser concerning which courses might fulfill minor requirements.

## Related Courses

Below is a sample of AFRICAST and related courses that may be counted toward the minor. Other courses may also fulfill the requirements; consult your African Studies minor adviser concerning the applicability of other courses to the minor.

## Graduate Study in African Studies

For those who wish to specialize in Africa at the graduate level, African Studies can be designated a field of concentration within the master's and doctoral programs of some academic departments. Students in such departments as Anthropology (p. 371), History (p. 579), Political Science (p. 690), and Sociology (p. 744), and in the School of Education (p. 193), may declare African Studies as the area of specialization for their master's and Ph.D. thesis work. Some other departments, programs, and institutes such as the International Comparative Education Program (p. 195) also permit students to specialize in African Studies.

## Financial Aid

The Center for African Studies (CAS) does not offer financial aid. However, CAS offers a variety of fellowship opportunities to Stanford graduate students of different levels and disciplines. The following is a partial list:

### 1. M.A. Fellowship

Partial funding for two incoming M.A. students in African Studies.

### 2. Susan Ford Dorsey Fellowship for Field Research in Africa

9-12 month dissertation field research fellowship for Ph.D. candidates in the School of Humanities and Sciences.

### 3. Summer Research and Language Fellowship

Graduate research fellowship, an intensive African language fellowship for graduate students and undergraduates.

## Master of Arts in African Studies

The one-year master's program in African Studies is designed for students who have experience working, living, or studying in Africa, and little prior course work on the region.

## Coterminal Master of Arts in African Studies

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken three quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

## Admission to the Master's Program in African Studies

The annual deadline for all applications for the master's program, including coterminal students, is December 8. All applicants must submit:

- External applicants submit an online application, including a 500-word statement of purpose. Coterminal applicants submit the Coterminal Online Application (<https://applyweb.com/stanterm>)
- Resume
- 15-20 page double-spaced academic writing sample
- Three letters of recommendation
- Two official transcripts
- Graduate Record Examination scores

- TOEFL scores are required of applicants for whom English is not their first language or who did not attend an undergraduate institution where English is the language of instruction

To apply online and for further information on graduate admissions, see the Graduate Admissions (<http://gradadmissions.stanford.edu>) web site.

## Degree Requirements

University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

The program requires completion of a minimum of 45 graduate units. Upon entering, each student is assigned a faculty adviser who works with the student to develop a customized program of study.

To receive the M.A. degree in African Studies, students must complete:

### 1. Core Courses (15 units)

Students must complete the core African Studies M.A. course, AFRICAST 301A The Dynamics of Change in Africa, in Autumn Quarter. Students elect two additional graduate courses taught by African Studies academic council members and drawn from a list of approved courses. Students must also complete, AFRICAST 302 Research Workshop, in Spring Quarter, in which they present and discuss their research and research interests.

### 2. Concentration Field (15 units)

Students choose one area of specialization and take at least three related courses for graduate credit within their area of specialization:

- a. Culture and society
- b. Health, well-being, and the environment
- c. Political economy and security

### 3. Cognate Courses and Electives (10 units)

A minimum of 10 units of graduate-level credit in two cognate courses from the following thematic clusters not chosen as the student's concentration field:

- a. Culture and society
- b. Health, well-being, and the environment
- c. Political economy and security
- d. Two additional electives in any concentration

### 4. Language Requirement

Students take one year of training in an African language, usually at least 3 units per quarter, resulting in intermediate-level proficiency as measured by the American Council on the Teaching of Foreign Languages (ACTFL) or comparable language acquisition standards. Students who have advanced proficiency in several African languages may fulfill this requirement by taking another European language spoken in Africa, such as French or Portuguese, or by taking a year-long sequence in Arabic.

### 5. Seminar Requirement

Students enroll each quarter in AFRICAST 300 Contemporary Issues in African Studies, 1 unit, in which guest scholars present lectures on African themes and topics.

### 6. Thesis Option

Students may elect to write a master's thesis; they may register for up to 10 units of thesis research under the guidance of an Academic Council member. Thesis units may be counted toward the electives within the concentration field unit requirements.

### 7. Grade Requirements

Courses to be counted toward the degree, except for AFRICAST 300 Contemporary Issues in African Studies, must be taken for a letter grade and receive a grade of 'B' or higher.

In addition to AFRICAST courses, master's students take Africa-related courses across departments and schools due to the interdisciplinary nature of the degree. The following list represents a small sample of

courses that may be taken to fulfill the requirements of the master's degree. To count toward the completion of the master's degree, courses should be taken at the graduate level and approved by the African Studies graduate adviser.

#### African Studies Courses

AFRICAST 195	Shifting Frames	1-2
AFRICAST 209	Running While Others Walk: African Perspectives on Development	5
AFRICAST 211	Education for All? The Global and Local in Public Policy Making in Africa	3-5
AFRICAST 212	AIDS, Literacy, and Land: Foreign Aid and Development in Africa	5
AFRICAST 235	Designing Research-Based Interventions to Solve Global Health Problems	3-4
AFRICAST 238	Conflict and Reconciliation in Africa: International Intervention	3-5
AFRICAST 300	Contemporary Issues in African Studies	1
AFRICAST 301A	The Dynamics of Change in Africa	4-5
AFRICAST 302	Research Workshop	1
<b>Related Courses</b>		
AFRICAST 229	Literature and Global Health	3-5
AFRICAST 242	Challenging the Status Quo: Social Entrepreneurs Advancing Democracy, Development and Justice	3-5
AFRICAST 249	Bodies, Technologies, and Natures in Africa	4-5
AFRICAST 299	Independent Study or Directed Reading	1-10
ANTHRO 201	Introduction to Cultural and Social Anthropology	3-5
ANTHRO 239	Ethnography of Africa	5
ANTHRO 247	Nature, Culture, Heritage	5
ANTHRO 285	Medical Anthropology of Contemporary Africa	5
ANTHRO 324	Political Anthropology	5
ANTHRO 345A	Race and Power: The Making of Human Difference in History, Biology and Capital	5
ANTHRO 346	The Social Imagination	5
ANTHRO 353	Landscape	5
ANTHRO 372	Urban Ecologies	5
CEE 265D	Water and Sanitation in Developing Countries	1-3
COMPLIT 352A	The Novel in Africa	3-5
ECON 214	Development Economics I	2-5
ECON 215	Development Economics II	2-5
ECON 315	Development Workshop	1-10
EDUC 202	Introduction to Comparative and International Education	4
EDUC 377C	Philanthropy: Strategy, Innovation and Social Change	3
HISTORY 383	Middle East Oil and Global Economy	4-5
IPS 213	International Mediation and Civil Wars	3-5
MED 232	Discussions in Global Health	2
POLISCI 314D	Democracy, Development, and the Rule of Law	5
SURG 250	Principles and Practice of International Humanitarian Surgery	4

## Joint Degree Program in African Studies and Law

This joint degree program grants an M.A. degree in African Studies and a Doctor of Jurisprudence (J.D.) degree. It is designed to train students interested in a career in teaching, research, or the practice of law related to African legal affairs. Students must apply separately

to the African Studies M.A. program and to the Stanford School of Law and be accepted by both. Completing this combined course of study requires approximately four academic years, depending on the student's background and level of training in African languages. A number of approved courses may be counted towards both degrees. For more information, see the "Joint Degree Programs (p. 54)" section of this bulletin and the Stanford Law School's web site (<http://www.law.stanford.edu/degrees/joint>). Students who have been accepted by both programs should consult with the departments to determine which courses can be double-counted.

*Emeriti:* David B. Abernethy, Ellen Jo Baron, John Baugh, Joan Bresnan, Susan Cashion, Sandra E. Drake, Peter Egbert, James. L. Gibbs, Jr., William B. Gould, Bruce F. Johnston, William R. Leben, Bruce Lusignan, Elisabeth Mudimbe-Boyi, Mary Polan, Hans N. Weiler, Sylvia Wynter

*Director:* Richard Roberts

*Professors:* H. Samy Alim (Education), Jean-Marie Apostolidès (French), Michele Barry (Medicine), Joel Beinin (History), John Boothroyd (Microbiology and Immunology), James T. Campbell (History), Martin Carnoy (Education), Prudence L. Carter (Education), William H. Durham (Anthropology), Harry Elam (Drama), James Fearon (Political Science), James Ferguson (Anthropology), Shelley Goldman (Education), Terry Lynn Karl (Latin American Studies and Political Science), Richard Klein (Anthropology), David Laitin (Political Science), Yvonne Maldonado (Pediatrics), Lynn Meskell (Anthropology), Julie Parsonnet (Medicine and Health Research and Policy), John Rickford (Linguistics), Richard Roberts (History)

*Associate Professors:* Vincent Barletta (Comparative Literature and Iberian and Latin American Cultures), Alexandria B. Boehm (Civil and Environmental Engineering), Jenna Davis (Civil and Environmental Engineering), Paula A. Ebron (Anthropology), Oliver Fringer (Civil and Environmental Engineering), Duana Fullwiley (Anthropology), Liisa Malkki (Anthropology), Grant Parker (Classics), Jeremy Weinstein (Political Science)

*Assistant Professors:* Eran Bendavid (General Internal Medicine), Katherine Casey (Political Economy), Pascaline Dupas (Economics), Alvan Ikoku (Comparative Literature), Steven Press (History), Vaughn Rasberry (English), Krish Seetah (Anthropology)

*Professor (Research):* David Katzenstein (School of Medicine), Cheryl Koopman (Psychiatry and Behavioral Sciences)

*Professor (Teaching):* Robert Siegel (Microbiology and Immunology)

*Associate Professor (Clinical):* Brian Blackburn (Infectious Diseases), Daryn Reicherter (Psychiatry and Behavioral Sciences), Hugh Brent Solvason (Psychiatry and Behavioral Sciences)

*Senior Lecturers:* Khalil Barhoum (African and Middle Eastern Languages)

*Lecturers:* Kwame Assenyoh (African and Middle Eastern Languages), Byron Bland (Law), Jonathan Greenberg (Law), Sarah Mkhonza (African and Middle Eastern Languages), Samuel Mukoma (African and Middle Eastern Languages), Toussaint Nothias (African Studies), Jill Rosenthal (History), Ramzi Salti (African and Middle Eastern Languages), Timothy Stanton (Bing Overseas Studies)

*Consulting Professors:* Anne Firth-Murray (Human Biology), Joel Samoff (Center for African Studies)

*Curators:* Karen Fung (African Collection Curator, Green Library), Catherine Hale (Curator, Arts of Africa and the Americas, Cantor Arts Center), Regina Roberts (Bibliographer, Green Library)

*Senior Research Fellows:* Coit Blacker (Freeman Spogli Institute), Larry Diamond (Freeman Spogli Institute, Hoover Institution), Marcel

Fafchamps (Freeman Spogli Institute), Stephen Stedman (Freeman Spogli Institute, Center for International Security and Cooperation)

#### Overseas Studies Courses in African Studies

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		<b>Units</b>
OSPCPTWN 18	Xhosa Language and Culture	2
OSPCPTWN 24A	Targeted Research Project in Community Health and Development	3
OSPCPTWN 31	Political Economy of Foreign Aid	3
OSPCPTWN 36	The Archaeology of Southern African Hunter Gatherers	4
OSPCPTWN 38	Genocide: African Experiences in Comparative Perspective	3-5
OSPCPTWN 55	Arts of Change	2-4
OSPCPTWN 67	ICT4D: An Introduction to the Use of ICTs for Development	3
OSPCPTWN 69	Comparatively Assessing South Africa's Transition to Democracy: Past, Present and Future	3
OSPCPTWN 75	Giving Voice to the Now: Studies in the South African Present	3

# AMERICAN STUDIES

Courses offered by American Studies Program are listed under the subject code AMSTUD on the Stanford Bulletin's ExploreCourses web site.

## Mission of the Undergraduate Program in American Studies

The mission of the undergraduate program in American Studies is to provide students with a broad understanding of American culture and society. Building on a foundation of courses in history and institutions, literature and the arts, and race and ethnicity, students learn to analyze and interpret America's past and present, forging fresh and creative syntheses along the way. The program is an interdisciplinary major and, beyond the core requirements of the major, students may define and pursue their own interests from fields such as history, literature, art, communication, theater, African American studies, feminist studies, economics, anthropology, religious studies, Chicana/o studies, law, sociology, education, Native American studies, music, and film. The program is designed to provide students majoring in American Studies with excellent preparation for further study in graduate or professional schools as well as careers in government, business, journalism, entertainment, public service, the arts, and other fields.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. higher order, interdisciplinary, historically informed understanding of how to think about American culture and society, drawing on course work in: history and institutions; literature, art, and culture; comparative race and ethnicity; and each student's individualized thematic focus.
2. ability to identify and critically to assess different disciplinary, methodological, and interpretive approaches to the study of Americans and their past.
3. ability to produce their own persuasive, nuanced, fact-based interpretations reflecting a close critical reading and analysis of relevant primary or secondary sources.
4. ability to express their interpretive and analytical arguments in clear, effective prose.
5. ability to listen actively and to contribute to productive intellectual discussion in class.

## Bachelor of Arts in American Studies

The core requirements illustrate how different disciplines approach the study and interpretation of American life and include three courses in each of two main areas: history and institutions; and literature, culture, and the arts. One additional course in comparative race and ethnicity is also required. The required gateway seminar, AMSTUD 160 Perspectives on American Identity, explores the tensions between commonality and difference from a variety of disciplinary perspectives.

Beyond the core requirements of the major, American Studies expects students to define and pursue their own interests in interpreting important dimensions of American life. Accordingly, each student designs a thematic concentration of at least five courses drawn from fields such as history, literature, art, communication, theater, political science, African American studies, feminist studies, economics, anthropology, religious studies, Chicana/o studies, law, sociology, education, Native American studies, music, and film. At least one of the five courses in a student's thematic concentration should be a small

group seminar or a colloquium. With program approval, students may conclude the major with an honors research project during their senior year.

Whether defined broadly or narrowly, the thematic focus or concentration should examine its subject from the vantage of multiple disciplines. Examples of concentrations include: race and the law in America; gender in American culture and society; technology in American life and thought; health policy in America; art and culture in 19th-century America; education in America; nature and the environment in American culture; politics and the media; religion in American life; borders and boundaries in American culture; the artist in American society; and civil rights in America.

Completion of the major thus normally requires 13 courses (totaling at least 60 units), all of which must be taken for a letter grade. Not all courses are offered each year; students should consult ExploreCourses (<http://explorecourses.stanford.edu>) for scheduling information for the current academic year.

## Degree Requirements

### 1. Gateway Seminar

		Units
AMSTUD 160	Perspectives on American Identity (WIM course for American Studies)	5

### 2. History and Institutions

Majors are required to complete three courses in American History and Institutions. Specific requirements are:

		Units
AMSTUD/ HISTORY 150A	Colonial and Revolutionary America	5
AMSTUD/ HISTORY 150B	Nineteenth Century America	5
	Select one of the following:	3-5
AMSTUD 41Q	Madwomen: The History of Women and Mental Illness in the U.S.	3
AMSTUD 54N	African American Women's Lives	3
AMSTUD 91	Exploring American Religious History	4
AMSTUD 104	AMERICA AT PLAY: A HISTORY OF LEISURE IN THE UNITED STATES	5
AMSTUD 107	Introduction to Feminist, Gender, and Sexuality Studies	5
AMSTUD 117N	Losing My Religion: Secularism and Spirituality in American Lives	3
AMSTUD 121Z	Political Power in American Cities	5
AMSTUD 123X	Politics and Public Policy	4-5
AMSTUD 124A	The American West	5
AMSTUD 125	Perspectives on American Journalism	4-5
AMSTUD 130A	In Sickness and In Health: Medicine and Society in the United States: 1800-Present	3-5
AMSTUD 135	Deliberative Democracy and its Critics	3-5
AMSTUD 137	The Dialogue of Democracy	4-5
AMSTUD/ HISTORY 150C	The United States in the Twentieth Century	5
AMSTUD 155	American Constitutional History from the Civil War to the War on Poverty	5
AMSTUD 156H	Women and Medicine in US History: Women as Patients, Healers and Doctors	5
AMSTUD/ HISTORY 161	The Politics of Sex: Work, Family, and Citizenship in Modern American Women's History	4-5

AMSTUD 179/ POLISCI 122	Introduction to American Law	3-5
AMSTUD 255D	Racial Identity in the American Imagination	4-5
AMSTUD 293	Church, State, & Schools: Issues in Education & Religion	4

### 3. Literature, Culture, and the Arts

Majors are required to take a minimum of three courses in literature, culture, and the arts, broadly understood. Specific requirements are:

At least one course focusing on the period before the Civil War, normally:

AMSTUD 150/ ENGLISH 11B	Introduction to English II: American Literature and Culture to 1855	5
Select two of the following: <sup>1</sup>		
AMSTUD 1B	Media, Culture, and Society	5
AMSTUD 48N	The American Songbook and Love Poetry	3
AMSTUD 53N		3
AMSTUD 57Q	10 American Photographs	3
AMSTUD/ ENGLISH 68N	Mark Twain and American Culture	4
AMSTUD 75N	American Short Stories	3
AMSTUD 101	Black & White Race Relations in American Fiction & Film	3-5
AMSTUD 102	Art and Social Criticism	5
AMSTUD 105Q	Law and Popular Culture	3
AMSTUD 120/ COMM 120W	Digital Media in Society	5
AMSTUD 12A	Introduction to English III: Introduction to African American Literature	5
AMSTUD 124A	The American West	5
AMSTUD 125C	The Lost Generation: American literature between the World Wars	5
AMSTUD 127	American Style and the Rhetoric of Fashion	5
AMSTUD 128	Representing Fashion	4
AMSTUD 129	Animation and the Animated Film	4
AMSTUD 133	Technology and American Visual Culture	4
AMSTUD 143A	American Architecture	4
AMSTUD 143M	American Indian Mythology, Legend, and Lore	3-5
AMSTUD 143X	Starstuff: Space and the American Imagination	5
AMSTUD 145D	Jewish American Literature	5
AMSTUD 145H		5
AMSTUD 146A	Steinbeck	3-5
AMSTUD 151	Migration and Diaspora in American Art, 1800-Present	4
AMSTUD 152C	The JFK Era and American Literature	5
AMSTUD 163	Queer America	4
AMSTUD 183	Re- Imagining American Borders	5
AMSTUD 226X/ EDUC 226	Curating Experience: Representation in and beyond Museums	4
AMSTUD 250J		4
AMSTUD 262C	African American Literature and the Retreat of Jim Crow	5
THINK 31	Race and American Memory	4

### 4. Comparative Race and Ethnicity

Majors are required to take one course that focuses on the comparative study of race and ethnicity rather than a single racial or ethnic group.

Choose one from the following list:

AMSTUD 51Q	Comparative Fictions of Ethnicity	4
AMSTUD 53N		3
AMSTUD 54N	African American Women's Lives	3
AMSTUD 58Q	American Landscapes of Segregation	3-4
AMSTUD 101	Black & White Race Relations in American Fiction & Film	3-5
AMSTUD 152K	Mixed-Race Politics and Culture	5
AMSTUD 155D	The Asian American Movement: A History of Activism	3-5
AMSTUD/CSRE 183	Re- Imagining American Borders	5
AMSTUD 246	Constructing Race and Religion in America	4-5
AMSTUD 255D	Racial Identity in the American Imagination	4-5
AMSTUD 216	Education, Race, and Inequality in African American History, 1880-1990	3-5
AMSTUD 262C	African American Literature and the Retreat of Jim Crow	5
SOC 149	The Urban Underclass	4
THINK 31	Race and American Memory	4

### 5. Concentration and Capstone Seminar

Students must design a thematic concentration of at least five courses, with the help of faculty advisers. The courses, taken together, must give the student in-depth knowledge and understanding of a coherent topic in American cultures, history, and institutions. Thematic concentrations should be approved by the end of the registration period of the Autumn Quarter of the junior year, if at all possible. Sample thematic concentrations and courses that allow a student to explore them are available in the American Studies Office in Building 460.

At least one of the courses in the concentration must be an upper division seminar designated as the capstone seminar and must require a substantial research paper on a topic related to the thematic concentration. This paper must be filed in the program office prior to degree conferral. An honors project, or an independent study course with a faculty member culminating in a research paper, may also fulfill this requirement with the Director's approval.

Students may choose, but are not limited to, selections for their thematic concentrations from the following list of suggested courses:

AFRICAAM 105	Introduction to African and African American Studies	5
ANTHRO 82	Medical Anthropology	4
ARTHIST 176	Feminism and Contemporary Art	4
CHILATST 14N	Growing Up Bilingual	3
CHILATST 125S	Chicano/Latino Politics	5
CHILATST 201B	Making Meaning: Art, Culture & Social Change	3
COMM 116	Journalism Law	5
COMM 125	Perspectives on American Journalism	5
COMM 162	Campaigns, Voting, Media, and Elections	5
CSRE 45Q	Understanding Race and Ethnicity in American Society	4
CSRE 103B	Race, Ethnicity, and Linguistic Diversity in Classrooms: Sociocultural Theory and Practices	3-5
CSRE 245	Understanding Racial and Ethnic Identity Development	3-5
ECON 155	Environmental Economics and Policy	5
ECON 157	Imperfect Competition	5
EDUC 102	Examining Social Structures, Power, and Educational Access	2-4

EDUC 216	Education, Race, and Inequality in African American History, 1880-1990	3-5
EDUC 277	Education of Immigrant Students: Psychological Perspectives	4
HISTORY 60N	Revolutionaries and Founders	3
HISTORY 64	Racial and Ethnic Diversity in Modern America	5
HISTORY 166B	Immigration Debates in America, Past and Present	3-5
HISTORY 201	From Confederate Monuments to Wikipedia: The Politics of Remembering the Past	5
HISTORY 260	California's Minority-Majority Cities	4-5
HUMBIO 120	Health Care in America: An Introduction to U.S. Health Policy	4
HUMBIO 120A	American Health Policy	3
HUMBIO 121E	Ethnicity and Medicine	1-3
HUMBIO 122S	Social Class, Race, Ethnicity, and Health	4
HUMBIO 123	Obesity in America: Clinical and Public Health Implications	3-4
HUMBIO 125	Current Topics and Controversies in Women's Health	2-3
HUMBIO 166	Food and Society: Exploring Eating Behaviors in Social, Environmental, and Policy Context	4
INTNLREL 140C	The U.S., U.N. Peacekeeping, and Humanitarian War	5
MUSIC 8A	Rock, Sex, and Rebellion	3
MUSIC 18A	Jazz History: Ragtime to Bebop, 1900-1940	3
MUSIC 18B	Jazz History: Bebop to Present, 1940-Present	3
MUSIC 34N	Performing America: The Broadway Musical	3
MUSIC 147K	Studies in Music, Media, and Popular Culture: Music and Urban Film	3-4
MUSIC 147L	Studies in Music, Media, and Popular Culture: Latin American Music and Globalization	3-4
NATIVEAM 103S	Gender in Native American Societies	5
NATIVEAM 115	Introduction to Native American History	5
NATIVEAM 240	Psychology and American Indian Mental Health	3-5
POLISCI 110X	America and the World Economy	5
POLISCI 118P	U.S. Relations in Iran	5
POLISCI 120B	Campaigns, Voting, Media, and Elections	5
POLISCI 120C	American Political Institutions in Uncertain Times	5
POLISCI 121	Political Power in American Cities	5
POLISCI 213S	A Post American Century? American Foreign Policy in a Uni-Multi-unipolar World	5
POLISCI 225C	Fixing US Politics: Political Reform in Principle and Practice	5
PUBLPOL 101	Politics and Public Policy	5
PUBLPOL 125		5
PUBLPOL 132	The Politics of Policy Making	3
PUBLPOL 135	Regional Politics and Decision Making in Silicon Valley and the Greater Bay Area	4
PUBLPOL 154	Politics and Policy in California	5
PUBLPOL 156	Health Care Policy and Reform	5
SOC 135	Poverty, Inequality, and Social Policy in the United States	4
SOC 118	Social Movements and Collective Action	4
SOC 142	Sociology of Gender	3
URBANST 161	U.S. Urban History since 1920	5

<sup>1</sup> Including at least one course outside of literature that emphasizes art, drama, film, music, translation studies, or culture from a different disciplinary or interpretive perspective.

## Honors Program

To graduate with honors, American Studies majors must complete a senior thesis and have an overall grade point average of at least 3.5 in the major, or demonstrated academic competence. Students applying must secure a thesis adviser, a Stanford faculty member who is willing and available to direct the thesis project through the ensuing year. Having a confirmed thesis adviser is required for final approval to pursue an honors project. Students also need to secure a second reader for the honors thesis no later than the start of Spring Quarter of senior year. Along with the application form signed by the thesis adviser, a 3-5 page proposal describing the thesis project and including a preliminary bibliography is due to the program office by October 1 of senior year at the latest (though students are strongly encouraged to submit at least preliminary thesis proposals in Spring of their junior year). The program may approve the application and proposal or request that the student resubmit with revisions. Students pursuing honors must enroll in 10-15 units of AMSTUD 250 Senior Research during the senior year. These units are in addition to the 60 units required for the major and must be taken for a letter grade. The finished essay is due in mid-May (typically May 15) of the senior year.

Students are encouraged to choose an honors topic and adviser during the junior year. The honors coordinator is available to meet with students to discuss possible honors topics and strategies. Students are strongly encouraged to enroll in the American Studies Honors College during September before the senior year. American Studies also provides students the opportunity to work as paid research assistants for faculty members during the summer between their junior and senior years. More information about American Studies honors is available from the program office.

## Minor in American Studies

To earn a minor in American Studies, students must complete at least 28 units of course work in the program. Because students may not count courses for both a major and a minor, the specific courses that are used for an American Studies minor depend on the courses that are used to satisfy the major requirement.

A student must take the following:

	<b>Units</b>
AMSTUD 160 Perspectives on American Identity (The gateway seminar)	5
at least 2 courses from category 2 (History and Institutions)	6-10
at least 2 courses from category 3 (Literature, Culture and the Arts)	6-10
at least 1 course from category 4 (Comparative Race and Ethnicity)	3-5

If the units for these requirements do not total 28, the student must take additional coursework, appropriate to American Studies and approved by the Director or one of the Program Coordinators, to meet the minimum unit requirement. Courses used to satisfy all units taken for the minor must be taken for a letter grade.

*Director:* Shelley Fisher Fishkin

*Program Coordinators:* Elizabeth Kessler, Judith Richardson

*Committee in Charge:* Shelley Fisher Fishkin (English, Chair), Jennifer DeVere Brody (Drama), Scott Bukatman (Art and Art History), Bruce Cain (Political Science), James T. Campbell (History), Gordon H. Chang (History), Michele B. Elam (English), James Fishkin (Communication, and by courtesy, Political Science), Estelle Freedman (History), Leah Gordon (Education), Allyson Hobbs (History), Ari Kelman (Education), Gavin Jones (English), Charles Kronengold (Music), Marci Kwon (Art and Art History), Kathryn Gin Lum (Religious Studies), Doug McAdam (Sociology), Richard Meyer (Art and Art History), Ana Minian (History), Paula Moya (English), Clayton Nall (Political Science), Alexander Nemerov (Art and Art History),

Jack Rakove (History, Political Science), Vaughn Rasberry (English), Judith Richardson (English), Ramón Saldivar (English, Comparative Literature), Fred Turner (Communication), Sam Wineburg (Education), Caroline Winterer (History), Gavin Wright (Economics), Amy Beth Zegart (Hoover Senior Fellow)

# ANTHROPOLOGY

Courses offered by the Department of Anthropology are listed under the subject code ANTHRO on the *Stanford Bulletin's* ExploreCourses web site.

## Mission of the Department of Anthropology

The courses offered by the Department of Anthropology are designed to: provide undergraduates with instruction in anthropology; provide undergraduate majors in Anthropology with a program of work leading to the bachelor's degree; and prepare graduate candidates for advanced degrees in Anthropology. Anthropology is devoted to the study of human beings and human societies as they exist across time and space. It is distinct from other social sciences in that it gives central attention to the full time span of human history, and to the full range of human societies and cultures, including those located in historically marginalized parts of the world. It is therefore especially attuned to questions of social, cultural, and biological diversity, to issues of power, identity, and inequality, and to understanding the dynamic processes of social, historical, ecological, and biological change over time. Education in Anthropology provides excellent preparation for living in a multicultural and globally-interconnected world, and helps to equip students for careers in fields including law, medicine, business, public service, research, ecological sustainability, and resource management. Students may pursue degrees in Anthropology at the bachelor's, master's, and doctoral levels.

The Department of Anthropology offers a wide range of approaches to the topics and area studies within the field, including archaeology, ecology, environmental anthropology, evolution, linguistics, medical anthropology, political economy, science and technology studies, and sociocultural anthropology. Methodologies for the study of micro- and macro-social processes are taught through the use of qualitative and quantitative approaches. The department provides students with excellent training in theory and methods to enable them to pursue graduate study in any of the above mentioned subfields of Anthropology.

## Undergraduate Programs in Anthropology

- Bachelor of Arts (B.A.)
- Anthropology Minor

In addition to gaining an excellent foundation for graduate research and study, students majoring in Anthropology can pursue careers in government, international business, international development agencies, international education, law, mass media, nonprofit organizations, and public policy.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the degree program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. an understanding of core knowledge within the Anthropology discipline.
2. the ability to communicate ideas clearly and persuasively in writing.
3. identify analytical problems and make appropriate inferences and analytical arguments.
4. critically evaluate anthropological theory and ethnographic research.

## Graduate Programs in Anthropology

Graduate training in Anthropology at Stanford is designed for students who seek the Doctoral (Ph.D.) degree, and for students who seek the Masters of Arts (M.A.) degree only.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in Anthropology and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses in the primary field, as well as related areas, and through experience with independent work, area specialization and field research.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in Anthropology. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of Anthropology and to interpret and present the results of such research.

## Field School and Research Opportunities in Anthropology

Students majoring in Anthropology are encouraged to develop field research projects under the supervision of a department faculty member. The department offers research grants to support individually-designed and other summer field research in Anthropology. The department research grants may be used to support field research as a supplement to other field research grants such as the UAR research grants. The department also offers opportunities to participate in faculty-led research projects.

The department's summer research opportunities, include: Franz Boas summer scholars programs and Michelle Z. Rosaldo Summer Field Research Grant program. Other field school opportunities include the following: Catalhoyuk and Chavin Huantar. *Note:* Required courses for the Franz Boas summer scholars program and the Michelle Z. Rosaldo grant program include:

		Units
ANTHRO 93	Prefield Research Seminar	5
or ANTHRO 93B	Prefield Research Seminar: Non-Majors	
ANTHRO 94	Postfield Research Seminar	5

For more information about research opportunities and deadlines, see the department's web site.

## Bachelor of Arts in Anthropology

Undergraduate training in the Department of Anthropology is designed for students who seek the Bachelor of Arts (B.A.) degree, only. Students may declare a major in Anthropology and earn the B.A. degree by completing the requirements below. The Department also offers a minor in Anthropology. The Anthropology B.A. degree program usually requires at least five quarters of enrollment. Students interested in majoring in Anthropology are encouraged to declare by the beginning of their junior year and to work closely with a faculty adviser to develop a coherent plan of study.

To declare a major in Anthropology, apply in Axess for the B.A. in Anthropology, contact the department's student peer adviser(s) or the undergraduate student services officer to prepare the department major checklist and planning form; submit the required forms to the undergraduate student services officer; request a faculty adviser assignment and meet with the assigned faculty adviser for approval of the department major checklist and planning form. Students should

apply in Axxess for the major in Anthropology by the time junior status is achieved at 85 units.

## Degree Requirements

The B.A. degree in Anthropology may be earned by fulfilling the following requirements:

1. A faculty adviser appointed in the Department of Anthropology. A faculty adviser will be assigned based on the students chosen emphasis. Undergraduate Anthropology (ANTHRO) majors should plan to meet with their faculty adviser at least once each quarter.
2. A program of 65 units, passed with an overall minimum grade point average of 'C':
  - of the 65 units, 50 units must be in courses with the ANTHRO subject code. 15 may be approved from related areas of study, overseas studies, and/or transfer units.
    - any related, overseas studies, or transfer units must be approved by the faculty adviser and by petition to the undergraduate committee.
  - of the 65 units, at least 20 units with a minimum grade of 'C' must be in courses with the ANTHRO subject code numbered 100 or above and taught by Anthropology faculty.
  - no more than 10 units of directed reading-style course work may be counted towards the 50 units required for the major in the ANTHRO subject code.
  - no more than 10 units may be taken for a satisfactory/no credit grade: 5 units in ANTHRO courses, and 5 in related or transfer units.
3. A minimum grade of 'B' in the ANTHRO Writing in the Major (WIM) course from the chosen emphasis. This can be fulfilled by completing the ANTHRO Theory course, ANTHRO 90B or ANTHRO 90C, and should be taken within a year of declaring the Major or before the end of the junior year.
4. A minimum grade of 'B' in the ANTHRO Theory course from the chosen emphasis. This should be taken within a year of declaring the major or before the end of the junior year.
5. A minimum grade of 'B' in the ANTHRO Methods course (ANTHRO 91 Method and Evidence in Anthropology). This should be taken within a year of declaring the major or before the end of the junior year.
6. Students must enroll in the senior Capstone course, (ANTHRO 193 Anthropology Capstone: Contemporary Debates in Anthropology) during their senior year.
7. An approved plan of study which includes an emphasis chosen from the list below. Students must complete a minimum of 20 units in their chosen emphasis of which 10 units must be numbered 100 or above.
  - Culture and Society
  - Ecology, Environment, and Evolution
  - Medical Anthropology
  - Self-Designed Emphasis (with faculty adviser and undergraduate committee approval, only)
8. Competence in a foreign language beyond the first-year level. Such competence is usually demonstrated by completing a 5 unit course at the second-year level with a minimum grade of 'B-'. The requirement may also be met by special examination administered through the Language Center.
  - Up to 5 units from a second-year language course can count towards the "Related to Anthro" category of the major requirements.
9. At least five quarters of enrollment in the major. Each candidate for the B.A. in Anthropology should declare a major by the first day of the first quarter of the third year of study.

Advising is an important component of the Anthropology major. Students are encouraged to work closely with their major adviser throughout their

pursuit of the B.A. degree. Advising milestones for the major include the following:

1. In the quarter in which the major is declared, students meet with their assigned faculty adviser, create a rigorous plan of study based on topical breadth, obtain adviser approval of an Anthropology emphasis as part of the plan of study, and obtain the major adviser's signature on the Major Checklist form.
2. Undergraduate Anthropology majors should plan to meet with their major faculty adviser at least once each quarter before the final study list deadline. Any revisions to the initial checklist must be approved by the faculty adviser.
3. Undergraduate Anthropology majors must submit an updated major checklist and planning form to the undergraduate student services officer in the quarter before graduating.

## Required Courses

### 1. Writing in the Major courses

Undergraduate majors can fulfill the Writing in the major course requirement for the B.A. in Anthropology by taking the ANTHRO theory course designated from a chosen emphasis.

### 2. Theory courses

Enroll in one of the following theory courses according to the student's chosen emphasis:

		Units
<b>Culture and Society/Medical Anthropology:</b>		
ANTHRO 90B	Theory of Cultural and Social Anthropology	5
<b>Ecology, Environment, and Evolution:</b>		
ANTHRO 90C	Theory of Ecological and Environmental Anthropology	5

### 3. Methods courses

The following course fulfills the ANTHRO undergraduate major methods course requirement for all emphases:

		Units
ANTHRO 91	Method and Evidence in Anthropology	5

### 4. Capstone Course

The following course fulfills the ANTHRO undergraduate major capstone course requirement for all emphases:

		Units
ANTHRO 193	Anthropology Capstone: Contemporary Debates in Anthropology	5

## Department Courses

Students should complete a minimum of 20 units from the courses listed below within their chosen emphases; 10 of these units must be numbered 100, or above. Departmental courses may fulfill the requirements for more than one emphasis. For example: with approval, an Archaeology course may fulfill a course needed to meet a course requirement in the Medical Anthropology emphasis. Undergraduates may also petition to the undergraduate committee for a self-designed emphasis in the Anthropology major.

		Units
<b>Cultural &amp; Society Anthropology Courses</b>		
ANTHRO 1	Introduction to Cultural and Social Anthropology	5
ANTHRO 30Q	The Big Shift	4
ANTHRO 39	Sense of Place	3
ANTHRO 34	Animals and Us	5
ANTHRO 42	Megacities	5

ANTHRO 49	Violence and Belonging in the Middle East (not given this year)	5
ANTHRO 90B	Theory of Cultural and Social Anthropology	5
ANTHRO 91	Method and Evidence in Anthropology	5
ANTHRO 106	Incas and their Ancestors: Peruvian Archaeology	3-5
ANTHRO 126	Urban Culture in Global Perspective	5
ANTHRO 136	The Anthropology of Global Supply Chains	5
ANTHRO 140	Ethnography of Africa	3
ANTHRO 149	South Asia: History, People, Politics	5
ANTHRO 152	Ritual, Politics, Power	5
ANTHRO 187	Nuclear Cultures	5

**Medical Anthropology Courses**

ANTHRO 82	Medical Anthropology	4
ANTHRO 138	Medical Ethics in a Global World: Examining Race, Difference and Power in the Research Enterprise	5
ANTHRO 154	Anthropology of Drugs: Experience, Capitalism, Modernity	5
ANTHRO 175	Human Skeletal Anatomy	5
ANTHRO 176	Cultures, Minds, and Medicine	1
ANTHRO 182N	Smoke and Mirrors in Global Health	3
ANTHRO 186	Culture and Madness: Anthropological and Psychiatric Approaches to Mental Illness	5

**Ecology, Environment & Evolution Anthropology Courses**

ANTHRO 90C	Theory of Ecological and Environmental Anthropology	5
ANTHRO 160	Social and Environmental Sustainability: The Costa Rican Case	3-5
ANTHRO 162	Indigenous Peoples and Environmental Problems	3-5
ANTHRO 166	Political Ecology of Tropical Land Use: Conservation, Natural Resource Extraction, and Agribusiness	3-5

**Senior Courses**

ANTHRO 95B	Directed Study in Honors and Senior Papers	1-10
ANTHRO 193	Anthropology Capstone: Contemporary Debates in Anthropology	5

**Senior Paper/Honors & Research Courses**

ANTHRO 92A	Undergraduate Research Proposal Writing Workshop	2-3
ANTHRO 92B	Undergraduate Research Proposal Writing Workshop	2-3
ANTHRO 93	Prefield Research Seminar	5
ANTHRO 93B	Prefield Research Seminar: Non-Majors	5
ANTHRO 94	Postfield Research Seminar	5
ANTHRO 95	Research in Anthropology	1-10
ANTHRO 96	Directed Individual Study	1-10
ANTHRO 97	Internship in Anthropology	1-10

**Emphasis Courses**

The following course listing includes courses taught by the Anthropology faculty in Archaeology. These courses may be considered towards the published emphasis requirements in the Anthropology bachelors degree with the culture and society, ecology, environment and evolution, medical, and self-designed emphases in the Anthropology undergraduate major.

**Archaeology Courses**

ANTHRO 3	Introduction to Archaeology	3-5
ANTHRO 34	Animals and Us	5
ANTHRO 91A	Archaeological Methods	5
ANTHRO 98B	Digital Methods in Archaeology	3-5

ANTHRO 106	Incas and their Ancestors: Peruvian Archaeology	3-5
ANTHRO 108E	Catalhoyuk and Neolithic Archaeology	3
ANTHRO 113B	Religious Practices in Archaeological Cultures	5
ANTHRO 115	The Social life of Human Bones	3-5
ANTHRO 118	Heritage, Environment, and Sovereignty in Hawaii	4
ANTHRO 119	Zooarchaeology: An Introduction to Faunal Remains	5
ANTHRO 134	Object Lessons	5

**Plan of Study (example)**

Please see the example Plan of Study grid below designed for an ANTHRO major beginning junior year (from 85 units). This sample course schedule details the courses needed to satisfy the requirements for the Culture & Society emphasis.

Junior	Units		
	Autumn	Winter	Spring
Method and Evidence in Anthropology (ANTHRO 91)		5	
Undergraduate Research Proposal Writing Workshop (ANTHRO 92A)		2-3	
Culture, Narrative, and Medicine (ANTHRO 178A)		5	
Megacities (ANTHRO 42)		5	
Undergraduate Research Proposal Writing Workshop (ANTHRO 92B)			2-3
Introduction to Cultural and Social Anthropology (ANTHRO 1)			5
Theory of Cultural and Social Anthropology (ANTHRO 90B)			5
Sex and Gender (ANTHRO 15)			3
Prefield Research Seminar (ANTHRO 93)			5
Field School Training Workshop (ANTHRO 98F)			1-3
The Anthropology of Global Supply Chains (ANTHRO 136)			5
Medical Anthropology (ANTHRO 82)			4
Year Total:		17-18	15-16 15-17

Senior	Units		
	Autumn	Winter	Spring
Urban Culture in Global Perspective (ANTHRO 126)		5	
Senior and Master's Paper Writing Workshop (ANTHRO 199)		1-2	
Postfield Research Seminar (ANTHRO 94)		5	
Anthropology Capstone: Contemporary Debates in Anthropology (ANTHRO 193)		5	
Ritual, Politics, Power (ANTHRO 152)			5
Ethnography of Africa (ANTHRO 139)			5
Senior and Master's Paper Writing Workshop (ANTHRO 199)			1-2
Directed Study in Honors and Senior Papers (ANTHRO 95B)			1-10
South Asia: History, People, Politics (ANTHRO 149)			5
Year Total:		16-17	11-12 6-15
Total Units in Sequence:			80-95

Course selections may vary depending on the students chosen emphasis. The number of units needed to satisfy the ANTHRO major requirements may also vary depending on the student's current undergraduate status and units accomplished previously before declaration of the ANTHRO major.

**Research Courses**

Courses listed are recommended for students writing a research paper in the major:

ANTHRO 92A	Undergraduate Research Proposal Writing Workshop	2-3
------------	--	-----

ANTHRO 93B	Prefield Research Seminar: Non-Majors	5
ANTHRO 93	Prefield Research Seminar	5
ANTHRO 94	Postfield Research Seminar	5
ANTHRO 95	Research in Anthropology	1-10
ANTHRO 199	Senior and Master's Paper Writing Workshop	1-2
Total Units		19-30

### Senior Courses

		Units
ANTHRO 95B	Directed Study in Honors and Senior Papers	1-10
ANTHRO 193	Anthropology Capstone: Contemporary Debates in Anthropology	5

### Senior Paper

The senior paper program in Anthropology provides majors with the opportunity to conduct original research under the guidance of an Anthropology faculty member. All Anthropology majors are encouraged to write a senior paper. Interested Anthropology majors of junior standing may apply to the senior paper program by submitting a senior paper application form, including a research topic/title of the proposed senior paper project, a two page abstract/proposal, and a letter of reference from their faculty adviser to the undergraduate student services officer on or by February 15 in the junior year. Enrollment in ANTHRO 95 Research in Anthropology is recommended during Autumn and Winter quarters of the senior year. Students must enroll in ANTHRO 95B Directed Study in Honors and Senior Papers in the final quarter of the undergraduate degree program before graduating. The senior paper is submitted in the final quarter before graduation. For more information, see the undergraduate student services officer.

### Honors Program

The honors program in Anthropology provides eligible Anthropology majors with an opportunity to conduct original ethnographic, field, laboratory, or library-based research under the guidance of an Anthropology faculty member. All Anthropology majors are urged to consider applying to the Departmental Honors Program in Anthropology. Interested Anthropology majors of junior standing may apply for admission to the honors program by applying first in Axess, submitting an honors program application form, including a research topic/title of the proposed honors project, a two page abstract/proposal, a transcript, and a letter of reference from the faculty or honors adviser, to the undergraduate student services officer on or by February 15 in the junior year.

Department majors are eligible to apply for honors candidacy with a 3.4 GPA in the major, a 3.0 GPA in overall course work, and with no more than one incomplete listed on the transcript at the time of application. Students interested in the honors program are encouraged to apply for Summer Quarter research funding through the Department of Anthropology, Undergraduate Advising and Research, and area studies centers. In most cases, honors students apply for such funding early in the junior year. This process requires advanced planning as the Spring Quarter research deadline falls before the honors application due date.

Students must enroll in ANTHRO 95B Directed Study in Honors and Senior Papers in the final quarter of the undergraduate degree program and earn a grade of 'A-' or better to graduate with honors. Students must submit the final draft of their honors thesis to their honors adviser (first reader) and second reader, electronically or printed, no later than May 13, 2018. Honors advisers and second readers must review the final draft submission and sign off on the Honors Signature Cover Sheet to confirm satisfactory completion of the honors paper and approved honors status. The Honors Signature Cover Sheet and final copy of the honors paper must be submitted to the undergraduate student services officer no later than May 20, 2018. If ineligible for honors status, students must withdraw

their request to graduate with honors via Axess. For more information, see the undergraduate student services officer.

## Minor in Anthropology

To declare a minor in Anthropology, apply in Axess; contact the department's student peer adviser(s) or the undergraduate student services officer to prepare the minor checklist and the minor planning form; submit the required forms to the undergraduate student services officer; request a faculty adviser assignment; and meet with the assigned faculty adviser for approval of the minor checklist and planning form. These forms are available at <http://anthropology.stanford.edu>. Students must apply in Axess for the undergraduate minor in Anthropology by the last day of the quarter at least two quarters before degree conferral.

Requirements for the minor in Anthropology include the following:

1. A faculty adviser appointed in the Department of Anthropology.
2. A program of 30 units, with a minimum grade of 'C':
  - Of the 30 units, a minimum of 10 units must be taken from the chosen ANTHRO emphasis.
  - Of the 30 units, a minimum of 15 units must be ANTHRO courses numbered 100 or above.
  - Of the 30 units, 10 units may be approved from related areas of study, overseas studies, and transfer units.
    - *Note:* Any related, overseas studies, or transfer units must be approved by the faculty adviser and by petition to the Undergraduate Committee
  - No more than 5 units of directed reading-style course work may be counted towards the minor and may only be included among the 10 related units permitted for the minor.
  - No more than 5 units may be taken for a satisfactory/no credit grade.
3. A self-designed course of study chosen from an Anthropology emphasis listed below and approved by the faculty adviser:
  - Culture and Society
  - Ecology, Environment and Evolution
  - Medical Anthropology
4. At least two quarters of enrollment in the minor. Each candidate for the minor in Anthropology should declare by the last day of the quarter at least two quarters before the quarter of degree conferral.

Advising milestones for the minor include the following:

1. In the quarter in which the minor is declared, the student must meet with his or her assigned adviser, create a rigorous course of study based on topical breadth, and obtain adviser approval for the checklist.
2. Any revisions to the initial checklist must be approved by the faculty adviser.
3. Undergraduate Anthropology minors must submit an updated minor checklist and planning form to the undergraduate student services officer in the quarter before graduating.

## Coterminal Master's Degrees in Anthropology

Graduate enrollment at Stanford University for three consecutive quarters of full tuition for at least 45 units is usually required of all candidates for the coterminal M.A. degree. Coterminal M.A. students must matriculate in the M.A. graduate program for a minimum of two quarters (excluding the Summer Quarter) with Anthropology faculty advising and supervision.

M.A. students in Anthropology must take a minimum of 45 units of Anthropology course work beyond the undergraduate degree with an overall minimum grade point average of 3.0. Coterminal M.A. students

may transfer units from the two quarters previous to the graduate admit quarter. For the master's degree, all courses must be at or above the 100 level, and at least 23 of the required 45 units must be taken at either the ANTHRO 200- or 300-level.

The M.A. program usually requires more than one year of study. However, full-time students entering the program with appropriate background should complete the M.A. degree program within three consecutive quarters after the student's first quarter of master's-level enrollment.

The University allows no transfer units into the master's program. To provide a meaningful master's program within one year, advance planning of course work with a faculty adviser is required. Requirements for the coterminal M.A. program must be completed within three years.

It is recommended by this department that a student who accepts an offer of admission to the Anthropology coterminal master's program, defer their undergraduate bachelor's conferral until the graduate M.A. degree requirements have been completed. The student can then request to graduate in both the bachelor's and master's degrees simultaneously. Students are advised to consult the undergraduate student services officer.

### Admission to the Coterminal Master's Degree Program

The deadline for graduate applications to the coterminal M.A. degree program in Anthropology is December 5, 2017. Stanford University undergraduate majors are eligible to apply for the coterminal M.A. degree program if they have a 3.4 GPA in their department major, a 3.0 GPA in overall course work, and have no more than one incomplete listed on the transcript at the time of application. Successful applicants to the M.A. program may enter only in the following Autumn Quarter. However, the department may consider a request for early deferral of admission in the Spring Quarter by petition. Coterminal M.A. degree applicants are not required to submit their Graduate Record Examination scores.

Applicants must submit the following:

1. Online Application for Admission to Coterminal Master's Program
2. Preliminary Program Proposal, Coterminal Degree Program
3. Coterminal Course Approval Form
4. Two Letters of Recommendation. Letters of recommendation must be accompanied by signed Recommendation Form.
5. All relevant transcripts
6. A 2-3 page, singled-spaced Statement of Purpose
  - a. For further information on how to write a personal statement please contact your faculty recommenders. You may also contact current graduate students in Anthropology.
  - b. For tips on writing Statement of Purpose and Personal Statement Essays, see available resources at the Hume Center for Writing and Speaking (<https://undergrad.stanford.edu/tutoring-support/hume-center>).
7. Writing Sample in English: A 10-12 page paper giving evidence of both writing ability and the capacity for research, analysis, and original thought at the graduate level, and demonstrating the ability to use theory in relation to evidence. If your writing sample is longer than 10-12 pages, please indicate which 10-12 pages should be reviewed by the admissions committee.

See the department's web site (<http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/anthropology/%20https://web.stanford.edu/dept/anthropology/cgi-bin/web/?q=node/35>) for additional information.

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements

for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken two quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

### Degree Options

Students may pursue one of two possible department tracks in the coterminal Anthropology M.A. degree program. The tracks are:

- Archaeology
- Culture and Society

The tracks are not declarable in Axess.

## Master of Arts in Anthropology

University requirements for the terminal M.A. are described in the "Graduate Degrees (p. 50)" section of this bulletin.

The Department of Anthropology offers the terminal M.A. degree to the following:

1. Graduate applicants who apply from outside the University for admission to the terminal M.A. program in Anthropology.
2. Stanford graduate students, taking advanced degrees in other departments or schools at Stanford, who are admitted to the terminal M.A. program in Anthropology.
3. Anthropology Ph.D. students at Stanford University who fulfill the M.A. degree requirements on the way to the Ph.D. degree.

Graduate applicants who apply from outside the University and whose ultimate goal is the Ph.D. degree should apply directly to the Ph.D. degree program. Applicants who are offered admission to the terminal Masters degree program may not transfer to the Ph.D. degree program; they must reapply on the same basis as other Ph.D. applicants and in competition with the Ph.D. applicants.

Graduate applicants, taking an advanced degree in other departments or schools at Stanford, applying for admission to the M.A. in Anthropology should apply via the Department terminal M.A. degree application for current Stanford University graduate students form and via the Registrar electronic graduate authorization petition by December 5, 2017 in consideration of beginning degree matriculation in either the following Spring Quarter or the following Autumn Quarter.

Anthropology Ph.D. students choosing to take the M.A. in Anthropology on the way to the Ph.D. are governed by separate requirements described in the Anthropology Ph.D. Degree Program and Ph.D. Handbook.

Graduate enrollment at Stanford University for three consecutive quarters of full tuition for at least 45 units is required of all candidates for the terminal master's degree. M.A. students in Anthropology must take a

minimum of 45 units of course work with an overall minimum grade point average of 3.0. For the Masters degree, all courses must be at or above the 100 level, and, at least 23 of the required 45 units must be taken at either the ANTHRO 200 or 300-level.

The M.A. program may require more than one year of study. However, full-time students entering the program with appropriate background should complete the M.A. degree program within three consecutive calendar quarters after the student's first quarter of master's-level enrollment. The University allows no transfer units into the master's program. To provide a meaningful master's program within one year, advance planning of course work with an adviser is required. Requirements for the terminal master's program must be completed within three years.

For further information about the Department's M.A. degree program requirements, please consult the Department webpages.

### Admission to the Master's Degree Program

The deadline for graduate applications to the M.A. degree program in Anthropology is December 5, 2017. Successful applicants to the M.A. program may enter only in the following Autumn Quarter. M.A. degree applicants must file a report of their Graduate Record Examination score electronically. Additional terminal M.A. degree program application procedures are required by the Department. Please consult the Department webpages.

No financial support is available to students enrolled for the M.A. degree.

### Degree Requirements

Requirements for the coterminal and terminal master's degree program include the following:

1. A faculty adviser appointed in the Department of Anthropology.
2. A program of 45 units, taken at the 100 level or higher with a minimum grade of 'B'. *Note:* At least 23 of the 45 units must be taken at the 200/300 level.
  - of the 45 units, no more than 15 units may be approved from related areas of study or overseas studies.
  - of the 45 units, no more than 10 units of directed reading-style course work may be counted towards the degree.
  - of the 45 units, no more than 5 units may be taken for a satisfactory/no credit grade.
3. A minimum grade of 'B' in one graduate-level ANTHRO Theory course from the chosen track. Please note that ANTHRO theory courses are usually considered as department review courses.
4. A minimum grade of 'B' in one graduate-level ANTHRO Methods course from the chosen track. Please note that ANTHRO methods courses are not considered as department review courses. [Student's seeking to fulfill the Department's requirement for methods training may petition the graduate committee for an alternate way (i.e. other course or training) to fulfill the Department methods requirement].
5. A minimum grade of 'B' in four ANTHRO Review courses from the chosen track, listed at the 200-level or higher, taught by Anthropology faculty, and taken as a five unit course.
6. A self-designed plan of study chosen from one of the following Anthropology tracks; the tracks are not declarable in Axxess.:
  - Archaeology
  - Culture and Society
7. Submission of an approved plan of study form and an approved department graduate report of degree progress form, inclusive of a field research, laboratory research or library-based paper proposal, by the last day of the first quarter of the Master's degree program.
8. Submission of an approved Master's degree program proposal form by the last day of the first quarter of the Master's degree program.

9. Presentation of the Master's research project at the Department's Master's (Honors) paper presentation event in Spring Quarter, optional.
10. Submission of the Master's paper reviewed by two faculty members (advisor and reader). For the Culture and Society track, the paper can be a field research or library-based research paper. For the Archaeology track, the paper can also be a laboratory research paper.

### Required Courses

		Units
<b>Archaeology Track, Required Theory (Review) Course</b>		
ANTHRO 303	Introduction to Archaeological Theory	5
<b>Culture and Society Track, Required Theory (Review) Courses</b>		
ANTHRO 301	History of Anthropological Theory, Culture and Society	5
-or-		
ANTHRO 301A	Foundations of Social Theory	5
-or-		
ANTHRO 300	Reading Theory Through Ethnography	5

		Units
<b>Archaeology Track, Required Methods Course</b>		
ANTHRO 307	Archaeological Methods	5
<b>Culture and Society Track, Required Methods Course</b>		
ANTHRO 306	Anthropological Research Methods	5
or comparable approved course at the 200 level or greater		

### Recommended Courses

For both tracks, attendance at the Departmental colloquium each quarter is recommended for all Master's students. Students may enroll in the following course for additional units.

		Units
ANTHRO 444	Anthropology Colloquium	1
ANTHRO 445	Anthropology Brown Bag Series	1

## Doctor of Philosophy in Anthropology

University requirements for the Ph.D. are described in the "Graduate Degrees (p. 50)" section of this bulletin.

### Admission

The deadline for graduate application to the Ph.D. degree program is December 5, 2017. Successful applicants for the Ph.D. program may enter only in Autumn Quarter. It is the Department of Anthropology's policy not to defer graduate admission. Additional Ph.D. application procedures are required by the department. Please consult the department website.

### Financial Support

The department endeavors to provide needed financial support (through fellowships, teaching and research assistantships, and tuition grants) to all students admitted to the program who maintain satisfactory degree progress in years one through five of the Ph.D. program. San Francisco Bay Area residency during the Autumn, Winter, and Spring Quarters in academic cohort years one through five is required for eligibility to receive department funding.

First-year students who have not obtained a graduate degree previous to entering the Ph.D. program, and who have not obtained extramural funding previously before entering the Ph.D. program, are required to submit one extramural funding application to the faculty adviser in support of graduate doctoral training (for example, funding support for training during the first three years of the Ph.D. program) by the first

day of finals week in the Autumn Quarter of the first year. In order to be eligible to apply for the departments exceptional (pre)dissertation research-related Summer Quarter funding support, first-year students must submit at least two intramural or extramural Summer Quarter research funding proposals (deadlines are usually early Winter Quarter and advanced planning is required) as well as the department graduate report of degree progress form inclusive of a research proposal on or by May 15 in the Spring Quarter of the first year of the Ph.D. program.

Note that two instances of predissertation field research Summer Quarter funding support are given to qualified Ph.D. students in Anthropology. The first of two summers of predissertation field research funding support, is given in the Summer Quarter of the second year in the Ph.D. program and provided by way of a predoctoral research affiliateship. The second of two summers of predissertation field research funding support may be taken in either the first or third year Summer Quarter in the Ph.D. and is provided by way of a department fellowship with no tuition. Careful consideration should be given when choosing to take Summer Quarter funding support, either in the first year for a pilot study, survey work, or approved predissertation research, or, in the third year as a bridge to the field to conduct approved dissertation research.

Second-year students are required to complete one or more full time quarterly teaching assistant assignments and be advanced to candidacy. In order to qualify for a predoctoral research affiliateship given in the Summer Quarter of the second year, Ph.D. students are required to submit at least two predissertation research funding proposals for second year Summer Quarter funding support.

Third-year students must pass the department qualifying examinations, inclusive of an oral component, to receive department approval by the dissertation reading committee for the dissertation proposal. Third-year students who have not secured fourth-year field research funding support are required to make at least three extramural funding applications to support dissertation research usually by the end of Autumn Quarter of the third year. Advanced planning is required in order to meet approved dissertation research funding application deadlines. If receiving department funding for fourth-year field research, third-year students must review the department Ph.D. funding agreement form before leaving to conduct field research. Finally, the second of two Summer Quarters of (pre)dissertation field research funding support may be taken as a bridge to the field in the third-year Summer Quarter if this support was not taken, previously, in the first year Summer Quarter. If this support is taken in the third-year Summer Quarter, Ph.D. students may qualify to receive these funds by way of the following: successful completion of the department qualifying examinations, inclusive of an oral component; receiving approval for the dissertation proposal by the dissertation reading committee by the Summer Quarter final study list deadline; and, departing for approved dissertation field research on or by the final study list deadline in the Summer Quarter of the third year.

While in the field, fourth-year students are required to make quarterly reports of their dissertation research progress to the dissertation reading committee via email. Fourth-year students returning from the field must submit the department's graduate report of degree progress form to establish eligibility for fifth year funding for degree progress and dissertation writing support, on or by May 15th in the Spring Quarter of the fourth year.

Fifth-year students are required to complete one or more full time quarterly teaching assistantship assignments. Fifth-year students who have not secured extramural funding for the sixth year are required to make at least two dissertation write-up funding applications to secure extramural or intramural funding for dissertation write-up in order to be eligible for consideration of a department teaching affiliateship in the sixth year. A department offer of teaching affiliateship is always dependent on the availability of funds and is given at the discretion of the department curriculum committee. During the fifth year and after returning from field research, students confirm Bay Area residency to be

eligible for department fifth-year dissertation writing funds. Eligibility for department support is based on dissertation writing seminar attendance and dissertation chapter production, as well as on Bay Area residency (the Bay Area is defined as Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano, or Sonoma counties)

## Program

The Ph.D. in Anthropology allows the student to develop a flexible program reflecting special research interests, under the supervision of a faculty committee, chosen by the student. Students are encouraged to plan for completion of all work for the Ph.D. in five years. Matriculation in the Ph.D. is full-time only. In order to be eligible for department and intramural support, students must reside locally through the Autumn, Winter and Spring Quarters of academic years one through five. The University oral examination may be scheduled in the fifth year or beyond depending upon a student's time to degree completion. Ph.D. students in Anthropology must complete a minimum of 135 quarter units with a minimum grade point average (GPA) of 3.0 (B). The maximum allowable number of transfer units is 45.

## Degree Options

Students may pursue one of two different tracks in the Anthropology Ph.D. program. The tracks are not declarable in Axess and do not appear on the transcript or the diploma. The tracks are:

- Archaeology
- Culture and Society

## Degree Requirements

For students who matriculate beginning 2017-18, the requirements for the doctoral degree program include the following:

1. Students must submit a department (first year) plan of study form detailing intended courses enrollment and milestone accomplishment to be completed in the first year of the Ph.D. program. The plan of study form should be submitted by the first day of Autumn Quarter. In addition, the plan of study form also confirms the department track: Archaeology or Culture and Society.
2. Students must pass six graduate level ANTHRO subject code department review courses, with a minimum grade of 'B+', appropriate to the student's chosen track, within the first two years of the degree program. Department review courses are usually those seminar-style courses, taught by tenure-line ANTHRO faculty appointed in the department, at the 300-level.
3. In the first year of the program:
  - a. pass with a minimum grade of 'B+' the theory course(s) as required for the chosen track in Archaeology or Culture and Society:

### Archaeology Track, Required Theory (Review) Course

ANTHRO 303	Introduction to Archaeological Theory	5
------------	---------------------------------------	---

### Culture and Society Track, Required Theory (Review) Courses

ANTHRO 300	Reading Theory Through Ethnography	5
ANTHRO 301	History of Anthropological Theory, Culture and Society	5
ANTHRO 301A	Foundations of Social Theory	5

- a. pass with a minimum grade of 'B+' one or more methods courses as required for the chosen track in Archaeology:

### Archaeology Track, Required Methods Course

ANTHRO 307	Archaeological Methods	5
------------	------------------------	---

(may be taken in either the first or second year of the PhD program)

- c. complete at least 45 units by the end of Spring Quarter in the first year.
  - d. as scheduled by the department, attend the department ethics workshop for review of ethics in Anthropology. Submit the department review of ethics in anthropology form on or by May 15th in Spring Quarter.
  - e. enroll in ANTHRO 310G Introduction to Graduate Studies during Autumn Quarter (all tracks).
  - f. Culture and Society track students, only, enroll in ANTHRO 311G Introduction to Culture and Society Graduate Studies in Anthropology during Winter and Spring quarters for 1-2 units (no more than 5 units total over two quarters).
  - g. attend the department colloquial series each quarter. Enrollment in ANTHRO 444 Anthropology Colloquium is optional.
  - h. attend the department brown bag series each quarter. Enrollment in ANTHRO 445 Anthropology Brown Bag Series is optional.
  - i. submit the department graduate report of degree progress form inclusive of the research proposal to the faculty adviser and the graduate program committee on or by May 15th in Spring Quarter of the first year. Receive final approval for the predissertation research proposal from the adviser and the graduate program committee by the first day of finals week in Spring Quarter.
  - j. submit at least one extramural funding application within the first year (deadlines are usually early Autumn Quarter and advanced planning is required). If ineligible to submit an extramural funding proposal due to previous graduate work, nationality, or other, submit a draft proposal in the style of a National Science Foundation (NSF) Graduate Research Fellowship Program (GRFP) to the faculty adviser.
  - k. to be eligible for exceptional funding support in the Summer Quarter of the first year, submit at least two intramural or extramural funding proposals for Summer Quarter funding support (deadlines are usually early Winter Quarter and advanced planning is required). If exceptional Summer Quarter funding support is needed, submit a petition for predissertation funding support for the Summer Quarter of the first year using a department graduate petition form on or by May 15th in the Spring Quarter. The second of two summers of predissertation field research funding support may be taken in the Summer Quarter of either the first or third year in the Ph.D. program and is provided by way of a department fellowship. Careful consideration should be given when choosing to use the Summer Quarter funding support in either the first year for a pilot study, survey work, or approved field research or, in the third year as a 'bridge to the field' to conduct approved dissertation field research.
  - l. complete the appropriate CITI tutorial for non-medical human subjects, and, either submit a non-medical human subjects protocol, based on the predissertation research proposal, to the Institutional Review Board before departing for Summer Quarter field research in the first year, or confirm approval for exempt status. Alternately, a notice of determination may be confirmed with the Institutional Review Board for a pilot study proposal that does not require protocol submission.
  - m. complete the appropriate CITI tutorial for Responsible Conduct of Research on or by May 15 in Spring Quarter.
  - n. upon completion of the above requirements, and with recommendation from the faculty adviser and department chair, request the master's degree 'on the way to the Ph.D.' by the first day of finals week in Spring Quarter, or during any other registered quarter following this time, if desired.
4. In the second year:
- a. pass with a minimum grade of 'B+' the methods course(s) appropriate for the chosen track in Archaeology or Culture and Society:

**Archaeology Track, Required Methods Course**

ANTHRO 307	Archaeological Methods	5
ANTHRO 370	Advanced Theory and Method in Historical Archaeology	5

**Culture and Society Track, Required Methods Course**

ANTHRO 306	Anthropological Research Methods	5
------------	----------------------------------	---

- b. pass with a minimum grade of 'B+' the proposal writing course appropriate for the chosen track in Archaeology or Culture and Society:

**Archaeology Track, Required Proposal Writing Course**

ANTHRO 308A	Proposal Writing Seminar in Archaeology	5
-------------	---	---

**Culture and Society Track, Required Proposal Writing Course**

ANTHRO 308	Proposal Writing Seminar in Cultural and Social Anthropology	5
------------	--	---

- c. for both tracks, submit the pre-dissertation proposal to the assigned faculty adviser and the graduate program committee by the first day of finals week in Spring Quarter. Receive approval for the draft proposal of the second year summer pre-dissertation research before departing for field research.
- d. complete at least 40 units of course work in the second year and a total of at least 50 units overall including the Summer Quarter enrollment in ANTHRO 450 Research Apprenticeship (10 units). Students must have completed a total of 95 units overall by the end of the second year.
- e. pass with a minimum grade of 'B+' any remaining ANTHRO subject code review courses to complete the six review course requirement.
- f. as scheduled by the department, attend the teaching assistant training workshop (to be scheduled during or after the week before the first day of Autumn Quarter).
- g. complete one or more full time quarterly teaching assistant assignments in the second year.
- h. submit a second year graduate report of degree progress form inclusive of a draft of the research proposal on or by May 15th in Spring Quarter. Receive approvals from the assigned faculty adviser and the graduate program committee by the first day of finals week in Spring Quarter.
- i. by the first day of finals week in Winter Quarter, confirm the qualifying examination committee adviser for each examination committee (i.e. one committee for AREA and one committee for TOPIC) by submitting the department report of qualifying examination form to the department graduate program committee.
- j. by the first day of finals week in Winter Quarter (for those whose native language is English), either pass a foreign research or field language exam, or petition the department's language committee for exemption from a foreign research or field language examination (based on a description of previous field or research language training). For those whose native language is not English, demonstrate satisfactory command of the English language, as evidenced by completion of the first two years of graduate study and a petition to the language committee.
- k. upon completion of the above requirements and at the recommendation of the Anthropology faculty, petition the University for candidacy by submitting the University application for candidacy for doctoral degree form by the first day of finals week in Winter Quarter. Advancement to candidacy is based on faculty review and approval of the predissertation research proposal demonstrating the ability to conduct independent research, analysis and interpretation. The candidacy form should be submitted no later than May 15th in Spring Quarter of the

second year. The final draft of the proposal should be submitted for review by the department faculty on or by the first day of end quarter period in the Spring quarter of the second year. Failure to advance to candidacy may result in the dismissal of the student from the program.

- i. In order to qualify for a predoctoral research affiliateship given in the Summer Quarter of the second year, Ph.D. students are required to submit at least two predissertation research funding proposals for second year Summer Quarter funding support.
5. In the third year, complete the following:
- a. by the last day of the third week of Autumn Quarter, confirm the committee reader for each of the qualifying examination committees (i.e. one committee for AREA and one committee for TOPIC) by submitting the report of qualifying examination form to the department graduate program committee.
  - b. In order to be eligible for fourth year field research funding support, submit three dissertation research grant proposals to the faculty adviser for approval by the first day of finals week in the Autumn quarter. Submit an approved extramural funding proposal to three funding agencies by the end of the Summer Quarter in the third year.
  - c. by the first day of finals week in Autumn Quarter, confirm the dissertation reading committee by submitting the University dissertation reading committee form to the graduate program committee.
  - d. During Winter Quarter in the third year, enroll in and pass the following directed reading-style courses: ANTHRO 401A Qualifying Examination: Topic and ANTHRO 401B Qualifying Examination: Area, under the section of the ANTHRO faculty adviser for each.

ANTHRO 401A	Qualifying Examination: Topic	2-5
ANTHRO 401B	Qualifying Examination: Area	2-5

1.
  - a. by the last day of third week in Winter Quarter, submit the third year department report of qualifying examination status form to the graduate program committee reaffirming committee formulation, and confirming the exam dates, preliminary qualifying bibliographies, and the proposed question set for each examination.
  - b. by the last day of finals week in Winter Quarter, complete the qualifying examinations for area and for topic (two separate examinations to be scheduled one week apart), inclusive of the final bibliographies.
  - c. by the last day of the second week in Spring Quarter, submit a draft of the dissertation proposal to the dissertation reading committee.
  - d. by the last day of the second week in Spring Quarter, confirm a scheduled meeting with the qualifying examination committee/ dissertation reading committee members for the oral component of the qualifying examinations and for review and approval of the dissertation proposal.
  - e. meet with the qualifying examination/dissertation reading committee members to review the dissertation proposal, inclusive of the oral component of the qualifying examinations, on or by May 15th in Spring Quarter.
  - f. the second of two summers of (pre)dissertation field research funding support, provided by way of a fellowship stipend, may be taken in either the first or third year Summer Quarters in the Ph.D. program. If not taken in Summer Quarter of the first year, submit the third-year Summer Quarter dissertation bridge to the field funding request via a graduate petition form on or by May 15th in Spring Quarter.

- g. by the first day of finals week in Spring Quarter, submit the approved dissertation proposal to the graduate program committee.
  - h. before departing for field research, receive approval for the non-medical human subjects protocol from the Institutional Review Board.
    - i. meet with faculty adviser to review comments for the dissertation proposal, all tracks.
    - j. full-time research, based on the approved dissertation research proposal, should start no later than the final study list deadline in the Summer Quarter of the third year.
2. In the fourth year, complete the following requirements:
- a. If necessary, successfully complete a third of three possible attempts to re-write/re-take the qualifying examinations for area and topic no later than the last day of Autumn quarter in fourth year, following the Spring quarter of the third year.
  - b. by the first day of finals week in the Autumn, Winter and Spring Quarters, submit a quarterly report of dissertation field research via email to the dissertation reading committee.
  - c. to establish eligibility for funding and to confirm Bay Area residency, submit a fourth-year department graduate report of degree progress form to the department graduate program committee on or by May 15th in the Spring Quarter of the fourth year.
  - d. submit one or more funding proposals to support the Summer Quarter of the fourth year.

3. In the fifth year, complete the following requirements:
- a. during the fifth year and after returning from field research, confirm Bay Area residency to be eligible for department fifth year dissertation writing funds. Eligibility for department support is based on dissertation writing seminar attendance as well as on Bay Area residency (the Bay Area is defined as Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano, or Sonoma counties).
  - b. during the fifth year and after returning from field research, complete one or more full time quarterly teaching assistant assignments in the department.
  - c. Culture and Society Track students, only, and during Autumn, Winter, Spring Quarters in the fifth year, students attend a minimum of four out of five class meetings of ANTHRO 400 Cultural and Social Dissertation Writers Seminar (required of Culture and Society track, only; and, recommended for the Archaeology track). In each quarter and for both tracks, chapter drafts of the dissertation must be handed in to the dissertation reading committee for review.
  - d. submit the fifth year dissertation writers report of degree progress and time to degree completion form by the last day of finals week in the Autumn, Winter and Spring Quarters.
  - e. fifth year students who have not secured funding support from the beginning of the Summer Quarter of the fifth year through the end of Summer Quarter in the sixth year, should submit one or more funding proposals for dissertation writing funding support.
4. In either the fifth year or in the sixth plus year and beyond, complete the following requirements:
- a. submit a penultimate draft of the dissertation by the last day of the first week of the quarter preceding the quarter in which the University oral examination (dissertation defense) has been scheduled; and, in which the dissertation is to be submitted in partial fulfillment of degree requirements. At the time the dissertation reading committee has confirmed the penultimate draft status, obtain approval by the dissertation reading committee using the department checklist form.
  - b. at least four weeks prior to a proposed date for the University oral examination, submit the University oral examination schedule

#### Units

form and a final draft of the dissertation, to the department graduate program committee.

- c. pass the University oral examination, inclusive of an oral presentation held at the beginning of the oral examination period (approximately 30 minutes for the public presentation with a 15 minute public discussion period preceding a closed session with the oral examination committee), prior to the final submission of the dissertation to the University Registrar and the conferral of the doctoral degree in Anthropology.

## Required Courses

### Archaeology Track

	Units
ANTHRO 303 Introduction to Archaeological Theory	5
ANTHRO 307 Archaeological Methods	5
ANTHRO 310G Introduction to Graduate Studies	2
ANTHRO 308A Proposal Writing Seminar in Archaeology	5
<b>Total Units</b>	<b>17</b>

### Culture and Society Track

	Units
ANTHRO 300 Reading Theory Through Ethnography	5
ANTHRO 301 History of Anthropological Theory, Culture and Society	5
ANTHRO 301A Foundations of Social Theory	5
ANTHRO 306 Anthropological Research Methods	5
ANTHRO 308 Proposal Writing Seminar in Cultural and Social Anthropology	5
ANTHRO 310G Introduction to Graduate Studies	2
ANTHRO 311G Introduction to Culture and Society Graduate Studies in Anthropology	2
<b>Total Units</b>	<b>29</b>

## Recommended Courses

For both tracks, quarterly attendance (during the Autumn, Winter, and Spring quarters) in the departmental colloquium is recommended for all doctoral students and required for all current first-year, second-year, and fifth-year cohort Ph.D. students. Students may enroll in the following course for additional units.

	Units
ANTHRO 444 Anthropology Colloquium	1
ANTHRO 445 Anthropology Brown Bag Series	1

## Ph.D. Minor in Anthropology

University requirements for the Ph.D. Minor are described in the Graduate Degrees section of this Bulletin.

To request the Ph.D. Minor in Anthropology, apply to the department graduate program committee at least three quarters before terminal graduate registration status is confirmed with the following materials: the University application for Ph.D. minor form, the department request for Ph.D. minor adviser form, an approved pre-dissertation proposal, confirmation of qualifying status in the Ph.D. (home) department, confirmation of Doctoral candidacy in the Ph.D. degree (home) department, proposed dates for the University oral examination and the dissertation defense, and a recommendation for consideration of the Ph.D. minor made by the Ph.D. (Minor) department adviser. Once approved, a HelpSU request to the University Registrar requesting the addition of the Ph.D. minor to the student's academic career will be submitted by the Anthropology student services officer on behalf of the Ph.D. minor applicant.

The requirements for a Ph.D. Minor in Anthropology include the following:

1. Complete 30 units of ANTHRO subject code courses at the 300 level. The courses dedicated to the Ph.D. minor must be successfully completed with a minimum (GPA) of 3.0 (B). Directed Individual Study units are not approved for the Ph.D. minor in Anthropology.
2. Request a faculty member within the Department of Anthropology who provides written consent to serve as the adviser for the Ph.D. minor and serve on the student's oral examination and dissertation reading committees.
3. With the faculty adviser, determine a coherent plan and submit the plan of study form for the Ph.D. minor.
4. Pass with a minimum grade of 'B+' three ANTHRO theory courses, and one ANTHRO course in geographical or theoretical area, for a total of four department Review courses.

For additional information regarding the Ph.D. Minor in Anthropology, consult the department website.

## Faculty

*Emeriti (Professors)* Harumi Befu, George A. Collier, Jane F. Collier, Carol Delaney, Charles O. Frake, James L. Gibbs, Jr., Renato I. Rosaldo

*Chair:* Sylvia Yanagisako

*Professors:* Lisa Curran, James Ferguson, Thomas Blom Hansen (on leave), Ian Hodder, S. Lochlann Jain, Liisa Malkki, Richard G. Klein, Tanya Luhmann, Lynn Meskell, Sylvia J. Yanagisako

*Associate Professors:* Paulla Ebron, James A. Fox, Duana Fullwiley, Angela Garcia, Miyako Inoue, Matthew Kohrman, John W. Rick, Barbara Voss

*Assistant Professors:* Andrew Bauer, Krish Seetah, Kabir Tambar, Sharika Thiranagama

*Courtesy Professors:* H. Samy Alim, Penelope Eckert, Raymond McDermott

*Emeriti Recalled:* William H. Durham

*Visiting Professors:* Ewa Domanska

*Visiting Assistant Professors:* Felicity Aulino

*Lecturers:* Claudia Engel, Sarah Ives

*Affiliated Faculty:* Li Liu, Richard White, Michael V. Wilcox

*Postdoctoral Fellows:* Joshua Brahinsky, Katherine Dennis, John Dulin, Giacomo Mantovan, Emily Ng, Rachel Smith

*Teaching Affiliates:* E'lana Jordan, Johanna Markkula, John Moran, Kathryn Takabvirwa

## Overseas Studies Courses in Anthropology

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		<b>Units</b>
OSPBER 51	Dance on the Edge in Germany	1-2
OSPCPTWN 36	The Archaeology of Southern African Hunter Gatherers	4
OSPKYOTO 27	Japanese Popular Culture	4
OSPKYOTO 41	Queer Culture and Life in Japan	4
OSPOXFRD 93	Collecting the World	4-5
OSPPARIS 68	France: Birthplace of Human Rights	5

# APPLIED PHYSICS

Courses offered by the Department of Applied Physics are listed under the subject code APPPHYS on the Stanford Bulletin's ExploreCourses web site.

The Department of Applied Physics offers qualified students with backgrounds in physics or engineering the opportunity to do graduate course work and research in the physics relevant to technical applications and natural phenomena. These areas include accelerator physics, biophysics, condensed matter physics, nanostructured materials, quantum electronics and photonics, quantum optics and quantum information, space science and astrophysics, synchrotron radiation and applications.

Student research is supervised by the faculty members listed above and also by various members of other departments such as Biology, Chemistry, Electrical Engineering, Materials Science and Engineering, Physics, the SLAC National Accelerator Laboratory, and faculty of the Medical School who are engaged in related research fields.

Research activities are carried out in laboratories including the Geballe Laboratory for Advanced Materials, the Edward L. Ginzton Laboratory, the Hansen Experimental Physics Laboratory, the SLAC National Accelerator Laboratory, the Center for Probing the Nanoscale, and the Stanford Institute for Materials and Energy Science.

The number of graduate students admitted to Applied Physics is limited. Applications to the Master of Science and Ph.D. programs should be received by December 12, 2017. M.S. and Ph.D. students normally enter the department only in Autumn Quarter.

## Graduate Programs in Applied Physics

The Department of Applied Physics offers three types of advanced degrees:

- the Doctor of Philosophy
- the coterminal Master of Science in Applied and Engineering Physics
- the Master of Science in Applied Physics, either a terminal degree or an en route degree to the Ph.D. for students enrolled in the Applied Physics Department

Admission requirements for graduate work in the Master of Science and Ph.D. programs in Applied Physics include a bachelor's degree in Physics or an equivalent engineering degree. Students entering the program from an engineering curriculum should expect to spend at least an additional quarter of study acquiring the background to meet the requirements for the M.S. and Ph.D. degrees in Applied Physics.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in Applied Physics and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in Applied Physics. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of Applied Physics and to interpret and present the results of such research.

## Coterminal Master of Science in Applied and Engineering Physics

Stanford undergraduates, regardless of undergraduate major, who are interested in a M.S. degree at the intersection of applied physics and engineering may choose to apply for the coterminal Master of Science program in Applied and Engineering Physics. The program is designed to be completed in a fifth year at Stanford. Students with accelerated undergraduate programs may be able to complete their B.S. and coterminal M.S. in four years.

### Application and Admission

Undergraduates must be admitted to the program and enrolled as a graduate student for at least one quarter prior to B.S. conferral. Applications will be due on the last day of class of the Spring Quarter for Autumn matriculation and at least four weeks before the last day of class in the previous quarter for Winter or Spring matriculation. All application materials must be submitted directly to the Applied Physics department office by the deadlines. To apply for admission to the Applied and Engineering Physics coterminal M.S. program, students must submit the coterminal application which consists of the following:

- Application for Admission to Coterminal Master's Program (<https://registrar.stanford.edu/students/coterminal-degree-programs/applying-coterm>)
- Statement of Purpose
- Unofficial Transcript
- Two Letters of Recommendation from members of the Stanford faculty
- Supplemental Form (<http://www.stanford.edu/dept/app-physics/cgi-bin/aep-application-process>)

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken three quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

### Program Requirements

Coterminal M.S. students are required to take 45 units of course work during their graduate career. Of these 45 units, the following are required.

#### Four Breadth Courses (required)

APPPHYS 201    Electrons and Photons

Units

4

APPPHYS 203	Atoms, Fields and Photons	4
APPPHYS 204	Quantum Materials	4
APPPHYS 205	Introduction to Biophysics	4
<b>Three Engineering Depth Courses</b>		9
At least one must be at the 300 level and the other courses must be at the 200 level or above to provide depth in one area. To be approved by the Applied Physics academic adviser.		
<b>One Laboratory or Methods Course</b>		3-4
APPPHYS 207	Laboratory Electronics	
APPPHYS 208	Laboratory Electronics	
APPPHYS 215	Numerical Methods for Physicists and Engineers	
APPPHYS 217	Estimation and Control Methods for Applied Physics	
APPPHYS 232	Advanced Imaging Lab in Biophysics	
EE 234	Photonics Laboratory	
EE 251	High-Frequency Circuit Design Laboratory	
EE 312	Integrated Circuit Fabrication Laboratory	
ENGR 341	Micro/Nano Systems Design and Fabrication	
ENGR 342	MEMS Laboratory II	
MATSCI 322	Transmission Electron Microscopy Laboratory	
MATSCI 331	Atom-based computational methods for materials	
<b>Seminar</b> <sup>1</sup>		3
<b>Approved Technical Electives</b> <sup>2</sup>		6-12
6 units minimum that brings up the total units to 45		
<b>Total Units</b>		45

<sup>1</sup> The seminar requirement can be fulfilled by either (i) taking one formal seminar course for credit each term, and/or (ii) enrolling in Applied Physics 290 and attending a minimum of 8 informal talks or formal research seminars during each of the three terms. Students enrolling in Applied Physics 290 must submit with their final M.S. program proposal a list of the 8 talks/seminars with a paragraph describing the content, signed by their academic adviser.

<sup>2</sup> These include APPPHYS, CS, CME, EE, ME, BIOE, MATSCI, PHYSICS courses (see <http://www.stanford.edu/dept/app-physics/cgi-bin/academic-programs/>) as well as those courses that are formally approved by the Applied Physics Graduate Studies Committee through petition.

Any request for a course transfer from the undergraduate career is subject to approval of the undergraduate and graduate departments.

## Master of Science in Applied Physics

The University's basic requirements for the master's degree are discussed in the "Graduate Degrees (p. 50)" section of this bulletin. The minimum requirements for the degree are 45 units, of which at least 39 units must be graduate-level courses in applied physics, engineering, mathematics, and physics. The required program consists of the following:

<b>Advanced Mechanics</b>		3
Select one of the following:		
PHYSICS 210	Advanced Mechanics	
PHYSICS 211	Continuum Mechanics (approved substitute)	
<b>Electrodynamics</b>		3
PHYSICS 220	Classical Electrodynamics	
<b>Quantum Mechanics</b>		6
Select two of the following:		
PHYSICS 230	Graduate Quantum Mechanics I	
PHYSICS 231	Graduate Quantum Mechanics II	

EE 222	Applied Quantum Mechanics I (approved substitute)	
EE 223	Applied Quantum Mechanics II (approved substitute)	
PHYSICS 234	Advanced Topics in Quantum Mechanics (approved substitute)	
PHYSICS 330	Quantum Field Theory I (approved substitute)	
PHYSICS 331	Quantum Field Theory II (approved substitute)	
PHYSICS 332	Quantum Field Theory III (approved substitute)	

### Units

APPPHYS 290	Directed Studies in Applied Physics	
1-unit seminar courses		
Examples of suitable courses include:		
EE 222	Applied Quantum Mechanics I	
EE 223	Applied Quantum Mechanics II	
EE 236A	Modern Optics	
EE 236C	Lasers	
EE 332	Laser Dynamics	
EE 346	Introduction to Nonlinear Optics	
PHYSICS 372	Condensed Matter Theory I	
PHYSICS 373	Condensed Matter Theory II	

1. Courses in Physics and Mathematics to overcome deficiencies, if any, in undergraduate preparation.
2. Basic graduate courses (letter grade required):
  - 33 units of additional advanced courses in science and/or engineering. May be any combination of APPPHYS 290 Directed Studies in Applied Physics, any 1-unit course, and regular courses. At least 18 of these 33 units must be taken for a letter grade. 15 of these 18 units must be at the 200-level or above. Only 6 units below the 200-level are permitted without approval by the Applied Physics Graduate Study Committee.
3. A final overall grade point average (GPA) of 3.0 (B) is required for courses used to fulfill degree requirements.

There are no department nor University examinations. There is no thesis component. If a student is admitted to the M.S. program only, but later wishes to change to the Ph.D. program, the student must apply to the department's admissions committee.

## Doctor of Philosophy in Applied Physics

The University's basic requirements for the Ph.D. including residency, dissertation, and examinations are discussed in the "Graduate Degrees (p. 50)" section of this bulletin. The program leading to a Ph.D. in Applied Physics consists of course work, research, qualifying for Ph.D. candidacy, a research progress report, a University oral examination, and a dissertation as follows:

1. <i>Course Work:</i>		
<b>Statistical Physics</b>		3-4
Select one of the following: <sup>1</sup>		
APPPHYS 217	Estimation and Control Methods for Applied Physics	
APPPHYS 315	Methods in Computational Biology	
PHYSICS 212	Statistical Mechanics	
<b>Electrodynamics</b> <sup>1</sup>		3
PHYSICS 220	Classical Electrodynamics	

### Units

**Quantum Mechanics** 3

Select one of the following:<sup>1</sup>

PHYSICS 230	Graduate Quantum Mechanics I	
PHYSICS 231	Graduate Quantum Mechanics II	
EE 222	Applied Quantum Mechanics I (approved substitute)	
EE 223	Applied Quantum Mechanics II (approved substitute)	
PHYSICS 234	Advanced Topics in Quantum Mechanics (approved substitute)	
PHYSICS 330	Quantum Field Theory I (approved substitute)	
PHYSICS 331	Quantum Field Theory II (approved substitute)	
PHYSICS 332	Quantum Field Theory III (approved substitute)	

**Laboratory** 3-4

Select one of the following:<sup>2</sup>

APPPHYS 207	Laboratory Electronics	
APPPHYS 208	Laboratory Electronics	
APPPHYS 232	Advanced Imaging Lab in Biophysics	
BIOE 370	Microfluidic Device Laboratory	
EE 234	Photonics Laboratory	
EE 312	Integrated Circuit Fabrication Laboratory	
MATSCI 171	Energy Materials Laboratory	
MATSCI 172	X-Ray Diffraction Laboratory	
MATSCI 173	Mechanical Behavior Laboratory	
PHYSICS 301	Astrophysics Laboratory	

<sup>1</sup> Additional courses to fulfill this requirement are being reviewed by the department curriculum committee and will be added here when they have been approved.

<sup>2</sup> Students who took APPPHYS 304 or APPPHYS 305 in previous years may also count these courses towards this requirement.

- Courses in Physics and Mathematics to overcome deficiencies, if any, in undergraduate preparation.
- Basic graduate courses:* These requirements may be totally or partly satisfied with equivalent courses taken elsewhere, pending the approval of the graduate study committee. Letter grades required for all courses:
- 18 units of additional advanced courses in science and/or engineering. At least one course in each of two areas other than those of the student's research specialization is required. Only 3 units at the 300 or above level may be taken on a satisfactory/no credit basis. Units from APPPHYS 290, APPPHYS 390, and any 1-unit courses do not count towards this requirement. Examples of suitable courses include:

EE 222	Applied Quantum Mechanics I	3
EE 223	Applied Quantum Mechanics II	3
EE 236A	Modern Optics	3
EE 236C	Lasers	3
EE 332	Laser Dynamics	3
EE 346	Introduction to Nonlinear Optics	3
PHYSICS 372	Condensed Matter Theory I	3
PHYSICS 373	Condensed Matter Theory II	3

- Additional units of courses as needed to meet the minimum residency requirement of 135. Directed study and research units as well as 1-unit seminar courses can be included.
- A final average overall grade point average (GPA) of 3.0 (B) is required for courses used to fulfill degree requirements.

f. Students are normally expected to complete the specified course requirements by the end of their third year of graduate study.

- Research:* may be conducted in a science/engineering field under the supervision of a member of the Applied Physics faculty or appropriate faculty from other departments.
- Ph.D. Candidacy:* satisfactory progress in academic and research work, together with passing the Ph.D. candidacy qualifying examination, qualifies the student to apply for Ph.D. candidacy, and must be completed before the third year of graduate registration. The examination consists of a seminar on a suitable subject delivered by the student before the faculty academic adviser (or an approved substitute) and two other members of the faculty selected by the department.
- Research Progress Report:* normally before the end of the Winter Quarter of the fourth year of enrollment in graduate study at Stanford, the student arranges to give an oral research progress report of approximately 45 minutes, of which a minimum of 15 minutes should be devoted to questions from the Ph.D. reading committee.
- University Ph.D. Oral Examination:* consists of a public seminar in defense of the dissertation, followed by private questioning of the candidate by the University examining committee.
- Dissertation:* must be approved and signed by the Ph.D. reading committee.

*Emeriti:* (Professors) Malcolm R. Beasley, Arthur Bienenstock, Alexander L. Fetter, Theodore H. Geballe, Stephen E. Harris, Walter A. Harrison, Peter A. Sturrock, Yoshihisa Yamamoto; (Professors, Research) Calvin F. Quate, Helmut Wiedemann, Herman Winick; (Courtesy) Gordon S. Kino, Douglas D. Osheroff

*Chair:* Martin M. Fejer

*Professors:* Steven M. Block, Philip H. Bucksbaum (on leave Autumn), Robert L. Byer, Sebastian Doniach (on leave Spring), Martin M. Fejer, Daniel S. Fisher, Ian R. Fisher, Tony F. Heinz, Harold Y. Hwang, Aharon Kapitulnik, Mark A. Kasevich, Young S. Lee, Hideo Mabuchi, Kathryn A. Moler, Vahé Petrosian, Stephen R. Quake, Zhi-Xun Shen, Yuri Suzuki

*Associate Professors:* Benjamin L. Lev, David A. Reis, Mark J. Schnitzer (on leave Autumn, Winter)

*Assistant Professors:* Surya Ganguli, Amir H. Safavi-Naeini

*Professor (Research):* Michel J-F. Digonnet

*Courtesy Professors:* Mark L. Brongersma, Bruce M. Clemens, Shanhui Fan, David Goldhaber-Gordon, James S. Harris, Lambertus Hesselink, David A. B. Miller, W. E. Moerner, Jelena Vuckovic, Shoucheng Zhang

*Courtesy Associate Professors:* William J. Greenleaf, Zhirong Huang, Andrew J. Spakowitz

*Adjunct Professors:* Thomas M. Baer, Raymond G. Beausoleil, John D. Fox, Richard M. Martin

# ARCHAEOLOGY

Courses offered by the Archaeology Program are listed under the subject code ARCHLGY on the Stanford Bulletin's ExploreCourses web site.

Archaeology is the study of the past through its material remains that survive into the present. Archaeology is a discipline that offers direct access to the experiences of a wide range of people in numerous cultures across the globe. Increasingly, archaeology bridges past and present societies through the study of the human heritage and its role in contemporary societies. Stanford's Archaeology Program provides students with an interdisciplinary approach to the material remains of past societies, drawing in equal parts on the humanities, social sciences, and natural sciences.

The Archaeology curriculum draws on faculty from a wide range of University departments and schools. To complete the requirements for the major, students must take courses from the offerings of the program and from the listings of other University departments. The program culminates in a Bachelor of Arts (B.A.) in Archaeology.

## Mission of the Undergraduate Program in Archaeology

The mission of the undergraduate program in Archaeology is to provide students with a broad and rigorous introduction to the analysis of the material culture of past societies, drawing on the questions and methods of the humanities, social sciences, and natural sciences. Students in the major learn to relate these analyses to the practice of archaeology in the contemporary world. The program seeks to help each student achieve a high level of understanding through concentrated study of a particular research area. Courses in the major complete a comprehensive curriculum that draws on faculty from a wide range of University departments and programs. Archaeology majors are well prepared for advanced training in professional schools such as education, law, and journalism and, depending upon their choice of upper-division course, graduate programs in the humanities, social sciences, and natural sciences.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to:

1. demonstrate an understanding of core knowledge of the history of thought and basic theoretical foundations in archaeology.
2. write clearly and persuasively, communicating ideas about archaeology to multiple audiences and different communities, from the scholarly and to the general public in a variety of formats.
3. learn about the development of archaeology as a discipline and the major trends that have influenced thinking and writing about archaeology today.
4. demonstrate their mastery of the broad historical and theoretical trends in the field through critique of research within archaeology.

## Bachelor of Arts in Archaeology

To declare a major in Archaeology, students should apply for the B.A. in Archaeology on AxBSS and contact the student services specialist, who provides an application form, answers initial questions, and helps the student choose a faculty adviser. Students should declare by the beginning of their junior year.

All majors must complete 65 units with an overall minimum grade of 'C', which must form a coherent program of study and be approved by the student's faculty adviser and the program director.

Students who plan to pursue graduate work in Archaeology should be aware of the admission requirements of the particular departments to which they intend to apply. These vary greatly. Early planning is advisable to guarantee completion of major and graduate school requirements.

## Degree Requirements

The B.A. in Archaeology requires a minimum of 65 units in the major, with an overall minimum grade of 'C', and no more than 10 units may be taken for pass/nopass credit. The major requirements are divided among five components. A course may only be used once to fulfill a component.

### 1. Core Courses

	Units
20 units must be taken for a letter grade (minimum passing grade of 'B')	
ARCHLGY 1 Introduction to Archaeology (Gateway)	5
ARCHLGY 102 Archaeological Methods (Intermediate)	5
ARCHLGY 103 History of Archaeological Thought (Intermediate)	5
ARCHLGY 107A Archaeology as a Profession (Capstone)	5
<b>Total Units</b>	<b>20</b>

ARCHLGY 1 Introduction to Archaeology is recommended as a first course. Many upper-level courses in Archaeology require this course as a prerequisite. Students should normally take the capstone course in their final year of course work in the major.

### 2. Analytical Methods and Computing (5 units)

Quantitative skills and computing ability are indispensable to archaeologists. It is recommended that students take one of the following:

	Units
Select one of the following:	5
ANTHRO 98B Digital Methods in Archaeology (recommended)	
PSYCH 10/ INTRODUCTION TO STATISTICAL METHODS: PRECALCULUS STATS 60	
ECON 102A INTRODUCTION TO STATISTICAL METHODS (POSTCALCULUS) FOR SOCIAL SCIENTISTS	

### 3. Archaeological Skills (10 units)

Archaeological skills include archaeological formation processes, botanical analysis, cartography, ceramic analysis, dating methods, faunal analysis, geographic information systems, geology, geophysics, genetics, osteology, remote sensing, soil chemistry, and statistics. With the approval of the instructor and Archaeology director, undergraduates may fulfill part of this requirement from graduate-level courses (typically courses with catalog numbers of 200 or higher).

	Units
ARCHLGY 119 Zooarchaeology: An Introduction to Faunal Remains	5
ARCHLGY 124 Archaeology of Food: production, consumption and ritual	3-5
ANTHRO 103A Human Osteoarchaeology	5
ANTHRO 175 Human Skeletal Anatomy	5

### 4. Theory (at least 10 units)

Topics include archaeological, art-historical, sociocultural, historical, and material culture theory. With the approval of the instructor,

undergraduates may fulfill part of this requirement from graduate-level courses (typically courses with catalog numbers of 200 or higher).

		Units
ARCHLGY 151	Ten Things: An Archaeology of Design	3
ANTHRO 90B	Theory of Cultural and Social Anthropology	5
ANTHRO 117	Thinking Through Animals	5
ANTHRO 125	Language and the Environment	3
ANTHRO 134	Object Lessons	5
ANTHRO 147	Nature, Culture, Heritage	5

### 5. Electives (20 units)

Select from any of the courses listed below. Courses are arranged around a regional or thematic focus, and therefore, may appear more than once. Students have the option of taking courses around a theme or concentration, and are encouraged to do so by consulting with their faculty adviser(s) to design a course plan. Courses other than those on this list can be used to fulfill this requirement with prior approval of the student's faculty adviser and program director. With the approval of instructor, undergraduates may fulfill part of this requirement from graduate-level courses, typically courses numbered 200 or higher.

#### • World Archaeology: Mediterranean

		Units
ARCHLGY 118	Engineering the Roman Empire	4-5
ARCHLGY 145	Sailing the Wine-Dark Sea: Maritime Archaeology of the Ancient Mediterranean	3
CLASSICS 51	Introduction to Greek Archaeology	3-5
CLASSICS 52	Introduction to Roman Archaeology	3-5
CLASSICS 169	Archaeology of Britannia	3-4

#### • World Archaeology: Americas

		Units
ARCHLGY 10		3-5
ARCHLGY 102B	Incas and their Ancestors: Peruvian Archaeology	3-5
ANTHRO 30Q	The Big Shift	4

#### • World Archaeology: Asia

		Units
ARCHLGY 111	Emergence of Chinese Civilization from Caves to Palaces	3-4
ARCHLGY 135	Constructing National History in East Asian Archaeology	3-5

#### • Heritage

		Units
ARCHLGY 13	Islamic Routes: Archaeology and Heritage of Muslim Societies	3-5
ARCHLGY 135	Constructing National History in East Asian Archaeology	3-5
ARCHLGY 143	Classical Archaeology Today: Ethical Issues of Excavation, Ownership, and Display	3
ANTHRO 112	Public Archaeology: Market Street Chinatown Archaeology Project	4-5
ANTHRO 112B	Advanced Study in Public Archaeology	2-5
ANTHRO 147	Nature, Culture, Heritage	5
THINK 22	Who Owns the Past? Archaeology, Heritage and Global Conflicts	4

#### • Urbanism and Cities

		Units
ANTHRO 112	Public Archaeology: Market Street Chinatown Archaeology Project	5
ANTHRO 112B	Advanced Study in Public Archaeology	2-5

### 6. Archaeological Fieldwork

Students must take part in a month-long Stanford Archaeology Center field project directed by a Stanford faculty member, and enroll in any coursework that is required for participation in the field project. Projects are typically offered during summer months and funding may be provided. In summer 2013, field schools were located in: Turkey, Peru, China, Mauritius and Italy.

### 7. Collateral Language Requirement

All Archaeology majors must demonstrate competence in a foreign language beyond the first-year level. Students can meet this requirement by completing a course beyond the first-year level with a grade of 'B' or better, and are encouraged to choose a language that has relevance to their archaeological region or topic of interest. Students may petition to take an introductory-level course in a second language to fulfill this requirement by demonstrating the connection between the language(s) and their research interest(s).

### 8. Research and Independent Study

Students may count up to 5 units of research and independent study toward the Archaeology major:

		Units
including but not limited to:		
ARCHLGY 190	Archaeology Directed Reading/Independent Study	1-5
ARCHLGY 195	Independent Study/Research	1-5
ARCHLGY 199	Honors Independent Study	5

### Honors Program

The honors program in Archaeology gives qualified majors the chance to work closely with faculty on an individual research project culminating in an honors thesis. Students may begin honors research from a number of starting points, including topics introduced in the core or upper-division courses, independent interests, research on artifacts in Stanford's collections, or fieldwork experiences.

Interested Archaeology majors of junior standing may apply for admission by submitting an honors application form, including a 4-5 page statement of the project, a transcript, and a letter of recommendation from the faculty member supervising the honors thesis to the student services specialist, no later than the end of the fourth week of the Spring Quarter. Archaeology majors are eligible to apply for honors candidacy. The thesis is due in early May of the senior year and is read by the candidate's adviser and a second reader appointed by the undergraduate committee.

### Overseas Studies Courses in Archaeology

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) web site or the Bing Overseas Studies (<http://bossp.stanford.edu>) web site. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

### Minor in Archaeology

A minor in Archaeology provides an introduction to the study of the material cultures of past societies. It can complement many majors, including but not limited to Anthropology, Applied Physics, Art and Art

History, Classics, Earth Systems, Geological and Environmental Sciences, History, and Religious Studies.

Students must complete the declaration process, including the planning form submission and Axxess registration, by the last day of the quarter, two quarters prior to degree conferral; for example, by the last day of Autumn Quarter if Spring graduation is the intended quarter of graduation.

## Requirements

To minor in Archaeology, students must complete at least 27 units of relevant course work, including:

### 1. Core Program (10 units)

ARCHLGY 1	Introduction to Archaeology (Gateway Course, Required)	3-5
ARCHLGY 103	History of Archaeological Thought	5
ARCHLGY 107A	Archaeology as a Profession	5

is recommended as a first course, and many of the upper-level courses in Archaeology require this course as a prerequisite. Students have the option to take ARCHLGY 103 History of Archaeological Thought or ARCHLGY 107A Archaeology as a Profession to fulfill the rest of the 10 unit core requirement for the minor.

### 2. Archaeological Skills (2-5 units)

Archaeological skills include dating methods, faunal analysis, botanical analysis, ceramic analysis, geology, geophysics, soil chemistry, remote sensing, osteology, genetics, statistics, cartography, and geographic information systems. The course(s) must be chosen from the list of courses under Archaeological Skills (requirement 3) in the Bachelor's tab of this section.

### 3. Theory (5 units)

Topics include archaeological, art historical, sociocultural, historical, and material culture theory. The course(s) must be chosen from the list of courses under Theory (requirement 4) in the Bachelor's tab of this section.

### 4. Electives (10 units)

Select courses from the list of courses under Electives (requirement 5) in the Bachelor's tab of this section. Students have the option of taking courses around a theme or concentration, and are encouraged to do so by consulting their faculty advisers to design a course plan.

Archaeology is an interdisciplinary program. Students should meet with their adviser about degree requirements and the applicability of courses from other University departments to the Archaeology major or minor. Applicable courses are commonly found in Anthropology (ANTHRO) and Classics (CLASSICS), but are not limited to these departments. Please check with your adviser and the program director for course approvals.

*Director:* Ian Hodder (Anthropology)

*Department Faculty:*

*Professors:* Ian Hodder (Anthropology), Li Liu (East Asian Languages and Cultures), Gail Mahood (Geological Sciences), Lynn Meskell (Anthropology), Ian Morris (Classics), Michael Shanks (Classics)

*Associate Professors:* Giovanna Ceserani (Classics), Jody Maxmin (Art and Art History, Classics), John Rick (Anthropology), Jennifer Trimble (Classics), Barbara Voss (Anthropology)

*Assistant Professors:* Andrew Bauer (Anthropology), Justin Leidwanger (Classics, on leave), Krish Seetah (Anthropology)

*Associated Faculty:* Christina Hodge (Academic Curator & Collections Manager), Laura Jones (Campus Archaeologist)

*Postdoctoral Fellows:* Maureece Levin (Archaeological Science), Elisabeth Niklasson (Heritage)

*Affiliated Faculty:*

*Professors:* Rob Dunbar (Earth Sciences), Mark Lewis (Chinese Culture, Religious Studies), J. Moldowan (Geological and Environmental Sciences), Amos Nur (Earth Sciences), Peter Vitousek (Earth System Science)

### Units

*Associate Professors:* Paulla Ebron (Anthropology), James A. Fox (Anthropology, Iberian and Latin American Cultures, Linguistics, on leave A), Grant Parker (Classics)

*Staff:* Apurva Mehta (SLAC National Accelerator Laboratory)

## Overseas Studies Courses in Archaeology

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		Units
OSPCPTWN 16	Sites of Memory	2
OSPCPTWN 36	The Archaeology of Southern African Hunter Gatherers	4
OSPAUSTL 40	Australian Studies	3

# ART AND ART HISTORY

Courses offered by the Department of Art & Art History are listed on the Stanford Bulletin's ExploreCourses web site under the subject codes ARTHIST (Art History), ARTSTUDI (Art Practice), FILMSTUD (Film Studies), and FILMPROD (Film Practice).

## Mission of the Department of Art and Art History

The department offers courses of study in:

1. Art History
2. Art Practice (studio)
3. Design
4. Film and Media Studies
5. Film Production

leading to the following degrees: B.A. degree in Art History; B.A. degree in Art Practice; B.A. degree in Film and Media Studies; M.F.A. degree in Art Practice; M.F.A. degree in Documentary Film and Video; Ph.D. degree in Art History.

The undergraduate program is designed to help students think critically about the visual arts and visual culture. Courses focus on the meaning of images and media, and their historical development, roles in society, and relationships to disciplines such as literature, music, and philosophy. Work performed in the classroom, studio, and screening room is designed to develop a student's powers of perception, capacity for visual analysis, and knowledge of technical processes.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program.

Students in historical studies are expected to demonstrate:

1. knowledge and awareness of art and/or film terminology and concepts;
2. ability to develop effective and nuanced lines of interpretation;
3. improved critical thinking skills using primary and secondary source materials;
4. improvement in analytical writing skills and close reading skills;
5. ability to form and validate their own and others' opinions through knowledge of artistic movements and sociohistorical events.

Students in creative art are expected to demonstrate:

1. enhanced awareness of the role of art in intellectual and cultural life;
2. problem solving skills to organize, analyze and interpret visual information;
3. mastery of techniques and materials of a discipline with awareness of historical and current practices;
4. selection of materials, processes, form, and content to achieve poetic and expressive relationships to artistic media;
5. ability to apply critical analysis to the student's own work and the work of others;
6. effective techniques for the preparation and presentation of work consistent with professional practices in the field.

## Learning Outcomes (Graduate)

The purpose of the master's programs is to further develop knowledge and skills in Art and Art History and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates in Art History (including Film and Media Studies) who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in their respective disciplines. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to knowledge in their fields and to interpret and present the results of their research.

## Iris and B. Gerald Cantor Center For Visual Arts

The Cantor Arts Center at Stanford University is a major resource for the department. The Cantor presents art from around the world in 24 galleries: from Africa to the Americas to Asia, and from ancient to contemporary periods. The Cantor offers changing selections from its 30,000-object collection; the Rodin Sculpture Garden; special exhibitions; and a variety of educational programs. Through collaborations with the teaching program, student internships, and student activities, the Cantor provides a rich resource for Stanford students.

## Art History

### Undergraduate Program in Art History

The discipline of Art History teaches students how to analyze and interpret works of fine art (paintings, drawings, prints, and sculpture), photography and moving image media (film, video, television, and digital art), material culture (ritual objects, fashion, advertisements, and the decorative, applied, and industrial arts), and the built environment (architecture, urbanism, and design). The department takes it as axiomatic that the skills of visual literacy and analysis are not innate but may be acquired through training and practice. Objects of study are drawn from the cultures of Africa, Asia, the Americas, from the Middle East; from Western, Central, and Eastern Europe; and from antiquity to the present.

Art History is a historical discipline that seeks to reintegrate the work of art into the original context of its making and reception, foregrounding its significant status as both historical document and act of social communication. At the same time, Art History seeks to understand the ways in which the work of art transcends the historical moment of its production, taking on different meanings in later historical periods, including the present. As part of their visual training, students of Art History become proficient in cultural analysis and historical interpretation. Art History thus envisions itself as uniquely well positioned to train students from a variety of disciplines in the light of the dramatic visual turn that has gripped the humanities and the sciences over the course of the last decade, with more and more disciplines becoming vitally interested in visual forms and modes of communication.

### Graduate Program in Art History

The doctoral program in Art History at Stanford is relatively small, and affords the graduate student the opportunity to work intensively with individual members of the faculty. The Doctor of Philosophy degree is taken in a particular field, supported by a background in the general history of art. Doctoral candidates also undertake collateral studies in other graduate departments or in one of the University's interdisciplinary programs.

## Art Practice (Studio)

### Undergraduate Program in Art Practice (Studio)

The Art Practice program offers production-based courses founded on the concepts, skills and cultural viewpoints that characterize contemporary art practice. The goal is to educate students, both majors and minors, in the craft, culture, and theory of current fine art practices to prepare them for successful careers as artists. The art practice program is designed to develop in-depth skills in more than one area of the visual arts. It emphasizes the expressive potential of an integration of media, often via a cross-disciplinary, interactive path. Through collaboration and connections with scientists, engineers, and humanities scholars, the program addresses a breadth of topical and artistic concerns central to a vital undergraduate education.

### Graduate Program in Painting, Sculpture, New Genres, and Photography

The program provides a demanding course of study designed to challenge advanced students. Participants are chosen for the program on the basis of work that indicates high artistic individuality, achievement, and promise. Candidates should embody the intellectual curiosity and broad interests appropriate to, and best served by, work and study within the University context.

## Film and Media Studies

### Undergraduate Program in Film and Media Studies

The Bachelor of Arts in Film and Media Studies provides an introduction to film aesthetics, history, national cinematic traditions, modes of production in narrative, documentary, and experimental films, the incorporation of moving image media by contemporary artists, and the proliferation of new forms of digital media. The program is designed to develop the critical vocabulary and intellectual framework for understanding the role of cinema and related media within broad cultural and historical concepts.

### Graduate Program in Documentary Film and Video

The Master of Fine Arts program in documentary production provides a historical, theoretical, and critical framework within which students master the conceptual and practical skills for producing nonfiction film and video. The M.F.A. is a terminal degree program with a two-year, full-time curriculum representing a synthesis of film praxis and film and media history, theory, and criticism. Courses provide an intellectual and theoretical framework within which students' creative work is developed. Students proceed through the program as a cohort. The program does not permit leaves of absence.

The M.F.A. degree is designed to prepare graduate students for professional careers in film, video, and digital media. Graduates are qualified to teach at the university level. The philosophy of the program is predicated on a paradigm of independent media that values artistic expression, social awareness, and an articulated perspective. Students become conversant with the documentary tradition as well as with alternative media and new directions in documentary. Training in documentary production is combined with the development of research skills in film criticism and analysis. Electives in film studies, art history, and studio art provide an intellectual and theoretical framework within which creative work is realized. The parallel focus on production and studies prepares students for an academic position that may require teaching both film studies and production.

## Art and Art History Department Course Catalog Numbering System

The first digit of the ARTHIST and FILMSTUD course number indicates its general level of sophistication.

Digit	Area
001-099	Introductory
100-199	Undergraduate level lectures
200-299	Undergraduate seminars/individual work
300-399	Graduate level lectures
400-599	Graduate seminars/individual work

### Art History

Digit	Area
001-099	Introductory
100-104	Ancient
105-109	Medieval
110-119	Renaissance
120-139	Early Modern
140-159	Modern
160-179	Contemporary
180-189	Asia
190-195	Africa and the Americas
200-299	Seminars and Colloquia
410-499	Historical Studies
500-599	Critical Studies
600-699	Graduate Research

### Art Practice (Studio)

Digit	Area
001-099	Courses for Non-Major (Lower Level)
100-199	Lower Level Undergraduate Courses
200-299	Upper Level Undergraduate Courses
300-399	Graduate Seminars

### Film and Media Studies

Digit	Area
004-103	Introductory
111-118	Genre
130-139	National Cinemas
140-149	Aesthetics
150-159	Other
220-299	Undergraduate Seminars
400-660	Graduate Seminars

### Film Production

Digit	Area
001-199	Undergraduate Courses
300-399	Graduate Courses
400-499	Graduate Courses for MFA Doc Film Students Only

# Bachelor of Arts in Art History

## Suggested Preparation for the Major

Students considering a major in art history should take either ARTHIST 1A Introduction to the Visual Arts: Prehistoric through Medieval or ARTHIST 1B Introduction to the Visual Arts: History of Western Art from the Renaissance to the Present, during their freshman or sophomore year.

## Fields of Study or Degree Options

Students who wish to major in Art History must meet with the undergraduate coordinator. At that time the student selects a faculty adviser and declares the major on Axess. Concentrations within the major are approved by the student's major adviser and are not declared on Axess. Sample concentrations include:

1. Topical concentrations: art and gender; art, politics, race, and ethnicity; art, science, and technology; urban studies
2. Genre concentrations: architecture; painting; sculpture; film studies; prints and media; decorative arts and material culture
3. Historical and national concentrations: ancient and medieval; Renaissance and early modern; modern and contemporary; America; Africa; Asia; the Americas
4. Interdisciplinary concentrations: art and literature; art and history; art and religion; art and economics; art and medicine (with adviser consent a maximum of two concentration courses may be taken outside the department).

## Degree Requirements

All undergraduate majors complete a minimum of 65 units (15 courses that carry 4 or 5 units each). Students are required to complete four core courses, two seminar courses for the major (ARTHIST 294 Writing and the Visual: Photography and Truth and ARTHIST 296 Junior Seminar: Methods & Historiography of Art History), five Art History foundation courses, three concentration courses, one of which must be a seminar, and one Art Practice course (4 units). Courses must be taken for a letter grade. Completing a full year of ITALIC can count as an Art History elective. Majors are required to attend an orientation session presented by the professional staff of the Art and Architecture Library, which introduces the tools of research and reference available on campus or through the Internet. This requirement should be completed no later than the quarter following the major declaration.

## Required Courses

### 1. Core Courses (20 units)

Select four of the following:

ARTHIST 1A	Introduction to the Visual Arts: Prehistoric through Medieval (meets WAY A-II and ED)	5
ARTHIST 1B	Introduction to the Visual Arts: History of Western Art from the Renaissance to the Present (meets WAY A-II)	5
ARTHIST 2	Asian Arts and Cultures (meets WAY A-II)	5
ARTHIST 3	Introduction to World Architecture (meets WAY A-II)	5
FILMSTUD 4	Introduction to Film Study (meets WAY A-II)	5

### 2. Foundation Courses (20 units)

In order that students acquire a broad overview of different historical periods and different geographic regions, majors must take five Art History lecture courses, one from each of the following five categories:

Take one course from each of the following categories:

### Ancient and Medieval

Select one of the following:

ARTHIST 100N	The Artist in Ancient Greek Society (meets WAY A-II)	3
ARTHIST 101	Introduction to Greek Art I: The Archaic Period (meets WAY A-II)	4
ARTHIST 102	Introduction to Greek Art II: The Classical Period (meets WAY A-II)	4
ARTHIST 105B	Medieval Journeys: Introduction through the Art and Architecture	3-5
ARTHIST 106	Byzantine Art and Architecture, 300-1453 C.E.	4
ARTHIST 107B		4

### Renaissance and Early Modern

Select one of the following:

ARTHIST 121	18th-Century Art in Europe, ca 1660-1780	4
ARTHIST 122	The Age of Revolution: Painting in Europe 1780-1830	4
ARTHIST 126	Post-Naturalist Painting	4
ARTHIST 142A	The Architecture of Thought: Artists and Thinkers Design for Themselves	4

### Modern, Contemporary, and the U.S

Select one of the following:

ARTHIST 118A	Public Space in Iran: Murals, Graffiti, Performance	3-4
ARTHIST 143A	American Architecture	4
ARTHIST 144B	Modern Design from the Eiffel Tower to Yves Saint Laurent	4
ARTHIST 147	Modernism and Modernity	4
ARTHIST 151	Migration and Diaspora in American Art, 1800-Present	4
ARTHIST 155C	Abstract Expressionism: Painting/Modern/America	4
ARTHIST 156A	Warhol: Painting, Photography, Performance	4
ARTHIST 159B	American Photography Since 1960	5
ARTHIST 160	Intro to Contemporary Art	4
ARTHIST 160N	The Sisters: Poetry & Painting	3
ARTHIST 163	Queer America	4
ARTHIST 171		4
ARTHIST 176	Feminism and Contemporary Art	4

### Asia, Africa, and the Americas

Select one of the following:

Units		
ARTHIST 182B	Cultures in Competition: Arts of Song-Era China	4
ARTHIST 185	Arts of China in the Early Modern World, 1550-1800	4
ARTHIST 186	Theme and Style in Japanese Art	4
ARTHIST 186B	Asian American Art: 1850-Present	4
ARTHIST 187	Arts of War and Peace: Late Medieval and Early Modern Japan, 1500-1868	4
ARTHIST 188B	From Shanghai Modern to Global Contemporary: Frontiers of Modern Chinese Art	4

### Film & Media Studies

Select one of the following:

FILMSTUD 4	Introduction to Film Study (meets WAY A-II)	5
FILMSTUD 6	Introduction to Media	5
FILMSTUD 100B	History of World Cinema II, 1930-1959 (meets WAY A-II)	4
FILMSTUD 100C	History of World Cinema III, 1960-Present (meets WAY A-II)	4

FILMSTUD 101	Fundamentals of Cinematic Analysis (meets WAY A-II)	4
FILMSTUD 102	Theories of the Moving Image (meets WAY A-II)	4
FILMSTUD 115	Documentary Issues and Traditions	4

### 3. Seminar Courses for Majors (10 units)

*Writing in the Major (5 units):* This course is designed for Art History majors in their junior year, equipping them with the scholarly tools necessary for writing about art in a variety of contexts as they progress through the major. This course fulfills the requirements of Writing in the Major (WIM).

*Capstone Junior Seminar (5 units):* This course is designed to introduce majors to methods and theories underlying the practice of Art History. The seminar is offered annually, typically during Autumn Quarter.

Take each of the following:

#### Writing in the Major

ARTHIST 294	Writing and the Visual: Photography and Truth (Required: WIM course)	5
-------------	--	---

#### Capstone Junior Seminar

ARTHIST 296	Junior Seminar: Methods & Historiography of Art History	5
-------------	---	---

### 4. Seminar Requirement (5 units)

The student needs one additional seminar course within his or her area of concentration.

Select one of the following:

ARTHIST 193	Jacob Lawrence's Twentieth Century: African American Art and Culture	5
ARTHIST 203	Artists, Athletes, Courtesans and Crooks (meets WAY A-II)	5
ARTHIST 208	Hagia Sophia	5
ARTHIST 208B	The Art of Medieval Spain: Muslims, Christians, Jews	5
ARTHIST 210	Giotto	5
ARTHIST 211	The California Missions: Art History and Reconciliation	5
ARTHIST 215C	What is Contemporary Art?	5
ARTHIST 217B	The Classical Theory of Architecture from Antiquity to the French Revolution	5
ARTHIST 243B	Photography and Time	5
ARTHIST 245	Art, Business & the Law	5
ARTHIST 278	Introduction to Curating	5
ARTHIST 287	Pictures of the Floating World: Images from Japanese Popular Culture	5
ARTHIST 287A	The Japanese Tea Ceremony: The History, Aesthetics, and Politics Behind a National Pastime	5

### 5. Area of Concentration (8-10 units)

The department encourages students to pursue their interests by designing an area of concentration tailored to their own intellectual concerns. This area of concentration provides the student with an in-depth understanding of a coherent topic in Art History and consists of three Art History courses: one must be a seminar, and two of the three courses must be in a single field or concentration constructed by the student in consultation with his or her faculty adviser. Students must submit an area of concentration form, signed by their faculty adviser, during Winter Quarter of the junior year.

### 6. Art Practice Course (4 units)

Majors are required to complete at least one introductory Art Practice course.

\*Consult an academic adviser if a course is not listed above.

## Honors Program in Art History

The purpose of the honors program is to extend and deepen work done in Art History classes. The honors thesis topic typically emerges out of prior course work; it should be focused and have clear parameters. Ordinarily, an honors thesis is not an exploration of an area that the student has never studied before.

### Admission to the Program

The minimum requirement for admission to the honors program is an overall GPA of 3.5, and at least 3.5 in Art History courses. Students must complete at least five Art History courses at Stanford by the end of their junior year, and four must be completed by the end of Winter Quarter; with the adviser's approval, two of these courses may be taken at an overseas campus or Stanford in Washington. Students interested in pursuing honors should consult a potential thesis adviser on the Art History faculty during the Autumn Quarter of junior year. Thesis advisers must be in residence during Autumn Quarter of the student's senior year, and it is recommended that they be in residence throughout the senior year. Students considering honors should contact the Director of the Honors Program in their junior year as soon as they begin to think about writing an honors thesis. Those wishing to do so must announce their intention to write an honors thesis by submitting an intent form signed by their thesis adviser (who need not be the student's academic adviser) by February 1 of their junior year.

Units

### Submission of the Thesis Proposal Package

Candidates for the honors program must submit a five-page (double-spaced) thesis proposal, including bibliography and illustrations, and one completed paper that demonstrates the student's ability to conceptualize and write cogently about art historical issues. The deadline for submitting the complete package to the department's undergraduate coordinator is the third week of Spring Quarter of the candidate's junior year. Upon approval by a majority of the faculty at its regular meeting in early May, the candidate is accepted into the honors program.

### Research and Writing of the Honors Thesis

Once admitted to the honors program, students work with the director of the honors program and their thesis adviser to define the scope of study, establish a research and writing timetable, and enlist one other faculty member, ideally but not necessarily in the Department of Art and Art History, to serve as a second reader. The summer between junior and senior years is usually devoted to refining the topic and pursuing any off-campus research. Students are encouraged to apply for UAR research grants (<https://undergrad.stanford.edu/opportunities/research>) to help finance trips or expenses related to research for their honors thesis.

During their senior year, students must register for 10 units of ARTHIST 297 Honors Thesis Writing, 5 units of which may count towards the student's concentration in Art History. Students are required to register for 2-5 units each quarter during their senior year, for a total of 10 units.

### Submission and Approval of the Honors Thesis

With the guidance of the director of the honors program, students and thesis advisers should plan their work so that a complete, final manuscript is submitted to the thesis adviser and the second reader by the beginning of the seventh week of the student's final quarter at Stanford. The thesis adviser assigns a letter grade; both the adviser and the second reader must approve the honors thesis in order to qualify the student to graduate with honors.

# Bachelor of Arts in Art Practice (Studio)

## Degree Requirements

All undergraduate majors complete a minimum of 65 units including six lower level courses, six upper level courses, and four art history courses, including the WIM course ARTHIST 294 Writing and the Visual: Photography and Truth. All courses must be taken for a letter grade and must pass with a letter grade of 'C' or better. Students are required to take upper level ARTSTUDI 230 Interdisciplinary Art Survey in their junior year and ARTSTUDI 249 Advanced Undergraduate Seminar in their senior year. University units earned by placement tests or advanced placement work in secondary school are not counted within the 65 units. The studio requirements are divided into lower level (introductory, 100 level) and upper level (advanced, 200 level) course work. At the lower level, students focus on a range of subject matter from historical motifs (figure, still life, landscape) to contemporary ideas in art. Upper level courses are designed to stretch the student's understanding of materials, techniques, site, and social relevance. Experimental and challenging in nature, these courses cross area boundaries. Completing a full year of ITALIC can count towards either one Art History elective or one lower level Art Practice course. Independent study supervised by a member of the permanent faculty is also available to the advanced student.

Students are encouraged to move through the requirements for the major in the sequence outlined. Students are exposed to a range of practices early in their development in order to have a good basis of comparison if they choose to focus on a particular medium. This sequence of courses also broadens the students' skills and enables them to combine materials and methods. In all courses, students are expected to pass mid-term and final reviews and critiques of their work.

To declare the major, students must meet with the undergraduate coordinator. At that time the student selects a faculty adviser. Art Practice majors are required to meet with both their adviser and the undergraduate coordinator during the first two weeks of each quarter to have course work approved and make certain they are meeting degree requirements. Majors are required to attend an orientation session presented by the professional staff of the Art and Architecture Library, which introduces the tools of research and reference available on campus or through the Internet. This requirement should be completed no later than the quarter following the major declaration.

Most art practice courses are studio-based, and there is a fee to support those studios and the class activity. Enrolled students are typically required to purchase their own supplies or materials depending on the medium of the class, and the scale of individual student work.

## Required Courses

### 1. Six lower level courses (24 units)

Select six of the following:

ARTSTUDI 130	Interactive Art: Making it with Arduino	4
ARTSTUDI 131	Sound Art I	4
ARTSTUDI 136	The Portable Studio	4
ARTSTUDI 140	Drawing I	4
ARTSTUDI 141	Plein Air Painting Now	4
ARTSTUDI 143		4
ARTSTUDI 145	Painting I	4
ARTSTUDI 147	Art Book Object	4
ARTSTUDI 148	Monotype	4
ARTSTUDI 148A	Lithography	4
ARTSTUDI 148B	Introduction to Printmaking	4
ARTSTUDI 148P	The Hybrid Print	4
ARTSTUDI 149C	Etching	4

ARTSTUDI 150Q	Queer Sculpture	4
ARTSTUDI 151	Sculpture I	4
ARTSTUDI 155	Social Sculpture	4
ARTSTUDI 156Q	Installation Art in Time and Space	4
ARTSTUDI 157	Art, Invention, Activism in the Public Sphere	4
ARTSTUDI 160	Intro to Digital / Physical Design	3-4
ARTSTUDI 162	Embodied Interfaces	4
ARTSTUDI 163	Drawing with Code	4
ARTSTUDI 164	DESIGN IN PUBLIC SPACES	4
ARTSTUDI 165	Social Media and Performative Practices	4
ARTSTUDI 167	Introduction to Animation	3-4
ARTSTUDI 168	Data as Material	4
ARTSTUDI 170	PHOTOGRAPHY I: BLACK AND WHITE	4
ARTSTUDI 171	PHOTOGRAPHY I: DIGITAL	3-4
ARTSTUDI 173E	Cell Phone Photography	4
ARTSTUDI 174B	Creativity in the Age of Facebook: Making Art for and from Networks	4
ARTSTUDI 176	Time Shifts	4
ARTSTUDI 177	Video Art I	4
ARTSTUDI 178	Art and Electronics	4
ARTSTUDI 179	Digital Art I	4
ARTSTUDI 181	From Dissection to Monster	4
ARTSTUDI 184	Art and Environmental Engagement	4

### 2. Six upper level courses (24 units):

a. ARTSTUDI 230 Interdisciplinary Art Survey is a required course which focuses on direct experiences of multidisciplinary art and art practices. ARTSTUDI 249 Advanced Undergraduate Seminar (8 units)

b. Students select four optional courses from the following list.

		Units
Select four of the following:		
ARTSTUDI 233	Let's Make a Monster: Critical Making	5
ARTSTUDI 236	Future Media, Media Archaeologies	3-4
ARTSTUDI 239	Intermedia Workshop	3-4
ARTSTUDI 240	Drawing II	4
ARTSTUDI 245	Painting II	4
ARTSTUDI 247	Collage	4
ARTSTUDI 252	Sculpture II	4
ARTSTUDI 253	ECOLOGY OF MATERIALS	4
ARTSTUDI 254	Kinetic Sculpture	4
ARTSTUDI 264	Advanced Interaction Design	4
ARTSTUDI 266	Sculptural Screens / Malleable Media	4
ARTSTUDI 267	Emerging Technology Studio	4
ARTSTUDI 270	Advanced Photography Seminar	1-5
ARTSTUDI 271	The View Camera	4
ARTSTUDI 275	PHOTOGRAPHY II: Digital	4
ARTSTUDI 276	The Photographic Book	4
ARTSTUDI 277	Project class: Digital and Analogue Projects in Photography	4
ARTSTUDI 277A	Video Art II	4
ARTSTUDI 278	Photography II: Black and White	4
ARTSTUDI 284	Art and Biology	4
ARTSTUDI 288	Documentary Photography	4

### 3. Four Art History courses (17-20 units)

ARTHIST 294 Writing and the Visual: Photography and Truth  
(Required: WIM course)

Three other art history courses, one must be from the modern art series.

One Film & Media Studies course may satisfy an Art History elective.

\*Consult an academic adviser if a course is not listed above.

### Transfer Credit Evaluation

Upon declaring an Art Practice major, a student transferring from another school must have his or her work evaluated by the Director of Undergraduate Studies (DUS) in Art Practice. A maximum of 13 transfer units are applied toward the 65 total units required for the major. A student wishing to have more than 13 units applied toward the major must submit a petition to the Director of Undergraduate Studies in Art Practice and then have his or her work reviewed by a studio committee.

### Overseas Study or Study Abroad

A minimum of 52 of the 65 units required for the Art Practice major and a minimum of 32 of the 36 units required for the Art Practice minor must be taken at the Stanford campus. A student must meet with his or her adviser and with the undergraduate coordinator before planning an overseas campus program.

### Honors Program in Art Practice

The purpose of the honors program is to extend and deepen work done in Art Practice classes. The honors thesis exhibition topic typically emerges out of prior course work. Ordinarily, an honors thesis exhibition is not an exploration of an area that the student has never studied before. Completion of the program is noted on the diploma and on the transcript

### Admission to the Program

The honors program is open to art practice majors only. The minimum requirement for admission to the honors program is an overall GPA of 3.5, and at least 3.5 in Art Practice courses. Students must complete at least five Art Practice courses at Stanford by the end of their junior year, and four must be completed by the end of Winter Quarter. With adviser approval, two of these courses may be taken at an overseas campus.

Students interested in pursuing honors should consult a potential thesis adviser on the Art Practice faculty during the Autumn Quarter of junior year. Thesis advisers must be in residence during Autumn Quarter of the student's senior year. Students considering honors should contact the Director of the Honors Program in their junior year. Those wishing to do so must announce their intention to write an honors thesis exhibition proposal by submitting an intent form signed by their thesis adviser, who need not be the student's academic adviser, by March 1 of their junior year.

### Submission of the Thesis Proposal Package

The thesis proposal package must include:

1. A two-page Honors Thesis Exhibition Project Proposal description of the artwork/project, including an outline of research and goals signed by the thesis adviser.
2. Artwork Samples: 10 JPEGs of recent work (scaled to 8"x 10", no larger than 1MB each) or 5 minutes of video/audio clips. If video/audio work only is submitted, it may consist of up to 15 minutes of clips. Upload via Slideroom application.
3. Artwork Sample Descriptions: List each artwork and descriptions of submitted artwork (title, date, medium, dimensions, length if applicable, explanation if needed). Upload via Slideroom application.
4. Course plan for senior year and copy of academic transcript.

### Research and Writing of the Honors Thesis

**Units** 5  
12-15

Once admitted to the honors program, students work with the director of the honors program and their thesis adviser to define the scope of study, establish a research and artwork completion timetable, and enlist one other faculty member, ideally but not necessarily on the Art Practice faculty, to serve as a second reader. The summer between junior and senior years is usually devoted to refining the topic and pursuing any off-campus research. Students are encouraged to apply for UAR research grants (<https://undergrad.stanford.edu/opportunities/research/get-funded/apply-uar-student-grants>) to help finance trips or expenses related to research for their honors thesis.

During their senior year, students must register for 10 units of ARTSTUDI 297 Honors Thesis Exhibition, 5 units of which may count towards the student's concentration in Art Practice. Students are required to register for 2-5 units each quarter during their senior year, for a total of 10 units.

### Submission and Approval of the Honors Thesis

With the guidance of the director of the honors program, students and thesis advisers should plan their work so that a complete art exhibition is installed in the first five weeks of Spring Quarter of their senior year with the Exhibitions Manager for the Department of Art and Art History. The student arranges a meeting with the advisers while the exhibition is on display. The thesis adviser assigns a letter grade; both the main adviser and the second adviser must approve the honors thesis in order to qualify the student to graduate with honors.

## Bachelor of Arts in Film and Media Studies

### Suggested Preparation for the Major

Students considering a major in film and media studies should take FILMSTUD 4 Introduction to Film Study, and are encouraged to take either ARTHIST 1A Introduction to the Visual Arts: Prehistoric through Medieval or ARTHIST 1B Introduction to the Visual Arts: History of Western Art from the Renaissance to the Present, during their freshman or sophomore year. These courses anchor the major through exposure to film language, genre, and visual and narrative structures. Majors are required to take one course in the fundamentals of film and video production.

### Suggested or Recommended Courses (all of which meet major requirements)

		<b>Units</b>
ARTHIST 1A	Introduction to the Visual Arts: Prehistoric through Medieval (meets WAY A-II and ED)	5
ARTHIST 1B	Introduction to the Visual Arts: History of Western Art from the Renaissance to the Present (meets WAY A-II)	5
FILMSTUD 4	Introduction to Film Study (meets WAY A-II)	5
FILMSTUD 101	Fundamentals of Cinematic Analysis (meets WAY A-II)	4

### Fields of Study or Degree Option

Advanced undergraduate courses are offered in five fields of study. These fields are declared on ACESS; they appear on the transcript but they do not appear on the diploma:

- Film History
- Film and Culture
- Film, Media, and Technology
- Writing, Criticism, and Practice
- Aesthetics and Performance

Working with a faculty adviser, students choose five courses in their field from course offerings in Film and Media Studies and one course from another department in the University.

## Degree Requirements

All undergraduate majors complete a minimum of 64 units (16 courses of 3-5 units each), or 15 courses plus an honors thesis. FILMSTUD 102 Theories of the Moving Image (WIM course) is required for all majors. All courses for the major must be taken for a letter grade. To declare the major, students must meet with the undergraduate coordinator. At that time the student selects a faculty adviser. Majors are required to attend an orientation session presented by the professional staff of the Art and Architecture Library, which introduces the tools of research and reference available on campus or through the Internet. This requirement should be completed no later than the quarter following the major declaration.

## Required Courses

		Units
FILMSTUD 4	Introduction to Film Study (meets WAY A-II)	5
FILMSTUD 6	Introduction to Media	5
FILMSTUD 100A	History of World Cinema I, 1895-1929	4
FILMSTUD 100B	History of World Cinema II, 1930-1959 (meets WAY A-II)	4
FILMSTUD 100C	History of World Cinema III, 1960-Present (meets WAY A-II)	4
FILMSTUD 101	Fundamentals of Cinematic Analysis (WIM Course, meets WAY A-II)	4
FILMSTUD 102	Theories of the Moving Image (meets WAY A-II)	4
FILMPROD 114	Introduction to Film and Video Production (meets WAY CE)	5
Concentration <sup>1</sup>		
FILMSTUD 290	Movies and Methods: FILMS OF BURT LANCASTER <sup>2</sup>	5
Choose one of the following:		
ARTHIST 1A	Introduction to the Visual Arts: Prehistoric through Medieval (meets WAY A-II and ED)	5
ARTHIST 1B	Introduction to the Visual Arts: History of Western Art from the Renaissance to the Present (meets WAY A-II)	5

<sup>1</sup> Concentration: Five courses, four of which must be in a single film and media studies concentration developed by the student in consultation with an adviser. Concentration areas are: film history; film and culture; aesthetics and performance; film, media, and technology; and writing, criticism, and practice. The remaining course must be related, situating the student's concentration in a broader context.

<sup>2</sup> Capstone Experience: FILMSTUD 290 Movies and Methods: FILMS OF BURT LANCASTER, offered once a year. The Senior Seminar represents the culminating intellectual experience for Film Studies majors choosing not to write an honors thesis. Honors thesis writers may also take the senior seminar. Seniors who may not be in residence in the quarter that the senior seminar is offered may enroll in their junior year. Movies and Methods provides majors with an opportunity to synthesize their previous work in Film Studies and work in an advanced setting with a faculty member.

## Electives (20 units)

		Units
Film Studies Concentration Electives		
FILMSTUD 115	Documentary Issues and Traditions	4
FILMSTUD 119	Science Fiction: Cyborgs & Human Simulacra in the Cinema	4

FILMSTUD 125	Horror Films	4
FILMSTUD 127	Monster Movies: Frankenstein & Film	4
FILMSTUD 129	Animation and the Animated Film	4
FILMSTUD 132A	Indian Cinema	4
FILMSTUD 135	Around the World in Ten Films	4
FILMSTUD 232	CHINESE CINEMA	5
FILMSTUD 233	Let's Make a Monster: Critical Making	5
FILMSTUD 256	Horror Comics	5
FILMSTUD 259	Game Studies	5
FILMSTUD 245B	History and Politics in Russian and Eastern European Cinema	5
FILMSTUD 250B		4
FILMPROD 101T	Writing the Television Pilot	5
FILMPROD 103	Adaptation	4
FILMPROD 104	Screenwriting II: Intermediate Screenwriting	5
FILMPROD 105	Script Analysis	4

\*Consult an academic adviser if a course is not listed above.

## Honors Program in Film and Media Studies

The purpose of the honors program is to extend and deepen work done in Film and Media Studies classes. The honors thesis topic typically emerges out of prior coursework; it should be focused and have clear parameters. Ordinarily, an honors thesis is not an exploration of an area that the student has never studied before.

### Admission to the Program

The minimum requirement for admission to the honor program is an overall GPA of 3.5, and at least 3.5 in Film and Media Studies courses. Students must complete at least five Film and Media Studies courses at Stanford by the end of their junior year, and four must be completed by the end of Winter Quarter; with the adviser's approval, two of these courses may be taken at an overseas campus. Students interested in pursuing honors should consult a potential thesis adviser on the Film and Media Studies faculty during the Autumn Quarter of junior year. Thesis advisers must be in residence during Autumn Quarter of the student's senior year, and it is highly recommended that they be in residence throughout the senior year. Students considering honors should contact the director of the honors program in their junior year as soon as they begin to think about writing an honors thesis. Those wishing to do so must announce their intention to write an honors thesis by submitting an intent form signed by their thesis adviser (who need not be the student's academic adviser) by February 1 of their junior year.

### Submission of the Thesis Proposal Package

Candidates for the honors program must submit a five-page (double-spaced) thesis proposal, including bibliography, a tentative schedule for research and writing, and one completed paper that demonstrates the student's ability to conceptualize and write cogently about film. The deadline for submitting the complete package to the department's undergraduate coordinator is the third week of Spring Quarter of the candidate's junior year. Upon approval by a majority of the faculty at its regular meeting in early May, the candidate is accepted into the honors program.

### Research and Writing of the Honors Thesis

Once admitted to the honors program, students work with the director of the honors program and their thesis adviser to define the scope of study, establish a research and writing timetable, and enlist one other faculty member, ideally but not necessarily in the Department of Art and Art History, to serve as a second reader. The summer between junior and senior years is usually devoted to refining the topic and pursuing any off-campus research. Students are encouraged to apply for UAR

research grants to help finance trips or expenses related to research for their honors thesis.

During their senior year, students must register for 10 units of FILMSTUD 297 Honors Thesis Writing, 5 units of which may count towards the student's concentration in Film and Media Studies. Students are required to register for two to five units each quarter during their senior year, for a total of ten units.

### Submission and Approval of the Honors Thesis

With the guidance of the director of the honors program, students and thesis advisers should plan their work so that a complete, final manuscript is submitted to the thesis adviser and the second reader by the beginning of the seventh week of the student's final quarter at Stanford. The thesis adviser assigns a letter grade; both the adviser and the second reader must approve the honors thesis in order to qualify the student to graduate with honors.

### Required Course

	Units
FILMSTUD 297 Honors Thesis Writing	1-5

The joint major program (JMP), authorized by the Academic Senate for a pilot period of six years beginning in 2014-15, permits students to major in both Computer Science and one of ten Humanities majors. See the "Joint Major Program (p. 31)" section of this bulletin for a description of University requirements for the JMP. See also the Undergraduate Advising and Research JMP web site and its associated FAQs.

Students completing the JMP receive a B.A.S. (Bachelor of Arts and Science).

Because the JMP is new and experimental, changes to procedures may occur; students are advised to check the relevant section of the bulletin periodically.

## Joint Major Program in Art Practice and Computer Science

### Art Practice Major Requirements in the Joint Major Program

See the "Computer Science Joint Major Program (p. 278)" section of this bulletin for details on Computer Science requirements.

Students majoring in the Art Practice and Computer Science joint major program must complete five lower level courses and six upper level courses in art practice, and four art history courses, including the WIM course. Students in the JMP are excused from completing one lower level course, reducing the required unit count of the Art Practice major from 65 to 61 units. All courses comprising the major must be taken for a letter grade.

Most art practice courses are studio-based, and there is a fee to support those studios and the class activity. Enrolled students are typically required to purchase their own supplies or materials depending on the medium of the class, and the scale of individual student work.

Students majoring in the joint major program in Art Practice and Computer Science must complete the modified degree requirements for Art Practice by completing the following:

1. Five lower level courses (20 units)

a.		
	ARTSTUDI 130 Interactive Art: Making it with Arduino	4
	ARTSTUDI 131 Sound Art I	4
	ARTSTUDI 136 The Portable Studio	4
	ARTSTUDI 140 Drawing I	4

	ARTSTUDI 141 Plein Air Painting Now	4
	ARTSTUDI 143	4
	ARTSTUDI 145 Painting I	4
	ARTSTUDI 147 Art Book Object	4
	ARTSTUDI 148 Monotype	4
	ARTSTUDI 148A Lithography	4
	ARTSTUDI 148B Introduction to Printmaking	4
	ARTSTUDI 148P The Hybrid Print	4
	ARTSTUDI 149C Etching	4
	ARTSTUDI 150Q Queer Sculpture	4
	ARTSTUDI 151 Sculpture I	4
	ARTSTUDI 155 Social Sculpture	4
	ARTSTUDI 156Q Installation Art in Time and Space	4
	ARTSTUDI 157 Art, Invention, Activism in the Public Sphere	4
	ARTSTUDI 160 Intro to Digital / Physical Design	3-4
	ARTSTUDI 162 Embodied Interfaces	4
	ARTSTUDI 163 Drawing with Code	4
	ARTSTUDI 164 DESIGN IN PUBLIC SPACES	4
	ARTSTUDI 165 Social Media and Performative Practices	4
	ARTSTUDI 167 Introduction to Animation	3-4

	ARTSTUDI 179 Digital Art I	4
	ARTSTUDI 181 From Dissection to Monster	4
	ARTSTUDI 184 Art and Environmental Engagement	4

2. Six upper level courses (24 units) including:
  - a. ARTSTUDI 230 Interdisciplinary Art Survey (4 units) is a required course which focuses on direct experiences of multidisciplinary art and art practices
  - b. ARTSTUDI 249 Advanced Undergraduate Seminar ; majors must take this course for 4 units.

3. Students select four optional courses from the following list
  - a.

	ARTSTUDI 233 Let's Make a Monster: Critical Making	5
	ARTSTUDI 236 Future Media, Media Archaeologies	3-4
	ARTSTUDI 239 Intermedia Workshop	3-4
	ARTSTUDI 240 Drawing II	4
	ARTSTUDI 245 Painting II	4
	ARTSTUDI 247 Collage	4
	ARTSTUDI 252 Sculpture II	4
	ARTSTUDI 253 ECOLOGY OF MATERIALS	4
	ARTSTUDI 254 Kinetic Sculpture	3-4
	ARTSTUDI 264 Advanced Interaction Design	4
	ARTSTUDI 266 Sculptural Screens / Malleable Media	4
	ARTSTUDI 267 Emerging Technology Studio	4
	ARTSTUDI 270 Advanced Photography Seminar	1-5
	ARTSTUDI 271 The View Camera	4
	ARTSTUDI 275 PHOTOGRAPHY II: Digital	4
	ARTSTUDI 276 The Photographic Book	4

Units

ARTSTUDI 277	Project class: Digital and Analogue Projects in Photography	4
ARTSTUDI 277A	Video Art II	4
ARTSTUDI 278	Photography II: Black and White	4
ARTSTUDI 284	Art and Biology	4
ARTSTUDI 288	Documentary Photography	4

4. Four Art History courses (17-20 units)
  - a. ARTHIST 294 Writing and the Visual: Photography and Truth (5 units)
  - b. Three other Art History courses, one must be from the modern art series. One Film and Media Studies course may satisfy an Art History elective.
5. Senior Capstone Project

\*Consult an academic adviser if a course is not listed above.

The senior seminar (4 units) in conjunction with the computer science capstone course (3-5 units) enables students to produce a creative and in-depth senior capstone project that highlights the integration of the two disciplines. An adviser from each program guides and assesses the project throughout the academic year. The completed project is included in the Senior Exhibit.

Example capstone projects might include an interactive installation that combines various sensors with computer graphic techniques, a screen based artwork that requires sophisticated data visualization, a sculpture involving new forms of projection mapping, or a social media artwork integrating a new type of mobile application. These works would qualify as effective contemporary artworks, and also illustrate unique command of and innovations within the field of computer science.

## Declaring a Joint Major Program

To declare the joint major, students must first declare each major through Axess, and then submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) The Major-Minor and Multiple Major Course Approval Form (<https://stanford.box.com/MajMin-MultMaj>) is required for graduation for students with a joint major.

## Dropping a Joint Major Program

To drop the joint major, students must submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>). Students may also consult the Student Services Center (<http://studentservicescenter.stanford.edu>) with questions concerning dropping the joint major.

## Transcript and Diploma

Students completing a joint major graduate with a B.A.S. degree. The two majors are identified on one diploma separated by a hyphen. There will be a notation indicating that the student has completed a "Joint Major". The two majors are identified on the transcript with a notation indicating that the student has completed a "Joint Major".

## Minor in Art History

A student declaring a minor in Art History must complete 25 units of course work in one of the following four tracks: Open, Modern, Asian, or Architecture. Courses must be taken for a letter grade. Upon declaring the minor, students are assigned a faculty adviser with whom they plan their course of study and electives. A proposed course of study must be approved by the adviser and placed in the student's departmental file. Only one class may be taken for credit outside of the Stanford campus; this includes courses taken in the Overseas Studies Program. Minors are required to attend an orientation session presented by the professional staff of the Art and Architecture Library, which introduces the tools of

research and reference available on campus or through the Internet. This requirement should be completed no later than the quarter following the minor declaration.

## Degree Requirements

A student with a minor in Art History must complete six Art History courses for a total of 25 units.

Units

### Open Track

choose one of the following:

ARTHIST 1A	Introduction to the Visual Arts: Prehistoric through Medieval
------------	---

ARTHIST 1B	Introduction to the Visual Arts: History of Western Art from the Renaissance to the Present
------------	---

Plus five Art History lecture courses or seminars in any field.

### Modern Track

choose one of the following:

ARTHIST 1A	Introduction to the Visual Arts: Prehistoric through Medieval
------------	---

ARTHIST 1B	Introduction to the Visual Arts: History of Western Art from the Renaissance to the Present
------------	---

Plus five Art History lecture courses or seminars in any aspect of 19th- to 20th-century art.

### Asian Track

ARTHIST 2	Asian Arts and Cultures
-----------	-------------------------

Plus five Art History lecture courses or seminars in Asian Art (ARTHIST 1A OR ARTHIST 1B may be one of the five courses).

### Architecture Track

ARTHIST 3	Introduction to World Architecture
-----------	------------------------------------

Plus five Art History lecture courses or seminars in Architectural History (ARTHIST 1A OR ARTHIST 1B may be one of the five courses).

## Minor in Art Practice (Studio)

A student declaring a minor in Art Practice must complete 36 units of Art Practice and Art History course work. Courses must be taken for a letter grade. All minors are required to attend an orientation session presented by the professional staff of the Art and Architecture Library, which introduces the tools of research and reference available on campus or through the internet. Minors are required to meet with both their adviser and the undergraduate coordinator during the first two weeks of each quarter to have course work approved and to make certain they are meeting degree requirements.

Most art practice courses are studio-based, and there is a fee to support those studios and the class activity. Enrolled students are typically required to purchase their own supplies or materials depending on the medium of the class, and the scale of individual student work.

## Degree Requirements

A student with a minor in Art Practice must complete nine courses for a total of 36 units.

1. Three lower level courses (12 units) selected from:
  - a.

Select three of the following:

12

ARTSTUDI 13	Interactive Art: Making it with Arduino (meets WAY CE)
-------------	--

ARTSTUDI 13	Sound Art I (meets WAY CE)
-------------	----------------------------

ARTSTUDI 13	The Portable Studio
-------------	---------------------

ARTSTUDI 14	Drawing I (meets WAY CE)
-------------	--------------------------

Units

ARTSTUDI 14	Plein Air Painting Now	
ARTSTUDI 143		
ARTSTUDI 14	Painting I (meets WAY CE)	
ARTSTUDI 14	Art Book Object	
ARTSTUDI 14	Monotype	
ARTSTUDI 14	Photography	
ARTSTUDI 14	Introduction to Printmaking (meets WAY CE)	
ARTSTUDI 14	The Hybrid Print	
ARTSTUDI 14	Etching	
ARTSTUDI 15	Queer Sculpture	
ARTSTUDI 15	Sculpture I (meets WAY CE)	
ARTSTUDI 15	Social Sculpture	
ARTSTUDI 15	Installation Art in Time and Space	
ARTSTUDI 15	Art, Invention, Activism in the Public Sphere	
ARTSTUDI 16	Intro to Digital / Physical Design (meets WAY CE)	
ARTSTUDI 16	Embodied Interfaces	
ARTSTUDI 16	Drawing with Code	
ARTSTUDI 16	DESIGN IN PUBLIC SPACES	
ARTSTUDI 16	Social Media and Performative Practices	
ARTSTUDI 16	Introduction to Animation	
ARTSTUDI 16	Data as Material	
ARTSTUDI 17	PHOTOGRAPHY I: BLACK AND WHITE (meets WAY CE)	
ARTSTUDI 17	PHOTOGRAPHY I: DIGITAL	
ARTSTUDI 17	Cell Phone Photography (meets WAY CE)	
ARTSTUDI 17	Creativity in the Age of Facebook: Making Art for and from Networks (meets WAY CE)	
ARTSTUDI 17	Video Art I (meets WAY CE)	
ARTSTUDI 17	Art and Electronics (meets WAY CE)	
ARTSTUDI 17	Digital Art I (meets WAY CE)	
ARTSTUDI 18	From Dissection to Monster	
ARTSTUDI 18	Art and Environmental Engagement	

2. Three upper level courses (11 units):

a.		
	ARTSTUDI 230 Interdisciplinary Art Survey	4
b.		
	Select two of the following:	8
	ARTSTUDI 23 Intermedia Workshop	
	ARTSTUDI 24 Drawing II	
	ARTSTUDI 24 Painting II	
	ARTSTUDI 25 Sculpture II	
	ARTSTUDI 25 Kinetic Sculpture	
	ARTSTUDI 26 Advanced Interaction Design	
	ARTSTUDI 26 Sculptural Screens / Malleable Media	
	ARTSTUDI 27 Advanced Photography Seminar	
	ARTSTUDI 27 The View Camera	
	ARTSTUDI 27 Alternative Processes	
	ARTSTUDI 27 PHOTOGRAPHY II: Digital	
	ARTSTUDI 27 The Photographic Book	
	ARTSTUDI 27 Project class: Digital and Analogue Projects in Photography	
	ARTSTUDI 27 Video Art II	
	ARTSTUDI 27 Photography II: Black and White	
	ARTSTUDI 27 Digital Art II	

ARTSTUDI 28 Art and Biology

3. Three Art History Courses (13 units):

a.		
	Select one of the following:	5
	ARTHIST 1A Introduction to the Visual Arts: Prehistoric through Medieval (highly recommended)	
	ARTHIST 1B Introduction to the Visual Arts: History of Western Art from the Renaissance to the Present (highly recommended)	
	Two other art history courses, one must be from the modern art series.	8-10

Courses may not be offered every year and are subject to change. Consult an academic adviser if a course is not listed above.

### Minor in Film and Media Studies

A minor in Film Studies requires four core courses and three elective courses for a total of seven courses. Courses must focus on film and use the method of film study towards completion of the minor; courses that use film to illustrate a cultural topic are not eligible. Courses must be taken for a letter grade. Studio Art courses may not be used towards the requirements.

Upon declaring the minor, students are assigned an adviser with whom they plan their course of study and electives. A proposed course of study must be approved by the adviser and placed in the student's departmental file. Only one class may be taken for credit outside the Stanford campus, including Stanford Overseas Studies programs. Minors are required to attend an orientation session presented by the professional staff of the Art & Architecture Library, which introduces the many tools of research and reference available on campus or through the Internet. This requirement should be completed no later than the quarter following the minor declaration.

### Degree Requirements

The minor in Film Studies requires seven courses for a minimum of 29 units.

Required Courses for the Minor

Units		Units
FILMSTUD 4	Introduction to Film Study (meets WAY A-II)	5
FILMSTUD 102	Theories of the Moving Image (meets WAY A-II)	4
	Select one of the following:	4
	FILMSTUD 100 History of World Cinema I, 1895-1929	
	FILMSTUD 100B History of World Cinema II, 1930-1959 (meets WAY A-II)	
	FILMSTUD 100I History of World Cinema III, 1960-Present (meets WAY A-II)	

One course in a national cinema or an additional course in film history 4-5

### Elective Courses for the Minor

Three elective courses. No more than one elective can be chosen from courses in another department, and only if it is approved by the Film Studies coordinator and core faculty for their stress on methods of film analysis. Electives may include courses in national cinemas, film genres, experimental and documentary film, or film theory.

Elective Courses		12-15
FILMSTUD 6	Introduction to Media	5
FILMSTUD 101	Fundamentals of Cinematic Analysis	4
FILMSTUD 115	Documentary Issues and Traditions	4

FILMSTUD 119	Science Fiction: Cyborgs & Human Simulacra in the Cinema	4
FILMSTUD 125	Horror Films	4
FILMSTUD 127	Monster Movies: Frankenstein & Film	4
FILMSTUD 129	Animation and the Animated Film	4
FILMSTUD 132A	Indian Cinema	4
FILMSTUD 135	Around the World in Ten Films	4
FILMSTUD 233	Let's Make a Monster: Critical Making	5
FILMSTUD 245B	History and Politics in Russian and Eastern European Cinema	5
FILMSTUD 250B		4
FILMSTUD 256	Horror Comics	5
FILMSTUD 259	Game Studies	5
FILMPROD 101T	Writing the Television Pilot	5
FILMPROD 103	Adaptation	4
FILMPROD 104	Screenwriting II: Intermediate Screenwriting	5
FILMPROD 105	Script Analysis	4
FILMPROD 114	Introduction to Film and Video Production (meets WAY CE)	5

Courses may not be offered every year and are subject to change. Consult an academic adviser if a course is not listed above.

## Coterminal Master of Arts in Art History

Stanford undergraduates, regardless of undergraduate major, who wish to pursue an M.A. in Art History may apply for the coterminal master's program. University requirements for the coterminal M.A. are described in the "Coterminal Bachelor's and Master's Degrees (p. 46)" section of the Bulletin.

### Admission

Undergraduates must be admitted to the program and enrolled as a graduate student for at least one quarter prior to their B.A. conferral. A cumulative GPA of at least 3.5 in previous undergraduate work is required for admission; GRE test scores are not required. The department accepts applications once a year; the application deadline is January 16 for admission in the Spring Quarter immediately following. There are no exceptions to this deadline. The department does not fund coterminal M.A. students. To apply for admission to the Art History coterminal M.A. program, students must submit the Coterminal Online Application (<https://applyweb.com/stanterm>) and the following:

- Statement of Purpose (up to 1000 words, double-spaced);
- Current unofficial transcript;
- Coterminal Online Application (<https://applyweb.com/stanterm>);
- Preliminary Master's Program Proposal; this is a form in the application packet. Specify at least 45 units of course work relevant to the degree program with at least 40 units in Art History.
- Coterminal Course Approval Form (<https://stanford.box.com/v/Coterm-Course-Approval>): this form is required only if transferring courses from undergraduate to the graduate program at the time of application; students are allowed to transfer courses between their undergraduate and graduate careers for a limited time and are not allowed to transfer courses after the undergraduate degree has been conferred. To be eligible for transfer, courses must have been taken in the three quarters preceding admission to the M.A. program. No courses taken earlier than Autumn Quarter of sophomore year may count toward the M.A.
- Two letters of recommendation from Stanford faculty familiar with the student's academic work, one of which must be from an Art History faculty member.

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken three quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

### Degree Requirements

Requirements for the coterminal master's degree program include the following:

- Coterminal M.A. students are required to take a minimum of 45 units of course work during their graduate career, of which at least 40 of these units must be in Art History courses (Note: One of these courses must be the art history methods graduate seminar; six of these courses may be Art History or Film Studies courses and must be at the 300-400 level).
- All units for the coterminal M.A. must be taken at or above the 100 level; advanced-level course work is encouraged and a minimum of 23 of the required 45 units must be taken at or above the 200 level.
- M.A. Qualifying paper (this paper can be developed from a seminar paper; it should be 20-25 pages in length inclusive of notes); the paper will be due in the last quarter of the coterm program.
- All courses taken for the Coterminal M.A. must be taken for a letter grade; achievement of an overall grade point average of 3.5 is required for the degree to be conferred.
- A faculty advisor appointed in the Department of Art & Art History in the first quarter of the Master's degree program.
- Students may transfer up to 10 units from their undergraduate career to count toward the M.A.; to be eligible for transfer, courses must have been taken in the three quarters prior to matriculation in the first graduate quarter of the M.A. program (please note that no courses taken earlier than Autumn quarter of sophomore year may count toward the M.A.).
- Undergraduate courses cannot be transferred for graduate credit after a student's B.A. is conferred.
- Submission of an approved Master's degree program proposal form by the last day of the first quarter of the Master's degree program.
- Students are responsible for knowing and adhering to University and Departmental policies, standards, and requirements for coterminal students.

## Master of Arts in Art History

University requirements for the M.A. are described in the "Graduate Degrees (p. 50)" section of this bulletin.

### Admission

The department offers M.A. and Ph.D. degrees, although the M.A. is only granted as a step toward fulfilling requirements for the Ph.D. The department does not admit students who wish to work only toward the M.A. degree. Please see the Ph.D. section for admissions information.

### Degree Requirements

#### Units

Completing a total of at least 45 units of graduate work at Stanford in the history of art in courses at the 200 level and above, including a seminar in art historiography/visual theory.

#### Languages

Reading knowledge of at least one foreign language, preferably German, French or Italian. Students in Chinese and Japanese art are ordinarily expected to demonstrate reading competence in modern and classical Chinese or Japanese, depending on the student's area of focus. Final determination of which foreign languages will fulfill the requirement is made in consultation with the student's primary adviser.

#### Papers

Submission of one paper from among those written during the year that demonstrates depth of research and capacity to build an argument. The paper should be perfected under the supervision of a member of the department faculty.

#### Area Coverage

Demonstration to the faculty, by course work and/or examination, that the student has adequate knowledge of the major areas of the history of art represented in the department curriculum.

## Master of Fine Arts in Art Practice (Studio)

University requirements for the M.F.A. are described in the "Graduate Degrees (p. 50)" section of this bulletin.

### Admission

The applicant must have a B.A., B.F.A. or B.S. from an accredited school. It is expected that the applicant will have a strong background in art practice, either an undergraduate degree or at least three years of independent studio practice. Students accepted to the program are admitted for the beginning of the following Autumn Quarter. No applicants for mid-year entrance are considered.

*Portfolio Specifications*—See the department's Graduate Admission (<https://art.stanford.edu/academics/graduate-programs/masters-program/how-apply>) web site for portfolio requirements.

### Fields of Study or Degree Options

Fields of study for the M.F.A. degree are offered in Painting, Sculpture, New Genres, and Photography. These fields of study are not declared on Axxess; they are not printed on the transcript or the diploma.

### Degree Requirements

#### Residency

Completing a minimum of two years (six academic quarters) of graduate work in residence at Stanford.

### Units

The student must complete 48 units of study. Students must discuss their programs of study with their academic adviser and the department's student services manager to ensure that an appropriate program of study is chosen.

### Seminar Requirement

Six quarters (36 units), which includes one (Spring) or two weekly seminars (Autumn and Winter) and Studio Practice, as well as an individual tutorial with a selected member of the faculty; all seminars must be taken for a letter grade.

#### First Year Seminar Requirements

		Units
ARTSTUDI 342A	MFA: Object Seminar (2 units per quarter- Autumn and Winter)	4
ARTSTUDI 342B	MFA: Concept Seminar (2 units per quarter- Autumn and Winter)	4
ARTSTUDI 342C	M.F.A Seminar	2
ARTSTUDI 342	MFA Project: Tutorial (1 unit per quarter)	3

#### Second-Year Seminar Requirements

ARTSTUDI 342A	MFA: Object Seminar (4 units per quarter- Autumn and Winter)	8
ARTSTUDI 342B	MFA: Concept Seminar (4 units per quarter- Autumn and Winter)	8
ARTSTUDI 342C	M.F.A Seminar	2
ARTSTUDI 342	MFA Project: Tutorial (1 unit per quarter)	3

### Elective Requirement

Three courses of academic electives (12 units) are required in the first year. These courses can be chosen from a large variety of disciplines in consultation with the Director of Graduate Studies. All electives must be approved by the DGS prior to enrollment and must be taken for a letter grade unless a letter grade option is not offered.

### Faculty Reviews

The student is expected to pass four formal academic reviews conducted by the faculty. The purpose of these reviews is to evaluate development and to assess the progress of the student.

- At the end of the first quarter, any student judged to be making inadequate progress is placed on probation and requires an additional review at the end of the second quarter.
- At the end of the third quarter, at which time recommendation to proceed to the second year is determined.
- At the start of the fifth quarter. If the review is not satisfactory the student is placed on probation and an additional review is scheduled at the end of the 5th quarter.
- At the time of the M.F.A. exhibition.

### Thesis

The thesis consists of two portions: an exhibition at the end of the final quarter, and a written paper addressing the development of work completed over the two-year period at Stanford, to be completed during the fifth quarter. Both the written portion and participation in the M.F.A. exhibition at the end of the year are required.

### Graduate Student Teaching

Regardless of their source of funding, students are required to assist with the department's teaching program for a minimum of eight hours per week over the period of six quarters; the particulars of this assignment are at the department's convenience.

The Department reserves the right to make use of graduate paintings, sculptures, and photographs in exhibitions serving the interests of the graduate program.

Graduate students must remain in residence at Stanford for the duration (six academic quarters) of the program.

## Master of Fine Arts in Documentary Film and Video

University requirements for the M.F.A. are described in the "Graduate Degrees (<http://www.stanford.edu/dept/registrar/bulletin/4901.htm>)" section of this bulletin.

### Admission

The program requires residency for two consecutive years. The admissions committee seeks applicants who have some work experience beyond their undergraduate years and can articulate why they want to learn documentary film and video production. The committee looks for evidence of the likelihood of success in a rigorous academic program that emphasizes creative work. The conceptual and technical skills required for documentary work are sufficiently different from fictional narrative to make the Stanford program inappropriate for students interested in narrative filmmaking. The program does not allow for deferred admission or a mid-year enrollment.

### Portfolio

The department requires a film or video work for which the applicant has had creative control. The sample work must be well labeled and accompanied by a brief synopsis, running time of the clips, the circumstances of production, and the applicant's role. Total running time for the work sample should not exceed 15 minutes and may consist of more than one project. Work on which the applicant had only a production assistant role is not appropriate for submission. Student work, however, is appropriate for consideration. Applicants who have had only minimal film or video production experience should submit an example of their best creative work in any medium.

Portfolio Specifications—See the department's Graduate Admission (<https://art.stanford.edu/academics/graduate-programs/mfa-documentary-film-and-video/mfa-documentary-film-and-video-admissions>) web site for portfolio requirements.

### Fields of Study or Degree Options

Fields of study for the M.F.A. degree are offered in Documentary Film.

### Degree Requirements

#### Residency

Completing two years (six quarters) of graduate work in residence at Stanford.

#### Units

A minimum of 76 units is required for the M.F.A. degree. In the production core, students are required to conceptualize and visualize their ideas in a series of writing and producing courses that focus on documentary story structure. These courses are taken in tandem with project-based production courses that provide training in the technical and conceptual aspects of cinematography, sound recording, and editing. Discussion of form and content is a signature component of the writing and production courses. The production core is complemented by a series of required film studies courses in documentary plus elective courses in the history, aesthetics, ideology, and theory of all genres of moving image media. All courses must be taken for a letter grade.

#### M.F.A. Thesis Project

In the second year of the program, each student produces a 15-20 minute documentary that constitutes the thesis project. In FILMPROD 405

Producing Practicum, students research and develop their project and write a proposal for submission. A project may not begin production until the written proposal has been approved. Most of the production and post-production occurs (in Winter and Spring quarters) in FILMPROD 406A and FILMPROD 406B.

		Units
FILMPROD 406A	Documentary M.F.A. Thesis Seminar I	4
FILMPROD 406B	Documentary M.F.A. Thesis Seminar II	4

### Required Courses

1. Core Production courses (32 units); core courses must be taken in sequence.

		Units
FILMPROD 400	Film/Video Writing and Directing	4
FILMPROD 401	Nonfiction Film Production	4
FILMPROD 402	Digital Video	4
FILMPROD 403	Advanced Documentary Directing	4
FILMPROD 404	Advanced Video Production	4
FILMPROD 405	Producing Practicum	4
FILMPROD 406A	Documentary M.F.A. Thesis Seminar I	4
FILMPROD 406B	Documentary M.F.A. Thesis Seminar II	4

2. Core Film Studies courses (16 units)

		Units
FILMSTUD 302	Theories of the Moving Image	4
FILMSTUD 315	Documentary Issues and Traditions	4
FILMSTUD 316	International Documentary	4
FILMSTUD 410	Documentary Perspectives I	4

3. Electives (to be chosen in consultation with the student's adviser)

	Units
Art History—one course	4
Studio Art and/or Communications—two courses	8
Film Studies—three courses	12
Choice Elective—one course	4

## Doctor of Philosophy in Art History

University requirements for the Ph.D. are described in the "Graduate Degrees (p. 50)" section of this bulletin. An expanded explanation of department requirements is given in the Art History Graduate Student Handbook.

### Admission

In addition to University requirements, the department requires a research paper of approximately 15-20 pages demonstrating the student's capacity to pursue independent investigation of an art historical problem as part of the application. All applicants must have been awarded a B.A., B.F.A., or B.S. from an accredited university.

### Degree Requirements

To be eligible for the doctoral degree, the student must complete a minimum of three years of full-time graduate work in Art History, at least two years of which must be in residence at Stanford. Doctoral students must complete a minimum of 135 units. Of these 135, the student must complete at least 100 units of graduate course work at the 200 level or above, including all required courses, with a minimum of 62 units in Art History lecture courses and seminars.

## 1. Collateral Studies

The student is required to take at least three courses in supporting fields of study (such as anthropology, classics, history, literature, or philosophy), determined in consultation with the department advisers. These courses are intended to strengthen the student's interdisciplinary study of art history.

## 2. Distribution Requirements

There are seven areas of distribution: 1) Pre-Modern (Ancient & Medieval), 2) Early Modern (Renaissance/Baroque), 3) 18th Century & 19th Century, 4) Modern/Contemporary, 5) Film and Media Studies, 6) Non-Western: Asia, Africa & Oceania, 7) Architectural History. Students must take at least one course in each of five different areas outside of the student's area of concentration. Students are required to fulfill the distribution requirement in graduate seminars. If students have entered the Stanford program with an M.A., they may transfer courses taken at the graduate level to fulfill up to two areas of the distribution requirement.

## 3. Language Requirement

Students in Western Art must demonstrate reading knowledge of two foreign languages. Students in Asian Art are required to demonstrate competence in one Asian language (equivalent to three years of study) and at least one year of study in a second (which may be a classical version of Chinese or Japanese). One of the language requirements should be satisfied by the end of the first year while the second should be fulfilled by the end of the second year. Students entering with a M.A. should already have satisfied one language requirement prior to admission. Foreign language requirements for the Ph.D. are fulfilled by taking the reading examination given each quarter by the various language departments.

## 4. Graduate Student Teaching

As a required part of their training, graduate students in Art History, regardless of their source of funding, must participate in the department's teaching program.

- a. Students are required to take ARTHIST 405A Graduate Pedagogy Course.
- b. Students are required to serve as a teaching assistant for a minimum of four quarters. Further opportunities for teaching may be available.
- c. At least one quarter assignment in a course from the following list:
  - i

ARTHIST 1A	Introduction to the Visual Arts: Prehistoric through Medieval	5
ARTHIST 1B	Introduction to the Visual Arts: History of Western Art from the Renaissance to the Present	5
ARTHIST 2	Asian Arts and Cultures	5
ARTHIST 3	Introduction to World Architecture	5
FILMSTUD 4	Introduction to Film Study	5

## 5. Admission to Candidacy

A graduate student's progress is formally reviewed at the end of Spring Quarter of the second year. The applicant for candidacy must assemble a candidacy file showing that he/she has completed the requirements governing the M.A. program in the History of Art (see above), and an additional 18-24 units by the end of Winter Quarter of the second year. The graduate student does not become a formal candidate for the Ph.D. degree until he/she has fully satisfied these requirements and has been accepted as a candidate by the department faculty.

## 6. The Qualifying Exam

The qualifying exam, ideally to be taken in the Winter Quarter of the student's third year of Ph.D. study, consists of a written and oral

component. These parts are administered on separate days during the same week, with the written part taking place first. Both parts of the exam are graded on a system of High Pass/Pass/Fail. If a student fails one or both parts of the exam, the student is allowed to retake that portion or portions of the exam that s/he has failed. For a detailed account of the format of the written and oral exams, see the graduate student handbook for the Department of Art and Art History. To prepare for the exam, students must enroll in up to two 5-unit reading course, one per quarter:

ARTHIST 620 Qualifying Examination Preparation 5

## 7. Dissertation Colloquium

- a. Each student holds a preliminary intensive conversation with her/his dissertation committee in May or June of the third year. Faculty on leave or out of town are expected to Skype in for the meeting. For that meeting, the student produces a 5-page paper (an early version of the prospectus) that the committee must have read before the meeting.
- b. The purpose of the meeting is to give the student good direction and good momentum going into a summer of prospectus writing—a summer in which the student may be taking a dissertation-writing workshop.
- c. The student must be ready to submit the prospectus for the consideration of the full art history faculty at either the October or November faculty meetings in the student's fourth year.

## 8. Dissertation and Oral Defense Requirements

- a. *Reading Committee:* After passing the Qualifying Exam, each student is responsible for the formation of a dissertation reading committee consisting of a principal adviser, who chairs the reading committee, and two other readers. Normally, both readers are drawn from the department; however, it is possible for one of the readers to be drawn from outside the department. Alternatively, a student may choose to add a fourth reader—from within or outside the department.
- b. *Dissertation Proposal:* By the beginning of Autumn Quarter in the fourth year, students should have identified a dissertation subject and written a proposal in consultation with their principal adviser. To prepare the proposal, students may take:
  - i one 5-unit independent study course:
  - ii

Units ARTHIST 640 Dissertation Proposal Preparation 5

- iii and apply for a funded Summer Quarter to research and write the proposal. The proposal is submitted for approval by the Art History faculty at the beginning of the fourth year for comments. In the event that a proposal is not approved, the faculty establishes conditions for its resubmission and reconsideration at a later date.
- iv There is a required review (via Skype or in person) of the first chapter completed.
- c. *Dissertation:* The final draft of the dissertation must be in all the readers' hands at least four weeks before the date of the oral defense. The dissertation must be completed within five years from the date of the student's admission to candidacy for the Ph.D. degree. A candidate taking more than five years must apply for an extension of candidacy.
- d. *Oral Defense Examinations:* The oral examination consists mainly of a defense of the dissertation but may range, at the committee's discretion, over a wider field. The student is expected to discuss research methods and findings at some length and to answer all questions and criticisms put by members of the examining committee. At the end of the defense, the committee votes to pass or fail the student on the defense. The committee may make recommendations for changes in the dissertation manuscript

Units

before it is submitted to the University as the final requirement for the granting of the Ph.D. degree in the History of Art. After these changes have been incorporated, the manuscript is given a final review and approval by the student's principal adviser.

## Ph.D. Minor in Art History

For a minor in Art History, a candidate is required to complete 24 units of graduate-level Art History courses (300 level or above); all courses must be taken for a letter grade.

*Emeriti:* (Professors) Kristina Branch, Wanda M. Corn, David Hannah, Joel Leivick, Suzanne Lewis, Michael Marrinan, Dwight C. Miller, Kristine Samuelson, Paul V. Turner, Bryan Wolf

*Chair:* Alexander Nemerov

*Area Director for Art History:* Alexander Nemerov

*Area Director for Film and Media Studies:* Pavle Levi

*Area Director for Art Practice:* Gail Wight

*Director of Undergraduate Studies in Art History:* Jody Maxmin

*Director of Undergraduate Studies in Art Practice:* Terry Berlier

*Director of Undergraduate Studies in Film and Media Studies:* Usha Iyer

*Director of Graduate Studies in Art History:* Nancy Troy

*Director of Graduate Studies in Art Practice:* Xiaoze Xie

*Director of Graduate Studies in Documentary Film:* Jamie Meltzer

*Director of Honors Program:* Adam Tobin

*Writing Specialist:* Gabrielle Ann Moyer (Lecturer, Program in Writing and Rhetoric)

*Professors:* Scott Bukatman (Film Studies), Enrique Chagoya (Painting/Drawing/Printmaking), Paul DeMarinis (Electronic Media), Jan Krawitz (Documentary Film), Pamela M. Lee (Contemporary Art), Richard Meyer (American Art), Alexander Nemerov (American Art), Nancy J. Troy (Modern Art), Richard Vinograd (Chinese Art), Xiaoze Xie (Painting/Drawing)

*Associate Professors:* Terry Berlier (Sculpture), Pavle Levi (Film Studies), Jean Ma (Film Studies), Jody Maxmin (Ancient Art), Jamie Meltzer (Documentary Film), Karla Oeler (Film Studies), Bissera Pentcheva (Medieval Art), Gail Wight (Electronic Media)

*Assistant Professors:* Fabio Barry (Architectural History), Jonathan Calm (Photography), Shane Denson (Film Studies), Usha Iyer (Film Studies), Srdan Keca (Documentary Film), Marci Kwon (American Art), Camille Utterback (Design)

*Senior Lecturer:* Adam Tobin (Screenwriting)

*Lecturers:* Robert Dawson (Photography), Yvette Deas (Painting and Drawing), Jamil Hellu (Photography), Lukas Felzmann (Photography), Jenny Odell (Experimental Media/Design), Sarah Peck (Photography)

*Andrew W. Mellon Postdoctoral Fellow:* Shawon Kinew

## Overseas Studies Courses in Art History

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		Units
OSPBBER 17	Split Images: A Century of Cinema	3-4
OSPBBER 60	Cityscape as History: Architecture and Urban Design in Berlin	5
OSPFLOR 34	The Virgin Mother, Goddess of Beauty, Grand Duchess, and the Lady: Women in Florentine Art	4
OSPFLOR 48	Sharing Beauty in Florence: Collectors, Collections and the Shaping of the Western Museum Tradition	4
OSPFLOR 54	High Renaissance and Mannerism: the Great Italian Masters of the 15th and 16th Centuries	4
OSPFLOR 58	Space as History: Social Vision and Urban Change	4
OSPFLOR 111Y	From Giotto to Michelangelo: The Birth and Flowering of Renaissance Art in Florence	4
OSPFLOR 115Y	Building the Cathedral and the Town Hall: Constructing and Deconstructing Symbols of a Civilization	4
OSPMADRD 45	Women in Art: Case Study in the Madrid Museums	4
OSPPARIS 54	The Artist's World: The Workshop, Patronage and Public in 19th and 20th Century France	4
OSPPARIS 72	The Ceilings of Paris	4
OSPPARIS 92	Building Paris: Its History, Architecture, and Urban Design	4

## Overseas Studies Courses in Art Practice

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		Units
OSPFLOR 41	The Florentine Sketchbook: A Visual Arts Practicum	4
OSPFLOR 55	Academy of Fine Arts: Studio Art	1-5
OSPFLOR 71	A Studio with a View: Drawing, Painting and Informing your Aesthetic in Florence	4
OSPMADRD 46	Drawing with Four Spanish Masters: Goya, Velazquez, Picasso and Dali	4
OSPPARIS 42	EAP: Drawing with Live Models	2
OSPPARIS 43	EAP: Painting and Use of Color	2
OSPPARIS 44	EAP: Analytical Drawing and Graphic Art	2

## Overseas Studies Courses in Film

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		Units
OSPBER 17	Split Images: A Century of Cinema	3-4
OSPFLOR 11	Film, Food and the Italian Identity	4
OSPFLOR 49	On-Screen Battles: Filmic Portrayals of Fascism and World War II	5
OSPFLOR 67	The Celluloid Gaze: Gender, Identity and Sexuality in Cinema	4

# ARTS INSTITUTE

The Stanford Arts Institute offers interdisciplinary arts curricula and research programs, drawing on the wide-ranging intellectual resources of Stanford University. The Institute forges arts connections across the University; gives grants for faculty, staff, and students; presents arts events; incubates new arts projects; and supports artists and cultural groups across campus. Since its founding in 2006, the Stanford Arts Institute has been a catalyst helping the Stanford arts community to grow.

Courses offered by the Stanford Arts Institute are listed under the subject code ARTSINST (<http://explorecourses.stanford.edu/search?q=ARTSINST&view=catalog&page=0&academicYear=&collapse=&filter-catalognumber-ARTSINST=on&filter-coursestatus-Active=on&filter-departmentcode-ARTSINST=on&filter-catalognumber-ARTSINST=on>) on the Stanford Bulletin's ExploreCourses web site.

## Honors in the Arts

Web site: <https://arts.stanford.edu/for-students/academics/honors-in-the-arts/>

(Information concerning the 2018-19 program will be available on February 1, 2018.)

The Stanford Arts Institute offers the interdisciplinary Honors in the Arts program, which is open to undergraduates in all majors.

- Stanford students in any major can complete a capstone project integrating their major studies with a broad arts perspective.
  - For students majoring in arts disciplines, this involves incorporating multiple arts disciplines into their work.
  - For students majoring in a non-arts discipline, capstone projects incorporate themes, discourse, or learnings from a student's major along with arts practice or research.

Honors in the Arts can be completed in addition to honors work in a student's home department or alongside another capstone program (such as the Senior Reflection in Biology (<http://web.stanford.edu/~suemcc/TSR>)).

## Admission

Honors in the Arts is open to students majoring in any field with an overall GPA of 3.67 or better. Students with demonstrated strengths relevant to the program may petition the GPA requirement at the time of application.

Students are required to take at least three courses identified as preparing them to execute an interdisciplinary capstone project. These courses should be in either an art practice area relevant to the capstone project or should explore the methodology of interdisciplinary arts study. A sample list of courses can be found on the Arts Institute web site. It is recommended that students complete at least two of these courses prior to entering the program. However, upon approval of the program director, students may take these courses while pursuing their honors project. Courses are typically at least 2 units and must be taken for a letter grade.

## How to Apply

Admission to the program is competitive. Students apply for entry into the program during the Spring Quarter of their junior year. The application includes:

Eligibility requirements include:

- Stanford senior during the academic year following the Spring Quarter application

- Effective for applicants to the 2017-18 program, the minimum GPA is 3.25. For applicants to the 2016-17, a minimum overall GPA of 3.67 was required. However, applicants may submit a petition for consideration if the GPA falls below the minimum.
- Completion of at least three creative or artistic courses that prepare the student to execute an interdisciplinary capstone project

Application materials include:

- Capstone project proposal which addresses the following:
  - a. the concept for the interdisciplinary capstone project or research
  - b. a description of the student's background in the disciplines to be drawn upon for the project
  - c. a statement of how the Honors in the Arts workshops will help in the development of the project
  - d. a statement of the relevance of Honors in the Arts to the student's education at Stanford and beyond
- Unofficial transcript
- Name and contact information for a faculty member who can provide a reference upon request
- At least one creative work sample
  - If the proposal will be enhanced by visual, audio, or other media, the committee accepts the following file formats: up to 8 images (compiled in a single PDF file), 5 minutes of video or audio, PDFs, and linked external media (such as YouTube, Vimeo, and SoundCloud). If these limits present a significant obstacle, contact Rebecca Struch ([rstruch@stanford.edu](mailto:rstruch@stanford.edu)).

See the Honors in the Arts web site (<https://arts.stanford.edu/for-students/academics/honors-in-the-arts/>) for additional information on applying to the program

## Preparation for Honors in the Arts

Students wishing to receive Honors in the Arts must take at least three courses identified as preparing them to execute an interdisciplinary capstone project. Students should choose courses that provide a foundation in the artistic disciplines relevant to your proposed project. Students should plan to complete at least two of these courses prior to entering the program. However, upon approval of the program director, students may take these courses while pursuing their Honors project.

The Creativity Course Guide (<https://arts.stanford.edu/for-students/creativity-course-guide>) includes courses that provide an introduction to the study of the arts disciplines as well as incorporating the arts in an interdisciplinary context.

## Requirements

Students admitted to the program are required to take the following sequence of courses during their senior year:

- Each Spring, students present their capstone projects during a public symposium.
- Prior to Spring Quarter, junior year: Two preparatory courses for interdisciplinary study, 4-8 Units
- Prior to Spring Quarter, junior year, concurrent with Capstone: Preparatory course for interdisciplinary study, 2-4 Units
- Winter Quarter, junior year: Apply for admission to Interdisciplinary Arts Honors
- Spring Quarter, junior year: Confirm preparatory courses with honors program director
- Autumn Quarter, Senior Year: ARTSINST 200A Honors in the Arts Workshop (2 units)
- Winter Quarter, Senior Year: ARTSINST 200B Honors in the Arts Workshop (2 units)

- Spring Quarter, Senior Year: ARTSINST 200C Honors in the Arts Workshop (2 units)

## Capstone Projects

All accepted projects are eligible for modest financial support. The capstone project is developed during the senior year through three quarters of workshops.

Through a yearlong process, students develop a capstone project that goes beyond the traditional boundaries of their major.

- Capstone projects are typically creative projects involving an arts practice element. Capstone projects may also be scholarly research projects involving a multidisciplinary approach.
- For individual students majoring in arts disciplines, this involves incorporating multiple arts disciplines into their work.
- For individual students majoring in a non-arts discipline, capstone projects incorporate themes, discourse, or learnings from a student's major along with arts practice or research.
- Effective for the 2017-18 academic year, students can apply with an individual or team-based project. For team-based projects (2-5 students per team), students explore art's role in social justice, climate change, and new creative economies. Examples of possible team-based projects might include devising a new intervention into the education-to-prison pipeline using art as a primary mode of communication, or devising an arts-based curriculum or community project round climate change involving collaborations with geologists, engineers, urban studies scholars, or economists. Students may also choose to propose a topic of their own.
- Students must receive at least an 'A-' on the capstone project. Students receiving a grade of less than an 'A-' but greater than 'NP' receive credit for the workshops but do not receive honors.
- *Mentors:* Each student works closely with two mentors, one academic mentor from the student's home department and one creative mentor, to develop and shape the capstone project. Students are responsible for selecting their own mentors and setting up regular meetings throughout the academic year. Mentors do not need to be finalized or confirmed at the time of application.

## New York City Arts Immersion

The Stanford Arts Institute offers an Arts Immersion trip to New York City during Spring Break, March 24 - 31, 2018.

Students travel with Stanford faculty and Arts Institute staff for a week-long engagement with the arts, meeting institutional leaders, policy makers, and arts practitioners. They visit museums, galleries, concert halls; they see dance rehearsals, opera, and a Broadway show; and they have a chance to meet with alumni in the arts. In the spring quarter class ARTSINST 11Q Art in the Metropolis, students revisit their immersion experience by reading critical literature and participating in rigorous discussion.

See the Arts Immersion (<https://arts.stanford.edu/for-students/academics/arts-immersion>) web site and subscribe to the Arts Update (<https://arts.stanford.edu/for-students/artsupdate>) for information about upcoming information sessions in Autumn 2017.

## Admission

Applications are welcomed from all undergraduate class years. Before applying, students should be aware that they must enroll in and attend the Spring Quarter course: ARTSINST 11Q/TAPS 11Q .

Submit a complete application through the Introductory Seminars (<https://vcais.stanford.edu>) web site or visit the Arts Immersion (<https://arts.stanford.edu/for-students/academics/arts-immersion>) web site. Applications are due by 11:59 p.m. on December 1, 2017.

## Important Dates

- Application Period: September 1—December 1, 2017 at 11:59 pm
- Acceptance Notification: Friday, December 15, 2017
- Travel to New York: Saturday, March 24—Saturday, March 30, 2018
- ARTSINST 11Q Art in the Metropolis, Spring 2018, Thursdays, 12 - 2:50 pm

## Creative Cities

Creative Cities is a year-long arts fellowship program inviting visiting scholars to examine the role of art in cities. The fellowship fosters research, conversation, and artistic projects in urban settings.

## Courses

Each year the fellows offer unique, interdisciplinary courses in their respective areas of research. Courses are open to all undergraduate students.

		<b>Units</b>
ARTSINST 182	Activating Urban Spaces: Materializing Hidden Narratives in the Urban Environment	3-4
ARTSINST 184	Creativity: Anatomy of a Buzzword	4

ARTSINST/TAPS Art in the Metropolis (required)  
11Q

# ASTRONOMY

Astronomy courses are offered primarily through the Physics department, with subject code PHYSICS on the Stanford Bulletin's ExploreCourses website.

Although Stanford University does not have a degree program in astronomy or astrophysics, teaching and research in various branches of these disciplines are ongoing activities in the departments of Applied Physics, Physics, SLAC National Accelerator Laboratory, and Hansen Experimental Physics Laboratory (HEPL).

For the convenience of students interested in astronomy, astrophysics, and cosmology, a course program for undergraduate and graduate study is listed in the "Astronomy Cognate Courses (p. 407)" section of this bulletin. The list includes introductory courses for the student who wishes to be informed about the fields of astronomy without the need for prerequisites beyond high school algebra and physics. Courses in astronomy numbered below 100 are designed to serve this group of students. Astronomy courses numbered 100-199 serve the student interested in an initial scientific study of astronomy. The courses numbered 200 and above are for graduate students and advanced undergraduates, subject to prior approval by the course instructor.

## Undergraduate Programs in Astronomy

The University does not offer a separate undergraduate major in Astronomy. Students who intend to pursue graduate study in astronomy or space science are encouraged to major in physics, following the advanced sequence if possible, or in electrical engineering if the student has a strongly developed interest in radioscience. The course descriptions for these basic studies are listed under the appropriate department sections of this bulletin. Students desiring guidance in developing an astronomy-oriented course of study should contact the chair of the Astronomy Program Committee. The following courses are suitable for undergraduates and are recommended to students considering advanced study in astronomy or astrophysics:

		Units
PHYSICS 100	Introduction to Observational Astrophysics	4
PHYSICS 160	Introduction to Stellar and Galactic Astrophysics	3
PHYSICS 161	Introduction to Cosmology and Extragalactic Astrophysics	3
GS 222	Planetary Systems: Dynamics and Origins	3-4
Students planning study in astronomy beyond the B.S. are urged to take:		
PHYSICS 262	General Relativity	3

The above-mentioned courses are required for physics majors who choose the curriculum with a concentration in astrophysics (see the "Physics (p. 683)" section of this bulletin).

### Stanford Student Observatory

The student observatory, located in the hills to the west of the campus, is equipped with a 24-inch and other small reflecting telescopes. It is used for instruction of the observation-oriented courses, PHYSICS 50 Astronomy Laboratory and Observational Astronomy and PHYSICS 100 Introduction to Observational Astrophysics.

The Department of Physics offers a minor in Physics with a concentration in Astronomy.

## Minor in Physics with Concentration in Astronomy

Students wishing to pursue advanced work in astrophysical sciences should major in Physics (p. 685) and concentrate in astrophysics. However, students outside of Physics with a general interest in astronomy may organize their studies by completing one of the following Physics minor concentration programs.

Students who take the 20, 40, or 60 series at Stanford in support of their major may count those units towards the minor.

An undergraduate Physics minor with a concentration in Astronomy requires the following courses:

### Non-Technical

For students whose majors do not require the PHYSICS 40 or 60 series:

		Units
PHYSICS 21	Mechanics, Fluids, and Heat	4
PHYSICS 23	Electricity, Magnetism, and Optics	4
PHYSICS 25 & PHYSICS 26	Modern Physics and Modern Physics Laboratory	5
PHYSICS 50	Astronomy Laboratory and Observational Astronomy	3-4
or PHYSICS 100	Introduction to Observational Astrophysics	
Select two of the following:		6
PHYSICS 15	Stars and Planets in a Habitable Universe	
PHYSICS 16	The Origin and Development of the Cosmos	
PHYSICS 17	Black Holes and Extreme Astrophysics	

### Technical

For students whose majors require the PHYSICS 40 or 60 series:

		Units
Select one of the following Series:		14-17
Series A		
PHYSICS 41	Mechanics	
PHYSICS 43	Electricity and Magnetism	
PHYSICS 45 & PHYSICS 46	Light and Heat and Light and Heat Laboratory	
PHYSICS 70	Foundations of Modern Physics	
Series B		
PHYSICS 61	Mechanics and Special Relativity	
PHYSICS 63	Electricity, Magnetism, and Waves	
PHYSICS 65	Quantum and Thermal Physics	
PHYSICS 67	Introduction to Laboratory Physics	
And take the following three courses:		
PHYSICS 100	Introduction to Observational Astrophysics	4
PHYSICS 160	Introduction to Stellar and Galactic Astrophysics	3
PHYSICS 161	Introduction to Cosmology and Extragalactic Astrophysics	3
Total Units		24-27

Students are also encouraged to take the electricity and magnetism/optics lab of the appropriate PHYSICS series, PHYSICS 24, PHYSICS 44 or PHYSICS 64 for 1 additional unit.

## Graduate Programs in Astronomy

Graduate programs in astronomy and astrophysics and related topics are carried out primarily in the Department of Physics but also the

departments of Applied Physics and Electrical Engineering. Students should consult the course listings, degree requirements, and research programs of these departments for more detailed information.

Graduate research opportunities are available in many areas of theoretical and observational astronomy. For further information, see the Kavli Institute of Particle Astrophysics and Cosmology (<http://kipac.stanford.edu>) website.

#### Students planning to conduct research in astronomy and astrophysics should take:

Select one of the following:	3
PHYSICS 361 Cosmology	
PHYSICS 362 Advanced Extragalactic Astrophysics and Cosmology ((Not offered 2017-18))	

#### Students lacking a background in astrophysics, gravitation, and plasma physics should take:

PHYSICS 260 Introduction to Stellar and Galactic Astrophysics	3
PHYSICS 261 Introduction to Cosmology and Extragalactic Astrophysics	3
PHYSICS 262 General Relativity	3
PHYSICS 312 Basic Plasma Physics (Not offered 2017-18)	3

#### Students with special interests in gravitation should take:

PHYSICS 364 Advanced Gravitation (Not offered 2017-18)	3
GS 222 Planetary Systems: Dynamics and Origins	3-4

Each year a number of "special topics" course are offered. Refer to courses in the PHYSICS 360 range for more details. Students interested in research programs in space physics involving spacecraft studies of the planets, their satellites, and their near-space environments should see the "Center for Space Science and Astrophysics (p. 850)" section of this bulletin.

*Emeriti: (Professors)* Von R. Eshleman, Peter A. Sturrock, G. Leonard Tyler, Robert V. Wagoner

*Professors:* Tom Abel (Physics, SLAC), Steve Allen (Physics, SLAC), Roger Blandford (Physics, SLAC), Pat Burchat (Physics), Blas Cabrera (Physics), Sarah Church (Physics), Kent Irwin (Physics, SLAC), Steven Kahn (Physics, SLAC), Bruce Macintosh (Physics), Peter Michelson (Physics), Vahé Petrosian (Physics, Applied Physics), Roger W. Romani (Physics)

*Associate Professors:* Chao-Lin Kuo (Physics, SLAC), Risa Wechsler (Physics, SLAC)

*Professor (Research):* Philip H. Scherrer (Physics)

## Astronomy Cognate Courses

### Elementary Lectures

The following courses provide a descriptive knowledge of astronomical objects and astrophysics. PHYSICS 15, PHYSICS 16, and PHYSICS 17 are for students not majoring in the sciences and are taught in different quarters by different instructors, and may be taken individually or in any order.

		Units
PHYSICS 15	Stars and Planets in a Habitable Universe	3
PHYSICS 16	The Origin and Development of the Cosmos	3
PHYSICS 17	Black Holes and Extreme Astrophysics	3

### Observatory

The following courses allow students to use the on-campus Stanford Student Observatory, and are intended to familiarize students with

observational methods and analysis of astronomical data. PHYSICS 50 is for general students, while PHYSICS 100 involves more advanced observations and is intended for students with a college level background in physics.

		Units
PHYSICS 50	Astronomy Laboratory and Observational Astronomy	3
PHYSICS 100	Introduction to Observational Astrophysics	4

### Advanced Undergraduate

The following courses are for students with a more advanced knowledge of basic physics and mathematics, and form the core courses for a concentration in astrophysics for Physics majors.

		Units
PHYSICS 160	Introduction to Stellar and Galactic Astrophysics	3
PHYSICS 161	Introduction to Cosmology and Extragalactic Astrophysics	3

### Graduate

		Units
PHYSICS 260	Introduction to Stellar and Galactic Astrophysics	3
PHYSICS 261	Introduction to Cosmology and Extragalactic Astrophysics	3
PHYSICS 262	General Relativity	3
PHYSICS 269	Neutrinos in Astrophysics and Cosmology	3
PHYSICS 301	Astrophysics Laboratory	3
PHYSICS 312	Basic Plasma Physics (Not offered 2017-18)	3
PHYSICS 361	Cosmology	3
PHYSICS 362	Advanced Extragalactic Astrophysics and Cosmology (Not offered 2017-18)	3
PHYSICS 366	Special Topics in Astrophysics: Statistical Methods	2
PHYSICS 368	Computational Cosmology and Astrophysics ((Not Offered 2017-18))	2

# BIOLOGY, HOPKINS MARINE STATION

---

Courses offered by the Hopkins Marine Station are listed under the subject code BIOHOPK on the Stanford Bulletin's ExploreCourses web site.

The Hopkins Marine Station, located 90 miles from the main University campus in Pacific Grove, was founded in 1892 as the first marine laboratory on the west coast of North America. The modern laboratory facilities on the 11-acre campus on Cabrillo Point house nine faculty, all members of the Department of Biology. The Miller Library has a collection of literature in marine science. The Hopkins faculty offers undergraduate and graduate courses in biology which focus on the marine realm and involve topics including oceanography, environmental and comparative physiology, molecular evolution, biomechanics, cellular biology, conservation biology, and neurobiology and behavior. Most courses have laboratory sections that exploit the potential of working with readily available marine plants and animals. Small class sizes encourage close student-faculty interactions. Undergraduates have opportunities to carry out research projects with Hopkins faculty during the academic year or summer months.

Courses at Hopkins Marine Station can satisfy many requirements, from Ways to major and minor requirements in departments housed in the Schools of Engineering, Humanities and Sciences, and Earth, Energy, and Environmental Sciences. Students are encouraged to check with their department's student services office to see which courses at Hopkins may be used to fulfill major or minor requirements.

## Summer Program at Hopkins Marine Station

The summer program is open to advanced undergraduate, graduate students, and postdoctoral students, and to teachers whose biological backgrounds, teaching, or research activities can benefit from a summer's study of marine life. Applications, deadlines, and further information are available at the Hopkins Marine Station (<http://hopkins.stanford.edu>) web site.

*Emeriti Professors:* David Epel, George N. Somero

*Director:* Mark W. Denny

*Professors:* Barbara A. Block, Larry Crowder, Giulio De Leo, Mark W. Denny, William F. Gilly, Fiorenza Micheli, Stephen R. Palumbi, Stuart H. Thompson

*Associate Professor:* Christopher Lowe

*Assistant Professor:* Jeremy A. Goldbogen

*Lecturer:* James Watanabe

# BIOLOGY

Courses offered by the Department of Biology are listed under the subject code BIO on the Stanford Bulletin's ExploreCourses web site.

The department provides:

- a major program leading to the B.S. degree
- a minor program
- a coterminal program leading to the M.S. degree
- a doctoral program leading to the Ph.D. degree, and
- courses designed for the non-major.

## Mission of the Undergraduate Program in Biology

The mission of the undergraduate program in Biology is to provide students with in-depth knowledge in the discipline, from molecular biology to ecology. Students in the program learn to think and analyze information critically, to draw connections among the different areas of biology, and to communicate their ideas effectively to the scientific community. The major exposes students to the scientific process through a set of core courses and electives from a range of subdisciplines. The Biology major serves as preparation for professional careers, including medicine, dentistry, veterinary sciences, teaching, consulting, research, and field studies.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. the ability to use discipline-specific tools and content knowledge to analyze and interpret scientific data, to evaluate the significance of the data, and to articulate conclusions supportable by the data.
2. the ability, independently and collaboratively, to formulate testable scientific hypotheses and to design approaches to obtain data to test the respective hypotheses.
3. the ability to communicate content understanding and research outcomes effectively using various media.

## Mission of the Graduate Program in Biology

For graduate-level students, the department offers resources and experience learning from and working with world-renowned faculty involved in research on ecology, neurobiology, population biology, plant and animal physiology, biochemistry, immunology, cell and developmental biology, genetics, and molecular biology.

The M.S. degree program offers general or specialized study to individuals seeking biologically oriented course work, and to undergraduate science majors wishing to increase or update their science background or obtain advanced research experience.

The training for a Ph.D. in Biology is focused on learning skills required to be a successful research scientist and teacher, including how to ask important questions and then devise and carry out experiments to answer these questions. Students work closely with an established advisor and meet regularly with a committee of faculty members to ensure that they understand the importance of diverse perspectives on experimental questions and approaches. Students learn how to evaluate critically pertinent original literature in order to stay abreast of scientific progress in their areas of interest. They also learn how to

make professional presentations, write manuscripts for publication, and become effective teachers.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in Biology and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in Biology. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of Biology and to interpret and present the results of such research.

## Facilities

The offices, labs, and personnel of the Department of Biology are located in the Gilbert Biological Sciences, Herrin Laboratories, Herrin Hall, James H. Clark Center, Lorry I. Lokey Laboratory, and Jerry Yang and Akiko Yamazaki Environment and Energy (Y2E2) buildings. Along with the Carnegie Institution of Washington all are on the main campus. Jasper Ridge Biological Preserve (JRBP) is located near Stanford University's campus in the eastern foothills of the Santa Cruz Mountains. Hopkins Marine Station is on Monterey Bay in Pacific Grove.

Jasper Ridge Biological Preserve encompasses geologic, topographic, and biotic diversity within its 1,189 acres and provides a natural laboratory for researchers from around the world, educational experiences for students and docent-led visitors, and refuge for native plants and animals. See the JRBP (<http://jrpb.stanford.edu>) web site.

Hopkins Marine Station, located 90 miles from the main University campus in Pacific Grove, was founded in 1892 as the first marine laboratory on the west coast of North America. For more information, including courses taught at Hopkins Marine Station with the subject code BIOHOPK, see the "Hopkins Marine Station (<http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/biology/%20/schoolofhumanitiesandsciences/biologyhopkinsmarinestation>)" section of this bulletin.

The department's large collections of plants (Dudley Herbarium), fish, reptiles, and amphibians, as well as smaller collections of birds, mammals, and invertebrates, are housed at the California Academy of Sciences in San Francisco, where they, and extensive collections of the Academy, are available to those interested in the systematics of these groups. Entomological collections, restricted to those being used in particular research projects, are housed in the Herrin Laboratories. No general collections are maintained except for teaching purposes.

The Robin Li and Melissa Ma Science Library (<http://library.stanford.edu/libraries/science/about>), located in the Sapp Center for Science Teaching and Learning, supports research and teaching for the Department of Biology and other related disciplines. A specialized library is maintained at Hopkins Marine Station.

## Biology Course Numbering System

The department uses the following course numbering system:

Number	Level
000-099	Introductory and Foundations
100-199	Undergraduate
200-299	Advanced Undergraduate, Coterminal and PhD
300+	PhD

## Bachelor of Science in Biology

The undergraduate major in Biology can serve as a stepping-stone for a wide variety of career opportunities. For students planning to attend medical, dental, or veterinary school, or graduate school in biological and applied sciences, the biology major provides a strong foundation in the basic life sciences. This foundation of knowledge, plus laboratory experience, also prepares students well for research and technical positions in universities, government, and industry.

While a major in Biology provides an excellent background for these technical careers, it can also serve as a valuable and satisfying focus of a liberal arts education for those not planning careers in science-related fields. An understanding of basic biological principles is of increasing importance in today's world. A knowledgeable and concerned citizenry is the best guarantee that these issues will be resolved most effectively. Finally, an understanding of the processes of life can heighten our perception and appreciation of the world around us, in terms of its beauty, variety, and uniqueness.

### Advising

Members of the Biology faculty are available for advising on such academic matters as choice of courses, research, suggested readings, and career plans. The student services office maintains a current list of faculty advisors, advising availability, and research interests.

The student services staff and BioBridge (<https://biology.stanford.edu/academics/undergraduate-program/advising/biobridge-peer-advising>), the department's peer advising group, are prepared to answer questions on administrative matters, such as requirements for the major, approved out-of-department electives, transfer course evaluations, and petition procedures. This office also distributes the department's Bachelor of Science Handbook (<https://stanford.app.box.com/v/bs-handbook>), which delineates policies and requirements, as well as other department forms and informational handouts.

Each undergraduate interested in the Biology major is required to select a department faculty advisor as part of the major declaration process.

### Degree Requirements

Candidates for the general Biology B.S. degree must complete the following requirements, which ranges from 88-102 total units. There is also an option to add honors to the major, regardless of whether a student wishes to complete the general major or a specific field of study. Honors requirements are explained in detail in the "Honors (<https://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/biology/#honorstext>)" tab. Requirements for specific fields of study are explained in the "Fields of Study (p. 412)" tab.

#### Introductory Course

(must be taken for a letter grade):

Select one of the following:

BIO 60	Introduction to Problem Solving in Biology
BIO 61	Science as a Creative Process
BIO 62	Experimental strategy and the bacterial world

Units

4

#### Foundational Courses

(must be taken for a letter grade):

Select 5 of the following:

BIO 81	Introduction to Ecology
or BIOHOPK 81	Introduction to Ecology
BIO 82	Genetics

Units

20

BIO 83	Biochemistry & Molecular Biology
BIO 84	Physiology
or BIOHOPK 84	Physiology
BIO 85	
or BIOHOPK 85	Evolution
BIO 86	Cell Biology

#### Foundational Lab Courses

Two Courses Required:

BIO 45	Introduction to Laboratory Research in Cell and Molecular Biology	4
BIO 46	Introduction to Research in Ecology and Evolutionary Biology	4-5
or BIO 47	Introduction to Research in Ecology and Evolutionary Biology	
or BIOHOPK 47	Introduction to Research in Ecology and Ecological Physiology	

Units

#### Required Foundational Breadth Courses

(One course from this section may be taken credit/no credit):

		Units
<b>Chemistry</b>		
The following CHEM courses are required:		
CHEM 31A & CHEM 31B or CHEM 31X	Chemical Principles I and Chemical Principles II Chemical Principles Accelerated	5-10
CHEM 33	Structure and Reactivity of Organic Molecules	5
CHEM 35	Organic Chemistry of Bioactive Molecules	5
<b>Mathematics</b>		
Select one of the following options:		5-10
MATH 19 & MATH 20 & MATH 21	Calculus and Calculus and Calculus	
MATH 51	Linear Algebra and Differential Calculus of Several Variables (or beyond)	
CME 100	Vector Calculus for Engineers	
<b>Physics</b>		
Select one of the following Series:		10-12
PHYSICS 20 Series		
PHYSICS 21	Mechanics, Fluids, and Heat	
PHYSICS 22	Mechanics, Fluids, and Heat Laboratory	
PHYSICS 23	Electricity, Magnetism, and Optics	
PHYSICS 24	Electricity, Magnetism, and Optics Laboratory	
PHYSICS 40 Series		
PHYSICS 41	Mechanics	
PHYSICS 43	Electricity and Magnetism	
PHYSICS 45	Light and Heat	
<b>Statistics</b>		
Select one of the following courses:		3-5
BIO/STATS 141	Biostatistics <sup>1</sup>	
BIOHOPK 174H	Experimental Design and Probability <sup>1</sup>	
STATS 60	Introduction to Statistical Methods: Precalculus	
Total Units		33-47

<sup>1</sup> If taken to fulfill the foundational breadth requirement, these courses do not count toward the 23 elective unit requirement.

## Electives

23 units required, distributed as follows:

- Biology (BIO) or Hopkins Marine Station (BIOHOPK) courses numbered 100 or above.
- Approved out-of-department electives (<https://stanford.app.box.com/v/out-of-department-electives>) (list also available in the student services office).
- No more than 6 units from any combination of these courses may be applied toward the total number of elective units:

BIO 196A	Biology Senior Reflection	3
BIO 196B	Biology Senior Reflection	3
BIO 196C	Biology Senior Reflection	3
BIO 197WA	Senior Writing Project: The Personal Essay in Biology	3
BIO 198	Directed Reading in Biology	1-15
BIO 198X	Out-of-Department Directed Reading	1-15
BIO 199	Advanced Research Laboratory in Experimental Biology	1-15
BIO 199W	Senior Honors Thesis: How to Effectively Write About Scientific Research	3
BIO 199X	Out-of-Department Advanced Research Laboratory in Experimental Biology	1-15
BIO 290	Teaching of Biology	1-5
BIO 291	Development and Teaching of Core Experimental Laboratories	1-2
BIO 296	TA Training in Biology	1
BIOHOPK 198H	Directed Instruction or Reading	1-15
BIOHOPK 199H	Undergraduate Research	1-15
BIOHOPK 290H	Teaching of Biological Science	1-15

- One course applied toward the elective unit requirement may be taken CR/NC.

## Writing in the Major

Students must take one of the following courses to fulfill the Writing in the Major requirement in Biology:

BIO 46	Introduction to Research in Ecology and Evolutionary Biology
BIO 47	Introduction to Research in Ecology and Evolutionary Biology
BIO 107	Human Physiology Laboratory
BIO 168	Explorations in Stem Cell Biology
BIO 196A	Biology Senior Reflection
BIO 197WA	Senior Writing Project: The Personal Essay in Biology
BIO 199W	Senior Honors Thesis: How to Effectively Write About Scientific Research
BIOHOPK 47	Introduction to Research in Ecology and Ecological Physiology
BIOHOPK 172H	Marine Ecology: From Organisms to Ecosystems

Note: BIO 107, BIO 137, BIO 168, BIO 196A, BIO 197WA, BIO 199W, and BIOHOPK 172H can also count toward the elective requirement.

## Typical Schedule for a Four-Year Program

First Year	Units		
	Autumn	Winter	Spring
Chemical Principles I (CHEM 31A)		5	
Calculus (MATH 19)		3	

Freshman requirements, seminars, or WAYS	8		
Chemical Principles II (CHEM 31B)		5	
Calculus (MATH 20)		3	
Introduction to Problem Solving in Biology (BIO 60)		4	
Freshman requirements, seminars, or WAYS	4		
Structure and Reactivity of Organic Molecules (CHEM 33)		5	
Calculus (MATH 21)		4	
Introduction to Statistical Methods: Precalculus (STATS 60)		5	
Freshman requirements, seminars, or WAYS	4		
<b>Year Total:</b>	<b>16</b>	<b>16</b>	<b>18</b>

Second Year	Units		
	Autumn	Winter	Spring
Genetics (BIO 82)		4	
Organic Chemistry of Bioactive Molecules (CHEM 35)		5	
WAYS, PWR		8	
Biochemistry & Molecular Biology (BIO 83)		4	
Physiology (BIO 84)		4	
Introduction to Laboratory Research in Cell and Molecular Biology (BIO 45)		4	
WAYS		4	
Cell Biology (BIO 86)		4	
Introduction to Research in Ecology and Evolutionary Biology (BIO 47)		4	
WAYS		3	
Biology Electives		3	
<b>Year Total:</b>	<b>17</b>	<b>16</b>	<b>14</b>

Third Year	Units		
	Autumn	Winter	Spring
Abroad (BIO 85)			
Electives		4	
WAYS		4	
Electives		7	
<b>Year Total:</b>		<b>8</b>	<b>7</b>

Fourth Year	Units		
	Autumn	Winter	Spring
Electives	3		
Mechanics, Fluids, and Heat (PHYSICS 21)	4		
Mechanics, Fluids, and Heat Laboratory (PHYSICS 22)	1		
Electives		3	
Electricity, Magnetism, and Optics (PHYSICS 23)		4	
Electricity, Magnetism, and Optics Laboratory (PHYSICS 24)		1	
Electives			3
<b>Year Total:</b>	<b>8</b>	<b>8</b>	<b>3</b>

Total Units in Sequence: 131

- 1 This schedule varies slightly if the student takes CHEM 31X in place of CHEM 31A & CHEM 31B.
- 2 The schedule varies slightly depending on which 5 Bio Foundations courses the student chooses to take, and if any of them will be taken at Hopkins Marine Station.

## Honors

To graduate with departmental honors, a student must conduct an independent research project typically over the course of at least one year; projects are started no later than Autumn or Winter Quarter of the junior year. Research must be done in a Biology Department lab or a lab in another department for which the student has obtained prior approval. Administrative steps include:

1. Submit an approved honors proposal to the department's student services office two quarters prior to graduation. For instance, students graduating Spring Quarter must submit petitions no later than mid-Autumn Quarter.
2. Complete at least 10 units of an approved research project in from the same lab. Students conducting research in a lab outside of the department of Biology must submit an Out of Department Research Petition (<https://stanford.app.box.com/v/198x-199x-petition>) either before they start their research, or if research was started prior to declaring the Biology major, as soon as their major declaration is approved. Only research units from BIO or BIOHOPK are counted toward the 10 unit requirement:

BIO 199	Advanced Research Laboratory in Experimental Biology	1-15
BIO 199X	Out-of-Department Advanced Research Laboratory in Experimental Biology	1-15
BIOHOPK 199H	Undergraduate Research	1-15

3. Obtain at least a 3.0 (B) grade point average (GPA) in all Biology major requirements taken at Stanford (foundational, breadth, and elective courses). Grades earned from teaching and research are not computed into this GPA:

BIO 198	Directed Reading in Biology	1-15
BIO 198X	Out-of-Department Directed Reading	1-15
BIO 199	Advanced Research Laboratory in Experimental Biology	1-15
BIO 199X	Out-of-Department Advanced Research Laboratory in Experimental Biology	1-15
BIO 290	Teaching of Biology	1-5
BIO 291	Development and Teaching of Core Experimental Laboratories	1-2
BIO 296	TA Training in Biology	1
BIOHOPK 199H	Undergraduate Research	1-15
BIOHOPK 290H	Teaching of Biological Science	1-15

4. If graduating in Spring, participate in the annual Achauer Undergraduate Biology Honors Symposium by presenting a poster or giving an oral presentation. The symposium is typically at the end of May. Students graduating in Autumn, Winter, or Summer Quarter must produce a poster in the quarter in which they graduate to be displayed at the symposium.
5. Complete and, by the published deadline within the quarter graduation is expected, submit online an honors thesis approved by at least two readers. At least one reader must be from the faculty of the Department of Biology and both readers must be Academic Council members. The title page of the honors thesis must include student name, thesis title, name and department of research sponsor, and name and department of second reader. Students must submit this page with original ink signatures to the student services office by the published deadline for the quarter in which graduation is expected.

Further information on the honors program is available in the student services office in Gilbert 108, as well as on the Honors Program and Undergraduate Research in Biology (<https://biology.stanford.edu/academics/undergraduate-program/honors-program>) web site.

## Fields of Study

In addition to the undergraduate general major, the department offers the following seven fields of study for students wishing to concentrate their studies in particular areas of biology:

1. Biochemistry and Biophysics

2. Computational Biology
3. Ecology and Evolution
4. Marine Biology
5. Microbes and Immunity
6. Molecular, Cellular, and Developmental Biology
7. Neurobiology

These fields of study are declared on Axxess at the time of the major declaration; they appear on both the transcript and on the diploma.

## Writing in the Major for the B.S. Degree in Biology with a Field of Study

Students must take one of the following courses to fulfill the Writing in the Major requirement in Biology:

BIO 46	Introduction to Research in Ecology and Evolutionary Biology
BIO 47	Introduction to Research in Ecology and Evolutionary Biology
BIO 107	Human Physiology Laboratory
BIO 168	Explorations in Stem Cell Biology
BIO 196A	Biology Senior Reflection
BIO 197WA	Senior Writing Project: The Personal Essay in Biology
BIO 199W	Senior Honors Thesis: How to Effectively Write About Scientific Research
BIOHOPK 47	Introduction to Research in Ecology and Ecological Physiology
BIOHOPK 172H	Marine Ecology: From Organisms to Ecosystems

*Note:* BIO 107, BIO 137, BIO 168, BIO 196A, BIO 197WA, BIO 199W, and BIOHOPK 172H can also count toward the elective requirement.

## Biochemistry and Biophysics

Candidates for the Biochemistry and Biophysics field of study must complete the following, as well WIM requirement above, for a total ranging from 90-102 units:

### Introductory Course

(must be taken for a letter grade):

Select one of the following:

	Units
BIO 60	Introduction to Problem Solving in Biology
BIO 61	Science as a Creative Process
BIO 62	Experimental strategy and the bacterial world

### Foundational Courses

(must be taken for a letter grade):

All of the following:

	Units
BIO 82	Genetics
BIO 83	Biochemistry & Molecular Biology
BIO 84	Physiology
or BIOHOPK 84	Physiology
BIO 86	Cell Biology

Select 1 of the following:

	Units
BIO 81	Introduction to Ecology
or BIOHOPK 81	Introduction to Ecology
BIO 85	

or BIOHOPK 85 Evolution

### Foundational Lab Courses

Two Courses Required:

BIO 45	Introduction to Laboratory Research in Cell and Molecular Biology	4
BIO 46	Introduction to Research in Ecology and Evolutionary Biology	4-5
or BIO 47	Introduction to Research in Ecology and Evolutionary Biology	
or BIOHOPK 47	Introduction to Research in Ecology and Ecological Physiology	

### Required Foundational Breadth Courses

(One course from this section may be taken credit/no credit):

#### Chemistry

The following CHEM courses are required:

CHEM 31A & CHEM 31B	Chemical Principles I and Chemical Principles II	5-10
or CHEM 31X	Chemical Principles Accelerated	
CHEM 33	Structure and Reactivity of Organic Molecules	5
CHEM 35	Organic Chemistry of Bioactive Molecules	5

#### Mathematics

Select one of the following options: 5-10

MATH 19 & MATH 20 & MATH 21	Calculus and Calculus and Calculus	
MATH 51	Linear Algebra and Differential Calculus of Several Variables (or beyond)	
CME 100	Vector Calculus for Engineers	

#### Physics

PHYSICS 40 Series		12
PHYSICS 41	Mechanics	
PHYSICS 43	Electricity and Magnetism	
PHYSICS 45	Light and Heat	

#### Statistics

Select one of the following courses: 3-5

BIO/STATS 141	Biostatistics <sup>1</sup>	
BIOHOPK 174H	Experimental Design and Probability <sup>1</sup>	
STATS 60	Introduction to Statistical Methods: Precalculus	

Total Units 35-47

<sup>1</sup> If taken to fulfill the foundational breadth requirement, these courses do not count toward the 23 elective unit requirement.

### Electives

23 units required. Students must take the 3 required courses listed, as well as three courses in Biochemistry and Biophysics from the approved list. The remainder of the 23 units of electives may be any BIO or BIOHOPK course at the 100-level or above, or from the list of approved out-of-department electives. Up to 6 units of teaching and research are allowed. Only one course can be taken credit/no credit.

3 Required Courses:

CHEM 141	The Chemical Principles of Life I	4
CHEM 143	The Chemical Principles of Life II	4

MATH 51	Linear Algebra and Differential Calculus of Several Variables	5
or CME 100	Vector Calculus for Engineers	

Units Select three of the following: 9-13

APPPHYS 236	Biology by the Numbers	
APPPHYS 294	Cellular Biophysics	
BIO 126	Introduction to Biophysics	
BIO 132	Advanced Imaging Lab in Biophysics	
BIO 152	Imaging: Biological Light Microscopy	
BIO 154	Molecular and Cellular Neurobiology	
BIO 214	Advanced Cell Biology	
BIOE 101	Systems Biology	
BIOE 103	Systems Physiology and Design	
BIOE 211	Biophysics of Multi-cellular Systems and Amorphous Computing	
BIOE 220	Introduction to Imaging and Image-based Human Anatomy	
BIOE 231	Protein Engineering	
BIOE 241	Biological Macromolecules	
BIOMEDIN 210	Modeling Biomedical Systems: Ontology, Terminology, Problem Solving	
BIOPHYS 241	Biological Macromolecules	
BIOPHYS 242	Methods in Molecular Biophysics	
CHEM 183	Biochemistry II	
CHEM 184	Biological Chemistry Laboratory	
CHEM 185	Biophysical Chemistry	
CS 279	Computational Biology: Structure and Organization of Biomolecules and Cells	
CSB 210	Cell Signaling	
CSB 220	Chemistry of Biological Processes	
EE 236A	Modern Optics	
MCP 256	How Cells Work: Energetics, Compartments, and Coupling in Cell Biology	
PHYSICS 105	Intermediate Physics Laboratory I: Analog Electronics	
STATS 191	Introduction to Applied Statistics	

## Computational Biology

Candidates for the Computational Biology field of study must complete the following, as well as the WIM requirement above, for a total ranging from 90-102 units:

### Introductory Course

(must be taken for a letter grade):

Select one of the following:	Units	
BIO 60	Introduction to Problem Solving in Biology	4
BIO 61	Science as a Creative Process	
BIO 62	Experimental strategy and the bacterial world	

### Foundational Courses

(must be taken for a letter grade):

Select 5 of the following:	Units	
BIO 81	Introduction to Ecology	20
or BIOHOPK 81	Introduction to Ecology	
BIO 82	Genetics	

BIO 83	Biochemistry & Molecular Biology
BIO 84	Physiology
or BIOHOPK 84	Physiology
BIO 85	
or BIOHOPK 85	Evolution
BIO 86	Cell Biology

**Foundational Lab Courses**

Two Courses Required:

BIO 45	Introduction to Laboratory Research in Cell and Molecular Biology	4
BIO 46	Introduction to Research in Ecology and Evolutionary Biology	4-5
or BIO 47	Introduction to Research in Ecology and Evolutionary Biology	
or BIOHOPK 47	Introduction to Research in Ecology and Ecological Physiology	

**Required Foundational Breadth Courses**

(One course from this section may be taken credit/no credit):

**Chemistry**

The following CHEM courses are required:

CHEM 31A	Chemical Principles I	5-10
& CHEM 31B	and Chemical Principles II	
or CHEM 31X	Chemical Principles Accelerated	
CHEM 33	Structure and Reactivity of Organic Molecules	5
CHEM 35	Organic Chemistry of Bioactive Molecules	5

**Mathematics**

Select one of the following options: 5-10

MATH 19	Calculus	5-10
& MATH 20	and Calculus	
& MATH 21	and Calculus	
MATH 51	Linear Algebra and Differential Calculus of Several Variables (or beyond)	
CME 100	Vector Calculus for Engineers	

**Physics**

Select one of the following Series: 10-12

PHYSICS 20 Series

PHYSICS 21	Mechanics, Fluids, and Heat
PHYSICS 22	Mechanics, Fluids, and Heat Laboratory
PHYSICS 23	Electricity, Magnetism, and Optics
PHYSICS 24	Electricity, Magnetism, and Optics Laboratory

PHYSICS 40 Series

PHYSICS 41	Mechanics
PHYSICS 43	Electricity and Magnetism
PHYSICS 45	Light and Heat

**Statistics**

The following course is required: 5

BIO/STATS 141	Biostatistics <sup>1</sup>
---------------	----------------------------

Total Units 35-47

<sup>1</sup> If taken to fulfill the foundational breadth requirement, this course cannot count toward the 23 elective unit requirement.**Electives**

23 units required. Students must take the 2 required courses listed, as well as three courses in Computational Biology from the approved list. The remainder of the 23 units of electives may be any BIO or BIOHOPK course at the 100-level or above, or from the list of approved out-of-department electives. Up to 6 units of teaching and research are allowed. Only one course can be taken credit/no credit.

		Units
2 Required Courses:		
CS 106A	Programming Methodology	3-5
MATH 51	Linear Algebra and Differential Calculus of Several Variables	5
or CME 100	Vector Calculus for Engineers	
Select three of the following:		9-13
APPPHYS 315	Methods in Computational Biology	
BIO 126	Introduction to Biophysics	
BIO 182	Modeling Cultural Evolution	
BIO 183	Theoretical Population Genetics	
BIO 268	Statistical and Machine Learning Methods for Genomics	
BIOE 101	Systems Biology	
BIOE 115	Computational Modeling of Microbial Communities	
BIOE 211	Biophysics of Multi-cellular Systems and Amorphous Computing	
BIOMEDIN 217	Translational Bioinformatics	
CS 273A	The Human Genome Source Code	
CS 279	Computational Biology: Structure and Organization of Biomolecules and Cells	
IMMUNOL 206	Introduction to Applied Computational Tools in Immunology	
IMMUNOL 207	Essential Methods in Computational and Systems Immunology	
STATS 155	Statistical Methods in Computational Genetics	

**Ecology and Evolution**

Candidates for the Ecology and Evolution field of study must complete the following, as well as the WIM requirement above, for a total ranging from 88-102 units:

**Introductory Course**

(must be taken for a letter grade):

		Units
Select one of the following:		4
BIO 60	Introduction to Problem Solving in Biology	
BIO 61	Science as a Creative Process	
BIO 62	Experimental strategy and the bacterial world	

**Foundational Courses**

(must be taken for a letter grade):

		Units
All of the following:		12
BIO 81	Introduction to Ecology	
or BIOHOPK 81	Introduction to Ecology	
BIO 82	Genetics	
BIO 85		
or BIOHOPK 85	Evolution	
Select 2 of the following:		8

BIO 83	Biochemistry & Molecular Biology
BIO 84	Physiology
or BIOHOPK 84	Physiology
BIO 86	Cell Biology

### Foundational Lab Courses

Two Courses Required:

BIO 45	Introduction to Laboratory Research in Cell and Molecular Biology	4
BIO 46	Introduction to Research in Ecology and Evolutionary Biology	4-5
or BIO 47	Introduction to Research in Ecology and Evolutionary Biology	
or BIOHOPK 47	Introduction to Research in Ecology and Ecological Physiology	

### Required Foundational Breadth Courses

(One course from this section may be taken credit/no credit):

#### Chemistry

The following CHEM courses are required:

CHEM 31A	Chemical Principles I	5-10
& CHEM 31B	and Chemical Principles II	
or CHEM 31X	Chemical Principles Accelerated	
CHEM 33	Structure and Reactivity of Organic Molecules	5
CHEM 35	Organic Chemistry of Bioactive Molecules	5

#### Mathematics

Select one of the following options: 5-10

MATH 19	Calculus	5-10
& MATH 20	and Calculus	
& MATH 21	and Calculus	
MATH 51	Linear Algebra and Differential Calculus of Several Variables (or beyond)	
CME 100	Vector Calculus for Engineers	

#### Physics

Select one of the following Series: 10-12

PHYSICS 20 Series

PHYSICS 21	Mechanics, Fluids, and Heat
PHYSICS 22	Mechanics, Fluids, and Heat Laboratory
PHYSICS 23	Electricity, Magnetism, and Optics
PHYSICS 24	Electricity, Magnetism, and Optics Laboratory

PHYSICS 40 Series

PHYSICS 41	Mechanics
PHYSICS 43	Electricity and Magnetism
PHYSICS 45	Light and Heat

#### Statistics

Select one of the following courses: 3-5

BIO/STATS 141	Biostatistics <sup>1</sup>
BIOHOPK 174H	Experimental Design and Probability <sup>1</sup>
STATS 60	Introduction to Statistical Methods: Precalculus

Total Units 33-47

<sup>1</sup> If taken to fulfill the foundational breadth requirement, these courses do not count toward the 23 elective unit requirement.

### Electives

23 units required. Students must take five courses in Ecology and Evolution from the approved list. The remainder of the 23 units of electives may be any BIO or BIOHOPK course at the 100-level or above, or from the list of approved out-of-department electives. Up to 6 units of teaching and research are allowed. Only one course can be taken credit/no credit.

Units

Select 5 of the following:

BIO 105A	Ecology and Natural History of Jasper Ridge Biological Preserve	15-23
BIO 105B	Ecology and Natural History of Jasper Ridge Biological Preserve	
BIO 113	Fundamentals of Molecular Evolution	
BIO 116	Ecology of the Hawaiian Islands	
BIO 117	Biology and Global Change	
BIO 118	Genetic Analysis of Biological Processes	
BIO 138	Ecosystem Services: Frontiers in the Science of Valuing Nature	
BIO 144	Conservation Biology: A Latin American Perspective	
BIO 145	Ecology and Evolution of Animal Behavior	
BIO 146	Population Studies	
BIO 174	Human Skeletal Anatomy	
BIO 182	Modeling Cultural Evolution	
BIO 183	Theoretical Population Genetics	
BIOHOPK 161H	Invertebrate Zoology	
BIOHOPK 163H	Oceanic Biology	
BIOHOPK 172H	Marine Ecology: From Organisms to Ecosystems	
BIOHOPK 173H	Marine Conservation Biology	
BIOHOPK 174H	Experimental Design and Probability	
BIOHOPK 182H	Stanford at Sea	
BIOHOPK 187H	Sensory Ecology	
BIOHOPK 268H	Disease Ecology: from parasites evolution to the socio-economic impacts of pathogens on nations	
EARTHSYS 128	Evolution of Terrestrial Ecosystems	
EARTHSYS 142	Remote Sensing of Land	
EARTHSYS 144	Fundamentals of Geographic Information Science (GIS)	
EARTHSYS 158	Geomicrobiology	
OSPAUSTL 10	Coral Reef Ecosystems	
OSPAUSTL 25	Freshwater Systems	
OSPAUSTL 30	Coastal Forest Ecosystems	

<sup>1</sup> Only 6 units can be counted from BIOHOPK 182H.

<sup>2</sup> OSPAUSTL 10, 25, 30 count as 2 units each for a total of 6 units toward electives.

## Marine Biology

Candidates for the Marine Biology field of study must complete the following, as well as the WIM requirement above, for a total ranging from 88-102 units:

### Introductory Course

(must be taken for a letter grade):

Select one of the following:

BIO 60	Introduction to Problem Solving in Biology	4
--------	--	---

Units

BIO 61	Science as a Creative Process
BIO 62	Experimental strategy and the bacterial world

**Foundational Courses**

(must be taken for a letter grade):

All of the following:

**Units**  
12

BIO 81	Introduction to Ecology
or BIOHOPK 81	Introduction to Ecology
BIO 82	Genetics
BIO 85	or BIOHOPK 85 Evolution

Select 2 of the following:

8

BIO 83	Biochemistry & Molecular Biology
BIO 84	Physiology
or BIOHOPK 84	Physiology
BIO 86	Cell Biology

**Foundational Lab Courses**

Two Courses Required:

BIO 45	Introduction to Laboratory Research in Cell and Molecular Biology	4
BIO 46	Introduction to Research in Ecology and Evolutionary Biology	4-5
or BIO 47	Introduction to Research in Ecology and Evolutionary Biology	
or BIOHOPK 47	Introduction to Research in Ecology and Ecological Physiology	

**Required Foundational Breadth Courses**

(One course from this section may be taken credit/no credit):

**Chemistry**

The following CHEM courses are required:

CHEM 31A & CHEM 31B	Chemical Principles I and Chemical Principles II	5-10
or CHEM 31X	Chemical Principles Accelerated	
CHEM 33	Structure and Reactivity of Organic Molecules	5
CHEM 35	Organic Chemistry of Bioactive Molecules	5

**Mathematics**

Select one of the following options:

5-10

MATH 19 & MATH 20 & MATH 21	Calculus and Calculus and Calculus
MATH 51	Linear Algebra and Differential Calculus of Several Variables (or beyond)
CME 100	Vector Calculus for Engineers

**Physics**

Select one of the following Series:

10-12

PHYSICS 20 Series

PHYSICS 21	Mechanics, Fluids, and Heat
PHYSICS 22	Mechanics, Fluids, and Heat Laboratory
PHYSICS 23	Electricity, Magnetism, and Optics
PHYSICS 24	Electricity, Magnetism, and Optics Laboratory

PHYSICS 40 Series

PHYSICS 41	Mechanics
PHYSICS 43	Electricity and Magnetism

PHYSICS 45 Light and Heat

**Statistics**

Select one of the following courses:

3-5

BIO/STATS 141	Biostatistics <sup>1</sup>
BIOHOPK 174H	Experimental Design and Probability <sup>1</sup>
STATS 60	Introduction to Statistical Methods: Precalculus

Total Units

33-47

<sup>1</sup> If taken to fulfill the foundational breadth requirement, these courses do not count toward the 23 elective unit requirement.**Electives**

23 units required. Students must take five courses in Marine Biology from the approved list. The remainder of the 23 units of electives may be any BIO or BIOHOPK course at the 100-level or above, or from the list of approved out-of-department electives. Up to 6 units of teaching and research are allowed. Only one course can be taken credit/no credit.

**Units**

Select 5 of the following:

15-23

**Units**

BIO 116	Ecology of the Hawaiian Islands
BIOHOPK 150H	Ecological Mechanics
BIOHOPK 173H	Marine Conservation Biology
BIOHOPK 177H	Dynamics and Management of Marine Populations
BIOHOPK 179H	Physiological Ecology of Marine Megafauna
BIOHOPK 182H	Stanford at Sea
BIOHOPK 185H	Ecology and Conservation of Kelp Forest Communities
BIOHOPK 187H	Sensory Ecology
EARTHSYS 117	Earth Sciences of the Hawaiian Islands
EARTHSYS 118	Heritage, Environment, and Sovereignty in Hawaii
OSPAUSTL 10	Coral Reef Ecosystems
OSPAUSTL 25	Freshwater Systems
OSPAUSTL 30	Coastal Forest Ecosystems

<sup>1</sup> Only 6 units can be counted from BIOHOPK 182H.<sup>2</sup> OSPAUSTL 10, 25, 30 count as 2 units each for a total of 6 units toward electives.**Microbes and Immunity**

Candidates for the Microbes and Immunity field of study must complete the following, as well as the WIM requirement above, for a total ranging from 88-102 units:

**Introductory Course**

(must be taken for a letter grade):

**Units**

Select one of the following:

4

BIO 60	Introduction to Problem Solving in Biology
BIO 61	Science as a Creative Process
BIO 62	Experimental strategy and the bacterial world

**Foundational Courses**

(must be taken for a letter grade):

**Units**

Select 5 of the following:

20

BIO 81	Introduction to Ecology
or BIOHOPK 81	Introduction to Ecology

BIO 82	Genetics
BIO 83	Biochemistry & Molecular Biology
BIO 84	Physiology
or BIOHOPK 84	Physiology
BIO 85	
or BIOHOPK 85	Evolution
BIO 86	Cell Biology

### Foundational Lab Courses

Two Courses Required:

BIO 45	Introduction to Laboratory Research in Cell and Molecular Biology	4
BIO 46	Introduction to Research in Ecology and Evolutionary Biology	4-5
or BIO 47	Introduction to Research in Ecology and Evolutionary Biology	
or BIOHOPK 47	Introduction to Research in Ecology and Ecological Physiology	

### Required Foundational Breadth Courses

(One course from this section may be taken credit/no credit):

#### Chemistry

The following CHEM courses are required:

CHEM 31A	Chemical Principles I	5-10
& CHEM 31B	and Chemical Principles II	
or CHEM 31X	Chemical Principles Accelerated	
CHEM 33	Structure and Reactivity of Organic Molecules	5
CHEM 35	Organic Chemistry of Bioactive Molecules	5

#### Mathematics

Select one of the following options: 5-10

MATH 19	Calculus	
& MATH 20	and Calculus	
& MATH 21	and Calculus	
MATH 51	Linear Algebra and Differential Calculus of Several Variables (or beyond)	
CME 100	Vector Calculus for Engineers	

#### Physics

Select one of the following Series: 10-12

PHYSICS 20 Series

PHYSICS 21	Mechanics, Fluids, and Heat
PHYSICS 22	Mechanics, Fluids, and Heat Laboratory
PHYSICS 23	Electricity, Magnetism, and Optics
PHYSICS 24	Electricity, Magnetism, and Optics Laboratory

PHYSICS 40 Series

PHYSICS 41	Mechanics
PHYSICS 43	Electricity and Magnetism
PHYSICS 45	Light and Heat

#### Statistics

Select one of the following courses: 3-5

BIO/STATS 141	Biostatistics <sup>1</sup>
BIOHOPK 174H	Experimental Design and Probability <sup>1</sup>
STATS 60	Introduction to Statistical Methods: Precalculus

Total Units 33-47

<sup>1</sup> If taken to fulfill the foundational breadth requirement, these courses do not count toward the 23 elective unit requirement.

### Electives

23 units required. Students must take the 3 required courses listed, as well as two courses in Microbiology and Immunology from the approved list. The remainder of the 23 units of electives may be any BIO or BIOHOPK course at the 100-level or above, or from the list of approved out-of-department electives. Up to 6 units of teaching and research are allowed. Only one course can be taken credit/no credit.

Units

Units

3 Required Courses:

BIO 178	Microbiology Literature	3
or MI 185	Topics in Microbiology	
CHEM 141	The Chemical Principles of Life I	4
CHEM 143	The Chemical Principles of Life II	4
Select two of the following:		4-8

BIO 132	Advanced Imaging Lab in Biophysics
BIO 177	Plant Microbe Interaction
BIO 178	Microbiology Literature
BIO 180	Microbial Physiology
BIO 230	Molecular and Cellular Immunology
BIOE 115	Computational Modeling of Microbial Communities
BIOHOPK 274	Hopkins Microbiology Course
CEE 177	Aquatic Chemistry and Biology
CEE 274A	Environmental Microbiology I
CEE 274B	Microbial Bioenergy Systems
CEE 274D	Pathogens and Disinfection
EARTHSYS 158	Geomicrobiology
HUMBIO 155H	Humans and Viruses I
IMMUNOL 201	Advanced Immunology I
IMMUNOL 202	Advanced Immunology II
IMMUNOL 206	Introduction to Applied Computational Tools in Immunology
IMMUNOL 209	Translational Immunology
IMMUNOL 275	Tumor Immunology
IMMUNOL 286	Neuroimmunity
MI 120	Bacteria in Health and Disease
MI 185	Topics in Microbiology
MI 210	Advanced Pathogenesis of Bacteria, Viruses, and Eukaryotic Parasites

## Molecular, Cellular, and Developmental Biology

Candidates for the Molecular, Cellular, and Developmental Biology field of study must complete the following, as well as the WIM requirement above, for a total ranging from 88-102 units:

### Introductory Course

(must be taken for a letter grade):

Units

Select one of the following:		4
BIO 60	Introduction to Problem Solving in Biology	
BIO 61	Science as a Creative Process	
BIO 62	Experimental strategy and the bacterial world	

**Foundational Courses**

(must be taken for a letter grade):

All of the following:

BIO 82	Genetics
BIO 83	Biochemistry & Molecular Biology
BIO 84	Physiology
or BIOHOPK 84	Physiology
BIO 86	Cell Biology

Select 1 of the following:

BIO 81	Introduction to Ecology
or BIOHOPK 81	Introduction to Ecology
BIO 85	
or BIOHOPK 85	Evolution

**Units**

16

**Foundational Lab Courses**

Two Courses Required:

BIO 45	Introduction to Laboratory Research in Cell and Molecular Biology	4
BIO 46	Introduction to Research in Ecology and Evolutionary Biology	4-5
or BIO 47	Introduction to Research in Ecology and Evolutionary Biology	
or BIOHOPK 47	Introduction to Research in Ecology and Ecological Physiology	

**Units****Required Foundational Breadth Courses**

(One course from this section may be taken credit/no credit):

**Chemistry**

The following CHEM courses are required:

CHEM 31A & CHEM 31B	Chemical Principles I and Chemical Principles II	5-10
or CHEM 31X	Chemical Principles Accelerated	
CHEM 33	Structure and Reactivity of Organic Molecules	5
CHEM 35	Organic Chemistry of Bioactive Molecules	5

**Mathematics**

Select one of the following options:

MATH 19 & MATH 20 & MATH 21	Calculus and Calculus and Calculus	5-10
MATH 51	Linear Algebra and Differential Calculus of Several Variables (or beyond)	
CME 100	Vector Calculus for Engineers	

**Physics**

Select one of the following Series:

PHYSICS 20 Series		10-12
PHYSICS 21	Mechanics, Fluids, and Heat	
PHYSICS 22	Mechanics, Fluids, and Heat Laboratory	
PHYSICS 23	Electricity, Magnetism, and Optics	
PHYSICS 24	Electricity, Magnetism, and Optics Laboratory	
PHYSICS 40 Series		
PHYSICS 41	Mechanics	
PHYSICS 43	Electricity and Magnetism	
PHYSICS 45	Light and Heat	

**Statistics**

Select one of the following courses:

BIO/STATS 141	Biostatistics <sup>1</sup>	
BIOHOPK 174H	Experimental Design and Probability <sup>1</sup>	
STATS 60	Introduction to Statistical Methods: Precalculus	

Total Units

33-47

<sup>1</sup> If taken to fulfill the foundational breadth requirement, these courses do not count toward the 23 elective unit requirement.**Electives**

23 units required. Students must take the 3 required courses listed, as well as two courses in Molecular, Cellular, and Developmental Biology from the approved list. The remainder of the 23 units of electives may be any BIO or BIOHOPK course at the 100-level or above, or from the list of approved out-of-department electives. Up to 6 units of teaching and research are allowed. Only one course can be taken credit/no credit.

**Units**

3 Required Courses:

BIO 158	Developmental Neurobiology	4
or BIO 160	Developmental Biology	
CHEM 141	The Chemical Principles of Life I	4
CHEM 143	The Chemical Principles of Life II	4

Select two of the following:

5-10

BIO 110	Chromatin Regulation of the Genome	
BIO 118	Genetic Analysis of Biological Processes	
BIO 124	Topics in Cancer Biology	
BIO 154	Molecular and Cellular Neurobiology	
BIO 156	Epigenetics	
BIO 158	Developmental Neurobiology	
BIO 160	Developmental Biology	
BIO 167	Insulin and carbohydrate metabolism in health and disease a history of advances 1850 to current	
BIO 168	Explorations in Stem Cell Biology	
BIO 171	Principles of Cell Cycle Control	
BIO 177	Plant Microbe Interaction	
BIOE 101	Systems Biology	
BIOE 211	Biophysics of Multi-cellular Systems and Amorphous Computing	
BIOE 283	Mechanotransduction in Cells and Tissues	
BIOHOPK 155H	Developmental Biology and Evolution	
BIOPHYS 242	Methods in Molecular Biophysics	
CBIO 243	Principles of Cancer Systems Biology	
CS 273A	The Human Genome Source Code	
CS 273B	Deep Learning in Genomics and Biomedicine	
CS 279	Computational Biology: Structure and Organization of Biomolecules and Cells	
CSB 210	Cell Signaling	
GENE 210	Genomics and Personalized Medicine	
GENE 211	Genomics	
GENE 235	C. Elegans Genetics	
NBIO 258	Information and Signaling Mechanisms in Neurons and Circuits	
STEMREM 201	Stem Cells and Human Development: From Embryo to Cell Lineage Determination	
STEMREM 202	Stem Cells and Translational Medicine	

## Neurobiology

Candidates for the Neurobiology field of study must complete the following, as well as the WIM requirement above, for a total ranging from 88-102 units:

### Introductory Course

(must be taken for a letter grade):

Select one of the following:

BIO 60	Introduction to Problem Solving in Biology
BIO 61	Science as a Creative Process
BIO 62	Experimental strategy and the bacterial world

### Foundational Courses

(must be taken for a letter grade):

All of the following:

BIO 82	Genetics
BIO 83	Biochemistry & Molecular Biology
BIO 84	Physiology
or BIOHOPK 84	Physiology
BIO 86	Cell Biology

Select 1 of the following:

BIO 81	Introduction to Ecology
or BIOHOPK 81	Introduction to Ecology
BIO 85	or BIOHOPK 85 Evolution

### Foundational Lab Courses

Two Courses Required:

BIO 45	Introduction to Laboratory Research in Cell and Molecular Biology	4
BIO 46	Introduction to Research in Ecology and Evolutionary Biology	4-5
or BIO 47	Introduction to Research in Ecology and Evolutionary Biology	
or BIOHOPK 47	Introduction to Research in Ecology and Ecological Physiology	

### Required Foundational Breadth Courses

(One course from this section may be taken credit/no credit):

#### Chemistry

The following CHEM courses are required:

CHEM 31A & CHEM 31B or CHEM 31X	Chemical Principles I and Chemical Principles II or Chemical Principles Accelerated	5-10
CHEM 33	Structure and Reactivity of Organic Molecules	5
CHEM 35	Organic Chemistry of Bioactive Molecules	5

#### Mathematics

Select one of the following options:

MATH 19 & MATH 20 & MATH 21	Calculus and Calculus and Calculus	5-10
MATH 51	Linear Algebra and Differential Calculus of Several Variables (or beyond)	
CME 100	Vector Calculus for Engineers	

#### Physics

Select one of the following Series: 10-12

##### PHYSICS 20 Series

PHYSICS 21	Mechanics, Fluids, and Heat
PHYSICS 22	Mechanics, Fluids, and Heat Laboratory
PHYSICS 23	Electricity, Magnetism, and Optics
PHYSICS 24	Electricity, Magnetism, and Optics Laboratory

##### PHYSICS 40 Series

PHYSICS 41	Mechanics
PHYSICS 43	Electricity and Magnetism
PHYSICS 45	Light and Heat

#### Statistics

Select one of the following courses: 3-5

BIO/STATS 141	Biostatistics <sup>1</sup>
BIOHOPK 174H	Experimental Design and Probability <sup>1</sup>
STATS 60	Introduction to Statistical Methods: Precalculus

Total Units 33-47

<sup>1</sup> If taken to fulfill the foundational breadth requirement, these courses do not count toward the 23 elective unit requirement.

#### Electives

23 units required. Students must take the 5 required courses listed. The remainder of the 23 units of electives may be any BIO or BIOHOPK course at the 100-level or above, or from the list of approved out-of-department electives. Up to 6 units of teaching and research are allowed. Only one course can be taken credit/no credit.

5 Required Courses:

BIO 149 or BIO 150 or NBIO 206	The Neurobiology of Sleep Human Behavioral Biology The Nervous System	4-8
BIO 154	Molecular and Cellular Neurobiology	4
BIO 158	Developmental Neurobiology	4
CHEM 141	The Chemical Principles of Life I	4
CHEM 143	The Chemical Principles of Life II	4

## Hopkins Marine Station

For additional information, see the "Biology, Hopkins Marine Station (p. 408)" section of this bulletin or the Hopkins Marine Station web site (<http://hopkins.stanford.edu>).

**Units** Courses offered by the Department of Biology are listed under the subject code BIOHOPK on the Stanford Bulletin's ExploreCourses web site.

### Summer Program at Hopkins Marine Station

The summer program is open to advanced undergraduate, graduate students, and postdoctoral students, and to teachers whose biological backgrounds, teaching, or research activities can benefit from a summer's study of marine life. Applications, deadlines, and further information are available at <http://hopkins.stanford.edu>.

### Courses

Courses at Hopkins Marine Station can satisfy many requirements, from the Natural Sciences GER to major and minor requirements in departments housed in the Schools of Engineering, Humanities and Sciences, and Earth Sciences. Students are encouraged to check with their department's student services office to see which courses at Hopkins may be used to fulfill major or minor requirements.

Students may go to Hopkins as early as Spring Quarter in the sophomore year, and can also go in the junior and/or senior year to take elective courses. The following Hopkins Marine Station courses may be used toward the Biology degree requirements:

### Core

		Units
BIOHOPK 43	Plant Biology, Evolution, and Ecology	5
BIOHOPK 47	Introduction to Research in Ecology and Ecological Physiology (formerly BIOHOPK 44Y)	5

### Electives

		Units
BIOHOPK 150H	Ecological Mechanics	3
BIOHOPK 154H	Animal Diversity: An Introduction to Evolution of Animal Form and Function from Larvae to Adults	7
BIOHOPK 155H	Developmental Biology and Evolution	4
BIOHOPK 156H	Hands-On Neurobiology: Structure, Function and Development	6
BIOHOPK 160H	Developmental Biology in the Ocean: Diverse Embryonic & Larval Strategies of marine invertebrates	5-8
BIOHOPK 161H	Invertebrate Zoology	5
BIOHOPK 162H	Comparative Animal Physiology	5
BIOHOPK 163H	Oceanic Biology	4
BIOHOPK 165H	The Extreme Life of the Sea	3
BIOHOPK 166H	Molecular Ecology	5
BIOHOPK 167H	Nerve, Muscle, and Synapse	5
BIOHOPK 168H	Disease Ecology: from parasites evolution to the socio-economic impacts of pathogens on nations	3
BIOHOPK 172H	Marine Ecology: From Organisms to Ecosystems	5
BIOHOPK 173H	Marine Conservation Biology	4
BIOHOPK 174H	Experimental Design and Probability	3
BIOHOPK 177H	Dynamics and Management of Marine Populations	4
BIOHOPK 179H	Physiological Ecology of Marine Megafauna	3
BIOHOPK 182H	Stanford at Sea (only 6 units may count towards the major)	16
BIOHOPK 184H	Holistic Biology (only 6 units may count towards the major)	16
BIOHOPK 185H	Ecology and Conservation of Kelp Forest Communities	5
BIOHOPK 187H	Sensory Ecology	4
BIOHOPK 189H	Sustainability and Marine Ecosystems	3
BIOHOPK 264H	POPULATION GENOMICS	1-2
BIOHOPK 274	Hopkins Microbiology Course	9-12
BIOHOPK 275H	Synthesis in Ecology	2

### Research and/or Teaching (maximum 6 units combined)

		Units
BIOHOPK 198H	Directed Instruction or Reading	1-15
BIOHOPK 199H	Undergraduate Research	1-15
BIOHOPK 290H	Teaching of Biological Science	1-15
BIOHOPK 300H	Research	1-15

See Biology degree requirements above for further information. Many of the Hopkins Marine Station courses may be used to fulfill department major requirements.

## Minor in Biology

Students interested in the minor in Biology must declare the minor and submit their course plan online via Axxess no later than two quarters prior

to the student's intended quarter of degree conferral. The Biology minor requires a minimum of six courses meeting the following criteria:

- All courses must be taken for a letter grade.
- All courses must be worth or approved for 3 or more units.
- All courses, other than BIO/BIOHOPK 81, BIO 82, BIO 83, BIO/BIOHOPK 84, BIO/BIOHOPK 85, BIO 86, OSPAUSTL 10, 25, or 30 must be at or above the 100-level. Stanford Introductory Seminars may not be used to fulfill the minor requirements. Note: OSPAUSTL 10, 25, 30 together count as 2 courses toward the minor.
- Courses used to fulfill the minor may not be used to fulfill any other department degree requirements (minor or major).
- Courses must be chosen from the offerings of the Department of Biology or the Hopkins Marine Station, or from the list of approved out-of-department electives for the minor (<https://stanford.box.com/v/OODEMinor>). Any approved out of department elective must be approved for at least 3 units.
- At least two courses from the Biology Foundations must be taken:

		Units
BIO 81	Introduction to Ecology	4
or BIOHOPK 81	Introduction to Ecology	
BIO 82	Genetics	4
BIO 83	Biochemistry & Molecular Biology	4
BIO 84	Physiology	4
or BIOHOPK 84	Physiology	
BIO 85		4
or BIOHOPK 85	Evolution	
BIO 86	Cell Biology	4

- A third Bio Foundations course may be taken OR students may take one introductory Biology course from the following list:

		Units
BIO 60	Introduction to Problem Solving in Biology	4
BIO 61	Science as a Creative Process	4
BIO 62	Experimental strategy and the bacterial world	3

- The Biology Core Laboratory courses do not count towards the minor:

		Units
BIO 45	Introduction to Laboratory Research in Cell and Molecular Biology	4
BIO 46	Introduction to Research in Ecology and Evolutionary Biology	4
BIO 47	Introduction to Research in Ecology and Evolutionary Biology	4
BIOHOPK 47	Introduction to Research in Ecology and Ecological Physiology	5

- If taken for at least 3 units, independent research conducted in a Biology lab may count as 1 course. Note: Research done in a non-Biology lab cannot be counted toward the minor. Directed reading, either in department or out of the department, also cannot count toward the minor.

		Units
BIO 199	Advanced Research Laboratory in Experimental Biology	1-15
BIOHOPK 199H	Undergraduate Research	1-15

Not allowable is:

BIO 198	Directed Reading in Biology
BIO 198X	Out-of-Department Directed Reading
BIO 199X	Out-of-Department Advanced Research Laboratory in Experimental Biology

## Master of Science in Biology

For information on the University's basic requirements for the M.S. degree, see the "Graduate Degrees (p. 50)" section of this bulletin. Students considering this degree option should meet with staff in the student services office prior to applying.

The M.S. degree program offers general or specialized study to individuals seeking biologically oriented course work and to undergraduate science majors wishing to increase or update their science background or obtain advanced research experience. Students who have majored in related fields are eligible to apply, but course work equivalent to the preparation of a Stanford B.S. in Biology may be required in addition to the general requirements. This includes course work in biology, chemistry, physics and mathematics. The M.S. program does not have an M.S. with thesis option.

### Admissions

The department only accepts M.S. program applications from matriculated Stanford students:

1. undergraduates wishing to pursue a coterminal M.S. degree.
2. graduate students from other Stanford programs wishing to pursue an M.S. degree.
3. current Biology Ph.D. students wishing to discontinue the Ph.D. program with an M.S. degree.

Undergraduates must apply in mid-January to start the program in Spring, Autumn, or the following Winter quarter. Graduate students may apply by the third week of any academic quarter.

### Required application materials

1. Completed Coterminal Online Application (<https://applyweb.com/stanterm>)
2. A statement of purpose which explains why the student wishes to enter the program and what the student plans to accomplish while in the program. The statement should also supply information about the student's science capabilities if his or her undergraduate academic record does not accurately reflect them.
3. Unofficial Stanford transcript.
4. Two letters of recommendation, preferably from Biology faculty members in this department. If two such letters are not available, letters from faculty familiar with the student's ability to succeed in a graduate science curriculum are acceptable.
5. Application fee: an application fee is charged to all students regardless of outcome; application fee is applied directly to students' accounts.

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken three quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

### General Requirements

The M.S. program consists of Department of Biology and/or Hopkins Marine Station course work, approved out-of-department electives, and foundational breadth courses totaling at least 45 units at or above the 100-level, distributed as follows:

1. A minimum of 23 of the 45 units must be courses designated primarily for graduate students (generally 200-level or higher, but not always).
2. A minimum of 36 units must be chosen from the offerings in the Department of Biology (BIO), Hopkins Marine Station (BIOHOPK), the list of approved out-of-department electives (<https://stanford.app.box.com/v/out-of-department-electives>), research, teaching and/or foundational breadth courses.

		Units
BIO 198	Directed Reading in Biology	1-15
BIO 198X	Out-of-Department Directed Reading	1-15
BIO 290	Teaching of Biology	1-5
BIO 291	Development and Teaching of Core Experimental Laboratories	1-2
BIO 300	Graduate Research	1-10
BIO 300X	Out-of-Department Graduate Research	1-10
BIOHOPK 198H	Directed Instruction or Reading	1-15
BIOHOPK 290H	Teaching of Biological Science	1-15
BIOHOPK 300H	Research	1-15

- a. a maximum of 18 units may be a combination of Biology research, directed reading and/or teaching;
  - b. a maximum of 9 units may be foundational breadth courses in chemistry, mathematics, statistics, computer science, and/or physics beyond the level required for the undergraduate degree in Biology and at least at the 100-level.
3. No more than 9 units may be other Stanford course work relevant to a student's professional development. Students are required to petition for courses that fall into this category using the General Petition form (<https://stanford.app.box.com/v/general-petition>).

Each candidate designs a coherent program of study in consultation with her or his department advisor. Although there are no specific courses required, program proposals must adhere to department parameters.

In addition to the unit requirements outlined above, students must adhere to the following:

1. A program proposal, signed by the student's advisor and approved by the chair of the M.S. committee, must be filed by the third week of the first quarter of enrollment. A revised program proposal is required to be filed whenever there are changes to a student's previously approved program proposal.
2. Students may take only 6 units CR/NC.
3. Students must maintain a GPA of 3.0 or higher.
4. Students must receive a grade of 'B-' or better in all courses taken for the degree.

Students not meeting these minimum requirements are subject to departmental academic review and/or dismissal.

The department's Master of Science Handbook (<https://stanford.box.com/s/js5ul8e1istcmgkqbsdmrc93g29926a>) has additional information about the program, University policy and the department.

## Doctor of Philosophy in Biology

For information on the University's basic requirements for the Ph.D. degree, see the "Graduate Degrees (p. 50)" section of this bulletin. The training for a Ph.D. in Biology is focused on learning skills required for being a successful research scientist and teacher, including how to ask important questions and then devise and carry out experiments to answer these questions. Students work closely with an established advisor and meet regularly with a committee of faculty members to ensure that they understand the importance of diverse perspectives on experimental questions and approaches. Students learn how to evaluate critically pertinent original literature in order to stay abreast of scientific progress in their areas of interest. They also learn how to make professional presentations, write manuscripts for publication, and become effective teachers.

### Admissions

Students seeking entrance to graduate study in Biology ordinarily should have the equivalent of an undergraduate major in Biology at Stanford. However, students from other disciplines, particularly the physical sciences, are also encouraged to apply. Such students are advised at the time of initial registration on how they should complete background training during the first year of graduate study. In addition to the usual basic undergraduate courses in biology, it is recommended that preparation for graduate work include courses in chemistry through organic chemistry, general physics, and mathematics through calculus.

### Application, Admission, and Financial Aid

Prospective graduate students must apply via Stanford's online graduate application (<http://gradadmissions.stanford.edu>).

The training for a Ph.D. in Biology is focused on helping students achieve their goals of being a successful research scientist and teacher, at the highest level. Students work closely with an established advisor and meet regularly with a committee of faculty members to facilitate their progress. The Biology PhD program is part of the larger Biosciences (<https://biosciences.stanford.edu>) community of PhD programs at Stanford, which includes PhD programs in Stanford School of Medicine.

There are three tracks within the Biology PhD program: 1) Cell, Molecular and Organismal Biology, 2) Ecology and Evolution, and 3) Hopkins Marine Station. All are focused on excellence in research and teaching in their respective areas; where there are differences between the tracks, they are indicated in the links below.

Applicants are required to take the Graduate Record Examination (GRE) general test. The GRE subject test is not required. Applicants should plan on taking the GRE at least one month prior to the application deadline to ensure that official scores are available when applications are evaluated.

Admission to the Ph.D. program is competitive and in recent years it has been possible to offer admission to approximately 9-10 percent of the applicants.

Applicants who are eligible should apply for nationally competitive predoctoral fellowships, especially those offered by the National Science Foundation.

Admitted students are typically offered financial support in the form of Stanford Graduate Fellowships, research assistantships, NIH traineeships or biology fellowships.

## General Requirements

All students must be enrolled in exactly 10 units during autumn, winter, spring and summer quarters until reaching Terminal Graduate Registration (TGR) status and are required to pass all courses in which they are enrolled. Students must earn a grade of 'B-' or better in all courses applicable to the degree that are taken for a letter grade. Satisfactory completion of each year's general and track specific requirements listed below is required for satisfactory progress towards the degree. Students not making satisfactory degree progress are subject to departmental academic review and/or dismissal.

### 1. First year advising

Each entering student meets with the first-year advising committee within the first two weeks of Autumn Quarter, Winter Quarter and by May 15 of Spring Quarter. The committee reviews the student's previous academic work and current goals and advises the student on a program of Stanford courses, some of which may be required and others recommended. Completion of the core curriculum listed below under "Track Specific Requirements" is required of all students.

### 2. Ethics

Students must take a course on the ethical conduct of research. This course should be taken in the first year of the program.

		Units
MED 255	The Responsible Conduct of Research	1

### 3. Teaching

Teaching experience and training are part of the graduate curriculum. Each student assists in teaching one course in

- a. the intro/foundational level (BIO 40s, 60s, and 80s level courses)

		Units
BIO 45	Introduction to Laboratory Research in Cell and Molecular Biology (Formerly 44X)	4
BIO 46	Introduction to Research in Ecology and Evolutionary Biology (Formerly 44Y)	4
BIO 47	Introduction to Research in Ecology and Evolutionary Biology (Formerly 44Y)	4
BIO 60	Introduction to Problem Solving in Biology	4
BIO 61	Science as a Creative Process	4
BIO 62	Experimental strategy and the bacterial world	3
BIO 81	Introduction to Ecology	4
BIO 82	Genetics	4
BIO 83	Biochemistry & Molecular Biology	4
BIO 84	Physiology	4
BIO 85		4
BIO 86	Cell Biology	4

- b. and a second course that can be either an intro/foundational course or other Biology or Hopkins Marine Station course

### 4. Seminars

Graduate seminars devoted to current literature and research in particular fields of biology are an important means of attaining professional perspective and competence. Seminars are presented under individual course listings or are announced by the various research groups. Topics of current biological interest are presented by speakers from Stanford and other institutions. During the first year of study, graduate students are required to attend seminars and make one formal seminar presentation which must be evaluated by a minimum of two Biology faculty members.

### 5. Fellowship application

All eligible first year students must apply for a National Science Foundation (NSF) Graduate Research Fellowship.

**6. Advisor/lab selection**

By May 1, each first-year student is required to have selected a lab in which to perform dissertation research and to have been accepted by the faculty member in charge.

**7. Qualifying exam and admission to candidacy**

During the second year, students are required to write a dissertation proposal which is evaluated by a committee of faculty (the dissertation proposal committee) in an oral presentation. Track-specific deadlines are listed below. All students must be admitted to candidacy by the end of their second year. This is contingent upon satisfactory completion of course work, all first and second year requirements, the dissertation proposal and the University's requirements for candidacy outlined in the Candidacy (p. 52) section of this bulletin. If a student does not meet the requirements for admission to candidacy by the end of the second year, the student is subject to dismissal from the Ph.D. program.

**8. Committee meetings**

Students must meet regularly with their advising committees. For more details, see the Biology PhD Handbook (<https://stanford.box.com/v/PhDHandbook>).

**9. Individual Development Plan meetings**

Students must meet once a year with their advisor. For more details, see the Biology PhD Handbook (<https://stanford.box.com/v/PhDHandbook>).

**10. Publishable manuscript**

Each student must complete one publishable manuscript (paper) for which s/he is the major contributor.

**11. Residency requirement**

A minimum of 135 units of graduate registration is required of each candidate at the time of graduation.

**12. Doctoral dissertation**

A substantial draft of the dissertation must be submitted to the student's oral examination committee at least one month before the oral exam is scheduled to take place. The dissertation must be presented to an oral examination committee (p. 52) comprised of at least five faculty members. In addition, the final written dissertation must be approved by the student's reading committee (p. 52) (a minimum of three approved faculty), and submitted to the Registrar's Office. Upon completion of this final requirement, a student is eligible for conferral of the degree.

**Track Specific Requirements**

In addition to the general requirements listed above, students must also complete requirements within their concentration. Written petitions for exemptions to core curriculum and lab rotation requirements are considered by the advising committee and the chair of the graduate studies committee. Approval is contingent upon special circumstances and is not routinely granted.

**Cellular, Molecular, and Organismal Biology (CMOB)**

1. Courses: Students are required to take the following courses prior to Spring Quarter of the 4th year, except for the required first year courses as noted:

BIOS 200	Foundations in Experimental Biology (must be taken Autumn quarter of the first year)	5
BIO 301	Frontiers in Biology (satisfies first-year seminar requirement; must be taken Autumn and Winter quarters of first year)	1-3

One additional course in each of the four scientific areas decided upon by the student and the advising committee<sup>1</sup>

1. Cell Biology
2. Biology of Molecules
3. Genetics/Genomics

**4. Quantitative Methods**

2. Lab Rotations: First-year students are required to do their first rotation in the lab of a Department of Biology faculty member for at least five weeks. The total rotation time in labs of Department of Biology faculty must be at least ten weeks. Students are encouraged to do at least two rotations in the Department of Biology.
3. Two-part qualifying exam: Each student must pass the exam in their second year.
  - a. *Dissertation proposal*: During Autumn Quarter of the second year, the student must prepare a written dissertation proposal that outlines the student's projected dissertation research, including an expert assessment of the current literature; deadline is November 1.
  - b. *Oral examination*: Held after submission of the written proposal to the dissertation proposal committee. It is an evaluation of the student's ability to summarize the field of study, generate a working hypothesis, develop a degree plan that could be completed in 3-4 years, understand the logic of experimental design, develop a decision tree based on (all) possible results of experiments and draw conclusions and adapt hypotheses depending on results. Deadline is November 15.

- 1 Up to two of these courses may be "mini courses" in the Biosciences (BIOS).

**Ecology and Evolution**

1. Courses: Students are required to take the following courses in their first year:

		Units
BIO 302	Current Topics and Concepts in Population Biology, Ecology, and Evolution	1
BIO 303	Current Topics and Concepts in Population Biology, Ecology, and Evolution	1
BIO 304	Current Topics and Concepts in Population Biology, Ecology, and Evolution	1

Students specializing in ecology and evolution may be required to take additional courses as advised by committee.

2. First-year paper: The paper should be read, commented upon and agreed to as satisfactory by two EcoEvo faculty by May 15. This can be satisfied in a number of ways which all involve new writing, undertaken since entering the Stanford program. These may include:
  - a. A new draft research manuscript (a previously published paper is not acceptable).
  - b. Some other piece of new writing, such as a review paper from a course, or an initial literature review of a potential thesis topic. In this case the paper should ordinarily be not less than 10 double-spaced pages in usual sized font, and not more than 10 single spaced pages, plus references. It should be written in the style of a standard scientific paper.
3. Two-part qualifying exam: Each student must pass the exam in their second year.

**Units**

- a. *Dissertation proposal*: During Spring Quarter of the second year, the student must prepare a written dissertation proposal that outlines the student's projected dissertation research, including an expert assessment of the current literature; deadline is May 15.
- b. *Oral examination*: Held after submission of the written proposal to the dissertation proposal committee. The student should prepare a presentation of the goals of the thesis, typically including preliminary data, models, etc. as appropriate which are relevant to at least the first goal, and should be prepared thereafter to

discuss questions raised by the committee in professional scientific depth. Deadline is June 15.

*Emeriti Professors:* Bruce S. Baker, Winslow R. Briggs, Allan M. Campbell, Paul R. Ehrlich, David Epel, Donald Kennedy, Harold A. Mooney, Peter Ray, Joan Roughgarden, Robert D. Simoni, George N. Somero, Ward B. Watt, Norman K. Wessells, Dow O. Woodward, Charles Yanofsky

*Emeritus Professor (Research):* R. Paul Levine

*Emeritus Professor (Teaching):* Carol L. Boggs

*Chair:* Tim P. Stearns

*Professors:* Dominique Bergmann, Barbara A. Block, Steven M. Block, Larry B. Crowder, Martha S. Cyert, Gretchen C. Daily, Giulio De Leo, Mark W. Denny, Rodolfo Dirzo, Marcus W. Feldman, Russell D. Fernald, Christopher B. Field, Judith Frydman, William F. Gilly, Deborah M. Gordon, Or Gozani, Elizabeth A. Hadly, Philip C. Hanawalt, H. Craig Heller, Patricia P. Jones, Richard G. Klein, Ron R. Kopito, Sharon R. Long, Liqun Luo, Susan K. McConnell, Fiorenza Micheli, Mary Beth Mudgett, W. James Nelson, Stephen R. Palumbi, Dmitri Petrov, Jonathan Pritchard, Noah A. Rosenberg, Robert M. Sapolsky, Carla J. Shatz, Kang Shen, Michael A. Simon, Tim P. Stearns, Marc Tessier-Lavigne, Alice Ting, Stuart H. Thompson, Shripad Tuljapurkar, Peter Vitousek, Virginia Walbot

*Associate Professors:* Hunter B. Fraser, Tadashi Fukami, Christopher Lowe, Mark J. Schnitzer, Jan M. Skotheim

*Associate Professor (Research):* Mary Hynes

*Assistant Professors:* Xiaoke Chen, Scott J. Dixon, Jessica L. Feldman, Jeremy A. Goldbogen, Erin Mordecai, Ashby Morrison, Lauren O'Connell, Kabir Peay, M. Kristy Red-Horse

*Courtesy Professors:* Joseph Berry, Devaki Bhaya, Carlos D. Bustamante, Daniel Fisher, Arthur R. Grossman, Joseph S. Lipsick, Alfred Spormann, Irving Weissman

*Courtesy Associate Professors:* Kathryn Barton, José R. Dinneny, David Ehrhardt, Jonathan Payne, Sue Rhee, Zhiyong Wang

*Courtesy Assistant Professor:* Paula V. Welander

*Lecturers:* Jessica Coyle, Daria Hekmat-Scafe, Jamie Imam, Waheeda Khalfan, Shyamala D. Malladi, Patricia Seawell, Andrew Todhunter, James Watanabe

*Librarian:* Michael Newman

## Overseas Studies Courses in Biology

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		<b>Units</b>
OSPAUSTL 10	Coral Reef Ecosystems	3
OSPAUSTL 25	Freshwater Systems	3
OSPAUSTL 30	Coastal Forest Ecosystems	3

# BIOPHYSICS

Courses offered by the Biophysics Program are listed under the subject code BIOPHYS on the Stanford Bulletin's ExploreCourses web site.

The Biophysics Program offers instruction and research opportunities leading to the Ph.D. in Biophysics. Students admitted to the program may perform their graduate research in any appropriate department.

The Stanford Biophysics Program is an interdisciplinary, interdepartmental training program leading to the Ph.D. Degree in biophysics. The program centers on understanding biological function in terms of physical and chemical principles. The Program comprises faculty from 16 departments in the Schools of Humanities and Sciences, Medicine, Engineering, and the Stanford Synchrotron Radiation Laboratory. Research in the Program involves two overlapping branches of biophysics: the application of physical and chemical principles and methods to solving biological problems, and the development of new methods.

The Biophysics Program aims to train students in quantitative approaches to biological problems, while also developing their perspective in choosing forefront biological problems. A balanced academic program is tailored to the diverse backgrounds of the students. The program requires graduate-level coursework in physical and biological sciences, participation in seminar series, and most importantly achievement of a high level of proficiency in independent research.

## Learning Outcomes (Graduate)

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in Biophysics. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of Biophysics and to interpret and present the results of such research.

## Graduate Program in Biophysics

For information on the University's basic requirements for the Ph.D. degree, see the "Graduate Degrees (<http://exploreddegrees.stanford.edu/graduatedegrees>)" section of this bulletin.

### Admission

A small number of qualified applicants are admitted to the program each year. Applicants should present strong undergraduate backgrounds in the physical sciences and mathematics. The graduate course program, beyond the stated requirements, is worked out for each student individually with the help of appropriate advisers from the Committee on Biophysics.

The requirements and recommendations for applying to the Ph.D. Program in Biophysics include:

CHEM 131	Organic Polyfunctional Compounds	3
CHEM 171	Physical Chemistry I	4
CHEM 173	Physical Chemistry II	3
CHEM 175	Physical Chemistry III	3
BIOC 200	Applied Biochemistry	2

### Course Requirements

Ph.D. students in the Program in Biophysics are required to complete the following course requirements:

		Units
BIOPHYS 241	Biological Macromolecules	3-5
or BIOE 300A	Molecular and Cellular Bioengineering	
BIOPHYS 242	Methods in Molecular Biophysics (offered every other year)	3
BIOPHYS 250	Seminar in Biophysics	1
MED 255	The Responsible Conduct of Research	1
and 4 graduate-level courses in physical or biological science, with at least 1 course in physical science		
at least 1 course in literature-based biological science		

## Lab Rotation and Settlement

During the first year of graduate school in Biophysics, students are encouraged to complete a minimum two quarters of rotations in any faculty labs of their choice, a third rotation is allowed if necessary. Once the students finish their rotations, they make an official decision on which faculty's lab to settle in. If the faculty is not part of Biophysics, then the student needs to have an additional co-advising faculty member on their committee who is in Biophysics. Once the student settles in a lab, s/he is required to complete the first Individual Development Plan (IDP) and begin forming the reading committee.

## Individual Development Plan (IDP)

In light of the benefits to trainee development and the likelihood that the IDP program will be a factor in NIH funding decisions, the Committee on Graduate Admissions and Policy (CGAP) has adopted a new policy requiring all Biosciences Ph.D. candidates and their mentors in the Schools of Medicine and H&S to create and discuss the Individual Development Plan (IDP) (<https://biosciences.stanford.edu/current/idp>) on an annual basis.

1. Complete the first IDP meeting with the adviser within 30 days of joining the thesis lab.
2. IDP meetings are required annually, in addition to and separate from thesis committee meetings (see below).

## Reading Committee

See the "Degree-Specific Requirements (Doctoral Degrees) (p. 52)" section of this bulletin for University rules concerning doctoral degrees. See GAP 4.8 (<http://gap.stanford.edu/4-8.html>), for further details on the Doctoral Dissertation Reading Committee.

Once a student have chosen a research adviser and begun thesis-related research, s/he is required to select a reading committee. The student's reading committee should be in place no later than Autumn Quarter of the third year in the program. The individuals selected by the student serve as an advising and consultative group for the duration of their graduate studies. They evaluate the student's dissertation proposal and constitute the core of their the defense committee. Students should consult with their research adviser on the selection of their reading committee.

The doctoral dissertation reading committee consists of the principal dissertation adviser and, typically, two other readers. The doctoral dissertation reading committee must have at least three members and may not have more than five members. All members of the reading committee approve the dissertation. At least one member must be from the student's major department. Normally, all committee members are members of the Stanford University Academic Council or are emeritus Academic Council members.

The reading committee, as proposed by the student and agreed to by the prospective members, is endorsed by the chair of the major department on this Doctoral Dissertation Reading Committee form (<https://stanford.app.box.com/docdiss-reading-committee-form>). The student's department chair may, in some cases, approve the appointment of a reader who is not a current or emeritus member of the Academic Council

(via the Petition for Non-Academic Council Doctoral Committee Members form (<https://stanford.app.box.com/doc-ctte-non-acad-council>)), if that person is particularly well qualified to consult on the dissertation topic and holds a Ph.D. or equivalent foreign degree). All examiners must hold a Ph.D. degree (or foreign equivalent). Former Stanford Academic Council members and non-Academic Council members may thus on occasion serve on a reading committee.

Any member of the Academic Council may serve as the principal dissertation adviser. If former Academic Council members, emeritus Academic Council members, or non-Academic Council members are to serve as the principal dissertation adviser, the appointment of a co-adviser who is currently on the Academic Council is required. This is to ensure representation for the student in the department by someone playing a major adviser role in completion of the dissertation. However, a co-adviser is not required during the first two years following retirement for emeritus Academic Council members who are recalled to active service. If the reading committee has four or five members, at least three members (comprising the majority) must be current or emeritus members of the Academic Council.

## Qualifying Exam

Once students enter their third year of graduate studies, they are required to arrange a meeting with their committee to present to them a proposed thesis related research project (dissertation proposal). The meeting is called the qualifying exam, and should be completed no later than the end of Autumn Quarter of the student's third year. In anticipation of the exam, the student should prepare an approximately 10-page summary of their proposed research and/or any progress they have made at that time. The precise format (e.g., inclusion of a timeline, methods section, etc.) is flexible, and naturally can conform to the particular style of papers or proposals coming from their thesis lab. The main goal of the written portion is to briefly summarize the student's progress so far and carefully plan out their future thesis research plans with committee feedback and advice.

At the meeting, the student should be prepared to make a 30-45 minute presentation of their research where they discuss their results to date and propose further experiments. Audiovisual aids are not required, but may be useful if available. After completing the qualifying exam, students need to arrange annual thesis committee meetings with their committee members to review academic progress each year. Completing the qualifying exam serves to meet the student's first thesis committee meeting requirement. The thesis committee meetings should be completed once a year during the student's 3rd and 4th years, and twice a year past their fifth year and above.

## Candidacy

Admission to candidacy for the doctoral degree is granted by the major department following a student's successful completion of qualifying procedures. Students are expected to be admitted to candidacy by the end of the second year of doctoral study. Candidacy is valid for five years, subject to satisfactory academic progress.

## Terminal Graduate Registration (TGR)

Doctoral students who have been admitted to candidacy, completed all required courses and degree requirements other than the University oral exam and dissertation, completed 135 units or 10.5 quarters of residency (if under the old residency policy), and submitted a Doctoral Dissertation Reading Committee form, may request Terminal Graduate Registration (TGR) status to complete their dissertations. Students with more than one active graduate degree program must complete residency units between all active/completed degree programs in order to apply for TGR status. See the "Residency Policy for Graduate Students (p. 57)" section of this bulletin for additional information.

## Dissertation/Oral Exam

The student must prepare a dissertation proposal defining the research to be undertaken, including methods of procedure. This proposal should be submitted by Autumn Quarter of the third year, and it must be approved by a committee of at least three members, including the principal research adviser, and at least one member from the Biophysics Program. The candidate must defend the dissertation proposal in an oral examination. The dissertation reading committee normally evolves from the dissertation proposal review committee.

The student must present a Ph.D. dissertation as the result of independent investigation that expresses a contribution to knowledge in the field of biophysics. The student must pass the University oral exam, taken only after the student has substantially completed the dissertation research. The examination is preceded by a public seminar in which the research is presented by the candidate.

### *Emeritus:*

- Harden M. McConnell (Chemistry)
- Stephen J. Smith (Molecular & Cellular Physiology)

### *Director:*

- KC Huang (Bioengineering)

### *Professors:*

- Russ Altman (Bioengineering, Genetics, Medicine - Biomedical Informatics)
- Steve M. Block (Applied Physics, Biology)
- Steven Boxer (Chemistry)
- Axel Brunger (Molecular & Cellular Physiology)
- Wah Chiu (Bioengineering)
- Gilbert Chu (Oncology, Biochemistry)
- Steven Chu (Physics, Molecular & Cellular Physiology)
- John O. Dabiri (Civil and Environmental Engineering, Mechanical Engineering)
- Hongjie Dai (Chemistry)
- Mark Davis (Microbiology & Immunology)
- Sebastian Doniach (Physics, Applied Physics)
- James Ferrell (Chemical & Systems Biology, Biochemistry)
- Daniel Fisher (Applied Physics)
- Judith Frydman (Biology, Genetics)
- Chris Garcia (Molecular & Cellular Physiology, Structural Biology)
- Gary H. Glover (Radiology)
- Miriam Goodman (Molecular & Cellular Physiology)
- Philip C. Hanawalt (Biology, Dermatology)
- Daniel Herschlag (Biochemistry)
- Keith O. Hodgson (Chemistry)
- Theodore Jardetzky (Structural Biology)
- Peter S. Kim (Biochemistry)
- Brian Kobilka (Molecular & Cellular Physiology)
- Eric Kool (Chemistry)
- Ron Kopito (Biology)
- Roger D. Kornberg (Structural Biology)
- Craig Levin (Radiology)
- Michael Levitt (Structural Biology)
- Richard Lewis (Molecular & Cellular Physiology)
- Sharon Long (Biology)
- Tobias Meyer (Chemical & Systems Biology)
- W. E. Moerner (Chemistry)
- Vijay Pande (Chemistry)

- Norbert Pelc (Bioengineering, Radiology)
- Joseph D. Puglisi (Structural Biology)
- Stephen Quake (Bioengineering, Applied Physics)
- Jianghong Rao (Radiology)
- Edward I. Solomon (Chemistry)
- James A. Spudich (Biochemistry)
- Julie Theriot (Biochemistry, Microbiology & Immunology)
- Alice Y. Ting (Genetics)
- Thomas Wandless (Chemical & Systems Biology)
- William I. Weis (Structural Biology, Molecular & Cellular Physiology)
- Richard Zare (Chemistry)

*Associate Professors:*

- Annelise Barron (Bioengineering)
- Zev Bryant (Bioengineering)
- Jennifer Cochran (Bioengineering)
- Bianxiao Cui (Chemistry)
- Rhiju Das (Biochemistry)
- Ron Dror (Computer Science)
- Alexander Dunn (Chemical Engineering)
- William Greenleaf (Genetics)
- Pehr Harbury (Biochemistry)
- KC Huang (Bioengineering)
- Jan Liphardt (Bioengineering)
- Merritt Maduke (Molecular & Cellular Physiology)
- Beth Pruitt (Mechanical Engineering)
- Mark Schnitzer (Biology, Applied Physics)
- Jan Skotheim (Biology)
- Andrew Spakowitz (Chemical Engineering)

*Assistant Professors:*

- Raag Airan (Radiology)
- Lacramioara Bintu (Bioengineering)
- Alistair Boettiger (Developmental Biology)
- Onn Brandman (Biochemistry)
- Lynette Cegelski (Chemistry)
- Ovijit Chaudhuri (Mechanical Engineering)
- Adam de la Zerda (Structural Biology)
- Liang Feng (Molecular & Cellular Physiology)
- Polly Fordyce (Genetics)
- Possu Huang (Bioengineering)
- Anshul Kundaje (Genetics, Computer Science)
- Jin Billy Li (Genetics)
- Lingyin Li (Biochemistry)
- Manu Prakash (Bioengineering)
- Ingmar H. Riedel-Kruse (Bioengineering)
- Julia Salzman (Biochemistry)
- Sindy Tang (Mechanical Engineering)
- Mary Teruel (Chemical & Systems Biology)
- Bo Wang (Bioengineering)

# CHEMISTRY

Courses offered by the Department are listed under the subject code CHEM on the Stanford Bulletin's ExploreCourses web site.

For further information about the Department of Chemistry, see the department's web site (<https://chemistry.stanford.edu>).

Chemistry is about the nature of matter, how to make it, how to measure it, how to model it. In that sense chemistry really matters; it is essential to explaining all the real world. It holds the key to making new drugs, creating new materials, and understanding and controlling material properties of all sorts. It is no wonder then that chemistry is called the "Central Science." Traditionally, it is divided into subdisciplines, such as organic, inorganic, physical, biological, theoretical, and analytical, but these distinctions blur as it is increasingly appreciated how all of science, let alone chemistry, is interconnected.

A deeper understanding of chemistry enables students to participate in research and studies involving biotechnology, nanotechnology, catalysis, human health, materials, earth and environmental sciences, and more. Together, faculty, postdoctoral scholars, graduate and undergraduate students actively work side by side developing new probes of biological molecules, modeling protein folding and reactivity, manipulating carbon nanotubes, developing new oxidation and polymerization catalysts, and synthesizing organic molecules to probe ion-channels. The overarching theme of these pursuits is a focus at the atomic and molecular levels, whether this concerns probing the electronic structure and reactivity of molecules as small as dihydrogen or synthesizing large polymer assemblies. The ability to synthesize new molecules and materials and to modify existing biological structures allows the properties of complex systems to be analyzed and harnessed with huge benefit to both the scientific community and society at large.

## Undergraduate Program

### Mission

The mission of the undergraduate program in Chemistry is to provide students with foundational knowledge in the subdisciplines of chemistry as well as depth in one or more advanced areas, including cutting-edge research. Introductory course work allows students to gain hands-on experience with chemical phenomena, gather data, and propose models and explanations for their observations, thus participating in the scientific process from the start. In advanced labs and lectures, students build an in-depth knowledge of the molecular principles of chemistry empowering them to become molecular engineers comfortable with the methodologies necessary to solve complex problems and effectively articulate their ideas to the scientific community. Ultimately the analytical thinking and problem solving skills developed within the chemistry major make students successful candidates for a wide range of careers in chemistry and beyond, including engineering, teaching, consulting, medicine, law, science writing, and science policy.

### Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to:

1. demonstrate the knowledge and skills required to solve problems in the synthesis, measurement, and modeling of chemical systems.
2. apply this set of chemical knowledge and skills to analyze scientific data, evaluate and interpret its significance, and articulate conclusions supportable by the data.
3. be able to construct a scientific hypothesis and devise appropriate experiments to test and evaluate this hypothesis.

4. communicate scientific research effectively in written and spoken form.

## Graduate Program

The University's basic requirements for the M.S. and Ph.D. degrees are discussed in the "Graduate Degrees (p. 50)" section of this bulletin.

### Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in Chemistry and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in the field of chemistry. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of chemistry and to interpret and present the results of such research.

### Fellowships and Scholarships

In addition to University and school fellowships and scholarships open to properly qualified students, there are several department fellowships in chemistry awarded based on merit. Teaching assistantships and research assistantships are provided to eligible graduate students. Teaching assistantships beyond the required quarters are available for those interested. Graduate fellowships, scholarships, and teaching assistantships are administered through the Department of Chemistry student services office.

### Teaching Credentials

The requirements for certification to teach chemistry in the secondary schools of California may be ascertained by consulting the section on credentials under the "School of Education (p. 193)" section of this bulletin and the credential administrator of the School of Education.

### Chemical Physics

Students with an exceptionally strong background in physics and mathematics may, with special arrangement, pursue a program of studies in chemical physics.

## Bachelor of Science in Chemistry

### Entrance Preparation

Entrance credit in the preparatory subjects of chemistry, physics, and especially mathematics provides flexibility in creating a four-year schedule for students intending to major in Chemistry.

### Degree Requirements

Additional information on the undergraduate program can be found on the Department of Chemistry web site under Academics beginning with the section on The Major for the B.S. Degree (<https://chemistry.stanford.edu/academics/undergraduate-program/major>). All degree courses must be taken for a letter grade.

### Lab Courses

Lab courses have a mandatory, non-refundable fee. Students who have not yet taken a lab course must purchase a department-approved lab coat and safety glasses. The department makes these available for purchase at the lowest possible price during the first few days of each quarter.

**Traditional Chemistry Concentration**

Requirements:

Select one of the following: Units  
5-10

CHEM 31A & CHEM 31B	Chemical Principles I and Chemical Principles II	
CHEM 31X	Chemical Principles Accelerated	

**Required Chemistry Courses**

CHEM 33	Structure and Reactivity of Organic Molecules	5
CHEM 35	Organic Chemistry of Bioactive Molecules	5
CHEM 130	Organic Chemistry Laboratory	3
CHEM 131	Organic Polyfunctional Compounds	3
CHEM 132	Synthesis Laboratory	3
CHEM 134	Analytical Chemistry Laboratory	5
CHEM 151	Inorganic Chemistry I	4
CHEM 153	Inorganic Chemistry II	3
CHEM 171	Physical Chemistry I	4
CHEM 173	Physical Chemistry II	3
CHEM 174	Electrochemical Measurements Lab	3
CHEM 175	Physical Chemistry III	3
CHEM 176	Spectroscopy Laboratory	3

**Mathematics or CME**

MATH 19	Calculus	3
MATH 20	Calculus	3
MATH 21	Calculus	4

Select one of the following series: 10-15

**Series A**

MATH 51	Linear Algebra and Differential Calculus of Several Variables	
MATH 53	Ordinary Differential Equations with Linear Algebra	

**Series B**

CME 100	Vector Calculus for Engineers	
CME 102	Ordinary Differential Equations for Engineers	
CME 104	Linear Algebra and Partial Differential Equations for Engineers	

**Physics Required Courses**

PHYSICS 41	Mechanics	4
PHYSICS 42	Classical Mechanics Laboratory	1
PHYSICS 43	Electricity and Magnetism	4
PHYSICS 44	Electricity and Magnetism Lab	1

Total Units 82-92

**Biological Chemistry Concentration**

Requirements:

Select one of the following: Units  
5-10

CHEM 31A & CHEM 31B	Chemical Principles I and Chemical Principles II	
CHEM 31X	Chemical Principles Accelerated	

**Required Chemistry and Biology courses**

CHEM 33	Structure and Reactivity of Organic Molecules	5
CHEM 35	Organic Chemistry of Bioactive Molecules	5
CHEM 130	Organic Chemistry Laboratory	3
CHEM 131	Organic Polyfunctional Compounds	3
CHEM 132	Synthesis Laboratory	3
CHEM 134	Analytical Chemistry Laboratory	5
CHEM 151	Inorganic Chemistry I	4

CHEM 171	Physical Chemistry I	4
CHEM 173	Physical Chemistry II	3
CHEM 176	Spectroscopy Laboratory	3
CHEM 181	Biochemistry I	4
CHEM 183	Biochemistry II	3
CHEM 184	Biological Chemistry Laboratory	3
CHEM 185	Biophysical Chemistry	3

Select one of the following BIO courses: 4

BIO 82	Genetics	
BIO 84	Physiology	
BIO 86	Cell Biology	

**Mathematics or CME**

MATH 19	Calculus	3
MATH 20	Calculus	3
MATH 21	Calculus	4

Select one of the following Series: 10-15

**Series A**

MATH 51	Linear Algebra and Differential Calculus of Several Variables	
MATH 53	Ordinary Differential Equations with Linear Algebra	

**Series B**

CME 100	Vector Calculus for Engineers	
CME 102	Ordinary Differential Equations for Engineers	
CME 104	Linear Algebra and Partial Differential Equations for Engineers	

**Required Physics Courses**

PHYSICS 41	Mechanics	4
PHYSICS 42	Classical Mechanics Laboratory	1
PHYSICS 43	Electricity and Magnetism	4
PHYSICS 44	Electricity and Magnetism Lab	1

**Elective**

3-4

Select one graduate-level elective course related to your biochemical interests.

CHEM 221	Advanced Organic Chemistry	
CHEM 223	Advanced Organic Chemistry	
CHEM 225	Advanced Organic Chemistry	
CHEM 226	Synthesis and Analysis at the Chemistry-Biology Interface	
CHEM 227	Therapeutic Science at the Chemistry - Biology Interface	
CHEM 235	Applications of NMR Spectroscopy	
CHEM 255	Advanced Inorganic Chemistry	
CHEM 271	Advanced Physical Chemistry	
CHEM 277	Materials Chemistry and Physics	
CHEM 297	Bio-Inorganic Chemistry	
BIO 214	Advanced Cell Biology	
BIO 230	Molecular and Cellular Immunology	
BIO 232	Advanced Imaging Lab in Biophysics	
BIOC 241	Biological Macromolecules	
BIOE 214	Representations and Algorithms for Computational Molecular Biology	
BIOE 224	Probes and Applications for Multi-modality Molecular Imaging of Living Subjects	
BIOE 300A	Molecular and Cellular Bioengineering	
BIOE 335	Molecular Motors I	
BIOPHYS 232	Advanced Imaging Lab in Biophysics	
BIOPHYS 279	Computational Biology: Structure and Organization of Biomolecules and Cells	

CSB 220	Chemistry of Biological Processes
CSB 260	Concepts and Applications in Chemical Biology
<b>Total Units</b>	<b>93-104</b>

## Chemistry Major Schedule

Below are possible schedules for the traditional concentration and the biological chemistry concentration, each followed by an accelerated schedule.

### Schedule for Traditional Chemistry Concentration

First Year	Units		
	Autumn	Winter	Spring
Chemical Principles I (CHEM 31A)		5	
Calculus (MATH 19)	3		
Chemical Principles II (CHEM 31B)			5
Calculus (MATH 20)		3	
Structure and Reactivity of Organic Molecules (CHEM 33)			5
Calculus (MATH 21)			4
<b>Year Total:</b>	<b>8</b>	<b>8</b>	<b>9</b>

Second Year	Units		
	Autumn	Winter	Spring
Organic Chemistry of Bioactive Molecules (CHEM 35)		5	
Linear Algebra and Differential Calculus of Several Variables (MATH 51)		5	
Inorganic Chemistry I (CHEM 151)			4
Mechanics (PHYSICS 41)			4
Classical Mechanics Laboratory (PHYSICS 42)			1
Analytical Chemistry Laboratory (CHEM 134)			5
Physical Chemistry I (CHEM 171)			4
<b>Year Total:</b>	<b>10</b>	<b>9</b>	<b>9</b>

Third Year	Units		
	Autumn	Winter	Spring
Organic Chemistry Laboratory (CHEM 130)	3		
Organic Polyfunctional Compounds (CHEM 131)	3		
Synthesis Laboratory (CHEM 132)		3	
Ordinary Differential Equations with Linear Algebra (MATH 53)		5	
Electricity and Magnetism (PHYSICS 43)			4
Electricity and Magnetism Lab (PHYSICS 44)			1
<b>Year Total:</b>	<b>6</b>	<b>8</b>	<b>5</b>

Fourth Year	Units		
	Autumn	Winter	Spring
Physical Chemistry II (CHEM 173)	3		
Electrochemical Measurements Lab (CHEM 174)	3		
Physical Chemistry III (CHEM 175)		3	
Spectroscopy Laboratory (CHEM 176)		3	
Inorganic Chemistry II (CHEM 153)			3
<b>Year Total:</b>	<b>6</b>	<b>6</b>	<b>3</b>

Total Units in Sequence: 87

### Accelerated Schedule for the Traditional Chemistry Concentration

First Year	Units		
	Autumn	Winter	Spring
Chemical Principles Accelerated (CHEM 31X)		5	
Linear Algebra and Differential Calculus of Several Variables (MATH 51)		5	
Structure and Reactivity of Organic Molecules (CHEM 33)			5
Mechanics (PHYSICS 41)			4
Classical Mechanics Laboratory (PHYSICS 42)			1
Organic Chemistry of Bioactive Molecules (CHEM 35)			5
Electricity and Magnetism (PHYSICS 43)			4
Electricity and Magnetism Lab (PHYSICS 44)			1

Year Total: 10 10 10

Second Year	Units		
	Autumn	Winter	Spring
Organic Chemistry Laboratory (CHEM 130)		3	
Organic Polyfunctional Compounds (CHEM 131)		3	
Ordinary Differential Equations with Linear Algebra (MATH 53)		5	
Synthesis Laboratory (CHEM 132)			3
Inorganic Chemistry I (CHEM 151)			4
Analytical Chemistry Laboratory (CHEM 134)			5
Physical Chemistry I (CHEM 171)			4
<b>Year Total:</b>	<b>11</b>	<b>7</b>	<b>9</b>

Third Year	Units		
	Autumn	Winter	Spring
Physical Chemistry II (CHEM 173)		3	
Electrochemical Measurements Lab (CHEM 174)		3	
Physical Chemistry III (CHEM 175)			3
Spectroscopy Laboratory (CHEM 176)			3
Inorganic Chemistry II (CHEM 153)			3
<b>Year Total:</b>	<b>6</b>	<b>6</b>	<b>3</b>

Total Units in Sequence: 72

### Schedule for Biological Chemistry Concentration

First Year	Units		
	Autumn	Winter	Spring
Chemical Principles I (CHEM 31A)		5	
Calculus (MATH 19)		3	
Chemical Principles II (CHEM 31B)			5
Calculus (MATH 20)			3
Structure and Reactivity of Organic Molecules (CHEM 33)			5
Calculus (MATH 21)			4
<b>Year Total:</b>	<b>8</b>	<b>8</b>	<b>9</b>

Second Year	Units		
	Autumn	Winter	Spring
Organic Chemistry of Bioactive Molecules (CHEM 35)		5	
Linear Algebra and Differential Calculus of Several Variables (MATH 51)		5	
Inorganic Chemistry I (CHEM 151)			4
Mechanics (PHYSICS 41)			4
Classical Mechanics Laboratory (PHYSICS 42)			1
Analytical Chemistry Laboratory (CHEM 134)			5
Physical Chemistry I (CHEM 171)			4
Cell Biology (BIO 86)			4
<b>Year Total:</b>	<b>10</b>	<b>9</b>	<b>13</b>

Third Year	Units		
	Autumn	Winter	Spring
Organic Chemistry Laboratory (CHEM 130)	3		
Organic Polyfunctional Compounds (CHEM 131)	3		
Biochemistry I (CHEM 181)		4	
Synthesis Laboratory (CHEM 132)			3
Biochemistry II (CHEM 183)			3
Ordinary Differential Equations with Linear Algebra (MATH 53)			5
Biological Chemistry Laboratory (CHEM 184)			3
Electricity and Magnetism (PHYSICS 43)			4
Electricity and Magnetism Lab (PHYSICS 44)			1
<b>Year Total:</b>	<b>10</b>	<b>11</b>	<b>8</b>

Fourth Year	Units		
	Autumn	Winter	Spring
Physical Chemistry II (CHEM 173)	3		
Spectroscopy Laboratory (CHEM 176)			3
Biophysical Chemistry (CHEM 185)			3

Therapeutic Science at the Chemistry - Biology Interface (CHEM 227)			3
Year Total:	3	3	6

Total Units in Sequence: 98

### Accelerated Schedule for the Biological Chemistry Concentration

First Year	Units		
	Autumn	Winter	Spring
Chemical Principles Accelerated (CHEM 31X)		5	
Linear Algebra and Differential Calculus of Several Variables (MATH 51)	5		
Structure and Reactivity of Organic Molecules (CHEM 33)			5
Mechanics (PHYSICS 41)			4
Classical Mechanics Laboratory (PHYSICS 42)			1
Organic Chemistry of Bioactive Molecules (CHEM 35)			5
Electricity and Magnetism (PHYSICS 43)			4
Electricity and Magnetism Lab (PHYSICS 44)			1
Year Total:	10	10	10

Second Year	Units		
	Autumn	Winter	Spring
Organic Chemistry Laboratory (CHEM 130)	3		
Organic Polyfunctional Compounds (CHEM 131)	3		
Ordinary Differential Equations with Linear Algebra (MATH 53)	5		
Synthesis Laboratory (CHEM 132)			3
Inorganic Chemistry I (CHEM 151)			4
Physiology (BIO 84) (BIO 82 Autumn; BIO 86 Spring) or Genetics (BIO 82) or Cell Biology (BIO 86)			4
Analytical Chemistry Laboratory (CHEM 134)			5
Physical Chemistry I (CHEM 171)			4
Year Total:	11	11	9

Third Year	Units		
	Autumn	Winter	Spring
Physical Chemistry II (CHEM 173)	3		
Biochemistry I (CHEM 181)	4		
Spectroscopy Laboratory (CHEM 176)			3
Biochemistry II (CHEM 183)			3
Biological Chemistry Laboratory (CHEM 184)			3
Biophysical Chemistry (CHEM 185)			3
Therapeutic Science at the Chemistry - Biology Interface (CHEM 227)			3
Year Total:	7	6	9

Total Units in Sequence: 83

### Related Courses

Courses offered by other departments that may be of interest to Chemistry majors include:

BIO 82	Genetics	4
BIO 84	Physiology	4
BIO 86	Cell Biology	4
CHEMENG 20	Introduction to Chemical Engineering	4
CHEMENG 120A	Fluid Mechanics	4
CHEMENG 120B	Energy and Mass Transport	4
CHEMENG 130	Separation Processes	3
CS 106A	Programming Methodology (recommended for students planning graduate study)	3-5
CS 106B	Programming Abstractions (recommended for students planning graduate study)	3-5

ENGR 50	Introduction to Materials Science, Nanotechnology Emphasis	4
MATH 106	Functions of a Complex Variable	3
MATH 109	Applied Group Theory	3
MATH 113	Linear Algebra and Matrix Theory	3
MATH 131P	Partial Differential Equations	3
MATSCI 151	Microstructure and Mechanical Properties	4
PHYSICS 110	Advanced Mechanics	4
STATS 110	Statistical Methods in Engineering and the Physical Sciences	4-5
STATS 116	Theory of Probability	3-5

## American Chemical Society (ACS) Certification

Students who wish to be certified as having met the minimum requirements of the American Chemical Society for professional training must complete, in addition to the above requirements:

		Units
CHEM 181	Biochemistry I	4
CHEM 190	Advanced Undergraduate Research	1-5

Effective for Chemistry students graduating 2018-19 and beyond, an A.C.S. certified bachelor's degree is no longer offered.

## Honors Program

A bachelor's degree in Chemistry with honors is available to those students interested in chemical research. Admission to the honors program requires a grade point average (GPA) of 3.3 in science courses and an overall GPA of 3.0 in all University courses. Beyond the standard B.S. course requirements for each track, 9 units of research credit and 9 units of course work need to be completed during the junior and senior academic years. A thesis, approved by the honors adviser, must be completed during the senior year. The theses must be submitted to the research adviser, at least one week before the end of regular classes in Spring Quarter, and must be completed by May 15 to be considered for the Firestone or Golden award. The use of a single course for multiple requirements for honors, major, minor, or coterminal requirements is not allowed. Students who wish to be admitted to the honors program should register with the student services manager in the Mudd Chemistry Building in Spring Quarter of their junior year.

CHEM 190 Advanced Undergraduate Research research units towards honors may be completed, after being accepted into the program, in any laboratory within Chemistry or with courtesy faculty in Chemistry. Other chemical research can be approved through a formal petitioning of the Undergraduate Studies Committee. At least 3 units must be completed during the senior year. Participation in a summer research program in an academic setting between junior and senior years may be used in lieu of 3 units of CHEM 190 Advanced Undergraduate Research. For each quarter, a progress report reflecting the units undertaken is required. This report must be signed by the honors adviser, and filed in the department student services office before the last day of finals in the quarter during which the research is performed.

The 9 units of course work for honors must be completed from courses approved by the Undergraduate Studies Committee and taken for a letter grade. At least six of these units need to be taken from the following CHEM courses:

		Units
CHEM 153	Inorganic Chemistry II	3
CHEM 174	Electrochemical Measurements Lab	3
CHEM 175	Physical Chemistry III	3

CHEM 181	Biochemistry I	4
CHEM 183	Biochemistry II	3
CHEM 184	Biological Chemistry Laboratory	3
CHEM 185	Biophysical Chemistry	3
CHEM 221	Advanced Organic Chemistry	3
CHEM 223	Advanced Organic Chemistry	3
CHEM 225	Advanced Organic Chemistry	3
CHEM 227	Therapeutic Science at the Chemistry - Biology Interface	3
CHEM 235	Applications of NMR Spectroscopy	3
CHEM 251	Advanced Inorganic Chemistry	3
CHEM 255	Advanced Inorganic Chemistry	3
CHEM 271	Advanced Physical Chemistry	3
CHEM 273	Advanced Physical Chemistry	3
CHEM 275	Advanced Physical Chemistry	3
CHEM 297	Bio-Inorganic Chemistry	3

## Minor in Chemistry

Courses required for a minor must be taken for a letter grade and all courses below are required:

		Units
CHEM 33	Structure and Reactivity of Organic Molecules	5
CHEM 35	Organic Chemistry of Bioactive Molecules	5
CHEM 130	Organic Chemistry Laboratory	3
CHEM 131	Organic Polyfunctional Compounds	3
CHEM 134	Analytical Chemistry Laboratory	5
CHEM 151	Inorganic Chemistry I	4
CHEM 171	Physical Chemistry I	4
Total Units		29

## Master of Science in Chemistry

The Master of Science is available only to current Ph.D. students or as part of a coterminal program. Applicants for the M.S. degree in Chemistry are required to complete, in addition to the requirements for the bachelor's degree, a minimum of 45 graduate-level units and a M.S. thesis. Of the 45 units, approximately two-thirds must be in the department and must include at least 12 units of graduate level lecture courses exclusive of the thesis.

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken three quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

Units

Of the 12 units, at least 6 units must be from:

CHEM 221	Advanced Organic Chemistry	3
CHEM 223	Advanced Organic Chemistry	3
CHEM 225	Advanced Organic Chemistry	3
CHEM 227	Therapeutic Science at the Chemistry - Biology Interface	3
CHEM 235	Applications of NMR Spectroscopy	3
CHEM 251	Advanced Inorganic Chemistry	3
CHEM 253	Advanced Inorganic Chemistry	3
CHEM 255	Advanced Inorganic Chemistry	3
CHEM 271	Advanced Physical Chemistry	3
CHEM 273	Advanced Physical Chemistry	3
CHEM 275	Advanced Physical Chemistry	3
CHEM 277	Materials Chemistry and Physics	3
CHEM 297	Bio-Inorganic Chemistry	3

## Doctor of Philosophy in Chemistry Process to Candidacy

Graduate students are eligible to become formal candidates for the Ph.D. degree after taking the department placement examinations, satisfactory completion of most of the formal lecture course requirements, and satisfactory progress on a dissertation research project. There is no foreign language requirement for the Ph.D. degree. Admission to candidacy for the Ph.D. degree must be done before July of the second year of graduate registration.

### Placement Examinations

Each new graduate student must take placement examinations upon entrance. These consist of three written examinations of two hours each in the fields of inorganic, organic, and physical chemistry, and cover such material as ordinarily is given in a rigorous one-year undergraduate course in each of these subjects. Students concentrating in biophysical chemistry or chemical physics must take examinations in biophysical or chemical physics, physical chemistry, and organic or inorganic chemistry. Students concentrating in chemical biology must take examinations in biophysical, organic chemistry, and physical chemistry or inorganic chemistry. All placement examinations are given the week before instruction begins in Autumn Quarter, and must be taken at that time. Each new graduate student meets with a member of the graduate study committee to define a program of courses based on results of the placement examinations.

### General Requirements

After taking the departmental placement examinations, students select a research adviser by interviewing members of the Chemistry faculty. An Application to Start Research form is submitted to the Department as research begins under the supervision of the adviser. All students in good standing are required to start research by the end of February, during Winter Quarter of the first year of graduate registration.

Candidates for the Ph.D. degree are required to participate continually in the department colloquium (CHEM 300 Department Colloquium) and in the division seminar of the major subject (CHEM 229 Organic Chemistry Seminar, CHEM 259 Inorganic Chemistry Seminar, or CHEM 279 Physical Chemistry Seminar).

Candidates for advanced degrees must have a minimum grade point average (GPA) of 3.0 for all Chemistry lecture courses as well as for all courses taken during graduate study. Required courses must be taken for a letter grade. Most course work ends in the second year of studies, and students will then focus on full-time dissertation research.

Students may major in organic, chemical biology, physical, biophysical, chemical physics, or inorganic chemistry. All graduate students are required to take six graduate-level lecture courses (course numbers greater than 199) of at least 3 units each in chemistry or related disciplines (e.g., biochemistry, electrical engineering, mathematics, chemical engineering, chemical and systems biology, physics, materials science), to be selected in consultation with their research adviser and the Graduate Study Committee. All six courses must be taken for a letter grade. At least three of the six courses should be taken within the Chemistry Department. A minimum of four courses should be completed by the end of the first year.

## Course Requirements

### Students majoring in organic chemistry or chemical biology must complete:

CHEM 231	Organic Chemistry Seminar Presentation (Autumn, Winter, and Spring of the second year)	1
CHEM 233A	Creativity in Organic Chemistry (Research Progress)	1
CHEM 233B	Creativity in Organic Chemistry (Research Progress)	1
CHEM 233C	Creativity in Organic Chemistry (Research Progress)	1

### Students majoring in physical or biophysical chemistry or chemical physics must complete:

CHEM 271	Advanced Physical Chemistry (in the first year)	3
CHEM 273	Advanced Physical Chemistry (in the first year)	3
CHEM 275	Advanced Physical Chemistry (in the first year)	3
CHEM 278A	Research Progress in Physical Chemistry	1
CHEM 278B	Research Progress in Physical Chemistry	1

### Students majoring in inorganic chemistry must complete:

CHEM 258A	Research Progress in Inorganic Chemistry	1
CHEM 258B	Research Progress in Inorganic Chemistry (Seminar Presentation)	1
CHEM 258C	Research Progress in Inorganic Chemistry (Research Proposal)	1

Continuous enrollment in CHEM 301 Research in Chemistry is expected after the student has chosen a research supervisor.

## Post-Candidacy

Before candidates may request scheduling of the University oral examination, clearance must be obtained from the dissertation adviser and an academic review meeting made with the Student Services Manager for the Department of Chemistry.

During the period in which a dissertation is being read by members of the faculty, candidates must be available for personal consultation until the dissertation has received final department approval.

## Ph.D. Minor in Chemistry

Candidates for the Ph.D. degree in other departments who wish to obtain a minor in chemistry must complete, with a GPA of 3.0 or higher, 20 graduate-level units in Chemistry including four lecture courses of at least three units each.

*Emeriti:* (Professors) Hans C. Andersen, John I. Brauman, James P. Collman, Wray H. Huestis, Robert Pecora

*Chair:* Keith O. Hodgson

*Vice Chair:* T. Daniel P. Stack

*Professors:* Carolyn R. Bertozzi, Steven G. Boxer, Hongjie Dai, Michael D. Fayer, Keith O. Hodgson, Chaitan Khosla, Eric T. Kool, Todd J. Martínez, W. E. Moerner, Vijay S. Pande, Edward I. Solomon, Barry M. Trost, Robert M. Waymouth, Paul A. Wender, Richard N. Zare

*Associate Professors:* Christopher E. D. Chidsey, Bianxiao Cui, Justin Du Bois, Matthew Kanan, Lynette Cegelski, T. Daniel P. Stack

*Assistant Professors:* Noah Z. Burns, Hemamala Karunadasa, Thomas E. Markland, Yan Xia

*Courtesy Professors:* Zhenan Bao, Stacey F. Bent, James K. Chen, Karlene A. Cimprich, Curtis W. Frank, Daniel Herschlag, Jianghong Rao, Alice Y. Ting, Thomas J. Wandless

*Courtesy Associate Professors:* Yi Cui

*Lecturers:* Megan K. Brennan, Charles C. Cox, Jennifer Schwartz Poehlmann, Heidi Vollmer-Snarr

Units

# CLASSICS

Courses offered by the Department of Classics are listed on the *Stanford Bulletin's* ExploreCourses web site under the subject code CLASSICS (<https://explorecourses.stanford.edu/search?q=CLASSICS&view=catalog&page=0&academicYear=&filter-coursestatus-Active=on&filter-departmentcode-CLASSICS=on&collapse=&filter-catalognumber-CLASSICS=on>).

The study of Classics has traditionally centered on the literature and material culture of ancient Greece and Rome, including Greek and Latin language, literature, philosophy, history, art, and archaeology. At Stanford, Classics also explores connections with other ancient cultures and with the modern world, as well as specialized fields such as ancient economics, law, papyrology, and science. The department's faculty approaches Classics from an interdisciplinary perspective that crosses geographical, temporal, and thematic territories. Studying ancient epic poetry can lead to looking at modern cinema afresh; ancient Athenian politics opens new perspectives on modern politics; and the study of Rome presents parallels with other empires just as Latin illuminates the history of English and the Romance languages. In short, Classics at Stanford is an interdisciplinary subject concerned not only with Greek and Roman civilization but also with the interaction of cultures and societies that influenced the ancient Mediterranean basin and continue to influence human society across the globe.

## Mission of the Undergraduate Program in Classics

The mission of the undergraduate program in Classics is to provide students with a broad background centered on the literature and material culture of ancient Greece and Rome, including Greek and Latin language, literature, philosophy, history, art, and archaeology. At Stanford, students in the Classics program also explore the connections between ancient cultures and the modern world as well as specialized fields such as ancient economics, law, papyrology, and science. The program's faculty approaches Classics from an interdisciplinary perspective that crosses geographical, temporal and thematic territories. The program is concerned not only with Greek and Roman civilization but also with the interaction of cultures and societies that influenced the ancient Mediterranean basin and continue to influence human society across the globe.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. The ability to develop effective and nuanced lines of interpretation.
2. Critical thinking skills using primary source materials.
3. Facility with the methodologies and presuppositions underlying interpretive positions in secondary literature and in their own work.
4. Well-developed analytical writing skills and close reading skills.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in Classics and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in Classics. Through completion of advanced course work

and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of Classics and to interpret and present the results of such research.

## Course Numbering

CLASSICS courses are numbered according to level and area of study.

Digit	Area
001-099	Introductory Courses
001-030	Beginning and Intermediate Language and Introductory Seminars
031-050	General Topics
051-075	Art And Archaeology
076-099	Ancient History
100-199	Undergraduate Language, Core, Electives, and Independent Study
100-110	Advanced Language
111-150	General Topics
151-175	Art and Archaeology
176-196	Ancient History
197-199	Independent Study
200-299	Graduate Language Surveys and Electives
200-210	Language
211-250	General Topics
251-275	Art and Archaeology
276-297	Ancient History
298-299	Independent Study
300-399	Graduate Seminars and Dissertation Research
300-310	Workshops
311-350	General Topics
351-375	Art and Archaeology
376-398	Ancient History
399	Independent Study (dissertation research)

## Bachelor of Arts in Classics

Those interested in majoring in Classics are encouraged to declare by spring of sophomore year, but are urged to discuss their plans with the undergraduate director as early as possible. Students who choose the Greek and Latin field of study (option E below) should begin the curriculum as soon as possible because it is difficult to complete the language requirements without an early start; those with no previous knowledge of Latin or Greek should begin study in the freshman year, in a summer program following freshman year, or at the beginning of the sophomore year.

## How to Declare

To declare the major, a student must fill out the Declaration of Major on Axess and meet with the Director of Undergraduate Studies in the Department of Classics. At that time, the Director Undergraduate Studies assists the student to select a department adviser. To build a mentoring relationship, students should meet with their adviser at least once a quarter. At the time of declaration, the student should also meet with the Department of Classics' student services officer. Each student's progress towards fulfillment of the major requirements is recorded in a file kept in the student services officer's office. It is the student's responsibility to work with the adviser and student services officer to keep this file up to date.

## Grade and Course Requirements

A letter grade is required for all courses taken for the major. No course receiving a grade lower than 'C' is counted toward fulfilling major requirements. Enrollment in an independent study section (CLASSICS 198 Directed Readings) requires the prior approval of the Director of Undergraduate Studies, and a maximum of three such enrollments for a maximum total of 10 units may be counted toward the major. University credit earned by placement tests or advanced placement work in secondary school is not counted towards any major requirement in the department. Work done at other universities or colleges is subject to department evaluation and the university's transfer credit process. Counting graduate courses or cognate courses towards the major requires advance approval by the Director of Undergraduate Studies. Students are encouraged to meet with the Director of Undergraduate Studies to discuss options for pursuing a period of study in the Mediterranean region (see Study Abroad below).

The B.A. degree may be earned by fulfilling the requirements for one of the following fields of study. These fields of study are declared on Axess; they appear on the transcript but not on the diploma. The fields of study are:

- Classical Studies
- Ancient History
- Greek
- Latin
- Greek and Latin

The Philosophy and Literature focus described below may be added to some of the major plans. This focus is not declared on Axess, and does not appear on the transcript or diploma.

### A. Classical Studies

This major is recommended for students who wish to study classical civilizations in depth but do not wish to study the languages to the extent required by the Greek, Latin or Greek and Latin options described below. It is not suitable for students who wish to do graduate work in Classics or to teach Latin or Greek in high school, as the language work is insufficient for these purposes.

Students must complete at least 60 units of approved courses including:<sup>+</sup>

CLASSICS 150	Majors Seminar	5
at least two courses in Latin or Greek at the intermediate-level or higher <sup>1</sup>		10
CLASSICS 11L	Intermediate Latin: Introduction to Literature	
CLASSICS 12L	Intermediate Latin: Cicero and Catullus	
CLASSICS 13L	Intermediate Latin: Vergil's Aeneid, Books 7-12	
CLASSICS 101L	Advanced Latin: Seneca	
CLASSICS 102L	Advanced Latin: Rebel with a cause: Catiline	
CLASSICS 103L	Advanced Latin: Ovid's Metamorphoses	
CLASSICS 11G	Intermediate Greek: Prose	
CLASSICS 12G	Intermediate Greek: Sophocles' Antigone	
CLASSICS 13G	Intermediate Greek: Homer's Iliad	
CLASSICS 101G	Advanced Greek: Lyric Poetry	
CLASSICS 102G	Advanced Greek: Greek Scientific Writings	
CLASSICS 103G	Advanced Greek: Plato's Crito	
or one course in one of the languages at the intermediate-level or higher, plus the beginning series of the other language <sup>1</sup>		20
CLASSICS 1L	Beginning Latin	
CLASSICS 2L	Beginning Latin	
CLASSICS 3L	Beginning Latin	

CLASSICS 1G	Beginning Greek	
CLASSICS 2G	Beginning Greek	
CLASSICS 3G	Beginning Greek	
remaining units from your choice of CLASSICS courses <sup>2</sup>		35-45
Total Units		60

- + Students enrolled in the CS+Classics joint major program must complete the Major's Seminar (5 units), all language courses (10 or 20 units), ePortfolio (2 units), senior capstone project (5 units), and additional CLASSICS courses for a total minimum of 55 units. See the Joint Major with CS (p. 437) tab for more information.
- <sup>1</sup> Language courses may be repeated for credit towards the degree only with advance written permission from the Director of Undergraduate Studies.
- <sup>2</sup> Up to 8 units of THINK 10, THINK 16, THINK 35/THINK 35A (note that this is the same course), ESF 7/ESF 7A (note that this is the same course), IHUM 39A,B, IHUM 69A, the Autumn Quarter of SIMILE, or SLE may be counted toward the major; IHUM courses are no longer offered.

### B. Ancient History:

	Units	
Students must complete at least 60 units of approved courses and must satisfy the following requirements: <sup>+</sup>		
CLASSICS 150	Majors Seminar	5
<b>Core Requirement</b>		6-10
Complete any two survey courses in ancient history:		
CLASSICS 81	Ancient Empires: Near East	
CLASSICS 82	The Egyptians	
CLASSICS 83	The Greeks	
CLASSICS 84	The Romans	
<b>Depth Requirement</b>		33
Complete at least 33 units of ancient history and civilization courses, drawn from CLASSICS 31-99 and CLASSICS 110-197. <sup>1,2</sup>		
<b>Breadth Requirements</b>		
Complete at least 4 units in each of the following three areas <sup>3</sup>		
1. Archaeology and art; suggested courses include CLASSICS 51-75 and CLASSICS 151-175. <sup>4</sup>		4-5
2. Comparative ancient civilizations: complete a course on the ancient world outside the Mediterranean and western Asia. Suggested courses include:		4-5
ANTHRO 101	The Aztecs and Their Ancestors: Introduction to Mesoamerican Archaeology	
ANTHRO 102A	Ancient Civilizations: Complexity and Collapse	
ANTHRO 106	Incas and their Ancestors: Peruvian Archaeology	
ANTHRO 115B	Peoples and Cultures of Ancient Mesoamerica	
ANTHRO 124	Maya Mythology and the Popol Vuh	
ARCHLGY 111	Emergence of Chinese Civilization from Caves to Palaces	
CLASSICS 146	Winged Bulls and Sun Disks: Religion and Politics in the Persian Empire	
3. Historical and social theory. Suggested courses include:		4-5
ANTHRO 1	Introduction to Cultural and Social Anthropology	
ANTHRO 90B	Theory of Cultural and Social Anthropology	
ANTHRO 90D		
SOC 1	Introduction to Sociology at Stanford	
SOC 140	Introduction to Social Stratification	
SOC 142	Sociology of Gender	
SOC 170	Classics of Modern Social Theory	
HUMBIO 2B	Culture, Evolution, and Society	

Total Units	60	At least 31 units of Latin courses at the intermediate-level or higher. 31 It is recommended that this include CLASSICS 104A/B, though this series should not be taken until students have completed three years of Latin. <sup>1</sup>
+ Students enrolled in the CS+Classics joint major program must complete the Major's Seminar (5 units), two history core courses (10 units), courses in ancient history and civilization (21 units), ancient history breadth courses (12 units), ePortfolio (2 units) and the senior capstone project (5 units) for a total minimum of 55 units. See the Joint Major with CS (p. 437) tab for more information.		
<sup>1</sup> 4 units of THINK 10, THINK 16, THINK 35A, IHUM 39A or B, IHUM 69A, or Autumn Quarter of SIMILE may be counted toward this requirement (IHUM courses are no longer offered).		CLASSICS 11L Intermediate Latin: Introduction to Literature CLASSICS 12L Intermediate Latin: Cicero and Catullus CLASSICS 13L Intermediate Latin: Vergil's Aeneid, Books 7-12 CLASSICS 101L Advanced Latin: Seneca CLASSICS 102L Advanced Latin: Rebel with a cause: Catiline CLASSICS 103L Advanced Latin: Ovid's Metamorphoses
<sup>2</sup> Latin, Ancient Greek and IntroSems courses may count toward this requirement if approved by the Director of Undergraduate Studies.		At least three additional CLASSICS courses from CLASSICS 31-99 or 110-197 <sup>2</sup> 9-15
<sup>3</sup> The courses chosen must be approved in advance by the undergraduate director, and are normally chosen from the list of areas noted.		Remaining units from your choice of CLASSICS courses (Ancient Greek, Biblical Greek or ancient history recommended) 9-15
<sup>4</sup> IHUM 40B may be counted toward this requirement (this course is no longer offered).		Total Units: 60

## C. Greek

Students must complete at least 60 units of approved courses including:<sup>+</sup>

CLASSICS 150 Majors Seminar	5
-----------------------------	---

At least 31 units of Ancient Greek courses at the intermediate-level or higher. It is recommended that these include CLASSICS 105A/B, though this series should not be taken until students have completed three years of Greek.<sup>1</sup>

CLASSICS 11G Intermediate Greek: Prose	
CLASSICS 12G Intermediate Greek: Sophocles' Antigone	
CLASSICS 13G Intermediate Greek: Homer's Iliad	
CLASSICS 101G Advanced Greek: Lyric Poetry	
CLASSICS 102C Advanced Greek: Greek Scientific Writings	
CLASSICS 103G Advanced Greek: Plato's Crito	

At least three additional CLASSICS courses from CLASSICS 31-99 or 110-197<sup>2</sup> 9-15

Remaining units from your choice of CLASSICS courses (Latin, Biblical Greek, Sanskrit or ancient history recommended). 9-15

Total Units 60

+ Students enrolled in the CS+Classics joint major program must complete the Major's Seminar (5 units), Greek courses at the intermediate-level or higher (31 units), additional CLASSICS courses (12 units), ePortfolio (2 units) and the senior capstone project (5 units) for a total minimum of 55 units. See the Joint Major with CS (p. 437) tab for more information.

<sup>1</sup> Language courses may be repeated for credit towards the degree only with advance written permission from the Director of Undergraduate Studies.

<sup>2</sup> Up to 8 units of THINK 10, THINK 16, THINK 35/THINK 35A (note that this is the same course), ESF 7/ESF 7A (note that this is the same course), IHUM 39A/B, IHUM 69A, the Autumn Quarter of SIMILE, or SLE may be counted toward the major (IHUM courses are no longer offered).

## D. Latin

Students must complete at least 60 units of approved courses including:<sup>+</sup>

CLASSICS 150 Majors Seminar	5
-----------------------------	---

### Units

+ Students enrolled in the CS+Classics joint major program will need to complete the Major's Seminar (5 units), Latin courses at the intermediate-level and above (31 units), additional CLASSICS courses (12 units), ePortfolio (2 units) and the senior capstone project (5 units) for a total minimum of 55 units. See the Joint Major with CS (p. 437) tab for more information.

<sup>1</sup> Language courses may be repeated for credit towards the degree only with advance written permission from the Director of Undergraduate Studies.

<sup>2</sup> Up to 8 units of THINK 10, THINK 16, THINK 35/THINK 35A (note that this is the same course), ESF 7/ESF 7A (note that this is the same course), IHUM 39A/B, IHUM 69A, the Autumn Quarter of SIMILE, or SLE may be counted toward the major (IHUM courses are no longer offered).

## E. Greek and Latin

Students must complete at least 65 units of approved courses including:<sup>+</sup>

CLASSICS 150 Majors Seminar	5
-----------------------------	---

At least 30 units of Latin courses at the intermediate-level and higher. 30<sup>1,2</sup>

OR at least 30 units of Latin at the beginning-level and higher, as long as Greek is at the intermediate-level and higher

CLASSICS 1L Beginning Latin	
CLASSICS 2L Beginning Latin	
CLASSICS 3L Beginning Latin	
CLASSICS 11L Intermediate Latin: Introduction to Literature	
CLASSICS 12L Intermediate Latin: Cicero and Catullus	
CLASSICS 13L Intermediate Latin: Vergil's Aeneid, Books 7-12	
CLASSICS 101L Advanced Latin: Seneca	
CLASSICS 102L Advanced Latin: Rebel with a cause: Catiline	
CLASSICS 103L Advanced Latin: Ovid's Metamorphoses	
CLASSICS 104L Latin Syntax	
CLASSICS 104BLatin Syntax	

At least 30 units of Ancient Greek courses at the intermediate-level or higher. <sup>1,2</sup> 30

OR at least 30 units of Greek at the beginning-level and higher, as long as Latin is at the intermediate-level and higher

### Units

CLASSICS 1G Beginning Greek	
CLASSICS 2G Beginning Greek	
CLASSICS 3G Beginning Greek	
CLASSICS 11G Intermediate Greek: Prose	
CLASSICS 12G Intermediate Greek: Sophocles' Antigone	

CLASSICS 13G Intermediate Greek: Homer's Iliad	
CLASSICS 101(Advanced Greek: Lyric Poetry	
CLASSICS 102GAdvanced Greek: Greek Scientific Writings	
CLASSICS 103(Advanced Greek: Plato's Crito	
CLASSICS 105A	
CLASSICS 105E	
Recommended additional coursework in Biblical Greek, Sanskrit or ancient history <sup>3</sup>	
<b>Total Units:</b>	<b>65</b>

- + Students enrolled in the CS+Classics joint major program must complete the Major's Seminar (5 units), Latin courses (24 units), Greek courses (24 units), ePortfolio (2 units) and the senior capstone project (5 units) for a total minimum of 60 units. See the Joint Major with CS (p. 437) tab for more information.
- <sup>1</sup> Language courses may be repeated for credit towards the degree only with advance written permission from the Director of Undergraduate Studies.
- <sup>2</sup> It is recommended that this include CLASSICS 104A and CLASSICS 104B (for Latin); and CLASSICS 105A and CLASSICS 105B (for Greek). But this series should not be taken until completion of advanced-level course work in the relevant language.
- <sup>3</sup> Sanskrit is only allowed if both Greek and Latin requirements are fulfilled with course work at the intermediate-level and above.

## F. Philosophy and Literature Focus:

Students may apply a focus in Classics and Philosophy to the Classical Studies, Latin, or Greek major tracks. A focus is not reflected in the transcript or diploma, but provides a guided curriculum for those interested in this interdisciplinary study. Students who choose this focus must still complete the Majors' Seminar and language courses required by their chosen track. In addition, all students must take a set of core requirements and breadth requirements as described below.

### Core Requirements for all Philosophy and Literature Focuses

	<b>Units</b>
PHIL 81 Philosophy and Literature	5
PHIL 80 Mind, Matter, and Meaning	5
one course in each of the following areas:	
<b>1. aesthetics, ethics, and social and political philosophy</b>	<b>3-5</b>
PHIL 170 Ethical Theory	
PHIL 170D Trust and Trustworthiness	
<b>2. philosophy of language, mind, metaphysics, and epistemology</b>	<b>3-5</b>
PHIL 180 Metaphysics	
PHIL 180A Realism, Anti-Realism, Irrealism, Quasi-Realism	
<b>3. history of philosophy (course with subject code PHIL at the 100-level or above)</b>	<b>3-5</b>
Two related courses in Classics or Philosophy. Discuss your course selection in advance with the Director of Undergraduate Studies.	6-10
One capstone seminar. Discuss your course selection in advance with the Director of Undergraduate Studies.	3-5

### Breadth Requirements for Classical Studies: Philosophy and Literature Focus

	<b>Units</b>
one CLASSICS course in ancient history	3-5
one CLASSICS course in art and archaeology	3-5
one CLASSICS course in literature in translation	
one CLASSICS course in philosophy and history of science	3-5
one CLASSICS course in religion/mythology	3-5

### Breadth Requirements for Greek: Philosophy and Literature Focus

	<b>Units</b>
one CLASSICS course in ancient history or archaeology	3-5
one CLASSICS course in religion, philosophy, or ancient science	3-5
one CLASSICS course in literature in translation	3-5

### Breadth Requirements for Latin: Philosophy and Literature Focus

	<b>Units</b>
one CLASSICS course in ancient history or archaeology	3-5
one CLASSICS course in literature in translation	3-5
one CLASSICS course in religion, philosophy, or ancient science	3-5

## Honors Program

A minimum grade point average (GPA) of 3.6 within the major is required for students to enroll in the honors program. To be considered for honors in Classics, the student must select a professor who can supervise his or her honors thesis. A preliminary proposal, approved by the supervisor, is due April 15 of the junior year, and a final version is due at the beginning of the senior year. The proposal must outline the project in detail, list relevant courses that have been taken, and name the supervisor. The department gives approval only if a suitable faculty supervisor is available and if it is satisfied that the student has a sufficient basis of knowledge derived from department course work in the general areas the thesis covers, such as art, Greek, Latin, history, literature, or philosophy. If the proposal is approved, the student may sign up for CLASSICS 199 Undergraduate Thesis: Senior Research, during the senior year for a maximum of 6 units per term, up to an overall total of 10 units. These units may be counted towards fulfillment of the student's major requirements if relevant. Honors are awarded only if the essay receives a grade of 'B+' or higher from the supervisor and a second reader, who is chosen by the department. In addition, students must graduate with a GPA of 3.6 or higher within the major to receive honors.

## Study Abroad

Classics students may travel for several reasons: to complete accredited coursework (typically language courses or history surveys) for transfer towards the degree, to participate in archaeological digs of ancient sites, and to perform independent travel-research related to an honors project or independent study. Students considering academic programs sponsored by other institutions are encouraged to review Stanford's policies on transfer credit and to discuss possible programs with the Director of Undergraduate Studies before applying. Students seeking archaeological dig experience should inquire for opportunities through the Classics Department and through the Stanford Archaeology Center (<http://archaeology.stanford.edu>). Students who would like to construct an independent travel-research project should discuss their goals and itinerary with the Director of Undergraduate Studies.

While Classics-specific coursework is not always available through the Bing Overseas Program, students sometimes find Classics faculty at Bing campuses who are willing to provide independent instruction for credit. Pre-approval of courses and independent study syllabi by the Director of Undergraduate Studies is required for credit towards the major or minor.

Some departmental funding is available for summer language programs in the United States, and departmental funds are also available for travel and study in the Mediterranean. Students are encouraged to seek out multiple sources of funding, including offerings from UAR, to supplement their departmental applications. After discussing their plans with the Director of Undergraduate Study, applicants submit a departmental research grant application that includes expenses, a statement of purpose, and an endorsement by the student's faculty adviser. Food expenses are not normally reimbursed. Limited funding is available each year; preference is shown to majors and students with strong records.

## Joint Major Program: Classics and Computer Science

The joint major program (JMP), authorized by the Academic Senate for a pilot period of six years beginning in 2014-15, permits students to major in both Computer Science and one of ten Humanities majors. See the "Joint Major Program (p. 31)" section of this bulletin for a description of University requirements for the JMP. See also the Undergraduate Advising and Research JMP web site and its associated FAQs.

Students completing the JMP receive a B.A.S. (Bachelor of Arts and Science).

Because the JMP is new and experimental, changes to procedures may occur; students are advised to check the relevant section of the bulletin periodically.

### Classics Major Requirements in the Joint Major Program

See the "Computer Science Joint Major Progra (p. 278)m" section of this bulletin for details on Computer Science requirements.

Students majoring in the joint major program in Classics and Computer Science complete the degree requirements for Classics with the following changes:

1. Completion of 5 less overall units than a usual Classics major. The + footnote on each track describes where the unit relief may be taken.
2. ePortfolio course (2 units): The ePortfolio is preparation for the capstone project, and as such, must be taken by Spring quarter of the Junior year. The ePortfolio will reflect on the intersections (and possible disjunctions) between Computer Science and Classics. This may be an independent study or group seminar class. Topics might center on critical review of existing projects that join Computer Science and Classics, including analyses and reflections on two-to-three different digital humanities projects in the field of Classics. It might also include a commentary from a Classicist perspective on work in foundational Computer Science courses, an analysis of the implications of computational technology for historical or literary study in Classics, or the application of Classicists' methodologies to technological problems or issues.
3. Senior capstone project (5 units): The capstone project will be an original and integrative research project, guided by advisers in both departments, drawing on knowledge and skills in both areas, and counting towards the joint major on the Classics side. This will likely be independent study with Classics faculty or a course with a required project. It is also possible for honors thesis work in Classics to count towards this requirement, if the thesis project has a significant computational component. Projects might include analysis of archaeological or historical data, digital editions of texts, analyses of ancient corpora, digital representations and engagements with historical problems in the study of the ancient world, study of natural language processing as applied to literary analysis of ancient texts.

All ePortfolio and senior capstone projects must be approved by the Director of Undergraduate Studies.

### Declaring a Joint Major Program

To declare the joint major, students must first declare each major through Axess, and then submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) The Major-Minor and Multiple Major Course Approval Form (<https://stanford.box.com/MajMin-MultMaj>) is required for graduation for students with a joint major.

### Dropping a Joint Major Program

To drop the joint major, students must submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>). Students may also consult the Student Services Center (<http://studentservicescenter.stanford.edu>) with questions concerning dropping the joint major.

### Transcript and Diploma

Students completing a joint major graduate with a B.A.S. degree. The two majors are identified on one diploma separated by a hyphen. There will be a notation indicating that the student has completed a "Joint Major". The two majors are identified on the transcript with a notation indicating that the student has completed a "Joint Major".

### Minor in Classics

The Director of Undergraduate Studies meets with each student who opts for the minor to discuss curriculum choices and assigns the student an adviser in the relevant field. Students are required to work closely with their advisers to create a cohesive curriculum within each area. Students who minor in Classics are required to take CLASSICS 150 Majors Seminar, which is writing intensive. Completion of the minor requires a minimum of 20 units.

Students may choose among four fields of study for the minor in Classics:

- Classical Languages
- Ancient History
- Literature and Philosophy
- Classical Studies

These fields of study are declared on Axess; they do not appear on the transcript or the diploma.

### I. Classical Languages

Students are required to take a minimum of five courses in Greek or in Latin. In addition to the five required courses, students must take CLASSICS 150 Majors Seminar. Students wishing to combine Greek and Latin may only do so if courses for one of the two languages are all intermediate level or above. Choose from the following courses this year:

		Units
CLASSICS 1L	Beginning Latin	5
CLASSICS 2L	Beginning Latin	5
CLASSICS 3L	Beginning Latin	5
CLASSICS 11L	Intermediate Latin: Introduction to Literature	5
CLASSICS 12L	Intermediate Latin: Cicero and Catullus	5
CLASSICS 13L	Intermediate Latin: Vergil's Aeneid, Books 7-12	5
CLASSICS 101L	Advanced Latin: Seneca	3-5
CLASSICS 102L	Advanced Latin: Rebel with a cause: Catiline	4-5
CLASSICS 103L	Advanced Latin: Ovid's Metamorphoses	3-5
CLASSICS 1G	Beginning Greek	5
CLASSICS 2G	Beginning Greek	5
CLASSICS 3G	Beginning Greek	5
CLASSICS 11G	Intermediate Greek: Prose	5
CLASSICS 12G	Intermediate Greek: Sophocles' Antigone	5
CLASSICS 13G	Intermediate Greek: Homer's Iliad	5
CLASSICS 101G	Advanced Greek: Lyric Poetry	3-5
CLASSICS 102G	Advanced Greek: Greek Scientific Writings	3-5
CLASSICS 103G	Advanced Greek: Plato's Crito	3-5

## II. Ancient History

Students are required to take a minimum of five courses in history, art history, and archaeology (any course within CLASSICS 51-99 or CLASSICS 151-197). Courses taken outside of the department may be substituted for one or more of these courses with prior, written approval from the Director of Undergraduate Studies. In addition to the five required courses, students must take CLASSICS 150 Majors Seminar. Courses offered in Latin and Greek that focus on historical topics or authors may count toward this minor with prior, written approval from the Director of Undergraduate Studies. Students may count up to 4 units of IHUM 69A or the fall quarter of SIMILE towards the breadth requirement; note that IHUM courses are no longer offered. Choose from the following courses this year:

		Units
CLASSICS 51	Introduction to Greek Archaeology	3-5
CLASSICS 52	Introduction to Roman Archaeology	3-5
CLASSICS 54	Introduction to World Architecture	5
CLASSICS 56	Introduction to the Visual Arts: Prehistoric through Medieval	5
CLASSICS 81	Ancient Empires: Near East	4-5
CLASSICS 82	The Egyptians	3-5
CLASSICS 83	The Greeks	4-5
CLASSICS 84	The Romans	3-5
CLASSICS 151	Ten Things: An Archaeology of Design	3
CLASSICS 154	Sailing the Wine-Dark Sea: Maritime Archaeology of the Ancient Mediterranean	3-4
CLASSICS 156	Design of Cities	3-5
CLASSICS 158	Iconoclasm	5
CLASSICS 164	Roman Gladiators	3-5
CLASSICS 166	The Body in Roman Art	4-5
CLASSICS 167		4-5
CLASSICS 159		4-5
CLASSICS 161	Introduction to Greek Art I: The Archaic Period	4
CLASSICS 162	Introduction to Greek Art II: The Classical Period	4
CLASSICS 163	Artists, Athletes, Courtesans and Crooks	5
CLASSICS 168	Engineering the Roman Empire	4-5
CLASSICS 169	Archaeology of Britannia	3-4

## III. Literature and Philosophy

Students are required to take a minimum of five courses in classical literature or philosophy, including classical science. Courses taken outside of the department (for instance, from the Philosophy department) may be substituted for one or more of these courses with prior, written approval from the Director of Undergraduate Studies. In addition to the five required courses, students must take CLASSICS 150 Majors Seminar. Courses offered in Latin and Greek that focus on philosophical or literary topics or authors may count toward the minor. Choose from the following courses this year:

		Units
CLASSICS 16N	Sappho: Erotic Poetess of Lesbos	3
CLASSICS 35	Becoming Like God: An Introduction to Greek Ethical Philosophy	3-5
CLASSICS 42	Philosophy and Literature	5
CLASSICS 121	Ecology in Philosophy and Literature	3-5
CLASSICS 136	The Greek Invention of Mathematics	3-5
CLASSICS 181	Classical Seminar: Origins of Political Thought	4-5

## IV. Classical Studies

Students are required to take a minimum of five courses in Classics (any course with subject code CLASSICS) plus CLASSICS 150 Majors Seminar. Students may count up to 4 units of THINK 10, THINK 16, THINK 35 (no longer offered), IHUM 39A, IHUM 69A (IHUM courses no longer offered), SLE or fall quarter of SIMILE towards the breadth requirement.

## Master of Arts in Classics

University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

### I. Language and Literature, II. Philosophy Fields of Study

Students who have completed an undergraduate major in Classics (Greek, Latin, or Greek and Latin fields of study) or equivalent may be accepted as candidates for the M.A. degree in Classics and may expect to complete the program in twelve months (usually three quarters of course work plus three months study for the thesis or examination). Students with an undergraduate major in Classics (Ancient History or Classical Studies fields of study) or without an undergraduate major in Classics may also be accepted as candidates, though they may require a longer period of study before completing the requirements for the degree. These requirements are:

1. A minimum of 25 of the 45 units must be graduate-level courses (generally 200-level or higher, but not always). The remaining units must be at the 100-level or higher.
2. Completion of one Greek language course at the 100 level (if the undergraduate major field of study was Latin) or one Latin language course at the 100 level (if the undergraduate major field of study was Greek). This requirement is waived for students with an undergraduate major in Classics with a field of study in Greek and Latin.
3. Passing a Greek or Latin language examination testing the candidate's ability to translate into English from a selected list of Greek or Latin authors. This exam is a minimum of two hours, requiring a grade of "B" or higher to pass.
4. Completion of the syntax sequence in at least one language. For Latin, this is CLASSICS 204A Latin Syntax and CLASSICS 204B Latin Syntax. For Greek, this is CLASSICS 205A and CLASSICS 205B Greek Syntax: Prose Composition.
5. Writing a thesis, or passing of an examination on a particular author or topic, or having written work accepted by the graduate committee as an equivalent. Three completed and satisfactory seminar papers are normally an acceptable equivalent, provided each paper has earned the grade of B+ or higher.
6. Students must pass a modern language reading exam in one of the following languages: German, French or Italian. In exceptional circumstances, the Graduate Studies Committee may permit a different language, e.g., Modern Greek or Russian, to be substituted in keeping with research plans. Students are allowed to use paper and online dictionaries. Exams are offered once a quarter (Autumn, Winter, Spring). Incoming graduates may choose to be tested as early as the Autumn Quarter. The department strongly encourages students to take modern language exams as early as possible in the program. If the first attempt to pass the exam is unsuccessful, the student is allowed to retake the test only once. Failing the second examination means automatic dismissal from the program. A grade of 'B-' or higher is required to pass.
7. Completion and approval of a Program Proposal for a Master's Degree form during the first quarter of enrollment, at least five days prior to the Final Study List deadline.

Candidates for the Ph.D. degree in Classics may also, on the recommendation of the department, become candidates for the M.A.

degree. In this case, requirement 5 above is waived provided that the student has completed some work beyond the course requirements listed under requirements 1 and 2 above. Current Stanford graduate students in other degree programs may be considered for the M.A. degree, but must be admitted into the program and must complete all requirements listed above.

### III. Classical Archaeology

Students who have completed an undergraduate major in Classics with a Classical Archaeology field of study, or in a closely related field, may be accepted as candidates for the M.A. degree in Classics with a Classical Archaeology field of study, and may expect to complete the program in twelve months (usually three quarters of course work plus three months study for the thesis or examination). Students without an undergraduate major in Classics with a Classical Archaeology field of study may also be accepted as candidates, though they may require a longer period of study before completing the requirements for the degree. These requirements are:

1. A minimum of 25 of the 45 units must be graduate-level courses (generally 200-level or higher, but not always). The remaining units must be at the 100-level or higher.
2. Completion with a grade of 'B' or higher of at least 15 units of graduate-level courses in classical archaeology, in addition to CLASSICS 331 Words and Things in the History of Classical Scholarship. (see 4).
3. Passing a Greek or Latin language examination testing the candidate's ability to translate into English from a selected list of Greek or Latin authors. This exam is a minimum of two hours, requiring a grade of "B" or higher to pass.
4. Completion with a grade of 'B' or higher of CLASSICS 331 Words and Things in the History of Classical Scholarship, or an equivalent course on the history of thought in classical archaeology approved by the Graduate Studies Committee.
5. Writing a thesis, or passing an exam on a particular topic, or having written work accepted by the graduate committee as an equivalent. Three completed and satisfactory seminar papers are normally an acceptable equivalent, provided each paper has earned the grade of B+ or higher.
6. Students must pass a modern language reading exam in one of the following languages: German, French or Italian. In exceptional circumstances, the Graduate Studies Committee may permit a different language, e.g., Modern Greek or Russian, to be substituted in keeping with research plans. Students are allowed to use paper and online dictionaries. Exams are offered once a quarter (Autumn, Winter, Spring). Incoming graduates may choose to be tested as early as the Autumn Quarter. The department strongly encourages students to take modern language exams as early as possible in the program. If the first attempt to pass the exam is unsuccessful, the student is allowed to retake the test only once. Failing the second examination means automatic dismissal from the program. A grade of 'B-' or higher is required to pass.
7. Completion and approval of a Program Proposal for a Master's Degree form during the first quarter of enrollment, at least five days prior to the Final Study List deadline.

Candidates for the Ph.D. degree may also, on the recommendation of the department, become candidates for the M.A. degree. In their case, requirement 5 above is waived provided that the student has completed some work beyond the course requirements listed under requirements 1 and 2 above. Current Stanford graduate students in other degree programs may be considered for the M.A. degree, but must be admitted into the program and must complete all requirements listed above.

### IV. Ancient History

Students who have completed an undergraduate major in Classics with an Ancient History field of study, or in a closely related field may be

accepted as candidates for the M.A. degree in Classics with an Ancient History field of study, and may expect to complete the program in twelve months (usually three quarters of course work plus three months study for the thesis or examination). Students without an undergraduate major in Classics with an Ancient History field of study may also be accepted as candidates, though they may require a longer period of study before completing the requirements for the degree. These requirements are:

1. A minimum of 30 of the 45 units must be graduate-level courses (generally 20-level or higher, but not always) and the remaining 15 units of work must be at the 100-level or higher.
2. Satisfactory completion of 20 units of graduate-level courses in Classics and of 10 units of graduate-level courses in other programs.
3. Satisfactory completion of 15 additional units of courses in either ancient Greek or Latin at the 100-level or higher.
4. Writing a thesis, or passing an exam on a particular topic, or having written work accepted by the Graduate Committee as an equivalent. Three completed and satisfactory seminar papers are normally an acceptable equivalent, provided each paper has earned the grade of B+ or higher.
5. Students must pass a modern language reading exam in one of the following languages: German, French or Italian. In exceptional circumstances, the Graduate Studies Committee may permit a different language, e.g., Modern Greek or Russian, to be substituted in keeping with research plans. Students are allowed to use paper and online dictionaries. Exams are offered once a quarter (Autumn, Winter, Spring). Incoming graduates may choose to be tested as early as the Autumn Quarter. The department strongly encourages students to take modern language exams as early as possible in the program. If the first attempt to pass the exam is unsuccessful, the student is allowed to retake the test only once. Failing the second examination means automatic dismissal from the program. A grade of 'B-' or higher is required to pass.
6. Completion and approval of a Program Proposal for a Master's Degree form during the first quarter of enrollment, at least five days prior to the Final Study List deadline.

Candidates for the Ph.D. degree may also (on the recommendation of the department) become candidates for the M.A. degree. In their case, requirement 4 above is waived provided that they have completed some work beyond the course requirements listed under requirements 1 and 2 above. Current Stanford graduate students in other degree programs may be considered for the M.A. degree, but must be admitted into the program and must complete all requirements listed above.

### Coterminal Master's Degree in Classics

Stanford students in any undergraduate major who wish to pursue graduate work in Classics may apply for Stanford's coterminal master's program. Students considering a coterm are encouraged to consult with the Director of Undergraduate Studies and the department's student services officer about their plans before filing an application. Applicants must have a minimum GPA of 3.7 in the major, and no incomplete grades on record. Undergraduate course work in Greek and Latin and one of the required modern languages is normally a prerequisite for graduate-level work.

To apply, students must complete the Coterminal Online Application (<https://applyweb.com/stanterm>), submit two letters of recommendation from Classics faculty, an unofficial copy of their undergraduate transcript, a 1-3 page statement of purpose and a 10-15 page writing sample. GRE scores are not required. Applications are due in early January of the intended graduation year for the undergraduate degree; please see the departmental website (<http://classics.stanford.edu>) for the specific deadline.

## University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken during or after the first quarter of the sophomore year are eligible for consideration for transfer to the graduate career; the timing of the first graduate quarter is not a factor. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

## Doctor of Philosophy in Classics

University requirements for the Ph.D. are described in the "Graduate Degrees" section of this bulletin. There are four specializations within the Classics Ph.D. program: language and literature; classical archaeology; ancient history; and the joint program in ancient philosophy. These specializations appear on the transcript and the diploma.

### I. Language and Literature

Candidates for the Ph.D. degree in Classics with specialization in language and literature must fulfill the following requirements:

1. Complete 135 units of academic credit or equivalent in study beyond the bachelor's degree no later than the end of the fourth year. These must include the following courses:

		Units
CLASSICS 201L	Survey of Latin Literature: Literature of the Roman Republic	3-5
CLASSICS 202L	Survey of Latin Literature: Augustan Age Latin	3-5
CLASSICS 203L	Survey of Latin Literature: Imperial Latin	3-5
CLASSICS 201G	Survey of Greek Literature: Archaic Greek	3-5
CLASSICS 202G	Survey of Greek Literature: Classical Greek	3-5
CLASSICS 203G	Survey of Greek Literature: Hellenistic and Late Greek	3-5
CLASSICS 204A	Latin Syntax	4
CLASSICS 204B	Latin Syntax	2
CLASSICS 205A		2
CLASSICS 205B	Greek Syntax: Prose Composition	4
CLASSICS 206A	The Semantics of Grammar	2
CLASSICS 206B	The Semantics of Grammar	2

Plus twelve graduate seminars, nine of which must be Classics seminars, and one of the remaining three of which must be outside the department. The other two seminars may be in Classics, from other departments (with the graduate director's approval), and/or directed readings.<sup>1,2</sup>

- <sup>1</sup> No more than two directed readings may be counted towards this requirement.
- <sup>2</sup> Classics seminars are sometimes offered for a spread of units (3, 4 or 5). In some cases, instructors allow a student to complete a seminar for less units without requiring a written paper but with completion of all other requirements.

2. Maintain satisfactory progress throughout the degree program. The Classics department sets a higher standard for satisfactory progress than the University minimum requirements. To maintain that standard, students are expected to:
  - Maintain good grades (within the Classics department, this normally means grades in the A range; an accumulation of grades of B+ or lower may indicate problems).
  - pass all required exams by the required deadlines
  - write a minimum of three seminar papers per year in the first three years
  - demonstrate high-quality research and writing
  - take no more than one incomplete grade at a time (unless given special permission by the Director of Graduate Studies)
  - take incomplete grades only occasionally and finish any incompletes in a timely manner
  - demonstrate effective teaching when serving as a Teaching Assistant or Teaching Fellow

Students who fail to maintain satisfactory progress have travel and discretionary funds withheld until the situation is redressed.

3. Students must apply and be approved to advance to candidacy by the end of Summer Quarter of their second year.
4. Examinations:
  - As soon as students arrive, they must take diagnostic exams in Greek and Latin. Depending on performance, students may be required to enroll in undergraduate language classes in that language to improve their skills to the level required for graduate work.
  - Students must take Greek and Latin translation exams at the end of each survey sequence (Spring Quarter of the first and second years). Students are exempted from the final exam in Spring Quarter Survey in order to prepare for these translations exams. These exams are based on the Greek and Latin reading lists available on the Classics Department (<http://classics.stanford.edu>) website. Greek and Latin survey courses cover less than half of the material on which the translation exams test, and students need to prepare much of the work on their own. It is possible to take both exams in the first year if the student chooses. However, the student cannot choose to delay the first year exam to take both in the second year. The exam consists of translating four passages from a selection of six to eight passages, and students are allowed three hours. A grade of 'B-' or higher, on every passage, is required to pass. If a student does not attain a 'B-', the exam must be retaken and passed later in the summer before registering for the Autumn Quarter, in order to continue in the program. The exam can only be retaken once.
  - Students must pass two modern language translation exams: (1) German and (2) French or Italian. In exceptional circumstances, the Graduate Studies Committee may permit a different language, e.g., Modern Greek or Russian, to be substituted for (2), in keeping with dissertation research plans. Students are allowed to use paper and online dictionaries. Exams are offered once per quarter. Incoming graduates may choose to be tested as early as Autumn Quarter of their first year. The department strongly encourages students to take modern language exams as early as possible in the program (at least one modern language by the end of the first year), and certainly after any summer language courses they may have taken. Students have two opportunities to pass the modern language examinations. Failing the second opportunity means automatic dismissal from the program. Students are

required to pass the first modern language exam by the end of the second year, and the second modern language exam by the end of the third year, in order to maintain satisfactory progress. A grade of 'B-' or higher is required to pass.

- Students must take general examinations in Greek literature and Latin literature, and choose two more exams from the following fields: Ancient philosophy, Greek history, Roman history, Greek archaeology and Roman archaeology. The first exam is administered in Autumn Quarter of the second year, while the remaining three exams are administered in Autumn Quarter of the third year. Moving the timing of any of the exams, or increasing the number of exams requires prior consultation and approval by the Director of Graduate Studies. All exam choices must be approved by the Director of Graduate Studies in the Spring Quarter prior to the examination. To prepare for the exams, students must take at least one course in each of their chosen exam fields (in the case of ancient philosophy, a seminar or its equivalent) and may also consult with the faculty examiner. Reading lists for each of the exams are posted on the Classics website.
  - The University Oral Examination is the defense of the candidate's dissertation. In order to take this exam, a significant portion of the dissertation must be completed and approved by the dissertation adviser(s), the exam committee must have been established and approved by the Chair, and a date and time must have been arranged with the department. The exam consists of a public presentation with question and answer period (no longer than an hour), followed by a private examination between the student and the exam committee (also no longer than an hour).
5. During the third year, the candidate, in consultation with the dissertation proposal adviser (often the same as the dissertation adviser) writes a dissertation proposal, which is evaluated by a committee of faculty (dissertation proposal committee). The dissertation proposal defense should take place by the end of Autumn Quarter of the fourth year. If the proposal does not pass, the defense is repeated in the following quarter and must be passed. Failure to pass on the second attempt results in dismissal of the student from the program.
  6. Students are required to teach four one-quarter courses under department supervision. This teaching requirement is normally completed during the second and third years of study. Under certain circumstances, summer teaching may satisfy this requirement.

## II. Classical Archaeology

Candidates for the Ph.D. degree in Classics with a specialization in classical archaeology must fulfill the requirements following below.

Students are encouraged to enroll in or audit other undergraduate courses that may fill gaps in their undergraduate training. All students are expected to take part in archaeological fieldwork in the classical world areas. At least three consecutive quarters of course work must be taken at Stanford.

1. Complete 135 units of academic credit or equivalent in study beyond the bachelor's degree at the end of the candidate's fourth year, including:

CLASSICS 331	Words and Things in the History of Classical Scholarship <sup>1</sup>	4-5
At least three graduate (200 or 300) level courses in Latin or Greek literature <sup>3</sup>		9-15
CLASSICS 201	Survey of Latin Literature: Literature of the Roman Republic	
CLASSICS 202	Survey of Latin Literature: Augustan Age Latin	
CLASSICS 203	Survey of Latin Literature: Imperial Latin	
CLASSICS 201	Survey of Greek Literature: Archaic Greek	

CLASSICS 202	Survey of Greek Literature: Classical Greek	
CLASSICS 203	Survey of Greek Literature: Hellenistic and Late Greek	

The interdepartmental graduate core sequence in archaeology. The Archaeology Center announces the courses which fulfill this requirement. The core sequence currently comprises a seminar in archaeology theory and a course on archaeological methods.

ANTHRO 303	Introduction to Archaeological Theory	
ANTHRO 307	Archaeological Methods	

At least one further course outside the Classics department.<sup>2</sup> 3-5  
 At least five graduate seminars in classical archaeology. 15-25  
 Suggested courses this year include:<sup>2</sup>

CLASSICS 370	Topics in Roman Art and Visual Culture	
--------------	--	--

At least three graduate seminars in ancient history. Suggested courses this year include:<sup>2</sup> 9-15

CLASSICS 381	Classical Seminar: Origins of Political Thought	
CLASSICS 382	High-Stakes Politics: Case Studies in Political Philosophy, Institutions, and Interests	

CLASSICS 389	Dark Ages Compared: Early Iron Age Greece and Early Medieval Britain	
--------------	--	--

2. <sup>1</sup> Must be taken as early as possible in the candidate's Stanford career.
- <sup>2</sup> Students may petition to count independent study courses in place of up to two required courses, but no more.
- <sup>3</sup> Students who enter the program with only one ancient language at the level needed for graduate study are strongly encouraged to take additional course work to reach graduate (200 and above) level in another language.

Maintain satisfactory progress throughout the degree program. The Classics department sets a higher standard for satisfactory progress than the University minimum requirements. To maintain that standard, students are expected to:

- Maintain good grades (within the Classics department, this normally means grades in the A range; an accumulation of grades of B+ or lower may indicate problems).
- pass all required exams by the required deadlines
- write a *minimum* of three seminar papers per year in the first three years
- demonstrate high-quality research and writing
- take no more than one incomplete grade at a time (unless given special permission by the Director of Graduate Studies)
- take incomplete grades only occasionally and finish any incompletes in a timely manner
- demonstrate effective teaching when serving as a Teaching Assistant or Teaching Fellow

Students who fail to maintain satisfactory progress have travel and discretionary funds withheld until the situation is redressed.

3. Students must apply and be approved to advance to candidacy by the end of Summer Quarter of their second year.
4. Examinations:
  - As soon as students arrive, they must take diagnostic exams in Greek and Latin. Depending on performance, students may be required to enroll in undergraduate language classes in that language to improve their skills to the level required for graduate work.
  - Students must pass two modern language translation exams: (1) German and (2) French or Italian. In exceptional circumstances, the Graduate Studies Committee may permit a different language, e.g., Modern Greek or Russian, to be substituted for (2), in keeping with dissertation research plans. Students are allowed to use paper and online dictionaries. Exams are offered once per quarter.

Units

Incoming graduates may choose to be tested as early as Autumn Quarter of their first year. The department strongly encourages students to take modern language exams as early as possible in the program (at least one modern language by the end of the first year), and certainly after any summer language courses they may have taken. Students have two opportunities to pass the modern language examinations. Failing the second opportunity means automatic dismissal from the program. Students are required to pass the first modern language exam by the end of the second year, and the second modern language exam by the end of the third year, in order to maintain satisfactory progress. A grade of 'B-' or higher is required to pass.

- Students must demonstrate graduate-level competency with an ancient language in one of two ways:
    - i *Option 1*: Greek or Latin translation exam. This examination must be taken Spring Quarter of the first year or Spring Quarter of the second year. A grade of 'B-' or higher on every passage is required to pass. If a student does not meet that standard, the exam must be retaken and passed later in the summer before registering for Autumn Quarter, in order to continue in the program. The exam can only be retaken once.
    - ii *Option 2*: Students must complete the course and take the final offered at the end of each quarter of Greek or Latin Survey. Students must earn a 'B-' or higher on each final to pass.
  - Students must take general examinations in Greek archaeology and Roman archaeology, and choose two more exams from the following fields: Ancient philosophy, Greek history, Roman history, Greek literature and Latin literature. The first exam is administered in Autumn Quarter of the second year, while the remaining three exams are administered in Autumn Quarter of the third year. Moving the timing of any of the exams, or increasing the number of exams requires prior consultation and approval by the Director of Graduate Studies. All exam choices must be approved by the Director of Graduate Studies in the Spring Quarter prior to the examination. To prepare for the exams, students must take at least one course in each of their chosen exam fields (in the case of ancient philosophy, a seminar or its equivalent) and may also consult with the faculty examiner. Reading lists for each of the exams are posted on the Classics website.
  - The University oral examination is the defense of the candidate's dissertation. In order to take this exam, a significant portion of the dissertation must be completed and approved by the dissertation adviser(s), the exam committee must have been established and approved by the Chair, and a date and time must have been arranged with the department. The exam consists of a public presentation with question and answer period (no longer than an hour), followed by a private examination between the student and the exam committee (also no longer than an hour).
5. During the third year, the candidate, in consultation with the dissertation proposal adviser (often the same as the dissertation adviser) writes a dissertation proposal, which is evaluated by a committee of faculty (dissertation proposal committee). The dissertation proposal defense should take place by the end of Autumn Quarter of the fourth year. If the proposal does not pass, the defense is repeated in the following quarter and must be passed. Failure to pass on the second attempt results in dismissal of the student from the program.
  6. Students are required to teach four one-quarter courses under department supervision. This teaching requirement is normally completed during the second and third years of study. Under certain circumstances, summer teaching may satisfy this requirement.

### III. Ancient History

Candidates for the Ph.D. degree in Classics with specialization in ancient history must fulfill the following requirements:

1. Complete 135 units of academic credit or equivalent in study beyond the bachelor's degree at the end of the fourth year. These must include:
 

HISTORY 304 Approaches to History	8-10	
Two proseminars. These introduce students to primary sources of evidence for ancient history that require special training: papyrology, epigraphy, paleography, numismatics, and archaeology. <sup>1,2</sup>		
CLASSICS 211 PROSEMINAR: LATIN WORD ORDER		
CLASSICS 213 Proseminar: Documentary Papyrology		
CLASSICS 214 Proseminar: Ancient Numismatics		
CLASSICS 215		
CLASSICS 216 Advanced Paleography		
Three skills courses relevant to the individual student's chosen research approach. For example, a student could take classes in economics, demography, legal history, or anthropology. Courses can also be used to learn other ancient or modern languages, either by course work or directed reading. <sup>1</sup>	9-15	
Ten graduate seminars (200-level or above). At least five of these seminars must be taken in the department. <sup>2,3</sup>		30-50
<b>ANCIENT LANGUAGE COURSEWORK</b>		
Option 1: Students focus more on one ancient language by taking 15 units of one survey series (CLASSICS 201L/202L/203L or CLASSICS 201G/202G/203G) and 5 units of the alternate series, plus the following courses: <sup>4</sup>		30
CLASSICS 206 The Semantics of Grammar		
CLASSICS 206 The Semantics of Grammar		
CLASSICS 204 Latin Syntax		
CLASSICS 204 Latin Syntax		
CLASSICS 205		
CLASSICS 205 Greek Syntax: Prose Composition		
Option 2: Student emphasize broader linguistic skills. This requires students to take both ancient language surveys.		30
CLASSICS 201 Survey of Latin Literature: Literature of the Roman Republic		
CLASSICS 202 Survey of Latin Literature: Augustan Age Latin		
CLASSICS 203 Survey of Latin Literature: Imperial Latin		
CLASSICS 201 Survey of Greek Literature: Archaic Greek		
CLASSICS 202 Survey of Greek Literature: Classical Greek		
CLASSICS 203 Survey of Greek Literature: Hellenistic and Late Greek		
2. Maintain satisfactory progress throughout the degree program. The Classics department sets a higher standard for satisfactory progress than the University minimum requirements. To maintain that standard, students are expected to:
  - <sup>1</sup> Students must consult their advisers and the graduate director to determine the appropriate coursework.
  - <sup>2</sup> With the approval of their advisers and graduate director, students may take seminars outside of the department or at another university with which Stanford has an exchange agreement to fulfill this requirement.
  - <sup>3</sup> Two of these seminars may be replaced by directed readings with adviser and graduate director approval.
  - <sup>4</sup> Students who select Greek for their primary language should consult with the graduate director for a course to replace the Semantics of Grammar requirement.

satisfactory progress have travel and discretionary funds withheld until the situation is redressed.

- Maintain good grades (within the Classics department, this normally means grades in the A range; an accumulation of grades of B+ or lower may indicate problems).
- pass all required exams by the required deadlines
- write a *minimum* of three seminar papers per year in the first three years
- demonstrate high-quality research and writing
- take no more than one incomplete grade at a time (unless given special permission by the Director of Graduate Studies)
- take incomplete grades only occasionally and finish any incompletes in a timely manner
- demonstrate effective teaching when serving as a Teaching Assistant or Teaching Fellow

Students who fail to maintain satisfactory progress have travel and discretionary funds withheld until the situation is redressed.

3. Students must apply and be approved to advance to candidacy by the end of Summer Quarter of their second year.

4. Examinations:

- As soon as students arrive, they must take diagnostic exams in Greek and Latin, as well as Greek and Roman history. Depending on performance, students may be required to enroll in undergraduate language classes in that language to improve their skills to the level required for graduate work. The history exams are mainly on narrative history, especially important names, dates, and events. Depending on performance, students may be asked to sit in on the undergraduate history courses and take a directed reading or a graduate survey if offered.
- Students must take the final offered at the end of each quarter of Greek or Latin survey (for Option 1 above) or both Greek and Latin surveys (for Option 2 above). Students must earn a 'B-' or higher on each final to pass.
- Students must pass two modern language translation exams: (1) German and (2) French or Italian. In exceptional circumstances, the Graduate Studies Committee may permit a different language, e.g., Modern Greek or Russian, to be substituted for (2), in keeping with dissertation research plans. Students are allowed to use paper and online dictionaries. Exams are offered once per quarter. Incoming graduates may choose to be tested as early as Autumn Quarter of their first year. The department strongly encourages students to take modern language exams as early as possible in the program (at least one modern language by the end of the first year), and certainly after any summer language courses they may have taken. Students have two opportunities to pass the modern language examinations. Failing the second opportunity means automatic dismissal from the program. Students are required to pass the first modern language exam by the end of the second year, and the second modern language exam by the end of the third year, in order to maintain satisfactory progress. A grade of 'B-' or higher is required to pass.
- Students must take general examinations in Greek history and Roman history, and choose two more exams from the following fields: Ancient philosophy, Greek archaeology, Roman archaeology, Greek literature and Latin literature. The first exam is administered in Fall Quarter of the second year, while the remaining three exams are administered in Fall Quarter of the third year. Moving the timing of any of the exams, or increasing the number of exams requires prior consultation and approval by the Director of Graduate Studies. All exam choices must be approved by the Director of Graduate Studies in the Spring Quarter prior to the examination. To prepare for the exams, students must take at least one course in each of their chosen exam fields (in the case of ancient philosophy, a seminar or its equivalent) and may also consult with the faculty examiner.

Reading lists for each of the exams are posted on the Classics website.

- The University oral examination is the defense of the candidate's dissertation. In order to take this exam, a significant portion of the dissertation must be completed and approved by the dissertation adviser(s), the exam committee must have been established and approved by the Chair, and a date and time must have been arranged with the department. The exam consists of a public presentation with question and answer period (no longer than an hour), followed by a private examination between the student and the exam committee (also no longer than an hour).
5. During the third year, the candidate, in consultation with the dissertation proposal adviser (often the same as the dissertation adviser) writes a dissertation proposal, which is evaluated by a committee of faculty (dissertation proposal committee). The dissertation proposal defense should take place by the end of Autumn Quarter of the fourth year. If the proposal does not pass, the defense is repeated in the following quarter and must be passed. Failure to pass on the second attempt results in dismissal of the student from the program.
  6. Students are required to reach four one-quarter courses under department supervision. This teaching requirement is normally completed during the second and third years of study. Under certain circumstances, summer teaching may satisfy this requirement.

## IV. Joint Program in Ancient Philosophy

This specialization is jointly administered by the departments of Classics and Philosophy and is overseen by a joint committee composed of members of both departments. It provides students with the training, specialist skills, and knowledge needed for research and teaching in ancient philosophy while producing scholars who are fully trained as either philosophers or classicists.

Graduate students admitted by the Classics department receive their Ph.D. from the Classics department. This specialization includes training in ancient and modern philosophy. Each student in the program is advised by a committee consisting of one professor from each department.

Candidates for the Ph.D. degree in Classics with specialization in ancient philosophy must fulfill the following requirements:

	Units
Students must take three courses in the Philosophy department <sup>1</sup>	9-15
One course in logic which can be fulfilled at the 100-level or higher	
One course in aesthetics, ethics, or political philosophy (200-level or higher)	
One course in metaphysics, epistemology, philosophy of mind, or philosophy of science.	

At least three courses in ancient philosophy at the 200 level or above, 9-15 one of which must be in the Philosophy department. <sup>1</sup>

1. <sup>1</sup> All courses taken in the Philosophy department count for seminar credit (i.e., as contributing to the 12-seminar requirement in the Language and Literature track in the Classics department).

Complete 135 units of academic credit or equivalent in study beyond the bachelor's degree at the end of the fourth year. This includes all the requirements listed for the language and literature specialization in the graduate program in Classics (see above). Students must also take the below courses focusing on philosophy.

2. *Examinations:* The requirements are the same as those listed in the language and literature specialization, except that one of the four areas of general examination must be taken in ancient philosophy in addition to the exams in Greek literature and Latin literature.

3. *Dissertation Proposal*: The requirements are the same as those listed in the language and literature specialization.
4. *Teaching*: The requirements are the same as those listed in the language and literature specialization.

*Lecturers*: David Driscoll, Maud Gleason (on leave), John Klopacz, Tom Recht

\* Recalled to active duty.

## Classics and a Minor Field

The Ph.D. in Classics may be combined with a minor in another field, such as anthropology, history, humanities, or classical linguistics. Requirements for the minor field vary, but can include about six graduate-level courses in the field and one written examination, plus a portion of the University oral exam (dissertation defense). Students must consult with the department in which the minor is offered for exact requirements. Students who pursue this are expected to take five years. The department encourages such programs for especially able and well-prepared students. The following timetable would be typical for a five-year program:

- First Year: course work, almost entirely in Classics. One translation exam taken in June. One or both modern language exams taken.
- Second Year: course work, both in Classics and the minor field. Second translation exam completed. French and German exams completed.
- Third Year: course work, both in Classics and the minor field. General examinations in Classics.
- Fourth Year: remaining course work, both in Classics and the minor field. General examination in the minor field. Preparation for dissertation.
- Fifth Year: dissertation, University oral examination.

## Ph.D. Minor in Classics

For a graduate minor, the department recommends at least 20 units in Latin or Greek at the intermediate-level or above, and at least one course at the graduate (200) level or above. Students interested in this minor must discuss their proposed course plan with the Director of Graduate Studies as well as their Ph.D. department before obtaining Classics department approval.

*Emeriti*: (Professors) Mark W. Edwards, Marsh H. McCall, Jr.\*, Susan Treggiari

*Chair*: Grant Parker

*Director of Graduate Studies*: Walter Scheidel

*Director of Undergraduate Studies and Joint Major Advisor*: John Klopacz

*Professors*: Andrew M. Devine, Richard P. Martin (on leave), Ian Morris (on leave), Reviel Netz, Andrea Nightingale, Josiah Ober (Classics, Political Science), Anastasia-Erasmia Peponi, M. Rush Rehm (Classics, TAPS; on leave), Richard Saller (Classics, History), Walter Scheidel (Classics, History), Michael Shanks (on leave, Autumn Quarter), Susan A. Stephens (on leave)

*Associate Professors*: Giovanna Ceserani, Christopher B. Krebs, Jody Maxmin (Art and Art History, Classics; on leave, Winter Quarter), Grant Parker, Jennifer Trimble

*Assistant Professor*: Justin Leidwanger

*Courtesy Professors*: Fabio Barry (Art and Art History), Chris Bobonich (Philosophy), Alan Code (Philosophy), Charlotte Fonrobert (Religious Studies), Ian Hodder (Anthropology), Bissera Pentcheva (Art and Art History), Caroline Winterer (History), Yiqun Zhou (East Asian Languages and Cultures)

*Visiting Professors*: Stephen Harrison, Anne Kolb

# COMMUNICATION

Courses offered by the Department of Communication are listed under the subject code COMM on the Stanford Bulletin's ExploreCourses web site.

Stanford's Department of Communication focuses on media in all its forms. The department studies the processes and effects of mass communication: the nature and social role of the various media; their structure, function, and ethics; and their impact on the political system, culture, and society. In this context, it considers not only traditional mass media, such as newspapers, magazines, radio, television, and film, but also information technology, online media, virtual reality, and the Internet. Students are trained as social scientists who can study the media and as potential practitioners in the use of the media in journalism, mass communications, and digital media. The department combines theory and practice and fosters individual research opportunities for its students, employing both quantitative and qualitative approaches.

The Department of Communication engages in research in communication and offers curricula leading to the B.A., M.A., and Ph.D. degrees. The M.A. degree prepares students for a career in journalism. The department also offers current Stanford University undergraduates a coterminal program with an M.A. emphasis in Media Studies. The Ph.D. degree leads to careers in university teaching and research-related specialties.

The John S. Knight Journalism Fellowships supports journalism and journalism innovators who are deeply engaged in working on solutions to the biggest challenges facing journalism. Each year, up to 20 fellows come to Stanford from all over the world and all types of journalism. They collaborate to build tools, launch organizations, and become leaders in news innovation.

## Mission of the Undergraduate Program in Communication

The mission of the undergraduate program in Communication is to expose students to a broad-based understanding of communication theory and research. Students in this major are expected to become familiar with the fundamental concerns, theoretical approaches, and methods of the field, and to acquire advanced knowledge in one or more sub-areas of the discipline. This is accomplished by several levels of study: a core curriculum; intermediate-level electives; and optional internships. Majors also have the opportunity to do advanced research projects. The department is committed to providing students with analytical and critical skills needed for success in graduate programs, professional schools, or immediate career entry.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. an understanding of core knowledge within the discipline of communication.
2. the ability to communicate ideas clearly and persuasively in writing.
3. the ability to analyze a problem and draw correct inferences using qualitative and/or quantitative analysis.
4. the ability to evaluate theory and critique research within the discipline of communication.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in Communication and to prepare students for professional careers or doctoral studies. This is achieved through completion of courses in the primary field, as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in Communication. Through completion of advanced coursework and rigorous training in research, the doctoral program prepares students to make original contributions to the knowledge of Communication and to interpret and present the results of such research.

## Admission

*Prospective Undergraduates:* Applications are available at Undergraduate Admissions (<http://admission.stanford.edu>).

*Prospective Coterminal Students:* Applications are available online on the University Registrar's (<https://registrar.stanford.edu/resources-and-help/student-forms/coterminal-forms>) web site.

*Prospective Graduate Students:* Applications are available online at Graduate Admissions (<http://gradadmissions.stanford.edu>).

The department requires that applicants for graduate admission submit verbal, quantitative, and analytic scores from the Graduate Record Examination (GRE). Admission to each graduate degree program is competitive and based on the pool of applicants each year rather than on standard criteria that can be stated in advance. See Communication Department admission procedures and requirements (<http://comm/phd/general/commdeptapplicationguide.pdf>) for detailed information about admission to the department.

Stanford students who are completing an M.A. degree and who desire entry into the Ph.D. program must file a Graduate Program Authorization Petition (<https://registrar.stanford.edu/students/graduate-degree-progress/graduate-program-authorization-petition>) in Axess. Such students are considered alongside all other doctoral applicants.

## Bachelor of Arts in Communication

### Preparation

Before declaring the major, students must have completed or be concurrently enrolled in one of the following:

		Units
COMM 1	Introduction to Communication	5
COMM 1B	Media, Culture, and Society	5
COMM 106	Communication Research Methods	5
COMM 108	Media Processes and Effects	5

Students interested in declaring the major should apply via Axess and meet with the student services administrator in Building 120, Room 110A, during scheduled office hours. Students are required to take at least 60 units (approximately 12 courses), not counting statistics, to complete the major.

### Program of Study

The undergraduate curriculum is intended for liberal arts students who wish to develop an understanding of communication in society, drawing on the perspective of the social sciences. Undergraduates majoring in Communication are expected to become acquainted with the fundamental concerns, theoretical approaches and methods of the field,

and to acquire advanced knowledge in one or more of the sub-areas of communication: institutions, processes, and effects.

While the department does not attempt to provide comprehensive practical training at the undergraduate level, the curriculum provides a diverse range of internship opportunities, including professional print journalism, some of which are funded by the department's Rebele Internship Program. The department is committed to providing students with analytical and critical skills for future success in graduate programs, professional schools, or immediate career entry.

The major is structured to provide several levels of study: a core curriculum intended to expose students to a broad-based understanding of communication theory and research, and a number of intermediate-level options and electives. Majors also have the opportunity to do advanced research in the form of an honors thesis.

All undergraduate majors are required to complete a set of core communication courses which include:

		Units
COMM 1	Introduction to Communication	5
or COMM 1B	Media, Culture, and Society	
COMM 106	Communication Research Methods	5
COMM 108	Media Processes and Effects	5
COMM 104W	Reporting, Writing, and Understanding the News	5
or COMM 120W	Digital Media in Society	
or COMM 137W	The Dialogue of Democracy	
or COMM 142W	Media Economics	
or COMM 143W	Communication Policy and Regulation	

COMM 104W, COMM 120W, COMM 137W, COMM 142W, and COMM 143W satisfy the WIM (Writing in the Major) requirement. Core courses are usually offered only once each year.

The department also requires completion of or concurrent registration in an introductory statistics course (STATS 60 Introduction to Statistical Methods: Precalculus) when registering for COMM 106 Communication Research Methods in preparation for courses in methodology and advanced courses in communication processes and effects. It is recommended that this be done as soon as possible so as not to prevent registration in a course requiring statistical understanding. The statistics course does not count toward the 60 units to complete the Communication major.

In addition to the core courses and the statistics requirement, undergraduate majors select courses from the two areas described below. Many of the courses require core courses as prerequisites. Majors select a total of four area courses, taking at least one from each area.

**Area I: Communication Processes and Effects**

Area I emphasizes the ways in which communication scholars conduct research in, and consider the issues of, human communication. These studies aim to provide expert guidance for social policy makers and media professionals and include the following courses:

		Units
COMM 121	Behavior and Social Media	5
COMM 124	Lies, Trust, and Tech	5
COMM 135	Deliberative Democracy and its Critics	3-5
COMM 137W	The Dialogue of Democracy	5
COMM 162	Campaigns, Voting, Media, and Elections	5
COMM 164	The Psychology of Communication About Politics in America	4
COMM 166	Virtual People	5
COMM 172	Media Psychology	5

COMM 326      Advanced Topics in Human Virtual Representation 1-5

**Area II: Communication Systems and Institutions**

Area II considers the roles and interaction of institutions such as broadcasting, journalism, constitutional law, and business within communication and mass communication contexts and includes the following courses:

		Units
COMM 104W	Reporting, Writing, and Understanding the News	5
COMM 113	Computational Methods in the Civic Sphere	5
COMM 116	Journalism Law	5
COMM 120W	Digital Media in Society	5
COMM 125	Perspectives on American Journalism	5
COMM 131	Media Ethics and Responsibility	5
COMM 142W	Media Economics	5
COMM 143W	Communication Policy and Regulation	5
COMM 151	The First Amendment: Freedom of Speech and Press	5
COMM 152	Constitutional Law	3
COMM 153	Political Campaigning in the Internet Age	3
COMM 154	The Politics of Algorithms	5
COMM 157	Information Control in Authoritarian Regimes	5
COMM 177A	Computational Journalism	5
COMM 177I	Becoming a Watchdog: Law, Order & Algorithms	5
COMM 177Y	Specialized Writing and Reporting: Foreign Correspondence	5

**Additional Requirements**

The remainder of the 60 required units may be fulfilled with any elective Communication courses or crosslisted courses in other departments.

To be recommended for the B.A. degree in Communication, the student must complete at least 60 units (approximately 12 courses) in the department. No more than 10 units of course work outside of the department or transfer credit may be applied to meet department requirements. Communication majors must receive a letter grade for all Communication courses unless they are offered only for satisfactory/no credit (S/NC), and must maintain a grade point average (GPA) of 2.0 (C) in courses towards the major. Only courses with a grade of 'C-' or above count towards the major. Therefore, majors who receive a grade of 'D+' or below in one of the core courses must repeat the course.

**Honors Program**

The honors program provides Communication majors the opportunity to undertake a significant program of research in an individual professor/student mentoring relationship. The aim is to guide students through the process of research, analysis, drafting, rethinking, and redrafting, which is essential to excellence in scholarship. Working one-on-one with a faculty adviser, seniors earn 15 Communication units culminating in an honors thesis. In order to be eligible for the honors program, interested majors must have a GPA of 3.3 in Communication courses, completed the following requirements, and received a grade of 'B+' or better in COMM 106, Communication Research Methods:

1. Core Requirements

Complete the following core requirements:

		Units
COMM 1	Introduction to Communication	5
or COMM 1B	Media, Culture, and Society	
COMM 106	Communication Research Methods (receive a grade of B+ or better)	5

COMM 108	Media Processes and Effects	5
STATS 60/ PSYCH 10	Introduction to Statistical Methods: Precalculus	5

2. Select an adviser; and
3. Submit an application to the department by the end of their junior year. See the department's honors web site to download an application form (<http://comm.stanford.edu/undergraduate/honors>).

Students are expected to make steady progress on their honors thesis throughout the year.

A final copy of the honors thesis must be submitted to the thesis advisor for review and grading and a second copy uploaded to the Stanford Digital Repository (<https://sdr.stanford.edu>) by the end of week eight of Spring Quarter of the student's senior year (exact date to be arranged). Honors work may be used to fulfill Communication elective credit, but must be completed and a letter grade submitted prior to graduation. A student failing to fulfill all honors requirements may still receive independent study credit for work completed, which may be applied toward fulfilling major requirements.

The designation "with honors" is awarded by the Department of Communication to those graduating seniors who, in addition to having completed all requirements for the Communication major:

1. complete an honors thesis;
2. maintain a distinguished GPA in all Communication course work;
3. are recommended by the Communication faculty.

## Minor in Communication

### Preparation

Before declaring the minor, students must have completed or be concurrently enrolled in one of the following:

		Units
COMM 1	Introduction to Communication	5
COMM 1B	Media, Culture, and Society	5
COMM 106	Communication Research Methods	5
COMM 108	Media Processes and Effects	5

Students interested in declaring the minor should do so no later than the deadline to for their application to graduate by applying via Axess and meeting with the student services administrator in building 120, room 110A.

### Program of Study

The minor is structured to provide a foundation for advanced course work in communication through a broad-based understanding of communication theory and research.

Students are required to take 35 units (approximately 7 courses), not counting statistics, to complete the minor. The curriculum consists of three introductory communication core courses that include:

		Units
COMM 1 or COMM 1B	Introduction to Communication Media, Culture, and Society	5
COMM 106	Communication Research Methods	5
COMM 108	Media Processes and Effects	5

Core courses are usually offered only once each year. The department also requires completion of – or concurrent registration in – an introductory statistics course (STATS 60 Introduction to Statistical Methods: Precalculus) when registering for COMM 106 Communication

Research Methods in preparation for courses in methodology and advanced courses in communication processes and effects. It is recommended that this be done as soon as possible so as not to prevent registration in a course requiring statistical understanding. The statistics course does not count toward the 35 units to complete the Communication minor.

In addition to the three core courses and the statistics course, students are required to take one course in each of the two areas as specified below.

The remainder of the 35 required units may be fulfilled with any intermediate-level elective Communication courses or crosslisted courses in other departments. No more than 5 units of course work outside of the department or transfer credit may be applied to meet department requirements. Communication minors must receive a letter grade for all Communication courses unless they are offered only for satisfactory/no credit (S/NC), and must maintain a grade point average (GPA) of 2.0 (C) in courses towards the minor. Only courses with a grade of C- or above count towards the minor. Some courses are not offered every year. Refer to ExploreCourses (<http://explorecourses.stanford.edu>) for details.

### Area I: Communication Processes and Effects

Units

Select one of the following:

COMM 121	Behavior and Social Media	5
COMM 124	Lies, Trust, and Tech	5
COMM 135	Deliberative Democracy and its Critics	5
COMM 137W	The Dialogue of Democracy	5
COMM 162	Campaigns, Voting, Media, and Elections	5
COMM 164	The Psychology of Communication About Politics in America	5
COMM 166	Virtual People	5
COMM 172	Media Psychology	5
COMM 326	Advanced Topics in Human Virtual Representation	1-5

### Area II: Communication Systems/Institutions

Units

Select one of the following:

COMM 104W	Reporting, Writing, and Understanding the News	5
COMM 113	Computational Methods in the Civic Sphere	5
COMM 116	Journalism Law	5
COMM 120W	Digital Media in Society	5
COMM 125	Perspectives on American Journalism	5
COMM 131	Media Ethics and Responsibility	5
COMM 142W	Media Economics	5
COMM 143W	Communication Policy and Regulation	5
COMM 151	The First Amendment: Freedom of Speech and Press	5
COMM 152	Constitutional Law	3
COMM 153	Political Campaigning in the Internet Age	3
COMM 154	The Politics of Algorithms	5
COMM 157	Information Control in Authoritarian Regimes	5
COMM 177A	Computational Journalism	5
COMM 177I	Becoming a Watchdog: Law, Order & Algorithms	5
COMM 177Y	Specialized Writing and Reporting: Foreign Correspondence	5

### Elective courses

Totaling 10 units.

## Master of Arts in Communication / Graduate Program in Journalism

University requirements for the master's degree are described in the "Graduate Degrees (<http://www.stanford.edu/dept/registrar/bulletin/4901.htm>)" section of this bulletin.

The department awards a terminal M.A. degree in Communication with a subplan in Journalism. This subplan prints on the transcript, but not on the diploma. Applicants for this program are evaluated for admission on different criteria. Work to fulfill graduate degree requirements must be in courses numbered 100 or above.

### Journalism

Stanford's graduate program in Journalism focuses on the knowledge and skills required to report, analyze, and write authoritatively about public issues and digital media. The curriculum combines a sequence of specialized reporting and writing courses with seminars and courses devoted to deepening the students' understanding of the roles and responsibilities of American news media in their coverage of public issues.

The program emphasizes preparation for the practice of journalism and a critical perspective from which to understand it. The program's objective is twofold:

1. to graduate talented reporters and writers to foster public understanding of the significance and consequences of public issues and the debates they engender; and
2. to graduate thoughtful journalists to respond openly and eloquently when called upon to explain and defend the methods and quality of their reporting and writing.

### Curriculum

The curriculum includes several required courses as shown below, including a master's project class:

		Units
COMM 216	Journalism Law	4
COMM 225	Perspectives on American Journalism	4
COMM 273D	Public Affairs Data Journalism I	4
COMM 274D	Public Affairs Data Journalism II	4
COMM 275	Multimedia Storytelling: Reporting and Production Using Audio, Still Images, and Video	3-4
COMM 279	News Reporting & Writing Fundamentals	3-4
COMM 289P	Journalism Thesis	4

Additionally, students are required to take two specialized reporting courses, chosen from a list of about ten, and three approved electives from among graduate-level courses in the Department of Communication, or from among courses on campus that deal substantively with issues of public importance. The M.A. degree in Communication (Journalism) requires a minimum of 45 units. Coterminal journalism students may count coursework taken after summer of freshman year towards the 45 units of unduplicated work with approval by the Director of the Graduate Program in Journalism.

Except for COMM 289P Journalism Thesis, all courses must be taken for a letter grade. To remain in good academic standing, students must maintain a grade point average (GPA) of 3.0 or better. Graduation requires a GPA of 3.0 or better.

### Journalism Project

The Journalism Thesis (COMM 289P), a requirement for graduation, is intended as an opportunity for students to showcase their talents as writers and reporters. It is also an opportunity to undertake an in-depth critique of an area of journalism in which the author has a special

interest. Work on the project usually begins during Winter Quarter and continues through Spring Quarter in the form of the class Journalism Thesis (COMM 289P). Completed master's projects must be submitted to the project adviser and an electronic copy uploaded to the Stanford Digital Repository (<https://sdr.stanford.edu>) no later than the last day of classes in the Spring Quarter.

The project represents a major commitment of time, research, and writing. Although it is not a requirement that the project be published, it must be judged by a member of the faculty to be of a quality acceptable for publication. At a minimum, the project should demonstrate the rigor and discipline required of good scholarship and good journalism; it should offer ample evidence of students' ability to gather, analyze, and synthesize information in a manner that goes beyond what ordinarily appears in daily news media.

## Coterminal Master's Program in Communication

The Department of Communication offers current Stanford University undergraduates the opportunity to apply for a one-year coterminal master's program with an M.A. subplan in Media Studies or Journalism. This subplan prints on the transcript, but not on the diploma.

### Admission

Applicants must submit their application and, if admitted, respond to the offer of admission no later than the quarter prior to the expected completion of their undergraduate degree. Applicants must have declared an undergraduate major and earned a minimum of 120 units toward graduation (UTG) as shown on the undergraduate unofficial transcript (including allowable advanced placement (AP) and transfer credit) and completed at least six academic quarters.

Applications must be submitted no later than January 31, 2018, for admission beginning in Spring Quarter 2017-18. Journalism track students may begin the program only in Spring Quarter of their senior year.

Requirements include:

- Application for Admission to Coterminal Masters' Program (<http://registrar.stanford.edu/pdf/CotermApplic.pdf>)
- preliminary program proposal
- statement of purpose
- letters of recommendation and recommendation forms from Stanford professors (two for media studies, three for journalism track)
- a written statement from a Communication professor agreeing to act as a graduate adviser (media studies track only)
- three samples of writing (journalism track only)
- undergraduate coterm application approval form
- a current unofficial Stanford transcript

GRE scores are not required.

Coterminal applications are submitted online.

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer

of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken during or after the first quarter of the sophomore year are eligible for consideration for transfer to the graduate career; the timing of the first graduate quarter is not a factor. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

## Degree Requirements

The coterminal master's program in Communication provides a broad introduction to scholarly literature in mass communication and offers a media studies and a journalism track.

Media studies track students must satisfy the following four requirements:

1. *Required Units and GPA:* students must complete a minimum of 45 units in Communication and related areas, including items 2 and 3 below. Courses must be taken for a letter grade if offered. Courses in related areas outside the department must be approved by the student's adviser. A minimum of 36 units must be in the Communication department. No more than two courses (not including the statistics prerequisite) may be at the 100 level. To remain in good academic standing students must maintain a grade point average (GPA) of 3.0 or better. Graduation requires a GPA of 3.0 or better.
2. *Core Requirements:* students must complete COMM 206 Communication Research Methods, COMM 208 Media Processes and Effects and an approved statistics course such as STATS 160 Introduction to Statistical Methods: Precalculus. Other courses occasionally are approved as a substitute before the student is admitted to the program. The statistics course does not count toward the 45 units.
3. *Six Media Studies Courses:* Students must complete a minimum of six additional Communication courses concerned with the study of media from the following list. Not all the listed courses are offered every year and the list may be updated from one year to the next. In addition to the core requirements and a minimum of six courses listed below, students may choose additional courses from the list and any related course approved by the student's adviser.

		Units
COMM 213	Computational Methods in the Civic Sphere	4
COMM 216	Journalism Law	4
COMM 220	Digital Media in Society	4
COMM 224	Lies, Trust, and Tech	4
COMM 225	Perspectives on American Journalism	4
COMM 231	Media Ethics and Responsibility	4
COMM 235	Deliberative Democracy and its Critics	3-5
COMM 237	The Dialogue of Democracy	4
COMM 242	Media Economics	4
COMM 243	Communication Policy and Regulation	4
COMM 245	Personality and Digital Media	4-5
COMM 251	The First Amendment: Freedom of Speech and Press	4
COMM 252	Constitutional Law	3

COMM 253	Political Campaigning in the Internet Age	3
COMM 254	The Politics of Algorithms	4
COMM 257	Information Control in Authoritarian Regimes	4
COMM 262	Campaigns, Voting, Media, and Elections	4
COMM 264	The Psychology of Communication About Politics in America	4
COMM 266	Virtual People	4
COMM 272	Media Psychology	4
COMM 277A	Computational Journalism	4
or COMM 277C	Specialized Writing and Reporting: Environmental and Food System Journalism	
or COMM 277D	Specialized Writing and Reporting: Narrative Journalism	
or COMM 277E	Specialized Writing and Reporting: Telling the Story	
or COMM 277I	Becoming a Watchdog: Law, Order & Algorithms	
or COMM 277S	Specialized Writing and Reporting: Sports Journalism	
or COMM 277Y	Specialized Writing and Reporting: Foreign Correspondence	
or COMM 271	Moving Pictures: Video Journalism for mobile and social platforms	
or COMM 275	Multimedia Storytelling: Reporting and Production Using Audio, Still Images, and Video	
or COMM 276	Advanced Digital Media Production	
COMM 324	Language and Technology	3-5
COMM 326	Advanced Topics in Human Virtual Representation	1-5

4. *The Media Studies M.A. Project:* students following the media studies track enroll in COMM 290 Media Studies M.A. Project to complete a project over two consecutive quarters that must be preapproved and supervised by the adviser. The completed M.A. project must be submitted to the adviser and an electronic copy to the Stanford Digital Repository (<https://sdr.stanford.edu>) no later than the last day of classes of the second consecutive quarter. Additional courses are chosen in consultation with an academic adviser.

## Doctor of Philosophy in Communication

University requirements for the Ph.D. are described in the "Graduate Degrees (p. 50)" section of this bulletin. The minimum number of academic units required for the Ph.D. at Stanford is 135, up to 45 of which can be transferred either from a master's degree at the University or from another accredited institution.

The department offers a Ph.D. in Communication, which focuses on theory and research. First-year students are required to complete introductory courses in communication theory and research, research methods, and statistics. These core courses, grounded in the social science literature, emphasize how people respond to media and how media institutions function. In addition, Ph.D. students must complete a minimum of three literature survey courses and related advanced seminars in Communication. Students also take significant course work outside the department in their area of interest. Each student builds a research specialty relating communication to current faculty interests in such areas as ethics, computational journalism, information processing, information technology, law, online communities, politics and voting, and virtual reality. Regardless of the area of specialization, the Ph.D. program is designed primarily for students interested in university research and teaching or other research or analyst positions.

Students must complete the following department requirements for the Ph.D. degree in Communication:

1. Complete all departmental course requirements listed below with grades of 'B+' or above, with the exception of STATS 160 ('B' minimum) and an advanced methods course ('B-' minimum). Required courses:

		Units
COMM 206	Communication Research Methods	4
COMM 208	Media Processes and Effects	4
COMM 301	Communication Research, Curriculum Development and Pedagogy	1
COMM 311	Theory of Communication	1-5
COMM 314	Ethnographic Methods	1-5
COMM 317	The Philosophy of Social Science	1-5
COMM 318	Quantitative Social Science Research Methods	1-5
STATS 160	Introduction to Statistical Methods: Precalculus	5

One advanced methods course.

2. Pass the general qualifying examinations by the end of the second academic year of study and pass a specialized area examination by the end of the fourth academic year of study.

3. Demonstrate proficiency in tools required in the area of research specialization. Identified with the advice of the faculty, such tools may include detailed theoretical knowledge, advanced statistical methods, a foreign language, computer programming, or other technical skills.

4. Complete at least two pre-dissertation research projects (the Major Project and the Minor Project) by the end of the student's 11th academic quarter.

5. Teach or assist in teaching at least two courses offered by the Department of Communication, preferably two different courses, at least one of which is ideally a core undergraduate course:

		Units
COMM 1	Introduction to Communication	5
COMM 1A		5
COMM 1B	Media, Culture, and Society	5
COMM 106	Communication Research Methods	5
COMM 108	Media Processes and Effects	5

6. Complete a dissertation proposal and proposal meeting approved by the dissertation committee.

7. Apply for candidacy by the end of the first week of the student's sixth quarter.

8. Complete a dissertation satisfactory to a reading committee of three or more faculty members in the Department of Communication and one faculty member outside of the Department of Communication.

9. Pass the University oral examination, which is a defense of the dissertation.

Because the multifaceted nature of the department makes it possible for the Ph.D. student to specialize in areas that draw on different related disciplines, the plan of study is individualized and developed between the faculty adviser and the student.

Ph.D. candidacy is valid for five years.

Additional information is available on the Ph.D. program page (<http://comm.stanford.edu/phd/rules>) of the department web site.

## Ph.D. Minor in Communication

Candidates for the Ph.D. degree in other departments who elect a minor in Communication are required to complete a minimum of 20 units of graduate courses in the Department of Communication, including a total

of three theory or research methods courses, and are examined by a representative of the department. A department adviser in consultation with the individual student determines the particular communication theory and methods courses.

## Joint Degree Program in Communication with the School of Law J.D./PH.D.

The Department of Communication and the School of Law offer a joint degree program leading to a J.D. combined with a Ph.D. in Communication.

The J.D./Ph.D. degree program offers students the opportunity to pursue academic, public policy, and private practice careers at the intersection of a variety of cutting edge debates in theory and policy, including: legal and normative First Amendment theories of speech and the press; media and communications economy and policy issues; questions of the relationship between citizens and the state, especially regarding mass surveillance and big data; and cultural and normative questions about the implications of the shift to the digital realm.

Students interested in the joint degree program must apply and gain entrance separately to the School of Law and the Communication Ph.D. program, and, as an additional step, must secure permission from both academic units to pursue degrees in those units as part of a joint degree program. Interest in the joint degree program should be noted on the student's admission applications and may be considered by the admission committee of each program. Alternatively, an enrolled student in either program may apply for admission to the other program and for joint degree status in both academic units after commencing study in either program.

Joint degree students may elect to begin their course of study in either the School of Law or the Communication Ph.D. program. Faculty advisers from each academic unit participate in the planning and supervising of the student's joint program. Students must be enrolled full time in the Law School for the first year of Law School, and are required to be enrolled full time for the first year of the Ph.D. program in Communication. At all other times, enrollment may be in either academic unit, and students may choose courses from either program regardless of where enrolled. Students must satisfy the requirements for both the J.D. and the Ph.D. degrees as specified in this bulletin or by the School of Law. The sequencing and schedules for individual joint degree students may vary substantially depending on the student's background and interests, and on the guidance of faculty advisers from both academic units.

No more than 54 quarter hours of approved courses may be counted toward both degrees, but no more than 36 quarter hours of courses that originate outside the Law School may count toward the Law degree. To the extent that courses under this joint degree program originate outside the Law School but count toward the Law degree, the Law School credits permitted under Section 17(1) of the Law School Regulations are reduced on a unit-per-unit basis, but not below zero. Students must complete 192 quarter units to complete both degrees.

Joint degree students are eligible for the same funding arrangements in both academic units, including scholarships and grants, as students who are not pursuing a joint degree plus one additional quarter of funding from the Communication Ph.D. Program.

*Emeriti:* (Professor) Theodore L. Glasser, Donald F. Roberts; (Professor, Teaching) Marion Lewenstein

*Chair:* Fred Turner

*Director, Doctoral Program in Communication:* Jeremy Bailenson

*Director, John S. Knight Journalism Fellowships:* Dawn E. Garcia

*Director, Journalism:* James T. Hamilton

*Director, Media Studies:* Byron Reeves

*Director, Undergraduate Studies:* James T. Hamilton

*Professors:* Jeremy Bailenson, James S. Fishkin, James T. Hamilton, Jeffrey T. Hancock, Shanto Iyengar, Jon Krosnick, Byron B. Reeves, Fred Turner

*Assistant Professors:* Angèle Christin, Gabriella Harari, Jennifer Pan

*Consulting Professor:* Philip Taubman

*Courtesy Professors:* Nathaniel Persily, Walter Powell

*Lorry I. Lokey Visiting Professor in Professional Journalism:* Dan Nguyen, Cheryl Phillips

*Hearst Professionals in Residence:* Geralyn Migielicz

*Carlos Kelly McClatchy Visiting Lecturer:* Janine Zacharia

*Lecturers:* Gary Pomerantz, James Wheaton

## Overseas Studies Courses in Communication

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		<b>Units</b>
OSPFLOR 49	On-Screen Battles: Filmic Portrayals of Fascism and World War II	5

# COMPARATIVE LITERATURE

Courses offered by the Department of Comparative Literature are listed under the subject code COMPLIT on the Stanford Bulletin's ExploreCourses web site.

The Department of Comparative Literature offers courses in the history and theory of literature through comparative approaches. The department accepts candidates for the degrees of Bachelor of Arts and Doctor of Philosophy. The department is a part of the Division of Literatures, Cultures, and Languages (p. 482).

The field of Comparative Literature provides students the opportunity to study imaginative literature in a wide array of contexts: historical, formal, theoretical, and more. While other literary disciplines focus on works of literature within national or linguistic traditions, Comparative Literature draws on multiple contexts in order to examine the nature of literary phenomena from around the globe and from different historical moments, while exploring how literature interacts with other elements of culture and society. We study fictional narratives, performance, and poetry as well as cinema, music, and emerging aesthetic media.

Along with the traditional models of comparative literature that compare two or more national literary cultures and examine literary phenomena in light of literary theory, the department encourages study of the relationship between literature and philosophy and the enrichment of literary study with other disciplinary methodologies. Comparative Literature also encourages the study of aspects of literature that overgo national boundaries, such as transnational literary movements or the creative adaptation of particular genres to local cultures. In each case, students emerge from the program with enhanced verbal and writing skills, a command of literary studies, the ability to read analytically and critically, and a more global knowledge of literature.

## Mission of the Undergraduate Program in Comparative Literature

The mission of the undergraduate program in Comparative Literature is to develop students' verbal and written communication skills, their ability to read analytically and critically, and their global knowledge of literary cultures and the specific properties of literary texts. The program provides students with the opportunity to study imaginative literature with several methods and a consciousness of methodology.

Along with providing core courses that introduce students to major literary phenomena in a comparative frame, our program of study accommodates the interests of students in areas such as specific geographic regions, historical periods, and interdisciplinary connections between literature and other fields such as philosophy, music, the visual arts, gender and queer theory, and race and ethnicity. A Comparative Literature major prepares a student as a reader and interpreter of literature through sophisticated examination of texts and the development of a critical vocabulary with which to discuss them. Attention to verbal expression and interpretive argument serves students who will proceed into careers requiring strong language and communication skills and cross-cultural knowledge of the world.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. the ability to interpret a literary text in a non-native language or to compare literary texts from different linguistic traditions, which may be read in translation.

2. a self-reflective understanding of the critical process necessary to read and understand texts.
3. skills in writing effectively about literature.
4. skills in oral communication and public speaking about literature.

## Graduate Programs in Comparative Literature

The department offers a Doctor of Philosophy and a Ph.D. minor in Comparative Literature.

## Learning Outcomes (Graduate)

Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to

1. make original contributions to the knowledge of Comparative Literature and to interpret and present the results of such research,
2. teach literary analysis and interpretation at all levels with broad historical, cultural and linguistic understanding, and
3. apply such analysis, interpretation and understanding to a range of fields and vocations.

## Bachelor of Arts in Comparative Literature

The major in Comparative Literature requires students to enroll in a set of core courses offered by the department, to complete electives in the department, and to enroll in additional literature courses, or other courses approved by the Chair of Undergraduate Studies, offered by other departments. This flexibility to combine literature courses from several departments and to address literature from multiple traditions is the hallmark of the Comparative Literature major. Students may count courses which read literature in translation; however, students, and especially those planning to pursue graduate study in Comparative Literature, are encouraged to develop a command of non-native languages.

## Declaring the Major

Students declare the major in Comparative Literature through Axess. Students should meet with the Chair of Undergraduate Studies to discuss appropriate courses and options within the major, and to plan the course of study. Majors are also urged to attend department events such as public talks and conferences.

## Advising

Upon declaring the major, each student is assigned an adviser by the Chair of Undergraduate Studies. Students should consult with their advisers at least once a quarter. While the chair monitors progress to completion of the degree, the adviser oversees the student's general intellectual development and offers advice about courses and projects. Students are also encouraged to develop relationships with other faculty members who may act as mentors.

## Overseas Campuses and Abroad Programs

The Department of Comparative Literature encourages time abroad, both for increased proficiency in language and the opportunity for advanced course work. Course work done at campuses other than Stanford is counted toward the major at the discretion of the Chair of Undergraduate Studies and is contingent upon the Office of the University Registrar's approval of transfer credit. To that end, students abroad are advised to save syllabi, notes, papers, and correspondence.

## Degree Requirements

All majors in Comparative Literature (including honors) are required to complete the following requirements. All courses applied to the major

must be taken for a letter grade, and a grade point average (GPA) of 2.0 or better must be achieved in each core course.

1. **COMPLIT 101 What Is Comparative Literature?** This gateway to the major is normally taken by the end of sophomore year. It provides an introduction to literature and its distinctions from other modes of linguistic expression, and a fundamental set of interpretive skills. This course fulfills the Writing in the Major requirement.
2. **Core Courses (5 units each)**  
Students should complete these courses as soon as possible. Each course draws on examples from multiple traditions to ask questions about the logic of the individual genres.

COMPLIT 121	Poems, Poetry, Worlds	5
COMPLIT 122	Literature as Performance	5
COMPLIT 123	The Novel and the World	5

3. **COMPLIT 199.** This senior seminar is designed as a culmination to the course of study while providing reflection on the nature of the discipline. Topics vary.
4. **Electives:** Majors must complete at least 40 units of electives. 15 of the 40 units must be COMPLIT courses. The remaining courses should form a coherent intellectual focus requiring approval from the Chair of Undergraduate Studies and may be drawn from Comparative Literature offerings, from other literature departments, or from other fields of interdisciplinary relevance. Up to 10 units of Thinking Matters or SLE courses may be counted towards the elective requirement. Electives are subject to adviser consultation and approval.
5. **Total unit load:** Students must complete course work for a total of at least 65 units.

## Philosophical and Literary Thought

Undergraduates may major in Comparative Literature and Philosophy. The Philosophy specification is not declared in Axxess and does not appear on either the transcript or the diploma. Students in this option take courses alongside students from other departments that also have specialized options associated with the program for the study of Philosophical and Literary Thought. Each student in this option is assigned an adviser in Comparative Literature, and student schedules and courses of study must be approved in writing by the adviser, the Chair of Undergraduate Studies of Comparative Literature, and the Chair of Undergraduate Studies of the program. See the Philosophy + Literature @ Stanford (<https://philil.stanford.edu/programs/philosophyandliterature.html>) web site.

A total of 65 units must be completed for this option, including the following requirements:

1. Seven courses taught by Comparative Literature faculty. Of the seven, the following five (5 units each) are required courses:

COMPLIT 101	What Is Comparative Literature?	5
COMPLIT 121	Poems, Poetry, Worlds	5
COMPLIT 122	Literature as Performance	5
COMPLIT 123	The Novel and the World	5

The remaining two courses must be instructed by Comparative Literature faculty and approved by the Chair of Undergraduate Studies. Up to five units of SLE may be counted in lieu of one of these two courses.

COMPLIT 199	Senior Seminar	5
-------------	----------------	---

2. **Philosophy and Literature Gateway Course (4 units):** COMPLIT 181 Philosophy and Literature. This course should be taken as early as possible in the student's career, normally in the sophomore year.

3. **Philosophy Writing in the Major (5 units):** PHIL 80 Mind, Matter, and Meaning. Prerequisite: introductory philosophy course.
4. **Aesthetics, Ethics, Political Philosophy (ca. 4 units):** One course from the PHIL 170 series.
5. **Language, Mind, Metaphysics, and Epistemology (ca. 4 units):** One course from the PHIL 180 series.
6. **History of Philosophy (ca. 8 units):** Two courses in the history of philosophy, numbered above PHIL 100. Up to five units of SLE may be counted in lieu of one of these two courses.
7. **Related Courses (ca. 8 units):** Two upper division courses relevant to the study of philosophy and literature as identified by the committee in charge of the program. A list of approved courses is available from the undergraduate adviser of the Program in Philosophical and Literary Thought.
8. One course, typically in translation, in a literature distant from that of the student's concentration and offering an outside perspective on that literary tradition.
9. **Capstone Seminar (ca. 4 units):** In addition to COMPLIT 199 Senior Seminar, students take a capstone seminar of relevance to philosophy and literature approved by the undergraduate adviser of the Program in Philosophical and Literary Thought. The student's choice of a capstone seminar must be approved in writing by the Chair of Undergraduate Studies of Comparative Literature and by the Chair of Undergraduate Studies of the program. Offered this year are:

		Units
ITALIAN 236E	Dante's "Purgatorio" and "Paradiso"	4-5
COMPLIT 223	Literature and Human Experimentation	3-5
PHIL 194W	Capstone Seminar: Literature and the Moral Imagination	4

1. **Seminar Paper Requirement:** Students must write at least one seminar paper that is interdisciplinary in nature. This paper brings together material from courses taken in philosophy and literature, and may be an honors paper (see below), an individual research paper (developed through independent work with a faculty member), or a paper integrating materials developed for two separate courses (by arrangement with the two instructors). Though it may draw on previous course work, the paper must be an original composition, 18-20 pages in length. It must be submitted to the Chair of Undergraduate Studies and receive approval no later than the end of Winter Quarter in the fourth year of study.

At least two of the courses counted toward requirements 1, 2, 7, 8, and 9 must be taught by Comparative Literature faculty. Transfer units may not normally be used to satisfy requirements 2, 3, 4, 5, 6 and 9. Units devoted to acquiring language proficiency are not counted toward the 65-unit requirement.

## Honors Program

Comparative Literature majors with an overall grade point average (GPA) of 3.3 or above, and who maintain a 3.5 (GPA) in major courses, are eligible to participate in the DLCL's honors program. Prospective honors students must choose a senior thesis adviser from among their home department's regular faculty, in their junior year, preferably by March 1, but no later than May 1. During Spring Quarter of the junior year, a student interested in the honors program should consult with the Chair of Undergraduate Studies of their home department to submit a thesis proposal (2-5 pages), DLCL Honors application and an outline of planned course work for their senior year.

Honors papers vary considerably in length as a function of their topic, historical scope, and methodology. They may make use of previous work developed in seminars and courses, but display an enhanced comparative or theoretical scope. Quality rather than quantity is the key criterion. Honors theses range from 40-90 pages not including

bibliography and notes. Please consult the DLCL Honors Handbook for more details on declaring and completing the honors thesis.

Honors students are encouraged to participate in the honors college hosted by Bing Honors College (<https://undergrad.stanford.edu/programs/bhc/about-bing-honors-college>) and coordinated by the Division of Literatures, Cultures, and Languages. The honors college is offered at the end of the summer, during the weeks directly preceding the start of the academic year, and is designed to help students develop their honors thesis projects. Applications must be submitted through the Bing program. For more information, view the Bing Honors (<https://undergrad.stanford.edu/programs/bhc/about-bing-honors-college>) website.

**Enrollment:** A minimum of 10 units total, described below, and a completed thesis is required. Honors essays are due to the thesis adviser no later than 5:00 p.m. on May 15th of the terminal year. If an essay is found deserving of a grade of 'A' or better by the thesis adviser, honors are granted at the time of graduation.

1. Spring Quarter of the junior year (optional): DLCL 189C Honors Thesis Seminar, 2-4 units S/NC, under the primary thesis adviser. Drafting or revision of the thesis proposal. The proposal is reviewed by the Chair of Undergraduate Studies and the Director of the department and will be approved or returned for submission.
2. Autumn Quarter of the senior year (required): DLCL 189A Honors Thesis Seminar, 4 units S/NC, taught by a DLCL appointed faculty member. Course focuses on researching and writing the honors thesis.
3. Winter Quarter of the senior year (required): DLCL 189B Honors Thesis Seminar, 2-4 units letter grade, under the primary thesis adviser. Focus is on writing under guidance of primary adviser. The letter grade will determine if honors is granted or not.
4. Spring quarter of the senior year (option; mandatory if not taken during junior year): DLCL 189C Honors Thesis Seminar, 2-4 units S/NC, under the primary thesis adviser. Honors essays are due to the thesis adviser and Student Service Officer no later than 5:00 p.m. on May 15th of the terminal year.
5. Spring Quarter of the senior year (required) DLCL 199 Honors Thesis Oral Presentation, 1 unit S/NC. Enroll with primary thesis adviser.

## Joint Major Program: Comparative Literature and Computer Science

The joint major program (JMP), authorized by the Academic Senate for a pilot period of six years beginning in 2014-15, permits students to major in both Computer Science and one of ten Humanities majors. See the "Joint Major Program (p. 31)" section of this bulletin for a description of University requirements for the JMP. See also the Undergraduate Advising and Research JMP web site and its associated FAQs.

Students completing the JMP receive a B.A.S. (Bachelor of Arts and Science).

Because the JMP is new and experimental, changes to procedures may occur; students are advised to check the relevant section of the bulletin periodically.

### Comparative Literature Major Requirements in the Joint Major Program

See the "Computer Science Joint Major Program (p. 278)" section of this bulletin for details on Computer Science requirements.

### Degree Requirements

All majors in Comparative Literature (including honors) are required to complete the following requirements. All courses applied to the major

must be taken for a letter grade, and a grade of 'C' or better must be achieved in each core course.

1. **COMPLIT 101** What is Comparative Literature?. This gateway to the major is normally taken by the end of sophomore year. It provides an introduction to literature and its distinctions from other modes of linguistic expression, and a fundamental set of interpretive skills. This course fulfills the Writing in the Major requirement.
2. **Core Courses (5 units each)**  
Students should complete these courses as soon as possible. Each course draws on examples from multiple traditions to ask questions about the logic of the individual genres.

		<b>Units</b>
COMPLIT 121	Poems, Poetry, Worlds	5
COMPLIT 122	Literature as Performance	5
COMPLIT 123	The Novel and the World	5

3. **COMPLIT 199 Senior Seminar:** This senior seminar is designed as a culmination to the course of study while providing reflection on the nature of the discipline. Topics vary.

4. **Capstone Project:** Senior year, the student enrolls in a 2-unit independent study DLCL 299 with a DLCL faculty member. The faculty member advising this project must sign off on this description. In order to have it approved as their capstone Comparative Literature and Computer Science project, the student must submit a description of the project to the Chair of Undergraduate Studies in Comparative Literature by May 15 of their junior year or no later than October 1 of their senior year.

5. **Electives:** Majors must complete at least 28 units of electives. 15 of the 28 units must be COMPLIT courses. The remaining courses should form a coherent intellectual focus requiring approval from the Chair of Undergraduate Studies and may be drawn from Comparative Literature offerings, from other literature departments, or from other fields of interdisciplinary relevance. Up to 10 units of Thinking Matters or SLE courses may be counted towards the elective requirement. Electives are subject to adviser consultation and approval.

### Declaring a Joint Major Program

To declare the joint major, students must first declare each major through Axess, and then submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) The Major-Minor and Multiple Major Course Approval Form (<https://stanford.box.com/MajMin-MultMaj>) is required for graduation for students with a joint major.

### Dropping a Joint Major Program

To drop the joint major, students must submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>). Students may also consult the Student Services Center (<http://studentservicescenter.stanford.edu>) with questions concerning dropping the joint major.

### Transcript and Diploma

Students completing a joint major graduate with a B.A.S. degree. The two majors are identified on one diploma separated by a hyphen. There will be a notation indicating that the student has completed a "Joint Major". The two majors are identified on the transcript with a notation indicating that the student has completed a "Joint Major".

### Minor in Comparative Literature

The undergraduate minor in Comparative Literature represents an abbreviated (22 unit minimum) version of the major. It is designed for students who are unable to pursue the major, but who nonetheless seek an opportunity to gain a deeper understanding of literature. Plans

for the minor should be discussed with the Chair of Undergraduate Studies. All courses must be taken for a letter grade. Up to 5 units of SLE or Independent Study may count towards one of the four additional Comparative Literature courses with approval from the Chair of Undergraduate Studies. Requirements for the minor in Comparative Literature include:

	<b>Units</b>
COMPLIT 101 What Is Comparative Literature?	5
Select one of the following:	5
COMPLIT 121 Poems, Poetry, Worlds	
COMPLIT 122 Literature as Performance	
COMPLIT 123 The Novel and the World	
At least four other Comparative Literature courses.	12-20

## Minor in Modern Languages

The Division of Literatures, Cultures, and Languages offers an undergraduate minor in Modern Languages. This minor draws on literature and language courses offered in this and other literature departments. See the "Literatures, Cultures, and Languages (p. 483)" section of this bulletin for requirements.

## Doctor of Philosophy in Comparative Literature

University requirements for the Ph.D. are described in the "Graduate Degrees (p. 50)" section of this bulletin.

The Ph.D. program is designed for students whose linguistic background, breadth of interest in literature, and curiosity about the problems of literary scholarship and theory (including the relation of literature to other disciplines) make this program more appropriate to their needs than the Ph.D. in one of the national literatures. Students take courses in at least three literatures (one may be that of the native language), to be studied in the original. The program is designed to encourage familiarity with the major approaches to literary study prevailing today.

Before starting graduate work at Stanford, students should have completed an undergraduate program with a strong background in one literature and some work in a second literature studied in the original language. Since the program demands an advanced knowledge of two non-native languages and a reading knowledge of a third non-native language, students should at the time of application have an advanced enough knowledge of one of the three to take graduate-level courses in that language when they enter the program. They should be making enough progress in the study of a second language to enable them to take graduate courses in that language not later than the beginning of the second year, and earlier if possible. Language courses at the 100- or 200- level may be taken with approval from the Director of the department or the Chair of Graduate Studies. Applicants are expected to take an intensive course in the third language before entrance.

Students are admitted under a financial plan that attempts to integrate financial support and completion of residence requirements with their training as prospective university teachers. Assuming satisfactory academic progress, fellowship support as a Ph.D. student is for five years.

### Application Procedures

Competition for entrance into the program is extremely keen. The program is kept small so that students have as much opportunity as possible to work closely with faculty throughout the period of study. Applicants should review all course and examination requirements, advancement requirements, and teaching obligations carefully before applying to the program. Because of the special nature of comparative

literary studies, the statement of purpose included in the application for admission must contain the following information:

1. A detailed description of the applicant's present degree of proficiency in each of the languages studied, indicating the languages in which the applicant is prepared to do graduate work at present and outlining plans to meet additional language requirements of the program.
2. A description of the applicant's area of interest (for instance, theoretical problems, genres, periods) within literary study and the reasons for finding comparative literature more suitable to his or her needs than the study of a single literature. Applicants should also indicate their most likely prospective primary field, including the literatures on which they intend to concentrate.
3. An explanation of how the applicant's undergraduate education has prepared her or him for work in our program. If there are any gaps in the applicant's preparation, a plan to address those gaps should be discussed.
4. The applicant's reasons for wishing to study in the department.
5. The results of the general section of the Graduate Record Examination. These results should be sent to Stanford University, ETS code 4704.
6. A letter of recommendation that focuses on the applicant's language skills, or a current ACTFL Oral Proficiency Interview (OPI) certificate, or a critical paper written in a non-native language.
7. Recommendations from faculty members in at least two of the literatures in which the student proposes to work, if possible.
8. An undergraduate term paper that the candidate considers to represent his or her best work, preferably demonstrating a comparative analysis.

For further information see the Graduate Admissions (<http://gradadmissions.stanford.edu>) web site.

### Degree Requirements

A candidate for the Ph.D. degree must complete three years (nine quarters) of full-time work, or the equivalent, in graduate study beyond the bachelor's degree. The student must take 135 units of graduate work and submit the doctoral dissertation. At least three consecutive quarters of course work must be taken at Stanford.

### Languages

Students must present three non-native languages, two of them sufficiently to qualify for graduate courses in these languages and the third sufficiently to demonstrate the ability to read a major author in this language. Two languages are certified by graduate-level course work specified below. Only the third language may be certified by examination. Language preparation must be sufficient to support graduate-level course work in at least one language during the first year and in the second language during the second year. Students must demonstrate a reading knowledge of the third non-native language no later than the beginning of the third year.

Literatures in the same language (such as Spanish and Spanish American) are counted as one. One of the student's three literatures usually is designated as the primary field, the other two as secondary fields, although some students may offer two literatures at the primary level (six or more graduate courses).

### Teaching

Whatever their sources of financial support, students are normally expected to undertake a total of five quarters of supervised apprenticeships and teaching at half time. Students must complete those pedagogy courses required by the departments in which they teach.

### Minimum Course Requirements

Students are advised that the range and depth of preparation necessary to support superior work on the dissertation, as well as demands in the

present professional marketplace for coverage of both traditional and interdisciplinary areas of knowledge, render these requirements as bare minimums. The following are required:

1. Required Courses:

COMPLIT 369	Introduction to the Profession of Literary Studies	1-2
DLCL 301	The Learning and Teaching of Second Languages	3

2. A sufficient number of courses (six or more) in the student's primary field to assure knowledge of the basic works in one national literature from its beginnings until the present.
3. At least two additional complementary courses, with most of the reading in the original, in each of two different national literatures. Students whose primary field is a non-native language are required to take two courses in one additional literature not their own.

Minimum course requirements must be completed before the student is scheduled to take the University oral examination. These requirements are kept to a minimum so that students have sufficient opportunity to seek out new areas of interest. A course is an offering of 3-5 units. Independent study may take the place of up to two of the required courses, but no more; no undergraduate courses may be counted toward the required 135 credits. Courses should be taken for letter grades when the option is available.

The principal conditions for continued registration of a graduate student are the timely and satisfactory completion of the university, department, and program requirements for the degree, and fulfillment of minimum progress requirements. Failure to meet these requirements results in corrective measures that may include a written warning, academic probation, and/or the possible release from the program.

### Dissertation Reading Committee

Every doctoral dissertation is read and approved by the three members of the student's doctoral dissertation reading committee. The doctoral dissertation reading committee consists of the principal dissertation adviser and, typically, two other readers. The doctoral dissertation reading committee must have no fewer than three and no more than five members. At least one member must be from the student's major department. Normally, all committee members are members of the Stanford University Academic Council or are emeritus Academic Council members. The student's department chair may, in some cases, approve the appointment of a reader who is not a current or emeritus member of the Academic Council, if that person is particularly well qualified to consult on the dissertation topic and holds a Ph.D. or equivalent degree. Former Stanford Academic Council members and non-Academic Council members may thus, on occasion, serve on a reading committee. A non-Academic Council member (including former Academic Council members) may replace only one of three required members of dissertation reading committees. If the reading committee has four or five members, at least three members (comprising the majority) must be current or emeritus members of the Academic Council.

### Examinations

Three examinations are required. The first two are one hour in duration. The first of these two is taken at the end of the student's first year of study, the second at the start of the second year. Students should meet with the members of the exam committee to discuss their plans. The first examination is on literary genre, designed to demonstrate the student's knowledge of a substantial number of literary works in a single genre, ranging over several centuries and over at least three national literatures. This exam is also designed to demonstrate the student's grasp of the theoretical problems involved in his or her choice of genre and in the matter of genre in general. The second of these examinations is on literary theory and criticism, designed to demonstrate the student's

knowledge of a particular problem in the history of literary theory and criticism, or the ability to develop a particular theoretical position. In either case, this exam should demonstrate wide reading in theoretical and critical texts from a variety of periods. The third and last is the University oral examination, which covers a literary period, to consist of in-depth knowledge of a period of about a century in three or more literatures with primary emphasis on a single national literature or, in occasional cases, two national literatures.

1. *First One-Hour Examination:* The genre exam is generally administered at the beginning of the spring quarter of the student's first year. All first-year students take the exam during the same period, with an examination committee established by the department. Exam lists should be approved by the Chair of Graduate Studies well in advance. Students are urged to focus on poetry, drama, or narrative (including the novel), combining core recommendations from the department with selections from their own areas of concentration. Any student who does not pass the exam has the opportunity to retake it prior to the end of the same spring quarter. Students who do not pass this exam a second time may be dismissed from the program.
2. *Second One-Hour Examination:* The theory exam is administered in the autumn quarter of the student's second year. All second-year students take the exam during the same period, with an examination committee established by the department. Exam lists should be approved by the Chair of Graduate Studies well in advance. Any student who does not pass the exam has the opportunity to retake the exam the second week of the winter quarter. Students who do not pass this exam a second time may be dismissed from the program.
3. *University Oral Examination:* Students are required to take this exam during the autumn quarter of their third year. The oral exam is individually scheduled, with a committee established by the student in consultation with the Chair of Graduate Studies. The reading list covers chiefly the major literary texts of a period of approximately one hundred years but may also include some studies of intellectual backgrounds and modern critical discussions of the period. Students must demonstrate a grasp of how to discuss and define this period as well as the concept of periods in general. This examination is to be not on the dissertation topic, on a single genre, or on current criticism, but rather on diverse works from the period. Students whose course work combines an ancient with a modern literature have the option of dividing the period sections into two wholly separate periods.

### Qualifying Procedures Candidacy

Admission to candidacy is an important decision by the department based on its overall assessment of a student's ability to successfully complete the Ph.D. program. According to University policy, students are expected to complete department qualifying procedures and apply for candidacy by the end of the second year in residence. In reviewing a student for admission to candidacy, the faculty considers a student's academic progress including but not limited to: advanced language proficiency, course work, performance on the qualifying (i.e. genre) examination, and successful completion of teaching and research assistantships. A student must also have completed at least 3 units of work with each of four Stanford faculty members before consideration for candidacy. In addition to successful completion of department prerequisites, a student is admitted to candidacy only if the faculty makes the judgment that the student has the potential to successfully complete the requirements of the degree program. Candidacy is determined by faculty vote. Failure to advance to candidacy results in the dismissal of the student from the doctoral program. Candidacy is valid for five years and students are required to maintain active candidacy through conferral of the doctoral degree. All requirements for the degree must be completed before candidacy expires. The department conducts regular reviews of each student's academic performance, both before and after successful admission to candidacy. Failure to make satisfactory progress to degree may result in dismissal from the doctoral program. Additional information about University

candidacy policy is available in the Bulletin (p. ) and GAP (<http://gap.stanford.edu/4-6.html>).

### Yearly Review

The faculty provide students with timely and constructive feedback on their progress toward the Ph.D. Yearly reviews provide a general assessment and identify developing problems that could impede progress. In most cases, students are simply given constructive feedback, but if more serious concerns warrant, a student may be placed on probation with specific guidelines for addressing the problems.

Possible outcomes of the yearly review include (1) continuation of the student in good standing, or (2) placing the student on probation, with specific guidelines for the period on probation and the steps to be taken in order to be returned to good standing. For students on probation at this point (or at any other subsequent points), possible outcomes of a review include: (1) restoration to good standing; (2) continued probation, again with guidelines for necessary remedial steps; or (3) termination from the program. Students leaving the program at the end of the first or second year are usually allowed to complete the requirements to receive an M.A. degree, if this does not involve additional residency or financial support.

### Prospectus Colloquium

The prospectus colloquium normally takes place during the spring of the third year. No later than one week before the colloquium, the student should furnish the committee with a prospectus of about ten pages, a twenty-page draft of a chapter, and a working bibliography of primary and secondary sources. The colloquium lasts one hour, begins with a brief introduction to the dissertation prospectus by the student lasting no more than ten minutes, and consists of a discussion of the prospectus by the student and the three readers of the dissertation. At the end of the hour, the faculty readers vote on the outcome. If the outcome is favorable by majority vote, the student is free to proceed with work on the dissertation. If the proposal is found to be unsatisfactory by majority vote, the dissertation readers may ask the student to revise and resubmit the dissertation prospectus and to schedule a second colloquium.

The prospectus must be prepared in close consultation with the dissertation adviser during the months preceding the colloquium. It should offer a synthetic overview of the dissertation, describe its methodology and the project's relation to past scholarship on the topic, and lay out a complete plan of the chapters.

It is the student's responsibility to arrange the colloquium no later than the first half of the next quarter after the student has passed the University oral examination. The student should set the date and time in consultation with the department administrator and with the three examiners. The department administrator schedules an appropriate room for the colloquium.

Members of the dissertation reading committee are normally drawn from the University oral examination committee.

## Ph.D. Minor in Comparative Literature

This minor is designed for students working toward the Ph.D. in the various national literature departments. Students working toward the Ph.D. in English are directed to the program in English and Comparative Literature described among the Department of English offerings. Students must have:

1. A knowledge of at least two non-native languages, one of them sufficient to qualify for graduate-level courses in that language, the second sufficient to read a major author in the original language.
2. A minimum of six graduate courses, of which three must be in the department of the second literature and three in the Department of Comparative Literature, the latter to include a seminar in literary theory or criticism. At least two of the three courses in comparative literature should originate in a department other than the one in

which the student is completing the degree. Except for students in the Asian languages, students must choose a second literature outside the department of their major literature.

## Faculty in Comparative Literature

*Emeriti:* (Professors) John Freccero, Hans U. Gumbrecht, Herbert Lindenberger, Elisabeth Mudimbe-Boyi, Mary Pratt

*Director:* Roland Greene

*Chair of Graduate Admissions:* Roland Greene

*Chair of Graduate Studies:* Roland Greene

*Chair of Undergraduate Studies:* Roland Greene (Autumn), Alexander Key (Winter, Spring)

*Professors:* Vincent Barletta (also Iberian and Latin American Cultures), John Bender (also English) (on leave Autumn), Russell Berman (also German Studies), Margaret Cohen (also English) (on leave), Adrian Daub (also German Studies), Amir Eshel (also German Studies), Roland Greene (also English), Joshua Landy (also French and Italian), David Palumbo-Liu, Patricia Parker (also English), Joan Ramon Resina (also Iberian and Latin American Cultures), José David Saldívar, Ramón Saldívar (also English), Ban Wang (also East Asian Languages and Cultures)

*Associate Professors:* Monika Greenleaf (also Slavic Languages and Literatures), Haiyan Lee (also East Asian Languages and Cultures), Indra Levy (also East Asian Languages and Cultures) (on leave)

*Assistant Professor:* Marie Huber (on leave Autumn, Winter), Alexander Key (on leave Autumn), Alvan Ikoku (also Medicine)

*Senior Lecturer:* Vered K. Shemtov

*Lecturers:* Petra Dierkes-Thrun, Burcu Karahan

*Courtesy Professor:* Nancy Ruttenburg

*Adjunct Professor:* Timothy J. Reiss (Autumn, Winter)

# COMPARATIVE STUDIES IN RACE AND ETHNICITY (CSRE)

The Undergraduate Program in Comparative Studies in Race and Ethnicity is home to five areas of study:

- Asian American Studies (courses listed as ASNAMST (<https://explorecourses.stanford.edu/search?q=ASNAMST&view=catalog&page=0&catalog=71&filter-term-Autumn=on&filter-term-Winter=on&filter-term-Spring=on&filter-term-Summer=on&filter-coursestatus-Active=on&collapse=&filter-catalognumber-ASNAMST=on&filter-catalognumber-ASNAMST=on>) on ExploreCourses)
- Chicana/o-Latina/o Studies (courses listed as CHILATST ([https://explorecourses.stanford.edu/search?q=CHILATST&view=catalog&page=0&catalog=71&filter-term-Autumn=on&filter-term-Winter=on&filter-term-Spring=on&filter-term-Summer=on&filter-coursestatus-Active=on&collapse=\)](https://explorecourses.stanford.edu/search?q=CHILATST&view=catalog&page=0&catalog=71&filter-term-Autumn=on&filter-term-Winter=on&filter-term-Spring=on&filter-term-Summer=on&filter-coursestatus-Active=on&collapse=))) on ExploreCourses)
- Comparative Studies (courses listed as CSRE (<https://explorecourses.stanford.edu/search?q=CSRE&view=catalog&page=0&catalog=71&filter-term-Autumn=on&filter-term-Winter=on&filter-term-Spring=on&filter-term-Summer=on&filter-coursestatus-Active=on&collapse=&filter-catalognumber-CSRE=on&filter-catalognumber-CSRE=on>) on ExploreCourses)
- Jewish Studies (courses listed as JEWISHST (<https://explorecourses.stanford.edu/search?q=JEWISHST&view=catalog&page=0&catalog=71&filter-term-Autumn=on&filter-term-Winter=on&filter-term-Spring=on&filter-term-Summer=on&filter-coursestatus-Active=on&collapse=&filter-catalognumber-JEWISHST=on&filter-catalognumber-JEWISHST=on>) on ExploreCourses)
- Native American Studies (courses listed as NATIVEAM (<https://explorecourses.stanford.edu/search?q=NATIVEAM&view=catalog&page=0&catalog=71&filter-term-Autumn=on&filter-term-Winter=on&filter-term-Spring=on&filter-term-Summer=on&filter-coursestatus-Active=on&collapse=&filter-catalognumber-NATIVEAM=on&filter-catalognumber-NATIVEAM=on>) on ExploreCourses)

Students can pursue a major or minor in any of these five areas, and are encouraged to build their interdisciplinary study around a focus or theme. Students can then select from more than 150 course options from across many departments and schools to put together a curriculum, in consultation with our staff and faculty. The major requires 60 units of study and a culminating research project (either a senior paper or honors thesis).

## Mission of the Undergraduate Program in Comparative Studies in Race and Ethnicity

The Interdepartmental Program in Comparative Studies in Race and Ethnicity (CSRE) is an interdisciplinary program offering students the opportunity to investigate the significance of race and ethnicity in all areas of human life.

Devoted to a rigorous analysis of race and ethnicity and using a comparative and interdisciplinary approach, CSRE promotes and deepens students' understanding of the multiple meanings of racial and ethnic diversity both in the United States and abroad. The program prepares students for living and working effectively in a multicultural, global society.

The interdisciplinary and integrated nature of the academic programs means that students take courses from across the university including: anthropology, art, communication, economics, education, history, languages, linguistics, literature, music, philosophy, political science, psychology, religion, sociology, theater and performance, among others.

## Learning Outcomes (Undergraduate)

The Program in Comparative Studies in Race and Ethnicity expects undergraduate majors in the program to be able to demonstrate the following learning outcomes:

1. an understanding of interdisciplinary approaches to the knowledge of experiences related to race and ethnicity in the United States;
2. an ability to employ diverse analytical resources and comparative modes of study as tools to frame and address research questions;
3. an ability to critically engage both primary and secondary sources, and properly use both types of evidence in crafting an argument;
4. an ability to actively and critically engage in verbal and/or written discussion of issues;
5. demonstration of analytical writing skills that convey their understanding of the topic;
6. an expanded ability to think critically about issues in political, social, scientific, economic, and cultural life stemming from the diversity of experiences related to race and ethnicity.

## Undergraduate Program in Comparative Studies in Race and Ethnicity

### Majors: Core Curriculum

The Interdepartmental Program in Comparative Studies in Race and Ethnicity (CSRE) provides students the opportunity to structure a major or minor in comparative ethnic studies or to focus their course work in a single ethnic studies area.

Five majors and minors (Asian American Studies, Chicana/o-Latina/o Studies, Comparative Studies, Jewish Studies, and Native American Studies) are offered as part of the Interdisciplinary Program (IDP) in CSRE. The directors of the program and of each major constitute the CSRE curriculum committee, the policy making body for the interdisciplinary program.

All comparative-core, major-core, and methodology courses taken for the major (or minor) must be taken for a letter grade, with an earned grade of 'C-' or above in order to be counted toward fulfilling the degree requirements.

Students who declare any of the five majors participate in a common curriculum consisting of at least two core courses, one of which must be CSRE 196C Introduction to Comparative Studies in Race and Ethnicity, a methodologies course, and a senior seminar. In addition, students must complete the Interdisciplinary Breadth Requirement, which requires students take one 3-5 unit course in the Social Sciences and one 3-5 unit course in the Arts & Humanities that explore race and ethnicity. These requirements illustrate how different disciplines approach the study and interpretation of race and ethnicity and provide a foundation for the student's interdisciplinary program of study.

There are two types of introductory courses taught by senior CSRE affiliated faculty:

- comparative-core courses that are interdisciplinary and compare how race and ethnicity have historically appeared across groups; and
- major-core courses that focus on a specific racial or ethnic group.

## Minors

Students who wish to minor in the study areas must complete a minimum of 30 units of letter-graded work, except where letter grades are not offered, from the approved course list, one of which must be CSRE 196C Introduction to Comparative Studies in Race and Ethnicity, and a second that is either a comparative-core course or major-core course relevant to the area of study. Proposals for the minor must be approved by the director of each study area.

## Directed Reading and Research

Directed reading and research allows students to focus on a special topic of interest. In organizing a reading or research plan, the student consults with the director of the major and one or more faculty members specializing in the area or discipline. Students who want to petition directed reading units to count toward a major or minor should see the guidelines in the requirements for their program of interest.

Courses that fulfill directed reading and research requirements:

	Units
ASNAMST 200R Directed Research	1-5
ASNAMST 200W Directed Reading	1-5
CHILATST 200R Directed Research	1-5
CHILATST 200W Directed Reading	1-5
CSRE 200R Directed Research	1-5
CSRE 200W Directed Reading	1-5
NATIVEAM 200R Directed Research	1-5
NATIVEAM 200W Directed Reading	1-5

## Senior Seminar

Research and writing of the senior honors thesis or senior paper is under the supervision of a faculty project adviser. All majors in the IDP in CSRE, even those who opt to write honors theses in other departments and programs, must enroll in CSRE 200X CSRE Senior Seminar, offered in Autumn Quarter. The course takes students through the process of researching an honors thesis, including conceptualization, development of prospectus, development of theses, research, analysis, and finally the process of drafting and writing. This course meets the Writing in the Major requirement (WIM). Those who opt to write senior papers are organized into tutorial groups in Autumn Quarter.

## Special Programs

CSRE majors have several unique opportunities available to them. The program offers students an opportunity for support of full-time paid summer research internships for those who apply to the Community Based Research Fellowship and complete a self-designed research project in collaboration with a community agency. The Public Policy Institute is a two week, pre-Autumn Quarter seminar that provides exposure to critical public policy issues. The residence-based institute provides room and board and all seminar materials for participants. CSRE also sponsors quarterly luncheons and community programs for all majors and minors, and has a number of service learning courses that couple academic work with work in communities.

## Murray House

Murray House, 566 Governor's Avenue, is an undergraduate residence with a CSRE focus that is devoted to developing an intellectual community among students interested in the study of race and ethnicity. Programs, including an in-house seminar, are developed with the guidance of CSRE faculty to increase the understanding of issues of race and ethnicity among its residents through social events and discussions. Students may apply for pre-assignment to Murray House to participate in the CSRE Focus. Contact Residential Education for more information.

Director: Anthony Antonio (Education)

Asian American Studies (AAS) provides an interdisciplinary approach to understanding the historical and current experiences of persons of Asian ancestry in the United States. In using the term Asian American, the AAS faculty recognize that the term seeks to name a rapidly developing, complex, and heterogeneous population and that there is neither a single Asian American identity nor one community that comprises all Asian Americans. Asian Americans include those with ancestral ties to countries or regions in East Asia, South Asia, Southeast Asia, or the Philippines, among others.

AAS brings together courses that address the artistic, historical, humanistic, political, and social dimensions of Asian Americans and is an appropriate course of study for students interested in a variety of concerns related to Asian Americans, including: artistic and cultural contributions; current social significance; historical experiences; immigration, intellectual, and policy issues; relationships with other social groups; and the construction of the notion of Asian American as it addresses important theoretical and practical issues.

## Requirements

1. A minimum grade of 'C-' is required for a student to count a class towards the Core, Major-Core Foundational, and Methods requirements. Additional units toward the major require a minimum 'D-' passing grade.
2. Comparative and Major-Core courses must be taken for the maximum units offered (4 or more) and for letter grade. Methods courses must be taken for a minimum of 3 units and for letter grade.
3. All majors, minors, and interdisciplinary honors students in the CSRE Family of Programs must take Introduction to Comparative Studies in Race and Ethnicity (CSRE 196C).
4. Students may count 2 classes with the Satisfactory/No Credit (SNC) grading basis toward Additional Units.
  - Courses in which Credit/No Credit (CR/NC) is the only grading basis option may always be counted toward the major.
5. All majors are required to take at least one Community Engaged Learning course which must be CSRE, race, and/or ethnicity related.
  - Students may petition courses from outside departments to count, so long as they meet the race and/or ethnicity related requirement.
6. Students may petition up to 5 units of Internship for Public Service (CSRE 198) to count toward the major or minor when the work completed relates directly to race, ethnicity, or area of study. CSRE 198, however, may be repeated multiple times for University credit and the 180 units required to graduate.
7. Students may petition up to 5 units of Directed Reading classes (CSRE 200W) to count toward the major or minor. CSRE related courses offered only as Directed Reading (such as Muwékma House Seminar or ASB Prep courses) may be counted without a petition.
  - a. Students must inform the student services coordinator and the Director of CSRE that they intend to petition a Directed Reading class to count toward their major before taking the class, and submit a petition for the class while they are in it.
  - b. A syllabus with a series of readings, including themes, set by the instructor and the student must be submitted with the petition.
  - c. The Directed Reading must include assignments that go beyond the readings, such as response papers, a final paper, and/or creative project.
  - d. Units earned must align with the University's Unit of Credit (p. 67) policy, i.e., 1 unit being equal to 3 hours/week of work. Meetings with the instructor of the Directed Reading may count up to one hour per unit of work per week.

- e. In general, students are discouraged from using Directed Reading units toward their major unit requirement. Petitions are evaluated and approved by the Program Director on a case-by-case basis.
8. Students may major in two CSRE programs; see the "Multiple Majors (p. 30)" section of this bulletin for University rules concerning multiple majors. Such students may not double count courses between programs, with the exception of the course used to fulfill the Methodology requirement. In order to fulfill the WIM requirement, students write two papers during Autumn Quarter of the senior year, enrolling in both CSRE 200X and CSRE 201X.

## Core Curriculum in Asian American Studies

Asian American majors must take the 15-unit CSRE core curriculum including Introduction to Comparative Studies in Race and Ethnicity (CSRE 196C), an additional comparative-core course, and a senior seminar taken in Autumn Quarter of the senior year. One major-core course that focuses on a non-Asian ethnic group may be counted toward the 15-unit core requirement.

		Units
ANTHRO 32	Theories in Race and Ethnicity: A Comparative Perspective	5
ASNAMST 295F	Race and Ethnicity in East Asia	4-5
CSRE 32	Theories in Race and Ethnicity: A Comparative Perspective	5
CSRE 148	Comparative Ethnic Conflict	4
CSRE 149	The Laboring of Diaspora & Border Literary Cultures	3-5
CSRE 196C	Introduction to Comparative Studies in Race and Ethnicity	5
CSRE 200X	CSRE Senior Seminar	5
CSRE 245	Understanding Racial and Ethnic Identity Development	3-5
CSRE 246	Constructing Race and Religion in America	4-5
CSRE 255D	Racial Identity in the American Imagination	4-5
CSRE 389A	Race, Ethnicity, and Language: Racial, Ethnic, and Linguistic Formations	3-5
HISTORY 64	Racial and Ethnic Diversity in Modern America	4-5
JEWISHST 106	Reflection on the Other: The Jew and the Arab in Literature	3-5
PSYCH 75	Introduction to Cultural Psychology	5

### 1. Major-Core Course

Majors are required to take one major-core course in Asian American Studies. Students who completed ENGLISH 43C/143C in a previous year may count this toward their foundational course requirement.

ASNAMST 146S/ COMPLIT 146/ CSRE 146S	(not offered 2017-18)	3-5
ASNAMST 155D	The Asian American Movement: A History of Activism	3-5
ASNAMST 186B	Asian American Art: 1850-Present	4

### 2. Area Study

Majors must complete an additional 35 units of course work from an approved list. One course must have an international dimension, preferably a focus on Asia. The remaining courses must have an Asian American focus and primarily be selected from social science and humanities departments.

### 3. Language Study (optional)

Students may obtain credit for their study of a related Asian language towards their degree. If students take 15 or more units of an advanced, second-year Asian language relevant to Asian American Studies, they may apply 5 of those units toward their Asian American Studies degree.

### 4. Research/Methodology Requirement

Majors are required to complete 3-5 units of course work focused on research methods relevant to their disciplinary approach as a student in Asian American Studies. Students select the research and/or methodology course in consultation with their faculty adviser.

### 5. Interdisciplinary Breadth Requirement

To fulfill the Interdisciplinary Breadth Requirement, students should take one 3-5 unit course from the Social Sciences and one 3-5 unit course from the Arts & Humanities that focus on race and ethnicity, especially if the courses are comparative.

### 6. Community Engaged Learning Requirement

All students in one of the CSRE majors are required to complete at least one service-learning experience. This requirement may be fulfilled by enrolling in a service-learning course, participating in an identity, race, or ethnicity focused service-learning Alternative Spring Break, participating in the Community Based Research Fellowship program, or enrolling in CSRE 198 Internship for Public Service while completing independent service work.

### 7. Senior Paper or Honors Thesis

All Asian American Studies majors complete a culminating research paper under the supervision of a faculty adviser. Honors students take CSRE 200X CSRE Senior Seminar, which fulfills the program's WIM requirement, and also enroll in CSRE 200Y CSRE Senior Honors Research and CSRE 200Z CSRE Senior Honors Research in Winter and Spring quarters to continue to access peer and faculty support as they write their theses. Senior Honors Research (CSRE 200Y and CSRE 200Z) courses cannot count for the 60 units towards the major but do count for the 180 units towards your bachelor's degree. Students must complete their theses with a minimum grade of 'B+' to receive honors in CSRE.

## Chicana/o-Latina/o Studies

Director: Guadalupe Valdés

Chicana/o-Latina/o Studies is an interdisciplinary major focusing on the U.S. population with origins in the countries of Mexico, Latin America, and/or South America. Students who major or minor in Chicana/o-Latina/o Studies have an opportunity to select from courses in the humanities, social sciences, and courses offered by affiliated faculty in the School of Education. The Chicana/o-Latina/o Studies program affords students an opportunity to explore the culture, society, economy, and politics of this important and growing segment of our national population.

### Units Bachelor of Arts in Chicana/o-Latina/o Studies

A total of 60 units of course work are required for the major.

1. A minimum grade of 'C-' is required for a student to count a class towards the Core, Major-Core Foundational, and Methods requirements. Additional units toward the major require a minimum 'D-' passing grade.
2. Comparative and Major-Core courses must be taken for the maximum units offered (4 or more) and for letter grade. Methods courses must be taken for a minimum of 3 units and for letter grade.

3. All majors, minors, and interdisciplinary honors students in the CSRE Family of Programs must take Introduction to Comparative Studies in Race and Ethnicity (CSRE 196C).
4. Students may count 2 classes with the Satisfactory/No Credit (SNC) grading basis toward Additional Units.
  - Courses in which Credit/No Credit (CR/NC) is the only grading basis option may always be counted toward the major.
5. All majors are required to take at least one Community Engaged Learning course which must be CSRE, race, and/or ethnicity related.
  - Students may petition courses from outside departments to count, so long as they meet the race and/or ethnicity related requirement.
6. Students may petition up to 5 units of Internship for Public Service (CSRE 198) to count toward the major or minor when the work completed relates directly to race, ethnicity, or area of study. CSRE 198, however, may be repeated multiple times for University credit and the 180 units required to graduate.
7. Students may petition up to 5 units of Directed Reading classes (CSRE 200W) to count toward the major or minor. CSRE related courses offered only as Directed Reading (such as Muwekma House Seminar or ASB Prep courses) may be counted without a petition.
  - a. Students must inform the student services coordinator and the Director of CSRE that they intend to petition a Directed Reading class to count toward their major before taking the class, and submit a petition for the class while they are in it.
  - b. A syllabus with a series of readings, including themes, set by the instructor and the student must be submitted with the petition.
  - c. The Directed Reading must include assignments that go beyond the readings, such as response papers, a final paper, and/or creative project.
  - d. Units earned must align with the University's Unit of Credit (p. 67) policy, i.e., 1 unit being equal to 3 hours/week of work. Meetings with the instructor of the Directed Reading may count up to one hour per unit of work per week.
  - e. In general, students are discouraged from using Directed Reading units toward their major unit requirement. Petitions are evaluated and approved by the Program Director on a case-by-case basis.
8. Students may major in two CSRE programs; see the "Multiple Majors (p. 30)" section of this bulletin for University rules concerning multiple majors. Such students may not double count courses between programs, with the exception of the course used to fulfill the Methodology requirement. In order to fulfill the WIM requirement, students write two papers during Autumn Quarter of the senior year, enrolling in both CSRE 200X and CSRE 201X.

## 1. Core Curriculum

Chicana/o-Latina/o Studies majors must take the 15-unit CSRE core curriculum including Introduction to Comparative Studies in Race and Ethnicity (CSRE 196C), an additional comparative-core course, and a senior seminar taken in Autumn Quarter of the senior year. One major-core course that focuses on a non-Latino origin group may be counted toward the 15-unit core requirement.

ANTHRO 32	Theories in Race and Ethnicity: A Comparative Perspective	5
ASNAMST 295F	Race and Ethnicity in East Asia	4-5
CSRE 32	Theories in Race and Ethnicity: A Comparative Perspective	5
CSRE 148	Comparative Ethnic Conflict	4
CSRE 149	The Laboring of Diaspora & Border Literary Cultures	3-5
CSRE 196C	Introduction to Comparative Studies in Race and Ethnicity	5
CSRE 200X	CSRE Senior Seminar	5

CSRE 245	Understanding Racial and Ethnic Identity Development	3-5
CSRE 246	Constructing Race and Religion in America	4-5
CSRE 255D	Racial Identity in the American Imagination	4-5
CSRE 389A	Race, Ethnicity, and Language: Racial, Ethnic, and Linguistic Formations	3-5
HISTORY 64	Racial and Ethnic Diversity in Modern America	4-5
JEWISHST 106	Reflection on the Other: The Jew and the Arab in 3-5 Literature	3-5
PSYCH 75	Introduction to Cultural Psychology	5

## 2. Major-Core Courses

Majors are required to take one foundational course in Chicana/o-Latina/o Studies. Students who completed CHICANST/SOC 166 in a previous year may count this toward their foundational course requirement.

		Units
CHILATST 180E	Introduction to Chicana/Latina Studies	5
CHILATST 171	Mexicans in the United States	5

## 3. Area Study

Majors must complete an additional 35 units of course work from an approved list. To fulfill the Interdisciplinary Breadth Requirement, students should take one 3-5 unit course from the Social Sciences and one 3-5 unit course from the Arts & Humanities that focus on race and ethnicity, especially if the courses are comparative. The remaining courses must have a Chicana/Latina focus and primarily be selected from social science and humanities departments.

## 4. Language Study (optional)

Students may obtain credit for the study of the Spanish language towards their degree. If students take 15 or more units of advanced, second-year Spanish language relevant to Chicana/o-Latina/o Studies, they may apply 5 of those units toward their Chicana/o-Latina/o Studies degree.

## 5. Research/Methodology Requirement

Majors are required to complete 3-5 units of course work focused on research methods relevant to their disciplinary approach as a student in Chicana/o-Latina/o Studies. Students select the research and/or methodology course in consultation with their faculty adviser.

## 6. Interdisciplinary Breadth Requirement

To fulfill the Interdisciplinary Breadth Requirement, students should take one 3-5 unit course from the Social Sciences and one 3-5 unit course from the Arts & Humanities that focus on race and ethnicity, especially if the courses are comparative.

## 7. Community Engaged Learning Requirement

All students in one of the CSRE majors are required to complete at least one service-learning experience. This requirement may be fulfilled by enrolling in a service-learning course, participating in an identity, race, or ethnicity focused service-learning Alternative Spring Break, participating in the Community Summer Research Internship program, or enrolling in CSRE 198 – Public Service Internship while completing independent service work.

## 8. Senior Paper or Honors Thesis

All Chicana/o-Latina/o Studies majors complete a culminating research paper under the supervision of a faculty adviser. Honors students take CSRE 200X CSRE Senior Seminar, which fulfills the program's WIM requirement, and also enroll in CSRE 200Y CSRE Senior Honors Research and CSRE 200Z CSRE Senior Honors Research, in Winter and Spring quarters to continue to access peer and faculty support as they write their theses. Senior Honors Research (CSRE 200Y and CSRE 200Z) courses cannot count for the 60 units towards your major but do count for the 180 units towards

your bachelor's degree. Students must complete their theses with a minimum grade of 'B+' to receive honors in CSRE.

## Comparative Studies in Race and Ethnicity

Director: Tomás Jiménez

Comparative Studies in Race and Ethnicity does not focus on a particular ethnic group. Rather, a student in consultation with the adviser designs a curriculum in relation to a thematic concentration that compares various ethnic groups or explores topics that cut across group experiences in the United States and elsewhere in the world. For example, students may compare groups within the U.S., or compare groups in the U.S. to ethnic groups elsewhere, or study the diaspora of a single group or the sovereignty of indigenous peoples within and across different national contexts. Students in this major are able to take advantage of courses in over 22 fields offered by the affiliated faculty of CSRE.

## Bachelor of Arts in Comparative Studies in Race and Ethnicity

A total of 60 units of course work are required for the major.

1. A minimum grade of 'C-' is required for a student to count a class towards the Core, Major-Core Foundational, and Methods requirements. Additional units toward the major require a minimum 'D-' passing grade.
2. Comparative and Major-Core courses must be taken for the maximum units offered (4 or more) and for letter grade. Methods courses must be taken for a minimum of 3 units and for letter grade.
3. All majors, minors, and interdisciplinary honors students in the CSRE Family of Programs must take Introduction to Comparative Studies in Race and Ethnicity (CSRE 196C).
4. Students may count 2 classes with the Satisfactory/No Credit (SNC) grading basis toward Additional Units.
  - Courses in which Credit/No Credit (CR/NC) is the only grading basis option may always be counted toward the major.
5. All majors are required to take at least one Community Engaged Learning course which must be CSRE, race, and/or ethnicity related.
  - Students may petition courses from outside departments to count, so long as they meet the race and/or ethnicity related requirement.
6. Students may petition up to 5 units of Internship for Public Service (CSRE 198) to count toward the major or minor when the work completed relates directly to race, ethnicity, or area of study. CSRE 198, however, may be repeated multiple times for University credit and the 180 units required to graduate.
7. Students may petition up to 5 units of Directed Reading classes (CSRE 200W) to count toward the major or minor. CSRE related courses offered only as Directed Reading (such as Muwekma House Seminar or ASB Prep courses) may be counted without a petition.
  - a. Students must inform the student services coordinator and the Director of CSRE that they intend to petition a Directed Reading class to count toward their major before taking the class, and submit a petition for the class while they are in it.
  - b. A syllabus with a series of readings, including themes, set by the instructor and the student must be submitted with the petition.
  - c. The Directed Reading must include assignments that go beyond the readings, such as response papers, a final paper, and/or creative project.
  - d. Units earned must align with the University's Unit of Credit (p. 67) policy, i.e., 1 unit being equal to 3 hours/week of work. Meetings with the instructor of the Directed Reading may count up to one hour per unit of work per week.

- e. In general, students are discouraged from using Directed Reading units toward their major unit requirement. Petitions are evaluated and approved by the Program Director on a case-by-case basis.
8. Students may major in two CSRE programs; see the "Multiple Majors (p. 30)" section of this bulletin for University rules concerning multiple majors. Such students may not double count courses between programs, with the exception of the course used to fulfill the Methodology requirement. In order to fulfill the WIM requirement, students write two papers during Autumn Quarter of the senior year, enrolling in both CSRE 200X and CSRE 201X.

In addition to the above rules, the following apply to CSRE majors:

1. Majors may petition to have up to 8 units of special language or advanced (i.e., at least at the second year level) reading and writing language courses count toward their degree. The courses may not be crosslisted with CSRE subjects (e.g., some advanced language courses).
  - a. Students must take a full year of a language course in order to be able to submit a petition.
  - b. Students may count a maximum of 5 units of a language toward the major.
  - c. Students may submit an additional petition to count up to 3 units of a second special language or advanced language course toward the major, but the student must also have taken the sequence associated with the second language for a full-year.
2. Concentrations within the CSRE Major should follow the general guideline of having approximately 20 units (typically 4 to 5 classes) that are related to the study and exploration of the students' chosen concentration.
3. EDUC 199A Undergraduate Honors Seminar counts as a WIM course for CSRE students doing Honors in Education.
4. **Core Curriculum**

All CSRE majors enroll in the 15-unit core curriculum, which consists of Introduction to Comparative Studies in Race and Ethnicity (CSRE 196C), an additional comparative-core course, and a senior seminar taken in Autumn Quarter of the senior year. One major-core course may be counted toward the 15-unit core requirement.

		Units
ANTHRO 32	Theories in Race and Ethnicity: A Comparative Perspective	5
ASNAMST 295F	Race and Ethnicity in East Asia	4-5
CSRE 32	Theories in Race and Ethnicity: A Comparative Perspective	5
CSRE 148	Comparative Ethnic Conflict	4
CSRE 149	The Laboring of Diaspora & Border Literary Cultures	3-5
CSRE 196C	Introduction to Comparative Studies in Race and Ethnicity	5
CSRE 200X	CSRE Senior Seminar	5
CSRE 245	Understanding Racial and Ethnic Identity Development	3-5
CSRE 246	Constructing Race and Religion in America	4-5
CSRE 255D	Racial Identity in the American Imagination	4-5
CSRE 389A	Race, Ethnicity, and Language: Racial, Ethnic, and Linguistic Formations	3-5

JEWISHST 106	Reflection on the Other: The Jew and the Arab in Jewish Literature	3-5
PSYCH 75	Introduction to Cultural Psychology	5

## 5. Thematic Concentration

Comparative Studies majors complete another 40 units of course work toward the major, with approximately 20 units relevant to the thematic concentration (p. 466) they have chosen.

## 6. Research/Methodology Requirement

Majors are required to complete 3-5 units of coursework focused on research methods relevant to their disciplinary approach as a student in Comparative Studies in Race & Ethnicity. Students select the research and/or methodology course in consultation with their faculty adviser.

## 7. Interdisciplinary Breadth Requirement

To fulfill the Interdisciplinary Breadth Requirement, students should take one 3-5 unit course from the Social Sciences and one 3-5 unit course from the Arts & Humanities that focus on race and ethnicity, especially if the courses are comparative.

## 8. Community Engaged Learning Requirement

All students in one of the CSRE majors are required to complete at least one service-learning experience. This requirement may be fulfilled by enrolling in a service-learning course, participating in an identity, race, or ethnicity focused service-learning Alternative Spring Break, participating in the Community Summer Research Internship program, or enrolling in CSRE 198 – Public Service Internship while completing independent service work.

## 9. Senior Paper or Honors Thesis

All CSRE majors complete a culminating research paper under the supervision of a faculty adviser. Honors students take CSRE 200X CSRE Senior Seminar, which fulfills the program's WIM requirement, and also enroll in CSRE 200Y CSRE Senior Honors Research and CSRE 200Z CSRE Senior Honors Research, in Winter and Spring quarters to continue to access peer and faculty support as they write their theses. Senior Honors Research (CSRE 200Y and CSRE 200Z) courses cannot count for the 60 units towards your major but do count for the 180 units towards your bachelor's degree. Students must complete their theses with a minimum grade of 'B+' to receive honors in CSRE.

## Jewish Studies

*Interim Director:* Ari Y. Kelman

The Jewish Studies major provides students with an understanding of Jewish history, language, literature, religion, thought and politics. Jewish culture originated in the ancient Near East and continues today in many different forms across the globe. Drawing from the Humanities, the Social Sciences and from courses offered by affiliated faculty in the School of Education, the Jewish Studies major seeks to help students understand Jewish identity, thought and self-expression within larger historical and social contexts, and to develop their ability to analyze human experience from different disciplinary perspectives.

In addition to the undergraduate major and minor offered through the interdepartmental program in CSRE, the Taube Center for Jewish Studies offers a full range of guest lectures, conferences, and symposia. Graduate students interested in Jewish Studies should see the separate Jewish Studies (p. 631) section of this bulletin for program information, opportunities, and additional course descriptions.

## Bachelor of Arts in Jewish Studies

A total of 60 units of course work are required for the major.

1. A minimum grade of 'C-' is required for a student to count a class towards the Core, Major-Core Foundational, and Methods requirements. Additional units toward the major require a minimum 'D-' passing grade.

2. Comparative and Major-Core courses must be taken for the maximum units offered (4 or more) and for letter grade. Methods courses must be taken for a minimum of 3 units and for letter grade.
3. All majors, minors, and interdisciplinary honors students in the CSRE Family of Programs must take Introduction to Comparative Studies in Race and Ethnicity (CSRE 196C).
4. Students may count 2 classes with the Satisfactory/No Credit (SNC) grading basis toward Additional Units.
  - Courses in which Credit/No Credit (CR/NC) is the only grading basis option may always be counted toward the major.
5. All majors are required to take at least one Community Engaged Learning course which must be CSRE, race, and/or ethnicity related.
  - Students may petition courses from outside departments to count, so long as they meet the race and/or ethnicity related requirement.
6. Students may petition up to 5 units of Internship for Public Service (CSRE 198) to count toward the major or minor when the work completed relates directly to race, ethnicity, or area of study. CSRE 198, however, may be repeated multiple times for University credit and the 180 units required to graduate.
7. Students may petition up to 5 units of Directed Reading classes (CSRE 200W) to count toward the major or minor. CSRE related courses offered only as Directed Reading (such as Muwekma House Seminar or ASB Prep courses) may be counted without a petition.
  - a. Students must inform the student services coordinator and the Director of CSRE that they intend to petition a Directed Reading class to count toward their major before taking the class, and submit a petition for the class while they are in it.
  - b. A syllabus with a series of readings, including themes, set by the instructor and the student must be submitted with the petition.
  - c. The Directed Reading must include assignments that go beyond the readings, such as response papers, a final paper, and/or creative project.
  - d. Units earned must align with the University's Unit of Credit (p. 67) policy, i.e., 1 unit being equal to 3 hours/week of work. Meetings with the instructor of the Directed Reading may count up to one hour per unit of work per week.
  - e. In general, students are discouraged from using Directed Reading units toward their major unit requirement. Petitions are evaluated and approved by the Program Director on a case-by-case basis.
8. Students may major in two CSRE programs; see the "Multiple Majors (p. 30)" section of this bulletin for University rules concerning multiple majors. Such students may not double count courses between programs, with the exception of the course used to fulfill the Methodology requirement. In order to fulfill the WIM requirement, students write two papers during Autumn Quarter of the senior year, enrolling in both CSRE 200X and CSRE 201X.

## 1. Core Curriculum

Jewish Studies majors must take the 15-unit CSRE core curriculum including Introduction to Comparative Studies in Race and Ethnicity (CSRE 196C), an additional comparative-core course, and a senior seminar taken in Autumn Quarter of the senior year.

		Units
ANTHRO 32	Theories in Race and Ethnicity: A Comparative Perspective	5
ASNAMST 295F	Race and Ethnicity in East Asia	4-5
CSRE 32	Theories in Race and Ethnicity: A Comparative Perspective	5
CSRE 148	Comparative Ethnic Conflict	4
CSRE 149	The Laboring of Diaspora & Border Literary Cultures	3-5
CSRE 196C	Introduction to Comparative Studies in Race and Ethnicity	5

CSRE 200X	CSRE Senior Seminar	5
CSRE 245	Understanding Racial and Ethnic Identity Development	3-5
CSRE 246	Constructing Race and Religion in America	4-5
CSRE 255D	Racial Identity in the American Imagination	4-5
CSRE 389A	Race, Ethnicity, and Language: Racial, Ethnic, and Linguistic Formations	3-5
HISTORY 64	Racial and Ethnic Diversity in Modern America	4-5
JEWISHST 106	Reflection on the Other: The Jew and the Arab in 3-5 Literature	3-5
PSYCH 75	Introduction to Cultural Psychology	5

CSRE 200Z) courses cannot count for the 60 units towards your major but do count for the 180 units towards your bachelor's degree. Students must complete their theses with a minimum grade of 'B+' to receive honors in CSRE.

## Native American Studies

Director: Teresa LaFromboise

Native American Studies (NAS) provides an intensive approach to understanding the historical and contemporary experiences of Native American people. Attention is paid not only to the special relationship between tribes and the federal government, but to issues across national boundaries, including tribal nations within Canada, and North, Central, and South America. In using the term Native American, the NAS faculty recognize the heterogeneous nature of this population. Native Americans include the Alaska Native population, which comprises Aleuts, Eskimo, and other Native American people residing in Alaska, as well as Native Hawaiian communities.

The purpose of the Native American Studies major and minor is to introduce students to approaches in the academic study of Native American people, history, and culture. Students who major in Native American Studies have the opportunity of doing advanced work in related fields, including literature, sociology, education, and law. In addition to specialized course work on Native American issues, students also are expected to concentrate in a traditional discipline such as anthropology, history, or psychology to ensure a well rounded educational experience. The area of concentration and related course work should be chosen in consultation with a faculty adviser in Native American Studies. All courses in the program promote the discussion of how academic knowledge about Native Americans relates to the historical and contemporary experiences of Native American people and communities.

## Bachelor of Arts in Native American Studies

A total of 60 units of course work are required for the major.

1. A minimum grade of 'C-' is required for a student to count a class towards the Core, Major-Core Foundational, and Methods requirements. Additional units toward the major require a minimum 'D-' passing grade.
2. Comparative and Major-Core courses must be taken for the maximum units offered (4 or more) and for letter grade. Methods courses must be taken for a minimum of 3 units and for letter grade.
3. All majors, minors, and interdisciplinary honors students in the CSRE Family of Programs must take Introduction to Comparative Studies in Race and Ethnicity (CSRE 196C).
4. Students may count 2 classes with the Satisfactory/No Credit (SNC) grading basis toward Additional Units.
  - Courses in which Credit/No Credit (CR/NC) is the only grading basis option may always be counted toward the major.
5. All majors are required to take at least one Community Engaged Learning course which must be CSRE, race, and/or ethnicity related.
  - Students may petition courses from outside departments to count, so long as they meet the race and/or ethnicity related requirement.
6. Students may petition up to 5 units of Internship for Public Service (CSRE 198) to count toward the major or minor when the work completed relates directly to race, ethnicity, or area of study. CSRE 198, however, may be repeated multiple times for University credit and the 180 units required to graduate.
7. Students may petition up to 5 units of Directed Reading classes (CSRE 200W) to count toward the major or minor. CSRE related courses offered only as Directed Reading (such as Muwékma House Seminar or ASB Prep courses) may be counted without a petition.

### 2. Major-Core Courses

Majors are required to take one major-core course in Jewish Studies. Courses include:

JEWISHST 183	The Holocaust	4-5
JEWISHST 185B	Jews in the Contemporary World: Faith and Ethnicity, Vulnerability and Visibility	4-5

### 3. Area Study

Jewish Studies majors complete at least 15 units of courses that focus on Jewish history, issues, and identity. To fulfill the Interdisciplinary Breadth Requirement, students should take one 3-5 unit course from the Social Sciences and one 3-5 unit course from the Arts & Humanities that focus on race and ethnicity, especially if the courses are comparative. The remaining courses must have an Jewish Studies focus and primarily be selected from social science and humanities departments.

### 4. Language

One year of Hebrew or another approved Jewish language. Students able to satisfy the first year Hebrew requirement through a proficiency exam are still expected to take an additional year of Hebrew at a higher level or a first year in an additional Jewish language. A maximum of 15 units of language may be counted toward the 60 unit total required for the major.

### 5. Research/Methodology Requirement

Majors are required to complete 3-5 units of coursework focused on research methods relevant to their disciplinary approach as a student in Jewish Studies. Students select the methodology course(s) in consultation with their faculty adviser.

### 6. Interdisciplinary Breadth Requirement

To fulfill the Interdisciplinary Breadth Requirement, students should take one 3-5 unit course from the Social Sciences and one 3-5 unit course from the Arts & Humanities that focus on race and ethnicity, especially if the courses are comparative.

### 7. Community Engaged Learning Requirement

All students in one of the CSRE majors are required to complete at least one service-learning experience. This requirement may be fulfilled by enrolling in a service-learning course, participating in an identity, race, or ethnicity focused service-learning Alternative Spring Break, participating in the Community Summer Research Internship program, or enrolling in CSRE 198 – Public Service Internship while completing independent service work.

### 8. Senior Paper or Honors Thesis

All Jewish Studies majors complete a culminating research paper under the supervision of a faculty adviser. Honors students take CSRE 200X CSRE Senior Seminar, which fulfills the program's WIM requirement, and also enroll in CSRE 200Y CSRE Senior Honors Research and CSRE 200Z CSRE Senior Honors Research, in Winter and Spring quarters to continue to access peer and faculty support as they write their theses. Senior Honors Research (CSRE 200Y and

- a. Students must inform the student services coordinator and the Director of CSRE that they intend to petition a Directed Reading class to count toward their major before taking the class, and submit a petition for the class while they are in it.
  - b. A syllabus with a series of readings, including themes, set by the instructor and the student must be submitted with the petition.
  - c. The Directed Reading must include assignments that go beyond the readings, such as response papers, a final paper, and/or creative project.
  - d. Units earned must align with the University's Unit of Credit (p. 67) policy, i.e., 1 unit being equal to 3 hours/week of work. Meetings with the instructor of the Directed Reading may count up to one hour per unit of work per week.
  - e. In general, students are discouraged from using Directed Reading units toward their major unit requirement. Petitions are evaluated and approved by the Program Director on a case-by-case basis.
8. Students may major in two CSRE programs; see the "Multiple Majors (p. 30)" section of this bulletin for University rules concerning multiple majors. Such students may not double count courses between programs, with the exception of the course used to fulfill the Methodology requirement. In order to fulfill the WIM requirement, students write two papers during Autumn Quarter of the senior year, enrolling in both CSRE 200X and CSRE 201X.

## 1. Core Curriculum

Native American Studies majors must take the 15-unit CSRE core curriculum, including Introduction to Comparative Studies in Race and Ethnicity (CSRE 196C), an additional comparative-core course, and a senior seminar taken in Autumn Quarter of the senior year. One major-core course that focuses on a non-Native American group may be counted toward the 15-unit core requirement.

ANTHRO 32	Theories in Race and Ethnicity: A Comparative Perspective	5
ASNAMST 295F	Race and Ethnicity in East Asia	4-5
CSRE 32	Theories in Race and Ethnicity: A Comparative Perspective	5
CSRE 148	Comparative Ethnic Conflict	4
CSRE 149	The Laboring of Diaspora & Border Literary Cultures	3-5
CSRE 196C	Introduction to Comparative Studies in Race and Ethnicity	5
CSRE 200X	CSRE Senior Seminar	5
CSRE 245	Understanding Racial and Ethnic Identity Development	3-5
CSRE 246	Constructing Race and Religion in America	4-5
CSRE 255D	Racial Identity in the American Imagination	4-5
CSRE 389A	Race, Ethnicity, and Language: Racial, Ethnic, and Linguistic Formations	3-5
HISTORY 64	Racial and Ethnic Diversity in Modern America	4-5
JEWISHST 106	Reflection on the Other: The Jew and the Arab in Literature	3-5
PSYCH 75	Introduction to Cultural Psychology	5

## 2. Major-Core Courses

Majors are required to take one major-core course in Native American Studies.

Select one of the following:

NATIVEAM 138	American Indians in Comparative Historical Perspective	4
NATIVEAM 139	American Indians in Contemporary Society	4

NATIVEAM 115	Introduction to Native American History	5
NATIVEAM 16	Native Americans in the 21st Century: Encounters, Identity, and Sovereignty in Contemporary America	5

## 3. Area Study

Majors complete an additional 38-41 units of course work that satisfy three categories in their area of study: Native American focus, Interdisciplinary Breadth Requirement, and a methodology/research course.

## 4. Language Study (optional)

Students may obtain credit for their study of a related native language towards their degree. If students take 15 or more units of an advanced, second-year native language, or first year special language course relevant to Native American Studies, they may apply 5 of those units toward their Native American Studies degree.

## 5. Research/Methodology Requirement

Majors are required to complete 3-5 units of coursework focused on research methods relevant to their disciplinary approach as a student in Native American Studies. Students select the research and/or methodology course in consultation with their faculty adviser.

## 6. Interdisciplinary Breadth Requirement

To fulfill the Interdisciplinary Breadth Requirement, students should take one 3-5 unit course from the Social Sciences and one 3-5 unit course from the Arts & Humanities that focus on race and ethnicity, especially if the courses are comparative.

## 7. Community Engaged Learning Requirement

All students in one of the CSRE majors are required to complete at least one service-learning experience. This requirement may be fulfilled by enrolling in a service-learning course, participating in an identity, race, or ethnicity focused service-learning Alternative Spring Break, participating in the Community Summer Research Internship program, or enrolling in CSRE 198 – Public Service Internship while completing independent service work.

## 8. Senior Paper or Honors Thesis

All Native American Studies majors complete a culminating research paper under the supervision of a faculty adviser. Honors students take CSRE 200X CSRE Senior Seminar, which fulfills the program's WIM requirement, and also enroll in CSRE 200Y CSRE Senior Honors Research and CSRE 200Z CSRE Senior Honors Research, in Winter and Spring quarters to continue to access peer and faculty support as they write their theses. Senior Honors Research (CSRE 200Y and CSRE 200Z) courses cannot count for the 60 units towards your major but do count for the 180 units towards your bachelor's degree. Students must complete their theses with a minimum grade of 'B+' to receive honors in CSRE.

Units

Units

## Thematic Concentration in American Diversity

The American Diversity concentration is designed for students who wish to explore how the United States was and is constituted with relation to issues of race and ethnicity. The concentration investigates how American domestic and foreign policy, law, history, culture, and society are formed within conversations, debates, policies and studies regarding race and ethnicity. Issues of immigration, citizenship, empire and expansion, defense, diplomacy, human rights, public welfare, social justice and law, educational rights and other topics are explored from the angle of how racial and ethnic difference impacts debate and policy.

The concentration is not declared on Axxess; it does not appear on the transcript or diploma. Students interested in the American Diversity

thematic concentration should contact the CSRE undergraduate program office.

The American Diversity concentration requires 15 units including two approved CSRE core courses and CSRE 200X CSRE Senior Seminar (WIM), taken Autumn Quarter of the senior year. One foundational course may be counted toward the 15 unit core requirement. In addition to the core curriculum, students complete a Research/Methodology requirement (5 units). The remaining 40 units of course work should be relevant to the thematic concentration and selected in consultation with the faculty adviser.

Students may find the following courses useful in fulfilling requirements in the American Diversity thematic concentration.

		Units
AMSTUD 183	Re- Imagining American Borders	5
COMPLIT 149	The Laboring of Diaspora & Border Literary Cultures	3-5
CSRE 14N	Growing Up Bilingual	3
CSRE 45Q	Understanding Race and Ethnicity in American Society	4
CSRE 108	Introduction to Feminist, Gender, and Sexuality Studies	4-5
CSRE 125V	The Voting Rights Act	5
CSRE 127A	Can't Stop Won't Stop: A History Of The Hip-Hop Arts	2-4
CSRE 149	The Laboring of Diaspora & Border Literary Cultures	3-5
CSRE 150	Race and Political Sociology	3
CSRE 164	Immigration and the Changing United States	4
CSRE 201B	Making Meaning: Art, Culture & Social Change	3
EDUC 114N	Growing Up Bilingual	3
EDUC 201	History of Education in the United States	3-5
HISTORY 50B	Nineteenth Century America	3
HISTORY 150C	The United States in the Twentieth Century	5
HISTORY 166B	Immigration Debates in America, Past and Present	3-5
POLISCI 120B	Campaigns, Voting, Media, and Elections	4-5
POLISCI 125V	The Voting Rights Act	5
POLISCI 327	Minority Behavior and Representation	5
SOC 135	Poverty, Inequality, and Social Policy in the United States	4
SOC 140	Introduction to Social Stratification	3
SOC 150	Race and Political Sociology	3
SOC 155	The Changing American Family	4
SOC 164	Immigration and the Changing United States	4

## Thematic Concentration in Education, Access, and Equity

The concentration in Education, Access, and Equity explores history, policy, and practice in education to understand how educational opportunity is shaped by issues of race, ethnicity, and difference. The goal of the concentration is to develop an understanding of the core issues facing educators and policy makers so that students may learn how they can contribute to the social and political discourse surrounding issues of education and opportunity policy in the U.S.

The concentration is not declared on Axess; it does not appear on the transcript or diploma. Students interested in the Education, Access, and Equity concentration should contact the CSRE undergraduate program office.

The Education, Access, and Equity concentration requires 15 units including two approved CSRE core courses and CSRE 200X CSRE Senior Seminar (WIM), taken Autumn Quarter of the senior year. One foundational course may be counted toward the 15 unit core requirement. In addition to the core curriculum, students complete a Research/Methodology requirement (5 units). The remaining 40 units of course work should be relevant to the thematic concentration and selected in consultation with the faculty adviser.

Students may find the following courses useful in fulfilling requirements in the Education, Access, and Equity thematic concentration.

		Units
AFRICAAM 112	Urban Education	3-5
AFRICAST 111	Education for All? The Global and Local in Public Policy Making in Africa	3-5
CSRE 11W	Service-Learning Workshop on Issues of Education Equity	1
CSRE 121X	Hip Hop, Youth Identities, and the Politics of Language	3-4

LINGUIST 65	African American Vernacular English	3-5
SOC 132	Sociology of Education: The Social Organization of Schools	4

## Thematic Concentration in Identity, Diversity and Aesthetics (IDA)

Students in the Comparative Studies in Race and Ethnicity major can choose a concentration in Identity, Diversity and Aesthetics (IDA). The Identity, Diversity, and Aesthetics Concentration in Comparative Studies in Race & Ethnicity is a program designed to explore the intersections of culture, race, the arts, and social transformation. In IDA courses taught by Stanford faculty, lecturers, and distinguished Visiting Artists, students learn how the arts, activism, and the academy interact to produce aesthetic and societal change.

The concentration is not declared in Axess; it does not appear on the transcript or diploma. Students interested in IDA should contact the CSRE undergraduate program office.

The IDA concentration requires 15 units including two approved CSRE core courses and CSRE 200X CSRE Senior Seminar (WIM), taken Autumn

Quarter of the senior year. One foundational course may be counted toward the 15 unit core requirement. CSRE majors are also required to take a course in research methods (5 units). In addition to the core curriculum, students complete 40 units of course work relevant to the thematic concentration. Thematic courses may focus on artistic practice and performance, art history, creative writing, community arts, art and social change, writing for performance, critical studies in art and performance, and critical arts theory.

Additionally, IDA concentration students must complete a creative senior project. Possible senior projects include a stage production, a set of recorded music, an anthology of creative writing, a curated or solo exhibition, or a community arts workshop. Students who elect to write an honors thesis may incorporate their project as the basis for their thesis.

Students may find the following courses useful in fulfilling requirements in the Identity, Diversity and Aesthetics (IDA) concentration.

		Units			
AFRICAAM 3E	Michelle Obama in American Culture	1	AFRICAAM 200N	Funkentelechy: Technologies, Social Justice and Black Vernacular Cultures	4

## Thematic Concentration in Intersectionality

The intersectionality concentration is designed for students who wish to explore the intersections between race and ethnicity and other social identities including gender, sexuality, class, and ability. This concentration investigates how notions of racial and ethnic identity are complicated by gender, sexuality and other categories. Students will examine the construction of power systems to better contextualize

how certain identities become privileged over others. Drawing from contributions of women of color feminism and queer of color studies, this concentration challenges normative constructions of 'race' and 'ethnicity' by equipping students with analytical tools from feminist theory, queer theory, post-colonial theory, critical race theory, and other critical methods.

The concentration is not declared on Axxess; it does not appear on the transcript or diploma. Students interested in Intersectionality thematic concentration should contact the CSRE undergraduate program office.

The Intersectionality concentration requires 15 units including two approved CSRE core courses and CSRE 200X CSRE Senior Seminar (WIM), taken Autumn Quarter of the senior year. One foundational course may be counted toward the 15 unit core requirement. In addition to the core curriculum, students complete a Research/Methodology requirement (5 units). The remaining 40 units of course work should be relevant to the thematic concentration and selected in consultation with the faculty adviser.

Students may find the following courses useful in fulfilling requirements in the Intersectionality thematic concentration.

		Units
AFRICAAM 54N	African American Women's Lives	3
AFRICAAM 121X	Hip Hop, Youth Identities, and the Politics of Language	3-4
AMSTUD 106	Spectacular Trials: Sex, Race and Violence in Modern American Culture	5
ARTHIST 176	Feminism and Contemporary Art	4
COMPLIT 110	Introduction to Comparative Queer Literary Studies	3-5
CSRE 28SI	What is Whiteness? Historical and Contemporary Definitions of White Racial Identity in the U.S.	1-2
CSRE 63N	The Feminist Critique: The History and Politics of Gender Equality	3-4
CSRE 108	Introduction to Feminist, Gender, and Sexuality Studies	4-5
CSRE 133B	Covering Islam: On What We Learn to See, Think and Hear about Islam & Muslims	3-5

CSRE 168	New Citizenship: Grassroots Movements for Social Justice in the U.S.	5
CSRE 183	Re- Imagining American Borders	5
CSRE 255D	Racial Identity in the American Imagination	4-5
FEMGEN 103	Feminist and Queer Theories and Methods Across the Disciplines	2-5
FEMGEN 188Q	Imagining Women: Writers in Print and in Person	4-5
HISTORY 257C	LGBT/Queer Life in the United States	4-5
LINGUIST 156	Language and Gender	3-5
NATIVEAM 103S	Gender in Native American Societies	5
TAPS 164T	Queer Art and Performance	4-5

## Thematic Concentration in Public Service

The Public Service thematic concentration is open to students in any major in the Comparative Studies in Race and Ethnicity Undergraduate Program. The concentration allows a student to develop an area of study focused on community development, public service, and social change. Studying how issues of race and ethnicity impact and are impacted by community and social problems, this concentration is designed to ensure that students interested in service and community have access to a structured curriculum that provides a solid grounding in the theory and

practice of community and civic engagement in order to provide the skills and experiences that enable students to become leaders and actors in the sphere of public life.

Students who wish to pursue a thematic concentration in public service must organize their studies to include 15 units, including two approved CSRE core courses and CSRE 200X CSRE Senior Seminar (WIM), taken Autumn Quarter of the senior year. One foundational course may be counted toward the 15 unit core requirement. In addition to the core curriculum, students complete a Research/Methodology requirement (5 units). Public Service concentration students should also prepare to complete 25 units (at least 5 courses) relevant to the theme of public service. Three of these courses should include a service learning component (i.e., require the student to participate in service in the local community as a central component to the course).

Students who select a thematic concentration in public service must complete an internship as part of their program of study. This internship can be completed during the academic year for credit or during the summer, but must be at least 300 hours.

Finally, students who pursue the concentration in public service should select a topic for their senior paper or honors thesis that reflects their interest in community work (i.e., service or organizing) or a community issue or concern that is addressed through public service.

This concentration is not declared on Axess; it does not appear on the transcript or diploma. Students interested in this thematic concentration should contact the CSRE Undergraduate Program Office for details about its requirements.

Students may find the following courses useful in fulfilling requirements for the Public Service thematic concentration:

		Units
ANTHRO 169A	New Citizenship: Grassroots Movements for Social Justice in the U.S.	5
ASNAMST 112	Public Archaeology: Market Street Chinatown Archaeology Project	4-5
ASNAMST 144	Transforming Self and Systems: Crossing Borders of Race, Nation, Gender, Sexuality, and Class	5

URBANST 122	Ethics and Politics of Public Service	3-5

## Thematic Concentration in Race and Health

The concentration in Race and Health is designed for students who are seeking an interdisciplinary exploration of health disparities, health access, and health policy. Through course work, students examine how health experiences are influenced by issues of race and ethnicity.

The concentration is not declared on Axess; it does not appear on the transcript or diploma. Students interested in the Race and Health concentration should contact the CSRE undergraduate program office.

The Race and Health concentration requires 15 units including two approved CSRE core courses and CSRE 200X CSRE Senior Seminar (WIM), taken Autumn Quarter of the senior year. One foundational course may be counted toward the 15 unit core requirement. In addition to the core curriculum, students complete a Research/Methodology requirement (5 units). The remaining 40 units of course work should be relevant to the thematic concentration and selected in consultation with the faculty adviser.

Students may find the following courses useful in fulfilling requirements in the Race and Health thematic concentration.

		Units
ANTHRO 82	Medical Anthropology	4
ANTHRO 138	Medical Ethics in a Global World: Examining Race, Difference and Power in the Research Enterprise	5
ANTHRO 185A	Race and Biomedicine	3-5
CSRE 41A	Genes and Identity	3
CSRE 138	Medical Ethics in a Global World: Examining Race, Difference and Power in the Research Enterprise	5
EDUC 340	Psychology and American Indian Mental Health	3-5
HRP 212	Cross Cultural Medicine	3
HUMBIO 120	Health Care in America: An Introduction to U.S. Health Policy	4

PEDS 250	Social and Environmental Determinants of Health	3
PSYCH 101	Community Health Psychology	4

PWR 194DH	Topics in Writing and Rhetoric: Empathy, Ethics, and Compassion Meditation	4
-----------	--	---

## Thematic Concentration in Race and the American City

The Race and the American City concentration is designed for students who wish to develop methodologies, data, and theoretical and conceptual materials concerning how urban life, infrastructure, and policies are influenced by race and ethnicity. As virtual laboratories of social interaction, cities embody negotiations around resources, residences, financial districting, economic flow, health and educational resources, environmental policies, and city planning. A primary goal is for students to learn how they might contribute to the social and political discourse on race and ethnicity in the U.S. Participation in a public service internship and/or Stanford in Washington is encouraged.

The concentration is not declared on Axess; it does not appear on the transcript or diploma. Students interested in the Race and the American City concentration should contact the CSRE undergraduate program office.

The Race and the American City concentration requires 15 units including two approved CSRE core courses and CSRE 200X CSRE Senior Seminar (WIM), taken Autumn Quarter of the senior year. One foundational course may be counted toward the 15 unit core requirement. In addition to the core curriculum, students complete a Research/Methodology requirement (5 units). The remaining 40 units of course work should be relevant to the thematic concentration and selected in consultation with the faculty adviser.

Students may find the following courses useful in fulfilling requirements in the Race and the American City thematic concentration.

		Units
CSRE 260	California's Minority-Majority Cities	4-5
PEDS 250	Social and Environmental Determinants of Health	3
SOC 135	Poverty, Inequality, and Social Policy in the United States	4
SOC 155	The Changing American Family	4
URBANST 112	The Urban Underclass	4
URBANST 114	Urban Culture in Global Perspective	5
URBANST 162	Managing Local Governments	4

## Honors Program in Comparative Studies in Race and Ethnicity

### For Majors in Comparative Studies in Race and Ethnicity

The Interdepartmental Program in Comparative Studies in Race and Ethnicity offers a program leading to honors for majors in:

- Asian American Studies
- Chicana/o-Latina/o Studies
- Comparative Studies
- Jewish Studies
- Native American Studies

The honors program offers an opportunity to do independent research for a senior thesis. It is open to majors who have maintained a grade point average (GPA) of at least 3.5 in the major and 3.3 overall. The honors thesis is intended to enable students to synthesize skills to produce a document or project demonstrating a measure of competence in their specialty.

The application for honors must be submitted by May 25 of the junior year, but students are encouraged to apply earlier. The application includes a proposal describing the project that is approved by the faculty adviser and director of the undergraduate program. Students are required to identify both a faculty adviser and a second reader for the thesis project. The faculty adviser for the honors thesis must be an academic council faculty member and affiliated faculty of the student's major.

Honors students take CSRE 200X CSRE Senior Seminar, which fulfills the program's WIM requirement, and also enroll in CSRE 200Y CSRE Senior Honors Research and CSRE 200Z CSRE Senior Honors Research, in Winter and Spring quarters to continue to access peer and faculty support as they write their theses. Senior Honors Research (CSRE 200Y and CSRE 200Z) courses cannot count for the 60 units towards your major but do count for the 180 units towards your bachelor's degree. Students must complete their theses with a grade of 'B+' to receive honors in CSRE.

An honors colloquium held near the end of Spring Quarter affords students an opportunity to present their research formally. Prizes for best undergraduate honors thesis are awarded annually by the CSRE Program.

Applications are available in the CSRE Undergraduate Program office and on the program web site (<https://ccsre.stanford.edu/academics/undergraduate-program/honors>).

### For Majors in Other Departments

The Interdisciplinary Honors Program for Non-Majors in Comparative Studies in Race and Ethnicity is intended to complement study in any major. Students who participate in the honors program receive their degree from their program of study with departmental honors in Comparative Studies in Race and Ethnicity.

Honors certification will be open to students majoring in any field with a GPA in their chosen major of 3.5 and an overall GPA of 3.3. As a prerequisite, students apply for entry by Spring Quarter of the junior year (deadline May 25), but students are encouraged to begin earlier. During the application process, students outline a plan for course work and design an honors project in consultation with their proposed thesis adviser and the CSRE senior seminar coordinator.

The application describes how the student may fulfill the course requirements for interdisciplinary honors in CSRE and includes a proposal describing the project that is approved by the faculty adviser and director of the undergraduate program. Students are required to identify both a faculty adviser and a second reader for the thesis project. The faculty adviser for the honors thesis must be an academic council faculty member and affiliated faculty of the Center for Comparative Studies in Race and Ethnicity. Applications are available in the CSRE undergraduate program office and on the program web site (<https://ccsre.stanford.edu/academics/undergraduate-program/honors>).

Students pursuing a minor in Asian American Studies, Chicana/o-Latina/o Studies, Comparative Studies in Race and Ethnicity, Jewish Studies or Native American Studies who wish to pursue honors in their area of study, apply through the process for non-majors. Students may use their course work for the minor toward the requirements of the interdisciplinary honors program.

### Requirements:

Students applying for the interdisciplinary honors program in CSRE are required to take the following courses:

		Units
CSRE 196C	Introduction to Comparative Studies in Race and Ethnicity	5

And a second course identified as a comparative or major-core course within the CSRE Family of Programs.

## Core Courses

		Units
ANTHRO 32	Theories in Race and Ethnicity: A Comparative Perspective	5
ASNAMST 295F	Race and Ethnicity in East Asia	4-5
CSRE 32	Theories in Race and Ethnicity: A Comparative Perspective	5
CSRE 148	Comparative Ethnic Conflict	4
CSRE 149	The Laboring of Diaspora & Border Literary Cultures	3-5
CSRE 196C	Introduction to Comparative Studies in Race and Ethnicity	5
CSRE 200X	CSRE Senior Seminar	5
CSRE 245	Understanding Racial and Ethnic Identity Development	3-5
CSRE 246	Constructing Race and Religion in America	4-5
CSRE 255D	Racial Identity in the American Imagination	4-5
CSRE 389A	Race, Ethnicity, and Language: Racial, Ethnic, and Linguistic Formations	3-5
HISTORY 64	Racial and Ethnic Diversity in Modern America	4-5
JEWISHST 106	Reflection on the Other: The Jew and the Arab in Literature	3-5
PSYCH 75	Introduction to Cultural Psychology	5

## Major-Core Courses

		Units
AFRICAAM 43	Introduction to English III: Introduction to African American Literature	5
AFRICAAM 105	Introduction to African and African American Studies	5
ASNAMST 155D	The Asian American Movement: A History of Activism	3-5
ASNAMST 186B	Asian American Art: 1850-Present	4
CHILATST 171	Mexicans in the United States	5
CHILATST 180E	Introduction to Chicana/Latinx Studies	5
JEWISHST 183	The Holocaust	4-5
JEWISHST 185B	Jews in the Contemporary World: Faith and Ethnicity, Vulnerability and Visibility	4-5
NATIVEAM 16	Native Americans in the 21st Century: Encounters, Identity, and Sovereignty in Contemporary America	5
NATIVEAM 115	Introduction to Native American History	5
NATIVEAM 138	American Indians in Comparative Historical Perspective	4
NATIVEAM 139	American Indians in Contemporary Society	4

These courses must be completed with a grade of 'B+' or better for the honors program.

In addition, students are required to take:

A core, foundational, thematic, or cognate course related to the topic of the proposal or honors research (selected in consultation with the thesis advisor)

		Units
CSRE 200X	CSRE Senior Seminar	5
CSRE 200Y	CSRE Senior Honors Research (in Winter and Spring quarters)	1-10

CSRE 200Z	CSRE Senior Honors Research (in Winter and Spring quarters)	1-10
-----------	---	------

Throughout the year, students work with faculty adviser, secondary reader, and the senior seminar coordinator to complete their theses. Students must complete their theses with a minimum grade of 'B+' to receive honors in CSRE.

## Asian American Studies Minor

A total of 30 units of approved course work is required for the minor. Introduction to Comparative Studies in Race and Ethnicity (CSRE 196C), at least one Asian American Studies major-core course, and 20 units of Asian American focus courses are needed to fulfill the requirements for the minor. Proposals must be approved by the director.

Students in Asian American Studies may find the following courses useful in fulfilling course requirements in the major or minor.

## Comparative-Core Courses

		Units
ANTHRO 32	Theories in Race and Ethnicity: A Comparative Perspective	5
ASNAMST 295F	Race and Ethnicity in East Asia	4-5
CSRE 32	Theories in Race and Ethnicity: A Comparative Perspective	5
CSRE 148	Comparative Ethnic Conflict	4
CSRE 149	The Laboring of Diaspora & Border Literary Cultures	3-5
CSRE 196C	Introduction to Comparative Studies in Race and Ethnicity	5
CSRE 200X	CSRE Senior Seminar	5
CSRE 245	Understanding Racial and Ethnic Identity Development	3-5
CSRE 246	Constructing Race and Religion in America	4-5
CSRE 255D	Racial Identity in the American Imagination	4-5
CSRE 389A	Race, Ethnicity, and Language: Racial, Ethnic, and Linguistic Formations	3-5
HISTORY 64	Racial and Ethnic Diversity in Modern America	4-5
JEWISHST 106	Reflection on the Other: The Jew and the Arab in Literature	3-5
PSYCH 75	Introduction to Cultural Psychology	5

## Major-Core Courses

Students who completed ASNAMST 159/HISTORY 159 or ENGLISH 43C/143C in previous years may count this toward their Major-Core Course Requirement.

		Units
ASNAMST 146S		3-5
HISTORY 155D	The Asian American Movement: A History of Activism	3-5
ARTHIST 186B	Asian American Art: 1850-Present	4

## Thematic Courses

		Units
ASNAMST 112	Public Archaeology: Market Street Chinatown Archaeology Project	4-5
ASNAMST 52D	Asian American Human Development: Cultural Perspectives on Psychology, Education and Critical Issues	3
ASNAMST 185A	Race and Biomedicine	3-5
ASNAMST 131		3-5

ASNAMST 107	Asian American Leadership: Controversies, Dilemmas, and Decision-Making Strategies (adding new course for spring quarter)	3-5
ASNAMST 187	Geography, Time, and Trauma in Asian American Literature	5
ASNAMST 189	The Vietnamese Experience in America	3
ASNAMST 265	Writing Asian American History	5
ASNAMST 110	The Development of the Southeast Asian American Communities: A comparative analysis	3
ASNAMST 174S	When Half is Whole: Developing Synergistic Identities and Mestiza Consciousness	5

## Chicana/o-Latina/o Studies Minor

A total of 30 units of approved course work is required for the minor. Introduction to Comparative Studies in Race and Ethnicity (CSRE 196C), at least one Chicana/Latina Studies major-core course, and 20 units of Chicana/Latina focus courses are needed to fulfill the requirements for the minor. Proposals must be approved by the director.

Students in Chicana/o-Latina/o Studies may find the following courses useful in fulfilling course requirements in the major or minor.

### Comparative-Core Courses

ANTHRO 32	Theories in Race and Ethnicity: A Comparative Perspective	5
ASNAMST 295F	Race and Ethnicity in East Asia	4-5
CSRE 32	Theories in Race and Ethnicity: A Comparative Perspective	5
CSRE 148	Comparative Ethnic Conflict	4
CSRE 149	The Laboring of Diaspora & Border Literary Cultures	3-5
CSRE 196C	Introduction to Comparative Studies in Race and Ethnicity	5
CSRE 200X	CSRE Senior Seminar	5
CSRE 245	Understanding Racial and Ethnic Identity Development	3-5
CSRE 246	Constructing Race and Religion in America	4-5
CSRE 255D	Racial Identity in the American Imagination	4-5
CSRE 389A	Race, Ethnicity, and Language: Racial, Ethnic, and Linguistic Formations	3-5
HISTORY 64	Racial and Ethnic Diversity in Modern America	4-5
JEWISHST 106	Reflection on the Other: The Jew and the Arab in Literature	3-5
PSYCH 75	Introduction to Cultural Psychology	5

### Major-Core Courses

CHILATST 180E	Introduction to Chicana/Latina Studies	5
CHILATST 171	Mexicans in the United States	5

### Thematic Courses

CHILATST 14N	Growing Up Bilingual	3
CHILATST 125S	Chicano/Latino Politics	5
CHILATST 179	Chicano & Chicana Theater: Politics In Performance	4
CHILATST 125S	Chicano/Latino Politics	5
CHILATST 172		4-5
CHILATST 164	Immigration and the Changing United States	4

CHILATST 177A	Well-Being in Immigrant Children & Youth: A Service Learning Course	4
CHILATST 177B	Well-Being in Immigrant Children & Youth: A Service Learning Course	1-2
CHILATST 177C	Well-Being in Immigrant Children & Youth: A Service Learning Course	1-3
CHILATST 183X	Practicum in English-Spanish School & Community Interpreting	3-4
CHILATST 201B	Making Meaning: Art, Culture & Social Change	3
CHILATST 147L	Studies in Music, Media, and Popular Culture: Latin American Music and Globalization	3-4
CHILATST 181	Latino Social Movements	5
CHILATST 275B	History of Modern Mexico	5

## Comparative Studies Minor

A total of 30 units of approved course work is required for the minor. Introduction to Comparative Studies in Race and Ethnicity (CSRE 196C), either one more comparative-core or major-core course, and 20 units of Comparative Studies in Race & Ethnicity focus courses are needed to fulfill the requirements for the minor. Proposals must be approved by the director.

Students in Comparative Studies may find the following courses useful in fulfilling course requirements in the major or minor.

### Comparative-Core Courses

ANTHRO 32	Theories in Race and Ethnicity: A Comparative Perspective	5
ASNAMST 295F	Race and Ethnicity in East Asia	4-5
CSRE 32	Theories in Race and Ethnicity: A Comparative Perspective	5
CSRE 148	Comparative Ethnic Conflict	4
CSRE 149	The Laboring of Diaspora & Border Literary Cultures	3-5
CSRE 196C	Introduction to Comparative Studies in Race and Ethnicity	5
CSRE 200X	CSRE Senior Seminar	5
CSRE 245	Understanding Racial and Ethnic Identity Development	3-5
CSRE 246	Constructing Race and Religion in America	4-5
CSRE 255D	Racial Identity in the American Imagination	4-5
CSRE 389A	Race, Ethnicity, and Language: Racial, Ethnic, and Linguistic Formations	3-5
HISTORY 64	Racial and Ethnic Diversity in Modern America	4-5
JEWISHST 106	Reflection on the Other: The Jew and the Arab in Literature	3-5
PSYCH 75	Introduction to Cultural Psychology	5

### Major-Core Courses

AFRICAAM 43	Introduction to English III: Introduction to African American Literature	5
AFRICAAM 105	Introduction to African and African American Studies	5
ASNAMST 155D	The Asian American Movement: A History of Activism	3-5

## Asian American Studies

*Director:* Anthony Antonio (Education)

*Affiliated Faculty and Teaching Staff:* Gordon Chang (History), Hien Do (Asian American Studies), Marci Kwon (Art History), Kathryn Gin Lum (Religious Studies), Pamela Lee (Art and Art History), Jean Ma (Art and Art History), David Palumbo-Liu (Comparative Literature), Stephen Sano (Music), Stephen Murphy-Shigematsu (Asian American Studies), Jeanne L. Tsai (Psychology), Linda Uyechi (Music), Barbara Voss (Anthropology), Christine Min Wotipka (Education), Sylvia Yanagisako (Anthropology)

## Chicana/o-Latina/o Studies

*Director:* Guadalupe Valdés (Education)

*Affiliated Faculty and Teaching Staff:* Albert Camarillo (History), Susana Gallardo (Chicana/o-Latina/o Studies), Angela Garcia (Anthropology), Kenji Hakuta (Education), Tomás Jiménez (Sociology), Ramón Martínez (Education), Melissa Michaelson (Chicana/o-Latina/o Studies), Ana Minian (History), Cherríe Moraga (Drama), Paula Moya (English), Amado Padilla (Education), Jonathan Rosa (Education), José David Saldívar (Comparative Literature), Ramón Saldívar (English), Gary Segura (Political Science), Guadalupe Valdés (Education), Yvonne Yarbro-Bejarano (Iberian and Latin American Cultures)

## Comparative Studies in Race and Ethnicity

*Director:* Tomás Jiménez (Sociology)

*Core Affiliated Faculty:*

- Anthropology: Duana Fullwiley, Angela Garcia, Barbara Voss, Sylvia Yanagisako
- Art & Art History: Jonathan Calm, Marci Kwon
- Comparative Literature: David Palumbo-Liu, José David Saldívar, Alexander Key
- Drama: Jennifer Brody, Harry Elam
- English: Michele Elam, Chang-rae Lee, Paula Moya, Vaughn Raspberry, Ramón Saldívar
- History: Al Camarillo, James Campbell, Gordon Chang, Allyson Hobbs, Ana Minian
- Iberian and Latin American Cultures: Lisa Surwillo, Hector Hoyos
- Linguistics: John Rickford
- Political Science: Lauren Davenport
- Psychology: Jennifer Eberhardt, Hazel Markus, Jeanne Tsai
- Religious Studies: Kathryn Gin Lum, Charlotte Fonrobert
- Sociology: Tomás Jiménez, Matthew Snipp, Aliya Saperstein
- Taube Center for Jewish Studies: Vered Shemtov

- Graduate School Education: Anthony Antonio, Prudence Carter, Teresa LaFromboise, Guadalupe Valdés, Christine Min Wotipka, Ari Kelman, Jonathan Rosa, Ramón Martínez
- School of Law: Richard Banks, Richard Ford, Joan Petersilia
- Lecturers: JoEllen Anderson, Karen Biestman, Mark Gonzalez, Gina Hernandez, Vivian Huang, Melissa Michelson, Linda Prieto, Stephen Murphy-Shigematsu

*Affiliated Faculty and Teaching Staff:* David Abernethy (Political Science, emeritus), Arnetha Ball (Education), Lucius Barker (Political Science, emeritus), Donald Barr (Pediatrics), Bryan Brown (Education), Cheryl Brown (African and African American Studies), Martin Carnoy (Education), Clayborne Carson (History), Jeff Chang (Comparative Studies in Race and Ethnicity), Karen Cook (Sociology), Michele Dauber (Law), Linda Darling-Hammond (Education), Carolyn Duffey (American Studies), Jennifer Eberhardt (Psychology), Ala Ebtakar (Comparative Studies in Race and Ethnicity), Paulla Ebron (Anthropology), Penny Eckert (Linguistics), James Ferguson (Anthropology), Shelley Fisher Fishkin (English), James Fishkin (Communication), Estelle Freedman (History), Susana Gallardo (Chicana/o Studies), Gabriel Garcia (Medicine), Kathryn Gin Lum (Religious Studies), Leah Gordon (Education), David Grusky (Sociology), Sean Hanretta (History), Gina Hernandez-Clarke (Comparative Studies in Race and Ethnicity), Miyako Inoue (Anthropology), Shanto Iyengar (Communication), Tomás Jiménez (Sociology), Gavin Jones (English), Terry Karl (Political Science), Pamela Karlan (Law), Matthew Kohrman (Anthropology), Jan Krawitz (Art and Art History), Jon Krosnick (Communication), Teresa LaFromboise (Education), David Laitin (Political Science), Liisa Malkki (Anthropology), Hazel Markus (Psychology), Ruben Martínez (Comparative Studies in Race and Ethnicity), Barbro Martínez-Ruiz (Art and Art History), Douglas McAdam (Sociology), Jisha Menon (Theater and Performance Studies), Ana Minian (History), Elisabeth Mudimbe-Boyi (French and Italian), Thomas S. Mullaney (History), Stephen Murphy-Shigematsu (Asian American Studies), Hilton Obenzinger (American Studies), Susan Olzak (Sociology), Amado Padilla (Education), Arnold Rampersad (English), Vaughn Rasberry (English), Robert Reich (Political Science), Cecilia Ridgeway (Sociology), Richard Roberts (History), Aron Rodrigue (History), Michael Rosenfeld (Sociology), Joel Samoff (History), Debra Satz (Philosophy), Vered Shemtov (Division of Literatures, Cultures and Languages), C. Matthew Snipp (Sociology), Paul Sniderman (Political Science), Jayashiri Srikanthiah (Law), Ewart Thomas (Psychology), Jeanne L. Tsai (Psychology), Linda Uyechi (Music), Gregory Walton (Psychology), Richard White (History), Jeremy Weinstein (Political Science), Michael Wilcox (Anthropology), Bryan Wolf (Art and Art History), Sylvia Yanagisako (Anthropology), Yvonne Yarbro-Bejarano (Iberian and Latin American Cultures), Steven Zipperstein (History)

*Teaching Fellows:* Lucy Zhang-Bencharit, Rachel Hill

*Senior Seminar Coordinator:* Takuya Sawaoka

## Jewish Studies

*Interim Director:* Ari Kelman (Education)

*Affiliated Faculty and Teaching Staff:* Zachary Baker (Stanford University Libraries), Joel Beinin (History), Jonathan Berger (Music), Arnold Eisen (Religious Studies, emeritus), Amir Eshel (German Studies), John Felstiner (English, emeritus), Shelley Fisher Fishkin (English), Charlotte Fonrobert (Religious Studies), Avner Greif (Economics), Katherine Jolluck (History), Ari Kelman (Education), Jon Levitow (Language Center), Mark Mancall (History, emeritus), Norman Naimark (History), Reviel Netz (Classics), Jack Rakove (History), Aron Rodrigue (History), Noah Rosenberg (Biology), Gabriella Safran (Slavic Languages and Literatures), Vered Karti Shemtov (Language Center, Comparative Literature), Lee Shulman (Education, emeritus), Peter Stansky (History, emeritus), Marie-Pierre Ulloa (French), Amir Weiner (History), Sam Wineburg (Education), Steven Zipperstein (History)

*Hebrew Instructional Staff:* Gallia Porat, Estee Greif

*Visiting Faculty:* Avi Tchamni (Music)

*Writer in Residence:* Maya Arad

## Native American Studies

*Director:* Teresa LaFromboise (Education)

*Affiliated Faculty and Teaching Staff:* JoEllen Anderson (Native American Studies), Jared Aldern (Native American Studies), Karen Biestman (Native American Studies), Kenneth Fields (English), Teresa LaFromboise (Education), Samantha Peralto (Language Center), Delphine Red Shirt Shaw (Native American Studies), C. Matthew Snipp (Sociology), Michael Wilcox (Anthropology)

## Asian American Studies

Students in Asian American Studies may find the following related courses useful in fulfilling course requirements in the major or minor.

		Units
EDUC 181	Multicultural Issues in Higher Education	4
EDUC 193F	Psychological Well-Being on Campus: Asian American Perspectives	1
HISTORY 166B	Immigration Debates in America, Past and Present	3-5
HISTORY 265	Writing Asian American History	5
PSYCH 217	Topics and Methods Related to Culture and Emotion	1-3

## Jewish Studies

Students in Jewish Studies may find the following related courses useful in fulfilling course requirements in the major or minor.

JEWISHST 37Q	Zionism and the Novel	3
JEWISHST 38A		3
JEWISHST 106	Reflection on the Other: The Jew and the Arab in Literature	3-5
JEWISHST 130		3
JEWISHST 138A		5
JEWISHST 145	Masterpieces: Kafka	3-5
JEWISHST 147B	The Hebrew and Jewish Short Story	3-5
JEWISHST 155D	Jewish American Literature	5
JEWISHST 183	The Holocaust	4-5
JEWISHST 185B	Jews in the Contemporary World: Faith and Ethnicity, Vulnerability and Visibility	4-5
JEWISHST 237	Religion and Politics: A Threat to Democracy?	4-5
JEWISHST 284C	Genocide and Humanitarian Intervention	3

## Native American Studies

Students in Native American Studies may find the following related courses useful in fulfilling course requirements in the major or minor.

		Units
ANTHRO 162	Indigenous Peoples and Environmental Problems	3-5
EDUC 193N	Peer Counseling in the Native American Community	1
MUSIC 37N	Ki ho'alu: The New Renaissance of a Hawaiian Musical Tradition	3
SPECLANG 189A	First-Year Hawaiian, First Quarter	4
SPECLANG 189B	First-Year Beginning Hawaiian, Second Quarter	4
SPECLANG 189C	First-Year Hawaiian, Third Quarter	4
SPECLANG 247A	First-Year Lakota, First Quarter	4
SPECLANG 247B	First-Year Lakota, Second Quarter	4

SPECLANG 247C	First-Year Lakota, Third Quarter	4
SPECLANG 248	Introduction to Siouan Language & Culture II	5

## Overseas Studies Courses in Comparative Studies in Race and Ethnicity

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		Units
OSPCPTWN 16	Sites of Memory	3
OSPCPTWN 18	Xhosa Language and Culture	2
OSPCPTWN 38	Genocide: African Experiences in Comparative Perspective	3-5
OSPCPTWN 43	Public and Community Health in Sub-Saharan Africa	3
OSPCPTWN 55	Arts of Change	2-4
OSPCPTWN 70	Youth Citizenship and Community Engagement	3
OSPFLO 23	Italian Emigration, Immigration, and the Making of Nation	3
OSPMADR 47	Cultural Relations between Spain and the United States: Historical Perceptions and Influences, 1776-2	4
OSPMADR 60	Integration into Spanish Society: Service Learning and Professional Opportunities	4
OSPMADR 74	Islam in Spain and Europe: 1300 Years of Contact	4
OSPMADR 75	Sefarad: The Jewish Community in Spain	4
OSPMADR 83	Narrating the Nation: National and Post-National Spanish and Latin American Literature	4
OSPSANTG 118X	Artistic Expression in Latin America	5
OSPSANTG 129X	Latin America in the International System	4-5

# DIVISION OF LITERATURES, CULTURES, AND LANGUAGES

Courses offered by the Division of Literatures, Cultures, and Languages are listed under the subject code DLCL on the Stanford Bulletin's ExploreCourses web site.

The Division of Literatures, Cultures, and Languages consists of five academic departments (Comparative Literature (p. 453), French and Italian (p. 538), German Studies (p. 555), Iberian and Latin American Cultures (p. 600), and Slavic Languages and Literatures (p. 734)), five focal groups (Digital Humanities, Humanities Education, Philosophy and Literature, Poetics, and Renaissance) as well as the Language Center (p. 632), which oversees language instruction at Stanford.

All the departments of the division offer academic programs leading to B.A., M.A., and Ph.D. degrees.

The division brings together scholars and teachers dedicated to the study of literatures, cultures, and languages from humanistic and interdisciplinary perspectives. The departments in the division are distinguished by the quality and versatility of their faculty, a wide variety of approaches to cultural traditions and expressions, and the intense focus on the mastery of languages. This wealth of academic resources, together with small classes and the emphasis on individual advising, creates a superior opportunity for students who wish to be introduced to or develop a deeper understanding of non-English speaking cultures.

The division's departments and the Language Center offer instruction at all levels, including introductory and general courses that do not require knowledge of a language other than English. These courses satisfy a variety of undergraduate requirements and can serve as a basis for developing a minor or a major program in the member departments. The more advanced and specialized courses requiring skills in a particular language are listed under the relevant departments, as are descriptions of the minor and major programs.

The DLCL itself offers four undergraduate minor programs, one Ph.D. minor program, and several graduate courses focused on the teaching of second languages, the teaching of literature, and academic professionalization.

## Focal Groups

While the five departments in the Division of Literatures, Cultures, and Languages serve common interests in literary and cultural traditions and their languages, the DLCL's Focal Groups bring together faculty members and graduate students who share topics and approaches that range across languages and national literatures. These groups are designed to respond directly to the research interests of the faculty as a community, and reflect long-term commitments by the participants. They are conceived as portals that open from the Division outward to the wider community of literary and humanities scholars at Stanford. The membership may include any member of the Stanford faculty or any Ph.D. student with an interest in the topic. Most Focal Groups include participants from several humanities departments outside the DLCL.

Thus the DLCL is characterized by two axes of intellectual inquiry:

- the departmental axis, which is organized by language, nation, and culture
- the focal axis, which may be organized by genre, period, methodology, or other criteria.

The convergence of the two axes, departments and Focal Groups, locates faculty members and graduate students in at least two intersecting communities. The DLCL believes that this convergence gives institutional

form to the intellectual conditions under which many scholars of literature and culture presently work.

Each Focal Group maintains a standing research workshop at which both faculty and graduate student members discuss their work. Several Focal Groups offer formal courses; and all groups are responsible for overseeing research-oriented activities and extracurricular events in the relevant area, including sponsoring conferences, publications, podcasts, and other activities that disseminate the outcomes of their research.

## Humanities Education

*Chair:* Russell Berman (Comparative Literature, German Studies)

*Faculty Members:* Cécile Alduy (French and Italian), Elizabeth Bernhardt (German Studies, Language Center), Eamonn Callan (School of Education), Adrian Daub (German Studies), Thomas Ehrlich (School of Education), Marisa Galvez (French and Italian), Pam Grossman (School of Education), David Lummus (French and Italian), Orrin Robinson (German Studies), Gabriella Safran (Slavic Languages and Literatures), Kathryn Starkey (German Studies), Mitchell Stevens (School of Education), Guadalupe Valdés (School of Education)

*Web Site:* <http://dlcl.stanford.edu/groups/humanities-education>

The Focal Group on Humanities Education explores issues concerning teaching and learning in the humanities, including research on student learning, innovation in pedagogy, the role of new technologies in humanities instruction, and professional issues for humanities teachers at all educational levels.

## Philosophy and Literature

*Chairs:* R. Lanier Anderson (Philosophy), Joshua Landy (French and Italian)

*Faculty Members:* Keith Baker (History), John Bender (Comparative Literature, English), Russell Berman (Comparative Literature, German Studies), Alexis Burgess (Philosophy), Martón Dornbach (German Studies), Jean-Pierre Dupuy (French and Italian), Amir Eshel (Comparative Literature, German Studies), Gregory Freidin (Slavic Languages and Literatures), Robert Harrison (French and Italian), David Hills (Philosophy), Héctor Hoyos (Iberian and Latin American Cultures), Michelle Karnes (English), Alexander Key (Comparative Literature), Sianne Ngai (English), Marília Librandi Rocha (Iberian and Latin American Cultures), Joan Ramon Resina (Iberian and Latin American Cultures, Comparative Literature), Nariman Skakov (Slavic Languages and Literatures), Blakey Vermeule (English), Laura Wittman (French and Italian), Lee Yearley (Religious Studies)

*Web Site:* <http://dlcl.stanford.edu/groups/humanities-education-0>

The Focal Group on Philosophy and Literature brings together faculty and students from nine departments to investigate questions in aesthetics and literary theory, philosophically-inflected literary texts, and the form of philosophical writings. Fields of interest include both continental and analytic philosophy, as well as cognitive science, political philosophy, rational choice theory, and related fields. The group offers undergraduate tracks within eight majors, a graduate workshop, and a lecture series.

## Workshop in Poetics

*Chairs:* Roland Greene (Comparative Literature, English), Nicholas Jenkins (English)

*Faculty Members:* Marisa Galvez (French and Italian), Alexander Key (Comparative Literature), David Lummus (French and Italian), Michael Predmore (Iberian and Latin American Cultures)

*Web Site:* <http://dlcl.stanford.edu/workshop-poetics-0+>

The Workshop in Poetics Focal Group is concerned with the theoretical and practical dimensions of the reading and criticism of poetry. During the four years of its existence, the Workshop has become a central venue at Stanford enabling participants to share their individual projects in a general conversation outside of disciplinary and national confinements. The two dimensions that the workshop sees as urgent are:

- poetics in its specificity as an arena for theory and interpretive practice.
- historical poetics as a particular set of challenges for the reader and scholar.

The core mission is to offer Stanford graduate students a space to develop and critique their current projects.

## Renaissances

*Chair:* Roland Greene (Comparative Literature, English)

*Faculty Members:* Cécile Alduy (French and Italian), Shahzad Bashir (Religious Studies), Paula Findlen (History), Tamar Herzog (History), Nicholas Jenkins (English), Alexander Key (Comparative Literature), David Lummus (French and Italian), Bissera Pentcheva (Art and Art History), Morten Steen Hansen (Art and Art History).

*Web Site:* <http://dlcl.stanford.edu/groups/renaissances>

The Renaissances Group brings together faculty members and students from over a dozen departments at Stanford to consider the present and future of early modern literary studies (a period spanning the fourteenth through the seventeenth centuries). Taking seriously the plural form of the group’s name, we seek to explore the early modern period from a wide range of disciplinary, cultural, linguistic, and geographical perspectives.

## Persian, Arabic, Turkish, and Hebrew Languages, Literatures, and Cultures (PATH+)

*Chair:* Alexander Key (Comparative Literature)

PATH+ is a DLCL focal group that is considering the future of Persian, Arabic, Turkish, and Hebrew languages, literatures, and cultures in the DLCL. The PATH+ conversation includes scholars, artists, and intellectuals working in and around these languages, literatures, and cultures from across Stanford and from peer institutions internationally.

## The Contemporary

*Chair:* Amir Eshel (Comparative Literature, German Studies)

The Contemporary focal group examines “the contemporary” with a focus on defining moments such as 1945, 1973, 1989, and 2001. Building upon a 3 year body of work as a DLCL research group, The Contemporary focal group has particularly focused on U.S., European, and Middle Eastern cultural and political forces that characterize our “contemporary.” The group employs a comparative and interdisciplinary approach to the hybrid term “contemporary” as it intersects various fields and serves as a heuristic device to understand phenomena in politics, culture, and the arts.

## Minor in Medieval Studies

Faculty Director: Marisa Galvez

The Division of Literatures, Cultures, and Languages offers an undergraduate minor in Medieval Studies. The minor in Medieval Studies:

- provides Stanford students with the historical knowledge and framework through which to view globalism;

- embeds the study of medieval culture in a coherent framework that resonates with contemporary issues of community building, the virtual world and mobility;
- and promotes an innovative cross-disciplinary and skill-based approach to Medieval Studies.

Students in any field qualify for the minor by meeting the following requirements:

Students complete a total of 25 units (including a core course) and 6 courses relevant to the major in departments across the University including, but not restricted to, English, East Asian Studies, History, Religious Studies, Music, and DLCL courses (Comparative Literature, German, French, Italian, Iberian and Latin American Cultures, and Slavic Languages and Literatures), and Classics.

One of the following three introductory core courses is required to be taken for 5 units. The core courses are offered on a regular basis by faculty across the University.

		Units
FRENCH 205	Songs of Love and War: Gender, Crusade, Politics (Counts as DLCL 121)	3-5
DLCL 122	Medieval Manuscripts, Digital Methodologies	3-5
HISTORY 115D	Europe in the Middle Ages, 300-1500 (Counts as DLCL 123)	3-5

Electives may be selected from a large number of offerings in a variety of disciplines according to student interests, but they must follow a coherent course of study. This course of study must be approved by the faculty director. Up to 5 units may be taken in a medieval language, such as (but not limited to) Old English, Old Norse, Medieval Latin, Old French, Middle High German, Classical Arabic. No transfer credit may be used toward the Medieval Studies minor. Appropriate courses offered through BOSP may count toward this minor.

Course work in this minor may not duplicate work counted toward other majors or minors. Advanced placement credit and transfer credit do not apply to this minor. All courses must be taken for a letter grade. By University policy, no more than 36 units may be required in this minor. Students declare the Minor in Medieval Studies through Axess.

## Minor in Modern Languages

Faculty Director: Dan Edelstein

The Division of Literatures, Cultures, and Languages offers an undergraduate minor that draws upon courses in literature and language within the division’s departments and elsewhere in the University. The minor in Modern Languages is offered to students who want to supplement the course work in their major with course work in modern languages and literatures. Students declare the Minor in Modern Languages through Axess. Appropriate courses offered through BOSP may count toward this minor with Professor Edelstein’s pre-approval.

Students are required to complete 6 courses of 3 units or more in any field qualify for the minor by meeting the following requirements:

	Units
A minimum of 16 units (4 courses and 8 units per language) at the intermediate level (second year) or beyond, not including conversational, oral communication, business, or medical language courses in two languages other than English all Modern languages offered at Stanford can qualify.	16
At least two additional courses of 3 units or more, one in each modern language being studied in the minor. These courses must be taught by Academic Council members or other senior members of Stanford faculty.	6-10

It is recommended that students study, work, or intern abroad for at least eight weeks at a location where one of the languages is spoken. Course work in this minor may not duplicate work counted toward other majors or minors. Advanced Placement credit and transfer credit cannot be applied to this minor. All courses must be taken for a letter grade. By University policy, no more than 36 units may be required in this minor.

## Minor in Translation Studies

*Faculty Director:* Dan Edelstein

The Division of Literatures, Cultures, and Languages, in cooperation with East Asian Languages and Cultures and the English Department, teaches undergraduates to develop and apply their foreign language knowledge to the production and analysis of translations. The minor is designed to give students majoring in a variety of fields the tools to consider the practical and theoretical issues brought up by translation as an aesthetic, cultural, and ethical practice.

Course work in this minor may not duplicate work counted toward other majors or minors. Course selection must be approved by the minor adviser. For further information, contact the minor adviser, Cintia Santana (csantana@stanford.edu).

Students must take a minimum of 23 units for a letter grade, in fulfillment of the following requirements:

	Units
1. Prerequisite: Complete or test out of a first-year course in the language of interest.	
2. Core course: At least 4 units in a Translation Studies core course: ENGLISH/DLCL 293 or DLCL 113Q. *	4
3. Language study: At least 8 units, second year or beyond (not including conversation/oral communication) and/or relevant literature courses taught in the target language. OSP and transfer units may be considered in consultation with the minor adviser.	8
4. Literature study: At least 7 units in relevant literature courses at the 100-level or above, taught in a DLCL department, East Asian Languages and Cultures, or Classics, and determined in consultation with the minor adviser. For students interested in translation from English into another language, appropriate literature courses in the English department may be substituted.	7
5. Electives: At least 4 units in a creative writing course, or a course that foregrounds translation in departments such as Anthropology, any DLCL department, English, East Asian Languages and Cultures, Classics, Linguistics (e.g., LINGUIST 130A), or Computer Science (e.g., CS 124), determined in consultation with the minor adviser.	4
6. Final Project: Students must also complete a capstone project: a significant translation and/or translation studies project (e.g. 20 pages of prose, 10 poems, or similar appropriate amount to be determined in consultation with the minor adviser). This work may be carried out under the supervision of an instructor in a required course or as an independent study.	
<b>Total Units</b>	<b>23</b>

## Minor in Middle Eastern Languages, Literatures, and Cultures

*Faculty Director:* Alexander Key

The undergraduate minor in Middle Eastern Languages, Literatures, and Cultures (MELLAC) has been designed to give students majoring in other departments an opportunity to gain a substantial introduction to Arabic, Hebrew, Middle Eastern, and African languages, and the cultures and civilizations of the Middle East and Africa. Contact the faculty director, Marie Huber at marieh@stanford.edu before declaring the minor:

- Courses for the minor must be taken for a letter grade unless only offered for faculty-elected satisfactory/no credit. All courses must be completed with a letter grade of 'C' or better.
- Students may not overlap (double-count) courses for completing major and minor requirements
- Students declaring the minor must do so no later than the last day of Spring Quarter of their junior year.

The minor in Middle Eastern Languages, Literatures and Cultures (MELLAC) has two tracks. Their requirements are as follows.

### Minor in Middle Eastern Languages, Literatures, and Cultures, Arabic Track

Requirements for the minor include:

- Completion of four ARABLANG courses at the second-year level or higher, for a total of 20 units
- Up to 5 units of transfer credit may count towards this minor with the Faculty Director's approval.
- Two literature courses taught with Arabic texts, generally offered in Comparative Literature (COMPLIT) for a total of 6-10 units
- One course relating to Arabic taught with English texts, generally offered in Comparative Literature (COMPLIT), for a total of 3-5 units.
- Students must test for Proficiency in Arabic through the Language Center by Winter Quarter of their senior year.
  - Students should minimally receive a notation of intermediate-high.
  - Those requiring outside tutoring are advised to seek resources available through the DLCL.
- All courses must be approved by the faculty director.

### Minor in Middle Eastern Languages, Literatures, and Cultures, Hebrew, Persian, Turkish, or African Languages, Literatures and Cultures Track

Requirements for the minor include:

- Three language classes in Hebrew, Persian, Turkish, or an African language.
  - All three courses must be in the same language and first year or beyond.
- 20 additional units from relevant literature and culture courses.
  - Courses are offered through the Language Center and DLCL departments.
  - One of these courses must be a (COMPLIT) Comparative Literature course.
  - Additional courses are offered through Jewish Studies (JEWISHST), and the Center for African Studies (AFRICAST).
- The faculty director may approve some upper-level language classes to count towards the 20 additional units.
- All courses must be approved by the faculty director.

## Ph.D. Minor in Philosophy, Literature, and the Arts

*Faculty Director:* Joshua Landy, French and Italian, and Comparative Literature

*Director of Graduate Studies:* Adrian Daub, German Studies, and Comparative Literature

## Overview

The PhD minor in Philosophy, Literature, and the Arts offers rigorous, structured training for students interested in the interdisciplinary intersection of philosophy with criticism in literature and the arts.

## Application and Admission

Students declare the minor after admission to candidacy and before attaining TGR status by submitting:

- an Application for Ph.D. Minor ([http://studentaffairs.stanford.edu/sites/default/files/registrar/files/app\\_phd\\_minor.pdf](http://studentaffairs.stanford.edu/sites/default/files/registrar/files/app_phd_minor.pdf)) form
- a one-page statement of intent

## Requirements for the Ph.D. Minor in Philosophy, Literature, and the Arts

All students in the Ph.D. Minor in Philosophy, Literature, and the Arts take:

1. PHIL 333/DLCL 333 Philosophy, Literature, and the Arts Core Seminar, team taught by faculty from philosophy and from a literature or arts department.
2. At least 3 units of independent work registered either under a departmental independent work number, or under DLCL 220 Humanities Education or DLCL 222 Philosophy and Literature. This work should be undertaken with a faculty adviser identified to the Faculty Director.
3. Two additional courses at the 200 level or above which are deemed by the Committee in Charge to include material of substantial special relevance to the domain of philosophy, literature, and the arts. At least one of these courses should be offered in a participating department other than the student's major department (e.g., a philosophy course for students in literature and arts departments, a literature or arts course for philosophy students).
4. All students take two graduate-level courses providing a structured program of course work in the student's minor field (such as philosophy for literature and arts students, or literary or arts criticism for philosophy students):
  - Graduate students in Philosophy take two graduate-level courses in a single literature, or in one of the arts.
  - Graduate students in literature or arts departments, including Classics, take two graduate-level courses in Philosophy, at least one of which must be in metaphysics, epistemology, or the philosophies of language, mind, or action (the PHIL 280s series and related upper-level seminars), and at least one of which must be in value theory (understood to include ethics, aesthetics, and political philosophy, the PHIL 270s series and related upper-level seminars)
  - Graduate students in other departments submit a plan of study for approval by the Faculty Director reflecting graduate-level course work that provides a background both within philosophy and within the study of literature or the arts that is substantially equivalent to that achieved by philosophy, literature, or arts students in their minor field. Students are advised that this plan of study may involve more course work than would be needed for students whose major field is in literature, arts, or philosophy departments.
5. If the six required courses do not total 20 units, students may satisfy the 20 unit requirement by taking units of DLCL 222 Philosophy and Literature or by taking additional graduate level courses of special relevance at their discretion and with the agreement of their minor adviser.

### Notes:

- Students are encouraged to include a member from the minor field on the University Oral Committee or on another of the general examination committees if that is judged more appropriate by the

student's departmental and minor advisers. Students in departments which deploy the University Oral as a dissertation defense are advised that a member from the student's minor field should be involved on the dissertation committee throughout the dissertation writing period.

- Currently-enrolled students (as of 8/31/17) in the old PhD Minor in the Humanities, or in its Philosophy, Literature, and the Arts subplan, have the option to continue under the current PhD Minor name or to change to the new PhD Minor name of PhD Minor in Philosophy, Literature, and the Arts. Students will be required to make this election by the end of Autumn Quarter 2017-18. New students (as of 9/1/17) would enroll in the PhD Minor name of PhD Minor in Philosophy, Literature, and the Arts. The subplan would no longer be available for student enrollment as of 9/1/17.

## Certificate in Language Program Management

*Faculty Director:* Elizabeth Bernhardt

Programs in contemporary foreign language teaching preparation entail a knowledge base that has grown over the past 30 years, rooted in data from an explosion of linguistic as well as applied linguistic research.

In tandem with the Language Center's primary focus on learning research and theory, which graduate students explore in the teaching preparation program, the Language Program Management certificate focuses on developing the professional leadership and academic skills necessary for a career that includes the coordination and management of language learning.

The program funds summer internships which enable the completion of a certificate in Language Program Management and are intended to help Stanford graduate students prepare themselves for such work in complement to their literary studies. The certificate program is not declared on Axess and does not appear on the transcript or diploma.

### Prerequisites

1. Foreign language acquisition: Oral Proficiency Interview (OPI) rating of at least advanced mid
2. Academic and professional development:
  - DLCL 301 The Learning and Teaching of Second Languages
  - Modified Oral Proficiency Interview (MOPI) Assessment workshop (2 days)
  - Limited OPI Tester Certification (average 6 months)
  - Teaching of three first-year language courses through the Language Center

These are generally met by the end of a graduate student's second year in the PhD program. Once meeting these criteria, the student may be admitted to the Program.

### Requirements

Upon admission to the program, students must complete the following:

1. DLCL 302 The Learning and Teaching of Second-Language Literatures: a course designed to focus student attention on the development of oral language proficiency through the upper levels and emphasize the need for upper register speaking and writing for literature learning and teaching.
2. OPI workshop (additional 2 days of training at the Advanced and Superior levels): this workshop is the extension of the MOPI. It focuses on upper register performance on the FSI-ACTFL scale. Hosted by either the Language Center, regional workshop, or at the national meeting of the ACTFL.

3. Completion of Writing Proficiency Familiarization workshop (Winter Quarter): Workshop conducted by a certified writing tester and structured in parallel to the MOPI/OPI assessment paradigm.
4. DLCL 303 Language Program Management (Summer Quarter): an administrative internship including, but not limited to, experiences with the following:
  - Shadow faculty and staff in select areas of administration and supervision within the Language Center and DLCL
  - Placement testing and student advisement
  - Technology in teaching and learning
  - Processes for teacher observation and feedback
  - Procedures in staff supervision and human resources
  - Course scheduling, budgeting, staffing, and searches
  - Interface with external programs (e.g., BOSP, Bechtel, VPTL)

*Division Chair:* Dan Edelstein

*DLCL Senior Lecturer:* Cintia Santana

# EAST ASIAN LANGUAGES AND CULTURES

Courses offered by the Department of East Asian Languages and Cultures are listed on the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) web site under the subject codes:

- CHINA (<https://explorecourses.stanford.edu/search?q=CHINA&view=catalog&page=0&filter-term-Autumn=on&filter-term-Winter=on&filter-term-Spring=on&filter-term-Summer=on&filter-coursestatus-Active=on&filter-departmentcode-CHINA=on&collapse=&filter-catalognumber-CHINA=on&filter-catalognumber-CHINA=on>)
- JAPAN (<https://explorecourses.stanford.edu/search?q=JAPAN&view=catalog&page=0&filter-term-Autumn=on&filter-term-Winter=on&filter-term-Spring=on&filter-term-Summer=on&filter-coursestatus-Active=on&collapse=&filter-catalognumber-JAPAN=on&filter-catalognumber-JAPAN=on>)
- KOREA (<https://explorecourses.stanford.edu/search?q=KOREA&view=catalog&page=0&filter-term-Autumn=on&filter-term-Winter=on&filter-term-Spring=on&filter-term-Summer=on&filter-coursestatus-Active=on&filter-departmentcode-KOREA=on&collapse=&filter-catalognumber-KOREA=on&filter-catalognumber-KOREA=on>)
- EALC (<https://explorecourses.stanford.edu/search?q=EALC&view=catalog&page=0&filter-term-Autumn=on&filter-term-Winter=on&filter-term-Spring=on&filter-term-Summer=on&filter-coursestatus-Active=on&filter-departmentcode-EALC=on&collapse=&filter-catalognumber-EALC=on&filter-catalognumber-EALC=on>) (East Asian Languages and Cultures)

Language courses are listed on the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) web site under:

- CHINLANG (Chinese Language)
- JAPANLNG (Japanese Language)
- KORLANG (Korean Language)

The Department of East Asian Languages and Cultures offers programs for students who wish to engage with the cultures of China, Japan, and Korea as articulated in language, linguistics, literature, film, cultural studies, and visual arts. Students emerge with a sophisticated understanding of culture as a dynamic process embodied in language and other representational media, especially the verbal and visual forms that are central to humanistic study. Department faculty represent a broad range of research interests and specialties, and visiting scholars and postdoctoral fellows from the Stanford Humanities Center, the Andrew W. Mellon Fellowship of Scholars in the Humanities, the Freeman Spogli Institute for International Studies, and the Center for East Asian Studies add to the intellectual vitality of the department.

East Asian Languages and Cultures offers a full range of courses at the undergraduate and graduate levels. Undergraduate courses concentrate on language, literature, and other cultural forms from the earliest times to the present, covering traditional and contemporary topics from Confucian conceptions of self and society to inflections of gender in the twentieth century. Emphasis in classes is on developing powers of critical thinking and expression that will serve students well no matter what their ultimate career goals. Graduate programs offer courses of study involving advanced language training, engagement with primary texts and other materials, literary history, and training in research methodologies and critical approaches.

East Asian language skills provide a foundation for advanced academic training and professional careers in fields such as business, diplomacy, education, and law. The department also offers opportunities for students

who choose to double-major or minor in other academic disciplines, including anthropology, art history, economics, education, history, linguistics, philosophy, political science, religious studies, and sociology.

The department accepts candidates for the degrees of Bachelor of Arts, Master of Arts, and Doctor of Philosophy in Chinese and Japanese, and Bachelor of Arts in East Asian Studies. It also offers undergraduate minors and the Ph.D. minor in Chinese or Japanese language and literature.

For information concerning other opportunities for study about Asian history, societies, and cultures, see the following departments and programs: Anthropology, Art and Art History, Business, Comparative Literature, East Asian Studies, Economics, History, Law, Linguistics, Philosophy, Political Science, Religious Studies, and Sociology.

## Undergraduate Mission Statements for East Asian Languages and Cultures East Asian Studies Major

The mission of the program in East Asian Studies is to enable students to obtain a comprehensive understanding of East Asia broadly conceived, which is the area stretching from Japan through Korea and China to the contiguous areas of the Central Asian land mass. Majors are expected to have a good mastery of an East Asian language, and focus on a particular sub-region or a substantive issue involving the region as a whole. Emphasis in classes is on developing powers of critical thinking and expression to serve students well no matter what their ultimate career goals in business, government service, academia, or the professions.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. effective and nuanced skills interpreting primary and secondary source materials.
2. a good grasp in their own work of the course material and methodologies in East Asian studies.
3. analytical writing skills and close reading skills.
4. effective oral communication skills.

## East Asian Studies, China Subplan Major

The mission of the undergraduate program in Chinese is to expose students to a variety of perspectives in Chinese language, culture, and history by providing them with training in writing and communication, literature, and civilization. Emphasis in courses is on developing powers of critical thinking and expression that serve students well no matter what their ultimate career goals are. The program prepares students for diverse professions and enterprises, including business, government service, and academia.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. effective and nuanced skills interpreting primary and secondary source materials.
2. a good grasp in their own work of the course material and methodologies in the studies of Chinese.
3. analytical writing skills and close reading skills.

4. effective oral communication skills.

## East Asian Studies, Japan Subplan Major

The mission of the undergraduate program in Japanese is to expose students to a variety of perspectives in Japanese language, culture, and history by providing students with training in writing and communication, literature, and civilization. Emphasis in classes is on developing powers of critical thinking and expression that will serve students well no matter what their ultimate career goals are. The program prepares students for diverse professions and enterprises, including business, government service, and academia.

### Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. effective and nuanced skills interpreting primary and secondary source materials.
2. a good grasp in their own work of the course material and methodologies in the studies of Japanese.
3. analytical writing skills and close reading skills.
4. effective oral communication skills.

## East Asian Studies, Japanese Language Subplan Major

The mission of the undergraduate program in Japanese is to expose students to a variety of perspectives in Japanese language, culture, and history by providing students with training in writing and communication, literature, and civilization. Emphasis in classes is on developing powers of critical thinking and expression that will serve students well no matter what their ultimate career goals are. The program prepares students for diverse professions and enterprises, including business, government service, and academia.

### Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. effective and nuanced skills interpreting primary and secondary source materials.
2. a good grasp in their own work of the course material and methodologies in the studies of Japanese.
3. analytical writing skills and close reading skills.
4. effective oral communication skills.

## East Asian Studies, Korea Subplan Major

The mission of the undergraduate program in Korean is to expose students to a variety of perspectives in Korean language, culture, and history by providing students with training in writing and communication, literature, and civilization. Emphasis in classes is on developing powers of critical thinking and expression that will serve students well no matter what their ultimate career goals are. The program prepares students for diverse professions and enterprises, including business, government service, and academia.

### Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning

outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. effective and nuanced skills interpreting primary and secondary source materials.
2. a good grasp in their own work of the course material and methodologies in the studies of Japanese.
3. analytical writing skills and close reading skills.
4. effective oral communication skills.

## Study Abroad

There are several exciting opportunities for Stanford students interested in Japan and China. The Kyoto Center for Japanese Studies (KCJS (<http://www.kcjs.jp>)), is designed for undergraduates wishing to do advanced work in Japanese language and Japanese studies. The language requirement is two years of Japanese. Students may attend either one or two semesters.

The BOSP Kyoto program (<https://undergrad.stanford.edu/programs/bosp/explore/kyoto>) combines a Winter and/or Spring quarter of academic study with an optional internship in Japan. Founded in collaboration with the School of Engineering, it provides students with the opportunity to fit language immersion and practical classroom experience into their busy schedules. It also welcomes students in the sciences, social sciences, and humanities. Winter quarter participants must have completed JAPANLNG 1. Spring quarter participants must have completed JAPANLNG 2. Preference is given to students with additional language study, as well as those who have taken courses in Japanese literature and culture. It is hosted on the Doshisha University campus in the heart of Kyoto. For information about either program in Kyoto, students should contact the Bing Overseas Studies Program office in Sweet Hall.

The Inter-University Center for Japanese Language Studies (IUC) (<https://web.stanford.edu/dept/IUC/cgi-bin>), located in Yokohama, is designed for students who seek the most advanced level of training in Japanese. This program accepts students with high intermediate Japanese language skills who seek Japan-related careers.

Undergraduates interested in studying Chinese language, history, culture, and society are encouraged to apply to the Stanford Program in Beijing (<https://undergrad.stanford.edu/programs/bosp/explore/beijing>), also offered through the Bing Overseas Studies Program. This program is located at Peking University and is open Autumn and Spring Quarters. There is no language prerequisite for the fall quarter; for spring quarter, students must take CHINLANG 2.

Students should take note of the Inter-University Program for Chinese Language Studies (IUP) (<http://ieas.berkeley.edu/iup>) at Tsinghua University ([iub@socrates.berkeley.edu](mailto:iub@socrates.berkeley.edu); 510-642-3873) and the Inter-University Center (IUC) for Japanese Language Studies (<http://stanford.edu/dept/IUC>) in Yokohama ([stacey.campbell@stanford.edu](mailto:stacey.campbell@stanford.edu); 650-725-1490). Stanford is a member of these consortia.

Graduate students interested in the graduate exchange program with the Department of Chinese at Peking University in Beijing should consult the chair of the department early in the academic year.

## Graduate Programs in East Asian Languages and Cultures Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in East Asian Languages and Cultures and to prepare students for a professional career or doctoral studies. This is achieved through

completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in East Asian Languages and Cultures. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of East Asian Languages and Cultures and to interpret and present the results of such research.

## Admission

All students contemplating application for admission to graduate study must have a creditable undergraduate record. The applicant need not have majored in Chinese or Japanese as an undergraduate, but must have had the equivalent of at least three years of training in the language in which he or she intends to specialize, and must also demonstrate a command of English adequate for the pursuit of graduate study. Applicants should not wish merely to acquire or improve language skills, but to pursue study in one of the following fields: Chinese archaeology, Chinese linguistics, Chinese literature, Chinese philosophy, Japanese cultural history, Japanese literature, Japanese linguistics, and Japanese visual culture.

## Bachelor of Arts

The department offers a Bachelor of Arts degree with the following options:

- Bachelor of Arts in East Asian Studies
- Bachelor of Arts in East Asian Studies, China Subplan
- Bachelor of Arts in East Asian Studies, Japan Subplan
- Bachelor of Arts in East Asian Studies, Japanese Language Subplan
- Bachelor of Arts in East Asian Studies, Korea Subplan

As of September 2016, the department no longer offers the following degrees:

- Bachelor of Arts in Chinese
- Bachelor of Arts in Japanese

Students who previously enrolled in the following degrees may choose to complete the major, following the requirements stated in previous Stanford Bulletins (<http://exploreddegrees.stanford.edu/archive/#text>). Check with the department for further clarification.

## Bachelor of Arts in East Asian Studies

Majors in East Asian Studies begin or continue the mastery of Chinese, Japanese, or Korean. Within the humanities or social sciences, they may focus on a particular sub-region, for example, Japan; South China, Hong Kong, and Taiwan; or western China and Central Asia; or a substantive issue involving the region as a whole, such as environmental protection, public health, rural development, historiography, cultural expression, or religious beliefs. The major seeks to reduce the complexity of a region to intellectually manageable proportions and illuminate the interrelationships among the various facets of a society.

Potential majors must submit a Student Proposal for a Major in East Asian Studies form no later than the end of the first quarter of the junior year; students must declare the major by the end of the sophomore year. Majors must complete at least 75 units of course work on China, Japan, and/or Korea in addition to a 3 unit EALC 198 Senior Colloquium. Courses to be credited toward major requirements must be completed with a letter grade of 'C' or better.

The following requirements are in addition to the University's basic requirements for the bachelor's degree (p. 29). Letter grades are mandatory for required courses.

## Requirements

### I. Language

Proficiency in Chinese, Japanese, or Korean language at the second-year level or above, to be met either by course work or examination. Students who meet the requirement through examination are still expected to take an additional 15 units of language at a higher level, or literature courses taught in the language, or the first year in an additional Asian language. No more than 30 units of language courses are counted toward the major.

### II. Area Courses

A minimum of three area courses, one in each category below: Humanities, History, Social Sciences. Courses listed are examples and not exhaustive; if uncertain whether a particular course fits into one of these categories, contact the department to check.

#### A. Humanities

CHINA 111	Literature in 20th-Century China
CHINA 153	Chinese Bodies, Chinese Selves
JAPAN 124	
JAPAN 138	Introduction to Modern Japanese Literature and Culture
JAPAN 284	
KOREA 101N	Kangnam Style: Korean Soft Power in the Global Economy
KOREA 121	
RELIGST 50	Exploring Buddhism
RELIGST 55	Exploring Zen Buddhism
RELIGST 56	Exploring Chinese Religions

#### B. History

HISTORY 11SC	How Is a Buddhist
HISTORY 95	Modern Korean History
HISTORY 95C	Modern Japanese History: From Samurai to Pokemon
HISTORY 106A	Global Human Geography: Asia and Africa
HISTORY 194B	Japan in the Age of the Samurai
HISTORY 195	Modern Korean History
HISTORY 195C	Modern Japanese History: From Samurai to Pokemon
HISTORY 292F	Culture and Religions in Korean History
HISTORY 295J	

#### C. Social Sciences

JAPAN 151	Japanese Business Culture and Systems
EASTASN 217	Health and Healthcare Systems in East Asia
IPS 244	U.S. Policy toward Northeast Asia
IPS 246	China on the World Stage
POLISCI 148	Chinese Politics
POLISCI 211	
SOC 116	Chinese Organizations and Management
SOC 117A	China Under Mao
SOC 167A	Asia-Pacific Transformation

### III. Substantive Concentration

Additional courses on East Asia, one of which must be a seminar above the 100-level. Majors are encouraged to distribute their course work among at least three disciplines and two subregions in Asia. The subregions need not be traditionally defined. Examples include China, Japan, or Korea; or, in recognition of the new subregions which are emerging, South China and Taiwan, or Central Asia. At least four courses must have a thematic coherence built around a topic. Examples include:

- East Asian religions and philosophies
- Culture and society of modern Japan
- Ethnic identities in East Asia
- Arts and literature in late imperial China
- Foreign policy in East Asia
- Social transformation of modern Korea
- China's political economy

See ExploreCourses under CHINA, EASTASN, JAPAN, KOREA, and EALC or other relevant departments.

#### IV. Capstone Essay

Completion of a paper of approximately 7,500 words, written either in a directed reading course or for one of the courses in item 3 above, which should be built upon the student's thematic interest. Majors are required to take EALC 198 Senior Colloquium in Chinese Studies (3 units) Winter Quarter of the senior year to develop and present the capstone essay or honors paper. A faculty adviser for the capstone essay must be submitted by the beginning of the Autumn Quarter of senior year.

EALC 198	Senior Colloquium
----------	-------------------

#### V. Overseas Studies

Majors must study for at least one quarter overseas in the country of focus.

#### VI. Writing in the Major

An East Asian Studies course that satisfies the University Writing in the Major requirement (WIM) should be completed before beginning the senior capstone essay or honors thesis. Depending on the country of focus students should choose from the following 3 WIM courses:

CHINA 111	Literature in 20th-Century China
JAPAN 138/ COMPLIT 138A	Introduction to Modern Japanese Literature and Culture
KOREA 120	

#### VII. Unit Minimum

The courses taken for the major must add up to at least 78 units, comprised of the 3 unit Senior Colloquium and at least 75 additional units, all taken for a letter grade. Courses must be at least 3 units to be counted towards the degree.

### Honors Program

Majors with an overall grade point average (GPA) of 3.5 may apply for the honors program by submitting a senior thesis proposal to the honors committee during Winter or Spring Quarter of the junior year. The proposal must include a thesis outline, a list of all relevant courses the student has taken or plans to take, a preliminary reading list including a work or works in Chinese or Japanese, and the name of a faculty member who has agreed to act as honors supervisor.

If the proposal is approved, research begins in Spring Quarter of the junior year, or by Autumn Quarter at the latest, when the student enrolls in 2-5 units of credit for independent study. In Winter Quarter, students enroll for five units in independent study (CHINA 198H Senior Research, JAPAN 198H Senior Research, or KOREA 198H Senior Research) with the thesis supervisor while writing the thesis, and the finished essay (normally about 15,000 words) is submitted to the committee no later than April 15 of the senior year. Students enroll in the Senior Colloquium, EALC 198 Senior Colloquium, in the senior year to polish and present

their theses (instead of writing a capstone essay). Eight to eleven units of credit are granted for honors course work and the finished thesis. One advanced level colloquium or seminar dealing with China, Japan, or Korea is required as well.

## Bachelor of Arts in East Asian Studies, China Subplan

The Bachelor of Arts in East Asian Studies, China Subplan, offers students the ability to study East Asia with a special focus on Chinese culture and language. The Bachelor of Arts in East Asian Studies, China Subplan, replaced the department's Bachelor of Arts in Chinese. Students currently pursuing the Bachelor of Arts in Chinese may choose to continue his or her plan of study, or opt to complete the Bachelor of Arts in East Asian Studies, China Subplan requirement instead. Note: Once students drop the Bachelor of Arts in Chinese on Axxess, they cannot re-enroll/declare under the Bachelor of Arts in Chinese again. Consult the Director of Undergraduate Studies or Student Services Officer for more clarification.

The following requirements are in addition to the University's basic requirements for the bachelor's degree (p. 29). Letter grades are mandatory for required courses. The following courses as well as their prerequisites must be completed with a grade point average (GPA) of 2.0 or better.

### Requirements

Units

#### I. Gateway Courses

Students must take two gateway courses appropriate to the East Asian Studies, China Subplan. Courses can be from the "East Asian Gateway Course Cluster" and/or the "Gateway Course Cluster for the China Subplan" tables (see below). One of the two courses chosen must be taught by the department.

##### East Asian Gateway Course Cluster

EASTASN 97	The International Relations of Asia since World War II
ECON 124	Economic Development and Challenges of East Asia
HISTORY 92A	The Historical Roots of Modern East Asia
POLISCI 211	
RELIGST 55	Exploring Zen Buddhism
SOC 167A	Asia-Pacific Transformation
THINK 53	Food Talks: The Language of Food

##### Gateway Course Cluster for China Subplan

CHINA 110	How to Be Modern in China: A Gateway to the World Course
CHINA 168	The Chinese Family
ESF 9	Education as Self-Fashioning: Chinese Traditions of the Self
or ESF 9A	Education as Self-Fashioning: Chinese Traditions of the Self
IPS 246	China on the World Stage
POLISCI 148	Chinese Politics
RELIGST 56	Exploring Chinese Religions
SOC 116	Chinese Organizations and Management
SOC 117A	China Under Mao

#### II. Proficiency of the modern Chinese language, at the third year level

Students must be proficient in modern Chinese at the third-year level. Students should take a language assessment test offered at the Language Center to determine language proficiency before signing up for classes. Students without previous experiences in Chinese can begin by selecting one of the following series (see below) and continue until the third-year of modern Chinese. For more clarification, please check with the department.

Series a:

CHINLANG 1	First-Year Modern Chinese, First Quarter
CHINLANG 2	First-Year Modern Chinese, Second Quarter
CHINLANG 3	First-Year Modern Chinese, Third Quarter

Series b:

CHINLANG 1B	First-Year Modern Chinese for Bilingual Students, First Quarter
CHINLANG 2B	First-Year Modern Chinese for Bilingual Students, Second Quarter
CHINLANG 3B	First-Year Modern Chinese for Bilingual Students, Third Quarter

Series c:

CHINLANG 5	Intensive First-Year Modern Chinese
------------	-------------------------------------

### III. Classical Chinese

Students must take at least one classical Chinese course.

CHINA 105	Beginning Classical Chinese, First Quarter
CHINA 106	Beginning Classical Chinese, Second Quarter
CHINA 107	Beginning Classical Chinese, Third Quarter

### IV. Additional Courses

22-25

A. Three CHINA courses at the 100 level with one in each of the following areas:

- Pre-modern China
- Modern China
- Chinese linguistics

B. Four other content courses, as approved by the undergraduate faculty adviser. One of these should be a History course offered by the Department of History.

C. CHINA 111 to fulfill the Writing in the Major (WIM) requirement.

CHINA 111	Literature in 20th-Century China
-----------	----------------------------------

The following courses are offered for the 2017-18 academic year:

ARCHLGY 124	Archaeology of Food: production, consumption and ritual
CHINA 111	Literature in 20th-Century China
CHINA/ JAPAN/ KOREA 117	Humanities Core: Love and Betrayal in Asia
CHINA 155	The Culture of Entertainment in China
CHINA 166	Chinese Ci Poetry (Song Lyrics)
CHINA 176	Emergence of Chinese Civilization from Caves to Palaces
CHINA 254A	Shaping the Theater: Two Foundational Plays of Early Chinese Drama
CHINA 70N	Animal Planet and the Romance of the Species
CHINA/ JAPAN/ KOREA 118	Humanities Core: Everybody Eats: The Language, Culture, and Ethics of Food in East Asia
CHINA 168	The Chinese Family
CHINA 192	
CHINA 279	For Love of Country: National Narratives in Chinese Literature and Film
THINK 55	Understanding China through Film
CHINA 115	Sex, Gender, and Power in Modern China
CHINA 170	Chinese Language, Culture, and Society

CHINA 177

### V. Senior Capstone Essay

Students enroll in EALC 198: Senior Colloquium Winter Quarter of the senior year to work on their senior capstone essay or senior honors thesis.

EALC 198	Senior Colloquium
----------	-------------------

## Honors Program

Majors with an overall grade point average (GPA) of 3.5 may apply for the honors program by submitting a senior thesis proposal to the honors committee during Winter or Spring Quarter of the junior year. The proposal must include:

- a thesis outline
- a list of all relevant courses the student has taken or plans to take
- a preliminary reading list including a work or works in Chinese,
- the name of a faculty member who has agreed to act as honors supervisor.

If the proposal is approved:

1. Research begins in Spring Quarter of the junior year, or by Autumn Quarter of the senior year at the latest, when the student enrolls in CHINA 198H Senior Research.
2. In Winter Quarter of the senior year, students enroll for 5 units in independent study, CHINA 198H Senior Research, with the thesis supervisor while writing the thesis, and the finished essay (normally about 15,000 words) is submitted to the committee no later than April 15 of the senior year.
3. Students also enroll in EALC 198 Senior Colloquium during the Winter Quarter of the senior year to polish and present their thesis (instead of writing a senior capstone essay).
4. 8-11 units of credit are granted for honors course work and the finished thesis.

## Bachelor of Arts in East Asian Studies, Japan Subplan

The Bachelor of Arts in East Asia, Japan Subplan, offers students the ability to study East Asia with a special focus on Japanese culture and language. The Bachelor of Arts in East Asian Studies, Japan Subplan, replaced the department's Bachelor of Arts in Japanese. Students currently pursuing the Bachelor of Arts in Japanese may choose to continue his or her plan of study, or opt to complete the Bachelor of Arts in East Asian Studies, Japan Subplan requirement instead. *Note:* Once students drop the Bachelor of Arts in Japanese on Axess, he or she cannot re-enroll/declare under the Bachelor of Arts in Japanese again. Consult Prof. Yiqun Zhou, Director of Undergraduate Studies, or Ai Tran, EALC's student services officer, for more clarification.

The following requirements are in addition to the University's basic requirements for the bachelor's degree (p. 29). Letter grades are mandatory for required courses. The following courses as well as their prerequisites must be completed with a grade point average (GPA) of 2.0 or better:

Requirements

Units  
6-10

### I. Gateway Courses

Students must take two gateway courses appropriate to the East Asian Studies, Japan Subplan. Courses can be from the "East Asian Gateway Course Cluster" and/or the "Gateway Course Cluster for the Japan Subplan" (see below). One of the two courses chosen must be offered by the department.

East Asian Gateway Course Cluster

EASTASN 97	The International Relations of Asia since World War II
ECON 124	Economic Development and Challenges of East Asia
HISTORY 92A	The Historical Roots of Modern East Asia
POLISCI 211	
RELIGST 55	Exploring Zen Buddhism
SOC 167A	Asia-Pacific Transformation
THINK 53	Food Talks: The Language of Food
Gateway Course Cluster for Japan Subplan	
EASTASN 153	Japan & the World: Innovation, Economic Growth, Globalization, and Int'l Security Challenges
HISTORY 94B	Japan in the Age of the Samurai
HISTORY 95C	Modern Japanese History: From Samurai to Pokemon
JAPAN 82N	Joys and Pains of Growing Up and Older in Japan
JAPAN 110	Romance, Desire, and Sexuality in Modern Japanese Literature
JAPAN 122	Translating Cool: Globalized Popular Culture in Asia
JAPAN 148	
JAPAN 151	Japanese Business Culture and Systems
JAPAN 160	
JAPAN 184	
JAPAN 186	

## II. Proficiency of the modern Japanese language, at the third-year level 45

Students must be proficient in modern Japanese at the third-year level. Students should take a language assessment test offered at the Language Center to determine language proficiency before signing up for classes. Students without previous experiences in Chinese can begin by selecting one of the following series (see below) and continue until the third-year of modern Chinese. For more clarification, please check with the department.

First-year Modern Japanese:

JAPANLNG 1	First-Year Japanese Language, Culture, and Communication, First Quarter
JAPANLNG 2	First-Year Japanese Language, Culture, and Communication, Second Quarter
JAPANLNG 3	First-Year Japanese Language, Culture, and Communication, Third Quarter

Second-year Modern Japanese:

JAPANLNG 21	Second-Year Japanese Language, Culture, and Communication, First Quarter
JAPANLNG 22	Second-Year Japanese Language, Culture, and Communication, Second Quarter
JAPANLNG 23	Second-Year Japanese Language, Culture, and Communication, Third Quarter

Third-year Modern Japanese:

JAPANLNG 101	Third-Year Japanese Language, Culture, and Communication, First Quarter
JAPANLNG 102	Third-Year Japanese Language, Culture, and Communication, Second Quarter
JAPANLNG 103	Third-Year Japanese Language, Culture, and Communication, Third Quarter

## III. Additional Courses 25

A. Three JAPAN courses at the 100-level with one in each of the following areas:

- Pre-modern Japan
- Modern Japan

- Japanese Linguistics

B. Four other content courses dealing with Japan primarily at the 100-level, as approved by the Director of Undergraduate Studies.

C. JAPAN 138 to fulfill the Writing in the Major (WIM) requirement.

JAPAN 138	Introduction to Modern Japanese Literature and Culture
-----------	--

The following courses are offered in the 2016-17 academic year:

JAPAN/ CHINA/KOREA 117	Humanities Core: Love and Betrayal in Asia
JAPAN 138	Introduction to Modern Japanese Literature and Culture
JAPAN 162	Japanese Poetry and Poetics
JAPAN 170	The Tale of Genji and Its Historical Reception
JAPAN 192	Analyzing Japanese Text and Talk
JAPAN/ CHINA/KOREA 118	Humanities Core: Everybody Eats: The Language, Culture, and Ethics of Food in East Asia
JAPAN 159	The Paranormal in Premodern Japan
JAPAN 163	Japanese Performance Traditions
JAPAN 82N	Joys and Pains of Growing Up and Older in Japan
JAPAN/ CHINA/ KOREA 157/ HISTORY 294J	

## IV. Senior Capstone Essay

Students must also complete of a capstone essay of approximately 7,500 words, written either in a directed reading course or for one of the courses listed above.

EALC 198	Senior Colloquium
----------	-------------------

Additional notes:

- Students who complete third-year Japanese at KCJS satisfy the language requirement but are required to take a placement test if they wish to enroll in:
  - JAPANLNG 211 Fourth-Year Japanese, First Quarter
  - JAPANLNG 212 Fourth-Year Japanese, Second Quarter
  - JAPANLNG 213 Fourth-Year Japanese, Third Quarter

These requirements are in addition to the University's basic requirements for the bachelor's degree. Letter grades are mandatory for required courses.

## Honors Program

Majors with an overall grade point average (GPA) of 3.5 may apply for the honors program by submitting a senior thesis proposal to the honors committee during Winter or Spring Quarter of the junior year. The proposal must include a thesis outline, a list of all relevant courses the student has taken or plans to take, a preliminary reading list including a work or works in Japanese, and the name of a faculty member who has agreed to act as honors supervisor.

if the proposal is approved:

- research begins in Spring Quarter of the junior year, or by Autumn Quarter of the senior year at the latest, when the student enrolls in JAPAN 198H Senior Research
- in Winter Quarter of the senior year, students enroll for five units in independent study JAPAN 198H Senior Research with the thesis supervisor while writing the thesis, and the finished essay (normally about 15,000 words) is submitted to the committee no later than April 15 of the senior year

- students enroll in the Senior Colloquium, EALC 198 Senior Colloquium, in the Winter Quarter of the senior year to polish and present their theses (instead of writing a capstone essay)
- eight to eleven units of credit are granted for honors course work and the finished thesis

## Bachelor of Arts in East Asian Studies, Japanese Language Subplan

The Bachelor of Arts in East Asian Studies, Japanese Language Subplan, offers students the ability to study East Asia with a special focus on Japanese language. Students are still required to take courses on Japanese culture, as indicated in the requirements below.

The following requirements are in addition to the University's basic requirements for the bachelor's degree. Letter grades are mandatory for required courses. The following courses as well as their prerequisites must be completed with a grade point average (GPA) of 2.0 or better.

### Requirements

#### I. Proficiency of Japanese at the Fourth-Year Level

Students must be proficient at the 4th year level of Japanese. Students should take a language assessment test offered at the Language Center to determine language proficiency before signing up for classes. Students without prior Japanese language experience should enroll in first-, second-, third-year, and fourth-year modern Japanese.

Students pursuing a Bachelor of Arts in East Asian Studies, Japanese Language Subplan, are encouraged to take advantage of the East Asia Undergraduate Summer Language Study Grants and pursue language and training abroad during summer break.

Those at the advanced level of fourth-year or beyond see Section II.B. (below).

First-Year Modern Japanese:

JAPANLNG 1	First-Year Japanese Language, Culture, and Communication, First Quarter
JAPANLNG 2	First-Year Japanese Language, Culture, and Communication, Second Quarter
JAPANLNG 3	First-Year Japanese Language, Culture, and Communication, Third Quarter

Second-Year Modern Japanese:

JAPANLNG 21	Second-Year Japanese Language, Culture, and Communication, First Quarter
JAPANLNG 22	Second-Year Japanese Language, Culture, and Communication, Second Quarter
JAPANLNG 23	Second-Year Japanese Language, Culture, and Communication, Third Quarter

Third-Year Modern Japanese:

JAPANLNG 101	Third-Year Japanese Language, Culture, and Communication, First Quarter
JAPANLNG 102	Third-Year Japanese Language, Culture, and Communication, Second Quarter
JAPANLNG 103	Third-Year Japanese Language, Culture, and Communication, Third Quarter

Fourth-Year Modern Japanese:

JAPANLNG 211	Fourth-Year Japanese, First Quarter
JAPANLNG 212	Fourth-Year Japanese, Second Quarter
JAPANLNG 213	Fourth-Year Japanese, Third Quarter

#### II. Additional Courses

Four additional courses that deal primarily with materials in Japanese, one in each of the areas of:

- Premodern Japan

- Modern Japan
- Japanese linguistics

B. Students who place out of 4th-year Japanese (JAPAN 213) are required to take six courses in addition to JAPAN 235: Academic Readings in Japanese. The six courses taken must fulfill one of the areas of pre-modern Japan, modern Japan, and Japanese linguistics.

JAPAN 235 Academic Readings in Japanese I

C. In addition to the additional courses, students must also take JAPAN 138: Introduction to Modern Japanese Literature and Culture (Writing in the Major course)

JAPAN 138 Introduction to Modern Japanese Literature and Culture

The following courses are offered in the 2017-18 academic year:

JAPAN 82N Joys and Pains of Growing Up and Older in Japan

JAPAN/ CHINA/KOREA 117 Humanities Core: Love and Betrayal in Asia

JAPAN/ CHINA/KOREA 118 Humanities Core: Everybody Eats: The Language, Culture, and Ethics of Food in East Asia

JAPAN 138 Introduction to Modern Japanese Literature and Culture

JAPAN/ CHINA/ KOREA 157/ HISTORY 294J

JAPAN 159 The Paranormal in Premodern Japan

JAPAN 162 Japanese Poetry and Poetics

JAPAN 163 Japanese Performance Traditions

JAPAN 170 The Tale of Genji and Its Historical Reception

JAPAN 192 Analyzing Japanese Text and Talk

#### III. Senior Capstone Essay

Students must also complete a capstone essay of approximately 7,500 words, written either in a directed reading course or one of the courses listed above. Students may opt to write an Honors Thesis for the East Asian Studies, Japanese Language Subplan, in place of the Senior Capstone Essay. The research must incorporate Japanese-language primary and secondary material. This proposal must be submitted and approved by the honors committee during Winter or Spring Quarter of the junior year. (See below for more information on the Honors Program). Students may also enroll in JAPAN 198C: Senior Research (Capstone Essay) for one unit for each quarter with his or her capstone adviser for credit.

EALC 198 Senior Colloquium

JAPAN 198C Senior Research

#### Honors Program

Majors with an overall grade point average (GPA) of 3.5 may apply for the honors program by submitting a senior thesis proposal to the honors committee during Winter or Spring Quarter of the junior year. The proposal must include a thesis outline, a list of all relevant courses the student has taken or plans to take, a preliminary reading list including a work or works in Japanese, and the name of a faculty member who has agreed to act as honors thesis adviser/supervisor. The research must incorporate Japanese-language primary and secondary materials.

if the proposal is approved:

- research begins in Spring Quarter of the junior year, or by Autumn Quarter of the senior year at the latest, when the student enrolls in JAPAN 198H Senior Research
- in Winter Quarter of the senior year, students enroll for five units in independent study JAPAN 198H Senior Research with the thesis supervisor while writing the thesis, and the finished essay (normally

about 15,000 words) is submitted to the committee no later than April 15 of the senior year

- students enroll in the Senior Colloquium, EALC 198 Senior Colloquium, in the Winter Quarter of the senior year to polish and present their theses (instead of writing a capstone essay)
- 8 - 11 units of credit are granted for honors course work and the finished thesis.

## Bachelor of Arts in East Asian Studies, Korean Subplan

The Bachelor of Arts in East Asia, Korean Subplan, offers students the ability to study East Asia with a special focus on Korean culture and language. The following requirements are in addition to the University's basic requirements for the bachelor's degree (p. 29). Letter grades are mandatory for required courses. The following courses as well as their prerequisites must be completed with a grade point average (GPA) of 2.0 or better.

### Requirements

#### I. Gateway Courses

Students must take two gateway courses appropriate to the East Asian Studies, Korean Subplan. Courses can be from the "East Asian Gateway Course Cluster" and/or the "Gateway Course Cluster for the Korean Subplan" tables (see below). One of the two courses chosen must be taught by the department.

##### East Asian Gateway Course Cluster

THINK 53	Food Talks: The Language of Food
RELIGST 55	Exploring Zen Buddhism
HISTORY 92A	The Historical Roots of Modern East Asia
ECON 124	Economic Development and Challenges of East Asia
SOC 167A	Asia-Pacific Transformation
POLISCI 211	

##### Gateway Course Cluster for Korea Subplan

KOREA 122	Translating Cool: Globalized Popular Culture in Asia
KOREA 101	or KOREA 101NKangnam Style: Korean Soft Power in the Global Economy

#### II. Three Years of Modern Korean

45

Students to take a minimum of 3 years of Korean language courses. Students should take a language assessment test offered at the Language Center to determine language proficiency before signing up for classes. Students without prior Japanese language experience should enroll in first-, second-, and third-year modern Korean.

First-year modern Korean:

KORLANG 1	First-Year Korean, First Quarter
KORLANG 2	First-Year Korean, Second Quarter
KORLANG 3	First-Year Korean, Third Quarter

#### III. Additional Courses

A. Complete the Writing in the Major (WIM) requirement.

KOREA 120

B. Take 6 additional courses at the 100-level, a minimum of two 100-level courses must be offered by the department.

Courses offered by the department:

KOREA 101	or KOREA 101NKangnam Style: Korean Soft Power in the Global Economy
KOREA 121	

KOREA 122	Translating Cool: Globalized Popular Culture in Asia
-----------	--

KOREA 140	
-----------	--

KOREA 156	Sino-Korean Relations, Past and Present
-----------	---

KOREA 157	
-----------	--

KOREA 230	
-----------	--

KOREA 231	
-----------	--

Courses offered outside the department:

HISTORY 195	Modern Korean History
-------------	-----------------------

HISTORY 290/390	North Korea in Historical Perspective
-----------------	---------------------------------------

HISTORY 292F/392F	Culture and Religions in Korean History
-------------------	---

SOC 111/ INTNLREL 143/ SOC 211	
--------------------------------------	--

EASTASN 189K/289K	The Diplomatic and Security Challenges for Korea
-------------------	--

#### IV. Senior Capstone Essay

4

Units

6-10

Students enroll in EALC 198: Senior Colloquium Winter Quarter of the senior year to work on their senior capstone essay or senior honors thesis.

EALC 198	Senior Colloquium
----------	-------------------

### Honors Program

Majors with an overall grade point average (GPA) of 3.5 may apply for the honors program by submitting a senior thesis proposal to the honors committee during Winter or Spring Quarter of the junior year. The proposal must include a thesis outline, a list of all relevant courses the student has taken or plans to take, a preliminary reading list including a work or works in Japanese, and the name of a faculty member who has agreed to act as honors supervisor.

The proposal must include:

- a thesis outline
- a list of all relevant courses the student has taken or plans to take
- a preliminary reading list including a work or works in Korean
- the name of a faculty member who has agreed to supervise the honors thesis as the thesis adviser.

if the proposal is approved:

- research begins in Spring Quarter of the junior year, or by Autumn Quarter of the senior year, at the latest, when the student enrolls in KOREA 198H Senior Research
- in Winter Quarter of the senior year, students enroll for 5 units in independent study, KOREA 198H Senior Research, with thesis adviser while writing the thesis, and the finished essay (normally 15,000 works) is submitted to the Director of Undergraduate Studies and honors committee no later than April 15 of the senior year
- students enroll in EALC 198 Senior Colloquium in the Winter Quarter of the senior year to polish and present their thesis (instead of writing a capstone essay).
- 8-11 units of credit are granted for honors coursework and the finished thesis.

### Overseas Studies

Courses approved for the East Asian Languages and Cultures majors which are taught overseas can be found in the "Overseas Studies (p. 124)" section of this Bulletin, or in the Overseas Studies office, Sweet

Hall. To find course offerings in ExploreCourses, click on OSPKYOTO or OSPBEIJ.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) web site or the Bing Overseas Studies (<http://bosp.stanford.edu>) web site. Students should consult with their faculty adviser for applicability of Overseas Studies courses to a major or minor program.

## Minor in East Asian Studies

The goal of the minor in East Asian Studies is to provide the student with a broad background in East Asian culture as a whole, while allowing the student to focus on a geographical or temporal aspect of East Asia. The minor may be designed from the following, for a total of six courses and a minimum of 20 units. All courses should be taken for a letter grade.

1. Three area courses, one in each category (see East Asian Studies major for listing of area courses).
2. One undergraduate seminar above the 100 level and two other courses from among those listed as approved for East Asian Studies majors, including literature courses but excluding language courses. These courses are listed under the East Asian Studies major in this bulletin.

Applications for the minor should be submitted online through Axess and are due no later than the second quarter of the junior year.

## Minor in East Asian Studies, China Subplan

The undergraduate minor in Chinese has been designed to give students majoring in other departments an opportunity to gain a substantial introduction to the Chinese language, as well as an introduction to the culture and civilization of East Asia. The minors consist of a minimum of 20 units from the following requirements:

### I. Two years of modern Chinese

Units  
9-15

Completion of language study through the second-year level for students with no previous training in Chinese. Students may select one of the following series:

Series A:

CHINLANG 21	Second-Year Modern Chinese, First Quarter
CHINLANG 22	Second-Year Modern Chinese, Second Quarter
CHINLANG 23	Second-Year Modern Chinese, Third Quarter

Series B:

CHINLANG 21B	Second-Year Modern Chinese for Bilingual Students, First Quarter
CHINLANG 22B	Second-Year Chinese for Bilingual Students, Second Quarter
CHINLANG 23B	Second-Year Chinese for Bilingual Students, Third Quarter

Series C:

CHINLANG 25 Intensive Second-Year Modern Chinese

Students who already have first-year competence in Chinese must complete the third-year level of modern Chinese, completing one of the series below:

Series A:

CHINLANG 101	Third-Year Modern Chinese, First Quarter
CHINLANG 102	Third-Year Modern Chinese, Second Quarter
CHINLANG 103	Third-Year Modern Chinese, Third Quarter

Series B:

CHINLANG 101B Third-Year Modern Chinese for Bilingual Students, First Quarter

CHINLANG 102 Third-Year Modern Chinese for Bilingual Students, Second Quarter

CHINLANG 103B Third-Year Modern Chinese for Bilingual Students, Third Quarter

Series C:

CHINLANG 205B Intensive Third-Year Modern Chinese

Students who already have a competence at the second-year level may fulfill the language component of the minor by taking three courses in the department using materials in Chinese. These courses may be language courses such as the third-year sequence mentioned above, the fourth-year language sequence, or they may be advanced literature and linguistics courses, depending on the capabilities and interests of the student.

### II. Two Gateway Courses

Complete two gateway courses offered by the EALC department; students make take courses from the "East Asian Gateway Course Cluster" and/or the "Gateway Course Cluster for China Subplan."

THINK 53	Food Talks: The Language of Food
RELIGST 55	Exploring Zen Buddhism
HISTORY 92A	The Historical Roots of Modern East Asia
EASTASN 97	The International Relations of Asia since World War II
ECON 124	Economic Development and Challenges of East Asia
SOC 167A	Asia-Pacific Transformation
POLISCI 211	
CHINA 110	How to Be Modern in China: A Gateway to the World Course
CHINA 168	The Chinese Family
ESF 9/9A	Education as Self-Fashioning: Chinese Traditions of the Self
RELIGST 56	Exploring Chinese Religions
IPS 246	China on the World Stage
POLISCI 148	Chinese Politics
SOC 116	Chinese Organizations and Management
SOC 117A	China Under Mao

### III. Three content courses

Three courses selected from among the department's other offerings in the literature, linguistics, and civilization of the relevant minor area. All courses for the minor must be taken for a letter grade and completed with a GPA of 2.0 or better. Consult with the department to potentially count one of the BOSP courses taught by a Stanford home campus faculty member toward the minor.

The following courses are offered in the 2017-18 academic year:

ARCHLGY 124	Archaeology of Food: production, consumption and ritual
CHINA 105	Beginning Classical Chinese, First Quarter
CHINA 111	Literature in 20th-Century China
CHINA/ JAPAN/ KOREA 117	Humanities Core: Love and Betrayal in Asia
CHINA 155	The Culture of Entertainment in China
CHINA 166	Chinese Ci Poetry (Song Lyrics)
CHINA 176	Emergence of Chinese Civilization from Caves to Palaces
CHINA 254A	Shaping the Theater: Two Foundational Plays of Early Chinese Drama
CHINA 70N	Animal Planet and the Romance of the Species

CHINA 118	Humanities Core: Everybody Eats: The Language, Culture, and Ethics of Food in East Asia
CHINA 168	The Chinese Family
CHINA 192	
THINK 55	Understanding China through Film
CHINA 107	Beginning Classical Chinese, Third Quarter
CHINA 115	Sex, Gender, and Power in Modern China
CHINA 170	Chinese Language, Culture, and Society
CHINA 177	
CHINA 157	

## Minor in East Asian Studies, Japan Subplan

The undergraduate minor in Japanese has been designed to give students majoring in other departments an opportunity to gain a substantial introduction to the Japanese language, as well as an introduction to the culture and civilization of East Asia. The minors consist of a minimum of 20 units from the following requirements:

### I. Two years of modern Japanese

Completion of language study through the second-year level for students with no previous training in Japanese. Students choose to complete one of the following series:

Series A:

JAPANLNG 21	Second-Year Japanese Language, Culture, and Communication, First Quarter
JAPANLNG 22	Second-Year Japanese Language, Culture, and Communication, Second Quarter
JAPANLNG 23	Second-Year Japanese Language, Culture, and Communication, Third Quarter

Series B:

JAPANLNG 20	Intensive Second-Year Japanese
-------------	--------------------------------

Students who already have first-year competence in Japanese must complete the third-year course. Choosing one of the following series:

Series A:

JAPANLNG 101	Third-Year Japanese Language, Culture, and Communication, First Quarter
JAPANLNG 102	Third-Year Japanese Language, Culture, and Communication, Second Quarter
JAPANLNG 103	Third-Year Japanese Language, Culture, and Communication, Third Quarter

Series B:

JAPANLNG 105	Intensive 3rd Year Modern Japanese
--------------	------------------------------------

Students who already have a competence at the second-year level may fulfill the language component of the minor by taking three courses in the department using materials in Japanese. These courses may be language courses such as the third-year sequence mentioned above, the fourth-year language sequence, or they may be advanced literature and linguistics courses, depending on the capabilities and interests of the student. Obtain permission from the Director of Undergraduate Studies before proceeding.

### II. Two Gateway Courses

Complete two gateway courses offered by the EALC department; students make take courses from the "East Asian Gateway Course Cluster" and/or the "Gateway Course Cluster for Japan Subplan."

THINK 53	Food Talks: The Language of Food
RELIGST 55	Exploring Zen Buddhism
HISTORY 92A	The Historical Roots of Modern East Asia

EASTASN 97	The International Relations of Asia since World War II
ECON 124	Economic Development and Challenges of East Asia
SOC 167A	Asia-Pacific Transformation
POLISCI 211	
EASTASN 153	Japan & the World: Innovation, Economic Growth, Globalization, and Int'l Security Challenges
JAPAN 82N	Joys and Pains of Growing Up and Older in Japan
JAPAN 110	Romance, Desire, and Sexuality in Modern Japanese Literature
JAPAN 122	Translating Cool: Globalized Popular Culture in Asia
JAPAN 148	
JAPAN 151	Japanese Business Culture and Systems
JAPAN 160	
JAPAN 184	
JAPAN 186	
HISTORY 94B	Japan in the Age of the Samurai
HISTORY 95C	Modern Japanese History: From Samurai to Pokemon

Units  
9-15

### III. Three Japanese content courses

Choose 3 courses selected from among the department's other offerings in the literature, linguistics, and civilization of the relevant minor area. All courses for the minor must be taken for a letter grade and completed with a GPA of 2.0 or better. Consult with the Undergraduate Studies Adviser to potentially count one of the OSPKYOTO courses taught by a Stanford home campus faculty member toward the minor.

JAPAN 110/ FEMGEN 110J	Romance, Desire, and Sexuality in Modern Japanese Literature
JAPAN 164	Introduction to Premodern Japanese
JAPAN 197	Points in Japanese Grammar
JAPAN 121	Translating Japan, Translating the West
JAPAN 151	Japanese Business Culture and Systems
JAPAN 138/ COMPLIT 138A	Introduction to Modern Japanese Literature and Culture
JAPAN 287	Pictures of the Floating World: Images from Japanese Popular Culture
JAPAN/ KOREA/CHINA 157	

## Minor in East Asian Studies, Japanese Language Subplan

The undergraduate minor in East Asian Studies, Japanese Language Subplan, has been designed to give students majoring in other departments and opportunity to gain a substantial introduction to the Japanese language, as well as an introduction to the culture and civilization of East Asia. University policy requires that minor degrees must consist of a minimum of 20 units. Students must complete the from the following requirements:

### I. Proficiency of Modern Japanese, at the Fourth-Year level

Proficiency of modern Japanese language through the fourth-year level.

First-Year Modern Japanese:

JAPANLNG 1	First-Year Japanese Language, Culture, and Communication, First Quarter
JAPANLNG 2	First-Year Japanese Language, Culture, and Communication, Second Quarter

JAPANLNG 3 First-Year Japanese Language, Culture, and Communication, Third Quarter

Second-Year Modern Japanese:

JAPANLNG 21 Second-Year Japanese Language, Culture, and Communication, First Quarter

JAPANLNG 22 Second-Year Japanese Language, Culture, and Communication, Second Quarter

JAPANLNG 23 Second-Year Japanese Language, Culture, and Communication, Third Quarter

Third-Year Modern Japanese:

JAPANLNG 101 Third-Year Japanese Language, Culture, and Communication, First Quarter

JAPANLNG 102 Third-Year Japanese Language, Culture, and Communication, Second Quarter

JAPANLNG 103 Third-Year Japanese Language, Culture, and Communication, Third Quarter

Fourth-Year Modern Japanese:

JAPANLNG 211 Fourth-Year Japanese, First Quarter

JAPANLNG 212 Fourth-Year Japanese, Second Quarter

JAPANLNG 213 Fourth-Year Japanese, Third Quarter

## II. Additional Courses

A. Students must take 2 JAPAN additional courses with materials in Japanese.

B. Students who place out of fourth-year Japanese (JAPAN 213: Fourth-Year Japanese, Third Quarter) are required to take 3 courses in addition to JAPAN 235: Academic Readings in Japanese.

The following courses will be offered in 2017-18 academic year:

JAPAN 117 Humanities Core: Love and Betrayal in Asia

JAPAN 118 Humanities Core: Everybody Eats: The Language, Culture, and Ethics of Food in East Asia

JAPAN 138 Introduction to Modern Japanese Literature and Culture

JAPAN 157

JAPAN 164 Introduction to Premodern Japanese

JAPAN 191

JAPAN 192 Analyzing Japanese Text and Talk

JAPAN 197 Points in Japanese Grammar

JAPAN 235 Academic Readings in Japanese I

JAPAN 265 Readings in Premodern Japanese

JAPAN 279 Research in Japanese Linguistics

JAPAN 296

## Minor in East Asian Studies, Korea Subplan

The undergraduate minor in Korean has been designed to give students majoring in other departments an opportunity to gain a substantial introduction to the Korean language, as well as an introduction to the culture and civilizations of East Asia. All courses for the minor must be taken for a letter grade and completed with a GPA of 2.0 or better.

The minor consists of a minimum of 20 units from the following requirements:

### I. Complete two years of Korean

Completion of the second-year Korean Language, Culture and Communication for student with no previous training in Korean.

KORLANG 21 Second-Year Korean, First Quarter

KORLANG 22 Second-Year Korean, Second Quarter

KORLANG 23 Second-Year Korean, Third Quarter

Students who already have first-year competence in Korean must complete the third-year Korean language

KORLANG 101 Third-Year Korean, First Quarter

KORLANG 102 Third-Year Korean, Second Quarter

KORLANG 103 Third-Year Korean, Third Quarter

Students who already have a competence at the second-year level may fulfill the language component of the minor by taking language courses such as the third-year sequence mentioned above, the fourth-year language sequence, or they may be advanced literature courses, depending on the capabilities and interests of the student.

### II. Complete two gateway courses 6-10

Complete two gateway courses offered by the EALC department; students make take courses from the "East Asian Gateway Course Cluster" and/or the "Gateway Course Cluster for Korea Subplan."

East Asian Gateway Course Cluster:

THINK 53 Food Talks: The Language of Food

RELIGST 55 Exploring Zen Buddhism

HISTORY 92A The Historical Roots of Modern East Asia

EASTASN 97 The International Relations of Asia since World War II

ECON 124 Economic Development and Challenges of East Asia

SOC 167A Asia-Pacific Transformation

POLISCI 211

Gateway Course Cluster for KOREA Subplan:

KOREA 122 Translating Cool: Globalized Popular Culture in Asia

KOREA 101N Kangnam Style: Korean Soft Power in the Global Economy

or KOREA 101

### III. Three content courses

3 courses selected from among the department's offerings in Korean literature, film, and popular culture. Up to one course can be approved from outside the department with the undergraduate adviser's approval.

KOREA 156 Sino-Korean Relations, Past and Present

KOREA 157

## Minors in Other Departments Minor in Translation Studies

Faculty Director: Dan Edelstein

The Division of Literatures, Cultures, and Languages, in cooperation with East Asian Languages and Cultures and the English Department, teaches undergraduates to develop and apply their foreign language knowledge to the production and analysis of translations. The minor is designed to give students majoring in a variety of fields the tools to consider the practical and theoretical issues brought up by translation as an aesthetic, cultural, and ethical practice.

Course work in this minor may not duplicate work counted toward other majors or minors. Course selection must be approved by the minor adviser. For further information, contact the minor adviser, Cintia Santana (csantana@stanford.edu).

### Units

Students must take a minimum of 23 units for a letter grade, in fulfillment of the following requirements:

1. Prerequisite: Complete or test out of a first-year course in the language of interest.

Units

2. Core course: At least 4 units in a Translation Studies core course: ENGLISH/DLCL 293 or DLCL 113Q.*	4
3. Language study: At least 8 units, second year or beyond (not including conversation/oral communication) and/or relevant literature courses taught in the target language. OSP and transfer units may be considered in consultation with the minor adviser.	8
4. Literature study: At least 7 units in relevant literature courses at the 100-level or above, taught in a DLCL department, East Asian Languages and Cultures, or Classics, and determined in consultation with the minor adviser. For students interested in translation from English into another language, appropriate literature courses in the English department may be substituted.	7
5. Electives: At least 4 units in a creative writing course, or a course that foregrounds translation in departments such as Anthropology, any DLCL department, English, East Asian Languages and Cultures, Classics, Linguistics (e.g., LINGUIST 130A), or Computer Science (e.g., CS 124), determined in consultation with the minor adviser.	4
6. Final Project: Students must also complete a capstone project: a significant translation and/or translation studies project (e.g. 20 pages of prose, 10 poems, or similar appropriate amount to be determined in consultation with the minor adviser). This work may be carried out under the supervision of an instructor in a required course or as an independent study.	
<b>Total Units</b>	<b>23</b>

## Master of Arts Programs in East Asian Languages and Cultures

- The M.A. is granted in Chinese and in Japanese. The normal length of study for the degree is two years.
- No financial aid is available for those applicants who wish to obtain the M.A. only.
- Students who wish to spend the first year of graduate study at the Beijing or Yokohama centers must obtain department approval first.
- Candidates for the degree must be in residence at Stanford in California during the final quarter of registration.
- A thesis or an annotated translation of a text of suitable literary or historical worth is required for the M.A. degree. Under special circumstances, a paper approved by the graduate adviser may be substituted.
- The University's basic requirements for the master's degree, including a 45-unit minimum requirement, are given in the "Graduate Degrees (p. 50)" section of this Bulletin. Department requirements are set forth below.

### Master of Arts in Chinese

The M.A. program in Chinese is designed for students with strong academic records and an interest in pursuing postgraduate research in Chinese literature, philosophy, or linguistics, but who have not yet acquired the language skills or disciplinary foundation necessary to enter a Ph.D. program. (Note: Students who wish to pursue advanced language training in preparation for post-graduate research in other fields of Chinese studies are referred to the interdisciplinary M.A. program in the Center for East Asian Studies.)

The candidate must finish third-year Chinese, and one course in advanced classical Chinese with a letter grade of 'B' or higher. Placement tests in modern and in classical Chinese will be given for incoming students during orientation week, Autumn Quarter. Those who fail to place into advanced level classical must take beginning classical Chinese. Qualified students may, upon consultation with the graduate adviser, be permitted to certify that they have attained the equivalent level of proficiency by passing examinations.

- Demonstrate proficiency in both modern and classical Chinese through completion of one of the tracks of third-year Chinese with a letter grade of 'B' or higher :

		Units
CHINLANG 103	Third-Year Modern Chinese, Third Quarter	5
CHINLANG 103B	Third-Year Modern Chinese for Bilingual Students, Third Quarter	3

- One of three advanced classical Chinese courses:

		Units
CHINA 208	Advanced Classical Chinese: Philosophical Texts	3-5
CHINA 209	Advanced Classical Chinese: Historical Narration	2-5
CHINA 210		2-5

- Complete the following for a letter grade of 'B' or higher:

		Units
CHINA 201	Proseminar: Bibliographic and Research Methods in Chinese Studies	3-5

- Four CHINA courses numbered above 200:

		Units
The following courses are offered this year:		
CHINA 201	Proseminar: Bibliographic and Research Methods in Chinese Studies	3-5
CHINA 205	Beginning Classical Chinese, First Quarter	2-5
CHINA 206	Beginning Classical Chinese, Second Quarter	2-5
CHINA 207	Beginning Classical Chinese, Third Quarter	2-5
CHINA 208	Advanced Classical Chinese: Philosophical Texts	3-5
CHINA 209	Advanced Classical Chinese: Historical Narration	2-5
CHINA 211	Literature in 20th-Century China	4-5
CHINA 215	Sex, Gender, and Power in Modern China	3-5
CHINA 251	Popular Culture and Casino Capitalism in China	3-4
CHINA 253	Chinese Bodies, Chinese Selves	3-5
CHINA 263	Chinese Biographies of Women	3-5
CHINA 274	New Directions in the Study of Poetry and Literati Culture	3-4, 4
CHINA 275	Constructing National History in East Asian Archaeology	3-5
CHINA 280		3-4
CHINA 295J		5
CHINA 340	Chinese Justice: Law, Morality, and Literature	2-5
CHINA 371	Aesthetics, Politics, and Modernity: Critical Theory and China	2-5
CHINA 390	Practicum Internship	1
CHINA 391	Seminar in Chinese Syntax	4
HISTORY 392B		4-5

- Two upper-division or graduate-level courses in fields such as Chinese anthropology, art history, history, philosophy, politics, religious studies, or another relevant field, as approved by the graduate adviser in consultation with the student's individual adviser

- A master's thesis

		Units
CHINA 299	Master's Thesis or Translation	1-5

## Master of Arts in Chinese, Archaeology Subplan

The M.A. in Chinese, Archaeology subplan, is designed for students with an interest in pursuing postgraduate research in Chinese archaeology who have not yet acquired the language skills or disciplinary foundation necessary to enter a Ph.D. program. The subplan is declared on Axxess. Subplans are printed on the transcript and the diploma and are elected via the Declaration or Change to a Field of Study (<https://studentaffairs.stanford.edu/sites/default/files/registrar/files/grad-subplan-change.pdf>) form.

### Degree Requirements

A candidate must:

1. Demonstrate proficiency in both modern and classical Chinese by completing:
  - a. third-year Chinese through with a minimum grade of 'B+'.
  - b. one of three advanced classical Chinese courses:

CHINA 275	Constructing National History in East Asian Archaeology	3-5
CHINA 276	Emergence of Chinese Civilization from Caves to Palaces	3-4
CHINA 280		3-4

- c. Qualified students may, upon consultation with the graduate adviser, be permitted to certify that they have attained the equivalent level of proficiency by passing examinations or presenting documentary evidence of attendance at a bachelor's institution in which Chinese is the language of instruction. Exemptions may also be granted to students who study prehistoric archaeology. Instead, these students should take required course work relating to archaeology which is offered in the Stanford Archaeology Center. For details students should consult with the supervisor or the graduate adviser.

2. Complete 45 units, including the following four graduate level CHINGEN or ANTHRO subject code courses appropriate to the Chinese Archaeology track. All courses must be passed with a minimum grade of 'B+'.

a.		
ANTHRO 303	Introduction to Archaeological Theory	5
ANTHRO 307	Archaeological Methods	5
CHINA 280		3-4
CHINA 275	Constructing National History in East Asian Archaeology	3-5

3. Two upper-division or graduate-level courses in fields such as Chinese anthropology, archaeology, art history, history, philosophy, political science and religious studies, as approved by the graduate adviser in consultation with the student's individual adviser.
4. Master's thesis.

## Master of Arts in Japanese

The M.A. program in Japanese is designed for students with strong academic records and an interest in pursuing postgraduate research in Japanese literature, cultural history, or linguistics, but who have not yet acquired the language skills or disciplinary foundation necessary to enter a Ph.D. program. *Note:* Students who wish to pursue advanced language training in preparation for postgraduate research in other fields of Japanese studies are referred to the interdisciplinary M.A. program in the Center for East Asian Studies.

The candidate must:

1. Complete third-year:

		Units
JAPANLNG 101	Third-Year Japanese Language, Culture, and Communication, First Quarter	5
JAPANLNG 102	Third-Year Japanese Language, Culture, and Communication, Second Quarter	5
JAPANLNG 103	Third-Year Japanese Language, Culture, and Communication, Third Quarter	5

2. Complete fourth-year Japanese and classical Japanese with a letter grade of 'B' or higher:

		Units
Fourth-year Japanese		9-15
JAPANLNG 21	Fourth-Year Japanese, First Quarter	
JAPANLNG 21	Fourth-Year Japanese, Second Quarter	
JAPANLNG 21	Fourth-Year Japanese, Third Quarter	
Classical Japanese		5-10
JAPAN 265	Readings in Premodern Japanese	2-5
JAPAN 264	Introduction to Premodern Japanese	3-5

- *Note:* qualified students may, upon consultation with the graduate adviser, be permitted to certify that they have attained the equivalent level of proficiency by passing examinations.

3. Complete the following with a letter grade of 'B' or higher:
  - a. four adviser-approved courses in Japanese literature, culture, or linguistics from among the offerings of the Department of East Asian Languages and Cultures, not including courses taken to fulfill the language requirement.

JAPAN 201	Proseminar: Introduction to Graduate Study in Japanese	2-5
JAPAN 221	Translating Japan, Translating the West	3-4
JAPAN 235	Academic Readings in Japanese I	2-4
JAPAN 238	Introduction to Modern Japanese Literature and Culture	3-5
JAPAN 252		2-4
JAPAN 257		3-5
JAPAN 265	Readings in Premodern Japanese	2-5
JAPAN 287A		
JAPAN 292	Analyzing Japanese Text and Talk	2-4
JAPAN 210	Romance, Desire, and Sexuality in Modern Japanese Literature	3-4
JAPAN 204		
JAPAN 297	Points in Japanese Grammar	2-4

- b. Complete JAPAN 201 Proseminar: Introduction to Graduate Study in Japanese (2-5 units).
- c. Two upper-division or graduate-level courses in fields such as Japanese anthropology, art history, history, philosophy, politics, and religion, as approved by the graduate adviser in consultation with the student's individual adviser.
- d. A master's thesis; enroll in JAPAN 299 Master's Thesis or Translation (1-5 units).

## Coterminal Master of Arts Programs in East Asian Languages and Cultures

With department approval, students may apply to combine programs for the B.A. and M.A. degrees in Chinese or Japanese. Prospective applicants must consult with the graduate adviser.

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken three quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

Those interested in a coterminal program with an M.A. in East Asian Studies should contact the Center for East Asian Studies (p. 504) for application procedures and deadlines.

## Doctor of Philosophy Programs in East Asian Languages and Cultures

The Ph.D. degree is granted in Chinese and Japanese. Candidates for the degree are expected to acquire a thorough familiarity with Chinese or Japanese literature and linguistics, an adequate command of relevant languages, and a comprehensive knowledge of East Asian history, social institutions, and thought. The University's basic requirements for the Ph.D. are given in the "Graduate Degrees (p. 50)" section of this bulletin. Department requirements are set forth below.

### Admission to Candidacy

Students are evaluated by the graduate faculty during their second year at Stanford. The evaluation is based on a research paper of 25-30 pages documented and with a bibliography, written for an EALC major seminar above the 200 level. Students are also expected to have a GPA of at least 'A-' and demonstrate satisfactory work as a teaching assistant. If the faculty have serious doubts about a student's ability to work for the Ph.D., they convey this to the student. During the subsequent Spring Quarter, the faculty formally decide by vote whether a student should be admitted to candidacy for the Ph.D. or offered an extension. In cases of extension of pre-candidacy, a clear plan is developed for the student, and a reassessment completed within two academic quarters.

If a student goes to the Inter-University Program for Chinese Language Studies (IUP) at Tsinghua University or the Inter-University Center (IUC) for Japanese Language Studies in Yokohama during the first two years of study, the department may consider an extension for admission to

candidacy. The timing of the evaluation of a student admitted with an M.A. in East Asian Studies is decided on an individual basis.

Candidacy is a milestone different from the comprehensive exams, which are regularly held in the third year. Mastery of the field exams is not to be equated with the potential for doing research. Admission to candidacy indicates that the department faculty consider the student qualified to pursue a program of study leading to the Ph.D.

## Doctor of Philosophy in Chinese

The Ph.D. program in Chinese is designed to prepare students for a doctoral degree in Chinese literature, philosophy, or linguistics. Applicants must have a minimum of three years of Chinese language study at Stanford or the equivalent to be considered for admission. Ph.D. students will complete the M.A. as described above on the way to advancing to Ph.D. candidacy (see department guidelines for admission to candidacy above). The majority of required course work for Ph.D. students demands the ability to read primary and secondary materials in Chinese. Advanced standing may be considered for students entering the Ph.D. program who have already completed an M.A. in Chinese literature or linguistics elsewhere only in cases when the level of prior course work and research is deemed equivalent to departmental requirements for the Ph.D. All courses must be taken for a letter grade.

A candidate must fulfill the following requirements:

1. Complete the department's requirements for the M.A. in Chinese and two of three advanced classical Chinese Courses CHINA 208 Advanced Classical Chinese: Philosophical Texts.CHINA 209 Advanced Classical Chinese: Historical NarrationCHINA 210 . All incoming Ph.D. students must take a placement test in classical Chinese held during Orientation Week of fall quarter. Those who fail to place into the advanced level must take Beginning Classical Chinese.
2. Demonstrate proficiency in at least one supporting language, to be chosen in consultation with the primary adviser according to the candidate's specific research goals. Reading proficiency must be certified through a written examination or an appropriate amount of course work, to be determined on a case-by-case basis. When deemed necessary by the student's adviser(s), working knowledge of a third language may also be required.
3. Students in Chinese literature must take at least one Chinese linguistic course, and linguistics students must take at least one literature course.
4. Complete two relevant seminars at the 300 level. These seminars must be in different subjects.

Units

The following course is offered this year:

CHINA 371	Aesthetics, Politics, and Modernity: Critical Theory and China	2-5
CHINA 391	Seminar in Chinese Syntax	4
CHINA 340	Chinese Justice: Law, Morality, and Literature	2-5
CHINA 395J		
CHINA 495A		

5. Pass a set of three comprehensive written examinations, one of which tests the candidate's methodological competence in the relevant discipline. The remaining two fields are chosen, with the approval of the graduate adviser in consultation with the student's individual adviser, from the following: archaeology, anthropology, art, Chinese literature, history, Japanese literature, linguistics, philosophy, and religion. With the adviser's approval, a Ph.D. minor in a supporting field may be deemed equivalent to the completion of one of these three examinations.

- Demonstrate pedagogical proficiency by serving as a teaching assistant for a minimum of one quarter, and taking DLCL 301 The Learning and Teaching of Second Languages.
- Pass the University Oral Examination—General regulations governing the oral examination are found in the "Graduate Degrees (p. 50)" section of this Bulletin. The candidate is examined on questions related to the dissertation after acceptable parts of it have been completed in draft form.
- Submit a dissertation demonstrating ability to undertake original research based on primary and secondary materials in Chinese.

- Pass University oral examination. The candidate is examined on questions related to the dissertation after acceptable parts of it have been completed in draft form.
- Submit a dissertation demonstrating ability to undertake original research based on primary materials in Chinese or data related to China.

## Doctor of Philosophy in Chinese, Archaeology Subplan

Subplans are printed on the transcript and diploma and are elected via the "Declaration or Change to a Field of Study (<https://studentaffairs.stanford.edu/sites/default/files/registrar/files/grad-subplan-change.pdf>)" form.

- Complete one of three advanced classical Chinese courses and the requirements for the M.A. Qualified students may, upon consultation with the graduate adviser, be permitted to certify that they have attained the equivalent level of proficiency by passing examinations or presenting documentary evidence. Exemptions may be granted to students who study prehistoric archaeology. Instead, these students should take coursework offered in the Stanford Archaeology Center. Consult with graduate adviser.

		Units
CHINA 208	Advanced Classical Chinese: Philosophical Texts	3-5
CHINA 209	Advanced Classical Chinese: Historical Narration	2-5
CHINA 210		2-5

- Demonstrate proficiency in at least one supporting foreign language (in addition to Chinese and English), or in a laboratory skill, to be chosen in consultation with the primary adviser according to the candidate's specific research goals. Proficiency (in language(s) and/or laboratory skill must be certified through a written examination or an appropriate amount of coursework, to be determined on a case-by-case basis.

- Six graduate level CHINGEN or ANTHRO courses appropriate to the Chinese Archaeology track, as approved by the adviser:

		Units
The following courses are offered this year:		
ANTHRO 303	Introduction to Archaeological Theory	5
ANTHRO 307	Archaeological Methods	5
ANTHRO 308	Proposal Writing Seminar in Cultural and Social Anthropology	5
ANTHRO 311G	Introduction to Culture and Society Graduate Studies in Anthropology	2
ANTHRO 310G	Introduction to Graduate Studies	2
CHINA 275	Constructing National History in East Asian Archaeology	3-5
CHINA 276	Emergence of Chinese Civilization from Caves to Palaces	3-4

- Serve as a teaching assistant for two quarters and research assistant in an archaeology laboratory for two quarters.
- Pass qualifying examinations in Chinese archaeology.
- Carry out fieldwork related to dissertation research.

## Doctor of Philosophy in Japanese

The Ph.D. program in Japanese is designed to prepare students for a doctoral degree in Japanese literature, cultural history, or linguistics. Applicants must have a minimum of three years of Japanese language study at Stanford or the equivalent to be considered for admission. Ph.D. students will complete M.A. requirements on the way to advancing to Ph.D. candidacy (see department guidelines for admission to candidacy above). The majority of required course work for Ph.D. students demands the ability to read primary and secondary materials in Japanese. Advanced standing may be considered for students entering the Ph.D. program who have already completed an M.A. in Japanese literature or linguistics elsewhere only in cases when the level of prior course work and research is deemed equivalent to departmental requirements for the Ph.D. All courses must be taken for a letter grade.

A candidate must fulfill the following requirements:

- Demonstrate proficiency in both modern and classical Japanese language by completing the following courses, or by demonstrating an equivalent level of linguistic attainment by passing the appropriate certifying examinations:

Fourth-Year Japanese:

JAPANLNG 213 Fourth-Year Japanese, Third Quarter 3-5

Premodern Japanese:

JAPAN 253 Japanese Graduate Seminar: Translation Theory & Premodern Literature 2-5

JAPAN 264 Introduction to Premodern Japanese 3-5

JAPAN 265 Readings in Premodern Japanese 2-5

- Demonstrate proficiency in at least one supporting language, to be chosen in consultation with the primary adviser according to the candidate's specific research goals. Reading proficiency must be certified through a written examination or an appropriate amount of course work, to be determined on a case-by-case basis. When deemed necessary by the student's adviser(s), working knowledge of a third language may also be required. Students concentrating in classical Japanese literature are normally expected to fulfill this requirement by completing *kanbun*:

Classical Japanese

JAPAN 265 Readings in Premodern Japanese 2-5

Or, First-year Classical Chinese; take the following three courses:

CHINA 205 Beginning Classical Chinese, First Quarter 2-5

CHINA 206 Beginning Classical Chinese, Second Quarter 2-5

CHINA 207 Beginning Classical Chinese, Third Quarter 2-5

- Complete eight adviser-approved courses numbered above 200 from among the offerings of the Department of East Asian Languages and Cultures. At least four of these eight courses must be advanced seminars numbered above 300. At least one of these eight courses must deal with Japanese linguistics. For students focusing on modern literature, at least two of these eight courses must deal with premodern material, and for students focusing on premodern literature, at least two of the eight courses must deal with modern material.

JAPAN 201	Proseminar: Introduction to Graduate Study in Japanese	2-5
JAPAN 210	Romance, Desire, and Sexuality in Modern Japanese Literature	3-4
JAPAN 221	Translating Japan, Translating the West	3-4
JAPAN 235	Academic Readings in Japanese I	2-4
JAPAN 238	Introduction to Modern Japanese Literature and Culture	3-4
JAPAN 252		2-4
JAPAN 257		3-5
JAPAN 265	Readings in Premodern Japanese	2-5
JAPAN 292	Analyzing Japanese Text and Talk	2-4
JAPAN 287A		
JAPAN 297	Points in Japanese Grammar	2-4
JAPAN 350	Japanese Historical Fiction	3-5

4. Complete two upper-division or graduate-level courses in two supporting fields, for a total of four courses outside of Japanese literature or linguistics. Supporting fields, to be determined in consultation with the student's primary adviser, may include Japanese anthropology, art, history, philosophy, politics, and religion, Chinese literature, comparative literature, etc.

JAPAN 201	Proseminar: Introduction to Graduate Study in Japanese	2-5
-----------	--	-----

6. Pass a comprehensive qualifying examination that tests the candidate's breadth and depth in the primary field of research and methodological competence in the relevant discipline.
7. Demonstrate pedagogical proficiency by serving as a teaching assistant for a minimum of one quarter and taking DLCL 301 The Learning and Teaching of Second Languages (3 units).
8. Pass the University Oral Examination. General regulations governing the oral examination are found in the "Graduate Degrees (<http://www.stanford.edu/dept/registrar/bulletin/4901.htm>)" section of this Bulletin. The candidate is examined on questions related to the dissertation after acceptable parts of it have been completed in draft form.
9. Submit a dissertation demonstrating ability to undertake original research based on primary and secondary materials in Japanese.

### Doctor of Philosophy in Japanese, Linguistics Track

1. Demonstrate proficiency in both modern and classical Japanese language by completing the following courses, or by demonstrating an equivalent level of linguistic attainment by passing the appropriate certifying examinations:

JAPANLNG 213	Fourth-Year Japanese, Third Quarter	3-5
JAPAN 265	Readings in Premodern Japanese	2-5

2. Demonstrate proficiency in at least one supporting language, to be chosen in consultation with the primary adviser according to the candidate's specific research goals. Reading proficiency must be certified through a written examination or an appropriate amount of course work, to be determined on a case-by-case basis. When deemed necessary by the student's adviser(s), working knowledge of a third language may also be required.

3. Complete six adviser-approved courses numbered above 200 from among the offerings of the Department of East Asian Languages and Cultures. At least one of these six courses must be an advanced seminar

Units numbered above 300. At least one of these six courses must deal with Japanese literature.

4. Complete five upper-division or graduate-level courses in linguistics and other supporting fields. To be determined in consultation with the student's primary adviser, these may include applied linguistics, Chinese linguistics, psychology, education, anthropology, sociology, etc.

5. Complete JAPAN 292 Analyzing Japanese Text and Talk

6. Submit two qualifying papers presenting substantial research in two different subfields of Japanese linguistics.

7. Submit an annotated bibliography pertaining to the topic of dissertation.

8. Demonstrate pedagogical proficiency by serving as a teaching assistant for a minimum of one quarter and taking DLCL 301 The Learning and Teaching of Second Languages

9. Pass the University Oral Examination. The candidate is examined on questions related to the dissertation after acceptable parts of it have been completed in draft form.

10. Submit a dissertation demonstrating ability to undertake original research based on primary and secondary materials in Japanese.

### Ph.D. Minor in East Asian Languages and Cultures

A student taking a Ph.D. minor in Chinese or Japanese must complete at least 30 units of work within the department at the 200 and 300 level, chosen in consultation with a department adviser. The student must take either CHINA 201 Proseminar: Bibliographic and Research Methods in Chinese Studies or JAPAN 201 Proseminar: Introduction to Graduate Study in Japanese unless the department is satisfied that work done elsewhere has provided similar training. The student must also pass a written examination in the Chinese or Japanese language.

*Emeriti:* (Professors) Albert E. Dien, Makoto Ueda, John Wang, Steven D. Carter; (Associate Professor) Susan Matisoff; (Senior Lecturer) Yin Chuang

*Chair:* Ronald Egan

*Directors of Graduate Studies:* James Reichert (Japanese), Ban Wang (Chinese)

*Directors of Undergraduate Studies:* Yiqun Zhou

*Professors:* Ronald Egan, Haiyan Lee, Li Liu, Yoshiko Matsumoto, Chao Fen Sun, Melinda Takeuchi (on leave 2016-17; East Asian Languages and Cultures, Art and Art History), Ban Wang (East Asian Languages and Cultures, Comparative Literature)

*Acting Professors:* Thomas Bartlett

*Associate Professors:* Indra Levy, James Reichert, Yiqun Zhou

*Assistant Professors:* Dafna Zur

*Consulting Professor:* Richard Dasher

*Lecturers:* Paul Festa, LeRon Harrison

*Postdoctoral Fellows:* Jesse Chapman, Sixiang Wang

Chinese-Japanese Area Studies Faculty:

*Professors:* Gordon Chang (History), Richard Dasher (Center for Integrated Systems), Mark E. Lewis (History), Paul Harrison (Religious Studies),

John Kieschnick (Religious Studies), Jean Oi (Political Science), David Palumbo-Liu (Comparative Literature), Gi-Wook Shin (Sociology), Matthew Sommer (History), Richard Vinograd (Art and Art History), Andrew Walder (Sociology), Kären Wigen (History), Lee H. Yearley (Religious Studies), Xueguang Zhou (Sociology)

*Associate Professors:* Miyako Inoue (Anthropology), Matthew Kohrman (Anthropology), Yumi Moon (History), Thomas Mullaney (History), Jun Uchida (History), Jean Ma (Art and Art History)

*Assistant Professors:* Phillip Lipsky (Political Science)

# EAST ASIAN STUDIES

Courses offered by the Center for East Asian Studies are listed under the subject code EASTASN on the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) web site. The EASTASN courses listed on ExploreCourses deal primarily with China, Japan, and Korea. Literature courses are listed with the subject codes of CHINA (<http://explorecourses.stanford.edu/search?q=CHINA&view=catalog&page=0&academicYear=&collapse=&filter-departmentcode-CHINA=on&filter-coursestatus-Active=on&filter-catalognumber-CHINA=on>), JAPAN (<http://explorecourses.stanford.edu/search?q=JAPAN&view=catalog&page=0&academicYear=&collapse=&filter-departmentcode-JAPAN=on&filter-coursestatus-Active=on&filter-catalognumber-JAPAN=on>), KOREA (<http://explorecourses.stanford.edu/search?q=KOREA&view=catalog&page=0&academicYear=&collapse=&filter-coursestatus-Active=on&filter-departmentcode-KOREA=on&filter-catalognumber-KOREA=on>), and EALC (<http://explorecourses.stanford.edu/search?q=EALC&view=catalog&page=0&academicYear=&collapse=&filter-departmentcode-EALC=on&filter-coursestatus-Active=on&filter-catalognumber-EALC=on>) in ExploreCourses.

Courses in Chinese, Japanese, and Korean language instruction use the subject codes CHINLANG ([http://explorecourses.stanford.edu/search?view=catalog&filter-coursestatus-Active=on&page=0&catalog=&academicYear=&q=CHINLANG&collapse="](http://explorecourses.stanford.edu/search?view=catalog&filter-coursestatus-Active=on&page=0&catalog=&academicYear=&q=CHINLANG&collapse=)), JAPANLNG ([http://explorecourses.stanford.edu/search?view=catalog&filter-coursestatus-Active=on&page=0&catalog=&academicYear=&q=JAPANLNG&collapse="](http://explorecourses.stanford.edu/search?view=catalog&filter-coursestatus-Active=on&page=0&catalog=&academicYear=&q=JAPANLNG&collapse=)), and KORLANG ([http://explorecourses.stanford.edu/search?view=catalog&filter-coursestatus-Active=on&page=0&catalog=&academicYear=&q=KORLANG&collapse="](http://explorecourses.stanford.edu/search?view=catalog&filter-coursestatus-Active=on&page=0&catalog=&academicYear=&q=KORLANG&collapse=)).

## Mission

The Center for East Asian Studies (CEAS) supports teaching and research on East Asia-related topics across all disciplines; disseminates knowledge about East Asia through projects of local, regional, national, and international scope; and serves as the intellectual gathering point for a collaborative and innovative community of scholars and students of East Asia. CEAS works with all schools, departments, research centers, and student groups to facilitate and enhance all aspects of East Asia-related research, teaching, outreach and exchange across the Stanford campus.

CEAS is part of Stanford Global Studies (<http://sgs.stanford.edu>) in the School of Humanities and Sciences (<http://humsci.stanford.edu>). As an East Asia National Resource Center (NRC), supported by the U.S. Department of Education, CEAS serves to strengthen access to and training in the major languages of East Asia, and to broaden East Asia area studies training across all disciplines.

Many other theoretical and methodological courses within various departments at Stanford are taught by faculty who are East Asian specialists; these courses often have a substantial East Asian component and a list of current applicable courses from outside departments may be found on the "Approved Courses" tab of this bulletin.

## Undergraduate Programs in East Asian Studies

Undergraduates interested in East Asia can become involved by attending CEAS events, taking courses in the subject codes listed above, or earning a Minor or Bachelor of Arts degree in East Asian Studies. These undergraduate degrees in East Asian Studies are administered by

the Department of East Asian Cultures and Languages (p. 487). Stanford Global Studies (p. 562) offers internship opportunities in East Asia, and the Bing Overseas Study Program (<http://bosp.stanford.edu>) offers study abroad opportunities in East Asia.

For language study, CEAS provides undergraduate fellowships for language study in China, Japan, or Korea; students must simultaneously apply to a pre-approved language program abroad. Applications are due in February each year. Deadlines and application information can be found on the CEAS website (<https://ceas.stanford.edu>). In addition, undergraduates can obtain a coterminal M.A. degree in East Asian Studies (<https://ceas.stanford.edu/academics/how-apply>) while concurrently working on their undergraduate major by applying during the regular admissions cycle no later than their senior year.

## Graduate Programs in East Asian Studies

### Master's Program

Stanford's interdisciplinary M.A. program in East Asian Studies is designed both for students who plan to complete a Ph.D. but who have not yet decided on the particular discipline in which they prefer to work, and for students who wish to gain a background in East Asian Studies in connection with a career in nonacademic fields such as business, law, education, journalism, or government service. The program permits the student to construct a course of study suited to individual intellectual interests and career needs, and is typically completed in two years; the program may be completed within one year, depending on the course load taken and the amount of foreign language training required. Advanced language students or students who are native speakers of Chinese, Japanese, or Korean can potentially complete the program within one year. Students interested in pursuing professional careers are encouraged to plan for additional training through internships or additional graduate professional programs, in conjunction with obtaining an M.A. in East Asian Studies.

The M.A. program allows students a great deal of flexibility in combining language training, interdisciplinary area studies, and a disciplinary concentration. Students are required to demonstrate third year level proficiency in Chinese, Korean or Japanese, according to their research-area focus (either through coursework at Stanford or testing at the 4th year or higher in Stanford language-placement exams), to enroll in a 1 unit core course in East Asian Studies in autumn quarter of the first year, and to complete at least nine additional graduate-level area studies courses, one of which must be chosen from a prescribed list of courses offered in winter quarter of the first year. Of the nine required content courses, three must be in a single department or in the same thematic focus. An M.A. thesis, usually an expansion of a paper written for a graduate seminar or colloquium, is required.

### Learning Outcomes

The purpose of the master's program is to further develop specialized knowledge and skills in East Asian Studies, and to prepare students for a professional career or doctoral studies. This is achieved through the completion of East Asia content courses, language training as necessary, and experience with independent research.

### Postdoctoral Programs

The Center for East Asian Studies offers a postdoctoral fellowship in Chinese Studies (<https://ceas.stanford.edu/opportunities/chinese-studies-postdoctoral-fellowship>) each year. Postdoctoral fellowships in other areas are available from campus units including but not limited to the Freeman-Spogli Institute for International Studies (<http://fsi.stanford.edu/fellowships>), the Walter H. Shorenstein Asia-Pacific Research Center (<http://aparcs.fsi.stanford.edu/fellowships>), and the Stanford Humanities Center (<http://shc.stanford.edu/fellowships>).

### Financial Aid

CEAS offers various types of funding for new and continuing students. See the fellowships page (<https://ceas.stanford.edu/opportunities/>)

student-prizes-and-fellowships) of the CEAS web site for the most up-to-date offerings.

## Master of Arts in East Asian Studies

University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

The East Asian Studies master's degree program allows a great deal of flexibility in combining language training, interdisciplinary area studies, and a disciplinary concentration. The Director of the Center assigns preliminary faculty advisers to all students. Members of the staff and faculty are available for academic and career planning. The M.A. program is typically completed in two years, but students who meet the language requirement upon entry and who complete a rigorous selection of courses may be able to graduate in as little as three quarters. Students are urged to complete the degree requirements within that first year (3 quarters) unless their goals and background dictate otherwise.

Applicants must submit scores for the General Test of the Graduate Record Examination, official transcripts and a writing sample along with their online application. Foreign applicants are also required to take the Test of English as a Foreign Language (TOEFL). Applications for admission and financial aid should be made online; see the Graduate Admissions (<http://gradadmissions.stanford.edu>) web site. The deadline for submitting applications for the 2018-19 academic year is December 5, 2017.

### Coterminal Master's Program in East Asian Studies

The center admits a limited number of Stanford undergraduates to work toward a coterminal M.A. degree in East Asian Studies. Applications are accepted once a year during the regular CEAS M.A. application cycle. The deadline for the 2018-19 academic year is December 5, 2017. Students may apply after completing 120 units, but no later than the quarter prior to the expected completion of the undergraduate degree. Applicants are expected to meet the same standards as those seeking admission to the M.A. program, and they must submit the following via the online coterminal application:

- a completed Application for Admission to Coterminal Masters' Program (<https://www.applyweb.com/stanterm>)
- a written statement of purpose (<https://gradadmissions.stanford.edu/applying/starting-your-application/required-application-documents/statement-purpose>)
- an unofficial Stanford transcript
- three letters of recommendation, at least two of which should be from members of the department of concentration
- first 15 pages of a representative writing sample (such as a seminar paper, term paper, honors thesis, or journal article.)
- copy of scores from the General Test of the Graduate Record Exam (official score should be sent to Stanford's school code 4704)
- a list of courses the applicant intends to take to fulfill degree requirements.

Coterm applications are reviewed along with peer applications by the M.A. Admissions Committee of the Center for East Asian Studies (CEAS).

Students must meet all requirements for both B.A. and M.A. degrees. They must complete a total of 15 full-time quarters or the equivalent, or three full quarters after completing 180 units for a total of 226 units. Coterminals are not eligible for University financial aid, but are eligible to apply for Foreign Language and Area Studies (FLAS) (<https://ceas.stanford.edu/opportunities/student-prizes-and-fellowships>) and other fellowships administered by CEAS.

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University

requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken three quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

## Degree Requirements

### Language Requirement

Students must complete the equivalent of Stanford's first three full years of language training in Chinese, Japanese, or Korean. Other East Asian languages may be accepted by petition. Students entering the program without any language preparation should complete first- and second-year Chinese, Japanese, or Korean within the first year of residence at Stanford if they intend to graduate within two years (this would necessitate completing a summer language program). All language courses taken at Stanford used toward fulfilling the language requirement must be for letter grades and completed with a grade of 'B' or higher. Conversation classes cannot be used for meeting this requirement, and units from the language courses numbered 1-99 do not count toward the 46 units required for the degree. Language courses numbered 100 and above can be used toward meeting the 46 units minimum for the degree, but cannot be used toward fulfilling the content courses requirement unless the language course is at the fourth-year level or above, and the student is specializing in literature.

The language requirement may be satisfied in part or in full by placing into an appropriate Stanford language class through the language proficiency exam given by the Language Center. Students who fulfill this minimum three-year language requirement before completing other requirements are encouraged to continue language study, or take courses in which Chinese, Japanese, or Korean are used, for the duration of the program.

The language used to meet the language proficiency requirement should match the student's country/region of focus.

Students in the M.A. program are also eligible to apply for the Inter-University language programs in Beijing and Yokohama. Work completed in one of these programs may be counted toward the M.A. degree's language requirement if students take and pass the corresponding Stanford language proficiency exam following the program.

Language courses are listed under the following subject codes on the Stanford Bulletin's ExploreCourses web site: CHINLANG, JAPANLNG, and KORLANG.

### M.A. Thesis Requirement

A master's thesis, representing a substantial piece of original research, should be filed with the center's program office as part of the graduation

requirements. With the adviser's approval, the master's thesis requirement may be satisfied by expanding a research paper written for an advanced course, and should have a minimum of 10,000 words in the main body of the thesis (excluding references, citations, appendices, etc.). The M.A. thesis is due at noon on the last day of classes, of the quarter in which the student applies to graduate; see the Academic Calendar (p. ) for specific dates.

Students are also required to attend, at a minimum, one CEAS Thesis Workshop at least one quarter prior to the quarter in which the student applies to graduate. CEAS Thesis Workshops are offered biannually.

## Area Studies and Unit Requirements

Students must complete a minimum total of 46 units for the degree at Stanford, comprised of:

1. 1-unit core course, EASTASN 330 Core Seminar: Issues and Approaches in East Asian Studies
2. At least 9 approved content courses, at least 30 units of which must be at or above the 200 level (at or above 300 level for HISTORY courses) and meeting the following criteria:
  - a. Are on the approved East Asian Studies course list (see Approved Courses tab (p. 507)), or have been approved by petition (maximum 3 petitions)
  - b. Taken for a letter grade and completed with a 'B' or higher ('P' or higher in GSB courses and Law courses)
  - c. Taken for 3 units or more
  - d. Do not count as part of the language requirement (language courses beyond third-year level are accepted for students specializing in literature)
  - e. At least 3 of the 9 courses must be either in the same department or within the same thematic focus across several departments (see sample themes below).
  - f. 1 of the 9 required courses must be selected from a prescribed list of courses in winter quarter of the first year.
3. Additional courses as necessary to reach the minimum 46 units for the degree meeting the following criteria:
  - a. Taken for a letter grade
  - b. At least level 100 or above (above 200 for HISTORY courses)
  - c. Must be an academic content course - such as a lecture, seminar, or colloquium (no activity courses, EFS language classes, etc.). Language classes are okay if the course number is above level 100 and it is taken for a letter grade.
4. The cumulative grade point average (GPA) for all courses must be 3.0 or higher; grades for the 9 content courses must be a 'B' or higher.

### Sample Theme 1

		Units
EASTASN 253	Japan & the World: Innovation, Economic Growth, Globalization, and Int'l Security Challenges	3-5
JAPAN 251	Japanese Business Culture and Systems	3-5
LAW 5016	Japanese Law, Society and Economy	3

### Sample Theme 2

		Units
EASTASN 289K	The Diplomatic and Security Challenges for Korea	3
EASTASN 295	Korean Economy and Business: Theory, Practice, and Strategic Implications	3
HISTORY 395	Modern Korean History	5

### Sample Theme 3

		Units
EASTASN 262	Seminar on the Evolution of the Modern Chinese State, 1550-Present	3-5

IPS 246	China on the World Stage	4
POLISCI 348	Chinese Politics	5

## Course Petitions and Directed Reading

Some theory-oriented or methodological courses may be used to meet part of the 9 courses requirements, provided that they are demonstrably useful for understanding East Asian problems. A course petition (<https://ceas.stanford.edu/academics/undergraduate-program/forms>) and syllabus must be submitted no later than the end of the second week of the quarter in which the course is offered. Students are limited to 3 petitions total. Credit toward the course requirements is not given for courses taken before entering the M.A. program, however students may take courses for exchange credit at the University of California, Berkeley, with the approval of their adviser and the Office of the University Registrar.

Students may choose to enroll in a directed reading course with a faculty member if the current course offerings do not meet a particular research or study need. Directed reading courses are independent study projects a student may undertake with a relevant Stanford faculty member. Once the student has found a faculty member to support his or her studies, the student must inform the Student Services Coordinator immediately so that the appropriate section can be added for EASTASN 300 Graduate Directed Reading. The limitations for directed reading units are:

1. A maximum of 5 units may apply towards the 46-unit degree requirement.
2. If applying the units to the 9 courses requirement, the student must submit a detailed syllabus approved by their directed reading instructor prior to enrolling in the course and the course must be taken for at least 3 units.
3. It must be taken for a letter grade.

## Joint and Dual Degree Programs in East Asian Studies

### East Asian Studies and Law

This joint degree program grants an M.A. degree in East Asian Studies and a Doctor of Jurisprudence (J.D.) degree. It is designed to train students interested in a career in teaching, research, or the practice of law related to East Asian legal affairs. Students must apply separately to the East Asian Studies M.A. program and to the Stanford School of Law and be accepted by both. Completing this combined course of study requires approximately four academic years, depending on the student's background and level of training in Chinese, Japanese, or Korean. Up to 45 units of approved courses may be counted towards both degrees. For more information, see the "Joint Degree Programs (<http://exploreddegrees.stanford.edu/graduatedegrees/#jointdegreestext>)" section of this bulletin and the Stanford Law School's web site (<http://www.law.stanford.edu/degrees/joint>). Students who have been accepted by both programs should consult with the departments to determine which courses can be double-counted.

### East Asian Studies and Education

This dual degree program grants an M.A. degree in East Asian Studies and a secondary school teaching credential in social studies. To be eligible for this program, students should apply to the M.A. program in East Asian Studies and then apply to the Stanford Teacher Education Program during the first year at Stanford. Completing the dual program requires at least two years, including one summer session when beginning the education component of the program. Admissions processes for both programs are completely independent of one another and units from courses can only be applied to one degree or the other, not both.

## East Asian Studies and Business

This dual degree program grants an M.A. degree in East Asian Studies and a Master of Business Administration degree. Students must apply separately to the East Asian Studies M.A. program and the Graduate School of Business and be accepted by both. Completing this combined course of study requires approximately three academic years (perhaps including summer sessions), depending on the student's background and level of training in Chinese, Japanese, or Korean language. Admissions processes for both programs are completely independent of each other and units from courses can only be applied to one degree or the other, not both.

*Director:* Jun Uchida

*Affiliated Faculty and Staff:*

*Anthropology:* Lisa M. Curran, Miyako Inoue, James Holland Jones, Matthew Kohrman, Stephen Murphy-Shigematsu, Barbara Voss, Sylvia J. Yanagisako

*Art and Art History:* Jean Ma, Melinda Takeuchi, Richard Vinograd, Xiaozhe Xie

*Biology:* Marcus W. Feldman, Peter Vitousek

*Business:* William Barnett, Charles M. Lee, Hau Lee, Joseph Piotroski, Kenneth Singleton, David W. Brady, Condoleezza Rice

*Center for International Security and Cooperation:* Chaim Braun

*Civil and Environmental Engineering:* David Freyberg, Renate Fruchter, Leonard Ortolano

*Communication:* James Fishkin, Jennifer Pan

*Comparative Literature:* David Palumbo-Liu

*Earth System Science:* Page Chamberlain, Eric F. B. Lambin, Rosamond L. Naylor

*East Asian Languages and Cultures:* Ronald Egan, Haiyan Lee, Indra Levy, Li Liu, Yoshiko Matsumoto, James Reichert, Chao Fen Sun, Melinda Takeuchi, Ban Wang, John C. Y. Wang (emeritus), Yiqun Zhou, Dafna Zur

*East Asian Studies:* Alice L. Miller

*Education:* Anthony L. Antonio, Martin Carnoy, Francisco O. Ramirez, Christine M. Wotipka

*Freeman Spogli Institute for International Studies:* Michael H. Armacost, Karl W. Eikenberry, Donald K. Emmerson (emeritus), Thomas Fingar, Francis Fukuyama, Takeo Hoshi, Charlotte Lee, Yong Suk Lee, Scott D. Rozelle, Daniel C. Sneider, Mark Thurber, Li-Tai Xue

*Geological Sciences:* Stephan A. Graham, Jonathan Payne

*Geophysics:* Simon L. Klemperer

*History:* Gordon Chang, Mark E. Lewis, Martin Lewis, Yumi Moon, Thomas Mullaney, Matthew Sommer, Jun Uchida, Kären Wigen, Mikael D. Wolfe

*Political Science:* Phillip Lipsky, Terry M. Moe, Jean C. Oi, Barry R. Weingast

*Religious Studies:* Carl W. Bielefeldt (emeritus), Paul M. Harrison, Michaela Moss, Lee H. Yearley

*Sociology:* Gi-Wook Shin, Andrew Walder, Xueguang Zhou

*Stanford Institute for Economic Policy Research (SIEPR):* Nicholas Charles Hope

*Stanford Language Center:* Marina Chung, Robert Clark, Sik Lee Dennig, Michelle DiBello, Hee-sun Kim, Nina Yushin Lin, Momoyo Kubo Lowdermilk, Emiko Yasumoto Magnani, Emi Mukai, Chie Muramatsu, Michelle Rogoyski, Yu-hwa Liao Rozelle, Momoe Saito Fu, Le Tang, Yoshiko Tomiyama, Huazhi Wang, Hannah Yoon, Hong Zeng, Youping Zhang, Xiaofang Zhou

## Approved Content Courses

Because East Asian Studies is an interdisciplinary major, the majority of the courses that apply toward the degree are listed under other departments. In addition to courses listed under the EASTASN subject code, students should check the list below, as well as on the Stanford Bulletin's ExploreCourses site (<http://explorecourses.stanford.edu>) for courses in other departments that will meet the degree requirements for East Asian Studies; such departments include (but are not limited to) Anthropology, East Asian Languages and Cultures, History, Political Science, Religious Studies, and Sociology. Not all courses offered by other departments that have East Asia content may be listed below or on the CEAS web site. If there is a course not listed below that has East Asia content, check with the Center for East Asian Studies staff to verify whether or not it can be used to fulfill the degree requirements.

The following course list represents courses that may, with the adviser's approval, be used to fulfill degree requirements (please see the Law School (<http://www.law.stanford.edu/organizations/offices/office-of-the-registrar/stanford-non-law-student-course-registration>) or GSB (<http://www.gsb.stanford.edu/nongsbreg>) web sites for instructions on how to enroll in their courses):

# ECONOMICS

Courses offered by the Department of Economics (<http://economics.stanford.edu>) are listed under the subject code ECON on the Stanford Bulletin's ExploreCourses web site.

The department's purpose is to acquaint students with the economic aspects of modern society, to familiarize them with techniques for the analysis of contemporary economic problems, and to develop in them an ability to exercise judgment in evaluating public policy. There is training for the general student as well as for those who plan careers as economists in civil service, private enterprise, teaching, or research.

The department's curriculum is an integral part of Stanford's programs in International Relations, Public Policy, and Urban Studies.

The faculty interests and research cover a wide spectrum of topics in most fields of economics, including behavioral economics, comparative institutional analysis, econometrics, economic development, economic history, experimental economics, industrial organization, international trade, labor, macro- and microeconomic theory, mathematical economics, environmental economics, and public finance.

## Mission of the Undergraduate Program in Economics

The mission of the undergraduate program in Economics is to acquaint students with the economic aspects of modern society, to familiarize them with techniques for the analysis of contemporary economic problems, and to develop in them an ability to exercise judgment in evaluating public policy. The program introduces students to macro- and microeconomic theory, teaches them to think and write clearly about economic problems and policy issues and to apply the basic tools of economic analysis. The undergraduate major provides an excellent background for those who plan careers in government and private enterprise as well as those pursuing graduate degrees in professional schools or in the field of economics.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. understanding of core knowledge within Economics.
2. ability to analyze a problem and draw correct inferences using qualitative and/or quantitative analysis.
3. ability to write clearly and persuasively and communicate ideas clearly.
4. ability to evaluate theory and critique research within the discipline.

## Graduate Programs in Economics

The primary objective of the graduate program is to educate students as research economists. In the process, students also acquire the background and skills necessary for careers as university teachers and as practitioners of economics. The curriculum includes a comprehensive treatment of modern theory and empirical techniques. Currently, 20 to 25 students are admitted each year.

Graduate programs in economics are designed to ensure that students receive a thorough grounding in the methodology of theoretical and empirical economics, while at the same time providing specialized training in a wide variety of subfields and a broad understanding of associated institutional structures. Toward these ends, the program is

arranged so that the student has little choice in the curriculum at the outset but considerable latitude later on.

Students admitted to graduate standing in the department are expected to have a strong background in college-level economics, mathematics, and statistics. Preparation ordinarily consists of a college major in economics, a year-long calculus sequence that includes multivariate analysis, a course in linear algebra, and a rigorous course in probability and statistics.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in Economics and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in Economics. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of Economics and to interpret and present the results of such research.

## Fellowships and Assistantships

The department awards a number of fellowships for graduate study. Many first-year and a few second- or third-year students are typically awarded full fellowships, including a stipend and tuition. Students in their final job market year are encouraged to apply for SIEPR dissertation research fellowships. All students whose records justify continuation in the program may be assured support for the second through fifth years in the form of employment as a teaching or research assistant. These half-time appointments provide a stipend and tuition allowance. Entering students are not normally eligible for research or teaching assistantships.

## Bachelor of Arts in Economics

The total number of units required for the major is 80. Students are encouraged to complete the core courses 1-6 below, as early as possible. Ideally, students should complete the core during the sophomore year, before taking upper division courses. Courses may not be taken before the prerequisites are completed. The required number of field courses is five. There is great flexibility in the choice of electives, including some upper-division math, statistics, and computer science.

Of the 80 units required for the major, at least 55 must be taken at Stanford in California. Students cannot declare Economics as their major or minor until they have completed ECON 50 Economic Analysis I with a grade of 'B' or better or received approval from the Director of Undergraduate Study.

All courses counting toward the economics major must be taken for a letter grade and a GPA in the major of 2.0 (C) or better must be achieved.

## Requirements for the Economics Major (80 Units)

### Core Courses; 30 units

		Units
ECON 1	Principles of Economics	5
ECON 50	Economic Analysis I (Prerequisites: ECON 1 and MATH 51 (or CME 100 or CME 100A))	5
ECON 51	Economic Analysis II (Prerequisite: ECON 50)	5
ECON 52	Economic Analysis III (Prerequisite: ECON 50)	5
ECON 102A	Introduction to Statistical Methods (Postcalculus for Social Scientists (Prerequisite: MATH 41 or equivalent)) <sup>1</sup>	5

ECON 102B Applied Econometrics (Prerequisite: ECON 102A) <sup>2</sup> 5

<sup>1</sup> It is recommended that students satisfy this basic statistics requirement early in their program.

<sup>2</sup> Material in ECON 102B Applied Econometrics is used in a number of field courses. Students are advised to take ECON 102B Applied Econometrics early in their program.

### Field Courses; 25 units

Must be taken at Stanford in California.

Select five of the following: 25

ECON 102C	Advanced Topics in Econometrics
ECON 111	Money and Banking (not offered this year)
ECON 112	Financial Markets and Institutions: Recent Developments
ECON 113	Economics of Innovation (not offered this year)
ECON 118	Development Economics
ECON 125	Economic Development, Microfinance, and Social Networks
ECON 126	Economics of Health and Medical Care
ECON 128	Economic Development: A Historical Perspective (not offered this year)
ECON 129	Credit markets and development: Some evidence from Latin America and the World
ECON 135	Finance for Non-MBAs <sup>1</sup>
ECON 136	Market Design <sup>2</sup>
ECON 137	Decision Modeling and Information <sup>4</sup>
ECON 140	Introduction to Financial Economics <sup>1</sup>
ECON 141	Public Finance and Fiscal Policy
ECON 145	Labor Economics
ECON 146	Economics of Education
ECON 147	The Economics of Labor Markets
ECON 149	The Modern Firm in Theory and Practice
ECON 155	Environmental Economics and Policy
ECON 157	Imperfect Competition
ECON 160	Game Theory and Economic Applications <sup>3</sup>
ECON 164	The Law and Economics of the World Trading System (not offered this year)
ECON 165	International Finance
ECON 166	International Trade
ECON 178	Behavioral Economics
ECON 179	Experimental Economics (not offered this year)
ECON 180	Honors Game Theory <sup>3</sup>
ECON 181	Honors Information and Incentives (not offered this year) <sup>4</sup>
ECON 182	Honors Market Design <sup>2</sup>
ECON 198	Junior Honors Seminar
ECON 199D	Honors Thesis Research

<sup>1</sup> Students may not count units from both ECON 135 Finance for Non-MBAs and ECON 140 Introduction to Financial Economics towards their major as the courses are too similar in content.

<sup>2</sup> Students may not count units from both ECON 136 Market Design and ECON 182 Honors Market Design towards their field course requirements as the courses cover similar subject matter.

<sup>3</sup> Students may not count units from both ECON 160 Game Theory and Economic Applications and ECON 180 Honors Game Theory towards their field course requirements as the courses cover similar subject matter.

<sup>4</sup> Students may not count units from both ECON 137 and ECON 181 towards their field course requirements as the courses cover similar subject matter.

### Writing in the Major Course; 5 units

Must be taken at Stanford in California. This course should be taken only after completing ECON 51 Economic Analysis II and ECON 52 Economic Analysis III, ECON 102B Applied Econometrics, and at least two field courses.

		Units
ECON 101	Economic Policy Seminar	5

### Electives: 20 units

20 units in addition to the field courses taken; choose from any ECON courses offered for a letter grade.

Up to 10 units of this requirement may be fulfilled by upper-division math, statistics, or computer science with the approval of the Director of Undergraduate Studies.

A maximum of 10 units of transfer credit or of ECON 139D Directed Reading, may be taken under this section. Suitable transfer credit must be approved in writing by the Director of Undergraduate Studies. Advanced undergraduate majors with strong quantitative preparation may enroll in graduate (200-level) courses with permission of the Director of Undergraduate Studies and the course instructor. Some courses offered by Overseas Studies may be counted towards this requirement. The department does not give credit for internships.

### Other Requirements

No courses receiving Department of Economics credit under the preceding requirements may be taken credit/no credit, and 55 of the 80 units required for the major must be taken at Stanford in California.

Students scoring a 5 on both the advanced placement microeconomics and advanced placement macroeconomics exam may petition the Director of Undergraduate Studies to have the ECON 1 Principles of Economics course requirement waived. Students do not receive units credit for placing out of ECON 1 Principles of Economics.

To use transfer credit in partial satisfaction of the requirements, the student must obtain written consent from the department's Director of Undergraduate Study, who establishes the amount of credit to be granted toward the department requirements (see the Information Book for Undergraduate Economics Majors). Students must have completed all Stanford prerequisites for approved transfer credit courses in order to use those courses towards the Economics major.

Course prerequisites are enforced. Students taking courses to satisfy prerequisites in another department or institution must petition for Stanford course substitution or transfer credit approval in order to satisfy course prerequisites.

The time limit for satisfactory completion of a course is one year from the date an incomplete is given, although instructors may set a shorter time limit. Students are responsible for seeing that all grades of 'incomplete' are cleared within the time limit.

### Flexible Tracks

Flexible Tracks listings of upper-division economics courses are provided to emphasize the diverse interests of Economics majors. Flexible Tracks do not add major requirements. Flexible Tracks may be examined in the department's Information Book for Economics Majors (<http://economics.stanford.edu/undergraduate>). Flexible Tracks are provided for the following areas of emphasis (field courses are in bold):

- Behavioral & Experimental (Econ 13N, **136 (or 182)**, **137 (or 181)**, **160 (or 180)**, **178**, **179**)

- Finance (Econ 110, **111, 112, 129, 140 (or 135), 141, 143, 152, 165, 184**)
- International & Development (Econ 15Q, 106, 116, **118, 120, 121, 124, 125, 127, 128, 162, 164, 165, 166**)
- Policy (ESF 1, Econ 11N, 15Q, 17N, 19Q, 22N, 23N, 27N, 45, 47, **111, 113, 118, 126, 141, 145, 146, 147, 150, 152, 154, 155, 159**)
- Research (Econ **102C, 136 (or 182), 137 (or 181), 160 (or 180), 198, 199D, 202, 210**)
- Strategy (Econ 19Q, **113, 136 (or 182), 137 (or 181), 149, 157, 160 (or 180)**)

### Honors Program

The honors program offers an opportunity for independent research, creativity, and achievement. It is designed to encourage a more intensive study of economics than is required for the normal major, with course and research work of exceptional quality. Honors students submit their theses in writing and present them during the Honors Research Symposium during Spring Quarter. The honors program requires:

1. Completing all requirements for the major; plus five additional units, bringing the total to 85 units.
2. Achieving a grade point average (GPA) of at least 3.5 for the required courses of the Economics major (excluding ECON 139D Directed Reading and ECON 199D Honors Thesis Research). See details in the Information Book for Economics Majors.
3. Complete ECON 102B Applied Econometrics and at least two Econ upper division courses most relevant for the proposed topic of the honors thesis by the end of the junior year. (These can be included in the basic 80 units.)
4. Candidates must write an honors thesis in their senior year for at least one unit and up to nine units of credit in their thesis adviser's section of ECON 199D (ECON 199D Honors Thesis Research). Additionally, winter registration for one unit of Honors Thesis Research, under the Director of the Honors Program section number (ECON 199D-20) is mandatory for all honors students. The thesis must be of very high quality and written under the direction of a member of the department or its affiliated faculty. Units of ECON 199D Honors Thesis Research do not count toward the course work requirements for the basic economics major, or in the computation of the GPA requirement for honors.

Juniors interested in the honors program should contact the honors program director for more information. Prospective candidates for the honors program should submit an application to the director no later than October 20 for Spring Quarter degree conferral. Also required, in the same quarter, is a three-page thesis proposal that must be approved by the thesis adviser.

### Minor in Economics (35 Units)

The minor in Economics has two main goals: to acquaint students with the rudiments of micro- and macroeconomic theory that are required of all majors; and to allow students to build competence in the application of this theory to two fields of economics of their choosing, and the opportunity to specialize further in any one of these fields by taking one additional advanced course in the Department of Economics.

#### Core Courses: 20 units

ECON 1	Principles of Economics	5
ECON 50	Economic Analysis I (Prerequisites: ECON 1 and MATH 51 or CME 100 or CME 100A)	5
ECON 51	Economic Analysis II (Prerequisite: ECON 50)	5
ECON 52	Economic Analysis III (Prerequisite: ECON 50)	5

#### Minor Field Courses: 10 units

Must be taken at Stanford in California

ECON 102A	Introduction to Statistical Methods (Postcalculus) for Social Scientists	5
ECON 102B	Applied Econometrics	5
ECON 102C	Advanced Topics in Econometrics	5
ECON 111	Money and Banking (not offered this year)	5
ECON 112	Financial Markets and Institutions: Recent Developments	5
ECON 113	Economics of Innovation	5
ECON 118	Development Economics	5
ECON 125	Economic Development, Microfinance, and Social Networks	5
ECON 126	Economics of Health and Medical Care	5
ECON 128	Economic Development: A Historical Perspective (not offered this year)	5
ECON 129	Credit markets and development: Some evidence from Latin America and the World	5
ECON 135	Finance for Non-MBAs <sup>1</sup>	3
ECON 136	Market Design <sup>2</sup>	5
ECON 137	Decision Modeling and Information <sup>4</sup>	5
ECON 140	Introduction to Financial Economics <sup>1</sup>	5
ECON 141	Public Finance and Fiscal Policy	5
ECON 145	Labor Economics	5
ECON 146	Economics of Education	5
ECON 147	The Economics of Labor Markets	5
ECON 149	The Modern Firm in Theory and Practice	5
ECON 155	Environmental Economics and Policy	5
ECON 157	Imperfect Competition	5
ECON 160	Game Theory and Economic Applications <sup>3</sup>	5
ECON 164	The Law and Economics of the World Trading System (not offered this year)	5
ECON 165	International Finance	5
ECON 166	International Trade	5
ECON 178	Behavioral Economics	5
ECON 179	Experimental Economics ((not offered this year))	5
ECON 180	Honors Game Theory <sup>3</sup>	5
ECON 181	Honors Information and Incentives (not offered this year) <sup>4</sup>	5
ECON 182	Honors Market Design <sup>2</sup>	5
ECON 198	Junior Honors Seminar	5
ECON 202	Microeconomics I <sup>5</sup>	2-5
ECON 210	Macroeconomics I <sup>5</sup>	2-5

<sup>1</sup> Students may not count units from both ECON 135 Finance for Non-MBAs and ECON 140 Introduction to Financial Economics towards their minor as the courses are too similar in content.

<sup>2</sup> Students may not count units from both ECON 136 Market Design and ECON 182 Honors Market Design towards their minor as the courses cover similar subject matter.

<sup>3</sup> Students may not count units from both ECON 160 Game Theory and Economic Applications and ECON 180 Honors Game Theory towards their minor as the courses cover similar subject matter.

<sup>4</sup> Students may not count units from both ECON 137 Decision Modeling and Information and ECON 181 Honors Information and Incentives towards their minor as the courses cover similar subject matter.

<sup>5</sup> Students may enroll with permission of the Director of Undergraduate Studies and the course instructor.

#### Electives: 5 units

Select from: Any ECON courses offered for letter grades

## Other Requirements

Students cannot declare Economics as their minor until they have completed ECON 50 Economic Analysis I with a grade of 'B' or better or received approval from the Director of Undergraduate Study.

At least 20 out of the 35 units for the minor must be taken at Stanford. Students must have completed all Stanford prerequisites for approved transfer credit courses in order to use those courses towards the Economics minor.

No courses receiving Department of Economics credit under the preceding requirements may be taken credit/no credit. The combined total of all units for the minor must equate to the grade point average (GPA) of 2.0 (C) or better.

Students must complete their declaration of the minor no later than the last day of the preceding quarter before their degree conferral.

## Master of Arts in Economics

University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

The department does not admit students who plan to terminate their graduate study with the M.A. degree. Students must be currently enrolled in a Ph.D. program at Stanford before adding the Economics M.A. degree. Economics students may, but need not, elect to add this degree in addition to their current Ph.D. degree after they have been enrolled at Stanford for at least one quarter. A master's option is also available to currently enrolled Ph.D. candidates from other departments.

## Adding the M.A. Degree

In order to add this degree to their program plan, current Ph.D. students should submit a Graduate Authorization Petition via AxBSS and submit an M.A. program proposal form to the Student Services Manager for approval. Students must have completed the Stanford requirements for a B.A. in Economics or approximately equivalent training. Since students are required to take some of the same courses as Ph.D. candidates, similar preparation in mathematics and statistics generally is expected before the petition to add the M.A. will be approved.

## Degree Requirements

A master's program must satisfy these criteria:

1. Completing, at Stanford, at least 45 units of credit beyond those required for the bachelor's degree, of which at least 40 units must be in the Department of Economics. Students must complete ECON 202 Microeconomics I or ECON 202N Microeconomics I For Non-Economics PhDs and at least three other 200-level lecture courses. They must receive a grade of 'B-' or better in ECON 202 Microeconomics I or ECON 202N Microeconomics I For Non-Economics PhDs. Undergraduate courses must be numbered 105 or higher (with the exception of the ECON 102A Introduction to Statistical Methods (Postcalculus) for Social Scientists, ECON 102B Applied Econometrics, ECON 102C Advanced Topics in Econometrics sequence listed below). No seminar courses numbered 300 or above can be counted.
2. Demonstrating competence in empirical methodology by receiving a grade of 'B-' or better in both ECON 270 Intermediate Econometrics I and ECON 271 Intermediate Econometrics II, or by receiving a grade of 'B-' or above in each of ECON 102A Introduction to Statistical Methods (Postcalculus) for Social Scientists, ECON 102B Applied Econometrics, and ECON 102C Advanced Topics in Econometrics.
3. Submitting two term papers (or a thesis of sufficient quality). At least one of these papers must be deemed to represent graduate-level work. Normally, this means that it is written in connection with a 200-level course. A maximum of 5 units of credit can be earned for a directed reading/thesis (Econ 239D, Econ 400 or comparable thesis

course in home department) toward the 45-unit degree requirement. In lieu of this paper requirement, students may elect to take two additional 200+ level Economics courses.

4. A grade point average (GPA) of 3.0 must be maintained for all master's level work. All courses must be taken for a letter grade.

## Doctor of Philosophy in Economics

University requirements for the Ph.D. are described in the "Graduate Degrees (p. 50)" section of this bulletin.

Students admitted to graduate standing in the department are expected to have a strong background in college-level economics, mathematics, and statistics. Preparation ordinarily consists of a college major in economics, a year-long calculus sequence that includes multivariate analysis, a course in linear algebra, and a rigorous course in probability and statistics. When deemed appropriate, a student may be required to complete the necessary background preparation at Stanford. All students take a common core curriculum at the outset and later branch out into the desired fields of specialization.

Well-prepared students should anticipate spending, with some overlap, approximately two years in course work and another two years in seminars, independent study, and dissertation research. A minimum of 135 completed units is required for the degree. The goal is to complete the program in four years, although some types of research programs may require at least five years to complete. The department has a strong commitment to guiding students through the program expeditiously.

Questions and petitions concerning the program and the admissions process should be addressed to the Director of Graduate Study, who has responsibility for administering the graduate program.

Specific requirements are best discussed in two stages, the first consisting of requirements for admission to candidacy and the second involving further requirements for earning the degree.

## Admission to Candidacy for Ph.D.

A student may apply for admission to candidacy when the following minimal requirements are met:

## Graduate Core

1. Successful completion of core sequences in microeconomics, macroeconomics, and econometrics:

### A. Microeconomics

ECON 202	Microeconomics I	2-5
ECON 203	Microeconomics II	2-5
ECON 204	Microeconomics III	2-5

### B. Macroeconomics

ECON 210	Macroeconomics I	2-5
ECON 211	Macroeconomics II	2-5
ECON 212	Macroeconomics III	2-5

### C. Econometrics

ECON 270	Intermediate Econometrics I	2-5
ECON 271	Intermediate Econometrics II	2-5
ECON 272	Intermediate Econometrics III	2-5

To pass a sequence, an overall grade of 'B' is required for the sequence, and individual course grades must be 'B-' or better. Petitions to substitute courses or waive out of any core course must be submitted to the Director of Graduate Study at least two weeks before the start of the term.

2. Completing the requirements in two additional advanced fields of specialization from the list below or, if approved in advance by the Director of Graduate Study, in one such field together with a

substantial amount of work toward a second field taught in a related department (e.g. GSB Finance). Students may request permission from the Director of Graduate Study to create a field not listed as an advanced field below, such as International Finance or Law & Economics. Requirements for completing a field can usually be satisfied by completing two courses and a paper, although students in some fields may be advised to add a third course, which can then be counted toward the distribution requirement discussed later. A minimum grade average of B is required to pass a field sequence. Individual course grades cannot be less than a B- in order to count for field course credit. Specific requirements for completing each field can be found on the Economics department website (<http://economics.stanford.edu>).

3. Completing a candidacy paper, normally written in conjunction with one of the advanced specialty fields selected above. Submission of this paper or another research paper is required by the first day of Autumn Quarter of the third year. Satisfactory presentation of this paper is required in the Autumn quarter third year seminar. It is expected that the student meet, and indeed exceed, the above standards by the end of the first quarter in the third year of residency. When this is not possible for any reason, the Director of Graduate Study should be consulted as early as possible during the third year.

Once it is deemed that the above standards have been met, the student should complete the Application for Candidacy for Degree of Doctor of Philosophy. After a student fulfills the department prerequisites for applying for candidacy and submits their candidacy application form, the faculty votes to determine whether the student has the potential to successfully complete the requirements of the degree program. If approved, candidacy remains valid for five years (although it can be terminated earlier by the department if progress is deficient); it can be renewed or extended beyond this period only under unusual circumstances. Failure to advance to candidacy results in dismissal from the program.

## Further Requirements for the Ph.D. Degree

1. *Third Year Seminar*: presentation of an expanded research paper in Spring Quarter of the third year.
2. *Distribution Requirement*: Students must complete four other graduate-level courses meeting the following requirements:
  - a. at least one course from the area of economic history, unless history is one of the two fields of specialization.
  - b. courses in at least two fields other than the two fields of specialization. Distribution courses cannot be crosslisted in those fields.
  - c. with advance approval of the Director of Graduate Study, some of these distribution courses may be drawn from related fields taught in other departments. However, including courses taken to meet either the specialization or distribution requirements, no more than two courses in total may be taken outside the Economics department.
  - d. all courses used to fulfill distribution requirements must be passed with a grade of B or better.
3. *Teaching Experience*: Each student must serve as a teaching assistant for at least one quarter. It is strongly recommended that this requirement be satisfied before the fourth year of residence.
4. *Seminar Participation*: Each student is expected to participate in at least two all-year research seminars by the end of the fourth year of residence. Normally, participation in a seminar requires one or more oral presentations and the submission of a research paper (which, however, need not be completely separate from dissertation research). Detailed information on fulfilling the seminar requirements can be found on the Economics department website (<http://economics.stanford.edu>).
5. *Ph.D. Dissertation*: The process involves selecting a topic, choosing an appropriate adviser, submitting a prospectus (signed by the adviser)

outlining the proposed research, selecting a three-member reading committee (usually all from the Department of Economics, although exceptions can be made under certain circumstances), passing the University oral examination at which these three faculty (and two other members of the Academic Council) ask questions about the completed research, and submitting a final draft of the work signed by all members of the reading committee. The student is advised to initiate this process as early as possible.

## Graduate Fields

### A. Behavioral and Experimental Economics

To receive credit for this field, students must take the following three courses. Research papers and presentations are requirements of these courses.

		Units
ECON 278	Behavioral and Experimental Economics I	2-5
ECON 279	Behavioral and Experimental Economics II	2-5
ECON 277	Behavioral and Experimental Economics III	2-5

### B. Econometric Methods For Causal Inference

To receive credit for the Econometric Methods field, students must complete the two courses listed below.

		Units
ECON 292	Quantitative Methods for Empirical Research	2-5
ECON 293	Machine Learning and Causal Inference	3

### C. Econometrics

A student may satisfy the requirements for the econometrics field by completing the requirements of one of two subfields:

#### • C-A: Theoretical Econometrics:

To receive credit in the theoretical econometrics subfield, students must complete two courses from:

		Units
ECON 273	Advanced Econometrics I	2-5
ECON 274	Advanced Econometrics II	2-5
ECON 292	Quantitative Methods for Empirical Research <sup>Econ</sup> 292 is also known as GSB MGTECON 640	2-5

#### • C-B: Applied Econometrics:

To receive credit in the applied econometrics subfield, students must complete ECON 273 and either ECON 275 or ECON 276. Students must also complete a course or set of courses that is empirically oriented. The last requirements must be approved by the Director of Graduate Study in consultation with the instructor of 275 or 276.

		Units
ECON 273	Advanced Econometrics I	2-5
ECON 275	(not offered this year)	2-5
ECON 276	Computational Econometrics	2-5

### D. Economic Development

To receive credit for this field, students must complete two courses from the following list and present a research proposal in each course. Students are required to develop and present a series of research ideas throughout each course. Students must pass an oral exam at the end of the second year (summer). Regular attendance at the Development Economics workshop and the Development student workshop is required.

		Units
ECON 214	Development Economics I	2-5

ECON 215	Development Economics II	2-5
ECON 216	Development Economics III	2-5

Each course requires completion of a term paper. Each course must be passed with a grade of B or better.

### E. Economic History/Institutions

Students must complete two courses from the following list and develop a research proposal in each course. Presentation of a research proposal is required at the end of the second year. Regular attendance (at least four quarters) at the economic history workshop is required.

		Units
ECON 225	Economics of Technology and Innovation (not offered this year)	2-5
ECON 226	U.S. Economic History	2-5
ECON 227	European Economic History	2-5
ECON 228	Institutions and Organizations in Historical Perspective	2-5

### K. Macroeconomics

Requirements for this field are completion of two courses from the list below. Presentation of a research proposal in each course is required. ECON 236 and 237 may not be double-counted towards both the macroeconomics and the finance field.

		Units
ECON 233	Advanced Macroeconomics I	2-5
ECON 235	Advanced Macroeconomics III (not offered this year)	2-5
ECON 236	Financial Economics I	2-5
ECON 237	Financial Economics II	2-5

### F. Environmental, Resource and Energy Economics

To receive credit for this field, students must complete:

		Units
ECON 250	Environmental Economics	2-5
ECON 251	Natural Resource and Energy Economics	2-5

### L. Market Design

To receive credit for this field, students must take two from the following and give a research presentation:

		Units
ECON 283	Theory and Practice of Auction Market Design	2-5
ECON 285	Matching and Market Design	2-5
ECON 289	Advanced Topics in Game Theory and Information Economics	2-5

### G. Finance

To receive credit for the field, students must complete two courses from list below. A 20-minute research project proposal is required.

		Units
ECON 236	Financial Economics I	2-5
ECON 237	Financial Economics II	2-5
FINANCE 622	Dynamic Asset Pricing Theory	4
FINANCE 624	Corporate Finance Theory	4
FINANCE 625	Empirical Asset Pricing	3

### M. Microeconomic Theory

To receive credit for this field, students must complete two courses from the following and give a research presentation:

		Units
ECON 282	Contracts, Information, and Incentives	2-5
ECON 286	Game Theory and Economic Applications	2-5
ECON 291	Social and Economic Networks	2-5

### H. Industrial Organization

To receive credit for the field, students must complete:

		Units
ECON 257	Industrial Organization I	2-5
ECON 258	Industrial Organization IIA <sup>1</sup>	2-5

### N. Public Economics

To receive credit for the field, students must complete the two courses below. Regular attendance at the Public Economics workshop is required.

		Units
ECON 241	Public Economics I	2-5
ECON 242	Public Economics II	2-5

<sup>1</sup> ECON 251 can substitute for ECON 258 only, as long as the student is not also using ECON 251 to fulfill requirements for the Environmental field.

<sup>2</sup> Students who select Industry as a primary focus are expected to also take ECON 260.

### I. International Trade

To receive credit for this field, students must complete two courses and research papers from:

		Units
ECON 266	International Trade I	2-5
ECON 267	International Trade II (recommended)	2-5

Students must pass both courses with a grade of B or better.

### J. Labor Economics

To receive credit for this field, students must complete two courses from:

		Units
ECON 246	Labor Economics I	2-5
ECON 247	Labor Economics II	2-5
ECON 248	Labor Economics III	2-5

## Ph.D. Minor in Economics

To be recommended for the Ph.D. degree with Economics as a minor subject, a student must qualify in three fields of economics, at least one of which must be in the core economics sequence (Microeconomics, Macroeconomics, Econometrics). The standard of achievement in these fields is the same for minor as for major candidates, including minimum grade requirements, paper submissions and research presentations where appropriate. All courses used for the Ph.D. minor must be taken for a letter grade.

## Joint Degree Programs in Economics with the School of Law

### J.D./M.A. and J.D./PH.D.

The Department of Economics and the School of Law offer a joint program leading to either a J.D. degree combined with an M.A. degree in Economics, or to a J.D. degree combined with a Ph.D. in Economics.

The J.D./M.A. and J.D./Ph.D. degree programs are designed for students who wish to prepare themselves for careers in areas relating to both law and economics. Students interested in either joint degree program

must apply and gain entrance separately to the School of Law and the Department of Economics and, as an additional step, must secure permission from both academic units to pursue degrees in those units as part of a joint degree program. Interest in either joint degree program should be noted on the student's admission applications and may be considered by the admission committee of each program. Alternatively, an enrolled student in either the Law School or the Economics department may apply for admission to the other program and for joint degree status in both academic units after commencing study in either program.

Joint degree students may elect to begin their course of study in either the School of Law or the Department of Economics. Faculty advisers from each academic unit participate in the planning and supervising of the student's joint program. Students must be enrolled full time in the Law School for the first year of law school, and, at some point during the joint program, may be required to devote one or more quarters largely or exclusively to studies in the Economics program regardless of whether enrollment at that time is in the Law School or in the Department of Economics. At all other times, enrollment may be in the graduate school or the Law School, and students may choose courses from either program regardless of where enrolled. Students must satisfy the requirements for both the J.D. and the M.A. or Ph.D. degrees as specified in this bulletin or by the School of Law.

The Law School approves courses from the Economics Department that may count toward the J.D. degree, and the Economics department approves courses from the Law School that may count toward the M.A. or Ph.D. degree in Economics. In either case, approval may consist of a list applicable to all joint degree students or may be tailored to each individual student's program. The list may differ depending on whether the student is pursuing an M.A. or a Ph.D. in Economics.

In the case of a J.D./M.A. program, no more than 45 quarter hours of approved courses may be counted toward both degrees. In the case of a J.D./Ph.D. program, no more than 54 quarter hours of approved courses may be counted toward both degrees. In either case, no more than 36 quarter hours of courses that originate outside the Law School may count toward the Law degree. To the extent that courses under this joint degree program originate outside the Law School but count toward the Law degree, the Law School credits permitted under Section 17(1) of the Law School Regulations shall be reduced on a unit-per-unit basis, but not below zero. The maximum number of Law School credits that may be counted toward the M.A. or the Ph.D. in Economics is the greater of: (a) 5 quarter hours in the case of the M.A. and 10 quarter hours in the case of the Ph.D.; or (b) the maximum number of hours from courses outside of the department that M.A. or Ph.D. candidates in Economics are permitted to count toward the applicable degree under general departmental guidelines or in the case of a particular student's individual program.

Tuition and financial aid arrangements are normally made through the school in which the student is then enrolled.

For more information, see the Law School's Degrees and Joint Degrees (<http://www.law.stanford.edu/program/degrees>) web site.

## Joint Degree Program in Ph.D. in Economics and Master of Public Policy

The Ph.D./M.P.P. joint degree is designed for students who wish to prepare themselves for careers in areas relating to both policy and economics. Students interested in this degree first apply to the Economics Department, indicating an interest in the joint program. There is one admissions application and one fee. If the decision is made by the department to admit the applicant, the file is then forwarded to the M.P.P. program. An admission decision, based on the information in the Ph.D. application, is made promptly, and the department informs the student of the decision.

Students may also apply to the M.P.P. after having commenced study in the Economics Department at Stanford, by first receiving the consent of the Director of Graduate Studies in Economics and then applying to the Public Policy program.

Students must have a faculty adviser from the Economics Department to assist with the planning and supervising of the joint program. The adviser is usually chosen from among the department's Public Policy-affiliated faculty.

Tuition and financial aid arrangements are made through the Economics Department.

## Requirements for the M.P.P./Ph.D. in Economics

### Core M.P.P. curriculum of 45 units

		Units
PUBLPOL 301B	Economic Policy Analysis for Policymakers	4-5
PUBLPOL 302A	Introduction to American Law	3-5
PUBLPOL 302B	Economic Analysis of Law	3
PUBLPOL 304A	The Ethics and Politics of Collective Action	3-4
PUBLPOL 305B	Public Policy and Social Psychology: Implications and Applications	4
PUBLPOL 306	Writing and Rhetoric for Policy Audiences	4
PUBLPOL 307	Justice	4-5
PUBLPOL 309	Practicum	1-10
PUBLPOL 311	Public Policy Colloquium	1
LAW 7508	Problem Solving and Decision Making for Public Policy and Social Change	4
Total Units		31-45

## Other Programs

Other programs leading to dual degrees may be arranged. For example, the Ph.D. in Economics combines with one or two years of study in the School of Law, leading to the nonprofessional Master of Legal Studies (M.L.S.) degree. A dual degree program does not permit counting any courses toward both the Economics and the Law degrees. For more information, see the Law School's Degrees and Joint Degrees (<http://www.law.stanford.edu/program/degrees>) web site.

*Emeriti:* (Professors) Takeshi Amemiya, Paul A. David, Victor R. Fuchs, John G. Gurley, Peter J. Hammond, Donald Harris, Bert G. Hickman, Mordecai Kurz, Lawrence J. Lau, Roger G. Noll, John H. Pencavel, Thomas Sargent, David A. Starrett, Joseph E. Stiglitz, Gavin Wright

*Honorary Emerita:* (Professor) Anne O. Krueger

*Visiting Associate Professor:* Matilde Bombardini

## Overseas Studies Courses in Economics

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		<b>Units</b>
OSPBER 115X	The German Economy: Past and Present	4-5
OSPBER 161X	The German Economy in the Age of Globalization	4-5
OSPMADRD 32	Economics of Development	3-5
OSPMADRD 54	Contemporary Spanish Economy and the European Union	4
OSPOXFRD 45	British Economic Policy since World War II	5
OSPPARIS 86	Measuring Well-Being and Sustainability in Today's World	5
OSPPARIS 91	Globalization and Its Effect on France and the European Union	5
OSPSANTG 119X	The Chilean Economy: History, International Relations, and Development Strategies	5

# ENGLISH

Courses offered by the Department of English are listed under the subject code ENGLISH on the Stanford Bulletin's ExploreCourses web site.

## Mission of the Department of English

To study English at Stanford is to explore, deeply and rewardingly, the rich legacy of literature written in English, past and present. The department offers a wealth of courses on individual authors, the history of literary genres, literary theory, new media, and creative writing. Given the emphasis on critical thinking and interpretation, the English major is in turn an excellent preparation for many professional fields, including teaching, journalism, law, publishing, medicine, and business. The graduate program features rigorous training in the research and analysis of British, American, and Anglophone literary histories and texts, preparing students to produce scholarship of originality and importance, and to teach literature at the highest levels.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. an understanding of major theories, methods, and concepts of literary study and critical analysis.
2. an awareness of how authors and texts develop in relation to their historical contexts.
3. a comprehension of the formal qualities of key literary genres, forms, and styles.
4. an effective style of writing and a powerful use of language.

## Bachelor of Arts in English

In the undergraduate program, students explore the traditions of literature in English. Courses emphasize interpretive thinking and creative writing, examining the dynamics of literary and cultural history, the structures of literary form and genre, and the practices of reading, writing, and critical analysis.

## Graduate Program in English

The graduate program features rigorous training in the research and analysis of British, American and Anglophone literary histories and texts, preparing students to produce scholarship of originality and importance, and to teach literature at advanced levels.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in British, American and Anglophone literary histories and texts and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in English. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of English and to interpret and present the results of such research.

## Other Programs in English

### Ph.D. in Modern Thought and Literature

Stanford also offers a Ph.D. degree in Modern Thought and Literature. Under this program, students devote approximately half of their time to a modern literature from the Enlightenment to the present, and the other half to interdisciplinary studies. Interested students should see the "Modern Thought and Literature" section of this bulletin and consult the director of the program.

### Creative Writing Fellowships

The Creative Writing Program each year offers five two-year fellowships in poetry and five two-year fellowships in fiction. These are not degree-granting fellowships. Information is available in the Creative Writing office, (650) 725-1208.

## Bachelor of Arts in English

The English major is designed to provide students with both an understanding of the development of literatures in English and an appreciation of the variety and richness of literary texts. It offers a rigorous training in interpretive thinking and precise expression.

### Suggested Preparation for the Major

Prospective English majors are advised to consider Thinking Matters courses that relate to literature to satisfy a major requirement. Also recommended is any introductory seminar taught by English department faculty through Stanford Introductory Studies.

Units

#### Thinking Matters Courses

ESF 1	Education as Self-Fashioning: The Active, Inquiring, Beautiful Life	7
THINK 31	Race and American Memory	4
THINK 49	Stories Everywhere	4

#### Introductory Seminars

ENGLISH 48N	The American Songbook and Love Poetry	3
ENGLISH 51N	The Sisters: Poetry & Painting	3
ENGLISH 68N	Mark Twain and American Culture	4
ENGLISH 70N	Shakespeare Unbound	3
ENGLISH 75N	American Short Stories	3
ENGLISH 90Q	Sports Writing	3
ENGLISH 93Q	The American Road Trip	3

## Degree Requirements

Students interested in majoring in English are encouraged to declare during their sophomore year, but no later than the beginning of their junior year. They are urged to discuss their plans with the undergraduate student services specialist as early as possible, and to take recommended preparatory courses for the major in their freshman and sophomore years. To declare the major, a student must fill out the Declaration of Major in Axxess; choose a faculty advisor; and submit a completed program proposal form approved by the adviser. It is recommended that a student meet with the adviser at least once per quarter to discuss progress towards degree completion. Students who declared prior to September 2015 should refer to previous guidelines and requirements for the major.

With the exception of the required courses listed below, which must be taken for a letter grade, any two of the elective courses may be taken on a credit/no credit basis at the discretion of the instructor. Transfer students only may apply as many as four literature courses taken at approved universities toward the English major electives. Approval of such courses toward the major is at the discretion of the Director of Undergraduate Studies. Request for transfer credit, including course

syllabi and official transcripts, should be submitted to the undergraduate student services specialist, and to the Office of the Registrar's external credit evaluation section. In the case of all other students, literature courses taken outside the department will not normally be accepted for credit unless they are taken as part of the Bing Overseas Study Program.

No petitions for courses taken outside the department will be granted retrospectively.

The total number of units required to graduate for each degree option is specified in the relevant section following. All courses should be taken for 5 units. Irrespective of field of study or degree option, all English majors must complete the following requirements:

## Required Courses (35 units)

### Historical courses

One course in the 10 series<sup>1</sup>

ENGLISH 10A Introduction to English I: Mapping Monsters in British Literature 650-1650 5

or ENGLISH 10B Introduction to English I: What is Literary History?

One course in the 11 series<sup>2</sup>

ENGLISH 11A Introduction to English II: From Milton to the Romantics 5

or ENGLISH 11B Introduction to English II: American Literature and Culture to 1855

One course in the 12 series<sup>3</sup>

ENGLISH 12A Introduction to English III: Introduction to African American Literature 5

or ENGLISH 12C Introduction to English III: Modern Literature

### Methodology courses

ENGLISH 160 Poetry and Poetics 5

ENGLISH 161 Narrative and Narrative Theory 5

ENGLISH 162W Writing Intensive Seminar in English (WIM) 5

### Also Required

One pre-1800 historical course<sup>4 5</sup> 5

Total Units 35

<sup>1</sup> For students who declared prior to the 2015-16 academic year this requirement may be satisfied by the following course:  
• ENGLISH 100A. Literary History I (no longer offered)

<sup>2</sup> For students who declared prior to the 2015-16 academic year this requirement may be satisfied by the following course:  
• ENGLISH 100B. Literary History II (no longer offered)

<sup>3</sup> For students who declared prior to the 2015-16 academic year this requirement may be satisfied by the following course:  
• ENGLISH 100C. Literary History III (no longer offered)

<sup>4</sup> In 2017-18 the following courses satisfy the pre-1800 historical requirement:  
• ENGLISH 101A How to Read Beowulf  
• ENGLISH 103B Introduction to Old English Language and Literature  
• ENGLISH 112A Humanities Core: Great Books, Big Ideas -- Europe, Middle Ages and Renaissance  
• ENGLISH 115D Shakespeare, Language, Contexts  
• ENGLISH 163F Shakespeare Now and Then  
• ENGLISH 201 The Bible and Literature  
• ENGLISH 233 Baroque and Neobaroque  
• ENGLISH 240A Crooks, Quacks, and Courtesans: Jacobean City Comedy

<sup>5</sup> This requirement may also be fulfilled with the following Thinking Matters or SLE courses:

- ESF 1 Education as Self-Fashioning: The Active, Inquiring, Beautiful Life
- THINK 7 Journeys
- THINK 49 Stories Everywhere
- SLE 91 Structured Liberal Education, SLE 92 Structured Liberal Education, and SLE 93 Structured Liberal Education.

Rules that apply to all English majors irrespective of field of study or degree option

1. Courses can only be counted once, i.e., can only satisfy one requirement.
2. Two of the elective courses may be taken on a credit/no credit basis at the discretion of the instructor.

### Units

## Fields of Study

Because the Department of English recognizes that the needs and interests of literature students vary, it has approved several major programs of study. Each of these has different objectives and requirements; students should consider carefully which program of study corresponds most closely to their personal and intellectual objectives.

The department offers the following fields of study for degrees in English:

- Literature
- Literature with Creative Writing Emphasis
- Literature and Interdisciplinary Studies
- Literature and Foreign Language Literature
- Literature and Philosophy

### I. Literature (35 units)

This field of study is not declared in Axess. It does not appear on either the official transcript or the diploma. This program provides for the interests of students who wish to understand the range and historical development of British, American and Anglophone literatures and a variety of critical methods by which their texts can be interpreted. The major emphasizes the study of literary forms and genres and theories of textual analysis. In addition to the degree requirements required of all majors and listed above, students must complete at least 35 additional units of courses consisting of:

1. Seven additional approved elective courses, only one of which may be a creative writing course, chosen from among those offered by the Department of English. In place of one of these seven elective courses, students may choose one upper-division course in a foreign literature read in the original language.

### II. Literature with Creative Writing Emphasis (40 units)

This subplan is printed on the transcript and diploma and is elected in Axess. This program is designed for students who want a sound basic knowledge of the English literary tradition as a whole and at the same time want to develop skills in writing poetry or prose. In addition to the degree requirements required of all majors and listed above, students must complete at least 40 additional units of approved courses, in either the prose or poetry concentration:

#### Prose Concentration

		Units
ENGLISH 90	Fiction Writing	5
or ENGLISH 91	Creative Nonfiction	
ENGLISH 92	Reading and Writing Poetry (Can be fulfilled with a poetry literature seminar)	5
ENGLISH 146 <sup>1</sup>		5
ENGLISH 190	Intermediate Fiction Writing (or any 190 series or 191 series)	5
or ENGLISH 191	Intermediate Creative Nonfiction	

4 elective literature courses (One of the courses may be fulfilled with a creative writing workshop). 20

Total Units 40

<sup>1</sup> In the 2017-18 academic year ENGLISH 146 is not offered. Students may substitute one of the following courses:

- ENGLISH 143A American Indian Mythology, Legend, and Lore
- ENGLISH 144 Major Modernists: Virginia Woolf, James Joyce, Katherine Mansfield, T. S. Eliot
- ENGLISH 145H
- ENGLISH 151F Angelheaded Hipsters: Beat Writers of San Francisco and New York
- ENGLISH 153F Transatlantic Female Modernists: Making it New with a Difference
- ENGLISH 154E Twentieth-Century Irish Literature

### Poetry Concentration

	Units
ENGLISH 90 Fiction Writing (Can be fulfilled with a prose literature seminar)	5
or ENGLISH 91 Creative Nonfiction	
ENGLISH 92 Reading and Writing Poetry	5
ENGLISH 192 Intermediate Poetry Writing (or any 192 series)	5
One literature course in poetry approved by a Creative Writing Professor	5
4 elective literature courses (One of the courses may be fulfilled with a creative writing workshop)	20
Total Units	40

### III. Literature and Interdisciplinary Studies (40 units)

This emphasis is printed on the transcript and diploma and is elected in Axxess. This program is intended for students who wish to combine the study of one broadly defined literary topic, period, genre, theme or problem with an interdisciplinary program of courses (generally chosen from one other discipline) relevant to that inquiry. In addition to the degree requirements required of all majors and listed above, students must complete at least 40 additional units of approved courses including:

1. Five elective literature courses chosen from among those offered by the Department of English. Students must select two of these courses in relation to their interdisciplinary focus.
2. Three courses related to the area of inquiry. These courses may be chosen from another department or interdisciplinary program within the School of Humanities and Sciences including (but not limited to) such as African American Studies (<http://www.stanford.edu/dept/AAAS>), Anthropology (<https://www.stanford.edu/dept/anthropology/cgi-bin/web>), Art and Art History (<http://art.stanford.edu>), Classics (<http://www.stanford.edu/dept/classics/cgi-bin/web>), Comparative Literature (<http://www.stanford.edu/dept/DLCL/cgi-bin/web/dept/complit>), Comparative Studies in Race and Ethnicity (<http://ccsre.stanford.edu>), Feminist Studies (<http://www.stanford.edu/dept/femstudies>), Human Biology (<https://hum.bio.stanford.edu>), Music (<http://music.stanford.edu/Home>), Philosophy (<http://philosophy.stanford.edu>), Political Science (<http://politicalscience.stanford.edu>), Psychology (<http://psychology.stanford.edu>), Religious Studies (<http://www.stanford.edu/dept/relstud>), Science, Technology, and Society (<http://sts.stanford.edu>), and Sociology (<http://sociology.stanford.edu>). These courses should form a coherent program and must be relevant to the focus of the courses chosen by the student to meet the requirement. Each of these courses must be approved in advance by the interdisciplinary program director.
3. In addition, students in this program must complete an interdisciplinary project, in the form of a 15-20 page interdisciplinary paper or its equivalent. This may be completed with ENGLISH 194 Individual Research, ENGLISH 197 Seniors Honors Essay,

ENGLISH 198 Individual Work, ENGLISH 199 Senior Independent Essay, or a paper integrating the material in two courses the student is taking in two different disciplines.

The final course plan and interdisciplinary project must be approved by the faculty adviser and the interdisciplinary adviser by the time the student applies to graduate.

### IV. Literature and Foreign Language Literature (40 units)

This subplan is printed on the transcript and diploma and is elected in Axxess. This track provides a focus in British and American literature with additional work in French literature; German literature; Italian literature; or Spanish literature. These subplans appear on the diploma as follows: English & French Literature, English & German Literature, English & Italian Literature, and English & Spanish Literature. In addition to the degree requirements required of all majors and listed above, students must complete at least 40 additional units of approved courses including:

1. Four elective courses chosen from among those offered by the Department of English, one of which may be a creative writing course.
2. A coherent program of four courses in the foreign language literature, read in the original language, approved by the Director of Undergraduate Studies in English and by the relevant foreign language department.

### V. Literature and Philosophy (40-50 units)

This subplan is printed on the transcript and diploma and is elected in Axxess. Students should meet with the undergraduate director concerning the Literature and Philosophy focus. This track is for students who wish to explore interdisciplinary studies at the intersection of literature and philosophy while acquiring knowledge of the English language literary tradition as a whole. In addition to the degree requirements required of all majors and listed above, students must complete at least 40-50 additional units of approved courses including:

1. PHIL 80 Mind, Matter, and Meaning (WIM): Prerequisite: introductory philosophy course.
2. Gateway course: ENGLISH 81 Philosophy and Literature. This course should be taken as early as possible in the student's career, normally in the sophomore year.
3. Aesthetics, Ethics, Political Philosophy: one course from PHIL 170 Ethical Theory series.
4. Language, Mind, Metaphysics, and Epistemology: one course from PHIL 180 Metaphysics series.
5. History of Philosophy: one course in the history of Philosophy, numbered above PHIL 100 Greek Philosophy.
6. Two upper division courses of special relevance to the study of Philosophy and Literature. Both of these courses must be in the English department. A list of approved courses (<http://philit.stanford.edu/programs/relevance.html>) is available on the Philosophy and Literature web site.
7. Two additional elective courses in the English department.
8. One capstone seminar (<http://philit.stanford.edu/programs/capstone.html>) of relevance to the study of Philosophy and Literature.

## Honors Program

Students wishing to undertake a formal program of advanced literary criticism and scholarship, including the honors seminar and independent research, are invited to apply for the honors program in the Winter Quarter of the junior year. Any outstanding student is encouraged to engage in an honors thesis project.

Admission is selective. Provisional admission is announced in March. Permission to continue in the program is contingent upon submission, by May 15 of the junior year, of a senior honors essay proposal with a bibliography. Honors students are encouraged to complete before the

start of their senior year the three methodology courses that are English major requirements:

ENGLISH 160	Poetry and Poetics	5
ENGLISH 161	Narrative and Narrative Theory	5
ENGLISH 162W	Writing Intensive Seminar in English	5

In September before the senior year, students are encouraged to participate in the Bing Honors College. In Autumn Quarter of the senior year, students take a 5-unit honors seminar on critical approaches to literature. The senior-year seminar is designed to introduce students to the analysis and production of advanced literary scholarship. Students who are studying at Oxford or at other institutions may be exempted from this requirement on request and with the approval of the director of the honors program.

In Winter and Spring quarters of the senior year, honors students complete the senior honors essay for a total of 10 units under supervision of a faculty adviser.

The deadline for submitting the honors essay is May 10. Essays that receive a grade of 'A-' or above are awarded honors.

In addition to fulfilling the requirements of the major, students in the honors program must complete 15 units of the following:

ENGLISH 196A	Honors Seminar: Critical Approaches to Literature	5
ENGLISH 197	Seniors Honors Essay	10

## Advanced Research Options

### Individual Research

Students taking 100- or 200-level courses may, with the consent of the instructor, write a follow-up 5-unit paper based on the course material and due no later than the end of the succeeding quarter (register for ENGLISH 194 Individual Research). The research paper is written under the direct supervision of the professor; it must be submitted first in a preliminary draft and subsequently in a final version.

### Senior Independent Essay

The senior independent essay gives senior English majors the opportunity to work throughout the year on a sustained piece of critical or scholarly work of around 10,000 words on a topic of their choice, with the close guidance of a faculty adviser. Each student is responsible for finding an adviser, who must approve the proposed topic before the end of the third quarter prior to expected graduation. The senior essay is read and graded by the adviser and one other member of the English faculty. Senior independent essay students register for ENGLISH 199 Senior Independent Essay.

## Overseas Studies or Study Abroad

The flexibility of the English major permits students to attend an overseas campus in any quarter, but it is advisable, and in some cases essential, that students spend their senior year at Stanford if they wish to participate in the honors program or in a special in-depth reading course. For more information on Stanford overseas programs, see the "Overseas Studies (p. 124)" section of this bulletin.

Students should consult their advisers and the undergraduate program officer to make sure that they can fulfill the requirements before graduation. The Stanford Program in Oxford usually offers courses which apply toward both University requirements and area requirements for the English major. In either case, students should save the syllabi from

their courses if they wish to apply to use them to fulfill an English major requirement.

### Units Overseas Studies Courses in English

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

## Joint Major Program: English and Computer Science

The joint major program (JMP), authorized by the Academic Senate for a pilot period of six years beginning in 2014-15, permits students to major in both Computer Science and one of ten Humanities majors. See the "Joint Major Program (p. 31)" section of this bulletin for a description of University requirements for the JMP. See also the Undergraduate Advising and Research JMP web site and its associated FAQs.

Students completing the JMP receive a B.A.S. (Bachelor of Arts and Science).

Because the JMP is new and experimental, changes to procedures may occur; students are advised to check the relevant section of the bulletin periodically.

## English Major Requirements in the Joint Major Program

The joint major is structured to let students thoughtfully explore the intersection of Computer Science and literary studies. Students would ideally declare the program during the sophomore year. Students are required to complete requirements in English and Computer Science. See the "Computer Science Joint Major Progra (p. 278)m (p. 278)" section of this bulletin for details on Computer Science requirements.

The requirements for English are adapted from the English major and are stated in full below. Students in the CS+English JMP are required to complete 58 total units in English compared to 68-80 units which is typically required by the English major. Students in CS+English are not required to take the Writing Intensive Seminar in English (WISE) course. Additionally, students in CS+English only have to fulfill five electives. The University Writing in the Major requirement for students in the CS+English JMP is fulfilled by the Computer Science Writing in the Major requirement. To declare the CS+English JMP, students must complete a program proposal. (<https://stanford.box.com/shared/static/h6erjrj75rercs2gua9z8dm4mgnsqwqr.pdf>)

Students are encouraged to compile an ePortfolio of reflections, ideas, and work on the interplay between humanities and computer science.

### Integrative Experience

In the senior year, students are required to undertake a capstone project which involves both programming and literary research, and could include work on digital editions, analyses of corpora, the creation of electronic literature, digital representations of literary venues, studies of natural language processing as applied to literary analysis, or any other project that draws integrally on both disciplines. All capstone projects must be approved by both the student's Computer Science adviser and English adviser. This project normally takes one quarter, and should be

taken concurrently with the Computer Science capstone requirement. In English, students are required to complete 3 units of ENGLISH 198 Individual Work with a faculty adviser in English as part of the integrative project. In preparation for the Independent Study in English, students must secure an adviser, complete the CS+English Capstone form (<https://stanford.box.com/shared/static/hl0zna48liez8u10ulqs.pdf>), and submit a written proposal of the project.

## Required Core Courses (30 Units)

### Historical courses

One course in the 10 series <sup>1</sup>

ENGLISH 10A Introduction to English I: Mapping Monsters in British Literature 650-1650 5

or ENGLISH 10B Introduction to English I: What is Literary History?

One course in the 11 series <sup>2</sup>

ENGLISH 11A Introduction to English II: From Milton to the Romantics 5

or ENGLISH 11B Introduction to English II: American Literature and Culture to 1855

One course in the 12 series <sup>3</sup>

ENGLISH 12A Introduction to English III: Introduction to African American Literature 5

or ENGLISH 12C Introduction to English III: Modern Literature

One additional history of literature course <sup>4,5</sup> 5

### Methodology courses

ENGLISH 160 Poetry and Poetics 5

ENGLISH 161 Narrative and Narrative Theory 5

Total Units 30

<sup>1</sup> For students who declared prior to the 2015-16 academic year this requirement may be satisfied by the following course:

ENGLISH 100A. Literary History I (no longer offered)

<sup>2</sup> For students who declared prior to the 2015-16 academic year this requirement may be satisfied by the following course:

ENGLISH 100B. Literary History II (no longer offered)

<sup>3</sup> For students who declared prior to the 2015-16 academic year this requirement may be satisfied by the following course:

ENGLISH 100C. Literary History III (no longer offered)

<sup>4</sup> In 2017-18 the following courses satisfy the history of literature requirement

- ENGLISH 10A Introduction to English I: Mapping Monsters in British Literature 650-1650
- ENGLISH 10B Introduction to English I: What is Literary History?
- ENGLISH 11A Introduction to English II: From Milton to the Romantics
- ENGLISH 11B Introduction to English II: American Literature and Culture to 1855
- ENGLISH 101A How to Read Beowulf
- ENGLISH 103B Introduction to Old English Language and Literature
- ENGLISH 112A Humanities Core: Great Books, Big Ideas -- Europe, Middle Ages and Renaissance
- ENGLISH 115D Shakespeare, Language, Contexts
- ENGLISH 163F Shakespeare Now and Then
- ENGLISH 201 The Bible and Literature
- ENGLISH 233 Baroque and Neobaroque
- ENGLISH 240A Crooks, Quacks, and Courtesans: Jacobean City Comedy

<sup>5</sup> This requirement may also be fulfilled with the following Thinking Matters or SLE courses:

- ESF 1 Education as Self-Fashioning: The Active, Inquiring, Beautiful Life
- THINK 7 Journeys
- THINK 49 Stories Everywhere
- SLE 91 Structured Liberal Education, SLE 92 Structured Liberal Education, and SLE 93 Structured Liberal Education.

Rules that apply to all English majors irrespective of field of study or degree option:

1. Courses can only be counted once, i.e. can only satisfy one requirement.
2. Two of the elective courses may be taken on a credit/no credit basis at the discretion of the instructor.

## Field of Study Electives (25 Units)

**Units** Because the Department of English recognizes that the needs and interests of CS+English students vary, it has approved two major programs of study: Literature and Literature with Creative Writing. Each of these has different objectives and requirements; students should consider carefully which program of study corresponds most closely to their personal and intellectual objectives.

### I. Literature

This field of study is not declared in Axess. It does not appear on either the official transcript or the diploma. This program provides for the interests of students who wish to understand the range and historical development of British, American and Anglophone literatures and a variety of critical methods by which their texts can be interpreted. The major emphasizes the study of literary forms and genres and theories of textual analysis. In addition to the degree requirements required of all joint majors and listed above, students must complete at least 25 additional units of courses consisting of five additional approved elective courses, only one of which may be a creative writing course, chosen from among those offered by the Department of English. In place of one of these five elective courses, students may choose one upper-division course in a foreign literature read in the original language.

### II. Literature with Creative Writing Emphasis

This subplan is printed on the transcript and diploma and is elected in Axess. This program is designed for students who want a sound basic knowledge of the English literary tradition as a whole and at the same time want to develop skills in writing poetry or prose. In addition to the degree requirements required of all joint majors and listed above, students must complete at least 25 additional units of approved courses, in either the prose or poetry concentration:

#### Prose Concentration –

	<b>Units</b>
ENGLISH 90 Fiction Writing	5
or ENGLISH 91 Creative Nonfiction	
ENGLISH 92 Reading and Writing Poetry	5
ENGLISH 146 <sup>1</sup>	5
ENGLISH 190 Intermediate Fiction Writing (or any 190 series or 191 series)	5
or ENGLISH 191 Intermediate Creative Nonfiction	
One elective literature course	5
<b>Total Units</b>	<b>25</b>

<sup>1</sup> In the 2017-18 academic year ENGLISH 146 is not offered. Students may substitute one of the following courses:

- ENGLISH 143A American Indian Mythology, Legend, and Lore
- ENGLISH 144 Major Modernists: Virginia Woolf, James Joyce, Katherine Mansfield, T. S. Eliot
- ENGLISH 145H
- ENGLISH 151F Angelheaded Hipsters: Beat Writers of San Francisco and New York
- ENGLISH 153F Transatlantic Female Modernists: Making it New with a Difference
- ENGLISH 154E Twentieth-Century Irish Literature
- ENGLISH 161 Narrative and Narrative Theory

**Poetry Concentration –**

	Units
ENGLISH 92 Reading and Writing Poetry	5
ENGLISH 90 Fiction Writing	5
or ENGLISH 91 Creative Nonfiction	
ENGLISH 192 Intermediate Poetry Writing (or any 192 series)	5
One literature course in poetry	5
One elective literature course	5
<b>Total Units</b>	<b>25</b>

**Integrative Experience (3 Units)**

	Units
ENGLISH 198 Individual Work <sup>1</sup>	3

<sup>1</sup> Students in the CS+English JMP are required to enroll for three units of ENGLISH 198 Individual Work with a faculty adviser in English as part of the integrative project. These units should be completed concurrently with the Computer Science capstone requirement.

**Declaring a Joint Major Program**

To declare the joint major, students must first declare each major through ACESS, and then submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) The Major-Minor and Multiple Major Course Approval Form (<https://stanford.box.com/MajMin-MultMaj>) is required for graduation for students with a joint major.

**Dropping a Joint Major Program**

To drop the joint major, students must submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>). Students may also consult the Student Services Center (<http://studentservicescenter.stanford.edu>) with questions concerning dropping the joint major.

**Transcript and Diploma**

Students completing a joint major graduate with a B.A.S. degree. The two majors are identified on one diploma separated by a hyphen. There will be a notation indicating that the student has completed a "Joint Major". The two majors are identified on the transcript with a notation indicating that the student has completed a "Joint Major".

**Minor in English Literature**

The minor in English Literature offers some flexibility for those students who want to pursue specific interests within British and American literature, while still requiring certain courses that ensure coverage of a variety of periods, genres, and methods of studying literature.

**Degree Requirements**

In order to graduate with a minor in English, students must complete the following program of seven 5-unit courses, at least one of which must be a seminar, for a total of 35 units:

**Required Courses for the Minor**

	Units
<b>Historical courses</b>	
Select two of the following historical courses:	10
One course in the 10 series <sup>1</sup>	
ENGLISH 10A Introduction to English I: Mapping Monsters in British Literature 650-1650	5
or ENGLISH 10B Introduction to English I: What is Literary History?	
One course in the 11 series <sup>2</sup>	

ENGLISH 11A Introduction to English II: From Milton to the Romantics	5
or ENGLISH 11B Introduction to English II: American Literature and Culture to 1855	

One course in the 12 series <sup>3</sup>

ENGLISH 12A Introduction to English III: Introduction to African American Literature	5
or ENGLISH 12C Introduction to English III: Modern Literature	

**Methodology courses**

Select two of the following:	10
ENGLISH 160 Poetry and Poetics	
ENGLISH 161 Narrative and Narrative Theory	
ENGLISH 162W Writing Intensive Seminar in English	

**Elective courses**

Three elective courses from those offered in the English department (only one of which may be a course in Creative Writing). 15

- <sup>1</sup> For students who declared prior to the 2015-16 academic year this requirement may be satisfied by the following course:
  - English 100A. Literary History I (no longer offered)
- <sup>2</sup> For students who declared prior to the 2015-16 academic year this requirement may be satisfied by the following course:
  - ENGLISH 100B. Literary History II (no longer offered)
- <sup>3</sup> For students who declared prior to the 2015-16 academic year this requirement may be satisfied by the following course:
  - ENGLISH 100C. Literary History III (no longer offered)

**Minor in Creative Writing (30 units)**

The minor in Creative Writing offers a structured environment in which students interested in writing prose or poetry develop their skills while receiving an introduction to literary forms. Students choose a concentration in prose, poetry, or fiction into film.

**Degree Requirements**

In order to graduate with a minor in Creative Writing, students must complete the following program of six 5-unit courses for a total of 30 units. All courses must be taken for a letter grade. Courses taken abroad or at other institutions may not be counted towards the minor.

**Required Courses for the Minor**

Students must complete at least 30 units of approved courses, in the prose, poetry or fiction into film concentration:

**Prose concentration**

	Units
ENGLISH 90 Fiction Writing	5
or ENGLISH 91 Creative Nonfiction	
ENGLISH 92 Reading and Writing Poetry	5
ENGLISH 146 <sup>1</sup>	5
Select two of the following intermediate or advanced prose classes:	10
any ENGLISH 190 series	
any ENGLISH 191 series	
ENGLISH 198L Individual Work: Levinthal Tutorial	
ENGLISH 290 Advanced Fiction Writing	
One course in pre-1800 literature <sup>2</sup>	5
<b>Total Units</b>	<b>30</b>

<sup>1</sup> In the 2017-18 academic year ENGLISH 146 is not offered. Students may substitute one of the following courses:

- ENGLISH 143A American Indian Mythology, Legend, and Lore
- ENGLISH 144 Major Modernists: Virginia Woolf, James Joyce, Katherine Mansfield, T. S. Eliot
- ENGLISH 145H
- ENGLISH 151F Angelheaded Hipsters: Beat Writers of San Francisco and New York
- ENGLISH 153F Transatlantic Female Modernists: Making it New with a Difference
- ENGLISH 154E Twentieth-Century Irish Literature
- ENGLISH 161 Narrative and Narrative Theory

<sup>2</sup> In 2017-18, pre-1800 courses include:

- ENGLISH 10A Introduction to English I: Mapping Monsters in British Literature 650-1650
- ENGLISH 10B Introduction to English I: What is Literary History?
- ENGLISH 11A Introduction to English II: From Milton to the Romantics
- ENGLISH 11B Introduction to English II: American Literature and Culture to 1855
- ENGLISH 101A How to Read Beowulf
- ENGLISH 103B Introduction to Old English Language and Literature
- ENGLISH 112A Humanities Core: Great Books, Big Ideas -- Europe, Middle Ages and Renaissance
- ENGLISH 115D Shakespeare, Language, Contexts
- ENGLISH 163F Shakespeare Now and Then
- ENGLISH 201 The Bible and Literature
- ENGLISH 233 Baroque and Neobaroque
- ENGLISH 240A Crooks, Quacks, and Courtesans: Jacobean City Comedy

### Poetry concentration

	Units
ENGLISH 90 Fiction Writing	5
or ENGLISH 91 Creative Nonfiction	
ENGLISH 92 Reading and Writing Poetry	5
ENGLISH 160 Poetry and Poetics	5
Select two of the following intermediate or advanced poetry classes: any ENGLISH 192 series	10
ENGLISH 198L Individual Work: Levinthal Tutorial	
One course in pre-1800 literature <sup>1</sup>	5
<b>Total Units</b>	<b>30</b>

<sup>1</sup> In 2017-18, pre-1800 courses include:

- ENGLISH 10A Introduction to English I: Mapping Monsters in British Literature 650-1650
- ENGLISH 10B Introduction to English I: What is Literary History?
- ENGLISH 11A Introduction to English II: From Milton to the Romantics
- ENGLISH 11B Introduction to English II: American Literature and Culture to 1855
- ENGLISH 101A How to Read Beowulf
- ENGLISH 103B Introduction to Old English Language and Literature
- ENGLISH 112A Humanities Core: Great Books, Big Ideas -- Europe, Middle Ages and Renaissance
- ENGLISH 115D Shakespeare, Language, Contexts
- ENGLISH 163F Shakespeare Now and Then
- ENGLISH 201 The Bible and Literature
- ENGLISH 233 Baroque and Neobaroque
- ENGLISH 240A Crooks, Quacks, and Courtesans: Jacobean City Comedy

### Fiction into Film concentration

	Units
ENGLISH 90 Fiction Writing	5
ENGLISH 92 Reading and Writing Poetry	5
ENGLISH 190F Fiction into Film	5
ENGLISH 146 <sup>1</sup>	5

ENGLISH 198F Hoffs-Roach Fiction into Film Tutorial	5
One course in pre-1800 literature <sup>2</sup>	5
<b>Total Units</b>	<b>30</b>

<sup>1</sup> In the 2017-18 academic year ENGLISH 146 is not offered. Students may substitute one of the following courses:

- ENGLISH 143A American Indian Mythology, Legend, and Lore
- ENGLISH 144 Major Modernists: Virginia Woolf, James Joyce, Katherine Mansfield, T. S. Eliot
- ENGLISH 145H
- ENGLISH 151F Angelheaded Hipsters: Beat Writers of San Francisco and New York
- ENGLISH 153F Transatlantic Female Modernists: Making it New with a Difference
- ENGLISH 154E Twentieth-Century Irish Literature
- ENGLISH 161 Narrative and Narrative Theory

<sup>2</sup> In 2017-18, pre-1800 courses include:

- ENGLISH 10A Introduction to English I: Mapping Monsters in British Literature 650-1650
- ENGLISH 10B Introduction to English I: What is Literary History?
- ENGLISH 11A Introduction to English II: From Milton to the Romantics
- ENGLISH 11B Introduction to English II: American Literature and Culture to 1855
- ENGLISH 101A How to Read Beowulf
- ENGLISH 103B Introduction to Old English Language and Literature
- ENGLISH 112A Humanities Core: Great Books, Big Ideas -- Europe, Middle Ages and Renaissance
- ENGLISH 115D Shakespeare, Language, Contexts
- ENGLISH 163F Shakespeare Now and Then
- ENGLISH 201 The Bible and Literature
- ENGLISH 233 Baroque and Neobaroque
- ENGLISH 240A Crooks, Quacks, and Courtesans: Jacobean City Comedy

## Minor in Digital Humanities

The minor in Digital Humanities combines humanistic inquiry with digital methods and tools to generate new questions and to foster innovative research. Students will develop critical skills that are applicable within and beyond an academic setting. The minor consists of three clusters: Spatial Humanities, Quantitative Textual Analysis, and Text Technologies. Students may choose to specialize in one of these areas.

- Spatial Humanities ranges from theory (space as a category of analysis) to technical representation/analysis of spatial distribution through algorithms. It can draw upon anthropology, geography, and other disciplines with a tradition of interest in space; meanwhile, it can feed into (for instance) literary studies.
- Quantitative Textual Analysis includes anything that uses computers to quantify formal properties of texts, ranging from word frequencies to chapter divisions to character networks. Genre, authorship, sentiment analysis, "opinion mining" -- all of these can play a role. It intersects with linguistics/NLP; Classics and Cognitive Psychology can also be allies.
- Text Technologies encompasses technologies of communication; social media analysis; database creation, coding, TEI; technologies of publishing and text access; digital curation of virtual exhibitions (which allows us to bring in the arts, digital imaging, etc.).

## Degree Requirements

Students must take a minimum of twenty units: at least one core course (5 units), and at least five other courses of at least three credits each. Students complete twenty or more units in courses relevant to the major in departments across the university including Anthropology, Art, Communications, Computer Science, East Asian Languages and Cultures, Engineering, English, French, History, Italian, Linguistics, Music,

Philosophy, Religious Studies, and Theatre and Performance. These electives are to be determined in consultation with the advisor to the minor (a faculty member in English).

Not all courses are offered every year. For current info please see Explore Courses or contact the student services team.

## Required Courses for the Minor

	Units
<b>Required Introductory Course</b>	
Select one of the following:	5
HISTORY 104 Introduction to Geospatial Humanities (Spatial Humanities concentration)	
ENGLISH 184E Literary Text Mining (Quantitative Textual Analysis concentration)	
ENGLISH 184G <sup>1</sup>	
<b>Elective Courses</b>	
Five courses in the chosen concentration	15
<b>Total Units</b>	<b>20</b>

<sup>1</sup> In the 2017-18 academic year ENGLISH 184G is not offered. Students may contact the Student Services team for current substitutions.

## Coterminal Master of Arts in English

Current Stanford undergraduate majors in English who are interested in further postgraduate work may apply for the coterminal M.A. in English. The Admissions Committee also considers applicants from related fields, such as Modern Thought and Literature, Comparative Literature, and American Studies, if they have fulfilled the requirements for the B.A. in English. The committee does, however, give preference to English majors.

Candidates for a coterminal master's degree must fulfill all requirements for the M.A. in English (including the graduate language requirement), as well as general and major requirements for the B.A. in English. No courses used to satisfy the B.A. requirements (either as General Education Requirements or department requirements) may be applied toward the M.A. No courses taken more than two quarters prior to admission to the coterminal master's program may be used to meet the 45-unit University minimum requirement for the master's degree. A minimum GPA of 3.7 in the major is required of those applying for the coterminal master's degree. Students must also take the general GRE exam in the year in which they apply. The department accepts applications once a year; the application deadline is February 1 for admission in the Spring Quarter immediately following. There are no exceptions to this deadline. All application materials are submitted directly to the English Coterminal Online Application (<https://applyweb.com/stanterm>). The department does not fund coterminal M.A. students.

### Admission Requirements

To apply for admission to the English coterminal M.A. program, students must submit the Coterminal Online Application (<https://applyweb.com/stanterm>), which includes the following:

1. A statement of purpose giving the reasons the student wishes to pursue this program and its place in his or her future plans.
2. A writing sample of critical or analytical prose, about 12-25 pages in length.
3. An official undergraduate transcript.
4. GRE: General Section (verbal, quantitative, and analytical)—copy of ETS score report required.

5. Three letters of recommendation from members of the faculty who know the applicant well and who can speak directly to the question of his or her ability to do graduate-level work.
6. Preliminary Master's Program Proposal; this is a form in the application packet. Specify at least 45 units of course work relevant to the degree program.
7. Coterminal Course Approval Form (this form is required only if transferring courses from undergraduate to the graduate program at the time of application; students will be allowed to transfer courses between their undergraduate and graduate careers for a limited time). To be eligible for transfer, courses must have been taken in the two quarters preceding admission to the M.A. program (please note that no courses taken earlier than Autumn quarter of the senior year may count toward the M.A.).

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken two quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

### Degree Requirements

- M.A. candidates must complete with a 3.0 (B) grade point average (GPA) at least nine courses (a minimum of 45 units), at least two of which must be 300-level courses.
- Ordinarily, graduate students enroll in courses numbered 200 and above. They may take no more than two 100-level courses without the consent of the Director of Graduate Studies. No more than two courses may be taken outside the department and these must be pre-approved by the Director of Graduate Studies.
- The master's student may take no more than 5 units of ENGLISH 398 Research Course.
- No creative writing courses may be used to fulfill the requirements.

University requirements for the coterminal M.A. are described in the "Coterminal Bachelor's and Master's Degrees (p. 46)" section of this bulletin. For University coterminal master's degree application forms, see the Registrar's Publications page (<https://studentaffairs.stanford.edu/registrar/publications/#Coterm>).

### Required Courses

	Units
<b>Historical Courses</b>	
Two courses in literature pre-1800	20
Two courses in literature post-1800	

<b>Elective Courses</b>	25
Five courses from those offered in the English department <sup>1 2</sup>	
<b>Additional Requirement</b>	
Reading knowledge of a foreign language <sup>3</sup>	
<b>Total Units</b>	<b>45</b>

- <sup>1</sup> Five elective courses should represent a mixture of survey and specialized courses chosen to guarantee familiarity with a majority of the works on the qualifying exam reading list for doctoral candidates
- <sup>2</sup> Candidates who can demonstrate unusually strong preparation in the history of English literature may undertake a 40 to 60 page master's thesis. Candidates register for 10 units of ENGLISH 399 Thesis and are required to take only three elective courses.
- <sup>3</sup> Reading knowledge of a foreign languages: may be fulfilled in any of the following ways:
  - A reading examination given each quarter by the various language departments, except for Latin and Greek.
  - For Latin and Greek, an examination given by one of the Department of English faculty.
  - Passage with a grade of 'B' or higher of a course in literature numbered 100 or higher in a foreign language department at Stanford.
  - Passage of the following, respectively, with a grade of 'B' or higher: FRENLANG 250 Reading French, GERLANG 250 Reading German, ITALLANG 250 Reading Italian, SPANLANG 250 Reading Spanish.

## Coterminal Program with School of Education

Students interested in becoming middle school and high school teachers of English may apply for admission to the coterminal teaching program (CTP) of the Stanford Teacher Education Program (STEP) in the School of Education.

CTP students complete a special curriculum in English language, composition, and literature that combines a full English major with supplemental course work in subjects commonly taught in California public schools and a core program of foundational courses in educational theory and practice. They are then admitted to STEP for a fifth year of pedagogical study and practice teaching. Students who complete the curriculum requirements are able to enter STEP without the necessity of taking either the GRE or the usual subject matter assessment tests.

At the end of five years, CTP students receive a B.A. in English, an M.A. in Education, and a California Secondary Teaching Credential.

Students normally apply to the coterminal teaching program at the end of their sophomore year or at the beginning of their junior year. For complete program details and for information on how to apply, consult the Director of Undergraduate Studies in English or the CTP coordinator in the School of Education.

## Doctor of Philosophy in English Admission

Students with a bachelor's degree in English or a closely related field may apply to pursue graduate work toward an advanced degree in English at Stanford. Applicants for admission to graduate work must take the General Test of the Graduate Record Examination and the Subject Test in Literature. International students whose first language is not English are also required to take the TOEFL examination (with certain exceptions: see the Office of Graduate Admissions (<http://gradadmissions.stanford.edu>) web site).

## University Degree Requirements

University requirements for the Ph.D. are described in the "Graduate Degrees (<http://stanford.edu/dept/registrar/bulletin/4901.htm>)" section of this bulletin.

## Department Degree Requirements

The following department degree requirements, which apply to students entering the program in Autumn Quarter 2013 and thereafter, deal with such matters as residence, dissertation, and examinations, and are in addition to the University's basic requirements for the doctorate. Students should also consult the most recent edition of the English Ph.D. Handbook.

A candidate for the Ph.D. degree must complete three years (nine quarters) of full-time work, or the equivalent, in graduate study beyond the bachelor's degree. Candidates are required to complete at least 135 units of graduate work in addition to the doctoral dissertation. At least three consecutive quarters of graduate work, and the final course work in the doctoral program, must be taken at Stanford.

A student may count no more than 65 units of non-graded courses toward the 135 course units required for the Ph.D., without the written consent of the Director of Graduate Studies. A student takes at least 70 graded units (normally fourteen courses) of the 135 required total units. 5 of these 70 units may be fulfilled with ENGLISH 398 Research Course or ENGLISH 398R Revision and Development of a Paper. ENGLISH 396L Pedagogy Seminar I does not count toward the 70 graded units. No more than 10 units (normally two courses) may come from 100-level courses

This program is designed to be completed in five years.

One pedagogical seminar and four quarters of supervised teaching constitute the teaching requirement for the Ph.D. Typically a student teaches three times as a teaching assistant in a literature course. For the fourth course, students have the option of applying to design and teach ENGLISH 162W. Writing Intensive Seminar in English (WISE) for undergraduate English majors or teaching a fourth quarter as a TA.

- 1st year: One quarter as T.A. (leading 1-2 discussion sections of undergraduate literature)
- 2nd year: One quarter as T.A. (leading 1-2 discussion sections of undergraduate literature)
- 4th/5th years: Two quarters of teaching, including the possibility of TA'ing or teaching an undergraduate tutorial.

## I. English and American Literature

Students are expected to do course work across the full range of English and American literature. Students are required to fulfill the following requirements. Note: fulfillment of requirements 1, 2, and 3 must be through Stanford courses; students are not excused from these three requirements or granted credit for course work done elsewhere.

- | 1.  | Units |
|---|-------|
| Required Courses:   |       |
| ENGLISH 396 Introduction to Graduate Study for Ph.D. Students   | 5     |
| ENGLISH 396L Pedagogy Seminar I   | 2     |
| 2. Graduate-level (at least 200-level) course work in English literature before 1700, and English or American literature after 1700 (at least 5 units of each).   |       |
| 3. Graduate-level (at least 200-level) course work in some aspect of literary theory such as courses in literary theory itself, narrative theory, poetics, rhetoric, cultural studies, gender studies (at least 5 units). |       |
| 4. Students concentrating in British literature are expected to take at least one course (5 units) in American literature; students   |       |

concentrating in American literature are expected to take at least one course (5 units) in British literature.

5. Of all courses taken, a minimum of six courses for a letter grade must be graduate colloquia and seminars, of which at least three must be graduate seminars. The colloquia and seminars should be from different genres and periods, as approved by the adviser.
6. The remaining units of graded, graduate-level courses and seminars should be distributed according to the adviser's judgment and the candidate's needs. A student may receive graduate credit for no more than two 100-level courses in the Department of English.
7. Consent of the adviser if courses taken outside the Department of English are to count toward the requirement of 70 graded units of course work.
8. An oral qualifying examination based on a reading guide, to be taken at the end of the summer after the first year of graduate work. The final decision as to qualification is made by the graduate studies committee in consideration of the student's overall record for the first year's work in conjunction with performance on the examination. Note: A student coming to the doctoral program who has done graduate work at another university must petition in the first year at Stanford for transfer credit for course work completed elsewhere. The petition should list the courses and grades, and describe the nature and scope of course work, as well as the content, contact hours, and writing requirements. A syllabus must be included. The Director of Graduate Studies considers the petition in conjunction with the student's overall performance.
9. *University Oral Examination*—A University oral examination covering the field of concentration (as defined by the student and the student's adviser). Students take 10 units of an Orals Preparation workshop led by the Director of Graduate Studies in Spring quarter of the second year. The oral examination, based on a reading list established by the candidate in consultation with his or her adviser, is taken ideally by the end of Autumn Quarter of the third year of graduate study, but no later than the end of the Winter Quarter.
10. *Dissertation*—As early as possible during graduate study, a Ph.D. candidate is expected to find a topic requiring extensive original research and to seek out a member of the department as his or her adviser. The adviser works with the student to select a committee to supervise the dissertation. Candidates should take this crucial step as early in their graduate careers as possible. The committee may well advise extra preparation within or outside the department, and time should be allowed for such work. After the dissertation topic has been approved, the candidate should file a formal reading committee form as prescribed by the University. Once a first chapter has been drafted, the student meets with the full reading committee for a one hour colloquium. The dissertation must be submitted to the adviser as a rough draft, but in substantially final form, at least four weeks before the University deadline in the quarter during which the candidate expects to receive the Ph.D. degree.
11. *Closing Colloquium*—Prior to the submission of the dissertation the student and the dissertation committee holds a closing colloquium designed to look forward toward the next steps; identify the major accomplishments of the dissertation and the major questions/issues/problems that remain; consider possibilities for revision, book or article publication, etc. and to provide some intellectual closure to the dissertation.

## II. English and Comparative Literature

The Ph.D. program in English and Comparative Literature is designed for students wishing an extensive knowledge of the literature, thought, and history of England and of at least one foreign country, for one period. Approximately half of the student's course work and reading is devoted to this period, with the remainder of the time given to other periods of English and American literature since 1350.

This degree, administered by the Department of English, is to be distinguished from the Ph.D. in Comparative Literature. The latter program is intended for students unusually well prepared in foreign languages and involves advanced work in three literatures, one of which may be English. Interested students should consult a Department of English adviser, but faculty from Comparative Literature may also provide useful supplementary information.

The requirements are as follows:

1. Knowledge of the basic structure of the English language and of Chaucer. This requirement may be met by examination, or by taking 10 units of courses chosen from among those offered in linguistics, English philology, and early and middle English literature including Chaucer. No particular courses are required of all students.
2. **Units**  
Required Courses:
 

ENGLISH 396	Introduction to Graduate Study for Ph.D. Students	5
ENGLISH 396L	Pedagogy Seminar I	2
3. A knowledge of one foreign language sufficient to take graduate-level literature courses in a foreign-language department and an advanced reading knowledge of a second language.
4. A minimum of 45 units in the history, thought, and literature of one period, in two or more languages, one of which must be English and one foreign. Students normally include at least two courses in a foreign literature read in the original language and two courses listed under Comparative Literature or Modern Thought and Literature. As many as 20 units of this requirement may be satisfied through courses in reading and research. A student may receive graduate credit for no more than two 100-level courses in the Department of English.
5. A minimum of six courses for a letter grade from graduate colloquia and graduate seminars, of which three must be graduate seminars and of which at least four must be in the Department of English. Among these courses, students should take one in literary theory or criticism. These colloquia and seminars should be in different genres and periods as approved by the adviser.
6. An oral qualifying examination: see item 8 under requirements of the Ph.D. program in English Literature. For qualifications in the doctoral program in English and Comparative Literature, candidates are not held responsible for literature before 1350, but instead include on their reading list a selection of works from a foreign literature read in the original language.
7. *University Oral Examination*—A University oral examination covering the field of concentration (as defined by the student and the student's adviser). Students take 10 units of an Orals Preparation workshop led by the Director of Graduate Studies in Spring quarter of the second year. The oral examination, based on a reading list established by the candidate in consultation with his or her adviser, is taken ideally by the end of Autumn Quarter of the third year of graduate study, but no later than the end of the Winter Quarter.
8. *Dissertation*—As early as possible during graduate study, a Ph.D. candidate is expected to find a topic requiring extensive original research and to seek out a member of the department as his or her adviser. The adviser works with the student to select a committee to supervise the dissertation. Candidates should take this crucial step as early in their graduate careers as possible. The committee may well advise extra preparation within or outside the department, and time should be allowed for such work. After the dissertation topic has been approved, the candidate should file a formal reading committee form as prescribed by the University. Once a first chapter has been drafted, the student meets with the full reading committee for a one hour colloquium. The dissertation must be submitted to the adviser as a rough draft, but in substantially final form, at least four

weeks before the University deadline in the quarter during which the candidate expects to receive the Ph.D. degree.

9. *Closing Colloquium*—Prior to the submission of the dissertation the student and the dissertation committee hold a closing colloquium designed to look forward toward the next steps; identify the major accomplishments of the dissertation and the major questions/issues/problems that remain; consider possibilities for revision, book or article publication, etc. and to provide some intellectual closure to the dissertation.

## Language Requirements

Candidates for the Ph.D. degree (except those in English and Comparative Literature, for whom special language requirements prevail) must demonstrate a reading knowledge of two foreign languages.

Candidates in the earlier periods must offer Latin and one of the following languages: French, German, Greek, Italian, or Spanish. In some instances, they may be required to offer a third language. Candidates in the later period (that is, after the Renaissance) must offer either French, German, or Latin as one language and may choose the second language from the following: Greek, Latin, French, German, Italian, Spanish, Russian, or another language relevant to the student's field of study. In all cases, the choice of languages offered must have the approval of the candidate's adviser. Any substitution of another language must be approved by the Director of Graduate Studies.

The graduate studies committee does not accept courses taken as an undergraduate in satisfaction of the language requirement for doctoral candidates. For students coming to doctoral work at Stanford from graduate work done elsewhere, satisfaction of a foreign language requirement is determined by the Director of Graduate Studies based on the contact hours, syllabus, reading list, etc. Transfer is not automatic.

The candidate must satisfy one language requirement by the end of the first year (that is, before the qualifying examination), and the other by the end of the third year.

Foreign language requirements for the Ph.D. may be fulfilled in any of the following ways:

1. A reading examination given each quarter by the various language departments, except for Latin and Greek.
2. For Latin and Greek, an examination given by one of the Department of English faculty.
3. Passage with a grade of 'B' or higher of a course in literature numbered 100 or higher in a foreign language department at Stanford. As an alternative for Latin, French, Italian, German, and Spanish, passage of the following, respectively, with a grade of 'B' or higher:

		Units
FRENLANG 250	Reading French	4
GERLANG 250	Reading German	4
ITALLANG 250	Reading Italian	4
SPANLANG 250	Reading Spanish	3

*Emeriti: (Professors)* George H. Brown, W. B. Carnochan, W. S. Di Piero, Albert J. Gelpi, Barbara C. Gelpi, Shirley Heath, John L'Heureux, Herbert Lindenberger, Andrea A. *Visiting Professors:* Karen Britland, Ron Carlson, Laura Frost, Louise Glück,

## Overseas Studies Courses in English

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

# ETHICS IN SOCIETY PROGRAM

The Program in Ethics in Society consists of an interdisciplinary honors program and a minor that are open to undergraduates in all majors.

## Mission of the Program in Ethics in Society

The Program in Ethics in Society, which operates under the umbrella of the Bowen H. McCoy Family Center for Ethics in Society, is designed to foster scholarship, teaching, and moral reflection on fundamental issues in personal and public life. The program is grounded in moral and political philosophy, but it extends its concerns across a broad range of traditional disciplinary domains. The program is guided by the idea that ethical thought has application to current social questions and conflicts, and it seeks to encourage moral reflection and practice in areas such as business, technology, international relations, law, medicine, politics, science, and public service.

## Ethics in Society Courses

Courses offered by the Program in Ethics in Society are listed under the subject code ETHICSOC on the Stanford Bulletin's ExploreCourses (<https://explorecourses.stanford.edu/search?q=ETHICSOC&view=catalog&page=0&academicYear=&filter-term-Autumn=on&filter-term-Winter=on&filter-term-Spring=on&filter-term-Summer=on&collapse=&filter-departmentcode=ETHICSOC=on&filter-catalognumber=ETHICSOC=on&filter-coursestatus=Active=on&filter-catalognumber=ETHICSOC=on>) web site. There are many course offerings at Stanford that address moral and political questions, only some of which are crosslisted by the Program in Ethics in Society.

## Honors in Ethics in Society

The honors program in Ethics in Society offers undergraduates the opportunity to write a senior honors thesis within a community of interdisciplinary scholars. The course of study combines the analytical rigor of moral and political philosophy with the subject matter of each student's self-chosen major to develop a sophisticated understanding of problems of social concern. Such problems include: the nature and implications of treating people with equal dignity and respect; the scope of liberty; the legitimacy of government; and the meaning of responsibility. The program poses these issues and others in the context of debates which arise in our common public life. It thus extends moral concern and reflection across disciplines such as medicine, law, economics, political science, sociology, computer science, international relations, and public policy.

Students in the program write honors theses on topics which use moral and political philosophy to address practical problems. Previous theses have considered questions such as the just distribution of health care, obligations to future generations, the role of moral values in education, the moral implications of genetic engineering, and the relationship between gender inequality and the structures of work and family. Students in the program have won scholarships to graduate study including Marshall, Rhodes, and Fulbright fellowships. Others have taken the step from moral analysis to moral commitment, pursuing careers of public service.

The honors program in Ethics in Society is open to majors in every field and must be taken in addition to a department major. Applicants must declare a major before applying to the program. Applicants should have a grade of B+ or higher in all courses taken to fulfill program requirement. Required courses must be taken for a letter grade.

Students interested in pursuing honors in Ethics in Society can apply for early acceptance in June of their sophomore year or the regular deadline

in mid October of their junior year. Students should contact the program coordinator for more information and to begin the application process.

## Requirements

	Units
<b>Core Courses</b>	
ETHICSOC 20 Introduction to Moral Philosophy or ETHICSOC 170 Ethical Theory	4-5
ETHICSOC 171 Justice	4-5
ETHICSOC 190 Ethics in Society Honors Seminar	4
<b>Electives</b>	
Two 4- or 5-unit undergraduate courses on a subject approved by the faculty director, designed to support research conducted for or connected to the honors thesis.	8-10
<b>Thesis units spread across Autumn, Winter, and Spring quarters</b>	
ETHICSOC 200/Ethics in Society Honors Thesis	10
ETHICSOC 200/Ethics in Society Honors Thesis	
ETHICSOC 200/Ethics in Society Honors Thesis	

Thesis subject must be approved by the honors adviser and students must receive a grade of 'B+' or higher on their thesis to receive honors in Ethics in Society.

Typically, ETHICSOC 20 or ETHICSOC 170 and ETHICSOC 171 are completed before the Winter Quarter of the junior year. The Ethics in Society Honors Seminar (ETHICSOC 190) is offered only in Winter Quarter and must be taken in the junior year. Specialization courses can be completed at any time and courses taken prior to acceptance in the Program can be used to fulfill this requirement.

The honors thesis is written during Autumn and Winter quarters of the senior year and is generally due the first Monday in May. Students also complete preliminary and final thesis presentations in the senior year and an oral examination after submission of the thesis. To receive honors in Ethics in Society, students must fulfill all requirements, maintain an overall 3.3 GPA or demonstrate academic excellence, and receive a grade of 'B+' or higher on their thesis. Courses taken to fulfill the Ethics in Society honors requirements may be double-counted for any major.

## Minor in Ethics in Society

The Ethics in Society minor is open to students in any department who wish to explore moral issues in personal and public life.

Students must declare the minor in Axess no later than the last day of Autumn Quarter of their senior year, although they are advised to declare sooner. The student should discuss the minor with the program's faculty director and prepare a proposal that includes a list of courses planned to fulfill the requirements, theme of minor study, and the name of their faculty adviser (to be determined in consultation with the faculty director). The faculty director approves this proposal. Students interested in pursuing a minor in Ethics in Society should contact the program coordinator (pgoodman@stanford.edu) for more information and to begin the planning process.

A minor in Ethics in Society requires six courses for a minimum of 25 and a maximum of 30 units. All courses must be taken for a letter grade.

## Requirements

	Units
<b>Gateway Courses</b>	
ETHICSOC 20 Introduction to Moral Philosophy or ETHICSOC 170 Ethical Theory	4-5
ETHICSOC/PHIL Justice 171	4-5
<b>ETHICSOC Electives</b>	

Three ETHICSOC courses at the 100-level or above relating to theme of minor (12-15 units) 12-15

#### University-Wide Electives

One or two courses at the 100-level or above that address moral or political problems, in either theory or practice, relating to the student's chosen theme of the minor. These may be further ETHICSOC offerings OR courses with substantial ethical content taken in other departments of the university. The latter require approval of the program's faculty director. (3-5 units) 3-5

The electives selected by the student should be focused around a central theme such as environmental ethics, ethics and politics, ethics and economics, biomedical ethics, ethics and technology, or a theme approved by the faculty director. Ethical Reasoning courses (<https://ethicsinsociety.stanford.edu/undergrad-grad/undergraduate-courses/ethical-reasoning-requirement>) that fit the student's thematic focus may be counted towards the minor. Electives are normally taken after completion of the Gateway Courses.

Courses credited to the Ethics in Society minor may not be double-counted toward major requirements.

*Faculty Director:* Brent Sockness

*Affiliated Faculty:*

Eamonn Callan (Education), Jorah Dannenberg (Philosophy), Barbara Fried (Law), Pam Karlan (Law), Alison McQueen (Political Science), Benoît Monin (Psychology, Graduate School of Business), Josiah Ober (Classics, Political Science), Rob Reich (Political Science, Philosophy), Debra Satz (Philosophy), Brent Sockness (Religious Studies), Emilee Chapman (Political Science), Juliana Bidadanure (Philosophy)

## Related Courses

There are many courses taught across the University that treat moral, political, and social issues pertinent to the Ethics in Society Honors Program and Minor. With the introduction of the Ethical Reasoning "Way" the number of these courses is growing. For a listing of current courses that fulfill the Ethical Reasoning requirement, see ExploreCourses ([https://explorecourses.stanford.edu/search?q=all%20courses&view=catalog&page=0&catalog=&filter-ger-WAYER=on&collapse=,5,&filter-coursestatus-Active=on&academicYear=](https://explorecourses.stanford.edu/search?q=all%20courses&view=catalog&page=0&catalog=&filter-ger-WAYER=on&collapse=,5,&filter-coursestatus-Active=on&academicYear=))).

	Units
HUMBIO 174 Foundations of Bioethics	3

Ethics in Society (ETHICSOC) courses given this year are listed here by quarter offered. Each quarter is linked to ExploreCourses where you can find times and locations.

## Autumn Quarter

# FEMINIST, GENDER, AND SEXUALITY STUDIES

Courses offered by the Program in Feminist, Gender, and Sexuality Studies are listed under the subject code FEMGEN on the Stanford Bulletin's ExploreCourses web site.

The Program in Feminist, Gender, and Sexuality Studies offers an undergraduate major and minor, and an interdisciplinary honors program that is open to students in all majors. Each Feminist, Gender, and Sexuality Studies student builds an individual program of study around a self-defined thematic focus, integrating courses from multiple departments. The program encourages work in the arts and supports creative honors theses. Feminist, Gender, and Sexuality Studies majors may declare Arts & Culture, Global Studies, Health, or LGBT/Queer Studies as a subplan, or may design their own thematic focus. Subplans are printed on the diploma; individual thematic foci are not printed on the diploma. See the "Bachelor's" (p. 531) tab of this section of the bulletin for descriptions of the subplans.

Curriculum guidelines and forms for the undergraduate major, minor, and honors programs are available on the program web site (<https://feminist.stanford.edu/undergraduates>). See the program web site for additional contact information (<https://feminist.stanford.edu/about>).

The Program in Feminist, Gender, and Sexuality Studies offers the option of a Ph.D. minor to graduate students already enrolled in a Ph.D. program at Stanford University. The Ph.D. minor in Feminist, Gender, and Sexuality Studies provides graduate students pursuing Ph.D.s broad interdisciplinary knowledge in the field and prepares them to teach courses in the subject. The goal of the program is to bring together graduate students and faculty from different departments, programs, and schools who use feminist and queer perspectives in their research.

## Mission of the Undergraduate Program in Feminist, Gender, and Sexuality Studies

The interdepartmental Program in Feminist, Gender, and Sexuality Studies provides students with knowledge and skills to investigate the significance of gender and sexuality in all areas of human life. Feminist, Gender, and Sexuality Studies examines how societies structure gender roles, relations, and identities, and how these intersect with other hierarchies of power, such as class, race, nationality, ethnicity, sexuality, ability, and age. The program coordinates courses offered across the University in feminist and lesbian, gay, bisexual, transgender, and queer studies. Students learn to employ critical gender and sexuality studies methodologies to analyze the assumptions about gender and sexuality that inform the study of individuals, cultures, social institutions, policy, and areas of scholarly inquiry. The program prepares majors for graduate study in humanities and social sciences and for professional schools.

## Learning Outcomes (Undergraduate)

The program expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the undergraduate program. Students are expected to demonstrate:

1. understanding of how social hierarchies related to gender, sexuality, race and ethnicity have developed historically, cross-culturally, and transnationally.
2. knowledge of the histories of feminist, gender, sexuality, and/or LGBT/queer social movements and their intersections with other social movements.

3. knowledge and comprehension of feminist, gender, sexuality, and/or LGBT/queer theories and methods for social, historical, literary and cultural analysis.
4. skill in making and communicating feminist, gender, sexuality, and/or LGBT/queer analyses of data, texts, and arguments.
5. competence in applying theory to practical experience for social transformation and citizenship.

## Bachelor of Arts in Feminist, Gender, and Sexuality Studies

The major in Feminist, Gender, and Sexuality Studies requires 63 units and may be taken as a single major, as one of multiple majors, or as a secondary major. FEMGEN core courses must be taken for a letter grade. A student wishing to major in Feminist, Gender, and Sexuality Studies should declare the major via Axess, by Autumn Quarter of the junior year. The student then selects a subplan or develops an individualized proposal describing a thematic focus and outlining a course of study, approved by a prospective adviser from the list of affiliated faculty. The proposal is then submitted to the Program Office (Bldg. 460, Room 216) for approval by the Director.

A maximum of 10 of the 63 units for the major may be taken on a credit/no credit or satisfactory/no credit basis; a maximum of 10 units may be taken as independent study or directed reading.

If taken as one of multiple majors, none of the 63 units counted toward the major in Feminist, Gender, and Sexuality Studies may overlap with units counted toward the major in another department or program. If taken as a secondary major, the units counted toward the Feminist, Gender, and Sexuality Studies major may also be counted as fulfilling the major requirements in another department or program if that department or program consents.

## Curriculum

The major in Feminist, Gender, and Sexuality Studies includes a total of at least 12 approved courses for a minimum of 63 units. The courses are divided among the core, the focus, and electives to reach the total course requirement. Not all courses are offered every year; consult ExploreCourses for current course offerings. Courses not listed below that relate to the themes of Feminist, Gender, and Sexuality Studies may potentially be counted towards the major as well; contact the academic services administrator, ([rmeisels@stanford.edu](mailto:rmeisels@stanford.edu)) for more information.

## The Core

The Core		Units
<b>1. Introductory Course</b>		
FEMGEN 101	Introduction to Feminist, Gender, and Sexuality Studies	5
<b>2. Feminist Theories and Method</b>		
FEMGEN 103	Feminist and Queer Theories and Methods Across the Disciplines	2-5
<b>3. Junior and Senior Seminars and Practica</b>		
FEMGEN 104A	Junior Seminar and Practicum	1
FEMGEN 104B	Senior Seminar and Practicum	2
<b>4. One feminist, gender, or sexuality theory course from approved course list below.</b>		
FEMGEN 63N	The Feminist Critique: The History and Politics of Gender Equality	3-5
FEMGEN 130S	Sex and the Novel	
FEMGEN 131	Introduction to Queer Theory	
FEMGEN 134	The Marriage Plot	
FEMGEN 138	Men's Violence Against Women in Literature: A Critical and Social Analysis	

FEMGEN 154	Black Feminist Theory	
FEMGEN 155	The Changing American Family	
FEMGEN 163	Queer America	
FEMGEN 297	Gender and Education in Global and Comparative Perspectives	
FEMGEN 313	Performance and Performativity	
FEMGEN 314	Performing Identities	
FEMGEN 363D	Feminist Theory: Thinking Through/With/About the Gendered Body	
ANTHRO 90B	Theory of Cultural and Social Anthropology	
<b>5. One Feminist, Gender, and Sexuality Studies or a related course in Global Perspectives</b>		
FEMGEN 17	Gender and Power in Ancient Greece	
FEMGEN 111	Reproductive Politics in the United States and Abroad	
FEMGEN 129	Critical Issues in International Women's Health	
FEMGEN 144F	Female Modernists: Women Writers in Paris Between the Wars	
FEMGEN 144X	Transforming Self and Systems: Crossing Borders of Race, Nation, Gender, Sexuality, and Class	
FEMGEN 150	Sex, Gender, and Power in Modern China	
FEMGEN 180	Gender Relations in Islam	
FEMGEN 181A	Gender in the Middle East: Iran, Turkey, and Egypt	
FEMGEN 193	The Chinese Empire from the Mongol Invasion to the Boxer Uprising	
FEMGEN 206	Global Medical Issues Affecting Women	
FEMGEN 250	Sex, Gender, and Power in Modern China	
FEMGEN 395J	Gender and Sexuality in Chinese History	
<b>6. One Feminist, Gender, and Sexuality Studies or a related course in Intersection Structures of Oppression (Race, Ethnicity, and/or Class)</b>		
FEMGEN 54N	African American Women's Lives	
FEMGEN 94H	Introduction to Disability Studies and Disability Rights	
FEMGEN 103S	Gender in Native American Societies	
FEMGEN 141	Intersectionality and Social Movements: Gender, Race, Sexuality and Collective Organizing	
FEMGEN 149	Gender Violence: Critical Race, Feminist, and Queer Perspectives	
FEMGEN 157P	Solidarity and Racial Justice	
FEMGEN 159	James Baldwin & Twentieth Century Literature	
<b>7. One Feminist, Gender, and Sexuality Studies or a related course in Lesbian, Gay, Bisexual, Transgender/Queer Studies</b>		
FEMGEN 3B	Transhistory: Gender Diversity from Medieval to Modern	
FEMGEN 36N	Gay Autobiography	
FEMGEN 109	Looking Back, Moving Forward: Raising Critical Awareness in Gender and Sports	
FEMGEN 110X	Introduction to Comparative Queer Literary Studies	
FEMGEN 115	Queer Reading and Queer Writing in Early Modern England	
FEMGEN 116	Narrating Queer Trauma	
FEMGEN 117Q	Queer Arts: Remembering and Imagining Social Change	
FEMGEN 118	Transgender Cultural Studies	
FEMGEN 121	Intro to Queer Studies	
FEMGEN 140D	LGBT/Queer Life in the United States	

Total Units

19-28

**Writing in the Major (WIM)**

Majors in Feminist, Gender, and Sexuality Studies may satisfy the Writing in the Major (WIM) requirement by taking one of the approved WIM courses in the list below. Honors students satisfy the WIM requirement through their honors work.

<b>WIM Courses for Majors</b>		<b>Units</b>
AMSTUD 160	Perspectives on American Identity	4-5
ANTHRO 90B	Theory of Cultural and Social Anthropology	
LINGUIST 150	Language and Society	
FEMGEN 157	Language as Political Tool: Feminist and LGBTQ Movements and Impacts	
Total Units		4-5

**Practicum**

The practicum courses (FEMGEN 104A Junior Seminar and Practicum, FEMGEN 104B Senior Seminar and Practicum) bring together theory and practical experience. The practicum involves field research, community service, or other relevant experience such as a public service internship. Students plan their practicum during Winter Quarter of the junior year in FEMGEN 104A Junior Seminar and Practicum (1 unit). The practicum is normally done over the summer between junior and senior year and may be taken for additional units. It is followed by FEMGEN 104B Senior Seminar and Practicum (2 units), in Autumn Quarter of the senior year.

**The Focus**

All Feminist, Gender, and Sexuality Studies majors must complete the Feminist, Gender, and Sexuality Studies major core requirements (7 courses) and an additional 5 courses constituting an area of focus. Those 5 courses should be chosen in consultation with the student's adviser and the Associate Director.

FGSS majors have the option of declaring a formal subplan *or* of designing an individualized thematic focus. Subplans are noted on student transcripts and diplomas; individually designed thematic foci are not noted on the transcript or diploma. The following are the four formal subplans:

**Arts & Culture Subplan**

The Arts & Culture subplan is appropriate for fields of study focusing on interpretation, production, and consumption of messages of feminism, gender, and sexuality through arts, media, literature and performance. Courses that may fulfill requirements include but are not limited to:

		<b>Units</b>
FEMGEN 14N		3
LINGUIST 52N	Spoken Sexuality: Language and the Social Construction of Sexuality	3
FEMGEN 102	Art and Social Criticism	5
FEMGEN 109	Looking Back, Moving Forward: Raising Critical Awareness in Gender and Sports	3-5
FEMGEN 117Q	Queer Arts: Remembering and Imagining Social Change	4-5
FEMGEN 130S	Sex and the Novel	5
FEMGEN 134	The Marriage Plot	5
FEMGEN 144F	Female Modernists: Women Writers in Paris Between the Wars	5
FEMGEN 145	Culture Wars: Art and Social Conflict in the USA, 1890-1950	4
FEMGEN 159	James Baldwin & Twentieth Century Literature	5
FEMGEN 183	Re- Imagining American Borders	5
FEMGEN 188Q	Imagining Women: Writers in Print and in Person	4-5
FEMGEN 205	Songs of Love and War: Gender, Crusade, Politics	3-5

FEMGEN 235A		2-5
FEMGEN 250J		4
FEMGEN 261	Personal Narratives in Feminist, Gender, and Sexuality Studies	4-5
FEMGEN 287G	A Woman's Life: 20th- (and 21st-) Century Memoirs by Women	5
FEMGEN 313	Performance and Performativity	1-4
FEMGEN 314	Performing Identities	4

### Health Subplan

The Health subplan is appropriate for fields of study focusing on feminist perspectives of science and technologies, gender justice and human rights, gender health and medicine, access/disparities/needs regarding health and sexuality, and women's roles as practitioners and researchers.

Courses that may fulfill requirements include but are not limited to:

		Units
FEMGEN 94H	Introduction to Disability Studies and Disability Rights	4
FEMGEN 114	Sexual Diversity and Health	1
FEMGEN 124	Challenging Sex and Gender Dichotomies in Medicine	1
FEMGEN 129	Critical Issues in International Women's Health	4
FEMGEN 138	Men's Violence Against Women in Literature: A Critical and Social Analysis	3-5
FEMGEN 143	One in Five: The Law, Politics, and Policy of Campus Sexual Assault	3-5
FEMGEN 156H	Women and Medicine in US History: Women as Patients, Healers and Doctors	5
FEMGEN 206	Global Medical Issues Affecting Women	1
FEMGEN 216X	Narrating Queer Trauma	4-5
FEMGEN 224	Challenging Sex and Gender Dichotomies in Medicine	1
FEMGEN 230	Sexual Function and Diversity in Medical Disciplines	1-3
FEMGEN 237	Health Impact of Sexual Assault and Relationship Abuse across the Lifecourse	1-3
FEMGEN 241	Sex and Gender in Human Physiology and Disease	2-3
FEMGEN 256	Current Topics and Controversies in Women's Health	2-3
FEMGEN 260	Disability, Gender, and Identity: Women's Personal Experiences	5

### Global Studies Subplan

The Global Studies subplan is appropriate for fields of study focusing cross-cultural perspectives on gender, gender justice and human rights, race/class/gender intersections, gender/spirituality/religion, geopolitical contexts of feminism and LGBTQ activism, and gender and education.

Courses that may fulfill requirements include but are not limited to:

		Units
FEMGEN 14N		3
FEMGEN 86Q	Love as a Force for Social Justice	3
FEMGEN 111	Reproductive Politics in the United States and Abroad	3-5
FEMGEN 115	Queer Reading and Queer Writing in Early Modern England	5
FEMGEN 129	Critical Issues in International Women's Health	4
FEMGEN 130	Sex and Gender in Judaism and Christianity	3
FEMGEN 144F	Female Modernists: Women Writers in Paris Between the Wars	5

FEMGEN 144X	Transforming Self and Systems: Crossing Borders of Race, Nation, Gender, Sexuality, and Class	5
FEMGEN 150	Sex, Gender, and Power in Modern China	3-5
FEMGEN 180	Gender Relations in Islam	4
FEMGEN 206	Global Medical Issues Affecting Women	1
FEMGEN 250	Sex, Gender, and Power in Modern China	3-5
FEMGEN 272E		4-5
FEMGEN 295J		5
FEMGEN 297	Gender and Education in Global and Comparative Perspectives	4
FEMGEN 395J	Gender and Sexuality in Chinese History	4-5

### LGBT/Queer Studies subplan

The LGBT/Queer Studies subplan is appropriate for fields of study focusing on history and theories of lesbian, gay, bisexual, transgender, and queer identities, communities, cultural practices, politics, and legal and medical issues. Courses that may fulfill requirements include but are not limited to:

		Units
FEMGEN 3B	Transhistory: Gender Diversity from Medieval to Modern	1
FEMGEN 36N	Gay Autobiography	4
LINGUIST 52N	Spoken Sexuality: Language and the Social Construction of Sexuality	3
FEMGEN 110X	Introduction to Comparative Queer Literary Studies	3-5
FEMGEN 113	Transgender Studies	3-4
FEMGEN 114	Sexual Diversity and Health	1
FEMGEN 115	Queer Reading and Queer Writing in Early Modern England	5
FEMGEN 116	Narrating Queer Trauma	4-5
FEMGEN 117Q	Queer Arts: Remembering and Imagining Social Change	4-5
FEMGEN 118	Transgender Cultural Studies	4-5
FEMGEN 121	Intro to Queer Studies	4-5
FEMGEN 124	Challenging Sex and Gender Dichotomies in Medicine	1
FEMGEN 131	Introduction to Queer Theory	3-5
FEMGEN 140D	LGBT/Queer Life in the United States	4-5
FEMGEN 159	James Baldwin & Twentieth Century Literature	5
FEMGEN 163	Queer America	4
FEMGEN 164L		4
FEMGEN 226A		3-5
FEMGEN 235A		2-5
FEMGEN 239		1-5
SOC 155	The Changing American Family	4

### Overseas Studies Courses in Feminist, Gender, and Sexuality Studies

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) web site or the Bing Overseas Studies (<http://bosp.stanford.edu>) web site. Students should consult the Associate Director for applicability of Overseas Studies courses to a major or minor program.

## Honors Program in Feminist, Gender, and Sexuality Studies

### For Majors in Feminist, Gender, and Sexuality Studies

**Admission**—The honors program offers an opportunity to do independent research for a senior thesis. It is open to students with a grade point average (GPA) of 3.5 or better in course work in Feminist, Gender, and Sexuality Studies, or demonstrated academic competence. Students should begin the application process by consulting with the Program Director or the Associate Director as early as possible in the junior year, preferably by the end of Winter Quarter.

During the application process, students design a project in consultation with their proposed thesis advisers and the Associate Director. A proposal describing the project and the number of units to be taken toward the honors directed project must be submitted to the program office for final approval. All projects must have a primary focus on gender or sexuality. See the honors section of the program web site (<https://feminist.stanford.edu/undergraduates/honors-program>) for additional details.

### Requirements

1. Students enroll for 2-3 units per quarter in FEMGEN 199A, FEMGEN 199B, and FEMGEN 199C Feminist, Gender, and Sexuality Studies Honors Workshop.
2. Students in the honors program also enroll for FEMGEN 105 Honors Work with their respective advisers, for an additional 2-3 units each quarter. The combined number of units in 199 and 105 must be 10-15 units over the course of senior year.
3. A semifinal draft of the thesis is due early in Spring Quarter of the senior year.
4. The final thesis must be submitted by May 15 (or the following Monday should May 15 fall on a weekend). The completed thesis must be submitted with the Thesis Completion Form, which requires the adviser's signature of approval. Creative projects must include a section of critical analysis. For guidelines, see the honors section of the program web site (<https://feminist.stanford.edu/undergraduates/honors-program>).

### For Majors in Other Departments

Interdisciplinary Honors in Feminist, Gender, and Sexuality Studies for majors in other departments or programs, as distinguished from honors for students pursuing a major in Feminist, Gender, and Sexuality Studies, is intended to complement study in any major. Feminist, Gender, and Sexuality Studies minors who wish to pursue honors in Feminist, Gender, and Sexuality Studies should apply through the process for non-majors.

### Admission

The Feminist, Gender, and Sexuality Studies honors program is open to students majoring in any field with an overall GPA of 3.5 or better or demonstrated academic competence.

Students must complete the following with a grade of 'B+' or better:

- Either FEMGEN 101 Introduction to Feminist, Gender, and Sexuality Studies or FEMGEN 103 Feminist and Queer Theories and Methods Across the Disciplines, and two other FGSS courses that relate to their research topic.

Students should begin the application process by consulting with the Program Director or the Associate Director as early as possible in the junior year, preferably by the end of Winter Quarter. During the application process, students design a project in consultation with their proposed thesis advisers and the Associate Director. A proposal describing the project and the number of units to be taken toward the honors directed project must be submitted to the program office for final approval. All projects must have a primary focus on gender or sexuality. See the

honors section of the program web site (<https://feminist.stanford.edu/undergraduates/honors-program>) for additional details.

### Requirements

1. Students enroll for 2-3 units per quarter in FEMGEN 199A, FEMGEN 199B, and FEMGEN 199C Feminist, Gender, and Sexuality Studies Honors Workshop.
2. Students in the honors program also enroll for FEMGEN 105 Honors Work with their respective advisers, for an additional 2-3 units each quarter. The combined number of units in 199 and 105 must be 10-15 units over the course of senior year.
3. A semifinal draft of the thesis is due early in Spring Quarter of the senior year.
4. The final thesis must be submitted by May 15 (or the following Monday should May 15 fall on a weekend). The completed thesis must be submitted with the Thesis Completion Form, which requires the adviser's signature of approval. Creative projects must include a section of critical analysis. For guidelines, see the honors section of the program web site (<https://feminist.stanford.edu/undergraduates/honors-program>).

## Minor in Feminist, Gender, and Sexuality Studies

1. A student wishing to minor in Feminist, Gender, and Sexuality Studies should apply to the minor via Axess, preferably by Winter Quarter of the junior year.
2. The student then develops an individualized proposal outlining a course of study to be approved by the Associate Director ([hanlon@stanford.edu](mailto:hanlon@stanford.edu)).
3. The approved proposal is then submitted to the program office (Bldg. 460, Room 216) or via email to [rmeisels@stanford.edu](mailto:rmeisels@stanford.edu).

The minor in Feminist, Gender, and Sexuality Studies consists of at least six courses for a minimum of 30 units. None of the units for the FGSS minor may count towards the student's major.

### Requirements

#### 1. Introductory Course

		Units
FEMGEN 101	Introduction to Feminist, Gender, and Sexuality Studies	4-5

2. One of the feminist, gender, or sexuality theory courses from the approved course list on the Bachelor's tab

#### 3. Focus Courses

At least 4 courses of 3 or more units each

### The Focus

At least 4 of the courses for the minor should relate to a thematic focus defined by the student and faculty adviser. See the suggested clusters listed in the "Bachelor of Arts in Feminist, Gender, and Sexuality Studies (p. 531)" section of this bulletin. At least one course within the thematic focus should address race/ethnicity and/or global perspectives on feminist, gender, and sexuality studies.

## Ph.D Minor in Feminist, Gender, and Sexuality Studies

The Ph.D. minor in Feminist, Gender, and Sexuality Studies provides graduate students pursuing Ph.D.s broad interdisciplinary knowledge in the field and prepares them to teach courses in the subject. The goal of the program is to bring together graduate students and faculty from different departments, programs, and schools who use feminist and queer perspectives in their research.

## Application and Acceptance

Prospective students submit a Ph.D. minor application form outlining an academic plan with courses and quarters to satisfy the minor requirements. The form must be signed by the student's home department faculty adviser.

An Application for Ph.D. Minor ([http://studentaffairs.stanford.edu/sites/default/files/registrar/files/app\\_phd\\_minor.pdf](http://studentaffairs.stanford.edu/sites/default/files/registrar/files/app_phd_minor.pdf)) outlining a program of study must be approved by the major and minor departments and submitted to the Student Services Center. This form is submitted at the time of admission to candidacy or at the appropriate time thereafter. Prior to that time, students are expected to have been working with an adviser from the affiliated faculty in Feminist, Gender, and Sexuality Studies to ensure that all the requirements can be met without delaying progress to degree or to TGR status. Students are encouraged to consult with the Director or Associate Director as soon as they have developed an interest in pursuing the minor. A student who is planning to apply for a master's degree on the way to the Ph.D. should plan out the course of study carefully, since units for the minor may not also be counted toward a Stanford master's degree.

An accepted student selects a Feminist, Gender, and Sexuality Studies faculty adviser with assistance from the program director. The adviser meets with the student to discuss and sign the academic plan outlined on the Application for Ph.D. Minor form. The plan represents a student's best estimate of courses planned to meet the minor requirements. Students who wish to enroll in the minor after the Winter Quarter of their first year must demonstrate that their participation will not delay their time to degree or their time to TGR.

Students must remain in good academic standing in their home departments.

## Requirements

To receive the Ph.D. Minor in Feminist, Gender, and Sexuality Studies, students fulfill the following requirements, for a minimum of 20 units at the graduate level (typically 200-level or higher).

Required Course	Units
FEMGEN 203 Feminist and Queer Theories and Methods Across the Disciplines (REQUIRED)	3-5
<b>A second feminist theory course such as:</b>	4-5
ANTHRO 201 Introduction to Cultural and Social Anthropology	
FEMGEN 238 Men's Violence Against Women in Literature: A Critical and Social Analysis	
FEMGEN 239	
FEMGEN 314 Performing Identities	
FEMGEN 363D Feminist Theory: Thinking Through/With/About the Gendered Body	
SOC 242 Sociology of Gender	
SOC 252 The Social Determinants of Health	
SOC 255 The Changing American Family	
10 units of elective graduate-level courses or related courses (a minimum of 2 courses, but 3 courses if necessary in order to achieve 10 units): graduate-level courses or related courses in Feminist, Gender, and Sexuality Studies, one of which may be from the student's home department. The following are examples of appropriate elective courses. Check ExploreCourses for scheduling information.	10
FEMGEN 205 Songs of Love and War: Gender, Crusade, Politics	3-5
FEMGEN 208B Women Activists' Response to War	4-5
FEMGEN 209 Looking Back, Moving Forward: Raising Critical Awareness in Gender and Sports	3

FEMGEN 213	Transgender Studies	3-4
FEMGEN 214	Sexual Diversity and Health	1
FEMGEN 216X	Narrating Queer Trauma	4-5
FEMGEN 223X	The Politics of Gender in the United States	5
FEMGEN 224	Challenging Sex and Gender Dichotomies in Medicine	1
FEMGEN 226A		3-5
FEMGEN 230	Sexual Function and Diversity in Medical Disciplines	2
FEMGEN 230X	Sexual Function and Diversity in Medical Disciplines	2
FEMGEN 235A		2-5
FEMGEN 236		3-5
FEMGEN 237	Health Impact of Sexual Assault and Relationship Abuse across the Lifecourse	1-3
FEMGEN 240D	LGBT/Queer Life in the United States	4-5
FEMGEN 241W	Eighteenth-Century Women Writers	5
FEMGEN 242	Sociology of Gender	5
FEMGEN 250	Sex, Gender, and Power in Modern China	3-5
FEMGEN 255	The Changing American Family	4
FEMGEN 256	Current Topics and Controversies in Women's Health	2-3
FEMGEN 257	Language as Political Tool: Feminist and LGBTQ Movements and Impacts	3-5
FEMGEN 260	Disability, Gender, and Identity: Women's Personal Experiences	5
FEMGEN 272E		4-5
FEMGEN 295J		5
FEMGEN 297	Gender and Education in Global and Comparative Perspectives	4
FEMGEN 310X	Introduction to Comparative Queer Literary Studies	3-5
FEMGEN 311C		1-2
FEMGEN 313	Performance and Performativity	1-4
FEMGEN 360	Disability, Gender, and Identity: Women's Personal Experiences	5
FEMGEN 395J	Gender and Sexuality in Chinese History	4-5

## Academic Progress

Students submit an annual progress report listing the courses completed towards the minor and courses planned in future quarters. This form is approved by both the main faculty adviser and the Feminist, Gender, and Sexuality Studies faculty adviser. Students meet with their Feminist, Gender, and Sexuality Studies faculty adviser to discuss their progress report.

## Notation

Students who complete all the requirements receive the following notation on their transcript and diploma: Ph.D. Minor in Feminist, Gender, and Sexuality Studies.

## Sponsorship

The Ph.D. minor in Feminist, Gender, and Sexuality Studies is sponsored by the Program in Modern Thought and Literature. The minor is administered by the Program in Feminist, Gender, and Sexuality Studies.

## Program Director

Adrian Daub (German Studies)

## Associate Director

Patti Hanlon-Baker

## Overseas Studies Courses in Feminist, Gender, and Sexuality Studies

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students

should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		Units
OSPBER 174	Sports, Culture, and Gender in Comparative Perspective	5
OSPFLOR 34	The Virgin Mother, Goddess of Beauty, Grand Duchess, and the Lady: Women in Florentine Art	4
OSPFLOR 67	The Celluloid Gaze: Gender, Identity and Sexuality in Cinema	4
OSPMARD 45	Women in Art: Case Study in the Madrid Museums	4
OSPOXFRD 57	The Rise of the Woman Writer 1660-1860	5
OSPOXFRD 117W	Gender and Social Change in Modern Britain	4-5
OSPSANTG 14	Women Writers of Latin America in the 20th Century	4-5

### Related Courses

The following is a partial list of related courses for Feminist, Gender, and Sexuality Studies. See ExploreCourses for course descriptions and General Education Requirements (GER)/WAYS information. See degree requirements above or check with the program associate director for applicability of these courses toward specific major or minor program requirements.

		Units
AMSTUD 156H	Women and Medicine in US History: Women as Patients, Healers and Doctors	5
AMSTUD 183	Re- Imagining American Borders	5
AMSTUD 214	The American 1960s: Thought, Protest, and Culture	5
ANTHRO 201	Introduction to Cultural and Social Anthropology	3-5
ARTHIST 176	Feminism and Contemporary Art	4
COMPLIT 11Q	Shakespeare, Playing, Gender	3
CSRE 103S	Gender in Native American Societies	5
CSRE 162	The Politics of Sex: Work, Family, and Citizenship in Modern American Women's History	3-5
CSRE 177	Dramatic Writing: The Fundamentals	4
CSRE 183	Re- Imagining American Borders	5
DANCE 160	Performance and History: Rethinking the Ballerina	4
EDUC 100A	EAST House Seminar: Current Issues and Debates in Education	1
EDUC 100B	EAST House Seminar: Current Issues and Debates in Education	1
EDUC 193G	Psychological Well-Being on Campus: A Focus on Gender and Sexual Identities	1
ENGLISH 160	Poetry and Poetics	5
FEMGEN 205	Songs of Love and War: Gender, Crusade, Politics	3-5
FILMSTUD 102	Theories of the Moving Image	4
HISTORY 36N	Gay Autobiography	4
HISTORY 44	Women and Gender in Science, Medicine and Engineering	3
HISTORY 161	The Politics of Sex: Work, Family, and Citizenship in Modern American Women's History	3-5
HISTORY 166B	Immigration Debates in America, Past and Present	3-5
HISTORY 221B	The 'Woman Question' in Modern Russia	5

HUMBIO 129	Critical Issues in International Women's Health	4
HUMBIO 140	Sex and Gender in Human Physiology and Disease	2-3
HUMBIO 143	Adolescent Sexuality	4
HUMBIO 144	Boys' Psychosocial Development	4
ILAC 193	The Cinema of Pedro Almodovar	3-5

SOC 134	Gender and Education in Global and Comparative Perspectives	4
SOC 140	Introduction to Social Stratification	3
SOC 142	Sociology of Gender	3
SOC 152	The Social Determinants of Health	4
SOC 155	The Changing American Family	4
TAPS 314	Performing Identities	4

# FRENCH AND ITALIAN

Courses offered by the Department of French and Italian are listed on the Stanford Bulletin's ExploreCourses web site under the subject codes FRENCH (French General and Literature) and ITALIAN (Italian General and Literature). For courses in French or Italian language instruction with the subject code FRENLANG or ITALLANG, see the "Language Center (<http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/languagecenter/>)" section of this bulletin.

The department is a part of the Division of Literatures, Cultures, and Languages (<http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/divisionofliteraturesculturesandlanguages/>).

## French Section

The French section provides students with the opportunity to pursue course work at all levels in French language, literature, cultural and intellectual history, theory, film, and Francophone studies. It understands the domain of French Studies as encompassing the complex of cultural, political, social, scientific, commercial, and intellectual phenomena associated with French-speaking parts of the world, from France and Belgium to Canada, Africa, and the Caribbean.

Three degree programs are available in French: a B.A., a terminal M.A., and a Ph.D. A Ph.D. in French and Italian is also available.

Visiting faculty and instructors contribute regularly to the life of the French section. The section maintains contacts with the Ecole Normale Supérieure, the Institut d'Etudes Politiques, and the Ecole Polytechnique.

A curator for Romance languages oversees the extensive French collection at Green Library. The Hoover Institute on War, Revolution, and Peace also includes materials on 20th-century France and French social and political movements.

## Stanford Center for Interdisciplinary Studies

The center, founded in partnership with the French Ministry of Foreign Affairs, aims to bridge the disciplines of the humanities, social sciences, sciences, engineering, business, and law, to address historical and contemporary issues. Its programs bring faculty and students from across Stanford's departments and schools in contact with colleagues in France to explore issues of common intellectual concern. The center invites French-speaking scholars to offer courses or give lectures or seminars on campus. It facilitates internships for Stanford students in computer science and engineering in Sophia-Antipolis, France's new high-tech center near Nice.

## Stanford in Paris

The Bing Overseas Studies Program in Paris offers undergraduates the opportunity to study in France during Autumn, Winter, and Spring quarters. It provides a wide range of academic options, including course work at the Stanford center and at the University of Paris, independent study projects, and internships. In addition, the program promotes interaction with the local community through volunteer employment, homestays, and internships. The minimum language requirement for admission into Stanford in Paris is one year of French at the college level.

Courses offered in Paris may count toward fulfillment of the requirements of the French major or minor. Students should consult with the Chair of Undergraduate Studies before and after attending the program, in order to ensure that course work and skills acquired abroad can be coordinated appropriately with their degree program. Detailed information, including program requirements and curricular offerings, may be obtained from the "Overseas Studies" section of this bulletin, the Stanford in Paris (<http://>

[osp.stanford.edu/program/paris](http://osp.stanford.edu/program/paris)) web site, or the Overseas Studies Program Office in Sweet Hall.

## La Maison Française

La Maison Française, 610 Mayfield, is an undergraduate residence that serves as a campus French cultural center, hosting in-house seminars as well as social events, film series, readings, and lectures by distinguished representatives of French and Francophone intellectual, artistic, and political life. Assignment is made through the regular housing draw.

## Mission of the Undergraduate Program in French

The mission of the undergraduate in French is to expose students to a variety of perspectives in French language, culture, and history by providing majors and minors with training in writing and communication as well cultural, textual, and historical analysis. Through such skills, students develop into critical and global thinkers prepared for careers in business, social service, journalism, and government, or for graduate study in French.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. oral proficiency in French beyond the interpersonal level with presentational language abilities.
2. writing proficiency in French beyond the interpersonal level with presentational language abilities.
3. close reading skills of authentic texts in French.
4. the ability to develop effective and nuanced lines of interpretation.

## Italian Section

The Italian section offers graduate and undergraduate programs in Italian language, literature, culture, and intellectual history. Course offerings range from small, specialized graduate seminars to general courses open to all students on authors such as Dante, Boccaccio, and Machiavelli.

Two degree programs are available in Italian: a B.A., and a Ph.D. A Ph.D. in French and Italian is also available.

Collections in Green Research Library are strong in the medieval, Renaissance, and contemporary periods; the Italian section is one of the larger constituents of the western European collection at the Hoover Institution for the Study of War, Revolution, and Peace; and the Music Library has excellent holdings in Italian opera.

## La Casa Italiana

La Casa Italiana, 562 Mayfield, is an undergraduate residence devoted to developing an awareness of Italian language and culture. It works closely with the Italian Cultural Institute in San Francisco and with other local cultural organizations. It hosts visiting representatives of Italian intellectual, artistic, and political life. A number of departmental courses are taught at the Casa, which also offers in-house seminars. Assignment is made through the regular undergraduate housing draw.

## Stanford in Florence

The Bing Overseas Studies Program in Florence affords undergraduates with at least three quarters of Italian language the opportunity to take advantage of the unique intellectual and visual resources of the city and to focus on two areas: Renaissance history and art, and contemporary Italian and European studies. The program is structured to help integrate students into Italian culture through homestays, Florence University

courses, the Language Partners Program, research, internship and public service opportunities, and by conducting some of the program's classes in Italian. Many courses offered in Florence may count toward the fulfillment of requirements for the Italian major or minor. Students are encouraged to consult with the Italian undergraduate adviser before and after a sojourn in Florence to ensure that their course selections meet Italian section requirements. Information on the Florence program is available in the "Overseas Studies" section of this bulletin, the Stanford in Florence (<http://osp.stanford.edu/program/florence>) web site, or at the Overseas Studies office in Sweet Hall.

## Mission of the Undergraduate Program in Italian

The mission of the undergraduate program in Italian is to expose students to a variety of perspectives in Italian language, culture, and history by providing majors with training in writing and communication as well as cultural, textual, and historical analysis in order to develop students into critical and global thinkers prepared for careers in business, social service, and government, or for graduate study in Italian.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. oral proficiency in Italian beyond the interpersonal level with presentational language abilities.
2. writing proficiency in Italian beyond the interpersonal level with presentational language abilities.
3. close reading skills of authentic texts in Italian.
4. the ability to develop effective and nuanced lines of interpretation.

## Graduate Programs in French and Italian

The department offers a Ph.D. and terminal M.A. in French, a Ph.D. in Italian, and a Ph.D. in French and Italian.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in French or Italian and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in French, Italian, or French and Italian. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of French, Italian, or French and Italian and to interpret and present the results of such research.

## Bachelor of Arts in French

The French section offers a major and a minor in French. Students are encouraged to pursue a course of study tailored to their individual needs and interests. A degree in French serves as a stepping stone to entering international business, law, translation, and teaching, or as preparation for graduate studies in French, history, or comparative literature.

The French major allows students to combine their work in French with work from another field such as African studies, linguistics, art history, music, economics, history, education, medicine, international relations, political science, or other foreign languages and literatures. The literature and philosophy specialization offers students the opportunity to pursue

interdisciplinary studies at the intersection of literature and philosophy in a structured manner and alongside similarly interested students from a variety of humanistic disciplines.

To graduate with a major in French, students must complete a minimum of 56 units of course work in the major. These units may not be used towards any other major or minor. Courses applied to the major must be taken for a letter grade, and a grade point average (GPA) of 2.0 or better must be achieved in each course. Relevant courses from other departments or programs may also earn credit toward the major as electives with the prior consent of the Chair of Undergraduate Studies. Up to 12 units of course work completed at another university may be counted toward the major, with approval by the Chair of Undergraduate Studies. No more than 12 units of course work for the major should be taken as independent study courses. To enroll in all French literature courses, students must have successfully completed FRENLANG 124 Advanced French: Composition, Writing, and Presentation, or successfully tested above this level through the Language Center.

### 1. Gateway Course.

		Units
FRENCH 129	Camus	4-5

2. *Introductory Culture and Literature Courses.* Students must take a minimum of three of the following courses. For 2017-18, FRENCH 131 Absolutism, Enlightenment, and Revolution in 17th- and 18th-Century France and FRENCH 133 Literature and Society in Africa and the Caribbean fulfill the Writing in the Major (WIM) requirement.

		Units
FRENCH 130	Introduction to Medieval and Renaissance French Literature	4
FRENCH 131	Absolutism, Enlightenment, and Revolution in 17th- and 18th-Century France	4
FRENCH 132	Literature, Revolutions, and Changes in 19th- and 20th-Century France	4
FRENCH 133	Literature and Society in Africa and the Caribbean	4

3. *Medieval/Early Modern Courses.* Students must take one course that concerns the period before 1800. Courses from the department offered 2017-18 that would qualify are:

		Units
FRENCH 12	Humanities Core: Great Books, Big Ideas – Europe, Middle Ages and Renaissance	3-4
FRENCH 205	Songs of Love and War: Gender, Crusade, Politics	3-5
FRENCH 239	The Afterlife of the Middle Ages	3-5

4. *Capstone Course.* Students must take at least one 200 level FRENCH culture or literature course.

Students must take the Oral Proficiency Interview (OPI) two quarters prior to degree conferral. Students should contact the undergraduate student services officer for the major to begin the process.

5. *Electives.* Students must complete a total of 56 units towards the major. A maximum of 28 units can be elective courses. Elective courses can be taken within the following parameters:

- *Course work within the department.* Additional FRENCH courses taught by French faculty (may be taught in English or French) at the 100- or 200- level.
- *Language course work.* Up to three language courses in French at or above FRENLANG 21C for a maximum of 13 units.
- *Course work in other departments relevant to the degree,* with approval by the Chair of Undergraduate Studies.

- *Bing Overseas Program.* Courses taken at the Bing Overseas Studies in Paris program with prior approval of the Chair of Undergraduate Studies.
- *Thinking Matters or Education as Self-Fashioning* courses taught at least partially by a faculty member of the French and Italian Department. Students may count a maximum of 10 units.
- *Structured Liberal Education.* Students may count up to 10 units of SLE towards the major electives.
- *Digital Humanities course.* Student work must reflect French interests. Prior approval of the Chair of Undergraduate Studies. Maximum of 5 units.

## French and Philosophy Option

The French and Philosophy option requires a total of 65 units as described below. This option is not declared in Axxess and does not appear on the transcript nor the diploma. Substitutions and transfer credit are not normally permitted. Up to 10 units of courses taken in the Philosophy department may be taken 'CR/NC' or 'S/NC'; the remainder must be taken for a letter grade. Once a student has completed the SLE sequence (all three quarters) they may count up to 10 units towards this major. The SLE units can replace one history of philosophy, and one upper-division French course. Students interested in this option should review the Philosophy and Literature web site (<http://philil.stanford.edu>).

### Required French Coursework

1. *Advanced Language.* FRENLANG 124 Advanced French: Composition, Writing, and Presentation

2. *Introductory Culture and Literature Courses.* Students must take three of the following core courses.

		Units
FRENCH 130	Introduction to Medieval and Renaissance French Literature	4
FRENCH 131	Absolutism, Enlightenment, and Revolution in 17th- and 18th-Century France	4
FRENCH 132	Literature, Revolutions, and Changes in 19th- and 20th-Century France	4
FRENCH 133	Literature and Society in Africa and the Caribbean	4

3. *Upper division French Courses.* At least three courses numbered FRENCH 140 or higher.

Students must take the Oral Proficiency Interview (OPI) two quarters prior to degree conferral. Students should contact the Undergraduate Student Affairs Officer for the major to begin the process.

### Required Philosophy Course Work

1. *Philosophy Writing in the Major.*

		Units
PHIL 80	Mind, Matter, and Meaning	5

2. *Philosophy and Literature Gateway Course.* This course should be taken as early as possible in the student's career, normally in the sophomore year.

		Units
FRENCH 181	Philosophy and Literature	5

*Aesthetics, Ethics, Political Philosophy.* One course from the PHIL 170 Ethical Theory series.

*Language, Mind Metaphysics, and Epistemology.* One course from the PHIL 180 series.

*History of Philosophy.* Two courses in the history of Philosophy, numbered above PHIL 100.

Two additional elective courses of special relevance to the study of philosophy and literature. Students must consult with their advisers, the Chair of Undergraduate Studies, and the undergraduate adviser of the program in philosophical and literary thought.

3. *Capstone.* One capstone course, must be taken in the student's senior year. The following are this year's options:

		Units
ITALIAN 236E	Dante's "Purgatorio" and "Paradiso"	4-5
COMPLIT 223	Literature and Human Experimentation	3-5
PHIL 194W	Capstone Seminar: Literature and the Moral Imagination	4

## Honors Program

French majors with an overall grade point average (GPA) of 3.3 or above, and who maintain a 3.5 (GPA) in major courses, are eligible to participate in the DLCL's honors program. Prospective honors students must choose a senior thesis adviser from among their home department's regular faculty, in their junior year, preferably by March 1, but no later than May 1. During Spring Quarter of the junior year, a student interested in the honors program should consult with the Chair of Undergraduate Studies of their home department to submit a thesis proposal (2-5 pages), DLCL Honors application and an outline of planned course work for their senior year.

Honors papers vary considerably in length as a function of their topic, historical scope, and methodology. They may make use of previous work developed in seminars and courses, but display an enhanced comparative or theoretical scope. Quality rather than quantity is the key criterion. Honors theses range from 40-90 pages not including bibliography and notes. Please consult the DLCL Honors Handbook for more details on declaring and completing the honors thesis.

Honors students are encouraged to participate in the honors college hosted by Bing Honors College ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/OO\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/OO_honors_BingHonors.html)) and coordinated by the Division of Literatures, Cultures, and Languages. The honors college is offered at the end of the summer, during the weeks directly preceding the start of the academic year, and is designed to help students develop their honors thesis projects. Applications must be submitted through the Bing program. For more information, view the Bing Honors ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/OO\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/OO_honors_BingHonors.html)) web site.

*Enrollment.* A minimum of 10 units total, described below, and a completed thesis is required. Honors essays are due to the thesis adviser no later than 5:00 p.m. on May 15th of the terminal year. If an essay is found deserving of a grade of 'A-' or better by the thesis adviser, honors are granted at the time of graduation.

1. Spring Quarter of the junior year (optional) DLCL 189C Honors Thesis Seminar (2-4 units S/NC) under the primary thesis adviser. Drafting or revision of the thesis proposal. The proposal is reviewed by the Chair of Undergraduate Studies and the Director of the department and will be approved or returned for submission.
2. Autumn Quarter of the senior year (required) DLCL 189A Honors Thesis Seminar (4 units S/NC) taught by a DLCL appointed faculty member. Course focuses on researching and writing the honors thesis.
3. Winter Quarter of the senior year (required) DLCL 189B Honors Thesis Seminar (2-4 units Letter grade) under the primary thesis adviser. Focus is on writing under guidance of primary adviser. The letter grade determines if honors is granted or not.

4. Spring Quarter of the senior year (option; mandatory if not taken during junior year) DLCL 189C Honors Thesis Seminar (2-4 units S/NC) under the primary thesis adviser. Honors essays are due to the thesis adviser and student services officer no later than 5:00 p.m. on May 15th of the terminal year.
- Spring Quarter of the senior year (required) DLCL 199 Honors Thesis Oral Presentation (1 unit S/NC). Enroll with primary thesis adviser.

## Bachelor of Arts in Italian

To graduate with a major in Italian, students must complete a minimum of 56 units of course work in the major. These 56 units may not be used towards any other major or minor. Courses applied to the major must be taken for a letter grade, and a grade point average (GPA) of 2.0 or better must be achieved in each course. Relevant courses from other departments or programs may also earn credit toward the major as electives with the approval of the Chair of Undergraduate Studies. Up to 15 units of course work completed at another university or earned through AP credit may be counted toward the major, with approval by the Chair of Undergraduate Studies. No more than 15 units of course work for the major should be taken as independent study courses. To enroll in all ITALIAN or ITALLANG courses taught in Italian at or above the 100 level, students must have successfully completed ITALLANG 22A or the equivalent.

1. *Gateway Courses.* Students are recommended to take two courses in the Italian gateway series, taught in translation.

2. *Intermediate Language.* Students may earn up to 12 units in second-year language courses (maximum 12 units).

		Units
ITALLANG 21	Second Year Italian, First Quarter	4
ITALLANG 22	Second-Year Italian, Second Quarter	4
ITALLANG 23	Second-Year Italian, Third Quarter	3-4

or

		Units
ITALLANG 21A	Accelerated Second-Year Italian, Part 1	5
ITALLANG 22A	Accelerated Second-Year Italian, Part 2	5

3. *Bridge Courses.* Students must enroll in at least one bridge course taught in Italian, either in language or culture (minimum 3 units).

		Units
ITALLANG 114	Composition, Writing, and Presentation	3
ITALLANG 115	Academic and Creative Writing	3

4. *Core Culture Courses.* Students must take all three of the following core courses at Stanford (12 units). For 2017-18 ITALIAN 127 Inventing Italian Literature: Dante, Boccaccio, Petrarca, ITALIAN 128 The Italian Renaissance and the Path to Modernity and ITALIAN 129 Modern Italian Culture fulfill the Writing in the Major (WIM) requirement.

		Units
ITALIAN 127	Inventing Italian Literature: Dante, Boccaccio, Petrarca	4
ITALIAN 128	The Italian Renaissance and the Path to Modernity	4
ITALIAN 129	Modern Italian Culture	4

5. *Studies in Italian Culture.* Students must complete a minimum of 10 additional units (2-3 courses) in ITALIAN coursework (may be taught in English or Italian).

6. *Electives.* A maximum of 23 elective units in courses dealing with Italy may be applied to the major. Prior approval from the Chair of

Undergraduate Studies is required. The following courses have been pre-approved as electives:

- *Course work within the department.* Additional ITALIAN courses taught by Italian faculty (*may be taught in English or Italian*).
- *Bing Overseas Program.* Courses taken at the Bing Overseas Studies in Florence program with prior approval of the Chair of Undergraduate Studies.
- *Thinking Matters or Education as Self-Fashioning courses* taught at least partially by a faculty member of the French and Italian Department. Maximum of 10 units.
- *Structured Liberal Education.* Students may count 10 units of SLE towards the major electives. Maximum of 10 units.
- *Digital Humanities Course.* Student work must reflect Italian interests. Prior approval of the Chair of Undergraduate Studies. Maximum of 5 units.

7. *Additional Requirements* Students must take the Oral Proficiency Interview (OPI) two quarters prior to degree conferral. Students should contact the Undergraduate Student Affairs Officer for the major to begin the process.

## Italian and Philosophy Option

### Required Italian Course Work

The Italian and Philosophy option requires a total of 72 units as described below. This option is not declared in Axess and does not appear on the transcript or diploma. Substitutions and transfer credit are not normally permitted. Up to 10 units of courses taken in the Philosophy department may be taken 'CR/NC' or 'S/NC'; the remainder must be taken for a letter grade. Students interested in this option should review the Philosophy and Literature web site (<http://philit.stanford.edu>).

1. *Intermediate Language.* Students may earn up to 12 units in second-year language courses (maximum 12 units).

		Units
ITALLANG 21	Second Year Italian, First Quarter	4
ITALLANG 22	Second-Year Italian, Second Quarter	4
ITALLANG 23	Second-Year Italian, Third Quarter	3-4

or

		Units
ITALLANG 21A	Accelerated Second-Year Italian, Part 1	5
ITALLANG 22A	Accelerated Second-Year Italian, Part 2	5

2. *Bridge Courses.* Students must enroll in at least one bridge courses taught in Italian, either in language or culture (minimum 3 units).

		Units
ITALLANG 101	Advanced Oral Communication: Italian Opera	3
ITALLANG 103	Advanced Oral Communication: Italian Classic Cinema	3
ITALLANG 114	Composition, Writing, and Presentation	3
ITALLANG 115	Academic and Creative Writing	3

3. *Core Culture Courses.* Students must take all three of the following core courses at Stanford (12 units) Any one of these courses fulfills the Writing in the Major (WIM) requirement.

		Units
ITALIAN 127	Inventing Italian Literature: Dante, Boccaccio, Petrarca	4
ITALIAN 128	The Italian Renaissance and the Path to Modernity	4

## ITALIAN 129 Modern Italian Culture

4. *Studies in Italian Culture.* Students must complete a minimum of 10 additional units (2-3 courses) in ITALIAN coursework (taught in English or Italian).

5. *Additional Requirements.* Students must take the Oral Proficiency Interview (OPI) two quarters prior to degree conferral. Students should contact the Undergraduate Student Affairs Officer for the major to begin the process.

Required Philosophy Coursework

1. *Philosophy Writing in the Major.*

## PHIL 80 Mind, Matter, and Meaning

2. *Philosophy and Literature Gateway Course.* This course should be taken as early as possible in the student's career, normally in the sophomore year:

## ITALIAN 181 Philosophy and Literature

3. *Aesthetics, Ethics, Political Philosophy.* One course from the PHIL 170 Ethical Theory series.

4. *Language, Mind, Metaphysics, and Epistemology.* One course from the PHIL 180 Metaphysics series.

5. *History of Philosophy.* Two courses in the history of philosophy, numbered above PHIL 100.

6. Two additional elective courses of special relevance to the study of philosophy and literature. Students must consult with their advisers, the Chair of Undergraduate Studies, and the undergraduate adviser of the program in philosophical and literary thought.

7. *Capstone Seminar* (at least 4 units): One of these courses must be taken in the student's senior year.

ITALIAN 236E Dante's "Purgatorio" and "Paradiso" 4-5

COMPLIT 223 Literature and Human Experimentation 3-5

PHIL 194W Capstone Seminar: Literature and the Moral Imagination 4

## Honors Program

Italian majors with an overall grade point average (GPA) of 3.3 or above, and who maintain a 3.5 (GPA) in major courses, are eligible to participate in the DLCL's honors program. Prospective honors students must choose a senior thesis adviser from among their home department's regular faculty, in their junior year, preferably by March 1, but no later than May 1. During Spring Quarter of the junior year, a student interested in the honors program should consult with the Chair of Undergraduate Studies of their home department to submit a thesis proposal (2-5 pages), DLCL Honors application and an outline of planned course work for their senior year.

Honors papers vary considerably in length as a function of their topic, historical scope, and methodology. They may make use of previous work developed in seminars and courses, but display an enhanced comparative or theoretical scope. Quality rather than quantity is the key criterion. Honors theses range from 40-90 pages not including bibliography and notes. Please consult the DLCL Honors Handbook for more details on declaring and completing the honors thesis.

4 Honors students are encouraged to participate in the honors college hosted by Bing Honors College ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/00\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/00_honors_BingHonors.html)) and coordinated by the Division of Literatures, Cultures, and Languages. The honors college is offered at the end of the summer, during the weeks directly preceding the start of the academic year, and is designed to help students develop their honors thesis projects. Applications must be submitted through the Bing program. For more information, view the Bing Honors ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/00\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/00_honors_BingHonors.html)) website.

Units  
5

Enrollment: A minimum of 10 units total, described below, and a completed thesis is required. Honors essays are due to the thesis adviser no later than 5:00 p.m. on May 15th of the terminal year. If an essay is found deserving of a grade of 'A-' or better by the thesis adviser, honors are granted at the time of graduation.

Units

5 Spring Quarter of the junior year (optional) DLCL 189C Honors Thesis Seminar (2-4 units S/NC) under the primary thesis adviser. Drafting or revision of the thesis proposal. The proposal is reviewed by the Chair of Undergraduate Studies and the Director of the department and will be approved or returned for submission.

Winter Quarter of the senior year (required) DLCL 189B Honors Thesis Seminar (2-4 units Letter grade) under the primary thesis adviser. Focus will be on writing under guidance of primary adviser. The letter grade will determine if honors is granted or not.

Spring Quarter of the senior year (required) DLCL 199 Honors Thesis Oral Presentation (1 unit S/NC). Enroll with primary thesis adviser.

Units

## Joint Major Programs in French and Computer Science and in Italian and Computer Science

The joint major program (JMP), authorized by the Academic Senate for a pilot period of six years beginning in 2014-15, permits students to major in both Computer Science and one of ten Humanities majors. See the "Joint Major Program (p. 31)" section of this bulletin for a description of University requirements for the JMP. See also the Undergraduate Advising and Research JMP web site and its associated FAQs.

Students completing the JMP receive a B.A.S. (Bachelor of Arts and Science).

Because the JMP is new and experimental, changes to procedures may occur; students are advised to check the relevant section of the bulletin periodically.

## French Major Requirements in the Joint Major Program

See the "Computer Science Joint Major Progra (p. 278)m (p. 270)" section of this bulletin for details on Computer Science requirements.

To graduate with a joint major in Computer Science and French, students must complete a minimum of 46 units of coursework in French in addition to the Computer Science requirements for the joint major.

These 46 units may not be used towards any other major or minor. Courses applied to the major must be taken for a letter grade, and a grade point average (GPA) of 2.0 or better must be achieved in each course. Relevant courses from other departments or programs may also earn credit toward the major as electives with the prior consent of the Chair of Undergraduate Studies. Up to 12 units of coursework completed at another university may be counted toward the major, with approval by the Chair of Undergraduate Studies. No more than 12 units of coursework for the major should be taken as independent study courses. To enroll in all FRENCH courses taught in French at or above the 130-level, students must have successfully completed FRENLANG 124, Mastering Advanced French Grammar: Grammar through Contemporary Literature and Culture, or successfully tested above this level through the Language Center.

1. *Gateway Courses.* Students are recommended to take two of the three courses listed below.

		Units
FRENCH 120		4-5
FRENCH 129	Camus	4-5

2. *Introductory Culture and Literature Courses.* Students must take a minimum of three of the following courses. Any one of these courses fulfills the Writing in the Major (WIM) requirement

		Units
FRENCH 130	Introduction to Medieval and Renaissance French Literature	4
FRENCH 131	Absolutism, Enlightenment, and Revolution in 17th- and 18th-Century France	4
FRENCH 132	Literature, Revolutions, and Changes in 19th- and 20th-Century France	4
FRENCH 133	Literature and Society in Africa and the Caribbean	4

3. *Medieval/Early Modern Courses.* Students must take one course that concerns the period before 1800. Courses from the department must be at or above the 140 level.

4. *Two Capstone Courses.* Students must take at least one 200 level FRENCH culture or literature course and a blended capstone project. Senior year the student enrolls in a 2 unit independent study FRENCH 199 with a DLCL faculty member. The faculty member advising this project must sign off on this description. In order to have it approved as their capstone French and Computer Science project, the student must submit a description of their project to the Chair of Undergraduate Studies in French.

Students must take the Oral Proficiency Interview (OPI) two quarters prior to degree conferral. Students should contact the undergraduate student services officer for the major to begin the process.

5. *Electives.* Students must complete a total of 46 units towards the major. A maximum of 18 units can be elective courses. Elective courses can be taken within the following parameters.

- Course work within the department. Additional FRENCH courses taught by French faculty (may be taught in English or French) at the 100- or 200- level..
- Language Course work. Up to three language courses in French at or above FRENLANG 21C for a maximum of 13 units.
- Coursework in other departments relevant to the degree, with approval by the Chair of Undergraduate Studies.
- Bing Overseas Program. Courses taken at the Bing Overseas Studies in Paris program with prior approval of the Chair of Undergraduate Studies.

- Thinking Matters or Education as Self-Fashioning courses taught at least partially by a faculty member of the French and Italian Department. Students may count a maximum of 10 units.
- Structured Liberal Education. Students may count up to 10 units of SLE towards the major electives.
- Digital Humanities Course. Student work must reflect French interests. Prior approval of the Chair of Undergraduate Studies. Maximum of 5 units.

## Honors Program

Students have the option to complete the Honors Program for Computer Science and French, by completing an honors thesis that is partially or fully integrated with Computer Science; such a thesis would fulfill both the capstone and honors requirements for this degree. Students also have the option to complete the honors program for French only; such a thesis would not fulfill the capstone requirement for this degree.

French majors with an overall grade point average (GPA) of 3.3 or above, and who maintain a 3.5 (GPA) in major courses, are eligible to participate in the DLCL's honors program. Prospective honors students must choose a senior thesis adviser from among their home department's regular faculty, in their junior year, preferably by March 1, but no later than May 1. During Spring Quarter of the junior year, a student interested in the honors program should consult with the Chair of Undergraduate Studies of their home department to submit a thesis proposal (2-5 pages), DLCL honors application and an outline of planned course work for their senior year.

Honors papers vary considerably in length as a function of their topic, historical scope, and methodology. They may make use of previous work developed in seminars and courses, but display an enhanced comparative or theoretical scope. Quality rather than quantity is the key criterion. Honors theses range from 40-90 pages not including bibliography and notes. See the DLCL Honors Handbook for more details on declaring and completing the honors thesis.

Honors students are encouraged to participate in the honors college hosted by Bing Honors College ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/OO\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/OO_honors_BingHonors.html)) and coordinated by the Division of Literatures, Cultures, and Languages. The honors college is offered at the end of the summer, during the weeks directly preceding the start of the academic year, and is designed to help students develop their honors thesis projects. Applications must be submitted through the Bing program. For more information, view the Bing Honors ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/OO\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/OO_honors_BingHonors.html)) web site.

Honors essays are due to the thesis adviser no later than 5:00 p.m. on May 15th of the terminal year. If an essay is found deserving of a grade of 'A-' or better by the thesis adviser, honors are granted at the time of graduation.

## Italian Major Requirements in the Joint Major Program

See the "Computer Science Joint Major Progra (p. 278)m (p. 278)" section of this bulletin for details on Computer Science requirements.

To graduate with a joint major in Computer Science and Italian Studies, students must complete a minimum of 50 units of course work in Italian in addition to the Computer Science requirements for the dual major. These 50 units may not be used towards any other major or minor. Courses applied to the major must be taken for a letter grade, and a grade point average (GPA) of 2.0 or better must be achieved in each course. Relevant courses from other departments or programs may also earn credit toward the major as electives, with the approval of the Chair of Undergraduate Studies. Up to 15 units of coursework completed at another university or earned through AP credit may be

counted toward the major, with approval by the Chair of Undergraduate Studies. No more than 12 units of coursework for the major should be taken as independent study courses. To enroll in all ITALIAN or ITALLANG courses taught in Italian at or above the 100-level, students must have successfully completed ITALLANG 22A or the equivalent.

1. *Gateway Courses.* Students are recommended to take two courses in the Italian gateway series, taught in translation.

2. *Intermediate Language.* Students may earn up to 12 units in second-year language courses (maximum 12 units)

		Units
ITALLANG 21	Second Year Italian, First Quarter	4
ITALLANG 22	Second-Year Italian, Second Quarter	4
ITALLANG 23	Second-Year Italian, Third Quarter	3-4

or

		Units
ITALLANG 21A	Accelerated Second-Year Italian, Part 1	5
ITALLANG 22A	Accelerated Second-Year Italian, Part 2	5

3. *Bridge Courses.* Students must enroll in at least one bridge course taught in Italian, either in language or culture (minimum 3 units).

		Units
ITALLANG 101	Advanced Oral Communication: Italian Opera	3
ITALLANG 103	Advanced Oral Communication: Italian Classic Cinema	3
ITALLANG 114	Composition, Writing, and Presentation	3
ITALLANG 115	Academic and Creative Writing	3

4. *Core Culture Courses.* Students must take all three of the following core courses at Stanford (12 units). Any one of these courses fulfills the Writing in the Major (WIM) requirement

		Units
ITALIAN 127	Inventing Italian Literature: Dante, Boccaccio, Petrarca	4
ITALIAN 128	The Italian Renaissance and the Path to Modernity	4
ITALIAN 129	Modern Italian Culture	4

5. *Studies in Italian Culture.* Students must complete a minimum of 10 additional units (2-3 courses) in ITALIAN coursework (may be taught in English or Italian).

6. *Capstone Course.* Senior year the student will enroll in a 2 unit independent study ITALIAN 199 with a DLCL faculty member. The faculty member advising this project must sign off on this description. In order to have it approved as their capstone Italian and Computer Science project the student will need to submit a description of their project to the Chair of Undergraduate Studies in Italian.

7. *Electives.* A maximum of 15 elective units dealing with Italy may be applied to the major. Prior approval from the Chair of Undergraduate Studies is required. The following courses have been pre-approved as electives:

- Course work within the department. Additional ITALIAN courses at the 100- or 200-level taught by Italian faculty.
- Bing Overseas Program. Courses taken at the Bing Overseas Studies in Florence program with prior approval of the Chair of Undergraduate Studies.
- Thinking Matters or Education as Self-Fashioning courses taught at least partially by a faculty member of the French and Italian Department. Maximum of 10 units.

- Structured Liberal Education. Students may count 10 units of SLE towards the major electives. Maximum of 10 units.
- Digital Humanities Course. Student work must reflect Italian interests. Prior approval of the Chair of Undergraduate Studies. Maximum of 5 units.

8. *Additional Requirements.* Students must take the Oral Proficiency Interview (OPI) two quarters prior to degree conferral. Students should contact the Undergraduate Student Affairs Officer for the major to begin the process.

Honors Program

Students have the option to complete the honors program for Computer Science and Italian, by completing an honors thesis that is partially or fully integrated with Computer Science; such a thesis would fulfill both the capstone and Honors requirements for this degree. Students also have the option to complete the honors program for Italian only; such a thesis would not fulfill the capstone requirement for this degree.

Italian majors with an overall grade point average (GPA) of 3.3 or above, and who maintain a 3.5 (GPA) in major courses, are eligible to participate in the DLCL's honors program. Prospective honors students must choose a senior thesis adviser from among their home department's regular faculty, in their junior year, preferably by March 1, but no later than May 1. During Spring Quarter of the junior year, a student interested in the honors program should consult with the Chair of Undergraduate Studies of their home department to submit a thesis proposal (2-5 pages), DLCL Honors application and an outline of planned course work for their senior year.

Honors papers vary considerably in length as a function of their topic, historical scope, and methodology. They may make use of previous work developed in seminars and courses, but display an enhanced comparative or theoretical scope. Quality rather than quantity is the key criterion. Honors theses range from 40-90 pages not including bibliography and notes. See the DLCL Honors Handbook for more details on declaring and completing the honors thesis.

Honors students are encouraged to participate in the honors college hosted by Bing Honors College ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/OO\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/OO_honors_BingHonors.html)) and coordinated by the Division of Literatures, Cultures, and Languages. The honors college is offered at the end of the summer, during the weeks directly preceding the start of the academic year, and is designed to help students develop their honors thesis projects. Applications must be submitted through the Bing program. For more information, view the Bing Honors ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/OO\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/OO_honors_BingHonors.html)) website.

Honors essays are due to the thesis adviser no later than 5:00 p.m. on May 15th of the terminal year. If an essay is found deserving of a grade of 'A-' or better by the thesis adviser, honors are granted at the time of graduation.

## Declaring a Joint Major Program

To declare the joint major, students must first declare each major through Axess, and then submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) The Major-Minor and Multiple Major Course Approval Form (<https://stanford.box.com/MajMin-MultMaj>) is required for graduation for students with a joint major.

## Dropping a Joint Major Program

To drop the joint major, students must submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) . Students may also consult the

Student Services Center (<http://studentservicescenter.stanford.edu>) with questions concerning dropping the joint major.

## Transcript and Diploma

Students completing a joint major graduate with a B.A.S. degree. The two majors are identified on one diploma separated by a hyphen. There will be a notation indicating that the student has completed a "Joint Major". The two majors are identified on the transcript with a notation indicating that the student has completed a "Joint Major".

## Minor in French

To earn a minor in French, students must complete a minimum of 24 units of course work in the department. These 24 units may not be used towards any other major or minor. Courses applied to the minor must be taken for a letter grade, and a grade point average (GPA) of 2.0 or better must be achieved in each course. To enroll in all French literature courses, students must have successfully completed FRENLANG 124 Advanced French: Composition, Writing, and Presentation or successfully tested above this level through the Language Center.

1. *Introductory Culture and Literature Courses:* Students must take a minimum of three French Literature courses. Two must be from the FRENCH 130 sequence (8 units):

		Units
FRENCH 130	Introduction to Medieval and Renaissance French Literature	4
FRENCH 131	Absolutism, Enlightenment, and Revolution in 17th- and 18th-Century France	4
FRENCH 132	Literature, Revolutions, and Changes in 19th- and 20th-Century France	4
FRENCH 133	Literature and Society in Africa and the Caribbean	4

2. *Electives.* A maximum of 12 elective units may be applied to the minor. Prior approval from the Chair of Undergraduate Studies is required. The following courses have been pre-approved as electives:

		Units
FRENLANG 21C	Second-Year French: Cultural Emphasis, First Quarter	4
FRENLANG 22C	Second-Year French: Cultural Emphasis, Second Quarter	4
FRENLANG 23C	Second-Year French: Cultural Emphasis, Third Quarter	4
FRENLANG 120	Advanced French Oral Communication	3
FRENLANG 124	Advanced French: Composition, Writing, and Presentation	4-5

OSPPARIS courses. Courses taken at the Bing Overseas Studies in Paris program with prior approval of the Chair of Undergraduate Studies (language of instruction must be French)

Education as Self-Fashioning and, Thinking Matters courses taught at least partially by a faculty member in French. Maximum of 5 units.

Structured Liberal Education Students may count 5 units of SLE towards the major electives. Maximum of 5 units.

Digital Humanities Course. Student work must reflect French interests. Prior approval of the Chair of Undergraduate Studies. Maximum of 5 units.

## Minor in Italian

To earn a minor in Italian, students must complete a minimum of 24 units of coursework in Italian language and culture. These 24 units may not be used towards any other major or minor. Courses applied to the minor must be taken for a letter grade, and a grade point average (GPA) of 2.0 or better must be achieved in each course. To enroll in all ITALIAN or

ITALLANG courses taught in Italian at or above the 100 level, students must have successfully completed ITALLANG 22A or the equivalent.

1. *Intermediate Language.* Students may earn up to 12 units in second-year language courses (maximum 12 units)

		Units
ITALLANG 21	Second Year Italian, First Quarter	4
ITALLANG 22	Second-Year Italian, Second Quarter	4
ITALLANG 23	Second-Year Italian, Third Quarter	3-4

or

ITALLANG 21A	Accelerated Second-Year Italian, Part 1	5
ITALLANG 22A	Accelerated Second-Year Italian, Part 2	5

2. *Bridge Courses and Core Culture Courses.* Students must take at least two of the following courses taught in Italian at Stanford (minimum 6 units). At least one course must be ITALIAN 127, 128 or 129:

ITALLANG 114	Composition, Writing, and Presentation	3
ITALLANG 115	Academic and Creative Writing	3
ITALIAN 127	Inventing Italian Literature: Dante, Boccaccio, Petrarca	4
ITALIAN 128	The Italian Renaissance and the Path to Modernity	4
ITALIAN 129	Modern Italian Culture	4

\* With approval of the Chair of Undergraduate Studies, one of these courses may be replaced by a course taken at BOSP Florence.

3. *Electives.* A maximum of 10 elective units may be applied to the minor. Prior approval from the Chair of Undergraduate Studies is required. The following courses have been pre-approved as electives:

- Coursework within the department. Additional ITALIAN courses at the 100- or 200-level taught by Italian faculty.
- Bing Overseas Program. Courses taken at the Bing Overseas Studies in Florence program with prior approval of the Chair of Undergraduate Studies.
- Thinking Matters or Education as Self-Fashioning courses taught at least partially by a faculty member in Italian. Maximum of 5 units.
- Structured Liberal Education. Students may count 5 units of SLE towards the major electives. Maximum of 5 units.
- Digital Humanities Course. Student work must reflect Italian interests. Prior approval of the Chair of Undergraduate Studies. Maximum of 5 units.

## Minor in Modern Languages

The Division of Literatures, Cultures, and Languages offers a minor in Modern Languages. This minor draws on literature and language courses offered through this and other literature departments. See the "Division of Literatures, Cultures, and Languages (p. )" section of this bulletin for further details about the minor and its requirements.

## Coterminal Master's Program in French

University requirements for the coterminal M.A. are described in the "Coterminal Bachelor's and Master's Degrees (p. 46)" section of this bulletin. For University coterminal master's degree application forms, see the Registrar's Publications page (<https://studentaffairs.stanford.edu/registrar/publications/#Coterm>).

Each year the department admits a small number of undergraduates to the coterminal M.A. degree in French. Applications for Autumn Quarter must be submitted by January 31 of the senior year to the director of the

department. Students must submit the Coterminal Online Application (<https://applyweb.com/stanterm>) and include the following:

- a written statement of purpose
- two letters of recommendation from faculty at Stanford
- a transcript.

Students accepted into the coterminal program must have been undergraduate majors in French and must meet all requirements both for the B.A. and the M.A.

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken during or after the first quarter of the sophomore year are eligible for consideration for transfer to the graduate career; the timing of the first graduate quarter is not a factor. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

## Master of Arts in French

University regulations pertaining to the M.A. are listed in the "Graduate Degrees (p. 50)" section of this bulletin.

The terminal M.A. in French provides a flexible combination of language, literature, cultural history, and methodology course work designed to enhance the preparation of secondary school, junior college, or college teachers.

Candidates must complete a minimum of 45 units of graduate work, all courses being taken for a letter grade, with a minimum grade point average (GPA) of 3.3, as well as pass the master's examination at the end of their studies. To fulfill the requirements in a single year, enrollment must be for an average of 15 units per quarter.

Candidates must take one cultural history course (to be taken either inside or outside the Department of French and Italian). All remaining units are to be taken in advanced French literature courses (200 level or above), three of which must be concerned with the pre-revolutionary period of French cultural history.

Applicants should consult Graduate Admissions (<http://gradadmissions.stanford.edu>) for information related to the application process. Candidates for this degree are not eligible for financial aid or for teaching assistantships.

## Examination

The terminal M.A. examination is administered between the third and fifth week of Spring Quarter by a three-member committee, selected each year by the Chair of Graduate Studies. It consists of two parts:

### 1. Written Exam

The two-hour written exam tests the candidate's general knowledge of French literature and is based on the French Ph.D. reading list which may be obtained from the chair of Graduate Studies, Student Affairs Officer, or by referencing the French and Italian Graduate Student Handbook.

The exam requires that the candidate answer two questions (out of three) in a manner that demonstrates his/her ability to synthesize and draw parallels between periods, genres, and systems of representation on the basis of the standard reading list. One question must be answered in French. Use of a dictionary is allowed.

If the student's performance on the exam is deemed a 'pass' by two out of three of the members of the examining committee, the student is then permitted to go on to the oral examination (taken later the same week). Should the candidate fail the M.A. written exam, he/she is given a second chance at the end of Spring Quarter.

### 2. Oral Exam

The 90-minute oral exam is based upon the student's answers on the written exam. It examines the candidate's knowledge and understanding of French literary history on the basis of the standard reading list.

At the conclusion of the oral exam, the examination committee meets in closed session and discusses the student's performance on the written and the oral portions of the examination. If it is judged adequate, the M.A. degree is granted. In no event may the master's written and oral exams be taken more than twice.

## Doctor of Philosophy in French

University regulations pertaining to the Ph.D. are listed in the "Graduate Degrees (p. 50)" section of this bulletin.

### Degree Requirements

#### 1. Course work

A candidate for the Ph.D. degree must complete at least 135 units of graduate-level study. 72 of the 135 units must be taken within the department. All courses counted towards the 135-unit requirement for the PhD be at the graduate level. Excess course work can be taken at the undergraduate level but may not be used towards the Ph.D. requirements. All course work should be selected in consultation with the Chair of Graduate Studies.

*Required Courses—*

		Units
FRENCH 369	Introduction to the Profession of Literary Studies (must be taken in first year of studies)	1-2
DLCL 301	The Learning and Teaching of Second Languages (must be taken in the first year of studies)	3
DLCL 311	Professional Workshop	1
A minimum of five courses on French literature and culture taught at the graduate level. Three of the required five courses must be taken within the first year.		15

*Elective Courses—* Apart from the required courses above, students are granted considerable freedom in structuring a course of study appropriate to their individual needs. During the first year, most course work is done within the French and Italian department, in order to ensure an adequate preparation for the qualifying examination. Students are encouraged to take a variety of courses in order to be exposed to different periods and issues. Students are not allowed to take Independent Study during their first year. In the

second and third years, however, the program of study is tailored to the specific interests of the student.

## 2. Examinations

Completion of all department and University examinations.

## 3. Dissertation

Submission and approval of a dissertation.

## 4. Teaching

Ph.D. students are required to teach a minimum of five courses within their five years of funding.

## 5. Language Requirements

Attaining a native or near-native fluency in French is a requirement to qualify for the Ph.D. degree. Upon entering the program, candidates must contact the Language Center and arrange to take the OPI (Oral Proficiency Interview) to determine their fluency in French. An advanced level or above must have been reached by the time candidates take their qualifying exam in Autumn Quarter of the second year of study. If a student fails to score in the advanced bracket of the OPI test upon entering, he/she is tested again at the beginning of the second year. It is the responsibility of the candidates to design a course of study to improve his or her proficiency in French. Candidates who do not meet the minimum language requirement must discuss their plans to meet this requirement with the Chair of Graduate Studies.

In addition, candidates are required to achieve a high level of proficiency in one additional foreign language, with the language in question to be determined by the student and adviser as a function of the student's area of specialization. Such proficiency may be demonstrated either by completing a graduate seminar in the language in question, or by passing an exam that establishes a third-year or above level of competence in writing, reading, and speaking. In the case of ancient Greek and Latin, a high level of proficiency means a level superior to a second-year collegiate level of proficiency in reading and writing. The second foreign language requirement must be completed by the end of the third year.

## 6. Candidacy

Admission to candidacy is an important decision grounded in an overall assessment of a student's ability to successfully complete the Ph.D. program. Per University policy, students are expected to complete department qualifying procedures and apply for candidacy by the end of the second year in residence. In reviewing a student for admission to candidacy, the faculty considers a student's academic progress including but not limited to: advanced language proficiency, coursework, performance on the Qualifying Exam (or Field Exam for those with a waiver of the Qualifying Exam), and successful completion of teaching and research assistantships. A student must also have completed at least 3 units of work with each of 4 Stanford faculty members prior to consideration for candidacy. In addition to successful completion of department prerequisites, a student is only admitted to candidacy if the faculty makes the judgment that the student has the potential to successfully complete the requirements of the degree program. Candidacy is determined by faculty vote. Failure to advance to candidacy results in the dismissal of the student from the doctoral program. Candidacy is valid for five years and students are required to maintain active candidacy through conferral of the doctoral degree. All requirements for the degree must be completed before candidacy expires. The Department of French and Italian conducts regular reviews of each student's academic performance, both prior to and following successful admission to candidacy. Failure to make satisfactory progress to degree may result in dismissal from the doctoral program. Additional information about University candidacy policy is available in the Bulletin (p. 52) and GAP (<http://gap.stanford.edu/4-6.html>).

## 7. TGR Status

Doctoral students who have been admitted to candidacy, completed all required courses and degree requirements other than the

dissertation, completed 135 units, and submitted a Doctoral Dissertation Reading Committee form, must request Terminal Graduate Registration status to complete their dissertations. Each quarter, all TGR students must enroll in FRENCH 802 TGR Dissertation for zero units, in the appropriate section for their adviser.

## Grading

Doctoral students in the department must take required courses for a letter grade if available and are expected to earn a grade of 'B+' or better in each course. Any grade of 'B' or below is considered to be less than satisfactory. Grades of 'B' or below are reviewed by faculty: while the grade will stand, the student may be required to revise and resubmit the work associated with that course.

## Examinations

There are three examinations: the qualifying examination, the field examination, and the University oral examination. Students may not take any department or University exam while course work is incomplete.

### Qualifying Examination

The first oral examination, which takes place in the week prior to autumn quarter of the second year of study, tests the student's knowledge of language and literature and his/her aptitude for critical thinking. The examining committee, determined by the Director of French and Italian, schedules the precise exam date and time.

The exam is based on a standard reading list covering major works from all periods of literature in the language(s) of study, from the Middle Ages to present day. The list may be expanded to reflect a student's particular interests, but not abridged. The reading list may be obtained from the Chair of Graduate Studies, the graduate student services officer, or by referencing the French and Italian student handbook.

The exam is 90 minutes in length and consists of two parts:

1. A 20-minute presentation by the candidate on a topic to be determined by the student. This presentation may be given in English or in the language of study and should engage, in a succinct manner, an issue or set of issues of broad relevance to the literary history of the language(s) of study. The presentation must not simply be a text read aloud, but rather must be given from notes. It is meant to be suggestive and not exhaustive, so as to provoke further discussion. You may bring a single letter-sized page of notes, printed in 12-point font, with no full sentences except for quotations; you must hand it in at the end of the exam.
2. A 70-minute question and answer period in which the examining committee follows up on the candidate's presentation and discusses the reading list with the student. At least part of this portion of the exam takes place in the language(s) of study. The student is expected to demonstrate a solid knowledge of the texts on the reading list and of the basic issues which they raise, as well as a broader sense of the cultural/literary context into which they fit and demonstrate the ability to formulate an original point of view on such texts and contexts.

Students who do not pass the qualifying exam their first time may be placed on probation with limited enrollment and be allowed to retake the exam at the end of Autumn Quarter. Should the student not pass the retake exam, his or her studies in the Ph.D. program are concluded.

Students already holding an advanced degree in the relevant area may request to be excused from the Qualifying Exam. However, the student must present a formal request for a waiver to the Chair of Graduate Studies by the end of autumn quarter of the first year. Such a request must document the course work completed elsewhere and include all relevant reading lists. Only in cases where taking the Qualifying Exam

would involve considerable repetition of already completed work is such a waiver likely to be granted.

### Field Examination

The second oral examination takes place in week prior to Autumn Quarter of the third year of study. Students waived from the qualifying exam take the field exam in the week prior to Autumn Quarter of the second year of study. The exam is 100 minutes in length and consists of two parts:

1. A 20-minute presentation by the student on a topic (a particular literary genre or a broad theoretical, historical, or interdisciplinary question) freely chosen and developed by the individual student working in collaboration with his/her adviser and the Chair of Graduate Studies. The student should design this research project so that it has the focus of an article or a seminar he/she might teach. The student should discuss the proposed topic with the Chair of Graduate Studies before the end of the quarter preceding the quarter in which he/she plans to take the exam; together they choose a committee of three faculty members with interests close to the proposed topic. In most cases, one of these committee members is the student's adviser. This presentation is followed by a 20-minute discussion.
2. A 60-minute discussion of a reading list, assembled by the student, which covers about a century of writing. The reading list should include works in all genres relevant to the period covered and should be around two single-spaced pages in length. The list may well include critical and scholarly works or texts from outside the traditional domain of literary studies in the chosen tradition (such as film, philosophy, other literary traditions), but such coverage should be regarded as supplemental except in rare instances where the chair and faculty advisers have agreed to define these materials as the student's field. Students are required to discuss the reading list for the examination with the Chair of Graduate Studies and with members of their committee during the quarter preceding the examination. A final reading list must be submitted to the committee no later than two weeks preceding the examination. Each member of the committee is assigned a 20-minute period to question the candidate on the reading list and its intellectual-historical implications. The aim of these questions is to establish the student's credentials as a specialist in the period of his/her choosing, so the core of the reading list must be made up of texts that are essential to any specialist. It follows that reading lists must not focus on the narrow area of the student's research interest. The tendency to bias reading lists towards the dissertation topic, be it an author or a genre, does not cancel the obligation to cover the major figures and genres. It is understandable that some students, by their third year, have become so deeply committed to their work toward the dissertation that they wish to use the preparation period for the examination as part of their dissertation research. Certainly, some of the exam work may prove relevant, but students should also remember that the examination is the central means of certifying their expertise in a literary period.

### The University Oral Examination

This examination takes the form of a dissertation proposal defense. It is to be taken no later than Spring Quarter of the student's third year. Students must have completed all course work and language requirements before the quarter in which they take the University oral examination. One quarter prior to the University oral examination, students must schedule the exam date and time as well as work with their primary adviser to obtain an outside chair for the examination.

Two weeks before the exam, the student must submit to the committee a 25-35 page proposal, which must contain the following parts:

1. a clear presentation of the student's central thesis
2. a synthetic overview of the dissertation
3. a description of the methodology that is used in the dissertation

4. an in-depth discussion of current secondary sources on the topic.

The student must also append a bibliography, but this does not take the place of number 4. The proposal must be prepared in close consultation with the dissertation director during the months preceding the exam.

The exam committee consists of four members, in addition to a committee chair from outside the Division of Literatures, Cultures, and Languages, whose principal functions are to keep track of time and to call on the four members of the committee who question the candidate on the talk and on the reading list.

After a 20-minute presentation on the part of the candidate, each member of the committee (apart from the committee chair) questions the student for 20 minutes. At the end of the hour and forty minutes, the faculty readers vote on the outcome of the exam. If the outcome is favorable, (four out of five votes in favor of the student passing), the student is free to proceed with work on the dissertation. If the proposal is found to be unsatisfactory, the dissertation readers may ask the student to revise and resubmit the dissertation prospectus and to schedule a second exam. A student who fails a second time will be released from the Ph.D. program and awarded a terminal M.A. degree.

### Advising

Given the interdisciplinary nature of the Ph.D. programs and the opportunity they afford each student to create an individualized program of study, regular consultation with an adviser is of the utmost importance. The adviser for all entering graduate students is the Chair of Graduate Studies, whose responsibility it is to assist students with their course planning and to keep a running check on progress in completing the course, teaching, and language requirements. By the end of the second year of study, each student should have chosen a faculty adviser whose expertise is appropriate to his/her own area of research and interests.

### Yearly Review

The faculty provide students with timely and constructive feedback on their progress toward the Ph.D. In order to evaluate students' progress and to identify potential problem areas, the department's faculty reviews the academic progress of each student at the end of the academic year. The yearly reviews are primarily intended to identify developing problems that could impede progress. In most cases, students are simply given constructive feedback, but if more serious concerns warrant, a student may be placed on probation with specific guidelines for addressing the problems detected. Possible outcomes of the yearly review include (1) continuation of the student in good standing, or (2) placing the student on probation, with specific guidelines for the period on probation and the steps to be taken in order to be returned to good standing. For students on probation at this point (or at any other subsequent points), possible outcomes of a review include: (1) restoration to good standing; (2) continued probation, again with guidelines for necessary remedial steps; or (3) termination from the program. Students leaving the program at the end of the first or second year are usually allowed to complete the requirements to receive an M.A. degree, if this does not involve additional residency or financial support.

## Doctor of Philosophy in Italian

University regulations pertaining to the Ph.D. are listed in the "Graduate Degrees" section of this bulletin.

### Degree Requirements

#### 1. Course work

A candidate for the Ph.D. degree must complete at least 135 units of graduate-level study. 72 of the 135 units must be taken within the department. All courses counted towards the 135-unit requirement for the PhD be at the graduate level. Excess coursework can be taken at the UG level, but not used towards the PhD requirements. All

course work should be selected in consultation with the Chair of Graduate Studies.

#### Required Courses—

ITALIAN 369	Introduction to the Profession of Literary Studies (must be taken in the first year of studies)	1-2
DLCL 301	The Learning and Teaching of Second Languages (must be taken in the first year of studies)	3
DLCL 311	Professional Workshop	1
A minimum of five courses on Italian literature and culture taught at the graduate level. Three of the required five courses must be taken within the first year.		

*Elective Courses—* Apart from the required courses above, students are granted considerable freedom in structuring a course of study appropriate to their individual needs. During the first year, most course work is done within the French and Italian department, in order to ensure an adequate preparation for the qualifying examination. Students are encouraged to take a variety of courses in order to be exposed to different periods and issues. Students are not allowed to take Independent Study during their first year. In the second and third years, however, the program of study is tailored to the specific interests of the student.

## 2. Examinations

Completion of all department and University examinations.

## 3. Dissertation

Submission and approval of a dissertation.

## 4. Teaching

Ph.D. students are required to teach a minimum of five courses within their five years of funding.

## 5. Language Requirements

Attaining a native or near-native fluency in Italian is a requirement to qualify for the Ph.D. degree. Upon entering the program, candidates must contact the Language Center and arrange to take the OPI (Oral Proficiency Interview) to determine their fluency in Italian. An advanced level or above must have been reached by the time candidates take their qualifying exam in the Autumn Quarter of the second year of study. If a student fails to score in the advanced bracket of the OPI test upon entering, he/she is tested again at the beginning of the second year. It is the responsibility of the candidates to design a course of study to improve their proficiency in Italian. Candidates who do not meet the minimum language requirement must discuss their plans to meet this requirement with the Chair of Graduate Studies. By the end of the third year, students must have passed a reading examination in one additional foreign language. If the candidate's period of concentration is earlier than the Romantic period, this must be Latin; if Romantic or later, French.

## 6. Candidacy

Admission to candidacy is an important decision grounded in an overall assessment of a student's ability to successfully complete the Ph.D. program. Per University policy, students are expected to complete department qualifying procedures and apply for candidacy by the end of the second year in residence. In reviewing a student for admission to candidacy, the faculty considers a student's academic progress including but not limited to: advanced language proficiency, course work, performance on the qualifying exam, and successful completion of teaching and research assistantships. A student must also have completed at least 3 units of work with each of four Stanford faculty members prior to consideration for candidacy. In addition to successful completion of department prerequisites, a student is only admitted to candidacy if the faculty makes the judgment that the student has the potential to successfully complete

the requirements of the degree program. Candidacy is determined by faculty vote. Failure to advance to candidacy results in the dismissal of the student from the doctoral program. Candidacy is valid for five years and students are required to maintain active candidacy through conferral of the doctoral degree. All requirements for the degree must be completed before candidacy expires. The Department of Italian Studies conducts regular reviews of each student's academic performance, both prior to and following successful admission to candidacy. Failure to make satisfactory progress to degree may result in dismissal from the doctoral program. Additional information about University candidacy policy is available in the Bulletin (p. 52) and GAP (<http://gap.stanford.edu/4-6.html>).

## Units

## 7. TGR Status

Doctoral students who have been admitted to candidacy, completed all required courses and degree requirements other than the dissertation, completed 135 units, and submitted a Doctoral Dissertation Reading Committee form, must request Terminal Graduate Registration status to complete their dissertations. Each quarter, all TGR students must enroll in ITALIAN 802 TGR Dissertation for zero units, in the appropriate section for their adviser.

## Grading

Doctoral students in the department must take required courses for a letter grade if available and are expected to earn a grade of 'B+' or better in each course. Any grade of 'B' or below is considered to be less than satisfactory. Grades of 'B' or below are reviewed by faculty: while the grade will stand, the student may be required to revise and resubmit the work associated with that course.

## Examinations

There are three examinations: the qualifying examination, the field examination, and the University oral examination. Students may not take any department or University exam while course work is incomplete.

### Qualifying Examination

The first oral examination, which takes place in the first two weeks of October of the second year of study, tests the student's knowledge of language and literature and his/her aptitude for critical thinking. The examining committee, determined by the Director of French and Italian, schedules the precise exam date and time.

The exam is based on a standard reading list covering major works from all periods of literature in the language(s) of study, from the Middle Ages to present day. The list may be expanded to reflect a student's particular interests, but not abridged. The reading list may be obtained from the Chair of Graduate Studies, the graduate student affairs officer, or by referencing the French and Italian student handbook.

The exam is 90 minutes in length and consists of two parts:

1. A 20-minute presentation by the candidate on a topic to be determined by the student. This presentation may be given in English or in the language of study and should engage, in a succinct manner, an issue or set of issues of broad relevance to the literary history of the language(s) of study. The presentation must not simply be a text read aloud, but rather must be given from notes. It is meant to be suggesting and not exhaustive, so as to provoke further discussion.
2. A 70-minute question and answer period in which the examining committee follows up on the candidate's presentation and discusses the reading list with the student. At least part of this portion of the exam takes place in the language(s) of study. The student is expected to demonstrate a solid knowledge of the texts on the reading list and of the basic issues which they raise, as well as a broader sense of the cultural/literary context into which they fit and demonstrate the ability to formulate an original point of view on such texts and contexts.

Students who do not pass the qualifying exam their first time may be placed on probation with limited enrollment and be allowed to retake the exam at the end of Autumn Quarter. Should the student not pass the retake exam, his/her studies in the Ph.D. program are concluded.

Students already holding an advanced degree in the relevant area may request to be excused from the Qualifying Exam. However, the student must present a formal request for a waiver to the Chair of Graduate Studies by the end of autumn quarter of the first year. Such a request must document the course work completed elsewhere and include all relevant reading lists. Only in cases where taking the Qualifying Exam would involve considerable repetition of already completed work is such a waiver likely to be granted.

### Field Examination

The second oral examination takes place in the Autumn Quarter of the third year of study. The exam is 100 minutes in length and consists of two parts:

1. A 20-minute presentation by the student on a topic (a particular literary genre or a broad theoretical, historical, or interdisciplinary question) freely chosen and developed by the individual student working in collaboration with his/her adviser and the Chair of Graduate Studies. The student should design this research project so that it has the focus of an article or a seminar he/she might teach. The student should discuss the proposed topic with the Chair of Graduate Studies before the end of the quarter preceding the quarter in which he/she plans to take the exam; together they choose a committee of three faculty members with interests close to the proposed topic. (In most cases, one of these committee members is the student's adviser.) This presentation is followed by a 20-minute discussion.
2. A 60-minute discussion of a reading list, assembled by the student, which covers about a century of writing. The reading list should include works in all genres relevant to the period covered and should be around two single-spaced pages in length. The list may well include critical and scholarly works or texts from outside the traditional domain of literary studies in the chosen tradition (such as film, philosophy, other literary traditions), but such coverage should be regarded as supplemental except in rare instances where the chair and faculty advisers have agreed to define these materials as the student's field. Students are required to discuss the reading list for the examination with the Chair of Graduate Studies and with members of their committee during the quarter preceding the examination. A final reading list must be submitted to the committee no later than two weeks preceding the examination. Each member of the committee is assigned a 20-minute period to question the candidate on the reading list and its intellectual-historical implications. The aim of these questions is to establish the student's credentials as a specialist in the period of his/her choosing, so the core of the reading list must be made up of texts that are essential to any specialist. It follows that reading lists must not focus on the narrow area of the student's research interest. The tendency to bias reading lists towards the dissertation topic, be it an author or a genre, does not cancel the obligation to cover the major figures and genres. It is understandable that some students, by their third year, have become so deeply committed to their work toward the dissertation that they wish to use the preparation period for the examination as part of their dissertation research. Certainly, some of the exam work may prove relevant, but students should also remember that the examination is the central means of certifying their expertise in a literary period.

### The University Oral Examination

This examination takes the form of a dissertation proposal defense. It is to be taken no later than Autumn Quarter of the student's fourth year. Students must have completed all course work and language requirements before the quarter in which they take the University oral

examination. One quarter prior to the University oral examination, students must schedule the exam date and time as well as work with their primary adviser to obtain an outside chair for the examination.

Two weeks before the exam, the student must submit to the committee a 25-35 page proposal, which must contain the following parts:

1. a clear presentation of the student's central thesis
2. a synthetic overview of the dissertation
3. a description of the methodology that is used in the dissertation
4. an in-depth discussion of current secondary sources on the topic.

The student must also append a bibliography, but this does not take the place of number 4. The proposal must be prepared in close consultation with the dissertation director during the months preceding the exam.

The exam committee consists of four members, in addition to a committee chair from outside the Division of Literatures, Cultures, and Languages, whose principal functions are to keep track of time and to call on the four members of the committee who question the candidate on the talk and on the reading list.

After a 20-minute presentation on the part of the candidate, each member of the committee (apart from the committee chair) questions the student for 20 minutes. At the end of the hour and forty minutes, the faculty readers vote on the outcome of the exam. If the outcome is favorable, (four out of five votes in favor of the student passing), the student is free to proceed with work on the dissertation. If the proposal is found to be unsatisfactory, the dissertation readers may ask the student to revise and resubmit the dissertation prospectus and to schedule a second exam. A student who fails a second time will be released from the Ph.D. program and awarded a terminal M.A. degree.

### Advising

Given the interdisciplinary nature of the Ph.D. programs and the opportunity they afford each student to create an individualized program of study, regular consultation with an adviser is of the utmost importance. The adviser for all entering graduate students is the Chair of Graduate Studies, whose responsibility it is to assist students with their course planning and to keep a running check on progress in completing the course, teaching, and language requirements. By the end of the second year of study, each student should have chosen a faculty adviser whose expertise is appropriate to his/her own area of research and interests.

### Yearly Review

The faculty provide students with timely and constructive feedback on their progress toward the Ph.D. In order to evaluate students' progress and to identify potential problem areas, the department's faculty reviews the academic progress of each student at the end of the academic year. The yearly reviews are primarily intended to identify developing problems that could impede progress. In most cases, students are simply given constructive feedback, but if more serious concerns warrant, a student may be placed on probation with specific guidelines for addressing the problems detected. Possible outcomes of the yearly review include (1) continuation of the student in good standing, or (2) placing the student on probation, with specific guidelines for the period on probation and the steps to be taken in order to be returned to good standing. For students on probation at this point (or at any other subsequent points), possible outcomes of a review include: (1) restoration to good standing; or (2) continued probation, again with guidelines for necessary remedial steps; or (3) termination from the program. Students leaving the program at the end of the first or second year are usually allowed to complete the requirements to receive an M.A. degree, if this does not involve additional residency or financial support.

# Doctor of Philosophy in French and Italian

University regulations pertaining to the Ph.D. are listed in the "Graduate Degrees" section of this bulletin.

## Degree Requirements

### 1. Course work—

A candidate for the Ph.D. degree must complete at least 135 units of graduate-level study. 72 of the 135 units must be taken within the department. All courses counted towards the 135-unit requirement for the PhD be at the graduate level. Excess coursework can be taken at the UG level, but not used towards the PhD requirements. All course work should be selected in consultation with the Chair of Graduate Studies.

*Required courses—*

### 2.

FRENCH/ ITALIAN 369	Introduction to the Profession of Literary Studies (must be taken in first year of studies)	1-2
DLCL 301	The Learning and Teaching of Second Languages (must be taken in first year of studies)	3
DLCL 311	Professional Workshop	1
A minimum of four advanced courses on French literature and culture, and four advanced courses on Italian literature and culture. Four of the required eight courses must be taken within the first year.		24

*Elective Courses—*Apart from the required courses above, students are granted considerable freedom in structuring a course of study appropriate to their individual needs. During the first year, most course work is done within the French and Italian department, in order to ensure an adequate preparation for the qualifying examination. Students are encouraged to take a variety of courses in order to be exposed to different historical periods and issues. Students are not allowed to take Independent Study during their first year. In the second and third years, however, the program of study is tailored to the specific interests of the student.

### 3. Examinations

Successful completion of all department and University examinations.

### 4. Dissertation

Submission and approval of a dissertation. The dissertation topic must include a substantial quotient of material from both the French and Italian tradition, and the dissertation must include either (1) at least one chapter on French materials and one chapter on Italian materials, or (2) at least two chapters focusing on a comparison between French and Italian materials.

### 5. Teaching

Ph.D. students are required to teach a minimum of five courses within their five years of funding. Of these five courses the student is required to teach at least one French language course and one Italian language course.

### 6. Language Requirements

Attaining a native or near-native fluency in both French and Italian is the individual responsibility of all candidates in the Ph.D. program, and remedial course work needed to achieve such fluency cannot count towards the Ph.D. degree. For students specializing in areas (a) medieval and renaissance and (b) renaissance and early modern, proficiency in Latin equivalent to a second year collegiate level of proficiency (the equivalent of CLASSICS 11L, CLASSICS 12L, and CLASSICS 13L) in reading is also required. Such proficiency may be demonstrated by successfully completing a course in the language in question (at least second-year level, but preferably a graduate seminar); or by passing an exam that establishes a second-year or above level of competence. In no

case is passage of a standard reading competence exam considered sufficient.

For students specializing in area (c) modern and contemporary, proficiency in a third language (beyond French and Italian) is not required; students are, however, encouraged to acquire competency in a third language or area that is relevant to their research (e.g. German).

The language requirements should be completed as soon as possible, but in any case not later than the end of the third year.

### 7. Candidacy

Admission to candidacy is an important decision grounded in an overall assessment of a student's ability to successfully complete the Ph.D. program. Per University policy, students are expected to complete department qualifying procedures and apply for candidacy by the end of the second year in residence. In reviewing a student for admission to candidacy, the faculty considers a student's academic progress including but not limited to: advanced language proficiency, course work, performance on the qualifying exam (or field exam for those with a waiver of the qualifying exam), and successful completion of teaching and research assistantships. A student must also have completed at least 3 units of work with each of 4 Stanford faculty members prior to consideration for candidacy. In addition to successful completion of department prerequisites, a student is only admitted to candidacy if the faculty makes the judgment that the student has the potential to successfully complete the requirements of the degree program. Candidacy is determined by faculty vote. Failure to advance to candidacy results in the dismissal of the student from the doctoral program. Candidacy is valid for five years and students are required to maintain active candidacy through conferral of the doctoral degree. All requirements for the degree must be completed before candidacy expires. The Department of French Studies conducts regular reviews of each student's academic performance, both prior to and following successful admission to candidacy. Failure to make satisfactory progress to degree may result in dismissal from the doctoral program. Additional information about University candidacy policy is available in the Bulletin (p. 52) and GAP (<http://gap.stanford.edu/4-6.html>).

### 8. TGR Status

Doctoral students who have been admitted to candidacy, completed all required courses and degree requirements other than the dissertation, completed 135 units, and submitted a Doctoral Dissertation Reading Committee form, must request Terminal Graduate Registration status to complete their dissertations. Each quarter, all TGR students must enroll in FRENCH 802 TGR Dissertation or ITALIAN 802 TGR Dissertation for zero units, in the appropriate section for their adviser.

## Grading

Doctoral students in the department must take required courses for a letter grade if available and are expected to earn a grade of 'B+' or better in each course. Any grade of 'B' or below is considered to be less than satisfactory. Grades of 'B' or below are reviewed by faculty: while the grade stands, the student may be required to revise and resubmit the work associated with that course.

## Examinations

There are three examinations: the qualifying examination, the field examination, and the University oral examination. Students may not take any department or University exam while coursework is incomplete.

## Qualifying Examination

The first oral examination, which takes place in the first two weeks of October of the second year of study, tests the student's knowledge of language and literature and his/her aptitude for critical thinking. The

examining committee, determined by the Director of French and Italian, schedules the precise exam date and time.

Students may take either two qualifying exams, one in French and one in Italian, or a single qualifying exam in French and Italian. The combined French and Italian qualifying exam covers one of three periods, (a) medieval and renaissance, (b) renaissance and early modern, or (c) modern and contemporary. For each period it is based on a standard reading list. The list may be expanded to reflect a student's particular interests, but not abridged. One third of the combined exam takes place in English, one third in French, and one third in Italian (with the student free to choose which portion transpires in which language). The reading lists may be obtained from the Chairs of Graduate Studies, the graduate student affairs officer, or by referencing the French and Italian student handbook.

The exam is 90 minutes in length and consists of two parts:

1. A 20-minute presentation by the candidate on a topic to be determined by the student. This presentation may be given in English or in the language of study and should engage, in a succinct manner, an issue or set of issues of broad relevance to the literary history of the language(s) of study. The presentation must not simply be a text read aloud, but rather must be given from notes. It is meant to be suggesting and not exhaustive, so as to provoke further discussion.
2. A 70-minute question and answer period in which the examining committee follows up on the candidate's presentation and discusses the reading list with the student. At least part of this portion of the exam takes place in the languages of study. The student is expected to demonstrate a solid knowledge of the texts on the reading list and of the basic issues which they raise, as well as a broader sense of the cultural/literary context into which they fit, and demonstrate the ability to formulate an original point of view on such texts and contexts.

Students who do not pass the qualifying exam their first time may be placed on probation with limited enrollment and be allowed to retake the exam at the end of Autumn Quarter. If the student does not pass the second exam, his/her studies in the Ph.D. program will be concluded.

If, at the qualifying exam stage, a student's work is judged insufficient for admission to candidacy for the Ph.D., the student may petition to continue in French only or Italian only. This petition is reviewed by the qualifying exam committee, the relevant Chair of Graduate Studies, and the Director of the Department of French and Italian.

Students already holding an advanced degree in the relevant area may request to be excused from the Qualifying Exam. However, the student must present a formal request for a waiver to the Chair of Graduate Studies by the end of autumn quarter of the first year. Such a request must document the course work completed elsewhere and include all relevant reading lists. Only in cases where taking the Qualifying Exam would involve considerable repetition of already completed work is such a waiver likely to be granted.

### Field Examination

The second oral examination takes place in the Autumn Quarter of the third year of study. The exam is 100 minutes in length and consists of two parts:

1. A 20-minute presentation by the student on a topic (a particular literary genre or a broad theoretical, historical, or interdisciplinary question) freely chosen and developed by the individual student working in collaboration with his/her adviser and the Chair of Graduate Studies. The student should design this research project so that it has the focus of an article or a seminar he/she might teach. The student should discuss the proposed topic with the Chairs of Graduate Studies before the end of the quarter preceding the quarter in which he/she plans to take the exam; together they choose a

committee of three faculty members with interests close to the proposed topic. (In most cases, one of these committee members is the student's adviser.) This presentation is followed by a 20-minute discussion.

2. A 60-minute discussion of a reading list, assembled by the student, which covers about a century of writing. The reading list should include works in all genres relevant to the period covered and should be around two single-spaced pages in length. The list may well include critical and scholarly works or texts from outside the traditional domain of literary studies in the chosen tradition (such as film, philosophy, other literary traditions), but such coverage should be regarded as supplemental except in rare instances where the chair and faculty advisers have agreed to define these materials as the student's field. Students are required to discuss the reading list for the examination with the Chairs of Graduate Studies and with members of their committee during the quarter preceding the examination. A final reading list must be submitted to the committee no later than two weeks preceding the examination. Each member of the committee is assigned a 20-minute period to question the candidate on the reading list and its intellectual-historical implications. The aim of these questions is to establish the student's credentials as a specialist in the period of his/her choosing, so the core of the reading list must be made up of texts that are essential to any specialist. It follows that reading lists must not focus on the narrow area of the student's research interest. The tendency to bias reading lists towards the dissertation topic, be it an author or a genre, does not cancel the obligation to cover the major figures and genres. It is understandable that some students, by their third year, have become so deeply committed to their work toward the dissertation that they wish to use the preparation period for the examination as part of their dissertation research. Certainly, some of the exam work may prove relevant, but students should also remember that the examination is the central means of certifying their expertise in a literary period.

### The University Oral Examination

This examination takes the form of a dissertation proposal defense. It is to be taken no later than Autumn Quarter of the student's fourth year. Students must have completed all course work and language requirements before the quarter in which they take the University oral examination. One quarter prior to the University oral examination, students must schedule the exam date and time as well as work with their primary adviser to obtain an outside chair for the examination.

Two weeks before the exam, the student must submit to the committee a 25-35 page proposal. This proposal must contain the following parts:

1. a clear presentation of the student's central thesis
2. a synthetic overview of the dissertation
3. a description of the methodology that is used in the dissertation
4. an in-depth discussion of current secondary sources on the topic.

The student must also append a bibliography, but this does not take the place of number 4. The reading list should include works in both French and Italian in all genres relevant to the period covered. The proposal must be prepared in close consultation with the dissertation director during the months preceding the exam.

The exam committee consists of four members, in addition to a committee chair from outside the Division of Literatures, Cultures, and Languages, whose principal functions are to keep track of time and to call on the four members of the committee who question the candidate on the talk and on the reading list.

After a 20-minute presentation on the part of the candidate, each member of the committee (apart from the committee chair) questions the student for 20 minutes. At the end of the hour and forty minutes, the faculty readers vote on the outcome of the exam. If the outcome is favorable

(four out of five votes in favor of the student passing), the student is free to proceed with work on the dissertation. If the proposal is found to be unsatisfactory, the dissertation readers may ask the student to revise and resubmit the dissertation prospectus and to schedule a second exam. A student who fails a second time will be released from the Ph.D. program and awarded a terminal M.A. degree.

## Advising

Given the interdisciplinary nature of the Ph.D. programs and the opportunity they afford each student to create an individualized program of study, regular consultation with an adviser is of the utmost importance. The adviser for all entering graduate students is the Chair of Graduate Studies, whose responsibility it is to assist students with their course planning and to keep a running check on progress in completing the course, teaching, and language requirements. By the end of the second year of study, each student should have chosen a faculty adviser whose expertise is appropriate to his/her own area of research and interests.

## Yearly Review

The faculty provide students with timely and constructive feedback on their progress toward the Ph.D. In order to evaluate students' progress and to identify potential problem areas, the department's faculty reviews the academic progress of each student at the end of the academic year. The yearly reviews are primarily intended to identify developing problems that could impede progress. In most cases, students are simply given constructive feedback, but if more serious concerns warrant, a student may be placed on probation with specific guidelines for addressing the problems detected. Possible outcomes of the yearly review include (1) continuation of the student in good standing, or (2) placing the student on probation, with specific guidelines for the period on probation and the steps to be taken in order to be returned to good standing. For students on probation at this point (or at any other subsequent points), possible outcomes of a review include: (1) restoration to good standing; or (2) continued probation, again with guidelines for necessary remedial steps; or (3) termination from the program. Students leaving the program at the end of the first or second year are usually allowed to complete the requirements to receive an M.A. degree, if this does not involve additional residency or financial support.

## Ph.D. Minor in French or Italian

The Ph.D. may be combined with a minor in a related field, including Comparative Literature, Linguistics, Modern Thought and Literature, Art History, History, Music, Philosophy, and Spanish. Ph.D. candidates in French may minor in Italian, and vice versa. Students interested in a minor should design their course of study with their adviser(s).

## Ph.D. Minor in French Literature

The department offers a minor in French Literature. The requirement for a minor in French is completion of 24 units of graduate course work in the French section. Interested students should consult the graduate adviser.

## Ph.D. Minor in Italian Literature

The department offers a minor in Italian Literature. The requirement for a minor in Italian is a minimum of 24 units of graduate course work in Italian literature. Interested students should consult the graduate adviser.

## Overseas Studies Courses in French

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		Units
OSPPARIS 30	The Avant Garde in France through Literature, Art, and Theater	4
OSPPARIS 32	French History and Politics: Understanding the Present through the Past	5
OSPPARIS 34	Franco-American Encounters: Paris-New York in the 20th Century	4
OSPPARIS 54	The Artist's World: The Workshop, Patronage and Public in 19th and 20th Century France	4
OSPPARIS 81	France During the Second World War: Between History and Memory	5
OSPPARIS 92	Building Paris: Its History, Architecture, and Urban Design	4
OSPPARIS 186F	Contemporary African Literature in French	4

## Overseas Studies Courses in Italian

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		<b>Units</b>
OSPFLOR 34	The Virgin Mother, Goddess of Beauty, Grand Duchess, and the Lady: Women in Florentine Art	4
OSPFLOR 41	The Florentine Sketchbook: A Visual Arts Practicum	4
OSPFLOR 48	Sharing Beauty in Florence: Collectors, Collections and the Shaping of the Western Museum Tradition	4
OSPFLOR 49	On-Screen Battles: Filmic Portrayals of Fascism and World War II	5
OSPFLOR 54	High Renaissance and Mannerism: the Great Italian Masters of the 15th and 16th Centuries	4
OSPFLOR 58	Space as History: Social Vision and Urban Change	4
OSPFLOR 67	The Celluloid Gaze: Gender, Identity and Sexuality in Cinema	4
OSPFLOR 71	A Studio with a View: Drawing, Painting and Informing your Aesthetic in Florence	4
OSPFLOR 111Y	From Giotto to Michelangelo: The Birth and Flowering of Renaissance Art in Florence	4
OSPFLOR 115Y	Building the Cathedral and the Town Hall: Constructing and Deconstructing Symbols of a Civilization	4

# GERMAN STUDIES

Courses offered by the Department of German Studies are listed on the *Stanford Bulletin's* ExploreCourses web site under the subject code GERMAN. For courses in German language instruction with the subject code GERLANG, see the "Language Center" section of this bulletin.

The department is a part of the Division of Literatures, Cultures, and Languages (p. 482).

The department provides students with the linguistic and analytic ability to explore the significance of the cultural traditions and political histories of the German-speaking countries of Central Europe. At the same time, the interdisciplinary study of German culture, which can include art, economics, history, literature, media theory, philosophy, political science, and other fields, encourages students to evaluate broader and contradictory legacies of the German past, the history of rapid modernization and the status of Germany, Austria, and Switzerland today.

The German experience of national identity, political unification, and integration into the European Union sheds light on wider issues of cultural cohesion and difference, as well as on the causes and meaning of phenomena such as racial prejudice, anti-Semitism, and the Holocaust. In general, an education in German Studies not only encourages the student to consider the impact of German-speaking thinkers and artists, but also provides a lens through which the contours of the present and past, in Europe and elsewhere, can be evaluated.

The department offers students the opportunity to pursue course work at all levels in the languages, cultures, literatures, and societies of the German-language traditions. Whether interested in German literature, the influence of German philosophy on other fields in the humanities, or the character of German society and politics, students find a broad range of courses covering language acquisition and refinement, literary history and criticism, cultural history and theory, history of thought, continental philosophy, and linguistics.

By carefully planning their programs, students may fulfill the B.A. requirements for a double major in German Studies and another subject. A coterminal program is offered for the B.A. and M.A. degrees in German Studies. Doctoral students may elect Ph.D. minors in Comparative Literature, Humanities, Linguistics, and Modern Thought and Literature.

Special collections and facilities at Stanford offer possibilities for extensive research in German Studies and related fields pertaining to Central Europe. Facilities include the Stanford University Libraries and the Hoover Institution on War, Revolution, and Peace. Special collections include the Hildebrand Collection (texts and early editions from the 16th to the 19th century), the Austrian Collection (with emphasis on source material to the time of Maria Theresa and Joseph II, the Napoleonic wars, and the Revolution of 1848), and the Stanford Collection of German, Austrian, and Swiss Culture. New collections emphasize culture and cultural politics in the former German Democratic Republic. The Hoover Institution has a unique collection of historical and political documents pertaining to Germany and Central Europe from 1870 to the present. The department also has its own reference library.

Haus Mitteleuropa, the German theme house at 620 Mayfield, is an undergraduate residence devoted to developing an awareness of the culture of Central Europe. A number of department courses are regularly taught at the house, and there are in-house seminars and conversation courses. Assignment is made through the regular undergraduate housing draw.

## Mission of the Undergraduate Program in German Studies

The mission of the undergraduate program in German Studies is to provide students with the German language skills, the ability to interpret literature and other cultural material, and the capacity to analyze the societies of the German-speaking countries of Central Europe. In addition, its interdisciplinary component prepares students to understand other cultures from the perspectives of multiple disciplines. The program prepares students for careers in business, social service, and government, and for graduate work in German Studies.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. oral proficiency in German beyond the interpersonal level with presentational language abilities.
2. writing proficiency in German beyond the interpersonal level with presentational language abilities.
3. close reading skills of authentic texts in German.
4. the ability to develop effective and nuanced lines of interpretation.

## Graduate Programs in German Studies

The University requirements for the M.A. and Ph.D. degrees are described in the "Graduate Degrees" section of this bulletin.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in German Studies and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in German Studies. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of German Studies and to pursue career tracks in higher education and in other sectors.

## German Studies and a Minor Field

Students may work toward a Ph.D. in German Studies with minors in such areas as Comparative Literature, History, Humanities, Linguistics, or Modern Thought and Literature. Students obtaining a Ph.D. in such combinations may require additional training.

## Bachelor of Arts in German Studies

Majors must demonstrate basic language skills, either by completing GERLANG 1,2,3, First-Year German, or the equivalent such as an appropriate course of study at the Stanford in Berlin Center. Students also enroll in intermediate and advanced courses on literature, culture, thought, or language. A maximum of 10 Advance Placement (AP) units may be counted towards the major with the approval of the Chair of Undergraduate Studies. No more than ten units may be taken on a credit/no credit basis. With the exception of GERMAN 191, which is required, all courses listed below are recommended, and substitutes are permitted with the approval of the Chair of Undergraduate Studies. Students may combine a major in German Studies with a major in any other field. Relevant courses in other fields may count towards the German Studies major.

## Degree Requirements

Completion of 60 units. Units earned towards the Bachelor of Arts in German Studies with honors degree may be applied to the 60 unit total.

### 1. Writing in the Major (WIM Requirement):

GERMAN 116	Writing About Germany: New Topics, New Genres	3-5
GERMAN 150	Masterpieces: Kafka	3-5

### 2. Completion of GERMAN 120A, 120B, and 120C or approved substitutes:

GERMAN 120A	Berlin: Literature, History, and Politics in the 20th and 21st Centuries	3-5
GERMAN 120B	Fairy Tales	3-5
GERMAN 120C	German in Public: Popular Music in Germany and Austria from 1945 to the Present	3-5

### 3. Completion of German Studies Core series or approved substitutes:

GERMAN 131	What is German Literature?	3-5
GERMAN 132	History and Politics of the Future in Germany, 1900-Present	3-5
GERMAN 133	Marx, Nietzsche, Freud	3-5

### 4. Senior Capstone Project:

GERMAN 191	German Capstone Project	1
------------	-------------------------	---

5. Students must take the Oral Proficiency Interview (OPI) two quarters prior to degree conferral. Students should contact the Undergraduate Student Affairs Officer for the major to begin the process.

6. Remaining units must be completed through elective courses approved in consultation with the Chair of Undergraduate Studies. Structured Liberal Education courses and all courses taken at the Berlin Overseas campus may count toward the major electives. Thinking Matters courses approved by the Chair of Undergraduate Studies may also be counted toward the electives. Subject to approval by the Chair of Undergraduate Studies, courses from other fields may count if they contribute to the student's language skills, the ability to interpret literature and other cultural material, or the capacity to analyze societies.

## German and Philosophy

The German and Philosophy major option offers students the opportunity to combine studies in literature and philosophy. Students take most of their courses from departments specializing in the intersection of literature and philosophy. This option is not declared in Axxess; it does not appear on the transcript or diploma. This option requires a minimum of 16 courses, for a minimum total of 65 units.

## Degree Requirements

### German Studies:

1. Completion of GERMAN 116 or GERMAN 150 and two courses from the series GERMAN 120A, GERMAN 120B, and GERMAN 120C.
2. Completion of GERMAN 131, 132, and 133 or approved substitutes:

GERMAN 131	What is German Literature?	3-5
GERMAN 132	History and Politics of the Future in Germany, 1900-Present	3-5
GERMAN 133	Marx, Nietzsche, Freud	3-5

3. GERMAN 191 German Capstone Project

4. Students must take the Oral Proficiency Interview (OPI) two quarters prior to degree conferral. Students should contact the undergraduate student services officer for the major to begin the process.

### Philosophy:

1. PHIL 80 Mind, Matter, and Meaning
2. GERMAN 181 Philosophy and Literature
3. Aesthetics, Ethics, Political Philosophy: one course from PHIL 170 series.
4. Language, Mind Metaphysics, and Epistemology: one course from PHIL 180 series.

**Units** History of Philosophy: one course in the history of Philosophy, numbered above PHIL 100.

6. Two additional elective courses of special relevance to the study of philosophy and literature as identified by the committee in charge of the program. Students must consult with their advisers, the Chair of Undergraduate Studies, and the undergraduate adviser of the program in philosophical and literary thought.

7. Capstone: One of the courses must be taken in the student's senior year. When choosing courses, students must consult with their advisers, the Chair of Undergraduate Studies, and the undergraduate adviser of the program in philosophical and literary thought:

<b>Units</b>	ITALIAN 236E	Dante's "Purgatorio" and "Paradiso"	4-5
	COMPLIT 223	Literature and Human Experimentation	3-5
	PHIL 194W	Capstone Seminar: Literature and the Moral Imagination	4

Units devoted to meeting the department's language requirement are not counted toward the 65-unit requirement.

The capstone seminar and the two related courses must be approved by both the German Studies Chair of Undergraduate Studies and the undergraduate adviser of the program in philosophical and literary thought administered through the DLCL. Substitutions, including transfer credit, are not normally permitted for items 3b, 3c, and 3d, and are not permitted under any circumstances for items 2, 3a, and 5. Up to 10 units taken in the Philosophy Department may be taken CR/NC or S/NC; the remainder must be taken for a letter grade.

## Honors

German majors with an overall grade point average (GPA) of 3.3 or above, and who maintain a 3.5 (GPA) in major courses, are eligible to participate in the DLCL's honors program. Prospective honors students must choose a senior thesis adviser from among their home department's regular faculty, in their junior year, preferably by March 1, but no later than May 1. During Spring Quarter of the junior year, a student interested in the honors program should consult with the Chair of Undergraduate Studies of their home department to submit a thesis proposal (2-5 pages), DLCL Honors application and an outline of planned course work for their senior year.

Honors papers vary considerably in length as a function of their topic, historical scope, and methodology. They may make use of previous work developed in seminars and courses, but display an enhanced comparative or theoretical scope. Quality rather than quantity is the key criterion. Honors theses range from 40-90 pages not including bibliography and notes. Please consult the DLCL Honors Handbook for more details on declaring and completing the honors thesis.

**Units**

Honors students are encouraged to participate in the honors college hosted by Bing Honors College ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/OO\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/OO_honors_BingHonors.html)) and coordinated by the Division of Literatures, Cultures, and Languages. The

honors college is offered at the end of the summer, during the weeks directly preceding the start of the academic year, and is designed to help students develop their honors thesis projects. Applications must be submitted through the Bing program. For more information, view the Bing Honors ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/00\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/00_honors_BingHonors.html)) website.

Enrollment: A minimum of 10 units total, described below, and a completed thesis is required. Honors essays are due to the thesis adviser no later than 5:00 p.m. on May 15th of the terminal year. If an essay is found deserving of a grade of 'A-' or better by the thesis adviser, honors are granted at the time of graduation.

1. Spring Quarter of the junior year (optional) DLCL 189C Honors Thesis Seminar (2-4 units S/NC) under the primary thesis adviser. Drafting or revision of the thesis proposal. The proposal is reviewed by the Chair of Undergraduate Studies and the Director of the department and will be approved or returned for submission.
2. Autumn Quarter of the senior year (required) DLCL 189A Honors Thesis Seminar (4 units S/NC) taught by a DLCL appointed faculty member. The course will focus on researching and writing the honors thesis.
3. Winter Quarter of the senior year (required) DLCL 189B Honors Thesis Seminar (2-4 units Letter grade) under the primary thesis adviser. Focus will be on writing under guidance of primary adviser. The letter grade will determine if honors is granted or not.
4. Spring Quarter of the senior year (option; mandatory if not taken during junior year) DLCL 189C Honors Thesis Seminar (2-4 units S/NC) under the primary thesis adviser. Honors essays are due to the thesis adviser and Student Service Officer no later than 5:00 p.m. on May 15th of the terminal year.
5. Spring Quarter of the senior year (required) DLCL 199 Honors Thesis Oral Presentation (1 unit S/NC). Enroll with primary thesis adviser.

## Overseas Studies and Internships in German Studies

All students who are planning to study at Stanford in Berlin or engage in an internship are encouraged to consult with the Chair of Undergraduate Studies and the Overseas Studies office about integrating work done abroad into their degree program. Through the Center, students with at least two years of college-level German can also take courses at the Freie Universität, Technische Universität, or Humboldt Universität.

All credits earned in Berlin can be applied to the undergraduate major in German Studies. For course descriptions and additional offerings, see the listings in the *Stanford Bulletin's* ExploreCourses (<http://explorecourses.stanford.edu>) web site, or the Bing Overseas Studies (<http://bosp.stanford.edu>) web site.

Internships in Germany are arranged through the Bing Overseas Studies Program. In addition, students may consult with the department to arrange local internships involving German language use or issues pertaining to Germany or Central Europe. Returning interns who wish to develop a paper based on their experience should enroll in GERMAN 116 Writing about Germany.

## Joint Major Program: German Studies and Computer Science

The joint major program (JMP), authorized by the Academic Senate for a pilot period of six years beginning in 2014-15, permits students to major in both Computer Science and one of ten Humanities majors. See the "Joint Major Program (p. 31)" section of this bulletin for a description of University requirements for the JMP. See also the Undergraduate Advising and Research JMP web site and its associated FAQs.

Students completing the JMP receive a B.A.S. (Bachelor of Arts and Science).

Because the JMP is new and experimental, changes to procedures may occur; students are advised to check the relevant section of the bulletin periodically.

## German Studies Major Requirements in the Joint Major Program

See the "Computer Science Joint Major Program (p. 278)" section of this bulletin for details on Computer Science requirements.

To graduate with a joint major in Computer Science and German Studies, students must complete a minimum of 50 units. Majors must demonstrate basic language skills, either by completing GERLANG 1,2,3, First-Year German, or the equivalent such as an appropriate course of study at the Stanford in Berlin Center. Students also enroll in intermediate and advanced courses on literature, culture, thought, or language. A maximum of 10 Advance Placement (AP) units may be counted towards the major with the approval of the Chair of Undergraduate Studies. No more than 10 units may be taken on a credit/no credit basis. Courses listed below are recommended. Substitutes are permitted with the approval of the Chair of Undergraduate Studies. Relevant courses in other fields can count towards the German Studies major.

## Degree Requirements

Completion of 50 units.

1. Writing in the Major (WIM Requirement):

		Units
GERMAN 116	Writing About Germany: New Topics, New Genres	3-5
GERMAN 150	Masterpieces: Kafka	3-5

2. Completion of GERMAN 120A, 120B, and 120C or approved substitutes:

		Units
GERMAN 120A	Berlin: Literature, History, and Politics in the 20th and 21st Centuries	3-5
GERMAN 120B	Fairy Tales	3-5
GERMAN 120C	German in Public: Popular Music in Germany and Austria from 1945 to the Present	3-5

3. Completion of German Studies Core series or approved substitutes:

		Units
GERMAN 131	What is German Literature?	3-5
GERMAN 132	History and Politics of the Future in Germany, 1900-Present	3-5
GERMAN 133	Marx, Nietzsche, Freud	3-5

4. Senior Capstone Project:

		Units
GERMAN 191	German Capstone Project	1
GERMAN 199	Individual Work (Enroll in two units GERMAN 199 and preferably take concurrently with the Computer Science capstone requirement.)	1-12

5. Senior year, the student enrolls in a 2 unit independent study GERMAN 199 with a DLCL faculty member. The faculty member advising this project must sign off on this description. In order to have it approved as their capstone German Studies and Computer Science project, the student must submit a description of their project to the Chair of Undergraduate Studies in German.

6. Students must take the Oral Proficiency Interview (OPI) two quarters prior to degree conferral. Students should contact the Undergraduate Student Affairs Officer for the major to begin the process.
7. The remaining units needed to reach 50 units could be completed through elective courses taken in German Studies, at the BOSP Berlin Center, or in other departments, as approved by the Chair of Undergraduate Studies.
  - Structured Liberal Education courses.
  - All courses taken at the Berlin Overseas campus may count toward the major electives.
  - Thinking Matters courses approved by the Chair of Undergraduate Studies may also be counted toward the electives.
  - Subject to approval by the Chair of Undergraduate Studies, courses from other fields may count if they contribute to the student's language skills, the ability to interpret literature and other cultural material, or the capacity to analyze societies.

## Honors Program

Students have the option to complete the honors program for Computer Science and German Studies, by completing an honors thesis that is partially or fully integrated with Computer Science; such a thesis would fulfill both the capstone and honors requirements for this degree. Students also have the option to complete the honors program for German Studies only; such a thesis would not fulfill the capstone requirement for this degree.

German Studies majors with an overall grade point average (GPA) of 3.3 or above, and who maintain a 3.5 (GPA) in major courses, are eligible to participate in the DLCL's honors program. Prospective honors students must choose a senior thesis adviser from among their home department's regular faculty, in their junior year, preferably by March 1, but no later than May 1. During Spring Quarter of the junior year, a student interested in the honors program should consult with the Chair of Undergraduate Studies of their home department to submit a thesis proposal (2-5 pages), DLCL honors application and an outline of planned course work for their senior year.

Honors papers vary considerably in length as a function of their topic, historical scope, and methodology. They may make use of previous work developed in seminars and courses, but display an enhanced comparative or theoretical scope. Quality rather than quantity is the key criterion. Honors theses range from 40-90 pages not including bibliography and notes. Consult the DLCL Honors Handbook for more details on declaring and completing the honors thesis.

Honors students are encouraged to participate in the honors college hosted by Bing Honors College ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/OO\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/OO_honors_BingHonors.html)) and coordinated by the Division of Literatures, Cultures, and Languages. The honors college is offered at the end of the summer, during the weeks directly preceding the start of the academic year, and is designed to help students develop their honors thesis projects. Applications must be submitted through the Bing program. For more information, see the Bing Honors ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/OO\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/OO_honors_BingHonors.html)) website.

Honors essays are due to the thesis adviser no later than 5:00 p.m. on May 15th of the terminal year. If an essay is found deserving of a grade of 'A-' or better by the thesis adviser, honors are granted at the time of graduation.

## Declaring a Joint Major Program

To declare the joint major, students must first declare each major through Axxess, and then submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/>

change-UG-program) The Major-Minor and Multiple Major Course Approval Form (<https://stanford.box.com/MajMin-MultMaj>) is required for graduation for students with a joint major.

## Dropping a Joint Major Program

To drop the joint major, students must submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) . Students may also consult the Student Services Center (<http://studentservicescenter.stanford.edu>) with questions concerning dropping the joint major.

## Transcript and Diploma

Students completing a joint major graduate with a B.A.S. degree. The two majors are identified on one diploma separated by a hyphen. There will be a notation indicating that the student has completed a "Joint Major". The two majors are identified on the transcript with a notation indicating that the student has completed a "Joint Major".

## Minor in German Studies

The Department of German Studies offers a minor in German Studies. The minor requires at least six courses and at least 24 units of course work. 15 units must be taken in the department of German Studies or with faculty members from German Studies. GERLANG courses from the Language Center and courses at the Bing Overseas Studies Center in Berlin may be counted toward this requirement. Students may use 5 units from SLE and/or a Thinking Matters course taught by a German Studies faculty member toward their electives for the minor. A maximum of 5 units of transfer credit may be applied with the approval of the Chair of Undergraduate Studies. Units may not be double counted. All courses must be taken for a letter grade, except where letter grades are not offered.

## Minor in Modern Languages

The Division of Literatures, Cultures, and Languages offers a minor in Modern Languages. This minor draws on literature and language courses offered through this and other literature departments. See the "Division of Literatures, Cultures, and Languages (p. 483)" section of this bulletin for further details about this minor and its requirements.

## Master of Arts in German Studies

This program is designed for those who do not intend to continue studies through the Ph.D. degree at Stanford. In order to complete the M.A. degree, students must complete a minimum of 45 units of graduate work. If students enroll for three quarters for a minimum of 15 units per quarter, they will be able to fulfill the M.A. requirements in one year. The M.A. program requires students to take the three graduate core courses (German 320, GERMAN 321, and GERMAN 322). These courses cover texts from our core reading lists in three areas of German Studies: pre-1700, 1700-1900, and post-1900. The remaining courses may be selected by the student but they must be graduate-level courses in German and/or approved courses in related fields such as art history, comparative literature, linguistics, history, or philosophy.

M.A. candidates must take an oral examination toward the end of their last quarter. In preparation for the oral exam students are expected to compile a reading list of 60 texts comprised of:

- 15 items from each of the three core; lists (pre-1700, 1700-1900, 1900-2000)
- 10 items from the film/opera lists
- 5 additional items of their own choice

This M.A. reading list must be compiled in consultation with the advisor.

## Coterminal Program

Students may apply to combine programs for the B.A. and M.A. degrees in German Studies. Coterminal students in German Studies may count eligible courses taken up to one academic year before enrollment in the first graduate quarter. Students are reminded that course transfer is subject to approval of the undergraduate and graduate departments.

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken during or after the first quarter of the sophomore year are eligible for consideration for transfer to the graduate career; the timing of the first graduate quarter is not a factor. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

## Doctor of Philosophy in German Studies

The requirements for the Ph.D. in German Studies include:

1. **Required Courses.** A total of 135 units is required for the Ph.D.; doctoral candidates must complete at least one course with each member of the department. All courses counted towards the 135-unit requirement for the Ph.D. must be at the graduate level. Undergraduate courses may be taken but not used towards the Ph.D. requirements. During the Autumn, Winter, and Spring quarters in year one, students are required each quarter to enroll in and complete at least two graduate courses taught by German Studies faculty and submit at least one seminar paper. GERMAN 320, GERMAN 321, and GERMAN 322 are required courses for all graduate students. It is highly recommended that students take GERMAN 369 Introduction to the Profession of Literary Studies in year one. Students should take all courses for letter grades when the option is available. During the Summer Quarter, students may take a language course, or conduct research abroad, but they must also enroll in independent study units with their adviser (GERMAN 399 Individual Work) and complete a research paper.

In year two, students are required to enroll and complete one graduate course and submit one seminar paper each quarter (Autumn, Winter, Spring). It is highly recommended that students take DLCL 311 Professional Workshop in year two. During the second Summer Quarter, students enroll in independent study units (GERMAN 399 Individual Work) with their adviser and complete a dissertation chapter or prospectus. All graduate students must participate in the German Graduate Colloquium (students may enroll in GERMAN 397 Graduate Studies Colloquium for 1 unit per quarter). For more information, see the Graduate Handbook 2017-18.

a. **First Year.** Students must enroll in 10 graduate units each quarter during their first year of graduate study, including the Summer Quarter. During the Autumn, Winter, and Spring quarters of the first year, students should select courses that provide an introduction to the major areas of the discipline. During the Summer of the first year, students prepare a research paper on a topic from their presumed area of specialization. For more information, see the Graduate Handbook 2017-18.

		Units
GERMAN 320		1-5
GERMAN 321		1-5
GERMAN 322	Myth and Modernity	1-5
GERMAN 399	Individual Work	1-12
DLCL 301	The Learning and Teaching of Second Languages	3

b. **Second Year.** Students must enroll in 10 graduate units each quarter during their second year of graduate study, including the Summer Quarter. In the Autumn Quarter, students enroll in individual work with a faculty adviser to refine the research paper written over the Summer. A committee comprised of three faculty members review this qualifying paper at the end of the Autumn Quarter. In the Winter and Spring quarters, students take seminars that help them to refine their dissertation topic. During the second Summer, students prepare a draft chapter, which is presented to a faculty committee at the beginning of the Autumn Quarter. For more information, see the Graduate Handbook 2017-2018.

c. **Second-year required course work:**

		Units
GERMAN 399	Individual Work (Autumn and Summer quarters)	1-10

d. **Third Year.** Students who have not reached TGR status (135 units) must complete 10 units each quarter during their third year of graduate study until TGR status is achieved.

e. **Third-year required coursework:**

		Units
GERMAN 399	Individual Work (Winter and Spring quarters)	1-10

2. **Qualifying Examination.** Immediately following the end of classes in the Spring Quarter of the first year, all Ph.D. students must take their qualifying examination. This examination is designed to cover the full range of German literary history. It is based on the German Studies reading list available in the Graduate Handbook 2017-18 and builds on the core courses GERMAN 320, GERMAN 321, and GERMAN 322. Students who fail this examination may request to retake it once before October 15. A second fail of the qualifying examination results in dismissal from the Ph.D. program.

3. **Qualifying Paper Submission.** Based upon summer independent study and progress in GERMAN 399 Individual Work, the Ph.D. student submits a polished research paper in Autumn Quarter of their second year. The paper must be submitted by December 1 and is reviewed by a committee of three faculty members, including the adviser, who must approve it. A qualifying paper that does not meet approval may be revised and resubmitted by February 15. A second failure to submit a paper meeting approval of the faculty readers results in dismissal from the program.

4. **Candidacy.** Admission to candidacy is an important decision grounded in an overall assessment of a student's ability to successfully complete the Ph.D. program. Per University policy, students are expected to complete departmental qualifying procedures and apply for candidacy by the end of the second year in residence. In reviewing a student for admission to candidacy, the faculty considers a student's academic progress including but not limited to: advanced language proficiency,

course work, performance on the qualifying exam, the qualifying paper, and successful completion of teaching/research assistantships.

5. In addition to successful completion of department prerequisites, a student is only admitted to candidacy if the faculty makes the judgment that the student has the potential to successfully complete the requirements of the degree program. Candidacy is determined by faculty vote. Failure to advance to candidacy results in the dismissal of the student from the doctoral program. Candidacy is valid for five years and students are required to maintain active candidacy through conferral of the doctoral degree. All requirements for the degree must be completed before candidacy expires. Additional information about University candidacy policy is available in the Bulletin (p. 52) and GAP (<http://gap.stanford.edu/4-6.html>).

6. Dissertation Chapter Defense. Building on work in winter and spring quarters of the student's second year, and ideally on the qualifying paper, students spend the Summer Quarter of the second year completing a draft chapter of the dissertation or a detailed preliminary dissertation prospectus. It must be discussed in a one-hour session of the reading committee at the beginning of the Autumn Quarter. The reading committee is comprised of three faculty members. At least two members of the reading committee must have primary appointments in German Studies. Students select members of the reading committee in consultation with the primary adviser.

7. After completion of the dissertation prospectus, all students are strongly encouraged to spend at least one quarter abroad in a German-speaking country, while remaining in regular contact with their advisers.

8. Language Requirement. A reading knowledge of one language other than English and German is required. Students in Medieval Studies must also have a reading knowledge of Latin. Reading knowledge is assessed by an examination administered by the Language Center. The language requirement must be satisfied by the end of the third year.

9. The University Oral Examination. The University oral examination in the Department of German Studies involves a defense of a substantial portion of the dissertation, normally at least three draft chapters, and takes place no later than the end of Autumn Quarter of the fifth year. The student's work must be distributed to the committee at least four weeks before the formal University oral examination. The committee consists of the dissertation committee (three faculty members), one additional reader, plus an outside chair, selected in consultation with the primary adviser. The examination lasts no longer than two hours. It begins with a brief statement by the candidate (no longer than 15 minutes) followed by questions from the four examiners, each of whom is limited to 20 minutes. The remaining time is reserved for optional questions from the chair of the examination. Students who fail the University oral examination are allowed one opportunity to retake it. A second fail of the University oral examination results in dismissal from the Ph.D. program.

10. Submission and approval of a dissertation.

11. Teaching Assistant. The teaching requirement includes four quarters of language teaching during the second and third years of study and is mandatory for continued enrollment or support in the program. Students must also teach a fifth course which may be a language course, but they may alternatively request to teach or co-teach a literature course at a later time in the course of study, normally once their dissertation has reached an advanced stage, contingent upon department need and subject to approval of the Director of German Studies. Such teaching does not extend the length or scope of support. Graduate students are advised to develop skills in the teaching of literature by participating in the teaching of undergraduate courses beyond language courses. Students may enroll in independent studies with faculty members to gain experience as apprentices in undergraduate teaching.

12. Research Assistant. The department expects candidates to demonstrate research skills appropriate to their special areas of study.

13. Graduate Studies Colloquium. Enrollment and/or participation in the Colloquium is mandatory for all students (students conducting research abroad are exempt). The Colloquium meets every two weeks throughout the year and involves presentation of student work and professionalization workshops.

14. German Studies Lecture Series. Regular attendance at lectures sponsored by the Department is required.

15. The principal conditions for continued registration of a graduate student are the timely and satisfactory completion of University, department, and program requirements for the degree, and fulfillment of minimum progress requirements. Failure to meet these requirements results in corrective measures, which may include a written warning, academic probation, and/or dismissal from the program.

16. Annual Review. The Department of German Studies conducts annual reviews of each student's academic performance at the end of the Spring Quarter. All students are given feedback from the Chair of Graduate Studies, helping them to identify areas of strength and potential weakness. In most cases, students are simply given constructive feedback, but if more serious concerns warrant, a student may be placed on probation with specific guidelines for addressing the problems detected. At any point during the degree program, evidence that a student is performing at a less than satisfactory level may be cause for a formal academic review of that student. Possible outcomes of the annual review include: continuation of the student in good standing, or placing the student on probation, with specific guidelines for the period of probation and the steps to be taken in order to be returned to good standing. For students on probation at this point (or at any other subsequent points), possible outcomes of a review include: restoration to good standing; continued probation, with guidelines for necessary remedial steps; or dismissal from the program.

## Ph.D. Minor in German Studies

The department offers a Ph.D. Minor in German Studies. The requirement for the Ph.D. minor is completion of 25 units of graduate course work in German Studies classes. Interested students should consult the Director of Graduate Studies.

## Faculty in German Studies

*Emeriti:* (Professors) Theodore M. Andersson, Gerald Gillespie, Katharina Mommsen, Kurt Müller-Vollmer, Orrin W. Robinson III

*Director:* Adrian Daub

*Chair of Graduate Studies:* Amir Eshel

*Chair of Undergraduate Studies:* Russell Berman (Autumn), Matthew Wilson Smith (Winter, Spring)

*Professors:* Russell A. Berman, Elizabeth Bernhardt, Adrian Daub, Amir Eshel, Kathryn Starkey (on leave)

*Associate Professor:* Matthew Wilson Smith

*Assistant Professor:* Lea Pao

*Lecturers:* Colleen Anderson (Mellon Fellow), Idan Gillo (Autumn), Friederike Kneupling (Winter)

*Courtesy Professors:* R. Lanier Anderson, Karol Berger, Michael Friedman, Hester Gelber, Thomas S. Grey, Hans U. Gumbrecht, Stephen Hinton, Norman Naimark, Thomas Sheehan, Brent Sockness, Elaine Treharne

*Courtesy Associate Professors:* Christopher Krebs, Laura Stokes, Marisa Galvez, Nadeem Hussain, Charolette Fonrobert, Brent Sockness

*Courtesy Assistant Professor:* Edith Sheffer

*Visiting Professors:* Christian Geulen (Spring), Niklaus Largier (Autumn)

*Postdoctoral Fellow:* Jamele Watkins

## Overseas Studies Courses in German Studies

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		<b>Units</b>
OSPBER 17	Split Images: A Century of Cinema	3-4
OSPBER 66	Theory from the Bleachers: Reading German Sports and Culture	3
OSPBER 70	The Long Way to the West: German History from the 18th Century to the Present	4-5
OSPBER 101A	Contemporary Theater	4-5
OSPBER 115X	The German Economy: Past and Present	4-5
OSPBER 126X	A People's Union? Money, Markets, and Identity in the EU	4-5
OSPBER 161X	The German Economy in the Age of Globalization	4-5
OSPBER 174	Sports, Culture, and Gender in Comparative Perspective	5

## GLOBAL STUDIES

The Stanford Global Studies Division (SGS) is a hub for internationally focused research and teaching on campus. SGS prepares Stanford students for the world through an interdisciplinary education that cultivates knowledge of different cultures, and deepens our understanding of the global affairs through innovative research. Stanford Global Studies is comprised of 14 centers and programs, which are described below.

### Global Studies Minor

The Global Studies minor (<https://sgs.stanford.edu/programs-centers/global-studies-minor>) is available to Stanford undergraduates from any major, and is designed to provide students with the opportunity to pursue interdisciplinary study in one of six specializations, including in-depth language study, while integrating this knowledge into a larger vision of global affairs:

- African Studies (<https://africanstudies.stanford.edu/study/academic-programs/undergraduate-minor>)
- European Studies (<http://tec.fsi.stanford.edu/node/219264>)
- Iranian Studies (<https://iranian-studies.stanford.edu/students/minor>)
- Islamic Studies (<http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/sgs/Global%20Studies%20Minor>)
- Latin American Studies (<https://clas.stanford.edu/academics/undergraduate-minor>)
- South Asian Studies (<http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/sgs/Global%20Studies%20Minor>)

All students are required to complete 28 units, including a 3 unit gateway course. The remaining 25 units are unique to each specialization. Upon completion of the minor, students present their capstone projects in a seminar with other Global Studies minor participants. Students participating in the Bing Overseas Studies Program are especially encouraged to enroll. For questions, contact Dr. Katherine Kuhns at [kkuhns@stanford.edu](mailto:kkuhns@stanford.edu).

To declare the Global Studies minor, students must:

1. Set up an appointment with the appropriate specialization adviser (see appropriate specialization page for contact information).
2. Declare the Global Studies minor in Axess (<http://axess.stanford.edu>).
3. Complete the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program (<https://stanford.box.com/change-UG-program>) form in order to declare the specialization. Submit the form to the specialization adviser as noted on the relevant tab in this section of this bulletin.

### Center for African Studies

*Director:* James Ferguson  
*Office:* 100 Encina Commons  
*Web Site:* <http://africanstudies.stanford.edu>

The Center for African Studies (CAS) coordinates an interdisciplinary program in African Studies for undergraduates and graduate students. The program seeks to enrich understanding of the interactions among the social, economic, cultural, historical, linguistic, genetic, geopolitical, ecological, and biomedical factors that shape and have shaped African societies. CAS offers a certificate and a Master of Arts (M.A.) degree, in addition to a specialization in African Studies as part of the Global Studies minor ([https://africanstudies.stanford.edu/study/academic-](https://africanstudies.stanford.edu/study/academic-programs/undergraduate-minor)

[programs/undergraduate-minor](https://africanstudies.stanford.edu/study/academic-programs/undergraduate-minor)). For further information, see the "African Studies (p. 362)" section of this bulletin.

### Center for East Asian Studies

*Director:* Jun Uchida  
*Office:* Knight Building, 521 Memorial Way  
*Web Site:* <http://ceas.stanford.edu>

The Center for East Asian Studies (CEAS) supports teaching and research on East Asia-related topics across all disciplines; disseminates knowledge about East Asia through projects of local, regional, national, and international scope; and serves as the intellectual gathering point for a collaborative and innovative community of scholars and students of East Asia. CEAS works with all schools, departments, research centers, and student groups to facilitate and enhance all aspects of East Asia-related research, teaching, outreach, and exchange across the Stanford campus.

For further information, see the "East Asian Studies (p. 504)" section of this bulletin.

### France-Stanford Center for Interdisciplinary Studies

*Director:* Amalia Kessler  
*Office:* Building 260, Room 122  
*Web Site:* <http://francestanford.stanford.edu>

The France-Stanford Center for Interdisciplinary Studies, founded in partnership with the French Ministry of Foreign Affairs, aims to bridge the disciplines of the humanities, social sciences, sciences, engineering, business, and law, addressing historical and contemporary issues of significance for France and the United States. The Center brings together Stanford faculty and students and academics in France to advance collaborative research and foster interdisciplinary inquiry. Its programs include conferences, support for collaborative research projects, internships, exchanges, lectures, and seminars.

### Global Studies Internship Program

*Web Site:* <https://global-internships.stanford.edu>

The Stanford Global Studies Division offers highly qualified Stanford students an opportunity to extend classroom knowledge of the world to immersive cultural and working experiences every summer through the Global Studies Internship Program. Currently enrolled freshmen, sophomores, juniors, seniors, and coterms at Stanford in all majors are eligible to apply, including students who are undeclared. For more information, visit <http://global-internships.stanford.edu/>.

### WSD HANDA Center for Human Rights and International Justice

*Director:* David Cohen  
*Office:* Encina Hall West, Room W208  
*Web Site:* <https://handacenter.stanford.edu/>

The WSD HANDA Center equips a new generation of leaders with the knowledge and skills necessary to protect and promote human rights and dignity for all. Reflecting a deep commitment to international justice and the rule of law, the center collaborates with partners across Stanford University and beyond on innovative programs that foster critical inquiry in the classroom and in the world. The center offers an undergraduate minor. For further information, see the "Human Rights (p. )" section of this bulletin.

## Program in International Relations

*Director:* Mike Tomz

*Office:* Encina Hall West, Room W216

*Web Site:* <http://internationalrelations.stanford.edu>

International Relations (IR) is an interdisciplinary undergraduate major focusing on changing political, economic, and cultural relations within the international system in the modern era. The IR program also offers an interdisciplinary minor (p. 628) and honors program. For further information, see the "International Relations (p. 619)" section of this bulletin.

## Hamid and Christina Moghadam Program In Iranian Studies

*Director:* Abbas Milani

*Office:* Encina Hall West, W211

*Web Site:* <http://iranian-studies.stanford.edu>

The Hamid and Christina Moghadam Program in Iranian Studies at Stanford fosters the interdisciplinary study of Iran as a civilization, one of the oldest in the world. The program combines pedagogy, policy analysis, and research on all aspects of Iran's past, present, and future. The program organizes lectures and student research conferences on Iran. The program also offers a specialization in Iranian Studies as part of the Global Studies minor (<https://iranian-studies.stanford.edu/students/minor>).

## Sohaib and Sara Abbasi Program in Islamic Studies

*Director:* Lisa Blaydes

*Office:* Encina Hall West, Room W214

*Web Site:* <http://islamicstudies.stanford.edu>

The mission of the Sohaib and Sara Abbasi Program in Islamic Studies is to serve as a forum for interdisciplinary research and teaching in Islamic studies, complemented by seminars, colloquia and public lectures. The program seeks to illuminate Islamic history from its beginnings to the 21st century, the religion of Islam in its many aspects, and the diversity of Muslim cultures and societies, past and present, not only in the Middle East but also including South and Southeast Asia, Africa, Europe, and America. In addition to geographical breadth, the program promotes scholarship from both the humanities and the social sciences. The program offers student grants for research and language training and a specialization in Islamic Studies as part of the Global Studies minor (<https://islamicstudies.stanford.edu/study/undergraduate-minor>).

## Taube Center For Jewish Studies

*Director:* Ari Kelman

*Office:* Building 360, Room 362H

*Web Site:* <http://jewishstudies.stanford.edu>

The interdisciplinary Taube Center for Jewish Studies coordinates and promotes the study of all aspects of Jewish life. The center offers an undergraduate minor and an interdisciplinary major through the Center for Comparative Studies in Race and Ethnicity (<https://ccsre.stanford.edu/academics/undergraduate-program>). For further information, see the "Jewish Studies (p. 631)" section of this bulletin.

## Center for Latin American Studies

*Director:* Alberto Díaz-Cayeros

*Office:* Bolivar House

*Web Site:* <http://las.stanford.edu>

The Stanford Center for Latin American Studies supports research and teaching on Latin America by the faculty and students of Stanford in all fields of study. The center offers a master's degree, in addition to a specialization in Latin American Studies as part of the Global Studies minor (<https://clas.stanford.edu/academics/undergraduate-minor>). For further information, see the "Center for Latin American Studies (p. 637)" section of this bulletin.

## Mediterranean Studies Forum

*Director:* Lisa Blaydes

*Office:* Encina Hall West, Room W214

*Web Site:* <http://mediterraneanstudies.stanford.edu>

The Mediterranean Studies Forum encourages scholars to explore the interplay among societies, cultures, and communities around the Mediterranean Basin from the Middle Ages to the present. The forum also studies the relations of the Mediterranean with other regions and areas of the world. The central goal of the forum is to contribute to interfield and interdisciplinary dialogue among scholars of these areas through lectures, colloquia, workshops, conferences, and publications. Particular programming fields include Turkish Studies and Sephardic Studies.

## Center for Russian, East European and Eurasian Studies

*Director:* Pavle Levi

*Office:* Encina Hall West, W203

*Web Site:* <http://creees.stanford.edu>

The Center for Russian, East European and Eurasian Studies (CREEES) is Stanford University's hub for the interdisciplinary study of a vast region stretching from the former Berlin Wall to the Bering Strait. CREEES is home to a one year master's degree, and supports undergraduates and graduate students throughout campus, especially in regards to funding for research and language study. CREEES also hosts renowned visiting scholars, lecture series, conferences, and public events. For further information, see the "Center for Russian, East European and Eurasian Studies (p. 721)" section of this bulletin.

## Center for South Asia

*Director:* Jisha Menon

*Office:* Encina Hall West, W102

*Web Site:* <http://southasia.stanford.edu>

The Center for South Asia (CSA) serves to coordinate and develop Stanford's resources for the study of South Asia across all the disciplines in the School of Humanities and Sciences. It works closely with departments and other units of the University to increase faculty strength, support research, enhance the curriculum, build the library collection, and sponsor programs and events. The program also offers a specialization in South Asian Studies as part of the Global Studies minor (<https://southasia.stanford.edu/academics/undergraduate-minor>).

## The Europe Center

*Director:* Kenneth Scheve

*Office:* Encina Hall Central C243

*Web Site:* <http://europe.stanford.edu>

The Europe Center is a multidisciplinary institute committed to the examination of European society, culture, politics, diplomacy, and security. The program also offers a specialization in European Studies as part of the Global Studies minor (<http://tec.fsi.stanford.edu/node/219264>).

## Minor in Global Studies

The minor in Global Studies is designed to give students an in-depth interdisciplinary study in one of six specializations within a larger global perspective.

Global Studies is centered on the interdisciplinary study of regions and their intersecting cultures, languages, history, politics, and societies. Historically, Global (or Area) Studies have sought ways to understand the distinctiveness of cultures and nations by applying the combined knowledge from the social sciences and humanities to their study. This approach was further developed during World War II and the Cold War to be able to understand both American allies and enemies.

Today, Global Studies examine regions and cultures within the larger context of globalization. It applies more branches of knowledge, from human biology and earth sciences to music and management engineering, to better understand the character of regions, their respective developmental trajectories, and the way those trajectories fit into a larger global context.

All students are required to complete 28 units, including GLOBAL 101 Critical Issues in Global Affairs (3 units). The remaining 25 units are unique to each specialization. Upon completion of the minor, students present their capstone projects in a seminar with other Global Studies minor participants. Students participating in the Bing Overseas Studies Program are especially encouraged to enroll.

Each student chooses one of the six specializations. The specialization appears on the transcript but it does not appear on the diploma.

### Admission

Students from any major interested in applying for admission to the Global Studies minor program should consult the relevant center adviser, or Executive Director of Stanford Global Studies <kkuhns@stanford.edu>. To declare the Global Studies minor with one of six specializations, students must:

1. Set up an appointment with the appropriate specialization adviser (see appropriate specialization page for contact information).
2. Declare the Global Studies minor in Axess (<http://axess.stanford.edu>).
3. Complete the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program (<https://stanford.app.box.com/v/change-UG-program>) form in order to declare the specialization. Submit the form to the specialization adviser as noted on the relevant tab in this section of this bulletin.

## Minor in Global Studies with African Studies Specialization

The minor in Global Studies, African Studies specialization, offers students the opportunity to complement their major course of study with an in-depth, interdisciplinary exploration of the cultures, histories, politics, religions, and societies of Africa.

Students from any major interested in applying for admission to this minor program should consult the minor adviser at the Center for African Studies. Students declare the minor and the African Studies specialization in Axess (<http://axess.stanford.edu>) (see below for detailed instructions).

Students consult with their minor adviser to develop individual programs. The minor is especially well-suited for undergraduates who plan to make service, research, or study abroad in Africa as part of their Stanford experience.

## Declaring the Global Studies Minor with African Studies Specialization

To declare the Global Studies minor with African Studies specialization, students must:

1. Set up an appointment with Laura Hubbard, <lhubbard@stanford.edu>, Associate Director for the Center for African Studies.
2. Declare the Global Studies minor in Axess (<http://axess.stanford.edu>).
3. Complete the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program ([https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change\\_UG\\_program.pdf](https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change_UG_program.pdf)) form in order to declare the African Studies specialization. Submit the form to the minor adviser, Laura Hubbard, in the Center for African Studies office (Encina Hall West, Room 219, 417 Galvez Mall).

### Learning Outcomes

The SGS minor specialization in African Studies enables students to:

1. develop critical knowledge and skills in African Studies
2. organize their interest in Africa into a coherent course of study through directed mentorship and participation in intellectual community.
3. prepare for research, study, or service in Africa

Upon completion of requirements, final certification of the minor is made by the Center for African Studies. The minor and the specialization appear on the transcript but they do not appear on the diploma.

### Requirements

A total of 28 units which include the following:

1. GLOBAL 101 Critical Issues in Global Affairs (3 units)
2. A minimum of 25 units of Africa-related courses. Students may not double-count courses for completing major and minor requirements.
3. At least one quarter's exposure to a sub-Saharan African language. The Center for African Studies (p. 362) and the Special Languages Program of the Language Center (p. 632) can arrange instruction in any of several languages spoken in West, East, Central, and Southern Africa.
4. One entry level course that covers more than one region of Africa.
5. A designated focus of study, either disciplinary or regional, through a three course concentration developed with the minor adviser.
6. A minimum 25-page research paper, with a focus on Africa. This paper may be an extension of a previous paper written for an African Studies course. Other approaches to fulfilling the capstone requirement may be accepted with the approval of the Director of African Studies.
  - Students present their work in an end-of-year capstone seminar with other SGS minors and led by SGS faculty.

### Course List

For a representative, rather than comprehensive, list of courses that count towards the minor, see the Related Courses tab in this section of the Bulletin. Other courses may also fulfill the requirements; students should consult their African Studies minor adviser concerning which courses might fulfill minor requirements.

## Minor in Global Studies with European Studies Specialization

The Stanford Global Studies, European Studies specialization, is designed for undergraduates with an interdisciplinary interest in the history, culture, politics, societies, and institutions of Europe, past and present.

The minor is especially well-suited for undergraduates who plan to make Europe-based overseas studies a part of their Stanford experience.

### Declaring the Global Studies Minor with European Studies Specialization

To declare the Global Studies minor with European Studies specialization, students must:

1. Set up an appointment with minor advisers, Kenneth Scheve (scheve@stanford.edu), Faculty Director for The Europe Center, or Christophe Crombez (crombez@stanford.edu) to discuss your academic plan.
2. Declare the Global Studies minor in Axess (<http://axess.stanford.edu>).
3. Complete the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program ([https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change\\_UG\\_program.pdf](https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change_UG_program.pdf)) form in order to declare the European Studies specialization. Submit the form to Karen Haley (khaley@stanford.edu), in Encina Hall Central, Rm C243.

### Learning Outcomes

The SGS minor specialization in European Studies enables students to:

1. Organize their studies in a coherent and mentored minor.
2. Prepare for or follow up on involvement in a Bing Overseas Studies Program in Europe.

Upon completion of requirements, final certification of the minor is made by Stanford Global Studies. The minor and the specialization appear on the transcript but they do not appear on the diploma.

### Requirements

1. Completion of 28 units that include the following:
  - a. GLOBAL 101 Critical Issues in Global Affairs (3 units)
  - b. INTNLREL 122 Introduction to European Studies (5 units)
  - c. 5 unit survey course on European history or culture. The list of course alternatives that fulfill this requirement this year are:
    - DLCL 100 CAPITALS: How Cities Shape Cultures, States, and People
    - HISTORY 106B Global Human Geography: Europe and Americas
    - HISTORY 110B Renaissance to Revolution: Early Modern Europe
    - HISTORY 132 Ordinary Lives: A Social History of the Everyday in Early Modern Europe
    - HISTORY 137A
    - HISTORY 230D Europe in the World, 1789-Present
  - d. 15 additional units on a coherent theme of interest developed with the minor adviser. This combination of courses can be on any thematic subject with an interdisciplinary and comparative focus on Europe. See the Related Courses tab below for example courses.
  - e. At least 13 of the 28 units need to be completed on the Stanford campus.

2. Advanced proficiency in a modern European language achieved by one of the following:
  - a. Completion of six quarters of college-level study of a modern European language.
  - b. Completion of a course taught in a modern European language at the 100-level or higher and with a letter grade of 'B' or higher. This may be a course on a European language or literature, or other subject as long as it fulfills the above criteria. (This course may fulfill both the minor foreign language requirement and the minor 28 unit minimum requirement.)
  - c. Achieve the advanced proficiency level on the ACTFL scale in a test administered by the Stanford Language Center. (p. 632)
3. A capstone experience in European Studies, including but not limited to one of the following:
  - a. Completion of a 25-page minimum research paper with a focus on European Studies.
  - b. Completion of an overseas study program or internship in Europe.

Students will present their work in an end-of-year capstone seminar with other SGS minors and led by SGS faculty.

### Course List

For a representative, rather than comprehensive, list of courses that count towards the minor, see the Related Courses tab in this section of the Bulletin. Other courses may also fulfill the requirements; students should consult their European Studies minor adviser concerning which courses might fulfill minor requirements.

## Minor in Global Studies with Iranian Studies Specialization

The Stanford Global Studies, Iranian Studies specialization, is designed for undergraduates with an interdisciplinary interest in the modern history and politics of Iran or the Middle East; Islam, particularly Shiism; the geopolitics of the Middle East; and the religions, ethnicities, and cultures.

Students consult with their minor adviser to develop individual programs. The minor is especially well-suited for undergraduates who plan graduate studies, teaching, or research and analysis focused on Iran.

Upon completion of requirements, final certification of the minor is made by Stanford Global Studies. The minor and the specialization appear on the transcript but they do not appear on the diploma.

### Declaring the Global Studies Minor with Iranian Studies Specialization

To declare the Global Studies minor with Iranian Studies specialization, students must:

1. Set up an appointment with Roma Parhad, <rparhad@stanford.edu>, Program Manager for the Iranian Studies Program.
2. Declare the Global Studies minor in Axess (<http://axess.stanford.edu>).
3. Complete the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program ([https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change\\_UG\\_program.pdf](https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change_UG_program.pdf)) form in order to declare the Iranian Studies specialization. Submit the form to the minor adviser Roma Parhad in Encina Hall West, Rm 211.

### Requirements

A total of 28 units which include the following:

1. GLOBAL 101 Critical Issues in Global Affairs (3 units)
2. One area-specific entry course that deals with Iran and the Middle East. If a student wants to take a course on a subject matter not

directly related to Iran, the consent of the Director of Iranian Studies is required.

3. A minimum of 25 units of qualifying courses. 15 units must be from the list of core courses. The remaining 10 units can be chosen from the list of approved elective courses.
  - At least 10 of the 25 units must be completed at the home campus; the remaining 15 units could be completed in an approved study abroad programs.
4. Completion of two quarters of Persian language, or proven proficiency in the language.
5. A capstone experience in Iranian Studies for up to 5 units. The project offers students the option to conduct a major independent research paper related to Iran under faculty guidance.
  - Students present their work in an end-of-year capstone seminar with other SGS minors and led by SGS faculty.

### Course List

For a representative, rather than comprehensive, list of courses that count towards the minor, see the Related Courses tab in this section of the Bulletin. Other courses may also fulfill the requirements; students should consult their Iranian Studies minor adviser concerning which courses might fulfill minor requirements.

## Minor in Global Studies with Islamic Studies Specialization

The minor in Stanford Global Studies, Islamic Studies specialization, offers students an interdisciplinary and global exploration of Islam and Muslim societies and cultures. Focus is on knowledge of Islam in all its internal complexity, the history of Islam from its beginnings to the 21st century, Islamic social contexts, and the diversity of human experience as seen in literature and the arts originating in societies affected by Islamic civilizations. Students explore the global extent of Islam and the growth of its diasporas by taking courses on geographical regions such as the Middle East, South Asia, Eurasia, Africa, Western Europe, and Americas) and from disciplines such as anthropology, art and art history, comparative literature, history, political science, international relations, and religious studies.

Students consult with their minor adviser to develop individual programs.

### Declaring the Global Studies Minor with Islamic Studies Specialization

To declare the Global Studies minor with Islamic Studies specialization, students must:

1. Set up an appointment with Zack Al-Witri, <zalwitri@stanford.edu>, Associate Director for the Islamic Studies Program to discuss your academic plan.
2. Declare the Global Studies minor in Axess (<http://axess.stanford.edu>).
3. Complete the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program ([https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change\\_UG\\_program.pdf](https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change_UG_program.pdf)) form in order to declare the Islamic Studies specialization. Submit the form to the minor adviser Zack Al-Witri in Encina Hall West, 212.

### Learning Outcomes

The SGS minor specialization in Islamic Studies enables students to:

1. organize their studies in a coherent and mentored minor.
2. gain exposure to the past and present of Islam in diverse social, political, and cultural settings around the globe.

3. prepare for or follow up on involvement in a Bing Overseas Studies Program such as in Istanbul, France, Germany, or Cape Town.

Upon completion of requirements, final certification of the minor is made by the Abbasi Program in Islamic Studies. The minor and the specialization appear on the transcript but they do not appear on the diploma.

### Requirements

1. Completion of 28 units that includes GLOBAL 101 Critical Issues in Global Affairs (3 units)
2. A minimum of 25 units of Islamic studies-related courses.
3. At least one course must be an area-specific entry course focusing on the Islamic world. The following courses may be used to fulfill this requirement:
  - POLISCI 149T Middle Eastern Politics (5 units)
  - HISTORY 84N The American Empire in the Middle East (4 units)
  - HISTORY 82C Making of the Islamic World, 600-1500 (3 units)
  - RELIGST 180 Gender Relations in Islam (4 units)
  - HISTORY 181B Formation of the Contemporary Middle East (5 units)
  - HISTORY 280D ( units)
  - RELIGST 135 Islam in America (4 units)
  - COMPLIT 201 ( units)
  - POLISCI 149S Islam, Iran, and the West (5 units)
  - RELIGST 139 Religion along the Silk Road (4 units)
  - RELIGST 218 Islam, Race and Revolution: A Pan-American Approach (3-5 units)
4. At least one course must be from each of the following areas:
  - Islamic Arts, Literatures, and Cultures
  - Islam, History, and Politics
  - Religion of Islam
5. Completion of three courses in a relevant language such as Arabic, Persian, Turkish, Ottoman Turkish, Urdu, Pashto, Kazakh, or Swahili.
6. A capstone project such as a minimum 25-page research paper, directed reading and research with an Abbasi Program faculty member, or an overseas study, internship, or language training program that is approved by the Abbasi Program.
  - Students present their work in an end-of-year capstone seminar with other SGS minors and led by SGS faculty.

### Course List

For a representative, rather than comprehensive, list of courses that count towards the minor, see the Related Courses tab in this section of the Bulletin. Other courses may also fulfill the requirements; students should consult their Islamic Studies minor adviser concerning which courses might fulfill minor requirements.

## Minor in Global Studies with Latin American Studies Specialization

The minor in Global Studies, Latin American Studies (LAS) specialization, consists of a core set of courses surveying the history, politics, society, ecology, and culture of the Latin American region; advanced language training; and in-depth course work.

Students from any major interested in applying for admission to the minor in Global Studies, Latin American Studies (LAS) specialization, should consult Stanford Global Studies and the Center for Latin American Studies (CLAS (<https://clas.stanford.edu/academics/undergraduate-minor>)). Students who wish to complete the minor must declare online (through Axess (<http://axess.stanford.edu>)) and submit a proposal of course work no later than the second quarter of the junior year. The minor

must be completed by the second quarter of the senior year. Units taken for a student's major cannot be double-counted towards the minor.

Students consult with their minor adviser to develop individual programs. The minor is especially well-suited for undergraduates who plan to make service, research, or study abroad in Latin America a part of their Stanford experience.

The Global Studies Minor with Specialization in Latin American Studies is open to students in any major.

Upon completion of all requirements, final certification of the minor is made by the Center for Latin American Studies subcommittee on undergraduate programs. The minor and the specialization appear on the transcript but they do not appear on the diploma.

## Declaring the Global Studies Minor with Latin American Studies Specialization

To declare the Global Studies minor with Latin American Studies specialization, students must:

1. Set up an appointment with the CLAS associate director to discuss your academic plan.
2. Declare the Global Studies minor in Axess (<http://axess.stanford.edu>).
3. Complete the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program ([https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change\\_UG\\_program.pdf](https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change_UG_program.pdf)) form in order to declare the Latin American Studies specialization. Submit the form to the minor adviser Elizabeth Saenz-Ackermann in Bolivar House, 582 Alvarado Row.

## Requirements

1. Students may not double-count courses for completing major and minor requirements. Completion of 28 units as follows:
  - a. GLOBAL 101 Critical Issues in Global Affairs (3 units)
  - b. A 5-unit course surveying Latin America, either ILAC 131 Introduction to Latin America: Cultural Perspectives or an approved substitute. For further information contact a CLAS undergraduate adviser at [latinamerica@stanford.edu](mailto:latinamerica@stanford.edu).
  - c. 20 additional units in courses which together comprise a coherent focus on a theoretical problem or issue of the region, such as but not limited to
    - i culture and identity
    - ii political economy
    - iii sustainable development.
  - d. At least 15 of the 28 units must be completed at Stanford.
  - e. All courses to be counted toward the minor must be taken for a letter grade.
2. Foreign Language Requirement. The minimum requirement for completion of the minor in Global Studies with Latin American Studies Specialization is advanced proficiency in Spanish or Portuguese by one of the following:
  - a. Completion of seven quarters of college-level study of Spanish or Portuguese.
  - b. Completion of a course taught in Spanish or Portuguese at the 100-level or higher, with a letter grade of 'B' or higher. This may be a course on Spanish or Portuguese language or literature, or some other subject.
  - c. Achievement of the advanced proficiency level on the ACTFL scale in a test administered by the Stanford Language Center. Contact the Stanford Language Center (p. 632) for test dates and procedures.
3. Recommended: experience in Latin America such as study abroad, field research, or an internship.

- Students might present their work in an end-of-year capstone seminar with other SGS minors and led by SGS faculty.

## Course List

For a representative, rather than comprehensive, list of courses that count towards the minor, see the Related Courses tab (p. 640) in this section of the Bulletin. Other courses may also fulfill the requirements; students should consult their Latin American Studies minor adviser concerning which courses might fulfill minor requirements.

## Minor in Global Studies with South Asian Studies Specialization

The minor in Stanford Global Studies, South Asian Studies specialization, offers students a focused study from an interdisciplinary perspective of the cultures, histories, politics, religions, and societies of South Asia, including India, Pakistan, Sri Lanka, Nepal, Bhutan, Bangladesh, and the Maldives.

The Global Studies Minor with Specialization in South Asian Studies is open to students in any major. Students consult with their minor adviser to develop individual programs.

## Declaring the Global Studies Minor with South Asian Studies Specialization

To declare the Global Studies minor with South Asian Studies specialization, students must:

1. Set up an appointment with Sangeeta Mediratta, <[smedirat@stanford.edu](mailto:smedirat@stanford.edu)>, Associate Director for the South Asian Studies Center to discuss your academic plan.
2. Declare the Global Studies minor in Axess (<http://axess.stanford.edu>).
3. Complete the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program ([https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change\\_UG\\_program.pdf](https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change_UG_program.pdf)) form in order to declare the South Asian Studies specialization. Submit the form to the minor adviser Sangeeta Mediratta in Encina Hall West, Rm 104.

## Learning Outcomes

The SGS minor specialization in South Asian Studies enables students to:

1. acquire a nuanced and sophisticated understanding of the texts and contexts of South Asian Studies .
2. work on this geographical and disciplinary area within the broader contours, conversations, and methods of Global Studies.
3. enhance students' ability to understand and participate in an increasingly global world.
4. develop critical and wide-ranging insight into a key world area.

Upon completion of requirements, final certification of the minor is made by the Center for South Asian Studies. The minor and the specialization appear on the transcript but they do not appear on the diploma.

## Requirements

A total of 28 units which include the following:

1. GLOBAL 101 Critical Issues in Global Affairs (3 units)
2. At least 25 units of qualifying courses. Students may not double-count courses for completing major and minor requirements. At least 10 of the 25 units must be completed at Stanford. All courses to be counted toward the minor must be taken for a letter grade.

- a. A 5-unit core course such as ANTHRO 149 South Asia: History, People, Politics or HISTORY 106A Global Human Geography: Asia and Africa.
  - b. 20 units in courses that together represent an area of interdisciplinary focus such as, but not limited to, the following:
    - i immigration and law
    - ii urbanization and film
    - iii history and culture. Each course (with the exception of BOSP courses) must be at the 100-level or higher.
  - c. All courses, with the exception of Overseas Studies courses, must be at the 100-level or higher. For a list of courses, see the "Related Courses" tab in this section.
3. Foreign Language Requirement. Language requirement: Intermediate proficiency in a South Asian language by one of the following:
- a. Completion of two introductory language courses in a South Asian language such as Urdu, Hindi, Persian, Bengali, Pashto, Tamil, Telugu, Kannada, Gujarati, Malayalam, Garhwali, Nepalese, Tibetan, or Sindhi; other languages may also qualify.
  - b. Intermediate proficiency in any of the above languages, as measured by the ACTFL scale in a test administered by the Stanford Language Center (p. 632).
4. A capstone experience in South Asia such as study abroad, field research, an internship, or another example of sustained and serious involvement in South Asia. The approach taken must be approved by the Center for South Asia faculty director..
- Students present their work in an end-of-year capstone seminar with other SGS minors and led by SGS faculty.

## Course List

For a representative, rather than comprehensive, list of courses that count towards the minor, see the Related Courses tab in this section of the Bulletin. Other courses may also fulfill the requirements; students should consult their South Asian Studies minor adviser concerning which courses might fulfill minor requirements.

## Latin American Studies Specialization

1. All courses to be counted toward the minor must be taken at the 100-level or higher, with the exception of Overseas Studies courses (see also note 1, above).
2. All courses to be counted toward the minor must be taken for a letter grade.
3. Some courses have prerequisites or special enrollment requirements. Students are responsible for making sure they have completed any prerequisites and/or secured an instructor's permission, as needed.

## Culture and Society

		Units
AMSTUD 271	Mexicans in the United States	5
ANTHRO 100D	Chavin de Huantar Research  Seminar	3-5
ANTHRO 102B	Aztec Language and Culture	3
ANTHRO 108A	The Formation of Political State in the Peruvian Andes	3-5
ANTHRO 122A	Race and Culture in Mexico and Central America	3-5
ANTHRO 124N	Maya Mythology and the Popol Vuh	3
ANTHRO 206A	Incas and their Ancestors: Peruvian Archaeology	3-5
ANTHRO 215B	Peoples and Cultures of Ancient Mesoamerica	5
ANTHRO 222A	Race and Culture in Mexico and Central America	3-5
ANTHRO 222C	Research in Maya Hieroglyphic Writing	1-2
ANTHRO 335A	Animism and Alter-Native Modernities	5
ARCHLGY 100D	Chavin de Huantar Research  Seminar	3-5
CHILATST 140	Migration in 21st Century Latin American Film	3-5
CSRE 126B	Curricular Public Policies for the Recognition of Afro-Brazilians and Indigenous Population	3-4
FILMSTUD 316	International Documentary	4
HISTORY 106B	Global Human Geography: Europe and Americas	5
HISTORY 112	Medicine and Disease in the Ancient World	5
HISTORY 170C	Modern Latin America	3-5
HISTORY 273C	Caribbean Migration to the United States	4-5
HISTORY 274E	Urban Poverty and Inequality in Latin America	5
HISTORY 274G	Public Space, the Private Sphere, and Dictatorship in Latin America	5
HISTORY 275B	History of Modern Mexico	4-5
HISTORY 366B	Immigration Debates in America, Past and Present	3-5
HISTORY 371	Graduate Colloquium: Explorations in Latin American History and Historiography	4-5
HISTORY 373E	The Emergence of Nations in Latin America: Independence Through 1880	4-5
HISTORY 375C	History of Modern Mexico	4-5
HISTORY 379	Latin American Development: Economy and Society, 1800-2014	4-5
ILAC 110N	Brazil: Musical Culture and Films	3-5
ILAC 113Q	Borges and Translation	3-5
ILAC 131	Introduction to Latin America: Cultural Perspectives	3-5
ILAC 132E	Introduction to Global Portuguese: Cultural Perspectives	3-5
ILAC 140	Migration in 21st Century Latin American Film	3-5
ILAC 161	Modern Latin American Literature	3-5
ILAC 226	Impersonality and Anonymity in Contemporary Latin American Culture	3-5

ILAC 241	Fiction Workshop in Spanish	3-5
ILAC 242	Poetry Workshop in Spanish	3-5
ILAC 243	Latin American Aesthetics	3-5
ILAC 274	Aurality and Literature	3-5
ILAC 277	Senior Seminar: Spanish and Society - Cultures of Salsa	3-5
ILAC 278A	Senior Seminar: Cervantes's Novelas Ejemplares	3-5
ILAC 336	One World or Many? Representing Distance, Time, and Place in Iberian Expansion	3-5
ILAC 342	Meat	3-5
ILAC 348	US-Mexico Border Fictions: Writing La Frontera, Tearing Down the Wall	3-5
ILAC 363	Visions of the Andes	3-5
ILAC 373	Baroque Brazil	3
LATINAM 248	Racial and Gender Inequalities in Latin America	3-5
LAW 5027	Social Conflict, Social Justice, and Human Rights in 21st Century Latin America	2
LAW 5028	Regional Human Rights Protections: The Inter-American System	3
OSPMADRD 55	Latin Americans in Spain: Cultural Identities, Social Practices, and Migratory Experience	4
OSPMADRD 83	Narrating the Nation: National and Post-National Spanish and Latin American Literature	4
OSPSANTG 14	Women Writers of Latin America in the 20th Century	4-5
OSPSANTG 29	Sustainable Cities: Comparative Transportation Systems in Latin America	4-5
OSPSANTG 30	Short Latin American Fiction of the 20th Century	4-5
OSPSANTG 49	Chile - Another "End of the World"?	3-5
OSPSANTG 68	The Emergence of Nations in Latin America	4-5
OSPSANTG 119X	The Chilean Economy: History, International Relations, and Development Strategies	5
OSPSANTG 129X	Latin America in the International System	4-5
SOC 350W	Workshop: Migration, Ethnicity, Race and Nation	1-3

## Environment, Ecology, and Sustainability

		Units
ANTHRO 160	Social and Environmental Sustainability: The Costa Rican Case	3-5
ANTHRO 162	Indigenous Peoples and Environmental Problems	3-5
ANTHRO 260	Social and Environmental Sustainability: The Costa Rican Case	3-5
ANTHRO 262	Indigenous Peoples and Environmental Problems	3-5
ANTHRO 278	Evolution and Conservation in Galapagos	5
ANTHRO 337B	Anthropological Approaches to Health Issues in Contemporary Latin America	5
BIO 234	Conservation Biology: A Latin American Perspective	3
BIOE 371	Global Biodesign: Medical Technology in an International Context	3
EARTHSYS 121	Building a Sustainable Society: New Approaches for Integrating Human and Environmental Priorities	3
ETHICSOC 278M	Introduction to Environmental Ethics	4-5
GEOPHYS 212	Topics in Climate Change	2
HISTORY 276K	The Nature State: Latin American Conservation in Global Perspective	4-5
HISTORY 278D	Race, Ethnicity, and the Environment in Latin America	4-5

HISTORY 376K	The Nature State: Latin American Conservation in Global Perspective	4-5	HISTORY 39	Modern Britain and the British Empire	3
HISTORY 378D	Race, Ethnicity, and the Environment in Latin America	4-5	HISTORY 139	Modern Britain and the British Empire	5
HUMBIO 129	Critical Issues in International Women's Health	4	MUSIC 30N	A Stranger in a Strange Land: Jewish Musics in Translation	3
HUMBIO 129S	Global Public Health	4	MUSIC 186	Religion and Music in South Asia	4-5
OSPSANTG 58	Living Chile: A Land of Extremes	5	MUSIC 286	Religion and Music in South Asia	4-5

## Political Economy

			Units		
ECON 106	World Food Economy	5	RELIGST 209D	'Crow Eaters' & 'Fire Worshippers': Exploring Contemporary Zoroastrianism Thru Reading Parsi Lit	3-5
ECON 129	Credit markets and development: Some evidence from Latin America and the World	5	RELIGST 251	Readings in Indian Buddhist Texts	3-5
EDUC 306A	Economics of Education in the Global Economy	5	RELIGST 256	The Brahma Net Sutra (Fanwang Jing)	4
EDUC 404	Topics in Brazilian Education: Public Policy and Innovation for the 21st Century	1-2	RELIGST 259	Religion and Music in South Asia	4-5
HISTORY 172A	Mexico: From Colony to Nation, or the History of an impossible Republic?	5	SPECLANG 109A	First-Year Bengali, First Quarter	5
HISTORY 177D	U.S. Intervention and Regime Change in 20th Century Latin America	5	SPECLANG 109B	First-Year Bengali, Second Quarter	5
INTNLREL 141A	Camera as Witness: International Human Rights Documentaries	5	SPECLANG 109C	First-Year Bengali, Third Quarter	5
INTNLREL 179	Major Themes in U.S.-Latin America Diplomatic History	5	SPECLANG 152A	First-Year Hindi, First Quarter	5
IPS 241	International Security in a Changing World	5	SPECLANG 152B	First-Year Hindi, Second Quarter	5
LATINAM 177	Mapping Poverty, Colonialism and Nation Building in Latin America	1-2	SPECLANG 152C	First-Year Hindi, Third Quarter	5
LAW 5017	Law in Latin America	2	SPECLANG 153A	Second-Year Hindi, First Quarter	4
OSPSANTG 119X	The Chilean Economy: History, International Relations, and Development Strategies	5	SPECLANG 153B	Second-Year Hindi, Second Quarter	4
POLISCI 244C	Political Change in Latin America: The contemporary challenge to democracy	5	SPECLANG 153C	Second-Year Hindi, Third Quarter	4
POLISCI 247G	Governance and Poverty	5	SPECLANG 154A	Third-Year Hindi, First Quarter	4
POLISCI 248S	Latin American Politics	3-5	SPECLANG 154B	Third-Year Hindi, Second Quarter	4
POLISCI 347G	Governance and Poverty	3-5	SPECLANG 154C	Third-Year Hindi, Third Quarter	4
POLISCI 348S	Latin American Politics	3-5	SPECLANG 183A	First-Year Sanskrit, First Quarter	4
POLISCI 440B	Comparative Political Economy	3-5	SPECLANG 183B	First-Year Sanskrit, Second Quarter	4
			SPECLANG 218A	Beginning Urdu, First Quarter	5
			SPECLANG 218B	Beginning Urdu, Second Quarter	4
			SPECLANG 218C	Beginning Urdu, Third Quarter	4
			SPECLANG 219A	Intermediate Urdu, First Quarter	4
			SPECLANG 219B	Intermediate Urdu, Second Quarter	4
			SPECLANG 229A	Beginning Pashto, First Quarter	5
			SPECLANG 229B	Beginning Pashto, Second Quarter	5
			TAPS 157	World Drama and Performance	4
			TIBETLNG 3	First Year Tibetan, Third Quarter	4
			TIBETLNG 23	Intermediate/Advance Tibetan, Third Quarter	4
			URBANST 114	Urban Culture in Global Perspective	5

## South Asian Studies Specialization

The following is a current selection of courses related to South Asian Studies. Students should consult with their minor adviser to determine the applicability of any course to the minor in Stanford Global Studies, South Asian Studies specialization.

		Units
AMELANG 144A	First-Year Modern Persian, First Quarter	5
AMELANG 144B	First-Year Modern Persian, Second Quarter	5
AMELANG 144C	First-Year Modern Persian, Third Quarter	5
AMELANG 146A	Third-Year Persian, First Quarter	4
AMELANG 146B	Third-Year Persian, Second Quarter	4
AMELANG 146C	Third-Year Persian, Third Quarter	4
ANTHRO 28N	Secularism and its Critics	3-5
ANTHRO 126	Urban Culture in Global Perspective	5
ANTHRO 149	South Asia: History, People, Politics	5
COMPLIT 247	Bollywood and Beyond: An Introduction to Indian Film	3-5
FEMGEN 24	Sexuality, Gender, and Religion	2
GLOBAL 250	Bollywood and Beyond: An Introduction to Indian Film	3-5

# HISTORY AND PHILOSOPHY OF SCIENCE

Courses offered by the Program in History and Philosophy of Science are listed under the subject code HPS on the Stanford Bulletin's ExploreCourses web site.

The Program in History and Philosophy of Science (HPS) teaches students to examine the sciences, medicine and technology from a number of perspectives, conceptual, historical and social. The community of scholars includes core faculty and students in History and Philosophy and affiliated members in Classics, Anthropology, English, Political Science, Communication, and other disciplines. Together, they draw upon the multiple methods of their disciplines to study the development, functioning, applications, and social and cultural engagements of the sciences.

Stanford's Program in History and Philosophy of Science is a collaborative enterprise of the departments of History and Philosophy. Each department has its own undergraduate and graduate degree programs in this area, but these overlap and interact through the structure of requirements, advising, team-taught courses, an active graduate student community and a shared colloquium series (<http://HPS.stanford.edu/colloquia.html>).

The program's courses span from antiquity to the late 20th century, with emphasis on:

- ancient science
- Renaissance science
- the Scientific Revolution
- Enlightenment and transatlantic science
- history of medicine and the body
- history and philosophy of biology
- history and philosophy of modern physics
- history of the philosophy of science from the early modern period to the present
- central issues in contemporary philosophy of science
- gender, science, and technology

## Undergraduate Degrees

HPS offers undergraduates the opportunity to study science, medicine and technology by combining scientific and humanistic perspectives in a single program. Students can pursue HPS through the two departments (History and Philosophy) that coordinate this interdisciplinary program.

The HPS Program offers students an in-depth understanding of the nature and evolution of scientific ideas, practices, and institutions; their contemporary significance to intellectual life; and their material transformation of the modern world.

The Department of History offers an interdisciplinary track in History of Science, and Medicine (p. 579). This track is especially well suited to students who wish to combine history and science, or who are interested in studying the history of science and medicine in combination with premed science requirements in preparation for a future career in medicine and public health.

The Department of Philosophy offers a special program in History and Philosophy of Science (p. 673). This program is especially well suited to students who want to combine their concentration in Philosophy with the study of science and its history.

Students interested in HPS should contact the faculty advisors (in 2017-18 Paula Findlen for History and Michael Friedman for Philosophy) to discuss the undergraduate program.

## Graduate Degrees

Graduate students in the Program in History and Philosophy of Science can pursue a Ph.D. either in History, through its Ph.D. concentration in History of Science, Medicine, and Technology, or in Philosophy, through its Ph.D. subplan in History and Philosophy of Science. Diplomas will be issued by the respective departments, but the HPS study will not be noted on the transcript nor on the diploma. Ph.D. students completing the requirements of the HPS program will receive a certificate issued by the Program.

Graduate students in the Program in History and Philosophy of Science that wish to pursue a Ph.D. in Philosophy must fulfill Departmental degree requirements (p. 679) and the following requirements:

1. HPS colloquium series attendance
2. One of the following graduate level Philosophy of Science courses: 263, 264, 264A, 265, 265C, 266, 267A or 267B
3. One elective seminar in the history of science
4. One elective seminar (in addition to the course satisfying requirement 2) in philosophy of science

Philosophy Ph.D. students declaring the HPS subplan in Axes will have it appear on the official transcript but is not printed on the diploma.

The Program in History and Philosophy of Science degree requirements for the Ph.D. in History of Science, Medicine and Technology, in addition to the general History Department Ph.D. degree requirements (p. 589), are:

1. HPS colloquium series attendance
2. the History Department core seminar in History of Science, Medicine and Technology
3. Four other courses in the history of science, technology and/or medicine
4. One course in the philosophy of science
5. Four additional courses in a given geographical or national field of research, one of which must be a core course

The courses described above must include two research seminars, at least one of which must be in the history of science, technology and/or medicine. Students are expected to write papers on substantially different topics for each seminar. You should also aim to present your research at the annual meeting of a professional society associated with the history of science, technology and/or medicine sometime during your third or fourth year. For more information, see the program's (<http://hps.stanford.edu/grad.html>) web site.

## Bachelor of Arts Programs

HPS offers undergraduates the opportunity to study science, medicine and technology by combining scientific and humanistic perspectives in a single program. Students can pursue HPS through the two departments (History and Philosophy) that coordinate this interdisciplinary program.

The HPS Program offers students an in-depth understanding of the nature and evolution of scientific ideas, practices, and institutions; their contemporary significance to intellectual life; and their material transformation of the modern world.

The Department of History offers an interdisciplinary track in History of Science, and Medicine (p. 579). This track is especially well suited to students who wish to combine history and science, or who are interested in studying the history of science and medicine in combination with premed science requirements in preparation for a future career in medicine and public health.

The Department of Philosophy offers a special program in History and Philosophy of Science (p. ). This program is especially well suited to students who want to combine their concentration in Philosophy with the study of science and its history.

Students interested in HPS should contact the faculty advisers (in 2017-18 Jessica Riskin for History and Michael Friedman for Philosophy) to discuss the undergraduate program.

### Course Sequences

The following courses are offered in 2017-18 in the area of History and Philosophy of Science.

## Introductory

		Units
HPS/PHIL 60	Introduction to Philosophy of Science	5
HPS 61	Philosophy and the Scientific Revolution	5

## Science in History

This sequence is designed to introduce students to the history of Science from antiquity to the 20th century. Students are advised to take most or all of this sequence as a core foundation.

		Units
HISTORY 40/140	World History of Science	3
HISTORY 44	Women and Gender in Science, Medicine and Engineering	3
HISTORY 103E	The International History of Nuclear Weapons	5
HISTORY 105A		3-5
HISTORY 140	World History of Science	5
HISTORY 140A	The Scientific Revolution	5
MATH 163	The Greek Invention of Mathematics	3-5
HISTORY 203C/303C	History of Ignorance	5
HISTORY 240/340	The History of Evolution	4-5
HISTORY 240G	Science and Empire, 1500-1900	5
HISTORY 342	Darwin in the History of Life	4-5
HISTORY 431	Early Modern Things	4-5

## Medicine in History

This sequence is designed to introduce students to the history of medicine from antiquity to the 20th century.

		Units
AMSTUD 41Q	Madwomen: The History of Women and Mental Illness in the U.S.	3
HISTORY 242F	Medicine in an Age of Empires	4-5
HISTORY 243G/343G	Tobacco and Health in World History	4-5
HISTORY 244C	The History of the Body in Science, Medicine, and Culture	4-5

## Philosophical Perspectives on Science, Medicine, and Technology

This sequence is designed to introduce students to the philosophy of science. Students are advised to take HPS 60 Introduction to Philosophy of Science above as a starting point, and combine a number of the electives listed below in conjunction with courses in the other concentrations that address their specific interests.

		Units
PHIL 162	Philosophy of Mathematics	4
PHIL 164/264	Central Topics in the Philosophy of Science: Theory and Evidence	4
PHIL 165/265	Philosophy of Physics: Philosophical Issues in Quantum Mechanics	4
PHIL 167A/267A	Philosophy of Biology	4
PHIL 167B/267B	Philosophy, Biology, and Behavior	4
PHIL 224	Kant's Philosophy of Physical Science	2-4
PHIL 224A	Mathematics in Kant's Philosophy	4
PHIL 263	Significant Figures in Philosophy of Science: Einstein	4
PHIL 265C	Philosophy of Physics: Probability and Relativity	4
PHIL 266	Probability: Ten Great Ideas About Chance	4
PHIL 324	Kant's System of Nature and Freedom	4
PHIL 326	Kant's Transcendental Deduction	4
PHIL 361	Social Dimensions of Scientific Knowledge	4
PHIL 362	Grad Seminar on Philosophy of Science	4
PHIL 365	Seminar in Philosophy of Physics	2-4
PHIL 374F	Science, Religion, and Democracy	4

## Advanced Course Sequences

### Contemporary Perspectives on Science, Medicine and Technology

The following courses focus on contemporary cultural and social science approaches to science, technology, and medicine.

		Units
HPS 199	Directed Reading	1-15
HPS 299	Graduate Individual Work	1-15
ANTHRO 180	Science, Technology, and Gender	3-5
HISTORY 204D	Advanced Topics in Agnotology	4-5
HISTORY 243S/443A	Human Origins: History, Evidence, and Controversy	4-5
HISTORY 444	Graduate Research Seminar: Gender in Science, Medicine, and Engineering	5

## Graduate Degrees

Graduate students in the Program in History and Philosophy of Science can pursue a Ph.D. either in History, through its Ph.D. concentration in History of Science, Medicine, and Technology, or in Philosophy, through its Ph.D. subplan in History and Philosophy of Science. Diplomas will be issued by the respective departments, but the HPS study will not be noted on the transcript nor on the diploma. Ph.D. students completing the requirements of the HPS program will receive a certificate issued by the Program.

Graduate students in the Program in History and Philosophy of Science that wish to pursue a Ph.D. in Philosophy must fulfill Departmental degree requirements (p. ) and the following requirements:

1. HPS colloquium series attendance
2. One of the following graduate level Philosophy of Science courses: 263, 264, 264A, or 266
3. One elective seminar in the history of science
4. One elective seminar (in addition to the course satisfying requirement 2) in philosophy of science

Philosophy Ph.D. students declaring the HPS subplan via the Declaration or Change to a Field of Study form (<http://studentaffairs.stanford.edu/>)

sites/default/files/registrar/files/grad-subplan-change.pdf) will have it appear on the official transcript but is not printed on the diploma.

The Program in History and Philosophy of Science degree requirements for the Ph.D. in History of Science, Medicine and Technology, in addition to the general History Department Ph.D. degree requirements (p. ), are:

1. HPS colloquium series attendance
2. the History Department core seminar in History of Science, Medicine and Technology
3. Four other courses in the history of science, technology and/or medicine
4. One course in the philosophy of science
5. Four additional courses in a given geographical or national field of research, one of which must be a core course

The courses described above must include two research seminars, at least one of which must be in the history of science, technology and/or medicine. Students are expected to write papers on substantially different topics for each seminar. You should also aim to present your research at the annual meeting of a professional society associated with the history of science, technology and/or medicine sometime during your third or fourth year. For more information, see the program's (<http://HPST.stanford.edu/grad.html>) web site.

## Course Sequences

See the Bachelors tab for all History and Philosophy of Science courses offered in 2017-2018.

*Co-chairs:* Paula Findlen (History), Michael Friedman (Philosophy)

*Committee-in-Charge:* Paula Findlen (History), Michael Friedman (Philosophy), Helen Longino (Philosophy), Reviel Netz (Classics), Robert Proctor (History), Jessica Riskin (History), Thomas Ryckman (Philosophy)

*Program Committee:* Paula Findlen (History), Michael Friedman (Philosophy), Helen Longino (Philosophy), Tom Mullaney (History), Reviel Netz (Classics), Robert Proctor (History), Jessica Riskin (History), Thomas Ryckman (Philosophy), Londa Schiebinger (History)

*Professors:* Keith Baker (History), Paula Findlen (History), Michael Friedman (Philosophy), Gabrielle Hecht (CISAC, History), David Holloway (History, Institute for International Studies, Political Science), Helen Longino (Philosophy), Reviel Netz (Classics), Robert Proctor (History), Jessica Riskin (History), Londa Schiebinger (History), Fred Turner (Communication), Richard White (History), Caroline Winterer (History)

*Associate Professors:* Thomas Mullaney (History), Sarah Jain (Anthropology), Priya Satia (History)

*Professor (Teaching):* Thomas Ryckman (Philosophy)

*Professor (Research):* Rega Wood (Philosophy, emerita)

*Senior Lecturer:* Paul Edwards (STS)

*Other Affiliation:* Henry Lowood (Stanford University Libraries), Larry Lagerstrom (UAR)

*Visiting Scholar:* Adrienne Mayor (Classics), Alessandra Celati

## Overseas Studies Courses in History and Philosophy of Science

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

# HISTORY

Courses offered by the Department of History are listed under the subject code History on the Stanford Bulletin's ExploreCourses web site (<https://explorecourses.stanford.edu/search?view=catalog&academicYear=&page=0&q=HISTORY&filter-catalognumber-HISTORY=on&filter-coursestatus-Active=on&filter-term-Summer=on>).

## Mission of the Department of History

History courses teach the analytical, interpretive, and writing knowledge and skills necessary for understanding the connections between past and present. History is a pragmatic discipline in which the analysis of change over time involves sifting the influences and perspectives that affect the course of events, and evaluating the different forms of evidence historians exploit to make sense of them. Teaching students how to weigh these sources and convert the findings into persuasive analysis lies at the heart of the department's teaching. Graduates with a History major pursue careers and graduate study in law, public service, business, writing, education, and journalism.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. an understanding of what it means to think historically: locating subjects in time and place and being sensitive to the contingencies of context and to change over time.
2. critical and interpretive thinking skills using course's primary source materials.
3. the ability to identify different types of sources of historical knowledge.
4. analytical writing skills and close reading skills.
5. effective oral communication skills.

## Degrees Offered

The Department of History offers the following degree programs: Bachelor of Arts, Bachelor of Arts and Sciences, Master of Arts, and Doctor of Philosophy.

## Graduate Programs in History

The primary goal of the Stanford Department of History's graduate program is the training of scholars. Most students who receive doctorates in the program go on to teach at colleges or universities. Other students have obtained positions in university administration and research.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in History and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in History. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of History and to interpret and present the results of such research.

## History Course Catalog Numbering System

Location	Introductory Seminars: 1N, 44Q, 95N	Sources and Sophomore Methods Seminars: 3S	Lectures: 1B, 64, 102, 103D,F, 105C, 106A,B, 107	Colloquia: 201A, 202A,B,G, 203,B,C, 204,C,E,G, 206,206A, 207C, 208C, 243G, 301A, 302A,B,G, 303,303B,C,F, 304,C,G, 305, 306A, D, 307C,E, 308C, 343G, 399A	Research Seminars and Workshops: 306K, 401A

# Bachelor of Arts in History

## Prerequisites for the Major

Before declaring the History major, students must take one lecture course. They must take a second lecture course within one year of declaring. Fulfilling this requirement are courses numbered HISTORY 1-199 (with the exception of Freshman (xxN) and Sophomore (xxQ) Introductory Seminars).

The choices for 2017-18 are:

		Units
HISTORY 1B	Global History: The Early Modern World, 1300 to 1800	3-5
HISTORY 1C	Global History: Empires, Technology, and Modernity	3-5
HISTORY 102	History of the International System	5
HISTORY 103D	Human Society and Environmental Change	4
HISTORY 103E	The International History of Nuclear Weapons	5
HISTORY 103F	The Changing Face of War: Introduction to Military History	5
HISTORY 104	Introduction to Geospatial Humanities	3-5
HISTORY 105A		3-5
HISTORY 106A	Global Human Geography: Asia and Africa	5
HISTORY 106B	Global Human Geography: Europe and Americas	5
HISTORY 107D	Rise and Fall of Atlantic Slavery, 1500 to 1900	3-5
HISTORY 110B	Renaissance to Revolution: Early Modern Europe	5
HISTORY 115D	Europe in the Middle Ages, 300-1500	3-5
HISTORY 116	Traders and Crusaders in the Medieval Mediterranean	3-5
HISTORY 120A	The Russian Empire, 1450-1800	5
HISTORY 125		3-5
HISTORY 131G	From Oil to Opium: Commodities and Consumption In European and Global History, 1800-present	5
HISTORY 137	The Holocaust	4-5
HISTORY 138A		5
HISTORY 139	Modern Britain and the British Empire	5
HISTORY 140	World History of Science	5
HISTORY 140A	The Scientific Revolution	5
HISTORY 145B	Africa in the 20th Century	5
HISTORY 147	History of South Africa	5
HISTORY 150A	Colonial and Revolutionary America	5
HISTORY 150B	Nineteenth Century America	5
HISTORY 150C	The United States in the Twentieth Century	5
HISTORY 152	History of American Law	5
HISTORY 155D	The Asian American Movement: A History of Activism	3-5
HISTORY 161	The Politics of Sex: Work, Family, and Citizenship in Modern American Women's History	3-5
HISTORY 168D	Martin Luther King, Jr.: The Inner Life and Global Vision	3-5
HISTORY 180	The Ottoman Empire: Conquest, Coexistence, and Coffee	3-5
HISTORY 181B	Formation of the Contemporary Middle East	5
HISTORY 182G	Making Palestine Visible	3-5
HISTORY 185B	Jews in the Contemporary World: Faith and Ethnicity, Vulnerability and Visibility	5
HISTORY 190	Early Chinese Thought	3-5
HISTORY 193	The Chinese Empire from the Mongol Invasion to the Boxer Uprising	5

HISTORY 194B	Japan in the Age of the Samurai	5
HISTORY 195	Modern Korean History	5
HISTORY 195C	Modern Japanese History: From Samurai to Pokemon	5
HISTORY 198	The History of Modern China	5

## Bachelor of Arts Requirements

Completion of the major requires planning. History majors should plan to meet with their faculty advisers twice yearly, once in the Autumn and once in the Winter or Spring quarters. These meetings should take place within the first three weeks of the quarter, before the final study list deadline.

History majors are required to complete a minimum of 63 units (i.e. a minimum of 13 courses) to include:

	Units
<b>1. One Sources and Methods Seminar (HISTORY 1S-99S)<sup>1</sup></b>	5
Sources and Methods courses offered this year are:	
HISTORY 7S Stanford Collects: A History of Collecting	5
HISTORY 9S Censorship & Propaganda: From Renaissance to Revolution	5
HISTORY 22S From 'superfluous women' to the 'Yolocaust': The Experience of War in 20th Century Europe	5
HISTORY 37S Love and Lust in the French Empire, 1830-1962	5
HISTORY 45S The Cold War and the Shaping of Modern Africa	5
HISTORY 51S American Travel, Tourism and Empire in the Pacific, 1880s-1970s	5
HISTORY 68S New Orleans: An American City?	5
HISTORY 85S A History of Strangers: Jews in the Mediterranean	5
HISTORY 90S The Forgotten War: The Korean War in Historical Perspective	5
HISTORY 95S Protest in Modern China	5
<b>2. Two 200-level undergraduate colloquia (HISTORY 200-298)<sup>2</sup></b>	10
<b>3. At least one other small group course</b>	5
To be chosen among the department's undergraduate 200-level courses (excluding HISTORY 209S), Sources & Methods seminars or Stanford Introductory Seminars	
<b>4. Two lecture courses<sup>3</sup></b>	10
One of which must be either	
A Europe survey course such as:	
HISTORY 110B Renaissance to Revolution: Early Modern Europe	
HISTORY 115D Europe in the Middle Ages, 300-1500	
Or, or a United States survey course such as:	
HISTORY 150A Colonial and Revolutionary America	
HISTORY 150B Nineteenth Century America	
HISTORY 150C The United States in the Twentieth Century	
The second must be a lecture course in African, Asian, Middle East, or Latin American History.	
<b>5. Completion of the Writing in the Major (WIM) requirement<sup>4</sup></b>	
HISTORY 209S Research Seminar for Majors	5
<b>6. At least 6 additional courses to total a minimum of 63 units.</b>	28

<sup>1</sup> Sources and Methods seminars constitute the department's "skills" class and should be taken as early as possible in a student's course of study. They are designed for freshmen and sophomores considering or beginning the History major. This requirement must be completed prior to enrolling in HISTORY 209S Research Seminar for Majors.

<sup>2</sup> ExploreCourses lists all colloquia offered this year (<https://explorecourses.stanford.edu/search?filter-term=Summer=on&filter-component-COL=on&filter-coursestatus=Active=on&filter-term-Spring=on&filter-term-Winter=on&filter-term-Autumn=on&filter-academiclevel-UG=on&page=0&q=HISTORY&view=catalog&filter-catalognumber-HISTORY=on&collapse=%2c6%2c7%2c&academicYear=20142015>).

<sup>3</sup> Students may count courses they took as prerequisites to the major for this requirement.

<sup>4</sup> In completing this course, students must write a 20-25 page essay based on original research and including at least two drafts. HISTORY 209S Research Seminar for Majors may be taken in either the junior or the senior year. Students must complete the Sources and Methods seminar before enrolling in the Research Seminar.

- Winter: Early Modern Travel/Imaginative Geographies; Europe before 1500
- Spring: American Political History; Open

## Honors Program

For a limited number of majors, the department offers a special program leading to Departmental Honors in History. Students accepted for this program, in addition to fulfilling the general requirements stated above, begin work as early as Spring Quarter of the junior year and complete the essay by mid-May of the senior year. In addition to HISTORY 299H Junior Honors Colloquium, students must enroll in 11-15 units of Senior Research in the senior year, to be distributed as best fits their specific project. For students in the Honors program, Senior Research units (HISTORY 299A Senior Research I, HISTORY 299B Senior Research II, HISTORY 299C Senior Research III) are taken in addition to the thirteen required courses in History.

### Additional Requirements

1. Courses comprising the 63 units must be taken for a letter grade, and the student must maintain a grade point average (GPA) in History courses of 2.0 or higher.
2. At least nine courses must be taken from within the Stanford Department of History. Transfer students and those who study abroad may be granted exemptions from this requirement at the discretion of the Director of Undergraduate Studies.
3. At least six quarters of enrollment in the major. Each candidate for the B.A. in History should declare the major by the Autumn Quarter of the third year of study or earlier, if possible.
4. One HISTORY 299S Undergraduate Directed Research and Writing taken for 3-5 units and for a letter grade may be applied toward the thirteen courses required for the B.A. in History.
5. *Capstone*: The History department organizes a series of luncheon workshops quarterly, at which students present their research essays and honors theses.
6. The department encourages students to acquire proficiency in foreign languages and study at one of Stanford's overseas programs. Such studies are not only valuable in themselves; they can provide an opportunity for independent research and a foundation for honors essays and graduate study.
7. Advanced Placement credits do not fulfill any major requirements.

To enter this program, the student must be accepted by a member of the department who agrees to advise the research and writing of the essay, and must complete the Junior Honors Colloquium (299H) offered in Winter Quarter. An exception to the latter requirement may be made for those studying overseas Winter Quarter of the junior year, but such students should consult with the director of the honors program, if possible, prior to going overseas. Students who study abroad for the entire junior year and want to write an honors thesis should plan to take the Research Seminar for Majors in the first quarter following completion of the study abroad program. Under exceptional circumstances, students are admitted to the program in Autumn Quarter of the senior year. Such students must not enroll in any HISTORY 299A Senior Research I, HISTORY 299B Senior Research II, HISTORY 299C Senior Research III, units until HISTORY 209S Research Seminar for Majors, has been completed.

In considering an applicant for such a project, the adviser and director of the honors program take into account general preparation in the field of the project and expect a GPA of at least 3.5 in the student's previous work in History and a 3.3 in overall University work. Students completing the thesis with a grade of 'B+' or higher are eligible for Departmental Honors in History. To enter the Honors program, apply at the Department of History office.

For further information on History courses' satisfaction of major requirements, see the Department of History (<http://history.stanford.edu/programs/undergraduate>) web site.

Outstanding honors essays may be considered for the University's Robert M. Golden Medal, as well as for departmental James Birdsall Weter prize.

### Writing in the Major (WIM) Requirement

History's Writing in the Major requirement is satisfied by completing HISTORY 209S Research Seminar for Majors.

*Honors Program Requirements*—To graduate with departmental honors in History, students must:

This course may be taken in either the junior or senior year, but not before completing the sources and methods seminar requirement. Students write a 20-25 page research essay. Original research and revision are important parts of the research essay. Students must conduct substantial research in the libraries and must submit at least two drafts (a rough draft and a final draft) of the essay. Students who wish to write an honors thesis should take HISTORY 209S Research Seminar for Majors in the junior year. Where appropriate, a student can use the research seminar to begin working on the honors thesis.

1. complete HISTORY 299H Junior Honors Colloquium in the junior year.
2. maintain a GPA of at least 3.3 in overall University work and a 3.5 in the History major during the final 5 quarters of enrollment/thesis preparation, or obtain the consent of the Director of the Honors Program.
3. select both a primary thesis adviser (who is a member of the Stanford History faculty) and a secondary adviser (who is a Stanford University faculty member with an active teaching appointment for the duration of academic year 2017-18) no later than Autumn Quarter of the senior year.
4. submit on May 7, 2018 by noon a 16,250- 30,000 words honors thesis including bibliography that receives a grade of 'B+' or better.
5. enroll in the 11-15 units of Senior Research as specified below.
6. participate in mandatory Honors Program activities throughout senior year (including, but not limited to, writing workshops and the annual Honors Presentation Luncheon) as specified in the Honors Program Handbook.

HISTORY 209S Research Seminar for Majors fulfills the WIM requirement only. It does not fulfill geographical requirements or small group course requirements.

Students select their research topics based on the general topics of each quarter's offerings.

- HISTORY 209S Research Seminar for Majors
  - Autumn: Gender, Race, Sexuality; History of Science/Honors

HISTORY 299A Senior Research I, HISTORY 299B Senior Research II, HISTORY 299C Senior Research III do not fulfill any history major

requirements other than honors, but the units do count towards the 180 required for B.A. degree conferral.

*Required Course*—To be taken in the junior year:

HISTORY 299H	Junior Honors Colloquium	Units 1
--------------	--------------------------	------------

*Required Course*—Recommended to be taken in junior year:

HISTORY 209S	Research Seminar for Majors	Units 5
--------------	-----------------------------	------------

An exception (for HISTORY 299H Junior Honors Colloquium) may be made for those studying overseas Winter Quarter of the junior year, but such students should consult with the Director of the Honors Program prior to going overseas.

To be taken in the senior year:

HISTORY 299A	Senior Research I	Units 1-5
HISTORY 299B	Senior Research II	1-5
HISTORY 299C	Senior Research III	1-5

## Overseas Studies or Study Abroad

Courses offered by Stanford's Bing Overseas Studies Program and appearing on the History department's cognate course list automatically receive credit towards the major or minor in History. Course work completed in non-Stanford Study Abroad programs is evaluated for major/minor credit by designated History department faculty on a case-by-case basis. Students in non-Stanford Study Abroad programs are advised to take classes with reading and writing components comparable to History department course loads.

## History Fields of Study or Degree Options

The Department of History offers the following tracks to the B.A. in History. These tracks are not declared on Axxess; they do not appear on the transcript or on the diploma. The tracks are:

- General History
- Global Affairs and World History
- History, Philosophy, and the Arts
- History of Science and Medicine
- History and Law
- Public History/Public Service

The General History track emphasizes breadth of study among historical areas and periods as well as concentration in one selected field. The Global Affairs and World History track emphasizes an understanding of today's world through a historical examination of its evolution, from the early modern to the contemporary era. The four tracks with interdisciplinary emphasis (History, Philosophy, and the Arts; History of Science and Medicine; History and Law; and Public History/Public Service) combine the study of history with the methods and approaches of other disciplines, and involve substantial course work outside of History.

### General History Track

In addition to completing the requirements for all History majors, the student in the General History track is required to satisfy breadth and concentration requirements.

1. *Breadth Requirements*: to ensure chronological and geographical breadth, at least two courses must be completed in a pre-modern chronological period and in each of three geographical fields:

- a. Field I (Africa, Asia, and Middle East)
  - b. Field II (the Americas)
  - c. Field III (Europe, including Western Europe, Eastern Europe, and Russia).
  - d. Courses fulfilling the pre-modern chronological period (Field IV) may also count for Fields I-III.
2. Courses for 2017-18 follow below.
  3. *Concentration*: to develop some measure of expertise, students must complete four courses in a single area (including one undergraduate colloquium or research seminar). The proposed concentration must be approved by the major adviser; a proposal for a thematic concentration must be approved by both the adviser and the department's director of undergraduate studies. Areas of concentration are:
    - Africa
    - Asia
    - Eastern Europe and Russia
    - Europe before 1700
    - Europe since 1700
    - Jewish History
    - Latin America
    - Science and Medicine
    - The United States
    - The Middle East
    - International History
    - Comparative Empires and Cultures
    - or a thematic subject treated comparatively, such as war and revolution, work, gender, family history, popular culture, or high culture.
  4. *Required course*: HISTORY 102 History of the International System is a required course for students who select the International History concentration. This course is offered in Spring Quarter.

### Field I: Africa/Asia/Middle East

		Units
HISTORY 45B	Africa in the Twentieth Century	3
HISTORY 47	History of South Africa	3
HISTORY 48	The Egyptians	3-5
HISTORY 48Q	South Africa: Contested Transitions	4
HISTORY 84N	The American Empire in the Middle East	4
HISTORY 90	Early Chinese Thought	3-5
HISTORY 93	The Chinese Empire from the Mongol Invasion to the Boxer Uprising	3
HISTORY 94B	Japan in the Age of the Samurai	3
HISTORY 95	Modern Korean History	3
HISTORY 95C	Modern Japanese History: From Samurai to Pokemon	3
HISTORY 98	The History of Modern China	3
HISTORY 106A	Global Human Geography: Asia and Africa	5
HISTORY 145B	Africa in the 20th Century	5
HISTORY 147	History of South Africa	5
HISTORY 148	The Egyptians	3-5
HISTORY 181B	Formation of the Contemporary Middle East	5
HISTORY 190	Early Chinese Thought	3-5
HISTORY 193	The Chinese Empire from the Mongol Invasion to the Boxer Uprising	5
HISTORY 194B	Japan in the Age of the Samurai	5
HISTORY 195	Modern Korean History	5
HISTORY 195C	Modern Japanese History: From Samurai to Pokemon	5

HISTORY 198	The History of Modern China	5
HISTORY 246	The Dynamics of Change in Africa	4-5
HISTORY 281B	Modern Egypt	4-5
HISTORY 283G	Place, Nature, and Life: Production of Space in European and Muslim History	4-5
HISTORY 290	North Korea in Historical Perspective	4-5
HISTORY 290E	Movies and Empire in East Asia	4-5

## Field II: The Americas

		Units
HISTORY 50A	Colonial and Revolutionary America	3
HISTORY 50B	Nineteenth Century America	3
HISTORY 50C	The United States in the Twentieth Century	3
HISTORY 54N	African American Women's Lives	3
HISTORY 61N	The Worlds of Thomas Jefferson	3
HISTORY 69Q	American Road Trips	4
HISTORY 106B	Global Human Geography: Europe and Americas	5
HISTORY 150A	Colonial and Revolutionary America	5
HISTORY 150B	Nineteenth Century America	5
HISTORY 150C	The United States in the Twentieth Century	5
HISTORY 152	History of American Law	5
HISTORY 154D		4
HISTORY 255D	Racial Identity in the American Imagination	4-5
HISTORY 256E	The American Civil War	5
HISTORY 258E	History of School Reform: Origins, Policies, Outcomes, and Explanations	3-5
HISTORY 256G	Constructing Race and Religion in America	4-5
HISTORY 260	California's Minority-Majority Cities	4-5
HISTORY 260K	Exploring American Religious History	4
HISTORY 272D	Teaching Mexican American History in High School	5

## Field III: Europe, Eastern Europe, and Russia

		Units
HISTORY 1B	Global History: The Early Modern World, 1300 to 1800	3-5
HISTORY 14N	Making the Middle Ages	3
HISTORY 15D	Europe in the Middle Ages, 300-1500	3-5
HISTORY 22S	From 'superfluous women' to the 'Yolocaust': The Experience of War in 20th Century Europe	5
HISTORY 23N	The Soviet Union and the World: View from the Hoover Archives	3
HISTORY 25N	Stalin's Europe, 1944-1948	3
HISTORY 37S	Love and Lust in the French Empire, 1830-1962	5
HISTORY 39	Modern Britain and the British Empire	3
HISTORY 40A	The Scientific Revolution	3
HISTORY 85B	Jews in the Contemporary World: Faith and Ethnicity, Visibility and Vulnerability	3
HISTORY 101	The Greeks	4-5
HISTORY 115D	Europe in the Middle Ages, 300-1500	3-5
HISTORY 139	Modern Britain and the British Empire	5
HISTORY 140A	The Scientific Revolution	5
HISTORY 185B	Jews in the Contemporary World: Faith and Ethnicity, Vulnerability and Visibility	4-5
HISTORY 202G	Peoples, Armies and Governments of the Second World War	4-5
HISTORY 218	The Holy Dead: Saints and Spiritual Power in Medieval Europe	4-5

HISTORY 220G	Demons, Witches, Old Believers, Holy Fools, and Folk Belief: Popular Religion in Russia	4-5
HISTORY 224A	The Soviet Civilization	4-5
HISTORY 230C	Paris: Capital of the Modern World	4-5
HISTORY 232G	Early Modern Cities	4-5
HISTORY 237D	The French Revolution and the Birth of Modern Politics	4-5
HISTORY 237F	20th Century British History through the Hoover Archives	4-5
HISTORY 238J	The European Scramble for Africa: Origins and Debates	5
HISTORY 283G	Place, Nature, and Life: Production of Space in European and Muslim History	4-5

## Field IV: Pre-1700

		Units
HISTORY 1B	Global History: The Early Modern World, 1300 to 1800	3-5
HISTORY 7D	Rise and Fall of Atlantic Slavery, 1500 to 1900	3-5
HISTORY 10N	Thinking About War	3
HISTORY 14N	Making the Middle Ages	3
HISTORY 15D	Europe in the Middle Ages, 300-1500	3-5
HISTORY 16	Traders and Crusaders in the Medieval Mediterranean	3-5
HISTORY 40	World History of Science	3
HISTORY 40A	The Scientific Revolution	3
HISTORY 50A	Colonial and Revolutionary America	3
HISTORY 90	Early Chinese Thought	3-5
HISTORY 94B	Japan in the Age of the Samurai	3
HISTORY 101	The Greeks	4-5
HISTORY 107D	Rise and Fall of Atlantic Slavery, 1500 to 1900	3-5
HISTORY 115D	Europe in the Middle Ages, 300-1500	3-5
HISTORY 116	Traders and Crusaders in the Medieval Mediterranean	3-5
HISTORY 140	World History of Science	5
HISTORY 140A	The Scientific Revolution	5
HISTORY 150A	Colonial and Revolutionary America	5
HISTORY 190	Early Chinese Thought	3-5
HISTORY 194B	Japan in the Age of the Samurai	5
HISTORY 206B	Intoxicated: Commodities & Globalization in the Early Modern World	4-5
HISTORY 207C	The Global Early Modern	4-5
HISTORY 218	The Holy Dead: Saints and Spiritual Power in Medieval Europe	4-5
HISTORY 232G	Early Modern Cities	4-5
HISTORY 240G	Science and Empire, 1500-1900	4-5
HISTORY 242F	Medicine in an Age of Empires	4-5
HISTORY 283G	Place, Nature, and Life: Production of Space in European and Muslim History	4-5
HISTORY 294C	First Encounters: China and the West, 1500-1860	4-5

## Global Affairs and World History Track

The Global Affairs and World History Track is designed to offer an empirically rich curriculum for Stanford students interested in international affairs. The goal is to impart an understanding of today's world through a historical examination of its evolution, from the early modern to the contemporary era. This track appeals to students who are aiming for a career in the international arena, and who seek to inform themselves about the complexities of cultural diversity and spatial differentiation on the ground. Deploying both connective and

comparative modes of analysis, majors who choose this track will acquire a robust understanding of the relevance of the past to current events.

The Global Affairs and World History track features gateway courses in Global Human Geography, a recommended skills component, a geographical concentration, and a core cluster of global and comparative offerings. Students choosing this track also develop proficiency in a foreign language at the second-year level or above. Incorporating primary sources in a language other than English into the capstone seminar or honors thesis is encouraged.

*Gateway Courses (two courses):* Students must complete two of the following courses:

		Units
HISTORY 1B	Global History: The Early Modern World, 1300 to 1800	3-5
HISTORY 1C	Global History: Empires, Technology, and Modernity	3-5
HISTORY 106A	Global Human Geography: Asia and Africa	5
HISTORY 106B	Global Human Geography: Europe and Americas	5

*Note:* If a student wishes to do more than two of these courses, the course is applied to the methodological cluster.

*Geographical Cluster (four courses):* Students select four History courses in one geographic area, such as Europe, Latin America, Asia, Middle East, or Africa. The faculty coordinator must pre-approve all courses in this cluster.

*Global and Comparative Courses (Methodological Cluster) (six courses):* Majors selecting this track take at least 6 thematic history courses of global scope. Courses offered in 2017-18 are:

		Units
HISTORY 1B	Global History: The Early Modern World, 1300 to 1800	3-5
HISTORY 1C	Global History: Empires, Technology, and Modernity	3-5

*Proficiency in a foreign language:* Students electing the Global Affairs and World History track must acquire proficiency in a foreign language through two years of college-level course work (second-year, third-quarter) or by passing a proficiency exam. Language courses do not count toward the 13 required courses in the major; students may, however, be interested in pairing this track in the History major with a foreign language minor.

*Skills Training:* Students in the Global Affairs and World History track are encouraged to acquire technical proficiencies relevant for geo-historical analysis and fieldwork abroad. Please see the Undergraduate Student Services Coordinator for further information on these courses.

Those planning to pursue research overseas are also advised to enroll in the one-credit workshop, HISTORY 299X Preparing for International Field Work: Public Service or Research in Spring Quarter.

**Overseas Study Experience:** Students electing this track are encouraged to study abroad, with a Stanford BOSP program or another program approved by the directors of the track. Course work taken overseas may be accepted for credit in the track on a case by case basis, in consultation with a faculty coordinator.

**Research Seminar for Majors:** HISTORY 209S Research Seminar for Majors fulfills Writing in the Major requirement.

**General Requirements:**

As for all History majors, students in this track must complete two lecture courses (one Europe or U.S., and one Africa, Asia, Middle East, or Latin America), two 200-level courses, a Sources and Methods seminar, and HISTORY 209S Research Seminar for Majors.

## History Tracks with Interdisciplinary Emphasis (HMIE)

There are four History Tracks with Interdisciplinary Emphasis:

- History, Philosophy, and the Arts
- History of Science and Medicine
- History and the Law
- Public History/Public Service

These tracks are designed for students who are interested in other disciplines who want to focus on the historical aspects of the subject matter covered by that discipline, who want to understand how interdisciplinary approaches can deepen their understanding of history, or who are primarily interested in developing interdisciplinary approaches to historical scholarship by combining the careful attention to evidence and context that motivates historical research with the analytic and methodological tools of science and the humanities.

In pursuing the designated requirements for all History majors, students in HMIE are required to complete their thirteen courses for the major as follows:

**Gateway Course:** Students are required to take the appropriate gateway course for their interdisciplinary track. This course introduces students to the application of particular interdisciplinary methods to the study of history. See the section on each HMIE for the gateway course appropriate to that major track. *Note:* The History and the Law track has no gateway course requirement.

**Methodological Cluster:** This cluster is designed to acquaint students with the ways in which interdisciplinary methods are employed in historical scholarship, by practicing historians and scholars in other disciplines whose work is historical. This program of study must provide methodological coherence and must be approved in advance by the student's adviser. See the section on each HMIE for the appropriate historical methods courses.

**Geographic Cluster:** History is embedded in time and place. This cluster is designed to emphasize that the purpose of studying methodology is to more fully understand the history of a particular region of the world. Students select a particular geographic region, as specified in the History major, and complete four courses in that area.

**Interdisciplinary Cluster:** These courses, taken outside the Department of History, acquaint students with the methods and approaches of another discipline appropriate for the interdisciplinary study of history. This program of study must provide methodological coherence and must be approved in advance by the student's adviser. See the section on each HMIE for appropriate interdisciplinary courses.

**Research Seminar for Majors:** HISTORY 209S Research Seminar for Majors fulfills Writing in the Major Requirement.

HMIE tracks do not mandate the breadth or concentration requirements of the General History track. IHUM courses taught by History faculty may apply to HMIE tracks only insofar as their content is specifically appropriate to the particular methodological or geographic cluster; IHUM courses are no longer offered.

## History, Philosophy, and the Arts

The History, Philosophy, and the Arts (HPA) track is designed for the student who wishes to complement his or her work in History with study in literature and philosophy, particularly in a foreign language. For the purposes of this track, Arts are defined broadly, including fine art and art history, drama, films, memoirs and autobiography, poetry and novels, as well as canonical works in philosophy, political science, and history of political thought. It appeals to students who are interested in studying the humanities and its conceptual and linguistic worlds in their historical context, or who want to focus on both the literature and history of a specific geographical area while also learning the language of that area.

**Gateway Courses (two courses):** Students must take two of the following courses:

		Units
HISTORY 1C	Global History: Empires, Technology, and Modernity	3-5
HISTORY 9N	How to Start Your Own Country: Sovereignty and State-Formation in Modern History	3
HISTORY 140A	The Scientific Revolution	5
HISTORY 201K	A History of the Global Left: Revolutionary Movements against Empire	4-5

*Note:* If a student wishes to do more than two of these courses, the course is applied to the methodological cluster.

**Methodological Cluster (two courses):** This two-course cluster teaches students how historians, in particular, analyze literary texts and philosophical works as documentary sources for writing cultural and intellectual history. Students choose two courses from among the pre-approved HPA methodology curriculum. These courses need not be in the student's geographic concentration. For 2017-18, these courses are:

		Units
HISTORY 1C	Global History: Empires, Technology, and Modernity	3-5
HISTORY 9N	How to Start Your Own Country: Sovereignty and State-Formation in Modern History	3
HISTORY 9S	Censorship & Propaganda: From Renaissance to Revolution	5
HISTORY 20N	Russia in the Early Modern European Imagination	4
HISTORY 36N	Gay Autobiography	4
HISTORY 50A	Colonial and Revolutionary America	3
HISTORY 51S	American Travel, Tourism and Empire in the Pacific, 1880s-1970s	5
HISTORY 54N	African American Women's Lives	3
HISTORY 68D	Martin Luther King, Jr.: The Inner Life and Global Vision	3-5
HISTORY 85S	A History of Strangers: Jews in the Mediterranean	5
HISTORY 95S	Protest in Modern China	5
HISTORY 115D	Europe in the Middle Ages, 300-1500	3-5
HISTORY 139	Modern Britain and the British Empire	5
HISTORY 140A	The Scientific Revolution	5
HISTORY 150A	Colonial and Revolutionary America	5

HISTORY 150C	The United States in the Twentieth Century	5
HISTORY 152	History of American Law	5
HISTORY 168D	Martin Luther King, Jr.: The Inner Life and Global Vision	3-5
HISTORY 190	Early Chinese Thought	3-5
HISTORY 198	The History of Modern China	5
HISTORY 201K	A History of the Global Left: Revolutionary Movements against Empire	4-5
HISTORY 218	The Holy Dead: Saints and Spiritual Power in Medieval Europe	4-5
HISTORY 230C	Paris: Capital of the Modern World	4-5
HISTORY 255D	Racial Identity in the American Imagination	4-5
HISTORY 290E	Movies and Empire in East Asia	4-5
HISTORY 293E	Female Divinities in China	4-5

**Geographical Cluster (four courses):** Students select four History courses in one geographic area. These are: Europe, Britain and the countries of the former British Empire, Asia, North America, Latin America, the Middle East, or Africa. These four courses must be taken in addition to the two methodological courses required above.

**Interdisciplinary Cluster (four courses):** Four courses, taken outside the Department of History, must address the literature and arts, broadly defined, of the area chosen for the geographic concentration. The student's adviser must pre-approve all courses in this cluster; these courses may not be double-counted towards a minor or major other than History.

**Research Seminar for Majors:** HISTORY 209S Research Seminar for Majors fulfills Writing in the Major requirement.

**General Requirements:** Like all History majors, students in History Interdisciplinary Programs must complete two lecture courses (one Europe or U.S., one Africa, Asia, Middle East or Latin America), two 200-level courses, a Sources and Methods seminar, and a Research Seminar for Majors.

## History of Science and Medicine

The History of Science and Medicine (HS&M) track is a collaborative program of the Department of History and the Program in the History and Philosophy of Science. The major is designed for students interested in both sciences and humanities, and in the interactions between the two. It is also especially useful for students contemplating medical school, since it allows them to study the history of medicine, biology, and allied sciences in conjunction with fulfilling the premed science requirements.

**Gateway Course (one course):** HISTORY 140A The Scientific Revolution

**Methodological Cluster (three courses):** These History courses focus on the history of science and medicine. For 2017-18, these courses are:

		Units
HISTORY 40	World History of Science	3
HISTORY 44	Women and Gender in Science, Medicine and Engineering	3
HISTORY 103E	The International History of Nuclear Weapons	5
HISTORY 140	World History of Science	5
HISTORY 203C	History of Ignorance	5
HISTORY 204D	Advanced Topics in Agnotology	4-5
HISTORY 208A	Science and Law in History	4-5
HISTORY 240	The History of Evolution	4-5
HISTORY 240G	Science and Empire, 1500-1900	4-5
HISTORY 241D	Einstein and the Structure of Reality	4-5
HISTORY 242F	Medicine in an Age of Empires	4-5

HISTORY 243G	Tobacco and Health in World History	4-5
--------------	-------------------------------------	-----

**Geographical Cluster (four courses):** Students select four History courses in one geographic area. Examples include: Europe, Britain and the countries of the former British Empire, Asia, North America, Latin America, the Middle East, or Africa. These four courses must be taken in addition to the three methodological cluster courses. Courses in the history of science, technology, and medicine that have a geographic focus may be used to fulfill this requirement, but cannot be double-counted in the methodological cluster.

**Interdisciplinary Cluster (four courses):** Students select four courses in scientific disciplines and/or in philosophy of science, anthropology of science, or sociology of science. These courses require faculty adviser pre-approval.

**Research Seminar for Majors:** HISTORY 209S Research Seminar for Majors fulfills the Writing in the Major requirement.

**General Requirements:** As with all History majors, students in History Interdisciplinary Programs must complete two lecture courses (one Europe or U.S., one Africa, Asia, Middle East or Latin America), two 200-level courses, a Sources and Methods seminar, and a Research Seminar for Majors.

## History and Law

The History and Law (HL) interdisciplinary track is for students who want to explore the intersections between historical and legal studies. The HL curriculum focuses on the role of legal institutions, policies, and structures in various societies. HL track majors enroll in at least four History department courses that focus on issues of law in civil societies and four courses that provide a geographic concentration. In addition, students enroll in four courses outside History that provide disciplinary or interdisciplinary perspectives on the role of law in shaping societies and a Research Seminar for Majors.

**Gateway Course:** There is no gateway course for this track. Instead, students take an extra course in the Methodological cluster.

**Methodological Cluster (four courses):** Students enroll in at least four History department courses, including courses outside History taught by faculty affiliated with the department, that focus on how law, policies, constitutions, and legal structures affect the development of various societies. *Note:* The Methodological Cluster for this HIP contains one extra course since there is no Gateway course.

For 2017-18, these courses are:

		Units
HISTORY 9N	How to Start Your Own Country: Sovereignty and State-Formation in Modern History	3
HISTORY 9S	Censorship & Propaganda: From Renaissance to Revolution	5
HISTORY 50B	Nineteenth Century America	3
HISTORY 61	The Politics of Sex: Work, Family, and Citizenship in Modern American Women's History	3-5
HISTORY 61N	The Worlds of Thomas Jefferson	3
HISTORY 63N	The Feminist Critique: The History and Politics of Gender Equality	3-4
HISTORY 85S	A History of Strangers: Jews in the Mediterranean	5
HISTORY 150A	Colonial and Revolutionary America	5
HISTORY 150B	Nineteenth Century America	5
HISTORY 161	The Politics of Sex: Work, Family, and Citizenship in Modern American Women's History	3-5
HISTORY 202D	The History of Genocide	4-5
HISTORY 203C	History of Ignorance	5

HISTORY 204D	Advanced Topics in Agnotology	4-5
HISTORY 208A	Science and Law in History	4-5
HISTORY 222	Crime and Punishment in Early Modern Europe and Russia	4-5
HISTORY 224A	The Soviet Civilization	4-5
HISTORY 237D	The French Revolution and the Birth of Modern Politics	4-5
HISTORY 238J	The European Scramble for Africa: Origins and Debates	5
HISTORY 243G	Tobacco and Health in World History	4-5
HISTORY 260	California's Minority-Majority Cities	4-5
HISTORY 293A	Research Seminar on Political Thought	4-5

*Geographical Cluster (four courses):* Students select four History courses in one geographic area. These are: Europe, Britain and the countries of the former British Empire, Asia, North America, Latin America, the Middle East, or Africa. These four courses must be taken in addition to the three methodological courses required above.

*Interdisciplinary Cluster (four courses):* Students may select from courses offered in the School of Law, School of Education, and others as appropriate. *Note:* Courses in the School of Law and School of Education require the permission of the instructor before undergraduate students can enroll, since these are graduate-level courses.

*Research Seminar for Majors:* HISTORY 209S Research Seminar for Majors fulfills the Writing in the Major requirement.

*General Requirements:* Like all history majors, students in History Interdisciplinary Programs must complete two lecture courses (one Europe or U.S., one Africa, Asia, Middle East or Latin America), two 200-level courses, a Sources and Methods seminar, and a Research Seminar for Majors.

### Public History/Public Service

The Public History/Public Service (PH/PS) interdisciplinary history track is designed for students who wish to include in their course of studies the application of historical study in (1) public settings such as museums and heritage sites, national and state parks, public agencies, and private foundations, and (2) public service settings in non-profit organizations, public agencies, and educational institutions.

PH/PS majors enroll in a gateway course on public history and public service and in four History department courses that provide a geographic concentration as well as completing a two-course methodological requirement. PH/PS majors must also complete an internship through a regularly offered community engaged learning course or through a summer internship or fellowship. In addition, students, in consultation with the PH/PS faculty coordinator, must complete four courses from outside the History department (see the annual listing of community engaged learning courses [Cardinal Courses] provided by the Haas Center for Public Service).

*Gateway Course (one course):* HISTORY 201 From Confederate Monuments to Wikipedia: The Politics of Remembering the Past

*Geographical Cluster (four courses):* Students select four History courses in one geographic area, such as the United States, Europe, Latin America, Asia, Middle East, or Africa.

*Interdisciplinary Cluster (four courses):* Students select four courses from outside the History department that addresses a theme or topic of interest. The faculty coordinator must pre-approve all courses in this cluster.

*Methodological Cluster (two courses):* Students must enroll in one Sources and Methods seminar course and one additional 200-level History course.

The Writing in the Major (WIM) requirement must be completed in a Research Seminar for Majors.

*Public Service/Service Learning Internship (one course):* Students must engage in at least a one quarter internship through a community engaged learning course or through a full-time public service or public history summer internship or fellowship. This internship must be pre-approved by the faculty coordinator.

Students who complete a paid summer internship in lieu of one for academic credit must enroll in 3 units of HISTORY 299S Undergraduate Directed Research and Writing with the faculty coordinator of the PH/PS track and write a 20-page research paper related to their internship work. This research paper is in addition to that required for the Research Seminar for Majors.)

The following History community engaged learning courses are offered in 2017-18:

		Units
HISTORY 201	From Confederate Monuments to Wikipedia: The Politics of Remembering the Past	5
HISTORY 260	California's Minority-Majority Cities	4-5
HISTORY 272D	Teaching Mexican American History in High School	5

If students elect to fulfill the internship requirement through a History Department service-learning course, they must enroll in an additional course in either the geographical cluster or the Interdisciplinary cluster in order to complete the 13 courses required for the major.

*Research Seminar for Majors:* HISTORY 209S Research Seminar for Majors fulfills Writing in the Major requirement.

*General Requirements:* As with all history majors, students in History Interdisciplinary Programs must complete two lecture courses (one Europe or US, one Africa, Asia, Middle East or Latin America), two 200-level courses, a Sources and Methods seminar, and a Research Seminar for Majors.

### History Secondary Teacher's Credential

Applicants for the Single Subject Teaching Credential (Secondary) in the social studies may obtain information regarding this program from the Credential Administrator, School of Education.

### Joint Major Program in History and Computer Science

The joint major program (JMP), authorized by the Academic Senate for a pilot period of six years beginning in 2014-15, permits students to major in both Computer Science and one of ten Humanities majors. See the "Joint Major Program (p. 31)" section of this bulletin for a description of University requirements for the JMP. See also the Undergraduate Advising and Research JMP web site and its associated FAQs.

Students completing the JMP receive a B.A.S. (Bachelor of Arts and Science).

Because the JMP is new and experimental, changes to procedures may occur; students are advised to check the relevant section of the bulletin periodically.

### History Major Requirements in the Joint Major Program

See the "Computer Science Joint Major Progra (p. 278)m" section of this bulletin for details on Computer Science requirements.

Students majoring in the History and Computer Science joint major program fulfill all of the breadth, focus, and WIM requirements of

the standard History major. Students in the JMP are excused from completing one elective course, reducing the required unit count of the History major from 63 to 59 units (i.e., from a minimum of 13 courses to 12 courses). All courses comprising the major must be taken for a letter grade.

For details on the requirements of the History major, see the Bachelor's tab (p. 579) of this section of this bulletin.

### Integrative Capstone Experience

One of the highlights of the JMP is an integrative capstone experience, which enables students to work with faculty mentors in the two departments to devise and complete original projects that bring together the different fields. Some students may choose to complete capstone projects under the auspices of HISTORY 209S Research Seminar for Majors which is the required Writing in the Major requirement for all History majors including those in the JMP. Others may choose to complete their capstones under the auspices of other courses in Computer Science or History, or in the context of senior honors projects in one or the other or both departments. In keeping with University policy, units obtained from a capstone course taken within a particular department can be applied to only that department's requirements.

### Declaring a Joint Major Program

To declare the joint major, students must first declare each major through Axess, and then submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) The Major-Minor and Multiple Major Course Approval Form (<https://stanford.box.com/MajMin-MultMaj>) is required for graduation for students with a joint major.

### Dropping a Joint Major Program

To drop the joint major, students must submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>). Students may also consult the Student Services Center (<http://studentservicescenter.stanford.edu>) with questions concerning dropping the joint major.

### Transcript and Diploma

Students completing a joint major graduate with a B.A.S. degree. The two majors are identified on one diploma separated by a hyphen. There will be a notation indicating that the student has completed a "Joint Major". The two majors are identified on the transcript with a notation indicating that the student has completed a "Joint Major".

## Minor in History

Students must declare the minor in History no later than Autumn Quarter of the senior year via Axess. Minor declarations are approved by the Department of History and confirmation is sent via email to the student.

Candidates for the minor in History must complete six courses, at least three of which must have a field or thematic focus. Students completing the minor may choose to concentrate in such fields as African, American, Asian, British, European (medieval, early modern, or modern), Russian and East European history, comparative empires and cultures, or such thematic topics as the history of gender, the family, religion, technology, or revolution. Students may also petition to have a concentration of their own design count toward the minor.

### Degree Requirements

All six courses must be of at least 3 units each and must be taken for a letter grade. The student must maintain a grade point average (GPA) in History courses of 2.0 (C) or higher. Two of the six courses must be small-group in format (Stanford Introductory Seminars, Sources and Methods Seminars, departmental colloquia, and research seminars). History courses taken at Stanford overseas campuses may count toward

the minor, but at least three of the six courses must be taken from Stanford History faculty.

Advanced Placement credits do not fulfill any minor requirements.

### Optional Courses for the Minor

History courses taken at non-Stanford Study Abroad programs may count toward the minor (provided the History Department approves them), but at least three of the six courses must be taken from Stanford History faculty. One course from certain Introduction to the Humanities courses and Thinking Matters courses (those taught by History faculty) may count toward the six-course requirement, but not for the three-course field of concentration. One Undergraduate Directed Research and Writing HISTORY 299S) course may count toward the minor, if taken for 3-5 units and for a letter grade. A maximum of three transfer courses may be used toward the minor.

## Coterminal Master's Program in History

The department each year admits a limited number of undergraduates for coterminal M.A. degree in History. Coterminal applications are accepted during Autumn Quarter for admission in Spring Quarter. Applicants are responsible for checking their compliance with University coterminal requirements listed in the "Coterminal Bachelor's and Master's Degrees (p. 46)" section of this bulletin.

### Admission

Applicants must meet the same general standards as those seeking admission to the M.A. program. Students must submit the Coterminal Online Application (<https://applyweb.com/stanterm>), including a written statement of purpose, a transcript, GRE test scores, and three letters of recommendation, at least two of which should be from members of the Department of History faculty. To be competitive, coterminal applicants should have a 3.75 GPA in their undergraduate history major (or equivalent if they are entering without a History major.) The decision on admission rests with the department faculty upon recommendation by the graduate admissions committee.

Students must meet all requirements for both degrees. They must complete 15 full-time quarters (or the equivalent), or three full-time quarters after completing 180 units, for a total of 225 units. During the senior year they may, with the consent of the instructors, register for as many as two graduate courses. In the final year of study, they must complete at least three courses that fall within a single Ph.D. field.

The application filing deadline is December 5, 2017.

The coterminal M.A. program is not declarable on Axess.

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken three quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

## Master of Arts in History

University requirements for the M.A. are described in the "Graduate Degrees (p. 50)" section of this bulletin.

The department requires the completion of nine courses (totaling not less than 45 units) of graduate work; seven courses of this work must be Department of History courses. Of the seven, one must be a seminar and four must be either graduate colloquia or graduate seminars. Directed reading may be counted for a maximum of 10 units. A candidate whose undergraduate training in history is deemed inadequate must complete nine courses of graduate work in the department. The department does not recognize for credit toward the M.A. degree any work that has not received the grade of 'A' or 'B.'

### Terminal M.A. Program

Applicants who do not wish to continue beyond the M.A. degree are admitted to this program at the discretion of the faculty in individual fields (U.S., modern Europe, and so on). Students admitted may not apply to enter the Ph.D. program in History during the course of work for the M.A. degree.

### M.A. in Teaching (History)

The department cooperates with the School of Education in offering the Master of Arts in Teaching degree. For the general requirements, see the "School of Education (p. )" section of this bulletin. For certain additional requirements made by the Department of History, contact the department office. Candidates must possess a teaching credential or relevant teaching experience.

### Admission

Applicants for admission to graduate work must take the General Test of the Graduate Record Examination. It may be taken at most American colleges and in nearly all foreign countries. For details, see the Graduate Admissions (<http://gradadmissions.stanford.edu>) web site.

Students admitted to graduate standing do not automatically become candidates for a graduate degree. With the exception of students in the terminal M.A. program, they are admitted with the expectation that they will be working toward the Ph.D. degree and may become candidates to receive the M.A. degree after completing three quarters of work.

The application filing deadline is December 5, 2017.

## Doctor of Philosophy in History

University requirements for the Ph.D. are described in the "Graduate Degrees (p. 50)" section of this bulletin.

Students planning to work for the doctorate in history should be familiar with the general degree requirements of the University outlined in the "Graduate Degrees (p. 50)" section of this bulletin. Those interested in applying for admission to the M.A. and Ph.D. programs should contact the graduate program coordinator in the History department. Online applications are available in September of the year prior to intended enrollment. The application filing deadline is December 5, 2017. Applicants must file a report of their general scores on the Graduate Record Examination and submit a writing sample of 10-25 pages on a

historical topic. Successful applicants for the M.A. and Ph.D. programs may enter only in Autumn Quarter.

Upon enrollment in the graduate program in History, the student has a member of the department designated as an adviser with whom to plan the Ph.D. program. Much of the first two years of graduate study is spent taking courses, and, from the outset, the student should be aware that the ultimate objective is not merely the completion of courses but preparation for general examinations and for writing a dissertation.

Admission to the Department of History in the graduate division does not establish any rights respecting candidacy for an advanced degree. At the end of the first year of graduate study, students are evaluated by the faculty and given a progress report. A decision as to whether the student is admitted to candidacy for the Ph.D. is normally made by the start of the student's third year.

After the completion of certain further requirements, students must apply for acceptance for candidacy for the doctorate in the graduate division of the University.

### Admission

Applicants for admission to graduate work must take the General Test of the Graduate Record Examination. It may be taken at most American colleges and in nearly all foreign countries. For details, see the Office of Graduate Admissions (<http://gradadmissions.stanford.edu>) web site.

Students admitted to graduate standing do not automatically become candidates for a graduate degree. With the exception of students in the terminal M.A. program, they are admitted with the expectation that they will be working toward the Ph.D. degree and may become candidates to receive the M.A. degree after completing three quarters of work.

The application filing deadline is December 5, 2017.

## Degree Requirements

### Required Courses

		Units
<b>For all first-year Ph.D. students</b>		
HISTORY 304	Approaches to History	4-5
HISTORY 305	Graduate Pedagogy Workshop	1
<b>For first-year and second-year Ph.D. students in American History</b>		
HISTORY 351A	Core in American History, Part I	4-5
HISTORY 351B	Core in American History, Part II	4-5
HISTORY 351C	Core in American History, Part III	4-5
HISTORY 351D	Core in American History, Part IV	4-5
HISTORY 351E	Core in American History, Part V	4-5
HISTORY 351F	Core in American History, Part VI	4-5

Other Graduate Core Colloquia required for Ph.D. students studying in fields other than the above are listed in the Department of History's Graduate Handbook.

### University Oral Examinations

The student is expected to take the University oral examination in the major concentration in the third graduate year.

### Dissertation

The student must complete and submit a dissertation which is the result of independent work and is a contribution to knowledge. It should evidence the command of approved techniques of research, ability to organize findings, and competence in expression. For details and procedural information, inquire in the department.

### Dissertation Committee

The reading committee consists of the principal dissertation adviser (first reader), and two additional members of the Department (second and third readers) agreed upon by the adviser and the student.

### Financial Support

Students who are admitted with financial support are provided multiple years of support through fellowships, teaching and research assistantships, and tuition grants. Applicants should indicate on the admissions application whether they wish to be considered for such support. No separate application for financial aid is required.

U.S. citizens and permanent resident aliens who are interested in area language studies in East Asia, Africa, and the republics of the former Soviet Union may request a Foreign Language and Area Studies (FLAS) fellowship application from the FLAS coordinator of the respective programs offering the FLAS (CEAS, CAS, CREEES). The FLAS application deadlines are in January and February (CAS).

### Resources

The degree requirements section relates to formal requirements, but the success of a student's graduate program depends in large part on the quality of the guidance received from faculty and on the library resources available. Prospective graduate applicants are advised to study the list of History faculty and the courses this faculty offers. As to library resources, no detailed statement is possible in this bulletin, but areas in which library resources are unusually strong are described following.

The University Library maintains strong general collections in almost all fields of history. It has a very large microtext collection, including, for instance, all items listed in Charles Evans' American Bibliography, and in the Short-Title Catalogues of English publications, 1474-1700, and virtually complete microfilmed documents of the Department of State to 1906. It also has a number of valuable special collections including the Borel Collection on the History of California; many rare items on early American and early modern European history; the Brasch Collection on Sir Isaac Newton and scientific thought during his time; the Gimon Collection on French political economy, and other such materials.

The rich collection of the Hoover Institution on the causes, conduct, and results of WW I and WW II are being augmented for the post-1945 period. The materials include government documents, newspaper and serial files, and organization and party publications (especially the British and German Socialist parties). There are also important manuscript collections, including unpublished records of the Paris Peace Conference of 1919 and the Herbert Hoover archives, which contain the records of the Commission for Relief in Belgium, the American Relief Administration, the various technical commissions established at the close of WW I for reconstruction in Central and Eastern Europe, the personal papers of Herbert Hoover as United States Food Administrator, and other important personal papers. Other materials for the period since 1914 relate to revolutions and political ideologies of international importance; colonial and minority problems; propaganda and public opinion; military occupation; peace plans and movements; international relations; international organizations and administration including the publications of the United Nations, as well as principal international conferences. The Hoover Institution also possesses some of the richest collections available anywhere on the British labor movement; Eastern Europe, including the Soviet Union; East Asia (runs of important newspapers and serials and extensive documentary collections, especially for the period of WW II); and Africa since 1860, especially French-speaking Africa, the former British colonies, and South Africa.

### Requirements

1. In consultation with the adviser, students select an area of study from the list below in which to concentrate their study and later take the University oral examination. The major concentrations are:

- Europe, 300-1500
  - Europe, 1400-1800
  - Europe since 1700
  - Jewish History
  - Russia
  - Eastern Europe
  - Middle East and Central Asia
  - South Asia
  - East Asia before 1600
  - China since 1600
  - Japan since 1600
  - Korea since 1800
  - Africa
  - Britain and the British Empire since 1460
  - Latin America
  - The United States (including colonial America)
  - The History of Science and Medicine
  - Transnational, International, and Global
2. The department seeks to provide a core colloquium in every major concentration. Students normally enroll in this colloquium during the first year of graduate study.
  3. Students are required to take two research seminars, at least one in the major concentration. Normally, research seminars are taken in the first and second years.
  4. Each student, in consultation with the adviser, defines a secondary concentration. This concentration should represent a total of four graduate courses or their equivalents, and it may be fulfilled by working in a historical concentration or an interdisciplinary concentration. The historical concentrations include:
    - a. One of the concentrations listed above (other than the student's major concentration).
    - b. One of the concentrations listed below, which falls largely outside the student's major concentration:
      - The Ancient Greek World
      - The Roman World
      - Europe, 300-1000
      - Europe, 1000-1400
      - Europe, 1400-1600
      - Europe, 1600-1789
      - Europe, 1700-1871
      - Europe since 1848
      - England, 450-1460
      - Britain and the British Empire, 1460-1714
      - Britain and the British Empire since 1714
      - Russia to 1800
      - Russia since 1800
      - Eastern Europe to 1800
      - Eastern Europe since 1800
      - Jewish History
      - Middle East and Central Asia to 1800
      - Middle East and Central Asia since 1800
      - Africa
      - South Asia
      - China before 1600
      - China since 1600
      - Japan before 1600
      - Japan since 1600
      - Latin America to 1825

- Latin America since 1810
  - The United States (including Colonial America) to 1865
  - The United States since 1850
  - The History of Science and Medicine
  - Transnational, International, and Global
- c. Work in a national history of sufficiently long time to span chronologically two or more major concentrations. For example, a student with Europe since 1700 as a major concentration may take France from 1000 to the present as a secondary concentration.
- d. A comparative study of a substantial subject across countries or periods. The secondary concentration requirement may also be satisfied in an interdisciplinary concentration. Students plan these concentrations in consultation with their advisers. Interconcentrations require course work outside the Department of History which is related to the student's training as a historian. Interdisciplinary course work can either add to a student's technical competence or broaden his or her approach to the problems of the research concentration.
5. Each student, before conferral of the Ph.D., is required to satisfy the department's teaching requirement.
6. There is no University or department foreign language requirement for the Ph.D. degree. A reading knowledge of one or more foreign languages is required in concentrations where appropriate. The faculty in the major concentration prescribes the necessary languages. In no concentration is a student required to take examinations in more than two foreign languages. Certification of competence in commonly taught languages (that is, French, German, Italian, Portuguese, Russian, and Spanish) for candidates seeking to fulfill the language requirement in this fashion is done by the appropriate language department of the University. Certification of competence in other languages is determined in a manner decided on by faculty in the major concentration. In either case, certification of language competence must be accomplished before a student takes the University oral examination.
7. The student is expected to take the University oral examination in the major concentration in the third graduate year.
8. The student must complete and submit a dissertation which is the result of independent work and is a contribution to knowledge. It should evidence the command of approved techniques of research, ability to organize findings, and competence in expression. For details and procedural information, inquire in the department.

## Overseas Studies Courses in History

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		Units
OSPAUSTL 40	Australian Studies	3
OSPBER 70	The Long Way to the West: German History from the 18th Century to the Present	4-5
OSPCTWN 38	Genocide: African Experiences in Comparative Perspective	3-5
OSPFLOR 43	Machiavelli	3-4
OSPFLOR 49	On-Screen Battles: Filmic Portrayals of Fascism and World War II	5
OSPFLOR 53	Italy and Italians at War: 1939-1945	3
OSPFLOR 58	Space as History: Social Vision and Urban Change	4
OSPFLOR 115Y	Building the Cathedral and the Town Hall: Constructing and Deconstructing Symbols of a Civilization	4
OSPMADRD 47	Cultural Relations between Spain and the United States: Historical Perceptions and Influences, 1776-2	4
OSPOXFRD 41	Western Thought: Origins of Twentieth Century Semiotics	5
OSPOXFRD 65	Plagues and the History of Great Britain	4
OSPPARIS 81	France During the Second World War: Between History and Memory	5

## Ph.D. Minor in History

Students pursuing a Ph.D. other than in History may apply for the Ph.D. Minor in History. Ph.D. students cannot pursue a minor in their own program. The minimum University requirement for a Ph.D. minor is 20 units of History course work at the graduate level (courses numbered 300 and above) at Stanford. All units should be in a single field. Units taken for the minor can be counted as part of the overall requirement for the Ph.D. of 135 units taken at Stanford. Courses used for a minor may not be used to meet the requirements for a master's degree.

### Degree Requirements

20 units of History course work at the graduate level (HISTORY 300-399W and 400-499X) at Stanford. All units should be in a single field.

### Optional Courses for the Minor

A Ph.D. minor form outlining the program of study must be approved by the major and minor departments.

*Emeriti:* (Professors) Barton J. Bernstein, Albert Camarillo, Peter Duus, Terence Emmons, Harold L. Kahn, David M. Kennedy, Carolyn Lougee Chappell, Mark Mancall, Peter Paret, Paul A. Robinson, Paul Seaver,

OSPSANTG 62	Topics in Chilean History	4-5
OSPSANTG 68	The Emergence of Nations in Latin America	4-5

# HUMAN BIOLOGY

Courses offered by the Program in Human Biology are listed under the subject code HUMBIO on the Stanford Bulletin's ExploreCourses web site.

The program offers a Bachelor of Arts and a Bachelor of Science in Human Biology, as well as a minor and an honors program.

## Mission of the Undergraduate Program in Human Biology

The mission of the undergraduate program in Human Biology is to provide students with an interdisciplinary approach to understanding human beings from biological, behavioral, social, and cultural perspectives. Courses in the major allow students to see connections and parallels with other fields as they learn to formulate and evaluate health, environmental, and other public policy issues that influence human welfare. The program prepares majors to pursue advanced training in professional or graduate programs.

To achieve these goals, all students complete a 30-unit core sequence, normally in the sophomore year, which provides the foundation for the major. Also during the sophomore year, students consult with student advisers to choose a faculty adviser and complete the declaration process. Together they plan a road map of course work designed to help each student focus on an Area of Concentration within Human Biology. Early planning and subsequent refining of an individualized course of study, in consultation with student and faculty advisers, is a strength and requirement of the program. The curriculum draws on faculty from across the University. To complete a B.A. or B.S. in Human Biology, students must take courses from within the program and from other University departments. Many Human Biology majors go on to advanced training in professional schools, or graduate programs in the behavioral, natural, and social sciences, including coterminal master's degree programs in other University departments. Additional information about the major may be obtained from the program's offices or at the Program in Human Biology (<https://humanbiology.stanford.edu>) web site.

## Learning Outcomes (Undergraduate)

The program expects its undergraduate majors to be able to demonstrate the following learning outcomes.

### Communication

Because Human Biology is an interdisciplinary program with an emphasis on both empirical inquiry and applied knowledge, excellent communication skills are critical to majors. Successful students must be able to engage with literature and audiences not only from multiple disciplines but also with varying levels of subject expertise and to communicate information and ideas clearly, precisely, concisely, and purposefully in any setting. Toward this end, a graduate of Human Biology is expected to be able to:

1. adopt an appropriate style for written communication in the biological and social sciences
2. accurately summarize a scientific article
3. synthesize and criticize multiple sources of scientific literature
4. revise effectively in response to feedback
5. write collaboratively
6. present information visually in a variety of forms (charts, graphs, figures, and posters) for different audiences, purposes, and occasions
7. communicate in a variety of major scientific genres (such as abstracts, literature reviews, posters, research proposals, research presentations, and policy proposals) and popular genres (such as op-eds, PSA, podcasts, and science blogs)

8. use citations to provide context and to credit others for their intellectual contributions
9. communicate scientific knowledge to both specialist and non-specialist audiences
10. construct a well-supported, logical argument based on relevant evidence and established conceptual frameworks
11. frame a research question in relation to the current state of knowledge in a field
12. articulate a well-reasoned hypothesis
13. listen to any speaker and pose questions
14. deliver an oral presentation and respond to audience questions

### Data Analysis

Data is used in the social and biological sciences to make observations and judgments regarding patterns of human behavior and function. These data are sometimes imperfect or incomplete, but they are used nevertheless to make decisions and policies regarding humans individually and in groups within the worlds they inhabit. Thus, students should cultivate a capacity within the Human Biology major to examine and analyze data. A graduate of Human Biology is expected to be able to:

1. recognize that different scientific disciplines draw on various sources and types of evidence
2. translate a research topic into a hypothesis or focused question that can be tested using quantitative or qualitative data
3. identify variables that are relevant to a study and describe their nature (e.g., categorical, continuous) and interrelationships (independent, dependent, covariates)
4. use statistical software to summarize and describe data of various types
5. choose an appropriate analytical framework or statistical model for testing a given hypothesis, considering the structure of the data (e.g., sample size, distribution, qualitative or quantitative nature)
6. employ quantitative or qualitative data to support a conclusion
7. judge whether a statistical association provides empirical support for causation
8. detect mistakes commonly made in empirical reasoning and data analysis
9. assess the limits of available data and identify potential sources of uncertainty
10. present data accurately, clearly, and effectively in the forms of tables, graphs, and figures
11. explore specialized modes of data analysis such as meta-analysis, bioinformatics, modeling, and epidemiological approaches

### Scientific Literacy

The Program in Human Biology prepares students to join a broad scientific community with a culture of building and sharing knowledge. A goal of the major is to cultivate judicious consumers of research in the natural and social sciences, irrespective of their individual career paths. A graduate of Human Biology is expected to be able to:

1. appreciate the distinct roles of common genres of scientific writing, including peer-reviewed research papers, review articles, commentaries, and popular science writing
2. acknowledge and apply the normative and ethical standards of conducting and publishing research, including accuracy, transparency, and responsibility to colleagues and subjects
3. evaluate the credibility and importance of a published article and its relevance within a field
4. engage with peer-reviewed scientific literature actively and critically
5. identify research questions, understand their theoretical or practical importance

6. assess research methodologies and experimental or other study design
7. evaluate evidence and statistical analyses presented in support of claims
8. interpret data presented in a table, graph, or figure
9. use a hypothesis or framework to make predictions or pose questions about a novel setting

## Student Advisers

Human Biology has an advising program comprising faculty and student advisers. Before declaring Human Biology as the undergraduate major, each student must meet with student advisers who assist in developing a coherent study plan based on an individualized Area of Concentration, and the selection of breadth, depth, and upper-division courses. The student advisers also assist students in selecting an appropriate faculty adviser and a suitable capstone experience for their Area of Concentration and career goals. Student advisers offer drop-in services during scheduled office hours every weekday.

## Storey House

Storey House, 544 Lasuen Mall, is an undergraduate resident theme house for Human Biology, devoted to developing an intellectual community among Human Biology majors at Stanford and allowing faculty and students to become acquainted and to share their Human Biology interests and research. Its goals are to foster intellectual discussion in the residential lives of the students living in Storey House, mentoring relationships between upperclassmen and core students in the house, and stimulating events for all Human Biology majors facilitated by academic theme associates. Assignment is made through pre-assignment and the regular undergraduate housing draw.

## Declaring the Major

The program offers a Bachelor of Arts and Bachelor of Science in Human Biology. A prospective major must consult with the student and faculty advisers to obtain detailed information about the program and guidance in the development of an individual course of study.

At the time the major is declared, the student must submit a written statement (3-5 pages) of academic and long-term goals and the proposed list of courses satisfying the requirements for the major. The proposal is then reviewed by the student advisers who help identify an appropriate faculty adviser.

It is important to declare in the sophomore year, and planning may begin once a student in good academic standing has passed two of six courses in the core. The University requires students to declare a major by the end of Spring Quarter of the sophomore year.

Students who plan to pursue graduate work should be aware of the admission requirements of the schools to which they intend to apply. Early planning is advisable to guarantee completion of major and graduate school requirements.

## Fundamental Program Requirements (34+ units)

Both degree programs, B.A. and B.S., require that the student complete all three of the Human Biology Fundamental Program requirements which include the Human Biology core, statistics and capstone.

### Human Biology Core (30 units)

The required core sequence introduces the biological and social sciences and, most importantly, relationships between the two. Classes meet throughout the academic year. The A and B series are designed to be taken concurrently. Students should initiate the core in Autumn Quarter

of the sophomore year. Freshmen are not permitted to enroll. Majors must earn a minimum letter grade of 'C-' in core courses. The Human Biology core consists of the following courses:

		Units
HUMBIO 2A	Genetics, Evolution, and Ecology	5
HUMBIO 2B	Culture, Evolution, and Society	5
HUMBIO 3A	Cell and Developmental Biology	5
HUMBIO 3B	Behavior, Health, and Development	5
HUMBIO 4A	The Human Organism	5
HUMBIO 4B	Environmental and Health Policy Analysis	5
Total Units		30

### Statistics (3-5 units)

The statistics course must be taken for a letter grade by majors. The minimum grade requirement is 'C-'. (*Note:* Students who did not declare before September 21, 2015, may not use STATS 60 to fulfill the statistics requirement.) Statistics may be chosen from courses such as:

		Units
BIO 141	Biostatistics	3-5
CME 106	Introduction to Probability and Statistics for Engineers	4
CS 109	Introduction to Probability for Computer Scientists	3-5
ECON 102A	Introduction to Statistical Methods (Postcalculus) for Social Scientists	5
EDUC 400A	Introduction to Statistical Methods in Education	3-4
HRP 259	Introduction to Probability and Statistics for Epidemiology	3-4
HUMBIO 85A	Essential Statistics for Human Biology	4
HUMBIO 88	Introduction to Statistics for the Health Sciences	4
HUMBIO 89	Statistics in the Health Sciences	3
SOC 181B	Sociological Methods: Statistics	5
STATS 116	Theory of Probability	3-5

In certain circumstances, students completing an additional major or minor in another department may submit a petition to waive the units requirement for Statistics; contact Human Biology Student Services for more information.

### Capstone (1-7 units)

The following options fulfill the Capstone (<https://humanbiology.stanford.edu/capstone>) requirement:

1. *Human Biology Practicum*: HUMBIO 191 Human Biology Practicum (1 unit total, S/NC grading). Allows students to integrate their academics with their community-engaged learning, research or pre-professional experiences through reflective written work and presentation; well-suited for career-enhancing project presentations or expressions of personal values and purpose. Required for students who wish to enroll in the Human Biology Synthesis (HUMBIO 192). Students can take workshops over several quarters, and enroll in one unit of 191 for the quarter they complete their five workshops.
2. *Human Biology Synthesis (by application)*: This sequence should be taken for 2-3 units in Autumn (HUMBIO 192A Human Biology Synthesis), Winter (HUMBIO 192W Human Biology Synthesis) and/or Spring (HUMBIO 192S Human Biology Synthesis) for 6 units total, letter grade (corequisite HUMBIO 191 Human Biology Practicum). The sequence expands upon the work of the Human Biology Practicum, although the student may also focus on a different aspect of the area of concentration topic. It allows students the opportunity to craft a culminating, creative work of scholarship based on a synthesis of personal and academic interests, including service projects. The work must be exhibited during senior year.

3. *Honors in Human Biology (by application)*: HUMBIO 194 Honors also satisfies the Capstone requirement.
4. Non-Human Biology activities that fulfill the Capstone requirement:
  - a. Biology Senior Reflection
  - b. Notation in Science Communication
  - c. Interdisciplinary Honors

## Bachelor of Arts in Human Biology

The B.A. in Human Biology (HUMBIO) requires 81+ units in the major divided among four levels of courses: fundamental program requirements, breadth requirement, depth requirement and upper-division.

The B.A. degree is designed for students who prefer a traditional liberal arts degree with a curriculum based across the natural sciences, social sciences, and humanities. The degree is suitable regardless of whether a student plans to attend graduate or professional school. The B.A. degree gives students a solid foundation in biology, while allowing students more flexibility and breadth in the social sciences and humanities.

For the B.A. degree, majors take 10 or more units of breadth courses and 5 or more classes in the upper-division and depth courses from a set of pre-approved Social Sciences and Humanities courses. For the 5 or more B.A. eligible courses in your Depth and Upper Division, 3 of those courses must be in the Depth section. Many pre-approved courses satisfy University Ways of Thinking and Doing requirements, specifically Aesthetic and Interpretive Inquiry, Creative Expression, Engaging Diversity, Ethical Reasoning, and Social Inquiry. Students still also take courses in the natural sciences, although fewer than for the B.S. degree.

## Bachelor of Science in Human Biology

The B.S. in Human Biology (HUMBIO) requires 81+ units in the major divided among four levels of courses: fundamental program requirements, breadth requirement, depth requirement and upper-division.

The B.S. degree allows students a more scientific and technical focus for their studies, and requires completion of course work and specialization in the biological sciences, physical sciences, mathematics, and/or computer science and engineering.

For the B.S. degree, majors take 10 or more units of breadth courses and 5 or more classes in the upper-division and depth courses from a set of pre-approved life and natural sciences courses. For the five or more B.S. eligible courses in the depth and upper division, three of those courses must be in the depth section. Many pre-approved courses satisfy University Ways requirements, specifically applied quantitative reasoning, formal reasoning, and scientific methods and analysis courses. Students still also take courses in the social sciences or humanities, although fewer than for the B.A. degree.

## Breadth and Depth Requirement

These courses inform the student's chosen area of concentration topic. The student selects courses for these two requirement categories, in consultation with the advising program who approve the final course selections. A Human Biology area of concentration topic generally falls within one (or a combination of 2) of the following areas of emphasis:

- Environment and Environmental Policy
- Health and Health Policy
- Human Performance
- Human Development
- Biomedical Science and Biocomputation
- Brain and Behavior
- Ethics and Medical Humanities

- Evolution

### Breadth Requirement (20+ units)

20-unit minimum, consistent with the student's chosen area of concentration topic. This requirement allows the student to explore the topic with a broad focus. Courses may include introductory-level courses from across the University and lab courses, and may be taken for credit or letter grade. The minimum grade requirement is 'C-'.

### Depth Requirement (20+ units)

A minimum of five courses totaling at least 20 units consistent with the student's chosen area of concentration topic. This requirement allows the student to gain expertise on the topic and to focus on educational and post-baccalaureate goals. Courses are non-introductory and are usually numbered over 100. Three or more departments must be represented in the depth requirement. Each course must be taken for a letter grade and at least three units. The minimum grade requirement is 'C-'. Three or more courses in the Depth must be in your chosen degree option of B.S. or B.A..

### Upper-Division Requirement (9+ units)

Students must take three Human Biology upper-division courses numbered 100 to 189. These courses should be used to explore subjects outside the depth requirement. One upper-division course may be taken satisfactory/no credit. Each course must be taken for a minimum of 3 units. Minimum grade requirement for upper-division courses is 'C-'. All non-laboratory advanced HUMBIO courses (those numbered 100 to 189) fulfill the Human Biology upper-division requirement. A list of Overseas Studies courses that satisfy upper-division requirements and are given in 2016-17 can be found on the Overseas tab (p. 596) of this section of this bulletin.

## Honors Program

The honors program in Human Biology provides qualified majors the opportunity to work closely with faculty on an individual research project, culminating in an honors thesis. Students may begin honors research from a number of starting points including topics introduced in the core or upper-division courses; independent interests stemming from an internship experience; or collaborating with faculty from the natural, social, or behavioral sciences.

Students may apply to the honors program if they have completed the Human Biology core with a minimum GPA of 3.0, have an overall Stanford GPA of 3.2, and meet other requirements detailed in the honors handbook. Interested students should consult the Human Biology Honors web site (<http://humanbiology.stanford.edu/academics/honors>) and meet with the Human Biology Associate Director or student services officer.

Most honors projects involve a total of 10-15 units of course work in HUMBIO 193 and 194:

		Units
HUMBIO 193	Research in Human Biology	1-5
HUMBIO 194	Honors	1-10

Admission to the honors program is by preliminary application in early February, followed by the full application in early March of the junior year. Students planning to undertake honors begin research or preparation as early as completion of the sophomore year.

The honors thesis is normally completed by the middle of Spring Quarter of the senior year. Honors students present summaries of their research at the Human Biology Honors Poster Symposium in May.

Human Biology also holds a Summer Honors College just prior to Autumn Quarter each year for students who have applied to the honors program. Students apply to Summer Honors College in April of the junior year.

## Minor in Human Biology

A minor in Human Biology provides an introductory background to the relationship between the biological and social aspects of humanity's origin, development, and future. Many of the major problems facing human civilization today involve both biological and social aspects. Scientific approaches to these problems are essential, but they must be broadly conceived, integrating what is known of the biological with an understanding of the social and cultural setting in which they exist. Students with a minor in Human Biology are expected to develop a strong background in the integration between the biological and social aspects of human beings.

Students declaring a minor in Human Biology must do so no later than two quarters prior to their intended quarter of degree conferral (for example, a student must declare a minor before the end of Autumn Quarter to graduate the following Spring Quarter).

To minor in Human Biology, students must take the Human Biology Core:

- HUMBIO 2A Genetics, Evolution, and Ecology
- HUMBIO 2B Culture, Evolution, and Society
- HUMBIO 3A Cell and Developmental Biology
- HUMBIO 3B Behavior, Health, and Development
- HUMBIO 4A The Human Organism
- HUMBIO 4B Environmental and Health Policy Analysis
- and one additional upper-division course (for example, any HUMBIO course numbered 100-189).

The student must earn a minimum letter grade of 'C-'. Courses that count towards the fulfillment of major requirements may not be counted towards the minor.

*Emeriti* (Professors) Carol Boggs (Biology), Doug Brutlag (Biochemistry), Stanley Falkow (Microbiology/Immunology), A. Dale Kaiser (Biochemistry), Herant Katchadourian (Human Biology), Donald Kennedy (Biology), Gordon Matheson (Orthopaedic Surgery), Ellen FitzSimmons Porzig (Developmental Biology), Carol Winograd (Medicine)

*Director* Paul Fisher (Neurology)

*Associate Director* Katherine Preston

*Professors* Laurence Baker (Health Research and Policy), Ben Barres (Neurobiology), Donna Bouley (Comparative Medicine), William H. Durham (Anthropology), Heidi Feldman (Pediatrics: Neonatology), Russell D. Fernald (Biology), Paul Fisher (Neurology), Margaret Fuller (Developmental Biology), Angela Garcia (Anthropology), Garry Gold (Rad/Musculoskeletal Imaging), Lawrence H. Goulder (Economics), James J. Gross (Psychology), H. Craig Heller (Biology), Jill Helms (Surgery: Plastics), Richard Klein (Anthropology and Biology), Tanya Luhrmann (Anthropology), Yvonne Maldonado (Pediatrics: Infectious Diseases), Michael Marmor (Ophthalmology), Roeland Nusse (Developmental Biology), Ruth O'hara (Psychiatry and Behavioral Sciences) Amado Padilla (Education), Julie Parsonnet (Infectious Diseases), Rob Reich (Political Science), Allan Reiss (Interdisciplinary Brain Science Research), Thomas Robinson (Pediatrics), Robert Sapolsky (Biology), Walter Scheidel (Classics and History), Randall Stafford (Stanford Prevention Research Center), William Talbot (Developmental Biology), Shripad Tuljapurkar (Biology), Jeffrey Wine (Psychology), Paul Wise (Pediatrics: Neonatology)

*Associate Professors* Kate Bundorf (Health Reserach and Policy), Anne Fernald (Psychology), Jeremy Goldhaber-Fiebert (Primary Care and Outcomes Research), Brenda Golianu (Anesthesia), Joachim Hallmayer (Psychiatry and Behavioral Sciences - Child and Adolescent Psychiatry

and Child Development), Peter Kao (Pulmonary and Critical Care Medicine), Norman G. Miller (Primary Care and Outcomes Research), Jelena Obradovic (Education)

*Assistant Professors* Geoffrey Abrams (Orthopaedic Surgery), Sanjay Basu (Primary Care and Outcomes Research), Eran Bendavid (General Internal Medicine), Jorah Dannenberg (Philosophy), Alvan Ikoku (Comparative Literature), Anshul Kundaje (Genetics and Computer Science), Michelle Monje-Deisseroth (Neurology), Jamie Zeitzer (Psychiatry and Behavioral Sciences)

*Professor (Research)* Christopher Gardner (Stanford Prevention Research Center), David Lyons (Psychiatry and Behavioral Sciences), Marcia Stefanick (Stanford Prevention Research Center)

*Associate Professor (Research)* Karen Parker (Psychiatry and Behavioral Sciences)

*Professors (Teaching)* Donald Barr (Pediatrics), David Magnus (Pediatrics/SCBE), Robert Siegel (Microbiology and Immunology), Gary Darmstadt (Pediatrics - Neonatology)

*Associate Professors (Teaching)* Catherine Heaney (Psychology), Lianne Kurina (General Internal Medicine), Eunice Rodriguez (Pediatrics), Kristin Sainani (Health Research and Policy – Epidemiology)

*Clinical Assistant Professors* Cynthia Nguyen (Psychiatry and Behavioral Sciences), Rita Popat (Health Research and Policy, Epidemiology), Daryn Reicherter (Psych/Public Mental Health & Population Sciences)

*Senior Research Scholar* Wesley F. Alles (Med/HIP/BeWell)

*Other Teaching Faculty and Staff* William Abrams, Maya Adam (Pediatrics - Infectious Diseases), Judy Chu, Sophia Colamarino (Psychiatry and Behavioral Sciences), Anne Firth-Murray, Anne Friedlander, Ronald Garcia (Center for Excellence), Renu Heller (Biology), Catherine Ley (Infectious Diseases), Mark Mabry, Lisa Medoff, Joe Nation (Public Policy), Katherine Preston, Lisa Goldman Rosas (Stanford Prevention Research Center), Annette Salmeen, Clea Sarnquist (Pediatrics - Infectious Diseases), Darwin Scott Smith (Microbiology and Immunology), Clyde Wilson, Jennifer Wolf (Education)

*Course Associates* Andrea Fisher, Annie Kaufman, David Ly, Christine Nguyen, Siyou Song, Sarita Sooklal, Taylor Streaty, Jazzmin Williams

*Honors Chair* Katherine Preston

## Overseas Studies Courses in Human Biology

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		Units
OSPAUSTL 10	Coral Reef Ecosystems	3
OSPAUSTL 25	Freshwater Systems	3
OSPAUSTL 30	Coastal Forest Ecosystems	3
OSPCTWN 43	Public and Community Health in Sub-Saharan Africa	3

OSPCPTWN 63	Socio-Ecological Systems	3
OSPCPTWN 67	ICT4D: An Introduction to the Use of ICTs for Development	3
OSPFLOR 85	Bioethics: the Biotechnological Revolution, Human Rights and Politics in the Global Era	4
OSPMADRD 57	Health Care: A Contrastive Analysis between Spain and the U.S.	4
OSPMADRD 72	Issues in Bioethics Across Cultures	4
OSPOXFRD 19	Constructing Natures: Science and Technology in the British Landscape	5
OSPOXFRD 58	Ethical, Legal, and Policy Issues in the Biosciences: Comparative Perspectives	3
OSPPARIS 98	Global Health Systems: the Future	5

# HUMAN RIGHTS

Courses offered by the WSD Handa Center for Human Rights and International Justice are listed under the subject code HUMRTS (<https://explorecourses.stanford.edu/search?view=catalog&filter-coursestatus-Active=on&page=0&catalog=&academicYear=20162017&q=HUMRTS&collapse=>) on the Stanford Bulletin's ExploreCourses web site.

WSD Handa Center for Human Rights and International Justice is the newest addition to the Stanford Global Studies Division. Originally founded in 2000 at the University of California Berkeley by Professor David Cohen, the Handa Center relocated to Stanford in May 2014.

The Handa Center is dedicated to promoting the rule of law, accountability, and human rights around the world through education, critical scholarship, and policy advocacy. Working within the School of Humanities and Sciences, the Handa Center supports academic and professional development opportunities for undergraduates and graduate students interested in pursuing work in human rights or international justice. The Center offers career and academic advising, research opportunities, campus events, and student fellowship funding.

The Center also invites student participation in a diverse portfolio of well-established international programs. These include innovative human rights-related digital archival resource development efforts, justice-sector capacity-building programs, community-engaged learning initiatives, and international criminal trial monitoring opportunities.

The Handa Center's interdisciplinary Human Rights Minor ensures students receive invaluable mentorship from experienced human rights scholars and practitioners, while lending academic rigor to the scholastic experience of the undergraduates who choose this path. The minor provides structure to diverse academic offerings on human rights-related topics, encouraging students from across the University to understand how human rights are interconnected across seemingly disparate disciplines.

The Human Rights Minor is open to students in any major.

To declare the Human Rights Minor, students must:

1. Contact Handa Center Program Manager Jessie Brunner ([jbrunner@stanford.edu](mailto:jbrunner@stanford.edu)) to state your interest in the Human Rights Minor.
2. You will receive a personalized human rights minor declaration form to complete.
3. Once you have completed the form, schedule an appointment to review your preliminary academic plan with Handa Center staff. All plans will be reviewed by Faculty Director, David Cohen.
4. Once the Faculty Director has approved your academic plan, you may declare Human Rights as your minor in Axess.

## Requirements

1. Completion of a minimum of 25 units of Human Rights-related course work. Students may not double-count courses for completing major and minor requirements.
2. Gateway: HUMRTS 101: Crossdisciplinary Perspective on Human Rights Theory and Practice (4 units)
3. At least one course across each of three streams:
  - a. Foundations
  - b. Contemporary issues
  - c. Practice
4. Capstone: HUMRTS 199 Human Rights Capstone (3-5 units)

5. Under the supervision of an Academic Council member, students propose and complete a capstone project. This should either include:
  - a. a 25-page research paper on a human rights topic approved by the supervising faculty; or
  - b. an alternative culminating work requiring equivalent effort such as an original short film produced by the student, an annotated digital human rights database, a curated exhibit, or a software application designed to address human rights challenges, approved in advance by the supervising faculty.
6. At least 10 of the 25 units must be completed on Stanford's campus.
7. All courses to be counted toward the minor must be taken for a letter grade, except where letter grades are not offered, as required by University policy.
8. All students must maintain a GPA of no less than 3.0 in the classes counting toward the minor.

*Director:* David Cohen

*Associate Director:* Penelope Van Tuyl

*Faculty Advisory Board:* JP Daughton (History), Larry Diamond (Political Science, Faculty Director of the Haas Center for Public Service), James Fearon (Political Science, Frank Fukuyama (Political Science, Director of CDDRL), Katherine Jolluck (History), Margaret Levi (Political Science, Director of CASBS), Tanya Luhrmann (Anthropology), Anne Firth Murray (Feminist, Gender, and Sexuality Studies), Norman Naimark (History, Director of SGS), Josh Ober (Classics and Philosophy), David Palumbo-Liu (English and Comparative Literature), Richard Roberts (History, Co-Director of the Center for African Studies), Beth Van Schaack (Law, International Policy Studies), Jeremy Weinstein (Political Science), Paul Wise (Medicine)

# HUMANITIES

The undergraduate minor in Humanities provides Stanford students with a broad foundation in the humanities, emphasizing literature, philosophy, and history. The program combines this general knowledge with a focus on the particular cultures of a global region and allows students to reflect on and discuss many of the critical questions that arise everywhere that human beings live together.

## Requirements

Students in any field qualify for the Humanities minor by meeting the following requirements.

Courses applied to the minor must be taken for a letter grade where offered, and must count for a minimum of 3 units; a grade point average (GPA) of 2.0 or better must be achieved in each course. All electives must be approved by the faculty directors. Bing Overseas courses may count with pre-approval of the faculty director Dan Edelstein. Transfer credit and AP credit do not apply to this minor. Courses applied toward the minor may not fulfill requirements for another degree.

The Humanities Core consists of:

1. a required foundational lecture course, introducing students to key texts and ideas from antiquity that underpin major civilizations
2. a required three quarter track exploring different intellectual and cultural traditions; students choose a track and take all three of the courses in it
3. two additional courses in a humanities department chosen by the student. Students should consult with a faculty director on their choice of electives. Students choose between two options:
  - a. pursue an in-depth sequence of two courses related to their track of choice within a single humanities department, or
  - b. pursue a broader sequence of two courses related to their track of choice in two different humanities departments, ideally selecting from among the disciplinary gateway courses such as:
    - ARTHIST 1B Introduction to the Visual Arts: History of Western Art from the Renaissance to the Present
    - DLCL 100 CAPITALS: How Cities Shape Cultures, States, and People
    - HISTORY 1A Global History: The Ancient World (not offered this year) or HISTORY 1B Global History: The Early Modern World, 1300 to 1800
    - PHIL 1 Introduction to Philosophy
    - TAPS 1 Introduction to Theater and Performance Studies

### Units

#### Foundation Course

Offered once a year; in 2017-18 it is offered in Winter Quarter	3
HUMCORE 1 Humanities: An Introduction to How Humans Think About Themselves	

#### Traditions

Students choose one track and take all three courses	9
European (9 total units, 3 per course, count toward the minor unit requirement)	
HUMCORE 11 Humanities Core: Great Books, Big Ideas – Europe, The Ancient World	
HUMCORE 12 Humanities Core: Great Books, Big Ideas – Europe, Middle Ages and Renaissance	
HUMCORE 13 Humanities Core: Great Books, Big Ideas – Europe, Modern	

East Asian (9 total units, 3 per course, count toward the minor unit requirement)

HUMCORE 21 Humanities Core: Love and Betrayal in Asia	
HUMCORE 22 Humanities Core: Everybody Eats: The Language, Culture, and Ethics of Food in East Asia	
HUMCORE 23 Humanities Core: Technology and Media in Modern Japan	

#### Electives

Take two humanities courses in consultation with a faculty director	6
Total Units	18

## Certificate

The Humanities Interdisciplinary Program offers a certificate to students who complete a three quarter HUMCORE sequence. To receive the certificate, a student must submit a request web form (<http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/humanities/%20http://web.stanford.edu/~denisew1/certificate.fb>) listing the courses taken. To receive the certificate, all courses must be for a letter grade where offered

*Faculty Directors:* Dan Edelstein and Debra Satz

# IBERIAN AND LATIN AMERICAN CULTURES

Courses offered by the Department of Iberian and Latin American Cultures, formerly the Department of Spanish and Portuguese, are listed under the subject code ILAC on the Stanford Bulletin's ExploreCourses web site. For courses in Catalan, Portuguese, and Spanish language instruction with the subject codes CATLANG, PORTLANG and SPANLANG, see the "Language Center (<http://www.stanford.edu/dept/registrar/bulletin/5966.htm>)" section of this bulletin.

The Language Center offers a series of second- and third-year courses designed for students who grew up in homes where Spanish is spoken (heritage speakers) and who wish to develop their existing linguistic strengths. See the "Language Center (<http://www.stanford.edu/dept/registrar/bulletin/5966.htm>)" section of this bulletin.

The department is a part of the Division of Literatures, Cultures, and Languages (p. 482).

## Mission of the Undergraduate Program in Iberian and Latin American Cultures

Studying Iberian and Latin American cultures at Stanford means engaging in a deep and compelling exploration of the languages, literatures, and cultures of the Iberian Peninsula, Latin America (including Brazil), and Latina/o communities in the United States. To achieve the goal of training students as experts in these areas, the department balances an emphasis on literary studies with philosophical, historical, and social approaches to cultural issues. Given the focus on critical thinking, open discussion, and close textual analysis, undergraduate majors are provided excellent preparation for a large number of professional fields, including business, education, international relations, law, and medicine. The graduate program provides rigorous and highly individualized advanced training in the analysis of Iberian, Latin American (including Brazil), and Latina/o literatures, and students go on to produce innovative original research and find excellent jobs, both in academe and beyond.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. oral proficiency in Catalan, Portuguese, and/or Spanish beyond the interpersonal level with presentational language abilities;
2. close reading skills of texts in Catalan Portuguese, and/or Spanish;
3. writing proficiency in Catalan, Portuguese, and/or Spanish beyond the interpersonal level with presentational language abilities.

## Bachelor of Arts in Iberian and Latin American Cultures

In this major, students engage in a thoroughly transnational and cross-linguistic study of Iberian and Latin American (including Brazil) literatures and cultures. Courses emphasize critical thinking and close textual analysis, with an emphasis on the deep and often understudied intersections between literature written in Catalan, Portuguese, and Spanish from the medieval period to the present day.

## Bachelor of Arts in Spanish

This undergraduate program is designed for students who want to move towards fluency in reading, listening, speaking, and writing Spanish while developing a contextualized understanding of the language through linguistic and cultural study. This degree emphasizes critical use of the Spanish language in a global perspective.

## Learning Outcomes (Graduate)

The purpose of the terminal M.A. program in Iberian and Latin American Cultures is for students to develop further the knowledge and skills acquired as undergraduates and to prepare students for a professional career or doctoral studies. This is achieved through the completion of graduate courses in the student's major area of interest as well as in related areas.

The Ph.D. in Iberian and Latin American Cultures is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis with respect to the areas and traditions taught by the department. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to develop innovative research and to present the results of this research to the world in compelling ways.

## Bachelor of Arts in Iberian and Latin American Cultures

This program is designed for students who wish to engage in a transitional and cross-linguistic study of Iberian and Latin American literatures and cultures. Courses emphasize critical thinking and close textual analysis, with an emphasis on the deep and often understudied intersections between literature written in Catalan, Portuguese, and Spanish from the medieval period to the present day. B.A. Iberian and Latin American Cultures appears on the official transcript and on the diploma. The major in Iberian and Latin American Cultures required 60 units of coursework. Courses cannot be duplicated for two degrees. All courses must be taken for a letter grade.

## Prerequisites

For all ILAC courses taught in Spanish, students must have successfully completed SPANLANG 101 The Structure of Spanish or SPANLANG 102 Composition and Writing Workshop or successfully tested above this level through the Language Center. Students are advised to take core courses before 200-level courses.

## Declaring the Major

Students declare the major in Iberian and Latin American Cultures through Axess. Students should meet with the Chair of Undergraduate Studies to discuss appropriate courses and options within the major, and to plan the course of study. Majors are also urged to attend department events such as public talks and conferences.

## Double Majors

The major in ILAC is designed to combine with a second major in another field and with study abroad. Students should be aware, however, that university policy prevents one course from counting for both degree programs.

## General Course Requirements

Students must complete a total of 60 units for the major. The first five requirements listed below are considered core requirements and must be taken at Stanford University. AP credit and Transfer credit from other Universities do not count towards this major.

1. A Writing in the Major (WIM) course: 5 units are required. This is offered as a Senior Seminar, open to Seniors only and to Juniors by

petition, if they have demonstrated need to be away from campus during their Senior year. The course designated as WIM for 2017-18 is:

ILAC 278A Senior Seminar: Cervantes's *Novelas Ejemplares* 3-5

2. Core courses in literature. All three courses must be completed. Majors are required to take these courses for 4 units.

		Units
ILAC 136	Modern Iberian Literatures	3-5
ILAC 157	Medieval and Early Modern Iberian Literatures (WIM 2015-2016)	3-5
ILAC 161	Modern Latin American Literature	3-5

3. Core courses in culture, history, and civilization. Choose at least two of three. Majors are required to take these courses for 4 units.

		Units
ILAC 130	Introduction to Iberia: Cultural Perspectives	3-5
ILAC 131	Introduction to Latin America: Cultural Perspectives	3-5
ILAC 132E	Introduction to Global Portuguese: Cultural Perspectives	3-5

4. Elective Courses. Elective courses can be taken within the following parameters:

- Up to 15 units of language courses (not including conversational courses) in Spanish, Portuguese, or Catalan.
- Additional 100- or 200- level ILAC literature courses.
- Up to 15 units of pre-approved coursework from Stanford Study Abroad programs in Madrid or Santiago. A course taught abroad by a core member of the ILAC faculty does not count against this limit.
- Up to 5 units of pre-approved coursework from outside ILAC
- Up to 10 units of Thinking Matters courses taught at least partially by an ILAC faculty member

5. In addition to course requirements for the major, students must also take an Oral Proficiency Interview (OPI) in Catalan, Portuguese, or Spanish by contacting the Language Center two quarters prior to degree conferral.

## Bachelor of Arts in Spanish

This program is designed for students who want to move towards fluency in reading, listening, speaking, and writing Spanish while developing a contextualized understanding of the language through linguistic and cultural study. This degree emphasizes critical use of the language in a global perspective. "B.A. Spanish" appears on the official transcript and on the diploma. The major in Spanish requires 60 units of coursework. All coursework must be done in Spanish. If a class is taught in a language other than Spanish, then written work (e.g. final papers) must be completed in Spanish. Courses cannot be duplicated for two degrees. All courses must be taken for a letter grade.

### Prerequisites

Students must have completed SPANLANG 101 or 102 or (successfully tested above this level through the Language Center) Students are advised to take core courses before 200-level courses.

#### Declaring the Major

Students declare the major in Spanish through Axess. Students should meet with the Chair of Undergraduate Studies to discuss appropriate courses and options within the major, and to plan the course of study.

Majors are also urged to attend department events such as public talks and conferences.

### Double Majors

The Spanish major is designed to combine with a second major in another field and with study abroad. Students should be aware, however, that university policy prevents one course from counting for both degree programs.

### General Course Requirements

Students must complete a total of 60 units for the major. The first four requirements listed below are core requirements and must be taken at Stanford University. AP credit and Transfer credit from other Universities do not count towards this major.

1. A Writing in the Major (WIM) course: 5 units are required. This is offered as a Senior Seminar, open to Seniors only and to Juniors by petition, if they have demonstrated need to be away from campus during their Senior year. The course designated as WIM for 2017-18 is:

ILAC 277 Senior Seminar: Spanish and Society - Cultures of Salsa 3-5

2. Core courses in culture, history, and civilization. Choose at least one. Majors are required to take their selected courses for 4 units.

		Units
ILAC 130	Introduction to Iberia: Cultural Perspectives	3-5
ILAC 131	Introduction to Latin America: Cultural Perspectives	3-5

3. Elective Courses. Elective courses can be taken within the following parameters:

- Additional 100- or 200-level ILAC courses.
- Up to 15 units of pre-approved coursework from Stanford study abroad programs in Madrid or Santiago. A course abroad taught by a core member of the ILAC faculty does not count against this limit.
- Up to 5 units of pre-approved coursework from outside ILAC.
- Up to three courses of SPANLANG at the second year level or above i.e., SPANLANG 11C, 11R, 12C, 12R, 13C, 13R, 21B, 22B, 23B, 101, and 102.

4. In addition to the course requirements listed above, all majors must test their proficiency in Spanish through the Language Center by Winter Quarter of their senior year. Students must receive a notation of at least advanced-mid to be deemed adequately proficient. Those needing outside tutoring are advised to do so; resources are available through the VPTL and ILAC. The proficiency examination consists of both an oral interview and a writing proficiency test.

## Honors Program

ILAC majors and Spanish majors with an overall grade point average (GPA) of 3.3 or above, and who maintain a 3.5 (GPA) in major courses, are eligible to participate in the DLCL's honors program. Prospective honors students must choose a senior thesis adviser from among their home department's regular faculty, in their junior year, preferably by March 1, but no later than May 1. During Spring Quarter of the junior year, a student interested in the honors program should consult with the Chair of Undergraduate Studies of their home department to submit a thesis proposal (2-5 pages), DLCL Honors application and an outline of planned course work for their senior year.

Honors papers vary considerably in length as a function of their topic, historical scope, and methodology. They may make use of previous work developed in seminars and courses, but display an enhanced comparative or theoretical scope. Quality rather than quantity is the

key criterion. Honors theses range from 40-90 pages not including bibliography and notes. Please consult the DLCL Honors Handbook for more details on declaring and completing the honors thesis.

Honors students are encouraged to participate in the honors college hosted by Bing Honors College ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/OO\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/OO_honors_BingHonors.html)) and coordinated by the Division of Literatures, Cultures, and Languages. The honors college is offered at the end of the summer, during the weeks directly preceding the start of the academic year, and is designed to help students develop their honors thesis projects. Applications must be submitted through the Bing program. For more information, view the Bing Honors ([http://www.stanford.edu/dept/undergrad/cgi-bin/drupal\\_ual/OO\\_honors\\_BingHonors.html](http://www.stanford.edu/dept/undergrad/cgi-bin/drupal_ual/OO_honors_BingHonors.html)) website.

Enrollment: A minimum of 10 units total, described below, and a completed thesis is required. Honors essays are due to the thesis adviser no later than 5:00 p.m. on May 15th of the terminal year. If an essay is found deserving of a grade of 'A-' or better by the thesis adviser, honors are granted at the time of graduation.

- Spring Quarter of the junior year (optional) DLCL 189C Honors Thesis Seminar (2-4 units S/NC) under the primary thesis adviser. Drafting or revision of the thesis proposal. The proposal is reviewed by the Chair of Undergraduate Studies and the Director of the department and will be approved or returned for submission.
- Autumn Quarter of the senior year (required) DLCL 189A Honors Thesis Seminar (4 units S/NC) taught by a DLCL appointed faculty member. Course will focus on researching and writing the honors thesis.
- Winter Quarter of the senior year (required) DLCL 189B Honors Thesis Seminar (2-4 units Letter grade) under the primary thesis adviser. Focus will be on writing writing under guidance of primary adviser. The letter grade will determine if honors is granted or not.
- Spring Quarter of the senior year (option; mandatory if not taken during junior year) DLCL 189C Honors Thesis Seminar (2-4 units S/NC) under the primary thesis adviser. Honors essays are due to the thesis adviser and Student Service Officer no later than 5:00 p.m. on May 15th of the terminal year.
- Spring Quarter of the senior year (required) DLCL 199 Honors Thesis Oral Presentation (1 unit S/NC). Enroll with primary thesis adviser.

## Joint Major Programs: ILAC and Computer Science & Spanish and Computer Science

The joint major program (JMP), authorized by the Academic Senate for a pilot period of six years beginning in 2014-15, permits students to major in both Computer Science and one of ten Humanities majors. See the "Joint Major Program (p. 31)" section of this bulletin for a description of University requirements for the JMP. See also the Undergraduate Advising and Research JMP web site and its associated FAQs.

Students completing the JMP receive a B.A.S. (Bachelor of Arts and Science).

Because the JMP is new and experimental, changes to procedures may occur; students are advised to check the relevant section of the bulletin periodically.

### Declaring a Joint Major Program

To declare the joint major, students must first declare each major through Axxess, and then submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) The Major-Minor and Multiple Major Course Approval Form (<https://stanford.box.com/MajMin-MultMaj>) is required for graduation for students with a joint major.

### Dropping a Joint Major Program

To drop the joint major, students must submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>). Students may also consult the Student Services Center (<http://studentservicescenter.stanford.edu>) with questions concerning dropping the joint major.

### Transcript and Diploma

Students completing a joint major graduate with a B.A.S. degree. The two majors are identified on one diploma separated by a hyphen. There will be a notation indicating that the student has completed a "Joint Major". The two majors are identified on the transcript with a notation indicating that the student has completed a "Joint Major".

## Iberian and Latin American Studies Major Requirements in the Joint Major Program

See the "Computer Science Joint Major Progra (p. 278)m" section of this bulletin for details on Computer Science requirements.

This program is designed for students who wish to engage in a transitional and cross-linguistic study of Iberian and Latin American literatures and cultures. Courses emphasize critical thinking and close textual analysis, with an emphasis on the deep and often understudied intersections between literature written in Catalan, Portuguese, and Spanish from the medieval period to the present day. B.A. Iberian and Latin American Cultures appears on the official transcript and on the diploma. The major in Iberian and Latin American Cultures required 50 units of coursework. Courses cannot be duplicated for two degrees. All courses must be taken for a letter grade.

### Prerequisites

For all ILAC courses taught in Spanish, students must have successfully completed SPANLANG 102 Composition and Writing Workshop or tested above this level through the Language Center. One course above 100 and one core course, or consent of the instructor, are prerequisites for 200-level courses.

### Requirements

Students must complete a total of 50 units for the major. The first six requirements listed below are considered core requirements and must be taken at Stanford University.

1. A Writing in the Major (WIM) course: 5 units are required. This is offered as a Senior Seminar, open to Seniors only and to Juniors by petition, if they have demonstrated need to be away from campus during their Senior year. The course designated as WIM for 2017-18 is:

		Units
ILAC 278A	Senior Seminar: Cervantes's Novelas Ejemplares	3-5

2. Core courses in literature. All three courses must be completed

		Units
ILAC 136	Modern Iberian Literatures	3-5
ILAC 157	Medieval and Early Modern Iberian Literatures (WIM 2015-16)	3-5
ILAC 161	Modern Latin American Literature	3-5

3. Core courses in culture, history, and civilization. Choose at least one.

		Units
ILAC 130	Introduction to Iberia: Cultural Perspectives	3-5
ILAC 131	Introduction to Latin America: Cultural Perspectives	3-5

4. **Capstone Project:** Senior year, the student enrolls in a 2-unit DLCL 299 with a DLCL faculty member. The faculty member advising this project must sign off on this description. In order to have it approved as their capstone Computer Science and ILAC project must be written in proficient Spanish, Portuguese, or Catalan. The student must submit a description of the project to the Chair of Undergraduate Studies in ILAC by May 15th of the junior year or no later than October 1st of the senior year.
5. **Elective Courses.** Elective courses can be taken within the following parameters:
  - Up to 15 units of language courses (not including conversational courses) in Spanish, Portuguese, or Catalan.
  - Additional 100- or 200- level ILAC literature courses.
  - Up to 15 units of pre-approved course work from Stanford Study Abroad programs in Barcelona, Madrid, or Santiago. A course taught abroad by a core member of the ILAC faculty does not count against this limit.
  - Up to 5 units of pre-approved course work from outside ILAC
  - Up to 10 units of Thinking Matters courses taught at least partially by an ILAC faculty member

6. In addition to course requirements for the major, students must also take an Oral Proficiency Interview (OPI) in Catalan, Portuguese, or Spanish through the Language Center two quarters prior to degree conferral.

## Spanish Major Requirements in the Joint Major Program

See the "Computer Science Joint Major Program (p. 278)" section of this bulletin for details on Computer Science requirements.

This program is designed for students who want to move towards fluency in reading, listening, speaking, and writing Spanish while developing a contextualized understanding of the language through linguistic and cultural study. This degree emphasizes critical use of the language in a global perspective. All course work must be done in Spanish. If a class is taught in a language other than Spanish, then written work (such as final papers) must be completed in Spanish. Courses cannot be duplicated for two degrees. All courses must be taken for a letter grade.

### Prerequisites

Students must be at or above the level of SPANLANG 13 or tested above this level through the Language Center.

### Requirements

Students must complete a total of 50 units for the major. The first five requirements listed below are core requirements and must be taken at Stanford University.

1. A Writing in the Major (WIM) course. 5 units are required. This is a prerequisite for every course in the major; however, concurrent enrollment is allowed. . WIM offerings change nearly every year, but a WIM designated ILAC course from any year satisfies the requirement.

ILAC 277	Senior Seminar: Spanish and Society - Cultures of Salsa	3-5
----------	---	-----

2. Core courses in culture, history, and civilization. Choose at least one.

ILAC 130	Introduction to Iberia: Cultural Perspectives	3-5
ILAC 131	Introduction to Latin America: Cultural Perspectives	3-5

3. **Capstone Project:** Senior year, the student enrolls in a 2-unit independent study DLCL 299 with a DLCL faculty member. The faculty member advising this project must sign off on this description. In order to have it approved as their capstone Spanish and Computer Science project must be written in proficient Spanish. The student must submit a description of the project to the Chair of Undergraduate Studies in ILAC by May 15th of the junior year or no later than October 1st of the senior year.

4. **Elective Courses.** Elective courses can be taken within the following parameters:

- Additional 100- or 200-level ILAC courses.
- Up to 15 units of pre-approved coursework from Stanford study abroad programs in Barcelona, Madrid, or Santiago. A course abroad taught by a core member of the ILAC faculty does not count against this limit.
- Up to 5 units of pre-approved coursework from outside ILAC.
- Up to three courses of SPANLANG at the second year level or above.

5. In addition to the course requirements listed above, all majors must test their proficiency in Spanish through the Language Center by winter quarter of their senior year. Students must receive a notation of at least "Advanced Mid" to be deemed adequately proficient. Those needing outside tutoring will be advised to do so (resources available through the VPTL and ILAC). The proficiency examination will consist of both an oral interview and a writing proficiency test.

## Minors in Spanish and Portuguese

Both the minor in Portuguese and the minor in Spanish are for students who want to combine acquisition of linguistic competence with the study of the literatures and cultures of the Lusophone or Spanish-speaking worlds. Each minor requires six courses totaling a minimum of 23 units. Each course must be taken for a letter grade.

Up to three courses of second-year Spanish language (for Spanish minor) or Portuguese (for Portuguese minor) or above may count towards the degree, not including conversational, oral communication, business, or medical language courses.

With the approval of the Chair of Undergraduate Studies, Independent Study and the following courses may count towards the degree.

Up to two courses from abroad may apply towards the minor. One or both may be a language course at second-year or above. One or both may be a literature or culture course listed as authorized by the ILAC department on the BOSP website. (A literature or culture course taught by a core member of the ILAC faculty abroad does not count against this limit.) At least two courses at the 100 or 200 level must be taken in the ILAC department (or with ILAC faculty abroad).

One 3-5 unit (5 unit maximum) course on a related topic from another department.

AP credit and Transfer credit from other Universities do not count towards this minor.

### Units Minor in Portuguese

**Required Courses: Minimum of 6 courses and 23 units.** Units 23

- |   |  |
|---|--|
| 1. Two 100- or 200-level courses in literature or culture with a Lusophone component                                    |  |
| 2. Any additional 100- or 200-level courses in literature and culture to complete the required 23 units and six courses |  |
| 3. Pre-Approved Courses for 2017-18 to fulfill 1 and 2 above  |  |

ILAC 274	Aurality and Literature	3-5

## Minor in Spanish

**Required Courses: Minimum of 6 courses and 23 units.**

Units

23

1. A 100- or 200-level course in ILAC with a significant component of Iberian literature, film, or other cultural texts.
2. A 100- or 200-level course in ILAC with a significant component of Latin American literature, film, or other cultural texts.
3. Any additional 100- or 200-level courses in literature and culture to complete the required 23 units and six courses.

## Master of Arts in Iberian and Latin American Cultures

The purpose of the terminal M.A. program in Iberian and Latin American Cultures is for students to develop further the knowledge or skills acquired as undergraduates, and to prepare students for a professional career or doctoral studies. This is achieved through the completion of graduate courses in the student's major area of interest as well as in related areas. Students in this program may not apply concurrently for entrance to the Ph.D. program.

### Coterminal Master of Arts in Iberian and Latin American Cultures

The coterminal degree program allows undergraduates to study for a master's degree in Iberian and Latin American Cultures while completing their bachelor's degree(s) in ILAC or a different department. The course requirements for the coterminal M.A. are the same as those for the terminal M.A., and students should be aware that University policy prevents one course from counting for both the B.A. and M.A. degrees.

#### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken during or after the first quarter of the sophomore year are eligible for consideration for transfer to the graduate career; the timing of the first graduate quarter is not a factor. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

## Degree Requirements for the Master of Arts in Iberian and Latin American Cultures

Students must complete a minimum of 45 graduate-level units, 36 of which must be taken at Stanford. All 45 units must have a letter grade of 'B' or above. Students enrolled in the terminal M.A. program must file a Program Proposal for a Master's Degree during their first quarter of enrollment. Any changes to the proposal should be reviewed and approved by the Chair of Graduate Studies.

The requirements for the terminal M.A. and coterminal M.A. are:

1. A 200-level or above course in literary or cultural theory
2. Two 200-level or above courses in Latin American (including Brazilian) or Latinx/Chicanx literature and culture
3. Two 200-level or above courses in Iberian literature and culture
4. One 300-level course in Latin American (including Brazilian) or Latinx/Chicanx literature and culture
5. One 300-level course in Iberian literature and culture
6. Enrollment in at least two graduate seminars (200- or 300- level) offered in the department each quarter
7. Intermediate-high proficiency in Portuguese or Catalan (equivalent to one year of university study).

Independent study courses (ILAC 299 Individual Work, ILAC 399 Individual Work) and crosslisted courses originating outside the department may not be used to fulfill requirements except by consent of the Chair of Graduate Studies.

## Doctor of Philosophy in Iberian and Latin American Cultures

The Ph.D. in Iberian and Latin American Cultures is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis with respect to the areas and traditions taught by the department. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to develop innovative research and to present the results of this research to the world in compelling ways.

University requirements for the Ph.D. are described in the "Graduate Degrees (p. 50)" section of this bulletin. The requirements of the Ph.D. in Iberian and Latin American Cultures (ILAC) are:

### 1. Course Work

A total of 135 units is required for the Ph.D. During each quarter preceding advancement to TGR status, students are required to complete (for a letter grade) at least two graduate courses (200- or 300- level) offered through the department. These are taken for for three units each.

All courses counted towards the 135-unit requirement for the Ph.D. be at the graduate level. Excess course work can be taken at the UG level, but not used towards the Ph.D. requirements. Students should make every effort to take a seminar with a core member of the faculty each quarter and one course with each faculty member of the department during the first two years of study. Students may take independent study courses (ILAC 299, ILAC 399) only during the Summer Quarter until they reach TGR status. Any exceptions must be made in consultation with the Chair of Graduate Studies, the relevant faculty member, and/or the student's faculty adviser. During the first three years of study, students must also meet with their primary advisor and the Chair of Graduate Studies early in the Spring Quarter of each year to plan a course to plan a course of study for the 10 units to be completed during the Summer Quarter. Students who transfer graduate units from another institution may adjust the course of study outlined below. See the 2017-18 Graduate Handbook for details.

Doctoral students in the department must take required courses for a letter grade if available, and they are expected to earn a grade of 'B+' or better in each course taken in the DLCL. Any grade of 'B' or below is considered to be less than satisfactory. Grades of 'B' or below are reviewed by faculty and the following actions may be taken: 1) the grade stands, and the student's academic performance is monitored to ensure that satisfactory progress is being made; 2) the grade stands and the student is required to revise and resubmit the work associated with the course; or 3) the student may be required to retake the course.

In consultation with the Chair of Graduate Studies, students in their first year choose one major field and two minor areas of study from the following:

- A1. Medieval and Early Modern Iberian Literature and Culture
- A2. Eighteenth- and Nineteenth-Century Iberian Literature and Culture
- A3. Twentieth- and Twenty-First-Century Iberian Literature and Culture
- B1. Colonial and Nineteenth-Century Latin American Literature and Culture
- B2. Twentieth- and Twenty-First-Century Latin American Literature and Culture
- B3. African and/ or Brazilian Literature and Culture
- C. US Latinx Literature and Culture

Students must select one minor area from a group (A, B, C) other than that in which their major area falls. At least four graduate-level courses must be taken in the major area of study. At least two graduate-level courses must be taken in each minor area.

### 1a. First Year

Students must enroll in and complete a minimum of 30 graduate units during their first year of graduate study as well as 10 units during the summer. First year-required course work:

- One 200-level or above course in literary or cultural theory ( DLCL 369 Introduction to the Profession of Literary Studies is highly recommended)
- Three 200-level or above courses in Latin American (including Brazil) or Latinx literature and culture
- Three 200-level or above courses in Iberian literature and culture
- Enrollment in and completion of DLCL 301 The Learning and Teaching of Second Languages
- Intermediate-high proficiency in Portuguese or Catalan (equivalent to one year of university study)

### 1b. Second Year

Students must enroll in and complete a minimum of 30 graduate units during their second year of graduate study as well as 10 units during the Summer. In addition, second-year students must complete at least two graduate seminars (200- or 300- level) offered in the department each quarter and enroll in DLCL 311 during one quarter (but attend all year). All DLCL courses must be taken for a letter grade.

### 1c. Third Year

Students must enroll in and complete a minimum of 30 graduate units during their third year of graduate study as well as 10 units during the summer. In addition, third-year students must enroll in and complete at least two graduate seminars (200- or 300- level) offered in the department each quarter. All DLCL courses must be taken for a letter grade.

### 1d. Fourth Year

Students must enroll in and complete 15 units of graduate work during the Autumn and Winter quarters of their fourth year. All DLCL courses must be taken for a letter grade.

## 2. Language

All students are required to have advanced-high proficiency in English and Spanish by the time they take the comprehensive examination.

In addition, students specializing in Iberian literature and culture must attain intermediate-mid proficiency in Catalan and Portuguese (equivalent to two quarters of university study for each language); for students specializing in Latin American and/or US Latinx/Chicanx literature and culture, the level of advanced-low or (C1) proficiency in Portuguese (equivalent to four quarters of university study) must be attained. Alternatively, they may study Portuguese for three quarters and study one quarter of Catalan or a Native American language such as Nahuatl, Quechua, or Tupi. This requirement must be fulfilled before students take the comprehensive examination. Students wishing to satisfy the language requirements in Catalan and/or Portuguese may do so by passing a proficiency exam administered by the Language Center. Further explanation of the language requirements and options for satisfying them can be found in the 2017-18 Graduate Handbook.

## 3. Examinations

All students must pass the following: 1) a qualifying exam; 2) a written and oral comprehensive examination; and 3) a University oral examination.

### 3a. Qualifying Examination

In the Autumn Quarter of their first year, students receive a digital reader with a selection of texts related to all areas of Iberian and Latin American literature and culture. These texts serve as the basis for the qualifying exam, which is administered the first week of Autumn Quarter of the student's second year of study. During the one-hour oral examination, students meet with a faculty committee and must answer questions in English and/or in Spanish submitted by all active members of the ILAC faculty. Students who fail this examination may request to retake it during the Winter Quarter of the same year.

### 3b. Comprehensive Examination

This exam consists of two parts: 1) the submission of a written paper; and 2) an oral question and answer period. It is designed for students to demonstrate intellectual competence in multiple areas of study. This exam occurs during Spring Quarter of the third year of graduate study, and it must be completed prior to the last day of instruction in that same quarter. Students with transferred credits may take this exam earlier in the third year. Students must select a major and two minor areas for the exam from the following options:

- A1. Medieval and Early Modern Iberian Literature and Culture
- A2. Eighteenth- and Nineteenth-Century Iberian Literature and Culture
- A3. Twentieth- and Twenty-First-Century Iberian Literature and Culture
- B1. Colonial and Nineteenth-Century Latin American Literature and Culture
- B2. Twentieth- and Twenty-First-Century Latin American Literature and Culture
- B3. Luso-Afro-Brazilian Literature and Culture
- C. Latinx Literature and Culture

Students must select one minor area from a group (A, B, C) other than that in which their major area falls.

The committee for the comprehensive exam consists of three ILAC professors to serve on the committee, one for each of the three examination areas chosen by the student. Students are responsible for forming their own committee. In consultation with each member of the committee, the student must develop a list of 130 texts (approximately 60 for the major area and 35 for each of the minor areas) and should propose organizing themes (in discussion with the committee and as appropriate). In addition, the student must submit a 6,000-word research paper on a topic preferably related to the dissertation. This paper must

be written in English. The comprehensive exam reading list and research paper must be presented to committee members and to the graduate student services coordinator at least two weeks prior to the oral portion of the comprehensive exam. The oral exam is based upon the submitted list and research paper and lasts no more than two hours.

### 3c. University Oral Examination

Ph.D. candidates in ILAC are required to take a University oral examination after successfully completing the comprehensive examination and before the end of the Spring Quarter of their fourth year. Students with transferred credits may take this exam earlier in the fourth year. This examination is a defense of the dissertation prospectus. During the examination, the candidate speaks for approximately 20 minutes on the proposed dissertation, the methods to be used in research and the conclusions the candidate expects to reach. Afterward, each member of the committee, in an order established by the chair of the committee, questions the candidate further. The examination lasts no more than two hours.

The University oral examination committee must be finalized no later than the last week of the quarter during which the student successfully completes the comprehensive examination. The examination committee should include the dissertation adviser and three other members, usually from the reading committee, and a chair from outside the department, for a total of five members. All members must belong to the Academic Council. The adviser and two other members must be ILAC faculty. Once a committee and date are finalized, the student must submit the University oral examination form to the graduate student services coordinator. The members of the oral examination committee must receive copies of the dissertation prospectus no later than three weeks prior to the examination.

The dissertation prospectus should consist of approximately 10 pages (3,000 words). It must contain a title along with the following sections: 1) statement of thesis; 2) statement of project significance, both for the student's chosen sub-field(s) and the humanities at large; 3) chapter outline; 4) preliminary biography; 5) timetable for completion.

## 4. Teaching

Each Ph.D. candidate must teach a minimum of five quarters of undergraduate courses (three are taught during the second year and the remaining two during the third year). Language course assignments are arranged through the Language Center. In preparation for teaching, Ph.D. candidates are required to take DLCL 301 The Learning and Teaching of Second Languages during the Spring Quarter of their first year. All students must complete one full year (three quarters), plus an additional quarter during the regular academic year of teaching in the Language Center. Students then may apply to co-teach an ILAC literature or culture course with a core ILAC faculty member or they may choose to teach another course in the Language Center to satisfy the requirement of five quarters of undergraduate teaching. Other additional teaching opportunities may arise, but these do not satisfy the teaching requirement.

## 5. Ph.D. Dissertation

The doctoral dissertation should demonstrate the student's ability to carry out original research and to organize and present the results in publishable form. A copy of the completed dissertation must be submitted to each member of the reading committee at least eight weeks before the University filing deadline in the quarter during which the candidate expects to receive the Ph.D. degree. Committee members will have three weeks to read the dissertation before determining whether to approve or require changes. Ph.D. dissertations must be completed and approved within five years from the date of admission to candidacy. Students taking more than five years must apply for reinstatement of candidacy, which is reviewed on a case by case basis.

## Yearly review

The department conducts annual reviews of each student's academic performance at the end of the Spring Quarter. All students are given feedback from the Chair of Graduate Studies, which helps them to identify areas of strength and potential weakness. In most cases, students are simply given constructive feedback; however, if there are more serious concerns, a student may be placed on probation with specific guidelines for addressing the problems detected. At any point during the degree program, evidence that a student is performing at a less than satisfactory level may be cause for a formal academic review of that student.

Possible outcomes of the spring review include: continuation of the student in good standing, or placing the student on probation, with specific guidelines for the period of probation and the steps to be taken in order to be returned to good standing. For students on probation at this point (or at any other subsequent points), possible outcomes of a review include: restoration to good standing; continued probation, with guidelines for necessary remedial steps; or dismissal from the program.

## Candidacy

Admission to candidacy is an important decision grounded in an overall assessment of a student's ability to successfully complete the Ph.D. program. Per University policy, students are expected to complete department qualifying procedures and apply for candidacy by the end of the second year in residence.

In reviewing a student for admission to candidacy, the faculty considers a student's academic progress including but not limited to: advanced language proficiency, course work, performance on the qualifying exam, and successful completion of teaching and research assistantships. A student must also have completed at least 3 units of work with each of four Stanford faculty members prior to consideration for candidacy.

In addition to successful completion of department prerequisites, a student is only admitted to candidacy if the faculty makes the judgment that the student has the potential to complete the requirements of the degree program successfully. Candidacy is determined by faculty vote. Failure to advance to candidacy results in the dismissal of the student from the doctoral program.

Candidacy is valid for five years and students are required to maintain active candidacy through conferral of the doctoral degree. All requirements for the degree must be completed before candidacy expires. The department conducts regular reviews of each student's academic performance, both prior to and following successful admission to candidacy. Failure to make satisfactory progress to degree may result in dismissal from the doctoral program. Additional information about University candidacy policy is available in the Bulletin (p. ) and GAP (<http://gap.stanford.edu/4-6.html>).

## Ph.D. Minor in Iberian and Latin American Cultures

Stanford Ph.D. students wishing to earn a minor in Iberian and Latin American Cultures must complete 25 units, with a grade point average (GPA) or 3.0 or above, selected from courses numbered 200 or higher.

For more information, students should speak with the ILAC Chair of Graduate Studies. Students in the Ph.D. program in ILAC who choose a minor in another department should consult with advisers in that department.

## Faculty in Iberian and Latin American Cultures

*Emeriti:* (Professors) Bernard Gicovate, Mary Pratt, Michael P. Predmore, María-Paz Haro (Teaching), Sylvia Wynter (Teaching), Yvonne Yarbro-Bejarano

*Director:* Lisa Surwillo

*Chair of Graduate Studies:* Héctor Hoyos

*Chair of Undergraduate Studies:* Lisa Surwillo

*Professors:* Joan Ramon Resina (also Comparative Literature), Jorge Ruffinelli (on leave Autumn)

*Associate Professors:* Vincent Barletta (also Comparative Literature), Héctor Hoyos, Lisa Surwillo

*Assistant Professors:* Marília Librandi Rocha

*Lecturer:* Ximena Briceño, Nicole Hughes (Mellon Fellow)

*Courtesy Professors:* John Fellstiner, Zephyr Frank, Roland Greene, Hans U. Gumbrecht, Ramon Saldivar, James A. Fox, Paula Moya

*Visiting Professor:* Florencia Garramuño (Winter)

*Visiting Lecturer:* Jordi Falgàs i Casanovas (Autumn)

## Overseas Studies Courses in Iberian and Latin American Cultures

### Study Abroad Programs in Iberian and Latin American Cultures

All majors are encouraged to study abroad. To transfer credits from non-Stanford programs abroad, consult the Bing Overseas Studies Office. Course work taken abroad may be applied toward both our major and minor programs. Students planning to study abroad must consult with the Chair of Undergraduate Studies to coordinate the course work from abroad with their degree program. The maximum number of units is identified in the elective section for each major.

The Department, The Center for Latin American Studies (<https://clas.stanford.edu>), and the Bechtel International Center maintain information on study abroad programs. Stanford supports the options listed below and credits course work taken in academically sound programs. Students considering different options are encouraged to speak with the Director of the Department or the Chair of Undergraduate Studies.

### Stanford in Santiago de Chile and Madrid, Spain

The Bing Overseas Studies Programs in Santiago de Chile and Madrid, Spain require a certain level of proficiency in Spanish. For more information, students should consult the program summary of their interested campus. Course work is primarily in Spanish. Information is available in the "Overseas Studies" section of this bulletin or at the Bing Overseas Studies web site. Internships and research opportunities may be arranged for students staying for two quarters. Admission is highly competitive.

The department also recognizes other programs, and students are encouraged to discuss their interests with the Director of the Department or with the Chair of Undergraduate Studies.

### Brazil and Portugal

The University maintains a relationship with the State University of Rio de Janeiro in Brazil at the graduate level. Students interested in study

in Brazil should contact Professor Marília Librandi Rocha. Students interested in study in Portugal should contact Professor Vincent Barletta.

### Bing Overseas Studies Program

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		Units
OSPMADRD 43	The Jacobean Star Way and Europe: Society, Politics and Culture	5
OSPMADRD 45	Women in Art: Case Study in the Madrid Museums	4
OSPMADRD 46	Drawing with Four Spanish Masters: Goya, Velazquez, Picasso and Dali	4
OSPMADRD 47	Cultural Relations between Spain and the United States: Historical Perceptions and Influences, 1776-2	4
OSPMADRD 55	Latin Americans in Spain: Cultural Identities, Social Practices, and Migratory Experience	4
OSPMADRD 61	Society and Cultural Change: The Case of Spain	4
OSPMADRD 83	Narrating the Nation: National and Post-National Spanish and Latin American Literature	4
OSPSANTG 14	Women Writers of Latin America in the 20th Century	4-5
OSPSANTG 49	Chile - Another "End of the World"?	3-5
OSPSANTG 68	The Emergence of Nations in Latin America	4-5
OSPSANTG 116X	Modernization and its Discontents: Chilean Politics at the Turn of the Century	5
OSPSANTG 118X	Artistic Expression in Latin America	5

# INTERNATIONAL POLICY STUDIES

Courses offered by the Ford Dorsey Program in International Policy Studies are listed under the subject code IPS on the Stanford Bulletin's ExploreCourses web site (<http://explorecourses.stanford.edu/search.jsessionid=CD85410D8306285785D60502AD7D575F?page=0&q=ips&filter-coursestatus-Active=on&view=timeschedule&collapse=&catalog=71>).

The Ford Dorsey Program in International Policy Studies (IPS), established in 1982, is an interdisciplinary program devoted to rigorous analysis of international policy issues in diplomacy, governance, security, global health, and international economic policy. Its goal is to provide students with exposure to issues they will face in the international arena, and to develop the skills and knowledge to address those issues. The program allows students to specialize in democracy, development, and the rule of law; energy, environment, and natural resources; global health; international political economy; or international security and cooperation.

The IPS program combines a rigorous scholarly focus with practical training designed to prepare students for careers in public service and other settings where they can have an impact on international issues.

The program is designed to integrate perspectives from political science, law, economics, history, and other disciplines, while also incorporating research opportunities and a focus on implementation and administration of solutions addressing global problems.

University requirements for the M.A. degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

## Learning Outcomes (Graduate)

The purpose of the master's program is to help students develop knowledge and skills in preparation for professional careers in international policy and related fields. This is achieved through completion of required courses in the global, quantitative, and skills core, as well as courses in an area of concentration and the capstone practicum course. Students are also encouraged to gain experience through a summer internship and research skills through assistantships with Stanford faculty.

## Admission

To apply or for information on graduate admission, see the Office of Graduate Admissions (<https://gradadmissions.stanford.edu>) website. Applications for admission in Autumn Quarter must be filed with supporting credentials by 11:59 pm on Tuesday, January 9, 2018.

## Language Requirement

In order to earn the M.A. degree in International Policy Studies, students must be proficient in a foreign language. Foreign language proficiency can be demonstrated by:

- Completion of three years of university-level coursework in a foreign language (verified by a transcript)
- Passing an oral and written proficiency exam at Stanford prior to graduation
- Status as a non-native English speaker

## Prerequisite Course Work

The IPS program requires the completion of five prerequisite courses prior to matriculation. These are microeconomics, macroeconomics, statistics, international trade and international finance. International trade and international finance are often covered in a single international

economics course. While not a required prerequisite course, an understanding of calculus is important for the statistics sequence in the Quantitative Core (<http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/internationalpolicystudies/#masterstext>).

Prerequisite courses may be taken at four-year institutions, community colleges, or through online courses, and must be taken for a letter grade. Proof of completion, which is usually verified by a transcript, is required. Stanford courses satisfying these requirements are:

Microeconomics and Macroeconomics

ECON 51	Economic Analysis II
ECON 52	Economic Analysis III
International Finance and International Trade	
ECON 165	International Finance
ECON 166	International Trade

Statistics (prerequisite coursework should cover, at minimum, most of the content in STATS 200)

STATS 160	Introduction to Statistical Methods: Precalculus
STATS 200	Introduction to Statistical Inference

## Application Materials

In addition to the web-based application, applicants must submit the following materials:

- Statement of purpose on relevant personal, academic, and career plans and goals
- Official transcripts (two hard copies, which are mailed to the IPS program office, and one scanned copy electronically uploaded to the online application)
  - Stanford students, and alumni with an active SUNet ID and password, may request an official eTranscript to be sent from Stanford University and automatically deposited into the application; in this case, hard copies are not required.
- Three letters of recommendation
- Graduate Record Examination (GRE) scores
- Academic writing sample (written in English, 7-15 pages in length, and double-spaced)
- Resume or curriculum vitae
- TOEFL scores (only required of applicants who are non-native English speakers and who did not attend undergraduate institutions where English is the language of instruction; please see Graduate Admissions (<https://gradadmissions.stanford.edu/about/frequently-asked-questions/gre-and-toefl>) for additional information)

Applicants are expected to have a B.A. or B.S. degree from an accredited school.

Applicants should plan to review the admissions section (<https://ips.stanford.edu/admissions/ma-admissions>) of the IPS website as well as the Frequently Asked Questions (<https://ips.stanford.edu/admissions/frequently-asked-questions>).

## Master of Arts in International Policy Studies (IPS)

University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

## Degree Requirements

To earn the M.A. degree in International Policy Studies, students matriculating in Autumn Quarter 2017 must complete the courses listed in the curriculum below. These requirements include:

- Two courses in the global core (4 unit)
- Four courses in the quantitative core (19-20 units)
- Four courses in the skills core (16-20 units)
- Six or more courses in the area of concentration (26 units)
- The capstone (8 units)

The minimum number of units required to graduate is 73.

During the first year of the program, students must complete required course work in statistics, econometrics, international economics, advanced economics, international relations theory, policy writing, and an introductory (gateway) course in the area of concentration. During the second year of the program, students are required to complete either the practicum or master's thesis during Autumn and Winter quarters. Only students with two or more years of relevant policy work may petition to write a master's thesis.

Students who matriculated in Autumn Quarter of a previous year should review their degree requirements by visiting the University's Archived Bulletins (<http://exploreddegrees.stanford.edu/archive/#text>).

## Curriculum

IPS 203 Issues in International Economics	
IPS 204A Microeconomics for Policy	
IPS 204B Economic Policy Analysis for Policymakers	

### Skills Core

Policy Writing - Select one of the following (*):	5
IPS 210 The Politics of International Humanitarian Action	
IPS 211 The Transition from War to Peace: Peacebuilding Strategies	
IPS 213 International Mediation and Civil Wars	
IPS 244 U.S. Policy toward Northeast Asia	
IPS 264 Behind the Headlines: An Introduction to US Foreign Policy in South and East Asia	
IPS 316S Decision Making in U.S. Foreign Policy	
Justice - Select one of the following:	4-5
IPS 208A International Justice	
POLISCI 336 Introduction to Global Justice	
POLISCI 336S Justice	
Decision Making - Select one of the following:	4-5
ECON 137 Decision Modeling and Information	
GSBGEN 646 Behavioral Decision Making	

IPS 207B	Public Policy and Social Psychology: Implications and Applications	
LAW 7508	Problem Solving and Decision Making for Public Policy and Social Change	
MS&E 152	Introduction to Decision Analysis	
MS&E 252	Decision Analysis I: Foundations of Decision Analysis	
POLISCI 352	Introduction to Game Theoretic Methods in Political Science	
Skills Elective - Select one of the pre-approved electives below. Alternatively, this requirement may be fulfilled by completing: A) an additional elective course in one's area of concentration; B) an additional policy writing course; C) an additional quantitative course; or D) a pre-approved course in one of the four other areas of concentration (see "Related Courses" tab for listing)		3-5
CEE 251	Negotiation	
CS 106A	Programming Methodology	
CS 377E	Designing Solutions to Global Grand Challenges	
ECON 135	Finance for Non-MBAs	
ENGR 103	Public Speaking	
GSBGEN 315	Strategic Communication	
IPS 204B	Economic Policy Analysis for Policymakers	
LAW 7821	Negotiation	
LAW 7823	Advanced Negotiation: International	
ME 301	LaunchPad: Design and Launch your Product or Service	
ME 316B	Product Design Master's Project	
ME 377	Design Thinking Studio	
STRAMGT 323	Organizational Psychology of Design Thinking	
<b>Area of Concentration: Gateway and elective courses:</b>		<b>26</b>
<b>Capstone</b>		
Select one to be completed during Autumn and Winter quarters of the second year:		8
IPS 209	Practicum	
IPS 209A	IPS Master's Thesis	
(*) indicates degree requirement that must be completed during first year		
<b>Total Units</b>		<b>73-78</b>

## Area of Concentration Curriculum

Students are required to choose one area of concentration from the list below and complete at least six courses within the concentration for a minimum of 26 total units. Each area of concentration has a gateway course, which must be taken during the first year and prior to enrolling in subsequent courses. Additionally, each area of concentration has a list of approved elective courses, which can be found under the Related Courses (p. 613) tab of this page. Courses not listed under the Related Courses (p. 613) tab have not been approved and need to be petitioned. Petitions are reviewed by the IPS Faculty Director. The petition form (<http://ips.stanford.edu/resources>) can be found on the IPS web site.

## Area of Concentration Requirements:

1. Students must select an area of concentration during the first year of the program.
2. Students must complete a minimum of six courses within the area of concentration, including the gateway course, for a minimum total of 26 units.
  - a. The gateway course counts towards the six total courses within the area of concentration.
  - b. Each of the six courses must be taken for a minimum of three units.

- c. Additional one or two-unit courses may be applied to the concentration in order to reach the minimum of 26 units
  - d. 1 unit courses must be petitioned since they are generally only offered as S/NC. If a 2 unit course is only offered for Satisfactory/No Credit (S/NC) it must also be petitioned.
3. All course work must be taken for a letter grade.
  4. Students concentrating in International Political Economy are required to take IPS 202 Topics in International Macroeconomics for the international economics requirement and IPS 203 Issues in International Economics for the area of concentration gateway. In addition, they must complete IPS 204A Microeconomics for Policy or IPS 204B Economic Policy Analysis for Policymakers to fulfill the advanced economics requirement.
  5. Students from any other area of concentration may fulfill the advanced economics requirement by taking IPS 204A Microeconomics for Policy, IPS 204B Economic Policy Analysis for Policymakers, or the second course in the international economics category listed within the Quantitative Core.

### Area of Concentration Gateway Courses

	Units
<b>Democracy, Development, and Rule of Law Gateway Course:</b>	5
IPS 230 Democracy, Development, and the Rule of Law	
<b>Energy, Environment, and Natural Resources Gateway Course:</b>	3-4
CEE 207A Understanding Energy	
<b>Global Health Gateway Course:</b>	4
HUMBIO 129S Global Public Health	
<b>International Political Economy Gateway Course:</b>	5
IPS 202 will be applied towards the international economics requirement and IPS 203 will be applied towards the area of concentration gateway course	
IPS 202 Topics in International Macroeconomics	
IPS 203 Issues in International Economics	
<b>International Security and Cooperation Gateway Course:</b>	5
Students with an advanced background may petition to be exempted from the gateway course and instead take six elective courses in the concentration. Consultation with the student services officer and approval from the faculty director are required for this option.	
IPS 241 International Security in a Changing World	

### IPS-Specific Academic Policies

The University's general requirements, applicable to all graduate degrees at Stanford, are listed in the "Graduate Degrees (p. 52)" section of this bulletin. In addition, the IPS-specific degree requirement academic policies are listed below.

#### Course Petitions

Students may petition for units from a course that is not currently listed in the Related Course (p. 613)s (<http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/internationalpolicystudies/#relatedcoursestext>) tab to fulfill area of concentration requirements. A course petition may also be used to apply for an exemption from a core course that covers course work previously completed at the graduate level. The course petition (<http://ips.stanford.edu/resources>) must be submitted electronically to IPS no later than Friday of the first week of the academic quarter in which the course is offered. The IPS faculty director reviews the petition and renders a decision within one week of the petition submission. Notification is sent via email by the IPS staff.

#### Directed Readings

Students may arrange directed reading courses if the current course offerings do not meet particular research or study needs. Directed reading courses are independent study projects students may undertake

with Stanford faculty members. Once the student has identified a faculty member to support his or her studies, the student must submit the directed reading (<http://ips.stanford.edu/resources>) proposal (<http://ips.stanford.edu/resources>) to the IPS office for review by the IPS faculty director. Directed reading petitions must be submitted no later than the end of the second week of the quarter. The IPS faculty director reviews the directed reading proposal and renders a decision no later than two days prior to the Final Study List Deadline. If approved, the IPS staff creates a section number for the specific instructor so the student can enroll in the course. The course is listed as IPS 299 Directed Reading and the section number corresponds to the instructor. There are two restrictions for directed readings:

1. Students can receive credit for a maximum of 5 units per directed reading course.
2. Students must receive a letter grade for the directed reading course.

#### Academic Standing and Grade Requirement

IPS graduate students must maintain a minimum 3.0 cumulative GPA to remain in good academic standing. In addition, a minimum 3.0 cumulative GPA is required for conferral of the M.A. degree.

All courses taken to fulfill requirements for the M.A. degree in International Policy Studies must be taken for a letter grade. The only exceptions are: IPS 300 IPS Student-Faculty Colloquium, which is only offered as S/NC; courses taken in the Law School, the School of Medicine, or the Graduate School of Business where a letter grade may not be offered; or 1 or 2 unit elective courses, which are only offered as S/NC that have been approved via petition in the area of concentration. Pre-approval is required from the IPS student services officer in order to apply a non-letter grade course in Law, Medicine, or the Graduate School of Business toward the IPS degree.

#### Language Requirement

Proficiency in a foreign language is required and may be demonstrated by completion of three years of university-level course work in a foreign language or by passing an oral and written proficiency examination prior to graduation. International students who speak English as a second language already meet this requirement.

#### Additional Academic Requirements

1. Students are not required to repeat a course that covers material they have already mastered. In such cases, students may petition to substitute a different course for a required course in one of the core areas (global, quantitative, skills). This flexibility does not reduce the unit requirements for the M.A. degree.
2. All graduate degree candidates must submit a Master's Degree Program Proposal (i.e., IPS Program Proposal) to the International Policy Studies office no later than the seventh week of Spring Quarter. Submission of the IPS Program Proposal requires scheduling a 30-minute advising session with the IPS student services adviser to review degree progress and outline course work that needs to be completed during the second year of the program in order to graduate. The University requires each student to have a program proposal on file with the academic program in order for the student to apply to graduate. Failure to complete this process results in a hold being placed on the student's account.
3. During the first year of the program, first-year graduate students in IPS are required to electronically submit their course enrollment to the IPS student services officer no later than the second Friday of each academic quarter.
4. A maximum of 10 undergraduate units can be applied towards the IPS degree (ECON 102A Introduction to Statistical Methods (Postcalculus) for Social Scientists, ECON 102B Applied Econometrics, and MS&E 152 Introduction to Decision Analysis do not count towards the 10-unit maximum allowance). Courses listed at the 100-level or below are considered to be at the undergraduate

level. The exceptions are History and Political Science, which list undergraduate courses at the 200-level and below.

5. Units from language courses do not count towards the IPS degree requirements except in cases in which they are used to substitute for units that were made available through an exemption from a core course. English proficiency courses for international students do not count towards the IPS degree requirements.
6. Only students with two or more years of relevant policy work may petition to write a master's thesis (IPS 209A IPS Master's Thesis)

## Coterminal Master's Program

Undergraduates at Stanford may apply for admission to the coterminal master's program in IPS when they have earned a minimum of 120 units toward graduation, including Advanced Placement and transfer credit, and no later than the quarter prior to the expected completion of their undergraduate degree. The coterminal application requires the following supporting materials:

- Two letters of recommendation from University faculty
- Academic writing sample of at least eight double-spaced pages
- Statement of purpose focusing on relevant personal, academic, and career plans and goals
- Resume

Students must submit the Coterminal Online Application (<https://applyweb.com/stanterm>). Applications must be filed together with supporting materials by 11:59 pm on Tuesday, January 9, 2018.

University requirements for the coterminal M.A. are described in the "Coterminal Bachelor's and Master's Degrees (p. 46)" section of this bulletin. For University coterminal master's forms, see the Registrar's Publications page (<https://registrar.stanford.edu/resources-and-help/student-forms/coterminal-forms>).

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken three quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

## Exchange Program

### Stanford–Vienna Academic Exchange

The Stanford–Vienna Academic Exchange is an Autumn Quarter exchange program between the Ford Dorsey Program in International

Policy Studies and the Diplomatic Academy of Vienna. Two second-year students from each institution are selected by application to receive fellowships to spend Autumn Quarter in an academic exchange at the other institution where they take courses as full-time students, pursue extracurricular activities, and participate in the academic life of the host institution.

IPS students participating in the Stanford-Vienna Academic Exchange must complete all requirements listed in the M.A. curriculum. However, the minimum number of Stanford units required to graduate will be 58. In addition to the minimum requirement of 58 units, students must complete at minimum the equivalent of three full-time courses at the Diplomatic Academy of Vienna (DA), of which one course must be IPS 209 Practicum.

The IPS Practicum is offered as an independent study course in Vienna, and students receive a Satisfactory/No Credit (S/NC) grade for their participation in the course during Autumn Quarter. Upon return to Stanford for Winter Quarter, students must register for a total of 4 units of IPS 209 Practicum .

While on exchange at the DA, an IPS student's status is listed as active, but they are not considered enrolled at Stanford. In addition, IPS students receive an academic transcript from the DA for Autumn Quarter. Hence, there is no reference to the exchange on an IPS student's Stanford transcript.

For further information, please see the Stanford-Vienna Academic Exchange (<http://ips.stanford.edu/content/stanford-vienna-academic-exchange>) section of the IPS web site.

## Joint Degree Programs

Up to a maximum of 45 units, or one year, of the University residency requirement can be credited toward both graduate degree programs (i.e., the joint degree may require up to 45 fewer units than the sum of the individual degree unit requirements). For example, an M.A./M.P.P. has a three-year residency requirement, one year less than what is required for the separate degrees. The reduced requirement recognizes the subject matter overlap between the fields comprising the joint degree.

### Juris Doctor and Master of Arts in International Policy Studies (J.D./M.A.)

Students may choose to pursue a joint J.D./M.A. in IPS degree. The joint degree program combines the strengths of the Law School and IPS. Prospective students interested in the joint J.D./M.A. in IPS program may apply concurrently to both the Stanford Law School (SLS) and the IPS program. Two separate application forms are required and applicants must submit LSAT scores to the Law School and GRE scores to the IPS program.

Students already enrolled at SLS may apply to the joint J.D./M.A. in IPS program no later than the end of the second year of Law School. The IPS program makes rolling admissions decisions based on the student's original application materials (GRE scores are not required in addition to LSAT scores in this case). Submission of the following is required for consideration:

- IPS Joint Degree Application Form (available from the IPS website ([http://ips.stanford.edu/joint\\_program](http://ips.stanford.edu/joint_program)))
- Law School Joint Degree Petition (details available on the SLS Joint Degree Application Process (<https://law.stanford.edu/apply/how-to-apply/joint-degree-application-process>) webpage)
- Graduate Program Authorization Petition (submitted via Axess (<http://axess.stanford.edu>))
- Enrollment Agreement for Students with Multiple Programs (available for download on the University Registrar's forms page (<http://studentaffairs.stanford.edu/registrar/forms/grad/#enrollment>))

- Current resume or curriculum vitae

For further information, see the "J (p. 54) Joint Degree Programs (p. 54)" section of this bulletin, the University Registrar's site (<https://registrar.stanford.edu/students/graduate-degree-progress/joint-degree-program-information>), and the SLS' Joint and Cooperative Degree Programs (<https://law.stanford.edu/education/degrees/joint-degrees-within-stanford-university/#slnav-established-joint-degrees>) web site.

## Master of Arts in International Policy Studies and Master of Public Policy (M.A./M.P.P.)

Admission to the joint degree program requires admission to and matriculation in Stanford's Ford Dorsey program in International Policy Studies and consent of that program.

Applications for graduate study in Public Policy are only accepted from:

1. students currently enrolled in any Stanford graduate or undergraduate degree program
2. from external applicants seeking a joint degree, or
3. from Stanford alumni who have graduated within the past five years.

To be considered for matriculation beginning in the Autumn Quarter 2018-19, all application materials must be submitted no later than April 10, 2018. The early deadline for applications is Tuesday, January 23, 2018 with a final deadline on Tuesday, April 10, 2018. Early submission of MPP applications is encouraged. Admission notifications are sent on a rolling basis no later than May 1, 2018. Admitted students are encouraged to respond to offers of admission by April 15, 2018 and are required to respond to offers of admission by May 15, 2018 at the latest.

External applicants for joint degrees must apply to the department or school offering the other graduate degree (i.e., PhD, MD, MA, MS, MBA, or JD), indicating an interest in the joint degree program; applicants admitted to the other degree program are then evaluated for admission to the MPP or MA program. Applicants who are admitted to IPS may apply once they have received admission to the program but prior to matriculation in autumn quarter. They may also apply during the first or second year of the IPS program.

Details on the joint degree curriculum can be found on the Public Policy (<https://publicpolicy.stanford.edu/academics/graduate/joint-degree-programs>) web site.

For further information, see the "Joint Degree Programs (p. 54)" section of this bulletin and the University Registrar's site (<https://registrar.stanford.edu/students/graduate-degree-progress/joint-degree-program-information>).

## Dual Degree Programs

Students who have attended Stanford for at least one term and who are currently enrolled may submit a Graduate Program Authorization Petition to seek to add a new degree program in a different department to be pursued concurrently with the existing program.

It is important that the attempt to add degree programs be made while the student is enrolled. Otherwise, a new Application for Graduate Admission must be submitted and an application fee paid. Similarly, enrollment must be continuous if a new degree program is added after completion of an existing program. Summer quarter enrollment is optional for students who intend to begin a new degree program in the Autumn quarter, provided that they have been enrolled the prior Spring quarter.

Graduate Program Authorization Petitions are filed electronically in Axess (<https://axess.stanford.edu>) and approved by the current and the new department. In addition, petitions from international students is routed

to the Bechtel International Center for review. Upon all approvals, the student's record automatically updates with the requested changes.

## Master of Business Administration and Master of Arts in International Policy Studies

The dual degree is designed for students who want to work at the intersection of business and the state both in the U.S. and abroad.

Prospective students interested in the M.B.A./M.A. in IPS dual degree program may apply concurrently to both the Stanford Graduate School of Business and the IPS program. Two separate applications are required and applicants must submit GRE scores with each application.

Students already enrolled at the Stanford Graduate School of Business may apply to the M.B.A./M.A. in IPS dual degree program no later than the end of the first year. The IPS program makes rolling admissions decisions based on the student's original application materials.

Submission of the following is required for consideration:

- IPS/GSB Dual Degree Application Form (available from the IPS web site ([http://ips.stanford.edu/joint\\_program](http://ips.stanford.edu/joint_program)))
- Stanford Official Transcript
- Graduate Program Authorization Petition (submitted via Axess (<http://axess.stanford.edu>))
- Enrollment Agreement for Students with Multiple Programs (available for download on the University Registrar's forms page (<http://studentaffairs.stanford.edu/registrar/forms/grad/#enrollment>))

Completing this combined course of study requires approximately three academic years, depending on the student's background and quantitative preparation. Admissions processes for both programs are completely independent of each other and units from courses can only be applied to one degree or the other, not both.

### Leadership:

Michael McFaul, Director, Freeman Spogli Institute for International Studies  
Kathryn Stoner, Deputy Director, Freeman Spogli Institute for International Studies

### Executive Committee:

Coit D. Blacker (Freeman Spogli Institute for International Studies)  
Lisa Blaydes (Political Science)  
James Fearon (Political Science)  
Francis Fukuyama (Freeman Spogli Institute for International Studies)  
David Holloway (History)  
Beatriz Magaloni (Political Science)  
Scott Sagan (Political Science)  
Andrew Walder (Sociology)  
Jeremy Weinstein (Political Science)

### Affiliated Faculty:

Paul Brest (Law)  
Jeremy Bulow (Economics)  
Marshall Burke (Earth System Science)  
David Cohen (Handa Center for Human Rights and International Justice)

## Area of Concentration Curriculum

The Ford Dorsey Program in International Policy Studies (IPS) offers five areas of concentration:

- Democracy, Development and Rule of Law (<https://ips.stanford.edu/academics/concentrations/#DDRL>) (DDRL)

- Energy, Environment, and Natural Resources (<https://ips.stanford.edu/academics/concentrations/#EENR>) (EENR)
- Global Health (<https://ips.stanford.edu/academics/concentrations/#GH>) (GH)
- International Political Economy (<https://ips.stanford.edu/academics/concentrations/#IPE>) (IPE)
- International Security and Cooperation (<https://ips.stanford.edu/academics/concentrations/#ISC>) (ISC)

Each concentration is guided by one -or more- major international research centers at Stanford. This collaboration provides IPS students with exposure to cutting-edge research on global policy issues. Students are required to choose one area of concentration and complete at least six courses within the concentration for a minimum of 26 total units. Each area of concentration requires the completion of a gateway course (indicated on the Master's tab), which must be taken during the first year and prior to enrolling in subsequent courses. Additionally, each area of concentration has a list of approved elective courses, as shown below. See the Master's tab (<http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/internationalpolicystudies/#masterstext>) for information on how to petition to apply a course toward the area of concentration that is not included in the lists below.

# INTERNATIONAL RELATIONS

Courses offered by the Program in International Relations (IR) are listed under the subject code INTNLREL (<https://explorecourses.stanford.edu/search?view=catalog&academicYear=&q=INTNLREL&filter-departmentcode=INTNLREL=on&filter-coursestatus=Active=on&filter-term=Autumn=on&filter-term=Winter=on&filter-term=Spring=on&filter-term=Summer=on&page=0>) on the Stanford Bulletin's ExploreCourses web site.

The Program in International Relations offers an undergraduate Bachelor of Arts program, an honors program, and a minor in International Relations.

## Mission of the Undergraduate Program in International Relations

The undergraduate program in International Relations is an interdisciplinary undergraduate major allowing students to explore how global, regional and domestic factors influence relations between actors on the world stage. The program equips students with the skills and knowledge necessary to analyze choices and challenges that arise in this arena. IR majors pursue study in world politics, including courses in political science, economics, history, and language, focusing on issues such as international security, political economy, economic development, and democratization. Students must spend at least one quarter overseas. The major prepares students for careers in government and the corporate sector, and for admission into graduate programs in law, business, economics, and political science.

## Learning Outcomes (Undergraduate)

The program expects its undergraduate majors to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the Program in International Relations. Students are expected to demonstrate:

1. understanding of core knowledge necessary to understand contemporary world politics.
2. ability to analyze international issues and draw correct inferences using qualitative and/or quantitative analysis.
3. ability to write clearly and persuasively, communicating ideas clearly.
4. ability to evaluate theory and critique research within the discipline.

## Honors Program

The International Relations honors program offers qualified students the opportunity to conduct a major independent research project under faculty guidance. Such a project requires a high degree of initiative and dedication, significant amounts of time and energy, and demonstrated skills in research and writing.

In their junior year, students should consult with prospective honors advisers, choose the courses that provide academic background in their areas of inquiry, and demonstrate an ability to conduct independent research. Students can also select to complete an Interdisciplinary honors thesis with other programs on campus.

Prerequisites for participation include a 3.5 grade point average (GPA), a strong overall academic record, good academic standing, successful experience in writing a research paper, and submission of an acceptable thesis proposal. Students should submit their honors thesis proposal late in Winter Quarter of the junior year; please check with IR office for the exact deadline. Students are required to enroll in INTNLREL 200A International Relations Honors Field Research, in Spring Quarter of their junior year and should consider participating in Bing Honors College (<https://undergrad.stanford.edu/programs/bhc>). In their senior year, honors students must enroll in INTNLREL 200B International Relations

Honors Seminar in Autumn Quarter, INTNLREL 200C IR Honors Thesis Writing in Winter Quarter, and in research units through INTNLREL 198 Senior Thesis each quarter of their senior year (Autumn, Winter, and Spring) with their faculty adviser. Honors students present a formal defense of their theses in mid-May. Students must receive at least a grade of 'B+' in order to graduate with honors in International Relations.

## Coterminal Programs in Related Fields

It is possible for students majoring in International Relations to work simultaneously for a coterminal master's degree in a number of related fields. Coterminal students should consult advisers in both departments or programs to ensure that they fulfill the degree requirements in both fields. For information on the M.A. program in International Policy Studies, see the "International Policy Studies (p. 608)" section of this bulletin. University requirements for the coterminal M.A. are described in the "Coterminal Degree (p. 46)s" section of this bulletin. See also the Registrar's Coterminal Degree Programs (<https://registrar.stanford.edu/students/coterminal-degree-programs>) pages.

## Bachelor of Arts in International Relations

Students are encouraged to declare by the end of their sophomore year to ensure timely completion of the program. Students must submit an acceptable major proposal to the Director of the Program in International Relations (IR) and declare IR in Axess. Students completing a double major, or who have a minor, are also required to file a Major-Minor and Multiple Major Course Approval Form (<https://stanford.box.com/MajMin-MultMaj>) by the Final Study List deadline for the term in which the student intends to graduate.

Students majoring in International Relations must complete a minimum of 70 units (30 units of core courses as well as 40 units of specialization courses). As part of the core curriculum, IR majors must take an Introductory economics course. The Economics department is offering ECON 1 Principles of Economics, replacing the former ECON 1A and 1B.

Students who complete only ECON 1 Principles of Economics, or the old ECON 1A, are to complete 30 units of core courses and 40 units of specialization courses in order to meet the 70 units required for the major.

Students who took courses in previous years that are not featured in the below table should consult the Stanford Bulletin for the years in which the courses were taken.

## Core Courses (30 units):

	Units
<b>Required Courses:</b>	
International Politics:	5
POLISCI 101 Introduction to International Relations	
Comparative Governance (Select one of the following):	5
HISTORY 102 History of the International System	
POLISCI 104 Introduction to Comparative Politics	
POLISCI 114D Democracy, Development, and the Rule of Law	
American Foreign Policy (Select one of the following):	5
INTNLREL 154	
INTNLREL 168 America as a World Power: U.S. Foreign Relations, 1914 to Present	
INTNLREL 173 Presidents and Foreign Policy in Modern History	
INTNLREL 174 Diplomacy on the Ground: Case Studies in the Challenges of Representing Your Country	
POLISCI 110C America and the World Economy	
POLISCI 110D War and Peace in American Foreign Policy	
POLISCI 110G Governing the Global Economy	

POLISCI 214R	Challenges and Dilemmas in American Foreign Policy	
Introductory Economics (Select one of the following):		5
ECON 1	Principles of Economics	
ECON 50	Economic Analysis I	
ECON 51	Economic Analysis II	
ECON 52	Economic Analysis III	
Skills Classes (Select one of the following):		5
ECON 102A	Introduction to Statistical Methods (Postcalculus) for Social Scientists	
STATS 60	Introduction to Statistical Methods: Precalculus	
Applied Economics Courses (Select one of the following):		5
ECON 106	World Food Economy	
ECON 111	Money and Banking	
ECON 118	Development Economics	
ECON 119	The Russian Economy	
ECON 124	Economic Development and Challenges of East Asia	
ECON 125	Economic Development, Microfinance, and Social Networks	
ECON 126	Economics of Health and Medical Care	
ECON 127	Economics of Health Improvement in Developing Countries	
ECON 128	Economic Development: A Historical Perspective	
ECON 141	Public Finance and Fiscal Policy	
ECON 149	The Modern Firm in Theory and Practice	
ECON 150	Economic Policy Analysis	
ECON 164	The Law and Economics of the World Trading System	
ECON 165	International Finance	
ECON 166	International Trade	
INTNLREL 118SP	Political Economy of International Trade and Investment	
INTNLREL 122/		
INTNLREL 123	The Future of the European Union: Challenges and Opportunities	
INTNLREL 149		
IPS 202	Topics in International Macroeconomics	
IPS 203	Issues in International Economics	
IPS 207	Economics of Corruption	
OSPMADR 54	Contemporary Spanish Economy and the European Union	
OSPPARIS 91	Globalization and Its Effect on France and the European Union	
POLISCI 110C	America and the World Economy	
POLISCI 110G	Governing the Global Economy	
POLISCI 210G		
POLISCI 213R	Political Economy of Financial Crisis	
POLISCI 216G	International Organizations and Institutions	
POLISCI 245A	Politics and Public Finance	
PUBLPOL 184		
SIW 103	Economic Growth and Development Patterns, Policies, and Prospects	
SOC 114	Economic Sociology	
Total Units		30

### Specialization Courses (40 units):

The ten specializations are:

1. Africa
2. Comparative International Governance
3. East and South Asia
4. Economic Development/World Economy
5. Europe (East and West) & Russia
6. International History and Culture
7. International Security
8. Latin America and Iberian Studies
9. Middle East and Central Asia
10. Social Development/Human Well-Being

Students on the old IR plan (declared prior to Autumn Quarter 2013-14) who completed two introductory economics courses must complete a total of at least 35 units (usually seven 5 unit courses) in their primary and secondary specializations. 20 units must be from the student's primary specialization; 15 units from the secondary specialization. Functional specializations are not declared on Axess nor are they printed on the diploma or transcript.

Students who have only taken one introductory economics course must take 40 units of specialization courses in order to meet the 70 units required for the major. 20-25 units must be from the student's primary specialization; 15-20 units from the secondary specialization. Functional specializations are not declared on Axess nor are they printed on the diploma or transcript.

The following courses are approved for each functional specialization.

#### Africa

Crosslisted courses may appear in the list below multiple times. Crosslisted courses may only be taken once for credit.

		Units
AFRICAAM 81	Media Representations of Africa	3-5

### Additional Policies/Requirements:

- At least one course must be an upper-division seminar or colloquium.
- At least one writing intensive course designated as Writing in the Major (WiM) for International Relations.
- All courses must be taken for a letter grade, and a minimum grade of 'C' is required for courses to count towards major requirements.
- Completion of one quarter of academic study overseas, either through the Stanford Overseas Studies Program or an approved non-Stanford program. Non-Stanford programs must be pre-approved by the IR office before the student enrolls in the program.
- All IR majors must demonstrate proficiency in a foreign language by either completing two years of course work (second-year, third-quarter) or passing a proficiency exam. Foreign language units do not count towards the major.
- Upon approval, a maximum of 15 non-Stanford units may be applied to the major for credit.

### Independent Study/Honors

		Units
INTNLREL 197	Directed Reading in International Relations	1-5
INTNLREL 198	Senior Thesis	2-10
INTNLREL 200A	International Relations Honors Field Research	3
INTNLREL 200B	International Relations Honors Seminar	3
INTNLREL 200C	IR Honors Thesis Writing	1

### Honors Program

The International Relations honors program offers qualified students the opportunity to conduct a major independent research project under faculty guidance. Such a project requires a high degree of initiative and dedication, significant amounts of time and energy, and demonstrated skills in research and writing.

In their junior year, students should consult with prospective honors advisers, choose the courses that provide academic background in their areas of inquiry, and demonstrate an ability to conduct independent research. Students can also select to complete an Interdisciplinary honors thesis with other programs on campus.

Prerequisites for participation include a 3.5 grade point average (GPA), a strong overall academic record, good academic standing, successful experience in writing a research paper, and submission of an acceptable thesis proposal. Students should submit their honors thesis proposal in the Winter Quarter of the junior year; check with IR office for the exact deadline. Students are required to enroll in INTNLREL 200A International Relations Honors Field Research, in the Spring Quarter of their junior year and should consider participating in Bing Honors College (<https://undergrad.stanford.edu/programs/bhc>). In their senior year, honors students must enroll in INTNLREL 200B International Relations Honors Seminar in Autumn Quarter, INTNLREL 200C IR Honors Thesis Writing in Winter Quarter, and in research units through INTNLREL 198 Senior Thesis each quarter of their senior year (Autumn, Winter, and Spring) with their faculty adviser. Honors students present a formal defense of their theses in mid-May. Students must receive at least a grade of 'B+' in order to graduate with honors in International Relations. For more information, refer to the International Relations (<http://internationalrelations.stanford.edu>) website.

### Minor in International Relations

A minor in International Relations (IR) is intended to provide an interdisciplinary background allowing a deeper understanding of contemporary international issues. To declare the IR minor, students must complete the application for a minor in ACESS and complete the IR Minor Declaration and Course Proposal form and submit this to the IR office. Students completing a minor are also required to file a Major-Minor and Multiple Major Course Approval Form (<https://>

stanford.box.com/MajMin-MultMaj) by the Final Study List deadline for the term in which the student intends to graduate.

Students complete the minor by taking 35 units from the IR curriculum that do not duplicate with the student's major (or, if applicable, any other minor), including the following:

	Units
<b>Required Courses:</b>	
International Politics	5
POLISCI 101 Introduction to International Relations	
American Foreign Policy (Select one of the following):	5
INTNLREL 154	
INTNLREL 168 America as a World Power: U.S. Foreign Relations, 1914 to Present	
INTNLREL 173 Presidents and Foreign Policy in Modern History	
INTNLREL 174 Diplomacy on the Ground: Case Studies in the Challenges of Representing Your Country	
POLISCI 110C America and the World Economy	
POLISCI 110D War and Peace in American Foreign Policy	
POLISCI 110G Governing the Global Economy	
POLISCI 214R Challenges and Dilemmas in American Foreign Policy	
Upper Division Specialization Courses (25 units)	25
<b>Total Units</b>	<b>35</b>

Complete at least 25 units in one of the following specializations below.

- Africa
- Comparative International Governance
- East and South Asia
- Economic Development/World Economy
- Europe (East and West) & Russia
- International History and Culture
- International Security
- Latin America and Iberian Studies
- Middle East and Central Asia
- Social Development/Human Well-Being

Lewis (History), Pawel Lutomski (International Relations), Abbas Milani (Hoover Institution, Iranian Studies), Alice Lyman Miller (Hoover Institution), Bertrand Patenaude (Hoover Institution, International Relations), Robert Rakove (International Relations), Margaret Sena (El Centro Chicano, International Relations), Stephen Stedman (Political Science), Richard Steinberg (Stanford Global Studies), Gil-Li Vardi (Hoover Institution, International Relations).

## Overseas Studies Courses in International Relations

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

# JEWISH STUDIES

---

The Taube Center for Jewish Studies investigates all aspects of Jewish culture, history, religion, literature, language and education from biblical times to the present. Courses are offered on the undergraduate and graduate levels in a program complemented by a full range of guest lectures, conferences, and symposia. The Center annually sponsors the Donald and Robin Kennedy Undergraduate Award for the best undergraduate essay on any theme in Jewish Studies, the Dr. Bernard Kaufman Undergraduate Research Award in Jewish Studies awarded to an undergraduate engaged in research on Jews in modernity, and the Koret Award for best essay written in Hebrew by an undergraduate. In alternate years, the Center sponsors the Nelee Langmuir Award for a student working in the field of Modern European History with a preference given to work on the Holocaust, and the Short Story Contest which awards the top three stories written on a Jewish theme.

Graduate students must apply and enroll in the program through the departments of English, History, Comparative Literature, Religious Studies, or the School of Education, and meet the requirements of those departments. All graduate students in the University with an academic interest in Jewish Studies are encouraged to participate in the Colloquium for Jews, Judaism and Jewish Culture, an ongoing opportunity to share work and meet with faculty and visiting scholars. For more information about graduate studies in Jewish Studies, contact the Center manager or Director.

## Undergraduate Program in Jewish Studies

An undergraduate program in Jewish Studies is offered through Comparative Studies in Race and Ethnicity (CSRE) (p. ). It is interdisciplinary in that it draws together a wide range of disciplines including history, literary studies, religious studies, gender studies, education, and other fields. Through its courses and extracurricular programs, the Taube Center seeks to introduce students to the ideas and experience of the Jewish people over its entire history, from the biblical period to the Holocaust and contemporary Israeli culture.

Undergraduates interested in completing a major or minor in Jewish Studies should visit the "Comparative Studies in Race and Ethnicity (CSRE) (p. 464)" section of this bulletin for program descriptions and courses.

*Interim Director:* Ari Y. Kelman (Education)

*Affiliated Faculty and Teaching Staff:* Zachary Baker (Stanford University Libraries), Joel Beinlin (History), Jonathan Berger (Music), Rowan Dorin (History), Amir Eshel (German Studies), Shelley Fisher Fishkin (English), Charlotte Fonrobert (Religious Studies), Avner Greif (Economics), Katherine Jolluck (History), Ari Y. Kelman (Education), Mark Mancall (History, emeritus), Ariel Mayse (Religious Studies), Norman Naimark (History), Reviel Netz (Classics), Jack Rakove (History), Aron Rodrigue (History), Noah Rosenberg (Biology), Janice Ross (Theater and Performance Studies), Nancy Ruttenberg (English), Gabriella Safran (Slavic Languages and Literatures), Anna Schultz (Music), Vered Karti Shemtov (Language Center, Comparative Literature), Lee Shulman (Education, emeritus), Peter Stansky (History, emeritus), Marie-Pierre Ulloa (French), Amir Weiner (History), Sam Wineburg (Education), Steven Zipperstein (History)

*Yiddish & Hebrew Instructional Staff:* Jon Levitow, Gallia Porat

*Writer-in-residence:* Maya Arad

# LANGUAGE CENTER

The Stanford Language Center oversees all language instruction at Stanford. The center's charge is to guarantee that Stanford language programs are of the highest quality; to develop and administer achievement and proficiency tests needed to implement the language requirement; to provide technical assistance and support to the graduate students, lecturers, and faculty who deliver Stanford's language instruction; and to take leadership in research and development efforts in language learning. The Language Center is a unit within the Division of Literatures, Cultures, and Languages (p. ).

## Courses

Courses offered by the Language Center are listed under the following subject codes on the Stanford Bulletin's ExploreCourses web site:

- AMELANG (African and Middle Eastern Languages and Literatures)
- ARABLANG (Arabic Language) (<https://explorecourses.stanford.edu/search?view=catalog&catalog=71&page=0&q=ARABLANG&filter-catalognumber-ARABLANG=on&filter-coursestatus-Active=on>)
- CATLANG (Catalan Language)
- CHINLANG (Chinese Language)
- EFSLANG (English for Foreign Students)
- FRENLANG (French Language)
- GERLANG (German Language)
- ITALLANG (Italian Language)
- JAPANLANG (Japanese Language)
- KORLANG (Korean Language)
- PORTLANG (Portuguese Language)
- SLAVLANG (Slavic Language)
- SPANLANG (Spanish Language)
- SPECLANG (Special Language)
- TIBETLANG (Tibetan Language)

## Beginning-Level, First-Year Courses

Beginning-level, first-year language courses require no previous knowledge of the language. The beginning-level sequence emphasizes development of the full range of language skills, reading, listening comprehension, the use of grammatical structures, and oral and written communication, through a variety of learning themes. Individual, small group, interactive work and multimedia-based activities reinforce language skills and provide the platform for adapting the curriculum to specific student learning goals. Cultural awareness is a strong component of the curriculum.

## Intermediate-Level, Second-Year Courses

Intermediate-level, second-year language courses require completion of the beginning sequence, corresponding placement or consent of the program coordinator. The intermediate-level sequence focuses on continuous mastery and development of skills that help students to converse and present accurately and more fluently, incorporate more advanced grammatical structures in their oral and written work, use idiomatic expressions in the right context, and read and write more sophisticated compositions. Curricular objectives and enhanced cultural understanding are built into the courses through a multimodal approach.

## Advanced-Level, Third-Year Courses

Advanced-level, third-year language courses require completion of the intermediate-year sequence, corresponding placement or consent of the program coordinator. The advanced-level sequence focuses on accurate understanding and use of structures through authentic texts and multimedia materials, and readings from various genres. Individual learning goals and student proficiency are taken into account to provide

a learning environment that helps students become more autonomous learners.

## Proficiency in Foreign Language Notation

A student who demonstrates levels of achievement equivalent to those expected at the end of the third quarter of the third year of study in a language may be awarded the notation "proficiency in" that language on the official transcript. Successful candidates tend to have completed the third year or beyond of language study at Stanford and spent considerable time studying abroad in the foreign language.

In order to receive the proficiency notation and for it to appear on the official transcript, the student must complete the following oral and written requirements according to the timeline below. The notation is available only for languages where external assessment is offered through Language Testing International. Successful completion of the oral component is required before proceeding with the written component.

Both oral and written components must be completed no later than the quarter preceding the graduating quarter.

For more information, contact [languagecenter@stanford.edu](mailto:languagecenter@stanford.edu).

### Application and Oral Component: Two quarters prior to graduation

1. Notify the Language Center via email of the intent to pursue the notation and request an official Oral Proficiency Interview (OPI). Since this is a formal interview conducted according to national academic and professional standards, at least two quarters of lead time are essential for scheduling.
2. Complete the 30-minute Oral Proficiency Interview as scheduled through the Language Center and conducted by a certified OPI tester. The interview must take place no later than one quarter prior to graduation and be administered on campus.
3. Receive an official rating of Advanced Low or higher on the Foreign Service Institute/American Council on the Teaching of Foreign Languages (FSI/ACTFL) scale of oral proficiency, except in the non-cognate languages which require a minimum rating of Intermediate High. Students who do not meet the minimum level for the notation will nonetheless receive an official OPI rating, which carries national recognition of their oral proficiency.

### Writing Component: One quarter prior to graduation

1. Once approved to continue with the writing component, schedule a Writing Proficiency Test (WPT) through the Language Center. As an official writing assessment, the 90-minute exam must take place no later than one quarter prior to graduation and as soon as possible after the interview. The WPT is administered on campus and rated by a certified WPT rater.
2. Receive an official rating of Advanced Low or higher on the Foreign Service Institute/American Council on the Teaching of Foreign Languages (FSI/ACTFL) scale of writing proficiency, except in the non-cognate languages which require a minimum rating of Intermediate High. Students who do not meet the minimum level for the notation will nonetheless receive an official WPT rating, which carries national recognition of their writing proficiency.

### Proficiency Notation Timetable

1. Graduating Spring/Summer: Apply Autumn; interview Autumn/Winter; writing Winter.
2. Graduating Autumn: Apply Winter; interview Winter/Spring; writing Spring.
3. Graduating Winter: Apply Spring; interview Spring/Autumn; writing Autumn.

## Overseas Studies Courses in the Language Center

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) web site or the Bing Overseas Studies (<http://bosp.stanford.edu>) web site. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

## African and Middle Eastern Languages and Literatures Program

The African and Middle Eastern Languages and Literatures Program offers classes in Hebrew, Persian, Swahili, Turkish, and African languages not regularly taught at Stanford. Based on current funding and student requests, the courses planned for 2017-18 are listed in the "ExploreCourses" section of this Bulletin under the AMELANG program. Additional languages may still be offered upon request, provided funding is available. Requests for the 2018-19 academic year should be made by Spring Quarter of this year to the AME program office by email to [khalil@stanford.edu](mailto:khalil@stanford.edu) ([eberrnar@stanford.edu](mailto:eberrnar@stanford.edu)).

First, second, and third year each refer to the yearly sequence of language study. Letter suffixes refer to the quarter within the sequence: "A" courses are typically taught in Autumn; "B" courses, in Winter; and "C" courses in Spring. Courses are 4 or 5 units as listed. In some circumstances, a beginning or intermediate course may be offered in alternate years. Language courses may not be repeated for credit, and must be taken in sequence.

### Fulfilling the Language Requirement in AME

Students can fulfill the language requirement by taking an African or Middle Eastern Language. At least 12 units are needed to complete the requirement. Students who have taken courses in the relevant language at another institution, or have previous knowledge of the language, can request to be tested. Tests are comprised of two parts, written and oral. Students must display first-year level proficiency in the requested language to fulfill the requirement. Testing is guaranteed only for languages currently offered. Students planning to take a test must contact the AME Program no later than the Spring Quarter of their sophomore year. To submit a request for language testing, or to request that a language be taught, and for further information on the program, see the African and Middle Eastern Language Program (<https://www.stanford.edu/dept/lc/language/courses/africanMidEastern>) web site.

## Special Language Program

The Special Language Program (SLP) offers foreign languages not otherwise taught at Stanford. Based on current funding and student requests, the courses planned for 2017-18 are listed in the "Explore Courses (<http://explorecourses.stanford.edu>)" section of this Bulletin under the Special Languages (SPECLANG) Program; however, not every course listed is taught. Additional languages may still be offered upon request, provided funding is available. Requests for the 2018-19 academic year should be made by Spring Quarter of this year at the Special Language Program office ([epriomas@stanford.edu](mailto:epriomas@stanford.edu)).

First-year courses are offered for 4 or 5 units, as listed. First, second, and third year each refer to the yearly sequence of language study. Letter suffixes refer to the quarter within the sequence: "A" courses are typically taught in Autumn; "B" courses, in Winter; and "C" courses in Spring. In some circumstances, a beginning or intermediate course may be offered in alternate years. Language courses may not be repeated for credit, and

must be taken in sequence. For additional information, see the Special Language Program (<http://www.stanford.edu/dept/SLP>) web site.

## Fulfilling the Language Requirement in Special Language Program

Students can fulfill the language requirement by taking courses offered by the Special Language Program. At least 12 units are needed to complete the requirement. Students who have already taken courses in the relevant language at another institution, or who have previous knowledge of the language, can request to be tested. Tests are comprised of written and oral parts. A student must display first-year level proficiency in the requested language in order to fulfill the requirement. Testing is guaranteed only for these languages currently offered. Students planning to take a test must contact the Special Language Program no later than the Spring Quarter of sophomore year. To submit a request for language testing, or to request that a language be taught, and for further information on the program, contact the Special Language Program office ([epriomas@stanford.edu](mailto:epriomas@stanford.edu)). ([epriomas@stanford.edu](mailto:epriomas@stanford.edu))

## Minors in the Division of Literatures, Cultures, and Languages (DLCL)

The Division of Literatures, Cultures, and Languages (p. ), of which the Language Center is a part, offers the following minors that may be of interest to foreign language students. For more information, consult the contact specified in the relevant minor following.

### Minor in Modern Languages

Faculty Director: Dan Edelstein

The Division of Literatures, Cultures, and Languages offers an undergraduate minor that draws upon courses in literature and language within the division's departments and elsewhere in the University. The minor in Modern Languages is offered to students who want to supplement the course work in their major with course work in modern languages and literatures. Students declare the Minor in Modern Languages through Axess. Appropriate courses offered through BOSP may count toward this minor with Professor Edelstein's pre-approval.

Students are required to complete 6 courses of 3 units or more in any field qualify for the minor by meeting the following requirements:

	Units
A minimum of 16 units (4 courses and 8 units per language) at the intermediate level (second year) or beyond, not including conversational, oral communication, business, or medical language courses in two languages other than English all Modern languages offered at Stanford can qualify.	16
At least two additional courses of 3 units or more, one in each modern language being studied in the minor. These courses must be taught by Academic Council members or other senior members of Stanford faculty.	6-10

It is recommended that students study, work, or intern abroad for at least eight weeks at a location where one of the languages is spoken. Course work in this minor may not duplicate work counted toward other majors or minors. Advanced Placement credit and transfer credit cannot be applied to this minor. All courses must be taken for a letter grade. By University policy, no more than 36 units may be required in this minor.

### Minor in Translation Studies

Faculty Director: Dan Edelstein

The Division of Literatures, Cultures, and Languages, in cooperation with East Asian Languages and Cultures and the English Department, teaches

undergraduates to develop and apply their foreign language knowledge to the production and analysis of translations. The minor is designed to give students majoring in a variety of fields the tools to consider the practical and theoretical issues brought up by translation as an aesthetic, cultural, and ethical practice.

Course work in this minor may not duplicate work counted toward other majors or minors. Course selection must be approved by the minor adviser. For further information, contact the minor adviser, Cintia Santana (csantana@stanford.edu).

Students must take a minimum of 23 units for a letter grade, in fulfillment of the following requirements:

	Units
1. Prerequisite: Complete or test out of a first-year course in the language of interest.	
2. Core course: At least 4 units in a Translation Studies core course: ENGLISH/DLCL 293 or DLCL 113Q.*	4
3. Language study: At least 8 units, second year or beyond (not including conversation/oral communication) and/or relevant literature courses taught in the target language. OSP and transfer units may be considered in consultation with the minor adviser.	8
4. Literature study: At least 7 units in relevant literature courses at the 100-level or above, taught in a DLCL department, East Asian Languages and Cultures, or Classics, and determined in consultation with the minor adviser. For students interested in translation from English into another language, appropriate literature courses in the English department may be substituted.	7
5. Electives: At least 4 units in a creative writing course, or a course that foregrounds translation in departments such as Anthropology, any DLCL department, English, East Asian Languages and Cultures, Classics, Linguistics (e.g., LINGUIST 130A), or Computer Science (e.g., CS 124), determined in consultation with the minor adviser.	4
6. Final Project: Students must also complete a capstone project: a significant translation and/or translation studies project (e.g. 20 pages of prose, 10 poems, or similar appropriate amount to be determined in consultation with the minor adviser). This work may be carried out under the supervision of an instructor in a required course or as an independent study.	
<b>Total Units</b>	<b>23</b>

## Minor in Middle Eastern Languages, Literatures, and Cultures

*Faculty Director:* Alexander Key

The undergraduate minor in Middle Eastern Languages, Literatures, and Cultures (MELLAC) has been designed to give students majoring in other departments an opportunity to gain a substantial introduction to Arabic, Hebrew, Middle Eastern, and African languages, and the cultures and civilizations of the Middle East and Africa. Contact the faculty director, Marie Huber at marieh@stanford.edu before declaring the minor:

- Courses for the minor must be taken for a letter grade unless only offered for faculty-elected satisfactory/no credit. All courses must be completed with a letter grade of 'C' or better.
- Students may not overlap (double-count) courses for completing major and minor requirements
- Students declaring the minor must do so no later than the last day of Spring Quarter of their junior year.

The minor in Middle Eastern Languages, Literatures and Cultures (MELLAC) has two tracks. Their requirements are as follows.

## Minor in Middle Eastern Languages, Literatures, and Cultures, Arabic Track

Requirements for the minor include:

- Completion of four ARABLANG courses at the second-year level or higher, for a total of 20 units
- Up to 5 units of transfer credit may count towards this minor with the Faculty Director's approval.
- Two literature courses taught with Arabic texts, generally offered in Comparative Literature (COMPLIT) for a total of 6-10 units
- One course relating to Arabic taught with English texts, generally offered in Comparative Literature (COMPLIT), for a total of 3-5 units.
- Students must test for Proficiency in Arabic through the Language Center by Winter Quarter of their senior year.
  - Students should minimally receive a notation of intermediate-high.
  - Those requiring outside tutoring are advised to seek resources are available through the DLCL.
- All courses must be approved by the faculty director.

## Minor in Middle Eastern Languages, Literatures, and Cultures, Hebrew, Persian, Turkish, or African Languages, Literatures and Cultures Track

Requirements for the minor include:

- Three language classes in Hebrew, Persian, Turkish, or an African language.
  - All three courses must be in the same language and first year or beyond.
- 20 additional units from relevant literature and culture courses.
  - Courses are offered through the Language Center and DLCL departments.
  - One of these courses must be a (COMPLIT) Comparative Literature course.
  - Additional courses are offered through Jewish Studies (JEWISHST), and the Center for African Studies (AFRICAST).
- The faculty director may approve some upper-level language classes to count towards the 20 additional units.
- All courses must be approved by the faculty director.

## Certificate in Language Program Management

*Faculty Director:* Elizabeth Bernhardt

Programs in contemporary foreign language teaching preparation entail a knowledge base that has grown over the past 30 years, rooted in data from an explosion of linguistic as well as applied linguistic research.

In tandem with the Language Center's primary focus on learning research and theory, which graduate students explore in the teaching preparation program, the Language Program Management certificate focuses on developing the professional leadership and academic skills necessary for a career that includes the coordination and management of language learning.

The program funds summer internships which enable the completion of a certificate in Language Program Management and are intended to help Stanford graduate students prepare themselves for such work in complement to their literary studies. The certificate program is not declared on Axess and does not appear on the transcript or diploma.

## Prerequisites

1. Foreign language acquisition: Oral Proficiency Interview (OPI) rating of at least advanced mid
2. Academic and professional development:
  - DLCL 301 The Learning and Teaching of Second Languages
  - Modified Oral Proficiency Interview (MOPI) Assessment workshop (2 days)
  - Limited OPI Tester Certification (average 6 months)
  - Teaching of three first-year language courses through the Language Center

These are generally met by the end of a graduate student's second year in the PhD program. Once meeting these criteria, the student may be admitted to the Program.

## Requirements

Upon admission to the program, students must complete the following:

1. DLCL 302 The Learning and Teaching of Second-Language Literatures: a course designed to focus student attention on the development of oral language proficiency through the upper levels and emphasize the need for upper register speaking and writing for literature learning and teaching.
2. OPI workshop (additional 2 days of training at the Advanced and Superior levels): this workshop is the extension of the MOPI. It focuses on upper register performance on the FSI-ACTFL scale. Hosted by either the Language Center, regional workshop, or at the national meeting of the ACTFL.
3. Completion of Writing Proficiency Familiarization workshop (Winter Quarter): Workshop conducted by a certified writing tester and structured in parallel to the MOPI/OPI assessment paradigm.
4. DLCL 303 Language Program Management (Summer Quarter): an administrative internship including, but not limited to, experiences with the following:
  - Shadow faculty and staff in select areas of administration and supervision within the Language Center and DLCL
  - Placement testing and student advisement
  - Technology in teaching and learning
  - Processes for teacher observation and feedback
  - Procedures in staff supervision and human resources
  - Course scheduling, budgeting, staffing, and searches
  - Interface with external programs (e.g., BOSP, Bechtel, VPTL)

*Director:* Elizabeth Bernhardt

*Associate Director:* Joan Molitoris

## African and Middle Eastern Languages

*Coordinator:* Khalil Barhoum

*Lecturers:* Saadet Ebru Ergul (Turkish), Ameneh Shervin Emami (Persian), Jon Levitow (Yiddish), Samuel Mukoma (Swahili), Gallia Porat (Hebrew), Vered Shemtov (Sr. Lecturer in Jewish Language & Literature)

Arabic Language

*Coordinator:* Khalid Obeid

*Lecturers:* Salem Aweiss, Khalil Barhoum (Sr. Lecturer), Thoraya Boumehdi, Ramzi Salti

## Catalan Language

*Coordinator:* Joan Molitoris (Associate Director, Language Center)

## Chinese Language

*Coordinator:* Chao Fen Sun (Professor, Asian Languages and Cultures)

*Lecturers:* Marina Chung, Sik Lee Dennig, Michelle DiBello, Nina Lin, Le Tang, Huazhi Wang, Hong Zeng, Youping Zhang, Xiaofang Zhou

## English for Foreign Students

*Director and Senior Lecturer:* Philip Hubbard

*Lecturers:* Robyn Brinks Lockwood, Kristopher Geda, Andrea Kevech, Carole Mawson, Kenneth Romeo, Constance Rylance, Seth Streichler, Dominic Wang

## French Language

*Coordinator:* Marie Lasnier

*Lecturers:* Maria Comsa, Heather Howard, Biliiana Kassabova, Alix Mazuet, Vera Shapirshteyn

## German Language

*Coordinator:* Paul Nissler

*Sr. Lecturer:* William E. Petig

## Italian Language

*Coordinator:* Professor Elizabeth Bernhardt (Director of the Language Center)

*Lecturers:* Marta Baldocchi, Alessandra McCarty, Giovanni Tempesta

## Japanese Language

*Coordinator:* Yoshiko Matsumoto (Professor, Asian Languages and Cultures)

*Lecturers:* Natalia Konstantinovskaia, Momoyo Kubo Lowdermilk, Emiko Yasumoto Magnani, May Maio, Emi Mukai, Momoe Saito Fu

## Korean Language

*Coordinator:* Hee-Sun Kim

*Lecturer:* Hannah Yoon

## Portuguese Language

*Coordinator and Senior Lecturer:* Lyris Wiedemann

*Lecturer:* Agripino Silveira

## Slavic Language

*Coordinator:* Eugenia Khassina

*Sr. Lecturer:* Rima Greenhill

## Spanish Language

*Coordinator:* Alice Miano

*Lecturers:* Vivian Brates, Citlalli del Carpio, Irene Corso, Joan Molitoris (Associate Director, Language Center), Carimer Ortiz Cuevas, Veronika Reinhold, Kara Sanchez, Ana Maria Sierra, María Cristina Urruela, Ana Vivancos, Hae-Joon Won

## Special Language Program

*Coordinator:* Eva Prionas, Modern Greek Language and Literature

*Lecturers:* Cathy Haas (ASL), Dzuong Nguyen (Vietnamese), Sonia Taneja (Hindi)

Tibetan Language Program

*Lecturer and Coordinator:* Robert W. Clark

## Overseas Studies Courses in the Language Center

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

## Overseas Studies Courses in Chinese

explorecourses:OSChinlang Units

## Overseas Studies Courses in French

		Units
OSPPARIS 22P	Intermediate French I	5
OSPPARIS 23P	Intermediate French II	5

## Overseas Studies Courses in German

		Units
OSPBER 1Z	Accelerated German: First and Second Quarters	8
OSPBER 2Z	Accelerated German, Second and Third Quarters	8
OSPBER 3B	German Language and Culture	7
OSPBER 21B	Intermediate German	5

## Overseas Studies Courses in Italian

		Units
OSPFLOR 1A	Accelerated First-Year Italian, Part 1	5
OSPFLOR 1F	First-Year Italian, First Quarter	5
OSPFLOR 2A	Accelerated First-Year Italian, Part 2	5
OSPFLOR 2F	First-Year Italian, Second Quarter	5
OSPFLOR 3F	First-Year Italian, Third Quarter	5
OSPFLOR 21F	Accelerated Second-Year Italian, Part A	5
OSPFLOR 22F	Accelerated Second-Year Italian Part B	5
OSPFLOR 31F	Advanced Oral Communication: Italian	3

## Overseas Studies Courses in Japanese

		Units
OSPKYOTO 2K	First-Year Japanese Language, Culture, and Communication, Second Quarter	5
OSPKYOTO 3K	First-Year Japanese Language, Culture, and Communication, Third Quarter	5
OSPKYOTO 21K	Second-Year Japanese Language, Culture, and Communication, First Quarter	5
OSPKYOTO 22K	Second-Year Japanese Language, Culture, and Communication, Second Quarter	5
OSPKYOTO 23K	Second-Year Japanese Language, Culture, and Communication, Third Quarter	5
OSPKYOTO 103K	Third-Year Japanese Language, Culture, and Communication, Third Quarter	5
OSPKYOTO 210K	Advanced Japanese	5

## Overseas Studies Courses in Spanish

		Units
OSPMADRD 12M	Accelerated Second-Year Spanish I	5
OSPMADRD 13M	Accelerated Second-Year Spanish II	5
OSPMADRD 102M	Composition and Writing Workshop for Students in Madrid	3-5
OSPSANTG 12S	Accelerated Second-Year Spanish, Part I: Chilean Emphasis	5
OSPSANTG 13S	Accelerated Second-Year Spanish, Part II: Chilean Emphasis	5
OSPSANTG 102S	Composition and Writing Workshop for Students in Santiago	3-5

# LATIN AMERICAN STUDIES

Courses offered by the Interdisciplinary Program in Latin American Studies are listed under the subject code LATINAM on the Stanford Bulletin's ExploreCourses web site (<https://explorecourses.stanford.edu>).

The Center for Latin American Studies (CLAS) supports research and teaching in all fields of study as they relate to Latin America. Academic programs encourage interdisciplinary approaches and draw on the expertise of nearly sixty active affiliated faculty members representing Stanford's various schools and departments. Stanford University Libraries' substantial Latin American collections are valuable resources for students, faculty, and visiting researchers alike. Each year CLAS hosts a number of Tinker Visiting Professors, highly distinguished Latin American and Iberian scholars who come to Stanford to teach a course in their field of specialization. The Center for Latin American Studies maintains a highly active public events calendar and provides funding to students and faculty for a variety of research, teaching, internship, and conference activities. The Center is a U.S. Department of Education Title VI National Resource Center for Latin America.

The program offers two academic programs in Latin American Studies: an undergraduate minor and a master of arts degree.

## Undergraduate Programs in Latin American Studies

Stanford Global Studies offers a minor with a Latin American Studies Specialization. Although there is no undergraduate major in Latin American Studies, students may concentrate on Latin America through other departmental and interdisciplinary degree programs, such as Anthropology (p. 371), History (p. 579), Political Science (p. 690), Iberian and Latin American Cultures (p. 600), or International Relations (p. 619). Interested students should consult the relevant departmental web sites and sections of this bulletin for further information.

Undergraduates can obtain a coterminal M.A. degree in Latin American Studies while concurrently working on their undergraduate major by applying during the regular admissions cycle no later than their senior year.

### Financial Aid

Each summer, CLAS awards grants to a small number of undergraduates to complete internships in Latin America. Applications include a proposal, academic transcript, and letters of recommendation. Students from any department are eligible to apply. See Funding (<https://clas.stanford.edu/funding/students>) section in the Center for Latin American Studies (<http://las.stanford.edu>) website.

Students in undergraduate programs who plan to enroll in Portuguese, Quechua, or Nahuatl language and area or international studies courses may be eligible for Academic Year and Summer Foreign Language and Area Studies (FLAS) fellowships. Recipients of FLAS fellowships must be American citizens or permanent residents. For detailed program information and eligibility, see the Center for Latin American Studies (<http://las.stanford.edu>) website.

## Graduate Programs in Latin American Studies

The one-year master's program in Latin American Studies is designed for students who have experience working, living, or studying in Latin America or Iberia and little prior course work on Latin America.

Stanford University does not offer a Ph.D. program in Latin American Studies; however, doctoral candidates may concentrate on Latin America through other departmental programs, such as Anthropology

(p. 371), History (p. 579), Political Science (p. 690), or Iberian and Latin American Cultures (p. 600). Interested applicants should consult the relevant departmental web sites and sections of this bulletin for admissions information and further details.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in Latin American Studies and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

### Admission

The application deadline for the 2018-19 academic year is December 5, 2017. Applicants submit an online application, including a 500-word statement of purpose, resumé, 10-15 page double-spaced academic writing sample, and three letters of recommendation. In addition, all applicants must submit official transcripts and GRE general test scores. TOEFL scores are required of applicants whose first language is not English or who did not earn a degree from an undergraduate institution where English is the primary language of instruction. For information on university graduate admissions and to access the online application, visit the Office of Graduate Admissions (<http://gradadmissions.stanford.edu>) website.

Applicants must meet the University admission requirements, have a working knowledge of Spanish or Portuguese at the university third-year level or higher, and have experience working, living, or studying in Latin America or Iberia prior to admission.

CLAS takes a broad approach to evaluating applications for admission. As important as GRE scores and grades are the applicant's essay, letters of recommendation, academic writing sample, and the experiences and goals conveyed through the personal statement and resume.

Students interested in pursuing the joint degree program in Latin American Studies and Law (J.D.) or a dual degree in Latin American Studies and Business (M.B.A.) or Medicine (M.D.) must apply to each program separately and be accepted by both. Details about the joint and dual degree programs can be found in the "Master's (p. 638)" tab in this section.

### Financial Aid

The Center for Latin American Studies provides several graduate fellowships as well as limited course assistantships with the Tinker Visiting Professors each quarter. US and international MA in Latin American Studies applicants are encouraged to apply. See Funding (<https://clas.stanford.edu/funding/students>) section in the Center for Latin American Studies (<http://las.stanford.edu>) website.

MA in Latin American Studies applicants who plan to enroll in Portuguese, Quechua, or Nahuatl language and area or international studies courses may be eligible for Academic Year and Summer Foreign Language and Area Studies (FLAS) fellowships, sponsored by the US Department of Education. Recipients of FLAS fellowships must be American citizens or permanent residents. Applicants to the M.A. program who can demonstrate financial need have priority in the FLAS fellowship competition; in recent years CLAS has also awarded FLAS fellowships to students enrolled in the Professional Schools. For detailed program information and eligibility, see Funding (<https://clas.stanford.edu/funding/students>) section in the Center for Latin American Studies (<http://las.stanford.edu>) website.

CLAS awards Working Group grants to graduate students across the University who wish to organize events such as lectures, speaker series, symposia, exchange of working papers, and collaborative research efforts. For detailed program information and eligibility, see Funding

(<https://clas.stanford.edu/funding/students>) section in the Center for Latin American Studies (<http://las.stanford.edu>) website.

CLAS has a limited number of travel awards for graduate students to conduct field research work in Latin America or to present their Latin American related research in a conference. Please see Funding (<https://clas.stanford.edu/funding/students>) section in the Center for Latin American Studies (<http://las.stanford.edu>) website

The Knight-Hennessy Scholars program awards full funding to pursue a graduate education at Stanford to students from all disciplines, with additional opportunities for leadership training and collaboration across fields.

Apply to Knight-Hennessy Scholars (<https://knight-hennessy.stanford.edu/admission/apply-now>) by **September 27, 2017**, and to the Latin American Studies MA Program by **November 15, 2017**.

## Minor in Global Studies with Latin American Studies Specialization

The minor in Global Studies, Latin American Studies (LAS) specialization, consists of a core set of courses surveying the history, politics, society, ecology, and culture of the Latin American region; advanced language training; and in-depth course work.

Students from any major interested in applying for admission to the minor in Global Studies, Latin American Studies (LAS) specialization, should consult Stanford Global Studies and the Center for Latin American Studies (CLAS (<https://clas.stanford.edu/academics/undergraduate-minor>)). Students who wish to complete the minor must declare online (through Axess (<http://axess.stanford.edu>)) and submit a proposal of course work no later than the second quarter of the junior year. The minor must be completed by the second quarter of the senior year. Units taken for a student's major cannot be double-counted towards the minor.

Students consult with their minor adviser to develop individual programs. The minor is especially well-suited for undergraduates who plan to make service, research, or study abroad in Latin America a part of their Stanford experience.

The Global Studies Minor with Specialization in Latin American Studies is open to students in any major.

Upon completion of all requirements, final certification of the minor is made by the Center for Latin American Studies subcommittee on undergraduate programs. The minor and the specialization appear on the transcript but they do not appear on the diploma.

### Declaring the Global Studies Minor with Latin American Studies Specialization

To declare the Global Studies minor with Latin American Studies specialization, students must:

1. Set up an appointment with the CLAS associate director to discuss your academic plan.
2. Declare the Global Studies minor in Axess (<http://axess.stanford.edu>).
3. Complete the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program ([https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change\\_UG\\_program.pdf](https://studentaffairs.stanford.edu/sites/default/files/registrar/files/change_UG_program.pdf)) form in order to declare the Latin American Studies specialization. Submit the form to the minor adviser Elizabeth Saenz-Ackermann in Bolivar House, 582 Alvarado Row.

### Requirements

1. Students may not double-count courses for completing major and minor requirements. Completion of 28 units as follows:

- a. GLOBAL 101 Critical Issues in Global Affairs (3 units)
  - b. A 5-unit course surveying Latin America, either ILAC 131 Introduction to Latin America: Cultural Perspectives or an approved substitute. For further information contact a CLAS undergraduate adviser at [latinamerica@stanford.edu](mailto:latinamerica@stanford.edu).
  - c. 20 additional units in courses which together comprise a coherent focus on a theoretical problem or issue of the region, such as but not limited to
    - i culture and identity
    - ii political economy
    - iii sustainable development.
  - d. At least 15 of the 28 units must be completed at Stanford.
  - e. All courses to be counted toward the minor must be taken for a letter grade.
2. Foreign Language Requirement. The minimum requirement for completion of the minor in Global Studies with Latin American Studies Specialization is advanced proficiency in Spanish or Portuguese by one of the following:
    - a. Completion of seven quarters of college-level study of Spanish or Portuguese.
    - b. Completion of a course taught in Spanish or Portuguese at the 100-level or higher, with a letter grade of 'B' or higher. This may be a course on Spanish or Portuguese language or literature, or some other subject.
    - c. Achievement of the advanced proficiency level on the ACTFL scale in a test administered by the Stanford Language Center. Contact the Stanford Language Center (p. 632) for test dates and procedures.
  3. Recommended: experience in Latin America such as study abroad, field research, or an internship.
    - Students might present their work in an end-of-year capstone seminar with other SGS minors and led by SGS faculty.

### Course List

For a representative, rather than comprehensive, list of courses that count towards the minor, see the Related Courses tab (p. 640) in this section of the Bulletin. Other courses may also fulfill the requirements; students should consult their Latin American Studies minor adviser concerning which courses might fulfill minor requirements.

## Master of Arts in Latin American Studies

The Master of Arts in Latin American Studies is an interdisciplinary program. The curriculum consists of a core set of courses surveying the history, politics, society, ecology, and culture of the Latin American region; advanced language training; and in-depth course work. In consultation with a faculty adviser, students select a course of study suited to their individual interests.

### Coterminal Master's Degrees in Latin American Studies

Undergraduates at Stanford may apply for admission to the coterminal master's program in Latin American Studies when they have earned a minimum of 120 units toward graduation, including advanced placement and transfer credit, and no later than the quarter prior to the expected completion of their undergraduate degree. The application deadline for the 2018-19 academic year is **December 5, 2017**. Prospective students who are applying to the Knight-Hennessy Scholars program (<https://knight-hennessy.stanford.edu/admission/apply-now>) must apply to the scholars program by **September 27, 2017**, and to the Latin American Studies MA Program by **November 15, 2017**.

Coterminal applicants must submit:

- the Coterminal Online Application (<https://applyweb.com/stanterm>)
- a 500-word statement of purpose

- a resumé
- a 10-15 page double-spaced academic writing sample
- three letters of recommendation
- a Stanford transcript
- GRE general test scores

Coterminal applicants must have a minimum cumulative GPA of 3.5 and a working knowledge of Spanish or Portuguese at a university third-year level or higher.

### University Coterminal Requirements

Coterminal master’s degree candidates are expected to complete all master’s degree requirements as described in this bulletin. University requirements for the coterminal master’s degree are described in the “Coterminal Master’s Program (p. 46)” section. University requirements for the master’s degree are described in the “Graduate Degrees (p. 50)” section of this bulletin.

After accepting admission to this coterminal master’s degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master’s degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master’s program, courses taken three quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master’s degree requirements.

Course transfers are not possible after the bachelor’s degree has been conferred.

The University requires that the graduate adviser be assigned in the student’s first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master’s Degree Program Proposal be completed by the student and approved by the department by the end of the student’s first graduate quarter.

### Degree Requirements

University requirements for the master’s degree are described in the “Graduate Degrees General Requirements (p. 50)” section of this bulletin.

The program requires completion of a minimum of 45 graduate units. Each student is assigned a faculty adviser who works with the student to develop a customized program of study. All courses for the M.A. degree must be at the 100-level or higher, with at least half being at the 200-level or higher.

Candidates to the M.A. in Latin American Studies must complete the following:

#### Required Courses

##### a. Culture and Society

HISTORY 371	Graduate Colloquium: Explorations in Latin American History and Historiography (students must register for 5 units)	5
-------------	---	---

##### b. Political Economy

POLISCI 348S	Latin American Politics	5
--------------	-------------------------	---

##### c. Environment, Ecology, and Sustainability

Course TBD: Consult with CLAS adviser		5
---------------------------------------	--	---

##### Seminar Requirement: once per quarter. 3

LATINAM 200	Seminar on Contemporary Issues in Latin American Studies	3
-------------	--	---

Total Units		18
-------------	--	----

1. **Core courses (15 units):** one core 5-unit course in each of three fields of specialization: Culture and Society; Political Economy; and Environment, Ecology, and Sustainability. See above for courses offered this year.
2. **Related courses (15 units):** three courses (5 units each) from the fields of specialization listed in '1' above. For approved courses, see the "Related Courses (p. 640)" tab in this section.
3. **Elective courses (10-15 units):** three elective courses (3-5 units each) from across the University’s offerings, selected with guidance and approval from the faculty adviser.
4. **Language requirement:** at least 3 units of course work on a second Latin American language. Students proficient in both Spanish and Portuguese might take either an advanced fourth-year language course in either Spanish or Portuguese or a first-year indigenous language of Latin America (i.e. Quechua or Nahuatl); students proficient in only Spanish or only Portuguese must take a basic course a second Latin American spoken language in which they are not already proficient. Up to 6 units of foreign language coursework may be applied toward the M.A. degree. All foreign language coursework must be taken at the 100-level or higher. English as a Foreign Language (EFS) courses do not count towards the language requirement, nor towards the total amount of required units.
5. **Seminar requirement:** 3 units (1 per quarter) of LATINAM 200 Seminar on Contemporary Issues in Latin American Studies.
6. **Final Research Paper or Thesis:** students may elect to write a master’s level research paper or a thesis; for the latter they may register for LATINAM 398 Master’s Thesis for up to 10 units of thesis research under the guidance of an Academic Council faculty member. Thesis units may be counted toward the elective field unit requirements (requirement number 3, above).
7. **Grade requirements:** All courses to be counted toward the M.A. must be taken for a letter grade and earn a 'B-' or better. M.A. candidates must maintain a cumulative GPA of 3.0 or higher. The only exceptions are LATINAM 200, Law School Courses, and courses in the Graduate School of Business (GSB).

## Joint Degree Program in Latin American Studies and Law

The joint degree program in Latin American Studies and Law allows students to pursue the M.A. degree in Latin American Studies concurrently with the Doctor of Jurisprudence (J.D.) degree, with a significant number of courses that may apply to both degrees. It is designed to train students interested in a career in teaching, research, or the practice of law related to Latin American legal affairs. Students must apply separately to the Latin American Studies M.A. program and to the Stanford School of Law and be accepted by both. Completing this combined course of study requires approximately four academic years, depending on the student’s background and level of language training. For more information, see the "Joint Degree Programs (p. )” section of this bulletin and consult with the program offices for the two programs.

## Dual Master's Degree with Medicine or Business

Stanford offers dual degree programs that grant an M.A. degree in Latin American Studies and a Master of Business Administration degree or a Medical Doctor degree. Students must apply separately to and be accepted by both the Latin American Studies M.A. program and the Graduate School of Business or School of Medicine.

For further information, contact a CLAS adviser at latinamerica@stanford.edu

*Director of the Center:* Alberto Díaz-Cayeros

*Associate Director:* Elizabeth Sáenz-Ackermann

*Tinker Visiting Professors:* Carlos Eduardo Areces (Spring), Rodrigo Cádiz (Spring), Florencia Garramuño (Winter), Claudia Leal (Winter, Autumn), Carlos Pereira (Fall), Enrique Seira (Spring).

*Affiliated Faculty and Staff:*

*Anthropology:* George Collier (emeritus), Lisa Curran, Carolyn Duffey, William Durham, James Fox, Angela Garcia, John Rick

*Art and Art History:* Enrique Chagoya

*Biology:* Gretchen Daily, Rodolfo Dirzo, Judith Frydman, Harold Mooney (emeritus), Peter Vitousek, Virginia Walbot

*BOSP Santiago:* Ivan Jaksic

*Business, Graduate School of:* Saumitra Jha, Ken Shotts

*Carnegie Institution for Science:* Gregory Asner

*Comparative Literature:* Roland Greene, Hans Ulrich Gumbrecht, José David Saldívar, Ramón Saldívar (also English)

*Earth Sciences, School of:* Rob Dunbar, Pamela Matson

*Economics:* Roger Noll (emeritus), Frank Wolak

*Education, Graduate School of:* Paulo Blikstein, Martin Carnoy, Amado Padilla, Guadalupe Valdés

*Engineering, School of:* Jenna Davis, Héctor García-Molina, Leonard Ortolano

*English:* Paula Moya, Ramón Saldívar (also Comparative Literature)

*Freeman Spogli Institute for International Studies:* Francis Fukuyama, Rosamond Naylor

*History:* Zephyr Frank, Ana Raquel Minian Andjel, Mikael Wolfe

*Hoover Institute:* Herbert Klein

*Human Biology:* Anne Firth Murray

*Iberian and Latin American Cultures:* Héctor Hoyos, Marília Librandi Rocha, Michael Predmore, Joan Ramon Resina, Jorge Ruffinelli, Lisa Surwillo, Yvonne Yarbrow-Bejarano

*Language Center:* Alice Miano, Marisol Necochea, Ana Sierra, Agripino Silveira, Lyris Wiedemann

*Law, School of:* James Cavallaro, Jonathan Greenberg, Thomas Heller (emeritus)

*Linguistics:* John Rickford

*Medicine, School of:* Jason Andrews, Michele Barry, Gabriel Garcia, Grant Miller, Paul Wise

*Political Science:* Bruce Cain, Alberto Díaz-Cayeros, Stephen Haber, Terry Karl (emerita), Beatriz Magaloni, Robert Packenham (emeritus), Michael Tomz

*Religious Studies:* Thomas Sheehan

*Sociology:* David Grusky, Tomás Jiménez, Michael Rosenfeld, Florencia Torché

*Stanford University Libraries:* Adán Griego, Vanessa Kam, Sergio Stone, Robert Trujillo

## Latin American Studies Related Courses

The following courses may be used to satisfy requirements for the M.A. in Latin American Studies or minor in Stanford Global Studies, Latin American Studies specialization. Consult the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) web site for full course descriptions and class schedules.

**Not all of these courses are offered every year.**

When selecting courses from this list, note the following:

1. Overseas Studies courses, denoted by the subject code OSPSANTG, apply only to the undergraduate minor program and are not options for M.A. students.
2. Courses with numbers ending in the letter N or Q are Introductory Seminars for undergraduates and are not options for M.A. students. Courses ending in N give preference to freshmen; courses ending in Q give preference to sophomores.
3. All courses to be counted toward the master's must be taken at the 100-level or higher.
4. All courses to be counted toward the master's must be taken for a letter grade.
5. For the M.A. degree, related courses must be taken for 5 units each. M.A. elective courses may be taken for 3-5 units each.
6. Some courses have prerequisites or special enrollment requirements. Students are responsible for making sure they have completed any prerequisites and/or secured an instructor's permission, as needed.

## Culture and Society

Courses related to the Culture and Society field of specialization include:

		Units
AMSTUD 271	Mexicans in the United States	5
ANTHRO 100D	Chavin de Huantar Research  Seminar	3-5
ANTHRO 102B	Aztec Language and Culture	3
ANTHRO 108A	The Formation of Political State in the Peruvian Andes	3-5
ANTHRO 122A	Race and Culture in Mexico and Central America	3-5
ANTHRO 124N	Maya Mythology and the Popol Vuh	3
ANTHRO 206A	Incas and their Ancestors: Peruvian Archaeology	3-5
ANTHRO 215B	Peoples and Cultures of Ancient Mesoamerica	5
ANTHRO 222A	Race and Culture in Mexico and Central America	3-5
ANTHRO 222C	Research in Maya Hieroglyphic Writing	1-2
ANTHRO 335A	Animism and Alter-Native Modernities	5
ARCHLGY 100D	Chavin de Huantar Research  Seminar	3-5
CHILATST 140	Migration in 21st Century Latin American Film	3-5
CSRE 126B	Curricular Public Policies for the Recognition of Afro-Brazilians and Indigenous Population	3-4
FILMSTUD 316	International Documentary	4
HISTORY 106B	Global Human Geography: Europe and Americas	5
HISTORY 112	Medicine and Disease in the Ancient World	5
HISTORY 170C	Modern Latin America	3-5
HISTORY 273C	Caribbean Migration to the United States	4-5
HISTORY 274E	Urban Poverty and Inequality in Latin America	5
HISTORY 274G	Public Space, the Private Sphere, and Dictatorship in Latin America	5
HISTORY 275B	History of Modern Mexico	4-5
HISTORY 366B	Immigration Debates in America, Past and Present	3-5

HISTORY 371	Graduate Colloquium: Explorations in Latin American History and Historiography	4-5	ANTHRO 260	Social and Environmental Sustainability: The Costa Rican Case	3-5
HISTORY 373E	The Emergence of Nations in Latin America: Independence Through 1880	4-5	ANTHRO 262	Indigenous Peoples and Environmental Problems	3-5
HISTORY 375C	History of Modern Mexico	4-5	ANTHRO 278	Evolution and Conservation in Galapagos	5
HISTORY 379	Latin American Development: Economy and Society, 1800-2014	4-5	ANTHRO 337B	Anthropological Approaches to Health Issues in Contemporary Latin America	5
ILAC 110N	Brazil: Musical Culture and Films	3-5	BIO 234	Conservation Biology: A Latin American Perspective	3
ILAC 113Q	Borges and Translation	3-5	BIOE 371	Global Biodesign: Medical Technology in an International Context	3
ILAC 131	Introduction to Latin America: Cultural Perspectives	3-5	EARTHSYS 121	Building a Sustainable Society: New Approaches for Integrating Human and Environmental Priorities	3
ILAC 132E	Introduction to Global Portuguese: Cultural Perspectives	3-5	ETHICSOC 278M	Introduction to Environmental Ethics	4-5
ILAC 140	Migration in 21st Century Latin American Film	3-5	GEOPHYS 212	Topics in Climate Change	2
ILAC 161	Modern Latin American Literature	3-5	HISTORY 276K	The Nature State: Latin American Conservation in Global Perspective	4-5
ILAC 226	Impersonality and Anonymity in Contemporary Latin American Culture	3-5	HISTORY 278D	Race, Ethnicity, and the Environment in Latin America	4-5
ILAC 241	Fiction Workshop in Spanish	3-5	HISTORY 376K	The Nature State: Latin American Conservation in Global Perspective	4-5
ILAC 242	Poetry Workshop in Spanish	3-5	HISTORY 378D	Race, Ethnicity, and the Environment in Latin America	4-5
ILAC 243	Latin American Aesthetics	3-5	HUMBIO 129	Critical Issues in International Women's Health	4
ILAC 274	Aurality and Literature	3-5	HUMBIO 129S	Global Public Health	4
ILAC 277	Senior Seminar: Spanish and Society - Cultures of Salsa	3-5	OSPSANTG 58	Living Chile: A Land of Extremes	5
ILAC 278A	Senior Seminar: Cervantes's Novelas Ejemplares	3-5			
ILAC 336	One World or Many? Representing Distance, Time, and Place in Iberian Expansion	3-5			
ILAC 342	Meat	3-5			
ILAC 348	US-Mexico Border Fictions: Writing La Frontera, Tearing Down the Wall	3-5			
ILAC 363	Visions of the Andes	3-5			
ILAC 373	Baroque Brazil	3			
LATINAM 248	Racial and Gender Inequalities in Latin America	3-5			
LAW 5027	Social Conflict, Social Justice, and Human Rights in 21st Century Latin America	2			
LAW 5028	Regional Human Rights Protections: The Inter-American System	3			
OSPMADRD 55	Latin Americans in Spain: Cultural Identities, Social Practices, and Migratory Experience	4			
OSPMADRD 83	Narrating the Nation: National and Post-National Spanish and Latin American Literature	4			
OSPSANTG 14	Women Writers of Latin America in the 20th Century	4-5			
OSPSANTG 29	Sustainable Cities: Comparative Transportation Systems in Latin America	4-5			
OSPSANTG 30	Short Latin American Fiction of the 20th Century	4-5			
OSPSANTG 49	Chile - Another "End of the World"?	3-5			
OSPSANTG 68	The Emergence of Nations in Latin America	4-5			
OSPSANTG 119X	The Chilean Economy: History, International Relations, and Development Strategies	5			
OSPSANTG 129X	Latin America in the International System	4-5			
SOC 350W	Workshop: Migration, Ethnicity, Race and Nation	1-3			

## Environment, Ecology, and Sustainability

Courses related to the Environment, Ecology, and Sustainability field of specialization include:

		Units
ANTHRO 160	Social and Environmental Sustainability: The Costa Rican Case	3-5
ANTHRO 162	Indigenous Peoples and Environmental Problems	3-5

## Political Economy

Courses related to the Political Economy field of specialization include:

		Units
ECON 106	World Food Economy	5
ECON 129	Credit markets and development: Some evidence from Latin America and the World	5
EDUC 306A	Economics of Education in the Global Economy	5
EDUC 404	Topics in Brazilian Education: Public Policy and Innovation for the 21st Century	1-2
HISTORY 172A	Mexico: From Colony to Nation, or the History of an impossible Republic?	5
HISTORY 177D	U.S. Intervention and Regime Change in 20th Century Latin America	5
INTNLREL 141A	Camera as Witness: International Human Rights Documentaries	5
INTNLREL 179	Major Themes in U.S.-Latin America Diplomatic History	5
IPS 241	International Security in a Changing World	5
LATINAM 177	Mapping Poverty, Colonialism and Nation Building in Latin America	1-2
LAW 5017	Law in Latin America	2
OSPSANTG 119X	The Chilean Economy: History, International Relations, and Development Strategies	5
POLISCI 244C	Political Change in Latin America: The contemporary challenge to democracy	5
POLISCI 247G	Governance and Poverty	5
POLISCI 248S	Latin American Politics	3-5
POLISCI 347G	Governance and Poverty	3-5
POLISCI 348S	Latin American Politics	3-5
POLISCI 440B	Comparative Political Economy	3-5

## Overseas Studies Courses in Latin American Studies

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		<b>Units</b>
OSPMADR 22	Spain on Stage: Theater and Performance in 2018	5
OSPSANTG 14	Women Writers of Latin America in the 20th Century	4-5
OSPSANTG 29	Sustainable Cities: Comparative Transportation Systems in Latin America	4-5
OSPSANTG 30	Short Latin American Fiction of the 20th Century	4-5
OSPSANTG 58	Living Chile: A Land of Extremes	5
OSPSANTG 62	Topics in Chilean History	4-5
OSPSANTG 68	The Emergence of Nations in Latin America	4-5
OSPSANTG 71	Santiago: Urban Planning, Public Policy, and the Built Environment	4-5
OSPSANTG 116X	Modernization and its Discontents: Chilean Politics at the Turn of the Century	5
OSPSANTG 118X	Artistic Expression in Latin America	5
OSPSANTG 119X	The Chilean Economy: History, International Relations, and Development Strategies	5
OSPSANTG 129X	Latin America in the International System	4-5

# LINGUISTICS

Courses offered by the Department of Linguistics are listed under the subject code LINGUIST on the Stanford Bulletin's ExploreCourses web site.

Linguistics is the study of language as a fundamental human activity. Linguists consider language as a cultural, social, and psychological phenomenon and seek to determine what is universal to all languages and what is specific to individual languages, how language varies across individuals and communities, how it is acquired, how it changes, and how it is processed by humans and machines. Linguistics is an inherently interdisciplinary field that links the humanities, the social sciences, and the other cognitive sciences, as well as computer science, education, and hearing and speech sciences.

The department offers courses at the undergraduate and graduate levels. Some focus on analyzing structural patterns of sounds (phonetics and phonology), meanings (semantics and pragmatics), words (morphology), sentences (syntax). Others examine how these structures vary over time (historical linguistics), or over individuals and social groups (sociolinguistics), or how language is processed and learned by humans (psycholinguistics and language acquisition) or by computers (computational linguistics).

A variety of open forums provide for the discussion of linguistic issues, including colloquia and regularly scheduled workshops in child language, computational linguistics, phonetics and phonology, psycholinguistics, semantics and pragmatics, sociolinguistics, and syntax.

## Mission of the Undergraduate Program in Linguistics

The mission of the undergraduate program in Linguistics is to provide students with basic knowledge in the principal areas of linguistics (phonetics, phonology, morphology, syntax, semantics, pragmatics, historical linguistics, sociolinguistics, psycholinguistics, and computational linguistics) and the skills to do more advanced work in these subfields. Courses in the major also involve interdisciplinary work with connections to other programs including anthropology, communication, computer science, education, foreign languages, psychology, and symbolic systems. The program provides students with excellent preparation for further study in graduate or professional schools as well as careers in business, government agencies, social services, and teaching.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. By the end of the program, students are expected to be able to:

1. formulate theoretically interesting and tractable research questions;
2. find and collect information relevant to answering their research questions;
3. bring linguistic theory to bear in analyzing and evaluating information;
4. articulate the questions and outcomes of the process described in 1-3; and
5. engage with peers in an intellectual community around linguistic issues.

## Graduate Programs in Linguistics

The department offers an M.A., Ph.D., and Ph.D. minor in Linguistics.

## Learning Outcomes (Graduate)

The purpose of the master's program is to develop students' knowledge and skills in Linguistics and to prepare them for a professional career or doctoral studies. This is achieved through completion of courses, including course work in an area of specialization within the field, and experience with independent research.

The Ph.D. is conferred upon candidates who have demonstrated the ability to conduct substantive, independent research in Linguistics. Through completion of advanced coursework and rigorous methodological and analytical training, the doctoral program prepares students to make original contributions to knowledge in linguistics, to articulate the results of their work, and to demonstrate its significance to linguistics and related fields.

## Cognitive Science

Linguistics is participating with the departments of Philosophy and Psychology in an interdisciplinary program in Cognitive Science for doctoral students. The program is intended to provide an interdisciplinary education as well as a deeper concentration in linguistics. Students who complete the Linguistics and Cognitive Science requirements receive a special designation in Cognitive Science along with the Ph.D. in Linguistics.

To receive this designation, students must complete 30 units of approved course work. The 30 units cannot include courses counted elsewhere towards the Ph.D. Courses may be drawn from the participating departments, as well as from other departments, as long as their content is appropriate to the designation. At least 18 of the 30 units must be from outside the student's major department and must include course work in at least two other departments. Special topic seminars are excluded in favor of more foundational courses.

## Linguistics Course Catalog Numbering System

Courses numbered under 100 are designed primarily for pre-majors. Courses with 100-level numbers are designed for undergraduate majors and minors; a limited number of 100-level units may apply to a master's or Ph.D. minor. Those with numbers 200 and above are primarily for graduate students, but with consent of the instructor some of them may be taken for credit by qualified undergraduates. At all levels, the final two digits of the course number indicate a special area, as follows:

Number	Special Area
00-04	General
05-09	Phonetics
10-14	Phonology
15-19	Morphology
20-29	Syntax
30-39	Semantics, Pragmatics, Discourse
40-49	Language Acquisition, Psycholinguistics
50-62	Sociolinguistics, Language Variation, Change
63-73	Language and Culture, Structure of a Language
74-79	Methods, Mathematical Linguistics, Statistics
80-89	Computational Linguistics
90-99	Directed Work, Theses, Dissertations

## Bachelor of Arts in Linguistics

The undergraduate major stresses the study of language both as a fundamental human faculty and as a changing social institution. At

the core of the program is a set of departmental courses on the nature of human language; the major also draws on courses offered by other departments and programs.

The Linguistics major cuts across the humanities and the social and physical sciences. It provides a solid general education as a background for advanced studies in such disciplines as anthropology, cognitive science, communication, computer science, education (language, literacy, and culture), hearing and speech sciences, languages, law, linguistics, philosophy, and psychology.

## Degree Requirements

Requirements for the B.A. include at least 55 units of course work; at least 28 of these units must be in Linguistics. The remaining units may be in Linguistics or in related fields, and should form a coherent program of study. Majors should discuss this course work with faculty and get specific approval from the Linguistics undergraduate adviser for courses outside the department.

Of the 55 units required for the major, no more than 12 units may be below the 100-level and no more than two courses may be taken on a credit/no credit basis (CR/NC). All required courses must be taken for a letter grade of 'C-' or better.

## Required Courses:

### Gateway Course

LINGUIST 196 Introduction to Research for Undergraduates (to be taken Autumn Quarter, junior year) 1

### Capstone Course

LINGUIST 197A Undergraduate Research Seminar (to be taken Winter Quarter, senior year) 2-3

### Core Courses

Select at least one course each from two of the following three areas:

#### Phonetics and Phonology

LINGUIST 105 Phonetics 4  
or LINGUIST 205A Phonetics

LINGUIST 110 Introduction to Phonology 4

#### Morphology and Syntax

LINGUIST 120 Introduction to Syntax 4

LINGUIST 121A The Syntax of English 4

LINGUIST 121B Crosslinguistic Syntax 4

LINGUIST 222A Foundations of Syntactic Theory I 3-4

#### Semantics and Pragmatics

LINGUIST 130A Introduction to Semantics and Pragmatics 4  
or LINGUIST 230A Introduction to Semantics and Pragmatics

LINGUIST 130B Introduction to Lexical Semantics 3-4

LINGUIST 230B Semantics and Pragmatics I 2-4

LINGUIST 232A Lexical Semantics 2-4

### Breadth Courses

Select at least one course each from two of the following four areas:

#### Historical Linguistics and Language Change

LINGUIST 160 Introduction to Language Change 4

LINGUIST 260A Historical Morphology and Phonology 2-4

LINGUIST 260B Historical Morphosyntax 2-4

#### Sociolinguistics

LINGUIST 150 Language and Society 4

LINGUIST 156 Language and Gender 3-5

LINGUIST 157 Sociophonetics 1-4

or LINGUIST 257 Sociophonetics

LINGUIST 250 Sociolinguistic Theory and Analysis 3-4

#### Psycholinguistics

LINGUIST 35 Minds and Machines 4

LINGUIST 140 Learning to Speak: An introduction to child language acquisition 4

LINGUIST 145 Introduction to Psycholinguistics 4

#### Computational Linguistics

LINGUIST 180 From Languages to Information 3-4  
or LINGUIST 280 From Languages to Information

LINGUIST 188 Natural Language Understanding 3-4

or LINGUIST 288 Natural Language Understanding

LINGUIST 278 Programming for Linguists 1-4

LINGUIST 284 Natural Language Processing with Deep Learning 3-4

## Depth Courses

Select at least two 200-level Linguistics courses. See ExploreCourses for current options.

## Language Requirement

Linguistics majors must have competence in at least one language other than English as part of their understanding of the field of linguistics and its study. This requirement is fulfilled by completion of six quarters of language coursework at Stanford or by certification of equivalent proficiency through the Language Center (<https://web.stanford.edu/dept/lc/language>) or the relevant department (see University requirements). Majors may petition to be exempted from the language requirement if they have grown up speaking a language other than English and can use it for everyday purposes and for linguistic analysis.

## Honors Program

Students who wish to undertake a more intensive program of study, including independent research, should pursue departmental honors. Students should apply for honors by the end of Spring Quarter of their junior year. As part of the application, the student must write a research proposal describing the honors project, which must be approved by the faculty adviser. Approval is given only to students who have maintained a grade point average (GPA) of 3.3 (B+) or better in the courses required for the major.

Honors students complete a total of 65 units including the 55 units for the major, plus 10 additional units of Independent Study and Honors Research. In addition, they must complete an honors thesis based on research conducted with a principal adviser who must be a member of the Linguistics faculty, and a secondary faculty adviser who may, with the approval of the Linguistics Undergraduate Adviser, be a member of another department. In the Autumn Quarter of the senior year, honors students enroll in LINGUIST 199 Independent Study, to work closely with one of their advisers on the research project. In Winter and Spring quarters, honors students enroll in LINGUIST 198 Honors Research, with the student's principal adviser for close supervision of the honors thesis. The thesis must be submitted in final, acceptable, form by May 15. The thesis topic is presented orally at a department Honors Colloquium late in Spring Quarter.

## Joint Major Program in Linguistics and Computer Science

The joint major program (JMP), authorized by the Academic Senate for a pilot period of six years beginning in 2014-15, permits students to major in both Computer Science and one of ten Humanities majors. See the "Joint Major Program (p. 31)" section of this bulletin for a description of University requirements for the JMP. See also the Undergraduate Advising and Research JMP web site and its associated FAQs.

Students completing the JMP receive a B.A.S. (Bachelor of Arts and Science).

Because the JMP is new and experimental, changes to procedures may occur; students are advised to check the relevant section of the bulletin periodically.

## Linguistics Major Requirements in the Joint Major Program

See the "Computer Science Joint Major Program (p. 278)" section of this bulletin for details on Computer Science requirements.

All majors must take at least 50 units of course work in Linguistics and related fields, with no more than 12 units below the 100 level and at least 8 units above the 200 level. No more than two courses may be taken on a credit/no credit basis (CR/NC). All required courses must be taken for a letter grade of C- or better.

Students in the joint major must take LINGUIST 180/CS 124 as one of these breadth courses. Students may count LINGUIST 180/CS 124 towards both major requirements as long as the units are not double-counted. If LINGUIST 180/CS 124 is required for both Linguistics and a student's specific CS track, Linguistics works with the student to identify another course (possibly directed reading/independent study for 3-4 units) that would benefit the academic plan. (In this scenario, LINGUIST 180/CS 124 fulfills major requirements in both Linguistics and CS, but the units are only counted towards CS; additional units of work would be identified in Linguistics to meet the unit requirements.)

Within the 50-unit total, students in the joint major are encouraged to sign up for Directed Research units as part of completing the integrative capstone project. The expectation is that this project is supervised by a Linguistics faculty member. The specific number of units varies and is decided by the student and faculty adviser.

Different from Linguistics majors, CS + Linguistics joint majors are not required to display competence in a language other than English and therefore are not required to complete the equivalent of six quarters of language study.

## Required Courses for the Joint Major:

### Gateway Course

LINGUIST 196 Introduction to Research for Undergraduates (to be taken Autumn Quarter, junior year)

### Capstone Course

LINGUIST 197A Undergraduate Research Seminar (to be taken Winter Quarter, senior year)

### Core Courses

Select at least one course each from two of the following three areas:

#### Phonetics and Phonology

LINGUIST 105 Phonetics 4  
or LINGUIST 205A Phonetics

LINGUIST 110 Introduction to Phonology 4

#### Morphology and Syntax

LINGUIST 120 Introduction to Syntax 4

LINGUIST 121A The Syntax of English 4

LINGUIST 121B Crosslinguistic Syntax 4

LINGUIST 222A Foundations of Syntactic Theory I 3-4

#### Semantics and Pragmatics

LINGUIST 130A Introduction to Semantics and Pragmatics 4

or LINGUIST 230A Introduction to Semantics and Pragmatics

LINGUIST 130B Introduction to Lexical Semantics 3-4

LINGUIST 230B Semantics and Pragmatics I 2-4

LINGUIST 232A Lexical Semantics 2-4

### Breadth Courses

Select LINGUIST 180/280 plus at least one additional breadth course:

LINGUIST 180 From Languages to Information 3-4

or LINGUIST 280 From Languages to Information

### Historical Linguistics and Language Change

LINGUIST 160 Introduction to Language Change 4

LINGUIST 260A Historical Morphology and Phonology 2-4

LINGUIST 260B Historical Morphosyntax 2-4

### Sociolinguistics

LINGUIST 150 Language and Society 4

LINGUIST 156 Language and Gender 3-5

LINGUIST 157 Sociophonetics 1-4

or LINGUIST 257 Sociophonetics

LINGUIST 250 Sociolinguistic Theory and Analysis 3-4

### Psycholinguistics

LINGUIST 35 Minds and Machines 4

LINGUIST 140 Learning to Speak: An introduction to child language acquisition 4

LINGUIST 145 Introduction to Psycholinguistics 4

### Depth Courses

Select at least two 200-level Linguistics courses. See ExploreCourses for current options.

## Declaring a Joint Major Program

To declare the joint major, students must first declare each major through Axess, and then submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) The Major-Minor and Multiple Major Course Approval Form (<https://stanford.box.com/MajMin-MultMaj>) is required for graduation for students with a joint major.

## Units Dropping a Joint Major Program

1 To drop the joint major, students must submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>). Students may also consult the Student Services Center (<http://studentservicescenter.stanford.edu>) with questions concerning dropping the joint major.

Units

2-3

## Transcript and Diploma

Students completing a joint major graduate with a B.A.S. degree. The two majors are identified on one diploma separated by a hyphen. There will be a notation indicating that the student has completed a "Joint Major". The two majors are identified on the transcript with a notation indicating that the student has completed a "Joint Major".

Units

## Minor in Linguistics

Requirements for the minor include at least 28 units of course work in Linguistics and related fields, approved in advance by the Linguistics undergraduate adviser. All courses must be taken for at least 3 units. No more than two courses may be taken on a credit/no credit basis (CR/NC). All required courses must be taken for letter grade of 'C-' or better. The courses counting towards the minor must be units beyond those needed to satisfy the student's major course of study.

## Required Courses for the Minor:

LINGUIST 1 Introduction to Linguistics

Units  
4

Select one course each from two of the three areas below:

### Phonetics and Phonology

LINGUIST 105 Phonetics 4  
LINGUIST 110 Introduction to Phonology 4

### Morphology and Syntax

LINGUIST 120 Introduction to Syntax 4  
LINGUIST 121A The Syntax of English 4  
LINGUIST 121B Crosslinguistic Syntax 4

### Semantics and Pragmatics

LINGUIST 130A Introduction to Semantics and Pragmatics 4  
LINGUIST 130B Introduction to Lexical Semantics 3-4

Select one of the following:

LINGUIST 150 Language and Society 4  
or, in advance consultation with the Linguistics Undergraduate Adviser, a course in historical linguistics or the history of a language.

Units  
4

Remaining courses are to be determined in advance consultation with the Linguistics undergraduate adviser. Students are encouraged to take at least one 200-level Linguistics course. Students may also choose to do independent work with a faculty member of their choice.

## Master of Arts in Linguistics

The University's basic requirements for the master's degree are discussed in the "Graduate Degrees (p. 50)" section of this bulletin. The following are additional departmental requirements.

- Courses*—Individual programs should be worked out in advance with an adviser in Linguistics keeping the following requirements and guidelines in mind. The master's degree requires the completion of 45 units; at least 36 of these must be in Linguistics. The course work must include one introductory graduate-level course in each of the areas of syntax, semantics, and sound structure, as well as four courses in the student's area of specialization. If the student can make a compelling case, the department may allow up to 9 of the 45 units to be in a department other than Linguistics. Courses from outside the department must have clear linguistic content or contribute methodological knowledge that facilitates the thesis project; furthermore, if the student is simultaneously enrolled in a degree program in another department, not all of these 9 units can be earned in that department. No more than two courses should be at the 100 level. The majority of the courses taken towards the 45 units of degree program course work must be taken for a letter grade; these should include the three required introductory courses and the four courses constituting the specialization, which should all be completed with at least a 'B'. The overall course work grade point average (GPA) must be at least 3.0 (B).
- Thesis or Thesis Project*—A research paper supervised by a committee of three faculty (normally fulfilled by up to 6 units of LINGUIST 398 Directed Research).

## Coterminal Master's Degree Program in Linguistics

The Department of Linguistics admits a limited number of undergraduates to the coterminal degree program. Students are required to submit to the department a complete application, which includes a statement of purpose identifying a thesis topic, a Stanford transcript,

three letters of recommendation (at least one of which must be from a faculty member in Linguistics), and a proposed course of study (worked out in advance with a Linguistics adviser). Applicants for the coterminal degree may apply as early as their eighth quarter and no later than early in the eleventh quarter of undergraduate study. Decisions on admission to the coterminal degree program rest with the Graduate Admissions Committee of the Department of Linguistics.

Units

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken three quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

## Doctor of Philosophy in Linguistics

The following requirements are in addition to the basic University requirements for the degree sought; see the "Graduate Degrees (p. 50)" section of this bulletin. Students should review the department's Guidelines for the Degree of Ph.D. in Linguistics (<https://linguistics.stanford.edu/department-resources>) for further particulars concerning these requirements.

- Courses*—a minimum of 135 units of graduate work beyond the bachelor's degree, or 90 units beyond the master's degree. The core course requirements detailed in the Department of Linguistics Ph.D. Handbook guarantee that each student covers a sufficient set of subareas within the field. Students must maintain a satisfactory record in the number and distribution of units completed. The overall course work GPA must be at least 3.0 (B), and all core courses should be completed with at least a 'B'.
- Language*—each student must demonstrate an explicit in-depth knowledge of the structure of at least one language (normally neither the student's native language nor English) by writing a research paper on that language.
- Research*—each student is expected to complete two substantial qualifying papers. The deadline for completion of the first qualifying paper is the end of Autumn Quarter of the second year; the deadline for completion of the second qualifying paper is the end of Autumn Quarter of the third year. The subject matter of the two papers, although it may be related (for example, same language), must be clearly distinct. The requirement is fulfilled by one quarter of LINGUIST 395 Research Workshop (1-2 units), and by oral discussion of each paper with a committee of at least three faculty members selected by the faculty with input from the student.
- Candidacy*—each student must apply for candidacy for the Ph.D. by the end of the sixth academic quarter, normally the Spring Quarter of

the second year. Departmental prerequisites for candidacy include: (i) completion of a prescribed portion of the core course requirement (see item 1 above), (ii) completion of one qualifying paper (see item 3 above), and (iii) having an approved plan for completing the language requirement (see item 2 above).

Late in Spring Quarter, the department faculty reviews each applicant and votes on whether to admit that student to candidacy. A student is only admitted to candidacy if, in addition to the student's fulfilling the department prerequisites, the faculty makes the judgment that the student has the ability to complete the remaining stages of the Ph.D. program at a level of superior quality. Students who are not admitted to candidacy are terminated from the program; at the department's discretion, they may be allowed to complete any requirements that remain for the master's degree and receive this degree.

5. *Teaching*—at least three quarters serving as a teaching assistant in Linguistics courses.
6. *Dissertation*—
  - a. appointment of a dissertation committee.
  - b. an approved written dissertation proposal is required by the end of Autumn Quarter of the fourth year.
  - c. oral discussion of the dissertation proposal with an augmented dissertation committee by the end of Spring Quarter of the fourth year.
  - d. passing a University oral examination on the dissertation and related areas which includes a public presentation of the dissertation research.
  - e. dissertation (up to 15 units of LINGUIST 399 Dissertation Research).

*Professors:* Penelope Eckert, Daniel Jurafsky, Martin Kay, Paul Kiparsky, Beth Levin, Christopher Manning (on leave AY 17-18), Christopher Potts

*Associate Professors:* Arto Anttila (on leave AY 17-18), Meghan Sumner

*Assistant Professors:* Judith Degen, Vera Gribova, Boris Harizanov, Daniel Lassiter (on leave AY 17-18), Robert Podesva

*Professor (Research):* Cleo Condoravdi

*Courtesy Professors:* H. Samy Alim, Kenji Hakuta, Yoshiko Matsumoto, James McClelland, Chao Fen Sun

*Courtesy Associate Professors:* James A. Fox, Michael C. Frank, Noah Goodman, Miyako Inoue

*Courtesy Assistant Professor:* Jonathan Rosa

*Lecturers:* Rebekah Baglini, Philip L. Hubbard (Senior Lecturer, Language Center), Sarah Ogilvie (on leave AY 17-18)

*Adjunct Professors:* Jared Bernstein, Ronald Kaplan, Lauri Karttunen, Paul Kay, Annie Zaenen, Arnold Zwicky

## Ph.D. Minor in Linguistics

1. *Courses*—the student must complete 30 units of course work in Linguistics. The University requires that at least 20 of these units be at the 200 level or above; the remaining 10 units must be at the 100 level or above. The coursework for the minor must include one introductory course in each of sound structure, syntax, and semantics/pragmatics; this requirement is typically fulfilled by LINGUIST 105 Phonetics or LINGUIST 110 Introduction to Phonology, LINGUIST 121A The Syntax of English or LINGUIST 121B Crosslinguistic Syntax, LINGUIST 130A Introduction to Semantics and Pragmatics or LINGUIST 130B Introduction to Lexical Semantics or by 200-level introductory courses in the same areas. Courses submitted for the minor must be incremental units beyond those used to satisfy the major. Individual programs should be worked out in advance with the student's Ph.D. minor adviser in Linguistics. The majority of the courses taken towards the 30 units of coursework must be taken for a letter grade; these should include the three required introductory courses, which should all be completed with at least a 'B'. The overall course work grade point average (GPA) must be at least 3.0 (B).
2. *Research Project (optional)*—the student may elect to present a paper which integrates the subject matter of linguistics into the student's field of specialization.
3. The Linguistics minor adviser or designee serves on the student's University oral examination committee and may request that up to one-third of the examination be devoted to the minor subject.

## Faculty

*Emeriti:* (Professors) Joan Bresnan, Eve V. Clark, Shirley Brice Heath, William R. Leben, Stanley Peters, John R. Rickford, Elizabeth C. Traugott, Thomas A. Wasow

*Chair:* Daniel Jurafsky

# MATHEMATICAL AND COMPUTATIONAL SCIENCE

Courses offered by Mathematical and Computational Science program are listed under the subject code MCS on the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) website.

This interdisciplinary undergraduate degree program in MCS is sponsored by Stanford's departments of Statistics, Mathematics, Computer Science, and Management Science & Engineering, providing students with a core of mathematics basic to all the mathematical sciences and an introduction to concepts and techniques of computation, optimal decision making, probabilistic modeling, and statistical inference.

Utilizing the faculty and courses of the departments listed above, this major prepares students for graduate study or employment in the mathematical and computational sciences or in those areas of applied mathematics which center around the use of computers and are concerned with the problems of the social and management sciences. A biology option is offered for students interested in applications of mathematics, statistics, and computer science to the biological sciences (bioinformatics, computational biology, statistical genetics, neurosciences); and in a similar spirit, an engineering and statistics option.

## Undergraduate Mission Statement for Mathematical and Computational Science

The mission of the Mathematical and Computational Science Program is to provide students with a core of mathematics basic to all the mathematical sciences and an introduction to concepts and techniques of computation, optimal decision making, probabilistic modeling and statistical inference. The program is interdisciplinary in its focus, and students are required to complete course work in mathematics, computer science, statistics, and management science and engineering. A computational biology track is available for students interested in biomedical applications. The program prepares students for careers in academic, financial and government settings as well as for study in graduate or professional schools.

## Learning Outcomes

The program expects undergraduate majors to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to be able to demonstrate:

1. understanding of principles and tools of statistics.
2. command of optimization and its applications and the ability to analyze and interpret problems from various disciplines.
3. an understanding of computer applications emphasizing modern software engineering principles.
4. an understanding of multivariate calculus, linear algebra, and algebraic and geometric proofs.

## Bachelor of Science in Mathematical and Computational Science

### Suggested Preparation for the Major

Students ordinarily would have taken two of the required Math courses (MATH 51 Linear Algebra and Differential Calculus of Several Variables/MATH 52 Integral Calculus of Several Variables/MATH 53 Ordinary Differential Equations with Linear Algebra) and one of the required Statistics courses (STATS 116 Theory of Probability, STATS 191

Introduction to Applied Statistics) before declaring MCS during their freshman or sophomore year.

### How to Declare

To declare the major, a student must submit the Declaration of Major in Axess. Following a review of the student's transcript, a department adviser is assigned to the student upon declaration approval. It is recommended that students meet with their adviser at least once per quarter to discuss progress towards degree completion.

### Course Requirements for the MCS Bachelor's Degree (78-84 units)

	Units
<b>Mathematics (MATH)</b>	28
Single-variable calculus or AP credit. <sup>1</sup>	10
MATH 19      Calculus	
MATH 20      Calculus	
MATH 21      Calculus	
Students may choose one of the following sequences:	15
Multivariable Calculus and Linear Algebra	
MATH 51      Linear Algebra and Differential Calculus of Several Variables	
MATH 52      Integral Calculus of Several Variables	
MATH 53      Ordinary Differential Equations with Linear Algebra	
Modern Mathematics: Continuous Methods (a proof-oriented sequence)	
MATH 61CM    Modern Mathematics: Continuous Methods	
MATH 62CM    Modern Mathematics: Continuous Methods	
MATH 63CM    Modern Mathematics: Continuous Methods	
Modern Mathematics: Discrete Methods (a proof-oriented sequence)	
MATH 61DM    Modern Mathematics: Discrete Methods	
MATH 62DM    Modern Mathematics: Discrete Methods	
MATH 63DM    Modern Mathematics: Discrete Methods	
Select one of the following:	3
MATH 104     Applied Matrix Theory	
MATH 113     Linear Algebra and Matrix Theory	
<b>Computer Science (CS)</b>	22-24
CS 103            Mathematical Foundations of Computing	5
CS 106A          Programming Methodology	5
and either	
CS 106B          Programming Abstractions	5
or CS 106X        Programming Abstractions (Accelerated)	
Select two of the following:	7-9
CME 108      Introduction to Scientific Computing	
CS 107        Computer Organization and Systems	
CS 154        Introduction to Automata and Complexity Theory	
CS 161        Design and Analysis of Algorithms	
CS 181W      Computers, Ethics, and Public Policy	
<b>Management Science and Engineering (MS&amp;E)</b>	7-11
MS&E 211        Introduction to Optimization	4
MS&E 221        Stochastic Modeling	3
Or select three of the following:	
MS&E 111     Introduction to Optimization	
MS&E 121     Introduction to Stochastic Modeling	
MS&E 211     Introduction to Optimization	
MS&E 213     Introduction to Optimization Theory	
MS&E 221     Stochastic Modeling	

MS&E 251	Introduction to Stochastic Control with Applications	
<b>Statistics (STATS)</b>		11-12
STATS 116	Theory of Probability	5
STATS 200	Introduction to Statistical Inference	3
Select one of the following:		3-4
STATS 191	Introduction to Applied Statistics	
STATS 203	Introduction to Regression Models and Analysis of Variance	

<sup>1</sup> Students who scored a 5 on both the Calculus AB and BC advanced placement exams (total of 10 units) can be waived out of MATH 19 Calculus, MATH 20 Calculus, MATH 21 Calculus; See also the Registrar's Advanced Placement (<https://registrar.stanford.edu/students/transfer-credit/advanced-placement>) web site (AP (<https://registrar.stanford.edu/students/transfer-credit-and-advanced-placement/advanced-placement/ap-credit-chart>) or IB (<https://registrar.stanford.edu/students/transfer-credit-and-advanced-placement/advanced-placement/ib-credit-chart>) exams).

## Writing in the Major Requirement

The University requires students to complete at least one approved writing-intensive course in each of their majors. See the Hume Center for Writing and Speaking (<https://undergrad.stanford.edu/tutoring-support/hume-center/writing/writing-major>) web site for a full description of the WIM (<https://undergrad.stanford.edu/tutoring-support/hume-center/writing/writing-major/overview-wim-requirement>) requirement.

### Choose one from the MCS-designated WIM courses to fulfill the Writing in the Major requirement:

	Units	
MATH 109	Applied Group Theory	3-4
MATH 110	Applied Number Theory and Field Theory	units
MATH 120	Groups and Rings	
MATH 171	Fundamental Concepts of Analysis	
CS 181W	Computers, Ethics, and Public Policy	
STATS 155	Statistical Methods in Computational Genetics	

WIM courses offered by other majors may be used in cases of specific concentrations (e.g. biology, decision theory). Adviser approval required.

## Mathematical and Computational Science Approved Electives

Choose three courses in Mathematical and Computational Science 100-level or above, at least 3 units each from two different departments. At least one must be from following list:

### Choose three courses from the following:

	Units	
ECON 102C	Advanced Topics in Econometrics	9
ECON 140	Introduction to Financial Economics	units
ECON 160	Game Theory and Economic Applications	
ECON 179	Experimental Economics	
EE 261	The Fourier Transform and Its Applications	
EE 263	Introduction to Linear Dynamical Systems	
EE 278	Introduction to Statistical Signal Processing	
EE 282	Computer Systems Architecture	
EE 364A	Convex Optimization I	
EE 364B	Convex Optimization II	
MS&E 220	Probabilistic Analysis	

MS&E 223	Simulation	
MS&E 226	"Small" Data	
MS&E 251	Introduction to Stochastic Control with Applications	
MS&E 334	Topics in Social Data	
MCS 100	Mathematics of Sports	
MATH 104	Applied Matrix Theory	
MATH 106	Functions of a Complex Variable	
MATH 107	Graph Theory	
MATH 108	Introduction to Combinatorics and Its Applications	
MATH 113	Linear Algebra and Matrix Theory	
MATH 114	Introduction to Scientific Computing	
MATH 115	Functions of a Real Variable	
MATH 116	Complex Analysis	
MATH 131P	Partial Differential Equations	
MATH 136	Stochastic Processes	
MATH 158	Basic Probability and Stochastic Processes with Engineering Applications	
MATH 159	Discrete Probabilistic Methods	
MATH 171	Fundamental Concepts of Analysis	
MATH 172	Lebesgue Integration and Fourier Analysis	
PHIL 151	Metalogic	
STATS 202	Data Mining and Analysis	
STATS 206	Applied Multivariate Analysis	
STATS 207	Introduction to Time Series Analysis	
STATS 208	Introduction to the Bootstrap	
STATS 215	Statistical Models in Biology	
STATS 216	Introduction to Statistical Learning	
STATS 217	Introduction to Stochastic Processes I	
STATS 218	Introduction to Stochastic Processes II	
STATS 219	Stochastic Processes	
STATS 240	Statistical Methods in Finance	
STATS 270	A Course in Bayesian Statistics	

### For Computer Science (CS), electives can include courses not taken as units under the CS list above and the following:

CME 206	Introduction to Numerical Methods for Engineering	
CME 211	Software Development for Scientists and Engineers	
CME 302	Numerical Linear Algebra	
CS 108	Object-Oriented Systems Design	
CS 110	Principles of Computer Systems	
CS 140	Operating Systems and Systems Programming	
CS 143	Compilers	
CS 157	Logic and Automated Reasoning	
CS 161	Design and Analysis of Algorithms	
CS 194	Software Project	
CS 221	Artificial Intelligence: Principles and Techniques	
CS 223A	Introduction to Robotics	
CS 225A	Experimental Robotics	
CS 228	Probabilistic Graphical Models: Principles and Techniques	
CS 229	Machine Learning	
CS 243	Program Analysis and Optimizations	
CS 246	Mining Massive Data Sets	
CS 248	Interactive Computer Graphics	

Electives that are not offered this year, but may be offered in subsequent years, are eligible for credit toward the major.

With the adviser's approval, courses other than those offered by the sponsoring departments may be used to fulfill part of the elective requirement. Courses must provide skills relevant to the MCS degree and do not overlap courses in the student's program. Depending on student's interests, these may be in fields such as, biology, economics, electrical engineering, industrial engineering, and medicine, are otherwise relevant to a mathematical sciences major.

### Grade and Course Requirements:

- All courses used to fulfill major requirements must be taken for a letter grade with the exception of courses offered satisfactory/no credit only.
- The student must have a grade point average (GPA) of 3.0 or better in all course work used to fulfill the major requirement.
- Students who earn less than a 'B-' in STATS 116 Theory of Probability or STATS 200 Introduction to Statistical Inference must repeat the course.
- Only one MCS core course can be substituted by filing a petition with their adviser (with the exception of STATS 200 Introduction to Statistical Inference which cannot be substituted). The Course Substitution Form ([https://mcs.stanford.edu/sites/default/files/mcs-course-substitution\\_form\\_0.pdf](https://mcs.stanford.edu/sites/default/files/mcs-course-substitution_form_0.pdf)) must be submitted the quarter prior to enrolling in the course.
- Course transfer credit is subject to department evaluation and to the Office of the Registrar's external credit evaluation. These courses may result in a replacement course for MCS required course or may establish placement in a higher-level course. Transfer requests must first be submitted to Student Services Center prior to being evaluated by your adviser. Submit the MCS Program Transfer Credit Form ([https://mcs.stanford.edu/sites/default/files/mcs\\_ug\\_course\\_equiv\\_petition\\_1.pdf](https://mcs.stanford.edu/sites/default/files/mcs_ug_course_equiv_petition_1.pdf)) to the student services office.
- At least three quarters before graduation, majors must file with their adviser a plan for completing degree requirements.

## Mathematical and Computational Science Biology Track (Option)

Students in the Biology track take the introductory courses for the Mathematics and Computational Science major with the following allowable substitutions as electives.

	Units
STATS/BIO 141 Biostatistics <sup>1</sup>	3-5
<b>Allowable Elective Course Substitutions:</b>	
Take three courses from Foundational Biology Core:	10
BIO 82 Genetics	
BIO 83 Biochemistry & Molecular Biology	
BIO 84 Physiology	
BIO 85	
BIO 86 Cell Biology	
Or take two courses from the Biology core and one of the following:	3-4
BIO 104 Advanced Molecular Biology	
BIO 118 Genetic Analysis of Biological Processes	
BIO 133 Network analysis for community ecology and conservation research	
BIO 144 Conservation Biology: A Latin American Perspective	
BIO 183 Theoretical Population Genetics (offered alternate years)	
BIO 230 Molecular and Cellular Immunology	
Honors students select the following three courses:	1-4
STATS 155 Statistical Methods in Computational Genetics	
BIO 113 Fundamentals of Molecular Evolution	

## BIO 146 Population Studies

The following courses are no longer offered, but may be used by students who completed them in fulfillment of this requirement: BIO102, 160A & 160B

- <sup>1</sup> Can replace STATS 191 Introduction to Applied Statistics or STATS 203 Introduction to Regression Models and Analysis of Variance from the major's Statistics core requirement.

## Mathematical and Computational Science Engineering Track (Option)

Students in the Engineering track take the introductory courses for the Mathematics and Computational Sciences major with the following allowable substitutions.

	Units
With consent of an MCS adviser, MATH 51, MATH 52, MATH 53 series may be substituted for CME 100, CME 102, CME 104. Depending on the exact material taught in relevant years, an additional math course may be necessary <sup>1</sup>	15
CME 100 Vector Calculus for Engineers	
CME 102 Ordinary Differential Equations for Engineers	
CME 104/ ENGR 155B Linear Algebra and Partial Differential Equations for Engineers	
STATS 116 may be replaced by:	3-5
STATS 110 Statistical Methods in Engineering and the Physical Sciences	
STATS 191/STATS 203 may be replaced by:	3-4
STATS 202 Data Mining and Analysis	
<b>Allowable Elective Course Substitutions:</b>	9
Select one of the following:	3-4
MATH 106 Functions of a Complex Variable	
MATH 108 Introduction to Combinatorics and Its Applications	
MATH 116 Complex Analysis	
PHIL 151 Metalogic	
Select two of the following:	3-5
ENGR 15 Dynamics	
ENGR 20 Introduction to Chemical Engineering	
ENGR 25B Biotechnology	
ENGR 30	
ENGR 40 Introductory Electronics	
ENGR 50 Introduction to Materials Science, Nanotechnology Emphasis	
ENGR 105 Feedback Control Design	

- <sup>1</sup> Only M&CS majors pursuing the engineering track may petition their adviser to substitute the required Math series for CME courses listed above.

## Mathematical and Computational Science Statistics Track (Option)

Students in the Statistics track take the introductory courses for the Mathematics and Computational Sciences major with the following additional courses - (87 units total)

Required:	Units
<b>Additional Courses for the Statistics Track:</b>	9
STATS 217 Introduction to Stochastic Processes I	
Advanced CS, such as:	3
CS 246 Mining Massive Data Sets	

Advanced MS&E, such as:	3
MS&E 220 Probabilistic Analysis	

or

MS&E 223 Simulation	
---------------------	--

**Allowable Elective Course Substitutions:** 9

Select three of the following:

STATS 202 Data Mining and Analysis	
STATS 206 Applied Multivariate Analysis	
STATS 207 Introduction to Time Series Analysis	
STATS 208 Introduction to the Bootstrap	
STATS 216 Introduction to Statistical Learning	
STATS 219 Stochastic Processes	
STATS 270 A Course in Bayesian Statistics	

### Honors Program

The honors program is designed to encourage a more intensive study of mathematical sciences than the B.S. program. Students interested in honors should consult with their adviser no later than winter quarter of their junior year to prepare their program of study. Honors work may be concentrated in fields such as biological sciences, environment, physics, etc. Students are required to submit an outline describing the concentration for honors work, including the courses they intend to use two quarters prior to expected degree conferral. An MCS Honors Proposal Form is due no later than the Preliminary Study List deadline of the quarter in which the degree is expected to be conferred.

In addition to meeting all requirements for the B.S., the student must:

- Maintain an average letter grade equivalent to at least a 3.5 in all academic work.
- Complete at least 15 units in mathematical sciences in addition to the requirements for the major listed above. Include in these 15 units at least one of the following:
  - An approved upper-level or graduate course
  - Participation in a small group seminar
  - At least 3 units of directed reading
- Prepare a statement describing major area of concentration for honors work.
- Describe how each course selected added to the student's knowledge and understanding in area chosen for concentration.
- Honors statement should be submitted to the adviser by the late application deadline of the student's graduation quarter using the MCS Honors Approval form (<https://mcs.stanford.edu/academics/honors>).

**Suggested electives for students pursuing Honors:**

CME 206 Introduction to Numerical Methods for Engineering	3
CS/STATS 229 Machine Learning	3-4
CS 248 Interactive Computer Graphics	3-4
EE 364A Convex Optimization I	3
MATH 171 Fundamental Concepts of Analysis	3
MATH 172 Lebesgue Integration and Fourier Analysis	3
MATH 205A Real Analysis	3
STATS 202 Data Mining and Analysis	3
STATS 216 Introduction to Statistical Learning	3
STATS 217 Introduction to Stochastic Processes I	2-3

### Minor in Mathematical and Computational Science

The minor in Mathematical and Computational Science is intended to provide an experience of the four constituent areas: Computer Science,

Mathematics, Management Science and Engineering, and Statistics. Five basic courses are required:

Select one of the following: **Units 3-5**

MATH 51 Linear Algebra and Differential Calculus of Several Variables	
---	--

or

MATH 104 Applied Matrix Theory	
--------------------------------	--

Select two of the following: **10**

CS 106A Programming Methodology	
---------------------------------	--

and either

CS 106B Programming Abstractions	
or CS 106X Programming Abstractions (Accelerated)	

Select one of the following: **3-4**

MS&E 211 Introduction to Optimization	
---------------------------------------	--

or

MS&E 221 Stochastic Modeling	
------------------------------	--

Select two of the following: **8**

STATS 116 Theory of Probability	5
---------------------------------	---

and either

STATS 191 Introduction to Applied Statistics	
--	--

or

STATS 200 Introduction to Statistical Inference	
---	--

In addition to the above, the minor requires three courses from the following, two of which must be in different departments:

Select three of the following: **Units 9**

CME 108 Introduction to Scientific Computing	
CS 103 Mathematical Foundations of Computing	
CS 107 Computer Organization and Systems	
CS 154 Introduction to Automata and Complexity Theory	
CS 161 Design and Analysis of Algorithms	
ECON 160 Game Theory and Economic Applications	
EE 261 The Fourier Transform and Its Applications	
MS&E 211 Introduction to Optimization	
MS&E 212 Mathematical Programming and Combinatorial Optimization	
MS&E 221 Stochastic Modeling	
MS&E 251 Introduction to Stochastic Control with Applications	
MATH 104 Applied Matrix Theory	
MATH 106 Functions of a Complex Variable	
MATH 108 Introduction to Combinatorics and Its Applications	
MATH 109 Applied Group Theory	
MATH 110 Applied Number Theory and Field Theory	
MATH 115 Functions of a Real Variable	
MATH 131P Partial Differential Equations	
MATH 171 Fundamental Concepts of Analysis	
PHIL 151 Metalogic	
STATS 191 Introduction to Applied Statistics	
STATS 200 Introduction to Statistical Inference	
STATS 202 Data Mining and Analysis	
STATS 203 Introduction to Regression Models and Analysis of Variance	
STATS 217 Introduction to Stochastic Processes I	

Other upper-division courses appropriate to the program major may be substituted with consent of MCS program director. Undergraduate majors in the constituent programs may not count courses in their own departments.

## **Faculty**

*Director:* Bradley Efron

*Faculty Advisers:* Assistant Professor John Duchi, Professor Bradley Efron, Associate Professor Ramesh Johari, Associate Professor David Rogosa, Professor Chiara Sabatti

*Steering Committee:* Takeshi Amemiya (Economics, emeritus), Emmanuel Candès (Mathematics, Statistics), Brian Conrad (Mathematics), Richard Cottle (Management Science and Engineering, emeritus), John Duchi (Electrical Engineering & Statistics), Darrel Duffie (Economics & GSB), Bradley Efron (Statistics), Peter Glynn (Management Science and Engineering), Ramesh Johari (Management Science and Engineering), Percy Liang (Computer Science & Statistics), Parviz Moin (Mechanical Engineering), George Papanicolaou (Mathematics), Eric Roberts (Computer Science, emeritus), David Rogosa (Education & Statistics), Tim Roughgarden (Computer Science), Chiara Sabatti (Biomedical Data Science & Statistics), David Siegmund (Statistics), Jonathan Taylor (Statistics), Brian White (Mathematics)

# MATHEMATICS

Courses offered by the Department of Mathematics are listed under the subject code MATH on the Stanford Bulletin's ExploreCourses web site.

The Department of Mathematics offers programs leading to the degrees of Bachelor of Science, Master of Science, and Doctor of Philosophy in Mathematics, and also participates in the program leading to the B.S. in Mathematical and Computational Science, and the M.S. and Ph.D. degree programs offered through the Institute for Computational & Mathematical Engineering.

## Mission of the Undergraduate Program in Mathematics

The mission of the undergraduate program in Mathematics is to provide students with a broad understanding of mathematics encompassing logical reasoning, generalization, abstraction, and formal proof. Courses in the program teach students to create, analyze, and interpret mathematical models and to communicate sound arguments based on mathematical reasoning and careful data analysis. The mathematics degree prepares students for careers in the corporate sector, tech industry, government agencies, and for graduate programs in mathematics.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. problem solving skills,
2. the ability to formulate proofs and to structure mathematical arguments,
3. the ability to communicate mathematical ideas via extended written presentation.

## Advanced Placement in Mathematics

Students can receive units of advanced placement credit for single-variable calculus, depending on their scores on the CEEB Advanced Placement Examination or the IB Exam. See the "Advanced Placement (p. 36)" section of this bulletin.

Those who have not studied single-variable calculus or have studied it partially but are not ready to begin with multivariable calculus (MATH 50-series) should begin at the single-variable course recommended by the math placement diagnostic.

Students who are ready to study multivariable calculus (based on prior coursework or exams, or recommended by the math placement diagnostic) should begin with one of the following courses:

		Units
MATH 51	Linear Algebra and Differential Calculus of Several Variables	5
MATH 52	Integral Calculus of Several Variables	5
MATH 53	Ordinary Differential Equations with Linear Algebra	5

The above sequence supplies the necessary mathematics background for most majors in science and engineering. It also provides a solid foundation for the major or minor in Mathematics, or in Mathematical and Computational Science.

## Bachelor of Science in Mathematical and Computational Science

The Department of Mathematics participates with the departments of Computer Science, Management Science and Engineering, and Statistics in a program leading to a B.S. in Mathematical and Computational Science. See the "Mathematical and Computational Science (p. 648)" section of this bulletin.

## Introductory and Undergraduate Courses

The department offers a year-long sequence in single-variable calculus: MATH 19, MATH 20, and MATH 21.

There are three options for studying multivariable mathematics:

1. MATH 51, MATH 52, and MATH 53 cover differential and integral calculus in several variables, linear algebra, and ordinary differential equations. These topics are taught in an integrated fashion and emphasize applications. MATH 51 covers differential calculus in several variables and introduces matrix theory and basic linear algebra; MATH 52 covers integral calculus in several variables and vector analysis; MATH 53 studies further topics in linear algebra and applies them to ordinary differential equations. This sequence is strongly recommended for incoming freshmen who have mastered single-variable calculus.
2. The sequence MATH 61CM, MATH 62CM, and MATH 63CM (Modern Mathematics: Continuous Methods) covers the material of the Math 50 series at a much more advanced level with an emphasis on rigorous proofs and conceptual arguments.
3. The sequence MATH 61DM, MATH 62DM, and MATH 63DM (Modern Mathematics: Discrete Methods) covers the same linear algebra material as the Math 60CM series and otherwise focuses on topics in discrete mathematics, algebra, and probability theory at an advanced level with an emphasis on rigorous proofs.

## Learning Outcomes (Graduate)

The master's degree is conferred upon candidates who have developed advanced knowledge and skills in Mathematics. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in Mathematics. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of Mathematics and to interpret and present the results of such research.

## Bachelor of Science in Mathematics

The following department requirements are in addition to the University's basic requirements for the bachelor's degree.

Students wishing to major in Mathematics must satisfy the following requirements and complete a minimum of 64 units:

1. Department of Mathematics courses totaling at least 49 units credit; such courses must be taken for a letter grade. For the purposes of this requirement, STATS 116 Theory of Probability, PHIL 151 Metalogic, and PHIL 152 Computability and Logic count as Department of Mathematics courses.
2. Additional courses taken from Department of Mathematics courses numbered 101 and above or from approved courses in other disciplines with significant mathematical content, totaling at least 15 units credit. At least 9 of these units must be taken for a letter grade.

- The Department of Mathematics adviser can be any member of the department's faculty.
- To receive the department's recommendation for graduation, a student must have been enrolled as a major in the Department of Mathematics for a minimum of two full quarters, including the quarter immediately before graduation.

Students with an Advanced Placement score of 5 in BC math may receive 10 units credit and fulfill requirement '1' by taking at least 39 units of Department of Mathematics courses. Students with an Advanced Placement score of at least 4 in BC math or 5 in AB math may receive 8 units credit and fulfill requirement '1' by taking at least 41 units of Department of Mathematics courses.

Sophomore seminar courses may be counted among the choice of courses under item '1'. Other variations of the course requirements laid down above (under items '1' and '2') may, in some circumstances, be allowed. For example, students transferring from other universities may be allowed credit for some courses completed before their arrival at Stanford. However, at least 24 units of the 49 units under item '1' above and 9 of the units under item '2' above must be taken at Stanford. In all cases, approval for variations in the degree requirements must be obtained from the department's Director of Undergraduate Studies. The policy of the Mathematics Department is that no courses other than the MATH 60 series and below may be double-counted toward any other University major or minor.

## Proof Writing

For students who are not experienced with writing mathematical proofs, this crucial skill can be learned by taking any one of the following courses: MATH 104 Applied Matrix Theory, MATH 110 Applied Number Theory and Field Theory, MATH 113 Linear Algebra and Matrix Theory, or MATH 115 Functions of a Real Variable (after finishing the chosen calculus sequence).

## Preparation for Graduate School:

It is to be emphasized that the above regulations are minimum requirements for the major; students contemplating graduate work in mathematics are strongly encouraged to include the courses MATH 116 Complex Analysis, MATH 120 Groups and Rings, MATH 121 Galois Theory, MATH 147 Differential Topology or MATH 148 Algebraic Topology, and MATH 171 Fundamental Concepts of Analysis in their selection of courses, and in addition, take at least three Department of Mathematics courses over and above the minimum requirements laid out under items '1' and '2' above, including at least one 200-level course. Such students are also encouraged to consider the possibility of taking the honors program.

## Sample Course Plans

To help develop a sense of the type of course selection (under items '1' and '2' above) that would be recommended for math majors with various backgrounds and interests, see the following examples. These represent only a few of a very large number of possible combinations of courses that could be taken in fulfillment of the Mathematics major requirements:

### Example 1: for students with both pure and applied interests

	Units
Single-variable calculus: AP Credit, (MATH 19, MATH 20, MATH 21) or 8-10 (MATH 41, MATH 42)	
Multivariable calculus: (MATH 51, MATH 52, MATH 53)	15
MATH 104 Applied Matrix Theory	3
or MATH 113 Linear Algebra and Matrix Theory	
MATH 106 Functions of a Complex Variable	3
MATH 109 Applied Group Theory	3
MATH 110 Applied Number Theory and Field Theory	3
MATH 115 Functions of a Real Variable	3

Plus any selection of at least eight of the following courses, including three Department of Mathematics courses:

MATH 107	Graph Theory
MATH 108	Introduction to Combinatorics and Its Applications
MATH 131P	Partial Differential Equations
MATH 143	Differential Geometry
MATH 146	Analysis on Manifolds
MATH 147	Differential Topology
MATH 148	Algebraic Topology
MATH 152	Elementary Theory of Numbers
MATH 161	Set Theory
CME 108	Introduction to Scientific Computing
ECON 50	Economic Analysis I
PHYSICS 41	Mechanics
PHYSICS 43	Electricity and Magnetism
PHYSICS 45	Light and Heat
STATS 116	Theory of Probability
or MATH 151	Introduction to Probability Theory

Total Units 64-66

The courses from other departments are only meant as examples; there are many suitable courses in several departments that can be taken to fulfill part or all of requirement '2'.

### Example 2: for students with strong theoretical interest and considering graduate school in math

	Units
Single-variable calculus: AP Credit, (MATH 19, MATH 20, MATH 21) or 8-10 (MATH 41, MATH 42)	
Select one of the following multivariable calculus sequences:	15
Math 50 Series: (MATH 51, MATH 52, MATH 53). These courses are not proof-oriented.	
Math 60CM Series: (MATH 61CM, MATH 62CM, MATH 63CM). This proof-oriented sequence is called Modern Mathematics: Continuous Methods	
Math 60DM Series: (MATH 61DM, MATH 62DM, MATH 63DM). This proof-oriented sequence is called Modern Mathematics: Discrete Methods	
MATH 101 Math Discovery Lab	3
MATH 106 Functions of a Complex Variable	3
or MATH 116 Complex Analysis	
MATH 113 Linear Algebra and Matrix Theory	3
MATH 120 Groups and Rings	3
MATH 171 Fundamental Concepts of Analysis	3
Plus 24-26 units of math courses numbered 121 or higher (the logic courses PHIL 151 and PHIL 152 are considered to be such courses), including at least one algebra course, one analysis course, and one geometry/topology course. (See the description of the honors program below)	26

Total Units 64-66

In addition, those contemplating eventual graduate work in Mathematics should consider including at least one graduate-level math course such as MATH 205A Real Analysis, MATH 210A Modern Algebra I, or MATH 215A Algebraic Topology or MATH 215B Differential Topology. Such students should also consider the possibility of entering the honors program.

**Example 3: for students interested in applied math**

Students desiring significant computational and/or financial and/or statistical components are encouraged to also consider the Mathematics and Computational Science program.

	<b>Units</b>
Single-variable calculus: AP Credit, (MATH 19, MATH 20, MATH 21) or 8-10 (MATH 41, MATH 42)	
Select one of the following multivariable calculus sequences:	15
Math 50 Series (MATH 51, MATH 52, MATH 53). These courses are not proof-oriented.	
Math 60 Series (MATH 61DM, MATH 62DM, MATH 63DM). This proof-oriented sequence is called Modern Mathematics: Discrete Methods	
MATH 104 Applied Matrix Theory	3
MATH 106 Functions of a Complex Variable	3
MATH 107 Graph Theory	3
MATH 108 Introduction to Combinatorics and Its Applications	3
MATH 109 Applied Group Theory	3
MATH 110 Applied Number Theory and Field Theory	3
MATH 115 Functions of a Real Variable	3
MATH 131P Partial Differential Equations	3
STATS 116 Theory of Probability	3
or MATH 151 Introduction to Probability Theory	
Plus at least 12 units of additional courses in applied mathematics, including, for example, suitable courses from the departments of Physics, Computer Science, Economics, Engineering, and Statistics.	14
<b>Total Units</b>	<b>64-66</b>

**Honors Program**

This option is intended for students who have strong theoretical interests and abilities in mathematics. The goal is to give students a thorough introduction to the main branches of mathematics. The honors program requires a senior thesis, which can involve either original research or expository work on advanced topics in mathematics. This option provides an excellent background with which to enter a Master's or Ph.D. program in Mathematics. Students completing the honors program are awarded a B.S. in Mathematics with Honors.

It is recommended that either sequence (MATH 61CM, MATH 62CM, MATH 63CM) or (MATH 61DM, MATH 62DM, MATH 63DM) be taken in the freshman year. To graduate with a B.S. in Mathematics with Honors, the following conditions apply in addition to the usual requirements for math majors:

- The selection of courses under items '1' and '2' above must contain:

MATH 106 Functions of a Complex Variable	3
or MATH 116 Complex Analysis	
MATH 120 Groups and Rings	3
MATH 171 Fundamental Concepts of Analysis	3

And must also include seven additional 3-unit Math courses numbered 121 or higher. (The logic courses PHIL 151 Metalogic and PHIL 152 Computability and Logic can also be used.) These seven courses must include at least:

One Algebra Course:	
MATH 121 Galois Theory	3
MATH 122 Modules and Group Representations	3
MATH 152 Elementary Theory of Numbers	3
MATH 154 Algebraic Number Theory	3

One Analysis Course:

MATH 136 Stochastic Processes	3
MATH 151 Introduction to Probability Theory	3
MATH 155 Analytic Number Theory	3
MATH 172 Lebesgue Integration and Fourier Analysis	3
MATH 173 Theory of Partial Differential Equations	3
MATH 175 Elementary Functional Analysis	3

One Geometry/Topology Course:

MATH 143 Differential Geometry	3
MATH 145 Algebraic Geometry	3
MATH 146 Analysis on Manifolds	3
MATH 147 Differential Topology	3
MATH 148 Algebraic Topology	3

- All courses counting towards the honors requirements (MATH 106/MATH 116, MATH 120, MATH 171, all 7 additional Math courses used to fulfill the major requirement, and MATH 197) must be taken for a letter grade.
- Students must have an average GPA of at least a 3.0 across all math classes counting towards the major at the time of applying for honors to be eligible for acceptance into the honors program, as well as upon graduation to graduate with honors.
- Majors interested in honors can apply in winter quarter of their junior year at the earliest, and no later than the last day of classes in the spring quarter of junior year.
- Students in the honors program must write a senior thesis. In order to facilitate this, the student must, by the end of the junior year, choose an undergraduate thesis adviser from the Department of Mathematics faculty and map out a concentrated reading program under the direction and guidance of the adviser. This will occur when the student applies for honors. During the senior year, the student must enroll in MATH 197 Senior Honors Thesis with his/her adviser for a total of 6 units (recommended to be spread over three quarters), and work toward completion of the thesis under the direction and guidance of the thesis adviser. The thesis may contain original material, or be a synthesis of work in current or recent research literature. The 6 units of credit for MATH 197 Senior Honors Thesis are required in addition to the 64 units required of the major. (See the major requirements at the top of the page.)
- The deadline for the senior thesis final draft is the Monday of week 8 of the student's graduation quarter.

In addition to the minimum requirements laid out above, it is strongly recommended that students take at least one graduate-level course (that is, at least one course in the 200 plus range). MATH 205A Real Analysis, MATH 210A Modern Algebra I, and MATH 215A Algebraic Topology or MATH 215B Differential Topology are especially recommended in this context.

Students with questions about the honors program should see the department's director of undergraduate studies.

**Computer Science Theory/Discrete Mathematics Subplan**

There are two pathways to achieve a Mathematics B.S. degree:

- The Mathematics bachelor's degree, or
- The Mathematics bachelor's degree with the Computer Science Theory/Discrete Mathematics subplan.

The following requirements refer to the Mathematics Bachelor's degree with the Computer Science Theory/Discrete Mathematics Subplan.

Students who are interested in the Mathematics Bachelor's degree should see the Bachelor's tab (p. 653).

Computer Science Theory/Discrete Mathematics subplan is declared on Axxes; they appear on the transcript and the diploma.

## Computer Science Theory/Discrete Mathematics Subplan Description

This subplan is intended for students wishing for a strong and deep background in the area of computer science theory and mathematics. The subplan could prepare students for graduate work in either area, as well as for other careers requiring particular strength in this type of thinking. The emphasis of this subplan is on theory. Students interested in a combination of mathematics and computer science more generally should consider the Bachelor of Science in Mathematical and Computational Science. Depending on their interests, students are also encouraged to consider the regular Mathematics major, the Computer Science major, and in particular, the Computer Science Theory track of the Computer Science major.

## Course Requirements

The subplan requires a minimum of 64 units as outlined in requirements 1 and 2 of the Bachelor of Science in Mathematics; see the Bachelor's tab (p. 653). The 64 units must include specific courses as outlined below. It is highly recommended to complete the MATH 60DM sequence, although it is not required.

### Required Courses

Required Math Courses		
MATH 106	Functions of a Complex Variable	3
or MATH 116	Complex Analysis	
MATH 120	Groups and Rings	3
MATH 171	Fundamental Concepts of Analysis	3
Required CS Theory Courses		
CS 154	Introduction to Automata and Complexity Theory	3-4
CS 161	Design and Analysis of Algorithms	3-5
Additional Math Courses		
Two of the following:		6-8
MATH 61DM	Modern Mathematics: Discrete Methods	
MATH 107	Graph Theory	
MATH 108	Introduction to Combinatorics and Its Applications	
One of the following:		3-5
MATH 151	Introduction to Probability Theory	
MATH 230A	Theory of Probability I	
STATS 116	Theory of Probability	
Two of the following:		6
MATH 113	Linear Algebra and Matrix Theory	
MATH 152	Elementary Theory of Numbers	
MATH 154	Algebraic Number Theory	
MATH 155	Analytic Number Theory	
MATH 159	Discrete Probabilistic Methods	
MATH 161	Set Theory	
Additional CS Theory Courses:		
Four of the following:		12-13
CS 167		
CS 168	The Modern Algorithmic Toolbox	
CS 254	Computational Complexity	
CS 255	Introduction to Cryptography	
CS 261	Optimization and Algorithmic Paradigms	
CS 265	Randomized Algorithms and Probabilistic Analysis	

CS 268	Geometric Algorithms	
Total Units		42-50

## Minor in Mathematics

To qualify for the minor in Mathematics, a student should complete, for a letter grade, at least six Department of Mathematics courses numbered 51 or higher, totaling a minimum of 24 units. For the purposes of this requirement, STATS 116 Theory of Probability, PHIL 151 Metalogic, and PHIL 152 Computability and Logic count as Department of Mathematics courses. No other courses from outside the Department of Mathematics may be used towards the minor in Mathematics.

It is recommended that these courses include:

Math Minor		Units
MATH 51	Linear Algebra and Differential Calculus of Several Variables	5
or MATH 61CM	Modern Mathematics: Continuous Methods	
or MATH 61DM	Modern Mathematics: Discrete Methods	
MATH 52	Integral Calculus of Several Variables	5
or MATH 62CM	Modern Mathematics: Continuous Methods	
or MATH 62DM	Modern Mathematics: Discrete Methods	
MATH 53	Ordinary Differential Equations with Linear Algebra	5
or MATH 63CM	Modern Mathematics: Continuous Methods	
or MATH 63DM	Modern Mathematics: Discrete Methods	
Plus three additional MATH courses		9
Total Units		24

At least 12 of the units applied toward the minor in Mathematics must be taken at Stanford. The policy of the Mathematics Department is that no courses other than the MATH 50/60 series and below may be double-counted toward any other University major or minor.

## Master of Science in Mathematics

The University's basic requirements for the master's degree are discussed in the "Graduate Degrees (p. 50)" section of this bulletin. Students should pay particular attention to the University's course requirements for graduate degrees.

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken three quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree

Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

The following are specific departmental requirements:

Candidates must complete an approved course program of 45 units of courses beyond the department requirements for the B.S. degree, of which at least 36 units must be Mathematics Department courses, taken for a letter grade. The Mathematics Department courses must include at least 18 units numbered 200 or above. The candidate must have a grade point average (GPA) of 3.0 (B) over all course work taken in Mathematics, and a GPA of 3.0 (B) in the 200-level courses considered separately. Course work for the M.S. degree must be approved during the first quarter of enrollment in the program by the department's Director of Graduate Studies.

The Financial Mathematics M.S. degree program is no longer offered through the School of Humanities and Sciences. The Institute for Computational and Mathematical Engineering (ICME (<https://icme.stanford.edu>)) now offers a master's degree track in Mathematical and Computational Finance (p. 303).

## Doctor of Philosophy in Mathematics

The University's basic requirements for the doctorate (residence, dissertation, examinations, etc.) are discussed in the "Graduate Degrees (p. 50)" section of this bulletin. The following are specific departmental requirements.

To be admitted to candidacy, the student must have successfully completed 27 units of graduate courses (that is, courses numbered 200 and above). In addition, the student must pass qualifying examinations given by the department.

Beyond the requirements for candidacy, the student must complete a course of study approved by the Graduate Affairs Committee of the Department of Mathematics and submit an acceptable dissertation. In accordance with University requirements, Ph.D. students must complete a total of 135 course units beyond the bachelor's degree. These courses should be Department of Mathematics courses or approved courses from other departments. The course program should display substantial breadth in mathematics outside the student's field of application. The student must receive a grade point average (GPA) of 3.0 (B) or better in courses used to satisfy the Ph.D. requirement. In addition, the student must pass the Department area examination and the University oral examination.

Experience in teaching is emphasized in the Ph.D. program. Each student is required to complete nine quarters of such experience. The nature of the teaching assignment for each of those quarters is determined by the department in consultation with the student. Typical assignments include teaching or assisting in teaching an undergraduate course or lecturing in an advanced seminar.

For further information concerning degree programs, fellowships, and assistantships, inquire of the department's student services office.

## Ph.D. Minor in Mathematics

Requirements for the Ph.D. Minor in Mathematics are:

		Units
Complete both of the following Sequences: <sup>1,2</sup>		
<b>Sequence 1</b>		
MATH 106	Functions of a Complex Variable	3
or MATH 116	Complex Analysis	
MATH 131P	Partial Differential Equations	3
MATH 132		

<b>Sequence 2</b>		
MATH 113	Linear Algebra and Matrix Theory	3
MATH 120	Groups and Rings	3
or MATH 152	Elementary Theory of Numbers	
<b>Additional Courses</b>		
21 units of 200-level MATH courses <sup>3</sup>		21
<b>Total Units</b>		<b>33</b>

- <sup>1</sup> The 100-level courses may have been completed during undergraduate study, and their equivalents from other universities are acceptable.
- <sup>2</sup> A third coherent sequence designed by the student, subject to the approval of the graduate committee, may be considered as a substitute for Sequence 1 or 2.
- <sup>3</sup> The 200-level courses must be taken at Stanford and approved by the Department of Mathematics Ph.D. minor adviser.

*Emeriti:* Gregory Brumfiel, Gunnar Carlsson, Robert Finn, Yitzhak Katznelson, Harold Levine, Tai-Ping Liu, R. James Milgram, Donald Ornstein, Richard Schoen, Leon Simon

*Chair:* Eleny Ionel

*Professors:* Daniel Bump, Emmanuel Candès, Sourav Chatterjee, Ralph L. Cohen, Brian Conrad, Amir Dembo, Persi Diaconis (on leave Winter), Yakov Eliashberg, Jacob Fox, Søren Galatius, Eleny Ionel, Steven Kerckhoff (on leave Winter), Jun Li (on leave Autumn), Rafe Mazzeo, George Papanicolaou (on leave Spring), Lenya Ryzhik, Kannan Soundararajan, Ravi Vakil, András Vasy (on leave), Akshay Venkatesh (on leave), Brian White, Lexing Ying

*Professor (Teaching):* Tadashi Tokieda

*Associate Professor:* Jan Vondrák

*Assistant Professors:* Thomas Church, Jonathan Luk

*Acting Assistant Professor:* Alex Wright

*Courtesy Professors:* Moses Charikar, Renata Kallosh

*Adjunct Professors:* Brian Conrey, David Hoffman

*Szegő Assistant Professors:* Laura Fredrickson, Or Hershkovits, Vladimir Kazeev, Michael Kemeny, Frederick Manners, Christopher Ohrt, Cheng-Chiang Tsai, Jennifer Wilson, Xuwen Zhu

*Visiting Assistant Professor:* Stefan Müller

*Senior Lecturer:* Mark Lucianovic

*Lecturers:* Susie Kimport, George Schaeffer, Wojciech Wieczorek

# MEDIEVAL STUDIES

Stanford Center for Medieval and Early Modern Studies (CMEMS) is a multidisciplinary community working together to produce new perspectives on medieval and early modern studies. The mission of CMEMS is to promote innovative research and foster a lively dialogue among faculty, students, librarians, and research affiliates, to rethink the nature of the field across time, space, and disciplinary boundaries, and to explore the significance of these earlier periods for our understanding of today's world.

There are a number of programs and courses related to medieval and early modern studies. To learn more, see the center's web site (<http://cmems.stanford.edu>).

The Division of Literatures, Cultures, and Languages (p. 482) offers a Medieval Studies minor.

## Minor in Medieval Studies

Faculty Director: Marisa Galvez

The Division of Literatures, Cultures, and Languages offers an undergraduate minor in Medieval Studies. The minor in Medieval Studies:

- provides Stanford students with the historical knowledge and framework through which to view globalism;
- embeds the study of medieval culture in a coherent framework that resonates with contemporary issues of community building, the virtual world and mobility;
- and promotes an innovative cross-disciplinary and skill-based approach to Medieval Studies.

Students in any field qualify for the minor by meeting the following requirements:

Students complete a total of 25 units (including a core course) and 6 courses relevant to the major in departments across the University including, but not restricted to, English, East Asian Studies, History, Religious Studies, Music, and DLCL courses (Comparative Literature, German, French, Italian, Iberian and Latin American Cultures, and Slavic Languages and Literatures), and Classics.

One of the following three introductory core courses is required to be taken for 5 units. The core courses are offered on a regular basis by faculty across the University.

		Units
FRENCH 205	Songs of Love and War: Gender, Crusade, Politics (Counts as DLCL 121)	3-5
DLCL 122	Medieval Manuscripts, Digital Methodologies	3-5
HISTORY 115D	Europe in the Middle Ages, 300-1500 (Counts as DLCL 123)	3-5

Electives may be selected from a large number of offerings in a variety of disciplines according to student interests, but they must follow a coherent course of study. This course of study must be approved by the faculty director. Up to 5 units may be taken in a medieval language, such as (but not limited to) Old English, Old Norse, Medieval Latin, Old French, Middle High German, Classical Arabic. No transfer credit may be used toward the Medieval Studies minor. Appropriate courses offered through BOSP may count toward this minor.

Course work in this minor may not duplicate work counted toward other majors or minors. Advanced placement credit and transfer credit do not apply to this minor. All courses must be taken for a letter grade. By

University policy, no more than 36 units may be required in this minor. Students declare the Minor in Medieval Studies through Axess.

*Affiliated Faculty:* Cécile Alduy (French and Italian), Ted Andersson (German Studies, Emeritus) Jean Marie Apostolidès (French and Italian, Emeritus), Keith Baker (History), Vincent Barletta (Iberian and Latin American Cultures and Comparative Literature), Shahzad Bashir (Religious Studies), John Bender (English), Karol Berger (Music), Carl Bielefeldt (Religious Studies), George H. Brown (English, Emeritus), Steven Carter (East Asian Languages and Cultures), Terry Castle (English), Giovanna Ceserani (Classics), Carolyn Lougee Chappell (History), David Como (History), Graciela De Pierris (Philosophy) Dan Edelstein (French and Italian) Ronald Egan (Asian Languages), Fiona Griffiths (History), Paula Findlen (History), Charlotte Fonrobert (Religious Studies), James Fox (Anthropology), Michael Friedman (Philosophy), Marisa Galvez (Co-Director, CMEMS, French and Italian), Hester Gelber (Religious Studies), Denise Gigante (English), Roland Greene (Comparative Literature and English) Avner Greif (Economics), Fiona Griffiths (Co-Director, CMEMS, History) Hans Ulrich Gumbrecht (Comparative Literature and French and Italian), Heather Hadlock (Music), Morten Steen Hansen (Art and Art History), Paul Harrison (Religious Studies), Robert Harrison (French and Italian), Tamar Herzog (History), Blair Hoxby (English), Michelle Karnes (English), Amalis Kessler (Law School), Alexander Key (Comparative Literature), Nancy S. Kollmann (History), Mark E. Lewis (History), David Lummus (French and Italian), Ivan Lupic (English), William Mahrt (Music), Michael Marrinan (Art and Art History), Reviel Netz (Classics), Stephen Orgel (English), David Palumbo-Liu (Comparative Literature) Grant Parker (Classics) Patricia Parker (English), Bissera Pentcheva (Art and Art History), Jack Rakove (History), Jessica Riskin (History), Ian Robertson (Anthropology) Orrin W. Robinson (German Studies, Emeritus), David Riggs (English, Emeritus), Jesse Rodin (Music), Nancy Ruttenburg (English), Behnam Sadeki (Religious Studies), Londa Schiebinger (History), Krish Seetah (Anthropology), Matthew Sommer (History), Carolyn Springer (French and Italian), Kathryn Starkey (German Studies), Laura Stokes (History), Melinda Takeuchi (East Asian Languages and Cultures) Elaine Treharne (English), Blakey Vermuele (English), Richare Vinograd (Art and Art History), Richared White (History), Karen Wigen (History), Caroline Winterer (History), Bryan Wolf (Art and Art History), Allen Wood (Philosophy), Ali Yaycioglu (History), Lee H. Yearley (Religious Studies), Yiqun Zhou (East Asian Languages and Cultures)

# MODERN THOUGHT AND LITERATURE

Courses offered by the Program in Modern Thought and Literature are listed under the subject code MTL on the Stanford Bulletin's ExploreCourses web site.

The program in Modern Thought and Literature admits students for the Ph.D. and a limited number for a coterminal B.A./M.A. Program.

## Graduate Programs in Modern Thought and Literature

Modern Thought and Literature (MTL) is an interdisciplinary humanities graduate program advancing the study of critical issues in the modern world. Since 1971, MTL students have helped to redefine the cutting edge of many interdisciplinary fields and to reshape the ways in which disciplinary scholarship is understood and practiced. MTL graduates are leaders in fields such as American studies, ethnic studies, film studies, social and cultural studies, and women's studies, as well as English and comparative literature.

The program trains students to understand the histories and methods of disciplines and to test their assumptions. It considers how disciplines shape knowledge and, most importantly, how interdisciplinary methods reshape objects of study. MTL students produce innovative analyses of diverse texts, forms, and practices, including those of literature, history, philosophy, anthropology, law, and science; film, visual arts, popular culture, and performance; and material culture and technology.

Each student constructs a unique program of study suited to his or her research. Students have focused on such areas as gender and sexuality; race and ethnicity; science, technology, and medicine; media and performance; legal studies; and critical and social theory. The program's affiliated faculty is drawn from fields throughout the humanities and humanistic social sciences, as well as from education and law. As interdisciplinary study is impossible without an understanding of the disciplines under consideration, each student is expected to master the methods of literary analysis and to gain a foundation in a second field or discipline.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in interdisciplinary literary studies and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in interdisciplinary literary studies. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of interdisciplinary literary studies and to interpret and present the results of such research.

## Master of Arts

The Master of Arts is available to students who are admitted to the doctoral program and have not been awarded an M.A. previously. Students are not admitted into the program for the purpose of earning a terminal Master of Arts degree. Candidates for the Ph.D. who satisfy the committee of their progress and satisfactorily complete 45 units of course work forming a coherent program of study, may apply for an M.A. in Modern Thought and Literature.

## Coterminal Master's Program in Modern Thought and Literature

Each year, one or two undergraduates who are exceptionally well prepared in literature and whose undergraduate course work includes a strong interdisciplinary component, may petition to be admitted to the program for the purpose of completing a coterminal M.A. degree. Admission to this program is granted only on condition that in the course of working on their master's degrees they do not apply to enter the Ph.D. program in Modern Thought and Literature. The deadline for application is February 15 or the first business day following, if the 15th falls on a weekend or holiday.

To apply, applicants submit:

1. An unofficial grade transcript from Axess.
2. An Application for Admission to Coterminal Masters' Program (<http://registrar.stanford.edu/pdf/CotermApplic.pdf>).
3. A statement giving the reasons the student wishes to pursue this program and its place in his or her future plans. This statement should pay particular attention to the reasons why the student could not pursue the studies he or she desires in some other way.
4. An initial plan of study listing, quarter by quarter, each course by name, units, and instructor, to be taken in order to fulfill the requirements for the degree for a total of 45 units, including at least 20 units of advanced work in one literature, and at least 20 units of advanced work in a coherent interdisciplinary program of courses taken in non-literature departments. Students may include appropriate coursework taken during the two quarters prior to the quarter of expected matriculation in the program. Except in unusual cases, this will mean courses taken in the autumn and winter quarters of the year of application for admission. (Changes in the course list are to be expected.)
5. A writing sample of critical or analytical prose, 20 pages maximum.
6. Two letters of recommendation from members of the faculty who know the applicant well and who can speak directly to the question of his or her ability to do graduate-level work.
7. A designated adviser from among the Stanford faculty; normally one letter of recommendation will be from this faculty member.

## University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken two quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

## Degree Requirements

The candidate for the M.A. must complete at least 45 units of graduate work, to be divided in the following manner:

1. The introductory seminar, MTL 334A Concepts of Modernity I: Philosophical Foundations, 5 units; in the event of a scheduling conflict students may substitute MTL 334B Concepts of Modernity II: Culture, Aesthetics, and Society in the Age of Globalization, with the director's prior permission.
2. At least 20 units of advanced course work in literature, to be approved by the director.
3. At least 20 units of advanced course work in a coherent and individually arranged interdisciplinary program, to be approved by the director.

## Doctor of Philosophy in Modern Thought and Literature

University requirements for the Ph.D. are discussed in the "Graduate Degrees (p. 50)" section of this bulletin.

A candidate for the Ph.D. degree in Modern Thought and Literature must complete three years (nine quarters) of full-time work, or the equivalent, in graduate study beyond the B.A. degree. He or she is expected to complete at least 18 courses of graduate work in addition to the dissertation. Students may spend one year of graduate study abroad.

Requirements for the Ph.D. in Modern Thought and Literature are:

1.
 

MTL 334A	Concepts of Modernity I: Philosophical Foundations	5
MTL 334B	Concepts of Modernity II: Culture, Aesthetics, and Society in the Age of Globalization (Offered in 2016-17 as MTL 334)	5
MTL 299	Edgework: New Directions in the Study of Culture (Spring Quarter; required of all first-year students)	1-3
2. A coherent program of eight courses of advanced work in literary studies to be worked out with the adviser, of which at least six must be regularly scheduled courses in literature. Courses in the teaching of composition, independent study, or thesis registration may not be counted among these six courses; ENGLISH 396L Pedagogy Seminar I, MTL 399 Reading for Orals, MTL 802 TGR Dissertation may not be counted toward these requirements under any circumstances. Petitions to modify this requirement to substitute a course from a non-literature department for one or more of the required eight literature courses must be approved by the MTL Committee in Charge.
3. Eight courses of advanced work in non-literature departments, the core of which is completion of either a departmental minor or an interdepartmental concentration, typically consisting of six courses. Departmental minors are available from the departments of Anthropology, Art and Art History, Communication, History, Philosophy, Political Science, Religious Studies, and Sociology (see the relevant information in those sections of this bulletin). Individually designed concentrations may be approved by petition to the director. In addition to the required six courses in a minor or a concentration, two additional courses from non-literature departments are chosen in consultation with the student's academic adviser. At the end of the first year, each student must submit to the director a preliminary statement of approximately 1500 words outlining the scope and coherence of the interdisciplinary focus, either as it relates to the departmental minor or to the interdepartmental concentration. In either case, the student should note the relevance of any proposed coursework to the overall

program (see #7 below). Course restrictions noted above in item 2 also apply.

4. *Qualifying Paper*: This certifies that students are likely to be able to undertake the quality of research, sustained argumentation, and cogent writing demanded in a doctoral dissertation. The qualifying paper must be a substantial revision of a seminar paper written at Stanford during the first year and should embody a substantial amount of independent research, develop an intellectual argument with significant elements of original thinking, and demonstrate the ability to do interdisciplinary work. Each paper is evaluated by two or three readers (designated before the end of the first year of graduate study), one of whom must be a member of the Committee in Charge or have been a member within the previous five years. Qualifying papers must be submitted to the program office no later than the end of the third week of the fifth quarter of enrollment, normally, Winter Quarter of the second year.
5. *Teaching* is an essential part of the program. One quarter is normally undertaken in conjunction with the Department of English. The second quarter may be undertaken in conjunction with any department or program within the university.
6. Students must demonstrate, by the end of the third quarter of the first year, a reading knowledge of one foreign language and, by the beginning of the first quarter of the third year, a reading knowledge of one other foreign language. Reading knowledge means the ability to make a genuine scholarly use of the language: that is, to read prose of ordinary difficulty. Students may not take the University oral examination before completion of the foreign language requirement.
7. *Candidacy*: At the end of the second year, students apply for candidacy. The decision to advance a student to candidacy is a judgment of the faculty. The student is only admitted to candidacy if, in addition to the student's fulfilling departmental prerequisites, the faculty makes the judgment that the student has the potential to successfully complete the requirements of the degree program. The following qualifications are required before candidacy can be certified:
  - the earlier submission of a satisfactory qualifying paper;
  - demonstration of a reading knowledge of one foreign language;
  - satisfactory progress in course work;
  - a list of courses applicable to the degree, distinguishing between courses appropriate to the literary component and courses appropriate to the non-literary component;
  - designation of a departmental minor or an interdisciplinary concentration; and,
  - the submission of a statement outlining the scope and coherence of the interdisciplinary component of the program in relation to the literary component, and noting the relevance of the course work to that program.
8. *Annual Review*: The program and progress of each student must be approved by the Committee in Charge at the end of each academic year. First-year students will submit the preliminary interdisciplinary statement along with the first year-end report (see #3 above).
9. *University Oral Examination*: This examination, covering the student's areas of concentration, is normally taken in the third year of graduate study. It is a two-hour oral examination administered by four faculty members specializing in the student's areas of concentration, and a chair from another department. The exam is based on a substantial reading list prepared by the student in conjunction with the faculty committee and designed to cover the areas of expertise pertinent to the student's dissertation project.
10. *Dissertation Proposal and Colloquium*: Within one quarter after the University oral examination, the student writes up the dissertation proposal. The recommended length for the dissertation proposal is 5 pages double-spaced (with a maximum length of 8 pages). It should contain (additionally) a full bibliography. The proposal is submitted to the program director and the dissertation committee for approval.

### Units

After completion of the first chapter of the dissertation, the student sets up a meeting with the dissertation committee for one hour to discuss the work accomplished in the first chapter and plans for completing the rest of the dissertation.

11. *Dissertation*: The fourth and fifth years are devoted to the dissertation, which should be a substantial and original contribution acceptable to the Committee in Charge of Modern Thought and Literature. The subject is drawn from the literature of specialization and the area of nonliterary studies. The dissertation project will conclude with a two-hour defense. The first hour is open to the public and includes a brief presentation of the dissertation project on the part of the Ph.D. candidate. The second hour is reserved to the candidate and his/her Dissertation Committee.

## Ph.D. Minor in Feminist, Gender, and Sexuality Studies

The Program in Modern Thought and Literature sponsors a Ph.D. minor in Feminist, Gender, and Sexuality Studies. The Ph.D. minor is administered by the Program in Feminist, Gender, and Sexuality Studies. (p. 534)

*Director*: Michele Elam

*Committee in Charge*: Shelley Fisher Fishkin, Héctor Hoyos, Alvan Ikoku, Marci Kwon, Bernadette Meyler, Vaughn Rasberry, Thomas Mullaney, Karla Oeler, José David Saldívar

*Affiliated Faculty*: Lanier Anderson (*Philosophy*), Russell Berman (*German Studies*), Jennifer Brody (*Theater & Performance Studies*), Scott Bukatman (*Art & Art History*), Gordon Chang (*History*), Adrian Daub (*German Studies*), Jean-Pierre Dupuy (*French & Italian*), Paulla Ebron (*Anthropology*), Harry Elam (*Theater & Performance Studies*), Michele Elam (*English*), Amir Eshel (*German Studies, Comparative Literature*), Shelley Fisher Fishkin (*English*), Zephyr Frank (*History*), Estelle Freedman (*History*), Duana Fullwiley (*Anthropology*), Thomas Hansen (*Anthropology*), David Hills (*Philosophy*), Héctor Hoyos (*Iberian & Latin American Cultures*), Alvan Ikoku (*Comparative Literature*), Lochlain Jain (*Anthropology*), Tomas Jimenez (*Sociology*), Matthew Kohrman (*Anthropology*), Charles Kronengold (*Music*), Aishwary Kumar (*History*), Marci Kwon (*Art & Art History*), Joshua Landy (*French & Italian, Comparative Literature*), Pavle Levi (*Art & Art History*), Marilia Librandi-Rocha (*Iberian and Latin American Cultures*), Helen Longino (*Philosophy*), Douglas McAdam (*Sociology*), Mark McGurl (*English*), Alison McQueen (*Political Science*), Jisha Menon (*Theater & Performance Studies*), Lynn Meskell (*Anthropology*), Paula Moya (*English*), Thomas Mullaney (*History*), Alex Nemerov (*Art & Art History*), David Palumbo-Liu (*Comparative Literature*), Peggy Phelan (*Theater & Performance Studies*), Robert Proctor (*History*), Vaughn Rasberry (*English*), Robert Reich (*Political Science*), Jessica Riskin (*History*), José David Saldívar (*Comparative Literature*), Ramón Saldívar (*English, Comparative Literature*), Londa Schiebinger (*History*), Sharika Thiranagama (*Anthropology*), Fred Turner (*Communication*), Ban Wang (*East Asian Languages and Cultures*), Richard White (*History*), Gail Wight (*Art & Art History*), Alex Woloch (*English*)

# MUSIC

Courses offered by the Department of Music are listed under the subject code MUSIC on the Stanford Bulletin's ExploreCourses web site.

## Mission of the Department of Music

The Department of Music promotes the practice, understanding and enjoyment of music in the University, offering a broad array of educational opportunities with specialization in composition, performance, musicology, ethnomusicology, and music technology.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to:

1. select and outline a topic in tonal music analysis; choose methodologies for the explication of the topic.
2. demonstrate understanding of the underlying principles of tonal music analysis through the use of scholarly references and analytical tools and methodologies.
3. utilize primary source materials in written and oral presentations.
4. utilize secondary source materials in written and oral presentations.
5. demonstrate proficiency in academic writing on the subject of tonal music.
6. develop the skills to present a musical analysis to an audience.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in Music, including concentration in the fields of Composition, Music History, Computer-Based Music Theory and Acoustics, or Music, Science, and Technology, and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge and practice of Music and to interpret and present the results of such work in appropriate venues and publications.

The Doctor of Philosophy (Ph.D.) is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in either Musicology or Computer-Based Music Theory and Acoustics, based at the Center for Computer Research in Music and Acoustics (CCRMA).

The Doctor of Musical Arts (D.M.A.) in Composition is conferred upon candidates who have demonstrated substantial abilities in creating new musical works as demonstrated by their completed works under the supervision of composition faculty.

## Bachelor of Arts in Music

The undergraduate major in Music is built around a series of foundational courses in theory, musicianship, and music history in addition to performance and the proficiency requirements outlined below. Majors must complete 68 units within the department to meet the general requirements for a Bachelor of Arts in Music, or 63 units for Bachelor of Arts in Music with a Concentration in Music, Science, and Technology. All required courses for the B.A. in Music must be taken for a letter grade, as must all courses taken toward concentration requirements. Electives may be taken credit/no credit.

## Suggested Preparation for the Major

Students should allow more than two years for completion of the major, in part because of sequential courses with prerequisite requirements. Early planning is especially important for students who plan to double-major, study abroad or pursue any of the concentrations described below. Music majors should attempt to complete MUSIC 21 Elements of Music I, MUSIC 22 Elements of Music II, and MUSIC 23 Elements of Music III in their freshman year; the series should be completed no later than Autumn Quarter of their junior year. It is recommended that majors complete MUSIC 40 Music History to 1600, MUSIC 41 Music History 1600-1830, and MUSIC 42 Music History Since 1830 in their sophomore year; the series should be completed by the end of their junior year.

Suggested Preparatory Course:		Units
MUSIC 19A	Introduction to Music Theory	3
MUSIC 19B	Intermediate Music Theory	3

## Fields of Study or Degree Options

### Concentrations

Concentrations (subplans) are offered in five areas: Performance; Conducting; Composition; History, Theory and Ethnomusicology; and Music, Science, and Technology. Subplans are declared in Axxess, and appear on the student's transcript and diploma. Guidelines and application information are explained the "Declare a Concentration (<https://music.stanford.edu/academic-programs/undergraduate/current-undergraduates/major/declare-concentration>)" pages of the department website. In order to complete requirements in a timely manner, students are urged to select this option no later than the end of the junior year for single-area concentrators and the middle of the sophomore year for multiple-area concentrators. Students pursuing multiple concentrations must fulfill all the requirements of each. Requests to declare a concentration must be approved by the undergraduate student services officer in Music.

### Departmental Honors

Honors in Music are awarded by the faculty to majors who have produced an independent project of exceptional quality through the concentration program. Students who wish to pursue honors must declare their concentration(s) by May 31 of their junior year (see the undergraduate student services officer for concentration-specific requirements). To receive honors, students must also have earned an overall GPA of 3.6 or higher and a GPA of 3.7 or higher in courses required for the Music major. Honors are conferred solely through faculty adjudication. For students concentrating in multiple areas, a single jury will be convened.

## Degree Requirements

Prospective majors are required to choose a faculty adviser and submit a course plan. (Course plans and adviser agreement forms are available from the undergraduate student services officer.) It is recommended that students schedule a consultation meeting with the undergraduate student services officer as early as possible to plan a program of study.

### Required Courses

The following courses are required of all majors.

#### 1. Theory

		Units
MUSIC 21	Elements of Music I	3
MUSIC 22	Elements of Music II	3
MUSIC 23	Elements of Music III	3
MUSIC 24A	Ear Training I	1
MUSIC 24B	Ear Training II	1
MUSIC 24C	Ear Training III	1

Students enrolled in 21, 22, or 23 must concurrently enroll in an ear-training and musicianship lab, MUSIC 24A, 24B, or 24C.

**Additional Music Theory Requirements**

- *Piano Proficiency:* Majors are required to pass a piano proficiency examination as part of the music theory core (MUSIC 21 Elements of Music I, MUSIC 22 Elements of Music II, MUSIC 23 Elements of Music III). The examination is given in the first two weeks of MUSIC 21. Students who do not pass the piano proficiency examination are required to enroll in either MUSIC 12A Introductory Piano Class, MUSIC 12B Introductory Piano Class, or MUSIC 12C Introductory Piano Class concurrently with the music theory core until they are able to pass the examination. The examination consists of scales and arpeggios, performance of a simple tune to be set by the examiner, sight-reading, and the performance of prepared pieces. Download additional information regarding the proficiency examination ([http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/music/pianoprofexaminfo\\_0.pdf](http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/music/pianoprofexaminfo_0.pdf)).
- *Ear Training Elective:* In addition to the theory requirements listed above, majors must successfully complete one unit of an ear training elective course from the list below:

		Units
MUSIC 65A	Voice Class I	1
MUSIC 126	Introduction to Thoroughbass	1-3
MUSIC 127	Instrumentation and Orchestration	3
Or any course, upon approval from Ear Training Advisor		

- *Ear Training Exit Exam:* in conjunction with the music theory series, majors are required to pass an aural skills proficiency examination administered at the end of their junior year. This assesses the ability to transcribe, represent, and reproduce music vocally and at the keyboard, and must be passed before June of the senior year.

**2. History**

		Units
MUSIC 40	Music History to 1600	4
MUSIC 41	Music History 1600-1830	4
MUSIC 42	Music History Since 1830	4

**3. Analysis**

		Units
MUSIC 122A	Counterpoint	4
MUSIC 122B	Analysis of Tonal Music	4
MUSIC 122C	Introduction to 20th-Century Composition	4

**4. Writing in the Major (WIM)**

Select three courses, including at least two at the 4-unit level, as follows:

**One course numbered 140, 141, or 142**

- MUSIC 140: Studies in Music of the Middle Ages  
Pre- or corequisites for WIM credit: MUSIC 21, MUSIC 40\*
- MUSIC 141: Studies in Music of the Renaissance  
Pre- or corequisites for WIM credit: MUSIC 21, MUSIC 40\*
- MUSIC 142: Studies in Music of the Baroque  
Pre- or corequisites for WIM credit: MUSIC 22, MUSIC 41\*

**One course numbered 143, 144, or 145**

- MUSIC 143: Studies in Music of the Classical Period  
Pre- or corequisites for WIM credit: MUSIC 22, MUSIC 41\*
- MUSIC 144: Studies in Music of the Romantic Period  
Pre- or corequisites for WIM credit: MUSIC 23, MUSIC 42\*
- MUSIC 145: Studies in Western Art Music Since 1900

Pre- or corequisites for WIM credit: MUSIC 23, MUSIC 42\*

**One course, numbered 146, 147, 148, or 251**

- MUSIC 146: Studies in Ethnomusicology  
Pre- or corequisites for WIM credit: MUSIC 22\*
- MUSIC 147: Studies in Music, Media, and Popular Culture  
Pre- or corequisites for WIM credit: MUSIC 22\*
- MUSIC 148: Studies in Performance Practice  
Pre- or corequisites for WIM credit: MUSIC 22\*
- MUSIC 251: Psychophysics and Music Cognition

\*For complete enrollment requirements, consult the course description in the "ExploreCourses (<http://explorecourses.stanford.edu>)" section of this bulletin.

**5. Applied**

- A minimum of five quarters totaling 15 units of private instruction in instrumental and/or vocal performance (MUSIC 172/272-177/277). Students who do not qualify for private instruction at the intermediate or advanced level, but who wish to pursue the major may take introductory voice (MUSIC 65A Voice Class I and MUSIC 73 Intermediate Voice Class), piano (MUSIC 12A Introductory Piano Class and MUSIC 72A Intermediate Piano Class), or guitar (MUSIC 74C Classical Guitar Class) to reach the minimum proficiency levels required to be accepted into a private studio and then complete their five quarters. Requirements for the minimum levels of proficiency in each instrument for private instruction are posted at: <http://music.stanford.edu/ensembles-lessons/lessons>.
- A minimum of five quarters totaling at least 5 units in one or more of the department's performance organizations or chamber groups. To fulfill the ensemble requirement, Music majors need at least three quarters of participation in the department's traditional large ensembles (MUSIC 159–167), with the exception of students whose primary instrument is guitar, harp, or keyboard, who need to participate at least one quarter in the ensembles above, but who may fulfill the rest of the requirement with chamber music (MUSIC 171 Chamber Music). MUSIC 156 "sic": Improvisation Collective may count for up to two of the ensemble-unit requirements for the Music major.

Note—The following courses do not satisfy this requirement:

		Units	Units
MUSIC 128	Stanford Laptop Orchestra: Composition, Coding, and Performance	1-5	
MUSIC 160B	Stanford New Ensemble		1
MUSIC 161D	Stanford Brass Ensemble		1
MUSIC 161C	(no longer offered)		1

**Concentration Requirements**

**A. Concentration in Performance**

In addition to the degree requirements for the general Music major described above, students in the Performance concentration must:

1. Complete at least 6 additional units for a letter grade in one area of performance. Acceptable courses are described under "Applied" in the section describing private instruction and ensemble course work above. Additional courses might include but are not limited to:

		Units
MUSIC 126	Introduction to Thoroughbass	1-3
MUSIC 154	History of Electronic Music	1-5
MUSIC 182	Diction for Singers	1
MUSIC 183A	German Art Song Interpretation	1
MUSIC 183B	French Art Song Interpretation	1
MUSIC 184A	Editing and Performing Early Music	1-3

MUSIC 184B	Topics in Opera Stagecraft	1-3
MUSIC 269	Research in Performance Practices	1-5

- Register for an independent project (MUSIC 198 Concentrations Project, 4 units) in the senior year under faculty supervision, leading to a faculty adjudicated senior recital with a writing component. In preparation for their senior recital, students should refer to the Recitals-at-a-Glance planning page (<https://sites.stanford.edu/music-dept/venues-spaces/reserve/recitals>) for calendar links and reservation deadlines.

### B. Concentration in Conducting

In addition to the degree requirements for the general Music major described above, students in the Conducting concentration must:

- Complete at least 6 additional units for a letter grade in conducting. Additional courses might include, but are not limited to:

MUSIC 127	Instrumentation and Orchestration	3
MUSIC 130A	Introduction to Conducting	3
MUSIC 130B	Elementary Orchestral Conducting	3
MUSIC 130C	Elementary Choral Conducting	3
MUSIC 230	Advanced Orchestral Conducting	2-4
MUSIC 231	Advanced Choral Conducting	2-4

- Register for an independent project (MUSIC 198 Concentrations Project, 4 units) in the senior year under faculty supervision, leading to a senior conducting project.

In preparation for their senior recital, students should refer to the Recitals-at-a-Glance planning page (<https://sites.stanford.edu/music-dept/venues-spaces/reserve/recitals>) for calendar links and reservation deadlines.

### C. Concentration in Composition

In addition to the degree requirements for the general Music major described above, students in the Composition concentration must:

- Complete MUSIC 127 Instrumentation and Orchestration and at least 2 quarters of individual study in MUSIC 125 Individual Undergraduate Projects in Composition. These may count as 3 of the 5 quarters of required applied music classes for the major. (The remaining two quarters of applied music must be taken in an instrumental or vocal area, as defined in the requirements for the music major.)
- Complete MUSIC 123A Undergraduate Seminar in Composition: Rhythmic Design and MUSIC 123B Undergraduate Seminar in Composition: Pitch Design.
- Complete at least 4 additional units for a letter grade in composition. Additional courses might include, but are not limited to:

MUSIC 124B	Songwriters Workshop	3
MUSIC 156	"sic": Improvisation Collective	1

Select one of the following Series:

#### Series A

MUSIC 220A	Fundamentals of Computer-Generated Sound	2-4
MUSIC 220B	Compositional Algorithms, Psychoacoustics, and Computational Music	2-4
MUSIC 220C	Research Seminar in Computer-Generated Music	2-4

#### Series B

Any of the series in computer-generated sound, music, and composition

- Register for an independent project (MUSIC 198 Concentrations Project, 4 units) in the senior year under faculty supervision, leading to a faculty-adjudicated composition project. In preparation for

their senior recital, students should refer to the Recitals-at-a-Glance planning page (<https://sites.stanford.edu/music-dept/venues-spaces/reserve/recitals>) for calendar links and reservation deadlines.

### D. Concentration in History, Theory, and Ethnomusicology

In addition to the degree requirements for the general Music major described above, students in the History, Theory, and Ethnomusicology concentration must:

- Complete at least 6 additional units for a letter grade in history and theory. Additional courses might include, but are not limited to:

Select any course not taken in fulfillment of the major requirement:

MUSIC 140: Studies in Music of the Middle Ages
MUSIC 141: Studies in Music of the Renaissance
MUSIC 142: Studies in Music of the Baroque
MUSIC 143: Studies in Music of the Classical Period
MUSIC 144: Studies in Music of the Romantic Period
MUSIC 145: Studies in Western Art Music Since 1900
MUSIC 146: Studies in Ethnomusicology
MUSIC 147: Studies in Music, Media, and Popular Culture
MUSIC 148: Studies in Performance Practice

- Register for an independent project (MUSIC 198 Concentrations Project 4 units) in the senior year under faculty supervision, leading to a senior research paper.

### E. Concentration in Music, Science, and Technology

Requires completion of 63 units. Some of these differ from the general Music major, and are delineated below. This field of study is designed for students interested in the musical ramifications of rapidly evolving computer technology and digital audio, and in the acoustic and psychoacoustic foundations of music. This program can serve as a complementary major to students in the sciences and engineering. Students in the program are required to fulfill the following requirements:

- Theory and Analysis

MUSIC 21	Elements of Music I	3
MUSIC 22	Elements of Music II	3
MUSIC 23	Elements of Music III (includes passing the piano and ear-training proficiency examinations, as described for the major)	3
MUSIC 24A	Ear Training I	1
MUSIC 24B	Ear Training II	1
MUSIC 24C	Ear Training III	1
MUSIC 122B	Analysis of Tonal Music	4
MUSIC 150	Musical Acoustics	3
MUSIC 220A	Fundamentals of Computer-Generated Sound	4
MUSIC 220B	Compositional Algorithms, Psychoacoustics, and Computational Music	4
MUSIC 220C	Research Seminar in Computer-Generated Music	4
MUSIC 220D	Research in Computer-Generated Music	4
MUSIC 250A	Physical Interaction Design for Music	4
MUSIC 251	Psychophysics and Music Cognition	4

- Piano Proficiency. Majors are required to pass a Piano Proficiency examination as part of the music theory core as described above in "Degree Requirements," "Additional Music Theory Requirements." Download additional information regarding the proficiency examination (<http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/music/pianoprofexaminfo.pdf>).

Units

Units

Units

Units

3. Ear Training. In addition to the three ear training courses above, MST students are also required to take an elective course in ear training, and pass an aural skills proficiency examination at the end of the junior year. This examination tests the ability to accurately transcribe, represent, and reproduce music vocally and at the keyboard.

#### 4. Applied

- Individual studies in performance, MUSIC 172/272-177/277 (6 units) or MUSIC 192A Foundations of Sound-Recording Technology and MUSIC 192B Advanced Sound Recording Technology (6 units)
- A minimum of five quarters totaling at least 5 units of work in one or more of the department's performance organizations or chamber groups, or 5 units of MUSIC 192C Session Recording. To fulfill the ensemble requirement, Music majors need at least three quarters of participation in the department's traditional large ensembles (MUSIC 159–167), with the exception of students whose primary instrument is harp, keyboard, or guitar, who need to participate at least one quarter in the ensembles above, but who may fulfill the rest of the requirement with chamber music (MUSIC 192C Session Recording). MUSIC 156 "sic": Improvisation Collective may count for up to two of the ensemble-unit requirements for the Music major.

#### 5. History

Select two of the following:

MUSIC 40	Music History to 1600	4
MUSIC 41	Music History 1600-1830	4
MUSIC 42	Music History Since 1830	4

#### 6. Research Project

The program requires a senior research project (4 units) completed under faculty guidance. May be completed in conjunction with enrollment in any of the following:

MUSIC 220D	Research in Computer-Generated Music	4
MUSIC 198	Concentrations Project	4
MUSIC 199	Independent Study	4

## Overseas Study or Study Abroad

Courses in Music are often available at Stanford overseas programs, especially in Berlin, Paris, Florence, and Oxford. See the "Overseas Studies Program" section of this bulletin for this year's listings. Music majors and minors should talk to the Department of Music undergraduate administrator prior to going overseas.

## Joint Major Program in Music and Computer Science

The joint major program (JMP), authorized by the Academic Senate for a pilot period of six years beginning in 2014-15, permits students to major in both Computer Science and one of ten Humanities majors. See the "Joint Major Program (p. 31)" section of this bulletin for a description of University requirements for the JMP. See also the Undergraduate Advising and Research JMP web site and its associated FAQs.

Students completing the JMP receive a B.A.S. (Bachelor of Arts and Science).

Because the JMP is new and experimental, changes to procedures may occur; students are advised to check the relevant section of the bulletin periodically.

## Music Major Requirements in the Joint Major Program

Because the Joint Major Program is new and experimental, some changes to the following may occur. Questions concerning a concentration project in addition to the basic requirements for a Joint Major in Music and Computer Science should be directed to the Department of Music student services office in Braun Music Center, Room 101.

See the "Computer Science Joint Major Program (p. 278)" section of this bulletin for details on Computer Science requirements.

Students majoring in the joint major program in Computer Science and Music must complete the following:

### 1. Music Theory

		Units
MUSIC 21	Elements of Music I	3
MUSIC 22	Elements of Music II	3
MUSIC 23	Elements of Music III	3
MUSIC 24A	Ear Training I	1
MUSIC 24B	Ear Training II	1
MUSIC 24C	Ear Training III	1
Total Units		12

#### Units

Students enrolled in 21, 22, or 23 must concurrently enroll in an ear-training and musicianship lab, MUSIC 24A, 24B, or 24C.

#### Additional Music Theory Requirements

- *Piano Proficiency*: Majors are required to pass a piano proficiency examination as part of the music theory core (MUSIC 21 Elements of Music I, MUSIC 22 Elements of Music II, MUSIC 23 Elements of Music III). The examination is given in the first two weeks of MUSIC 21. Students who do not pass the piano proficiency examination are required to enroll in either MUSIC 12A Introductory Piano Class, MUSIC 12B Introductory Piano Class, or MUSIC 12C Introductory Piano Class concurrently with the music theory core until they are able to pass the examination. The examination consists of scales and arpeggios, performance of a simple tune to be set by the examiner, sight-reading, and the performance of prepared pieces. For additional information about this requirement, see Piano Proficiency Examination ([http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/music/pianoprofexaminfo\\_0.pdf](http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/music/pianoprofexaminfo_0.pdf)).

#### Units

- *Ear Training Elective*: In addition to the theory requirements listed above, majors must successfully complete one unit of an ear training elective course from the list below:

		Units
MUSIC 65A	Voice Class I	1
MUSIC 126	Introduction to Thoroughbass	1
MUSIC 127	Instrumentation and Orchestration	3
Or any course upon approval of the Ear Training adviser		

- *Ear Training Exit Exam*: in conjunction with the music theory series, majors are required to pass an aural skills proficiency examination administered at the end of their junior year. This assesses the ability to accurately transcribe, represent, and reproduce music vocally and at the keyboard, and must be passed before June of the senior year.

### 2. Music History

		Units
Select 2 of 3 from the list below		8
MUSIC 40	Music History to 1600	4
MUSIC 41	Music History 1600-1830	4
MUSIC 42	Music History Since 1830	4

### 3. Analysis

MUSIC 122B Analysis of Tonal Music

### 4. Computing and Music

MUSIC 220A Fundamentals of Computer-Generated Sound

MUSIC 256A Music, Computing, Design I: Art of Design for Computer Music

Total Units

Units

4

Units

4

4

8

### 5. WIM

One WIM-designated course must be taken for a minimum of 4 units. The course below is recommended, but can be replaced with any Music WIM course depending on student's area of interest.

MUSIC 251 Psychophysics and Music Cognition 4

Total Units 4

### 6. Electives

Students must submit 12 unit elective course plan to the JMP faculty adviser for approval no later than the beginning of the junior year. MUSIC 220B and MUSIC 250A are recommended, but elective course plan can consist of any courses from list below, or other Music department course(s) with permission of adviser.

MUSIC 122A Counterpoint 4

MUSIC 122C Introduction to 20th-Century Composition 4

MUSIC 128 Stanford Laptop Orchestra: Composition, Coding, and Performance 4

MUSIC 150 Musical Acoustics 3

MUSIC 220B Compositional Algorithms, Psychoacoustics, and Computational Music 4

MUSIC 220C Research Seminar in Computer-Generated Music 4

MUSIC 250A Physical Interaction Design for Music 4

MUSIC 256B Music, Computing, Design II: Virtual and Augmented Reality for Music 4

### 7. Applied Music

Students may elect to take either of the following to fulfill the applied music requirement:

#### 7.1 Lesson and Ensemble Study

- 6 units of individual studies in performance, MUSIC 172/272-177/277 and
- 5 quarters totaling 5 units of work in one or more of the department's ensembles or chamber music groups. To fulfill the ensemble requirement, Music majors need at least three quarters of participation in the department's traditional large ensembles (MUSIC 159-167) with the exception of students whose primary instrument is guitar, harp, or keyboard, who need to participate at least one quarter in the ensembles above, but who may fulfill the rest of the requirement with chamber music.

#### 7.2 Sound Recording

- 1 quarter (3 units) of MUSIC 192A Foundations of Sound-Recording Technology
- 1 quarter (3 units) of MUSIC 192B Advanced Sound Recording Technology
- 5 units of MUSIC 192C Session Recording

### 8. Capstone Project

Units

4

MUSIC 220D Research in Computer-Generated Music (3 units taken in conjunction with CS Capstone) 3

Units

3

### 9. Optional Concentrations

Students who would also like to complete an additional capstone project in Performance, Conducting, Composition, Music History and Theory, or Music, Science, and Technology must consult the Department of Music student services office in Braun Music Center, Room 101 to submit a proposal for an optional concentration.

### Declaring a Joint Major Program

Units

To declare the joint major, students must first declare each major through Axess, and then submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) The Major-Minor and Multiple Major Course Approval Form (<https://stanford.box.com/MajMin-MultMaj>) is required for graduation for students with a joint major.

### Dropping a Joint Major Program

Units

To drop the joint major, students must submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) . Students may also consult the Student Services Center (<http://studentservicescenter.stanford.edu>) with questions concerning dropping the joint major.

### Transcript and Diploma

Students completing a joint major graduate with a B.A.S. degree. The two majors are identified on one diploma separated by a hyphen. There will be a notation indicating that the student has completed a "Joint Major". The two majors are identified on the transcript with a notation indicating that the student has completed a "Joint Major".

### Minor in Music

The Music minor provides students with a core of essential Music courses in the disciplines that establish both a foundation for informed appreciation of music and a basis for more advanced study, should the student wish to pursue it. Two options are available for the minor: General Music and Music, Science, and Technology.

### Degree Requirements

Total of 36 units required course work as delineated in each of the two options below, and passage of the piano proficiency and ear training examinations. To fulfill Music minor requirements, courses must be taken for a letter grade.

- **Piano Proficiency:** minors are required to pass a piano proficiency examination as part of the music theory core (MUSIC 21 Elements of Music I, MUSIC 22 Elements of Music II, MUSIC 23 Elements of Music III). The examination is given in the first two weeks of MUSIC 21. Students who do not pass the piano proficiency examination are required to enroll in either MUSIC 12A Introductory Piano Class, MUSIC 12B Introductory Piano Class, or MUSIC 12C Introductory Piano Class concurrently with the music theory core until they are able to pass the examination. The examination consists of scales and arpeggios, performance of a simple tune to be set by the examiner, sight-reading, and the performance of prepared pieces. Download additional information regarding the proficiency examination ([http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/music/pianoprofexaminfo\\_0.pdf](http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/music/pianoprofexaminfo_0.pdf)).
- **Ear Training Exit Exam:** in conjunction with the music theory series, minors are required to pass an aural skills proficiency examination administered at the end of their junior year. This examination tests the ability to accurately transcribe, represent, and reproduce music

vocally and at the keyboard, and must be passed before June of the senior year.

## Required Courses: General Music

### 1. Theory

		Units
MUSIC 21	Elements of Music I	3
MUSIC 22	Elements of Music II	3
MUSIC 23	Elements of Music III	3
MUSIC 24A	Ear Training I	1
MUSIC 24B	Ear Training II	1
MUSIC 24C	Ear Training III	1

Students enrolled in 21, 22, or 23 must concurrently enroll in an ear-training and musicianship lab, MUSIC 24A, 24B, or 24C.

### 2. History

		Units
MUSIC 40	Music History to 1600	4
MUSIC 41	Music History 1600-1830	4
MUSIC 42	Music History Since 1830	4

### 3. Applied: Ensemble

Two quarters, 2 units total.

### 4. Applied: Individual

Two quarters at 3 units per quarter, 6 units total.

### 5. WIM, 4 units

4 units in any course numbered Music 140-149, except MUSIC 140G, or MUSIC 251. Offerings in 2017-2018 include:

		Units
MUSIC 140J		4
MUSIC 141J		2-4
MUSIC 143J	Studies in Music of the Classical Period: Franz Joseph Haydn	4
MUSIC 144J	Studies in Music of the Romantic Period: Faust in 19th-century Music	4
MUSIC 145J	Studies in Western Art Music Since 1900: The Music & Ideas of Charles Ives	4
MUSIC 146J	Studies in Ethnomusicology: Listening to the Local: Music Ethnography of the Bay Area	4
MUSIC 147J	Studies in Music, Media, and Popular Culture: The Soul Tradition in African American Music	4
MUSIC 147K	Studies in Music, Media, and Popular Culture: Music and Urban Film	4
MUSIC 147L	Studies in Music, Media, and Popular Culture: Latin American Music and Globalization	4
MUSIC 148J	Studies in Perf Practice: Reactions to the Record: Early Recordings, Lost Styles, and Music's Future	4
MUSIC 251	Psychophysics and Music Cognition	4

## Required Courses: Music, Science and Technology

### 1. Theory

		Units
MUSIC 21	Elements of Music I	3
MUSIC 22	Elements of Music II	3
MUSIC 23	Elements of Music III	3
MUSIC 24A	Ear Training I	1
MUSIC 24B	Ear Training II	1
MUSIC 24C	Ear Training III	1
MUSIC 150	Musical Acoustics	3
MUSIC 220A	Fundamentals of Computer-Generated Sound	2-4

MUSIC 220B	Compositional Algorithms, Psychoacoustics, and Computational Music	2-4
------------	--	-----

### 2. Applied

		Units
MUSIC 192A	Foundations of Sound-Recording Technology	3
MUSIC 192B	Advanced Sound Recording Technology	3
MUSIC 192C	Session Recording (two quarters, 3 units total)	1-2

Alternatively, students pursuing the MST minor may elect to fulfill the applied music requirement with ensemble units and individual lessons as described in the Applied requirements for the General Music minor above.

### 3. WIM, 4 units

		Units
MUSIC 251	Psychophysics and Music Cognition	4

## Performance Certificate Program for Non Music Majors

As a locus of great academic and artistic depth and diversity, the Department of Music's performance programs have long engaged students who, even though they are not music majors, are serious and dedicated to furthering their skills in music performance. The Certificate in Music Performance program provides a select cohort of these students the opportunity for further recognition of their artistic achievement.

This program is open by audition to undergraduate students who already demonstrate a high degree of accomplishment in their area of music performance, study privately with one of the Department of Music's faculty, and who wish to bolster their performance studies with coursework that may be drawn from the Department of Music's other areas of academic focus: history, theory, computer music, and composition. The Certificate in Music Performance is issued by the Department of Music and will not appear on any University record, including the student's transcript.

### Admission

Students are admitted to the Certificate in Music Performance program based on an audition adjudicated by Department of Music faculty at the beginning of Winter Quarter. To request an audition, the student should speak with the private lesson instructor and the Department of Music's undergraduate student services officer. Email [ugmusicinquiries@lists.stanford.edu](mailto:ugmusicinquiries@lists.stanford.edu) for additional information. At the time of the audition, students must have already declared a major outside of music.

### Requirements

Once admitted into the program, students must complete a course plan to be approved by department faculty based on the requirements below.

#### 1. Performance

- A minimum of six quarters of individual lessons of private instruction and/or vocal performance (MUSIC 172/272-177/277). Any quarters of instruction taken prior to admission into the program may also count towards these requirements. Requirements for the minimum levels of proficiency in each instrument for private instruction are posted on the department's web site (<https://music.stanford.edu/ensembles-lessons/lessons>). All six quarters of lesson study must be in the same instrument area.
- A minimum of six quarters of ensemble experience in the Department of Music's ensembles and chamber groups. For students whose primary instrument area is guitar, keyboard or harp, at least one quarter of ensemble experience must be in one of the department's traditional large ensembles (MUSIC 159-167, MUSIC 184). The remaining ensemble requirements may be filled with chamber music

(MUSIC 171). Keyboard students may also take MUSIC 171 Chamber Music, MUSIC 171 Chamber Music, and MUSIC 171 Chamber Music to fulfill this requirement. All non-keyboard, guitar or harp students must successfully complete three quarters in the department's traditional large ensembles (MUSIC 159-167, MUSIC 184), and three quarters in conductor-less, small ensembles such as chamber music or jazz combos MUSIC 171 Chamber Music. MUSIC 156 "sic": Improvisation Collective may count for up to two of the ensemble unit requirements. Any quarters of ensemble taken prior to admission into the program may also count towards these requirements.

## 2. Music Theory

Students are required to complete one course in music theory (MUSIC 21 Elements of Music I, MUSIC 22 Elements of Music II, or MUSIC 23 Elements of Music III). For the purposes of the Performance Certificate, the student may elect to take these courses on a Credit/No Credit grading basis. However, students must also pass the associated piano proficiency exam ([http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/music/pianoprofexaminfo\\_0.pdf](http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/music/pianoprofexaminfo_0.pdf)) and take one course in ear training.

## 3. Elective Courses

Six or more total units in Music, dependent upon course plan document submitted following acceptance into the program.

## 4. Final Project

To complete the Performance Certificate, students must enroll in a 4-unit MUSIC 199 Independent Study or 4-unit MUSIC 198 Concentrations Project and complete a final, performance-based capstone project. Students must pass faculty adjudication, and, in addition, complete a writing project (essay or program notes) pre-approved by the lesson instructor. Students should refer to the Department of Music website's Recitals-at-a-Glance (<https://sites.stanford.edu/music-dept/venues-spaces/reserve/recitals>) page for reservation deadlines and calendar links.

# Master of Arts in Music

University requirements for the M.A. are described in the "Graduate Degrees (p. 50)" section of this bulletin.

None of Stanford's required undergraduate courses may be credited toward an advanced degree unless specifically required for both degrees. Graduate credit in Music that is recognized as fulfilling the advanced-degree requirements is awarded only in courses numbered 100 or higher taken for a letter grade, and only for work that receives a grade of 'A,' 'B,' or 'Satisfactory' (a passing grade in an instructor-mandated credit/no credit course). Courses numbered 100 or higher taken as electives in other departments may be taken for credit or letter grade. Students may need to devote more than the minimum time in residence if preparation for graduate study is inadequate.

## Admission

Applicants are required to submit evidence of accomplishment (scores, recordings, and/or research papers) when they complete the application form. Applicants should arrange to take the Graduate Record Examination (GRE) well in advance of the second Tuesday in December application deadline. All components of the application are due by the second Tuesday in December. International students whose first language is not English are also required to take the TOEFL exam (with certain exceptions: see the Office of Graduate Admissions (<http://studentaffairs.stanford.edu/gradadmissions>) web site).

## Degree Options

All of the following fields of study are declarable as subplans in Axess via the "Declaration or Change to a Field of Student" form; they appear on the transcript and the diploma:

- Master of Arts degree (M.A.) in Music—Composition subplan.
- Master of Arts degree (M.A.) in Music—Music History subplan.
- Master of Arts degree (M.A.) in Music—Computer-Based Music Theory and Acoustics subplan.
- Master of Arts degree (M.A.) in Music—Music, Science, and Technology subplan
  - Note: The M.A./M.S.T. program is the only terminal master's degree; it is two years in duration. It is available to current Stanford undergraduates as a coterminal MA, current Stanford graduates, and external applicants.

## Degree Requirements

A minimum of 45 academic units is required for the master's degree in Music. The Department of Music does not accept students for study only towards the M.A. degree except in the Music, Science, and Technology program, described below.

### 1. Composition

Students are not admitted into the M.A. as a terminal degree for composition: rather, students in the D.M.A. program in composition who enter directly from the bachelor's level may, upon completing 45 graduate-level units and advancing to candidacy by passing the qualifying examination, be recommended for the M.A. degree in composition.

### 2. Music History

Students are not admitted into the M.A. as a terminal degree for music history: rather, students in the Ph.D. program in musicology who enter directly from the bachelor's level may, upon completing 45 graduate-level units and advancing to candidacy by passing the qualifying examination, be recommended for the M.A. degree in music history.

### 3. Computer-Based Music Theory and Acoustics

Students are not admitted into the M.A. as a terminal degree for computer-based music theory and acoustics: rather, students in the Ph.D. program in computer-based music theory and acoustics who enter directly from the bachelor's level may, upon completing 45 graduate-level units and advancing to candidacy by passing the qualifying examination, be recommended for the M.A. degree in computer-based music theory and acoustics.

### 4. Music, Science, and Technology (M.S.T.)

The M.A. in Music, Science, and Technology is the department's only terminal master's degree. This is a two-year program of 45 graduate-level units focusing on the integration of music perception, music-related signal processing and controllers, synthesis, performance, and composition. The program is designed for students who have an undergraduate music, engineering, or science degree.

## University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken during or after the first quarter of the sophomore year are eligible for consideration for transfer to the graduate career; the timing of the first graduate quarter is not a factor.

No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

Required course work is listed below. A complete program with an individually-tailored list of electives will be formed in consultation with the student's adviser.

#### Required Courses

MUSIC 201	CCRMA Colloquium
MUSIC 220A	Fundamentals of Computer-Generated Sound
MUSIC 251	Psychophysics and Music Cognition
MUSIC 255	Intermedia Workshop
MUSIC 256A	Music, Computing, Design I: Art of Design for Computer Music
MUSIC 320A	Introduction to Audio Signal Processing Part I: Spectrum Analysis
MUSIC 320B	Introduction to Audio Signal Processing Part II: Digital Filters

#### Electives

The remaining units of graduate level work are determined in consultation with the student's adviser and include CCRMA electives, and may include courses taken outside the department.

## Doctor of Musical Arts (D.M.A.) and Doctor of Philosophy (Ph.D.) in Music

University requirements for the D.M.A. and Ph.D. are described in the "Graduate Degrees" section of this bulletin. The following statements apply to all the graduate degrees described below, unless otherwise indicated.

### Admission

Applicants are required to submit evidence of accomplishment (scores, recordings, and/or research papers, according to the proposed field of concentration) when they complete the application form. Applicants should arrange to take the Graduate Record Examination (GRE) well in advance of the application deadline of the second Tuesday in December. All components of the application are due by the second Tuesday in December. International students whose first language is not English are also required to take the TOEFL exam (with certain exceptions: see the Office of Graduate Admissions (<http://studentaffairs.stanford.edu/gradadmissions>) web site).

### Department Examinations

All entering doctoral graduate students are required to take:

1. a diagnostic examination testing the student in theory (counterpoint, harmony, and analysis), a proficiency examination in sight-singing; and,
2. for musicologists and composers only, a proficiency examination in piano sight-reading; and
3. for musicologists only, the history of Western art music.

These exams are given the week before classes begin in September each year. Teaching Assistant assignments and the funding associated with

this portion of a graduate student's financial aid package are determined based upon successful completion of these exams.

### Graduate Credit

None of Stanford's required undergraduate courses may be credited toward an advanced degree unless specifically required for both degrees. Only work that receives a grade of 'A,' 'B,' or 'S' (a passing grade in an instructor-mandated credit/no credit course) in music courses numbered 100 or higher taken as a graduate student is recognized as fulfilling the advanced-degree requirements. Students may need to devote more than the minimum time in residence if preparation for graduate study is inadequate.

The following may be taken as electives for graduate credit:

1. any course in another department numbered 100 or over (with adviser's consent)
2. any course in the Music department numbered 100 or over except those required for the B.A. degree. A letter grade of 'A,' 'B,' or 'S' (a passing grade in an instructor-mandated credit/no credit course) is required.
3. Music department group instruction (enroll in MUSIC 199 Independent Study after speaking with instructor):

		Units
MUSIC 72A	Intermediate Piano Class	1
MUSIC 72C	Harpsichord Class	1
MUSIC 72D	Jazz Piano Class	1
MUSIC 73	Intermediate Voice Class	1
MUSIC 74C	Classical Guitar Class	1
MUSIC 74D	Harp Class	1
MUSIC 75B	Renaissance Wind Instruments Class	1
MUSIC 76	Brass Instruments Class	1
MUSIC 77	Percussion Class	1

### Degree Options

All of the following fields of study are declarable as subplans in Axess via the "Declaration or Change to a Field of Study for Graduate Students" form; they appear on the transcript and the diploma:

- **Doctor of Musical Arts degree (D.M.A.) in Composition**

The D.M.A. is offered to a limited number of students who demonstrate substantial training in the field and high promise of attainment as composers. Students may work in acoustic and/or electronic forms. Breadth is given through studies in other branches of music and in relevant fields outside music, as desirable. The final project for this degree is a large-scale composition.

- **Doctor of Philosophy degree (Ph.D.) in Musicology**

- **Doctor of Philosophy degree (Ph.D.) in Computer-Based Music Theory and Acoustics**

The Ph.D. is offered in areas of the research of Stanford's graduate faculty: Musicology, and Computer-Based Music Theory and Acoustics (CBMTA) at the Center for Computer Research in Music and Acoustics (CCRMA). The department seeks students who demonstrate substantial scholarship, high promise of attainment, and the ability to do independent investigation and present the results of such research in a dissertation.

### Degree Requirements

#### Residence

The candidate must complete a minimum of 135 academic units (see Residency under the Graduate Degrees (p. 50) section of this bulletin). Doctoral candidates working on Ph.D. dissertations or Doctor of Musical Arts (D.M.A.) final projects that require consultation with faculty members continue enrollment in the University under Terminal Graduate

Registration (TGR), after they have reached the required 135 academic units and have completed their Special Area Examinations.

### Qualifying Examination

A written and oral examination given just prior to the fourth quarter of residence for D.M.A. students and Ph.D. students in the Computer-Based Music Theory and Acoustics programs; for Ph.D. students in Musicology, the exams are given just prior to the eighth quarter of residence. For D.M.A. students a *Special Area Examination* topic proposal is due at the time of the *Qualifying Examination*.

### Admission to Candidacy

Upon successful completion of the Qualifying Examination and 45 units of graduate level work, faculty consider the student's overall progress and academic achievement and determines if the student has the potential to successfully complete the requirements of the degree program. If a student's progress and potential are deemed sufficient to continue in the degree program, the student is directed to complete the Application for Candidacy for Doctoral Degree (<http://studentaffairs.stanford.edu/sites/default/files/registrar/files/appcanddoct.pdf>). Failure to advance to candidacy will result in the dismissal of the student from the program.

### Teaching

All students in the Ph.D. or D.M.A. degree programs, regardless of sources of financial support, are required to complete six quarters of supervised teaching (Teaching Assistantship) at half time. MUSIC 280 TA Training Course (offered in Spring Quarter and taken at the end of the first year) is a required course for Teaching Assistants. Additional quarters of teaching may be offered by the department.

## I. Composition

The Doctor of Musical Arts (D.M.A.) degree in Composition is given breadth through collateral studies in other branches of music and in relevant studies outside music as seems desirable. In addition to degree requirements required of all doctoral graduate students and listed above, students must complete the following required courses:

Required Courses		Units
MUSIC 280	TA Training Course	1
MUSIC 305C	Analysis and Repertoire: Late-Romantic to Contemporary	4
MUSIC 305D	Analysis from a Compositional Perspective	4
MUSIC 323	Doctoral Seminar in Composition (4 quarters within the first two years of study)	3-4
MUSIC 324	Graduate Composition Forum*	1
MUSIC 325	Individual Graduate Projects in Composition <sup>†</sup>	1-5
One elective course from the Ph.D. CBMTA curricula chosen from the following:		
MUSIC 220A	Fundamentals of Computer-Generated Sound	
MUSIC 251	Psychophysics and Music Cognition	
MUSIC 255	Intermedia Workshop	
MUSIC 256A	Music, Computing, Design I: Art of Design for Computer Music	
MUSIC 320A	Introduction to Audio Signal Processing Part I: Spectrum Analysis	
MUSIC 320B	Introduction to Audio Signal Processing Part II: Digital Filters	

\* The requirement is for all six quarters during years 1 & 2, and 6 quarters during years 3-5 with no three consecutive quarters unenrolled.

† Two or more quarters per year are required until advancement to candidacy; by the end of the second year the student shall have enrolled with a minimum of two different faculty members; but the end of the third year the student shall have enrolled with a minimum of three different faculty.

- Besides those requirements listed above, candidates are expected to produce a number of works demonstrating their ability to compose in a variety of forms and for the common media: vocal, instrumental, and electronic music. If possible, the works submitted are presented in public performance prepared by the composer. Annual progress is reviewed by the composition faculty with a major portfolio review conducted during the Fall Quarter of the third year.
- Foreign Language Requirement*—At the time of advancement to candidacy, all D.M.A. students are required to have demonstrated a reading knowledge of one language other than English and the ability to translate it into idiomatic English.
- Special-Area Examination*—A written examination in the candidate's field of concentration, one-hour presentation followed by questions in MUSIC 324 Graduate Composition Forum, sample course syllabus, and final project proposal are required to be completed during the Winter Quarter of the fourth year of study, no later than the ninth week of classes.
- Final Project Presentation*—Required during the last quarter of residence, no later than the ninth week of classes, the purpose of the presentation is to demonstrate the ability of the candidate to organize and present the topic of the final project for public review. It should be one hour in length, followed by questions, treating aspects of the final project. Details regarding the D.M.A. final project presentation may be found in the Department of Music Graduate Handbook.
- Final Project*—Candidate's work culminates in a required Final Project. The final project in composition must be a substantial composition, the scope of which shall be agreed upon by the members of the committee. Typically, work on the final project encompasses several quarters. Usually, smaller works, for specific performances, are composed at the same time.
- Reading Committee*—The membership of the reading committee is the principal final project adviser and a minimum of two additional members. The notice of appointment of a D.M.A. Final Project Reading Committee should be submitted to the department at the same time as the approved final project proposal and the completion of the Special Area Exam. It is the responsibility of the student, with the advice of his or her adviser, to approach appropriate faculty members and obtain their consent to serve on the reading committee. Download the D.M.A. reading committee form (<https://stanford.box.com/v/MusicDMARReadingCommitteeForm>); fill it out; obtain committee members' signatures; return to the graduate administrator.

## II. Musicology

In addition to degree requirements required of all doctoral graduate students and listed above, students must complete the following required courses:

Required Courses		Units
MUSIC 200A	Proseminar in Musicology and Music Bibliography (required of all entering students)	3-4
MUSIC 200B	Proseminar in Ethnomusicology	3-5
MUSIC 280	TA Training Course	1
MUSIC 300A	Medieval Notation	3-4
MUSIC 300B	Renaissance Notation	4
MUSIC 305A	Analysis and Repertoire: Medieval and Renaissance	4

MUSIC 305B	Analysis and Repertoire: Baroque to Early Romantic	4
MUSIC 305C	Analysis and Repertoire: Late-Romantic to Contemporary	4
MUSIC 310	Research Seminar in Musicology *	3-5
MUSIC 312A	Aesthetics and Criticism of Music, Ancients and Moderns: Plato to Nietzsche	4
MUSIC 312B	Aesthetics and Criticism of Music, Contemporaries: Heidegger to Today	4
MUSIC 330	Musicology Dissertation Colloquium †	1

One elective course from the D.M.A. Composition or Ph.D. CBMTA curricula chosen from the following (or other, by instructor and advisor consent):

MUSIC 220A	Fundamentals of Computer-Generated Sound	
MUSIC 251	Psychophysics and Music Cognition	
MUSIC 253	Symbolic Musical Information	
MUSIC 254	Music Query, Analysis, and Style Simulation	
MUSIC 323	Doctoral Seminar in Composition	
MUSIC 324	Graduate Composition Forum	

\* The requirement is for eight seminars of 3-5 units each. Up to two graduate seminars in other departments may be counted toward this requirement, pending adviser's approval.

† The requirement is for enrollment each quarter offered beginning in year four and continuing to graduation.

1. **Foreign Language Requirement**—At the time of advancement to candidacy, all Ph.D. students in Musicology must have passed a Ph.D. Language examination in German and in a second language, chosen from French, Italian, or Latin (or, on a case-by-case basis, another language, if it has significant bearing on the candidate's field of study). If one of these languages is the student's native language, the student may be exempted from an examination.
2. **Special-Area Examination**—A written and oral examination testing the student's knowledge of music and research in the student's field of concentration is completed during the fourth year of study, no later than the last day of classes in Autumn Quarter of that year. This includes an oral defense of the dissertation proposal. The examining committee comprises prospective readers of the dissertation.
3. **University Oral Examination**—Taken once the dissertation is substantially under way; an oral presentation is a defense of dissertation research methods and results.
4. **Dissertation**—After the first two years of graduate study, the student concentrates on research and writing of the dissertation. The dissertation demonstrates the student's ability to work systematically and independently to produce an essay of competent scholarship.
5. **Reading Committee**—The minimum membership of the reading committee is 1) the principal dissertation adviser, 2) a second member from the department, and 3) a third member from the major department or another department. A non-Academic Council member (including former Academic Council members) may replace only one of the three required members of dissertation reading committees. If the reading committee has four or five members, at least three members (comprising the majority) must be current or emeritus members of the Academic Council. See the GAP for additional information: <http://gap.stanford.edu/4-8.html>. The notice of appointment of a Reading Committee should be submitted to the department at the same time as the approved dissertation proposal and the completion of the Special-Area Exam. It is the responsibility of the student, with the advice of his or her adviser, to approach appropriate faculty members and obtain their consent to serve on the reading committee.

### III. Computer-Based Music Theory and Acoustics

In addition to degree requirements required of all doctoral graduate students and listed above, students must complete the following required courses:

#### Required Courses

MUSIC 220A	Fundamentals of Computer-Generated Sound <sup>1</sup>	4
MUSIC 220B	Compositional Algorithms, Psychoacoustics, and Computational Music <sup>1</sup>	4
MUSIC 220C	Research Seminar in Computer-Generated Music <sup>1</sup>	2-4
MUSIC 220D	Research in Computer-Generated Music <sup>2</sup>	1-10
MUSIC 251	Psychophysics and Music Cognition	1-5
MUSIC 280	TA Training Course	1
MUSIC 305C	Analysis and Repertoire: Late-Romantic to Contemporary	4
MUSIC 305D	Analysis from a Compositional Perspective <sup>3</sup>	4
MUSIC 320A	Introduction to Audio Signal Processing Part I: Spectrum Analysis	3-4
MUSIC 320B	Introduction to Audio Signal Processing Part II: Digital Filters	3-4

<sup>1</sup> Recommend taking in first year

<sup>2</sup> The requirement is for 12 units.

<sup>3</sup> Must take in first year

1. **Foreign Language Requirement**—At the time of advancement to candidacy, all Ph.D. students in computer-based music theory and acoustics are required to have demonstrated a reading knowledge of one language other than English and the ability to translate it into idiomatic English.
2. **Special-Area Examination**—A written and oral examination testing the student's knowledge of music and research in the student's field of concentration is completed during the fourth year of study, no later than the last day of classes in Autumn Quarter of that year. This includes an oral defense of the dissertation proposal. The examining committee comprises prospective readers of the dissertation.
3. **University Oral Examination**—Taken once the dissertation is substantially under way; an oral presentation is a defense of dissertation research methods and results.
4. **Dissertation**—After the first two years of graduate study, the student concentrates on research and writing of the dissertation. The dissertation demonstrates the student's ability to work systematically and independently to produce an essay of competent scholarship.
5. **Reading Committee**—The minimum membership of the reading committee is 1) the principal dissertation adviser, 2) a second member from the department, and 3) a third member from the major department or another department. If a third member is from another institution, a fourth member must be appointed from the department. The principal dissertation adviser and all other members of the committee must belong to the Academic Council. The notice of appointment of a Reading Committee should be submitted to the department at the same time as the approved dissertation proposal and the completion of the Special-Area Exam. It is the responsibility of the student, with the advice of his or her adviser, to approach appropriate faculty members and obtain their consent to serve on the reading committee.

*Emeriti: (Professors)* John M. Chowning, Albert Cohen, William H. Ramsey; *(Professors, Performance)* Arthur P. Barnes, Marie Gibson

*Chair:* Jaroslaw Kapuscinski

*Professors:* Mark Applebaum, Jonathan Berger, Karol Berger, Chris Chafe, Brian Ferneyhough, Thomas Grey, Stephen Hinton, Julius O. Smith

*Associate Professors:* Heather Hadlock, Jaroslaw Kapuscinski, William P. Mahrt, Jesse Rodin (on leave), Anna Schultz, Ge Wang

*Assistant Professors:* Takako Fujioka (on leave Spring), Charles Kronengold (on leave Autumn)

*Professors (Teaching):* George Barth (Piano), Stephen M. Sano (Director of Choral Studies)

*Associate Professor (Teaching):* Paul Phillips (Director of Orchestral Studies)

*Courtesy Professors:* Paul DeMarinis, Doug L. James

*Senior Lecturers:* Giancarlo Aquilanti (Director of Theory; Wind Ensemble), Talya Berger (Theory), Stephen Harrison (Cello), François Rose (Theory and Composition), Thomas Schultz (Piano), Gregory A. Wait (Voice; Director of Vocal Studies), Frederick R. Weldy (Piano; on leave Autumn)

*Lecturers:* Akwasi Papa Abrefah (Steelpan), Kumaran Arul (Piano), Erika Arulanantham (Theory), Mark Brandenburg (Clarinet), Marie-Louise Catsalis (Voice), Marjorie Chauvel (Harp), Tony Clements (Tuba), Laura Dahl (Resident Collaborative Pianist), Anthony Doheny (Violin), John Dornenburg (Viola da Gamba), Greer Ellison (Flute, Baroque Flute), Charles A. Ferguson (Guitar), Debra Fong (Violin), Michael Galisatus (Jazz Ensemble), Claire Giovannetti (Voice), Dawn Harms (Violin, Viola), Alexandra Hawley (Flute), David Henderson (Classical Saxophone), Wendy Hillhouse (Voice), Melody Holmes-Vedder (Flute), Kathryn Jennings (Voice), Nova Jiménez (Voice), McDowell Kenley (Trombone), Jay LeBeouf (CCRMA), Joo-Mee Lee (Violin), Mary Linduska (Voice, Summer), Murray Low (Jazz & Jazz Piano), Adam Luftman (Trumpet), Loren Mach (Percussion), Anthony Martin (Baroque Violin), Robin May (Oboe), Charles McCarthy (Jazz Saxophone), Robert Huw Morgan (University Organist, Organ), Bruce Moyer (Contrabass), Herbert Myers (Early Winds), James Nadel (Jazz), Bryan Nies (Musical Theater), (Rufus Olivier (Bassoon), Lawrence Ragent (French Horn), David Rokeach (Drum Set), Kelly Savage (Theory), Robin Sharp (Violin), Livia Sohn (Violin), Elaine Thornburgh (Harpichord), Erik Ulman (Composition, Theory), Linda Uyechi (Taiko), Rick Vandivier (Jazz Guitar), John Worley (Jazz Trumpet), Hui (Daisy) You (Gu-Zheng), Timothy Zerlang (University Carillonneur, Piano)

*Adjunct Professors:* Jonathan Abel (CCRMA), David Berners (CCRMA), Marina Bosi (CCRMA), Poppy Crum (CCRMA), Pierre Divenyi (CCRMA), Walter Hewlett (Computer-Assisted Research in the Humanities), Gautham Mysore (CCRMA), Thomas Rossing (CCRMA), Craig Sapp (Computer-Assisted Research in the Humanities), Eleanor Selfridge-Field (Computer-Assisted Research in the Humanities), Malcolm Slaney (CCRMA)

*Artists-in-Residence (St. Lawrence String Quartet):* Geoff Nuttall (Violin), Owen Dalby (Violin), Lesley Robertson (Viola), Christopher Costanza (Cello)

# PHILOSOPHY

Courses offered by the Department of Philosophy are listed under the subject code PHIL on the Stanford Bulletin's ExploreCourses web site.

Philosophy concerns itself with fundamental problems. Some are abstract and deal with the nature of truth, justice, value, and knowledge; others are more concrete, and their study may help guide conduct or enhance understanding of other subjects. Philosophy also examines the efforts of past thinkers to understand the world and people's experience of it.

Although it may appear to be an assortment of different disciplines, there are features common to all philosophical inquiry. These include an emphasis on methods of reasoning and the way in which judgments are formed, on criticizing and organizing beliefs, and on the nature and role of fundamental concepts.

Students of almost any discipline can find something in philosophy which is relevant to their own specialties. In the sciences, it provides a framework within which the foundations and scope of a scientific theory can be studied, and it may even suggest directions for future development. Since philosophical ideas have had an important influence on human endeavors of all kinds, including artistic, political, and economic, students of the humanities and social sciences should find their understanding deepened by acquaintance with philosophy.

## Mission of the Undergraduate Program in Philosophy

The mission of the undergraduate program in Philosophy is to train students to think clearly and critically about the deepest and broadest questions concerning being, knowledge, and value, as well as their connections to the full range of human activities and interests. The Philosophy major presents students with paradigms and perspectives of past thinkers and introduces students to a variety of methods of reasoning and judgment formation. Courses in the major equip students with core skills involved in critical reading, analytical thinking, sound argumentation, and the clear, well-organized expression of ideas. Philosophy is an excellent major for those planning a career in law, medicine, business, or the non-profit sector. It provides analytical skills and a breadth of perspective helpful to those called upon to make decisions about their own conduct and the welfare of others. Philosophy majors who have carefully planned their undergraduate program have an excellent record of admission to professional and graduate schools.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. the ability to communicate philosophical ideas effectively orally and in writing.
2. close reading, argument evaluation, and analytical writing.
3. dialectical ability to identify strengths and weaknesses of an argument and devise appropriate and telling responses.
4. the ability to think critically and demonstrate clarity of conceptualization.
5. the ability to differentiate good from unpromising philosophical questions.
6. the ability to sustain an argument of substantial scope, showing control over logical, argumentative, and evidential relations among its parts.

## Special and Joint Majors

The Special Program in the History and Philosophy of Science enables students to combine interests in science, history, and philosophy. Students interested in this program should see the special adviser.

The Special Option in Philosophy and Literary Thought enables students to combine interests in philosophy and literary studies. Interested students should see the Director of Undergraduate Studies for Philosophy and Literature.

The combined major in Philosophy and Religious Studies joins courses from both departments into a coherent theoretical pattern.

The joint major in Philosophy and Computer Science provides opportunities for the systematic study of computation together with philosophy in the broadest sense.

## Graduate Program in Philosophy

The Department of Philosophy offers an M.A. and a Ph.D. degree. The University's basic requirements for the M.A. and Ph.D. degrees are discussed in the "Graduate Degrees (<http://www.stanford.edu/dept/registrar/bulletin/4901.htm>)" section of this bulletin.

## Learning Outcomes (Graduate)

The purpose of the master's program is to develop knowledge and skills in Philosophy and to prepare students for a professional career or doctoral studies. This is achieved through completion of core courses, with an option for further specialization. (See below for details.)

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in Philosophy. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of Philosophy and to interpret and present the results of such research.

## Library and Associations

The Tanner Memorial Library of Philosophy contains an excellent working library and ideal conditions for study. Graduate students and undergraduate majors in philosophy have formed associations for discussion of philosophical issues and the reading of papers by students, faculty, and visitors.

## Bachelor of Arts in Philosophy

There are three ways of majoring in Philosophy:

- The General Program
- The Special Program in the History and Philosophy of Science
- The Special Option in Philosophy and Literature.

A student completing any of these receives a B.A. degree in Philosophy. There is also a major program offered in Philosophy and Religious Studies. To declare a major, a student should consult with the Director of Undergraduate Study and see the undergraduate student services administrator to be assigned an adviser and work out a coherent plan. The department recommends proficiency in at least one foreign language.

## General Program

1. Course requirements, minimum 55 units:
  - a. preparation for the major: an introductory course (under 100) and PHIL 80 Mind, Matter, and Meaning. (PHIL 80 should normally be taken no later than the first quarter after declaring the major.) Students taking a Philosophy Thinking Matters course may count 4 units toward the introductory Philosophy requirement.

Students who took the Winter/Spring Philosophy Introduction to the Humanities (IHUM) track may count 5 units toward the Introductory Philosophy requirement. (IHUM courses are no longer offered).

- b. the core: 24 additional Philosophy units as follows:
- i Logic: Select one of the following. More advanced logic courses may also be counted for this requirement by petition.

Select one of the following:

PHIL 49	Survey of Formal Methods	4
PHIL 150	Mathematical Logic	4
PHIL 151	Metalogic	4
PHIL 154	Modal Logic	4

- ii Philosophy of science: This requirement may be satisfied by PHIL 60, PHIL 61, or an intermediate philosophy of science course numbered between PHIL 160 - 169.

- iii Moral and political philosophy: This requirement may be satisfied by PHIL 2 or any intermediate course devoted to central topics in moral and political philosophy numbered between PHIL 170 - 172 or 174-176.

- iv Contemporary theoretical philosophy: This requirement may be satisfied by any intermediate course numbered between PHIL 180 - 189.

- v History of philosophy:

Select both of the following

PHIL 100	Greek Philosophy	4
PHIL 102	Modern Philosophy, Descartes to Kant	4

- c. one undergraduate philosophy seminar from the PHIL 194 series.
- d. electives: courses numbered 10 or above, at least 9 units of which must be in courses numbered above 99.

- Units for Tutorial, Directed Reading (PHIL 196 Tutorial, Senior Year, PHIL 197 Individual Work, Undergraduate, PHIL 198 The Dualist Undergraduate Journal), The Dualist (PHIL 198 The Dualist Undergraduate Journal), Honors Seminar (PHIL 199 Seminar for Prospective Honors Students), or affiliated courses may not be counted in the 55-unit requirement. No more than 10 units completed with grades of 'satisfactory' and/or 'credit' may be counted in the 55-unit requirement. Any courses taken for a letter grade in fulfillment of the core requirements listed under 1.b. must be taken for a minimum of 3 units and completed with a grade of 'C-' or higher.
- A maximum of 10 transfer units or two courses can be used for the departmental major. In general, transfer courses cannot be used to satisfy the six area requirements or the undergraduate seminar requirement. Students may not substitute transfer units for the PHIL 80 requirement.

## Special Program in History and Philosophy of Science

Undergraduates may major in Philosophy with a field of study in History and Philosophy of Science. This field of study is declared on Axess and is printed on the transcript. Each participating student is assigned an adviser who approves the course of study. A total of 61 units are required for the sub-major, to be taken according to requirements 1 through 5 below. Substitutions for the listed courses are allowed only by written consent of the undergraduate adviser for History and Philosophy of Science. Students are encouraged to consider doing honors work with an emphasis on the history and philosophy of science. Interested students should see the description of the honors thesis in Philosophy and consult their advisers for further information.

- Three science courses (for example, biology, chemistry, physics) for 12 units.
- The following Philosophy (PHIL) core courses must be completed with a letter grade by the end of the junior year:

a.	Select one of the following:	3
	PHIL 49 Survey of Formal Methods	4
	PHIL 150 Mathematical Logic	4
	PHIL 151 Metalogic	4
	PHIL 154 Modal Logic	4

- b. either PHIL 60 Introduction to Philosophy of Science or PHIL 61 Philosophy and the Scientific Revolution.
  - c. PHIL 80 Mind, Matter, and Meaning.
- Three history of science courses.
  - Three philosophy of science courses, of which one must be PHIL 164 Central Topics in the Philosophy of Science: Theory and Evidence.
  - Three additional courses related to the major, in philosophy or history, to be agreed on by the adviser.
  - At least six courses in the major must be completed at Stanford with a letter grade. Units for Tutorial, Directed Reading, or The Dualist (PHIL 196 Tutorial, Senior Year, PHIL 197 Individual Work, Undergraduate, PHIL 198 The Dualist Undergraduate Journal) may not be counted in the 61-unit requirement. No more than 10 units completed with grades of 'satisfactory' and/or 'credit' may be counted in the 61-unit requirement. Courses taken in fulfillment of the philosophy requirements under 2. must be taken for a minimum of 3 units and completed with a grade of 'C-' or higher.
  - Transfer units must be approved in writing by the Director of Undergraduate Study at the time of declaring a major. Transfer courses are strictly limited when used to satisfy major requirements.

## Special Option in Philosophy and Literature

Undergraduates may major in Philosophy through a special track in Philosophy and Literature. This field of study is declared on Axess and is printed on the transcript. Students should also meet with the DUS of Philosophy and the DUS of the Philosophy and Literature initiative to receive advising about course planning. The special track requires at least 65 units, and it consists of three main parts: a) core requirements in Philosophy (requirements 1, 4, and 6 below), b) a dedicated program of study in a single national literature, approved by the DUS for Philosophy and Literature (requirement 3 below), and c) a group of courses exploring the interdisciplinary connections between philosophy and literature (requirements 2, 5, and 7 below). Students are encouraged to do honors work with an emphasis on philosophy and literature through the Philosophy honors program. (See the description of the honors thesis in Philosophy and consult advisers for further information.)

### Requirements:

- Core requirements for the major in Philosophy, including:
  - a. an introductory course
  - b. PHIL 80 Mind, Matter, and Meaning
  - c. the core distribution requirements listed in section 1b of the general program above.
- All courses taken for a letter grade in fulfillment of the philosophy core requirements (under 1., above) must be taken for a minimum of 3 units and completed with a grade of 'C-' or higher.
- Gateway course in philosophy and literature (PHIL 81 Philosophy and Literature). This course should be taken as early as possible in the student's career, normally in the sophomore year.
- Three courses in a single national literature, chosen by the student in consultation with the adviser and the program director of

undergraduate studies. This normally involves meeting the language proficiency requirements of the relevant literature department.

5. Electives within Philosophy beyond the core requirements totaling at least 5 units, and drawn from courses numbered 100 or higher.
6. Two upper division courses of special relevance to the study of philosophy and literature, as identified by the committee in charge of the program. A list of approved courses is available from the program director of undergraduate studies, and is published on the web at <http://philit/programs/relevance.html>
7. Capstone seminar in the PHIL 194 series.
8. Capstone seminar of relevance to the study of philosophy and literature, as approved by the program committee. In some cases, with approval of the Philosophy Director of Undergraduate Study and the Philosophy and Literature Director of Undergraduate Studies, the same course may be used to meet requirements 6 and 7 simultaneously.

The following rules also apply to the special option:

1. Units for Honors Tutorial, Directed Reading (PHIL 196 Tutorial, Senior Year, PHIL 197 Individual Work, Undergraduate, PHIL 198 The Dualist), The Dualist (PHIL 198 The Dualist), Honors Seminar (PHIL 199 Seminar for Prospective Honors Students) may not be counted toward the 65-unit requirement. No more than 10 units with a grade of 'satisfactory' or 'credit' may be counted toward the unit requirement.
2. A maximum of 15 transfer units may be counted toward the major, at most 10 of which may substitute for courses within Philosophy. Transfer credits may not substitute for PHIL 80 or PHIL 81, and are approved as substitutes for the five area requirements or PHIL 194 only in exceptional cases.
3. Courses offered in other departments may be counted toward requirements 3, 5 and 7, but such courses, including affiliated courses, do not generally count toward the other requirements. In particular, such courses may not satisfy requirement 4.
4. Units devoted to meeting the language requirement are not counted toward the 65-unit requirement.

## Honors Program

Students who wish to undertake a more intensive and extensive program of study, including seminars and independent work, are invited to apply for the honors program during Winter Quarter of the junior year. Admission is selective on the basis of demonstrated ability in Philosophy, including an average grade of at least 'A' in a substantial number of Philosophy courses and progress towards satisfying the requirements of the major.

With their application, candidates should submit an intended plan of study for the remainder of the junior and the senior years. It should include at least 5 units of Senior Tutorial (PHIL 196 Tutorial, Senior Year) during Autumn and/or Winter quarter(s) of the senior year. Students who are applying to Honors College may use the same application for philosophy honors. In the quarter preceding the tutorial, students should submit an essay proposal to the Philosophy undergraduate director and determine an adviser.

Students applying for honors should enroll in Junior Honors Seminar (PHIL 199 Seminar for Prospective Honors Students) during the Spring Quarter of the junior year.

The length of the honors essay may vary considerably depending on the problem and the approach; usually it falls somewhere between 7,500 and 12,500 words. This essay may use work in previous seminars and courses as a starting point, but it cannot be the same essay that has been used, or is being used, in some other class or seminar. It must be

a substantially new and different piece of work reflecting work in the tutorials.

A completed draft of the essay is submitted to the adviser at the end of the Winter Quarter of the senior year. Any further revisions must be finished by the fifth full week of the Spring Quarter, when three copies of the essay are to be given to the undergraduate secretary. The honors essay is graded by the adviser together with a second reader, chosen by the adviser in consultation with the student. The student also provides an oral defense of the thesis at a meeting with the adviser and second reader. The essay must receive a grade of 'A-' or better for the student to receive honors.

Honors tutorials represent units in addition to the 55-unit requirement.

For further information, contact the Honors' Director.

## Philosophy and Religious Studies Combined Major

The undergraduate major in Philosophy and Religious Studies consists of 60 units of course work with approximately one third each in the philosophy core, the religious studies core, and either the general major or the special concentration. Affiliated courses cannot be used to satisfy this requirement.

No courses in either the philosophy or religious studies core may be taken satisfactory/no credit or credit/no credit.

In general, transfer units cannot be used to satisfy the core requirements. Transfer units and substitutions must be approved by the director of undergraduate studies in the appropriate department.

### Core Requirements

1. Philosophy (PHIL) courses:
  - a. Required course: PHIL 80 Mind, Matter, and Meaning
  - b. 16 units, including at least one Philosophy course from each of the following areas:
    - i Logic and philosophy of science: Students take either one from this list or an intermediate philosophy of science course numbered PHIL 160-169.
  - ii Ethics and value theory: This requirement may be satisfied by PHIL 2 or any intermediate course devoted to central topics in moral and political philosophy numbered between PHIL 170 – 172 or 174-176.
  - iii Contemporary theoretical philosophy: Take either PHIL 1 Introduction to Philosophy or an intermediate course numbered PHIL 180-189.
  - iv History of philosophy: Select one of

PHIL 49	Survey of Formal Methods	4
PHIL 60	Introduction to Philosophy of Science	5
PHIL 61	Philosophy and the Scientific Revolution	5
PHIL 150	Mathematical Logic	4
PHIL 151	Metalogic	4
PHIL 154	Modal Logic	4

PHIL 100	Greek Philosophy	4
PHIL 101	Introduction to Medieval Philosophy	4
PHIL 102	Modern Philosophy, Descartes to Kant	4
PHIL 103	19th-Century Philosophy	4

- c. All philosophy courses taken for a grade in fulfillment of requirements under 1.a. and 1.b. must be taken for a minimum of 3 units and completed with a grade of 'C-' or higher.
2. Religious Studies (RELIGST) courses: 20 units, chosen in consultation with the student's adviser, including:
    - a. RELIGST 290 Majors Seminar (5 units; Winter Quarter; recommended junior year; fulfills WIM requirement)
    - b. at least one course in philosophy of religion, broadly construed, chosen in consultation with, and approved by, the Religious Studies Director of Undergraduate Studies.
    - c. diversity requirement: Students may not take all their religion courses in one religious tradition.

## General Major Requirements

Five additional courses (approximately 20 units) divided between the two departments. No more than 5 of these units may come from courses numbered under 99 in either department. Each student must also take at least one undergraduate seminar in religious studies and one undergraduate seminar in philosophy.

## Special Concentration

With the aid of an adviser, students pursue a specialized form of inquiry in which the combined departments have strength; for example, American philosophy and religious thought, philosophical and religious theories of human nature and action, philosophy of religion. Courses for this concentration must be approved in writing by the adviser.

## Directed Reading and Satisfactory/No Credit Units

Units of directed reading for fulfilling requirements of the combined major are allowed only with special permission. No more than 10 units of work with a grade of 'satisfactory' count toward the combined major.

## Honors Program

Students pursuing a major in Philosophy and Religious Studies may also apply for honors by following the procedure for honors in either of the departments.

## Joint Major Program in Philosophy and Computer Science

The joint major program (JMP), authorized by the Academic Senate for a pilot period of six years beginning in 2014-15, permits students to major in both Computer Science and one of ten Humanities majors. See the "Joint Major Program (p. 31)" section of this bulletin for a description of University requirements for the JMP. See also the Undergraduate Advising and Research JMP web site and its associated FAQs.

Students completing the JMP receive a B.A.S. (Bachelor of Arts and Science).

Because the JMP is new and experimental, changes to procedures may occur; students are advised to check the relevant section of the bulletin periodically.

The joint major in Philosophy and Computer Science provides opportunities for the systematic study of computation together with philosophy in the broadest sense.

The joint major is appropriate for three distinct groups of students:

1. students with separate interests in the two fields who wish to begin thinking about their interaction (or else applications of one set to the other);
2. students interested in exploring philosophical issues in, and foundations of, computing;

3. students who would like to pursue philosophical investigations using computational methods.

## Philosophy Major Requirements in the Joint Major Program

See the "Computer Science Joint Major Program (p. 278)" section of this bulletin for details on Computer Science requirements.

Students in the joint major are required to complete the same introductory and core requirements as other Philosophy majors, with the exception of a more demanding logic requirement. In addition, joint majors must complete a senior capstone seminar in Philosophy (PHIL 194), and are normally expected to complete (separately from PHIL 194) an integrative senior capstone project, developed with faculty adviser(s) in CS and/or Philosophy, and approved in writing by the joint major's faculty adviser in Philosophy. Students may register for 5-10 units Individual Work, Undergraduate (PHIL 197) in association with the integrative capstone. These units may be taken across one or two quarters, and must be taken for a letter grade. Such projects must integrate the student's CS and philosophical learning.

In recognition of the student's work in the CS side of the joint major, the normal elective units required for Philosophy majors are reduced by 5 units for joint majors. Thus, the joint major requires 50 units within Philosophy.

Because logic is a core area of intersection between Philosophy and CS, students are in the best position to leverage the intersection of their work in the two fields if they develop a strong background in logical methods, and have a clear understanding of the way those formal methods are or can be used within Philosophy. Joint majors are therefore required to complete training in logic at least through successful completion of PHIL 150.

Thus, the Philosophy requirements of the joint major are:

1. An Introductory course (numbered under 100)
2. PHIL 80 (writing in the major)
3. Core requirements in philosophy
  - a. One course in logic (PHIL 150 or higher);
  - b. One course in philosophy of science;
  - c. One course in moral or political philosophy (normally PHIL 2 or PHIL 170s)
  - d. One course in contemporary theoretical philosophy (PHIL 180s)
  - e. Two courses in the history of philosophy, namely
    - i PHIL 100 (ancient philosophy)
    - ii PHIL 102 (modern philosophy)
4. Capstone seminar within philosophy (PHIL 194s)
5. Expected integrative independent capstone project
6. Electives sufficient to bring the student's overall program up to a minimum total of 50 units in Philosophy.

Units for Independent Work, Directed Reading, the Dualist, and Honors Seminar (PHIL 196, 197, 198, 199) do not count toward the overall requirement of 50 units within Philosophy. No more than 10 units of courses completed with grades of 'Satisfactory' or 'Credit' may be counted toward the 50-unit requirement. Units taken for a letter grade in fulfillment of the core requirements listed under 3. must be completed with a grade of 'C-' or higher.

Students in the joint major should register their major declaration not only with the Director of Undergraduate Study (DUS) of Philosophy but also with the joint major's faculty adviser in Philosophy. In consultation with the faculty adviser (ideally beginning in the sophomore year), each joint major should work out an individualized program of courses to

develop her/his philosophical interests and to explore the connections between them and her/his interests in computation. Each student should meet with the faculty adviser quarterly for a program update, during which there is discussion of opportunities for integrating the ongoing work in Philosophy and CS through course work, employment, projects, or other extracurricular activities. The faculty adviser assists students to develop coherent programs of study leading toward integrative senior experiences. If the normal expectation of a senior project turns out not to be suitable in individual cases, the student must obtain approval in writing from the faculty adviser of the substitute integrative activities and the faculty advisor of the joint major.

## Learning Objectives

Because the joint major seeks to develop deep disciplinary knowledge within Philosophy, the learning objectives of the general philosophy major also apply in the case of the joint major. In this aspect, students are expected to demonstrate:

1. the ability to communicate philosophical ideas effectively orally and in writing.
2. close reading, argument evaluation, and analytical writing.
3. dialectical ability to identify strengths and weaknesses of an argument and devise appropriate and telling responses.
4. the ability to think critically and demonstrate clarity of conceptualization.
5. the ability to differentiate good from unpromising philosophical questions.
6. the ability to sustain an argument of substantial scope, showing control over logical, argumentative, and evidential relations among its parts.

In addition, the joint major has the ambition to develop key knowledge and capacities that are relevant to the intersection of Philosophy and CS. In this domain, students in the joint major are expected to:

1. develop problem solving skills suitable to their work in the Computer Science side of the major, in accordance with learning goals specified for the joint major by Computer Science.
2. develop mastery of logical and formal methods adequate to support their work at the intersection of computing and philosophy.
3. demonstrate a deep understanding of at least one particular area of intersection between the two fields, or of how methods and ideas from one of the disciplines can inform or be applied to the other.

## Declaring a Joint Major Program

To declare the joint major, students must first declare each major through Axxess, and then submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) The Major-Minor and Multiple Major Course Approval Form (<https://stanford.box.com/MajMin-MultMaj>) is required for graduation for students with a joint major.

## Dropping a Joint Major Program

To drop the joint major, students must submit the Declaration or Change of Undergraduate Major, Minor, Honors, or Degree Program. (<https://stanford.box.com/change-UG-program>) . Students may also consult the Student Services Center (<http://studentservicescenter.stanford.edu>) with questions concerning dropping the joint major.

## Transcript and Diploma

Students completing a joint major graduate with a B.A.S. degree. The two majors are identified on one diploma separated by a hyphen. There will be a notation indicating that the student has completed a "Joint Major". The two majors are identified on the transcript with a notation indicating that the student has completed a "Joint Major".

## Minor in Philosophy

A minor in Philosophy consists of at least 30 units of Philosophy courses satisfying the following conditions:

1. Students taking a Philosophy Thinking Matters course may count it as equivalent to a maximum of 4 units of Philosophy courses under 100. Students who took the Winter/Spring Philosophy Introduction to the Humanities (IHUM) track may count these courses as equivalent to a maximum of 5 units of Philosophy courses under 100. (IHUM courses are no longer offered).
2. The 30 units must include one of:
  - a. a history of philosophy course numbered 100 or above
  - b. one quarter of Philosophy Thinking Matters (THINK)
  - c. two quarters of IHUM (only 5 of the 10 units can count towards 30-unit requirement). IHUM courses are no longer offered.
3. Minors must take one course from any two of the following three areas (PHIL):
  - a. Philosophy of Science and Logic: For philosophy of science, either PHIL 60, PHIL 61, or an intermediate philosophy of science courses numbered between PHIL 160 - 169; or else, for logic, one of:
 

PHIL 49	Survey of Formal Methods	4
PHIL 150	Mathematical Logic	4
PHIL 151	Metalogic	4
PHIL 154	Modal Logic	4
  - b. Logic
  - c. Moral and political philosophy: This requirement may be satisfied by PHIL 2 or any intermediate course devoted to central topics in moral and political philosophy numbered between PHIL 170 - 172, or 174-176.
  - d. Contemporary theoretical philosophy: This requirement may be satisfied by most intermediate courses numbered between PHIL 180 - 189.
4. At least 10 units must be from courses numbered 100 or above.
5. Transfer units must be approved in writing by the Director of Undergraduate Study at the time of declaring. The number of transfer units is generally limited to a maximum of 10.
6. No more than 6 units completed with grades of 'satisfactory' or 'credit' count towards the 30-unit requirement.
7. Any courses taken for a letter grade in fulfillment of the 30-unit requirement must be taken for a minimum of 3 units and completed with a grade of 'C-' or higher.
8. Units for tutorials, directed reading, and affiliated courses may not be counted.

Students must declare their intention to minor in Philosophy in a meeting with the Director of Undergraduate Study. This formal declaration must be made no later than the last day of the quarter two quarters before degree conferral. The Permission to Declare a Philosophy Minor (signed by the Director of Undergraduate Study) lists courses taken and to be taken to fulfill minor requirements. This permission is on file in the department office. Before graduation, a student's record is checked to see that requirements have been fulfilled, and the results are reported to the University Registrar.

## Master of Arts in Philosophy

University requirements for the M.A. are discussed in the "Graduate Degrees (p. 50)" section of this bulletin.

Three programs lead to the M.A. in Philosophy. One is a general program providing a grounding in all branches of the subject. The others provide special training in one branch.

## Coterminal Bachelor's and Master's Degrees in Philosophy

It is possible to earn an M.A. in Philosophy while earning a B.A. or B.S. This can usually be done by the end of the fifth undergraduate year, although a student whose degree is not in Philosophy may require an additional year. Standards for admission to, and completion of, this program are the same as for M.A. applicants who already have the bachelor's degree when matriculating. Applicants for the coterminal program are not, however, required to take the Graduate Record Exam.

University requirements for the coterminal M.A. are described in the "Coterminal Bachelor's and Master's Degrees (p. 46)" section of this bulletin. See also the Registrar's Coterminal Degree Programs (<https://registrar.stanford.edu/students/coterminal-degree-programs>) web site.

### University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken during or after the first quarter of the sophomore year are eligible for consideration for transfer to the graduate career; the timing of the first graduate quarter is not a factor. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

### Admissions

All prospective master's students, including those currently enrolled in other Stanford programs, must apply for admission to the program. No fellowships are available. Entering students must meet with the director of the master's program and have their advisor's approval, in writing, of program proposals. The master's program should not be considered a stepping stone to the doctoral program; these two programs are separate and distinct.

### Unit Requirements

Each program requires a minimum of 45 units in philosophy. Students in a special program may be allowed or required to replace up to 9 units of philosophy by 9 units in the field of specialization. Although the requirements for the M.A. are designed so that a student with the equivalent of a strong undergraduate philosophy major at Stanford might complete them in one year, most students need longer. Students should also keep in mind that although 45 units is the minimum required by the University, quite often more units are necessary to complete department requirements. Up to 6 units of directed reading in philosophy may be allowed. There is no thesis requirement, but an optional master's thesis

or project, upon faculty approval, may count as the equivalent of up to 8 units. A special program may require knowledge of a foreign language. At least 45 units in courses numbered 100 or above must be completed with a grade of 'B-' or better at Stanford. Students are reminded of the University requirements for advanced degrees, and particularly of the fact that for the M.A., students must complete three full quarters as measured by tuition payment.

## General Program

The General Program requires a minimum of 45 units in Philosophy courses numbered above 99. These courses must be taken for a letter grade, and the student must receive at least a 'B-' in the course. Courses taken to satisfy the undergraduate core or affiliated courses may not be counted in the 45 units. The requirement has three parts:

### 1. Undergraduate Core

Students must have when they enter, or complete early in their program, the following undergraduate courses (students entering from other institutions should establish equivalent requirements with a master's adviser upon arrival or earlier):

#### a. Logic:

Select one of the following:

PHIL 49	Survey of Formal Methods	4
PHIL 150	Mathematical Logic	4
PHIL 151	Metalogic	4
PHIL 154	Modal Logic	4

- b. Philosophy of science: This requirement may be satisfied by PHIL 60, PHIL 61, or any intermediate philosophy of science course numbered between PHIL 160 - 169.
- c. Moral and political philosophy: This requirement may be satisfied by any intermediate course devoted to central topics in moral and political philosophy numbered between PHIL 170 - 172, or PHIL 174-176.
- d. Contemporary theoretical philosophy: This requirement may be satisfied by any intermediate course numbered between PHIL 180 - 189.
- e. History of philosophy: two history of philosophy courses numbered 100 or above

### 2. Graduate Core

Students must take at least one course numbered over 105 from three of the following five areas (courses used to satisfy the undergraduate core cannot also be counted toward satisfaction of the graduate core). Crosslisted and other courses taught outside the Department of Philosophy do not count towards satisfaction of the core.

- a. Logic and semantics
- b. Philosophy of science and history of science
- c. Ethics, value theory, and moral and political philosophy
- d. Metaphysics, epistemology, philosophy of mind, and philosophy of language
- e. History of philosophy

### 3. 200-Level Course Requirement

Each master's candidate must take at least two courses numbered above 200; these cannot be graduate sections of undergraduate courses.

### 4. Specialization

Students must take at least three courses numbered over 105 in one of the five areas.

Units

## Special Program in Symbolic Systems

Students should have the equivalent of the Stanford undergraduate major in Symbolic Systems. Students who have a strong major in one of the basic SSP disciplines (philosophy, psychology, linguistics, computer science) may be admitted, but are required to do a substantial part of the undergraduate SSP core in each of the other basic SSP fields. This must include the following philosophy courses:

		Units
PHIL 80	Mind, Matter, and Meaning	5
PHIL 151	Metalogic	4
And one of the following:		
PHIL 181	Philosophy of Language	4
PHIL 184	Epistemology	4
PHIL 186	Philosophy of Mind	4
PHIL 187	Philosophy of Action	4

This work does not count towards the 45-unit requirement.

### Course Requirements

- Four courses in philosophy at the graduate level (numbered 200 or above), including courses from three of the following five areas:
  - Philosophy of language
  - Logic
  - Philosophy of mind
  - Metaphysics and epistemology
  - Philosophy of science

At most two of the four courses may be graduate sections of undergraduate courses numbered 100 or higher.

- Three courses numbered 100 or higher from outside Philosophy, chosen in consultation with an advisor. These courses should be from two of the following four areas:
  - Psychology
  - Linguistics
  - Computer Science
  - Education

Remaining courses are chosen in consultation with and approved by an advisor.

## Special Program in the Philosophy of Language

Admission is limited to students with substantial preparation in philosophy or linguistics. Those whose primary preparation has been in linguistics may be required to satisfy all or part of the undergraduate core requirements as described in the "General Program" subsection above. Those whose preparation is primarily in philosophy may be required to take additional courses in linguistics.

### Course Requirements

- Philosophy of language: two approved courses in the philosophy of language numbered 180 or higher.
- Syntactic theory and generative grammar:

PHIL 384	Seminar in Metaphysics and Epistemology	4
LINGUIST 230A	Introduction to Semantics and Pragmatics	4

- Logic: at least two approved courses numbered PHIL 151 Metalogic or higher.
- An approved graduate-level course in mathematical linguistics or automata theory.

## Doctor of Philosophy in Philosophy

Prospective graduate students should see the Office of Graduate Admissions (<http://gradadmissions.stanford.edu>) web site for information and application materials. Applicants should take the Graduate Record Examination by October of the year the application is submitted.

The University's basic requirements for the Ph.D. degree including residence, dissertation, and examination are discussed in the "Graduate Degrees (p. 50)" section of this bulletin.

The requirements detailed here are department requirements. These requirements are meant to balance structure and flexibility in allowing students, in consultation with their advisers, to take a path through the program that gives them a rigorous and broad philosophical education, with room to focus on areas of particular interest, and with an eye to completing the degree with an excellent dissertation and a solid preparation for a career in academic philosophy.

Normally, all courses used to satisfy the distribution requirements for the Philosophy Ph.D. are Stanford courses taken as part of a student's graduate program. In special circumstances, a student may petition to use a very small number of graduate-level courses taken at other institutions to satisfy a distribution requirement. To be approved for this purpose, the student's work in such a graduate-level course would need to involve an appropriate subject matter and would need to be judged by the department to be at the level of an 'A' in a corresponding graduate-level course at Stanford.

Courses used to satisfy any course requirement in Philosophy (except Teaching Methods and the summer Dissertation Development Seminar) must be passed with a letter grade of 'B-' or better (no satisfactory/no credit), except in the case of a course/seminar used to satisfy the third-year course/seminar requirement and taken for only 2 units. Such a reduced-unit third-year course/seminar must be taken credit/no credit.

At the end of each year, the department reviews the progress of each student to determine whether the student is making satisfactory progress, and on that basis to make decisions about probationary status and termination from the program where appropriate.

Any student in one of the Ph.D. programs may apply for the M.A. when all University and department requirements have been met.

### Proficiency Requirements

- First-year Ph.D. Proseminar*: a one quarter, topically focused seminar offered in Autumn Quarter, and required of all first-year students.
- Distribution requirements during the first six quarters*. Intended to ensure a broad and substantial exposure to major areas of philosophy while allowing for considerable freedom to explore.

- six courses, each taken for the full unit load for the course, distributed across three areas as follows:
  - two courses in value theory including ethics, aesthetics, political philosophy, social philosophy, philosophy of law. At least one of the courses satisfying this distribution requirement must be in ethics or political philosophy.
  - Two courses in language, mind, and action. One course satisfying this requirement must be drawn from the language related courses, and one from mind and action related courses.
  - two courses in metaphysics and epistemology (including metaphysics, epistemology, philosophy of science). At least one of the courses satisfying this requirement must be drawn from either metaphysics or epistemology.
  - Instructors indicate which courses may satisfy particular requirements. If a course potentially satisfies more than one

Units

requirement the student may use it for only one of those area requirements; no units may be double-counted. Students must develop broad competencies in all these areas. Those without strong backgrounds in these areas would normally satisfy these distribution requirements by taking more basic courses rather than highly specialized and focused courses. Students should consult with their adviser in making these course decisions, and be prepared to explain these decisions when reviewed for candidacy; see requirement 6 below.

- b. Logic requirement: PHIL 150 Mathematical Logic or equivalent.
- c. History/logic requirement. One approved course each in ancient and modern philosophy, plus either another approved history of philosophy course or PHIL 151 Metalogic.
- d. Students should normally take at least 64 graduate level units at Stanford during their first six quarters (in many cases students would take more units than that) and of those total units, at least 49 units of course work are to be in the Philosophy department. These courses must be numbered above 110, but not including Teaching Methods (PHIL 239 Teaching Methods in Philosophy) or affiliated courses. Units of Individual Directed Reading are normally not to be counted toward this 49-unit requirement unless there is special permission from the student's adviser and the Director of Graduate Studies.

### 3. *Writing Requirement*

A qualifying paper of professional quality and approximately 8000 words. Students must complete a version of the paper, which is itself likely to be a revision of a paper written during the first year of course work, by the first day of their fourth quarter. The paper is read by a committee of two faculty who make suggestions for additional revision. The final version must be submitted by the first day of the sixth quarter, normally Spring Quarter of the second year.

### 4. *Teaching Assistancy*

A minimum of five quarters of teaching assistancy are required for the Ph.D. Normally one of these quarters is as a teaching assistant for the Philosophy Department's Writing in the Major course, PHIL 80 Mind, Matter, and Meaning. It is expected that students not teach in their first year and that they teach no more than two quarters in their second year. Students are required to take PHIL 239 Teaching Methods in Philosophy during Spring Quarter of their first year and during Autumn Quarter of their second year. Teaching is an important part of students' preparation to be professional philosophers.

### 5. *Review at the End of the Second Year for Advancement to Candidacy*

The faculty's review of each student includes a review of the student's record, an assessment of the qualifying paper, and an assessment of the student's preparation for work in her/his intended area of specialization, as well as recommendations of additional preparation, if necessary.

### 6. *Candidacy*

To continue in the Ph.D. program, each student must apply for candidacy during the sixth academic quarter, normally the Spring Quarter of the student's second year. Students may be approved for or denied candidacy by the end of that quarter by the department.

In some cases, where there are only one or two outstanding deficiencies, the department may defer the candidacy decision and require the student to re-apply for candidacy in a subsequent quarter.

In such cases, definite conditions for the candidacy re-application will be specified, and the student must work with his/her adviser and the DGS to meet those conditions in a timely fashion. A failure to maintain timely progress in satisfying the specified conditions will constitute grounds for a denial of advancement to candidacy.

- 7. Dissertation Development Seminar in the summer after the second year. This is the point at which students are expected to transition from spending much of their time on coursework to focusing on their

thesis project. By the end of the summer, students are expected to have a plan for moving forward with the project in the third year; they should have formed advising relationships with faculty and should have made headway towards identifying a specific topic.

- 8. Upon completion of the summer dissertation development seminar, students will sign up for independent study credit, PHIL 240 Individual Work for Graduate Students, with their respective advisers each quarter. A plan at the beginning, and a report at the end of each quarter will be signed by both student and adviser and submitted to the Graduate Administrator for inclusion in the student's file. This will be the process every quarter up until the completion of the departmental oral.
- 9. In autumn and winter quarters of the third year, students will register in and satisfactorily complete PHIL 301 Dissertation Development Proseminar. Students meet to present their work in progress and discuss their thesis project. Participation in these seminars is required.
- 10. During the third and fourth years in the program, a student should complete at least three graduate-level courses/seminars, at least two of them in philosophy (a course outside philosophy can be approved by the adviser), and at least two of them in the third year. The three seminars can be taken credit/no-credit for reduced (2) units. Courses required for candidacy are not counted toward satisfaction of this requirement. This light load of courses allows students to deepen their philosophical training while keeping time free for thesis research.
- 11. *Dissertation Work and Defense*

The third and following years are devoted to dissertation work. The few requirements in this segment of the program are milestones to encourage students and advisers to ensure that the project is on track.

- a. *Dissertation Proposal*—By Spring Quarter of the third year, students should have selected a dissertation topic and committee. A proposal sketching the topic, status, and plan for the thesis project, as well as an annotated bibliography or literature review indicating familiarity with the relevant literature, must be received by the committee one week before the meeting on graduate student progress late in Spring Quarter. The dissertation proposal and the reading committee's report on it will constitute a substantial portion of the third year review.
- b. *Departmental Oral*—During Autumn Quarter of the fourth year, students take an oral examination based on at least 30 pages of written work, in addition to the proposal. The aim of the exam is to help the student arrive at an acceptable plan for the dissertation and to make sure that student, thesis topic, and advisors make a reasonable fit. It is an important chance for the student to clarify their goals and intentions with the entire committee present.
- c. *Fourth-Year Colloquium*—No later than Spring Quarter of the fourth year, students present a research paper in a 60-minute seminar open to the entire department. This paper should be on an aspect of the student's dissertation research. This is an opportunity for the student to make their work known to the wider department, and to explain their ideas to a general philosophical audience.
- d. *University Oral Exam*—Ph.D. students must submit a completed draft of the dissertation to the reading committee at least one month before the student expects to defend the thesis in the University oral exam. If the student is given consent to go forward, the University oral can take place approximately two weeks later. A portion of the exam consists of a student presentation based on the dissertation and is open to the public. A closed question period follows. If the draft is ready by Autumn Quarter of the fourth year, the student may request that the University oral count as the departmental oral.

## Interdisciplinary Study

The department supports interdisciplinary study. Courses in Stanford's other departments and programs may be counted towards the degree, and course requirements in Philosophy are designed to allow students considerable freedom in taking such courses. Dissertation committees may include members from other departments. Where special needs arise, the department is committed to making it possible for students to obtain a philosophical education and to meet their interdisciplinary goals. Students are advised to consult their advisers and the department's student services office for assistance.

## Interdepartmental Programs

### Graduate Program in Cognitive Science

Philosophy participates with the departments of Computer Science, Linguistics, and Psychology in an interdisciplinary program in Cognitive Science. It is intended to provide an interdisciplinary education, as well as a deeper concentration in philosophy, and is open to doctoral students. Students who complete the requirements within Philosophy and the Cognitive Science requirements receive a special designation in Cognitive Science along with the Ph.D. in Philosophy. To receive this field designation, students must complete 30 units of approved courses, 18 of which must be taken in two disciplines outside of philosophy. The list of approved courses can be obtained from the Cognitive Science program located in the Department of Psychology.

### Special Track in Philosophy and Symbolic Systems

Students interested in interdisciplinary work relating philosophy to artificial intelligence, cognitive science, computer science, linguistics, or logic may pursue a degree in this program.

*Prerequisites*—Admitted students should have covered the equivalent of the core of the undergraduate Symbolic Systems Program requirements as described in the "Symbolic Systems (p. 760)" section of this bulletin, including courses in artificial intelligence (AI), cognitive science, linguistics, logic, and philosophy. The graduate program is designed with this background in mind. Students missing part of this background may need additional course work. In addition to the required course work below, the Ph.D. requirements are mostly the same as for the regular program, with the exceptions noted below.

*Courses of Study*—The program consists of three years of courses and two years of dissertation work. Students are required to take the following philosophy courses in the first two years:

1. Proseminar
2. Two courses in Language/Mind/Action
3. Two courses in Metaphysics/Epistemology/Science
4. Two courses in Value Theory
5. One course each in Ancient and Modern  
*Among the eight courses required by 2-5, students in the program may omit two, in any two of the four categories. The two omitted courses may not come from the same category.*
6. One advanced course in logic, at the level of Phil 151 or higher
7. Two graduate courses in cognitive psychology
8. Two graduate courses in computer science, one of which must be either CS 221 Artificial Intelligence: Principles and Techniques or a more advanced course in AI.
9. Two graduate courses in linguistics.  
*From categories 7-9, at least one of these courses must significantly engage with experimental literature.*
10. 64 graduate-level units, 49 of which are units in philosophy, during the first six quarters.
11. A second-year paper, which need not be on a topic in symbolic systems, but could be on any philosophical topic.  
*After the first 2 years, the requirements are mostly the same as for the standard track:*

12. Three graduate-level seminars in the third and fourth year, at least two of which are taught in the Philosophy department, and at least two of which are in the third year. [All can be taken credit/no credit for reduced (2) units.]
13. Three advanced seminars in symbolic systems. Double counting: at most one of these could be a course satisfying one of 1-5; at most one could be a course satisfying one of 6-9; and at most one could be a course satisfying 11. At least one must not be counted for any other requirement. (In other words, at most two of these courses could count toward other requirements.) These may be completed any time before the fourth year.
14. Five quarters serving as a course TA, and taking the Teaching Methods in Philosophy (PHIL 239) course.
15. Dissertation Development Seminar in the summer after the second year.
16. The usual requirements for the dissertation (proposal, oral, 4th year talk, etc.).
17. The dissertation committee must include at least one member of the Department of Philosophy and one member of the Program in Symbolic Systems outside the Department of Philosophy.

### Joint Program in Ancient Philosophy

This program is jointly administered by the Departments of Classics and Philosophy and is overseen by a joint committee composed of members of both departments. It provides students with the training, specialist skills, and knowledge needed for research and teaching in ancient philosophy while producing scholars who are fully trained as either philosophers with a strong specialization in ancient languages and philology, or classicists with a concentration in philosophy.

Students are admitted to the program by either department. Graduate students admitted by the Philosophy department receive their Ph.D. from the Philosophy department; those admitted by the Classics department receive their Ph.D. from the Classics department. For Philosophy graduate students, this program provides training in classical languages, literature, culture, and history. For Classics graduate students, this program provides training in the history of philosophy and in contemporary philosophy.

Each student in the program is advised by a committee consisting of one professor in each department.

*Requirements for Philosophy Graduate Students:* These are the same as the proficiency requirements for the Ph.D. in Philosophy.

One year of Greek is a requirement for admission to the program. If students have had a year of Latin, they are required to take 3 courses in second- or third-year Greek or Latin, at least one of which must be in Latin. If they have not had a year of Latin, they are then required to complete a year of Latin, and take two courses in second- or third-year Greek or Latin.

Students are also required to take at least three courses in ancient philosophy at the 200 level or above, one of which must be in the Classics department and two of which must be in the Philosophy department.

### Ph.D. Subplan in History and Philosophy of Science

Graduate students in the Philosophy Ph.D. program may pursue a Ph.D. subplan in History and Philosophy of Science. The subplan is declared in Axx and subplan designations appear on the official transcript, but are not printed on the diploma. Students must fulfill Departmental degree requirements and the following requirements:

1. Attendance at the HPS colloquium series.
2. Philosophy of Science courses:

Select one of the following:

PHIL 263	Significant Figures in Philosophy of Science: Einstein	4	<i>Associate Professors:</i> Mark Crimmins, Graciela De Pierris, David Hills (Teaching)(on leave), Nadeem Hussain
PHIL 264	Central Topics in the Philosophy of Science: Theory and Evidence	4	<i>Assistant Professors:</i> Juliana Bidadanure, Rosa Cao, Jorah Dannenberg, Thomas Icard, Barry Maguire, Anna-Sara Malmgren
PHIL 264A		4	
PHIL 265	Philosophy of Physics: Philosophical Issues in Quantum Mechanics	4	<i>Courtesy Professors:</i> Eamonn Callan, Reviel Netz, Josiah Ober, Rob Reich, Thomas Sheehan
PHIL 265C	Philosophy of Physics: Probability and Relativity	4	<i>Visiting Professor:</i> Kendall Walton (Spring)
PHIL 266	Probability: Ten Great Ideas About Chance	4	<i>Visiting Assistant Professor:</i>
PHIL 267A	Philosophy of Biology	4	<i>Consulting Professor:</i> Paul Skokowski
PHIL 267B	Philosophy, Biology, and Behavior	4	

3. One elective seminar in the history of science.

4. One elective seminar (in addition to the course satisfying requirement 2) in philosophy of science.

## Ph.D. Minor in Philosophy

To obtain a Ph.D. minor in Philosophy, students must follow these procedures:

1. Consult with the Director of Graduate Study to establish eligibility, and select a suitable adviser.
2. Give to the graduate administrator a signed copy of the program of study (designed with the adviser) which offers:
  - a. 30 units of courses in the Department of Philosophy with a letter grade of 'B-' or better in each course. No more than 3 units of directed reading may be counted in the 30-unit requirement.
  - b. At least one course or seminar numbered over 99 to be taken in each of these six areas:
    - i Logic
    - ii Philosophy of science
    - iii Ethics, value theory, and moral and political philosophy
    - iv Metaphysics and epistemology
    - v Language, mind and action
    - vi History of philosophy
  - c. Two additional courses numbered over 199 to be taken in one of those (b) six areas.
3. A faculty member from the Department of Philosophy (usually the student's adviser) serves on the student's doctoral oral examination committee and may request that up to one third of this examination be devoted to the minor subject.
4. Paperwork for the minor must be submitted to the department office before beginning the program.

*Emeriti (Professors):* Dagfinn Føllesdal, John Perry, Thomas Wasow, Allen Wood, Rega Wood, Denis Phillips (Courtesy Professor)

*Chair:* Mark Crimmins

*Director of Graduate Study:* Michael Bratman

*Director of Undergraduate Study:* Nadeem Hussain

*Honors Director and Undergraduate Outreach Coordinator:* Nadeem Hussain

*Faculty Advisor for Joint Major with Computer Science:* Thomas Icard

*Professors:* R. Lanier Anderson, Chris Bobonich, Michael Bratman, Rachael Briggs, Alan Code, John Etchemendy, Michael Friedman, Krista Lawlor (on leave), Helen Longino, Thomas Ryckman (Teaching), Debra Satz (on leave), Brian Skyrms (Spring), Kenneth Taylor, Johan van Benthem (Spring)

### Cognate Courses

The following courses have substantial philosophical content. However, in the absence of special permission these courses cannot generally be used to satisfy requirements for the Philosophy major or graduate degrees in Philosophy.

		<b>Units</b>
CLASSICS 181	Classical Seminar: Origins of Political Thought	4-5
ETHICSOC 136R	Introduction to Global Justice	4
ETHICSOC 185M	Contemporary Moral Problems	4-5
MATH 161	Set Theory	3
OSPPARIS 77	Literature and Philosophy of Place	4-5
RELIGST 183	Atheism: Hegel to Heidegger	5
RELIGST 279	After God: Why religion at all?	4

# PHYSICS

Courses offered by the Department of Physics are listed under the subject code PHYSICS on the Stanford Bulletin's ExploreCourses web site.

## Mission of the Undergraduate Program in Physics

The mission of the undergraduate program in Physics is to provide students with a strong foundation in both classical and modern physics. The goal of the program is to develop both quantitative problem solving skills and the ability to conceive experiments and analyze and interpret data. These abilities are acquired through both course work and opportunities to conduct independent research. The program prepares students for careers in fields that benefit from quantitative and analytical thinking, including physics, engineering, teaching, medicine, law, science writing, and science policy, in government or the private sector. In some cases, the path to this career will be through an advanced degree in physics or a professional program.

## Learning Outcomes (Undergraduate)

Students develop an understanding of the fundamental laws that govern the universe, and a strong foundation of mathematical, analytical, laboratory, and written communication skills. They will also be presented with opportunities for learning through research. Upon completion of the Physics degree, students should have acquired the following knowledge and skills:

1. a thorough quantitative and conceptual understanding of the core areas of physics, including mechanics, electricity and magnetism, thermodynamics, statistical physics, and quantum mechanics, at a level compatible with admission to graduate programs in physics at peer institutions.
2. the ability to analyze and interpret quantitative results, both in the core areas of physics and in complex problems that cross multiple core areas.
3. the ability to apply the principles of physics to solve new and unfamiliar problems. This ability is often described as "thinking like a physicist."
4. the ability to use contemporary experimental apparatus and analysis tools to acquire, analyze and interpret scientific data.
5. the ability to communicate scientific results effectively in written papers and presentations or posters.

## Course Work

The course work is designed to provide students with a sound foundation in both classical and modern physics. Students who wish to specialize in astronomy, astrophysics, or space science should also consult the "Astronomy Program (p. 406)" section of this bulletin.

Three introductory series of courses include labs in which undergraduates carry out individual experiments. The Intermediate and Advanced Physics Laboratories offer facilities for increasingly complex individual work, including the conception, design, and fabrication of laboratory equipment. Undergraduates are also encouraged to participate in research; most can do this through the senior thesis and/or the summer research program.

The study of physics is undertaken by three principal groups of undergraduates: those including physics as part of a general education; those preparing for careers in professional fields that require a knowledge of physics, such as medicine or engineering; and those preparing for careers in physics or related fields, including teaching and research in colleges and universities, research in federally funded laboratories and industry, and jobs in technical areas. Physics courses

numbered below 100 are intended to serve all three of these groups. The courses numbered above 100 mainly meet the needs of the third group, but also of some students majoring in other branches of science and engineering.

## Entry-Level Sequences in Physics

The Department of Physics offers three year-long, entry-level physics sequences, the PHYSICS 20, 40, and 60 series. The first of these (the 20 series) is non-calculus-based, and is intended primarily for those who are majoring in biology. Students with AP Physics credit, particularly those who are considering research careers, may wish to consider taking the PHYSICS 40 series, rather than using AP placement. These introductory courses provide a depth and emphasis on problem solving that has significant value in biological research, given today's considerable physics-based technology.

For those intending to major in engineering or the physical sciences, or simply wanting a stronger background in physics, the department offers the PHYSICS 40 and 60 series. Either of these satisfies the entry-level physics requirements of any Stanford major. The 60 series is intended for those who have already taken a Physics course at the level of the 40 series, or at least have a strong background in mechanics, some background in electricity and magnetism, and a strong background in calculus.

The PHYSICS 40 series begins with PHYSICS 41 Mechanics in Winter Quarter, PHYSICS 43 Electricity and Magnetism in Spring Quarter, and PHYSICS 45 Light and Heat in Autumn Quarter. While it is recommended that most students begin the sequence with PHYSICS 41 in Winter Quarter, those who have had strong physics preparation in high school (such as a score of at least 4 on the Physics AP C exam) may start the sequence with PHYSICS 45 in Autumn Quarter.

PHYSICS 41A and PHYSICS 43A are optional 1 unit companion courses to PHYSICS 41 and PHYSICS 43 respectively. They provide additional problem solving for students with less preparation in math and physics.

The Physics Tutoring Center offers help to students in the Entry-Level courses. It is staffed Monday through Friday.

## Entry-Level Course List

One course from the following is recommended for the humanities or social science student who wishes to become familiar with the methodology and content of modern physics:

		Units
PHYSICS 15	Stars and Planets in a Habitable Universe	3
PHYSICS 16	The Origin and Development of the Cosmos	3
PHYSICS 17	Black Holes and Extreme Astrophysics	3
PHYSICS 19	How Things Work: An Introduction to Physics (not offered 2017-18)	3

The 20 series (below) is recommended for general students and for students preparing for medicine or biology:

		Units
PHYSICS 21	Mechanics, Fluids, and Heat	4
PHYSICS 22	Mechanics, Fluids, and Heat Laboratory	1
PHYSICS 23	Electricity, Magnetism, and Optics	4
PHYSICS 24	Electricity, Magnetism, and Optics Laboratory	1
PHYSICS 25	Modern Physics	4
PHYSICS 26	Modern Physics Laboratory	1

The 40 series (below) is for students majoring in engineering, chemistry, earth sciences, mathematics, or physics:

PHYSICS 41	Mechanics	4
PHYSICS 42	Classical Mechanics Laboratory	1
PHYSICS 43	Electricity and Magnetism	4
PHYSICS 44	Electricity and Magnetism Lab	1
PHYSICS 45	Light and Heat	4
PHYSICS 46	Light and Heat Laboratory	1

The 60 series (below), or advanced freshman series, is for students who have had strong preparation in physics and calculus in high school. Students who have had the appropriate background and wish to major in physics should take this introductory series:

PHYSICS 61	Mechanics and Special Relativity	4
PHYSICS 62	Mechanics Laboratory	1
PHYSICS 63	Electricity, Magnetism, and Waves	4
PHYSICS 64	Electricity, Magnetism and Waves Laboratory	1
PHYSICS 65	Quantum and Thermal Physics	4
PHYSICS 67	Introduction to Laboratory Physics	2

### Physics Placement Diagnostic

Students who are planning to take either of the calculus-based sequences (PHYSICS 40 or 60 sequence) are advised to take the Physics Placement Diagnostic (<https://web.stanford.edu/group/canvas/cgi-bin/www/discovery.php>) that is offered twice at the beginning of the school year: during New Student Orientation and on the evening of the first day of instruction in the Autumn Quarter. Advice will be sent to each student with guidance on placement in the 40 or 60 sequence. See the department's Placement Diagnostic (<https://physics.stanford.edu/academics/undergraduate-students/placement-diagnostic>) page for details. Students who do not plan to take the 40 or 60 sequence do not need to take the Placement Diagnostic.

## Graduate Programs in Physics

Graduate students find opportunities for research in the fields of astrophysics, particle astrophysics, cosmology, experimental particle physics, particle theory, string theory, intermediate energy physics, low temperature physics, condensed matter physics, materials research, atomic physics, laser physics, quantum electronics, coherent optical radiation, novel imaging technologies, and biophysics. Faculty advisers are drawn from many departments, including Physics, Applied Physics, Materials Science and Engineering, Electrical Engineering, and Biology. Opportunities for research are also available with the faculty at SLAC in the areas of theoretical and experimental particle physics, particle astrophysics, cosmology, accelerator design, and photon science.

The number of graduate students admitted to the Department of Physics is strictly limited. Students should submit applications by Tuesday, December 12, 2017 for matriculation the following Autumn Quarter. Graduate students may normally enter the department only at the beginning of Autumn Quarter.

### Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in physics and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis using the tools of Physics. Through completion of advanced course work and rigorous skills training, the doctoral program

**Units** prepares students to make original contributions to the knowledge of physics and to interpret and present the results of such research.

### Fellowships and Assistantships

The Department of Physics makes an effort to support all its graduate students through fellowships, teaching assistantships, research assistantships, or a combination of sources. More detailed information is provided with the offer of admission.

## Laboratories and Institutes

The Russell H. Varian Laboratory of Physics, the Physics and Astrophysics Building, the W. W. Hansen Experimental Physics Laboratory (HEPL), the E. L. Ginzton Laboratory, the Center for Nanoscale Science and Engineering and the Geballe Laboratory for Advanced Materials (GLAM) together house a range of physics activities from general courses through advanced research. Ginzton Lab houses research on optical systems, including quantum electronics, metrology, optical communication and development of advanced lasers. GLAM houses research on novel and nanopatterned materials, from high-temperature superconductors and magnets to organic semiconductors, subwavelength photon waveguides, and quantum dots. GLAM also supports the materials community on campus with a range of characterization tools: it is the site for the Stanford Nanocharacterization Lab (SNL) and the NSF-sponsored Center for Probing the Nanoscale (CPN). The SLAC National Accelerator Laboratory is just a few miles from the Varian Laboratory. SLAC is a national laboratory funded by the Offices of Basic Energy Sciences and High Energy Physics of the Department of Energy. Scientists at SLAC conduct research in photon science, accelerator physics, particle physics, astrophysics and cosmology. The laboratory hosts a two-mile-long linear accelerator that can accelerate electrons and positrons. The Stanford Synchrotron Radiation Light Source (SSRL) uses intense x-ray beams produced with a storage ring on the SLAC site. The Linac Coherent Light Source (LCLS), completed in 2009, is the world's first x-ray free-electron laser and has opened new avenues of research in ultra-fast photon science.

The Kavli Institute for Particle Astrophysics and Cosmology (KIPAC), formed jointly with the SLAC National Accelerator Laboratory, provides a focus for theoretical, computational, observational, and instrumental research programs. A wide range of research areas in particle astrophysics and cosmology are investigated by students, postdocs, research staff and faculty. The two major projects with which KIPAC is heavily involved are the Fermi Gamma-Ray Space Telescope (FGST) and the Large Synoptic Survey Telescope (LSST). KIPAC members also participate fully in the Cryogenic Dark Matter Search (CDMS), the Solar Dynamics Observatory (SDO), the EXO-200 double beta decay experiment, the Dark Energy Survey (DES), the NuSTAR and Astro-H X-ray satellites, and several cosmic microwave background experiments (BICEP, KECK, QUIET and POLAR-1).

The Ginzton Laboratory, HEPL, GLAM, KIPAC, SLAC, and SSRL are listed in the "Centers, Laboratories, and Institutes (p. 846)" section of this bulletin. Students may also be interested in research and facilities at two other independent labs: the Center for Integrated Systems, focused on electronics and nanofabrication; and the Clark Center, an interdisciplinary biology, medicine, and bioengineering laboratory.

The Stanford Institute for Theoretical Physics is devoted to the investigation of the basic structure of matter (particle theory, string theory, M-theory, quantum cosmology, condensed matter physics).

## Physics Course Numbering System

Course numbers beyond 99 are numbered in accordance with a three-digit code. The first digit indicates the approximate level of the course:

Digit	Description
100	intermediate and advanced undergraduate courses
200	first-year graduate courses
300	more advanced courses
400	research, special, or current topics

The second digit indicates the general subject matter:

Digit	Description
00	laboratory
10,20,30	general courses
40	nuclear physics, nuclear energy, energy
50	elementary particle physics
60	astrophysics, cosmology, gravitation
70	condensed matter physics
80	optics and atomic physics
90	miscellaneous courses

## Bachelor of Science in Physics

To help in deciding which introductory sequence is most suitable, students considering a major in Physics may contact the undergraduate program coordinator ([elva@stanford.edu](mailto:elva@stanford.edu)) to arrange an advising appointment. Also see the Physics Placement Diagnostic web site (<https://physics.stanford.edu/undergraduate-program/placement-test>). Although it is possible to complete the Physics major in three years, students who contemplate starting the major during sophomore year should make an advising appointment to map out their schedule. Students who have had previous college-level courses (including EPGY) should make an advising appointment for placement and possible transfer credit. For advanced placement advice, see the Registrar's web site (<http://studentaffairs.stanford.edu/registrar/students/ap>).

Prospective Physics majors are advised to take PHYSICS 59 Frontiers of Physics Research in their freshman or sophomore year.

### Required Courses for Majors

All courses for the Physics major must be taken for a letter grade, and a grade of 'C-' or better must be received for all units applied toward the major.

For sample schedules illustrating how to complete the Physics major, see the Department of Physics (<https://physics.stanford.edu/undergraduate-program/four-year-plans>) web site.

Introductory Sequence		Units
Complete either the 40 Series or the 60 Series		16-20
40 Series (19-20 units):		
PHYSICS 41	Mechanics	
PHYSICS 42	Classical Mechanics Laboratory	
PHYSICS 43	Electricity and Magnetism	
PHYSICS 44	Electricity and Magnetism Lab or PHYSICS 67 Introduction to Laboratory Physics	
PHYSICS 45	Light and Heat	
PHYSICS 46	Light and Heat Laboratory	
PHYSICS 70	Foundations of Modern Physics	
60 Series (16 units):		
PHYSICS 61	Mechanics and Special Relativity	
PHYSICS 62	Mechanics Laboratory	

PHYSICS 63	Electricity, Magnetism, and Waves	
PHYSICS 64	Electricity, Magnetism and Waves Laboratory	
PHYSICS 65	Quantum and Thermal Physics	
PHYSICS 67	Introduction to Laboratory Physics	
<b>Required Math Courses (21-24 units)</b>		
MATH 51	Linear Algebra and Differential Calculus of Several Variables <sup>3</sup>	5
or MATH 61CM	Modern Mathematics: Continuous Methods	
MATH 52	Integral Calculus of Several Variables <sup>3</sup>	5
or MATH 62CM	Modern Mathematics: Continuous Methods	
MATH 53	Ordinary Differential Equations with Linear Algebra <sup>3</sup>	5
or MATH 63CM	Modern Mathematics: Continuous Methods	
PHYSICS 111	Partial Differential Equations of Mathematical Physics	4
or MATH 131P	Partial Differential Equations	
or MATH 173	Theory of Partial Differential Equations	
Plus one advanced mathematics elective (3-5 units)		3-5
Select one of the following:		
Any MATH (101 or higher)		
PHYSICS 112	Mathematical Methods for Physics	
STATS 116	Theory of Probability	
EE 261	The Fourier Transform and Its Applications	
<b>Intermediate Sequence</b>		
PHYSICS 105	Intermediate Physics Laboratory I: Analog Electronics	4
PHYSICS 107	Intermediate Physics Laboratory II: Experimental Techniques and Data Analysis	4
PHYSICS 112	Mathematical Methods for Physics (recommended) <sup>1</sup>	
PHYSICS 113	Computational Physics (recommended) <sup>2</sup>	
PHYSICS 120	Intermediate Electricity and Magnetism I	4
PHYSICS 121	Intermediate Electricity and Magnetism II	4
<b>Advanced Sequence</b>		
PHYSICS 108	Advanced Physics Laboratory: Project	4
PHYSICS 110	Advanced Mechanics	4
PHYSICS 130	Quantum Mechanics I	4
PHYSICS 131	Quantum Mechanics II	4
PHYSICS 134	Advanced Topics in Quantum Mechanics (recommended) <sup>2</sup>	
PHYSICS 170	Thermodynamics, Kinetic Theory, and Statistical Mechanics I	4
PHYSICS 171	Thermodynamics, Kinetic Theory, and Statistical Mechanics II	4

<sup>1</sup> Those wishing to pursue theoretical physics in graduate school may wish to take a collection of courses in the Department of Mathematics rather than or in addition to PHYSICS 112 Mathematical Methods for Physics.

<sup>2</sup> These courses are not required. PHYSICS 113 Computational Physics is recommended for students planning to work in technical fields. Both PHYSICS 113 Computational Physics and PHYSICS 134 Advanced Topics in Quantum Mechanics are recommended for students who intend to complete a Ph.D. in Physics.

<sup>3</sup> MATH 51H, 52H and/or 53H, offered prior to 2016-17, may be substituted for the MATH 50 and/or 60CM series. CME courses may not be substituted.

<sup>4</sup> In years when MATH 173 Theory of Partial Differential Equations is not offered, MATH 220 Partial Differential Equations of Applied Mathematics is a recommended alternative.

To prepare for physics research and careers in science and technology, Physics majors are advised to take at least one course in statistics (e.g., STATS 116) and at least one programming course (e.g., CS 106A, B or X). PHYSICS 113 and 91SI offer opportunities to develop proficiency in applying numerical techniques and computational skills. Physics majors who wish to prepare for more data-intensive work could consider a minor in Computer Science.

### Concentrations in Physics

The primary purpose of concentrations in the Physics major is to provide consistent and more formal advising to students who want to concentrate in a particular area of physics during their undergraduate education, or prepare for future graduate studies in a particular area of physics. Physics majors are not required to choose a concentration and a concentration does not add any formal requirements to the Physics major. Upon graduation, students receive a certificate of completion of a concentration.

Students seeking further advice on a given concentration should contact the professor whose name appears next to the respective title of each section below. Within the chosen concentration below, complete at least four courses from the list or three courses plus a senior thesis. No more than one of the courses can be taken for CR/NC.

#### A. Applied Physics ( Hari Manoharan (manoharan@stanford.edu))

Solid State		Units
PHYSICS 172	Solid State Physics	3
APPPHYS 270	Magnetism and Long Range Order in Solids	3
MATSCI 195	Waves and Diffraction in Solids	3-4
Lasers		Units
EE 236A	Modern Optics	3
EE 236C	Lasers	3
Lab Methods		Units
APPPHYS 207	Laboratory Electronics	4

#### B. Astrophysics ( Bruce Macintosh (bmacintosh@stanford.edu))

		Units
PHYSICS 100	Introduction to Observational Astrophysics	4
PHYSICS 160	Introduction to Stellar and Galactic Astrophysics	3
PHYSICS 161	Introduction to Cosmology and Extragalactic Astrophysics	3
Select one of the following:		3
PHYSICS 211	Continuum Mechanics	3
PHYSICS 262	General Relativity	3
GS 122	Planetary Systems: Dynamics and Origins	3-4

PHYSICS 160 and PHYSICS 161 are jointly taught to undergraduates and graduate students (PHYSICS 260 and PHYSICS 261 are for graduate students). Undergraduates must register for 160/161 not 260/261.

#### C. Biophysics and Medical Physics ( Surya Ganguli (SXDWC@SLAC.Stanford.Edu))

		Units
BIOC 202	Biochemistry Bootcamp	1
BIO 141	Biostatistics	3-5
BIOE 221	Physics and Engineering of Radionuclide-based Medical Imaging	3
BIOE 222	Instrumentation and Applications for Multi-modality Molecular Imaging of Living Subjects	4
BIOE 279	Computational Biology: Structure and Organization of Biomolecules and Cells	3

It is recommended that Physics majors interested in pursuing a career in biophysics consider a minor in Biology.

#### D. Geophysics ( Simon Klemperer (sklemp@stanford.edu))

		Units
GEOPHYS 118		3-5
GEOPHYS 122	Planetary Systems: Dynamics and Origins	2-4
Select one of the following:		
GEOPHYS 130	Introductory Seismology (Not given this year)	3
GEOPHYS 141	Remote Sensing of the Oceans	3-4
GEOPHYS 146A		3
GEOPHYS 150	Geodynamics: Our Dynamic Earth (Offered occasionally)	3
GEOPHYS 181	Fluids and Flow in the Earth: Computational Methods (Not offered this year)	3
GEOPHYS 183	Reflection Seismology Interpretation	1-4
GEOPHYS 185	Rock Physics for Reservoir Characterization (Not offered this year)	3
GEOPHYS 186	Tectonophysics (Not given this year)	3
GEOPHYS 188	Basic Earth Imaging	2-3
GEOPHYS 190	Near-Surface Geophysics (Not given this year)	3
GEOPHYS 281	Geophysical Inverse Problems (Not given this year)	3

Some classes taught alternate years only. If the class you need or want is not taught in your senior year, contact Prof. Klemperer for alternatives.

#### E. Theoretical Physics ( Andrei Linde (alinde@stanford.edu))

		Units
PHYSICS 152	Introduction to Particle Physics I	3
PHYSICS 160	Introduction to Stellar and Galactic Astrophysics	3
PHYSICS 161	Introduction to Cosmology and Extragalactic Astrophysics	3
PHYSICS 262	General Relativity	3
PHYSICS 330	Quantum Field Theory I	3
PHYSICS 331	Quantum Field Theory II	3
PHYSICS 332	Quantum Field Theory III	3
PHYSICS 351	Standard Model of Particle Physics	3
PHYSICS 450	Advanced Theoretical Physics I: String Theory with Applications to Cosmology and Black Hole Physics	3
PHYSICS 451	Advanced Theoretical Physics II: Quantum Information Theory, Complexity, Gravity and Black Holes	3
PHYSICS 470	Topics in Modern Condensed Matter Theory I: Topological States of Matter	3
PHYSICS 471	Topics in Modern Condensed Matter Theory II: Physics of the Quantum Hall Regime	3

Notes to students taking this concentration:

1. Students should discuss the choice of courses with members of the Institute for Theoretical Physics and/or their major adviser.
2. Students may attend PHYSICS 330 Quantum Field Theory I after taking PHYSICS 130 Quantum Mechanics I, PHYSICS 131 Quantum Mechanics II and PHYSICS 134 Advanced Topics in Quantum Mechanics.
3. Students who took PHYSICS 362 or PHYSICS 364 in previous years may also count these towards fulfillment of this requirement.

## Senior Thesis

The department offers Physics majors the opportunity to complete a senior thesis. These are the guidelines:

1. Students must submit a Senior Thesis Application form once they identify a physics project, either theoretical or experimental, in consultation with individual faculty members. Proposal forms are available from the undergraduate coordinator and must be submitted by the week prior to the Thanksgiving break of the academic year in which the student plans to graduate.
2. Credit for the project is assigned by the adviser within the framework of PHYSICS 205 Senior Thesis Research. A minimum of 3 units of PHYSICS 205 Senior Thesis Research must be completed for a letter grade during the senior year. Work completed in the senior thesis program may not be used as a substitute for regular required courses for the Physics major.
3. A written report and a presentation of the work at its completion are required for the senior thesis. By mid-May, the senior thesis candidate is required to present the project at the department's Senior Thesis Presentation Program. This event is publicized and open to the general public. The expectation is that the student's adviser, second reader, and all other senior thesis candidates attend.

## Honors Program

Physics majors are granted a Bachelor of Science in Physics with Honors if they satisfy these three requirements beyond the general Physics major requirements:

1. The student files for entry into the honors program by completing an Honors Program Application (available from the undergraduate coordinator) by the same deadline as the Senior Thesis Application. Eligibility is confirmed by the department.
2. The student completes a senior thesis by meeting the deadlines and requirements described above.
3. The student completes course work with an overall GPA of 3.30 or higher, and a GPA of 3.50 or higher in courses required for the Physics major.

## Minor in Physics

The Physics minor allows the student to select a concentration in Physics or Astronomy. The Astronomy concentration has a technical and non-technical option.

All courses for the minor must be taken at Stanford University for a letter grade, and a grade of 'C-' or better must be received for all units applied toward the minor except as noted in the following paragraph.

Students who take the PHYSICS 20, 40, or 60 series at Stanford in support of their major may count those units towards the minor. Those who have fulfilled Physics requirements at the 20 or 40 level by enrollment at another accredited university, or through advanced placement credits, may count credits towards PHYSICS 21, PHYSICS 23, and PHYSICS 24, or PHYSICS 41/PHYSICS 42 and PHYSICS 43/PHYSICS 44.

PHYSICS 25/PHYSICS 26, or PHYSICS 45 /PHYSICS 46 for a minor in Physics or the technical minor concentration in Astronomy, must be taken at Stanford even if similar material has been covered elsewhere.

The minor declaration deadline is three quarters before graduation, typically the beginning of Autumn Quarter if the student is graduating at the end of Spring Quarter.

## Concentration in Physics

An undergraduate minor in Physics requires a minimum of 25 units with the following course work:

Select one of the following Series:	<b>Units</b>
Series A (19 units)	16-19

PHYSICS 41 & PHYSICS 42	Mechanics and Classical Mechanics Laboratory	
PHYSICS 43 & PHYSICS 44	Electricity and Magnetism and Electricity and Magnetism Lab <sup>1</sup>	
PHYSICS 45 & PHYSICS 46	Light and Heat and Light and Heat Laboratory	
PHYSICS 70	Foundations of Modern Physics	
Series B (16 units)		
PHYSICS 61 & PHYSICS 62	Mechanics and Special Relativity and Mechanics Laboratory	
PHYSICS 65 & PHYSICS 67	Quantum and Thermal Physics and Introduction to Laboratory Physics	
PHYSICS 63 & PHYSICS 64	Electricity, Magnetism, and Waves and Electricity, Magnetism and Waves Laboratory	
At least three PHYSICS courses numbered 100 or above from the following courses: PHYSICS 100, 105, 107, 108, 110, 111, 112, 113, 120, 121, 130, 131, 134, 152, 160, 161, 170, 171, 172, 199, 211, 212, 216, 220, 230, 231, or 262.		9-12
Total Units		25-31

<sup>1</sup> PHYSICS 67 Introduction to Laboratory Physics may be substituted for PHYSICS 44 Electricity and Magnetism Lab.

## Minor in Physics with Concentration in Astronomy

Students wishing to pursue advanced work in astrophysical sciences should major in Physics (p. 685) and concentrate in astrophysics. However, students outside of Physics with a general interest in astronomy may organize their studies by completing one of the following Physics minor concentration programs.

Students who take the 20, 40, or 60 series at Stanford in support of their major may count those units towards the minor.

An undergraduate Physics minor with a concentration in Astronomy requires the following courses:

### Non-Technical

For students whose majors do not require the PHYSICS 40 or 60 series:

	<b>Units</b>	
PHYSICS 21	Mechanics, Fluids, and Heat	4
PHYSICS 23	Electricity, Magnetism, and Optics	4
PHYSICS 25 & PHYSICS 26	Modern Physics and Modern Physics Laboratory	5
PHYSICS 50 or PHYSICS 100	Astronomy Laboratory and Observational Astronomy or Introduction to Observational Astrophysics	3-4
Select two of the following:		6
PHYSICS 15	Stars and Planets in a Habitable Universe	
PHYSICS 16	The Origin and Development of the Cosmos	
PHYSICS 17	Black Holes and Extreme Astrophysics	

### Technical

For students whose majors require the PHYSICS 40 or 60 series:

Select one of the following Series:	<b>Units</b>
Series A	14-17
PHYSICS 41	Mechanics
PHYSICS 43	Electricity and Magnetism

PHYSICS 45	Light and Heat	
& PHYSICS 46	and Light and Heat Laboratory	
PHYSICS 70	Foundations of Modern Physics	
Series B		
PHYSICS 61	Mechanics and Special Relativity	
PHYSICS 63	Electricity, Magnetism, and Waves	
PHYSICS 65	Quantum and Thermal Physics	
PHYSICS 67	Introduction to Laboratory Physics	
And take the following three courses:		
PHYSICS 100	Introduction to Observational Astrophysics	4
PHYSICS 160	Introduction to Stellar and Galactic Astrophysics	3
PHYSICS 161	Introduction to Cosmology and Extragalactic Astrophysics	3
Total Units		24-27

Students are also encouraged to take the electricity and magnetism/optics lab of the appropriate PHYSICS series, PHYSICS 24, PHYSICS 44 or PHYSICS 64 for 1 additional unit.

## Master of Science

The department does not offer a coterminal degree program, or a separate program for the M.S. degree, but this degree may be awarded for a portion of the Ph.D. degree work.

University requirements for the master's degree, discussed in the "Graduate Degrees (p. 50)" section of this bulletin, include completion of 45 units of unduplicated course work after the bachelor's degree. Course taken to fulfill the degree requirements below must be taken for a letter grade. Among the department requirements are a grade point average (GPA) of at least 3.0 (B) for the following required courses (or their equivalents):

PHYSICS 212	Statistical Mechanics	3
PHYSICS 220	Classical Electrodynamics	3
Plus one of the following courses:		
PHYSICS 230	Graduate Quantum Mechanics I	3
PHYSICS 231	Graduate Quantum Mechanics II	3
PHYSICS 234	Advanced Topics in Quantum Mechanics	3
PHYSICS 330	Quantum Field Theory I	3
PHYSICS 331	Quantum Field Theory II	3
PHYSICS 332	Quantum Field Theory III	3
Plus two 3 unit graduate level courses in Physics or Applied Physics.		6

Up to 6 of these required units may be waived on petition if a thesis is submitted.

## Doctor of Philosophy in Physics

The University's basic requirements for the Ph.D. are discussed in the "Graduate Degrees (p. 50)" section of this bulletin.

The minimum department requirements for the Ph.D. degree in Physics consist of completing all courses listed below and at least one course from each of two subject areas outside the student's primary area of research (among biophysics, condensed matter, quantum optics and atomic physics, astrophysics and gravitation, and nuclear and particle physics). For this requirement students must choose from courses numbered above PHYSICS 234, excluding 290 and 294. All courses taken to fulfill the Physics Ph.D. degree requirements must be taken for a letter grade, except for PHYSICS 290 and PHYSICS 294 which are only offered for Satisfactory/No Credit.

The requirements in the following list may be fulfilled by passing the course at Stanford or passing an equivalent course elsewhere:

PHYSICS 212	Statistical Mechanics	3
PHYSICS 220	Classical Electrodynamics	3
PHYSICS 290	Research Activities at Stanford	1
PHYSICS 294	Teaching of Physics Seminar	1
Plus one of the following courses:		
PHYSICS 230	Graduate Quantum Mechanics I	3
PHYSICS 231	Graduate Quantum Mechanics II	3
PHYSICS 234	Advanced Topics in Quantum Mechanics	3
PHYSICS 330	Quantum Field Theory I	3
PHYSICS 331	Quantum Field Theory II	3
PHYSICS 332	Quantum Field Theory III	3

A grade point average (GPA) of at least 3.0 (B) is required for courses taken toward the degree.

All Ph.D. candidates must have math proficiency equivalent to the following Stanford MATH courses:

MATH 106	Functions of a Complex Variable	3
MATH 113	Linear Algebra and Matrix Theory	3
MATH 116	Complex Analysis	3
PHYSICS 111	Partial Differential Equations of Mathematical Physics	4
PHYSICS 112	Mathematical Methods for Physics	4

Prior to making an application for candidacy, each student is required to pass a comprehensive oral qualifying examination. A thesis proposal must be submitted during the third year. In order to assess the direction and progress toward a thesis, an oral report and evaluation are required during the fourth year. After completion of the dissertation, each student must take the University oral examination (defense of dissertation).

Three quarters of teaching (including a demonstrated ability to teach) are a requirement for obtaining the Ph.D. in Physics.

Students interested in applied physics and biophysics research should also take note of the Ph.D. granted independently by the Department of Applied Physics and by the Biophysics Program. Students interested in astronomy, astrophysics, or space science should also consult the "Astronomy Course Program (p. 406)" section of this bulletin.

## Ph.D. Minor in Physics

Doctoral students seeking a minor in Physics must take at least six courses from the following list: 210, 211, 212, 216, 220, 230, 231, and 234 among the 20 required units. Courses must be taken for a letter grade.

All prospective minors must obtain approval of their Physics course program from the Physics Graduate Study Committee at least one year before conferral of the Ph.D.

*Emeriti:* (Professors) Alexander L. Fetter, William A. Little, Douglas D. Osheroff, David M. Ritson, H. Alan Schwettman, Robert V. Wagoner, John Dirk Walecka, Stanley G. Wojcicki, Mason R. Yearian; (Professors, Research) John A. Lipa, Todd I. Smith, John P. Turneaure; (Professors, Courtesy) Peter A. Sturrock (Applied Physics), Richard Taylor (SLAC National Accelerator Laboratory)

*Chair:* Peter F. Michelson

*Associate Chair:* TBD

*Professors:* Tom Abel, Steven Allen, Roger Blandford, Phil Bucksbaum, Patricia Burchat, Blas Cabrera, Steven Chu, Sarah Church, Persis Drell, Savas G. Dimopoulos, Sebastian Doniach, David Goldhaber-Gordon, Giorgio Gratta, Patrick Hayden, Kent Irwin, Shamit Kachru, Steven Kahn, Renata E. Kallosh, Aharon Kapitulnik, Mark Kasevich, Steven A. Kivelson, Robert B. Laughlin, Andrei D. Linde, Bruce Macintosh, Kathryn Moler, Peter F. Michelson, Vahe Petrosian, Roger W. Romani, Zhi-Xun Shen, Stephen Shenker, Eva Silverstein, Leonard Susskind, Carl Wieman, Shoucheng Zhang

*Associate Professors:* Peter Graham, Sean Hartnoll, Chao-Lin Kuo, Benjamin Lev, Hari Manoharan, Xiao-liang Qi, Srinivas Raghu, Leonardo Senatore, Risa Wechsler

*Assistant Professors:* Benjamin Feldman, Jason Hogan, Monika Schleier-Smith, Douglas Stanford, Lauren Tompkins

*Professors (Research):* Leo Hollberg, Phillip H. Scherrer

*Courtesy Professors:* Daniel Akerib, Rhiju Das, Craig Levin, Stephen Quake, Thomas Shutt, Richard N. Zare

*Lecturers:* Ryan Hazelton, Chaya Nanavati, Rick Pam, Timothy Wisner

*Adjunct Professor:* Ralph DeVoe, Steve Yellin

# POLITICAL SCIENCE

Courses offered by the Department of Political Science are listed under the subject code POLISCI on the Stanford Bulletin's ExploreCourses web site.

## Mission of the Undergraduate Program in Political Science

The mission of the undergraduate program in Political Science is to provide students with a solid grasp of the American political system and other political systems within the context of global forces, international conflicts, social movements, ideological systems and diversity. Courses in the major are designed to help students gain competency in the primary subfields of political science including American and comparative politics, international relations, and the theory/philosophy of politics; to introduce students to a variety of research methodologies and analytical frameworks; and to develop students' written and oral communication skills. Students in the program have excellent preparation for further study in graduate or professional schools as well as careers in government, business, and not-for-profit organizations.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. an understanding of core knowledge within the discipline of political science.
2. the ability to communicate ideas clearly and persuasively in writing.
3. the ability to analyze a problem and draw correct inferences using qualitative and/or quantitative analysis.
4. the ability to evaluate theory and critique research within the discipline of Political Science.

## Graduate Programs in Political Science

The Department of Political Science offers two types of advanced degrees:

- the Doctor of Philosophy
- the Master of Arts in Political Science which is available to Stanford students who are currently enrolled in other advanced degree programs.

The department does not have a terminal M.A. program for external applicants.

The principal goal of the Stanford Ph.D. program in Political Science is the training of scholars. Most students who receive doctorates in the program do research and teach at colleges or universities. The department offers courses and research opportunities in a wide variety of fields in the discipline, including American politics, comparative politics, international relations, political theory, and political methodology. The program is built around small seminars that analyze critically the literature of a field or focus on a research problem. These courses prepare students for the Ph.D. comprehensive exam requirement within a two-year period and for work on the doctoral dissertation.

Admission to the graduate program in Political Science is highly selective. Approximately 14-18 students, chosen from a large pool of applicants, enter the program each year. The small size of the student body allows more individual work with members of the faculty than most

graduate programs. It also makes possible financial assistance to most students admitted to the Ph.D. program.

Additional information on the admissions process is available on the Department of Political Science website (<https://politicalscience.stanford.edu/graduate-program/prospective-students/phd-admissions>).

## Learning Outcomes (Graduate)

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in Political Science. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of Political Science and to interpret and present the results of such research.

Pursued in combination with a doctoral degree, the master's program furthers students' knowledge and skills in Political Science. This is achieved through completion of courses in three subfields, and experience with independent work and specialization.

## Bachelor of Arts in Political Science

To receive a B.A. in Political Science, a student must:

1. Submit a Political Science major proposal during a meeting with the undergraduate administrator and declare on Axess. Forms are available in Encina Hall West, room 100, or at the Department of Political Science web site (<https://politicalscience.stanford.edu/undergraduate-major/major>). For additional information, students may visit the Political Science office or phone (650) 723-1608.
2. Complete 70 units including:
  - a. 5 unit introductory class, POLISCI 1 The Science of Politics, preferably taken before the end of sophomore year.
  - b. 40 Political Science course units in a primary and secondary track combined. Each major must declare a primary track and take at least 25 units in this track. The secondary track must be completed with at least 15 units. The five track options include:
    - i. Justice and Law

POLISCI 29N	Mixed-Race Politics and Culture	3
POLISCI 31N	Political Freedom: Rights, Justice, and Democracy in the Western Tradition	3
POLISCI 31Q	Justice and the City	3
POLISCI 102	Politics and Public Policy	4-5
POLISCI 103	Justice	4-5
POLISCI 114D	Democracy, Development, and the Rule of Law	5
POLISCI 122	Introduction to American Law	3-5
POLISCI 124R	The Federal System: Judicial Politics and Constitutional Law	5
POLISCI 125P	The First Amendment: Freedom of Speech and Press	4-5
POLISCI 126P	Constitutional Law	3
POLISCI 127A	Finance and Society for non-MBAs	4
POLISCI 128S	The Constitution: A Brief History	5
POLISCI 130	20th Century Political Theory: Liberalism and its Critics	5

POLISCI 241S	Spatial Approaches to Social Science	5
POLISCI 247A	Games Developing Nations Play	5
POLISCI 343A	Field Methods	3-5
POLISCI 347A	Games Developing Nations Play	5
POLISCI 352	Introduction to Game Theoretic Methods in Political Science	3-5
POLISCI 354	Thinking Strategically	5
POLISCI 355A	Data Science for Politics	5
POLISCI 355B	Machine Learning for Social Scientists	5
POLISCI 355C	Causal Inference for Social Science	5
POLISCI 356A	Formal Theory I: An Introduction to Game Theory	3-5
POLISCI 356B	Formal Theory II: Models of Politics	3-5
POLISCI 358	Data-driven Politics	3-5
c. A 5-unit methods requirement satisfied by:		
Select one of the following:		5
POLISCI 150A	Data Science for Politics	5
POLISCI 155	Political Data Science	5
STATS 60	Introduction to Statistical Methods: Precalculus	5
ECON 102A	Introduction to Statistical Methods (Postcalculus) for Social Scientists	5
CS 106A	Programming Methodology	3-5
d. 20 additional Political Science units including no more than 5 units of directed reading.		
e. No more than two 3 unit Stanford Introductory Seminar courses can be applied toward the 70 unit major requirement.		
3. Demonstrate the capacity for sustained research and writing in the discipline. This requirement is satisfied by taking a Political Science		

course designated as a Writing in the Major (WIM) course and does not need to be taken in your primary track.

Select one of the following approved Writing in the Major (WIM) courses:

POLISCI 103	Justice	4-5
POLISCI 110C	America and the World Economy	5
POLISCI 110D	War and Peace in American Foreign Policy	5
POLISCI 120C	American Political Institutions in Uncertain Times	5
POLISCI 121	Political Power in American Cities	5
POLISCI 212C	Civil War and International Politics: Syria in Context	5
POLISCI 236S	Theories and Practices of Civil Society, Philanthropy, and the Nonprofit Sector	5
POLISCI 299A	Research Design	5

- Take at least one 5-unit, 200-level or 300-level undergraduate seminar in Political Science. This course may be taken within any part of the major, including the primary or secondary track.
- Students may count up to 25 units of course work from outside the Political Science department toward their Political Science major. This related course work is intended to supplement your learning within the Political Science major.

Designated cognate courses are listed on the Approved Cognate Courses (<https://politicalscience.stanford.edu/undergraduate-major/major/cognatesrelated-courses>) list and can be applied directly to the major, without a petition. Cognate courses may be applied in any of the following ways:

- Up to one cognate course in your primary track
  - Up to one cognate course in your secondary track
  - Methods course requirement
  - Additional related course work requirement
- Courses not on the Approved Cognate Courses (<https://politicalscience.stanford.edu/undergraduate-major/major/cognatesrelated-courses>) list may be petitioned toward the major. Course petitions are reviewed and approved by the Director of Undergraduate Studies. Petitions ([https://files-politicalscience-stanford-edu.s3.amazonaws.com/s3fs-public/political\\_science\\_course\\_petitionfillable.pdf](https://files-politicalscience-stanford-edu.s3.amazonaws.com/s3fs-public/political_science_course_petitionfillable.pdf)) must be submitted to the undergraduate administrator within one quarter of course completion or within one quarter of declaring the major.
  - Directed reading and Oxford tutorial units require a petition and may only be applied towards related course work units. These units may not be used in the concentrations, and no more than 10 combined units of directed reading and Oxford tutorial units may count toward the required 70 Political Science units.
  - All courses for the major must be completed with a letter grade of 'C' or better.

## Minor in Political Science

Students must complete their declaration of the minor on Axxess no later than Autumn of their senior year. They must submit the minor declaration form to the undergraduate administrator in Encina Hall West 100. This form can be found in Encina Hall West 100 or on the Political Science web site (<https://politicalscience.stanford.edu/undergraduate-program/political-science-minor>).

To receive a minor in Political Science, a student must complete a minimum of 30 unduplicated units. All units must be in Political Science courses or related courses. All courses for the minor must be taken for

a letter grade. Students must receive a minimum letter grade of 'C' in all courses for the minor.

### Units

#### Introductory Course

The student should enroll in POLISCI 1 The Science of Politics preferably in their freshman or sophomore year.

#### Track

The student selects a track in which four courses are taken. These courses are at a more advanced level (numbered above 100) and should follow enrollment in POLISCI 1. There are five track options: Justice and Law, International Relations, Data Science, Political Economy and Development, and Elections, Representation, and Governance.

#### Additional Course Work

This may include courses within any of the five tracks or a directed reading, Stanford in Washington, Bing Overseas courses, or cognate courses from the Approved Cognate Course (<https://politicalscience.stanford.edu/undergraduate-major/major/approved-cognate-courses>) list. A maximum of 5 units of directed reading may count if supervised by a member of the Political Science department. Cognate courses may be applied only to additional course work.

#### Transfer Work

A maximum of 10 units of work completed outside Stanford may be given Political Science credit toward the minor for transfer students. All such cases must be individually reviewed and approved by the Director of Undergraduate Studies.

## Master of Arts in Political Science

The Political Science department does not offer a terminal M.A. degree. An M.A. degree may only be pursued in combination with a doctoral degree from another department within the University or with an advanced degree from one of the University's professional schools. Students interested in pursuing the M.A. should discuss the application requirements with the graduate administrator in Political Science.

The department does not offer a coterminal master's degree.

Students from within the department and from other degree programs who have applied to the M.A. program may elect to take the M.A. degree in Political Science when they have met the following requirements:

- Completion of at least three quarters of residency as a graduate student with 45 units of credit of which at least 25 units must be taken in Political Science graduate seminars of 300 level and above. Not more than 25 units of the 45-unit requirement may be taken in a single field.
- At least two graduate seminars (10 units) in each of two fields and at least one graduate seminar (5 units) in a third field.

The Political Science fields that students may choose from are: International Relations, Comparative Politics, American Politics, Political Theory and Political Methodology.

- The remaining 20 units must come from courses numbered above 100. Of those 20 units, not more than 10 units of work from related departments may be accepted in lieu of a portion of the work in Political Science. Not more than 10 units may be taken as directed reading.
- A grade point average (GPA) of 2.7 (B-) or better must be attained for directed readings and all course work. No thesis is required.

Political Science doctoral candidates may pursue master's degrees from other departments. Recent examples include but are not restricted to master's degrees in Statistics and Economics. Students interested in

this option should consult the relevant sections of this bulletin for both University and department requirements for master's degrees.

## Doctor of Philosophy in Political Science

The University's basic requirements for the Ph.D. degree are discussed in the "Graduate Degrees (p. 50)" section of this bulletin.

Programs of study leading to the Ph.D. degree are designed by the student, in consultation with advisers and the Director of Graduate Studies, to serve his or her particular interests as well as to achieve the general department requirements. A student is recommended to the University Committee on Graduate Studies to receive the Ph.D. degree in Political Science when the following program of study has been completed:

1. **Statement of Purpose:** By the beginning of the fourth quarter in residence, each graduate student submits a statement of purpose to the student's adviser. This statement indicates the student's proposed major fields of study, the courses taken and those planned to be taken to cover those fields, the student's plan for meeting language and/or skill requirements, plans for scheduling of comprehensive examinations and/or research papers, and, where possible, dissertation ideas or plans. This statement is discussed with, and must be approved by, the student's adviser. In the Autumn Quarter following completion of their first year, students are reviewed at a regular meeting of the department faculty. The main purposes of this review are, in order of importance: to advise and assist the student to realize his or her educational goals; to provide an opportunity for clarifying goals and for identifying ways to achieve them; and to facilitate assessment of progress toward the degree.
2. **Two Major Fields:** The candidate for the Ph.D. degree must demonstrate proficiency in two major fields: American politics, comparative politics, international relations, methodology, and political theory. Students demonstrate proficiency by fulfilling, depending on the field, combinations of the following: written qualifying examinations, research papers, or course work. Each field offers a series of three or four courses designed to familiarize students with the literature of that field. In addition, a field may require that students take one or more elective courses covering a specific aspect of the field. All courses that a student uses to fulfill a major field requirement must be taken for a letter grade of 'B' or better. Specific requirements for completing each field can be found on the field statements (<https://politicalscience.stanford.edu/academics/graduate-programs/resources-current-students>), available on the Political Science department website.
3. **Third Minor Field:** The candidate for the Ph.D. degree must also complete a third minor field. The third field requirement is usually satisfied by taking two courses for at least three units each from among courses approved by the field convener. All courses used to fulfill the third minor field requirement must be taken for a letter grade of 'B' or better. The third field cannot be satisfied by courses taken as a requirement for a major field. A third field in political theory requires two courses in addition to the five units necessary to fulfill the political theory program requirement (see item 4). A third concentration in methodology requires 10 units in addition to the 10 units necessary to fulfill the quantitative methods program requirement (see item 5).
4. **Political Theory Requirement:** Every Ph.D. candidate must complete at least one quarter of graduate-level instruction in political theory. All courses used to fulfill the political theory requirement must be taken for a letter grade of 'B' or better.
5. **Quantitative Methods Requirement** Every Ph.D. candidate must take POLISCI 450A Political Methodology I: Regression and POLISCI 450B Political Methodology II: Causal Inference in order to fulfill the quantitative methods requirement. Credit for equivalent classes is at the discretion of the political methodology field convener. All courses used to fulfill the quantitative methods requirement must be taken for a letter grade of 'B' or better.
6. **Competence in a Language and/or Skill:** The Ph.D. candidate is required to demonstrate competence in a language and/or skill that is likely to be relevant to the dissertation research. The level of competence needed for completion of the research is determined by the student's adviser. Previous instruction can be counted towards this requirement only if approved by the Director of Graduate Studies.
7. **Comprehensive Exams:** Students must take a comprehensive exam in their primary field by the end of their second year in the program. Students are expected to have passed this examination by the end of their second year.
8. **Second-year Research Paper:** Prior to being advanced to candidacy, each student must produce a research paper (field paper) demonstrating the capacity to produce research at a level expected of students preparing to write a high quality Ph.D. dissertation. The second-year research paper is given considerable weight as the faculty consider an application for candidacy. Students are advised to begin work on their second-year research papers in the summer between their first and second years in the program, and to submit a first draft to their advisers sometime in the Autumn Quarter of their second year. Second-year research papers are considered incomplete until approved by the two faculty readers. Students are expected to have submitted an approved field paper by the end of their second year.
9. **Advancement to candidacy:** In accordance with University guidelines, Ph.D. students are expected to advance to candidacy by the end of their sixth quarter in the program (i.e., by the end of their Spring Quarter in their second year in the program). It is the department's practice that all students in their sixth quarter be considered for candidacy at a special meeting of the faculty (typically in Week 10 of Spring Quarter). All the requirements for advancing to candidacy listed below must be completed by this meeting. Should a student not be advanced to candidacy by the end of the sixth quarter, the student is at risk of being dismissed from the Ph.D. program. To be eligible for advancement to candidacy, students must complete the requirements listed below.
  - a. two major fields
  - b. a third minor field
  - c. the political theory requirement
  - d. the quantitative methods requirement
  - e. the second-year research paper
  - f. Advancement to candidacy is not automatic upon completion of these requirements. Advancement to candidacy is an expression by the faculty of their confidence that the student can successfully complete the Ph.D. program, and in particular, complete a doctoral dissertation that is an original contribution to scholarship that exemplifies the highest standard of the discipline.
10. **Dissertation Prospectus:** During the third year, a formal dissertation prospectus must be submitted to and approved by the student's dissertation adviser and the Director of Graduate Studies. The dissertation prospectus must be approved by the end of the third year. Students must also make a dissertation prospectus presentation in the third year.
11. **TA Requirement:** A candidate for the Ph.D. in Political Science is required to serve as a teaching assistant (TA) in the department for a minimum of three quarters. Many students need to TA for up to five quarters as part of their funding package.
12. **Oral Examination:** The candidate must pass the University oral examination on the area of the dissertation at a time, after the passing of the written comprehensive examinations, suggested by the candidate's dissertation committee.

13. Dissertation: The candidate must complete a dissertation satisfactory to the dissertation reading committee.
14. Adequate Progress In addition to the specific program requirements listed above, at each stage of the Ph.D. program, the department has the following minimum standards for adequate academic progress:
- Except in rare circumstances, no more than two of the following on the transcript at any given time: incomplete ('I'); grade not reported ('GNR'); not passed or no credit ('NP' or 'NC'); or withdraw ('W').
  - Adequate grades in all courses taken each term ('B-' and below are regarded as inadequate).
  - Graduate students in the first year must enroll for at least 15 units and must pass at least 8 units per term by the end of the term. Graduate students in years 2, 3 and 4 must register for at least 8 units and must pass at least 6 units by the end of each term.
  - Advance to candidacy by close of sixth quarter (i.e., for most students, the end of their second academic year in the Ph.D. program);
  - Dissertation prospectus presentation made and approval of dissertation prospectus on file by the end of the third year.
  - Dissertation reading committee formed by end of the fourth year.
  - Advance to TGR status by end of the fourth year.
  - Substantial progress toward completion of the dissertation in fourth and fifth years.

## Ph.D. Minor in Political Science

Candidates in other departments which accept a minor in Political Science select two concentrations in political science in consultation with the Director of Graduate Studies and submit to her or him a program of study for approval. Written approval for the program must be obtained from the Director of Graduate Studies before application for doctoral candidacy. Students are required to complete at least 20 units in Political Science courses. Courses must be 300 level and above. Grades must be a GPA of 3.0 (B) or better.

*Emeriti:* (Professors) David B. Abernethy, Lucius J. Barker, Richard A. Brody, Joshua Cohen, David Danielski, Charles Drekmeier, Richard R. Fagen, John A. Ferejohn, Terry L. Karl, John W. Lewis, John Manley, James March, Daniel Okimoto, Robert A. Packenham, Philippe Schmitter, Hans N. Weiler

### Cognate Courses

1. Students may count up to twenty-five units of coursework from outside the Political Science department toward their Political Science major. This related coursework is intended to supplement your learning within the Political Science major.

Designated cognate courses are listed on the Approved Cognate Courses (<https://politicalscience.stanford.edu/undergraduate-major/major/cognatesrelated-courses>) list and can be applied directly to the major, without a petition. Cognate courses may be applied in any of the following ways:

- a. Up to one cognate course in your primary track
- b. Up to one cognate course in your secondary track
- c. Methods course requirement
- d. Additional related coursework requirement

## Overseas Studies Courses in Political Science

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

# PSYCHOLOGY

Courses offered by the Department of Psychology are listed under the subject code PSYCH on the Stanford Bulletin's ExploreCourses web site.

The department, housed in Jordan Hall, maintains many computer-equipped laboratories and the Stanford Center for Cognitive and Neurobiological Imaging (CNI). Bing Nursery School, located on campus at 850 Escondido Road, provides a laboratory for child observation, training in nursery school teaching, and research. It was constructed with funding from the National Science Foundation and a special grant from Mrs. Anna Bing Arnold and Dr. Peter Bing.

The department provides

- courses designed for the general student
- a major program leading to the degree of Bachelor of Arts, including options for honors and a specialization in one of four content area tracks
- an undergraduate minor program
- programs of graduate study and research leading to the degree of Doctor of Philosophy
- a Ph.D. minor

Applications are not accepted for the master's degree except as noted below.

## Mission of the Undergraduate Program in Psychology

The mission of the undergraduate program in Psychology is to introduce students to the theories and empirical studies of human behavior. This includes the study of aging, achievement, child development, cognitive processes, conflict, culture, decision making, emotion, group behavior, health, identity, infancy, language, learning and memory, morality, motivation, personality, psychopathology, race, self, social perception, visual perception, and other related topics. The major provides students with knowledge and skills relevant to professional careers in technology, business, counseling, education, public policy, law, and medicine, as well as graduate studies in Psychology.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to demonstrate:

1. an understanding of core knowledge within the discipline of psychology including relevant theory and research.
2. the ability to analyze a problem correctly using discipline specific methodology.
3. the ability to draw sound inferences and conclusions from data.
4. the ability to write and communicate ideas clearly.

## Learning Outcomes (Graduate)

The purpose of the master's program is to further develop knowledge and skills in Psychology and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization. The master's program is available only to Ph.D. students in Psychology and, under special circumstances, students enrolled in other graduate programs offered through the University.

The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research

and analysis in Psychology. Through completion of advanced course work and rigorous skills training, the doctoral program prepares students to make original contributions to the knowledge of Psychology and to disseminate this knowledge.

## Bachelor of Arts in Psychology

### Major Requirements

Students declaring a major in Psychology must complete a minimum of 70 units of course work in Psychology, 60 of which must be taken in the Psychology department. The remaining 10 units can be taken outside of the Psychology department but must be pre-approved by the student services office or faculty adviser. These courses should represent a coherent thematic focus. One way to achieve this focus is through a field of study. Courses taken to satisfy the 70-unit requirement must be taken for a grade of C- or better (except for courses offered only on a satisfactory/no credit basis). Majors must take PSYCH 1 Introduction to Psychology, and PSYCH 10 Introduction to Statistical Methods: Precalculus. Advanced placement (AP) credit may not be used toward the Psychology major requirements. Beyond these two required courses, students must complete at least five of the following eleven core Psychology courses, with a minimum of two from each area A and B:

		Units
<b>Area A</b>		
PSYCH 30	Introduction to Perception	3
PSYCH 35	Minds and Machines	4
PSYCH 45	Introduction to Learning and Memory	3
PSYCH 50	Introduction to Cognitive Neuroscience	4
<b>Area B</b>		
PSYCH 60	Introduction to Developmental Psychology	3
PSYCH 70	Self and Society: Introduction to Social Psychology	4
PSYCH 75	Introduction to Cultural Psychology	5
PSYCH 80	Introduction to Personality and Affective Science	3
PSYCH 90	Introduction to Clinical Psychology	3
PSYCH 95	Introduction to Abnormal Psychology	3

Students must take one Writing in the Major (WIM) course in Psychology, and should check the Stanford Bulletin yearly as these courses may change. The department also strongly recommends that all majors take at least one advanced seminar.

Students may count up to 10 units of research, independent study, and practica (including but not limited to PSYCH 194 Reading and Special Work, PSYCH 195 Special Laboratory Projects, PSYCH 281 Practicum in Teaching) toward the Psychology major. Students who are teaching assistants for a Psychology course or are enrolled in the senior honors program are allowed up to 15 units in independent study and research. Any units beyond the limit of 10 or 15 may be counted toward the 180 units required for graduation.

Students who are double majoring or completing a minor degree in another department may not overlap (double-count) courses, unless the overlapping courses constitute introductory skill requirements, such as PSYCH 10 Introduction to Statistical Methods: Precalculus. In this instance, while the course requirement would be satisfied, the units for the course can only be applied to one program of study, not both. Consult the student services office for further clarification.

Summer Quarter Psychology courses are not equivalent to courses given during the regular academic year and, while applicable toward the 70 units needed for the major, may not be used to fulfill core course requirements. Therefore, PSYCH 1, PSYCH 10, and the Area A and B courses cannot be taken during Summer Quarter to fulfill the major requirements. Additionally, a course taken during the Summer Quarter

cannot be used to replace the grade of a non-Summer Quarter course, even if the title and units of the two courses are the same.

## Beyond the Minimal Requirements

The following recommendations may be helpful to students who wish to plan a program that goes beyond the minimal requirements listed above:

1. Within the general major, the student may take advanced undergraduate or graduate courses (although some require the consent of the instructor), including seminars. The student may also take advantage of widespread opportunities for directed research, working closely with individual faculty and graduate students.
2. The student may apply to the senior honors program, described below.
3. The student may elect to pursue one of four specialization tracks of study: Cognitive Sciences; Health and Development; Mind, Culture, and Society; or Neuroscience, described below.

The training obtained from the pursuit of any of these options is valuable not only for students considering graduate work in Psychology, but also for those thinking of professional careers outside of Psychology in fields such as technology, business, counseling, education, law, public policy or medicine.

## Credit from Outside the Department

Psychology majors must complete at least 60 units of course work toward their major at Stanford within the Psychology department. Psychology majors may count no more than a total of 10 units credit from outside the department toward the major. Both majors and minors, under extenuating circumstances, may use one course from outside the department to fulfill core course requirements. Additional courses may be used to fulfill the 70-unit major requirement, but may not be counted as core courses. Please see the student services office for further clarification.

Petition for transfer of credit is rarely granted. In cases where petitioning is necessary, there are two types of credit from outside the department: external transfer credit for courses taken at institutions other than Stanford and credit for courses in other Stanford departments. A student must have already declared Psychology as a major or minor in order to submit a petition for transfer credit. Stanford credit for courses completed at other institutions must have been granted by the External Credit Evaluation section of the Registrar's Office; those units may be applied toward the 180 units required for graduation. To have credit from outside the department evaluated to fulfill requirements toward the Psychology major or minor, students must complete an Undergraduate Petition form, available from the student services office, and submit it with a course syllabus. Students requesting external transfer credit must also submit a copy of the signed transcript from the External Credit Evaluation section of the Registrar's Office showing the number of Stanford units granted for the course. The Psychology department then evaluates external credit courses and courses from other Stanford departments to determine if they can be applied toward Psychology major or minor requirements.

## Specialization Tracks

Students in the major program, including those in the senior honors program, may elect to specialize in one of four specialization tracks:

- Cognitive Sciences
- Health and Development
- Mind, Culture, and Society
- Neuroscience

These tracks consist of a coherent set of courses leading to advanced undergraduate or even graduate-level courses in an area. In the ideal case, the student who specializes would acquire an understanding

of a range of psychological processes, as well as an appreciation of the significance of these processes in the chosen area of application. Specialization in one of the tracks can facilitate preparation for a professional career as well as for graduate work in Psychology.

Participation in a specialization track is optional, although students who do not wish to complete all the requirements for a track may still want to use the track as a guideline for an integrated program in Psychology. Students who choose to complete a specialization track must meet the requirements for the major plus the additional requirements designated for the track. Typically, the courses required for a track include one or two required courses, four to six recommended courses in Psychology, one or two advanced seminars, and three or four courses in related disciplines. Psychology courses completed for the track count toward satisfying the major requirements. Courses from other departments listed for the track may count toward the 10 outside units for the major requirement, but must be pre-approved by the student services office or faculty adviser.

These specialization tracks are declared on Axxess upon approval of faculty adviser. They appear on the transcript but not on the diploma.

## Honors Program

The senior honors program is designed for exceptional Psychology majors who wish to pursue a year of intensive supervised independent research. Admission to the program is made at the end of the student's junior year on the basis of:

- excellent academic performance
- previous research experience
- two letters of recommendation by faculty and/or graduate students

Applications are available in April and are to be submitted to the department's student services office with a current transcript and recommendations prior to the student's senior year.

Students interested in the program should involve themselves in research as early as possible and should acquire a broad general background in Psychology, including statistics, and a deep background in their chosen area. Typically, students work in their honor thesis adviser's lab for at least one quarter. The honors program is particularly appropriate for students planning to go to graduate school in Psychology or in other social sciences, as well as in computer science, business, counseling education, law, public policy and medicine.

During Autumn Quarter of their senior year, honors program students participate in a weekly seminar and meet with their advisers to develop their experimental program and begin data collection. Winter and Spring Quarters are devoted to completing the research, analyzing the data, and writing the thesis, which is submitted mid-May. Students give oral presentations of their projects at the annual Honors Convention. This convention is attended by undergraduates, graduate students, and faculty.

## Minor in Psychology

### Declaration

Students who wish to declare a minor field of concentration in Psychology must do so no later than the deadline for their application to graduate.

### Degree Requirements

Completion of a minimum of 35 units in Psychology is required for the minor, including PSYCH 1 Introduction to Psychology and PSYCH 10 Introduction to Statistical Methods: Precalculus, or a comparable statistics course. Advanced placement (AP) credit may not be used towards the Psychology minor.

The minor must include three of ten core courses with a minimum of one from each of two areas and elective Psychology courses of at least three units each, totaling 35 units:

#### Area A

Select a minimum of one of the following:

PSYCH 30	Introduction to Perception
PSYCH 35	Minds and Machines
PSYCH 45	Introduction to Learning and Memory
PSYCH 50	Introduction to Cognitive Neuroscience

#### Area B

Select a minimum of one of the following:

PSYCH 60	Introduction to Developmental Psychology
PSYCH 70	Self and Society: Introduction to Social Psychology
PSYCH 75	Introduction to Cultural Psychology
PSYCH 80	Introduction to Personality and Affective Science
PSYCH 90	Introduction to Clinical Psychology
PSYCH 95	Introduction to Abnormal Psychology

#### Elective Psychology Courses

Students who declared a Psychology minor prior to the 2005-06 academic year may choose to complete seven total courses:

		Units
PSYCH 1	Introduction to Psychology	5
PSYCH 10	Introduction to Statistical Methods: Precalculus	5

Three core courses

Two elective courses

Independent study, research, and practica cannot be counted toward the minor. Summer Quarter Psychology courses are not applicable toward the 35 units needed for the minor.

All courses used to fulfill the requirements of the minor must be passed with a grade of C- or better, except for courses offered only on a satisfactory/no credit basis.

## Master of Arts in Psychology

The Department of Psychology offers a master of arts degree only to students concurrently enrolled in other Stanford graduate programs.

A master of arts degree is available to students enrolled in the Department's Ph.D. program. For such students, the requirements of the M.A. degree are listed in the "Doctoral" tab of this section.

In exceptional cases, students concurrently enrolled in another doctoral or professional program at Stanford may also apply for the M.A. degree. In such cases, the applicable admissions and degree requirements are determined on a case by case basis. Such applicants should consult with the student services office in the Department of Psychology.

All applicants must satisfy University residency requirements for the degree and are responsible for consulting with their primary departments or the Financial Aid Office about the effects of the proposed program on their current funding. General University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

## Coterminal Master's Program

The Psychology department no longer offers a coterminal master's program. Students who were admitted to the coterminal program

in earlier years should refer to the Bulletin of their entering year for applicable policy information.

## Units Doctor of Philosophy in Psychology

There are no specific course requirements for admission to the doctoral program. However, an applicant should have research experience as an undergraduate, as well as the equivalent of an undergraduate major in Psychology. The major focus of the doctoral program is on research training, and admission is highly selective.

Applicants for admission must submit their scores on the general Graduate Record Examination as part of the application.

General University requirements for the Ph.D. are described in the "Graduate Degrees (<http://www.stanford.edu/dept/registrar/bulletin/4901.htm>)" section of this bulletin.

In addition to fulfilling Stanford University requirements for the degree, the following departmental requirements are stipulated.

### First-Year Course Requirements

During the first year of graduate study, the student should take PSYCH 207 Professional Seminar for First-Year Ph.D. Graduate Students, at least one approved graduate statistics course, and at least two core courses from the following list:

		Units
PSYCH 202	Cognitive Neuroscience	3
PSYCH 205	Foundations of Cognition	1-3
PSYCH 211	Developmental Psychology	1-3
PSYCH 212	Classic and contemporary social psychology research	1-3
or PSYCH 215	Mind, Culture, and Society	
PSYCH 213	Affective Science	3

Students in each area may be required to take up to two additional non-core graduate courses in their area of specialization.

The student is expected to spend at least half of the time in research from the beginning of the first year of graduate study to the completion of the Ph.D., taking no more than 10 units of course work each quarter. At the end of the first year of graduate study, the student must file with the department a written report of the first-year research activities.

### Second-Year Course Requirements

By the end of the second year of graduate study, the student should complete at least one additional core course for a total of three taken from the list above, and take a second approved graduate course in statistics as well as other courses contributing toward completion of the advanced course or minor requirement described below.

*Optional Application for Conferral of the M. A. Degree:* Graduate students, who have completed (a) the first-year and second-year course requirements, and (b) at least 45 units of Psychology courses, may apply for conferral of the M.A. degree. This application should be discussed with the Student Services office in the Department of Psychology.

### Third-Year and Beyond

By the end of the third year the student should complete all of the required core courses listed above and should be well on the way toward completion of the advanced course or minor requirement.

Students are expected to form a research committee, which must include the dissertation reading committee, before the initiation of the dissertation research. The research committee includes the dissertation adviser and consists of at least three faculty members, at least two of

whom should have primary appointments in the Psychology department. For University guidelines for the composition of the dissertation reading committee, see the "Graduate Degrees (<http://www.stanford.edu/dept/registrar/bulletin/4901.htm>)" section of this bulletin.

The research committee should meet no later than the last day of classes of Spring Quarter of the third year, and determines the timeline for further development of the dissertation research project. Subsequent meetings are triggered by the completion of one of two documents: a dissertation proposal (DP) or a conceptual analysis of the dissertation area (CADA). The timing and sequencing of the DP and CADA are developed by the student in consultation with the committee. As a general guide, one of the two preliminary elements (CADA or DP) should be completed by the end of the third Summer Quarter and the second should be completed by the end of the fourth Spring Quarter. Students are free to alter the membership of the committee at any time during the process, subject to consultation with the adviser.

The DP should be a description of the proposed research. The CADA provides a framework for the research topic of the dissertation, addresses the central issues within the specialty area, and reviews the pertinent literature.

## Advanced Course or Minor Requirements

The candidate must complete 12 units of advanced graduate course work or a Ph.D. minor in another department. If a student waives the minor requirement in favor of the 12 advanced units, the student must fulfill the advanced course requirement by taking (a) non-core graduate courses, and/or (b) graduate-level courses in other departments comparable in quality to Psychology's graduate courses. If there is any question about comparability, the student should consult the adviser, student services, and, in some cases, the graduate program committee chair before taking the course.

## Orals

The candidate must pass the University oral examination, which also serves as a dissertation defense. A committee is formed to review the oral examination, including the dissertation reading committee, an additional faculty member, and one oral examination committee chair from outside the Psychology department. The oral examination consists of a 40-45-minute presentation to the department of the completed dissertation research. Parents and friends are welcome to attend. Following the presentation, the student and the committee convene for a discussion of the dissertation and the presentation.

## Dissertation Requirements

The candidate must complete a dissertation satisfactory to the dissertation reading committee prior to the oral examination. Minor revisions to formatting may be made after the oral examination.

Ph.D. candidacy expires five years after admission to candidacy at the end of the second year of study. Reapplication requires department reexamination.

## Student Evaluations

*First-Year Evaluation:* It is the department's policy to evaluate the progress of each graduate student at the end of the first year of graduate study. As part of the procedure, each student is required to file with the department a report of the first-year research activities.

Students should discuss this report and the evaluation procedures with their adviser as early as possible in their first year. If the student fulfills the academic promise displayed upon entrance, he or she is invited to continue working towards the doctorate.

The first-year evaluation is primarily based on three factors:

1. quality of research carried out in the first year

2. performance in courses (especially required courses)
3. recommendations of the adviser (including a commitment on the part of that adviser to continue in that role).

*Second-Year and Beyond Evaluation:* A similar evaluation is conducted at the end of each year of graduate training involving the same criteria as the first year; however, the student is not required to submit a paper. Students who are not making satisfactory progress may be dropped from the program.

## The Doctoral Training Program

As indicated by the requirements described above, a student concentrates in any one of several areas within Psychology. Regardless of area, however, the training program places emphasis on the development of research competence, and students are encouraged to develop those skills and attitudes that are appropriate to a career of continuing research productivity.

Two kinds of experience are necessary for this purpose. One is the learning of substantial amounts of technical information. A number of courses and seminars are provided to assist in this learning, and a student is expected to work out a program, with his or her adviser, to attain this knowledge in the most stimulating and economical fashion.

A second aspect of training is one that cannot be gained from the courses or seminars. This is firsthand knowledge of, and practical experience with, the methods of psychological investigation and study. These methods include ways of behaving with the subjects being studied. Students are provided with whatever opportunities they need to reach those levels of competence representative of doctoral standing. Continuing research programs, sponsored by members of the faculty, offer direct opportunities for experience in fields represented by the faculty's many research interests.

Each student achieves competence in unique ways and at different rates. Each student and adviser share in planning a program leading to the objectives discussed. The student is expected to spend half of his or her time on research and takes no more than 10 units of course work per quarter. For further information please contact the student services office and the department graduate guide.

## Teaching Requirement

The department views experience in supervised teaching as an integral part of its graduate program. Regardless of the source of financial support, all students serve as teaching assistants for at least five Psychology courses during their graduate study. Of these five teaching occasions, two must involve PSYCH 1, or either two Statistics courses (i.e., PSYCH 10, PSYCH 252, PSYCH 253, and PSYCH 254), or one Statistics course and one other course the department may designate as a service course.

		Units
PSYCH 1	Introduction to Psychology	5
or PSYCH 10	Introduction to Statistical Methods: Precalculus	
PSYCH 252	Statistical Methods for Behavioral and Social Sciences	1-6
or PSYCH 253	High-Dimensional Methods for Behavioral and Neural Data	
or PSYCH 251	Lab in Experimental Methods	

Students are discouraged from participating in teaching during the first year of graduate study. However, all first and second year students are strongly encouraged to attend a one-day TA Training Workshop offered in September before the autumn quarter. Students typically progress from closely supervised teaching to more independent work. Some students

may be invited to offer a supervised, but essentially independent, seminar during their final year of graduate study.

## Psychology Colloquium

The Psychology Colloquium meets on most Wednesday afternoons at 3:45 p.m. Speakers from Stanford and other institutions present topics of current interest. Graduate students are expected to attend. Additional announcements may be found at the Colloquium Schedule (<http://www.stanford.edu/dept/psychology/colloquium>) web site.

## Ph.D. Minor in Psychology

Candidates for the Ph.D. degree in other departments may elect a minor in Psychology. To obtain a minor, the student must complete 20 units of course work at the graduate level in the Department of Psychology, excluding PSYCH 275 Graduate Research. Crosslisted graduate courses can be used to satisfy this requirement. All courses counting toward the Ph.D. minor must be passed with a grade of 'B-' or better, unless the course is offered only on a credit/no credit basis.

*Emeriti: (Professors)* Albert Bandura, Gordon H. Bower, Herbert H. Clark, John H. Flavell, Leonard M. Horowitz, Mark R. Lepper, Eleanor Maccoby, Roger N. Shepard, Claude M. Steele, Ewart A. C. Thomas, Barbara Tversky, Philip G. Zimbardo

*Chair:* Ian H. Gotlib

*Professors:* Laura L. Carstensen, Geoffrey Cohen, Carol Dweck, Jennifer L. Eberhardt, Ian H. Gotlib, Kalanit Grill-Spector, James J. Gross, Brian Knutson, Ellen M. Markman, Hazel R. Markus, James L. McClelland, Dale Miller, Benoit Monin, Russell A. Poldrack, Lee D. Ross, Jeanne L. Tsai, Anthony D. Wagner, Brian Wandell, Jeffrey J. Wine

*Professor (Research):* Anthony Norcia

*Associate Professors:* Anne Fernald, Michael C. Frank, Noah Goodman, Gregory M. Walton

*Associate Professor (Teaching):* Catherine Heaney

*Assistant Professors:* Alia Crum, Justin Gardner, Hyowon Gweon, Steven Roberts, Daniel Yamins, Jamil Zaki

*Lecturers:* Parul Chandra, Amie Haas, Mary Peck Peters, Jennifer Winters, Beth Wise

*Courtesy Professors:* William C. Dement, Gary H. Glover, Jon Krosnick, Fei-Fei Li, Tanya Luhmann, Robert MacCoun, Bruce McCandliss, William T. Newsome, Robb Willer

# PUBLIC POLICY

Courses offered by the Public Policy Program are listed under the subject code PUBLPOL on the Stanford Bulletin's ExploreCourses website.

The Public Policy program offers a Bachelor of Arts, an honors program, a minor for undergraduates, a coterminal M.A. in Public Policy, a two-year professional Master of Public Policy (M.P.P.) degree, and a one-year non-professional Master of Arts in Public Policy (M.A.).

Admission to the M.P.P. and M.A. programs is restricted to current Stanford undergraduates and graduate students, Stanford alumni (who have graduated within the past 5 years), and external applicants seeking a joint graduate degree.

## Mission of the Undergraduate Program in Public Policy

The mission of the undergraduate program in Public Policy is to provide students with the concepts and tools used in evaluating policy options and outcomes, and to prepare students for entry-level positions in organizations concerned with such analysis. The focus is chiefly on issues such as health, education, environmental, regulation, and science and technology policy, applicable anywhere in the world.

Courses in the major provide students with a background in economics and quantitative methods, political science, law, philosophy, ethics, organizational behavior, and social psychology. Economics and quantitative analyses are central to but not sufficient for modern public policy analysis; political science, law, philosophy, organizational behavior, and psychology are among other necessary disciplinary perspectives. Political science offers insights into the decision-making process and information needs of a democracy. Political philosophy and ethics form the foundations of public policy. Organizational behavior focuses on the decisions made outside the market environment in hierarchies, bureaucracies, and teams.

Seniors have a research capstone requirement consisting either of an honors thesis or participation in a team practicum project, conducting applied policy research for an outside client, typically a nonprofit or government agency. Students majoring in Public Policy are prepared for careers in a wide variety of fields, including elected or appointed public office; business, law, and governmental agencies; research institutes; or for further study in graduate programs.

## Learning Outcomes (Undergraduate)

The Public Policy Program expects its undergraduate majors to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the program. Students are expected to:

1. Demonstrate knowledge and understanding of public policy analytical tools.
2. Evaluate applied theoretical and empirical work in policy-relevant research.
3. Apply skills and knowledge acquired in the curriculum to analyze policy issues and make policy recommendations.
4. Communicate complex ideas clearly and persuasively in written and oral forms.
5. Demonstrate mastery of the above outcomes in the senior capstone project.

## Mission of the Graduate Program in Public Policy

The mission of the graduate program in Public Policy is to provide students with the advanced skills necessary to assess the performance of alternative approaches to policy making and implementation, evaluate program effectiveness, understand the political constraints faced by policy-makers, and appreciate the conflicts in fundamental human values that often animate policy debate. After completing the graduate core curriculum, students apply these skills by focusing their studies in a three-quarter, 10-unit practicum for the M.P.P. degree or a 5-unit master's thesis for the M.A. degree. Each student in the M.P.P. program also completes at least one concentration tailored to the student's primary degree program or the student's interests and skills. Current concentrations include:

- Education Policy
- Health Care Policy
- International and National Security Policy
- Legal and Regulatory Intervention
- Political and Moral Philosophy
- Resources, Environment, and Energy Policy
- Science and Technology Policy
- Self-designed (requires detailed statement of study goals, relationship of each proposed course to those goals, and commitment by a supervising faculty member)
- Urban and Regional Policy

## Graduate Degrees Offered

The graduate program in Public Policy offers two master's degrees:

- Master of Public Policy (M.P.P.), a two-year professional degree program; available to current Stanford students and Stanford alumni (who have graduated within the past five years)
- Master of Arts (M.A.), a one-year program, not intended as a professional degree; available to current Stanford students

## Joint Degree Programs

The following joint degree programs, which permit students to complete requirements for two degrees with a reduced number of total residency units, are also offered:

- Juris Doctor with a Master of Public Policy (J.D./M.P.P.)
- Juris Doctor with an M.A. in Public Policy (J.D./M.A.)
- Doctor of Medicine with a Master of Public Policy (M.D./M.P.P.)
- Doctor of Philosophy in Economics, Education, Management Science and Engineering, Psychology, Sociology or Structural Biology with a Master of Public Policy (Ph.D./M.P.P.)
- Master of Business Administration with a Master of Public Policy (M.B.A./M.P.P.)
- Master of Arts in Education (Policy, Organization, and Leadership subplan) with a Master of Public Policy (M.A./M.P.P.)
- Master of Arts in International Policy Studies with a Master of Public Policy (M.A./M.P.P.)
- Master of Science in Management Science and Engineering with a Master of Public Policy (M.S./M.P.P.)

Requirements for the joint degrees differ from the requirements of completing the two degrees separately. See the "Master's Degrees in Public Policy (<http://exploreddegrees.stanford.edu/schoolofhumanitiesandsciences/publicpolicy/#masterstext>)" section for more details.

University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this Bulletin.

## Learning Outcomes (Graduate)

The purpose of the master's program is to develop knowledge and skills in public policy and to prepare students for a professional career or doctoral studies. This is achieved through completion of courses, in the primary field as well as related areas, and experience with independent work and specialization.

The M.P.P. or M.A. degree is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in public policy. Through completion of advanced course work and rigorous skills training, the graduate program prepares students to make original contributions to the knowledge of public policy and to interpret and present the results of such research.

## Bachelor of Arts in Public Policy

The Public Policy undergraduate major develops the skills necessary for understanding the political constraints faced by policy makers, assessing the performance of alternative approaches to policy implementation, evaluating the effectiveness of policies, and appreciating the sharp conflicts in fundamental human values that often animate the policy debate.

There are four course elements to the major: preparatory, core, concentration, and senior capstone. Freshman and sophomore years are generally devoted to completing preparatory courses offered in economics, math, and psychology. After completing core courses primarily during the sophomore and junior years, students apply these skills by focusing their studies in one of several areas of concentration. The areas of concentration address a specific field of public policy, various types of institutions, or a deeper development of the tools of policy analysis. Seniors may complete the senior capstone either by participating in a practicum, a team policy research project for an outside client, and/or by writing an honors thesis.

Completion of the Bachelor of Arts degree in Public Policy requires a minimum of 77 units of course work.

Students must complete the Public Policy core, concentration, and the senior capstone requirement for a letter grade and with an overall grade point average of 2.3 (C+) or higher.

Public Policy students are encouraged to secure a faculty adviser within the first two quarters in the major, and must secure a faculty adviser no later than the end of Winter Quarter of the junior year. The director, student services staff, and peer advisers can assist by suggesting suitable faculty advisers. Advisers must be approved by the program director. The adviser need not be affiliated with the Public Policy program, but does need to be a member of Stanford's Academic Council.

The Public Policy program encourages students to attend the Bing Stanford in Washington Program (<http://bsiw.stanford.edu>) and to participate in appropriate Stanford internship programs, especially those available through the Haas Center for Public Service (<http://haas.stanford.edu>) and Stanford in Government (<http://sig.stanford.edu>).

## Preparatory Courses (34 units)

		Units
ECON 1	Principles of Economics	5
ECON 50	Economic Analysis I	5
Select one of the following:		5
PUBLPOL 51	Microeconomics for Policy	
or ECON 51	Economic Analysis II	

ECON 102A	Introduction to Statistical Methods (Postcalculus) for Social Scientists	5
ECON 102B	Applied Econometrics	5
MATH 51	Linear Algebra and Differential Calculus of Several Variables	5
Select one of the following:		4
MS&E 180	Organizations: Theory and Management	4
or PSYCH 70	Self and Society: Introduction to Social Psychology	
or PSYCH 138	Wise Interventions	
or PUBLPOL 305B	Public Policy and Social Psychology: Implications and Applications	

At most 10 units of preparatory course work may be taken as credit/no credit. Between ECON 50 and ECON 51/ PUBLPOL 51, no more than 5 units can be taken for credit/no credit. Between ECON 102A and ECON 102B, no more than 5 units can be taken for credit/no credit.

## Core Courses (23-25 units)

All core courses must be completed for a letter grade. Variable unit courses must be taken for 5 units.

		Units
PUBLPOL 101	Politics and Public Policy	5
PUBLPOL 104	Economic Policy Analysis	5
Select one of the following ethics courses:		5-6
PUBLPOL 103C Justice		
PUBLPOL 103D Ethics and Politics of Public Service		
PUBLPOL 134	Ethics on the Edge: Business, Non-Profit Organizations, Government, and Individuals (Students who take PUBLPOL 134 must also take PUBLPOL 103E Ethics on the Edge Public Policy Core Seminar or PUBLPOL 103F Ethics of Truth in a Post-Truth World)	
Select one of the following WIM courses:		5
PUBLPOL 106	Law and Economics	
or PUBLPOL 154	Politics and Policy in California	
or PUBLPOL 156	Health Care Policy and Reform	
Select one of the following advanced empirical methods courses:		3-5
PUBLPOL 105	Empirical Methods in Public Policy (preferred course)	
or ECON 102C	Advanced Topics in Econometrics	
or PUBLPOL 303	Applied Econometrics for Public Policy	
or STATS 202	Data Mining and Analysis	

## Concentration (15 units)

Majors must complete at least 15 units of course work for a letter grade in an area of concentration. This post-core course work must be approved by the student's faculty adviser and the program director no later than the end of Spring Quarter of the junior year. Any subsequent changes made to a student's concentration must be approved by the student's faculty adviser. Students select their concentration in Axess as a degree subplan. Subplans are printed on transcripts and diplomas. Areas of concentration include, but are not limited to:

- Advanced Policy Analysis
- Design of Public Institutions
- Development and Growth Policies
- Discrimination, Crime, and Poverty Policy
- Education Policy
- Health Care Policy
- International and National Security Policy

- Law and the Legal System
- Political and Moral Philosophy
- Resources, Environment, and Energy Policy
- Science and Technology Policy
- Urban and Regional Policy

## Capstone Research Requirement

Seniors are required to demonstrate competency in applied policy research. This requirement is fulfilled either by participating in a practicum project in which small student teams analyze real world policy problems faced by a government or nonprofit organization and produce a report for use by the client or by writing an honors thesis. A seminar for honors students is offered Autumn Quarter (PUBLPOL 200H Senior Honors Seminar, 3 units). The Practicum is offered Autumn, Winter and Spring quarters (PUBLPOL 200A Senior Practicum, 5 units; PUBLPOL 200B Senior Practicum, 5 units; and PUBLPOL 200C Senior Practicum, 5 units). The capstone research requirement must be completed for a letter grade.

## Honors Program

The Public Policy Program offers students the opportunity to pursue honors work during the senior year. The honors thesis must address a policy issue and demonstrate mastery of relevant analytical tools.

### Eligibility and Preparation

In order to be eligible to write an honors thesis, students must achieve a grade point average (GPA) of 3.5 or above in the Public Policy core courses and concentration courses taken by the time of application for the honors program. If accepted, the student must maintain a GPA of 3.5 in the course requirements for a B.A.H. in Public Policy (Public Policy core courses, concentration courses, PUBLPOL 200H Senior Honors Seminar and PUBLPOL 199 Senior Research). Please note that courses not taken at Stanford are not included in calculating the GPA.

Students who intend to pursue honors work should plan their academic schedules so that most of the core courses are completed before the beginning of the senior year, and all of the core and concentration courses are completed by the end of Winter Quarter of senior year. It is strongly encouraged that students pursuing honors work complete their advanced empirical methods course (PUBLPOL 105, ECON 102C, PUBLPOL 303D, or STATS 202) by the end of Spring Quarter of the junior year. All students pursuing honors are required to take PUBLPOL 200H Senior Honors Seminar during Autumn Quarter of their senior year. This scheduling gives students both the time and the necessary course background to complete their honors thesis during senior year. In addition, prospective honors students are encouraged to enroll in the PUBLPOL 197 Junior Honors Seminar and attend Bing Honors College. PUBLPOL 197 focuses on developing a research plan and learning the skills necessary to complete an honors thesis.

### Application Process

A student must submit a completed application to the Public Policy Program office with a brief description of the thesis no later than the Wednesday of the third week of Autumn Quarter. Honors applications are found online (<https://publicpolicy.stanford.edu/academics/undergraduate/forms>). Prior to submitting an application to the honors program, the student must meet with the director of the honors program and obtain the sponsorship of a faculty member who approves the thesis description and agrees to serve as a thesis adviser. Students intending to write a thesis involving more than one discipline may wish to have two advisers, at least one of whom is affiliated with the Public Policy Program. Staff, executive committee members, lecturers, and affiliated faculty in Public Policy are available to provide assistance in selecting a thesis topic and adviser. At least one of the faculty advisers must be a

member of Stanford's Academic Council. A student's proposal must be approved by the thesis adviser and the director of the honors program.

## Enrollment and Milestones

During senior year, the student must enroll in at least 8 but no more than 15 units of PUBLPOL 199 Senior Research. One of these units should be taken with the director of the honors program in Winter Quarter to account for a series of biweekly check ins. The rest should be taken with the thesis adviser. The student needs to contact the program office to have his or her thesis adviser listed as a 199 instructor. An 'N' grade is given by the adviser in quarters prior to Spring when the thesis is completed and presented. All PUBLPOL 199 units must receive a final grade of at least a 'B+' in order to graduate with honors. In addition, the student must maintain a GPA of 3.5 in the course requirements for a B.A.H. in Public Policy (Public Policy core courses, concentration courses, PUBLPOL 200H Senior Honors Seminar and PUBLPOL 199 Senior Research). Courses not taken at Stanford are not included in calculating the GPA in order to graduate with honors from the Public Policy Program.

	Units
Public Policy Core Courses	23-25
Concentration	15
PUBLPOL 200H Senior Honors Seminar	3
PUBLPOL 199 Senior Research	8-15

A set of preliminary results on the research question is due to the thesis adviser and the honors program director by February 15. A first draft of the thesis is due to the thesis adviser and honors program director by April 1. The thesis adviser sets the deadline for receiving the final draft of the thesis. The final draft of the honors thesis must be submitted electronically and in a bound copy to the thesis adviser, the director of the honors program and the Public Policy Program office. In order to be considered for University and department awards, the final thesis must be submitted to the program office no later than the second Wednesday in May. All other theses must be submitted by the last Friday in May. Each student will give an oral presentation of their thesis.

Graduation with honors requires that the thesis be approved by both the adviser and the honors program director. The role of the honors program director is to assure that the thesis addresses an issue of public policy and satisfies the program's standards of excellence. However, the grade for the honors thesis (PUBLPOL 199 Senior Research units) is determined by the adviser.

## Minor in Public Policy

The Public Policy Program offers a minor that is intended to provide undergraduates in other majors with interdisciplinary training in applied social sciences.

Students who pursue the minor are required to take the courses listed below for a total of 35 units in Public Policy and its supporting disciplinary departments. Because University rules prohibit double-counting courses, the requirements for a minor differ according to the student's major requirements. It is required that students review their course plans with a program administrator. *Note:* Economics majors are permitted to double-count ECON 1 Principles of Economics, ECON 50 Economic Analysis I, and ECON 51 Economic Analysis II because such courses satisfy introductory skill requirements for the Economics major.

Public Policy students are never required to take a course that duplicates material they have already mastered. Students may, by petition, substitute a different course for a requirement whose material would be duplicative. This flexibility does not reduce the number of units required for the minor.

Students who pursue the minor must complete the Multiple Major/Minor Form ([http://studentaffairs.stanford.edu/sites/default/files/registrar/files/MajMin\\_MultMaj.pdf](http://studentaffairs.stanford.edu/sites/default/files/registrar/files/MajMin_MultMaj.pdf)) and have it reviewed by all applicable departments/programs the beginning of the quarter in which the degree is conferred.

## Required Course Work

		Units
ECON 1	Principles of Economics	5
ECON 50	Economic Analysis I	5
Select one of the following:		5
PUBLPOL 51 or ECON 51	Microeconomics for Policy Economic Analysis II	
ECON 102A	Introduction to Statistical Methods (Postcalculus) for Social Scientists	5
ECON 102B	Applied Econometrics	5
PUBLPOL 104	Economic Policy Analysis	5
Select one of the following depending on major requirements:		5-6
PUBLPOL 101	Politics and Public Policy	
PUBLPOL 103C	Justice	
PUBLPOL 106	Law and Economics	
PUBLPOL 154	Politics and Policy in California	
PUBLPOL 156	Health Care Policy and Reform	
PUBLPOL 134	Ethics on the Edge: Business, Non-Profit Organizations, Government, and Individuals (Students who take PUBLPOL 134 must also take PUBLPOL 103E Ethics on the Edge Public Policy Core Seminar or PUBLPOL 103F Ethics of Truth in a Post-Truth World)	

At most, 10 units of course work may be taken as credit/no credit. Between ECON 50 and ECON 51/ PUBLPOL 51, no more than 5 units can be taken for credit/no credit. Between ECON 102A and ECON 102B, no more than 5 units can be taken for credit/no credit.

Students who satisfy major requirements by taking ECON 50 and an introductory course in statistics such as ECON 102A or STATS 60 complete these requirements instead:

- PUBLPOL 105 Empirical Methods in Public Policy or
- ECON 102C Advanced Topics in Econometrics

## Coterminal M.A. in Public Policy

The coterminal M.A. in Public Policy is a degree program designed to impart the basic analytical tools of public policy analysis, or to permit Public Policy majors to specialize in an applied field of policy analysis. Most students complete their M.A. in a fifth year at Stanford; occasionally, students may be able to complete both their B.A. and coterminal M.A. in the fourth year.

Undergraduates with strong academic records may apply for admission upon completion of 120 units, but no later than the quarter prior to the expected completion of the undergraduate degree. The University requires that units for a given course may not be counted to meet the requirements of more than one degree; that is, no units may be double-counted. However, Public Policy students are never required to take a course which duplicates material they have already mastered. Students may, by petition, substitute a different course for a requirement whose material would be duplicative. This flexibility does not reduce the number of units required for the coterminal M.A.

The coterminal M.A. is also a gateway to the M.P.P. degree program. Stanford undergraduates may apply to the coterminal M.A. in Public Policy and then, after one quarter in the M.A. program, apply to the

M.P.P. program by submitting an application. Students accepted into the M.P.P. program must confer their bachelor's degree, submit the Graduate Authorization Petition in Axess, withdraw from the M.A. degree program, and complete the requirements for the 90-unit M.P.P. degree. This does not reduce the total number of units required for the bachelor's or master's degree. Earning the B.A. and M.P.P. typically takes at least five years. Students considering this option should be familiar with the University's coterminal degree policies and procedures and should consult the director and staff of the Public Policy Program early in their planning. There is a \$125 fee for submitting the Graduate Authorization Petition to change the M.A. to the M.P.P. degree.

## University Coterminal Requirements

Coterminal master's degree candidates are expected to complete all master's degree requirements as described in this bulletin. University requirements for the coterminal master's degree are described in the "Coterminal Master's Program (p. 46)" section. University requirements for the master's degree are described in the "Graduate Degrees (p. 50)" section of this bulletin.

After accepting admission to this coterminal master's degree program, students may request transfer of courses from the undergraduate to the graduate career to satisfy requirements for the master's degree. Transfer of courses to the graduate career requires review and approval of both the undergraduate and graduate programs on a case by case basis.

In this master's program, courses taken two quarters prior to the first graduate quarter, or later, are eligible for consideration for transfer to the graduate career. No courses taken prior to the first quarter of the sophomore year may be used to meet master's degree requirements.

Course transfers are not possible after the bachelor's degree has been conferred.

The University requires that the graduate adviser be assigned in the student's first graduate quarter even though the undergraduate career may still be open. The University also requires that the Master's Degree Program Proposal be completed by the student and approved by the department by the end of the student's first graduate quarter.

All courses counting towards the master's degree not considered core requirements must be approved by petition by the Public Policy Program.

## Degree Requirements

All applicants should have completed, or currently be enrolled in, the required preparatory course work prior to applying. These courses do not count towards the 45-unit M.A. requirement:

		Units
MATH 51	Linear Algebra and Differential Calculus of Several Variables	5
ECON 1	Principles of Economics	5
ECON 50	Economic Analysis I	5
ECON 51 or ECON 52 or PUBLPOL 51	Economic Analysis II Economic Analysis III Microeconomics for Policy	4-5
ECON 102A	Introduction to Statistical Methods (Postcalculus) for Social Scientists (or equivalent)	5
ECON 102B	Applied Econometrics	5

To graduate with a coterminal M.A. in Public Policy, students must:

1. Follow one of three tracks (A, B, or C) through the program, as described below.
2. Take all courses applied to the coterminal master's degree for a letter grade (with the exception of PUBLPOL 311 Public Policy Colloquium which is only offered S/NC). For courses with variable

units, coterminal students should, in their graduate career, enroll in the course for 4 units. Courses offered only for C/NC or other non-letter grade system may be applied upon approval of a petition to the program director.

- Secure a faculty adviser by the end of the first quarter enrolled in the coterminal M.A. degree program. The director and student services staff can assist by suggesting suitable faculty advisers. The adviser need not be affiliated with the Public Policy Program, but does need to be a member of Stanford's Academic Council.
- Achieve a cumulative grade point average (GPA) of 3.0 (B) or better for all courses taken towards the M.A.
- Coterminal M.A. students who are admitted to the M.P.P. must transfer all applicable M.A. units to the M.P.P. degree.
- Comply with all relevant University and program deadlines and policies.

### Track A

Public Policy majors follow Track A, which consists of at least 45 units of course work, including:

- 29 or more units in an area of concentration. The concentration is referred to as a degree subplan. Subplans are printed on the transcript and diploma and are elected via the Declaration or Change to a Field of Study form (<http://studentaffairs.stanford.edu/sites/default/files/registrar/files/grad-subplan-change.pdf>). Each concentration includes a set of gateway courses and a variety of electives. Gateway courses may vary year to year based on availability. Check each concentration page (<https://publicpolicy.stanford.edu/academics/graduate/concentrations>) to see the list of gateway courses. Students must present a coherent written study plan to support concentration course choices, designed in consultation with a faculty adviser and approved by the program director. At least one faculty adviser must be a member of the Academic Council.  
Current concentrations include:
  - Education Policy
  - Health Care Policy
  - International and National Security Policy
  - Legal and Regulatory Intervention
  - Political and Moral Philosophy
  - Resources, Environment, and Energy Policy
  - Science and Technology Policy
  - Self-designed (requires detailed statement of study goals, relationship of each proposed course to those goals, and commitment by a supervising faculty member)
  - Urban and Regional Policy
- Decision-Making Component - select one of the following courses\*:
  - LAW 7508 Problem Solving and Decision Making for Public Policy and Social Change
  - ECON 137 Decision Modeling and Information
  - GSBGEN 646 Behavioral Decision Making

\* Note that the decision-making requirement for Track A applies to coterminal students admitted in 2017-18, and does not apply to students previously admitted.

- All Public Policy graduate students are required to attend and enroll in three quarters of PUBLPOL 311 Public Policy Colloquium (3 units). Attendance and participation are mandatory.
- Completion of PUBLPOL 309 Practicum or PUBLPOL 310 faculty-supervised internship or thesis (5-10 units).
- All 45 units must be taken in upper division (100-level) courses, and at least 25 of those units must be at the graduate level (200-level and above).

### Track B

Economics majors typically follow the requirements detailed below in Track C; however, some Economics majors take courses for their major that also satisfy the content requirements of the Public Policy coterminal M.A. The following Economics courses, if taken for the undergraduate degree, can be used to fulfill content requirements, but not unit requirements, for the Public Policy coterminal M.A. In place of these courses, students may take advanced policy skills courses, or an approved (by petition) policy-related elective.

		Units
ECON 150	Economic Policy Analysis (fulfills the PUBLPOL 204 or PUBLPOL 301B requirement)	4-5
ECON 154	Law and Economics (fulfills the PUBLPOL 206 or PUBLPOL 302B requirement)	4-5
ECON 102C	Advanced Topics in Econometrics (fulfills the ECON 102C, PUBLPOL 205, PUBLPOL 303D, or STATS 202 requirement)	5

### Track C

Students who are not pursuing a major in Public Policy or Economics follow Track C, which consists of at least 45 units of course work in the analysis of public policy.

- The following core courses are required and count toward the required minimum 45 units:

		Units
PUBLPOL 201	Politics and Public Policy	4
or PUBLPOL 308	Political Analysis for Public Policymakers	
PUBLPOL 302B	Economic Analysis of Law (preferred course)	3-4
or PUBLPOL 206	Law and Economics	
PUBLPOL 301B	Economic Policy Analysis for Policymakers	4
or PUBLPOL 204	Economic Policy Analysis	
PUBLPOL 307	Justice	4
Select one of the following courses:		2-5
LAW 7508	Problem Solving and Decision Making for Public Policy and Social Change (preferred course)	
or ECON 137	Decision Modeling and Information	
or GSBGEN 64	Behavioral Decision Making	
Select one of the following courses:		4
MS&E 280	Organizational Behavior: Evidence in Action	
or PSYCH 138	Wise Interventions	
or PUBLPOL 31	Public Policy and Social Psychology: Implications and Applications	
Select one of the following advanced empirical methods courses:		3-5
PUBLPOL 205	Empirical Methods in Public Policy (preferred course)	
or ECON 102C	Advanced Topics in Econometrics	
or PUBLPOL 31	Applied Econometrics for Public Policy	
or STATS 202	Data Mining and Analysis	

- Complete a concentration of at least 15 units, under the guidance of a faculty adviser and the Public Policy program director.
- All Public Policy graduate students are required to attend and enroll in three quarters of PUBLPOL 311 Public Policy Colloquium (3 units total). Attendance and participation are mandatory.
- Students must petition to count additional advanced policy skills courses (if needed) to meet the 45-unit degree requirement. All 45 units must be taken in upper division (100-level) courses and at least 25 of those units must be taken at the graduate level (200-level and above).

Coterminal M.A. students must select a faculty adviser by the end of their first quarter in the program. Students may refer to the Concentrations Page (<https://publicpolicy.stanford.edu/academics/coterminal-degree/requirements/requirements-public-policy-majors>) for Track A coterm students, for a selection of pre-approved elective courses. Public Policy student services staff can verify scheduling of courses. At least one faculty adviser must be a member of the Academic Council.

## Application and Admission

There are two coterminal degree application deadlines for the 2017-18 academic year: November 16, 2017 and February 22, 2018. Applicants may be contacted for an interview. A \$125 fee is charged when adding the M.A. degree program in Axess.

To apply for admission to the Public Policy coterminal M.A. program, students should submit the following materials online by the appropriate deadline:

1. The Coterminal Online Application (<https://applyweb.com/stanterm>).
2. Statement of purpose, 500 words maximum (indicate interest in M.P.P. degree, if applicable)
3. One-page resume
4. GRE Scores; official GRE scores sent to Stanford University and an unofficial copy submitted with the application
5. A preliminary program proposal
6. A current unofficial undergraduate transcript
7. Two confidential letters of recommendation from Stanford faculty members familiar with the student's academic work
8. Coterm Program Approval from undergraduate department

## Financial Aid

The Public Policy Program does not provide financial assistance to coterminal students. For information on student loans and other sources of support, consult the Stanford Financial Aid Office (<http://financialaid.stanford.edu>). Students who enter public service employment with local, state, or federal agencies; schools; or certain not-for-profit organizations may obtain forgiveness for educational loans, based on years of public service employment.

## Master's Degrees in Public Policy

The program offers two master's degrees in Public Policy. The Master of Public Policy (M.P.P.) is a two-year professional degree, and the Master of Arts in Public Policy (M.A.) is a one-year non-professional degree.

At this time, eligibility for admission to the M.P.P. and M.A. programs is restricted to current Stanford undergraduate and graduate students, Stanford alumni (who have graduated within the past 5 years), and external applicants seeking a joint graduate degree. If you do not meet these criteria, you are not eligible for admission to the M.A. or the M.P.P. degree programs.

1. Public Policy Joint Degrees. Students enrolled in or applying to certain degree programs in the Schools of Business, Education, Engineering, Humanities and Sciences, Law, and Medicine are eligible to apply for Public Policy joint degrees. For further information, see the "Joint Degree Programs (p. 54)" section of this Bulletin and the University Registrar's site (<http://studentaffairs.stanford.edu/registrar/students/jdp-information>). All Public Policy joint degree programs, with the exception of the J.D./M.A., require at least one year of study at Stanford beyond the requirements for the other joint or dual degree.
  - Juris Doctor and Master of Public Policy (J.D./M.P.P.)
  - Juris Doctor and Master of Arts of Public Policy (J.D./M.A.)
  - Doctor of Medicine and Master of Public Policy (M.D./M.P.P.)

- Doctor of Philosophy in Education and Master of Public Policy (Ph.D./M.P.P.)
  - Doctor of Philosophy in Economics and Master of Public Policy (Ph.D./M.P.P.)
  - Doctor of Philosophy in Management Science & Engineering and Master of Public Policy (Ph.D./M.P.P.)
  - Doctor of Philosophy in Psychology and Master of Public Policy (Ph.D./M.P.P.)
  - Doctor of Philosophy in Sociology and Master of Public Policy (Ph.D./M.P.P.)
  - Doctor of Philosophy in Structural Biology and Master of Public Policy (Ph.D./M.P.P.)
  - Master of Business Administration and Master of Public Policy (M.B.A./M.P.P.)
  - Master of Arts in Education: Policy, Organization, and Leadership subplan and Master of Public Policy (M.A./M.P.P.)
  - Master of Arts in International Policy Studies and Master of Public Policy (M.A./M.P.P.)
  - Master of Science in Management Science & Engineering and Master of Public Policy (M.S./M.P.P.)
2. Dual Degrees. Any other Stanford graduate student (i.e., not covered in '1' above), Stanford senior, or Stanford alumnus/a (who has graduated within the past 5 years) is eligible to apply for a Public Policy dual degree. Stanford graduate students may subsequently withdraw from their original degree programs, if desired.
    - Master of Public Policy (M.P.P.)
    - Master of Arts in Public Policy (M.A.): Available only to current Stanford graduate students

## Prerequisites

Graduate students in Public Policy are expected to be literate in mathematics and microeconomics at a level equivalent to MATH 51 Linear Algebra and Differential Calculus of Several Variables and ECON 50 Economic Analysis I before beginning the curriculum. A no-credit refresher course in mathematics and economics is offered in the two weeks preceding the start of Autumn Quarter. Attendance is strongly encouraged.

## M.P.P. and M.A. Degree Requirements

1. All graduate degree candidates must submit a Master's Degree Program Proposal (<https://stanford.app.box.com/v/progpropma>) to the Public Policy office by the end of Autumn Quarter and must amend this proposal formally if plans for meeting the degree requirements change.
2. Public Policy students are never required to take a course which duplicates material they have already mastered. Students may petition a different course for a core requirement whose material would be duplicative. This flexibility does not reduce the unit requirements for any degree. If a student wishes to count a class he or she is currently enrolled in, petitions must be submitted, at the latest, by Friday of the first week of classes.
3. All Public Policy graduate students must secure a faculty adviser within the first quarter they are enrolled in the M.A. or M.P.P. degree program. The director and student services staff can assist by suggesting suitable faculty advisers. The adviser need not be affiliated with the Public Policy Program, but does need to be a member of Stanford's Academic Council.
4. M.P.P. degree students are not permitted to enroll in PUBLPOL 309 Practicum, without having completed the following core courses: PUBLPOL 301A Microeconomics for Policy, PUBLPOL 301B Economic Policy Analysis for Policymakers, ECON 102A Introduction to Statistical Methods (Postcalculus) for Social

Scientists, PUBLPOL 303D Applied Econometrics for Public Policy, and PUBLPOL 306 Writing and Rhetoric for Policy Audiences.

## Curriculum Requirements

		Units
PUBLPOL 301A	Microeconomics for Policy	4
ECON 102A	Introduction to Statistical Methods (Postcalculus) for Social Scientists (or equivalent)	5
PUBLPOL 301B	Economic Policy Analysis for Policymakers	4
PUBLPOL 303D	Applied Econometrics for Public Policy (preferred course)	4
or PUBLPOL 206	Law and Economics	
Select one of the following courses:		2-5
LAW 7508	Problem Solving and Decision Making for Public Policy and Social Change (preferred course)	
or ECON 137	Decision Modeling and Information	
or GSBGEN 646	Behavioral Decision Making	
PUBLPOL 306	Writing and Rhetoric for Policy Audiences (requirement for M.P.P. students only. M.A. students may take as an elective)	4
PUBLPOL 307	Justice	4
PUBLPOL 308	Political Analysis for Public Policymakers	4

All core courses listed above must be taken for a letter grade (with the exception of PUBLPOL 311 Public Policy Colloquium which is only offered S/NC). Students must maintain a 3.0 (B) grade point average overall in courses applicable to the degree.

1. Core Curriculum (shown above)
2. At least two electives are taken during the first year. At least one must be from the Concentration Electives List (<https://publicpolicy.stanford.edu/academics/graduate/concentrations>).
3. Colloquium: All Public Policy graduate students are required to attend and enroll in three quarters of PUBLPOL 311 Public Policy Colloquium (3 units) during their first year of the program. Attendance and participation are mandatory.
4. Practicum (M.P.P. and Track A coterminal M.A. students): Completion of the practicum course, PUBLPOL 309 Practicum (10 units, Autumn and Winter quarters), in which interdisciplinary student teams analyze real-world policy issues for outside clients.
5. Master's Thesis (non-coterminal M.A. students): Completion of a 5-unit master's thesis, written under the guidance of a Public Policy-affiliated faculty adviser who is a member of Academic Council on a topic approved in advance by the program director. Students give the program office the name of their thesis adviser and enroll in PUBLPOL 310 Master of Arts Thesis units during quarter(s) of their choosing. The 5 units may be spread over multiple quarters, and an 'N' (continuing course) grade is given during any quarters prior to degree conferral. The thesis must be submitted to the Public Policy program office in both electronic and printed form no later than the last Friday before the end of the quarter. The final grade for PUBLPOL 310 is determined by the thesis adviser.
6. Concentration (M.P.P. students only): Advanced course work in a specialized field, chosen from the approved list of concentration courses (<https://publicpolicy.stanford.edu/academics/graduate/concentrations>) with the prior approval of the student's faculty adviser and the program director. The Registrar refers to such a concentration as a degree subplan. Public Policy subplans are printed on the transcript and diploma and are elected by the student via the Declaration or Change to a Field of Study form (<https://stanford.box.com/grad-subplan-change>). Current concentrations include:

- Education Policy
- Health Care Policy
- International and National Security Policy
- Legal and Regulatory Intervention
- Political and Moral Philosophy
- Resources, Environment, and Energy Policy
- Science and Technology Policy
- Self-designed (requires detailed statement of study goals, relationship of each proposed course to those goals, and commitment by a supervising faculty member)
- Urban and Regional Policy

## Public Policy Joint Degree Requirements

1. A joint degree (p. 54) is regarded by the University as distinct from either of its component degrees, and requirements for the joint degree differ from the sum of the requirements for the individual degrees.
2. Up to a maximum of 45 units, or one year, of the University residency requirement can be credited toward both graduate degree programs (i.e., the joint degree requirements may contain up to 45 units less than the sum of each program separately). For example, a J.D./M.P.P. has a four-year residency requirement, one year less than the sum of the requirements for the separate degrees. This recognizes that there is a subject matter overlap between the fields comprising the joint degree.
3. The Public Policy Program strives to encourage an intellectual, professional, and social community among its students. For this reason, joint degree students are strongly encouraged to devote one year of full-time study at Stanford entirely to the Public Policy Program rather than spacing Public Policy courses throughout their graduate careers. For joint degree Ph.D. students, the core requirements of the M.P.P. should be completed over two contiguous years of study, during which students may also be enrolled in courses from their Ph.D. program. Exceptions to this structure must be approved in advance by petition.
4. Joint degree students are expected to have and to consult regularly with an academic adviser. The adviser is generally a member of the faculty of both degree programs and must be a member of Academic Council. The program director and staff are available to make adviser recommendations.
5. In order to take advantage of the reduced residency requirement, joint M.P.P. students must define their area of concentration from among courses offered in their non-Public Policy program. Students wishing to concentrate in another field should apply for a dual, rather than a joint, M.P.P. degree.

## Application and Admissions

Applications for graduate study in Public Policy are only accepted from:

1. Students currently enrolled in any Stanford graduate or undergraduate degree program
2. External applicants seeking a joint degree, or
3. Stanford alumni (who have graduated within the past 5 years).

External applicants for joint degrees must apply to the department or school offering the other graduate degree (i.e., Ph.D., M.D., M.A., M.S., M.B.A., or J.D.), indicating an interest in the joint degree program; applicants admitted to the other degree program are then evaluated for admission to the M.P.P. or M.A. program.

To be considered for matriculation beginning in the Autumn Quarter 2018-19, all application materials must be submitted no later than April 10, 2018. The early deadline for applications is January 23, 2018 with a final deadline on April 10, 2018. Early submission of M.P.P. applications

is encouraged. Admission notifications will be sent to applicants by May 1, 2018. Admitted students are required to respond to offers of admission by May 15, 2018.

## Stanford Alumni and Current Stanford Seniors

Visit the Stanford Office of Graduate Admissions (<http://studentaffairs.stanford.edu/gradadmissions>). The online application for the M.P.P. is available beginning in mid-September 2017. The application fee is \$125. The program is unable to refund an application fee, so prospective applicants are advised to refer to eligibility requirements before submitting an application.

Only complete applications submitted by the deadline are reviewed. A complete application includes the following:

1. Application (<http://studentaffairs.stanford.edu/gradadmissions>).
2. Official transcripts. Copies of student transcripts must bear the official seal of the institution and the signature of the registrar. Upload transcripts to the online application.
3. GRE scores.
4. Letters of recommendation: Three confidential letters of recommendation from a Stanford faculty member or an employer should be submitted electronically via the online application. See the Stanford Office of Graduate Admissions web site regarding letters of recommendation (<https://gradadmissions.stanford.edu/applying/starting-your-application/required-application-documents/letters-recommendation>). At least two letters must be from Stanford faculty members.
5. Statement of purpose (not to exceed two pages; upload to the online application).
6. Academic writing sample (upload to the online application): This can be on any topic and may be either something previously written or something written specifically for the application. It should be 6-10 pages (double-spaced) and should showcase academic writing ability.
7. Resume or curriculum vitae (upload to the online application).

## Stanford Current Graduate Students

1. Application for Current Stanford Graduate Students (<https://publicpolicy.stanford.edu/academics/graduate/admissions/current-graduate-students>).
2. Two confidential letters of recommendation, one of which must be from a Stanford faculty member familiar with applicant's academic work.
3. Undergraduate and graduate transcripts.
4. GRE, GMAT, LSAT or MCAT test scores.
5. Statement of purpose, not to exceed two pages.
6. Resume or curriculum vitae.
7. Preliminary program proposal.
8. Prerequisite completion statement, demonstrating completion of required prerequisite course work in multivariate calculus and intermediate microeconomics.

Applicants may be interviewed. If admitted, students will submit a Graduate Authorization Petition (<https://registrar.stanford.edu/students/graduate-degree-progress/graduate-program-authorization-petition>) through AxBSS. A \$125 fee is charged when adding the M.A. or M.P.P. degree program in AxBSS.

## Gateway and Elective Courses for Master's Programs

### Education Policy Concentration

#### Education Policy Concentration Gateway Courses

ECON 146	Economics of Education	5
EDUC 220A	Introduction to the Economics of Education	4
EDUC 220B	Introduction to the Politics of Education	4
EDUC 222	Resource Allocation in Education	4-5
EDUC 271	Education Policy in the United States	3
EDUC 306A	Economics of Education in the Global Economy	5
EDUC 347	The Economics of Higher Education	3-4

#### Foundations - take at least two courses from this list

EDUC 201	History of Education in the United States	3-5
EDUC 212	Urban Education	3-5
EDUC 216	Education, Race, and Inequality in African American History, 1880-1990	3-5
EDUC 220C	Education and Society	4-5
EDUC 220D	History of School Reform: Origins, Policies, Outcomes, and Explanations	3-5
EDUC 276	Educational Assessment	3
EDUC 310	Sociology of Education: The Social Organization of Schools	4

#### Organizational Studies - take at least one course from this list

EDUC 288	Organizational Analysis	4
EDUC 316	Social Network Methods	4-5
EDUC 377	Comparing Institutional Forms: Public, Private, and Nonprofit	4
PUBLPOL 317	Comparing Institutional Forms: Public, Private, and Nonprofit	4

SOC 369	Social Network Methods	4-5
---------	------------------------	-----

#### Remaining units can be taken from the course lists below

EDUC 117	Research and Policy on Postsecondary Access	3
EDUC 202	Introduction to Comparative and International Education	4
EDUC 202I	International Education Policy Workshop	2-4
EDUC 205	Biosocial Medicine: The Social, Psychological, and Biological Determinants of Behavior and Wellbeing	2-3
EDUC 221A	Policy Analysis in Education	4-5
EDUC 265	History of Higher Education in the U.S.	3-5
EDUC 273	Gender and Higher Education: National and International Perspectives	4
EDUC 306A	Economics of Education in the Global Economy	5
EDUC 306B	Global Education Policy & Organization	3-5
EDUC 306D	World, Societal, and Educational Change: Comparative Perspectives	4-5
EDUC 306Y	Economic Support Seminar for Education and Economic Development	1
EDUC 323A	The Practice of Education Policy Analysis	3-5
EDUC 347	The Economics of Higher Education	3-4
EDUC 355	Higher Education and Society	3
EDUC 376	Higher Education Leadership Colloquium	2-3
EDUC 417	Research and Policy on Postsecondary Access	3
POLISCI 326T	The Politics of Education	3-5
SOC 273	Gender and Higher Education: National and International Perspectives	4

## Health Care Policy Concentration

### Health Care Policy Gateway Courses

BIOMEDIN 251	Outcomes Analysis	4
BIOMEDIN 432	Analysis of Costs, Risks, and Benefits of Health Care	4
ECON 126	Economics of Health and Medical Care	5

HRP 210	Health Law and Policy	3
HRP 211	Law and the Biosciences: Neuroscience	3
LAW 3003	Health Law: The FDA	3
MS&E 292	Health Policy Modeling	3
PUBLPOL 156	Health Care Policy and Reform	5
PUBLPOL 222	Biosecurity and Bioterrorism Response	4-5
PUBLPOL 231	Health Law: Finance and Insurance	3
<b>Health Care Policy Elective Courses</b>		
ANTHRO 179	Cultures of Disease: Cancer and HIV/AIDS	5
BIOE 390	Introduction to Bioengineering Research	1-2
CEE 265D	Water and Sanitation in Developing Countries	1-3
CEE 274D	Pathogens and Disinfection	3
ECON 118	Development Economics	5
ECON 127	Economics of Health Improvement in Developing Countries	5
ECON 147	The Economics of Labor Markets	5
ECON 214	Development Economics I	2-5
HRP 207	Introduction to Concepts and Methods in Health Services and Policy Research I	2
HRP 208	Introduction to Concepts and Methods in Health Services and Policy Research II	2
HRP 211	Law and the Biosciences: Neuroscience	3
HRP 225	Design and Conduct of Clinical and Epidemiologic Studies	3-4
HRP 226	Intermediate Epidemiologic and Clinical Research Methods	3
HRP 231	Epidemiology of Infectious Diseases	3
HRP 236	Epidemiology Research Seminar	1
HUMBIO 120	Health Care in America: An Introduction to U.S. Health Policy	4
HUMBIO 120A	American Health Policy	3
HUMBIO 122	Beyond Health Care: the effects of social policies on health	3
HUMBIO 122S	Social Class, Race, Ethnicity, and Health	4
HUMBIO 126	Promoting Health Over the Life Course: Multidisciplinary Perspectives	3
HUMBIO 129	Critical Issues in International Women's Health	4
HUMBIO 129S	Global Public Health	4
HUMBIO 153	Parasites and Pestilence: Infectious Public Health Challenges	4
HUMBIO 157	The Biology of Stem Cells	3
HUMBIO 173	Science, Innovation and the Law	5
MS&E 252	Decision Analysis I: Foundations of Decision Analysis	3-4
MS&E 256	Technology Assessment and Regulation of Medical Devices	3
MS&E 352	Decision Analysis II: Professional Decision Analysis	3-4
PSYCH 101	Community Health Psychology	4
PSYCH 102	Longevity	4

## International and National Security Policy Concentration

### International and National Security Policy Gateway Courses

IPS 241	International Security in a Changing World	5
POLISCI 114S	International Security in a Changing World	5

### International and National Security Elective Courses

IPS 210	The Politics of International Humanitarian Action	3-5
IPS 211	The Transition from War to Peace: Peacebuilding Strategies	3-5

IPS 219	Intelligence and National Security	3
IPS 230	Democracy, Development, and the Rule of Law	5
IPS 241	International Security in a Changing World	5
IPS 244	U.S. Policy toward Northeast Asia	5
IPS 250	International Conflict Resolution	2
MED 262	Economics of Health Improvement in Developing Countries	5
MS&E 243	Energy and Environmental Policy Analysis	3
POLISCI 336	Introduction to Global Justice	4

## Legal and Regulatory Intervention Concentration

### Legal and Regulatory Intervention Gateway Courses

ECON 157	Imperfect Competition	5
LAW 7001	Administrative Law	4,3
LAW 7001	Administrative Law	4,3
NBIO 201	Social and Ethical Issues in the Neurosciences	2-4

### Legal and Regulatory Intervention Elective Courses

BIOMEDIN 432	Analysis of Costs, Risks, and Benefits of Health Care	4
CEE 171	Environmental Planning Methods	3
CEE 175A	California Coast: Science, Policy, and Law	3-4
ECON 111	Money and Banking	5

*Director:* Gregory L. Rosston (Stanford Institute for Economic Policy Research)

*Directors of Graduate Practicum Program and Professor of the Practice of Public Policy:* Joe Nation (Public Policy) and Christine Pal Chee (Public Policy)

*Director of Domestic Policy Studies and Lecturer:* Lanhee J. Chen (Public Policy and Hoover Institution)

*Director of Honors Program and Lecturer:* Marcelo Clerici-Arias (Economics and Public Policy)

*Executive Committee Chair:* Mark Duggan (Economics, SIEPR)

*Executive Committee:* Laurence Baker (Medicine), Jonathan Bendor (Graduate School of Business), David Brady (Political Science, Hoover Institution, Graduate School of Business, SIEPR), Paul Brest (Law), Bruce Cain (Political Science, Bill Lane Center for the American West), Samuel Chiu (Management Science and Engineering), Thomas Dee (Education), David Grusky (Sociology), Deborah Hensler (Law), Roger Noll (Economics, emeritus, SIEPR), Bruce Owen (Public Policy, emeritus, SIEPR), Madhav Rajan (Graduate School of Business), Gregory Rosston (SIEPR), Debra Satz (Philosophy), John Shoven (SIEPR, Economics)

*Affiliated Faculty:* William Abrams (Human Biology), Donald Barr (Medicine), Jonathan Bendor (Graduate School of Business), Eric Bettinger (Education), Jayanta Bhattacharya (Medicine), Coit Blacker (Freeman Spogli Institute for International Studies), Lisa Blaydes (Political Science), Adam Bonica (Political Science), Michael J. Boskin (Economics, Hoover Institution), Paul Brest (Law), Jeremy Bulow (Graduate School of Business), M. Kate Bundorf (Medicine), Bruce Cain (Political Science, Bill Lane Center for the American West), Eamonn Callan (Education), Martin Carnoy (Education), John Cogan (Hoover Institution), Larry Diamond (Freeman Spogli Institute for International Studies, Hoover Institution), Lawrence Friedman (Law), Francis Fukuyama (Freeman Spogli Institute for International Studies), Lawrence Goulder (Economics, Freeman Spogli Institute for International Studies), Justin Grimmer (Political Science), Stephen Haber (Political Science, Hoover Institution), Deborah Hensler (Law), Pamela Hinds (Management Science and Engineering), Daniel Ho (Law), Nicholas Hope (Stanford Center for International Development), Caroline Hoxby (Economics, Hoover Institution, SIEPR), Daniel Kessler (Law, Hoover Institution, Graduate School of Business), Pete Klenow (Economics), Stephen Krasner (Political Science, Freeman Spogli Institute for International Studies, Hoover Institution), Jon A. Krosnick (Communication, Political Science), Mark Lemley (Law), Susanna Loeb (Education), Thomas MaCurdy (Economics, Hoover Institution), David Magnus (Medicine), Milbrey McLaughlin (Education), Terry Moe (Political Science, Hoover Institution), Joan Petersilia (Law), A. Mitchell Polinsky (Law), Walter Powell (Education), Robert Reich (Political Science), Lee Ross (Psychology), Baba Shiv (Graduate School of Business), Ken Shotts (Graduate School of Business), Stephan Seiler (Graduate School of Business), Stephan Stedman (Freeman Spogli Institute for International Studies), Jeff Strnad (Law), Barton Thompson (Law, Woods Institute, Freeman Spogli Institute for International Studies), Michael Tomz (Political Science, SIEPR), Milana Trounce (Medicine), Michael Wald (Law), Greg Walton (Psychology), Barry Weingast (Political Science, Hoover Institution), John Weyant (Management Science and Engineering), Frank Wolak (Economics, Freeman Spogli Institute for International Studies), Cristobal Young (Sociology)

*Lecturers:* Newsha Ajami (Woods Institute), Tanya Beder (Law), Frank Benest (Public Policy), David Crane (Public Policy, SIEPR), Dennis Gale (Urban Studies), Jonathan D. Greenberg (Law), Russell Hancock (Public Policy), Preeti Hehmeyer (Public Policy, Bill Lane Center for the American West), Adrienne Jamieson (Bing Stanford in Washington), Lawrence Litvak (Public Policy, Urban Studies), Susan Liautaud (Public Policy), Eva Meyersson Milgrom (SIEPR, Sociology), Christine Pal Chee (Public Policy), John Peterson (Public Policy, Program in Writing and Rhetoric), Mary Stroud (Public Policy, Program in Writing and Rhetoric), Patrick Windham (Public Policy)

## Overseas Studies Courses in Public Policy

The Bing Overseas Studies Program (<http://bosp.stanford.edu>) manages Stanford study abroad programs for Stanford undergraduates. Students should consult their department or program's student services office for applicability of Overseas Studies courses to a major or minor program.

The Bing Overseas Studies course search site (<https://undergrad.stanford.edu/programs/bosp/explore/search-courses>) displays courses, locations, and quarters relevant to specific majors.

For course descriptions and additional offerings, see the listings in the Stanford Bulletin's ExploreCourses (<http://explorecourses.stanford.edu>) or Bing Overseas Studies (<http://bosp.stanford.edu>).

		<b>Units</b>
OSPCPTWN 31	Political Economy of Foreign Aid	3
OSPFLOR 78	The Impossible Experiment: Politics and Policies of the New European Union	5
OSPFLOR 85	Bioethics: the Biotechnological Revolution, Human Rights and Politics in the Global Era	4
OSPKYOTO 45	Japan's Energy-Environment Conundrum	4
OSPOXFRD 18	Making Public Policy: An Introduction to Political Philosophy, Politics, and Economics	4-5
OSPSANTG 71	Santiago: Urban Planning, Public Policy, and the Built Environment	4-5
OSPSANTG 119X	The Chilean Economy: History, International Relations, and Development Strategies	5

# RELIGIOUS STUDIES

Courses offered by the Department of Religious Studies are listed under the subject code RELIGST on the Stanford Bulletin's ExploreCourses web site.

## Mission of the Department

The Department of Religious Studies brings a variety of disciplinary perspectives to bear on the phenomenon of religion for the purpose of understanding and interpreting the history, literature, thought, social structures, and practices of the religious traditions of the world. Comprised of a dozen regular faculty with particular strengths in the study of Buddhism, Christianity, Islam, and Judaism, it enrolls about thirty graduate students (mostly doctoral) and roughly as many undergraduate majors, minors, and joint majors.

Religious Studies works closely with several related programs at Stanford: the Department of Philosophy, with which it offers a combined undergraduate major; the Ho Center for Buddhist Studies; the Taube Center for Jewish Studies; the Abbasi Program in Islamic Studies; the McCoy Center for Ethics in Society; and the Center for Medieval and Early Modern Studies.

While some undergraduates continue their study of religion in a graduate or professional program, most pursue meaningful and successful careers in business, government, the nonprofit sector, and medicine. In this respect, Religious Studies is an ideal interdisciplinary major in the liberal arts. Graduates of the department's doctoral program generally pursue academic careers and are routinely placed in the best universities and colleges in the country and overseas.

## Undergraduate Programs in Religious Studies

The department offers a Bachelor of Arts major, minor, and honors program in Religious Studies, and a combined major with the Philosophy Department in Philosophy and Religious Studies. Undergraduate courses in Religious Studies are designed to engage students existentially and to assist them in thinking about intellectual, ethical, and sociopolitical issues in the world's religions. The department's faculty seek to provide tools for understanding the complex encounters among religious ideas, practices, and communities, and the past and present cultures that have shaped and been shaped by religion. Courses therefore expose students to: leading concepts in the field of religious studies such as god(s), sacrifice, ritual, scripture, prophecy, and priesthood; approaches developed over the past century, including the anthropological, historical, psychological, philosophical, and phenomenological, that open religion to closer inspection and analysis; and major questions, themes, developments, features, and figures in the world's religious traditions. The department encourages and supports the acquisition of languages needed for engagement with sacred texts and interpretive traditions as well as study abroad at Stanford's overseas centers where religions can be observed and experienced in their contemporary contexts.

## Major in Philosophy and Religious Studies

The departments of Philosophy and Religious Studies jointly nominate for the B.A. in Philosophy and Religious Studies those students who have completed a major in the two disciplines. See a description of this combined major under the "Bachelor's" tab of the "Religious Studies" section of this bulletin (p. 716), in the "Philosophy" section of this bulletin (p. 673), or in the guidelines available from the undergraduate director of either department.

## Learning Outcomes (Undergraduate)

The department expects undergraduate majors in the program to be able to demonstrate the following learning outcomes. These learning outcomes are used in evaluating students and the department's undergraduate program. Students are expected to:

1. demonstrate familiarity with a variety of methods used analytically in the field of Religious Studies.
2. demonstrate proficiency in writing papers in the style of academic writing in the field of Religious Studies.
3. demonstrate the ability to engage peer scholars' research in constructive and critical ways, and communicate feedback effectively.
4. demonstrate individual expertise through oral presentation of one's advanced research to peers.
5. complete an advanced research project consistent with standards for papers in the field of Religious Studies.

## Graduate Programs in Religious Studies

The graduate mission of the department is to provide students with an interdisciplinary setting of study within which to focus on their respective areas of specialization. The department offers an internal M.A. and a Ph.D. degree in Religious Studies. The master's program is restricted to current Stanford students.

## Learning Outcomes (Graduate)

*Master's Program:* The purpose of the Master's program is to develop knowledge and skills in Religious Studies. For some students this will serve as preparation for applications to Ph.D. programs. For others it will serve as a further capstone experience for their undergraduate program of study. The goals are achieved through the completion of courses, in the primary field as well as related areas, and experience with independent work and specialization. For some it will involve an optional Master's thesis.

*Doctoral Program:* The Ph.D. is conferred upon candidates who have demonstrated substantial scholarship and the ability to conduct independent research and analysis in Religious Studies. Through completion of advanced coursework and rigorous skills training, the doctoral program prepares students to make original contributions to the field of Religious Studies and to interpret and present the results of such research through teaching and publication.

## Bachelor of Arts in Religious Studies

### Suggested Preparation for the Major

There is no prescribed route or prerequisite to the major or minor in Religious Studies or the combined major in Philosophy and Religious Studies. Students typically find themselves selecting one of these paths after taking elective courses in the department and becoming acquainted with the faculty.

Students contemplating the major, the minor, or the Philosophy and Religious Studies major are invited to consult with the Director of Undergraduate Studies. The undergraduate student services associate in Building 70 can also field questions regarding the declaration procedure within the department.

### Degree Requirements

The curriculum for majors is designed to move students sequentially from foundational courses, through deeper investigations, culminating in integrative research courses. Thus, the introductory sequence is designed to lead to courses which build on this foundation with topics including: particular traditions such as Judaism or Buddhism; comparative studies such as nonviolence in Hinduism and Buddhism, or

Muslim and Christian interpretations of scripture; specific topics such as mysticism, gender and religion, or theodicy; and distinctive approaches such as the philosophy of religion or ritual studies. Majors complete their careers with integrative courses that afford opportunity for research and consolidation of the knowledge and skills gained earlier.

## Required Courses

A Bachelor of Arts in Religious Studies requires 60 units of course work, distributed as follows:

- Two courses (at least 3 units each) from courses numbered 1-49, including approved Thinking Matters or Introductory Seminars. Successful completion of SLE may count as one of these two courses. IHUM courses with Religious Studies content taught prior to 2012-13 also fulfill this requirement.
- Two courses (at least 3 units each) from courses numbered 50-99.
- Three integrative courses (at least five units each) as follows:

### Majors' Seminar (5)

RELIGST 290	Majors Seminar (Winter Quarter of junior year; fulfills WIM requirement; letter grade only)	5
-------------	---	---

### Senior Essay or Honors Thesis Research (5)

RELIGST 297	Senior Essay/Honors Essay Research (minimum 5 units; up to 10 units over two quarters; graded 'N' until completion of essay or thesis)	3-5
-------------	--	-----

### Senior Majors' Colloquium (5)

RELIGST 298	Senior Colloquium (Spring Quarter; grading option S/NC)	5
-------------	---	---

- At least 24 of the remaining units should be in courses numbered 100-289. At least two of these courses should be 200-level seminar courses.

## Additional Regulations

- Variations to the required distribution of courses under 1 and 2 above may be approved by the Director of Undergraduate Studies on an individual basis.
- All units must be in Religious Studies courses unless an exception is made by the Director of Undergraduate Studies.
- With the approval of the Director of Undergraduate Studies, up to two language courses relating to the student's program of study (such as Arabic, Biblical Hebrew, New Testament Greek, Chinese, Persian, or Japanese), but not counted towards the University language requirement, may be counted toward the major.
- No more than ten units of the total 60 (excluding RELIGST 298) may be taken for the grade of 'S/NC' or 'CR/NC.'
- Students may not take all courses in one religious tradition.

## Senior Essay

A 25-30 page essay on a topic chosen by the student and approved by the adviser upon receipt of a student's proposal by the end of the third quarter prior to expected graduation. The character and content of the essay, which is meant to allow the student to call into play knowledge and skills learned in the course of the major, may take several forms. For example, a student may return to a subject studied earlier but now pursued in more depth or from a new perspective, research a recent or new topic of interest in the field, or offer a carefully framed critical assessment of what has been learned in the major based on review of influential sources, theories, and methods of studying religion. The senior essay is read and graded by the student's adviser and one other member of the Religious Studies faculty.

## Honors Thesis

A 40-80 page research paper on a topic chosen by the student and approved by the adviser upon receipt of a proposal in the fourth quarter prior to expected graduation. The paper, supported by mastery of primary and secondary scholarship, advances a well-reasoned, supportable thesis. Writers of honors theses must have a grade point average (GPA) of 3.5 in Religious Studies courses, and at least 3.2 overall, and are expected to have already demonstrated success in writing research papers. The honors thesis is read and graded by the student's adviser and one other member of the Religious Studies faculty. Theses earning a grade of 'B+' or above receive honors.

## Philosophy and Religious Studies Combined Major

The undergraduate major in Philosophy and Religious Studies consists of 60 units of course work with approximately one third each in the philosophy core, the religious studies core, and either the general major or the special concentration. Affiliated courses cannot be used to satisfy this requirement.

No courses in either the philosophy or religious studies core may be taken satisfactory/no credit or credit/no credit.

In general, transfer units cannot be used to satisfy the core requirements. Transfer units and substitutions must be approved by the director of undergraduate studies in the appropriate department.

Please see a detailed description of the major in the "Philosophy" section of this Bulletin (p. ).

## Core Requirements

- Philosophy (PHIL) courses:
  - Required course: PHIL 80 Mind, Matter, and Meaning
  - 16 units, including at least one Philosophy course from each of the following areas:
    - logic and philosophy of science
    - ethics and value theory
    - epistemology, metaphysics, and philosophy of language
    - history of philosophy
- Religious Studies (RELIGST) courses: 20 units, chosen in consultation with the student's adviser, including:
  - Required Course: RELIGST 290 Majors Seminar (5 units; Winter Quarter; recommended junior year; fulfills WIM requirement).
  - At least one course in philosophy of religion, broadly construed, to be approved by the Director of Undergraduate Studies for Religious Studies.
  - Diversity requirement: Students may not take all their religion courses in one religious tradition.

## General Major Requirements

Five additional courses (approximately 20 units) divided between the two departments. No more than five of these units may come from courses numbered under 99 in either department. Each student must also take at least one undergraduate seminar in religious studies and one undergraduate seminar in philosophy.

## Special Concentration

With the aid of an adviser, students pursue a specialized form of inquiry in which the combined departments have strength; for example, American philosophy and religious thought, philosophical and religious theories of human nature and action, philosophy of religion. Courses for this concentration must be approved in writing by the adviser.

## Directed Reading and Satisfactory/No Credit Units

Units of directed reading for fulfilling requirements of the major are allowed only with special permission. No more than 10 units of work with a grade of 'satisfactory' count toward the Philosophy and Religious Studies major.

## Honors Program

Students pursuing a major in Philosophy and Religious Studies may also apply for honors by following the procedure for honors in either of the departments.

## Minor in Religious Studies

A Religious Studies minor is a complement to many majors throughout the University. Students contemplating the minor are invited to consult with the Director of Undergraduate Studies. The undergraduate student services associate in Bldg. 70 can also field questions regarding the declaration procedure within the department.

## Degree Requirements

A minor in Religious Studies requires a minimum of 30 units. Students are encouraged to focus their program of study either on a religious tradition or on a theme that cuts across traditions. In consultation with their advisers, students may design the minor in Religious Studies to complement their major. The minor must be declared no later than the last day of the quarter, two quarters before degree conferral.

### Required Courses for the Minor

1. One course (at least 3 units) from courses numbered 1-49, including approved Thinking Matters or Introductory Seminars. IHUM courses with Religious Studies content taught prior to 2012-13 also fulfill this requirement.
2. One course (at least 3 units) from courses numbered 50-99.
3. At least 14 of the remaining units should be at the intermediate and advanced level (above 100), including at least one 200-level seminar course.

### Additional Regulations

1. All units must be in Religious Studies courses unless an exception is made by the Director of Undergraduate Studies.
2. With the approval of the Director of Undergraduate Studies, one language course relating to the student's program of study (such as Arabic, Biblical Hebrew, New Testament Greek, Chinese, Persian, or Japanese), but not counted towards the University language requirement, may be counted toward the minor.
3. No course may be taken on a 'S/NC' or 'CR/NC' basis.
4. Students may not take all courses in one religious tradition.
5. One course in directed reading (RELIGST 199 Individual Work) may be counted towards the minor.

## Master of Arts in Religious Studies

University requirements for the M.A. are described in the "Graduate Degrees (p. 50)" section of this bulletin. The department offers a one-year terminal M.A. program. Students can also earn their M.A. degree as part of their coterminal degree program.

The M.A. program serves two groups of students:

1. those who wish to prepare for a doctoral program in Religious Studies
2. those who wish to further deepen their knowledge in an area in which they have acquired some expertise during their undergraduate work.

At this time, eligibility for admission to the master's program is restricted to current Stanford undergraduates and graduate students.

## Degree Requirements

The following requirements are in addition to the University's basic requirements (p. 50).

The student completes at least 45 units of graduate work at Stanford beyond the B.A. degree, including RELIGST 300 Theory in the Study of Religion or RELIGST 290 Majors Seminar. Students who have taken this course as part of the B.A. need not take it again.

Residence may be completed by three quarters of full-time work or the equivalent.
